AUTUMN OUTER GARMENTS

To-day—an exhibit and sale. Sure to impress you with the fact that in former seasons, Chatham's correct dressers will have to depend on "Stone's" for all that is rich and right in style and price. Every skirt, every costume calls for special mention not a poor one among them.

Skirts

At \$4.50—Skirt of all wool Prieze, tailored in the very latest style, with lots of stitching, the kind usually sold at \$5.00, our special price. **\$4.50**
At \$6.50—Handsome skirt of camel's hair cloth, trimmed in the newest fashion, perfect fitting, a garment with style in every inch of it, sold regularly at \$7.50, our special price. **\$6.50**
And many others, commencing at \$2.75 and up to \$10.00. Rest assured that your wants in ready-to-wear garments can be supplied here more economically than any place else in Canada.

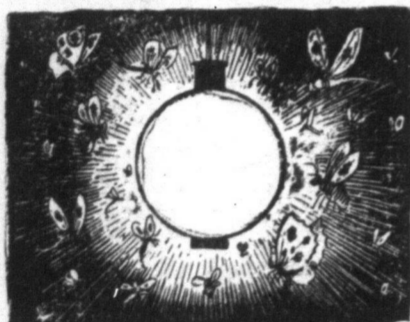

Ready to Wear Costumes

The advance guard is here, and pretty they are. The main army will arrive in a day or two. These we are showing are elegant in style and economical in price. We would be glad to have you look at them whether you want to buy or not.

Large Attendance at Scottish
Picnic Yesterday—Good
Games and Specialties.

Special to The Planet.

Erieau, Aug. 22.—Scotch picnic day seems to have lost a little of the enthusiasm of former days. The committee did their work well and furnished a good day's entertainment, but the old time zest is not there. The dancing was good, our own city being represented by Master Ben Cameron, export piper. The piper's band was splendid and the stirring martial strains went to all the hearts of the sturdy sons of the heather. The sports were very good and a large crowd watched them from the pier. A band discoursed music all day and evening and, though it was not the 12th Regiment band, yet many familiar and sweet airs were rendered in good style. A number tried to dance but the floor was so crowded as to render it practically impossible. One of the most noticeable features of the day was the gorgeous display of paper hats. They were many, varied and wonderful and resembled nothing so much as the large lampshade one used to see. One suit was particularly striking. The dress was of orange with paper hat to match and it was the most vivid shade on the list. Even the girl's hair was orange (some call it auburn). The effect was certainly striking.

Over sixty crowded coaches came out to-day and the last train left the bar at about eleven fifty so the L. E. & D. R. R. are certainly to be congratulated on their excellent service, which is a great improvement on other years. A number of boats were out in the heavy sand and yachts all day and the Urania made short trips into the lake with crowds of pleasure seekers. A number of boats were out in the heavy sand and yachts all day and the Urania made short trips into the lake with crowds of pleasure seekers.

THE YACHT RACES.

Only two yachts entered for the final series of the Scotch picnic, the Bonnie Belle and Eric B. The breeze, which blew from the south-west, flattened down to a dead calm before the third buoy was reached. The starting gun was fired at 2:34. Both yachts crossed the line abreast, the Bonnie Belle in the weather berth. She rapidly forged ahead and at the turning of the second buoy had a lead of 400 yards, which she retained until the third buoy was reached.

The fast leg was a beat to windward—but the rapidly weakening breeze fell to a dead calm and the Maple City yacht was headed. Skipper Bounsell was more fortunate and secured a slant of wind, which gave him a long lead that was absolutely impossible to overcome. The Eric finished by a good lead and the cup which the Chatham yacht had won the preceding two races goes back to Blenheim. From the time the wind died the race was most unsatisfactory and was not one in which the respective prowess of the two yachts could be fairly judged.

NOT WANTED

The Boer Generals Invited to
Stay Away From
Belgium.

London, Aug. 21.—It is announced here in a special despatch from Brussels, that the Belgian government has requested the Boer generals, (Botha, De Wet and Delarey), not to enter Belgium, and that the station master at the Northern Railroad Station has been instructed to summon troops to keep order in the event of his receiving notification of the presence of the generals on board a train from Holland.

The Hague, August 21.—Gen Botha started for Brussels to-day. The general expects to return here within a week.

CHANCE TO EXPRESS SYMPATHY.
London, Aug. 21.—Freundenblatt, in an article quoted by the Vienna correspondent of the Times, says the civilized world has an opportunity, practically, to express its sympathy with the Boers by generously responding to the appeal for South African farmers. The world must do this unless it is prepared to disavow enthusiasm manifested during the war. Brussels, Aug. 21.—General and Mrs. Botha have arrived here. They received a hearty reception from the populace.

TOURIST RETURNED

Captain Edwin Bell, L.L.B., returned last evening from his southern tour in California, on which he was accompanied by his eldest son. In a short interview with The Planet this morning, Mr. Bell expressed himself in enthusiastic terms concerning his trip, which, he says, was one of the most enjoyable he ever experienced. Mr. Bell has gathered much entertaining material concerning his tour and has kindly consented to continue his series of letters to The Planet. Mr. Bell's second splendid letter, which just preceded him home, will appear in to-morrow's issue.

CROPS BURNED

Barn Struck by Lightning and
Contents Destroyed—Horses
and Cattle Also a Prey.

Comber, Ont., Aug. 21.—Lightning struck the barn of Mr. James Stone-man, near Staples, during the thunder storm last evening. Soon the barn was a mass of flames. The season's crops of hay, wheat and oats were consumed. The horses and cattle also fell a prey to the flames. Loss about \$2,000; partly covered by insurance.

GREAT GREETING

"Ould Oireland" Welcomed A
Young Chathamite with a
Salute of 21 Guns.

The Planet yesterday received the following on a souvenir post card from Belfast. The Message speaks for itself:—

Saturday, August 9.—We are just passing Belfast; they are firing a salute of 21 guns. We have had a delightful voyage; never missed a meal. Land to-night.

Yours,
ROY TOBEY.

A DILEMMA

Woman too Fat to Get Through
Court House Doors—May be
Tried in Open Air.

Owensbury, Ky., Aug. 21.—Because a prisoner is too fat to get through the court room doors, United States Commissioner Dudley Lindsey has telegraphed to Washington for permission to hold court in the open air. The prisoner is Jane Woolsey, of Litchfield, arrested for making moonshine whiskey. She was hauled to this city in a wagon, but it was discovered she could not be taken up the narrow stairs leading to the court room. She is 5 feet 6 inches high, and weighs 430 pounds.

BURIED GALLEON

Remarkable Find by Sicilian
Fishermen—Believed to Con-
tain Treasure.

Rome, Aug. 21.—Some Sicilian fishermen while fishing with drag nets a few days ago near Cannitello, in the Straits of Messina, discovered at the bottom of the sea the existence of the forepart of a large Spanish galleon, dating from the 17th century.

Two cannon have already been brought to the surface. They weigh nearly two tons each, are made of bronze, and covered with rich Arabesques. One bears the inscription: "Philip, King of Spain, 1640," and the other, "Don Diego Philip de Guzman, Marquis of Artilery, 1632." The after part of the vessel is partially buried in sand, but the whole galleon is said to be in excellent preservation, and an attempt is going to be made to bring it to land. It is believed to contain much treasure.

TO CENTRAL PRISON

Martha Browning and William Wilson were given six months each this morning at the police court. Wilson goes to the Central and Martha to the Mercer prison. The two were arrested on the charge of vagrancy and convicted on the evidence of the neighbors, who testified to the repeated, bad language used by the prisoners. Clause 7 of the section in the criminal code defining vagrancy is very stringent. This is the section under which they were convicted and reads as follows: "Every one is a loose idle or disorderly person or vagrant who causes a disturbance in or near any street, road, highway or public place by screaming, swearing or singing or by being drunk or by impeding or in commencing peaceable passengers." Most anybody could be convicted under the terms of this act. Tecumseh Park won't look the same now that it has lost a landmark in Martha Browning. She has been considered a fixture on the park for some time.

GREEN GOODS GANG NABBED

Big Round-up of the Smooth
Ones—Half a Dozen Ar-
rests Made.

"Plant" Raided and Parapher-
nalia Secured—\$300 for
Bunch of Green Paper.

New York, Aug. 21.—What is said to be the biggest round-up of the green goods' swindlers ever made by the federal authorities in this city was announced to-day. Five men and a woman were taken into custody and an entire green goods' plant was captured. Four of the prisoners, Joseph R. Baker, Elmer Brown, S. Gottlieb and the latter's wife were arrested in Newark, and George Brown and Thomas Henry were arrested in this city. According to Post Office Inspector Michael Boyle, he has secured, as complainant against the prisoners, Antonio Capresse, a New Haven, Conn., butcher, who paid \$300 in cash and received green paper in return. Many complaints from green goods' victims have reached the post office recently and the alleged "plant" was located in Newark after much work. Inspectors Cortelyou and Duran, of Philadelphia, and Bullman and Mr. Millan, of Boston, came here and set to work under the direction of the local inspectors.

Yesterday the inspectors saw a man come to the house with Elmer Brown, the alleged "steerer," followed by Baker, the alleged "trailer." The pair entered the house and came out, the victim carrying a miniature trunk about ten inches long and four wide. The "steerer" took him to an express office where the trunk which the victim thought contained \$5,000 in bills printed from stolen Government plates, was shipped to New Haven. Then the inspectors placed Brown and Baker under arrest. The victim said he had paid \$300 for the supposed money, and was thunderstruck when the inspectors showed him the trunk containing only slips of green paper cut the size of bills. Soon after Brown and Baker were arrested the "plant" was raided and the Gottliebs were arrested. In the house were found all manner of green goods' paraphernalia, a circular, letters and a dozen or more of the little trunks and piles of green paper. Henry and Brown were arrested last night at a ferry. All the prisoners were arraigned to-day and held in \$2,500 bail each.

NO BLESSING

Angry Parents Despatch Mus-
cular Son After the Elop-
ing Couple.

Windsor, Ont., August 21.—A romance was brought to the attention of the Windsor police department to-day, when Michael H. Nassar, Jr., of 420 Monroe street, Toledo, arrived for the purpose of ascertaining whether his sister, Marie, had been married here to a fellow townsman, Ameen George Yariid. The brother came to Windsor in response to a telegram to the girl's father, signed by the "happy couple," in which they laconically announced their wedding, and at the same time asked for the parental blessing.

The angry parents did nothing of the kind. Instead, the muscular brother was delegated to pursue the missing couple. A search of the various marriage license issuers' books in Windsor did not reveal such an entry, and the brother then proceeded to Detroit.

The Nassars are said to be wealthy, the girl's father being engaged in the importing of European novelties. Yariid is 28 years of age. Up to a short time ago, he was also in business, but a fire is said to have left him practically penniless. This is the second escapade in which the two have figured. Some eight months ago, Yariid and Miss Nassar eloped, but were intercepted at Dayton, O. When she reached home the romantic young girl set up the plea that she had been hypnotized.

SERIOUS CHARGE

A warrant is out for the arrest of Ephraim Adair, of Blenheim, on the serious charge of assault upon Mrs. Annie Connor, whose husband is in the employ of Geo. McGavin, Harwich. It happened at the Eau last night and the lady's screams attracted the attention of some men close at hand. Before they could arrive, however, the man had taken flight, but pursuit was instantly instigated and the fellow was well in sight when he cut through a kind of bay in the Eau near Archie Skirving's, with water almost up to his neck, and none of his pursuers seemed to relish the cold ducking and had to go around by land. This secured for him such a lead that he was soon lost to view and had taken to the "tall timbers."

BOY DROWNED

Toronto, Aug. 21.—Geo. Bell Hope, the four-year-old son of Mr. Hope, 45 King street west, a Shelden Co. employee, fell off the city wharf yesterday afternoon while fishing with two other lads and was drowned; the body was discovered in about half an hour, but efforts at resuscitation were unavailing. The boy's companions didn't know his name, and the body remained at the morgue all night and was not identified until this morning.

FRIDAY, AUGUST 22.

THE BANNER APOLOGIZES.

To appreciate our emotional young local contemporary, one must not take it too seriously.

Yesterday, for instance, the gentleman who essays to conduct that department, which is presumably the editorial, donned his warpaint and feathers and devoted his entire serenade to this great home journal.

The effort was a trifle weird, but capital energetic. While there still may be evidence of fossilism and narrowness and an unfortunate tendency to make vituperation the substitute for reason, our contemporary should not be taken too seriously and too harshly judged.

Rome was not built in a day—neither can the good people of Chatham too early expect the logic and diction of a journalist from the Banner man. It must suffice for the present to see him consumed with vigor and the laudable ambition to identify himself with any public discussion in which this great home journal takes a part.

Yesterday, then, the Banner devoted nearly two columns to License Inspector Macnabb and The Planet. A third or fourth reading enables one to discover the three points it makes. They apparently are:—

1.—Mr. Macnabb is License Commissioner.

2.—Mr. Macnabb in his capacity as License Inspector is par excellence; his enforcement of the liquor laws is strict, vigorous and impartial; his inspections are performed with credit to himself and the community; no one has any right to hint or suggest that he is negligent regarding them.

3.—The Planet is everything that is evil and distasteful. These are the three fundamental conclusions the Banner has laboriously reached. They are cheerfully reproduced. They are doubtless equally correct.

The Banner concludes:—
What he (Mr. Macnabb) said to The Planet was that, while his exact terms were not quoted by the Banner-News, the purport of his words was given. In short, the "interview" is a pure fabrication.

And, after all, this settles the matter.

The Banner printed an alleged interview with Mr. Macnabb in which he was made to say certain untruthful and untrue things about this great home journal. The Planet took him to task therefor and suggested that he could be better employed in attending to his own official business.

It needed it. Mr. Macnabb, however, withdrew his comments, admitted they were entirely untruthful, said the facts did not warrant them and that the Banner had misreported him. Now the Banner supplements this by the announcement that its interview was a "pure fabrication."

That being the case, The Planet is content to accept the Banner's explanation. But it would not be out of place to suggest to our contemporary the propriety of exercising more care in future.

POPULARITY OF THE EVENING NEWSPAPER.

The increase in the circulation influence and prestige of the evening newspaper during the past decade is the phenomenon of newspaperdom, says the Cleveland Press.

The statement is not a haphazard one. It is confirmed by the United States census.

In 1891 there were two evening papers printed to every morning paper. In 1900 there were three evening newspapers printed to one morning newspaper.

Has the demand for the morning papers fallen off or the demand for the evening papers increased? Both.

The afternoon paper is the paper of the masses. The merchant and the professional man read the morning paper, but there are a very small proportion of a newspaper's constitu-

ency, and even they scan it hastily. The evening paper comes to the home at the leisure hour. The head of the house, the wife, and the children all have time to read it. Together man and wife discuss the news and plan the next day's program, whether of pleasure or of buying.

Every invention and facility which expedites the transmission of news helps the evening paper. It is so now that three-fourths of the world's happenings are given the same day they happen. The people want the news while it is hot. The morning paper can enlarge and comment, but the evening edition usually gives the first publication.

It is for this reason that the evening newspaper is sought as an advertising medium. It reaches the larger number of the purchasing public at a time when they have leisure to read and digest.

At an entertainment given by the harbor commissioners of Montreal to the English newspaper men who are now visiting Canada one of the speakers was Hon. J. Israel Tarte, Minister of Public Works, who is reported to have said on that occasion:—

"We want to see more English enterprise and more English capital. Some of our industries are altogether in the hands of Americans. This is not as it should be, and not what we want. When you go back I wish you to say, that we gladly welcome immigration; immigration of men and immigration of money, and tell every one in England that we welcome any who comes over here to become Canadians and remain British."

This straight Canadian utterance of the Minister of Public Works is one that commends itself to all in Canada and is in marked contrast to the vague indefinite language of Sir Wilfrid Laurier who appears to delight in burying his ideas "neath a mass of beautiful words."

UNIQUE SCHEME.
Detroit Tribune.

The mayor of Steubenville, Ohio, has adopted a unique method of settling what he calls "petty quarrels" quarrels between women. He has established a "fighting-room" in which he locks the women who quarrel over backyard fences. After an hour's abuse of each other they run down. Then they invariably become reconciled.

"Be good, little maid," cries the yellow journal, "and remain American, and you shall have the approval of your patriotic little conscience. But, nevertheless, if you can manage to capture a British lord, send us all the photographs you have ever had taken and a catalogue of your dresses and your lingerie; and then when your countrymen and your countrywomen hear the sound of the cornet, flute, harp, sackbut, psaltery and dulcimer, and all kinds of music, they will fall down and worship you."

Township Councils

HARWICH COUNCIL.

A regular meeting of the Municipal Council of the Township of Harwich was held in the Township Hall on Monday, Aug. 11th, at 10 a. m. Members present P. Morrison, reeve; C. Buchanan, J. McCormick, B. H. Bentley and M. J. Wilson, councillors.

The minutes of the previous regular meeting were read and adopted, with the exception of the meeting held at P. McGee's, which was ordered to be called a committee meeting, after the above change they were signed by the reeve.

The following communications were read—

Angus Smith, C. E., re report and profile of Tyhurst drain, giving cost of repairs, and recommending the same pro rata assessment being used as that of the last revised assessment of the drain.

A claim from Mr. Sam. Pollard, Petroler, claiming a reward of \$25 for information given by him, which lead to the arrest of Reilly and Ackers, grain thieves. The clerk was requested to write Mr. Pollard to the effect that owing to the fact that Reilly and Ackers were not convicted for the theft, it relieved the Township from all responsibility with regard to the reward offered.

W. G. McGeorge, C. E., reported upon the Nash drain, and said that under the existing conditions, he could not go ahead and make an assessment, unless first the usual formalities were gone through with. He also reported and sent specifications for an eight foot concrete culvert.

Augusta Richardson requested the council to offer a reward for the arrest and conviction of a party or parties who were instrumental in setting fire to a pile of rails lying close to her residence at the Eau Point, and thus endangering both life and property.

C. W. Richardson asked that the Township place an engineer to plant stakes, which would assure him of a proper place on line along which to build his fence.

Moved by Wilson and Bentley, that whereas a communication received from Augusta D. Richardson, complaining that a pile containing 25 cords of wood were in her opinion, purposely set on fire by a party or parties unknown, that the Township Council offer a reward of \$25 to the person securing the arrest and conviction of the guilty party or parties, provided the said Augusta Richardson pay a like amount to be added to the reward offered by the Township.—Carried.

The council took no action with regard to the request made by C. W. Richardson.

Applications were received from the following ratepayers asking that the following drains be cleaned out to their original width and depth—Dan McColl, regarding the McPhail drain.

Milo Pardo, regarding the Howard drain.

Chas. A. Doyle, regarding the west part of the Doyle drain.

Moved by Wilson and Buchanan, that the application of Dan. McColl to have the McPhail drain cleaned out to its original width and depth, beginning at the west Town Line, be accepted, and that the Township engineer, W. G. McGeorge, be authorized to make the necessary plans and estimates and assessments, and report to this council at their next regular meeting on September 8th inst.—Carried.

Moved by McCormick and Wilson, that the application of Chas. A. Doyle for repairs to the Doyle drain across lot 1, concession 5, R. T., be entertained, and that Engineer McGeorge be instructed to make the necessary survey and report.—Carried.

Moved by McCormick and Buchanan, that the clerk notify the L. E. & D. R. R. officials that the culvert under their roadway on lot 4, concession 5, R. T., is out of repair, and that they are respectfully requested to attend to the grievance.

Moved by Bentley and Buchanan, that a grant of \$100 be given to the Harwich Branch Agricultural Society, and also \$50 be given to the West Kent Agricultural Society, upon the condition that the above societies furnish the council with a financial statement for the past year.—Carried.

Moved by Bentley and Buchanan, that the reeve be requested by the council to sign the papers respecting the Laird and Pinder drain.—Carried.

Moved by Wilson and Bentley, that the report of Angus Smith, C. E., on the Tyhurst drain be accepted, and that J. McCormick as commissioner be authorized to advertise and sell the work.—Carried.

Moved by McCormick and Bentley, that the reeve, Buchanan, and the mover, be a committee to meet Thos. Henry and advise some scheme for the protection of the 3rd concession W. G. H. Date of meeting Monday, September 1st, at 2 p. m.—Carried.

Moved by Buchanan and Bentley, that the clerk write Mr. Pollard and inform him that the conditions of the reward offered by the Township for the grain thieves Reilly and Ackers, were that the money was to be paid when the parties were convicted, and not or mar the result.—Carried.

B. H. Bentley submitted the following report upon the Eastlake and Ridley drain—

I hereby beg leave to report as follows—

That having met Mr. Brien, commissioner for Howard, on the Eastlake and Ridley drain, we consider that the Harwich and Howard Town Line should be 30 rods of 5-inch filling, or the amount of \$15 should be divided between the two Townships.—Adopted.

To the Municipal Council of the Township of Harwich—

I hereby beg leave to report as follows in regard to the painting of the iron bridges on the Creek, I received two tenders for the work—

Ted. Beardon, \$225.
A. M. Scarlett, \$75.
I gave the work to Scarlett.
The bridges were each given a sheet

It is courting danger to stand under icy eaves. Not a few have learned this to their cost. Every winter injury and even death are reported as the result of this carelessness. But there is a far more popular way of courting danger. Every man or woman who neglects a cough is inviting sickness, and many a fatal sickness has its beginning in a slight cough.

The timely use of Dr. Pierce's Golden Medical Discovery will cure the cough. Even when the cough is obstinate and there is hemorrhage with emaciation and weakness, "Golden Medical Discovery" always helps and almost always cures.

"I was troubled with a bad cold, which settled on my lungs and left me with a miserable cough," writes Mr. Joseph D. Burns, of Huron Street, Racine, New York. "I used your Golden Medical Discovery after which my cough disappeared entirely. I cannot recommend your medicine too highly."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood, and lungs. Substitution means a little more profit to the dealer but a loss to you.

The Common Sense Medical Adviser, 1008 large pages, in paper covers, is sent free on receipt of 31 one-cent stamps to pay expenses of customs and mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

combing and two coats of paint, as far as I am able to judge the work has been well done. I also had Mr. Scarlett repair the Tobin bridge. We found in the upper part of the structure that nearly 50 3-4 bolts had been left out; these were put in, also 13 curbs. These, with other repairs, including work, cost \$9.22.

(Signed) J. McCORMICK.
Moved by Buchanan and Wilson, that the above report be adopted.—Carried.

Moved by Wilson and Bentley, that the clerk notify the Creek commissioner for ward 2 to examine the McKinley drain, as complaint has been made to this council that the flow of water is stopped on account of said drain being blocked with rubbish, and by cattle crossing it.—Carried.

There were also a number of accounts which were ordered paid.
L. W. BAIRD, Clerk.

Yellowstone National Park

This famous national park offers to the tourist and sightseer more novelties and curiosities than perhaps any other spot on earth. The stage ride from Monida is through scenery hardly inferior to the park itself, and this ride is one of the very many enjoyments of the trip.

The new route to the Yellowstone is via the Union Pacific and Oregon Short Line Railroads to Monida, Montana, thence daily by palatial Concord coaches of the Monida & Yellowstone Stage Company to all points in the Yellowstone National Park.

The Value of Flower Studies.
"As a lesson in composition, nothing that I can call to mind at the moment will equal two or three hours spent with a few sprays of any simple flowers as subjects for the camera. For studying lighting, as well as rendition of color values and textures, one can hardly wish for better subjects. Good composition, good values, good texture and good lighting are a rare combination in this class of work. You may, perhaps, get two of these, but try for all four in the same picture and see how hard it is. The trained painter's flowers will teach you lessons in composition that will be of value in making groups; the lighting is a study that you can hardly overdo; the effects of isochromatic plates and color screens is much better investigated in this way, while texture and its rendition, the strong point of our art, if we only realized it, is a serious study in itself. Four points, learn to get relief, roundness and atmosphere. If then you can secure, by the aid of knowledge obtained, a little 'feeling,' your photographs will be pictures and your pictures pleasing. Try, by your treatment, to suggest the bold assertiveness of this flower, the homely grace and simplicity of the other. The lighting, the arrangement of line, the choice of background and a dozen other things will all assist if employed intelligently. Even the tone of the print and mount will help. The proper trimming of the print can make or mar the result. A little study and you will agree with me that flowers are worth a few hours' time on a rainy afternoon."

I quote the above from Western Camera News, because it seems to me that the photographing of flowers should appeal more strongly to the nature lover than to anyone else. If you are a sportsman, you must love the open air—nature, in short, and what excellent opportunities those tramps across the country afford for studying the flowers in their natural haunts. A few choice flower studies on the wall, neatly framed, would prove a source of much consolation when the green fields and trees are safely sequestered in a mantle of snow.—Pharos in The Globe.

What's gone, and past help, should be past grief.

DISTRICT DOINGS.

BEAR LINE.

It being local Sunday quite a number of our people went to the lake for a drive.

Miss Jannie Crouch is able to be out again after being laid up for a week with a sprained ankle.

Mrs. Jas. Richmond's little baby girl died Sunday morning at ten o'clock and was buried on Monday afternoon at two o'clock.

Miss Kenney, of Leamington, was visiting at Mrs. K. G. Adams a few days last week.

Miss Thompson, of Chatham, was the guest of the Misses Doolittle last week.

While driving home from work the other evening Jas. Payne's horse became unmanageable, the harness giving way. Jim jumped out and probably saved himself from being hurt. Not much damage was done. The horse went home.

Geo. Bolton was visiting friends in this vicinity Sunday.

Mr. and Mrs. DeCov, of Dawn Mills, were the guests at Mack McGregor's Sunday.

Quite a number of the young people of the other evening gave the Misses Gilmore's a surprise party.

E. Glassford and A. McLaren wheeled to Chatham the other evening.

Mr. Foster is visiting his sister, Mrs. Jno. Jackson. He has come 680 miles on his wheel from North Michigan. He says the crops look as well here as they do any place on his travels.

GLENNWOOD.

W. C. Estabrook was a Chatham visitor last Saturday.

Roy McLaren, of Highgate, spent Saturday and Sunday at W. C. Estabrook's.

Mrs. E. Brownell, who has been visiting at W. Blake's, returned last Friday to her home in Detroit.

Owing to ill-health, Miss A. Dodd, of Thomas, who was engaged to teach our school, has been compelled to resign. Miss Mary Payne, of Peterborough, has been engaged and re-opened the school on Monday morning.

We are glad to see that Wm. Newham, who has been ill with typhoid fever, is able to be around again.

Miss Lillie and Claude Kennedy, who have been visiting friends in the village during the past week, returned to their home in Ridgeway last Monday.

Miss Ruby Kane, of St. Thomas, is the guest of her aunt, Mrs. E. Newham.

I. J. Coffell has erected a new power mill on his farm.

Mr. and Mrs. Orlando Bennett and family, of Detroit, were the guests of P. J. McGee last week.

Wm. Smith, of Detroit, was in the village last Saturday.

Mrs. Geo. Brownning, of Detroit, is visiting at Jas. Wade's this week.

Mrs. Wes. Russ is visiting at James Kennedy's, Ridgeway this week.

A. and H. Greensides and David Robinson have purchased a threshing outfit and have commenced threshing in the vicinity this week.

Miss Alice Estabrook, who has been spending her holidays at home returned to her school on Monday.

TUPPERVILLE.

David Walker spent Sunday at Mr. Hale's.

Mrs. Armstrong is visiting friends at Port Lambton.

Gloria Reid is on the sick list. Charles Gaskie, our station agent is looking well, but rather lonesome, he says.

Our mayor, James Fitzgerald, is not improving very fast, as Dr. Shaw was there Sunday.

Mrs. Jennie Ewing was taken very sick on Saturday, and her sister, Lizzie, is very sick at present. No change.

Mr. and Mrs. West, Brown and family spent Sunday with her sister, Mrs. Tom Basse.

There are outsiders who think it a joke to raise rent on people inside the village, but we will give them to understand that they will have to build in order to live in the village. (One Who Knows.)

Geese That Lay Golden Eggs.

Once upon a time there was a promoter who owned a common, everyday goose who laid the usual, ordinary goose eggs. He conceived the scheme of syndicating the goose on a gold egg basis and proceeded to do so.

He informed the trusting public that soon his goose would lay an egg of gold each day and offered for sale stock in the Golden Goose Egg company, limited, at bedrock prices. There was a wild rush for the stock, and the promoter suddenly found himself wealthy.

He continued to sell the stock as long as there were buyers, for he did not want to kill the goose that laid the egg. His goose continued the same ordinary fowl as before.

Moral—There are featherless geese that lay golden eggs.

Minister's Maid.

"Are you a minister's wife?" was a query encountered so frequently by a young matron in search of a maid that she counted a story.

"Why this man to live under the droppings of the sanctuary?" inquired the matron or words to that effect.

Then it appeared that the minister's family is considered a most desirable place because of the opportunities for witness fees in wedding cases. There are few bridesmaids who come without a witness to be married who will not bestow a generous tip upon the girl who furnishes this small but necessary feature of the ceremony.

One of the sweetest things in the family is to see children helping one another.

It isn't always resignation that makes the photographer take things as they come.

NEW MARKET

Ridgetown inaugurates a Suc-
cessful Sales day Which will
Become Permanent.

"As a result of an experiment in
the market line yesterday at Ridge-
town, our progressive little town will
have a regular market day every
Thursday hereafter," said Phil. H.
Bowyer, editor of the Dominion, to The
Planet to-day.

"The town has had a market place
and a market building for some time,
but has never had a market.

"Some of the enterprising citizens
got together, and notwithstanding a
little objection on the part of some,
the experiment was a splendid suc-
cess. About twelve market gardeners
and farmers came in and all went
home with empty wagons and full
pockets."

TELEGRAPH

A cross-petition was served in the
Lefebvre election case upon M. S. Ma-
dole, the defeated Reform candidate,
seeking to disqualify.

The tenders for army supplies in
South Africa must be in by Oct. 1, and
the time is too short to allow Cana-
dian firms to make bids.

The dead body of a laborer named

field, Quebec. A young man named
Fortin, arrested for the murder, ad-
mitted fighting with the deceased with
knives.

CROPS ENDANGERED.

Berlin Aug. 21.—The Prussian crop
report, just published, shows one point
of deterioration for winter and sum-
mer wheat since July 15, winter
rye one point of deterioration and
summer rye unchanged.

The report mentions that the crops
in some parts have been endangered
through excessive rains, and that very
much damage has been sustained from
hail. The summer grains cannot rip-
en owing to the low temperature and
great moisture, and are still largely
green.

A report from Vienna says heavy
rainstorms in Lower Austria and Bo-
hemia have resulted in severe dam-
age to crops. The River Elbe over-
flowed its banks at Meran, in South-
ern Tyrol, and caused the collapse of
a house, with the result that two per-
sons were killed and eight seriously
injured.

SUCCESSFUL SOCIAL

A very pleasant social was given
last evening under the auspices of
the "Willing Workers" of the Pres-
byterian church of Dover, at the resi-
dence of Mr. Burke, corner of the 6th
concession and the Baldoon road.

During the earlier part of the even-
ing a football match was played be-
tween Mitchell's Bay and Dover. A
very large crowd attended the social
in the evening. Dr. A. W. Thorn-
ton, of this city, acted as chairman
in his usual excellent manner.

The program was an excellent one
and consisted of solos by Miss E. Webster,
the popular soprano and leader of
the Park street Methodist choir, and
W. Miller, tenor. Speeches from T. H.
Wylie and Dr. Hicks, of this city,
and Rev. Mr. Clark, of Baldoon; a
reading by J. G. Kerr, of this city,
and a number of selections from T. H.
Wylie, Miss Bogart, Miss Carrie
Wanless, Miss Belle Somerville, Miss
Pearl White, Dr. Hicks, T. H. Wylie,
Harry Jordan, W. Doherty and W.
Miller.

The social was a huge success and
the proceeds will be given to the
church, of which Rev. Mr. Nealey is
the pastor.

SCOURGE OF WAR.

Vienna, Aug. 21.—Count Anton Po-
tacky d'Ottom, who is at present in
Budapest seeking to be cured of a shot-
wound, is a man with a sad history.

When the Transvaal War broke out
he had been for 34 years a resident in
the Republic, and owned a farm about
one and a half miles from Johannes-
burg, valued at about a quarter of a
million sterling.

As a Boer commandant, he went
through the war was wounded in the
foot, and had his lower lip badly torn
by a shell.

But this was not all. His wife and
three children were burned to death
in a fire which broke out in a con-
centration camp, while his eldest son,
a boy of 18, fell fighting under De
Wet.

Count Potacky, says the Pester
Lloyd, intends to return to the Trans-
vaal to settle, if possible, his affairs.

COMMERCE WITH FRANCE.

Paris, Aug. 21.—Le Temps says Sir
Wilfrid Laurier and M. Delcasse, min-
ister of foreign affairs, will together
examine several commercial conven-
tions which might be concluded be-
tween France and Canada.

Geo. A. Young

Agents Ruined Them.

At the Whitefriars' club in London
recently the members met to greet
John Murray, the veteran publisher,
as their guest, and to discuss the
complicated subject of the relations
of "Author, Agent and Publisher."
There was a good deal of chaff dur-
ing the discussion, and G. B. Bur-
gin, the writer, told a story which
turned out differently from what his
audience expected. Two shivering,
hungry, wretched outcasts met one
cold winter's night outside the resi-
dence of a wealthy literary agent.
There was a strip of crimson car-
pet on the pavement, and carriages
thundered up to the curb in "profite-
d prostitution." Then royalty de-
scended and went to dine with the
literary agent. "Who are you?" asked
the first outcast of the other. "I
am an author—once," bitterly replied
the other. "Who are you? I've seen
you before." "I was a publisher—
once," said the first outcast. They
recognized each other, and, moved
by the common impulse of brother-
hood, turned round and shook their
fists at the house of the agent.
"There," they declared in unison,
"there is the man who helped us to
ruin each other." Then, linking
arms, they sorrowfully went away
to the nearest doss-house.

Sheep Raising in Canada.

James M. Kenan, of Vancouver, B.
C., who recently talked to a report-
er in Toronto, was one of the first
men to introduce sheep herds on a
large scale into the Northwest Ter-
ritory. He declared that the pros-
pects for owners of sheep on the Do-
minion side of the line are very
promising at present, though they
have been at a big disadvantage
since the famous McKinley bill,
which was designed especially to en-
courage the production of wool on
the American side, became effective.
It was practically a barrier to com-
petition from the Canadian sheep
owners, and gave the American sheep
owners a differential of 10 per cent.
and the added freight from Austral-
ia, against competition from that
direction. Mr. Kenan said some
sheep had taken their sheep into the
States, but they were now coming
back. His experience had been that
the tariff had not very largely in-
creased the production of wool in
the Western States. The herds in
Western Canada were largely increas-
ing, and he thought the general era
of good times in the Northwest Ter-
ritories would result in much great-
er prosperity for the owners of
Canadian sheep.

Hon. G. R. Murray, Premier of Nova
Scotia, says the fast Atlantic line is a
settled fact. He believes the Elder-
 Dempster Company will get the con-
tract.

Every Home Needs Furniture

Perhaps it is only the purchase of a chair, a table, a pair of lace curtains or a
rug, yet it may be that an entire home is to be outfitted with Furniture, Carpets,
Linoleums, Draperies and the like.

The money earner and the housekeeper have been saving the "necessary"
wherever to make the early fall purchases. There have been many wishes that
the sum saved would be greater, but let that pass. By saving to the utmost the
spending should be done to buy the utmost possible with the savings whether
they be large or small.

A moment's thought will tell you to visit this store when you are needing
anything in the House Furniture Lines.

Here you will find now as always One Price and that the lowest. YOU do
not pay more for your purchase than your neighbor does. Everything here is
priced in plain figures, that's why our customers always feel at home when deal-
ing here. Does your Fall Needs include any of the following—

Fancy Hall Racks
Parlor Suites
Parlor Tables
Music Cabinets

The secretary of the local cricket club has ascertained beyond any question that the C. P. R. was in no sense responsible for the non-appearance of the St. Louis cricketers in Chatham; that Tuesday; that the railway actually granted stop over privileges to the St. Louis team, and that the reason given by the latter had no foundation in fact. This explanation is given in justice to the C. P. R. railway.

A citizen calls attention to the way people allow horses to stand on the streets. He says that the police ought to look after the tying of horses on King street. During this weather while the flies are bad, the horses will tramp the pavement to pieces.

A citizen calls attention to the way Mr. Willmore has trimmed the trees in front of his place. The citizen thinks that Mr. Willmore might better have cut the trees away altogether. The citizen further adds that it looks as if the trees were trimmed for the wood in them.

During the absence of the Rev. T. T. George from the city, his pulpit in the Victoria Ave. Methodist Church will be occupied by the Rev. Harvey Kennedy, late of the Sunnyside Mission. While in the city the Rev. Mr. Kennedy is the guest of J. D. Stark, St. Clair street.

James Perry, a pensioner from McKay's Corners, was in the city to-day, drawing his pension money. He is an Irishman and quite a card. He plays an ordinary tin whistle with more than ordinary skill. He can play most anything on his humble musical instrument but he is particularly strong on Irish airs. Perry's only fault is that his whistle requires a little too much wetting.

We are pleased to notice that J. C. Black, teacher in No. 6, Harwich, and so well known here, passed ten pupils out of thirteen for high school entrance and two out of three for Part I, junior leaving. The people on the Ridge have found things coming their way in school matters this time. This is a large and important school and during his three years as teacher Mr. Black has worked it up to a most efficient state. Mr. Black's salary is about \$500, and he is none too well paid.

ROYAL MUSKOKA NOW OPEN

Guests Are Arriving Daily at the New summer resort.

The opening of the new Royal Muskoka Hotel, on Lake Rosseau, Muskoka Lakes district, for the season of 1912, has been a source of satisfaction to the proprietors, and the reservations that have been made up to the present for accommodation at this resort assures the success of the venture. Guests are arriving daily, and by next week, hundreds of people will be enjoying the beauties of Muskoka with the advantage of sojourning in one of the best summer hotels in America.

Among the guests at the hotel now are prominent people from Buffalo, Chicago, New York, and other American cities, as well as many Canadians.

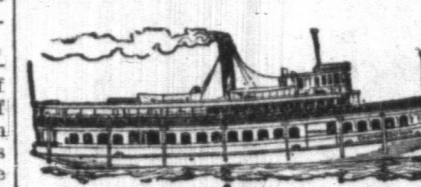

The Ontario Government, in conjunction with the Grand Trunk Railway system, is continuing the policy inaugurated last year of restocking the Muskoka lakes with parent bass. The first carload was deposited in lake Rosseau, June 20, and a finer lot of bass have seldom been seen. Last year 10,000 fish were transplanted into the Northern Lakes with much success. The fishing this year in the Muskoka Lakes is good, some excellent catches having been made, the bass weighing from two to four pounds, and pickerel from two to eight pounds.

WHEN A BOAT TIPS OVER.

It Is Well for Women to Know What to Do in an Emergency.

On the question discussed at the public bath, whether a girl's skirts if she fell overboard would buoy her up or drag her down there seemed to be a division of opinion. Finally, it was agreed that they might buoy her up for a few seconds, until the air that was in them escaped, but as soon as they were wet they would tend to drag her down, and make swimming practically impossible. Of course, how soon they got wet would depend on the material of which they were made. Miss Clark, the teacher, pointed out that when a woman diverged into the water the air under her bathing skirt formed a big bubble which hampered, a swimmer, so that she reached back and pressed it out as soon as possible. But this same bubble would undoubtedly tend to buoy up a non-swimmer for an infinitesimal space of time. On the other hand, this air chamber lasted much longer in a wet bathing suit than in a dry one, for in the former the pores of the material were to a certain extent filled with water and the air escaped slowly.

The suggestion of an undressing drill seemed to particularly please Dr. Mosher, says The Brooklyn Eagle. Its practical value was evident, as in nine cases out of ten the drowning accidents are the result of an overturned boat, and its occupants are not in bathing suits. The children used to swimming there in the lightest possible attire, for except with the teachers, the skirted bathing suit is unknown, would be hampered almost to rendering their knowledge of swimming useless if they were called upon to save themselves with their high shoes, two or three petticoats on, and in the case of the older girls, long skirts and probably corsets.

It is not that undressing in the water is particularly hard. Most of those who swim for pleasure have probably done it, but the youngsters should be taught that they can and that in an emergency they must undress sufficiently to be able to put their knowledge of swimming to practical use. Undress or two lessons would be all that would be needed. The matron suggested, and the suggestion was a good and practical one. "At least teach them to pick up the front of their skirts and hold them in their teeth to keep them out of the way. I always do that even with my bathing suit if I am swimming any distance."

A New Ape.

I believe there has been deposited in the London Zoo a specimen of a chimpanzee which is said to represent a new form, or it may be a mere variety only, of that species of monkey-like ape. It figures under the scientific name of *anthropopithecus troglodytes*, is said to have been brought from the Gold Coast, and has been presented to the Zoological Society by Captain D. A. Donavan. The creature is described as singularly tame and intelligent, and possibly in it we may find a successor to that highly-educated ape, the late lamented Sally. Unusually, the manlike ape are all delicate of constitution, that is, as represented by a life spent in captivity, and subject to marked variations of temperature. Whether this new specimen is to be referred to the ordinary chimpanzee species or not will, no doubt, be duly determined by the authorities at the Zoo. The question of specific differences in the chimpanzee branch of the ape stock is not settled. Hartmann remarks that it is a difficult question to decide, though he, himself, adds that he is inclined to admit a certain constancy in the varieties he has examined. The new ape at the Zoo may possibly turn out to represent one of the varieties. It is a notoriously difficult matter to decide where we leave the limits of a mere variety behind and where the boundary line of a new species begins.—London Chronicle.

The Duke and the Soup
Here is an episode related by M. Jacques Kraemer, now maître d'hôtel at the Carlton, respecting his experience at the Savoy:

I was waiting on the Duke of Fife one night when his grace was giving a small private dinner party in the Patience Room. There was hardly room to pass behind each guest. The soups were Borch—a costly Russian "potage," made from boiled duck, and served with sorrel, vegetables and cream, and just as I was serving it found, an accident happened. In one hand I had a plate of soup, and in the other my cream. The Duke was talking earnestly to me, and so I didn't listen to him, that I did not know I was dropping all the cream in a hideous thick stream down his back.

I made no fuss, I gave no alarm. The Duke went on talking and laughing with his guests, with the back of his exquisitely-fitting dress one mass of thick cream. I got two or three soft serviettes, and as I served his grace with each course I gave him a rub. By the time we had come to the ice, there was nothing left of the cream except certain faint traces, for which I fear, his grace's valet was unjustly blamed.—London Daily News.

Not Home-Killed.
An English resident of Shanghai, having made a good dinner from a

tasty but unrecognized dish, called his cook, Wan Hoo, and congratulated him on the excellent meal.
"I hope you didn't kill one of those dogs to provide the soup," jestingly remarked his daughter, referring, of course, to the pariah which haunts Chinese streets.

Wan Hoo made a solemn gesture of dissent.
"No killee dawg, missie," he explained. "Him alledied dead when I pikee up!"

Prince of Wales Has Opinions.
Contrary to general opinion, I hear that the Prince of Wales is person of most decided opinions, and that his "yes" is "yes" and his "nay" most distinctly "nay."—Lally Bernard, in The Globe.

A Scientific Voice Improver.

Because of its strengthening influence upon the vocal chords, Catarhizone cannot be too highly recommended as a wonderful voice improver. It almost instantly removes huskiness or hoarseness, thus insuring clearness and brilliancy of tone. Catarhizone keeps the mucous surface in perfect condition, and its regular use absolutely prevents colds and throat irritation, thereby removing the singer's greatest source of anxiety, unfixedness of voice. The most eminent speakers and Prima Donnas would not be without Catarhizone and credit in no small degree their uniform strength and brilliancy of tone to its influence. The hard rubber inhaler fits quite conveniently into a purse or vest pocket, and may be used in the church, theatre, any place or time. Complete outfit \$1. Small size 25c. Druggists or Polson & Co., Kingston, Ont.

Bamboo Lighthouses.

The French consul at Batavia states that lighthouses are built of bamboo cane in Japan and suggest the importance of the wood in erecting lighthouses. The power of resistance of a bamboo cane measuring eight inches to ten inches in diameter, even with a length of sixty-five feet, is enormous. More bamboo is used in Japan than in either when in the ground or in water, while the drier and older it grows the firmer it becomes.

Advice to Mothers.

If your little boy or girl comes home with a sore throat, the first thing to do is to rub the throat and chest with Polson's Nerville. Don't be afraid to use Nerville freely—a whole bottle full wouldn't burn or blister the tenderest skin. Rub in until all taken by the pores, and just before the child goes to sleep give him a glass of hot water into which 30 drops of Nerville has previously been stirred. This is a sure, pleasant and speedy cure. Large bottles 25 cents.

Sleeping on the Line.

A strange circular was recently issued to signalmen on a Russian railway forbidding them to go to sleep lying on the rails. One would hardly imagine that the temptation to do so would prove overpowering, but it appears that the signalmen feel they have to sleep somewhere, and they labor under the delusion that the violation of an approaching train will wake them up, a mission which it frequently fails to fulfill.

Nervously Exhausted.

Sleepless, poor digestion, easily tired, blue as indigo, that's how you feel. Do you want to feel strong, make plenty of blood, enjoy buoyancy, strength and vim. You can do so by using Ferrozone. How it sharpens the appetite and imparts a feeling of buoyancy, strength and vim. Improves the appetite, digestion, assimilation, sleep. How surely Ferrozone does this, you can ascertain by using it. Ferrozone is a blood builder, strengthener and brain invigorator. Sold by McNeill & Co.

THE HOT WEATHER TEST.

Makes people better acquainted with their resources of strength and endurance.

Many find that they are not so well off as they thought and that they are easily enervated and depressed by the heat.

What they need is the tonic effect of Hood's Sarsaparilla which strengthens the blood, promotes refreshing sleep, overcomes that tired feeling, creates appetite.

A STORY OF CÆSAR.

The Quality of Mercy as Exercised by the Great Roman.

Cæsar traveled with the retinue of a man of rank, and on his way to Rhodes he fell in with an adventure which may be something more than legend. When he was crossing the Aegean, his vessel is said to have been taken by pirates. They carried him to Pharnaces, an island off the Carian coast, which was then in the possession of pirates. He was detained for six weeks with three of his attendants, while the rest of his servants were sent to the nearest Roman station to raise his ransom.

The pirates treated him with politeness. He joined in their sports, played games with them, looked into their habits and amused himself with them as well as he could, frankly telling them at the same time that they would be hanged.

The ransom, a very large one, about \$10,000, was brought and paid. Cæsar was set upon the mainland, near Miletus, where, without a moment's delay, he collected some armed vessels, returned to the island, seized the whole crew while they were dividing their plunder, and took them away to Pergamum, the seat of government in the Asiatic province, where they were convicted and crucified. Cæsar was not a Roman characteristic. It was therefore noted with some surprise that Cæsar interceded to mitigate the severity of the punishment. The poor wretches were strangled before they were stretched on their crosses and were spared the prolongation of their torture.

Man's Wonderful Stomach.

The human stomach possesses most wonderful powers of adaptation to circumstances. When Lieutenant Bilgh and his eighteen men were cast off from the Bounty by the mutineers in an open boat, they subsisted for forty-one days on a daily allowance of one-twenty-fifth of a pound of biscuit per man and a quarter of a pint of water. Dr. Tanner in 1880 fasted for forty days, subsisting, it is said, on water alone, and Suetonius and other fasters men have since excelled this.

Kaffirs, North American Indians and the fat boy in "Pickwick" may well be quoted as fearful examples of voracity, but even their gastronomic feats are exceeded by the full grown Eskimo, who will daily eat twenty pounds of flesh and oil if he has the chance, while on the authority of Admiral Ratcheff a Yakut of Siberia has been known to consume in twenty-four hours "the hind quarter of a large ox, twenty pounds of fat and a quantity of melted butter for his drink!"

Tennyson's Tactlessness.

Several stories are told of Tennyson's thoughtless speeches. "What ash is this?" he once asked his hostess where he was dining. "Whiting," she replied. "The meanest fish there is," he remarked, quite unconscious that he could have wounded any one's feelings. Yet his kindness of heart was such that when his partridge was afterwards given him almost raw he ate steadily through it for fear his hostess might be vexed.

On one occasion Tennyson was very rude to Mrs. Brotherton, a neighbor at Freshwater. The next day he came to her house with a great cabbage under each arm.

"I heard you like these, so I brought them," he said genially. It was his idea of a peace offering.

Lightning's Marks on the Body.

A curious and not uncommon effect of lightning is the formation of certain arborescent or treelike marks upon the body. By early observers they were believed to be due to the presence of neighboring objects, which were photographed upon the skin. Various explanations were offered by different authorities. Richardson has shown by experiment that the blood is the best electrical conductor of all human tissues and that these marks are merely the impressions of the blood vessels on the skin, due to the action of the lightning on the blood in the vessels.—Exchange.

Fear.

Fear causes more disease than do microbes, more deaths than famine, more failures than panic; it costs more than war, is always a failure and is never necessary. Fear weakens the heart's action, induces congestion, invites indigestion, produces poison through decomposing foods and is thus the mother of auto-poisoning, which either directly causes or greatly aids in the production of quite 90 per cent of all our diseases.—G. F. Meacham, M. D., in Health.

The Parental Plot.
"Nellie, dear," whispered the Washington youth, "I see my mother and you are in earnest conversation over there. I wonder what they're talking about."

"Maybe," said the Washington maiden, with a bright blush, "they think they're holding a steering committee meeting."

A Hint to the Average Man.
If the average man who is unlucky

in love spent half as much energy in hunting up some other desirable girl as he does in chasing the girl who is unkind to him, he would soon be a good deal happier.

These Girl Friends.

"I had a proposal last night and refused it."
"You are always thinking of the welfare of others aren't you, dear?"

The Ordinary Cereals

It Gets Its Delicate and Delicious

Flavor From the Malt in It.

You will surely like Malt Breakfast Food as well as the thousands who are now using it regularly every morning. Malt Breakfast Food is not a flat, mushy food like the ordinary cereals now seeking recognition. It is a delicious concentrated food loved by young and old—a food that bestows a vigorous health; making you happy and contented.

Malt Breakfast Food is the only grain food scientifically combined with sugar, health-giving malt. This scientific combination produces the delicate flavor peculiar to Malt Breakfast Food. This food is as economical as common oatmeal. One package makes twenty-five meals. Do not accept inferior foods; ask for Malt Breakfast Food and see that you get it. All grocers.

To God's child the heaviest sorrow is lighter than the least sin.

The life of the church depends on the living of each Christian.

What does it profit a woman if she gain the whole world of knowledge and lose her own health? Young women students, and school teachers, eager, ambitious, and full of energy, very often neglect their health in the struggle to gain education. They eat insufficient food, and at irregular hours, they allow irregularity of their womanly functions to be established, and the result is that they become chronic invalids with all their education practically worthless. There is a plain road back to health for such as these, marked by the feet of thousands. It is the use of Dr. Pierce's Golden Medical Discovery for diseases of the stomach and digestive and nutritive organs, and Dr. Pierce's Favorite Prescription for diseases of the delicate organs of womanhood. A cure so certainly follows the use of these remedies that out of hundreds of thousands who have tried the treatment, nine-tenths in every hundred have been perfectly and permanently cured. Constipation, with its calamitous consequences, which is a common ailment of students, can be entirely cured by the use of Dr. Pierce's Pleasant Pellets.

"FORCE" FOOD CO.

Buffalo, N. Y.

Gentlemen,—I think it my duty to write and tell you how I appreciate the good quality of your "FORCE" Breakfast Food. I have had stomach trouble for years and am unable to eat anything but "FORCE" and milk. It is the only solid food I eat, and I never get tired of it and have gained four pounds. I eat about three packages a week. It is better than any other food on the market, and I cannot praise it too highly.

Yours very truly,

THE GREAT JOKE, DEATH.

Funny Side of Dying Often Treated of in Literature.

"Death," said a publisher, "has been treated humorously in our literature often. Indeed I am quite sure that a collection of many thick volumes might be made under the title of 'Death's Funny Side.' Thomas Hood was one of our best writers of this sort of verse. Don't you remember his ballad on the young sailor who died heart-broken over his girl's unfaith? The last stanza was:

"His death, which happened in his berth, At forty odd befell;

They went and told the sexton, and The sexton tolled the bell."

"Hood did another ballad on the subject of a soldier who lost both legs in battle, who was in consequence jilted by his sweetheart and who then hung himself. Now, that is rather tragic, is it not? It has a bizarre but none the less poignant tragic note. Guy de Maupassant indeed once handled almost this same situation, but he handled it from the opposite viewpoint, and don't you remember how he narrated the first, the crucial, meeting of the lovers after Ben Battle's double amputation?

"But when he called on Nellie Gray She made him quite a scoff,

And when she saw his wooden legs Began to take them off."

"This treatment drove Ben to despair:

"So round his melancholy neck A rope he did entwine

And for the second time in life Enlisted in the line."

"And there he hung till he was dead As any nail in town;

For, though despair had cut him up, It could not cut him down."

"There is a tremendous literature of humorous epigrams. There must be, I fancy, 10,000 of these, but two of them are all I can recall. The first goes:

"Here lies the body of mild Maria; She went one day to start the fire,

But the wood was green. So she used kerosene,

And now she's where the fuel is drier. The other is grimmer:

"Life is a lie, and all things show it; I thought so once, and now I know it."

"Then there are songs on the side splitting aspects of death, some of which have caused tender-hearted ladies to double up with mirth. 'Johnny Jones and His Sister Sue' is one such song, and I bet that six people out of ten in America know it by heart.

"Yes," the publisher concluded, "under the title of 'Death's Funny Side' an anthology of many, many volumes could be made. The anthology should be bound in black pigskin, with grinning skulls and crossbones tooled in gold on it."—Philadelphia Record.

HEALTH RESORTS AND ATTRACTIONS

There is no region in America richer in mineral springs than Colorado, while throughout the state there are pleasure resorts and splendid places of attraction of various kinds in great numbers. It has been truly said that all of Colorado is a health resort, and this statement is sustained by the most eminent physicians of the country. What with its beautiful cities on the plains, its gorgeous mountain peaks and lovely valleys, its awful canyons and their rushing torrents, its forests and streams, its broad green parks, and charming crystal lakes amid the mountains, what more could nature provide or man desire for his welfare or his delight. Not only the health-giving mineral and thermal springs, which gush spontaneously from the mountain sides invite the invalid and the weary, but in all the rest of these charms of nature is found a panacea for the ill and cures of body and mind diseased.

To enable persons to reach these favored localities without unnecessary expenditure of time or money, the Union Pacific has put in effect very low rates and splendid train service, three trains leaving Missouri River daily for Denver, one of which is "The Colorado Special," which is the finest train in the West. Accommodations are provided for all classes of passengers, the equipment including free reclining chair cars, dining cars, buffet, smoking cars, drawing room sleepers and day coaches.

LACROSSE

The Chatham Juniors defeated the juniors from Thamesville here yesterday by a score of 10 to 3, but the score does not indicate the play as it was fast and clever. Young Harry Gordon put up a strong clean game. At the end of the first quarter Thamesville had two goals and Chatham none, but it was a tie at the end of the first half. There were only eight players to a side. The line-up was as follows:—

Chatham.
Goal—Roberts.
Point—Koffage.
1st defence—Chrysler.
2nd defence—Gordon.
Centre—Maya.

CRICKET

CHATHAM GOT EVEN.

The D. A. C. cricket club lost to the Chatham, Ont., team in the sixth match of the season yesterday on the D. A. C. grounds. Chatham batted first, making 78 runs. Dowdley and Wells both batted well, the former for 24 and the latter for 19 runs not out. Beddow obtained seven wickets for 31 runs and Stuart 3 for 23.

The innings of the D. A. C. totaled only 32 runs. H. Johnson being the top scorer with 13. Three of their men were run out through bad judgment. Chatham and D. A. C. have each won three games this season.

D. A. C. will play Pittsburg on Saturday, Aug. 30, and the Crescent club of Cleveland, the interstate champions on Sept. 1 on the home grounds. Score:

TOO APPROPRIATE MUSIC.

Chicago News.

When the English troops in South Africa were daily expecting the announcement of a peace settlement with the Boer leaders, a clergyman telegraphed to Lord Kitchener from the Orange River Colony: "As I am the active chaplain and conducting divine service in many camps to-morrow, may I ask if the hymn Peace, Perfect Peace, would not be a most appropriate one to give out to be sung?" Lord Kitchener wired back: "Please yourself; but I think Onward, Christian Soldier, quite as good."

The action is best that procures the greatest happiness for the greatest number.

Men's Working Clothes

Every working garment sold in the store is our own make. When you buy a smock here please remember that T. & D. are responsible for every thread of it, and give them credit for all the looks and wear and comfort that you find stitched in.

When we first set out to make these goods we started from the standpoint of the man who wears them—which is not the usual way with manufacturers. We planned each garment about as a man's wife would, supposing her to be an expert. Made them ample, comfortable, extra strong where extra strength is needed—did everything to postpone the day of the first patch. Results were so satisfactory that we have kept right on making them that way.

We are content with the maker's profit on these garments. You pay at our counters about what we should have to pay at wholesale if we bought them from another maker.

A BRAVE WOMAN.

Des Moines, Iowa, August 21.—A nursing by prisoners following a series of attempts to escape within the past week, two of which were successful, occurred early to-day in the county jail at Centerville. The nurse, Sheriff Davis was seriously wounded, and it was only owing to the bravery of his wife and Deputy Bevington that the prisoners were prevented from escaping. Mrs. Davis seized an axe and with the assistance of Bevington, who was armed with a revolver, drove the prisoners back to their cells and restored quiet.

DEATH OF A. TORREY.

Detroit, Mich., Aug. 21.—A. Torrey, chief engineer of the Michigan Central Railway, died last night at Harper Hospital as the result of injuries received on Tuesday afternoon near Albion, on the main line of the road. Mr. Torrey, Bridge Supt., Dailey, and another employee were on a tour of inspection on a small gasoline car, when a rapidly running freight overtook them on a sharp curve. All three jumped. Mr. Torrey landed on a pile of rails alongside the track, and received injuries which caused his death. Mr. Torrey was 50 years of age and an expert in his line.

FATAL CLOUD BURST.

Stirling, Ill., Aug. 21.—A cloudburst near Fenton yesterday, 20 miles south-west of this city, flooded several thousand acres of land, destroying the corn crop. Two miles of track on the Mendota branch of the Chicago, Burlington & Quincy Railroad were washed out, and the freight train ran into the washout and was derailed. George Wells, fireman, and Frank Murray were killed. One of the cars was loaded with horses, which were killed and mangled. The loss to the farms is estimated at \$150,000.

NERVOUSNESS

Or dependency caused by weak unhealthy nerves, are responsible for more sickness and suffering than any other disease. If you have a secret drain from early abuse, later excess of exposure, you cannot expect healthy nerves while your vitality is being wasted. Do not sit out a miserable existence on account of your follies, you are not safe until cured—suffer never excuses—no matter how young, old or innocent one may be.
