CHIGNECTO POST AND BORDERER.

SACKVILLE, N. B., AUG. 31, 1882.

The Lepers of Tracadie.

land. One half a century ago one Gardner, a Scotchman, and a resident of the town, saw a fawn, colored spot on his wife's forehead. Anon there were ominous swellings at the corners of her eyes. Then the tendons of her fingers began to stiffen and contract until her hands remarked birds' clays. The fewn. land. One half a century ago one shunned the Sisters of Mercy took sole charge. They industed sping in and contract until her hands resembled birds' claws. The fawn-colored spots were doubled and quadrupled. The husband sought the advice of Dr. Mackey, a young medical graduate. This physician made a careful study of the disease. It befiled his skill. He could give it no name. He found nothing like it no name. They insugate of the grounds. The sexes were seperated. Taxions of tobacco were passed. To add to his distinction, his attention was directed to a second case. The victim was a first faction, his attention was directed to a second case. The victim was safered to a second case. The victim was a served with milk or fruit, still more than the physician who 'teceives are garden variety may be received wheat, properly cooked, form delicities of the instanct of the disease. The bandages were washed, and the industry of the disease. The victim was a served with milk, or fruit, still more delicious. Beans and peas of the green garden variety may be received with milk, or fruit, still more active may be a fine fancy driving horse from P. E. all the inmates, and probobly has a delelicious. Beans and peas of the green garden variety may be received with milk, or fruit, still more active may be a fine fancy driving horse from P. E. all the inmates, and probobly has a delicious. Beans and peas of the green garden variety may be received with milk, or fruit, still more active may be a fine fancy owe, when the familiation who 'teceives green garden variety may be green garden variety may be forming farinaces. For sketen or seventeen cents one can make a probably still the could give to the medical divisions. The hay and the physician who 'teceives are getting forming farinaces. For sketen or seventeen cents Mrs. Landry. Iving seventy-free miles from Miramelich. Of Years the body slone eater beniles from Miramelich of Years and the contraction, also was packed upon a bent of the posterior. The posterior is the posterior of the final property and see and pains as in the case of Mrs. Garden. The physician state of the miles of the mil

ever, verified the young doctor's discovery, and the community was throughly startled. It was composed mainly of descendants of old French settlers. The English language was not much spoken. Families had intermarried for nearly two centuries, until whole parishes were dove-tailed. The result was similar to that attending the overbreeding of animals. The blood became overheated and impure. Its impurities were quickened by a diet of salt meats and dried fish, and a genuine leprosy cropped to the surface. There were 78 cases in one section within twelve months.

The Provincial Parliament was spurred to action under the personal appeals of the members from Miseriel in All and the community was throughly startled. It was not much spoken. We were and sleep for hours did of drowsiness, and sleep for hours daily. In winter and summer they of drowsiness, and sleep for hours daily. In winter and summer they of drowsiness, and sleep for hours daily. In winter and summer they of drowsiness, and sleep for hours daily. In winter and summer they of drowsiness, and sleep for hours daily. In winter and summer they of drowsiness, and sleep for hours daily. In winter and summer they of drowsiness, and sleep for hours daily. In winter and summer they of the same grain ground into meal before we reached Tracadie. On the route, and asked for a pail to water his horses. It was midnight the way our driver repeatedly awoke residents on the route, and asked for a pail to water his horses. It word leprosy within their hearing. They speak of it as the "disease." They speak of it as the "disease." They speak of it as the "disease." Each patient apparently has an impression that there may be some invariably improve. None have died within fourteen months.

They are particularly sensitive. We were warned against using the word leprosy within their hearing. They speak of it as the "disease." They speak of

sonal appeals of the members from broad blue bay announced early Miramichi. A bill establishing the mass. High mass was celebrated at Miramichi. A bill establishing the lazaretto was passed Sheldrake Island, dotting a bay on the northeast coast of the province, was the spot selected. It was an isolated island, off all lines of travel. Here buildings were erected, with barrel windows. A strict search for all the leptons were the work of them were on foot. They lazaretto was made, and they were confined on this island. Scores of the unfortunate wretches were captured. The lazaretto was a passed Sheldrake and they were captured. The lazaretto was a passed Sheldrake and they were captured. The lazaretto was a lazaretto was a special and ground conditions that the spots return. Three years due to the solid and ground conditions that the spots return. Three years due the hearts of all the leptons one need scarcely particularize the different kinds. However, it is so the hearts of all the leptons of the hearts of all scores of the unfortunate wretches were captured. The lazaretto was under the charge of two men, who like the month of the charge of two men, who like the second themselves on the charge of two men, who like the second themselves on the second the second themselves on the second themselves the second the second themselves the second the second the second the second themselves the second the second themselves the second the second the second t seemed to be destitute of all feeling. No care was given to the lepers. The were mostly ignorant forms the house of the priest, and awaited the tap of the bell. The soil and by fishing. Cleanliness was not a virtue. They were neither bathed or dieted. Clean clothing was distributed thrice a year. The most abject and squalid never removed their clothing, but drew their most abject and squalid never removed their clothing, but drew their unmarked graves of the unfortulates. A wharf and a fish house each distribution. The sexes were not separated. The lazaretto was the virtual prison for life. Its inmarkes rotted like murrained sheep. It was the horror of adjacent parishes. Occasionally a poor wretch escaped, and appealed to those outside for protection. Every face was for mass. He was summoned by shorts and deference of the unfortulated and observed indications of leprosy had observed indications of leprosy appetizing, and make a nourishing that observed indications of leprosy appetizing, and make a nourishing that observed indications of leprosy appetizing, and make a nourishing that observed indications of leprosy appetizing, and make a nourishing that observed indications of leprosy appetizing, and make a nourishing that observed indications of leprosy appetizing, and make a nourishing that observed indications of leprosy appetizing, and make a nourishing that observed indications of leprosy appetizing, and make a nourishing that observed indications of leprosy appetizing, and make a nourishing that observed indications of leprosy appetizing, and make a nourishing that observed indications of leprosy appetizing, and make a nourishing that observed indications of leprosy appetizing, and make a nourishing that observed indications of leprosy appetizing, and make a nourishing that observed indications of leprosy appetizing, and make a nourishing that observed indications of leprosy appetizing, and make a nourishing that observed indications of leprosy appetizing, and make a nourishing that observed indications of leprosy appetizing, and make a nourishing that observed indications of leprosy appetizing, and make a nourishing that observed indications of leprosy appetizing and make a nourishing that observed indications of leprosy appetizing and make a nourishing that observed indications of leprosy appetizing and observed indications of leprosy appetizing, and make a nourishing escaped, and appealed to those outside for protection. Every face was turned from him. He descerated everything that he touched. Even the fence that the leaned against while telling his pitful story was was traininated. If he drank from a spring the spring was poisoned. If a cup of milk was given him the cup was broken as soon as drained. A walking upas tree, freighting the air with poison would not have been regarded with more horror. He was either recaptured or driven back to the lazaretto by hunger. Worse "Canadian Boat Song" and "Annie" taxed in appealed to those out side of the vestry dressing for protection. Every face was turned from him. He descentated by an attendant, and gave us a gracious of the vestry dressing for mass. He was summoned by an attendant, and gave us a gracious the vestry dressing for current to Tracadic and enter the lazaretto. She did so and died within a year.

To be continued.

Mr. Parpetus Boileau, Ottawa, says: "I was radically cured of piles, from which had been suffering for over two months, by the use of Thomas' Eelectric Oil. I had been suffering for over two months, by the use of Thomas' Eelectric Oil. I used it both internally and externally, taking it in small doses before meals and on retiring to bed. In one week I was cured and have had no trouble since. I believe to the lazaretto by hunger. Worse

are acting with commendable public spirit. Others are demanding terms so extortionate that even a Shyloek would turn red for shame: \$10,000 km wild move the public spirit. Others are demanding terms this respect. Farming as it is usually carried on is purely empiricat, and for this reason when new combinations of circumstances arise a mile would not pay what some mistakes are almost certain to be owners pretend to ask. It is formade. It is founded on no fixed tunate that the law will not allow a arise. In order to be able to farm to the best possible advantage a man should know two classes of facts. In the first place, he should know exactly what materials form all the different soils with which he has to deal. In the second place, he should know what substances build up the different plants he proposes to raise. He should also know the composition of the various fertilizers. Of course, a great many of these things are known emperically by almost every farmer, but, what I wish to say is that they should be known and they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his personal observation extends, but his states they are kept, so far as his person obstacles and obstructions in the way of the work, and within a week the commencement of actual work, the Company are threatened with suits-at-law and proceedings for advantage to or add to the prestige of Sir A. J. Smith.

Death of the Solicitor General,

favor. His course was ratified by his constituents, whose confidence he retained to the last, the for two or three years he has been in delicate health and unable to give continuous personal attention to public business. In 1872, he entered the King Government, and entered the King Government, and in 1872 became Solicitor General. He was a very useful and active local member, attending to the longer empirical. So it is with farm that wants of the various localities with promptness. The existence of the St. Martin's & Upham Railway is a monument of his energy and perseverance.

Mr. Crawford's with a scientific training. He must be able to understand the Lazaretto on Confederation was transferred to the Dominion Government, which pays \$300 a year to success, unless he is provided with a scientific training. He must be able to understand the processes which go on during the growing of a success, and has always been liberal-

Many agriculture. It is to the sciences of them, be it said to their credit, that we must look for assistence in

things are known emperically by almost every farmer, but, what I wish most every farmer, but, what I wish Tracadie to examine the patients. Death of the Solicitor General,

The Hon, John Herbert Crawford, died at his residence, Hampton, on Monday morning The deceased gentleman was thirty-nine years old. He was first elected twelve years ago member for Kings and has since continuously represented it. He voted against the School measure, but spoke in the Legislature in favor of it. This apparently inconsistent course he justified on the ground that he had been pledged to vote against it, but his private convictions were in its favor. His course was ratified by his constituents, whose confidence he retained to the last, the' for two

in 1879, became Solicitor General. In medicines acted. The medicines acted thus became a true science, was no the Lazaretto on Confederation was the was a very useful and active longer empirical. So it is with farm.

Its pretended incredulity does not surprise us. It is not the Transcript's business to endors any statement made by Mr. Hanington. It is not paid for that sort of work. Sir A. J. Smith did not buy the type, on which it is printed, to admit any fact that might possibly prejudice himself. Probably the coming election petition will afford abundance of evidence of the truth of the statement made.

Nova Scotia Elections.—The election in Antigonish County, on Tuesday, resulted in the return of Mr. Whidden (Lib.-Con.), by about 400 majority over Mr. C. C. Gregory (Grit). In Cape Breton, A. J. White, Attorney General, was reelected by about 500 majority.

The 15th of August, which was chosen last year by the French population of the Maritime Provinces as a thanksgiving-day, was celebrated throughout the Province with marked ceremony.

—The Pacific Railway construction passed on 23rd through Regina, the site of the new capital of the territory, which was duly toasted.

It is not paid for that sort of work. Sir and his neighbors, following in his measure they are generally sourced or fail according as their soil and conditions are similar to his or not. The educated farmer on the other hand can. predict almost exactly the result of an experiment in farming, and his exist and conditions are similar to his or not. The educated in the return of Mr. Whidden (Lib.-Con.), by about 400 majority over Mr. C. C. Gregory (Grit). In Cape Breton, A. J. White, Attorney General, was reelected by about 500 majority.

seem so demoralized and so averse to await the attack of our infantry that it is possible they will not make the determined stand, I anticipated, before we reach Zagazig. The losses yeaterday were Househald son a favorite of George IV. who on, a favorite of George IV., who losses, yesterday, were: Household Cavalry, 5 private killed and 12 wounded. There have been 48 sunstrokes amring the privates, one fatal to-day. Major Bibby, of the Seventh Dragoons, has been severely wounded. Admiral Seymour has organized a boat service along the canal on which we shall have mainly to depend for supplies until the locomotives get to work. The army owe the nava deep debt of Seminary, near Wheeling, West army owe the navy a deep debt of gratitude for the assistance they rendered.

Seminary, near Wheeling, West Virginia, who has lately died, sing the "Alpine Echo," she confessed

rendered.

London, Aug. 29.—Gen. Wolseley telegraphed from Ismalia at 1.40 o'clook this morning: "I have just received news from the front that Gen. Graham was heavily attacked last evening by a large force of Egyptians. The British cavalry from Mahsameh went to Graham's allow her to accept.

The Prince of Wales has written and the second of the seco -The Prince of Wales has writ

Egyptians. The British cavalry from Mahsameh went to Graham's assistance and he had a brilliant success, taking 11 guns. Only a few British were killed and over one hundred wounded. I am just about to preased to the front."

Lendon, Aug. 29.—Gen. Wolseley telegrapes from Kassassin Lock:
"Major General Graham, commanding this post, was attacked yesterday evening by about 12 guns and eight battalions. Our men behaved extremely well and inflicted severe loss upon the enemy. At first General Graham had but five guns, two and a half battalions and a small detachment of cavalry and meunted infantry, but on being reinforced by another battalien he attacked the enemy in front, whilst the stave and the flank, sabring a considerable number. The eavalry means the flank, sabring a considerable number. The eavalry means the flank, sabring a considerable number. The eavalry means the flank is cavalry Brigade, under Col. Sir Barker Russel charged them in the flank, sabring a considerable number. The eavalry means the flank is cavalry and serious from the flank, sabring a considerable number. The eavalry means the flank is cavalry and serious from the flank is cavalry and serious first form the flank is cavalry Brigade, under Col. Sir Barker Russel charged them in the flank, sabring a considerable and the circular electer to all the cletter to all the clergymen in England, inviting them cletter to all the clergymen in England, inviting them cletter to all the clergymen in England, inviting them cletter to all the clergymen in England, inviting them cletter to all the clergymen in England, inviting them cletter to all the clergymen in England, inviting them cletter to all the clergymen in England, inviting them cletter to all the clergymen in England, inviting them cletter to all the clergymen in England, inviting them cletter to all the clergymen in England, inviting them clergymen in

the flank, sabring a considerable number. The cavalry were well headed by Major General Drury Lowe. Gen. Graham's dispositions were carried out with the coolness were carried out with the coolness and any of our readers a Specimen Copy for which he has always been well send any of our readers a Specimen Copy known. Arabi Pasha was on the field during the action. The cavalry charged by moonlight but were unable to secure the rebel guns, which the enemy withdrew during the night. They left, however, all their ammunition. One billed as a consequence of the property of the American Agriculturist with a view of subscribing, the October unumber post-free. The October issue will be a grand double autum number, worth far more than an entire year's subscription price. We are prepared to club this fine magazine with the Poer for \$2.00 a year.

night. They left, however, all their ammunition. Our killed are Surgeon Major Shaw, 6 of the marine artillery and one infantry sergeant, Wonnded, 1 major, 2 captains, 2 lieutenants and 56 men."

The American Agriculturist for September is very full of valuable information for farmers, gardeners, and housekeepers, with a choice department for the young. Prof. G. C. Swallow, of Cornell University. ty, on butter; Dr. J. L. Hayes, Presiden On Friday, in the St. John country market, the quotations were:—Wholesale, beef, 4 to 8c.; mutton, 6 to 8c.; lamb, 8 to 10c. ALEX. McKAY. Dorchester, N. B., April 19th, 1882.

Is a compound of the virtues of sarsaparilla, stillingia, mandrake, yellow dock, with the iodide of potash and iron, all powerful blook-making, blood-cleansing, and life-sustaining elements. It is the purest, safest, and most effectual alterative medicine known or available to the public. The scisnces of medicine and chemistry have never produced so valuable a remedy, nor one so potent to cure all diseases resulting from mpure blood. It cures Scrofula and scrofulous diseases, Erysipelas, Rose, or St. Anthony's Fire, Pimples and Face-grubs, Pustules, Blotches, Bolls, Turnors, Tetter, Humors, Salt Rhafom, Scald-head, Ring-worm, Ulcers, Sores, Rheumatism, Mercurial Disease, Neuralgia, Female Weaknesses and Irregularities, Jaundice, Affections of the Liver, Dyspepsia, Emaétation, and General Debility.

By its searching and cleansing qualities Emadation, and General Débility.

By its searching and cleansing qualities
it purges off the foul corruptions which
contaminate the blood and cause derangement and decay. It stimulates and enlivens
the vital functions, promotes energy and
strength, restores and preserves health, and
infuses new life and vigor throughout the
whole system. No sufferer from any disease which arises from impurity of the
blood need despair who will give Ayer's
SARSAPARILLA a fair trial.

It is folly to expresiment with the numer.

It is folly to experiment with the numerous low-priced mixtures, of cheap materials, and without medicinal virtues, offered as blood-purifiers, while disease becomes more firmly seated. Ayer's Sarsaparilla is a nimity seared. AYER'S SARSAPARILLA is a medicine of such concentrated curative power, that it is by far the best, cheapest, and most reliable blood-purifier known. Physicians know its composition, and prescribe it. It has been widely used for forty years, and has won the unqualified confidence of millions whom it has benefited.

Prepared by Dr. J. C. Ayer & Co. Lowell, Mass.

Notice to Contractors.

SEALED TENDERS; addressed to the undersigned and endorsed "Tende for Post Office, &c., Woodstock, N. B. will be received at this office until FRIDAY the 1st of SEPTEMBER next, inclusive for the cretion of

POST OFFICE, &c. Woodstock, New Brunswick.

Woodstock, New Brunswick.

Plans and specifications can be seen at the Department of Public Works, Ottawa, and at the Post Office, Woodstock, on and after Tuesday, the 1st day of August next, and at the eoffice of D. E. Dunham, architect, St. John, after Monday, 7th August. Tenders must be made on the printed forms supplied.

Each tender must be accompanied by an accepted bank cheque, made p yable to the order of the Honorable the Minister of Public Works, equal to five per each of the amount of the tender, which will be forfeited if the party decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department will not be bound to accept the lowest or any tender.

By order,

F. H. ENNIS,

Secretary.

Department of Public Works, Ottawa, 24th July, 1882.

MANHOOD HOW LOST, HOW RESTORED!

New Edition of Dr. Culverwell's Celebrated Essay on the radical and permanent cure (without medicine) of Nervous Debility, Mental and Physical Incapacity, Impediments to Marrisge, etc., resulting from excesses

The celebrated author, in this admirable Essay clearly demonstrates, from thirty years' successful practice, that alarming consequences may be radically cured without the dangerous use of internal medicine or the use of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and raducally.

This Lecture should be in the hands of every youth and every man in the land.

for Children.

(From Scientific American.) On April 28, Dr. Richardson, F. R. S., delivering a lecture on "National Necessities as the Bases of Natural Education," before the Society of Arts, breght forward, happened to be a report of the chairman of evening, Mr. Edwin Chadwick, C. B., to the British Association in 1860, to show what an evil effect too much brain work, without a proportional amount of industrial occupation to support it, has upon young children:

about six hundred children, half girls and half boys, the means of industrial occupation were gained for the girls before any was obtained for the boys. The girls were therefore put upon half time tuitions; that is to say, their time of book instruction was reduced from thirty-six hours to eighteen per week, given on the three alternate days of their industrial occupation, the boys remaining at full school time of thirty-six labours new week the teaching heing the
