FLAG OF TURKEY FLIES OVER TRIPOLI

Report Also Says Army Has Invaded European Turkey While Sultan's Fleet Has Been Beaten in First Seafight of War

"Boldness Wins" is Declared the Policy of Italy, and She is Taking the Aggressive and is Trying to Bottle up Turkish Fleet in the Dardanelles --Mahomedan Tribesmen Arising in Holy War--Turkey Appeals to The Powers

INVESTIGATE SOME MATTERS ABOUT FERRY

Some Questions Raised at Meeting This Morning, and It is Thought Wiser to Hold Inquiry

A private session of the ferry committee is to be held on Wednesday afternoon next at 3 o'clock to enquire into the workings of the department. This was decided upon this morning at a meeting of the committee, at which Ald. Smith presided. Those present were Ald. Kierstead, Ald. Elliott, Mayor Frink, Mr. Wardrop, and Capt. Waring.

Mr. Waring replied that he had endeavored faithfully to serve the city in his capacity since being appointed two years ago. He had at different times extended the committee an invitation to inspect the service, but they had never done so.

THE WEATHER Forecast for today: North and north-west gales; clearing tonight. Sunday, moderate westerly winds, fair and cold.

TURKEY APPEALS TO POWERS Constantinople, Sept. 30.—The Turkish government today addressed another appeal to the powers expressing pain and regret at Italy's action in declaring war yesterday and saying that there is still time to prevent the disastrous and evil effects of a war which nothing in the attitude of the Turkish empire justified.

New York, Sept. 30.—A special cable from Rome, to the Hearst papers, this morning, says:—The Italian flag today flies over Tripoli. An Italian army has invaded European Turkey, and the Italian navy has won the first battle of the Turco-Italian war.

This is the sum of the first twenty-four hours of hostilities between the two powers. Reports from Salonika indicated that another naval battle is imminent in the Adriatic sea.

An unconfirmed report says hundreds of Turkish soldiers lost their lives in the wrecking of the Turkish transports by Italian warships off Niopolis and Prevesa, two cities three miles distant from each other in the vilayet of Janina, southern Albania.

The Italian Plans London, Sept. 30.—According to Italian sources the government plans to land 40,000 men in Tripoli by October 7. No bombardment will be attempted, unless the property of Italians or other foreigners is endangered. It is understood that the Italian ministers have elaborated a scheme for the administration of Tripoli, with the Duke of the Abruzzi as the first governor, and among the first acts of the new government will be the abolition of military taxes now imposed upon the Tripolitans.

Orders have been sent by wireless to the Italians to establish a base about Kun Kahi and Sedil Bah at the extreme western end of the Dardanelles.

Italy is rushing more troops into Tripoli where the fanatical Mahomedan tribesmen are rising up in a holy war against the Christians. General Canova, commander in chief of the Italian expeditionary force in Tripoli, has been ordered to give battle to Bedouins and other tribesmen if they attempt to invade the city.

An Italian cruiser has been dispatched to intercept the Turkish transports bearing Bekirpasha by the new governor-general of Tripoli. He will either be turned back towards Constantinople or will be taken prisoner.

Rome is in a state of turmoil. The enthusiasm of the people over the news of victory broke all bounds. But few Roman slept last night and today, the excitement controls a fine army, approaching 1,000,000

REV. MR. MARSHALL MAKES REPORT ON MARITIME PROVINCES

Methodist Mission Matters at Toronto Meeting—Membership Rate Not Increasing

Toronto, Ont., Sept. 30.—Reporting on the state of missions at the closing session of the Methodist mission board yesterday, Rev. F. Marshall, for the maritime provinces, declared that they were facing a diminishing population, but he maintained that the success of the work was won by the men from the east.

WHAT THEY ARE FIGHTING ABOUT

The Turkish fleet will soon arrive. Turkey's military strength in Tripoli appears to be entirely inadequate to meet the storm. Two regiments of cavalry, one infantry division and six batteries of artillery at the most, with a few fortresses. Troops and engineers would furnish a maximum of 8,000 fighting men, of which about two-thirds are believed to be in Tripoli. Little or no progress has been made since the revolution in the organization of a local militia force. The attitude of the masses in Constantinople, if dependent on the Turkish fleet, is still kept in a state of uncertainty.

Among the educated classes, especially the young Turks, resentment against Italy's aggression is strong, and the ministers are severely censured for their neglect to take the most obvious military and diplomatic precautions in the face of recent warnings.

What Paris Hears Paris, Sept. 30.—The Matin learns from a high official of Italy that if the Turkish government does not oppose the occupation of Tripoli, Italy will be ready to give Turkey the fullest satisfaction both moral and material.

The Turkish government, says the despatch, has entire confidence in its ability to protect Italian subjects in the interior, especially the Italian workmen employed on the Taurus sections of the Bagdad railway.

Tripos, Sept. 30.—The foreigners have many refugees in the consulate. The British consulate is crowded to its capacity with women and children. The native conscript reservists have been called out for service, and the Turks are purchasing all possible arms and securing all possible supplies.

SIR WILFRID LAURIER

"For seven years it has been my privilege to discuss matters of state with Sir Wilfrid Laurier. I have never, during that long period, heard as much as one single expression of vindictive annoyance or of selfish ambition from the lips of Sir Wilfrid and he will continue as leader of His Majesty's loyal opposition to be the same great servant of the state that he has been for fifteen years its prime minister. Although I am not obviously so well acquainted with Mr. Borden, I know enough of him to believe that he will continue the high traditions of Sir Wilfrid."—Earl Grey at Ottawa.

W. H. THORNE IS TALKED OF NOW AS GOVERNOR

Latest Slate Has This And The Selection of Fowler as The Minister From New Brunswick

George W. Fowler as the New Brunswick representative in the Borden cabinet and W. H. Thorne for lieutenant governor of this province, is the most recent slate. The St. John and Fowler contingents reported to have joined forces and with prospects for success. A large and representative group of Fowler backers were in the city yesterday in conference with Mr. Thorne and other prominent Conservatives. They say they have the support of the majority of the elected and defeated Conservative candidates in New Brunswick for their man, it is said that Mr. Borden has been made aware of this fact.

For the latter it is said that he has assurance of a satisfactory recognition. This as a whole for the St. John Conservatives they are reported to be satisfied with the selection of Mr. Thorne as lieutenant governor of New Brunswick. The Fowler men including the members elect for Kings, Albert, Mr. Hazen and Dr. Daniel may stand aside.

CONTROL OF COTTON MILLS AGAIN HELD BY DIRECTORS HERE

Announcement to This Effect Made Today With Word of Cheer in The Outlook

The matter of the transfer of the control of the Cornwall and York cotton mills to Upper Canadian interests, has caused considerable discussion, and in view of this fact the following authorized statement, given out this morning, will be read with interest.

The St. John directors of the mills are again in the control of the property. While all the cotton mills of Canada have had two or three years of unprecedented bad business, the situation of cotton is now good, and business on a paying basis, and the directors look forward to a very profitable trade in the coming year.

The New Lord of St. Germans—Duke of Connaught May Spend Part of Each Year in England—Queen Mary's Attendants

(Copyright, 1911, by the Brentwood Company.) Lord St. Germans, through his father's death has just succeeded to the family honors as sixth earl, attained his majority last June, and has been serving since as a subaltern in the 2nd Dragoon Regiment, under the name of Lord Elliot, a title by which he has been known since the suicide of his elder brother, Edward, an officer of the Coldstream Guards, two years ago.

The picture she 'got him to take down' was a little photograph of a boyhood sweetheart. Six years before he even met the woman who is now his wife, that sweetheart was married. But, in memory of his happy childhood, he has always kept that little picture of his first love.

She is just as apt to find it in success. I know a woman whose husband is a great enthusiast on lawn tennis. One of his wife's friends is also very fond of this sport.

A HYMN FOR THE HARVEST

Musical score for 'A HYMN FOR THE HARVEST' by F. L. H. Sims, including lyrics and musical notation.

Now we raise our grateful voices giving thanks to God above, While replenished earth rejoices in the Father's bounteous love; Hallelujah! Hallelujah! Glory be to God above.

Precious seed borne forth with weeping, dying lonely in the earth, Into life and fruitage leaping conquers death by second birth; Joyous reaping, joyous reaping— Golden sheaves of richest worth.

Heed my soul! this Heavenly preaching, selfish gold is worthless dross, Learn what flowers and fruits are teaching, Life from Death and gain from loss; Love ne'er faileth, Love ne'er faileth, Learn to glory in the Cross!

### WOMAN TIPPED PORTER TO GET INFORMATION FROM HIM ABOUT DAVID RUSSELL

(Montreal, Sept. 30.—Canadian Press)—That the woman who had registered at the Windsor Hotel as J. P. Patterson's wife had tipped a porter at the Windsor Hotel for information concerning the whereabouts of David Russell on the afternoon of their arrival in the city and just previous to the interview she had with the millionaire financier in the sitting room of the hotel, were the interesting revelations this morning in the suit which the financier is bringing against the Princeton Detective Agency for \$200,000.

Robert C. Smith, K.C., who has been mentioned in connection with the case, said that he was advised in an official capacity to go to Pittsburgh and investigate the character of the two people who posed as man and wife, and who Mr. Russell thought were endeavoring to work a badger game on the millionaire.

James Robinson, M.P.P., of Northumberland county, N. B., said that he had occasion to discuss many financial affairs with Mr. Russell during the month of October, when the alleged persecutions started and he always found him perfectly lucid and rational.

John A. Knight, a door porter at the Windsor, said he saw Mrs. Allan on October 16, lingering around the door of Mr. Russell's office in the Windsor Hotel. She finally tipped him a \$1.

"What was that for," said Mr. Campbell, who was conducting the plaintiff's case.

Mr. Geoffrey objected to the question Judge Archer settled the dispute by asking the question in a form that was acceptable to both and Mr. Knight replied that he had asked for information concerning Mr. Russell.

In the meantime, Mr. Knight swore, Patterson had been in the corridor of the Windsor Hotel from 2 p. m. till 4 o'clock. He paced up and down from the main entrance to the rear entrance, James Robinson, M.P.P., of Northumberland county, N. B., said that he had occasion to discuss many financial affairs with Mr. Russell during the month of October, when the alleged persecutions started and he always found him perfectly lucid and rational.

The Evening Times and Star

ST. JOHN, N. B., SEPTEMBER 30, 1911.

The St. John Evening Times is printed at 27 and 29 Caspary Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Canadian Stock Companies Act.

THE EVENING TIMES THE DAILY TELEGRAPH

New Brunswick's Independent newspapers. These papers advocate British connection, honesty in public life, measures for the material progress and moral advancement of our great Dominion.

THE NEW CABINET

An interesting fact in connection with Mr. Borden's cabinet making is that it appears to be getting along very well without summoning anybody from New Brunswick to lend assistance.

THE WORKING VOCABULARY

The English language is enormously wealthy in expressive words, yet the statement is repeated again and again by educators and we suppose believed by the public, that the vocabulary of that people is limited to a few hundred words.

Prof. Brown of Wabash College submits some data to show that the real size of the working vocabulary is much larger than traditional estimates. He reports that six representative freshmen in the college last year attempted to record their own vocabularies, and that after he had sifted the words in each list to avoid all possible repetitions, the total ranged from 2,972 to 4,460 words.

adians will henceforth know who is their best friend and who is their wisest guide, whether Laurier and the Liberal party, the party of conciliation and harmony, or Bourassa and his Nationalist group, the group of intolerance and sectarianism.

The advocates of slaughter house reform in St. John will find encouragement in the annual report of Dr. J. C. Rutherford, Dominion veterinary general and live stock commissioner.

During the recent election campaign we were told by Mr. Sifton and others that reciprocity would destroy the winter port trade.

SIXTY YEARS OF PROHIBITION IN MAINE

History of the Anti-Liquor Legislation and the Constitutional Provision Which Has Just Been Voted Out

Prohibition in Maine is 60 years old. This is the first time in 27 years that liquor laws have been called on to vote on the subject. Big Gen. Neal Dow was the father of the movement. It was he who in 1851 drafted the first severe prohibitory law of the state.

**The Tenderfoot Farmer**

It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations.

It's only a "tenderfoot" farmer that would try such an experiment with a cow. But many a farmer feeds himself regardless of digestion and nutrition. He might as well eat shavings for all the good he gets out of his food. The result is that the stomach grows "weak" the action of the organs of digestion and nutrition are impaired and the man suffers the miseries of dyspepsia and the agonies of nervousness.

To strengthen the stomach, restore the activity of the organs of digestion and nutrition and bring up the nerves, use Dr. Pierce's Golden Medical Discovery. It is an unfailing remedy, and has the confidence of physicians as well as the praise of thousands healed by its use.

In the strictest sense "Golden Medical Discovery" is a temperance medicine. It contains neither intoxicants nor narcotics, and is as free from alcohol as from opium, cocaine and other dangerous drugs. All ingredients printed on its outside wrapper.

Don't let a dealer delude you for his own profit. There is no medicine for stomach, liver and blood "just as good" as "Golden Medical Discovery."

**TURKISH CRUISER IS DESTROYED**

**First Day Results in the War Between Italy and the Porte—Great Britain's Position**

Rome, Sept. 29.—Italy has declared war on Turkey. The official announcement, as made late today, declared that the two countries were in a state of war beginning at 2:30 o'clock on the afternoon of Friday, Sept. 29.

This is the hour at which the Italian ultimatum to Turkey expired and followed a session of the cabinet at which the Turkish reply was considered and found unsatisfactory. Through every indication pointed to this action by the royal government, there was always a possibility that the good offices of other governments would be successful in avoiding hostilities and when the final decision of the cabinet was announced the excitement throughout the city was intense.

Tripoli, Sept. 29.—The Italian squadron, which has been cruising in the offing, came close in shore this morning and the destroyer Garibaldi steamed into the harbor at noon flying a white flag. Great crowds gathered and watched her approach. After recommissioning, the destroyer launched a boat and came to the beach. An officer landed. He was preceded by a blue jacket carrying a white flag.

Turkish soldiers surrounded the pair. The officer asked for the Turkish commander. When taken to him he formally announced that the Italian fleet had been ordered to occupy the town.

He therefore demanded the instant surrender of the whole Turkish garrison. The Turkish commander replied that he was unable to comply with the demand, and emphatically refused to surrender.

The incident was witnessed by the foreign residents, who gathered around the Italian officer and cheered him enthusiastically. The boat then returned to the destroyer, which rejoined the fleet.

A great number of the residents of Tripoli spent last night camped on the beach, alarmed lest the Arabs should get out of hand and begin pillaging. Arabs are constantly arriving from the country. The Mosques are kept open and throughout the night were filled with praying Arabs.

Sabonli, European Turkey, Sept. 29, 1 a.m.—An Italian cruiser has destroyed a Turkish destroyer in the harbor of Prevesa in Egeus, and landed troops. The Turkish authorities are sending a battalion of troops to Prevesa.

Worcester, Mass., Sept. 29.—A dozen Albanians who have been living in Worcester for nearly two years are to join the Italian army and fight against their ancient foes, the Turks, according to their own statements. The Albanians have left for New York in a steamer, and have been Philadelphia for Greece, whence they expect to go to Tripoli. It is said that if the war should be protracted, many Albanians and Turks in this country subject to army orders will be recalled to their native lands.

Barnford D. Buckman Pasha, vice-admiral of the Turkish navy, has returned to Worcester. He is a native of Nova Scotia, but has lived in Maine, Michigan and this state. His wife was Miss Rose Thayer of Barnford, Maine.

Paris, Sept. 29.—An unconfirmed rumor has reached Paris from Malta, by which Tunis, to the effect that the British cruiser Medea has left to occupy Benghazi, a natural harbor between Derna and Alexandria.

Italy's standing army in 1910-1911 numbered approximately 225,000 men, 14,000 officers, and a far greater number could be put in the field in case of necessity. The Italian navy consists of fifteen battle-ships, nine armored cruisers, seventeen unarmored cruisers and gun vessels, thirty-six destroyers, and eight other first class torpedo boats and twenty-two submarines. In the naval force there are approximately 31,000 men. Seamen for the fleet are recruited by conscription and all men following the seafaring life for eighteen months or more. The navy also has naval training schools for boys.

England's navy generally ranked fifth among nations.

Naval lists show that Turkey has a fighting strength of nine coast defense ironclads, five protected cruisers, six torpedo vessels, one gunboat, twenty-one torpedo boat destroyers, twenty-seven torpedo boats and two submarines.

As compared with the greater nations, this is a small quantity. There are 31,000 officers and 9,000 marines. English and American officers play an important part in Turkish naval affairs.

The Ottoman army, as a result of the revolution, which resulted in the death of the young sultan, is now in process of reorganization. A military council has been called into existence and a great deal of modern equipment has been purchased.

The empire is divided into seven army corps districts which are the independent divisions at Medina and Tripoli respectively. The total fighting strength is close to a million men and by the existing recruiting laws, all Mussulmen are liable to military service. Christians and certain sects have paid the exemption tax. The Arabs, although liable to service by law, furnish few or no recruits, and many Kurds evade service. Much the best of the army is in European Turkey.

The trouble between Turkey and Italy which culminated this afternoon in a declaration of war at Rome dates back to 1878 when with the making of the treaty concluding the Russo-Turkish war the powers are understood to have agreed to permit Italy a "pacific penetration of Tripoli."

Turkey claims that this right has been respected ever since. Italy has colonized Tripoli till her interests in that African province are very great. She has asserted, however, that her subjects have been mistreated by the Ottoman authority and constantly discriminated against. Frequent disorders have arisen but the prolonged negotiations have never resulted satisfactorily to Italy.

At the time that the Franco-German differences regarding Morocco were acute Italy turned her attention again to Tripoli and in subsequent negotiations with Constantinople set forth that many outrages against her subjects had been perpetrated and for which no redress had been made. She assumed a decisive attitude and presently began the mobilization of her army and navy.

A few days ago the first squadron of the Italian navy was sent to Tripoli waters and it has since patrolled the coast. At the same time Turkey was warned not to send soldiers or munitions of war to Tripoli. A Turkish transport bearing a few men and arms and ammunition later arrived at Tripoli from Constantinople. She had sailed before the Italian warning. T. S. Simms, Mrs. J. Doodly, J. Watson, Friend, Mrs. R. McIntosh, P. A. Smith, Miss Martha Sullivan, 50c.

Italy in the meantime brought her army

**Daily Hints For the Cook**

**PANNELED BAKED SWEET POTATOES.**

Boil sweet potatoes until done, drain, peel and slice. Butter a baking dish, put in layer of the sliced potatoes, sprinkle rather thickly with light-brown sugar and dot with bits of butter. Add another layer of potatoes with sugar and butter, and so on. When dish is full, put in oven and bake, covered for half an hour and uncovered for half an hour.

**CHOCOLATE PUDDING.**

One quart of water boiling, 2 table-spoons of cornstarch, mixed in a little of the water cold, a pinch of salt, 2 table-spoons of cocoa mixed with 2 1/2 cup of sugar. Cook slowly five minutes. Flavor with vanilla. Set in a dish to cool. When cool pour over it a sauce made of 1 pint of milk, 1 egg beaten up with half a cup of sugar, 1 teaspoon of cornstarch, wet with a little cold milk. Cook together until thick, flavor to suit taste, and pour over the chocolate pudding.

**OVERALLS FOR SCHOOL GIRLS**

Dr. Henry S. Curtis, of Clark university who is one of the most active workers in the Playgrounds Association of America, has offered a suggestion that should appeal to mothers of young girls and one which, if adopted, will probably cause the girls to rise up in future years and call him blessed. Dr. Curtis, appreciating the handicap that girls have in play and outdoor athletics, suggests that girls up to the age of 13 or 14 years be allowed their boy playmates on an equality. The suggestion appears wholly commendable so long as thought is had only of the larger opportunities that would be offered to the girls thus relieved of the impediment to athletic work and outdoor exercise. From a purely economy standpoint, too, it would make possible a big saving in the clothing and laundry accounts of the girls but there is another phase of the question.

**AN EXPERIMENT.**

A prominent professor is exceptionally fond of mushrooms. His son, who is an enthusiastic botanist, one day brought a quantity and told his mother to have them prepared as a special treat for his father. When the professor came to dinner he was delighted to find his favorite dish before him. "These are not all for me, are they?" he asked, not wishing to be selfish. "Yes, father, I gathered them especially for you." answered the son. The next morning the son awaited his father with a rather anxious expression on his face. "Good morning, dad!" he ventured, "Did you sleep all right last night?" "Yes," was the encouraging reply. "Didn't feel any pain or nausea?" "No," answered the professor. "Hoora!" exclaimed the botanist. "I have discovered another species that is not poisonous!"

**WHAT SHE MIGHT CATCH.**

She—They say there are germs in kisses. What do you suppose a girl could catch that way. He—A husband—Exchange.

In some of the smaller cities of Germany the buildings where civil weddings are performed bear signs or emblems that indicate their mission. In some places the statue or picture of a stork is used and in others cupids with a bow and arrow is represented.

Interesting Facts Concerning Women

The Episcopal State Convention of Connecticut, in session at Waterbury, with Bishop Hewster presiding, has given women a vote in parish meetings.

A woman may vote as a stockholder on a railroad from one end of the country to the other. But if she sells her stock, and buys a house with the money, she has no voice in the laying out of the road before her door, which her house is taxed to keep and pay for.—George William Curtis.

At the close of a ten days' session, with every Texas conference represented, the Methodist Bible Institute lately held at Denton, Tex., adopted resolutions favoring the extension of the ecclesiastical franchise to women on an equal footing with men, and favoring the election of a delegate to the general conference who will support this measure.

BISHOP KEANE

Of Wyoming Says Woman Suffrage Has Improved Conditions There. The Rt. Rev. Bishop Keane, D. Bishop Keane told Mrs. Rhoads, Ringrose and Mrs. Rose French, who were appointed by the State Equal Suffrage Association as a committee to get him on the question, that suffrage had improved conditions in Wyoming and had in no way drawn women away from their homes.

VETERAN OF BOER WAR SAVES LIFE IN TORONTO

F. Napier Denison of the meteorological service of British Columbia, has attracted a lot of attention in Toronto by his valuable contributions to the science of seismology. Mr. Denison's deduction from his observations on the tidal waves on lakes such as Huron, submitted to the International Seismological Commission, have so impressed the members of that body that they have agreed to send him to land telephony. The British Ministry has been made aware of the invention, and at no distant date I hope its value in warfare will be demonstrated in the usual manner.

Barred for Riding Astride. The action of the Bryn Mawr horse show officials in barring from important entries at the forthcoming horse show certain women equestriennes who ride astride has served to give new life to the slumbering controversy respecting the merits of the side and cross saddle for the gentler sex. The subject has been much mooted ever since riding astride by women came out of the west and got to the verge with a class of riders who thought the "cow" and "side" fashion was better, even if it was unconventional.

Some Eminent Opinions. Lately a London paper asked a number of well-known persons (1) what they considered the strongest argument for or against woman suffrage; (2) whether they thought there was any possibility of being granted during the present parliament; (3) whether they considered the present tactics as having failed or succeeded; and (4) what alternative methods they would suggest.

WILL SHUT DOWN UPON MISFEASANCE

Theatre Managers and Church People Seriously Annoyed at Work of Sneezing Powder Distributors

Definite information has been secured that, it is said, will probably lead to the arrest of a group of persons known to be guilty of throwing a sort of snuff powder in several of the motion picture theatres in the city. The snuff is a French compound and is sold in small tin boxes. When thrown in the air it has the effect of hurting the eyes and causing violent sneezing. Several of the picture theatre managers and some church officials have pooled their information concerning the miscreants who have been doing this dangerous work and disclosures are to follow.

The mischief has not been confined to what can be called the cheap class, but older persons are said to be due for a few surprises. Further than this, the joke, so-called, was perpetrated on the suburban trains this summer by school girls, much to the discomfort of passengers. If the railway officials join forces with those at present taking action some names of a number of St. John's first families may get unpleasant notoriety. It is contended by those who are made to suffer by this mischievous practice that the sale of such a powder, or its importation from the states, is contrary to law and should be suppressed. The snuff is not a drug, it is declared to be not for any commercial use, merely as its label suggests a powder to cause violent sneezing and smarting of the eyes for the mere prank of the thing. Since it has been used one or two in fifty elderly folks and children have been known to suffer from coughing, sneezing and inflammation of eyes.

The police have been cognizant of the practice for quite a while and have so far drawn their net to the point of extracting the real guilty ones. Some time ago one of the theatre managers detected a group of young men working the powder joke and, following them to the street, accused them, whereupon they took to their heels and ran away. On their next appearance at the theatre they were bluntly turned down at the door and refused admittance, a ban which remains upon them permanently. In an Upper Canadian court a few months ago two youths were fined \$100 each for throwing this sort of powder in a public gathering and one of the prisoners, defaulting payment, went to jail.

O'CONNOR'S REASONS FOR HIS BREAK FROM CHAIN GANG

Said he Wanted to Get Home to Mother and Sister in Old Country—Today's Police Court

Richard Fitzgibbon, John Sheehan, William Marshall and Alexander McKenzie were each fined \$8 or two months in jail on the charge of drunkenness, in the police court this morning. McKenzie also had to answer to the charge of willful breaking windows in Thomas Lockhart's house in Pond street. The damage amounted to \$8 and he paid up and departed. Two small boys, Louis Marvin and Alford Lee were each fined \$2 for playing truant from the Dufferin School. The preliminary hearing in the case of Paul George Foster, charged with escaping from the chain gang was begun this morning. O'Connor was arrested for profanity and drunkenness on September 6 and attempted to escape on Wednesday last. Foster was arrested on a charge of having stolen a watch and several chains from Gordon Gates. He attempted to escape from the gang on June 6, but was also recaptured. Guards Beckett and Boves told of the occurrences, and the prisoners were remanded. O'Connor told the court that the reason he tried to escape was because he had a sick mother and a blind sister at home in the Old Country and that he wanted to get back to them.

RELICS OF THE GREAT ST. GEORGE

J. G. Anderson, past president of the St. John St. George's Society, and chairman of the very recent of the affiliated Society of St. George through Canada, has received a very interesting letter from the president of the society in Ottawa, who, after attending the coronation, went to Rome to attend the fisheries conference. He writes from there as follows:— I paid a special visit to the Church of St. George, where the coronation of the martyr's skull, the upper part of the cranium of St. George is kept as a relic. I viewed it in its solid gold box with glass front, with real reverence, and am told that the eminent English cardinal, Dr. J. H. Newman, chose this church on account of its English associations, to have his first service after he was made cardinal. The church is very ancient, but neglected, and is opened only twice a year, and there is much difficulty in viewing it, but I succeeded and was well rewarded.
