CANADA WILL NOT SACRIFICE HER AUTONOMY

Borden Says We Must Have Voice in Deciding Peace or War

HIGH SOUNDING PHRASES

He Declares King Has No More Loyal Subjects Than Mr. Pelletier and the Nationalists—No Definite Statement of Policy

(Canadian Press)

London, July 11.—Hon. R. L. Borden, in his speech at the Colonial Institute last night said in part—

"We have come by the mandate of the Canadian people," said Mr. Borden, "to discuss some matters of great importance. In advance of that discussion, it is not to be expected that I should make, tonight, any announcement as to our co-operation in empire naval defence, but one or two declarations, which may be repeated with advantage."

"It is a right saying that the very breath of life, without which it cannot possibly endure. It has also seemed to us that this supremacy can only be maintained by one united navy. Our ideal is one king, one flag, one empire, and one navy powerful in the day of stress or peril."

"To vindicate the flag and maintain the empire's existence, there are two conditions before us. The first touches the possible immediate gravity of existing conditions; the other touches the more difficult and more complex question of permanent co-operation in the empire's defence on the high seas. The second of these considerations raises in concrete form the question of the future constitution and organization of the empire."

"It is sufficient for the moment to emphasize our view that any great dominion undertaking to share upon a permanent basis in the sea defence of the empire must have some voice in the policy which shapes the issues of war or peace. Canada does not propose to be merely an adjunct to the British empire. She is a nation with a proud spirit, conscious of her ability to solve them. Watchful and prudent of her resources, she is determined that they shall be developed in the interests of her people. Mindful of her opportunities and her responsibilities, she is resolved to play her full part in maintaining the unity of the empire, in promoting its influence for the cause of civilization and humanity and for peace among the nations."

Mr. Borden, referring to French Canadian loyalty, said he wished to say that there were no better, wiser, or more loyal subjects of His Majesty, than those who were represented by his colleague, Mr. Pelletier.

(Special to Times)

London, July 11.—There was much interest in Hon. R. L. Borden's speech last night at the Colonial Institute. His sustained silence since his arrival excited his declaration to be anxiously awaited. For days he has been busy with private conferences and local engagements, and has carefully avoided even indirect publicity. His speech is today discussed as an important political document. His demand for Canadian participation in deciding relations with foreign powers raises the important question.

Every daily paper notes prominently his message. The Times gives its principal place to his speech, and says that Borden, we think, need have no doubt of the spirit in which that most significant overture will be received. The people of the country will insist on some definite and immediate advance towards giving it effect.

While many tariff reformers have been making strenuous efforts to convert Borden's visit into a mere appendage to their campaign, wiser politicians of both parties have recognized that greater issues drive the tariff question into the background.

The London Liberal press has treated his visit in a wholly non-party spirit, striving to be sympathetically appreciative.

(Canadian Press)

Washington, July 11.—Great Britain's request that the amendment of the Panama Canal administration bill be held in abeyance until Mr. Ingham, the British chargé, can present a note in behalf of his government in connection with the bill, was announced by the state department with an extraordinary statement.

The request for delay has been communicated to the senate inter-oceanic canal commission. It came from the summer embassy at Kinross, Maine, late yesterday, and was sent by Mitchell Ingham, the chargé, acting by Ambassador Bryce, who is in New Zealand.

While the reasons for the request are not stated in the charge's note, there is no doubt that the British government is concerned in the clause to grant free passage through the canal to American vessels in coastwise trade, and that relating to the passage of railroad owned ships. The Canadian railways are deeply concerned in both and it is thought that some of the representations will be made in their behalf.

The canal bill is now in the senate committee with the prospects of being reported very soon, and will then go to conference with the house. Cagmetmen at both ends of the canal are expected to meet at the end of the month. The negotiations which have been in progress since the passage of the canal act, approaches completion. The negotiations are now in the hands of the legal advisers of both houses.

Carleton County Man Killed in Woodstock—Raymond Jones' Case for Criminal Assault to Be Taken up on Saturday

Believed to Be Clauses Granting Free Passage to American Vessels in Coastwise Trade and Relating to Railroad-Owned Ships

(Canadian Press)

Woodstock, N. B., July 11.—Charles Condit, a retired farmer belonging in Bedford from a second story window of the Aberdeen hotel this morning at three o'clock and was instantly killed. C. W. Wright, proprietor of the hotel, heard the sound of glass and found the body of the man on the sidewalk. His bed had been moved to the window as the night was very warm, and in trying to get air he was probably pitched head first out of the window. He was about seventy years of age and much respected.

Raymond Jones, who was arrested on Monday on charge of criminal assault on the six-year-old daughter of Judson Rideout of Bristol, will have his preliminary hearing on Saturday. Before he was captured he made a desperate attempt to escape. Armed with a knife he threatened to kill the child, but Frank Thomson, a baseball player, brought him down with a stone. Officer A. R. Foster hurried the way in an auto and saved him from rough handling by twenty-five men who were engaged in the chase. It is the most revolting crime in the history of the county and the people of the vicinity are much wrought up over it.

While the reasons for the request are not stated in the charge's note, there is no doubt that the British government is concerned in the clause to grant free passage through the canal to American vessels in coastwise trade, and that relating to the passage of railroad owned ships. The Canadian railways are deeply concerned in both and it is thought that some of the representations will be made in their behalf.

GOOD FEELING PREVAILS

Gentlemanly Conduct Marks The Olympic Games—Geo. Goulding, Canadian, Wins 10,000 Metres Walk—Heats in Hurdle Race Contested Today

(Canadian Press)

Stockholm, July 11.—This morning found the athletes from the United States still leading in points scored in the track and field games. The points were:

United States, seventy-two points; Great Britain, including the colonies, sixty-five; Sweden, fifty-seven; Germany, twenty-four; France, eighteen; Russia, including Finland, twenty; Denmark, seven; Norway, seven; Italy, three; Hungary, four; Belgium, Greece and Austria, three each; Holland, two.

The games certainly are justifying the ideals of their founder, gentlemen of all nationalities are here competing as gentlemen. There have been a few minor disputes, but they were the merest trifles. Whenever technicalities arise the general opinion of the nations is "after you, sir." This is particularly true of the Swedish hosts. Lieutenant Patton remarked last night that the sportsmanship of the Swedish officers is the finest thing imaginable. Whenever a point is given them on a technicality they absolutely refuse to accept it. As hosts and as sportsmen, the Swedes will always have a high place in the memory of everybody fortunate enough to participate in this olympic as competitor or onlooker.

GENTLEMANLY MR. BRYAN

His Act of Courtesy, Disregarding Politics, to Save Humiliation of Mrs. Taft

Helena, Mont., July 11.—A story of how William Jennings Bryan, in order not to hurt the feelings of Mrs. Taft, wife of the president, omitted from the original text of his now famous Bryan-Belmont-Morgan resolution certain caustic references to the so-called "rotten rollers" methods of the republican national convention, and to President Taft as alleged recipient of favors from the "interests" is told by Robert F. Rose, of Helena, former private secretary for Mr. Bryan, who acted as his confidential stenographer in Baltimore.

"On going to the convention hall in Baltimore," says Mr. Rose, "Mr. Bryan referred to the president. After the resolution was adopted I asked if he purposely had omitted that part of the resolution dictated to me. 'I purposely omitted it,' he said. 'Mrs. Taft occupied a box and I desired to do nothing which would subject her to humiliation.'"

New York, July 11.—Arrangements have been completed by an insurance agent here whereby the 10,000 members of the police force of New York will be insured for between \$12,000,000 and \$15,000,000. The annual premium on these policies, amounting \$150,000, will be paid by the policemen. They are regarded as uncommonly good risks, since most of them are young, and even the older men are to undergo a rigid physical examination when they entered the force.

The average policy under the contract will be \$1,000, but any policeman may make arrangements whereby he can obtain insurance for a sum equal to one or two years' salary. The limit under the agreement is \$5,000. No further medical examination is to be undergone by the policemen.

So that the insurance policy of the whole group may not lapse with the loss of a few individuals annually, the bulk insurance has been arranged in a number of squads separately. The Patrolmen's Benevolent Association, with 8,000 members; the Traffic Squad, with 200; the Sergeants' Association, with 400; and the Lieutenants' Association, with 700 members, have each undertaken their own contracts.

GARRY DEAD BODY OF STRIKER IN STREET PARADE

New York, N. Y., July 11.—A weird way to win additional sympathy was adopted by striking steamship firemen here yesterday when they virtually made a dead man a leader in their cause. The body of Andreas Rodriguez, a striker who was shot to death in a riot on Monday night, was taken from the hearse and borne on the shoulders of relays of men who carried it for more than two miles through the water front section. The empty hearse led the procession and following the bearers of the casket there were eighty empty carriages, the motorcars having refused to ride. Policeman Alexander Bennett was perhaps fatally injured while trying to disperse a crowd of strikers in Market street yesterday. He was hit on the head by a blunt instrument.

DIDN'T WANT ANY

Farmer Jones was on a visit to his nephew in London, and the two went to a cafe in Regent street for dinner. They had given the order and were waiting for it to be brought, when the younger man, who had been glancing at a menu card that lay on the table, said:

"By the way, uncle, did you ever have omelette-suppé meringuée?"

"No," replied Uncle Jones, after a few moments' mental struggle with the question, "and I don't want any. I'd rather have fried liver and bacon any day."

OF LOCAL INTEREST

St. John is proud of one show at the circus and it is the Hippodrome. One of the big acts of the show is the Willard Temple of Music and the greatest part of the act is the musical saw-mill and the interesting part is that the saws used are a product of the noted Simonds Canada Saw Company of St. John, N. B., Montreal, Que., and Vancouver, B. C. The Willard family have played in every city of prominence in the United States, Canada and Mexico, and on August 18th they sail for London where they open a two-year contract to tour the world. The Willard girls will visit the Simonds plant tomorrow, where they will see how Simonds saws are made. Each girl was today presented with a small gold circular saw as a mark of courtesy of the Simonds management. Every citizen of St. John should try to see this musical saw-mill. It is really wonderful.

DEATH OF MRS. HAMMOND. The death of Mrs. Emma Hammond, wife of Henry S. Hammond, of the City Market, occurred this morning as a result of heart trouble, from which she had been suffering for some time. Mrs. Hammond, who was sixty-one years of age, was formerly Miss Emma Burt, of Fredericton. Her husband's death is survived by one step-daughter, Mrs. W. A. Finley of Philadelphia, and one step-son, Frank, of this city. Her death occurred at her home 14 Germain street.

DIDN'T SURPRISE HIM. William Shakespeare was a dramatist some four hundred years ago. Today a namesake of his is a jobbing gardener in a London suburb.

One day, as W. S. Up-to-date was chipping up the grass with his lawnmower, his employer for the day, a newcomer, asked him:

"By the way, gardener, I have never heard your surname. What is it?"

"Shakespeare, sir," was the reply; "and my first name's William."

"A broad smile stole over the other's face."

"What, William Shakespeare?" he exclaimed jestingly. "I seem to have heard that name before."

"Dare say ye have, sir," replied the gardener casually. "I've worked about these parts for a good twenty year or more."

THE FORWARD MOVEMENT An evidence of progress in New Brunswick which should not be overlooked by visitors is the work of railway construction. Within recent years the International Railway has been thrown across the province from Campbellton to the Maine border, and it is said to be an important factor in building up that portion of the province.

The construction of the Valley Railway is of course the most important railway work undertaken in the province for very many years. It involves an expenditure of some \$9,000,000, and will open up some of the richest farming territory in the province. Not only so, but when extended to Grand Falls it will give through connection with the west and will be of great advantage to the people.

The Gibson & Minto Railway, which only a branch, will bring the coal fields of Queens County into connection with the Canadian Pacific Railway system, and will lead to an immediate and large increase in the mining of coal in Queens County. It is stated that this road will be completed by the end of the present year.

The Intercolonial Railway, which was so long a bone of contention, because of its failure to provide satisfactory financial returns, is now producing a surplus and is steadily increasing its business. It is in a favorable position to begin taking over the branch railways in the province, and this policy has been endorsed by the country. With the branch lines provided with better equipment and giving the people only one freight to pay instead of two, there should be an increase of traffic and a growth in the sections traversed.

In connection with the deposits of oil and natural gas in Albert County, reference should be made to the enormous deposits of valuable oil shales which are to be developed on a very extensive scale by a company in which Sir William MacKenzie is interested. Engineers are now in that locality making surveys, and it is stated that the beginning of development work will not long be delayed. This enterprise is expected to lead up to the development of a very large and profitable industry, as authoritative tests have shown that these shales are better producers than the oil shales of Scotland.

A feature of provincial growth during the past few years has been the growth of the towns. Moncton especially has had a steady growth in population, with a considerable amount of building each year, and the first six months of the present year show an increase over the like period last year. The town of Campbellton was wiped out by fire two years ago, but there is a new town today much better in all respects than the old, so great was the confidence of the people in its future.

Places like Sussex have shown substantial and continuous improvement, and the construction of the Valley Railway is expected to be of great benefit to Fredericton, Woodstock and other towns along the line. In this connection reference should be made to the new town of Chatham near St. Andrews, where a very large saw-mill factory is nearing completion, with boarding houses, cottages and other buildings for the convenience of the people. A large village has grown up around the iron mines in Gloucester, and as the resources of the province are developed there will be further urban growth in various parts.

With regard to the development of agriculture to which reference was made yesterday it should not be overlooked that the Canadian Pacific Railway has purchased a large farm near Fredericton Junction to be conducted as an illustration farm, which will be of great benefit as an object lesson to farmers in general. The Dominion government is also to establish an experimental farm in the province and will also give other encouragement to the work of agriculture along scientific lines.

From whatever standpoint, therefore, the future of the province is regarded it is clear that the opportunities for success are many and varied. The great need of course is capital to develop resources, and if a desirable class of settlers for farm lands. The indications point to better things in both these directions and the general outlook for the province is a bright one.

THE "HUCKSTER" POLICY

The flag-fappers will surely be horrified by the statement of Mr. Borden in London with reference to the navy. He declared that Canada must have a voice in shaping the defence of the empire. The flag-fappers wanted no voice. They intimated that it would be shameful to discuss terms with the dear old mother country. Canada, they said, must bear her share in the defence of the Empire, without attaching any strings to the gift. Money or Dreadnoughts or both were offered to the "weary Titans" without any reservation whatever. But Mr. Borden now says Canada is not prepared to do anything of the sort. She must know what is to be done with the money or the Dreadnoughts.

He is engaged in wood-working in Boston. While here he was hunted down by his old school chum, Captain John Wren. The two old boys had a pleasant time together in recalling school-boy days and incidents.

A Martyr to Principle

(Chicago Tribune)

At the meeting of the Illinois Bar Association at the Hotel La Salle Judge Theodore Brentano of the superior court told of a case tried before him several years ago at which the late Jim Evans, a widely known and universally liked newspaper writer, was a witness. Evans had given important evidence and the opposing attorney was doing his best to shake his testimony.

He had made Evans go back over his past life and was questioning him regarding the different positions he had held. Jim was telling of a period of his early newspaper days when he had held many places and none for long.

"Then where did you go?" thundered the lawyer after Evans had told of working a few days in the southwest.

"To Dallas, Texas. Worked two weeks," replied Evans.

"Why did you change?" asked the lawyer.

"My boss and I could not agree upon

a question of national policy," was the answer.

"Then where did you go?"

"To New Orleans. Left there in a week."

"And what was the reason this time?"

"From the attorney," answered Evans with a smile.

"Same thing," answered Evans with a smile. "The proprietor and I found that we did not agree upon a political question of national importance."

"The same answer was given as Evans told of numerous other places he had taken and given up. The attorney finally gave up his attempt to break down Evans with the remark: "You must be a hard man to get along with if you have such set political ideas."

A few days after the case had been decided Judge Brentano met Evans on the street.

"Say, Jim," he asked, "what was that question of national importance that cost you so many jobs? What did you and your boss disagree over?"

"Prohibition," answered Evans with a smile.

SWAT THE FLY

(St. Andrew's Beacon)

Good progress is being made with the canning plant at Chatham, also the boarding houses.

The stand-pipe which is to provide water for the new sardine town, has been erected alongside the track. It will supply the purest of fresh water by gravity for the various buildings.

The help problem is to be solved by the importation of girls from Norway and elsewhere. It is expected that 120 girls will leave Norway about the first of August. These girls are of a superior type and are accustomed to the handling of fish. In addition to local help, it is likely that men and women will be brought here from Nova Scotia fishing villages.

The company has already booked large orders for sardines, clams and other products of sea and shore that it proposes canning.

HE HAD REASONS

"Jimson isn't married, is he?" asked Smythe.

"No," replied Blythe; "he's much too clever."

"How do you make that out?"

"Well, he's everything by Euclid, and he says that any two things that are equal to the same thing are equal to one another."

"I don't see what that's got to do with it," said Smythe, puzzled.

"Well, I'm not quite clear about it myself," remarked Blythe; "but Jimson says that a maid is a spinster, and a spinster, therefore, a maid must be a spinster, and he won't marry an insect!"

Three in One Evening is The Scheme of Frohman In London

Shakespeare as Never Before is Dream of Granville Barker—Tree's Plans—Constance Calverly May Be Seen on the Operatic Stage

(Times' Special Correspondence) London, June 28.—I have rarely seen Charles Frohman more excited or better pleased with himself than as he sat in his room at the Savoy today talking about his sensational scheme for the union of J. M. Barrie, Sir Arthur Pinero and Bernard Shaw in the same programme. As he himself fully admits, sentiment played a considerable part in the proceedings. With Shaw, Frohman's relations in the past have been comparatively slight, but both Barrie and Pinero owe much to him, just as he is enormously indebted to them. You may take it that, even had he not craved more largely upon their indulgence he would not have met with a refusal.

One would like to know how the question of fees has been settled; but upon that point Frohman was silent. Probably he had only to suggest conditions in order to have them accepted. And now we shall all look forward to the end of September and the re-opening of the Duke of York's in order to discover whether or not Pinero, Barrie and Shaw in combination can give us a better entertainment than each of these three dramatists separately. Manifestly there must be something of a spirit of rivalry in the proceedings but it will be a kindly, courteous and tolerant spirit. It will be particularly interesting to see to which of the trio the public allots highest honors.

In the coming season, Granville Barker is to give us a series of revivals of Shakespeare's plays. He will begin with "Macbeth" and "A Midsummer Night's Dream" and will then go on to "The Merchant of Venice" and "The Taming of the Shrew."

Years ago he came by this conviction and he has cherished it ever since. "Whether the experiment succeeds or not," he said the other day, "it's going to be great fun for us all."

That is how Barker looks at things. Although he is a most serious minded person when he takes pen in hand, he is like a schoolboy out for a holiday in the theatre. The Kingsway, where he will revive "The Voyage Inheritance" in September, is, of course, much too small for him to put his Shakespearean ideas into practice, and the chances are that he will take the Queen's Theatre as his theatre.

Tree has at last officially announced his intention of doing Louis N. Parker's historical play "Drake" at His Majesty's next September.

George, who has gone to Prince Edward Island to spend the summer. The Misses Helen and Josephine Haney, of Randolph, Mass., are visiting the city.

Mr. Bloggs had just obliged with the touching ballad, "The Love That Makes the World Go Round" and Master Bloggs seized the opportunity to sneak behind a screen with father's pipe.

Shortly afterwards it was observed that Willie wasn't well. His face was pallid, and his eyes stood out. Cried Mrs. Bloggs: "Robinson! No. How was the old man affected?"

Jones: "Oh, he took on dreadfully at first; then he found out that everyone knew he had bought the girl's railway ticket."

A VALUABLE ASSET.

A man had failed in business and at a meeting of the creditors there was a few that had lost in the crash. The president of the meeting asked the man who had failed, "Who owns that fine house you live in?" "Oh, that," the man answered, "belongs to my wife." "And who owns that business block?" "Oh, my own owns that." "And who owns that farm just outside the city limits?" "That belongs to my daughters." "Whereupon," he added, "Gentlemen, all I have to offer is my body, and all I have to say is that you will have to cut it up in bits. This is all I can do." The Jew to this time had remained silent, but at this statement he looked up and said, "Well, gentlemen, if you don't dot, I speak right now for the man's call!"

WHY HE LAUGHED.

An eastern potentate was wont to exact offerings in kind from those who came to do him homage. One day a man arrived bringing a basket of bananas. Portions of the gift being one of fruit only, the prince commanded that the bananas should be thrust down the donor's throat. As the latter was being led away to smile, and the prince had him brought back, and asked him why he smiled. "Nothing, O Prince," he replied; "only thy servant's wife's mother is now approaching, and she brings a basket of pineapples."

RECENT DEATHS

At the home of Charles R. Gunter, Fredericton, yesterday, his father, Charles Gunter, died, aged eighty-seven years. He is survived by his wife, one son, Charles, and four daughters, Mrs. Wood, Boston; Mrs. A. Hoyt, Prince William; Mrs. George Lawrence, Dumfries, and Mrs. Albert Kilburn, Matamoras.

Suffering from the same malady which caused her husband's death a short time ago, Mrs. E. DeWolfe, of St. Andrews, passed away at midnight on Tuesday. She was the eldest daughter of Captain and Mrs. Wm. Clark, and is survived by one son, also her parents, three sisters and one brother.

The friends of Captain George F. Ryder, of St. Stephen, sympathize with him in the death of his wife, which took place last week. Captain Ryder and two of his sons were with him at Camp Sussex when the sad news reached them. Mrs. Ryder is survived by her husband and thirteen children.

ATHLETES OF STATES
ARE STILL AHEAD

(Continued from page 1.)

This Olympic is proving that Great Britain and the United States must waive their traditional monopoly of field sports since other nationalities have set themselves seriously to demonstrate that they are possessed of as much muscle and endurance as the pioneers in field athletics and that the only difference is that they came into the game later. But they are working hard and successfully to catch up.

Goulding's Victory

George Goulding, Canada's premier walker, defeated the world's crack pedestrians this morning, capturing the 10,000 metres walk. Goulding won a deserved victory. Nine competitors started and Goulding took the lead immediately and was engaged in a hard race with E. J. Webb of England, from the beginning. F. Allman, who secured third place, and A. Rasmussen, Denmark, who was fourth, were the only other men left two miles before the finish, C. C. St. Norman, South Africa; W. J. Palmer, England, and W. G. Yates, England, having fallen by the way. The only representative of the United States was Frederick H. Keiser, and the pace proved too fast for him, so he dropped out after doing two miles.

At the beginning of the last mile the Canadian led the Englishman by three yards, and the Italian was 200 yards behind Webb. Goulding had increased his lead to fifty yards by the beginning of the last lap, and continued to increase it till he crossed the tape eighty yards ahead. After the race a small delegation of Canadians among the spectators amused the crowd by shouting a complicated yell.

The Results

One hundred and ten metres hurdles, first heat, George A. Chaborn, United States, first; Karoly Solymar, Hungary, second; time 18.3 seconds.

THAW PLANS DIVORCE IF HE IS FREED

Then Trip to Europe, Says Doctor on Witness Stand

NO LOVE FOR EVELYN

Alienist Testifies That Slayer of Stanford White is Sane - A Strong Witness in Favor of His Release

New York, July 11—The motive in the life of Harry K. Thaw, secondary, of course, to his efforts to secure his release from Mattewan, is the obtaining of a divorce from his wife, Evelyn.

This was revealed on the witness stand at White Plains by Doctor Adolph Meyer, professor of psychiatry at Johns Hopkins University in Baltimore.

Doctor Meyer, who is the first of three experts to be called by Clarence J. Shearn, told Justice Keogh that Thaw said to him recently he was eager to secure a divorce, close up his business affairs in Pittsburgh and sail for a protracted stay abroad.

In connection with Doctor Meyer's testimony, Mr. Shearn secured the introduction into the record of a document which will, it is believed, prove highly important to Thaw in his battle for liberty.

It was a written report made to Thaw by a detective agency concerning members of the "Monk" Eastman gang, which, Thaw testified, had been placed on his trail by Stanford White.

Mr. Jerome and his chief alienist—Doctors MacDonald and Flint—hold that Thaw's belief that he was being pursued by the "Monk" Eastman gang is but one of the young man's delusions.

Mr. Jerome fought hard to have the vital document excluded, but Justice Keogh admitted it.

His Disbelief in Her Doctor Meyer is a little man, bearded, with piercing eyes. He speaks with a decided German accent.

He summarized the examinations he made of Thaw in March and on June 7 last. On the latter occasion the examination took place in the county jail at White Plains.

"Mr. Thaw told me in speaking of his future plans," said the doctor, "that he should go to Pittsburgh after his release. He said he would attend to his business there and secure a divorce from his wife.

He said he preferred to secure the divorce in Pennsylvania rather than in New York.

"He declared that his wife had behaved very badly toward him, and that her appearance had changed greatly too. He said that before 1907 Evelyn was not only beautiful, but very nice in every way. She had always been truthful toward him, but her testimony as to an alleged threat by him to kill her during a visit she paid him in Mattewan was not true.

"I asked Mr. Thaw why he did not get an annulment of his marriage. He replied that it was not fair to her because of a difficulty in securing a settlement for her that way. I asked him why he would do it if he met his wife with another man. He said he would retain his self-control and would betake himself elsewhere.

Believes Public With Him Thaw told Doctor Meyer, the latter says, that he does not believe he will have to combat public sentiment in the event of his release. He said his agents, at the direction of Mr. Shearn, had interviewed hundreds of persons in all walks of life.

Sentiment strongly favored him, he said. "Thaw told me that the greatest mistake of his life occurred on the night of the killing of White," added Doctor Meyer. "He said that he would occur again, since the factor (his wife) over which the shooting occurred, was no longer a factor."

Thaw, Doctor Meyer testified, answered any number of questions regarding historical and current events, and showed evidence of reading and thought.

PRESS AGENT BRINGS SUIT AGAINST KUBELIK

Says Violinist Failed to Attend Concert Arranged to Boost a "Prodigy"

London, July 11—Jan Kubelik, the violinist, is defendant in the King's Bench Division in a suit for damages for alleged breach of agreement, brought by Thomas Dann, a press agent. Dann says he was to get 10 per cent. of the receipts of a concert to be given in aid of the musical education of David Paget, a boy, which concert Kubelik had agreed to attend and thereby add to the box office receipts.

The evidence showed that various steps had been taken to advertise the concert, and that a certain letter which was submitted to Kubelik before it was sent to the newspapers referred to the boy as "a prodigy, yet so small." It was also stated that the boy had played before the Kaiser's Council for Dann said that the concert was to be given in Albert Hall, and that it was expected \$30,000 would be realized.

When placed on the witness stand Dann said he and Kubelik had discussed how best to advertise a forthcoming concert, and that Kubelik wanted him to send notices to the newspapers saying that at the concert he would play on a new violin, which had cost him 2,000 guineas, but for which he had refused to take 10,000 guineas.

"As I understand it," said Mr. Justice Darling, "the British public particularly likes a famous violinist or singer who is charitable."

"The great thing in this world," Dann said, "is sentiment."

On cross-examination Dann said the concert was intended primarily to advertise Kubelik. The witness emphasized the importance of advertising, and said that Kubelik gained much valuable publicity through his romantic marriage, and also through the announcement of the birth of his first child.

BILLY AT THE OPERA HOUSE

One of the Funniest Comedies of the Stage—Matinee This Afternoon.

"Billy" will be the attraction at the Opera House for the balance of the week commencing with a holiday matinee this afternoon at 2.30. The King-Lynch players have made an enviable reputation during their stay in St. John, and have proven a sterling attraction at the Opera House during their short run.

"Billy" is a farce comedy that had a year's run at Daly's Theatre in New York City, and the original scenery, as used during that highly successful engagement, will be seen here. Miss Rose King and Edward D. Lynch will be seen in the leading roles, supported by the entire strength of the company. The matinee this afternoon will commence at 2.30 o'clock, with prices twenty-five cents for adults and 11 cents for children. "Billy" will be played each evening during the balance of the week.

Chinese Are Captured—Had Supply of Opium

Prescott, Ont., July 11—Two Chinese were discovered at Albany, N. Y., by immigration inspectors. G. Conway, of Ogdenburg, while attempting to enter the United States, concealed in a car of hay baled from Burke to New York.

They were supplied with water and provisions to last them a week or more beside a plentiful supply of opium in its forms, powder, pills, liquid and paste. The inspector took them to Rouse's Point, where they will be held to await the action of the immigration department.

RECENT DEATHS

The funeral of the late William O. Stewart, of Montreal, took place at Lakeside yesterday afternoon. The service at St. Paul's Parish church, Lakeside, was conducted by Rev. A. H. Crowfoot, rector and Rev. Mithridate Walker, and the service at the graveside was taken by Rev. J. W. B. Stewart, a son of the deceased.

There was a large attendance of relatives and friends and there were many floral tributes of a beautiful character. The Montreal Star, in referring to the death of Mr. Stewart, said: "William O. Stewart, a member of an old St. John (N. B.) Empire Loyalist family, and a retired merchant of that city, where he was born, died on Saturday afternoon at his home, 70 Cedar avenue, Montreal. He was eighty-three years of age."

Mr. Stewart had been living in Montreal for the past three years. In addition to his widow—formerly Miss Margaret S. McAvity, of St. John (N. B.)—he leaves three sons and three daughters. The sons are Mr. T. M. Stewart, 7 Cedar avenue; J. P. L. Stewart, Montreal; and Rev. J. W. B. Stewart, Philadelphia. The daughters are Misses Isabel and Louise, of Montreal, and Miss Margaret, of Calgary.

The funeral of Miss Estie M. Blair took place yesterday afternoon from her late residence, 242 City road. Rev. J. H. Anderson conducted the funeral services, and interment was in Fernhill.

Elwood Giberson created a sensation in Perth yesterday when he declared that he had found the entrance to the mine of his great-grandfather, long ago lost, and produced a pocketful of nuggets to support his claims. About sixty years ago Giberson found nuggets in the Tobique river which netted him about \$5,000.

CITY LABORERS OF OTTAWA ON STRIKE

Ottawa, July 11—About 1,000 corporation laborers are out of work as the result of refusal to accept a compromise increase in wages offered by the city. All civic works are closed down.

The men have been getting twenty-two cents an hour. Yesterday they went on strike for twenty-five, and the city offered to compromise at twenty-four. Some started work, but were stopped by their leaders, and for a time this afternoon the reserves of the police were kept on duty. The strike may be settled today.

The time was left in the hands of the executive. The executive met and appointed the following officers: National Assistant Secretary, H. C. Ricker, Bristol (N. B.); National Marshal, A. C. M. Lawson, Fredericton; National Chaplain, Rev. Thos. Marshall, Sackville; National Deputy Marshal, Mrs. Geo. Lloyd, Dover (N. B.); National Guard, Miss Maud Ralston, Pictou; National Sentinel, R. H. Ward, Eureka (N. S.); National Messenger, L. R. Heberington, Newcastle.

The officers were installed by W. H. Lambly, oldest grand chief templar present. In the evening a reception was tendered the National and Grand Lodge delegates. The chair was occupied by Rev. W. G. Lane, P. I. C. T., who delivered an address of welcome on behalf of the Moncton Good Templars. Mrs. J. P. Weir extended a welcome from the W. C. T. U. Mayor Robinson extended greeting on behalf of the city, and Rev. R. H. Staver, on behalf of the Sons of Temperance. Rev.

Thomas Keith, postal clerk at Halifax, was hurt, as was Archibald Kinney, a commercial traveler, of Bridgetown, N. S. The members of the Social baseball team, returning from Chatham, were unhurt, as were Rev. Mr. Vernon and Halifax people traveling on the train. The passengers in the first and second class cars received a shaking up. The money loss is estimated at \$50,000.

Some say that the accident was caused by the mechanism on parts of the engine giving way, while others assert that the train was affected by the heat. There were about eighty people on the train.

MORE CITIZENS PAID TAXES More than half a million dollars in taxes have been received by the city chamberlain during the last few days. The period during which the discount of five per cent. was allowed expiring last evening. The total assessment for the year was \$600,729, and of this amount \$357,285 has been paid. Although the period was three days shorter than last year, 364 people took advantage of the discount, and \$2,901 more than last year was paid in. The total number of citizens who paid their taxes was 7,298.

Noted Indian Runner and Wife Here Today on the Way to Amherst

Arriving on the Montreal train at noon today were Mr. and Mrs. Thomas Longboat from Toronto, passing through to Windsor, N. Although he has been ill for a time and has had an operation performed upon him for nose trouble, Longboat is looking in good trim, and says he feels quite confident as to his chances tomorrow. Mrs. Longboat said she might remain in the maritime provinces for a fortnight or more on a pleasure trip and it was possible that they might come back to St. John in a few days.

Longboat said he would like to run in this city if a match could be arranged between him and some other of his class. He believed that Woods, the English champion, could be brought here for a race with him, and possibly Woods and Cameron and himself could make an interesting "go" for local sports. If it were arranged he would like to see it next week "Tom" and his wife attracted much attention about the depot.

LETTER FROM REGINA

F. S. West Gets Word From Son—Pathetic Scenes Among Sufferers

Frank S. West, purchasing agent of the Transcontinental Railway here, has received from his son Wendell G. West, a government official, a letter which was wrought by the cyclone which swept Regina. Mr. West is connected with the G. F. P. at Regina. He visited Regina on the day following the disaster. In his letter he tells of the wrecked homes and being buildings, the pathetic scenes which he found poor families searching the ruins of their homes for what little of value was left, and of smoking stoves which were open fires in the streets.

Among the freaks of the storm he mentions the destruction of the C. P. R. elevator which was carried forty feet and left on the main line of the railway, spilling thousands of bushels of grain in all directions. He also sent some very striking photographs showing the work of destruction in detail in various parts of the city.

STRAWBERRY RUSH OVER

A Disappointment on Arrival of The River Steamers Yesterday

Keen disappointment was expressed by grocers in Indiantown yesterday afternoon on the arrival of the steamers Champlain and D. J. Purdy when it was seen that the heavy stock of strawberries which was thought would be brought down, had not materialized. The Champlain had only a little more than ninety crates aboard, while the Purdy had but a few more than 300. It had been thought that the total arrivals would be in the vicinity of 700 crates, the usual large cargo brought down on what is generally known as the river wharves as "berry-day," when the berries are most plentiful and cheapest.

The long period of heat has had its effect upon the crop of berries. While the quality brought down thus far has been well up to the average, the quantity has been only fair and the big run is now over. Many of the berries have been burnt and blackened in the cultivated patches. The prices took a sudden and unexpected rise yesterday going from six to eight and nine cents in short order, and they will be no cheaper now.
