### THE OUTPUT OF THE YUKON

Will Break All Records This Year.  
Aggregate of \$25,000,000 in Gold Predicted for the Year—Outside Camps Make Favorable Reports.

DAWSON CITY, July 9.—All authorities agree that the Yukon output for the present year will beat all records for the camp and manure of the opinion that it will amount to \$25,000,000 worth of gold.

Latest advices from the outlying camps show that the season so far has been a most favorable one and the clean-ups are realizing far more than was expected. Another reason for the great increase in the output is the adoption of the cyanide process and a large company is now being formed to work the tailings, which the miners have been throwing away for years under the impression that they were worthless, but tests which have been made show these tailings contain \$4 per ton in gold and upwards. The cyanide process by which means a very large amount of gravel can be handled daily at a small cost.

### BLAMES CHAUFFEUR FOR FATAL CRASH

Standing by Husband's Body, Mrs. Burton Threatens to Shoot Howard Washington.

ST. LOUIS, Mo., July 9.—In the wild plunge of an automobile over a twenty foot embankment in St. Louis county near midnight, Alfred Burton, of this city, was killed. Mrs. Burton, who was fatally injured, and Mrs. Alfred Burton, her little daughter and two sons were painfully bruised, the chauffeur, to whose carelessness in turning to watch his hat, which he blew off, was blamed. Mrs. Burton was unharmed, as had two young women whom Mrs. Burton had invited to drive with her. Mrs. Burton visited the scene of the accident today she threatened to shoot Howard Washington, who is now in the county jail in Clayton. As she looked at the body of her husband, which remained beside the wrecked machine until the coroner's inquest was held today, Mrs. Burton exclaimed: "I am going to shoot Washington. He is a bad man. Why couldn't he be dead instead of my husband?" At the inquest Mrs. Burton told how the machine, while running fifty miles an hour, swerved suddenly as the chauffeur's hat was blown off, and of the plunge over the embankment. At intervals she gave way to grief. Mrs. Burton was carried from the scene after the accident and did not learn that her husband was killed until this morning.

### EARL GREY'S MOVEMENTS.

He is About to Take a Yachting Trip and Will Visit Newfoundland.

OTTAWA, July 9.—His Excellency Earl Grey will take a yachting trip during the months of July and August in the Gulf of St. Lawrence, in the course of which he will pay a short visit to the Governor of Newfoundland. Later on His Excellency will pay a visit to the North-West and to the British Columbia, but not to the Yukon. He will attend the Forestry Convention meeting at Vancouver on September 25th and 26th, and will open the Exhibition at New Westminster on October 2. He will return to Ottawa about the end of October, shortly before the opening of the November sitting of Parliament.

### THE GREAT HERRMANN.

The Great Herrmann appears at the Opera House for one week commencing next Monday. Herrmann has a most wonderful pair of hands. An old saying is changed for his special benefit to read "My hands are my fortune." Leon Herrmann's hands have made him several fortunes already and did but to make him several more. When Herrmann is most active with his hands he gives the audience the advantage of the printed hint—"The closer you look, the less you see," while he amuses his auditors with his bright little sayings, touched with characteristic French accent, soft and seductive. He will present an entirely new programme of music here, besides presenting a few old tricks which defy all solution and the seeing of which the second time only makes his achievements seem the more wonderful. Herrmann's illusions and the present season, which are new to this country, are marvelous, startling and sensational.

### MOTOR BOAT RACE.

The first motor boat race in the history of the R. K. Y. C. will be held on July 28th. The sailing committee of the club met last evening and made all arrangements for the contest. It was decided to adopt the Kutter's boats as a basis of handicapping the boats. In this all the calculations are based on the time of the first boat to finish in its class. Time allowances for horse power are taken from the highest power boat. All greater horse power is to allow each lesser horse power a number of seconds per minute, as given by the scale.

of clear water between them when passing each other (whether in same class or not). A boat in the lead shall not change her course to prevent a boat astern from passing, or so as to compel a boat astern to come within the six foot limit. When approaching marks a leading boat must keep outside the six foot limit and when an overtaking boat to turn the mark, providing the overtaking boat has established a lead.

The boats will be divided into two classes, one of under 50 feet water line, and the other of 50 feet and over. Boats under 25 feet water line, must carry at least two persons. Boats between 25 and under 30 feet water line, at least three persons, and those of thirty feet water line and over, at least four persons.

The course will start off the club wharf, thence via the northeastern channel to the Sandy point buoy; thence to Minkish buoy; and from there to Millidgeville, by way of the western channel, leaving both buoys and Indian Island on the port hand. The outer buoy of the starting line will then be left on the port hand, and the course sailed over the second time.

The start for the larger boats will be at 2 p. m. Officers of the day: R. C. Eikin and T. T. Lantulum.

The start of the smaller boats will be at 2.15 p. m. Officers of the day: S. P. Gerow and F. S. Heals.

### MOVING PICTURES.

Never in war or peace did the American soldier do grander work, than during the awful days that San Francisco was in the throes of the elements of quake and fire. No matter what the time or place, the silent figures of the soldiers loomed up. The quiet, unflinching regulars, who saw their duty and did it uncomplainingly—asking no thanks, demanding no reward. In the moving pictures of the destruction of San Francisco, the soldier plays a prominent part. They are seen in the background, holding frantic refugees from self-destruction; they are seen in the foreground as relief is given out, helping the feeble, seeing that a fair and equal share is distributed to every claimant, repelling the greedy; they are seen carrying the sick and old upon their army stretchers, ministering to the dying, heartening the despondent with a slap upon the shoulder and a few cheering words—and all he did is shown upon the pictures. Leonard J. Mack, a former member of a stock company playing at one of the theatres at the time of the disaster, will describe the pictures and in addition an excellent programme of comedy and sensational pictures will be shown.

The stock and feed committee of the Agricultural Society met last evening and decided to import another lot of Yorkshire pigs. Owing to the condition of the weather only a few farmers were present, and the meeting took no action in regard to the purchase of Brown Swiss cows. This will be considered, later.

### Always Practice Economy

Begin this week—today. Let this be your initial effort, if you have not been in the habit of encouraging, and let this store be the place for the trial trip. There is economy in buying trashy goods of any kind. We do not handle the cheapest furniture, but give you only reliable furniture or your money back if not satisfied.

### ONLY THE DEAD NEVER CHANGE THEIR OPINION.

BIRMINGHAM, Eng., July 9.—The celebration in honor of Joseph Chamberlain's attainment of 70 years, was continued tonight when ten thousand persons assembled in Bingley Hall to witness the presentation of 120 dresses of appreciation of Mr. Chamberlain's political services. The addresses came from various parts of the United Kingdom. Replying to the speeches of presentation Mr. Chamberlain entered on a political retrospect, alluding to the charge that he often changed his opinions. Mr. Chamberlain quoted William E. Gladstone who once said that change was a sign of life and that it was only the dead who remained the same.

Without in the least affecting the efficiency of the road, without increasing freight and passenger rates to any noticeable extent, and without giving ground for adverse criticism, Hon. Mr. Emmerson has in one short year transformed the intercolonial from a maker of large deficits to a paying concern. His speech at Ottawa yesterday contained the most gratifying statement regarding the railway that has been given in many years. Mr. Emmerson asked the country for a fair show. He promised to do his best to make the intercolonial pay for itself and he has not only fulfilled his promise but has exceeded even his own hopes. And this has been done in spite of the fact that instead of being given fair treatment, he has, during the year, been subjected to continued criticism. Opponents of his policy, realizing the success which was attending the minister's efforts, have persistently attempted to interfere with his plans, and seem to have preferred picking holes in his policy to aiding in the financial progress of Canada.

Mr. Emmerson provides on the intercolonial as good a train service as has ever been given. Freight rates have been slightly advanced, but even now they are not as high as are charged on other roads. There have been some slight increases in passenger rates, but nothing to speak of, and better wages are paid to the employes than been paid in the past.

When Mr. Emmerson presents his next report to parliament it will be found to record the greatest change in the financial situation of the road that has ever been known since the intercolonial was built. But even now, knowing what has been accomplished, Mr. Emmerson's opponents are determined to criticize where there is no ground for criticism, and to hold back that large measure of credit to which the minister of railways is entitled.

**BOOM THE FAIR.**  
In a little more than seven weeks the exhibition will be here. The time for final preparation is short, but the directors of the association have their work well in hand and there will be no room for criticism when the fair gates are opened. It still remains for the people of St. John to do their share in personally advertising the exhibition among their friends. It is to be the best show ever held here. There are a number of special exhibits including airplanes, automobiles, wireless telegraphy, and dogs, which should prove of much interest, and the amusement features will be the best ever brought to the city. St. John people and others need have no hesitation about using big adjectives in describing this exhibition to their friends in other provinces, for all their statements will be borne out by the facts. The management of the fair also desire the names of all those householders who will be willing to accommodate visitors. Four years ago some few of the strangers who came here, walked the streets all night, but during the later exhibition better arrangements were made and there was accommodation for everyone. The same should be the case this year, and persons who have rooms that they can lease should send their names to the secretary.

**NO! NOT YET!**  
Some three or four months ago the common council decided to have the city by-laws revised, and a vote of a few hundred dollars was made for the necessary work. To the common clerk was entrusted the preparatory arrangements and the result of his efforts was to go before the bills and by-laws committee for consideration. Mr. Wardrop completed his share of the undertaking almost three months ago, but as yet there has been nothing done by the committee. It has not even met for organization, so far as is known. It is true that the aldermen have been kept busy, much business having arisen, but this was anticipated when the election took place and the candidates for office knew that there would be lots of work for them to do.

And still another instance has occurred to show the need of a patrol wagon in St. John. Visitors to the city must find amusement in telling their friends how they saw drunken women held on slovens by policemen, hauled through the streets while crowds stood watching the performance.

Admiral Rostevensky has been acquitted. Russia could hardly have taken any other course. Conviction would have meant disgrace, and although the defeated admiral was not a success still he was no coward and the disaster in the sea of Japan, which wholly due to him. Had he been convicted and sentenced, every nation in Europe would have protested, and Russia evidently has realized this.

The city needs the development at Sand Point which is promised by the C. P. R., and there can be no serious objection to a fair arrangement which will give to the railway the use of the Protection street shore.

In a little more than seven weeks the exhibition will be here. The time for final preparation is short, but the directors of the association have their work well in hand and there will be no room for criticism when the fair gates are opened. It still remains for the people of St. John to do their share in personally advertising the exhibition among their friends. It is to be the best show ever held here. There are a number of special exhibits including airplanes, automobiles, wireless telegraphy, and dogs, which should prove of much interest, and the amusement features will be the best ever brought to the city. St. John people and others need have no hesitation about using big adjectives in describing this exhibition to their friends in other provinces, for all their statements will be borne out by the facts. The management of the fair also desire the names of all those householders who will be willing to accommodate visitors. Four years ago some few of the strangers who came here, walked the streets all night, but during the later exhibition better arrangements were made and there was accommodation for everyone. The same should be the case this year, and persons who have rooms that they can lease should send their names to the secretary.

**NO! NOT YET!**  
Some three or four months ago the common council decided to have the city by-laws revised, and a vote of a few hundred dollars was made for the necessary work. To the common clerk was entrusted the preparatory arrangements and the result of his efforts was to go before the bills and by-laws committee for consideration. Mr. Wardrop completed his share of the undertaking almost three months ago, but as yet there has been nothing done by the committee. It has not even met for organization, so far as is known. It is true that the aldermen have been kept busy, much business having arisen, but this was anticipated when the election took place and the candidates for office knew that there would be lots of work for them to do.

And still another instance has occurred to show the need of a patrol wagon in St. John. Visitors to the city must find amusement in telling their friends how they saw drunken women held on slovens by policemen, hauled through the streets while crowds stood watching the performance.

Admiral Rostevensky has been acquitted. Russia could hardly have taken any other course. Conviction would have meant disgrace, and although the defeated admiral was not a success still he was no coward and the disaster in the sea of Japan, which wholly due to him. Had he been convicted and sentenced, every nation in Europe would have protested, and Russia evidently has realized this.

The city needs the development at Sand Point which is promised by the C. P. R., and there can be no serious objection to a fair arrangement which will give to the railway the use of the Protection street shore.

**ONLY A POOR MILLIONAIRE.**  
(From St. Louis Globe-Democrat.)  
The millionaire sat in his chair, suddenly tore his stove bought hair, and groaned in bitter pain. Ah, woe was his! You know it is. An awful thing, this stove-hair— And sang this sad refrain:  
"I am only a poor millionaire  
No friends have I;  
The people all hate me, the papers  
persecute me;  
I wonder why?  
I have but a million—they say it's a billion,  
And that all my wealth has a taint:  
That I am inhuman and don't know  
what's due me,  
I know I am not—and it ain't!"

"If I don't own auto car,  
They say that I am short;  
I trot out a 'wagon,' they say I'm a dragon  
And run over people for sport.  
If my money in bank I keep I'm a crank,  
A miser, a gold-hoarding boor.  
But if I invest it, they say, or suggest  
I am oppressing the poor."  
"If I attempt to give away  
My wealth I'm Philo's minion.  
My gift they describe as attempting  
to bribe  
Through charity public opinion.  
My wealth's a disgrace, and I have no place  
On earth; and I can't get in heaven.  
For—it's no use to try—through the  
needle, its eye,  
The camel cannot be driven."

**PERFECTLY RIGHT.**  
"We had a waiter who was a genius at our hotel last summer," said the funny man. "He understood the English. We asked him one morning what sort of berries he had for breakfast. 'You mean raspberries,' he answered, and 'raspberries'—it was worth the price of admission to hear him pronounce raspberries—and buckberries and gooseberries."  
"Gooseberries?" we repeated. "You mean gooseberries?"  
"No," said he firmly, "I mean gooseberries. I understand the English. It's up nights studying it. Gooseberries, it's singular, but gooseberries sees the plural of it."

**BUT DID NOT DANCE.**  
"I wonder, Marib, you let the children go to parties so young. That wasn't the way you were brought up."  
"I don't know about that, me. I wasn't more than a day old when I gave my first ball."

**A GOOD REASON.**  
Mr. Nutrich—What! You want to marry my daughter? Why, you ain't able to support yourself!  
Young Nerry—Quite so. That's the very excuse I gave to my family for wanting to marry your daughter.

**AND OTHER TROUBLES, TOO.**  
"I take a little whiskey occasionally for a stomach trouble," said Sneekley, who had been caught at it. "I don't know about you, but I'm repelled wise."  
Get what?  
"Your stomach trouble."

**CONCENTRATE THE WIND.**  
Summer Boarder (just arrived)—Why, when I was here last year there were three windmills, and now I see only one.  
Landlord—Well, you see, there wasn't wind enough to keep all three going, so we took down two.

**TOO FORMAL.**  
John R. McLean, proprietor and editor of The Washington Post, was sitting in his office last night, when a new reporter came in to see him. The new reporter was new for fair.  
"Now, Mac," he said, "I do not think we should do this."  
"See here, my boy," expostulated McLean. "Don't call me Mac. That is entirely too formal. Call me Johnny."

**ANYTHING BUT SWEET.**  
Miss Prim—Some day you'll discover that this sea-side flirtation of yours is not all sweetness.  
Miss Pert—I've discovered it already. You'd be surprised how salty the sea-breeze made George's moustache last evening.

**PROGRESS.**  
Acum—How is your suit for Miss Roxie's hand progressing?  
Nervey—It's very encouraging.  
Acum—But I thought her father kicked you out every time you called.  
Nervey—He does, but his kicks are not so vigorous as they used to be.

**HIS LITTLE PIGS.**  
"I'm sorry," said the patient man to the new neighbor, "but if those boys of yours continue their bad behavior around here I'll have to prosecute you."  
"Aw! go ahead and prosecute," retorted the undesirable neighbor, "you can't find no law against me."  
"No! Perhaps you've never heard of the law prohibiting the raising of pigs in the city limits!"

**CIRCUS TIME.**  
"O! see, Tommy, said Mamma, 'your little baby brother can stand all alone.'  
"Yes," replied Tommy, "now I was thinking that very thing before you came along."

**BEFORE HE CAME.**  
"Isn't it splendid out here all alone?" began Mr. Ercen, who had found himself musing beside the quiet lake.  
"Yes," replied Miss Bright, "I was thinking that very thing before you came along."

**TOO GOOD TO MISS.**  
"Yes," she said, "I've been going to cooking school for nearly six months now, and, really, you'd be surprised if I were to tell you all I've learned. I could, for instance, go into the kitchen and get up a good wholesome meal without using a bit of meat of any kind, and—"  
"Darling," he wildly cried, "will you be mine?"

### NUMEROUS MURDERS AMONG THE INDIANS.

British Columbia Red Men Develop Homicidal Mania Despite Missionary Effort.

VICTORIA, B. C., July 9.—An epidemic of homicide appears to have developed among the Indians of British Columbia north, where the percentage of serious crime is higher this year than ever before—and this, despite the marked extension of the missionary field. Pursuit is still in progress of Samuel Johnson, the Kispoo Indian allegedly responsible for the killing of Alexander McIntosh and Max LeClare, the Kamloops guide, at Hazelton on the 24th instant. Both men were shot through the back after a quarrel in which they had roughly beaten the Indian. Johnnie Tackum has been committed for trial for the deliberate killing of Charles Newman, a Green Bay, whom he shot when the Frenchman refused to sell him liquor. Tackum was tried, convicted, and by Mr. Justice Walkem sentenced to be hanged. He obtained a reprieve and his sentence was subsequently commuted to life imprisonment. A pardon was granted about three years ago. On the second occasion when he was put upon trial for his life he escaped because the body of his victim, a logger named Hussey, could not be found, having fallen from the canoe into the water.

**SEGY. WILSON FINDS THE STOCKYARDS ALL RIGHT.**

The Work of Improvement is Being Hurried On—He Will Give Instructions to Inspectors.

CHICAGO, July 9.—"I found the general condition at the stock yards to be good," said Secretary Wilson tonight, "and everything was evidently being hurried to place the entire yards in first class condition, and there is an evident desire on the part of all those in authority to comply with the laws fully."  
"Tomorrow I will confer with some thirty government inspectors from various cities having packing industries in Chicago as to my request to receive instructions regarding the operation and enforcement of the municipal laws. The packers have agreed to comply with the law, I shall confer with them as to the time of putting the law into effect. They will have to make some changes in their operations to do this, and I am willing to grant the time in which to get ready. This should not require longer than two or three weeks."

### NOT ONE PASSENGER KILLED IN TWENTY YEARS

A Good Record for the Pacific Division of the C. P. R.

MONTREAL, July 7.—The officers in charge of the operation of the Pacific division of Canadian Pacific Railway being that portion of the line between the Rocky Mountains and the Pacific Coast, are able to say that during the twenty years since the line was opened for passenger traffic they have not been required to record the death of a single passenger by accident to a train. It is doubtful if this can be said of any similar section of railway in the world.

### HALIFAX MERCHANT HUSTLED TO MONTREAL

HALIFAX, N. S., July 10.—M. Jacques, who runs a big ready-made clothing store on Barrington street, was hustled off to Montreal yesterday against his will, Saturday a Montreal detective arrived here with a warrant for Jacques' arrest by he lay low, and it was only 20 minutes before the Maritime express was due to arrive when he met Jacques on the street and tapped him on the shoulder, hustled him into a cab and started on the trot for the North Street station. Jacques started to resist but he was finally placed in the car which soon sped out of the station on the way to Montreal. Two of the Montreal creditors are now in Halifax, one of them being a Mr. Jacobs, who it is stated, is a creditor to the effect of \$5,000. The other creditor also has a large claim. It is likely that application will be made to the court today for the appointment of a receiver.

### JACK SWEET WAS THE WESTERN BANDIT

FRESNO, Cal., July 9.—If the surmises of the authorities are correct "Jack" Sweet, of Grub Gulch, in Mendocino County, held up the five Yosemite stages. A report to the Democrat is that he is under arrest on the charge and that he has been taken to Wawona for identification. Sweet is suspected of having held up the Yosemite stage one year ago.

### BROOKLYN STORE ROBBED IN A FREE AND EASY MANNER.

NEW YORK, July 9.—A young man walked into P. Freidrich's jewelry store on Broadway, Brooklyn, today, poked a revolver under a salesman's nose and walked out unmolested with a tray of diamonds valued at \$1,000. The robber, while looking over some engagement rings, whipped out a pistol, and pointing it straight at the salesman's face, said: "If you move or shout for help I'll shoot a hole through your head."

The salesman did not move or shout and the robber departed with the tray of jewels under his arm. When he reached the sidewalk he fled down the street and was soon out of sight. In his flight he dropped several rings.

COMMERCIAL

NEW YORK, July 9.—Small dealings and narrow price movements reflected the languid speculative interest in stocks at the opening today. Most of the prominent issues were not changed more than a 1/4 from last night's prices and gains and losses within the small range were quite evenly divided.

NEW BRAZILIAN TARIFF. WASHINGTON, July 10.—Brazil has just announced a new tariff which reduces the duty on flour and many other American exports 20 per cent. and is designed to promote the development of commercial interchange between the United States and Brazil. Condensed milk, rubber seals, watches, varnishes, typewriters, pianos, ice boxes, scales, windmills and links, (excepting writing links) are other articles on which the 20 per cent. reduction on tariff is granted. But flour is the most important commodity in the list and the duties on bread stuffs have long been the subject of dispute between Brazil and the United States. Failure to reduce the duty on flour almost caused a breach of the relations between the two countries many years ago, and because of the exportation of large quantities of flour to Brazil, a change in duty favorable to this country is of great importance.

GREAT RECORD OF SOO RAIL. MILL. The first steel rail mill that was started in Canada has completed its first year of continuous operation and has made a wonderful record.

It is the Algoma Steel Rail Mill of the Lake Superior corporation, of which Messrs. Drummond-McCall, of Montreal, are the selling agents.

For the year its total output was over 12,000 tons of rails, an average of 13,500 tons of rails a month, and the head of the firm of Drummond-McCall has been very successful in securing a market for the total output, the largest buyers of the rails being the Canadian Pacific Railway, the Canadian Northern Railway, the Michigan Central, the Intercolonial Railway, the Tenikaming and a number of the smaller lines.

At an average price of \$22.00 a ton secured for the rails from the different railways with lines in Canada, the gross revenue totalled over five millions, the exact figures being about \$5,200,000.

The output of the mill in the month of June was 1,500 tons.

BARK MARGARITA FROM HALIFAX BURNED AT SEA.

Seamster Reports the Disaster. No Sign of Any of the Bark's Crew Could be Found.

NEW YORK, July 10.—Upon arrival here today the Clyde line steamer Carib, from Georgetown, S. C., reported having signalled yesterday the Uruguayan bark Margarita on fire off the Delaware Capes. The Margarita left Philadelphia July 3 bound to Halifax, N. S., in command of Captain Alcega. There was no sign of life on board when the Carib sighted her. Captain Maguire of the Carib said that at 2:30 p. m. yesterday his lookout reported a large volume of smoke rising to the eastward. Immediately the course of the Carib was changed and in half an hour her officers were able to make out a bark astern. Running close to the burning vessel she was found to be the bark Margarita of Montevideo. She was blazing fiercely aft, her mizen mast had fallen and a charred spar was hanging over the quarter. All sails were set on the fore and main masts except the royals. Her head sails were also set. From the mainmast forward everything was untouched by fire. A close examination failed to reveal any signs of her crew. Apparently she had been hastily abandoned, the crew probably having been taken off by some passing vessel. The Margarita was a wooden vessel of 500 tons. The Margarita carried a crew of ten men. The bark was loaded with 700 tons of anthracite coal, valued at \$240.

J. D. Hazen left for Campbellton this morning.

OVER A MILLION IMMIGRANTS TO NEW YORK.

NEW YORK, July 10.—More than a million immigrants entered the United States through the Ellis Island station during the fiscal year ending June 30th last. The exact number was 1,062,654, an increase of 199,075 as compared with the preceding year. The largest number of immigrants came from Southern Italy, the number being 221,067. The immigrants brought with them a total of \$18,000,000.

MELANSON-BOURQUE.

MONCTON, N. B., July 10.—This morning at eight o'clock St. Bernard's church was the scene of a happy event when Miss Evangeline Mary Bourque, of the teaching staff of St. Bernard's school, daughter of P. N. Bourque, of this city, was married to Henry A. Melanson, merchant, and son of Samuel Melanson registrar of deeds for Gloucester, and member of the firm of S. Melanson & Son, Bathurst. The bride entered the church leaning on the arm of her father, the church being beautifully decorated with cut flowers, ferns and potted plants. Miss Elodie Bourque, sister of the bride, was bridesmaid and P. P. Whalen supported the groom. The marriage ceremony was performed by Rev. Edward Sauvage, P. P., who celebrated nuptial mass.

The brides looked charming in white ecollene with chiffon trimmings. She wore a bridal veil and carried a shower bouquet of bridal roses. The bridesmaid's gown was of white organdie. She wore a picture hat and carried pink roses. They will reside in Bathurst. Dull times arrive with periodical regularity, but the duller times are always in the store of the duldest merchant.—Nath'l C. Fowler, Jr., Boston.

A BUSY MORNING IN THE POLICE COURT

At this morning's session in the police court John Minto and Margaret Sullivan were fined eight dollars or two months jail each. Policeman Wm. Finley performed a charge of fighting against Richard Whely and George Whinnet, two carpenters, whom he arrested last night. Policeman Finley testified that last night about 10:30 o'clock on the corner of Sydney and Union street, he saw Whely and Whinnet return blows and get into a clinch. One was partly knocked down. When witnesses got within ten feet of the two they started away. Whinnet took the stand and said he was standing talking on the corner with Whely, and when he started to go home Whely caught hold of him by the shoulder and they swung round and then they were arrested. There was no blows struck and no fighting. To Officer Finley Whinnet said that there was no argument, they were talking union matters and he thought that Whely had a notion of joining the bar union. He did not offer the policeman two dollars to allow him to go. Whely pushed him, telling him to go home. He then started to have some fun with him that was all. Whely gave evidence that he and Whinnet were only playing and he pushed Whinnet away in fun. There was no intention of fighting and they did not clinch. He heard Whinnet say "Dick, if you had not pushed me this would not have occurred." He heard Whinnet offer the policeman two dollars. The case was adjourned until five o'clock this afternoon, when the policeman will call other witnesses. Arthur White, a small boy, was charged by Sgt. Ross with disorderly conduct, bawling, stoning, and loud whistling on the street. Sgt. Ross gave evidence that the boy was bawling a stone with a stick, and whistling. He told the boy not to be making such a noise. Later on the boy's father told witnesses that he would have to answer the charge of calling his son a blackguard. It was for that reason that the boy was brought to court. The sergeant said he thought that the whistling was meant for him, and it was terrific. The magistrate cited the law and showed that bawling, singing, whistling, etc., was not lawful. A fine of \$3 was allowed to stand against the boy and he was told to tell the other boys to be good. Mrs. White informed the court that when she asked Sgt. Ross what the matter was, he told her to "shut up her mouth and mind her own business." Sgt. Ross said that this statement was false. The magistrate said that Mr. White should aid the officer in quelling disturbances. Wm. Ogden complained to the court of a fellow workman in the Steenson, Cutler mill throwing water over him at the mill last Saturday. Ogden was told by the court to see Mr. Kierwin, the mill superintendent, who him. He went away happy. The case against John Rhea charged by Sgt. Campbell with being the proprietor of a disorderly bar room, in which there was a fight on the night of June 28th, was set down for a hearing this morning. Col. J. R. Armstrong appeared for Rhea and said that when a fight started in the bar Mr. Rhea tried to put the disturbers out and asked Sgt. Campbell to do so but the sergeant refused. Geo. A. Henderson for the prosecution, asked for an adjournment on account of the absence of Sgt. Campbell, who was away with an injured hand caused by a dog bite. The case was then adjourned until Friday morning at 10 o'clock. Walter Downey, who was arrested a couple of weeks ago on the charge of assaulting a man named Brown, on Main street, with being drunk and resisting the police, was brought into court this morning. J. B. M. Baxter appeared for him and asked the leniency of the court on account of Downey's previous good conduct as a soldier. He said that Downey had contracted enteric fever in South Africa, and as a result liquor seemed to act badly with him. Capt. J. M. Robinson, of the Artillery, addressed the court as to Downey's good conduct as an artilleryman and asked that he be given a chance. The magistrate gave the prisoner some good advice, fined him \$5 or two months for assault and \$30 or two months for resisting the police, but allowed the fine to stand against him pending his future good conduct and on Downey promising to keep clear of liquor for six months.

SCHOOL BOARD GRANTS THE USE OF CENTENNIAL BASEMENT

Compulsory Education Matter Left Over Till Another Meeting—Repairs on School Buildings.

At a meeting of the school trustees last night the board granted the use of two rooms in the Centennial building for playground work. Formal notice was read that the city council had adopted the Compulsory Education Act. Nothing was done for the present. The following applications for positions on the reserve and permanent teaching staffs were received and referred to the teachers' committee: A. W. Gregory, for the reserve staff; M. St. Malachi's, for St. Malachi's school; S. Ethel Armstrong, S. A. Worrell, W. C. R. Anderson, Annie Coulter, St. Malachi's, Alexandria, Newman street, Douglas avenue, LaTour, Albert, St. Patrick's and High school. The committee recommended that the factors of Aberdeen, Victoria annex and St. Malachi's schools be given an increase of \$12 a year. They now receive \$260. The heaviest item for repairs is at the Albert school where new sanitary equipment will be placed in the basement at a cost of \$250.

LORD'S DAY BILL WILL PASS SENATE AND BECOME LAW

Some Slight Amendments Will Be Adopted in Upper House, But Bill Will Remain Essentially the Same—Clause Relating to Provincial Legislation Will Be Strengthened.

OTTAWA, Ont., July 9.—The Lord's day bill will go through the senate and become law. There will be a few amendments made to it in the upper house, but none of them will affect any important provision in the bill nor any essential principle in the measure. The most important amendment will be one to strengthen the clause relating to the provinces all the rights they now possess to enact Sunday legislation for the future. The original jurisdiction will of course be retained by the federal parliament. Today the bill has advanced through the second reading and will tomorrow be taken up in the committee. (For morning debate see Page Seven.)

Continuing the debate on the Lord's day bill Senator McMullen said the greatest of the British empire was due to the fact that it was founded on Christian principles. Nations which sinned as nations, were punished as nations. He hoped the people of Quebec would recognize the great principles of Christianity in regard to this bill, and he had no doubt they would. The bill should be treated with a spirit of give and take. Objectionable features should be removed and the bill put upon the statute book. Senator Bostock was in favor of a law for the strict observance of the Sabbath. However, the bill touched different provinces in various ways. He doubted whether, on the whole, it would meet with general approval. He did not think Sunday was so much a matter of legislation as for the training of children. In British Columbia the daily papers issued Sunday morning, but not Monday morning. This gave the whole staff of a newspaper, with the exception of a half dozen, leisure for the entire Sunday. If this act were passed the staff of a newspaper would have to work on Sunday to get the Monday newspaper. An exception might be inserted in the act to allow British Columbia newspapers to continue their present practice. During the six or eight weeks the salmon was running Fraser River fishermen were allowed to begin fishing at six o'clock Sunday evening. To allow that to continue was proposed that fishing should be allowed after six Sunday all over Canada at all times of the year. To cover those points he gave lists of amendments, declaring that any act of any province relating to Sunday labor in force at present should be amended if passed by the parliament of Canada, and the governor general in council may confirm Sunday legislation enacted in future by provinces.

Senator Cloran said the bill had been carefully considered by the Lord's Day Alliance, by the minister of justice and the house of commons, which amended it. There was nothing divine about that. There was no command in the bill for the sanctification of the Sabbath. There were directions about the running of railroads and playing baseball, but there was nothing about going to church. The divine command was to keep this day holy. The parliament of Canada said nothing about that. However, this bill said you shall run railroads, play baseball and do other things on that day. Now the parliament of Canada proposed to supplement damnation with a dollar fine. This seemed superfluous. The French of Quebec were the most conscientious observers of the Sabbath in Canada. Yet this act declared there shall be no charge made at the church door necessary to heat and light the church. The whole bill was so poorly drawn it was unworthy of a place on the Canadian statute book. Senator Cloran advised delay by the senate in dealing with the bill until it could be reported upon by a special committee.

While criticizing this bill Senator Cloran said he thought the senate could formulate a satisfactory Lord's Day act and he was in favor of such a bill. Senator Frost followed and declared the bill a fair one. It was full of evidence of concessions. In general the bill only restricted work, sport and amusement for gain. Opportunities for the recreation of working men and others were not circumscribed. On the other hand employers were compelled to grant men the day of rest. Senator Frost read a letter from Archbishop Bruchest, of Montreal, endorsing legislation by parliament for the better observance of the Lord's Day. He held this in harmony with conscience and religion. While the act as introduced seemed a little severe and might be modified he declared that on the whole parliament had struck the right note. The archbishop commended restrictions on theatre performances, and theatrical performances, and the founding of theatres.

KINGS CO. DISTRICT DIVISION MEETING

Will Endeavor to Form Kings County Branch of the New Brunswick Temperance Federation

A meeting of the Kings County District Division, S. of T., was held at Collins, Friday, the 4th inst. in the afternoon. Mr. Leiper, D. W. P., presided. Verbal reports were made by the representatives of the four divisions in the neighborhood of the Millstream. The district W. P., the district treasurer and the district scribe were appointed a committee to confer with a similar committee from the district of the I. O. G. T., to consider the question of forming a Kings county branch of the New Brunswick Temperance Federation.

HEAVY FINE IMPOSED ON CHATHAM MAN.

Charles Rich Prosecuted for Selling Skins of Animals Killed Out of Season.

CHATHAM, N. B., July 9.—Chas. Rich, accused of holding for sale skins of animals killed out of season, was today fined \$225 by Magistrate Connors, on eight charges and costs. R. A. Lawlor conducted the prosecution, J. A. Haviland the defense. Rich pleaded not guilty to the first charge, and John Robinson, forest ranger for the province, was sworn and testified seeing eight fresh skins in Rich's establishment, consisting of three moose, one caribou and four deer. In the afternoon defendant withdrew his plea of not guilty and admitted guilt on all counts. He was fined \$200 for moose, \$50 for caribou, \$50 for deer and costs, totalling \$325. The magistrate threatened the maximum penalty in each case if another offense was proved. The witness paid part and has one month to settle.

SURPLUS ON THE I.C.R. FOR THE LAST YEAR

Mr. Emmerson Has Accomplished More Than He Promised—Change Not a Spurt, But a Permanent Thing—Receipts Increased by \$336,981—Personal Attacks on Minister Renewed.

OTTAWA, July 9.—The house went into supply this afternoon, taking up the surplus on the Intercolonial Railway. Mr. Emmerson announced that the Intercolonial would show a surplus of about \$100,000 on its year's operations. The total receipts in the financial year up to June 30 were \$7,410,704, an increase of \$282,000 over the previous year. The deficit during the preceding year of \$153,000, while for the year just concluded he estimated the deficit would be \$20,000. That would mean a net surplus of \$50,000 on the whole government system.

Mr. Emmerson replied that the cause of the accident had never been satisfactorily accounted for. Accidents would occur in the most inopportune way. So far as the facts had developed at the time of the inquiry there was no liability on the part of the department of railways, so he was informed by crown officers. However, the government would expedite the settlement of the question by agreeing to a petition of right to exchequer court. Mr. Stockton urged that there should not be such a long delay in settling up claims. Col. Sam Hughes suggested that the cause of the recent accident on the Ontario government railway should be investigated, and Mr. Emmerson replied that the railway in question was a provincial railway. In the evening the house spent some time on petitions and commerce vote. The house adjourned at 11:30.

CHICAGO, Ill., July 9.—Is university training for young women a stumbling block to matrimony? Statistics which show how few of the former "co-eds" of the University of Chicago have married during the last sixteen years are being used to show that it is. The statistics of Secretary Bostor, of the Alumni Association of the university, has just issued a book of alumni statistics, and the purchase of land for the Intercolonial. Then F. W. Sumner, who was president of the Petroleum Company, was a volunteer of the land for the Intercolonial. The whole thing seemed to turn the attention of the public to the railway, suggesting that New Brunswick Petroleum Company's oil should be used on the I. C. R. Mr. Barker censured him for interference with the management in the purchase of oil, and censured the university for interfering and ordering belting to be purchased without further tender from the former contractor. Nothing was so apt to cause fear as interference with officials in their duty. The minister would do far more by correcting methods of operation and by abstaining from interference where his own interests were concerned than by cutting down wages of workmen.

SAD DROWNING OF ALBERT CO. BOY

HOPEWELL HILL, A. Co., July 9.—Elyde Taylor, the 12-year-old son of the late David Taylor, was drowned in the Hamilton creek, at Lower Cape, this afternoon. The unfortunate lad was bathing with some companions and got beyond his depth. The bank of the stream is very steep, and his frightened companions were unable to render him any assistance. Deceased, who was an exceptionally bright boy, was on the death of his father, adopted by Capt. Charles Bishop of Cape Station, and had lived with that family for nine years. The sad accident caused a shock to the community.

GENERAL FRENCH IN MONTREAL

MONTREAL, July 9.—Major General Sir George French, accompanied by Lady French, arrived at the Windsor today from Ottawa. The general and his wife are en route home from Australia. The general is well known to Canadians. To his untiring energy and great executive ability was due the formation of the Northwest mounted police, of which he was commissioner from 1875 to 1878. Major General and Lady French will return to the old country in the Empress of Ireland on Thursday next. Mrs. Caroline Lyons, relict of the late Philo Lyons, died at her home Long Reach, Kings County, July 8th, after a lingering illness. The deceased, who was in the 73rd year of her age, leaves one son, T. R. Lyons, of Long Reach, and one daughter, Mrs. J. H. Cranbrook of Boston. Mr. E. Byard Seelye, of Boston, is a grandnephew of Mrs. Lyons. The interment was made on Saturday at Long Reach. The funeral was largely attended.

To the chief of police his mother said that about two years ago he suffered from nervous prostration. He has been employed in an office with comparatively easy hours.

Little Paul Daley, of 33 Charlotte street, was passing a yard yesterday near the corner of Orange and Carmarthen street when a dog owned by Geo. Dunaway rushed out at him, and catching him by the arm, sank its teeth through a heavy rubber coat, and left some bad bruises on the boy's arm. Police Sergeant Campbell was in the neighborhood at the time and ran to the boy's assistance. But the ferocious animal did not fear even a policeman, and before the sergeant succeeded in rescuing the boy he received the marks of the dog's teeth in his hand. The lad is recovering from the attack, but the dog died last night.

### WENT TO THE WEST SIDE TO LOOK AT THE SHORE

Aldermen Have Not Yet Come to Any Decision About the C. P. R.'s Request.

The committee which is considering the C. P. R.'s request for a stretch of shore front in rear of Protection street met yesterday afternoon. Nothing was done. The aldermen seemed to desire more definite information as to the area of the shore involved, and besides there was some question whether, in view of the nationalization of the port, it might not be well to consult with the dominion government. While no decision was reached on this, it is possible that Mayor Sears may go to Ottawa. A number of members of the committee went to the west side this morning to look over the ground. An official of the C. P. R. also went across to visit the property desired by the railway and to fix stakes. The committee will report back to the council.

### GOOD FIREWORKS FOR THE EXHIBITION

The Siege of Gibraltar Will be the Big Set Piece.

Many Suggestions Have Been Made About Plans for St. John Day at the Fair.

The exhibition management report that the people of St. John are showing more enthusiasm over the coming exhibition than has ever been known at any previous fair. This is due partly to the fact that larger features have been secured for this show than for any previous one, and partly because an efficient management have of late been hard at work stirring the people up to the necessity of making the affair a grand success. It has been decided to set apart labor day, which falls on Sept. 23, as a day for St. John people, and this date is to be known as St. John day at the exhibition. Many suggestions have been received as the best methods of assuring the success of this day and getting a large attendance of citizens. One suggestion is that quantities of tickets be issued to the leading employers and laborers at clubs, and other public bodies at reduced prices. A labor parade for that day has also been suggested. Some of the merchants are considering the question of distributing tickets for that particular day as premiums for goods bought at their stores.

The management also announce that they have made arrangements with Hand & Co., a responsible firm of Toronto, to put on the finest display of fireworks that has ever been seen in Canada. They will light the night during the exhibition. Each evening's display will conclude with one of the most charming features ever witnessed in fireworks, known as the Siege of Gibraltar.

### STRAWBERRIES FELL TO SEVEN CENTS A BOX.

Nearly Seven Hundred Crates Arrived Here Yesterday

And the Wholesale Price Dropped From Ten to Seven Cents—Will be a Further Slump on Thursday.

Strawberries took a rapid drop in price yesterday. This was caused by the large quantities which came down in the river boats. Yesterday morning berries were selling at ten cents per box (wholesale), but upon the arrival of a lot of old potatoes also came down on the boats yesterday and were sold at \$1.50 per barrel.

Green peas are also beginning to arrive. The first lot came down in the Crystal Stream on Friday and sold for two dollars per bushel. About forty bushels came down on the different boats yesterday and there were quickly snapped up at \$1.75 per bushel.

A lot of old potatoes also came down on the boats yesterday and were sold at \$1.50 per barrel.

### NEED OUTSIDE MEN FOR THE NEW FIELD BATTERY

Officers Find It Difficult to Secure in St. John Enough Recruits Who Can Bring Horses With Them

It is not improbable that outside towns will have to be called upon to assist in the formation of the 19th Field Battery. The officers of the new battery do not find that there is any scarcity of men in St. John, but they realize that capable men with horses are not as plentiful as could be wished. They will have no difficulty in securing enough recruits to complete the battery, and in fact there is a sufficient number of names on the roll at present, but they are up against the difficulty of getting the horses, and in picking out men who are able to properly look after them. While nothing has yet been decided, it seems that about the only course left open for the officers is to seek recruits in some of the other provincial towns, men who will bring their horses along with them to camp. One hundred and one men are needed altogether in the battery, and between forty and fifty of these will be required to either ride or drive horses, so that it is probable that not more than sixty St. John men will be given places in the new battery.

### ANOTHER FIVE HUNDRED.

The steamer Calvin Austin on the direct route from Boston arrived here at 9.30 this morning. She brought 500 passengers. Of these 250 were bound for points in Nova Scotia and Prince Edward Island. The other 250 had only local tickets. Capt. Pike says the trip has been an unusually gloomy one as they encountered thick fogs ever since leaving Boston.

The Austin is starting in the passenger season well. During her three trips she has brought 1,500 passengers to St. John.
