## THE GRANITE TOWN GREETINGS

### Good, Pure, Whole-some Water

From Nature's Reservoir :  
Mother Earth.

Now is the time to get a good Water Supply and have it at your door, where you only have to step out and get all the water you want; or have it in the house, and not have to carry it from a spring away down in the field. No roads to break in the winter for water. We have a drilling machine in town now and can attend to anyone wanting water. Correspondence solicited. Quotations furnished on application to

**THOS. R. KENT,**  
CONTRACTOR FOR ARTESIAN WELLS,  
ST. GEORGE N. B.

### Never lingers. The aroma lingers. The pleasure lingers.

And you will linger  
over your cup of **CHASE  
& SANBORN'S SEAL  
BRAND COFFEE.**

In 1 and 2 pound tin cans. Never in bulk.

**F. M. CAWLEY**  
ST. GEORGE, N. B.  
Undertaker and Embalmer

Complete stock Funeral Supplies on hand  
Prices lower than any competitor

**J. B. SPEAR**  
Undertaker and Funeral Director

A full supply of funeral goods always on hand.

Telephone at Residence

All goods delivered free. Prices to suit the people

HEADQUARTERS FOR  
**Union Blend Tea**  
Wanted

A Large Quantity of

Lamb Pelts  
Butter  
Eggs  
Tallow  
Deer Skins  
Moose Hides  
Rubbers  
Calf Skins

Large and Small lots of Furs bought.  
Furs by Mail or Express will receive  
strict attention and prompt returns.

**James McGarrigle**  
Utopia, N. B.

## Free from Alcohol

Since May, 1906, Ayer's Sarsaparilla has been entirely free from alcohol. If you are in poor health, weak, pale, nervous, ask your doctor about taking this non-alcoholic tonic and alterative. If he has a better medicine, take his. Get the best always. This is our advice.

**Ayer's**  
We publish our formulae  
We banish alcohol  
from our medicines  
We urge you to  
consult your  
doctor

A sluggish liver means a coated tongue, a bad breath, and constipated bowels. The question is, "What is the best thing to do under such circumstances?" Ask your doctor if this is not a good answer: "Take laxative doses of Ayer's Pills."  
*Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.*

## Jokers Column

Visiting preacher (after the service)—Well, the congregation stayed all through the sermon.

Head Deacon—Young man, the people of this city are not noted for walking in their sleep.

Reggy—Yaas, several years ago I fell in love with a girl, but she rejected me, doncher know—made a regular fool of me.

Peggy—Now, that's what I call a measly shame. I've often wondered how it happened.

—The teacher had been telling the class about the rhinoceros family. "Now, name some things," said she, "that are very dangerous to get near to, and that have horns."

"Automobiles!" replied little Jennie Jones, promptly.

"Move inside, gents," cried the conductor on the crowded trolley. "Ye're breakin' the rules standin' on the platform here."

"Some o' them ain't," piped up a little man. "They're standin' on my feet."

—Review.

(London Tit-Bits.)  
An alien wanted to be naturalized and was required to fill out a blank. The first three lines had the following question:

"Name? 'Born?' and 'Business?"

He answered:  
"Name, Michael Harris; born, yes; business, booming."

(Puck)

"Sir, I wish to make your daughter my wife!"

The old man hesitated. "Hain't you better see her mother first?" he asked, gently, after thinking a moment.

"I've seen her mother, and it doesn't make any difference—I'm willing to take the chances!" exclaimed the youth, with all the ardor of honest love.

(Philadelphia Post.)

It was only a small point of law, but the two counsels were hammering at one another tooth and nail. They had been submitting this and that to his honor for twenty minutes, and growing more and more heated as they argued.

At last:  
"You're an ass, sir," shrieked one.

"And you're a liar, sir," roared the other.

Then the judge woke up.

"Now that counsel have identified each other," said he, "let us proceed to the disputed points."

William T. Stead, the editor of the English Reviews of Reviews tells the story of an Irishman who applied to one of his friends for a position as coachman.

"You know Pat if I engage you I shall expect you to do things by combination. For instance if I tell you to bring the carriage round at a given time I shall expect the horses with it and driving gloves, etc."

"Yes, sorr," said Pat.

"He was duly engaged and gave satisfaction. One day his master came to him telling him to look sharp and go for a doctor, as his mistress was ill. Pat was

gone for a long time and on his return he said: "Sorr, they're all here, sorr."

"All here, said the master, what do you mean?"

"Didn't you tell me to do things by combination?"

"What's that got to do with it?" said the master.

"Well," said Pat, "I've got the doctor, the parson and the undertaker."

## Guard Against Rot and Scab

### At Planting Time

The early blight, late blight and the scab annually cause considerable loss to the potato growers of New Brunswick, and hence it is very important that the treatment of seed potatoes previous to planting should be more generally understood and practiced.

### Potato Scab

The main source of this disease is generally scabby seed and like most fungous diseases when once carried to the soil it spreads very rapidly. There is no doubt that many potatoes which leave the field quite free from the disease become infected in the place of storage by spores from tubers on which the disease had developed in the field. As potato scab spores will retain their vitality in the soil for as long as five or six years, it is not unusual to plant clean seed and still harvest a scabby crop.

Treatment of Seed for Scab. Unless absolutely necessary do not use scabby potatoes for seed. As many tubers are infected, although not outwardly showing the disease, the safest plan is to treat all seed potatoes by immersing them in a solution of standard 40 per cent formalin, one pint to thirty gallons of water in a barrel. Place about one and a half bushels of whole potatoes in a sack and immerse for one and a half hours, then remove, drain off the liquid and let dry. When from 25 to 30 barrels of potatoes are to be treated, it would be well to use the method advocated by the Maine College of Agriculture. "Make up a solution same as above. Empty a sack of potatoes onto the barn floor and spray them thoroughly with the formalin solution; empty another sack onto this pile; wet those thoroughly and continue this until all seed is in the pile, then cover with canvas, blankets, etc., and let these remain on for from 4 to 5 hours.

Treatment of Scab Infected Soils. It is important to remember that the best results from the treatment of the seed cannot be expected unless reasonable precautions are taken to keep the soil clean. Bags, baskets, boxes, barrels and implements that have been in contact with scabby seed or infected soil should be thoroughly disinfected with the formalin solution. Avoid planting mangels, beets, turnips, potatoes, etc., on infected land. A long rotation of noed crops, grain and grasses is advisable as the turning under of green and other crops tends to produce a condition of the land unfavourable to the disease. Avoid as far as possible the use of fresh manures, ashes and lime, as these produce a condition favourable to the spread of the disease. Burn or feed all parings from scabby potatoes."

### Early and Late Plantings

For a long time it was generally conceded that practically no infection of blight or disease occurred from the spores of the fungus wintering over in the tubers in some form or other. In fact, the general idea has been that practically all the infection was due both to the presence of spores in the soil and on certain nearby host plants, which spores only awaited favourable germination conditions to infest the crop. Working on this theory, growers and experiment station investigators have assumed that repeated sprayings with Bordeaux Mixture would completely prevent the disease. This assumption, however, has not in all cases proved true and recent experiments conducted at the Royal Botanical Gardens, Kew, England indicate that a large amount of potato disease of early and late blight is produced from latest mycelium, that is a spore producing body remaining inactive in the tuber in winter, and which is consequently present in the sets when planted.

Now that the one-time suspicion that tubers carried disease over winter in this fashion has become an established fact, the great importance of preventing disease by treatment before planting is readily understood.

### Preventive Measures

The presence of this latent mycelium in a potato is easily detected by removing a slice from the heel end, when it will be visible as so many thin, reddish-brown threads or streaks. All such potatoes should be destroyed by burning or feeding to the pigs. As removing a portion from the heel of a potato is more beneficial than injurious, there is no

### Sabbath Observance

The importance of Sabbath in the higher civilization of the world cannot be overestimated. The fact that one day in every seven, for a great many centuries and with a very large part of the human race, the associations of the mind and of the hands have been entirely changed, has been perhaps the greatest single educational influence exerted upon men. Whether one keeps Sunday as it ought to be kept or not, the day is now so freighted with associations that it is almost impossible for a man in a Christian community not to receive some higher influence from it. It is, therefore, as valuable to the spiritual as to the unspiritual, for while a man may not need the spirit of worship, he can hardly fail, if he have any sensitiveness, to be benefited by its atmosphere. A great thinker once said that the real test of society is still to be met; that test will come when all the material wants of men are supplied and when wealth in all forms has been accumulated beyond all the dreams of the past. That time is visibly approaching, though we have not yet reached it. Now that science has got into partnership with business, the possibilities of wealth are practically limitless. Men are fast becoming magicians, with magical command over the sources of prosperity; it remains to be seen whether they will be the masters of the servants of the immense capital of comfort, ease and pleasure which they are beginning to accumulate. Society will not go back into barbarism, but it may revert to paganism in its higher forms; that is to say, it may lose touch with the spiritual realities in its passionate striving for the material.

### Don't Forget.

A man's life is full of crosses and temptations.

He comes into this world without his consent and goes out against its will, and the trip between the two is exceedingly rocky.

The rule of contrariness is one of the features of the trip.

When he is little the big girls kiss him and when he is grown up the little girls kiss him.

If he is rich, he is dishonest.

If he needs credit he can't get it if he is prosperous everyone wants to do him a favor.

If he dies young there is a great future before him.

If he lived to an old age he has missed his calling.

The road is rocky, but man loves to travel it.

### Yuh Kin Only Hang Yuh Hat Just as High as yuh Kin Reach"

(Toronto World)  
A stalwart, good natured darkey entered a department of one of the largest stores in Toronto a few days ago and asked the clerk for blankets. He wished to buy a couple. The clerk got out several samples and displayed them.

"This one," he said to the darkey, "costs \$1.30. That one we sell for \$2.10. "Which am de betta?" asked the customer.

"Well, that is a good article at \$1.30, but of course it is not by any means equal to the other. I would advise you to take the more expensive one, not because we desire to sell it to you, but because its superiority represents more than the difference in the price."

The darkey mused a moment, turned a cigar over in his teeth and looked again at the two blankets. The clerk, who had held his attention, would not be better, he thought, in his home. The arguments of the clerk were strong and almost convinced him.

"You had better take the \$2.10 one, sir. You will find it will pay in the long run."

The darkey put his hand down in his pocket, pulled out a dollar and a half, of which he handed a dollar thirty to the counter man and he said:

"Mistah, yuh kin only hang yuh hat just as high as yuh kin reach."

There is more philosophy in this homely expression than we realize. Too many people have not the good judgement of this black man. "They are trying to hang their hats too high."

In the cities, particularly, is there constant evidence of this fact. Men who are advanced to fair positions over-estimate their importance in the world. They conclude that the house they own is too small and not sufficiently stylish. Their wives declare that Mrs. So-and-So dresses better than they, and ride out in automobiles instead of street cars. Another maid will be necessary to preserve family aristocracy and the summer will have to be spent at the popular resort and the winter in lavish entertainments.

This is all well and good while the money bag is fat. As long as papa can "put his hand down and pull out cheques and healthy bills everything suits along charmingly. But tailors and butchers, and rent accounts have a mean way of stealthily accumulating it. The night they seem to come out of the nowhere into every place, and after a time dad-die is obliged to mortgage his property or sell what he owns to pay debts.

He And his wife tried to hang their hats higher than they could reach.

The inexperienced politician starts out on his campaign. He believes that his view is the only one, and that his rival is a scoundrel because he upholds an opposite party. He vilifies his opponent, throws mud at his character and besmirches his name. The elections are held and the inexperienced candidate is defeated at the polls, not because his ambitions were too modest, not because he stood for impure government, not because he represented the wrong party, but because he did not know how to conduct a campaign.

The woman who regards her social position so much that she becomes vain spends all her time and money on frills instead of on art and literature, who becomes snobbish and haughty with others less fortunate, is in the same category as all other fools. She has not learned well and valuable maxims expressed by the darkey, who fortunately knew his limitations and cut cloth according to his measure.

If all who read of this incident would cut out the sayings and memorize it, they would be saved many a blunder in life through life.

"Yuh kin only hang yuh hat just as high as yuh kin reach."

### BRONCHITIS COMPLETELY CURED.

St. Jean, P.Q., Jan. 5th, 1910.  
Father Morrisey Med. Co. Ltd.,  
I can gratefully testify in favor of Father Morrisey's Remedy for Bronchial trouble. I had suffered for some time from Bronchitis, and could get nothing to give me ease, until I tried Father Morrisey's Prescription (No. 10). To my great surprise, after I had taken this remedy I commenced to grow better, and soon after I was completely cured.  
Mde. GEORGE DESMARAIS.  
Everybody knows that many common roots, barks and herbs contain Nature's own provision for the relief of coughs and colds. It remained for Father Morrisey, with his wonderful medical skill, to combine extracts from these in such a way as to make the most effective cure for all forms of throat and lung troubles.  
His prescription, known as "Father Morrisey's No. 10" or "Lung Tonic", stops a cough by curing the inflamed condition of throat or lungs which causes it. It goes a step further, too, and earns its name of "Lung Tonic" by strengthening the weakened parts.  
Trial size 25c. Regular size 50c. At your dealer's or from Father Morrisey Medicine Co., Ltd., Chatham, N.B.

### The Secret of a Long Life.

You sometimes see a woman whose old age is as exquisite as was the perfect bloom of her youth. She seems condensed sweetness and grace. You wonder how this has come about; you wonder how it is her life has been a long and happy one. Here are some of the reasons:

(a) She knew how to get disagreeable things.

(b) She understood the art of enjoyment.

(c) She kept her nerves well in hand, and inflicted on no one.

(d) She believed in the goodness of her own daughters and in that of her neighbors.

(e) She cultivated a good digestion.

(f) She mastered the art of saying pleasant words.

(g) She did not expect too much from her friends.

(h) She made whatever work came to her congenial.

(i) She retained her illusions, and did not believe that all the world was wicked and unkind.

(j) She relieved the miserable and sympathized with the sorrowful.

(k) She retained an even disposition, and made the best of everything.

(l) She did whatever came to her cheerful and well.

(m) She never forgot that kind words and a smile cost nothing but are priceless treasures to the discouraged.

(n) She did not let others as she would be done by and that old age has come to her and there is a halo of white hair about her head she is loved and considered.

(o) This is the secret of a long life and a happy one.

### Are you Pale Anemic?

Anemic means colorless blood--means languor, blanched lips, faded cheeks. You grow irritable, nervous, suffer functional irregularity. This condition can't exist if there is plenty of healthy blood. Ferronze makes good blood, rich nutritious blood--that's why it cures. Its concentrated form Ferronze contains certain rare qualities that render it unfailing in Anemia, languor, poor color and loss of weight. To build up--feel young and vigorous, nothing is better than Ferronze. At all dealers in 50c. boxes.

### Port Paragraphs.

Not being miserable may not be a synonym for true happiness, but it does not miss it many shades.

The girl who doesn't know that she would make a brilliant appearance on the stage and electrify the historic and theater-going world is a girl of extraordinary good judgment.

Most of us are generous to a fault if the ownership of the fault happens to inhere in ourselves.

There are people who are just as good as they can be without doing any great stunts or being good either.

The most skillful flatterer is he who without being anyway specific manages to make you feel immensely superior.

After spending her money a woman finds she has one wise left ungratified, and that is more money.

Having too many blessings sets the average mortal to fussing around until he finds a burden he can pull down on himself.

Prescriptions--those Caudle Cold Cure Tablets will safely and quickly check all colds and coughs. Try them and once you've tried them, you'll buy them.

### King's Police Medal for Brave Constables Throughout The Empire.

It Will be Awarded for Conspicuous Gallantry by Police or Firemen, Thirty Going Each Year Beyond the Seas.

An important and interesting despatch from Downing St., deals with the institution by His Majesty of 'the King's Police Medal,' a decoration to be awarded to members of the constabulary forces and fire brigades throughout His Majesty's dominions, colonies and protected territories, and for which all members of recognized British police forces and fire brigades are eligible, provided that the services for which they are recommended satisfy the conditions of the regulations, which are, briefly, as follows:--

(a) Conspicuous gallantry in saving life and property, or in preventing crime or arresting criminals: the risks incurred to be estimated with due regard to the obligations and duties of the officers concerned.

(b) A specially distinguished record in administrative or detective service.

(c) Success in organizing police forces or fire brigades or departments, or in maintaining their organization under special difficulties.

(d) Special services in dealing with serious or in widespread outbreaks of crime or public disorder, or of fire.

(e) Valuable political and secret services.

(f) Special service to royalty and heads of States.

(g) Prolonged service; but only when distinguished by very exceptional ability and merit.

The number of medals to be awarded for service for service in His Majesty's Dominions Beyond the Seas is not to exceed thirty in any one year. There will be an annual award of this medal, and any recommendations which Colonial Ministers may wish to make should reach Downing St., by the thirtieth September in each year. It is essential that every such recommendation should specify the particular act of gallantry or special service, on record of service, in respect of which the candidate is recommended.

The medal is to be designated and 'The King's Police Medal,' and is to consist of a circular Medal of Silver with our Effigy on the obverse, and off-reverse a design emblematic of Protection from danger and shall bear on the rim the name of the person to whom the medal is awarded. The medal is to be worn by those to whom it may be awarded suspended on the left breast, the riband-an inch and three-quarters in width--being of dark blue, with a narrow silver stripe on either side. Additional acts of gallantry performed by those who may have previously won the King's Police Medal will be rewarded with additional bars.

The old-fashioned way of dosing a weak stomach; or stimulating the Heart or Kidneys is all wrong. Dr. Shoop's first pointed at this error. This is why his prescription--Dr. Shoop's Restorative is directed entirely to the cause of these ailments--the weak inside or controlling nerves. It isn't so difficult, says Dr. Shoop, to strengthen a weak Stomach, Heart or Kidneys, if one goes at it correctly. Each inside organ has its controlling or inside nerve. When these nerves fall, then those organs must surely falter. These vital truths are leading druggists everywhere to dispense and recommend Dr. Shoop's Restorative. Test it a few days, and see! Improvement will promptly and surely follow. Sold by all druggists.

Canada's financial statement for the last fiscal year shows a greatly increased revenues, and a large balance on other side. The country is very prosperous, and the progressive policy of the government has borne splendid fruit in the past. The eyes of the world today are turned on Canada, the young giant of the north.

### Beware of Cocaine Medicines

Thousands of Drug Fiends have been started on their downward course through Catarrh snuffs containing this habit forming drug. If you suffer from a cold, sneezing or Catarrh--don't use a snuff--use a sensible treatment like Catarrh-rhine. It heals and soothes, brings relief at once, cures thoroughly. In Bronchitis and throat trouble no doctor can do better than prescribe Catarrh-rhine. Try it--see what wonders it works--what power it possesses. Different from the way--on inhaled Catarrh-rhine. Sold in 25c. and 1.00 sizes by all dealers.

### Average Wage Boston Working Women

(From the Boston American)

The above wages, taken in consideration with those paid the younger girls, makes the average wage of Boston women \$4.37. The young woman who comes to this city to get work, and tries to live upon five dollars a week will have a hard time with the present prices of necessities. Facts and figures would indicate that the girl in the country would better remain there, if she has a home, for coming to the city to make her own way means much hardship and tribulation--even were she speedily able to obtain work.

Women who are forced to provide for themselves find that in union there is advantage, for if they have a girl friend share in paying the room rent a great saving results at once. With this combination it is possible for two girls to obtain board and room for \$2.50 to \$3 a week in Boston. Some young women are getting cheaper accommodations even than this. Then fifty cents a week was paid for washing, and the remainder of the five dollars goes for incidentals.

### CLOTHING A PROBLEM

Fifty cents must be laid aside weekly for a new dress or to buy an extra skirt or some of the necessities. Many of these girls make a dress last two years by ripping it up and making it over, or making over the skirt and then getting a cheap shirt waist.

Those who are forced to live on five dollars a week in this city are very ingenious in their plans. They help one another in the evening to make clothes, so that a girl who would otherwise find it hard to get anything new in the way of a dress is often aided in the desire by a few of her young women chums.

Shoes are an item in the expenses of a young woman's account that mean something. She must pay as much as two dollars and fifty cents per pair for them, and she is obliged to have at least two pairs a year.

Young women in the city of New Bedford are greatly aided in getting their wearing apparel by a co-operative sales store, where the rich of New York and Newport and other places send their cast-off garments, receiving for them about fifty per cent. of their value. These goods are then sold to the public at a small cost, and the girls are able to dress better and get more for their money than in this city. These girls work in the cotton mills, and by this agency get much in the way of wearing material which the young women of Boston are deprived of.

### SICKNESS GREAT DANGER

The young woman who lives at home can live upon the \$5 simply because she has the consideration of her parents.

The event of sickness or non-employment for a short time, puts a girl of this salary into a bad plight in this city. Many harrowing tales of misfortune are continually coming to light for girls or young women, who have lost their positions through no fault of their own and are stranded.

These girls are often bridged over their difficulty by other young women, who have been known to shield them from losing their boarding places by others who are working and are willing to club together and aid themselves. Some heroic examples in this particular of young women, helping one another, have lately come to light at the State Employment Bureau in Kneeland Street.

The young woman who lives upon \$9 a week makes the following expenses:

Board and lodging \$3.75

Clothing 2.50

Washing .75

Incidentals 1.00

For rainy day or old folks 1.00

Total \$9.00

### LIVING ON \$5 A WEEK.

The young woman who is trying to live upon \$5 a week divides up this way:

Boarding and lodging \$2.50

Washing .50

Clothes 1.00

Incidentals 1.00

Total \$5.00

The woman who is obliged to live upon \$5 a week has the struggle and often cannot meet her expenses.

The housemaid is the most fortunate of all the women workers. She receives \$5 a week and her board, and can often save about \$15 a month, providing she

has no one to take care of but herself. She may not have so much time at her control as those in other positions, but she is more independent, because her board is always paid, and she has no expenses, except for her clothing and a few incidentals.

It is the United opinion of those in the employment agencies of this city that more women must eventually offer themselves for housework. The demand here is greater than the supply. The only drawback to it at present is the impression that a young woman lowers herself, in the estimate of her companions, when she becomes a servant in the family life, and prefers to be a slave in the commercial life, where her wages are less than her expenses.

### Making a Hotbed.

Every farmer may have at trifling cost a few feet square covered with grass to bring forward at least some lettuce, tomatoes, cabbage, peppers, eggplant, etc. Sashes 3 x 6 are the most convenient. Three such sashes will cover a bed of sufficient size will cover a bed for most families.

A frame nine feet long and of a width corresponding to the length of the sash may be made of plank or inch boards. It should be 12 inches deep at the front and about 18 inches at the back. The bed should be prepared on the southerly side of a wall, board fence, hedge or lawn.

Dig out a space as large as the frame 18 inches deep and fill with horse manure mixed with oak leaves or straw one foot deep.

Tread it down moderately, cover with good garden soil mixed with a little ashes, plaster and fine compost put on the frame and bank up the outside with coarse manure, straw or mulch of any kind. Cover with glass, and let it remain until the bed has become warmed by fermentation. The glass should be covered at night to prevent the radiation of the heat.

When the soil should be at least six inches deep, is in a proper state sow the seed in rows at suitable distances. When the seeds begin to sprout sprinkle the surface occasionally with the watering pot. In the middle of pleasant days slide off the glass to give them air. It is important to attend this, as growing plants need a plentiful supply of fresh air.

After the plants are well above the surface the sash should be lifted whenever the sun is shining clear and warm, lest they be scorched. Sometimes a few hours' neglect of this precaution will greatly injure or entirely ruin the plants.

The year 1909 will be marked in the calendar as a red letter year in the history of the cause against consumption. The movements received a great impulse from the congress of distinguished physicians which was held in Washington, U. S. in the autumn of 1908 to consider the further measures to be taken to stamp out this dreadful enemy to the life and happiness of mankind.

Canada is common with the rest of North America, perhaps we should say the whole civilized world, has participated in the renewed and increased activity which resulted from the deliberations of the congress.

Never since the organization of the Canadian Association for the Prevention of Tuberculosis has there been such activity displayed in Canada in this fight for life. Older branch associations have been reinvigorated, new associations have been formed which are showing in many cases a vigorous activity. Several new institutions for the relief and treatment of consumptives have been opened and the demand for our literature has been larger than ever. Take it all in all 1909 was a year of great progress in the work of the Association.

The Tenth Annual Meeting will be held in Montreal on the 7th of June next and preparations are being made to make this one of the best, if not the best meeting in the history of the Association.

### Life Will be Shortened

Those who fail to observe the fundamental rules of health, especially those who neglect constipation, will have short lives. Constipation ruins health, destroys vitality, weakens the blood, causes dyspepsia, nervousness and insomnia. Why not use Dr. Hamilton's Pills and be cured. Take one or two pills before retiring and you're well next morning. No grip or pain, no headache and nausea when you use Dr. Hamilton's Pills--they cure scientifically. Positively the best laxative known, 25c. at all dealers.

EDITOR. MANAGER.

WEDNESDAY, APRIL 20, 1910.

### St. John the New York of Canada

Before the last Federal Election certain plans were made by those interested for the making of a greater St. John, and Dr. Pugsley led the people to believe that these plans would be carried out. Certain skeptical ones shrugged their shoulders and shook their heads saying "a campaign dodge to get votes." It now looks as though these pre-election assurances were to be realized, and much more. Plans are already well matured for the establishment of one of the great Dry Docks for the Canadian and British Navy, at the cost of about \$2,000,000. With this also the installation of a great steel ship building plant. This will make necessary the dredging of Courtney Bay at an immense cost. Whatever reasons may be given for St. John being selected for this great work, there is one which stands out most prominently. It is this, St. John has a man to represent them, who evidently has one word continually before him, and that word is "St. John." And that man is Dr. Pugsley. St. John is fortunate in having such a representative who has the ear of the Government, and whose official position gives him influence with the British Admiralty and with the wealthy ship building firms of Britain. Halifax has a better harbor and a better harbor than either, but St. John has the man behind the guns. With these St. John is to have an immense Sugar Refinery, McAvity's enlarged foundry and works, and a large woollen ware factory at South Bay. St. John is evidently "it," and deserves all she is getting and more.

That St. John is to become a "greater St. John" is evidenced from at least three facts. The rapidly growing and soon to be enormous volume of the ocean-borne trade of Canada; the determination of the Liberal Government that all the trade of the country shall be carried on through Canadian channels, the position of St. John as a winter port when the St. Lawrence ports are closed to navigation being distanced from Liverpool 2700 miles, while the distance from Portland to Liverpool is 2043, Boston to Liverpool 2,807 and New York to Liverpool 3,034 miles. The obvious advantage of St. John over other ports in matter of railway haulage and competition, is great with the deepening of the harbor and building of wharves St. John will be master of the situation. How about our promised and much needed public building? Can we not get a move on and have this matter so pressed upon the attention of our representatives as to have at least \$12,000 placed in the estimates as a starter for this work. A beautiful site awaits such a building, at Murphy's Corner and we hope soon to see it beautifying the old corner. We hope our representatives may be to us what Dr. Pugsley is to St. John.

### Let's Clean up the Town

Housecleaning time with all its woes and sorrows has arrived. During this period we men never question woman's rights but manly beat the carpets, hang the paper, and fix things up to suit the feminine mind. But is there no other way by which we men can show our mettle? Certainly. Can we not clean up the town? May 6th has been appointed Arbor Day. Can we not write to beautify our town by a general clean-up? Many of our private citizens have added greatly to the attractiveness of our town by improving the appearance of their own properties. We have numerous "pretty private grounds and these are increasing year by year but there are places in the town that rather detract from the enterprise of those who take pride in keeping their premises in a creditable condition.

Yes we need a general clean-up all over town. How can this best be done? Well let every householder be responsible for his own premises. With the arrival of spring one to all should make an effort to get rid of all the winter's debris. Every yard should be thoroughly raked and the refuse burned or removed, and this alone having been done, it will make a vast difference in the appearance of the community as a whole. Then let us look after the business section. This will possibly appear a more difficult problem but a change for the better can be effected with a little care. That discarded box or that pile of barrels which have been an eyesore to the community for some time can be placed in a less conspicuous place. The employees of the different places of business should take pride enough to do this. The change which would result would be surprising. Then, the Clergy can with profit devote a part of one sermon within the next few weeks to a cleaner St. George. "Cleanliness is next to Godliness" Pulpit talks will do much to attract attention to the need for better things and men and women will be inspired to take hold and accomplish something. Let us all try and make the civic housecleaning of 1910 something that will be remembered. All we need is to have our town thoroughly cleaned up for one year and the result will be so pleasing that we will have no trouble in establishing a similar operation for years to come. The experiment is worth a trial is it not? Well, all having agreed upon this let every one lend a hand and Clean up the Town.

### OBITUARY.

#### DR. JOHN LAWSON

St. Stephen, April 18—Dr. John Lawson, of this town, died suddenly of heart failure at his home, corner of Marks and Union streets, last night. He was for a number of years located at Horton, King's County, and went from here to Grand Manan, where he remained for several years before coming to this town about five years ago. He practiced here for a short time when he had to give up his work on account of ill health. He suffered from a paralytic stroke about a year ago.

Dr. Lawson was a gentleman of most sympathetic nature and the news of his death will be heard with deep regret by his many friends in different sections of the province. He was fifty eight years of age and leaves a widow, three sons, one daughter—Dr. Harry Lawson who is located at Rollingdam; Walter, attending the Normal, and manual training schools at Fredericton, and Gordon and Ethel at home. The funeral will take place Thursday afternoon at 2:30 o'clock—Telegraph.

#### GEORGE I. HILL

St. Stephen, N. B., April 17—Geo. I. Hill, one of our best known citizens passed away this afternoon at his farm on the river bank two miles above Milltown. He had been in failing health for some years but had only been confined to his home for a few weeks.

The deceased gentleman was born in this county about seventy-three years ago but had spent most of his life in the United States, returning here about twenty years ago. His wife, who is a sister of Senator Gillmor, survives with three daughters and two sons, several of whom reside in Alaska. Mr. Hill was a genial, kindly man, and was held in high esteem.

He served as a member of the county council for several years, and was an unsuccessful candidate for the local house in the election of March 1908.—Standard.

### BASKETBALL.

Several games of basketball have been played by the St. George High School girls. The first match was played March 18th.

The line up was as follows:—  
Nestorians Wabenos  
E. Armstrong, Centre. L. Armstrong  
H. Craig Forwards. N. Finnigan  
H. Greason H. McMillan  
Ray Cawley Guards. Ida Spear  
H. Kernighan Violet Harvey  
Miss Knight—Referee.

The score being 15-14 in favor of Wabenos.

The second game was played March 30th. The score was 28-14 in favor of Nestorians.

The third and last game of the season was played April 15th. The score being 21-7 in favor of Nestorians.

## JAMES O'NEILL,

Dry Goods and Gents' Furnishings.

ST. GEORGE, - - N. B.

# MC2465 POOR DOCUMENT

THE GRANVILLE TOWN GREETINGS

**LOCAL AND SPECIAL.**

Inspector McLean has appointed May 6th as Arbor Day.

James O'Neill has an exceptionally good line of boys spring clothing. Call and see for yourself.

Henry Crear has been appointed Chief Superintendent of Highway structures. He repaired Linton bridge yesterday.

Changes of ads. Hanson Bros, Jas. O'Neill, J. Dewar & Sons, D. Bassen, new ad. Miss Jennie Meating.

The Schr. Francis Goodnow arrived on Saturday from Norwalk and is loading pulp at the wharf.

We make a specialty of fine job work. Send your orders in to our office and we can satisfy you.

The Conservative convention which was to be held at Ottawa in June has been postponed.

The rain of yesterday filled the cisterns in the neighborhood, many of which have been empty during the past few days owing to the recent dry weather.

The Times-Star has raised its subscription price from one dollar a year to two dollars a year outside of the city of St. John.

The American Bible Society has succeeded in raising \$500,000 and so is entitled to lay claim to the half-million offered by Mrs. Russell Sage.

Legislation now going through the Dominion parliament will increase the salary of Post Office Inspector Cole from \$2600 to \$3500 a year.

A dance was held in the Drageo-gean hall on Monday evening. Quite a number were present and all report a good time.

Boston and New York opened the American League series on Thursday with a 14 innings game. The game was called on account of darkness with the score standing 4 to 4.

The Stmr. Connors Bros. arrived on Monday evening and discharged an unusual large cargo of freight for local merchants. She left for Blacks Harbor yesterday.

The provincial government, at a meeting held in St. John on Tuesday afternoon, appointed David F. Maxwell of St. Stephen, the engineer to make the preliminary surveys of the John Valley Railway.

In selecting spring clothes, you won't object to a little better quality and more style for the price you intend paying. Go to Hanson Bros. and get more than you could ordinarily expect.

Militia Camp will be held at Sussex on June 28th. It is expected this will be the largest camp held for some years. The corps from this section of the province will be in attendance. Preliminary sub-gun drill will be commenced by the different companies this week.

The many friends of Mr. T. L. Coffey will be glad to hear that he is recovering from the accident he met with some time ago. He is now able to be out, and walks around with the aid of a crutch, and the doctor is in hopes that in a short time, he will be able to discard it altogether.

Diphtheria seems to be prevalent in Pennfield. Mrs. Leslie Armstrong and her three children are all sick with it; a nurse from St. John is engaged with them and they are recovering. Dr. Taylor is in attendance.

Good progress is being made on the work on Cummings wharf, Deer Island. It is thought that the inside crib will be ready to sink this week. Engineer Tapley is on the island and will oversee the work of sinking the crib.

James Fraser has purchased a fine Clydesdale horse from New River.

The rain yesterday was welcome. A weeks good rain would be a great benefit to the farmers and lumbermen.

The Trans Atlantic liner Minniehaha which went ashore on Monday morning of the Scilly Islands is still fast on the rocks. All the passengers were saved, and most of the cargo will be taken off in safety.

A great deal of interest is shown in the great marathon race in Boston. There were 200 starters. Among those picked to win are Mike Ryan, of New York, and Bob Fowler of Cambridge. The Canadian entries are also among the favorites.

For your Furnishings, Neckwear, Hosiery, Shirts, Hats, Caps and underwear, try Hanson Bros. this spring and get better values than you ever got before.

Principal Assessor James Farrell, one of the most highly respected citizens of Fredericton passed away on Monday morning as a result of a paralytic stroke at the age of seventy-six years.

Baseball matters are booming. The organizing committee are busy and have succeeded in securing quite a number of subscriptions to the cause. They are now engaged in making out byelaws and erecting a field. It is quite probable that Mr. McCallum will rent his field to the club for the season. This seems to be about the best field in sight. Another meeting will be held in the near future.

The sardine season opened on the 15th inst, but the weirs have failed to show signs of herring in any quantity. A few small herring are reported at Letete and other places but not sufficient to open the factories. The spring school which brings the fishermen \$12 per-hogshend is anxiously awaited.

Members of the Baptist Mission Board of Ontario and Quebec held a conference with representatives of the Foreign Mission Board of the Maritime Provinces at St. John yesterday and discussed the question of a formation of one Baptist Foreign Mission Board for Dominion of Canada.

W. S. Carter, superintendent of education for the province, announced yesterday that the Provincial Teachers Institute will be held in St. John this year, the dates being June 29 and 30. Among the speakers will be: Dr. John Brittain, Dr. Borden, of Sackville, Dr. A. H. Mackay, of Nova Scotia, and other prominent men. Mr. Carter also announced that the alumni of the U. N. B. have received a gift of \$200 from Judge Wetmore, a graduate who is now in the west. The money is to be used for scholarship, \$50 being given each year for four years to some deserving student.

Miss Ethel McNichol will continue her summer class in St. George beginning June 1st. Miss MacNichol's special training consists of the three year's course, private and class instruction, in New England Conservatory, general and Normal work, also three year's personal experience in private and class work in Forest Hills and Cambridge, Mass. New England Conservatory graded course for beginners. All music used for teaching of most reliable graded and fingered editions.

The Maritime Oil Fields Company have made another big strike of oil in a well just completed near Hillsboro. At 1,000 feet a large flow of gas was struck and at 1,700 feet oil sands were struck. Saturday night last a well was completed at a depth of 2,000 feet. This morning it was found that the natural flow of oil had risen 100 feet in each inch hole, which is probably the best oil results so far obtained. It is expected when the well is shot the latter part of this week the well will yield at once at least forty or fifty barrels of oil. The oil has been tested and found to be extra good quality. Thirty-two is first quality but this oil goes as high as thirty-two.

The company now has their oil and gas producing wells on the Albert county side and are greatly encouraged at the prospects. Work will be done in the near future on the new wells which are expected to produce a large quantity of oil.

**- FRAULEY BROS., -**

- - HEAD - TO - FOOT - OUTFITTERS. - -

**Real Snappy Suits**

**In Exclusive Patterns**

These suits are made especially for us by the Lowndes Co., Ltd, makers of 20th Century Brand of Clothes for men and young men. You will be surprised at their all around excellence, the smart colorings and weaves, and the swell styles. They're as good as they look, and better than they cost.

**PRICES \$13.50 TO \$22.50.**

# MC2465 POOR DOCUMENT

## THE GRANITE TOWN GREETINGS

### KIDNEY TROUBLE

Suffered Ten Years—Relieved in Three Months Thanks to P.E.U.N.A.

C. B. FICKER, M.D., Buffalo, N.Y., says: "I have suffered with kidney and bladder trouble for ten years past. Last March I commenced using P.E.U.N.A. and continued for three months. I have not used it since, nor have I felt a pain."

### Mrs McCord's Match.

"Mrs. Avery isn't here this morning?" said Mrs. Gross, as she shook hands with the minister.

"No, she wasn't feeling very well, and I told her she would get stay in out of the cold," said Mr. Avery. "She's rather saving her strength for the missionary meeting to-morrow."

With face drawn down into severe lines, Mrs. McCord stood by, listening. "Mrs. Gross, I'd like to see you a minute, privately," she said, as soon as the minister turned to another of his flock. He was at the church door shaking hands with the last stragglers after services, and Mrs. McCord had already shaken hands and assured him how much she enjoyed the sermon. "I have a little matter I wish to speak to you about."

Mrs. Gross sighed, and walked meekly after Mrs. McCord. Mrs. Gross was plump and rosy, while Mrs. McCord was thin and angular, but the latter ruled with a rod of iron where she ruled at all. "I do hope you'll be careful not to mention that Mrs. Avery was not at church this morning," she said, in a whisper. "Mr. Avery is new, and he needs all the support we can give him."

"I don't know that there's anything wrong in asking about the minister's wife," said Mrs. Gross striving to pick up courage to take back to Mrs. McCord, as her husband was ever advising her to do.

"But the way you said it! It just sounded as if you thought she ought to be in her place. Outsiders are doing a great deal of talking about Mrs. Avery, and it behooves the church people to stand by her. If it got out that the wife of an official member, publicly complained about the minister's wife, gossips would make great capital of it. I hope you will be more careful."

"Are you ready, Mary?" asked Mr. Gross, rescuing his meek wife from Mrs. McCord's clutches. I have been waiting these fifteen minutes. How do you do, Mrs. McCord? Fine sermon, wasn't it?"

"Indeed it was," assented Mrs. McCord. "I was just telling your wife that we must stand by the minister and his family. There is some criticism from people outside the church about his delivery and his pulpit methods, but if we stand by him he'll get long all right."

"Oh, he'll get along first-rate," said Mr. Gross, while his wife pinched his arm black and blue. "If gossips and people who think they can run everything in and out of the church will let him get a start, he'll get a good start."

"Just what I said to your wife," said Mrs. McCord. "My words exactly!" Mrs. Gross stopped trying to warn her husband, and instead laughed loudly into her handkerchief. She might have known that Mrs. McCord would never be touched by the plainest of plain hints, for she considered herself the pattern for the whole congregation. Every unkind word she ever heard about the minister she always hastened to tell him, so he would be on his guard, and among the members of the congregation every unkind word she ever heard about the minister she always hastened to tell him, so he would be on his guard, and among the members of the congregation she acted like a very busy wasp stinging here and there, as she went about telling this one what to do and that one how to act. Every one knew her, and all made allowance for her, but it required someone to converse with her pretty directions "ussy wa."

"You must come up to the parsonage this week," Mr. Avery was saying to a young lady as they reached the door. My niece, Cordelia, is coming to visit us, and I hope all the young folks will come in to see her. She is just out of high school, and we think her a very lively, interesting girl.

"Now the next thing somebody will be saying is that things are too easy at the parsonage," said Mrs. McCord, as they reached the street. "It beats all how multifarious and cranky some folks are. I'm going to tell Mr. Avery to be on his guard against anything of that sort. For my part, I always have enough to do to attend to my own affairs, but some people are prone to gossip. I heard the other day that Mrs. Warfield said she thought Mr. Avery's sermons sounded as if he got them out of book, and I intend to call and ask her to be extremely careful what she says. You know how a thing like that runs through a town, and I think the sooner it's hushed up the better."

Finally the McCords—Mrs. McCord and her little dried up husband—turned down their street, and Mr. and Mrs. Gross went on alone. "Did you ever see such a woman? burst out Mr. Gross. She would make an interesting character for a novelist. Always running with her little bits of gossip to the parsonage, and always telling everybody in the congregation their duty. I'd give a pretty penny to see her meet her match some day—but she never will. There's only one like her in this part of the world, or the whole globe for that matter."

The next day Cordelia Everton arrived and to all observers seemed to be a modest, pretty young girl in a stylish but plain costume, who greeted the members of the congregation who happened to be at the station, and to whom her uncle introduced her while waiting for the hack, with charming friendliness. Before the end of the week she knew a number of people, and seemed to be enjoying her stay in the little city immensely.

"How do you do?" said Mrs. McCord, as Cordelia opened the door for her one cold winter day. "Is Mrs. Avery at home today?" "Mrs. Avery is out, but she isn't that old? I came to see her particularly this afternoon about Mrs. Warfield. Well, I might come in and sit down a few minutes by the fire. It's a dreadful day, but when I have a duty to perform I never let the weather stand in my way, I feel real worried about your aunt being over there. You know Mrs. Warfield isn't a member of our church, and it is so important that people are careful what they say to her. I heard on good authority that she said Mr. Avery's sermons sounded as if they were taken out of a book, so I thought I'd put my parson on his guard."

"Wasn't that lovely?" said Cordelia, I think that is the finest compliment Uncle James ever received. He is so scholarly and precise in his language, but often people forget to mention it. Mrs. Warfield must be a delightful person."

"Well, er—that is—yes, I do think, Mr. Avery uses very good language," said Mrs. McCord. "I said so."

"Here comes auntie!" cried Cordelia, springing up to help that lady remove her wraps. "Auntie Mrs. McCord came to tell you something very nice she heard about Uncle James. The lady you just went to call on said his sermons sounded exactly as if they were taken from a book. You know every critic says that speaking is so much harder than reading, as grammatical errors will creep in that are most impossible in print, so if Uncle James is pleasing that scholarly element in the town that is a fine beginning."

Mrs. McCord was provoked beyond measure and tried to change the conversation, but Cordelia again and again returned to the object of her call that that afternoon. In sheer desperation the visitor rose to go an hour before she usually departed, and was not mentioned by her hostess the rest of the afternoon.

Two days later Mrs. McCord again dropped into the parsonage with another criticism she had heard, but scarcely had she finished telling she said, and "I said," when Cordelia who had been sitting on the edge of her chair waiting for a pause in the conversation broke in with: "I heard such a nice thing about you, Mrs. McCord. Mrs. Randall said you were the best-informed person on local affairs that she knew. Wasn't that nice? She said if ever any one got out a history of this country, you would be the most valuable person to consult, as you were authority on local events."

"Did Mrs. Randall say that?" said Mrs. McCord.

"Indeed she did," said Cordelia. "She said you had a most beautiful memory and never forgot anything. She says when anyone wants to know about the past, especially church things, you can always furnish days and dates. She said many of the happenings would have been forgotten long ago if you had not kept them alive. How did you ever manage to have such a keen memory, or is it a cultivated possession."

Whether it was cultivated or not Mrs. McCord never explained, for just then other callers came and she made her escape. In her heart she determined to stay away from the parsonage while Cordelia was there, simply because she found herself tongue-tied in the presence of this bright-eyed girl; but she could not escape seeing her unless she stayed at home from every church meeting.

"How do you do, Mrs. McCord?" said Cordelia demurely, as that lady opened her door a week later and found the parsonage visitor on her step. "You weren't at church Sunday, and I came to see if you were ill. The ladies all said nothing short of sickness would keep you home, and as Uncle James was busy, I thought I would look you up. And then, have something special to see about, she went on as the hostess reluctantly led her into the parlor. "I have been so anxious to tell you that a young couple from our town are to locate near you. The young man is a dentist and is anxious to get a start in business. You know so much depends upon a good start. And I am particularly anxious about his wife. She is a friend of mine and such a nice girl. If the neighbors begin criticizing her in a strange town it will be dreadful. Mrs. Slocum told me you always went around whenever some new people come into the church and cautioned the neighbors to be very kind and attentive to them, so I thought of you at once Mrs. Warren, that's the young woman's name, complimented at being asked to play at church, Mrs. Jesus says the music committee depends on you so much in picking out an organist, and you might save a good word for Mrs. Warren. And she isn't a very good housekeeper, being an amateur, so I thought you might caution the neighbors about that. Somebody told me how you did when the minister came to this town with a young and inexperienced bride once. Was it Mrs. Warfield who laughed at the bride's cloudy jelly and you went to ask her not to mention it to anyone for fear it would hurt the church work? It seems to me that was the way I heard it."

"It seems to me some people have little to do to tell a pack of stuff like that," put in Mrs. McCord with an acid smile.

"That's just what I say," said Cordelia, "and that is the reason I came direct to you. I knew you had no patience with that sort of thing, so if the neighbors begin talking about Mrs. Warren's housekeeping, which is far from perfect, you will know just what to do to stop all criticisms. It's wonderful to have your ability, Mrs. McCord, but everyone insists that there isn't another woman in the world like you."

The young people Cordelia had met during her stay gave her a farewell party at which fun reigned in spite of the fact that they were all sorry to lose her. Mrs. Gross came running in just before refreshments were served with a huge cake iced with white and decorated with wonderful forget-me-nots. "I'd just like to see Cordelia a minute," she panted, out of breath after her hasty walk. "Want to thank her for all she has done for us."

So, Cordelia, flushed and happy slipped out to the kitchen, and Mrs. Gross kissed the glowing cheeks of the girl she had learned to love. "My dear child," she said, looking up at the tall, beautiful Cordelia, "I am so sorry to see you go. You have done us all a world of good and I want to thank you for it. Mrs. McCord has not lectured me for a month, and I don't believe she ever will again. Mr. Gross said to tell you he had remarked over and over that Mrs. McCord would never meet her match, but he is agreeably disappointed. If ever she does badger us again, you'll come back, won't you, dear?"

"I Mrs. McCord? What in the world are you saying, Mrs. Gross?" said Cordelia innocently enough, but a guilty color stained her round cheek. "Poor auntie had entreated so much from just such a woman in the town they left and I just couldn't bear to see her worried to death here."

The people outside the church are anxious compared with one or two members of every congregation who feel it their duty to keep their eyes and hands on everything for fear it goes to pieces. Yes, if you are sure I have done more good than harm, I'll come back some day. I don't know whether to regard it as a compliment or not to say that I am a match for Mrs. McCord, but I'll think it over."

It is the greatest compliment in the world, insisted Mrs. Gross, "and if you need any other reward just look at your aunt's happy face. We'll not forget your methods of managing, but we want you to come back just as soon as you can. And now, dear, you must not waste time any longer on an old woman, but hurry back to your good time and I'll lend a hand with the lunch. Good-bye. Run away quickly.—Zion's Herald."

### Lobsters.

The suggestion of New Brunswick lobstermen that there be a closed season for lobsters in Washington County, Maine, does not meet with the approval of fishermen at that place. The idea is to have no fishing from May 6 to December 6 of each. Lobstermen say such a law will kill their business. The proposition is an extension of the existing treaty regulations, which at present apply only to the territorial waters of Passamaquoddy Bay. Violations are punishable by a fine of \$1,000 or imprisonment for not more than one year or both.

According to a special cable to New York Herald, England is worried over the lobster question. At present there is not enough to go around. English lobster culture has been a failure. It is now suggested that American methods be followed unless England is to go lobsterless.

Massachusetts lobstermen have won out on the hills they opposed in the state legislature. One provided for a \$1 license fee, another gave the right to search for short lobsters, a third prohibited the sale of oyster meat other than in the shell, while the fourth set the legal size of the lobster at 4 3/4 inches, measuring from the tip of the spot to the beginning of the tail. All recommendations were made by the commissioners of fisheries and game.

### Going to Look for Cook's Instruments.

New York, April 12.—Another expedition to the Arctic, during which he expects to stop at Etah, to recover the instruments of Dr. Frederick A. Cook, is being planned for this summer by Harry Whitney of New Haven, the first white man encountered by Cook on his return from the north, and who first heard Cook's assertion that he had reached the north pole. Paul Rainey, known as a horseman, polo player and yachtsman, will accompany Whitney. Negotiations commenced today are now being made to charter a suitable vessel, and it is expected the expedition will leave St. John's, Nfld., in July.

Overtures are said to have been made to Captain Samuel Bartlett, master of the schooner Jeannie, sent to the Arctic last year to carry relief to Commander Peary, to command the vessel.

### Beware of Substitutes!

Greedy dealers endeavor to plan off a substitute for Putnam's Corn Extractor. Insist on "Putnam's" only—it cures corns and warts thoroughly. The imitation may fail.

—"You didn't seem able to understand what I was saying over the telephone to you this morning at your office."

"No wonder. When you were calling me up my boss was calling me down."

### Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short, establishes sound vigorous health.

*If your dealer offers something "just as good," it is probably better FOR HIM—It says better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.*

Dr. Pierce's Common Sense Medical Adviser, in Plain English; or, Medicine Simplified, 1088 pages, over 700 illustrations, newly revised up-to-date Edition, paper-bound, sent for \$1 one-cent stamps, to cover cost of mailing only. Cloth-bound, 50 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

## THE GRANITE TOWN GREETINGS

### By the Way.

A quiet week on  
Censurable sickness—L.Grippe  
The roads in the country are dry  
The early birds catch a glimpse  
of the Come.  
The week has past and Teddy has  
done nothing startling.  
Good luck near hangs round a  
man long enough to be treasonous.  
The change of government in Aus-  
tralia which is about to take place in  
consequence of the late election will  
be the seventh in seven years. Can-  
ada has had one such change in 33  
years.

Announcement that airship com-  
munication will be started in May be-  
tween Munich and Oberammergau in  
Germany recalls the fact that pro-  
posals for an aerial service from  
Paris to London were made in 1784  
within a year of the first balloon as-  
cent.

### THE RULING PASSION

(Chicago Record-Herald)  
He was a newspaper publisher says  
Mr. Herst, and lay ill. The doctor  
came, put his ear to his breast and  
said:  
"All that troubles you, my dear  
sir, is that your circulation is bad."  
"Circulation? bad, doctor?" shrieked  
the man as he shot upright in his  
bed. "Why man, ye have the largest  
circulation in the state!"

A young college man, city bred and  
raised, answered the call for harvest  
hands in Kansas. Reaching a farm  
house late at night, he was promised  
work and assigned to a room. It seemed  
to him that he had hardly fallen asleep  
when he was asked to get up. Disgust-  
edly the young man dressed himself in  
the darkness, and picking up his grip-  
sack, he said to the farmer, "Try to be  
helpful, you don't need to take your  
value out to the field with you."  
"I know it," replied the young man  
tartly. "I'm going to look for a place  
to stay all night."

James J. Hill, perhaps the best au-  
thority on farming and railroading on  
this continent has stated that within  
a very few years the United States  
will be compelled to import wheat  
and flour. He quotes statistics to  
show that the ratio of the population  
is increasing much faster than the  
production of food stuffs, and draws  
the conclusion that in a very few  
years the United States will be im-  
porting. He also states that Canada  
will be the great producing country  
of the 20th century, and that much  
of the grain and flour with the Amer-  
icans will import will be secured in  
the Canadian West. In this connec-  
tion it is interesting to notice that  
from 100,000 to 2,000,000 American  
farmers are crossing into the Cana-  
dian West every year, and securing  
land, which will yet grow wheat that  
is to supply their old neighbors to  
the south.

Rev. C. Brown of Lambert's Cove  
preached in the Baptist Church at  
Chocolate Cove, Thursday and Fri-  
day evenings. Mr. Brown delivered  
two very able sermons, and it is re-  
ported he will be called by the  
three Baptist churches of the island.

The Ontario government has called  
for the tenders for the old govern-  
ment house. The price to be paid  
by the company will be determined by  
the figures of the tenders.

The condition of Samuel Clemens  
(Mark Twain) is considered very seri-  
ous. He is suffering from heart trou-  
ble and is unable to leave his home.

### BEAVER HARBOR

Fred Justason, Wayman and Percy  
Eldridge have gone to join Schr.  
Henry D. May, Capt. Holmes.  
David Eldridge and Miss Jessie  
drove to St. George on Saturday.  
Mrs. David Johnson and Miss  
Alexander, Blacks Harbor were  
guests of Mrs. Harry Barry on Satur-  
day.  
Miss Martha Eldridge arrived from  
St. John on Saturday.  
Mrs. Melvin Mawhinney, Maces  
Bay, is spending a few days with her  
mother Mrs. E. Barry.  
Mrs. Melvin Eldridge made a busi-  
ness trip to St. John last week.  
The members of Harbor Light  
Division, Sons of Temperance, intend  
holding a concert and pie-social on  
Friday April 22nd.  
Clifford Nodding and Neil Cross  
have gone on a trip to the Magdalen  
Islands with Captain Holmes of East-  
port.

Basil Paul has returned home after  
spending the winter at Palm Beach,  
Fla. He is much improved in health  
and speaks in glowing terms of the  
sunny south.  
Capt. Nelson was a passenger to  
St. John by Stmr. Connors Bros. on  
Saturday.  
Mrs. Holmes has gone with her  
husband for a trip to New York.

### Sure of Dry Dock and Ship Building Plant

That a dry dock and ship building and  
repair plants are assured facts for St.  
John is the opinion of Walter E. Foster,  
who returned from Ottawa yesterday,  
where he went as a member of a  
delegation to place before Sir Wilfrid  
Laurier the claims of the St. John Valley  
Railway.  
In discussing the dock project with  
a Standard reporter yesterday Mr. Foster  
said that Sir Robert Perceval—who is largely  
interested in the project, has completed  
his business with the Canadian interests  
concerned in the project and is now on  
his way back to England. The dock  
legislation under which an increased sub-  
sidy is provided is expected to be brought  
down this week. No definite site for  
the dock had yet been fixed, as far as  
they knew, nor had the agreements been  
signed, but he considered both dock and  
ship building and repair plants assured  
for St. John.

In Ottawa Mr. Foster met C. F. of the  
Valley Railway Company and J. T. Allan  
Dibblee, of Woodstock, and on Thursday  
last they interviewed Sir Wilfrid Laurier  
and Hon. William Dugdale.  
Sir Wilfrid stated that no legislation  
would be introduced this session, an  
agreement to this effect having been  
made with the opposition. He promised  
however, that he would at once send a  
letter to the president of the St. John  
Valley Railway Company, which would  
state that the department of railways  
would be prepared at any time to enter  
into an agreement for the operation of  
the road from Grand Falls to St. John on  
the basis of the original proposal—40  
and 60 per cent. division of the receipts.  
This would carry a provision that the  
road would be constructed up to the stand-  
ard of the G. T. P. as built through New  
Brunswick.  
The delegates were informed that the  
subsidy would expire this year and Mr.  
Fuglesy promised them it should be re-  
newed at once.

### More Live Stock for New Brunswick

The Secretary for Agriculture, Mr. W.  
W. Hubbard, has been notified that Mr.  
A. H. Thomson, the well known importer  
of live stock, will arrive in Quebec on  
the S. S. Athenia on the 22nd inst. with  
an importation of both cattle and horses  
for New Brunswick.  
The animals are all pure bred and the  
importance includes Clydesdale Stallions  
and three-year old mares, and a number  
of choice Ayshires from Scotland and  
twelve dairy Short horn bulls from Eng-  
lish breeders.  
The Clydesdales will be forwarded to  
Fredericton immediately upon their ar-  
rival, and offered for sale here.  
The cattle will have to remain in quar-  
antine at Quebec until the 16th of June,  
when they will be brought to this prov-  
ince and offered at auction. Further de-  
tails will be given later, probably soon  
after Mr. Thomson's arrival here.  
During the past winter Mr. Thomson  
brought out an importation of stock  
which included some very fine specimens  
of Percheron horses.  
Agricultural societies will find this a  
splendid chance to get good stock for  
their districts. All enquiries may be ad-  
dressed to the Department of Agriculture,  
Fredericton.

The condition of Samuel Clemens  
(Mark Twain) is considered very seri-  
ous. He is suffering from heart trou-  
ble and is unable to leave his home.

### MASCARENE

Hiram Wilcox spent the day with his  
parents here, returning to Jonny River,  
where he has been employed for the  
winter with Mr. Thomas Sullivan.  
Arthur and Chas. Leland were pass-  
engers on the Viking to Eastport on  
Saturday.  
The teacher Miss Lena Pitt, ac-  
companied her sister to St. John on  
Saturday.  
We are glad to hear that Mrs. P. L.  
Cameron is much improved after her  
serious illness.  
Some of the fishermen have begun to  
get ready for the little fishes.  
Mrs. A. R. Burgess returned home  
after spending a week in Letete called  
there by the illness of her father.  
Annie Stewart has returned to St.  
George after spending a week at her home  
where she was called by the death of her  
brother Havelock.  
Mr. and Mrs. Charlie Leland called  
on Mr. and Mrs. Arthur Henderson on  
Sunday afternoon.  
There is several vessels in the river,  
carrying box wood to Eastport.  
George and Menzie Chambers spent  
Saturday in Eastport.

(From Another Correspondent)  
The fishermen are busily engaged  
in getting their weirs in readiness for  
fishing.  
Lyman Chambers who has been  
employed in the pulp mill at Wood-  
lands for the past winter has returned  
to his home.  
Mrs. Wm. Hilyard and Mrs. Kin  
Stuart drove to Graniteville on Satur-  
day.  
Charles Leland was a passenger to  
Eastport Saturday by Stmr. Vik-  
ing.  
Percy Stuart is engaged with part-  
ies in rafting logs.  
Capt. Harvey sailed from here on  
Saturday bound for Eastport with  
box wood.  
Miss Annie Stuart has returned to  
St. George after being called home  
by the death of her brother.  
Miss Lena Pitt left on Saturday  
with her sister for her home in King's  
County.  
Mrs. Cameron is improving slowly.  
Hiram Wilcox visited his home  
here Sunday.

Menzie Chambers spent Saturday  
with friends in Lubec.  
Walter McKenzie went to St. And-  
rews in his new motor boat recent-  
ly.  
Mr. and Mrs. Herbert McLean and  
daughter Effie were guests of Mrs.  
Cameron on Sunday.  
George Chambers made a business  
trip to Eastport on Saturday.  
Wilson Wentworth of Letete made a  
business call here on Friday last.  
Mrs. James Wilson of Deer Island,  
Mrs. Matthews of Letete were visitors  
here Sunday.  
Ernest Stewart has gone to Letete  
to remain the summer.

### MUSQUASH

(Too late for last issue.)  
Miss Close of St. John, is visiting Mrs.  
Herbert Shepherd.  
Mrs. and Mrs. John O'Dell and daughter  
Laura, and Mr. Albert Moody attended  
Miss Florence Giles birthday party at  
New River.  
Douglas and Fred Spinney, spent Sun-  
day at their homes here.  
Rev. Father Carson held service here  
Sunday morning.  
Mrs. B. F. Austin and daughter return-  
ed from St. George on Saturday.  
F. S. Clinch and David Hargrove went  
to St. John on Saturday.  
The many friends of J. D. Ferguson,  
are glad to see him home again.  
Messrs. George and Fred Reed spent  
Sunday afternoon in South Musquash.  
Mrs. Gamble, who has been ill with  
pneumonia, is improving slowly.  
Among visitors this week are Sam  
Austin and Fred McVicar of St. George.  
Mr. Austin has his phonograph and has  
delightfully entertained friends on  
several occasions.  
Rev. J. R. Martin's return from St.  
John on Saturday mornings train.  
The Wednesday evening services will  
be continued through the summer.

## PAINT PAINT

### INVESTIGATE BEFORE YOU BUY!

In these days of sharp competition, it is well to know that you get what you pay for. There are so many brands of house paints on the market, now-a-days, advertised as "pure" (but little better than "dope"), that a man ought to investigate what he intends to buy. We suggest to those about to paint, to make a practical test and convince themselves. Buy a small can of  
**The Martin-Senour**  
**100 Per Cent Pure Paint,**  
and one of any other brand with which you may have been favorably impressed, selecting about the same colors, and paint a few feet. Carefully measure the paint, so that you use no more of one than you do of the other. Thus, with the conditions the same, you can determine for yourself which paint has the better body or covering capacity; which is the easier brushing out and has the better finish. If you do not decide in favor of The Martin-Senour 100 Per Cent Pure Paint, we will return the money paid for the can of the Pure Paint used in making the experiment. We have no doubt as to your decision, and are prepared to supply you with the BEST PAINT on the market.

## H. McGrattan & Sons, ST. GEORGE, N. B.

### No Wonder.

The ancients thought the world was flat.  
I'm really not surprised at that, We'd find it flat, I dare to say, if we were living in their day. Just think, they had no autos then. No show girls to delight the men. No pipes to smoke and cigars. No cocktails served at handsome bars. No bridge to play and no pink teas. No liners speeding o'er the seas. No yellow journals and no flats. No women's monstrous picture hats. No tariff problems to attack. No gowns that button up the back. No end seat hogs with manners rude. No monkeying with the price of food. No live bills, no cold storage eggs. No bunco steers and no yeggs. No trolley cars with clang and whirr. No Teddy to keep things astray— Say, is it any wonder that  
The ancients thought the world was flat?—Boston Transcript.

### A Land of Hunters

(From Bailey's Magazine)  
Germany is a country of nimrods, there are 600,000 sportsmen, which means one gun for every 100 people. Each year fall to the gun, on an average, 400,000 partridges, 2,000,000 thrushes, 500,000 rabbits, 150,000 deer, 145,000 woodcocks, 40,000 wild ducks, 25,000 pheasants, 15,000 quails, 13,500 bucks, 1400 wild bears and 1300 bastards. In weight this "bag" represents 22,000,000 kilogrammes. The monetary value is 32,000,000 marks, or 1,280,000. The sum received for licenses to shoot is 7,500,000 marks or 300,000.

**Jennie Meating,**  
TEACHER OF PIANO,  
Pupil of Prof. John Orth, Boston. Training of children a specialty. Pupils received after April 25th. Lesson, fifty cents.

### NOTICE!

I wish to have all my clients know that the Sterling Accident and Guarantee Co., of Canada, have decided to add the FIVE PER CENT BONUS to their "General Accident" Policy, in other words, to all the higher classes. This is a decided improvement, and as it applies to policies already in force as well as new ones, I trust the public will still continue their already large patronage of my agency.
