GET THE BEST, the best is KENDRICK'S LINIMENT.

St. Andrew's Church "at home" in the Masonic Hall last Thursday evening was one of the greatest social successes of the season.

KENDRICK'S LINIMENT never disappoints. Beware of cheap imitations at cheap prices.

PERSONAL:—Amongst the Chatham men who were in Fredericton at the opening of the Legislature were Messrs. John Mc Donald, Ross Murray and M. S. Hooker.

THERE IS NO HEADACHE that cannot be cured by Bowman's Headache Powders, whether caused by Feverishness, Biliousness or Cold. Bowman's is always reliable and set promptly, 10 cents and 25 cents, at all reliable dealers.

THOMAS J. R. McFILLIE received a warm welcome home by the Mayor, Aldermen, Citizens' Band and a good crowd when he arrived from Halifax on Thursday afternoon.

KENDRICK'S LINIMENT cures while you sleep. It is the best for Rheumatism, Sprains, Bruises, Burns, Stings, Cuts, and all other ailments.

Presentation to Private Doyle.

There was a very interesting gathering of ladies and gentlemen in the Town Hall last Thursday evening to participate in the presentation to private Doyle of a gold ring and purse of \$63. This was the outcome of an appeal for the laudable purpose made by the Commercial, its editor, Mr. Fred Benson, receiving the money and after procuring the ring with a part of it having the handsome case made by Mr. Benson and other that as the Council was handsomely recognizing the services of the soldier who were residents something in the same line should be done for Doyle.

Mayor Loggie presided, and the presentation was made by Lt. Col. Ferguson, who made a most interesting and eloquent speech.

Other speakers—besides Mayor Loggie—were Capt. Mackenzie, Ald. Watt, W. C. Winslow, Dr. J. B. Benson, Lt. Col. McCallum and Lt. Walton McLean. St. John, who opened up in connection with the remaining of men for Baden Powell's South African constabulary.

Major Morrison of Newcastle was the next speaker. He was pleased to be present

William, of Newcastle, Aldermen Watt, and Ald. Maher of Chatham and others.

The Citizens' Band was present and played on the street in front of the hall, and afterwards came upon the platform, the audience manifesting their appreciation of the excellent music rendered.

In opening the proceedings, Mayor Loggie said they were there to do honor to those who had gone to South Africa in the fight for the Empire. Private Letson, Major and Ward had participated in the battle preceding Crozier's surrender, and had been present at that time. Troopers Morrison and McCully, of the second contingent, had been in the fight and under fire for forty days.

Major Loggie next addressed the men congratulating them upon the services they had rendered to the Empire and the marks of appreciation which they evoked from their fellow citizens, and made the presentation of the watches.

Major Morrison spoke at the request of the returned soldiers on their behalf. He said the boys had told him they had left home from a sense of duty and had not expected to return, or upon their return to receive such a reception as they had met with here.

The Mayor here suggested the singing of the "God Save the King" which terminated the meeting.

Chatham Town Council

[Continued from 2nd page.]

Ald. McKay said it was that Mr. Winslow be authorized to prepare the necessary petition for enactment. There was nothing at all about a bill.

Ald. Watt drew attention to the fact that Ald. Galivan struck out part of his resolution calling for advertising his proposed petition in the paper, showing that he did not contemplate a bill, which would have to be advertised.

The Mayor, speaking to the motion, said he thought it out of order, because he viewed Ald. Galivan's motion as last meeting as meaning that a bill should be prepared. It would, however, be in order to make a motion to draw attention to the first section of the bill and the ratification could pronounce upon it.

Ald. Watt said he objected to the bill he had moved for at last meeting being mixed up with an unauthorized bill on another subject.

The Mayor thought Mr. Watt's contention was a reasonable one.

There were now calls of question. The Mayor showed great hesitancy in putting it.

Then, Ald. Watt altered his motion to read simply that the first section of the bill be struck out.

The Mayor said that, in the meantime, he would read Ald. Watt's motion out of order.

Ald. Watt moved that the Council apply for the ruling of the Mayor.

The question being taken the vote stood years ago. Watt, McKay and Marshall, Nays; Ald. Galivan, Baker, Mcintosh, and Morris. The Mayor, of course, voted to sustain his own ruling.

The section relating to five per cent. being deducted for early payment of taxes was opposed by the Mayor, as it favored the rich. All should be treated alike.

Ald. Galivan moved for a reconsideration of last meeting's vote on this subject, which carried.

Then, he moved that the date for issuing executions shall be 1st October instead of 1st November.

The matter, however, was passed over without any vote being taken, as everybody talked about indifferent matters and the section under consideration was given the go-by for the time.

The section in favor of two councillors from the town to the Municipal Council was approved.

The legal relating to material, etc., to be applied for buildings within certain limits in the town was approved.

The section providing for the tearing down of buildings menacing the safety of contiguous buildings was passed.

The section relating to peddlers' licenses was also passed, and agreed with the actual limits of the town.

Ald. Watt said it had been ordered by last Council that legislative authority be sought for the payment of the proposed new rate for the \$15,000 votes by the ratifiers, but as it would be time enough at next session to have such legislation enacted, the company being not yet organized, it had not been included in the present bill. It should be understood, however, that the Council was ready to secure the necessary authority for the payment of the \$15,000 as soon as the proposed company was organized to receive it under the terms on which the money was voted.

On motion of Ald. Watt, seconded by Ald. Maher, Mrs. Minnie Loggie was appointed a school trustee in place of Miss Two, deceased.

The Mayor suggested that the second section of the legislative bill just under discussion should provide that taxes be paid with out-deduction for early payment, and that execution be for all taxes not paid on or before August 1st. He thought that the first section might be left over for the ratifiers to vote upon. The Council was divided on it and the legislators should know it, if the section was to be sent forward for enactment.

Section two was finally passed in favor of deducting 5% on taxes paid on or before 15th July and 2% if paid before 31st August and it was voted that resolutions be issued for all

was not paid on or before 30th September. The bill was finally adopted, excepting sections one—that relating to tax-delinquents being allowed to vote.

Ald. Watt moved to amend the law relating to the election of Aldermen so as to reduce the requirement that nominees shall reside in the wards for which they are nominated.

A tie vote resulted and the Mayor voted in favor of the resolution, which thus carried. The yeas were: Watt, Marshall, Barr, McKay, Yess, Maher, Mcintosh, Morris, Galivan.

Ald. Murdoch said he had had correspondence with the American Shoe Company of Auburn, Maine, in response to a letter which he had written them on seeing a statement that they were negotiating with the town of St. Stephen for encouragement to establish a shoe factory in that town. The company informed him that they were looking over the Martin's premises and if sufficient inducements were offered they would establish a shoe factory in one of the towns. The plant they would set up would employ from 120 to 200 hands, the average wages paid in Auburn was \$2 a day, but they could not say what they would pay in Chatham. He, Ald. Murdoch, had written them saying he thought Chatham might offer a bonus and he had been thinking of the matter before the Town Council. He thought that if such a factory were established here our own people would soon learn how to do the work in it, as they were interested in it. He had told the company that Chatham would give them as much encouragement as St. Stephen. The company would prefer a bonus to exemption from taxation. They would spend about \$2,775 in the first year. The town could only base any bonus it might give on the amount of wages to be paid.

The correspondence was referred for report to the Finance Committee.

Ald. Watt moved that the law relating to aldermen's elections be so changed as to provide that four aldermen shall be elected to represent, one each, the four wards of the town in which they shall respectively reside and other four the town at large, irrespective of ward residence, and that the one of the provisions of the bill to be sent from the town to the legislator.

Ald. Galivan opposed this proposition on the ground that it would lead to clique rule in the town.

The vote being taken there was the same tie as before and the Mayor gave his casting vote in favor of the motion of Ald. Watt. He said he had great pleasure, as it had been difficult to find suitable men in the lower and upper wards heretofore.

"That's pretty hard on you, Mcintosh," said Ald. Watt.

"Go for him," urged another speaker on the table, told the Mayor that there were as good men in the ward he (Mcintosh) represented in any other in the town and that he had been in the ward, etc.

The Mayor said a petition from a number of ratifiers set forth that, there were two candidates in the town—some run by the Mayor and some by the aldermen, and they gave place to others and some of them paid taxes. The petition prayed that provision be made for compelling those non-residents to pay a license fee for carrying on their business.

Referred to the By-law committee, against Ald. McKay's protest.

The Mayor thought all the land on Morrison's Brook required for the water works should be secured at once.

Ald. Watt thought it was time enough to do this, as the owners had exaggerated the value of their land and wanted to sell it by the pound, they would be glad to take less and by.

Ald. Galivan moved that the bill for the legislature be passed over to Mr. Winslow, who he thought best to take the matter up.

Ald. Watt objected to this and said the solicitor had already sent the bill which the Council had dealt with thought to the legislature in charge of it had told him not to do so.

Solicitor Winslow was permitted to make a statement and said that upon instructions he had prepared and forwarded the bill which, according to the rules of the legislature, must be there three days before the opening of the session. The bill was required to be endorsed with name of the petitioner, and he had secured Premier Twelve to introduce it.

Ald. Watt said that when Mr. Winslow told him of this three days rule, he pointed out to him that it could be suspended, as it had before been done. He told Mr. Winslow that the bill must come before Council before going to Fredericton. He objected to the bill being taken out of the Council's hands.

Mr. Winslow: I did as I was instructed in writing to do by the clerk.

Ald. Watt: I told Mr. Winslow not to send it forward, as I had charge of it.

Mr. Winslow: I deny that. I knew he was opposed to it.

A motion that the bill, as passed, be forwarded by Mr. Watt, seconded by Ald. McKay, and put was lost: yeas, Watt, Barr, McKay, Yess, Marshall, Galivan, Morris, Mcintosh, M. Her.

The original motion carried by the same vote reversed.

The Mayor said that, tomorrow night, the presentation of watches to Chatham's South African soldiers would be made in the Masonic Hall, at 8 o'clock. He wanted all soldiers and their families present, and the ladies, clergy, Mayor Morrison and Newcastle aldermen to be there.

The Council adjourned until 7.30 Tuesday evening, it being understood that it would then meet and further adjourn until Wednesday evening, then to take up the new by-laws.

No thought occurred to her that a strange event was at that moment transpiring within those walls, or that something was about to happen.

How she longed to look upon his face for just one brief moment! Exultation had not chilled her trust; different it had increased it, rather, fondled.

A bright thought flashed across her lonely little heart. "His mother is there," she sighed. "Ah, if I were to go to her and cry out, 'Love me, love me! I am your own wife!'"

"Pluma" he cried, hoarsely, rising to his feet and drawing a gasping, gasping, gasping figure to his full height. "I will not brook such language from a child who should at least yield me obedience, if not love. You are not the heiress of Whitestone Hall, and you never may be. If I thought you really contemplated laying waste to my house, I should have had you arrested long ago."

THE ADJUSTMENT OF LIGHTS AND SHADOWS.

Plenty of people imagine that when they have built a large house with all modern improvements and have had it more or less decorated and another furnish it regardless of expense, they will have a "home ready to walk into." This is a mistake. One cannot walk into a ready-made home any more than into a ready-made friendship.
