LIVELY MORNING WITH THE POLICE

"Money Talks, But Seldom Walks," Said Magistrate Livingston Today.

When Henry Butler, the local youth appeared in police court this morning on a charge of having stolen goods in his possession, alleged to be the property of Hamilton and Toronto hotelmen, the Crown had no evidence to offer, and the case was therefore dismissed.

Want Athletics in the Schools

to Arouse Interest, However, Find Little Support in England.

London, Sept. 12. The Duke of Westminster, one of the most influential sportsmen in England, has called for the £100,000 national fund to be applied for the Training Fund, and stated the sum with a donation of £5,000. But regard to the search for athletic... The question is asked, "What are the public schools and universities to do?" The fact is that any form of athletics outside cricket and football is practically unknown, without a system of instruction.

County Council and Collegiate Board Agree

Question of Maintenance Cleared Up and There are No Outstanding Differences to Settle.

At a special meeting of the County Council in the Court House Saturday afternoon, it was decided to join with the city in the rebuilding of the road leading to the House of Refuge, as the rear route which will branch off from the House of Refuge road and lead to the Brant Sanitarium, the report of the educational committee concerning the Collegiate account was accepted, and it was decided that the council attend a conference of representatives from the counties of central Western Ontario at Guelph, Sept. 30, when the establishment of an industrial farm will be discussed.

Hunger, Ally Of Capitalists

Spectre of Starvation is Looming Up Large in Foul Slums of Dublin City.

(Canadian Press Despatch) NEW YORK, Sept. 15.—A London cable says: Hunger has become the ally of organized capital in the fight against the Dublin transport workers. By the end of this week, the spectre of starvation will be a grim reality in the foul slums of the city, where life at best is a hand to mouth struggle to keep body and soul together. There is no sign of weakening.

WEST WANTS MORE ENGLISH WOMEN

Mr. J. Bruce Walker Says Canada Wants More Old Country Supplies.

WINNIPEG, Man., Sept. 15.—Canada has not enough of the right kind of women and the old country's supplies are not coming fast enough. That is the conclusion arrived at by J. Bruce Walker, commissioner of Immigration. Walker says that this is a most extraordinary fact when one takes into consideration that women get better wages here, have better homes, and owing to their scarcity for domestic service receive more consideration than in the old country. Scotland at least does her best to remedy the defect. By far the greater number of women immigrants are Scottish. "However," added Mr. Walker, "nationality has nothing whatever to do with the question. It is character that counts." The second largest supply of single women for Canada comes from England. "Ireland is third, but she sends very few through to the west. Most women who emigrate go to the United States, where so many of their blood are settled."

The City Council Session Tonight

The by-law for the election of a Board of Education in place of school boards, will likely be introduced at the council meeting to-night. It is not likely that a by-law will be put through to-night to raise funds for another new Public school, the financial committee having decided that the matter needs consideration. Some \$17,000 in accounts will be passed to-night.

Rev. T. E. Holling Is Outspoken

In the course of a very excellent sermon, Rev. T. E. Holling, minister at the Colborne St. Methodist Church, said that there are some who are last night evangelists that he would not allow to conduct meetings in his church and gave as his objections that they were unfitted for their work, preaching doctrines of the middle ages and telling stories of the people, scaring them into making a stand. This was denounced.

Fred Charlton Is Appointed

It is expected that Mr. Frederick Charlton, well known in this city, will be appointed to a position in the Customs Office here to fill the vacancy caused by the resignation of Mr. Herbert McIntyre, who resigned to accept a position as permanent secretary of the Liberal Club here. Mr. Charlton wrote his examination last week and as soon as they are examined by the authorities in the department at Ottawa, advice will be sent here in reference to his appointment.

GENERAL VASQUEZ AT HEAD OF SANTO DOMINGO REVOL.

SCENES OF THE TROUBLE IN SANTO DOMINGO

There is a serious revolution in full swing in the northern part of Santo Domingo, and the lives and property of Americans there are in serious peril. Reports state that a battle was fought at Monte Cristi, in which the government troops were victorious. No details are available as to the number of men engaged. Americans in Santo Domingo are anxiously awaiting the arrival of the American cruiser Des Moines to protect them and their property in case the revolution spreads. General Horacio Vasquez, formerly president of Santo Domingo, is leading the revolt against President Bordas, with whom the United States is in sympathy.

MAJOR ROTHWELL HAD NARROW ESCAPE

Former Brantfordite in a Serious Affair at Los Angeles.

Major B. H. Rothwell, formerly of Brantford, but for some years a resident of the States, is expected shortly on a visit to his son in Detroit, following his convalescence after a serious accident. He has latterly been a resident of California and was one day wharf collapsed at Los Angeles. They were gathered together to take a vessel in connection with a picnic trip to celebrate Dominion Day. The structure broke down and they were precipitated. P. H. Fitzpatrick, a heavy man, was killed and maimed, and all would have been drowned had not the tide fortunately been out. Mr. Rothwell had a miraculous escape. He was found with two dead men alongside of him and a heavy beam had to be removed in order to effect his release. Strange to say he had no broken bones, but suffered greatly from shock. He has since been in a hospital.

Orangemen's Fine Parade

The members of the local Orange lodges attended Divine service at the Alexandra Church yesterday afternoon. They assembled at their lodge rooms and marched down Colborne street to the church, headed by the band of the East Hamilton Industrial Progressive Association, 36 strong, and the Starlet Knights Drill Corps, 22 strong, also of Hamilton, over 400 members of the order attending the service.

A Breakdown

A breakdown in the Courier Mechanical Department to-day, of a temporary nature, necessitates the elimination of several important news features.

Scotchman Not Sabbath Breaker

Would Not Pay Duty at New York Port on Sunday—His Mother's Teachings

(Canadian Press Despatch) NEW YORK, Sept. 15.—Because he was the Lord's Day, and his mother had taught him never to trade on the Sabbath, Angus K. Christopher, of Dunfermline, Scotland, declined to pay \$2.35 duty yesterday for a strip of woollen cloth, when customs officials, who boarded the steamer on which he had just arrived from Glasgow asked that he settle. "My mother taught me never to trade on the Lord's Day," said Christopher. "I cannot do it. I will not pay out money on the Sabbath. I would rather lose the good wool than enter into financial transactions on this blessed day."

TAYLOR WILL BE AT THE INQUEST

Authorities Believe That He Should be There—Verdict Not in Question.

The inquest into the death of Charlie Dawson, who was murdered last Monday night, is being held this afternoon at police station. It is likely that James Taylor, the self-confessed murderer of Dawson, will be brought before the coroner's court. Coroner Dr. Raphael will preside. Only a few witnesses will be heard, as it is not considered necessary by the authorities to submit a lot of evidence. Whether Taylor will tell his story or not, is not known. If he does it will be used subsequently against him at his trial. The prisoner at the jail is reported to be quiet in demeanor, and giving no signs of trouble whatever. His mental attitude in view of his terrible crime, is a curious study. Mr. Thomas Woodruff, who acted for Taylor at the police court hearing, signified his unwillingness to act for the prisoner again. This will probably mean that the Crown will have to appoint some junior counsel to act for Taylor when he appears in the high court. This was done at the trial in this city. It is regarded as unlikely that any plea of insanity will be entered. At to-day's enquiry there is little question as to the verdict, in view of the prisoner's confession, and it is unlikely that any endeavor will be made to bring out sordid details.

WILL ATTEND CONFERENCE

Although the Brant County Councilors do not see a great deal as yet to be gained by the establishment of an industrial farm by the counties of central Western Ontario, they will attend a conference of representatives from several counties in Guelph, Sept. 30. The conference about to be held will be the third in the history of the movement of which Oxford County is the prime mover. So far representatives have attended from Oxford, Norfolk, Elgin and the city of Berlin.

Orangemen's Anniversary Services

Harvest Home and Anniversary services were held at Sydenham Street Methodist church yesterday. The decorations were tasty and consisted of fruits, vegetables, cereals and flowers. The pastor, Rev. A. J. Snyder, preached two splendid sermons. The music of the day was exceptionally good. The services will be continued this evening with a big concert, when Mr. J. H. Fisher, M. P., will act as chairman.

The Old Grandstand Had a Very Close Call

Fire at Agricultural Park Yesterday—Mr. Nelson's Jinx Still Pursues Him.

Shortly after five o'clock yesterday afternoon, the fire department was summoned to the Agricultural Park to extinguish a fire which had broken out under the centre grand stand. The fire originated in the dressing room under the stand, and was burning fiercely when the brigade arrived on the scene. Two lines of hose were laid from the hydrant at the corner of Brant and Oak streets. The dressing rooms, which have been used by the baseball team, were pretty much damaged by the fire, but the centre stand and the roof were only scorched and blistered. The firemen got out a number of baseball and football suits and sweaters, also a number of lacrosse sticks and three footballs. The cushions that were used in the centre grand stand, were mostly all damaged by fire or water. The firemen were on a few minutes on the scene when they had the fire under control. The fire is supposed to have originated from a lighted cigar or cigarette which was thrown down by someone who was smoking "same" either on Sunday afternoon or else dropped by some person who attended the games there on Saturday afternoon and smouldered over Saturday night and Sunday and broke out late yesterday afternoon. The loss to the stand will be about \$150, while Mr. Thomas Nelson, owner of the Brantford Canadian League team, will lose about \$175, on account of the cushions being destroyed. The Board was insured by the Parks Board, but there was no insurance on the stand. Mr. Nelson's property. The stand has been on fire many times this summer, but the scorching yesterday has been the most serious damage done to the stand.

HAIR COUNTS FOR LITTLE IN THE EVENING COIFFURE.

A becoming fringe around the face is really all that one need worry about, in dressing the hair modishly for the evening, nowadays; for the sides and back of the head may be completely hidden under one of the stunning coiffure caps and bandeaus. This particularly smart head-dress is rather Oriental in style and the hoop ear-rings add much to its effect. A band of rose pink ribbon, sewn with rhinestones encircles the head, and at the back there is a small puffed crown of silver net. The tall white feather, curling forward, is held in place under a jeweled cabochon.

Music and Drama

Maude Adams is Coming Soon

If you were asked if you still believed in fairies you would probably turn an amused smile upon your questioner and feel sorry for the intellect that prompted such a question. Of course, you gave up believing in fairies a long time ago. But be careful and hide a wee. It should so happen that you go to see Maude Adams in Barrie's "Peter Pan" you will be asked this same question and do you know what you will do? "Peter Pan" is an exposition of youth and all things joyful. It is a fairy play, but one designed by the clever Scotch dramatist for grown-ups who were once real boys and girls. The power of the play in making those who come under its spell to live again in the days of their childhood is wonderful. Miss Adams has been having an extraordinary successful tour in the play and no doubt will receive a warm welcome in this city on Friday next.

Woman's Hospital Board Meeting

The meeting of the Women's Hospital Aid on Friday morning at the Library, was largely attended, and after the long vacation, work was resumed with renewed energy. The President, Mrs. Waterous, presided, and a great deal of business was put through, mostly in connection with the furnishings for the Nurses Home—lists were read and many accounts passed.

It was decided to hold the formal opening on Friday afternoon next, September 19th, at half past three o'clock. It is expected that Dr. Bruce Smith and others will be present. A committee of ladies will be in readiness to conduct visitors through the building. For the convenience of any who may be unable to be present on Friday, the Home will be open for inspection on Saturday and Sunday afternoons, between the hours of three and five. Ladies will be in attendance each afternoon and everybody interested in the work is cordially invited. Further announcements will be made in the press later.

DAILY FASHION HINT.

Miss' Dress.

In this model we have the simple yoke style, which is so becoming to all figures. The yoke in this case is square and fairly deep, with the balance of the waist, both front and back, gathered where it is attached. The sleeves are plain and the skirt is made with four gores, the mesh effect being used in front and back, with gathers at the sides.

The dress pattern, No. 6316, is cut in sizes 14, 16 and 18 years. Medium size requires 3 1/2 yards of 36-inch material.

This pattern can be obtained by sending 25 cents to the office of this paper.

Eight days must be allowed for receipt of pattern.

VERY PRETTY PARLOR CONCERT AT ST. PAUL'S

The weather-man, a jolly crowd and a score of funny people were the elements which produced success of the Parlor concert and Play held under the auspices of the Girls' Friendly Society at the home of Mr. and Mrs. Hartwell, 50 St. Paul's Avenue, on Wednesday evening last. To say that the concert was a success is to put things mildly—it far exceeded all sanguine expectations of those who had the concert in charge, and to judge by the tears of laughter which flowed from the eyes of the spectator, every item on the programme was thoroughly enjoyed. Although at times "the tears would come" up to the present time no signs or symptoms of despondency or lack-jaw are reported.

The G. F. S. are a very sympathetic body and rather than have the chairman do nothing they provided a programme containing twenty-one items and a play. Evidently the G. F. S. believe in the phrase, "the more the merrier."

ANOTHER CRISIS NEAR

Huerta's Message To-day Awaited With Anxiety.

United States Officials Fear He May

Announce His Candidacy In Coming Presidential Elections—Huerta Government Is Planning an Ovation For Ruler as Parade of Strength.

WASHINGTON, Sept. 15.—Important

developments in the Mexican situation are expected here in the next two days. To-day the Mexican Congress assembled and there is a hope-ful feeling in Washington that President Huerta in his address to that body will make known that he will not become a candidate for the Presidency in the constitutional elections. There are fears that patriotic fervor may lead to demonstrations against the United States.

However, advices to the State

Department are to the effect that efforts of the Huerta Government to make the celebration the occasion for a great patriotic outburst with the object of showing how strongly the Mexican people are tired of the con-stitutional warfare will welcome peace. Should the celebration of the holiday take on an aspect of silent disapproval of the Government's course, officials here will be encour-aged to believe that the end of the Mexican troubles are in sight and that overtures for a restoration of normal conditions will be welcomed shortly by all factions in the repub-lic.

Should Gen. Huerta publicly

announce that he will not be a candi-date for president in next month's elections this Government will follow out its course in asking Gen. Huerta to give assurances along the line that has been indicated, and that the Wilson on which ex-Governor John Lind was sent to Mexico by President Huerta has been successful in the present. With Huerta out of the Presi-dential race, the U. S. Government will be willing to accept the result of the elections.

IS MADE PROFESSOR.

New Associate in Animal Husbandry at O. A. C. Is Wm. Reek.

GUELPH, Sept. 15.—Wm. Reek, B. S. A., has been secured by the Ontario Agricultural College as suc-cessor to Mr. W. W. Wainwright in the as-sociate professorship of animal hus-bandry, the latter having been ap-pointed to a directorship of the Ontario live stock branch and secretary of the Provincial Winter Fair.

Mr. Reek is a native of Kent Coun-

ty. He graduated from the O. A. C. in the year 1909, and after graduation was secured by the college as demon-strator in physics, applying himself particularly to drainage. From this position he went as private secretary to Mr. C. J. James, Deputy Minister of Agriculture, and when the latter was taken up by the Dominion Gov-ernment Mr. Reek resigned to become an assistant in the immigration de-partment at London, England.

Bowling

The play in the Heather tournament got away to a good start on Saturday afternoon, although the cool weather was not just to the liking of the bowlers. Two games were played in the rink series; the first skipped by E. C. Tench and W. J. Lahey was a close contest throughout and was finally won by Tench's rink. The second game was between rinks skipped by J. I. Miller and J. A. Ogilvie, the latter going down to defeat.

In the Scotch Doubles series only one game was played in which A. W. Hart and B. A. Caspell won from W. A. Burrows and T. L. Wood by a good margin.

In the Singles Competition Frank Read defeated D. H. Coates; B. A. Caspell won from A. W. Daniels; L. Newsome was successful against John Ryan; E. C. Tench beat F. E. Tobias; H. B. Beckett out-bowled Rev.

Making the Little Farm Pay

By C. C. BOWSFIELD

A SILO is needed on the small dairy farm more than anywhere else. It does away with the need of a large pasture and insures a full milk supply during summer droughts.

Fodder preserved in a concrete silo is safe from fire and waste and retains the maximum food value. The cost of building a silo with a capacity of 100 tons need not exceed \$300. It varies according to the supply of labor. Concrete costs little more than wood and is so much better in every way that it is confidently recommended. No fodder is relished so much by stock as silage. Its influence is beneficial to the animal system, is invigorating and prevents cripples and impaction. Succulent silage makes for good health and heavy milk flow. It is equally good for poultry and hogs.

Corn is the most suitable of all crops for silage. It should be harvested when the bottom leaves are drying off and the grain is doughy and glazing. Without hurrying the work should be done as soon as it is harvested, cutting the stalks and cobs into small bits. The grain is more or less macerated in the cutter.

The fodder thus treated is carried by means of an elevator or blower, which should deliver the material as near the center of the silo as possible. This may be done by the aid of a bag chute attached to the mouth of the elevator or the blower.

The labor of distributing the fodder is thus minimized, and an even supply of the material will be distributed all over the silo. If the fodder be allowed to fall direct from the mouth of the conveyor the heaviest parts will fall on one side and the lighter parts on the other. The silage will not settle evenly, and loss will ensue. To assist in close packing it is absolutely essential to trample the product all over the silo. Trampling the sides or around the edges is not sufficient, for with the shrinking of the center the outer edges creep toward it and away from the walls, thus allowing loss of silage.

The center should always be kept a little higher than the outer edges. The rate of filling should be six to eight feet per day. Quicker filling than this may result in generating too much heat. In winter the silage is liable to decompose. After the silo has been filled the top should be covered with a light framework or coarse sheet and weighted down. This is done to keep out air, and after the silo has been opened for use in the spring or summer it is best to replace this top covering after each day's supply is taken out. Avoid, as far as practicable, sinking holes in the silage. In fact, keep as little of the silage exposed to the air as possible.

The daily ration of silage for a dairy cow is from thirty to forty pounds when fed with other fodders; when there is some grass available thirty pounds per day is ample. Sheep will eat as much as three pounds a day. It is advisable to give horses small quantities only of silage, otherwise there may be trouble from stomach derangements. Limit the amount fed to a few pounds per day. Pigs and poultry will eat small quantities.

Silage may be made of all plants that animals are permitted to eat in the green state, and such fodder preserved by this means loses but little of its feeding properties in the process. In one way there is a slight improvement. That is, the tougher fiber of siloed fodder is softened and made thereby more digestible and acceptable to animals.

However, there is great risk in putting vegetables in a silo if a dairy is kept. The milk is apt to be tainted. Oats, rye, millet and alfalfa work well in connection with corn, but the latter is the main staple and may be used by itself.

EIGHT HOUR DAY ON FARMS. A writer in Farm and Fireside says that the eight hour day with farmers consists of eight hours for work and eight hours for chores.

GROWN IN LEGAL SOIL. A deaf mute is not incapable of entering into contracts if shown to have sufficient mental capacity.

Generally every partner is under obligation to exercise due diligence and reasonable skill and devote his services to the promotion of the common benefit of the firm without compensation by way of wages or salary unless otherwise agreed upon.

The United States patent law requires a person applying for a patent to make oath that he does verily believe himself to be the original and first inventor or discoverer of the art, machine, manufacture, composition or improvement for which he solicits a patent and that he does not know and does not believe that the same was ever before known or used.

HOW UNCLE SAM HELPS.

A bulletin of the Bureau of Plant Industry, "a study of farm equipment in Ohio," gives a most valuable review of important data of this character gathered and collated with much painstaking care by Mr. W. W. Ellis. On twenty-one farms investigated the following was found to be the average distribution of capital invested: In land, drainage and water supply, 31 per cent; in buildings, 21 per cent; in implements and machinery, 5 per cent, and in live stock, 43 per cent. The bulletin gives much detailed information of which the figures just quoted represent a gross summary.

There is no longer need the farmer slowly and his way to the best working conditions by a series of successive approximations. The government is paying him to profit by the experience of others who have preceded him and have paid the heavy dues of that excellent but dear schooling.

DON'T BURN ROUGHAGE.

Expensive and Wasteful Practice With Cornstalks, Straw, Chaff, Etc.

A contributor to Farm and Fireside writes: "A tendency exists among many farmers to burn up all cornstalks, loose straw, clover chaff and superfluous roughage about the place. But it is too expensive.

FOR A SILO SCAFFOLD. Directions for Making Necessary Part of Concrete or Tile Structure.

Heavy lines, 2 by 4; dotted lines, boards to work on; five small circles indicate position of support poles.

SCAFFOLD INSIDE SILO. (From National Stockman and Farmer.)

The silo as high as you can from the ground is best 2 by 4 or 2 by 6's and built frame for scaffold as shown in cut.

Leave plenty of room for poles to work easily; then floor as shown by dotted lines in cut. Attach a pulley to each pole and raise them up. Then make a piece under scaffold on pole. One scaffold does it all. The scaffold should have just play enough to let it slide up easily.

Chicken Need Cleanliness. Drinking dishes and feeding troughs for chickens are likely to become dirty and insanitary unless special precautions are taken.

Coverings For Silage. The use of heavy tarpaulin to cover the surface of silage during summer feeding is being practiced quite successfully by some of the readers of the Kansas Farmer.

County Council.

(Continued from Page 1) annexed statement are not such as are chargeable under the head of maintenance, and the larger portion of which were also incurred previous to the 1st of July, 1912, being the date when the claim of the Brantford Collegiate Institute against the county commenced, all previous matters having been settled between the county and Collegiate Institute.

Your committee has therefore deducted the sum of \$1,814.07, being the amount of the accounts annexed as improperly charged from the total cost of maintenance as shown by the account of the trustees.

Your committee reports on the basis of amended account, the amount due the Collegiate Institute being the sum of \$1,618.83, made up as follows:

Total cost of maintenance \$25,281.75

Less accounts improperly charged 1,814.07

\$23,467.68

Less Government grants 3,018.00

\$20,449.68

Total days attendance of pupils in school year, 79,113

Divide \$20,449.68 (net cost of maintenance) by 79,113 (total days' attendance) gives average cost per pupil per day, i. e. \$26.166.

Multiply 26,166 (average cost per pupil) by 6938 (days in school county) Sept. 1st-Dec. 31st gives total cost of county pupils for term \$203,333.

80 per cent (proportion of cost payable by county, \$1,618.83.

Your committee would therefore recommend that the Warden be authorized to issue his order on the trustees in favor of the board of trustees of the Brantford Collegiate Institute for the sum of \$1,618.83, in payment of the above claim.

All of which is respectfully submitted.

Raised Objection

Councillor Layton raised objection to the councillors not being supplied with a detailed statement of the account before being asked to vote upon such a matter. He was drawing attention to the matter in order that in future the statement would be on hand for perusal.

New Road. The rebuilding of the House of Refuge road and the sanitarium will cost \$2,192.50. Each municipality will pay half the cost and the road will be built by tender and under the supervision of the roads and bridges committee of the county and the public works committee of the city.

There will be considerable grading to be done. The hill on the House of Refuge road will be cut down and the road will be graded. The whole work will be got under way as soon as possible.

Those present were Warden Kendrick, Councillors Layton, Jennings, McCann, Simpson, Cook, Davison, Burtis, Milmine and County Clerk A. E. Watts.

You Have Heard Him. "How long did Baker talk?" asked the Boob.

"About two hours," replied the Grouch.

"What was he talking about?" asked the Boob.

"I dunno," replied the Grouch. "He didn't say."

Last Resource. "Darling," he cried, "I cannot live without you."

"But," she replied, "my father is bankrupt."

"In that case," he despondently replied, "I guess I'll go and shoot myself."

The straw hat season is surely over. There were no hold-ups or robberies on Dalhousie Street last night from George to Alfred. The Hydro system was given a try-out and citizens were delighted.

THE SATISFACTORY STORE --- TEST IT

WE are on the threshold of a busy season, an unusually busy one, as indicated by the favorable criticism we hear on all sides relative to the merits of our stocks. Everybody is enthusiastic, everybody is satisfied, gratified with the variety, value, quality and styles of the merchandise assembled here. Our method of merchandising which calls for a personal visit of our buyer to the foreign markets twice every year, and the maintenance of several permanent offices and agents in the European Centres, tells most forcibly in favor of this store. The people recognize the advantage of all this. They know that as a result of these arrangements that the advanced styles as they appear in the Metropolitan Centres of the world are immediately found here—and it is so.

VARIOUS METHODS OF PRESERVING EGGS

They Must be Fresh in the First Place and Should be Scrupulously Clean

There is no better method of preserving eggs than in water-glass, which is not an expensive material to buy, as a pound, which only costs a very few cents, dissolved in the correct proportion of water, will preserve a large number. The amount of water to be added depends upon the sample, but as full directions are usually sent with each tin, it is difficult to go wrong. The eggs are placed in a glazed vessel, and covered with the liquid, care being taken that all the eggs are submerged. When they are wanted for use, they should be gently washed out in liquid, wiped dry, and used as speedily as possible.

The oldest, but a very excellent method of preserving is by means of salt lime and water. Four gallons of lime, one of salt, and twenty of water, should be mixed together, and when the water has taken into solution as much lime and salt as it is capable of making, the shells should be extremely brittle—so much so, in fact, that as a rule, eggs that have been preserved in lime cannot be boiled, the shells cracking with the least touch. When eggs are to be preserved for only a very short time—for two or three months—dry salt answers admirably, but this is an unsuitable method for a longer period. If a new-laid egg be dipped into boiling water, it slightly coagulates the white, and so prevents the air getting to the contents. For home use this method is suitable, but it does not answer when the eggs are for market. Smearing with vaseline or butter keeps the contents fresh for a more than a month.

Only perfectly fresh eggs should be preserved, and it is largely a waste of labor and money to attempt keeping eggs that are more than two or three days old when placed in the preservative. They should be allowed to settle twelve hours after being laid before attempting to preserve them. If a new-laid egg be dipped into boiling water, it slightly coagulates the white, and so prevents the air getting to the contents. For home use this method is suitable, but it does not answer when the eggs are for market. Smearing with vaseline or butter keeps the contents fresh for a more than a month.

OUR PUBLIC SPIRIT

Scotchman Says Unpleasant Thing About Canadians

A young Scotchman, after three years in the Canadian West, wrote a letter to the London Everyman, dated in Ottawa, in which he says some of the Canadian characteristics, says The Ottawa Citizen. They can hardly be said on the whole to be complimentary, which doubtless makes their expression all the more valuable from the Canadian standpoint. It is always well to "see ourselves as others see us," and a touch of Scotch opinion may in this case be of some value to the spirit of Canada. One of his criticisms regarding the latter is as follows: "Nor does the public spirit of the Dominion strike a stranger as abundant. It is doing it in its expression in the Territorial forces, at any rate, which are manned, out of all proportion, by home-born Britons. Certain Canadians suffer from the gratifying belief that the Dominion saved the white Empire in 1901, and are indignant when told that of the Canadian contingent sent to South Africa eighty per cent. were home-bred men. Nor does public spirit find much expression in local government, where the 'best people' are conspicuously absent from busy-making money to bother with such matters."

EDDIE, WHAT ARE YOU HIDING BEHIND YOU?

TEACHING HIM HIS BUSINESS

"I've just the house to suit you, sir, containing five rooms, about the size you require. Will you walk along, my view?" generally said the house agent. The house, when reached, proved to be in very bad repair, and the prospective tenant, slightly annoyed, returned for only a very short time—for two or three months—dry salt answers admirably, but this is an unsuitable method for a longer period. If a new-laid egg be dipped into boiling water, it slightly coagulates the white, and so prevents the air getting to the contents. For home use this method is suitable, but it does not answer when the eggs are for market. Smearing with vaseline or butter keeps the contents fresh for a more than a month.

A Sad Death

Young Brantford Man Passed Away in Detroit on Saturday.

The sad intelligence was received in the city Saturday night of the death of Reginald Ott, a well-known young Brantfordite who passed away at Detroit. He was on his return with his wife and two children from Fleming, Saskatchewan, where he had been employed by his brother, a prosperous western Canadian at Boniface. The deceased was not well when he left the West, and the long journey evidently brought on an acute attack of brain fever and mental exhaustion. He acted queerly at Chicago, and later on the journey to London, his wife's home, he became so bad that his wife was forced to proceed to London alone, leaving him at Detroit.

Here the unfortunate young man acted so strangely that the police took him in charge. He was arrested Sept. 5th, and released, and was a couple of days later taken into custody again. He was to have been taken to a state insane asylum, but when the deputies went to get him, he was found dead on the floor of the jail ward on Saturday. He had been adjudged out of his mind on Friday. The news of his death was received as a great shock by his relatives here, as his illness was not known. The deceased was the youngest son of the late William Ott, who passed away two months ago. He leaves a mother, residing at 22 Walnut street, five brothers, Edward, Frederick, William, Arthur and Albert, and one sister, Mrs. Alex. Summerhays. The body was brought home by Reid and Brown, local undertakers, this morning, and the funeral will take place to-morrow afternoon from the family residence, 23 Walnut street, to Greenwood cemetery. The deceased was married to Miss Bertha Fitzerald of London, and two small children are also left to survive the very sad loss.

After his death in Detroit, an autopsy was held, which confirmed the fact that the deceased had been suffering from brain fever, and mental exhaustion in an acute way.

ENSIGN TRICKEY DRAWS LESSON

A crowd completely filling the S. A. Citadel to the doors listened to the officer in charge speak of warnings that should be sounded to one and all, children and grown men and women, because of the past week's events. Since the very sound of the name, had the kiss of the serpent. We had the very consequences of sin brought to our very doors. References were made to Jezebel, to David, who sought forgiveness, and to the Jews among the cross who carried out the purpose of their evil hearts because murder first lurked there. "He that hateth his brother is a murderer, I John 3: 15. The seeds of sin first showed itself in an evil heart. All sins were alike in the sight of God, and He cannot look upon it with the least degree of allowance. In Gal. 5: 21, there was the black catalogue: strife, seditions, adultery, envyings, murders, drunkenness, revellings, etc., all were work of the flesh. In Stephen's black catalogue given by St. Paul writing to the Galatians he enumerated: "drunkenness, murders, drunkenness, adultery, strife, revellings," etc.; sin whether great or small was sin, and the very word "sin" had the kiss of the serpent. A warning was given to parents to do more than clothe and feed their children. There was a further responsibility, and were to those who fall in that duty. An incident was then related of the great Benjamin W. Thomas, who died on or before the 13th day of February, A.D. 1912, to the effect that he had been depicted on the canvas, that this man was the same subject he had selected for his painting "Innocence." The effect of sin had done its work.

BRANTFORD, CANADA, MONDAY, SEPTEMBER 15, 1913.

"COURIER" CUP GAMES ARE NOW IN FULL SWING

Results of Great Contests on Saturday--Local Players Put Up Fine Exhibition of Good Old English Game.

COURIER CUP SERIES

Saturday Results Y. M. C. A. 3, Tutela 0. All-Scots 2, Dragons 1. Cockshutt United 6, Holmedale 0. S. O. E., Dufferin Rifles 1.

The first round in the Courier Cup series was played on Saturday. The winning teams were Y. M. C. A., All-Scots and Cockshutt United. The Sons of England-Dufferin Rifles game resulted in a draw, each team scoring one goal. On account of the two base ball games the teams did not go on the grounds until quite late, and as there was not sufficient time to play the match the game was declared a draw, and called on account of darkness. It is likely that the game will be played next Saturday afternoon to break the tie.

Good Football There was some fine football played on Saturday and the scores were all close with the exception of the Cockshutt-Holmedales, which the former team made a runaway race of, defeating the Tigers 6 to 0.

Though down and out as far as the Courier series are concerned, the Holmedale eleven are still in the running for the John Hill Charity Cup, and there is no telling but what the Tigers may spring another surprise on the public and win out as they did from Tutela a week ago.

All the teams were out to win and all played the strongest aggregation they could get together.

Those dangerous looking Y. M. C. A. and Cockshutt teams, who are in the semi-finals of the Charity Cup

AN EVEN BREAK WITH PITTSBURG

New York Took the Opener, But Lost Second Game to the Pirates.

PITTSBURG, Sept. 15.—The Giants departed from this way station Saturday with three games out of four stowed away in the trophy room. In the double header Saturday afternoon, they pulled through to a victory by a score of 4 to 2 in the first, and were shut out in the second.

Neither team was at full strength, Harrington for the "Y's" and Usher for Tutela being unable to turn out through injuries. Holland started these smart forwards and Tutela very soon made tracks for Tutela's goal, and Tutela was hard put to it to stop them from scoring.

The first fifteen minutes Tutela settled down and looked like business, some fine combination by the brothers, Hingley and Gore, was seen and the Y. defence was kept busy repelling these smart forwards attacks, but the ball was played behind for a goal kick. After this play became general, the ball travelling from end to end with great speed.

Cockshutt United completely smothered the Holmedale Tigers. They piled up half a dozen goals and gave the "Y's" team a dose of whitewash. Cockshutt United completely smothered the Holmedale Tigers. They piled up half a dozen goals and gave the "Y's" team a dose of whitewash.

The election of Officers of the S. O. E. Football Club, which was held here next Tuesday, is now out of hand after the cup-ties.

St. Louis Beat St. Louis ST. LOUIS, Sept. 15.—The Phillies took the final game of the series from the Cardinals Saturday, 2 to 0, in ten innings. Luderus opened Philadelphia's half of the tenth with a double, and Doolan bunted in front of the plate, and Wingo's shot drove the ball into the Cardinal third sacker's glove.

Chicago Downed Brooklyn CHICAGO, Sept. 15.—Big Jim Vaughn was in big league form again and only one hit was made off his pitching by the Dodgers, the result being a 4 to 0 score in favor of the Cubs. Allen, who was the opposing slabman, poked a single to centre in the second inning, which was the only hit off the big southpaw during the afternoon. Score: Brooklyn 0, Chicago 4.

Should Have Shut Him in School-house. (From the Beamsville Express. The trustees of the school at Jordan Station have notified a male teacher of first-class qualifications, who appeared in the village on Labor Day, expressed himself as delighted with the place, took tea at the residence of one of the trustees, and afterwards walked forth to view the landscape o'er. During his walk in the evening he jumped aboard and whisked away, and he hasn't been back there since.

Soft Ball

Ham & Notts 12, G. S. & Muir 8 By defeating the G. S. & Muir team 12 to 8 on Saturday afternoon at Recreation Park, the Ham and Nott team won the championship of the second round of the city championship, and are now entitled to play off with the Beavers, who won the first round for the city league trophy.

The weather was very chilly and more fit for Rugby football than baseball, but nevertheless the game was close and exciting. Some real good ball was played and the crowd, though not as large as usual, were treated to a good afternoon's sport.

Ham and Nott—Stewart and Wright. G. S. & Muir—McQuinn and Curtis. Base Hits. Leggacy made no mistake in signing up Eddie Slattery, as he is easily the best short stop in the league.

Marlatt, on second, is the star of that position, and knows the game from A to Z.

Lottridge is counted the best hitter in the league, and has lots of ginger. Kaufman didn't have much to do Saturday, only hit the pill on the nose as usual.

Curtis caught a good game for the windmillers, for a new man, he played like a pro.

Jimmie Graham looks like the best left fielder in the league.

Stuart, on short stop, played good ball at times, pulling off a couple of double plays.

Seaside Fortune Teller Dorothy Beeson, a middle-aged woman, was fined £2 and costs at Grimshy on Tuesday for pretending to tell fortunes at Cleethorpes. One woman who patronised the defendant was informed the precise number of children she would have, and another was told the exact sum of money that would be left to her. She on protested that she had not done more than give character delineations.

Cricket Notes. On Saturday next the Brantford St. George's team will play Paris in Paris, this being the deciding game for the Roberts and Van-Lane Cup, which was won by Paris last year.

So far this year, each of the above mentioned teams have lost one game, therefore they tie for first place. It is hoped all cricket enthusiasts in the city will accompany the St. George's team to Paris next Saturday.

The St. George's players will meet on the grounds on Wednesday evening next to select the team for Saturday and to arrange their mode of attack. Captain Derbyshire is very confident in being able to bring the cup back to Brantford.

FOURTEEN HITS BUT NOT A RUN

New York Was Beaten by Chicago by a 7-0 Score.

CHICAGO, Sept. 15.—The Giants Saturday had the painful experience of deluging the Cubs with fourteen base hits without making a run. They made more hits than the Cubs and fielded without an error, but nevertheless the Cubs shut them out 7 to 0, and presenting the contrast of "ex-tracting seven runs from eleven hits to fourteen hits and no runs for the Giants. There were eleven Giants left on bases and only two Cubs. This in itself tells a tale. The Giants could not steal on Chicago. Score: New York 0, Chicago 7.

ST. LOUIS BEAT BROOKLYN. ST. LOUIS, Sept. 15.—St. Louis and Brooklyn engaged in a game of ping-pong Saturday afternoon which was labeled baseball, and in which each side's chief aim seemed to be to make more errors than the other and to commit these errors at the most costly period of the game. St. Louis won by the score of 7 to 6, but Yingling the third pitcher who took part in the game for Brooklyn, carried off the laurels for errors. Score: Brooklyn 6, St. Louis 7.

TWO GAMES FOR PROVIDENCE Baltimore Wound up Home Series With Two Defeats.

BALTIMORE, Sept. 15.—Baltimore wound up the baseball season on their home grounds on Saturday by losing two to Providence, 12 to 3 and 4 to 1. In the first game Providence fell on Roth in the eighth and batted him for eight safe hits, piling up six runs. In the wind-up affair, a listless game was played. The scores: First game, Providence 12, Baltimore 3; second game, Providence 4, Baltimore 1.

DEFEATED CINCINNATI A Fluke Single by Seaton Sent Over the Winning Run in the Ninth

CINCINNATI, Sept. 15.—In a nip and tuck contest at Redland field on Saturday, the Quakers opened their series with the locals by coping out a victory by 7 to 6. In the Phillies' ninth Seaton's hit, a sacrifice over what proved to be the winning run, 1. Seaton held the Rhinelanders powerless in their last try. Score: Philadelphia 7, Cincinnati 6.

FIGHTING FOR THREE FLAGS

Rochester continues to drag down Newark's lead, and this morning the Indians are only two and a half games ahead of the Hustlers. The Newark lead on Saturday was three full games. On that day Rochester was idle, but Newark lost to Jersey City. On Sunday the walls for the flag both played double headers, and both broke even. To-day the Providence Grays tackle Newark on the latter's field. On Saturday the Grays won twice from Baltimore in Baltimore, and are not a team to be sneered at. Rochester will meet the Leafs at the Island Stadium, Toronto, to-morrow and Wednesday, after which the Leafs and Hustlers will go to Rochester for four games. It will therefore, be seen that the Toronto team will have a great deal to say as to the disposition of the pennant for 1913. Newark, now in a bad slump, will finish the week after the Providence series, with Jersey City in Newark.

The Philadelphia Athletics had a lead on Saturday of eight games on Cleveland with Washington one game behind the Naps. Cleveland beat the Athletics on Saturday, but neither

played yesterday. Washington lost to Chicago on Saturday. This morning the Athletics are only seven games ahead of Cleveland, while the latter are two games in front of Washington. Cleveland will meet the Athletics at Philadelphia again to-day with Chicago at Washington.

The New York Giants broke even with Pittsburg on Saturday, while the Phillies won from St. Louis. On Sunday the Chicago Cubs shut the Giants out 7 to 0, and the Phillies beat Cincinnati 7 to 6. The net result of the two days' games is that the Giants' lead has been further decreased and they are now only seven games ahead of the Phillies. New York will meet Chicago again to-day and to-morrow at the Windy City, while the persistent Phillies engage Cincinnati to-day and to-morrow in Redland.

Thus it will be seen at a glance that the leaders in all three leagues slipped back from 1-2 to one and a half games on Saturday and Sunday. The tightest race is in the International.

CLASH IN WESTERN ONTARIO LEAGUE

Brantford and Paris Game Ends in a Draw—Some Brilliant Plays.

Brantford cricketers journeyed to Paris on Saturday to play the cricketers of that village a Western Ontario league game, owing to the 2 o'clock Grand Valley car being half an hour late, games was not commenced until 3.30, and although the game was continued in semi-darkness until 5 minutes after seven, a result was not obtained, although the Paris players got a moral victory, as with only one wicket to fall the Brantford team still needed 43 runs to win. In justice to the local men, however, it must be said in their defence that the last seven men that went to bat could not judge the ball at all well owing to the darkness, and Captain Walsh showed true sportsmanship in allowing the game to run as late as he did, as he would have been fully justified in asking the umpires to draw stumps a half an hour earlier. After they did, it was unlikely to being run out when he was well set. Thurman played a slugging game, and should have been caught on more than one occasion. Brantford started their innings in a disastrous manner, five of their wickets being down for 22 runs. Upon Captain Walsh and Winyard becoming associated, however, a splendid stand was made, 35 runs being added for the sixth wicket, both players doing well. Albert Bland also did well, scoring 14 runs. The fielding feature was a one-handed catch by Harry Elliott, made running backwards. So sensational was the catch that the spectators could hardly believe he had held the ball. Full score and bowling analysis.

COBB AND JACKSON TIED FOR LEADERSHIP

CHICAGO, Sept. 15.—The race for highest batting honors in the American league is a tie at 376 between Cobb of Detroit and Jackson of Cleveland, according to the latest compilation of averages. Speaker of Boston comes next, only ten points behind the leaders. Others in the van are: Henriksen, Boston, .351; Lajoie, Cleveland, .341; E. Collins, Athletics, .335; McInnis, Athletics, .335; Gaudil, Washington, .327; Baker, Athletics, .325; Schaeffer, Washington, .301.

C. McDonald, Boston, leads the National League batsmen with .350. Walsh, Philadelphia, is only two points behind, but he has played in only 25 games. Cravath has batted .350 for Philadelphia in 119 games and ranks third. Others rank as follows: Dasher, Brooklyn, .347; Wyatt, Pittsburg, .338; R. Miller, Philadelphia, .333; Zinn, Boston, .333; Hess, Boston, .344; Viox, Pittsburg, .322.

FROM ALL OVER THE GREAT WEST

Come Reports From Women of Dodd's Kidney Pills.
Telling of Renewed Health and Fresh Vigor Through Using The Great Canadian Remedy.

(OVERLAND, Sask., Sept. 15.—(Special)—From all over the great west are coming statements from women who have found renewed health and fresh vigor through using Dodd's Kidney Pills and in this growing community evidence is not lacking that the great Canadian remedy is steadily gaining friends among those whom the burdens of life fall most heavily. Mrs. M. D. Forsberg, a well-known resident says:

"Dodd's Kidney Pills did me a great deal of good. I tried two other kinds of medicines before using them but it was Dodd's Kidney Pills that benefited me."
Women's health depends on the kidneys. If the kidneys are not right the result is weakness and weariness and a burden of pain almost too great to bear. But when Dodd's Kidney Pills make the kidneys right the result is that all poison is strained out of the blood, the seeds of disease are removed and the purified blood carries health and vigor to all parts of the body.

Almost any bright, healthy woman can tell you why Dodd's Kidney Pills are known as woman's best friend.

HOW I WON MY SILENT BATTLE

WE had been married ten years, and during all that time I had never doubted him.

Dick in any way. I felt sure that the responsibility of his changed demeanor lay with him, not me.

The love was not all on his side, either. For I adored my good-looking husband and earnestly tried to please him.

During his first five years of my married life I used occasionally to be haunted by the awful thought: What if Dick were to meet some girl or woman he loved better than I?

I DON'T know just when it all began. The man's wife hardly ever does know if she is of the stolid plodding type that takes things for granted.

and always would love me better than any other woman in the world. I tried to remind him that several times of late he had forgotten to kiss me before he went to the office.

stood more chance by pretending that I had observed no difference in him.

I crept out of the room as quietly as I could and into the hall, then I slipped on the stairs.

My strongest impulse was to demand the reason for the mysterious blood and I was sure of myself and of him.

While I was deliberating upon what I had better do first I was interrupted by Dick. He would not be home to dinner on Friday night.

That night I sat down in front of my mirror and I looked long and earnestly at my reflected image.

Do You Know This Statue?

By Louise D. Mitchell

In order to fitly appreciate the beauty and tenderness of the accompanying illustration it is best for you to recall the charming story of Cupid and Psyche by a few aids to memory which I will give you.

The name Psyche is found in the Greek meaning breath, life or soul, and its symbol is always that of a butterfly.

Now, Psyche was a beautiful nymph, and a nymph was a maiden deity, though inferior to other gods, hence inferior to Venus.

But Cupid, upon seeing her, fell deeply in love with her and determined to thwart the will of his mother, Juno.

Psyche, appalled at the disaster that had befallen her, was prostrated with grief and despair.

The emulous of her search finally brought her to the Palace of Venus, who, recognizing the suppliant at her door, and knowing the source of her grief, in order to still further vex her, herself for past wrongs and the new tasks.

Unexpectedly obtaining this, Psyche, who through all the difficult task imposed upon her had been protected by her unseen lover, emerged in safety from this most difficult task and came out into the light of day.

But Cupid, upon seeing her, fell deeply in love with her and determined to thwart the will of his mother, Juno.

Psyche, appalled at the disaster that had befallen her, was prostrated with grief and despair.

Psyche, appalled at the disaster that had befallen her, was prostrated with grief and despair.

But, watching over her untrusting, her lover in disguise vigilantly befell her and, speeding to her assistance, by his efforts recalled her to life.

And Psyche, recovering her senses, looks up at last into the wondrous eyes of her beloved.

It is that moment of her awakening and sweet discovery of her rescuer that Antonio Canova has so masterfully reproduced in this charming piece of sculpture.

It was early Summer when I realized my victory. He came home from the office one night and coming into the arms around me, kissing me repeatedly.

Where there are many children in the family, it is economy to consider a young maid, but a sandy-haired, freckled face girl with the figure and expression of a New England spinster.

A Few Points About Ivy

As far back as The Pagans, in all the present day there has always been an intense love and reverence for the Ivy.

The ivy is climbing or creeping, its leaves are more or less lobed and it produces plentiful clusters, by means of which it attaches itself tightly to the surface of the wall.

There is no damage to be feared so long as the walls are sound—in fact Ivy is distinctly beneficial, promoting dryness and warmth.

Merely on me here is the whole get! A character dead at every word. I suppose—School for Scandal.

LUNCHEON is both the most delightful and most disagreeable of summer festivities.

The table was a real wide-shape piazza that overlooked a bay flower bed beyond which a "set lawn" ran down to the borders of the lake.

At a luncheon given exclusively to individuals as an exceedingly useful and salutary habit.

How to wear flowers. Even if they are buds, do not wear three or four of them.

How to preserve eggs. Wrap each egg in a piece of newspaper, surrounded by salt.

Dressing up to their best. By Olive Lang. you see them reduced hastes to capture them at the money-saving price.

By that method you may be sure not only of saving money, but of securing exactly the article you really need.

Many a woman suffers from the purchase of a practical walking shirt, say, which she really needs.

It is all very well for women who have an unlimited income to buy each new dress or hat in a different hue of the rainbow.

A Merry Time at Sess Hartman Pu

Last night was deputation night at the city council. There were more than three which waited upon council. In fact there were 17, as in two instances the deputations consisted of "pros, and in the other deputation consisted of William McDowell, and Snowdon from Campbell.

The first deputation to be was that from Colborne Street regarding the erection of a building on the street line between Drum and Colborne Streets.

It is correct when serving a luncheon to use either a white cloth or to have the meal on a polished table embellished with lace or embroidered centerpieces and doilies.
