Some of the leases were withdrawn, and for some no bids were made. Fishing with rods only is allowed.
A five year lease of Big Hole, on the N. W. Miramichi held by Miss K. C. Quigley, Newcastle, was sold to Jacob Weidman for \$280 a year.

FOUND GUILTY.

Peculiar Verdict in a Most Peculiar Murder Trial.

CHICAGO, March 2.—The jury in the case of Dr. Orville S. Burnett, who has been on trial charged with the murder of Mrs. Charlotte S. Nichol of Nashville, Tenn., returned a verdict of guilty, and recommended that Burnett be sent to the penitentiary for fifteen years. Burnett's attorneys will ask for a new trial tomorrow. The verdict was a surprise, as Judge Baker's instructions to the jury were considered favorable to the defendant.

The case was one of the most unusual that has ever been tried in the Cook county criminal court. Burnett, who is a young dentist, was charged with being accessory before and after the act to the death of Mrs. Nichol, even though it was admitted by the prosecution that Mrs. Nichol had committed suicide. The state endeavored to establish the point that Burnett and Mrs. Nichol agreed to commit suicide together, and that the man waited, allowing the woman to go to her death alone. The defense disputed that there had been any agreement between the two to end their lives together, and asserted that Mrs. Nichol had taken her own life while Burnett was lying intoxicated at her side.

A Case of Smallpox At The Intercolonial Hotel.

CAMPBELLTON, March 2.—Fred Hachey, a young man belonging at Bathurst, arrived here last evening on his way home from a lumber camp on the Ottawa, and put up at the Intercolonial Hotel. Not feeling well this morning, he called upon Dr. Lunan, who discovered that he was suffering from smallpox, and at once notified the local board of health, which placed him in quarantine in the car in which he had travelled, and made proper arrangements for his care there. The Intercolonial hotel and persons who came in contact with Hachey are also under quarantine.

Lumbermen are Getting Anxious.

At Fredericton They Want About a Fortnight of Cold Weather.

FREDERICTON, March 2.—It has rained hard here since 3 o'clock today and the prospects for clearing are not yet good. The lumber operations are getting anxious over the outlook. Another fortnight of cold weather will enable all the lumbermen to finish the season's operations and prepare them for driving, they hope that such may be the case. In this vicinity the snow has about all disappeared, and a wood famine next season is feared.

TIBER WRECKED.

No Particulars of Crew Which Numbered 18.

HALIFAX, March 3.—There has been anxiety to-night as to the fate of the steamer Tiber, which sailed from Louisbourg Wednesday for Halifax with a cargo of coal.

When news was received here to-night from Canoe that a large quantity of wreckage had been picked up at the western entrance of that place to-day, consisting of a steamer's deck house, with planks attached, also an engine and lounge. At Port Felix, West Whitehead, fishermen picked up a large wheel, two chairs, lounge and side of a ship's boat and at Goldboro, 15 miles west of Canoe, two life buoys marked "Tiber, Montreal," and other wreckage was found. This latter established beyond doubt that the steamer has been lost and looks as though all on board had perished. Fishermen searched the shoals and islands of Canoe in hopes of finding some trace of the crew, but nothing further was discovered up to late to-night. It is thought the steamer broke down after leaving Louisbourg and in the storm which raged on the coast Sunday night was driven to her doom.

The Tiber was under command of Capt. Baugher, the owners are A.H. Archibald of this city, and M. Dubell, of Quebec. The Tiber was from here to Philadelphia, and was loaded with brick for Cape Breton. She recently brought a cargo of pine from Georgia to Sydney.

The Tiber was an iron built ship of 1134 net and 1756 gross tonnage. She was 253 feet 9 inches long, 33 feet beam and 24 feet 4 inches depth. She was built at Glasgow, Scotland, in 1870, and sailed from Montreal. She was formerly on the route between Montreal, Charlottetown, Halifax and St. John and has made many trips to that port.

YARMOUTH, N.S., March 3.—U. S. Consul Carter today received a telephone message from Leepore, stating that the American fishing schooner Indiana, with crew of 13 men, was ashore eight miles off the point and that she will be a total loss. The crew were all safely landed and are on the way home.

BLONDIN CAPTURED

Denies he Killed his Wife Though He Fled.

DETAILS OF WANDERINGS.

Was for some time in Canada—Why He Finally Went to Police Headquarters.

NEW YORK, Feb. 27.—Blondin today makes the following statement right at the outset. I want people to understand that I am not guilty of killing my wife. I haven't the slightest idea who killed her. I cannot say however, that I am sorry to get an opportunity to prove my innocence. The past seven months have been almost awful torture. Night and day I have been in fear of the police. Every one I met I suspected was in search of me. Although I am only twenty-eight, I look like a man of forty, and these gray hairs were caused by the awful days and nights I have put in since the police accused me of having killed my wife.

"Why I did not give myself up I cannot explain just now, except, perhaps, that I was in fear of being railroaded. Then, again I suppose every man has a horror of prison, and that horror was certainly very strong in me.

When I heard the police wanted me, my first impulse was to get away; and, strangely enough, I came direct to New York. I fully expected to be arrested on arriving in this city, but, by some chance fate favored me, and the detectives who were on the look-out did not find me.

I arrived here and put up at a small hotel. I don't remember where that was. I had some money but I spent most of my time in my room. I had to have exercise and I walked out one night. You may remember I evaded policemen, although I was not half so much afraid of them as I was of plain-clothes men.

I felt like a hunted beast. I went to some theatres and tried to shake the awful feeling that I was being searched for from my mind. After I had lived some days in New York, I became so frightened I decided to go away, and went to Fall River. That was a dangerous spot for me, and I stayed there but a short time, when I went to Springfield. Then I came back to New York and went to Canada.

I spent some weeks in Canada in various parts, then I went to Nova Scotia. I worked in those places as fireman and farm hand. I was out of cash by that time, and I had to earn my living. Something impelled me to go from place to place.

I could not stay in one place long. Finally I returned to New York. Fear was strong upon me, and I thought the best thing to do was to obtain employment on a vessel. After a short time, I got a place as coal passer on the Tiber. I made four trips to Canoe. All this time I went under the name of Barnard, and no one recognized me. On my return to New York, I made up my mind I was either to be caught or I wasn't, and I determined to find out if the police knew me. I went into the police headquarters, and that was my undoing. I am glad to say it is all over.

OVER THE WIRES.

Smuggling from New Brunswick.

PROVIDENCE, R. I., March 1.—It is stated in connection with the developments in the smuggling cases along the Canadian border that another loophole for the admission of goods free of duty was at Van Buren, Me., on the New Brunswick border. It is thought part of the seized furs sold here yesterday came in by way of Van Buren.

Defeated in Bloody Fight.
WILLEMSTADT, March 1.—According to advice from Caracas, the Moschies leader, Gachira, with 1,000 men, nearly all of them Colombians, attempted a new invasion of Venezuela near La Frías on February 24. After a bloody fight at Lucas Cumbres, the insurgents were completely routed and obliged to retire across the frontier, leaving a large number of dead on the field.

The steamer Bolivar (formerly the Pan Righ and more recently known as the Liberator, which was at Dominica in the Leeward islands Feb. 25), is reported as having sailed at St. Lucas yesterday.

PANAMA, Colombia, March 1.—The Caucho returned here Thursday night after having landed reinforcements for General Castro off Acua Dulce, and money for the payment of his troops. Commander Huerta, of the Chucuito, reported having sighted the revolutionary fleet near Anton, which place General Herrera, the revolutionary commander, has now made his headquarters. The return trip of the Chucuito was made during the night, an attack by the revolutionary gunboat Padilla being thus evaded.

Anxiety as to King Leopold.
BRUSSELS, March 1.—The condition of King Leopold, who has been ill since his return here from the Riviera, is causing anxiety. The physicians in attendance on his majesty deny that his symptoms are serious, and say that he is recovering.

D. MORRISON

Father Follows son as Suicide

Millionaire Hags Himself While Temporarily Insane.

WARREN, Ohio, March 2.—Hon. Henry Bishop Perkins, one of Ohio's most prominent and philanthropic citizens, killed himself by hanging today in his office. Illness and the suicide of a favorite son, a Yale graduate, a year ago, is believed to have made Mr. Perkins temporarily insane. He was president of the first National Bank of Warren and also prominent in railroad and state affairs. He was a man of large fortune, said to be several millions of dollars.

BOWSER, ANTIQUARIAN.

He Discovers and Makes a Purchase of a Priceless Relic.

When Mr. Bowser was half-way home the other evening he suddenly remembered that he ought to buy a box of shoeblacking, and he left the car and stepped into a grocery. While he was being waited upon his eye caught sight of a bureau in the back end of the store, with drawers filled with potatoes, and, after looking the affair over, he asked, with pretended carelessness:

How does it happen that you have such a piece of furniture in here?

I took it on a debt of 50 cents, replied the grocer.

And I suppose you'll sell it for \$11? If you want that bureau for \$11 it's yours, and I will also deliver it.

There was a struggle with conscience on the part of Mr. Bowser for a minute. No sooner had he set eyes on that bureau than he identified it as belonging to the colonial period and worth its weight in silver as an antique. The grocer simply regarded it as so much old rubbish and would be satisfied with a profit of 100 percent. Should he take advantage of the ignorance of the dealer in sugar and coffee, or should he give him honest information, and plank down \$20 in place of \$11?

Conscience took a back seat, and the purchase was concluded at the dealer's own figure. Any grocer who will debase an old heirloom by filling it full of potatoes deserves to be swindled in its sale. The minute that Mr. Bowser reached home Mrs. Bowser felt sure that something had happened, and though she asked no questions, his nervous demeanor at the dinner table strengthened her belief.

After the meal was finished he had an excuse to go to the front door every five minutes, and when a wagon at last drove up he went out to assist the boy in lifting the old bureau into the house. It was shoved into the parlor, and he walked around chuckling over it for a quarter of an hour before he was ready to say:

Mrs. Bowser, do you remember our visit to Mt. Vernon and the tomb of Washington several years ago?

Perfectly, she replied.

In going over the house we entered the room that used to be Mrs. Washington's bedroom, I believe?

I'm sure we did.

And you covered an article of furniture in that room and kept talking about it for weeks after.

Yes, the bureau, she replied. I did so want a bureau like that, but you said one couldn't be had for love nor money. You haven't—haven't—

When I call you may come in, he said as he took up a match and passed into the parlor to light the gas. Now come on.

He extended his hand to Mrs. Bowser and led her up to the antiquity and stood by with a smile on his face as she surveyed it. As she said nothing for a minute or two, he observed:

I cannot truthfully say that this is the identical bureau used by Martha Washington, but you can see for yourself that it was made by the same man, and is as like it as two peas. You are now in possession of the

coveted article at last, and I suppose you won't care for diamonds or pearls?

Did you buy this for a colonial? asked Mrs. Bowser as she backed off and sat down on a chair.

Well, I didn't buy it for a 1901 bureau. Yes, I bought it for what it is—a colonial. It's a Martha Washington bureau right down to the ground. I haven't looked around for a date on it, but I presume you'll find 1776 or some other old figure on it somewhere. Doesn't it give you a little feeling of awe to stand in the presence of this old relic?

Mrs. Bowser's face looked serious enough, but she didn't admit the awe, and he presently asked:

What's the matter with you? I thought you'd jump over chairs when you saw this relic. Think of a piece of furniture a hundred years old maybe a hundred and fifty! Where now is the colonial dame whose hands once folded away her clothes in those drawers? Do you suppose it ever crossed her mind that your hands would some day touch these time begrimed handles?

I don't think it ever did, replied Mrs. Bowser as she backed into the sitting room. I wish I could have seen the bureau before you bought it.

For what reason?

Because it isn't a colonial. Its only soft wood veneered over, while all the colonial pieces are solid. The bureau we saw at Mt. Vernon was mahogany. It's simply an old rickety piece of furniture you've brought home. Examine it for yourself.

And this is what I got for picking up an almost priceless antiquity? he gasped.

It's not an antiquity, Mr. Bowser. It's simply a common old bureau and was probably sold for about \$5 in the first place. Why do you buy things in this haphazard way?

Haphazard! Do you mean to tell me I don't know an old antique when I see one? When I run across an old colonial house I got to run home and ask you to go and look it over for fear I'll be deceived! When or where did you post yourself about antiques?

When or where did you? she quietly asked.

You hear me now, you hear me, he shouted when he found himself boxed up. By the jumping Jim Crow if the whole household furniture of Benjamin Franklin should be offered me for ten cents I wouldn't buy it! For ten long years I've been looking out for a Martha Washington bureau to please you, and now by the rarest chance on earth I finally pick one up you dub it old rubbish and insist that I'm a fool.

It was kind of you but you see—I see nothing! he yelled as he cut loose—that is, I do! I see that you've got about as much sentiment about an old sitting hen and that I ought to have brought you a basket of claims instead. We won't discuss the matter further. I'll sell the bureau tomorrow for \$5. Perhaps you had better be alone with yourself.

Mrs. Bowser arose with a sigh and went upstairs, and when bedtime came she went to bed. It had come midnight and she was asleep when she was aroused by a crashing and smashing below. For two or three minutes it seemed as though the whole interior of the house was being torn out. Then the sounds ceased, a pungent dust came floating up and she heard Mr. Bowser swearing to himself. Then she knew that the old colonial relic was no more on earth.

Sixty-two New Warships.

Admiralty Estimates for this Year.

LONDON, Feb. 15.—The admiralty's naval estimates for 1902-3 show a total of \$156,275,000, as compared with \$154,735,000 last year. There will be under construction April 1 of this year thirteen new battleships, twenty-two armored cruisers, two second-class cruisers, two third-class cruisers, ten torpedo boat destroyers, five torpedo boats and eight minor craft, a total of 65 new vessels, or an additional navy as large as, if not larger, than Italy's present navy.

Lord Selborne, First Lord of the Admiralty, announces that a new type of torpedo boat destroyer is contemplated, and that important developments are planned in the Executive and Work Departments. A committee will be appointed to consider the

IN MEMORIAM.

To Geraldine Buckley, Died Sunday, February 9th, 1902.

And art thou dead, dear lovely child? And shall we now no more behold thee? Our Geraldine so sweet, so mild— And does the deep, dark tomb enfold thee?

(No! God has with His saints enrolled thee.)

A' though thou art from us removed, A happier home to thee is given. And should we weep for thee beloved? Because that thou art gone to Heaven?

O no, beloved, we would not weep. Although our hearts are nearly breaking, Since like the suns you've gone to sleep; Nor wish for that such rude awaking. For do we not as Christians, know That snow is the sacred heaven That sweetest, better bread below, And it's the human heart for Heaven.

For God hath given human hearts To care for thee, His cherished, chosen, So, when a little child departs, He strikes the fount of tears fast frozen. He gives the key to such as thee, Thou blessed little bride of Heaven; The tears that flow full fast and free, We feel shall surely be forgiven.

He sends those tears to purify The hearts of those he loves, O Geraldine! Let those dear hearts should pity— And thus to soften them he hastens. Then murmur not for Geraldine, Though sharp the pang with which you sever; You'll meet your lovely little queen On high, to part no more forever.

Who has not seen the lovely rose Upon the bush, in bud and blossom? Who has not seen the roselike close And die upon its parent bosom? And thus God often blazes the bloom Of those fair forms that he hath given, He sends their bodies to the tomb That their sweet souls may bloom in Heaven.

Some lovely buds put forth their leaves; The storm sweeps by and they are scattered, 'Tis thus that Death or Time bereaves, And fairest forms are rudely shattered. But murmur not for Geraldine, So early to her maker given; He crowned your lovely little queen, She blooms to-day a Rose in Heaven.

These lovely creatures called above, The undecayed and undecaying, By voices from the Land of Love, Confirm the Faith of dear ones grieving.

To this dear child thus called on high Six nights and sounds were sweetly given

To show she was not born to die, But born to live above in Heaven.

Then blessed be his holy name To whom we live and have our being; Who as our Father we can claim, His wondrous ways beyond our seeing. 'Tis God alone who guides the world, And each frail barque by tempests driven;

Then with a flag of Faith unfurled, Each soul should steer its ship to Heaven.

While all the world is filled with war, And full of doubt and unbelieving, We look upon some lovely star And cease our wonder and our grieving. Then pray for us, dear Geraldine For those poor hearts so rudely riven; And ask thy great and glorious Queen, The loveliest God or man hath seen, For us a place in yonder Heaven.

Very respectfully,
MICHAEL WHELAN.

FREDERICTON NEWS

FREDERICTON, Feb. 24.—Lieutenant Governor and Mrs. Snowball will hold a reception in the assembly chamber from four to six o'clock on the afternoon of March 6, immediately after the opening of the legislature and the moving and recording of the address in reply to his Honor's speech. Private Secretary Barker announces that gentlemen will be expected to wear afternoon dress, and ladies evening costume. An orchestra stationed in the gallery will furnish music during the function.

Judge Gregory delivered judgement today in the case Lucy vs. McGoldrick and O'Brien, a review from the small debt court of Fredericton, setting aside a verdict recovered by plaintiff and ordering a new trial. J. H. Barry, K. C., for defendant.

MESSRS. C. C. RICHARDS & CO.

Gentlemen,—Last winter I received great benefit from the use of MINARD'S LINIMENT in a severe attack of LaGrippe, and I have frequently proved it to be very effective in cases of inflammation.

Yours,

W. A. HUTCHINSON.

Wonder how it is that the Jugginses get along so harmoniously. They never have any quarrels, apparently.

The reason is simple enough. Jugginson always lets Mrs. J. have the last word and she never tries to prevent him from having his own way.

STOPS THE COUGH AND WORKS OFF THE GOLD.

Laxative Bromo Quinine Tablets cure a cold in one day. No cure, no pay. Price 25 cents.

Some folks never get over the childish ways. Ye kin always depend on it that they're in mischief when they're quiet.

"A Little Cold, You Know" will become a great danger if it is allowed to reach down from the lungs to the throat. Mix the pills in tea with Allen's Lung Balm, a sure remedy containing no opium.

A BIG QUARTER'S WORTH

is always found in a bottle of Polson's Nervine, the best household liniment known. It cures rheumatism, neuralgia, toothache, headache, sick stomach, is fast is good for everything; a liniment ought to be good for. Mothers find it the safest thing to rub on their children for sore throat, cold on the chest, sprains and bruises. Never be without Polson's Nervine. It will cure the pains and aches of the entire family and relieve a vast amount of suffering every year.

Father—How is it you never have any money?

Son—It's not my fault. It's all due to other people.

Minard's Liniment the best Hair Restorer.

It is imagination, rather than reason that distinguishes man from brute and no person who is devoid of imagination can know extremes of happiness or misery. Happiness greatly depends on the faculty for forgetting.

People Who Have Used It

Say that Dr. Chase's Syrup of Linseed Turpentine affords wonderfully prompt relief for coughs and colds. Everybody has confidence in Dr. Chase, in his great recipe book and famous family remedies. They have learned by experience that it pays to insist on having Dr. Chase's Syrup of Linseed and Turpentine instead of accepting the various unscientific "mix-ups" which some druggists offer as "just as good."

Dr. Chase's Syrup of Linseed and Turpentine contains the most valuable and most effective remedial agents for throat and lung troubles that science has discovered. It acts so directly and promptly as to be of incalculable worth in all cases of croup, bronchitis and whooping cough. It is so far-reaching in its effects as to loosen the tightest chest cough and cure the cold of long standing. 25c a bottle; family size, three times as much. 90c. at all dealers, or Edman, Bates & Co., Toronto.

The King The Queen The Duchess of Devonshire The Family Herald and Weekly Star of Montreal and The Union Advocate.

A REMARKABLE OFFER.

Here is the best offer ever made in this community. By a very excellent arrangement made with the Family Herald and Weekly Star of Montreal we are enabled to offer THE ADVOCATE and that great Family Paper, the Family Herald and Weekly Star, for one year for the small sum of \$1.80 and include to each subscriber three beautiful premium pictures, of which the following is a brief description.

KING EDWARD VII.—True to life, a beautiful portrait size 18 x 24 inches, on beautiful heavy white satin finished paper for framing. This portrait has been taken since his accession to the throne, and is the very latest and best obtainable. It cannot be had except through the Family Herald and Weekly Star; each picture bears the King's autograph. This picture has the great merit of being the first taken after the King's accession, and has therefore an historical value that no other picture can possess.

QUEEN ALEXANDRA.—An exquisitely beautiful picture of the remarkably beautiful and good Queen Alexandra, also taken since the King's accession to the throne. It is the same size as that of the King, the two forming a handsome pair of pictures that alone would sell for many times the subscription price of paper and pictures.

No portrait of the King and Consort taken at the second or succeeding sittings can have one fraction of the value of the first. These go down to history.

THE DUCHESS OF DEVONSHIRE.—The Renowned Gainsborough Picture. Sold at auction sale in London twenty-five years ago for £10,500, stolen by clever thieves, hidden for over twenty-four years and delivered to its owner on payment of \$25,000 reward and since sold to Mr. J. Pierpont Morgan for \$75,000.

This, in brief, is the history of one of the premium pictures, which by a clever stroke of enterprise, the publishers of the Family Herald have secured for their subscribers. The picture is 22x29 in ten colors, and is reproduced in line, color for color with the original. Copies of the reproduction are now sold in New York City, Montreal and Toronto for \$12 each, and this the picture Family Herald subscribers are going to get absolutely free together with the pictures of the King and Queen.

Is this too big a favor? Call at the ADVOCATE Office and see samples of these beautiful pictures and the Family Herald. A handsome publication which is familiar to nearly everybody.

NEWCASTLE, MARCH 5.

The people of the shire town will consider any interference on the part of the Chatham Press and people unwarranted and do not intend to allow a few empty criticisms to cause them to change their purpose.

They have just reasons, and expect just dealings in the matter by those who have authority to grant the petition, signed by nearly every ratepayer in Newcastle and unanimously endorsed by the Mayor and Town Council.

The citizens of the Town of Newcastle do not purpose replying to the ridiculous arguments which some of the Chatham papers have published, in reference to the changing of the name of the Town of Newcastle to the Town of Miramichi.

A. Y. M. C. A. FOR NEWCASTLE.

An effort is being made to establish a Y. M. C. A. for Newcastle and we trust it will be successful. To be successful it will require the aid of all our citizens, both young and old and we trust it will receive the support this well known organization merits.

The objects of the association are known to most of our readers. It is the intention to procure nice airy rooms, furnish them, supply books, magazines, papers, etc., so that our young men may have a place to spend their leisure moments.

NEWCASTLE AS MIRAMICHI.

A petition largely signed, together with a "bill" has been forwarded to the provincial Government at Fredericton, praying that the name of the Town of Newcastle be changed to the Town of Miramichi. The petition was signed by nearly every business man of the town who look upon this course as necessary and proper.

A good deal of confusion has lately arisen to mail matter, telegrams, etc., for Newcastle, Queens Co., and vice versa and a remedy had to be devised. Newcastle, Queens Co. has lately come into prominence on account of the opening up of the coal fields of that district.

A number of prominent citizens of this town, taking into consideration the facts that Newcastle is the centre of the Miramichi district, the shire town, the chief railway centre and various other circumstances, thought it would be most appropriate to rename our town and call it Miramichi which we think, under the circumstances just and proper and known that the residents of the different sections of the river who look upon the matter from an unbiased view will coincide with us in this.

To be sure it will make more or less confusion for a time but the renaming of all towns has that disadvantage.

THE AMERICANIZATION OF THE WORLD.

W. T. Stead, the celebrated British journalist, predicts that unless the people of Great Britain "decide to merge the existence of the British Empire in the United States of the English-speaking world," they will see their empire stripped of its colonies one by one, and Great Britain reduced "to the status of an English speaking Belgium." He is brought to this startling conclusion by a contemplation of the present power of the people of the United States, and their future possibilities. In the British Review of Reviews annual, "The Americanization of the world," he says:

"The advent of the United States of America as the greatest of world-powers is the greatest political, social,

and commercial phenomenon of our times. It is only when we look at the manifold manifestations of the exuberant energy of the United States, and the world-wide influence which they are exerting upon the world in general, and the British Empire in particular, that we realize how comparatively insignificant are all the other events of our time."

After a rapid survey of the strides American ideas have made in every department of science, art, and religion the world over, Mr. Stead answers the question "What is the secret of American success?" in part as follows:

"American success may be explained in many ways. A young and vigorous race has been let loose among the incalculable treasures of a virgin continent. Into that race there has been poured in lavish profusion the vital energies of many other races chosen by a process of natural selection which eliminated the weaker, the more timid, the less adventurous spirits. This great amalgam of heterogeneous energies constitutes a new composite race, which found itself free to face all the problems of the universe without any of the restraints of prejudices, traditions, or old-established institutions which enumber the nations of the Old World. Americans have no swaddling-clothes to cast. They sprang into life like Minerva from the brain of Jove without any need to rid themselves of the garments of infancy. They had also the immense advantage of an atmosphere which in many parts of the continent was a perpetual exhilaration. All these causes contribute to American success. They belong to the Americans as an inalienable possession, nor can we by any possibility hope to share them. They are inseparable from the continent of America as the Falls of Niagara or the Mississippi Valley."

The writer further discovers three American secrets which he deems capable of profitable export to England. He enumerates them as education, increased incentives to production, and democracy. In each of these respects America surpasses England, the latter taking the lead only in municipal government. These considerations bring Mr. Stead to his proposed merging of the two great branches of the English-speaking race. He says:

"There lies before the people of Great Britain a choice of two alternatives. If they decide to merge the existence of the British empire in the United States of the English-speaking world, they may continue for all time to be an integral part of the greatest of all world powers, supreme on sea and unassailable on land, permanently delivered from all fear of hostile attack, and capable of wielding irresistible influence in all parts of this planet. That is one alternative. The other is the acceptance of our supersession by the United States as the center of gravity in the English-speaking world, the loss one by one of our great colonies, and our ultimate reduction to the status of an English-speaking Belgium."

Which shall it be? Seldom has a more momentous choice been presented to the citizens of any country. It is natural that British pride should revolt at the conclusion which is thus presented as the result of a rapid survey of the forces governing the present political and financial and industrial situation. But pride and prejudice are evil counselors. The question is not what we would best like to do, but what is the best course in the circumstances? If it is admitted that the whole trend of our time is toward the unification of races of a common stock and common language; if it is further admitted that such unification would carry with it incalculable advantages in securing the English-speaking nations from all danger either of a fratricidal conflict or of foreign attack, while enormously improving both their prosperity at home and the influence which they can exercise abroad, it is difficult to resist the conclusion that the object is one well worthy of being made the ultimate goal of the statesmen both of the United States and of the United Kingdom.

"The subject is not one upon which politicians are likely to talk. Any utterance in favor of coming together under the American flag could so easily be misinterpreted by a political opponent as an act of treason to the Union Jack that men whose horizon is limited to the next general election naturally refrain from expressing any opinion on the subject. But, privately, no one who moves in political and journalistic circles can ignore the fact that many of the strongest imperialists are heart and soul in favor of seeing the British empire and the American republic merge in the English-speaking United States of the world. This is an ideal splendid enough to fascinate the imagination of all men, especially of those who have proved most susceptible to the fascination of imperial federation."

will generally correct this difficulty.

If you will put from one-fourth to half a teaspoonful in baby's bottle three or four times a day you will soon see a marked improvement. For larger children, from half to a teaspoonful, according to age, dissolved in their milk, if you so desire, will very soon show its great nourishing power. If the mother's milk does not nourish the baby, she needs the emulsion. It will show an effect at once both upon mother and child.

THE EDITOR'S MAIL.

Mr. Editor:

As I find it impossible to write to each of the very many who have expressed their deep sympathy with us in the great sorrow which has come into our home, will you allow me to convey to them through your paper our sincere appreciation of their thoughtful kindness, and to express the wish that they too may find the truth of the couplet.

"In every sorrow of the heart,
Fternal Mercy bears a part."

Yours respectfully,

OBITUARY.

Mr. Alexander Dickie of New Mills died on Monday evening last, after a couple of weeks' severe illness, at the advanced age of 78 years.

He leaves a widow and six children, all of whom, with the exception of one daughter who is married in the United States, were at his bedside during the last days of his illness to witness the closing scene.

Mr. Dickie was born in the county of Renfrewshire in the month of Jan., 1824, and was well and favorably known throughout the greater part of Northern New Brunswick, being practically prominent in connection with the development of the Agricultural and Fishing industries in his native county. He had charge of the Post Office at Sea Side up to the time of his death, and previous to the construction of the Intercolonial Railway, kept a comfortable

house at Sea Side.

Coughs

"My wife had a deep-seated cough for three years. I purchased two bottles of Ayer's Cherry Pectoral, large size, and it cured her completely."

Mr. Dickie was greatly attached to his family and spared no means to provide for them a sound liberal education. Two of his daughters have recently graduated as professional nurses at the best training schools on the continent, and engaged in the duties of their noble calling, when called to attend their father in his last illness.

By the death of Mr. Dickie his family have lost an affectionate husband and father and the community in which he lived, a kind, intelligent and upright citizen, whose special constance and never-failing generosity will long be remembered by all whose good fortune it was to be the recipients of his many acts of self denial and benevolence.

On Feb. 2, 1902, Miss Ellen Ryan formerly of Newcastle but a resident of the States for a number of years, also a sister of the late Capt. Ryan, died at Mrs. L. Shannon Davies, Brookline Mass., where she had been a housekeeper for years. Although advanced in years, she worked till a few hours before her death. Only last summer she visited her brother who was ill and who also died in Oct. last. Her many friends here and in Chatham will regret to learn of her death, being such a short time since her brother, the late Capt. Ryan. Her niece, Miss M. B. Ryan, went to Boston to take charge of the remains which were buried from St. Lawrence church to St. Joseph's cemetery West Roxbury.

ALLEGED CRIMINAL LIBEL.

Mon. Mr. Pugsley was on Friday shown this telegram by Mr. Sproul opposition candidate in Kings:

"BATHURST, N. B., Feb. 24.

"Fred M. Sproul, Hampton:

"Will you please ask William Pugsley openly, not privately, why he don't take proceedings against me for criminal libel. I charged him before Magistrate Ritchie in your city with being the promoter of the bogus Rothesay list. Answer my expense."

"SAMUEL T. MILLER."

Having communicated with the police magistrate, Mr. Pugsley learned that the charge referred to had not been made before him. Mr. Miller's offense constitutes criminal libel, Mr. Pugsley says in a letter to the press, and he has, therefore, instructed his solicitor to lay information against him.—Globe.

BATHURST, N. B., March 1.—The Miller-Sproule telegram which is published by Hon. W. Pugsley in your issue yesterday has not only caused much amusement, but great merriment here. Your head line "Who is Miller?" is timely and Mr. Sproul should have made sure of his man. It is all right if the electors of Kings are completely gulled and it likely suits Mr. Sproul's purpose, but he will certainly be made to feel very much disgusted after the election.

The man Miller is very eccentric. He has not been outside of Bathurst for nearly twenty years. I doubt if 25 persons here except relatives and a few fishermen have had any conversation with the man or seen him on the streets of Bathurst during that time. The opinion here is that he only reads one paper viz. the Sun, hence his hallucination.—Gazette.

Kitchener Reports 600 Boers Killed and Captured.

LONDON, Feb. 28.—Following the precedent of Lord Roberts, who announced Gen. Cronje's surrender, at Paardeberg, on the anniversary of the battle of Majuba Hill (Feb. 27, 1881), Lord Kitchener apparently selected the same anniversary to achieve a big success by a combined movement lasting two days against the Boer forces within the Harrismith and Von Reenen line of block houses. The Boer losses aggregate 600 killed or captured and 2,000 horses and 28,000 head of cattle fell into the hands of the British troops.

HEAD NOISES CEASE IMMEDIATELY.

F. A. WERMAN, OF BALTIMORE, SAYS:

Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give a full history of my case, to be used at your discretion. About five years ago my right ear began to ring, and this kept on getting worse, until, my hearing in this ear entirely. I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever. I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank heartily and beg to remain Very truly yours,

LOWER LUDLOW.

Mr. W. R. McCloskey of Boiestown has shipped a large quantity of bark this season back of the Canada Eastern train from the Canada Eastern line. Miss Alice Norrard of Campbellton was visiting her sister Miss Maggie Norrard at a place. She was also visiting Mr. and Mrs. John Donalds and other friends. She is accompanied by Miss Emma Pond. Mrs. Earnest Russell of Doaktown has been visiting her mother Mrs. L. L. Nelson and other friends. Mrs. Matilda Parker, Mrs. Sandy Munn, Mr. George Doak of Doaktown paid a flying visit at this place on Wednesday last. Mrs. John Stewart of this place was visited by Mr. and Mrs. Otto Hilderbrand at this place. Mrs. Julia Loveless of Boiestown is visiting Mrs. Oliver Lyons and other friends. Mrs. Annie and Mr. George Whalen of Boiestown were visiting Mr. and Mrs. T. O. Parker on Saturday and Sunday. Thomas Parker of Doaktown was visiting Mr. and Mrs. D. O'Donnell at this place on Wednesday and Thursday. Mr. and Mrs. O'Donnell are on a happy domestic tour. Mr. Michael Carroll of Blackville was visiting his brother Mr. Thomas Carroll at this place on Wednesday and Thursday. Mr. and Mrs. Wm. Long and Wm. McElwain are making their regular round trips every week. We wish them success in their business. The Trustees visited the McNamee school Wednesday last, and they gave Miss Norrard great praise for the way she is getting on with the school and school. She is a fine young lady and is liked by all her pupils and the people. Every enjoyable evening was passed at Charles Miner's on Friday evening. Everyone enjoyed themselves. Music was furnished by Mr. Everett Lyons of this place.

RENOUS RIVER.

Although the weather has been very dry, the roads are in a good condition. Mr. Nellie Hughes is visiting relatives at this place. Mr. Katie Brophy, Nellie Hughes and Mr. Singleton Jr. were the guests of Mr. and Mrs. Wm. Donovan on Friday evening. Mr. and Mrs. Wm. Donovan are receiving congratulations on the arrival of a baby. Many friends of Mr. Henry McAlister are glad to hear of his recovery of his illness. It was the scene of a very pretty party when Miss Mary Ann, only daughter of Mr. Martin Donovan, was united in matrimony to Mr. John Kilpatrick of Englestown. The ceremony was performed by the Rev. E. S. Murdoch. The ring took place at the home of the bride's father. The bride was the recipient of many costly presents. The groom's presence at the party was an oak sideboard. One of the young men think it quite early as so long to wait before driving, but Donovan intends doing a larger operation next year, as he had been having trouble to his bear house for the following year. Mr. and Mrs. Thomas Jardine paid Mr. and Mrs. Wm. Hambrook a flying visit on Friday. The neighbors of Mrs. Dunn are sorry to hear of her illness. Mr. Mary Walsh paid Mr. John Hall a visit on Wednesday.

LYTTLETON.

and Hubert Muir have returned home; having spent the last five months in the lumber woods in the vicinity of Three Rivers, Que. Mrs. H. Nelson and Miss L. Nelson of Peters River were visiting friends here last week. Mr. John Moody has returned home from the woods.

BOIESTOWN.

Boiestown, March 3.—The thaw of the last several days has left the roads in a very bad condition. Portaging operations have been suspended for some time a consequence. The river and streams are considerably swollen. Provincial Game Warden John Robinson, of Newcastle, who is well and favorably known in this section passed through here on Thursday last for Boston, to attend the Sportsmen's Show. Mr. Robinson went as a representative of the Miramichi which is the tourist and Sportsmen's Paradise of the Maritime Provinces. Game warden Robinson will accompany Surveyor General Dunn and Chief Game Commissioner, L.B. Knight. We have no doubt but that Mr. Robinson who is an enthusiast in his work will do much to induce an influx of Sports to the Miramichi waters during the coming season. Thomas Parker of P. of Doaktown was in the village today. The many friends of this place, of Mr. and Mrs. James Randle, of Newcastle, extend their sympathy to them in the death of their eldest son, Walter, news of which was received here this morning by telegram. Word from Mr. Sandy Fairley, who was so seriously injured some days ago while working in the lumberwoods in Minnesota, states that since undergoing an operation in the hospital there, his condition has much improved. His father, brother and sisters and many friends were much pleased on receipt of the news.

BLACKVILLE.

BLACKVILLE, Feb. 24.—Nearly all our young men have returned home but there are smiling faces yet to come. The roads will be in better condition later on as Graham's teams finish hauling bark on the 10th of March. Rev. Mr. Bayle preached twice on Sunday in the Underhill church but church prevented him from going to his church at the Rapids. One of our young men drives a very smart horse as he nearly ran over some of our ladies on their way from church. Mr. T. Barnett has returned home looking pale and hearty. Snow-shoeing seems to be the order of the day. Miss Uxue Jardine paid the inmates of the willows a short visit last week.

BATHURST.

Miss Stacy has returned from Boston where she has been for the past two months. Miss Helena Burns has gone to New York to visit friends. Miss Agatha Melanson is visiting friends in Shediac. Mr. Harry Bishop went to Newcastle on Monday. Mr. Angus McLean who has been very ill is much improved. Mr. H. Melvin is able to be out again after a severe illness. We are pleased to report that Mrs. Hugh Kent who has been for some time seriously ill is improving. Mr. George C. Sutherland has returned from a visit to Montreal. Mr. Arthur White made a brief visit to Newcastle during the week. Congratulations to Mr. and Mrs. Fred Battinier on the arrival of a baby girl. It was rumored during the week that a branch of the Bank of Nova Scotia is soon to be opened here. Mr. Clark of Halifax has been in town in the Bank's interest. Mr. McCordy of the Royal Bank of Canada was also in town during the week. A meeting was held on Monday evening over which Premier Tweedie presided to decide whether the municipality for the Government is to pay the expenses incurred during the smallpox epidemic, it was however resolved to refer the matter to the Government in Council. The members of the church of England assembled on the evening of the 24th to decide on the selection of a minister, to replace Rev. Mr. Street. It was almost unanimously agreed to recall the Reverend gentleman. We trust Rev. Mr. Street shall be able to accept the call.—Events.

CANOBIE.

Miss Elita McCarty of Salmon Beach is visiting Miss Agnes McCarty of this place. Mr. John Seely paid a visit to Bathurst one day recently. Mr. Maynard Smith arrived home from Wisconsin recently. We are all glad to welcome him back. Mr. Abram Jagoe has been quite sick, but is recovering. Mr. Arthur Smith was in Bathurst one day this week. Mr. Samuel Hillock spent Sunday in this place. Mr. George Cormier put his foot quite badly while working in the woods. Our young people took advantage of these lovely moonlight nights and went for a drive through Clifton and New Brandon. The party consisted of fourteen young people with four teams. Mr. Albert McCarty returned home from

O'Brien was in Bathurst on Tuesday. Mr. James Cais, Commercial traveller, passed through here on Monday enroute for Grand Anse. Mr. Wm. Biddy of Clifton spent Sunday in Janeville. The train is running regular again after being stopped four days clearing out the track, after the recent storm. Messrs. Scott and Dempsey have a contract for the wood for the school. A. J. W. McKennie spent last Tuesday in the city. Mr. Walter Boss has returned to his home in Bathurst, after spending a few months with Janeville friends. Mrs. E. L. Cais spent last Tuesday in the city. We are sorry to hear of the illness of Mr. Herbert Buttiner. Mr. and Mrs. Henry Scott, of Stonehaven spent Sunday with friends in Janeville. P. G. Mahoney of Melrose, was at Chapman and O'Brien's camp on Monday. We are pleased to see Miss Emma Smith able to be around again after her recent illness.

Lower Blissfield.

The rain and soft weather for the past two weeks has made a great difference in the appearance of the snow. The roads are thawed down to the ice and brooks of water are trickling everywhere. We are sorry to report that Walter Sutherland has been confined to the house for the past week from the effect of a badly bruised foot. Mr. T. A. Hurley has been seriously ill from a cold, but glad to say she is slowly recovering. Mr. and Mrs. George Ward are receiving congratulations on the arrival of a baby boy. Mr. T. A. Hurley spent a couple of days at the capital last week on business. Miss Nora Hilly spent Sunday evening with her sister, Mrs. John Weaver. S. E. Sutherland has been busy calling on the majority of the rate-payers throughout the Parish with a petition of the Post office Department to give us a daily mail from Fredericton which is very much needed. We hope that he may have every success with this effort.

Fatal Snowslides.

TELLURIDE, Col., March 1.—Fourteen dead, as many injured and a score or more missing is the result, as far as known, of the series of snow slides which occurred in the vicinity of the Liberty Bell mine on Smuggler Mountain, three and a half miles north of Telluride, where the roads between here and the Liberty Bell are almost impassable and details of the accident are hard to obtain. It seems that no less than four distinct slides occurred, each one claiming two or more victims. Several bodies have been recovered, but a number of the known dead are still buried under tons of snow, rocks and timbers by which they were carried down.

THE SPHERE OF WOMAN.

Following article copied from a paper of the Weekly Tribune of forty-five years ago and said to have been written by the loved Queen Victoria has been published.—Ed.

Woman, to whose fostering care the action of infancy is intrusted who by a refining and elevating influence the character of manhood, and to whom is indebted for consolation in difficulty trial, too often feels her incapacity to perform the duties she is called upon to undertake. For a just discharge of it is necessary that she should be, feel and act correctly. To fit her for this, her education should be deep and thorough. It is generally supposed that mind is incapable of such training her education consists of accomplishments and the ornamental branches, painting, dancing &c.: are too substituted for the more important culture. Woman properly trained exercise a beneficial influence on men, for which she is otherwise unqualified.

As a well educated and virtuous woman, she give a high moral tone to the life of which they move. On the other hand, if they are deficient in these qualities, their influence is seen in the public manner, and the human race constituted that thought and action exercise a reciprocal influence on other so lax manners produce a bad morality.

The influence of domestic obligations on the province of the sex; but the sphere of action is not always so circumscribed. Many of the noblest contributions to the literature of the world have been made by women. A Mrs. Hemans and Lydia Huntley Johnson have adorned our language with some of the sweetest gems of poetry. Mrs. Hemans, from her retirement at Cheddar sends forth a pamphlet which restores agitated and tranquil peace.

History convinces us that woman is the life-giver of patriarchy. From the judgment of Israel under the palm and going forth with Barak to deliver her countrymen from their cruel oppressors to Joan of Arc placing the crown on the brow of her sovereign at Orléans, which had been wrested from him by the English king nor have we been wanting of noble self-sacrifices for the public weal.

Woman have been the feeling of woman mother's heart as she passed the gates of the 'Eternal City' to the enemy of her country in the arms of her son, his heart was melted, exclaiming 'Mother, thou hast come, but let thy son. From the between the Capitoline and the hills sounds forth the clashing of the Sabine have met the Romans to save the loss of their daughters, and determination to conquer or die. In the midst of that fearful struggle females with hair dishevelled and eyes neglected regardless of danger, into the midst of the battle, entreating husbands and fathers to desist, were saved by their noble disregard of self. Leaving the fair plains of the snow-crowned mountains of Gaul and there behold her daughter, clasp together under the leadership of noble Martha Giar, fighting for beside their fathers and brothers, to 'conquer or die', to live or for with the freedom and independence of her country. History abounds with tales of woman self-sacrificing efforts to lighten the burdens of the oppressed and in seeking to alleviate the sufferings of those whom they are surrounded by your carriage covered with flowers, Florence Nightingale surrounded by the wounded, dead and dying groans of distress and anguish, her ears. Is she inactive? No! Soldier's heart bleeds her as she turns to another, seek to alleviate the body by active exertion of the cheering words, and in future the record of deeds during that

unavoidable conflict will fill many a heart with reverence for the memory of one who has stamped her name in indelible characters upon the heart of every lover of humanity.

We have before remarked that home is the true sphere of woman, here the better feelings of her nature are drawn forth, here the true woman surrounds herself with an atmosphere of purity which it is impossible for any but the truly virtuous to breathe.

In all generations great men have lived great is the true conception of the term. Who moulded their characters? Who implanted within the youthful breast of Washington that noble truthfulness, integrity and probity, which raised him high above all the heroes of his generation? His mother.

Who inspired Napoleon with the indomitable resolution, the disposition to do and dare, and the undaunted energy of character which enabled him to head everything to his own imperious will? His own ideas in regard to what France needed to make her invulnerable will furnish a key to the secret, when asked what was wanted to make the empire firm and unconquerable, he answered 'Mothers.'

But it is not only in moulding the character of such men as Napoleon and Washington, that female influence is exerted. In all the tender relations of wife, mother, sister and friend, she may exert a gentle and refining power softening the asperities of life, soothing the weary and sad hearted, now with words of gentle encouragement, cheering the desponding and now pouring consolation into the heart of the mourner.

Then if you wish to have a moral intellectual and virtuous community give the female an education that will fit them for any position in life, and true woman's instinct will reveal to them their proper sphere.

The Majority of Homes and Families Have Heard the Joyful News That

PAINE'S CELERY COMPOUND

Makes Sick People Well and Strong.

A House-to-house Canvas Would Show That Thousands Are Being Cured.

The people who have not heard in some way of Paine's Celery Compound and its wonderful triumphs over the disease and ailments of life cannot be counted as newspaper or magazine readers, nor are they among those who are in touch with the medical progressiveness of the times.

A house-to-house canvas (if that were possible) of families where Paine's Celery Compound is being used during these early spring days, would disclose an overwhelming amount of evidence regarding the implicit confidence that is placed in this great of all spring medicines. It would show the enormous number of people who are being cured of some form of nervousness, sleeplessness, dyspepsia, indigestion, neuralgia, rheumatism, headaches, kidney and liver diseases.

Now is the time that Paine's Celery Compound can show astonishing and happy results to the sick. Now that spring is with us, giving a promise of fine weather and new beauties, it should lend encouragement to the work of getting well and strong. The use of Paine's Celery Compound for a few weeks will truly astonish every debilitated, weak and sickly man or woman. The change from a muddy and sallow complexion to a fresh, healthy color, with bright, sparkling eyes, unclouded brain, the enjoyment of refreshing sleep, clear, fresh blood coursing through the body, will be the sure reward of every user of Paine's Celery Compound. Accept no substitute or imitation. See that the name 'PAINE'S' is on every wrapper and bottle.

SOUTHSK.
Crowded out last week.

As I have not seen any notes from this place I thought I would send in some. We have had some fine days for the past week.

The roads are in a very good condition. Miss Kate Matchett who has been visiting friends at Exmore returned home.

Mr. Sandy McKay has returned home from Maine. Miss Christiana Dunnett of Whiteville paid her sister-in-law, Mrs. David Dunnett a flying visit on Thursday.

Mr. Byron Tozer returned home from the woods on Saturday. Winks—Jinks never sees the point of a joke. Blinks—No; he is usually the butt

A TRYING SEASON.

Little Ones are Subject to Colds and the Result is Dangerous Unless Prompt Remedial Steps are Taken.

The little ones are apt to take cold, no matter how carefully a mother may try to prevent it. While colds may affect children in different ways, the main symptoms usually are that the child grows cross, the skin hot, the appetite feeble and the child quite feverish. Unless something is done at once to relieve a simple cold, the result is often very serious—so serious that many a child's life has been lost. There is no remedy that can equal Baby's Own Tablets in cases of this kind. These tablets promptly break up colds and carry off the poisonous matter that has been retained in the system. By doing that they reduce the fever, the pulse becomes normal, the appetite is restored, and the child is again well and happy.

Mrs. O. E. Earle, Brockville, Ont., says:—I always use Baby's Own Tablets for both my children, aged three and five years, when they are at all unwell. When my little girl was a few months old, she had a bad attack of whooping cough, and I found the tablets very beneficial. Since that time I always keep them in the house ready for use. When the children are troubled with biliousness, any derangement of the stomach, are nervous or fretful or when they have a cold, I always use the tablets, and am always pleased with the results.

These tablets are a certain cure for such troubles as cold, sour stomach, indigestion, diarrhea, constipation, simple fever and colds. They prevent cough and allay irritation accompanying the cutting of teeth. They are sold under an absolute guarantee to contain no opiate or other harmful drug. May be had from druggists or will be sent postpaid at 25 cents a box, by addressing 'The Dr. Williams Medicine Co., Brockville, Ont.'

SHINNICKBURN.
Crowded out last week.

Not seeing any notes from this place I thought I would write a few lines as I wish it to be published in your paper.

Most of all the young men are out of the woods here.

Mr. Hugh Murray is doing quite a stroke at logging on Mr. Mahoney's grant.

The roads here are in a very poor condition owing to the last snow.

Mr. James Howe who went to the woods last fall for his winter's operation is not done hauling off the yards yet.

Mr. John McLaughlin who has been hauling hemlock bark from Shinnickburn to the railway track is not finished yet.

Mr. Alex Arbeau has bought a nice two year old colt from Patrick Cashen.

Most of the people here are complaining of been ill with la grippe.

Miss May Hogan who has been working Mrs. Donalds came home on a visit last week, but she went away again.

WHAT MAKES YOU COUGH
Did you ever wonder just what it is that makes you cough? In a general way it is understood to be an involuntary effort of nature to get something from the breathing pipe. As a matter of fact, newly a slight throat inflammation caused by a cold will cause a cough to start, and the more you cough, the more you want to cough. If you allow the inflammation in the throat your cough will stop.

Don't tell the sensitiveness of the throat with medicine containing a narcotic, but give it soothing and healing treatment. This is difficult because the inflamed parts are in the way of the passage of food and drink. The true cough remedy is something that will protect the throat from the ill effect of catarrhal discharges and also from the irritation of swallowing food. Such a remedy is Adams's Balm for Coughs, Croup, Sore Throat, etc. It has been conquering the most obstinate coughs. It is a soothing compound prepared from herbs and gums. Its beneficial effect is quickly felt and the work of healing promptly begun. If you once take Adams's Balm for cough, you will never be satisfied without some of it at hand for any new cough. A trial size of the Balm can be secured of any druggist for 10 cents. The regular size is 25c. In asking for the Balm, be sure you get the genuine, which has 'F. W. Kinsman & Co.' blown in the bottle.

A young man in a railway carriage was making fun of a lady's hat to an elderly gentleman in the seat with him. Yes, that's my wife, and I told her if she wore that bonnet some fool would make fun of it. The young man was silent for the remainder of the journey.

PINCHED AND PUNY
South American Nerve is the Antidote for the ill which are induced by humanity's 'mad rush' for an existence. The 'eat and run' way of living is accountable for more of the pinched and puny races than any other cause under the sun. Dyspepsia, indigestion, constipation, sick headache are the prime causes for broken-up nerves. Nature foretold the strain that they would be compelled to live under and has resorted to medical science the favorite formula—South American Nerve—and it daily joy to put back the bloom of perfect health in the faces of millions who do honest toil.

SEVOGLE.

Crowded out last week.

As one interested in matters at SevoGLE but seeing no notes of late I thought I would take the liberty of sending you a few.

The winter is so far advanced and favorable with us, which is very good for us as the times are very dull.

There is not a team hauling our way, as they all bring their supplies a couple of miles above or below this place.

Men are very scarce here just now for those who did not go away to the States in the fall, are yet in the woods. Those remaining are getting a few railroad ties, but their chances are poor except they go a long distance.

Great indignation is manifested by the persistence in keeping the school open during the winter months against the expressed desire of a large majority of the ratepayers as there is a very large debt on the district, but either through an omission of the trustees, or some cunning device in the contract, the teacher has the drop on them, the only purport is to let from the wrath to come.

Mr. Patrick Hurley let a fine horse, but he is all right—let, he has a fine mare to take its place.

We feel somewhat pessimistic at the thought of one of our popular neighbors leaving us, he has the prospects of becoming a resident of the shire town.

March is a Favorite Month for Home Dyeing.

In all well regulated homes in city or country, the work of home dyeing is largely done in March. The dresses, skirts, capes, jackets, blouses and other articles of wearing apparel used and worn a year ago, but now dingy and faded, will be brought out, carefully looked over and re-dyed with some new stylish color for this season's wear.

With such aids as the popular Diamond Dye, it is so easy to spend money for new materials, that it is a pleasure in being able to point to our own homemade materials and rags. Send your address to The Wells & Richardson Co., Limited, 200 Mountain St., Montreal, P. Q., and you receive sheets of designs for your inspection.

She—You know Clara was ambitious to have a career. Mamma—And matrimony interferes with a career! She—Yes, but she made up her mind that she doesn't want any career that matrimony interferes with.

What's the trouble, Croesus? You seem as if you were in hard luck. Hard enough! Think of it! There I spend a small fortune on my daughter studying medicine, and she marries her first patient!

IT STRIKES THE HEART
Not only is the victim of Rheumatism a constant sufferer, but he lives in continual dread that the disease will reach the heart, which means sudden and unexpected death. Rheumatism can only be cured when the toxic acid is removed from the blood by the healthy action of the kidneys. Dr. Chase's Kidney Liver Pills make the kidneys healthy and vigorous, and so gradually and thoroughly cure Rheumatism by removing the cause. One pill a dose, 25 cents a box.

Be always beginning. Never think that you can relax or that you have attained the end. If we think ourselves more than beginners, it is a sign that we have hardly yet begun.

CHARACTER IN MEDICINE.
There is character in Dr. Chase's Ointment—just such character as has made Dr. Chase esteemed and admired the world over. Dr. Chase's Ointment has stood the test of time and remains today the only actual cure for Piles and Itching Skin Disease. It is the standard Ointment of the world. You can rely on it just as you rely on Dr. Chase's Receipt Book, because you know that it is backed by the sterling character of Dr. Chase—America's Greatest Physician.

A public official, exclaimed the ordinary man heatedly, should be our servant. But is he! Hardly, ventured the suburbanite. He stays with us too long for that.

HOW TO GET UP AN APPETITE.
Dietate for food often follows Grippe, and fever, and is associated with a general weakness of the system. To impart a real zest for food, and give power to the stomach to digest and assimilate, no remedy can equal Ferruzine. This is a new and startling discovery. It strikes at the root of disease and by removing the cause, cures quickly and permanently. Ferruzine will quickly enable you to eat and digest anything. Mr. Shaw, druggist can tell you a great deal more about Ferruzine.

Baby's Own Soap

Minard's Liniment Cures La Grippe.

Friend—I was surprised that it took the jury ten hours to reach a verdict. The evidence seemed to me quite clear.

Ex-juryman—We agreed on the verdict at once, but some one commenced a discussion as to the literary merit of the judge's charge.

WHEN YOU CHURN.
Your rich pure cream for butter why spoil your work by using a common and impure butter color?
WELLS, RICHARDSON & CO'S IMPROVED BUTTER COLOR gives butter the natural golden June shade that no other color can produce, and never fades from the butter. Do not use a vile substitute. At all times insist upon having the kind that makes prize butter. Sold by all dealers.

Cassidy—Why don't you ate yer dinner? Casey—Shure this is Friday, an' I'm wonderin'.

Cassidy—What are ye wonderin' Casey—Is turtle soup fish whin it's made out of turtle.

Minard's Liniment is the best.

HEARTS "ON STRIKE"
The Heart—that great motor of the human anatomy—never falters in the performance of its lawful function, till through overwork, disease lays hold on it—then it "goes on strike,"—and rightly so.

Dr. Agnew's Cure for the Heart is the greatest of agents that medical science has discovered as a heart-helper. No phase of Heart Disease it will not "speak out" and relieve and cure almost like magic. What are your symptoms? Suffocating, fluttering, palpitation, acute pains, thumping, nervousness, restlessness. Try this great treatment—it never fails.

"THE PAIN WAS KILLING"

Rheumatism reveals in the writhings of its victims until shorn of its pangs by South American Rheumatic Cure—it relieves in six hours and cures in one to three days.

Mrs. Geo. Smith, of 45 Charron St., Point St. Charles, suffered terribly from Rheumatism in her joints. The pain was killing. Doctors' medicines temporarily deadened the pain, but effected no permanent relief. She began taking South American Rheumatic Cure and when she had used four bottles was absolutely cured.

The WHIRL of the TOWN

NOTICE

In looking over our subscription list we find a large number of subscribers who are from 3 months to 3 years in arrears, and we ask them in all kindness and fairness to remit the amounts due us at once. The Advocate has been run on a co-operative principle; the more money we have the better paper we give our readers. We are contemplating many improvements for the coming summer, which we trust to be able to carry out, but it all depends upon the responses we have from this notice. If a large number pay their subscription promptly we shall have something special to offer our readers by May 15th. Remit by post office order or registered letter.

DR. FUGSLEY'S LIBERAL ACTION.

Papers to Issue this Week—Bathurst Barrister Heard From.

A Telegraph representative interviewed Attorney General Fugsley in reference to the proceedings against Samuel T. Miller, of Bathurst, for criminal libel and was informed by Fugsley that the information was being prepared by his solicitors and that the necessary papers would be issued the first of the week.

The attorney general stated he had received a telegram from Bathurst informing him that Mr. Miller had not been out of that place for the past 15 years. He had also received a telegram from a barrister in Bathurst stating he was writing on behalf of Mr. Miller's family and requesting that proceedings should not be taken until the receipt of the letter.

Dr. Fugsley said it was clear by the reading of Mr. Miller's telegram at his meetings Mr. Spout had conveyed false information and it would be necessary to proceed for criminal libel in order to set the matter to the bottom and ascertain who was responsible for this malicious attempt to injure him in the eyes of the electorate.
