#### Joy in Sorrow.

Hast thou known what it is the watching By the weary couch of pain, To hear the restless breathing Of those thou wouldest ease, in vain? Hast thou marked the long hours passing With a lingering dreary flight, And the morning dawn break slowly On the wake of that weary night

Hast thou known what it is-the waking From some dream of cloudless joy, Which the shading of sober reason Was all powerless to destroy: A dream, which thy heart's deep longings Had tinged with a ray of truth, And whose glowing tints were borrowed From the buoyant hopes of youth?

DAY,

Hast thou known what it is-the fading, In one single crushing hour, Of a long life-cherished blossom Of a heart's loved-treasured flower? Hast thou felt that arrow wounding, That blight which withereth soon, Which turneth the morn's soft coolness To the scorching heat of noon?

Hast thou felt the dull weight, aching; The dreary yet painless void; The conscious but powerless striving; The sickness of hope destroyed? Hast thou turned thee, with heart vet stricken, To thy daily path of life, And prayed, but with tears and weeping, To be strong in the mental strife?

Hast thou prayed? And hath God, in mercy To thy troubled, anxious prayer, Answered with peace thy pleading-With rest thine anguished care? Ah! then thou hast surely tasted What alone God's sufferer's know-The joy which sorrow beareth, The sweetness which springs from woe

The Resolution 1 think is worth sensing Lord was manifestly present, by giving to many to you. The Rev. Mr. Moore took it down at the hearing ear, and by disposing very many of the time, and then translated it. The Resolution 1 think is worth sensing to you.

Remember that our great High Priest was once a "man of sorrows;" then, why allow these our earthly sorrows to keep us from the mercy seat? There is no dispensation sent, stern though it may appear, but it is tempered with love. "No chastening for the present seemeth to be joyous, but grievous; neverthe less, afterward it yieldeth the peaceable fruit of righteousness unto them which are exercised

tance. And do you ask why is it sent? To keep us ever on our guard, lest we make unto us earth-idols : to make us feel a trusting, childlike confidence in our Father's sovereign love And, more than all, to impress upon our daily thoughts that this is not our dwelling-place.

Would we wear the crown? Then let us bear

the cross! If we would secure a certain progress in the upward march, we must dwell under the shadow the cross. That is the only source from whence we can obtain strength for every duty. In the morning's earliest hour, before the ceaseless din of duties is claiming our every thought, let us seek the true support, which fer vent prayer alone can give; let us pour forth into the ever-willing ear the attendant responsibilities of the coming day, and the conscious inefficiency for the fulfillment of duty, without the guidance of a higher power. #### The Hour of Prayer.

My God, is any hour so sweat, From blush of morn to evening star, As that which calls me to thy feet-The hour of prayer?

Blest is that tranquil hour of morn. And blest that hour of solemn eve, When on on the wings of prayer upborne, The world I leave.

Brighter than morn's ethereal glow And richer dews descend from thee Than earth can know.

For then a day-spring shines on me,

Then is my strength by thee renewed Then are my sins by thee forgiven, Then dost thou cheer my solitude With hopes of heaven

No words can tell what sweet relief

There for my every want I find;

What strength for warfare, balm for grief, What peace of mind. Hushed is each doubt, gone exery fear; My spirit seems in heaven to stay;

Is wiped away. Lord, till I reach yon blissful shore, No privilege so near shall be, As thus my inmost soul to pour In prayer to thee.

And e'en the penitential tear

#### Revival in India.

The following extract of a letter from Sealkote, in Northwestern India, dated July 10th gives an account of a remarkable religious movement among the English soldiers stationed there. The writer says :-

"You will rejoice to learn that the Lord has answered the oft-repeated prayers of his people in this place, and given us an outpouring of his Holy Spirit. We had a precious season of refreshing from his presence about this time last pressed their earnest hope that "the whole year, when many soldiers of the two regiments here were brought to the Lord; but the present movement among the dry bones, is of a far more striking character. It began about three months back, by the conversion of the officer commanding the troop of horse artillery at Sealkote. This gentleman had been for many years of his life an infidel. On his conversion, his zeal for the Lord became as striking as his previous opposition had been. In addition to all other previously existing meetings, he organized a daily readily, since it is so entirely in accordance with their manufacture. One hundred and fifty milmeeting for his men. At these, on four evenmeeting for his men. In their address they say,-Our missionary brethren at Lodiana invited Christians throughout the world, to begin this year with united supplications for the enlarged outpouring of the Holy Spirit. The cordial response to their appeal is fresh in the memory of us all. The earth was girdled with prayer. The sun for seven days never set on groups and congregations of praying believers. Many striking answers to these prayers are known to have been received. Eternity alone will reveal all the

### Obituary Rotices.

Death has recently taken from us our valued and much respected sister Mrs. Hannah Stirling. leaving a deeply afflicted family and numerous friends, to mourn her unexpected death.

Nineteen years ago, in the course of a re-vival of religion in Meander, Mrs. Stirling with many others experienced the pardoning love of God, and united herself with the Methodist Church in this place.

From that period, down to the time of her death she continued "steadfast, unmovable, always abounding in the word of the Lord;" she was indeed ready to every good word and work; her home was always a welcome home to the Ministers of God, and while devotedly attached to the Church of her choice, she ever cherished christian regards for all who loved the Saviour. The interests of Zion lay near our sister's heart, and she ever was careful according to her means, to support every department of the Church of with six comparatively helpless children, she with astonishing fortitude and perseverance stood in her providential lot; and most successfully con-

deemed most practicable, under the circumstances of the case, has been so nobly supported ed, we are not suprised at this result. The object was most worthy, the necessity most pressing, and the people, justly appealed to, most generous. But the very success of this movement to found a Theological Professorship, requires from us the exercise of great wisdom and deliberation, that our Church may derive therefrom all the advantages of which it stands so much in need. There are now certain questions of an immediately practical character, connected with this matter, which require an early ministerial training? and what the best mode of securing it? These questions have not as yet, been pronounced upon by Conference: and they are fairly open to general consideration. There is, we fancy, much vague indeterminate thought among us, in relation to them. We believe a full, free discussion of these questions in the

columns of this journal would be of signal bene-

fit to both clergy and laity.

What is it that constitutes a well-equipped ministry, piety and a divine call being assumed to exist? We reply, a clear and accurate knowledge of the Redeeming plan as revealed in sacred scripture-a mastery of the historic and scientific truths needful or useful in the defence, the illustration and the enforcement of that plan, and the skill, by pen and tongue, by which that defence, illustration and enforcement may be carried on. Accurate knowledge of the plan of salvation is sound orthodoxy. Now on this head we need no improvement. Neither antinomianism, nor sacramentarianism nor rationalism, in our pulpits, supersedes the glorious gospel of the Blessed God. There is no uncertainty in the sound of our trumpet ecclesiaspenitential trust in the efficacious merits of a self-sacrificing Christ. Not a landmark has been removed, or is in danger of removal by us that sweep of a pure and powerful gospel. If we may adapt to our use a Napoleonic phrase-we have no orthodox boundaries to revindicate. The which are trackless to mortal men. In this res-

### Deeds of Kindness.

Suppose the little cowslip Should hang its golden cup, And say, "I'm such a tiny flower, I'd hetter not grow up : How many a weary traveler Would miss its fragrant smell! How many a little child would grieve To lose it from the dell!

Suppose the glistening dew-drop Upon the grass should say, "What can a little dew-drop do? I'd better roll away :" The blade on which it rested Before the day was done. Without a drop to moisten it. Would wither in the sun.

Suppose the little breezes Upon the summer's day, The traveler on his way; Who would not miss the smalles And softest one that blow, And think they made a great mistake If they were talking so?

How many deeds of kindness A little child may do, Although it has so little strength, And little wisdom too. It wants a loving spirit, Much more than strength to prove How many things a child may do For others by his love.

### JUDSON'S Mountain Herb Pills.

Amove, we present you with a perfect likeness of Tesuco, a chief of a tribe of the strange Astee Nation, that once ruled Mexico. You will find a full account of him and his people in our Pamphlets and Almanace—to be had gratis, from the Agents for these Pills.

The inventor and manufactures of "Judson's Mountain Hetb Pills," has spent the greater part of his life in traveling, having visited nearly every country in the world. He spent over six years among the Indians of the Rocky Mountains and of Mexico, and it was thus that the "Mountain Hims Pills," were discovered. A very interesting account of his adventures there, you will find in our Almanac and Pamphlet.

It is an established fact, that all diseases arise from

IMPURE BLOOD! The blood is the life! and when any foreign or unhoalthy natter gets mixed with it, it is at once distributed to every organ of the body. Every nerve feels the poison, and all the vital organs quickly complain. The stomach will not digest the food perfectly. The liver ceases to secrete a sufficiency of bile. The action of the heart is weakened, and so the circulation is feeble. The lungs become clogged with the poisonous matter; hence, a cough—and all from a slight impurity at the fountainhead of life—the Blood! As if you had thrown some earth, for instance, in a pure spring, from which ran a tiny rivulet, in a few minutes the whole course of the stream becomes disturbed and discolored. As quickly does impure blood fly to every part, and leave its sting behind. All the passages become obstructed, find unless the obstruction is removed, the lamp of life scon dies out. These pills not only purify the blood, but regenerate all the secretions of the body; they are, therefore, unrivalted

CURE FOR BILIOUS DISEASES. Liver Complaint, Sick Headache, &c. This Anti-Bilious Medicine expels from the blood the hidden seeds of disease, and renders all the fluids and secretions pure and fluent, clearing and resuseitating the vital organs. Pleasant indeed, is it to us, that we are able to place within your reach, a medicine like the "MONNAIM HERS PRIES," that will pass directly to the afflicted parts, through the blood and fluids of the body, and cause the sufferer to brighten with the flush of beauty and health.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which makeomewhere in the body, and observations.

the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Yours with great respect, ED. W. PREBLE, Bilious Disorders - Liver Complaints. From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperiout, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than may one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthly the confidence of the profession and the people.

From Dr. J. P. Yaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of conficences. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe conficences to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston. I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleans the stomach and expel worms. They are so much the best plysic we have that I recommend no other to my patients. From the Rev. Dr. Hawkes, of the Methodist Epis. Church.

PULASE HOUSE, Savanah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackensie, I tried your Pills. Their effects were slow, but sure. By persovering in the use of them, I am now entirely well.
