C.N.R. HAS AWARDED A LARGE CONTRACT FOR HARDWOOD

Will Take Care of Entire Year's Output of New Creosote Plant at Newcastle.

The announcement made last week that the Canadian National Railways have awarded a large contract to fill their requirements in hardwood ties to Messrs. J. Wesley McDonald, Campbellton, and Herbert Grier, lumber manufacturer of Montreal is an item of some importance and one that will interest dealers in and owners of hardwood not only in this district but throughout a large area of the province.

The transaction which was completed Monday is known to be a large one. A smaller one has also been awarded to J. H. Flemming, of Woodstock and these two contracts will take care of the entire year's output of the new creosote plant at Newcastle.

The territory specified in the contract to be covered by McDonald and Grier comprises the following districts; From Mont Joli to Moncton on the main line of the C. N. Rys., from Campbellton to Limerick on the I. N. R. and from Newcastle to Blissfield in the central part of the province. The recently awarded contract further makes the above mentioned dealers the sole buyers of hardwood ties in these different districts.

The agreement signed Monday calls for four kinds of wood, namely: Maple, birch, beech and elm and herein is presented a fine opportunity for smaller mills whose owners may be interested and desirous of entering this phase of the lumbering business.

In view of the fact that many districts throughout the province are rich in hardwood, which has always been considered by owners something of unmarketable commodity, the announcement of the placing of this contract will doubtless be of much interest to farmers throughout the country. It is the intention of Messrs. McDonald and Grier to buy direct from the farmers wherever they can secure a sufficiently large quantity of wood in one section. At any place where an owner's wood will make possible a contract for ten thousand or more logs a portable mill may be installed by the buyers so that they may manufacture it in the district in which it is cut.

NARROW ESCAPE FROM DEATH

Yesterday afternoon, about 3 o'clock Mr. Wilfrid Whalen of Algville, a settlement about one mile from Nelson, had a very close call from a serious accident on the Morrissy Bridge. The draw was open to allow a steamer to pass and the gates on the bridge were down against traffic. Mr. Whalen accompanied by his brother Emmet, was on his way from home to Newcastle intending to go into the woods on a hunting expedition. He approached the bridge and in coming to the open draw endeavored to stop his car, when apparently the brakes of the car refused to work, with the result that the car with its occupants ran through the gate arm and the two front wheels dropped over the end of the stationary bridge. The only thing which prevented the car and occupants from going headlong over the bridge and into the river was the pan underneath the automobile, which caught on the flooring of the bridge and brought the car to a standstill. It was a miraculous escape and both young men were most fortunate in escaping with their lives. The car was badly damaged, having its windshield, radiator and other parts demolished. A passing car towed the wreck to Charles McLaughlin's Garage, where repairs will be effected.

SPECIAL MEETING TOWN COUNCIL

Resolution Passed Re. Canada Creosote Company

Pursuant to notice, a Special Meeting of the Town Council was held in the Town Office on Monday, October 22nd, at eight o'clock p. m. Those present were Mayor Creighton Aldermen Atkinson, Crocker, Dalton Dickison, Mackay, McGrath and Morris.

Minutes of meeting of Sept. 20th were read and confirmed.

Reports of Committees—
The Finance Committee recommended payment of the bill of Barnes & Co. 65c and on motion of Ald. Crocker, seconded by Ald. Dalton the same was passed and ordered paid.

The Chairman of the Finance Committee reported that steps had been taken to collect all property taxes due since 1919 and 1920, that arrangements for payment had been made in these cases, and if these arrangements were not carried out, steps would be taken to enforce payment. He stated it was the intention of the Committee to immediately take action to collect the same in default.

A bill from the St. John County Hospital for \$248.40 was submitted and on motion of Ald. Crocker, seconded by Ald. Atkinson, was referred to a Committee of the Whole Council.

The Light & Water Committee recommended payment of the bill of Sumner Co. Ltd. \$9.85, T. McAvity & Sons Ltd., \$116.85, Northern Electric Co. Ltd. \$97.91, and on motion of Ald. Mackay, seconded by Ald. Morris, the same were passed and ordered paid.

The following bills from the Public Works Committee were passed and ordered paid on motion of Ald. McGrath seconded by Ald. Dalton P. Hennessy \$5.00, F. Hogan \$47.62, D. & J. Ritchie Co. \$18.00 Maritime Produce Co. \$37.50 Chas. Sargeant \$119.00.

The account of Fulton Gertz, \$700.00, for property between the Highway and Mary street was passed and ordered paid on motion of Ald. McGrath seconded by Ald. Mackay.

On motion of Ald. McGrath, seconded by Ald. Atkinson, the Council resolved itself into a Committee of the Whole to consider a resolution regarding Canada Creosoting Company Limited and other matters and Ald. Mackay was appointed Chairman.

On the Council, re-assembly, the Chairman of the Committee of the Whole presented the following resolution with the recommendation of the Committee that it be adopted:

"Whereas Canada Creosoting Company Limited, has represented to the Town Council of the Town of Newcastle that the said Company proposes to establish in the Town of Newcastle a Branch of its business of creosoting lumber, and for that purpose has secured option on the Hickson Mill site, so-called, situated in the Town of Newcastle, and bounded northerly and easterly by the Canadian National Railway Wharf premises, westerly by the road leading to the Morrissy Bridge, and extending southerly into the Miramichi River; and also on that other tract of land in the said Town, bounded northerly by the Canadian National Railway, southerly by the Branch thereof leading to the Railway Wharf, easterly by the easterly side line of land of Innis Nevig and westerly by the westerly side line of land of Joseph Foran;

And Whereas the said Company will purchase the said property for the said purpose provided arrangements can be made with the said Town for a fixed valuation of the said property and for a sufficient supply of water and electricity, and has made application for a license to do so;

Resolved, That the Council do hereby advise the said Company that the Council is not prepared to grant a license to the said Company to establish a branch of its business in the Town of Newcastle, until such time as the said Company shall have made arrangements with the said Town for a fixed valuation of the said property and for a sufficient supply of water and electricity, and has made application for a license to do so;

Resolved, That the Council do hereby advise the said Company that the Council is not prepared to grant a license to the said Company to establish a branch of its business in the Town of Newcastle, until such time as the said Company shall have made arrangements with the said Town for a fixed valuation of the said property and for a sufficient supply of water and electricity, and has made application for a license to do so;

Resolved, That the Council do hereby advise the said Company that the Council is not prepared to grant a license to the said Company to establish a branch of its business in the Town of Newcastle, until such time as the said Company shall have made arrangements with the said Town for a fixed valuation of the said property and for a sufficient supply of water and electricity, and has made application for a license to do so;

Resolved, That the Council do hereby advise the said Company that the Council is not prepared to grant a license to the said Company to establish a branch of its business in the Town of Newcastle, until such time as the said Company shall have made arrangements with the said Town for a fixed valuation of the said property and for a sufficient supply of water and electricity, and has made application for a license to do so;

Resolved, That the Council do hereby advise the said Company that the Council is not prepared to grant a license to the said Company to establish a branch of its business in the Town of Newcastle, until such time as the said Company shall have made arrangements with the said Town for a fixed valuation of the said property and for a sufficient supply of water and electricity, and has made application for a license to do so;

Resolved, That the Council do hereby advise the said Company that the Council is not prepared to grant a license to the said Company to establish a branch of its business in the Town of Newcastle, until such time as the said Company shall have made arrangements with the said Town for a fixed valuation of the said property and for a sufficient supply of water and electricity, and has made application for a license to do so;

MOODY & CO., LTD.

FEDERAL MEMBER FOR KENT DIED AT CAMPBELLTON

Auguste Theophile Leger, Liberal M.P. for Kent County, died Sunday morning at 4 o'clock at the Hotel Dieu Hospital in Campbellton. He had been seriously ill for only one week and word of his death will bring widespread sorrow. He was well known and well regarded throughout the Maritime Provinces. Mr. Leger first complained of illness about three months ago when he went to St. John to consult a specialist. His condition became gradually worse but his death was quite unexpected and came as a great shock.

Mr. Leger was 71 years of age. He was first elected to Parliament in 1917 and was re-elected in 1921. He leaves to mourn his widow, six sons—Napoleon of Edmundston; Amedee of Halifax; J.B. of Campbellton; J.T. Leger, a lawyer of Battleford, Sask.; Major J. Arthur of Newcastle and Eric of Montreal; three daughters: Mrs. Frank Magee of Moncton; Mrs. Wm. Brunell of Duck Lake, Sask.; Mrs. J.J. Pitre of Bathurst; also one step-daughter, Mrs. Nichols Theriault of Burnville.

The body was taken to Richibucto the home of Mr. Leger, on Monday morning and was accompanied by his son, J.B. Leger. Requiem Mass will be sung at Richibucto tomorrow and the funeral service will be held at 9 o'clock in the morning. Interment will be made at Richibucto.

DRY DOCK OPENED

Yesterday was a big day in St. John. At 3 o'clock in the afternoon the largest dry dock in the world was officially opened by Baron Byng of Vimy, Governor-General of Canada. Some of the most prominent men of the Dominion were present, including railway magnates, captains of industry and commerce, ministers of the crown, senators and provincial statesmen.

NEWCASTLE BATTERY A PRIZE WINNER

In the gun practice for siege and heavy artillery at Ottawa, first place with the Wilson Smith Challenge Cup, was won by the Seventh Siege Battery of Montreal; second place with the Mercier challenge trophy, by the Fourth Siege Battery, Carleton, N.B.; and third and fourth places by the Eighth and Second Siege Batteries of Charlottetown. Prize Winners in the field artillery class—90th Battery, Newcastle, N.B. 8th Battery Moncton. In the siege and heavy artillery competition the Governor-General's Cup was won by the 7th Siege Battery Montreal; second place with an association challenge cup being won by the 8th Siege Battery, Charlottetown, the remaining prize winners, in their order being 4th Siege Battery, Carleton, N.B.; 2nd Siege Battery, Charlottetown, N.B.; 6th Siege Battery, Portland, N.B.

HALLOWEEN

Tomorrow is Hallow E'en. If you have anything outside which is not nailed down or too heavy to be carried away, it would be a good plan to put it indoors over night. The small boy and girls and no doubt some grown-ups as well, will be indulging in the usual Hallow E'en pranks.

SPLENDID RAINFALL

This section of the province was treated with a splendid rainfall, starting on Wednesday and continuing for three days. The total fall registered one and one half inches of rain. This section was badly in need of such a rain and the wells and brooks will be materially helped.

Food of The Gods

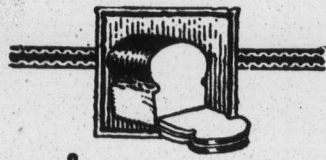

Isn't it interesting to know that the botanical name for chocolate is theobroma, "food of the gods". Especially as it received this name before Moir's Chocolates were originated. Rather prophetic!

Petitboure Biscuits are a dainty addition to the afternoon tea.

The fruit season—some of the finest examples of proper preserving can be found in Moir's fruit centred chocolates, such as those containing cherries, pineapple and peach. You'll notice how these centres have the flavor of the fresh gathered fruit. And they don't leak like other kinds.

On a cold morning a good pilot biscuit that has been soaked overnight makes a bracing dish, fried in bacon fat.

TEN YEARS IN THE PENITENTIARY

Sentence Passed Upon Mrs. Bessie Parker

Standing coolly, and calmly facing the court, without the least showing of emotion, Bessie Parker was sentenced to ten years in Dorchester Penitentiary, by his Honor Mr. Justice Chandler, in the Circuit Court, upon an indictment charging abortion. When asked by His Honor if she had anything to say before sentence was passed the prisoner replied: "I have nothing to say for my self, Your Honor, but for my mother's sake I would ask you to be as lenient as possible." The Court promised consideration of the request.

Mrs. Parker was brought into the court room just a little before 12.30 o'clock. She entered the premises jauntily, with a nod and a smile for some acquaintances sitting or standing about. Her mother was seated just by the doorway and she paused for a moment before taking her place in the dock, and kissed her. She stood with head erect while the judge was addressing her, and, when sentence had been passed, continued to stand, and, turning in the direction of the prosecuting attorney, W. M. Ryan, asked: "Are you satisfied now?" with a defiant and vengeful expression.

Judge Chandler told the prisoner that she had had a fair trial and been found guilty, and it was now his duty to pass sentence upon her. He could make that sentence most severe—it was provided that he could impose a life sentence for the crime. He felt he must give her quite a few years by reason of the evidence and the conviction in punishment for the crime and as a warning to others. He then passed the sentence of the Court, as stated above. The prisoner's counsel E. S. Ritchie, when asked by the court if he had anything to say, said that it was his intention to examine into a point raised by him in connection with corroboration of evidence. His Honor said he could not grant a reserved case; there had been a change in practice, but counsel would have the privilege of dealing with this point.

Upon leaving the court room with her mother, the prisoner did not seem at all perturbed, but her mother sobbed quite loudly and seemed greatly distressed. Quite a crowd was assembled to see the prisoner as she entered the patrol wagon on the first stage of her journey to the penitentiary.

Wonder what a farmer thinks about when he goes into a city restaurant and pays 15 cents for a baked apple?

SEVEN YEARS OF TORTURE

Headaches and Indigestion Ended By "Fruit-a-tives"

The Marvellous Fruit Medicine

Like thousands and thousands of other sufferers, Mr. Albert Varner of Buckingham, P.Q., tried many remedies and went to doctors and specialists; but nothing did him any good.

Finally a friend advised him to try "Fruit-a-tives"—now he is well. As he says in a letter: "For seven years, I suffered terribly from Headaches and Indigestion. I had belching gas, bitter stuff would come up in my mouth, often vomiting, and was terribly constipated. I took Fruit-a-tives and this grand fruit medicine made me well!" 50c. a box, 6 for \$2.50, trial size 25c. At dealers or sent by Fruit-a-tives Limited, Ottawa, Ont.

HATE

Not all of the bad investments being made in this country today are confined to oil or mining stocks. Many people, sober-minded and ordinarily of very good judgment, are investing in that which carries a far greater loss than comes to the one who is separated from his money through a get-rich-quick scheme—they are investing in hate. Possibly they do not know it by that name. Perhaps they have never learned to call it anything more than an ordinary grudge. But under whatever name it sails, hate offers the poorest investment one can find in the world today. Carrying a grudge for long years, waiting and hoping for an opportunity to "get even" with some one for a wrong wasting precious time hoping that the hour may arrive when you can demonstrate your ability to settle an old score in the same in which it originated—all of that is born of hate, and hate pays dividends in kind.

CASTORIA

For Infants and Children
In Use For Over 30 Years

WANTS TO RETURN TO FATHERLAND

The former Crown Prince has urgently requested that he be allowed to return to Germany, it was learned today. After vigorous correspondence between the Prince and Chancellor Stresemann, the Chancellor laid the matter before one of the recent numerous sittings of the cabinet for a decision. Socialists are considerably embarrassed by the appeal and no decision has been reached yet.

Some members of the cabinet admit however they cannot advance any especially good reason why the Prince should not return. The Dutch Government has agreed to the Prince's request to leave Holland, it is understood on condition he will not ask to return to his refuge in Wieringen. In his new application, the Crown Prince, as he is still called by most Germans, urged consideration of his former arguments. As a German citizen, the Prince argued, he cannot be refused a shelter in his homeland.

The Prince said he would enter Germany quietly by motor car avoiding any ovations. In addition the Prince in substance said, "In these trying times as a loyal German, I want to be in my home country to participate in the reconstruction of the Fatherland." Foreign observers said it was conceivable that the application might be acted upon favorably although it was admitted that the Prince's presence in Germany might be hailed as a rallying signal for the Monarchists.

Good News For The Local Fishermen

Fishery Overseer Theodore Bell has received new instructions in connection with smelt bag net fishing in the area above the Chatham Ferry which was closed last season, and to which restriction such strenuous objection was made by local fish merchants and fishermen residing in and above Chatham, that the matter was fully investigated by the Dept. of Fisheries and the regulation withdrawn.

The new order reads as follows: "Smelt Bag Net licenses will be issued for the district above Chatham on the understanding that no fishing is to be done on the south side of the river, between Morrison's so called, and the point of the marsh in the vicinity of St. Paul's church. And also, that no nets are to be permitted in water of less depth than two fathoms. This area is restricted because it is considered that many small bass were killed in the shoal water in the vicinity of Bushville."

What There Is In A Piece Of Coal

A number of substances contained in a piece of black coal down in the cellar bin is amazing. There are over two thousand shades of aniline dye, numerous drugs like antipyrine, disinfectants for purifying the air, such as carbolic acid and naphthalene oils for lubricating, beautiful perfume, flavoring extracts that taste much like vanilla, raspberry, and other flavors. Much of the ammonia used for trade purposes comes from coal as does the very sweet substance known as saccharine.

All these products are obtained from coal tar, a liquid formed when coal is heated to produce gas.

"I Now Feel Fine"

Mrs. P. G. Murdoch, Box 433, Portage la Prairie, Man., writes:

"I was troubled for years with biliousness, constipation, kidney and liver troubles. I tried many different kinds of medicine, but nothing did me much good until I tried Dr. Chase's Kidney-Liver Pills. I now feel fine, but am never without these pills in the house. Dr. Chase's Ointment has relieved my husband of piles, from which he used to suffer badly."

DR. CHASE'S KIDNEY-LIVER PILLS

One pill a dose, 25 Cents a box, all dealers, or Edmanson, Bates & Co., Ltd., Toronto.

ASPIRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

- | | | |

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Mono-acetic acid ester of Salicylic acid. While it is well known, it is not always known, and manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

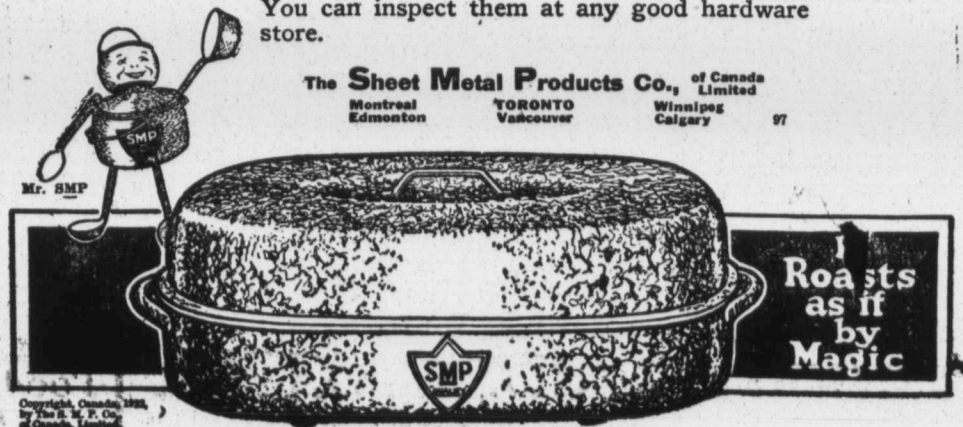

Roast Turkey!

For tender, meltingly delicious and wondrous flavored turkey, you must roast it in an SMP Crystal Ware or Pearl Ware roaster. This roaster roasts as if by magic. It bastes the roast or fowl—the fat dripping down from above. The delicate juices and rare flavor are cooked right in. Nothing is lost. There is no wasteful shrinkage.

When you buy expensive roasts of meat, turkey, or other fowl or fish, you want them perfectly cooked. For from \$2.00 to \$4.00 you can purchase a splendid SMP Roaster that will positively guarantee the roasting. To ensure the perfect cooking of an expensive 15-lb. turkey, surely it would pay you to use the proper utensil—an SMP roaster costing only one-quarter the price of the fowl! A roaster that fully guarantees perfect roasting!

After the hardest roasting, an SMP Roaster cleans as easily and simply as a china dish. No scouring or hard cleaning. There are styles and sizes to suit every size of roast, fish or fowl. Finished in Pearl Ware, two-coated pearly-grey enameled ware, or Crystal Ware, three-coated snowy-white enameled ware. You can inspect them at any good hardware store.

Roasts as if by Magic

Worth Its Price

"We have cheaper teas, madam, but I think you'll find 'KING COLE' is worth its price." So said a wise grocer recently to a questioning customer. He was there not merely to serve her, but to serve her well.

He might please her purse with the cheaper article but her final judgment of his service would be on the quality of the tea supplied. He wanted a satisfied customer.

This was one of the many merchants using "KING COLE TEA" in their own homes, and so he could say with sincerity: "It is worth the price."

"You'll Like the Flavor."

For the Best Titles to This Picture A. D. Farrah & Co. will Award Four Prizes \$15, \$10, \$5, \$3.

CONDITIONS:

(Please read these conditions carefully and conform to them exactly)

By "Best" is understood that title which most cleverly and briefly describes the picture above.

The contest is now open and open to everybody, and will close Saturday, November 10th, at ten o'clock in the evening.

Titles may be original, or may be a quotation from some well known author. They should not exceed twenty words each. Contestants may send more than one title but not more than four.

Name of paper or circular number in which you read this advertisement must be mentioned.

All titles should be addressed Advertising Manager A. D. Farrah & Co. Box 115 Newcastle.

Envelopes should contain nothing but the competing titles plainly written. Using one side of paper only, the date, name and address of the sender on opposite side.

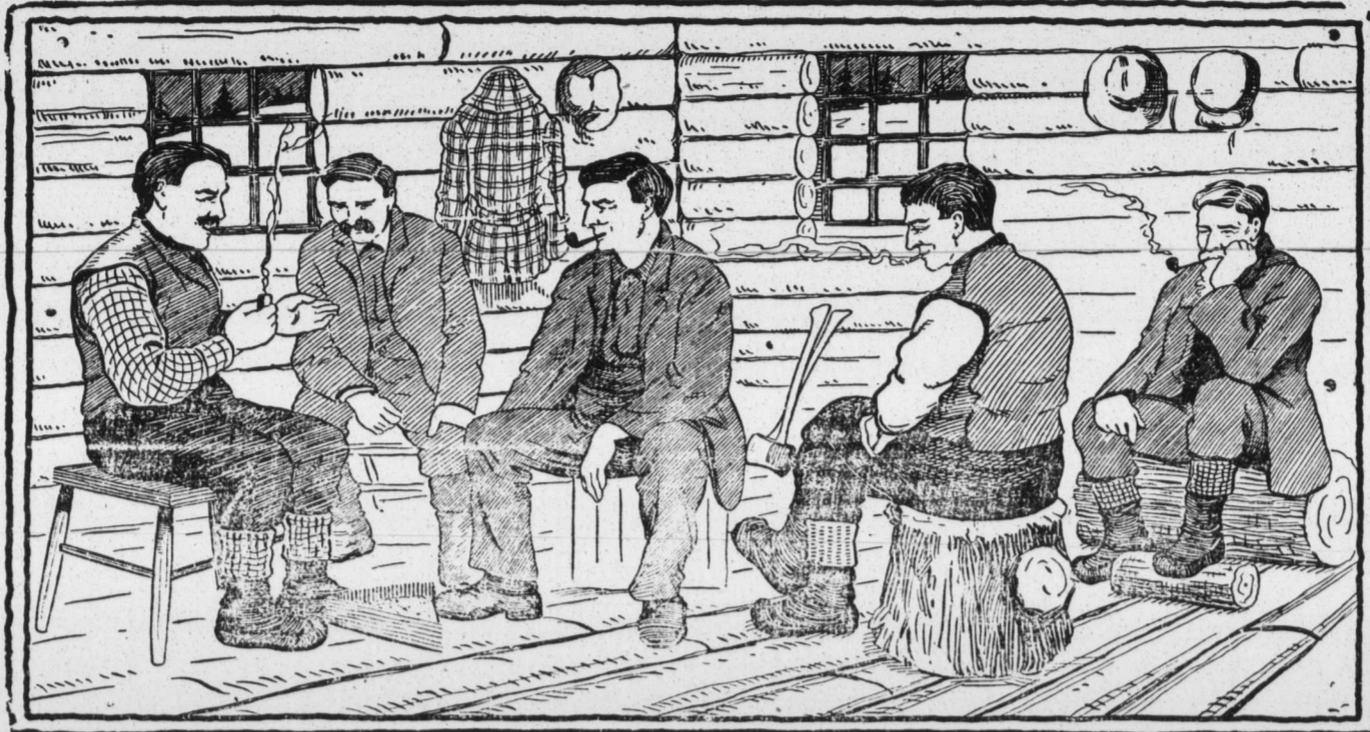

Should we have duplicates of any of the winning titles priority of date of receipt will be given precedence.

Titles are judged by Messrs G. P. Burchill, Leonard O'Brien, R. P. Giberson, David Ritchie, and Eugene Connelly.

Final award will be announced as early as possible after the close of the Contest.

The members of A. D. Farrah & Co. staff will not compete.

(Mail Your Title To-Day)

A TALK FOR MEN?

C-O-M-F-O-R-T

What a World of Meaning in those few letters—when they are put together in the right combination.

EASE, ENJOYMENT, SATISFACTION—That's what Webster says 'Comfort' is. And what man does not crave comfort, especially in his apparel.

To Begin at the Beginning—There's Your Winter Underwear

The Farrah Pure Wool Garments either in combination or two piece suits, are sure to give you that comfort and ease you crave for.

They come in 100 p. c. ribbed wool, and four different weights to suit your temperament and calling. Also the feather weight wool garments, knitted in such a way as to insure warmth without weight.

\$1.50 to \$3.75
PER GARMENTS

AND THEN

There's Your Sox

You may like a fancy light weight Cashmere hose—the popular hose with the silk clox.

85 cents

Or you may prefer a medium weight ribbed pure wool sox in Heather, Black or Grey.

49 cents

And perhaps your work calls for a heavy weight wool hose which will give you the warmth reserved in such weight without bulk.

49 cents

Here again a pair of real wool English made Golf Hose with fancy knee bands.

95 cents

AND WHAT ABOUT

Your Larrigans

You will want the best, no doubt. The ripless kind that stands wet, wear and all kinds of abuse. We can give you the Tree brand or the palmer's kind in 6 inch tops.

\$4.95 and \$5.25

And the ripless Palmer Mohawk 10 inch tops

at \$5.75

Besides the above we offer you an ordinary 6 inch top Larrigan made of excellent quality.

at \$2.25

Another Vital Question Your

Mackinaw Clothing

A pair of Khaki Breeches to start with—the kind that is made and of good weight

at \$3.15

Then a Mackinaw Shirt in cedar or red patterns that will stand a good soaking and all wool of course.

at \$2.98

And you will want a Mackinaw Coat to defy King winter with, the 32 ounce weight kind in dark grey pattern and naturally is all wool.

at \$5.75

MITCHELL ST.

NEWCASTLE

Portrait To Be Given To Club

London, Oct. 24.—Hon. P. C. Lorkin, Canadian High Commissioner, on behalf of the Canadian officers who served in the war, will present the members of the Royal Automobile Club with a

portrait of the club's chairman, Sir Arthur Stanley at a luncheon on Friday... The gift is the outcome of a desire on the part of the Canadian officers to show appreciation of hospitality and courtesies received in wartime when the club was rendezvous of the officers from overseas.

The Canadians consulted members of the club as to the form their monuments should take and having learned that a portrait of the chairman to hang in the club would afford the greatest pleasure, the services of Joseph Solomon, K.A., to paint Sir Arthur's portrait were secured.

Enormous Expenditure Necessary To Dam Belle Isle Strait

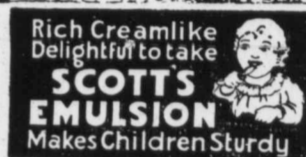

The territory and people in the vicinity of the Strait of Belle Isle have been affected very much by the abnormally cold summer season just closed, according to Capt. A. E. Calder of the Dominion Biological Department who has been on a surveying trip of several weeks in the north.

Capt. Calder says it would be feasible to dam the strait but the expense would be enormous, and a dam to stand the great pressure of the current and drift ice might have to be three miles thick. The result, in his opinion would be of a mixed nature. The climate of the Maritimes would probably be much warmer and the Gulf of St. Lawrence navigable all winter, but the influx of warm water to the Gulf would probably drive away most of the cold water fish, such as cod, and compel a re-organization of the whole Maritime fishing industry. Another result would be to give that portion of the gulf next to the dam, forty foot tides of the "bore" or tidal wave variety similar to those of the Bay of Fundy

EGG LAYING CONTEST

The third New Brunswick egg laying contest at the Experimental Station closes on Oct. 31st and a new one starts on the following day. Last week the contest birds produced 357 eggs, all of the twenty pens contributing to the total. The Experimental Farm Barred Rocks led with 35 and now have to their credit the magnificent total of 1,797 which is a new high mark for heavy breeds of hens in America. A White Wyandotte pen belonging to the station has 2,253 eggs to

its credit to date. Among the pens competing for prizes is that of W. E. B. Tait leads with 1,958 eggs, the next in order is that of A. T. Reid having 1,797. This is the third New Brunswick contest and it is Mr. Tait's third victory.

LABELS WILL TELL WHEN YOUR SUBSCRIPTION IS DUE
A large number of subscriptions to the Advocate are now due. That we may be saved the trouble and expense of mailing a notice of arrears, we wish to direct your attention to the label on your paper this week. It shows the month and year to which your subscription is paid. If you are one of those in arrears, you will confer a favor by attending to the matter within the coming few days.

Children Cry for Fletcher's CASTORIA

MOTHER! Fletcher's Castoria is a harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, compared to relieve Infants in arms and Children all ages of Constipation, Wind Colic, Flatulency, To Sweeten Stomach, Diarrhea, Regulate Bowels. Aids in the assimilation of Food, promoting Cheerfulness, Rest, and Natural Sleep without Opiates. To avoid imitations, always look for the signature of J. C. Fletcher. Proven directions on each package. Physicians everywhere recommend it.

You should eat more good bread

"The Staff of Life" is well named. Wheat flour contains no less than sixteen essential food elements. All of these are retained in the milling—all are in bread. When you eat bread and butter, you are eating what is practically a complete food.

Eat More Bread! It is best when made in the home. Make it with Quaker Flour, milled in the finest mills in the world—the Quaker Mills. Quaker Flour is guaranteed to give you always the finest results. If it does not satisfy you, your dealer will give you your money back.

ANOTHER RAILWAY THEAT

According to news published in various newspapers, another threat hangs over the Atlantic Division of the C. N. R. ...

Last Wednesday the story goes, a delegation from the Maritime Provinces, headed by Hance J. Logan M.P., for Cumberland County, N.S., boarded Sir Henry Thornton's special train at Charny, to advocate the annexing of the central Division of the C.N.R. between Montreal and Riviere du Loup to the Atlantic Division.

The Delegation were plainly told by Col. Talbot, a director of the C.N.R. that he would oppose such a thing, and added he, "I intend to try and persuade Sir Henry Thornton and my colleagues that the province of Quebec should be made a region all by itself."

Unfortunately, the great majority of the M.P.s. from Nova Scotia and New Brunswick seem to be struck dumb when it comes to advocating the true interests of the Maritime Provinces in railway matters. There are a few worthy exceptions who are not silent where the interests of our Provinces are concerned, and among them we are glad to see that Mr. Logan takes his place. What a pity we cannot place the illustrious and important Secretary of State, Copp, on the list. Contrary to his natural bent as an expert talking machine, for anything known to the contrary he has remained "dumb as a clam," or any other shell fish of the Westmorland coast.

Part of the above, however, has been contradicted and once more we have learned that we poor humans never know what an hour may bring forth. Finding out that we had at least one good Maritime representative, we naturally rejoiced. Then, we had only seen and read the above report, afterwards finding in the same contemporary, another report, calling No. 1 a lie. Alas and alack! How have the mighty fallen! Now we are told that the member for Cumberland has joined the ranks of the clams, or words to that effect. Thornton arrives in Amherst. The scene is changed. He laughingly denied that Mr. Logan had made the above mentioned representation and Mr. Logan also, denied the report. Now it only remains for Col. Talbot to deny what he is accused of, to make the screen complete, then we would have all the reels for the movie troupe complete, and it will be for the good of the Maritime provinces if some of the actors are pointed out, with their names, and their parts.

THE "OLD, OLD STORY"

How many of the lumbermen who have appeared before the pulpwood commission opposing an embargo on pulpwood, represent American interests? It is easy to understand why the American lumberman with large holdings in the United States would oppose an embargo which would compel calling on their reserves to make up for the stoppage of large supplies now shipped from Canada. It is less easy to understand Canadian lumbermen opposing the embargo. Possibly the investigating commission has secured an explicit statement from each and every lumberman as to his relation to timber holdings, both in this country and in the United States. That should form part of the record. Unless it does, the evidence can hardly be regarded as entirely satisfactory or convincingly conclusive. More than one New Brunswick witness before the commission has declared New Brunswick resources practically inexhaustible. There are lumbermen living on the Miramichi to-day who only a few years ago said exactly the same thing about the Miramichi River timber section. To-day those same lumbermen are practically driven to their wits end to secure logs to carry on their operations.

The logs that come to our mills are cut in small lots here and there along the rivers and streams running into the Miramichi. Year by year the production decreases and it is to-day a matter of doubt if some of the mills now in operation here will have logs to cut many more seasons. And yet it is only a few, a very few years ago, since the mill owners were declaring and declaring with full confidence in the truth of their statements, that the supplies were inexhaustible that New Brunswick could grow trees faster than the forests could be depleted. The Miramichi River experience is not singular. The story of the lumber industry, whether of milling or pulp and paper making, is a story of boundless faith, leading to the conditions which face us to-day. Despite the cheerful optimism of those who talk of inexhaustible reserves the certain outcome of present day methods is destruction of the forests. A pulpwood embargo, transferring paper mills from the United States to Canada, would not in itself save the forests, but it would give Canadian workmen the full benefits to be derived from our forest wealth, and it would help in arousing public opinion to the necessity of those conservation measures which must be inaugurated unless every section of New Brunswick is to suffer the calamity that has fallen on the Miramichi, because of a cock sure belief that our timber resources were inexhaustible.

From Hall Room to Palace Jumps Hiers

From a hall bedroom to a home in a palace—that is the jump taken by Walters Hiers as the star of "Sir Billings Spends his Dime," a Paramount picture in which Jacqueline Logan is featured as leading woman. At the opening of the play, which comes to the Opera House next Wednesday and Thursday, Hiers is a twenty-dollar a week clerk in a department store, specializing in collars, ties and collar buttons. As the tale unrolls, he races at dizzy pace through a series of romances, thrills, near-assassinations and South American wars; he steps from a hall bedroom to a hotel, from an apartment, to a ship state-room and then finally, to a room in the palace of the President of the United States. The picture is filled with laughs and thrills and is guaranteed to hold one's attention from start to finish.

EVIDENCE SUBMITTED BEFORE COMMISSION

The Number of Witnesses Who Appeared Before the Pulpwood Commission During Their Sitting in Newcastle on Monday Was Small.

The number of witnesses, who appeared before the Pulpwood Commission during their sitting in Newcastle on Monday was small. The Canadian National Railway was indicted by one witness for example for deliberately charging freight rates so high as to act as a practical embargo on the shipment of pulpwood by rail. A prominent member, exporter of this district, was opposed to an embargo on pulpwood because it would cause the United States to impose high retaliatory duties on lumber from Canada. Other points brought out were that the prohibition of the export of pulpwood from crown lands had resulted in operators having tree tops in the woods which could otherwise have been utilized and that the amount spent for labor on sawn lumber was about equal to the amount for labor in making peeled pulpwood.

The general trend of the evidence, was the same as hitherto given in New Brunswick. Referring to the great damage done to timber by insect pests and the necessity for turning trees into pulpwood as soon as possible as the only means of salvaging them all those who gave evidence opposed an embargo. J.W. Brankley, general manager of the Miramichi Lumber Company, the first witness examined, opposed the embargo imposed by the Provincial Government on crown lands, which was a hardship, he said, but no one ever expected this would be applied to fee lands. He said it would hit the farmers hard and cause a general slump in the industry for several years at least.

His company has under license 512 square miles and owns 312 sq. miles of fee land, employs 95 men in the roasting mill at Chatham and about 400 in the woods in connection with the pulpwood business. Their fire losses have been small. They employ a constant fire patrol of six men who follow every train. Where the railway runs through their land they have made a forest survey of their lands covering destruction by budworm which will file with the commission. For the past six years they have cut nothing on their own lands except timber affected by budworm. About fifty per cent. of the total stand was affected and ninety per cent. of the fir was killed. This is useless for lumber but they have salvaged over one hundred million feet of it for pulpwood.

Mr. Brankley stated that the expenditure on labor in roasting pulpwood, was greater than in sawing lumber, being \$ 170 per thousand on the former and \$120 on lumber. He said they had been exporting tops of trees from their licensed lands but the government had stopped them, applying the embargo and they were now left in the woods to rot, although the government was getting stumpage on them.

The government now admitted that their policy in this respect was wrong. The nearest pulp mill to them was the Fraser mill in Chatham which will not take any supplies from his company. He did not know of any water power of any value in the vicinity and the Fraser mill used steam. A. R. Voyer, pulpwood buyer and shipper of Canada, said the quantity shipped out of this district was about 40,000 cords; the price to the farmer this year is \$800 a cord on the logs for peeled or roased wood. Rail freight from Kent

Cotton Blankets at\$2.50 and \$2.75 a pair
Grey Wool Blankets.....\$2.95 to \$6.50 a pair

BEDS SPRINGS MATTRESSES

county is 4 1/2 cents a hundred which was so high that he had to stop shipping. He has had wood on his hands for two years and there is no sale for it. Cost of transportation by water to Buffalo is \$7.25 per cord, as compared with \$10 by rail.

Farmers claim there is no profit in wood at eight dollars. The time to put on an embargo, he said, has gone by. The Canadian National Railway has an embargo on the shape of freight rates, he said. A.T. Weldon, general freight agent of the system, had told him the rates were kept so high because they wanted to discourage the shipping of wood out of the country.

There is a great deal of budworm affected wood to be shipped, if the freight was right. He thought the farmer should get \$10 or \$12 a cord for his wood on the cars and he urged the commission to try and get some reduction on freight rates. J.L. O'Brien, a lumber exporter of Nelson, opposed an embargo on the ground that it would hurt the lumber business. He said the United States would impose retail

duties on lumber and practical ly all their small lumber and culms went to that market. His firm does not deal in pulpwood at present as there is no money in it. He said the country was full of small roasting plants which had cost about \$3,000 and could be bought for less than half that sum now as no one wants them. The cost of forest protection from fire should be borne by the general public and the method of scattering settlers over the country, instead of in communities, was responsible for much of the fire risk as well, as for stripping the forests, budworm affected timber is of no use in lumbering operations as it can only be made into pulp. The market for pulpwood this year was practically left to rot in the woods. He said that there was about as much argument in favor of an embargo on timber as on pulpwood. He estimated that his property would depreciate at least one-third if the embargo was put on. Questioned as to whether the land he spoke of in Labrador was owned by Canada or Newfoundland, he said it was indisputably Canadian territory; from the New Brunswick lands with which he was connected, 15% of the output went to the United Kingdom and 85% to the United States.

Hon J.P. Burchill, formerly Speaker of the New Brunswick Legislature, and fifty years in the timber business, was the next witness. He has about 140,000 sq. miles of licensed lands on the Miramichi and produces 5,000,000 feet of lumber yearly. Budworm and borer have done great damage to his woods yearly. He thought an embargo at present would be inadvisable, as it would interfere with the operations of small farmers and there was the necessity of salvaging timber attacked by budworm; as for the danger of retaliation by the United States he thought this was an open question.

CAUSE OF BACKACHES

Every muscle in the body needs a supply of rich, red blood in proportion to the work it does. The muscles of the back are under a heavy strain and have but little rest. When the blood is thin they lack nourishment and rebel. The result is a sensation of pain in these muscles.

Many people are frightened into believing that backaches are due to kidney trouble, but the best medical authorities agree that backache is very seldom due to kidney trouble. In fact not more than one backache in a hundred has anything to do with the kidneys. The whole trouble is due to thin or impure blood, and those who are troubled with pains in the back or loins, either frequent or occasional, should look to the condition of the blood and feeding the starving nerves and muscles will banish the pain and make you feel better in every other way. How much better it is to try Dr. Williams' Pink Pills for your blood than to give way to unreasonable alarm about your kidneys. If you really suspect your kidneys any doctor can make a test in ten minutes, that will set your fears at rest, or tell you the worst.

All dealers in medicine sell Dr. Williams' Pink Pills, or you can get them by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Wonder what a farmer thinks about when he goes into a city restaurant and pays 15 cents for a baked apple?

PERSONALS

Mrs. J.L. Lawlor of Campbellton is the guest of the Misses Lawlor.

Mrs. Andrew McMurray is the guest of Mrs. Co. Mason, Moncton.

Mrs. Margaret Young of Windsor N.S. is the guest of Mrs. Walter Morell.

Mr. Leslie Allen left Friday morning for Brookline, Mass. where he will spend the winter.

Mrs. Jamie Bell of Montreal spent last week with friends in town.

Miss Mary McCarron of Moncton spent the week end in town.

Victor Moody of Boston, Mass. who has been spending his vacation with his parents Mr. and Mrs. H.R. Moody, returned on Saturday.

Mr. A.H. Morell of the Royal Bank of Canada staff, Halifax, N.S. is spending his vacation at his home here.

Rev W.J. Wilkinson of Kingsclear conducted the services in St. Andrew's and St. Mark's Churches on Sunday.

Mr. and Mrs. Gordon Davidson are receiving congratulations on the arrival of a daughter at their home on the 17th inst.

Mr. and Mrs. Jas. Ryan, "Willow-Brook" left last week for St. John where they will spend the winter months with their daughter.

Mr. Geo. F. McWilliam of the "North Shore Leader" attended the meetings in Moncton last week, of the Maritime Newspaper Association and the Maritime Selected Weeklies Association.

Mrs. T.J. Durick of Campbellton and Mrs. Wm. Butler of Grand Falls are visiting their parents Mr. and Mrs. Wm. Buckley.

Mrs. Purdy and little daughter, Ruth of Westchester, N.S. are visiting Mr. and Mrs. John F. Kingston.

Miss Katherine Stables entertained a number of her school friends at her parent's home on Friday evening. A most enjoyable evening was spent by those present.

Messrs. Alex. Gremley, C. G. Couds, H.A. Moody and J.E.T. Linton, accompanied by Deputy Grand Master K.A. Snowball of Chatham went to Bathurst on Thursday where an official visit was paid to the Bathurst Lodge.

VERY FORGETFUL

A contemporary informs us that "an election has been known to undermine the memory of a political candidate so completely that he couldn't remember his promises" Canada just now is in the position of having a Premier who fills the above role to perfection.

WEDDINGS

MERSEREAU-CLARKE

The marriage took place at the home of the bride's aunt, Mrs. W.R. MacMillan, Jacquet River, at noon on Monday, Oct. 22, of Delphine, daughter of Thomas A. and the late Mrs. Clarke of Newcastle, and Guyon A. Mersereau son of ex-Mayor Mersereau of Chatham. The couple were unattended, and the ceremony was performed by Rev. H.C. Rice, assisted by Rev. A.D. Albald both of Bathurst. Owing to the recent death of the bride's mother, the wedding was very quietly observed. The bride was a teacher at Harkins Academy here and was most popular, while the groom is sales manager for McLaughlin cars in Northumberland. After partaking of dinner, the happy couple left on a motor trip through the province and on their return will reside in Chatham.

LEBANS-UNDERHILL

A very pretty wedding took place at the residence of Mr. and Mrs. Wm. A. K. Underhill, Tuesday afternoon at 4 o'clock, when their eldest daughter Miss Ruby Myrtle became the bride of Mr Peter Havelock Lebens some of Mr and Mrs William Lebens of the same place. The bride who was given in marriage by her father was becomingly gowned in Cocoa Crepe with oak and cream trimmings and wore a picture hat of oak duvetyne with cocoa feather, also a fox chocker and carried a shower bouquet of sweet peas, astors and maiden hair fern.

The young couple were unattended and entered the parlor to the strains of Lohengrins wedding march, rendered by Miss Lottie Underhill cousin of the bride. The ceremony which was witnessed by about thirty relatives and friends of the contracting parties was performed by Rev. Wm. Gartshore, assisted by Rev. Chester Walls of Amherst, N.S., under a large Arch of Evergreens, Autumn leaves and cut flowers.

At the conclusion of the service a dainty buffet luncheon was served the friends of the bride.

The bride who is a graduate of Crocker Street City Hospital, Somerville, Mass., and who has been practising nursing for the past four years has a large circle of friends and was the recipient of many beautiful wedding gifts, including cheques, silver, linen, cut glass etc. The groom's gift to the bride was a string of pearls.

Initialed flat silver was received from the Nurses' Club, Somerville, Mass. The bride's traveling suit was of navy poret twill embroidered in Black.

The out of town guests were: Miss Katie Buckley, Newcastle; Mr. Mrs. Lawrence Underhill, Doaktown; Mr. Earle C. V. Hinton, Fredericton, Miss Mabel McEachern Millerton; Miss Glornely Lebens, Long Beach, Cal., a sister of the groom and Miss Muriel Underhill, Williamsburg, York Co. Mr. and Mrs. Lebens left on a trip by the 8 o'clock train amid showers of rice and confetti and the good wishes of their many friends. On their return they will reside in Blackville.

SPECIAL SALE OF ALUMINUM WARE

A special sale of aluminum ware will be held next Thursday, Friday and Saturday at Mr. B.F. Maltby's store. No one should miss this great opportunity of procuring aluminum goods at a great reduction. The bargains are genuine and the purpose of the sale is to introduce Quality Brand Aluminum Ware. Every piece is guaranteed for twenty years and the public should take advantage of the low prices and procure for themselves needed articles.

OBITUARY

MRS. MARY GERRISH

Much sympathy is being expressed for the family of Mrs. Mary Gerrish whose death occurred at her home in Quarryville on Thursday, Oct. 18. Although Mrs. Gerrish had been suffering from rheumatism for the past twenty years, her death came as a shock to the whole community. Deceased was 73 years of age and is survived by her four sons; Henry Francis; Benjamin and Caleb all at home; also two sisters; Mrs. Wm. Victors and Mrs. Jas Urquhart both of Blackville and a large number of grandchildren. The funeral was held from her late home in Quarryville, the Rev. W.M. Gartshaw conducting the service and interment was made in the Blackville cemetery. The hymns sung were "Asleep in Jesus" and "Face to Face." The pallbearers were: Frank Matthew, Everett and John Jardine and Tyrone and Matthew Coughlan, nephews of the deceased.

Recommends Vicks For Baby's Colds

Nova Scotia Mother Swears By Vaporizing Salve

Some children seem to take one cold after another—never have a chance to build up any strength. This is apt to make them puny and delicate—just sets them back for months.

Every day more and more mothers are finding that they can best break up a cold with Vicks VapoRub, the externally applied vaporizing salve. While it acts like a liniment or plaster, it is also inhaled as a vapor, and so gets into the throat and lungs immediately. The cold is often broken up over night.

Vicks is prompt, too, in croup and equally good for skin hurts and itching.

Mrs. Sherman Black of 3 Silver St., Amherst, Nova Scotia writes: "I tried Vicks VapoRub on my thirteen months' old baby, who had bronchitis. It relieved his breath when he was choked. Vicks was also good for my other little boy who had the croup. I advise anyone who has a cold of any kind to use Vicks. I think it is the very best remedy I have ever tried, and I have tried many, for bronchitis. I even sent to England to get medicine, but none is as satisfactory as Vicks.

At all drug stores, 50c a jar. For free test size package write Vicks Chemical Co., 344 St. Paul St., W. Montreal, P.Q.

Although Vicks is new in Canada it has a remarkable sale in the States. Over 17 million jars used yearly.

NEW LAMP BURNS 94 AIR

Beats Electric or Gas

A lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean safe. Burns 94 p c air and 6 p c common kerosene (coal oil). The inventor, J. M. Johnston, 246 Craig St. W., Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$300 per month.

Plant Taxes For State Enterprise

London, Oct. 24—The economic conference to-day laid down the important principle that state enterprises owned by one country in the Empire will be liable to taxation the same as private concerns in any other country in the Empire in which state such enterprises may be doing business.

Thus, if Great Britain or any Dominion conducts a state enterprise, the other Dominions would be entitled to treat it as a private company in matters of taxation when doing business within the territory of such dominions. Reciprocally Great Britain will have the same right with respect to the Dominion state enterprises.

HELP FOR YOUNG WOMEN

Mrs. Holmberg Tells How Lydia E. Pinkham's Vegetable Compound Helped Her

Viking, Alta.—"From the time I was 15 years old I would get such sick feelings in the lower part of my abdomen, followed by cramps and vomiting. This kept me from my work (I help my parents on the farm) as I usually had to go to bed for the rest of the day. Or at times I would have to walk the floor. I suffered in this way until a friend induced me to try Lydia E. Pinkham's Vegetable Compound. I have had very satisfactory results so far and am recommending the Vegetable Compound to my friends. I surely am glad I tried it for I feel like a different person now that I don't have these troubles."

ODELIA HOLMBERG, Box 93, Viking.

Letters like this establish the value of Lydia E. Pinkham's Vegetable Compound. They tell of the relief from such pains and ailments after taking it.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and today holds the record of being the most successful remedy for female ills in this country, and thousands of voluntary testimonials prove this fact.

If you doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for Mrs. Pinkham's private text-book and learn more about it.

Elevator Addition Near Completion

Montreal, Oct. 24—Work begun last June on the extension grain elevator "B" at Windmill Point is now almost completed, and two of the four additional grain-loading berths have been placed in operation.

The extension provides an additional handling capacity of 1,272,000 bushels and brings the total capacity of the elevator to 3,500,000 bushels, which makes it second only to elevator No. 1. The four additional loading berths, the remaining two of which will be in operation in about a week's time, will enable the elevator to load six ocean vessels with grain simultaneously. To carry grain from the elevator to the new berths, the conveyor system has been extended by 1,600 feet, making its total length 2700 feet.

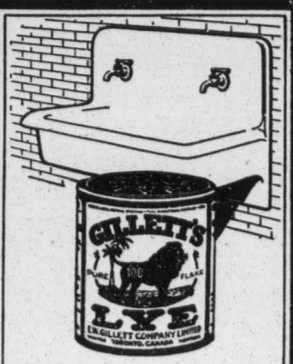

Good progress is also being made with the construction of the new 2,000,000 bushel elevator at Tertre pier, and it is expected that this will be in operation at the opening of the 1924 season of navigation.

COST OF WORLD WAR

The World War cost 10,000,000 lives according to a document just presented to the French Academy of Political Science by Senator R. G. Levy. Of this number 8,000,000 died as a direct result of hostilities, and the remainder of diseases flowing out of war conditions. These figures do not include civilian deaths, which, it is estimated would bring the total to at least 20,000,000.

Mechanism of the automobile will be completely revolutionized by a new form of transmission invented by George Constaninesco, who devised the synchronization gear that enabled machine guns to fire through the blades of airplane propellers during the war according to the Technical Newspaper Motor.

This publication says that Constaninesco's invention dispenses with clutch, rear box and the conventional rear axle drive and provides a variable gear which automatically adjusts itself to load and gradient. The invention is also said to cheapen the operating cost of the automobile.

SINKS AND DRAINS

Use a little of Gillett's Lye when the kitchen or bathroom drains are clogged. It works wonders! Use it also for cleaning and disinfecting Closet Bowls; for softening water, making soap, cleaning dirty floors and greasy utensils. It has over 500 different uses and a can should be kept handy in every home. Avoid cheap and dangerous substitutes. Insist on the genuine.

GILLETT'S 100% PURE FLAKE LYE

Here and There

It is announced that a new cave, the extent of which can only be surmised, has been discovered seven miles from Glacier House, Glacier, B.C.

The Yukon Territory is rapidly losing its inhabitants. In 1911 the population was 27,217, and in 1921 it had dwindled down to 4,157.

In an address to the Rotarians in Montreal last week, E. W. Beatty, president of the Canadian Pacific Railway, made a pointed statement to the effect that Canada needs more capital for its development and more men for the same purpose.

An old-time stampede will be held in Calgary, Alta., between July 5th and July 14th, 1923. The programme will, as usual, include calf roping, bronco busting, and fancy riding and roping, etc.

Resumption of direct steamship service this spring between Montreal and the principal Norwegian ports, with the object of furthering the expansion of trade between Canada and Norway, is announced by the Canadian Pacific traffic agents for the Norwegian-American Line.

The Canadian Pacific steamship "Metagama" recently brought over to Canada 400 men and women of the Hebrides—the first migration of young Hebrides farmers to Canada under the Ontario immigration scheme.

A bill has been introduced into the Chamber of Deputies, Paris, authorizing the Government to expend \$750,000 francs on the Canadian travelling exhibition. At least thirty French towns will be visited by the train this summer.

As guests of President Beatty of the Canadian Pacific Railway, four boy members of the young farmers clubs of Great Britain will cross the Atlantic and tour the Eastern and Western provinces of Canada.

Canada's exports to the United Kingdom in 1922 were more than \$34,000,000 higher in value than exports of Canadian goods to the United States. To the United Kingdom, Canada sold goods to the value of \$374,751,894, and to the United States \$340,156,247.

Before the war India imported \$600,000,000 worth of commodities a year, of which Canada sent not more than \$30,000 worth. Last year her imports were \$20,000,000, of which Canada sent \$1,125,000, and it is now expected that there will be a further increase to between \$3,000,000 and \$5,000,000 this year.

The Canadian Pacific Railway has arranged with a number of European countries for the emigration of farmers and domestics who are willing to come to Canada for employment on Canadian farms. The immigrants will be brought to Canada at the joint expense of their home governments and the railway company.

The first successful radio experiment on a moving long-distance railway train was recently carried out on a Canadian Pacific Railway train from Winnipeg to Vancouver. Mr. Raymond Wylie installed a receiving set in the drawing room of the through sleeping car, and the aerial was installed by the railway electrical department. The results were all that could be desired.

Seeing the train swaying as it passed her while she was picking berries was the reason why Mrs. Fred Beutler, of Brainerd, Ont., would not take a ride on a train, but after she had returned to West Moncton from Elmira she told W. C. Cowan, the Canadian Pacific agent at the former station, that she thoroughly enjoyed the sensation of travelling for the first time on a train, which did not go fast enough for her.

ANNUAL MEETING HELD IN MONCTON

Weekly Press Association Elects Officers.

The Maritime Weekly Press Association opened its annual convention at the City Hall Tuesday afternoon with Don. F. Fraser of the New Glasgow Eastern Chronicle, in the chair. An address of welcome was made by Mayor Edgett. The business of the association was conducted in secret session. Officers were re-elected as follows:

President: Don F. Fraser, New Glasgow Chronicle.
 Vice-Presidents: Nova Scotia, Mrs. P. N. Fielding, Tribune, Windsor, N.S.; New Brunswick, C. C. Avar, Sackville Tribune; P. E. Island, Lewis Taylor, Summerside Journal.

Secretary-treasurer—H. B. Anslow, Campbellton Graphic.

The executive in addition to the above is composed of Donald Lawson, Yarmouth Herald; S. L. Lynott, Carleton Sentinel; H. S. Anslow, Windsor Journal; George McWilliam, North Shore Leader, Newswest; H. R. Arnburg, Progressive Enterprise, Lunenburg, N.S.

An address, "Review of Year's Work" was delivered by Don. F. Fraser.

Mr. Patten, editor of the Independent Reporter, Skowhegan, Maine, also addressed the convention.

A TREATISE on the Horse—FREE!

This book is one of the best ever written for the horse and the farmer. In plain, everyday, understandable English, it deals with every subject that concerns the horse, from breeding and feeding to the latest methods of shoeing, harnessing and breaking. The book is worth many dollars to the beginner of horse, but all you have to do is ask your druggist for it. It is absolutely free. (Not to be mailed.)

Send for it now!

South Druggists, N.S., Jan. 19, 1922.

Please send me by mail your GREAT book showing positions and diseases of sick horses. Have been waiting your Kendall's Sports Treatise for years and think it a great treatise!

PERLY CURKUM.

If your druggist has not a copy of the book left write us direct.

THE ADVOCATE

ASK REMOVAL OF POTATO DUTY

Fielding is Requested to Intercede in Interest of Canada Growers

Ottawa, Oct. 24.—T. W. Caldwell, Progressive member for Carleton-Victoria, N.B., called on Rt. Hon. W.S. Fielding, Finance Minister today and suggested the advisability of Canada negotiating with the United States for the removal of the duty against Canadian seed potatoes. Mr. Caldwell states that there is an excellent market in the southern states for the Canadian product, and that the American growers are anxious to have the tariff removed so that they can obtain Canadian seed. Following the interview, Mr. Caldwell stated that the Finance Minister had expressed himself as being favorably impressed, but had suggested that the American growers should make representation to Washington in the first place.

Mr. Caldwell is also making an effort to have the Government enlarge the frost-proof warehouse which was erected in the city of St. John for keeping export potatoes until they were transferred to vessels. He states that Hon. J. H. King, Minister of Public Works will look into the question of enlarging the building when he visits St. John for the opening of the new dry dock.

LEGISLATURE MEETS BEFORE ELECTION

Preparations for a session of the Provincial Legislature before a general election are being set in motion.

Plans which had been made to bring on elections this fall are now abandoned and instead the word has gone out to various departments of the Provincial Government to prepare for another session of the Legislature.

The close of the fiscal year is now only a few days away and reports in circulation show that there has been a satisfactory return from territorial revenue. However, under the present law, the annual statement on the provincial accounts is not now due until ninety days after the close of the fiscal year and no definite information will be available until that time.

Meanwhile the usual efforts are being put forth to get all the obtainable revenue into the provincial treasury before the period lapses during which it can be credited to the present year's receipts. So far as can be learned the starting feature of the financial statement will be the expenditures which have been made in connection with the hydro development at Musquash, which has recently gone dry and refused to function.

CATCH IN IT

The humorist offered his latest invention in the way of a puzzle to the assembly of guests in the drawing room.

"Can you name an animal that has eyes and cannot see, legs and cannot walk, but can jump as high as St. Paul's Cathedral?"

The guests racked their brains during a period of unbroken silence. Finally they gave it up and demanded the solution. The inventor of the puzzle beamed.

"The answer," he said, is a wood on horse. It has eyes and cannot see and legs and cannot walk."

"Yes," the company agreed, "but how does it jump as high as St. Paul's?"

"St. Paul's," the humorist explained, "cannot jump."

Here and There

In order to handle the grain this fall the Fort William, Ont. force of 360 elevator men will be increased to 700. From 120 to 150 grain trimmers will be employed.

For the five months to August, 1922, Canadian newsprint exports were valued at \$35,308,043 against \$27,257,382 for the same period in 1921. Pulp exports in the same period were valued at \$20,008,461 against \$16,075,533.

Grain loading on Canadian Pacific lines during the month of September totalled 26,376 cars or 38,245,200 bushels. This at the beginning of the loading season which was two weeks late this year on account of the retarded harvest.

This has been the greatest season for automobile tourists Montreal has ever experienced, according to the Secretary of the Automobile Club of Canada. Cars, he stated, had come into the city over the King Edward Highway at the rate of two hundred a day, an unusual number from California, Florida, Carolina and Virginia being noticeable.

There was nearly \$160,000,000 increase in the total trade of Canada for the first five months of the current fiscal year, according to a return made by the Department of Customs and Excise. The total trade of the Dominion, according to the return, for the five months ending with August, was \$785,000,000, as against \$626,000,000 during the same period a year ago. Imports during the period were about \$335,000,000, as against \$302,000,000 a year ago, while exports of Canadian produce rose from \$316,000,000 approximately to \$385,000,000.

There is a heavy demand for bushmen, according to the Government Labor Bureau at Montreal. The big lumber companies have been engaging men for the bush, and the prospects are that the demand will be sufficient to make fall and winter conditions good. Wages paid this year by the lumber companies are higher than last year, the rates paid being \$40 and \$45 a month, whereas a year ago the schedule was down to \$26 a month.

With the completion of the harbor works now in progress, Montreal will be in a much better position in 1924 to handle a record flow of grain than ever before. Windmill Point elevator will be increased by 1,250,000 bushels storage capacity, making its total capacity 3,250,000. Four additional shipping berths are being provided at this elevator and will be in commission early next month, and the elevator's loading capacity will be increased from 50,000 to 90,000 bushels an hour.

Reports to the Canadian Pacific Railway, show that there arrived at Winnipeg from the British Isles this year for the purpose of working on the harvest, 11,833 men. Special efforts are being made to find occupation for as many as possible to cover the winter period, and it is stated that it is now probable that a considerable number of these harvesters from Great Britain and the Irish Free State will remain in the Dominion.

Addressing a recent meeting of the Vancouver Board of Trade, President E. W. Beatty, of the Canadian Pacific Railway, announced that the company proposed immediately to add two large modern steamers to its coast fleet in order to take care of increasing tourist traffic over the company's coastal lines. He also announced the early completion of a new pier at this harbor at a cost of several millions, which has been made necessary by the steady development of Canada's trans-Pacific trade.

After Scott's EMULSION should be taken every day for a month

"MY TOWN AND I"

My home and my business is founded in my town. She gives me and mine protection of law and order, that my property may be enhanced and my right be sacred. I vote here.

My town gives my children a superior schooling. Good neighbors are mine. Truly, my town is "home spot" for me.

I owe my town full measure of loyalty. If I pretend a manly and fair conception of reciprocity, I must, upon every occasion, give my town full measure of loyalty through intelligent co-operation

with others of similar sentiments.

My town does not want my partisanship, my offishness, my dissension, my criticism, or my indifference. Rather, my town expects of me qualities of high citizenship, tolerant friendship, willing co-operation, heart given sympathy, and intelligent support.

PROHIBITED

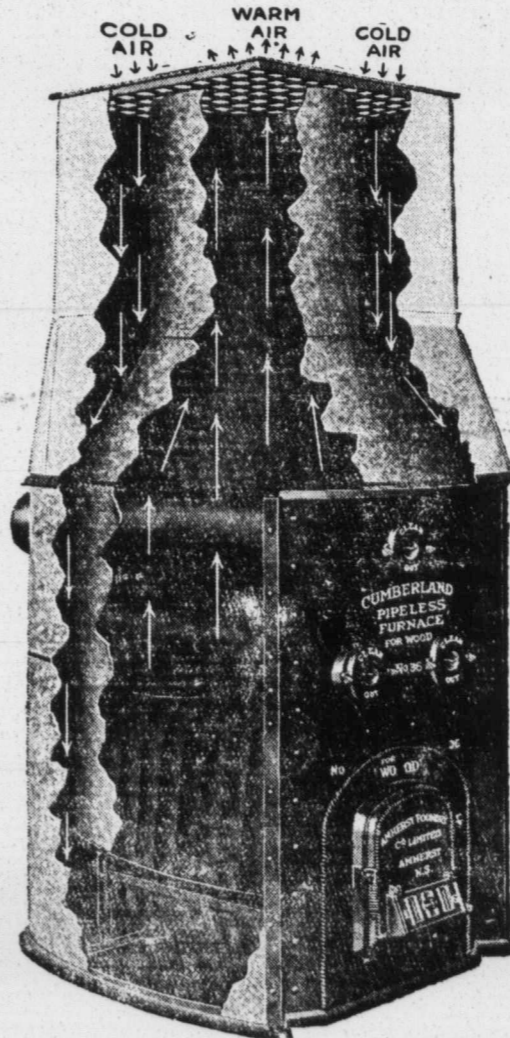

The keeping of intoxicating liquor in the Province of New Brunswick for export, and the export by persons other than duly licensed brewers and distillers is prohibited on and after Nov. 30 next. By order-in-council appearing in the current Canada Gazette.

HANDSOME TROPHY

The Challenge Cup for which Zev and Papyrus raced is of solid gold, stands about 12 inches high and weighs about 100 ounces. It is a hand made copy of a cup fashioned in 1707 during the reign of Queen Anne—a period when racing was most popular.

An eagle with outstretched wings, every feather clearly etched ornaments the top of the trophy, which also bears on one side the arms of the United States. The other side is reserved for a list of winners. Donated by the Jockey Club, the cup is designed for perpetual competition.

Every Home Can Own A Cumberland Pipeless

Cost doesn't stand in the way—its price is low because piping is omitted. It costs less to install—only one register, no walls to be opened. It costs less to operate—it is insulated with asbestos so all heat is sent through the house where wanted, no fuel is wasted in the basement. So your fuel goes further.

Regular Cellars Not Needed

Provided there is space to hold the Cumberland Pipeless itself, and to carry the smoke pipe, you can install one. The elimination of heating pipes means that the amount of cellar space needed is cut down to a quarter. Many homes that never had furnaces before are now enjoying full warmth in every room all the time, because of the Cumberland.

Installed in Less Than a Day

12 hours is more than enough to set up and start a Cumberland Pipeless because heat pipes are not needed. What's more the work can be done on the coldest day, since all the work is done in the cellar.

Free Folder

Send for full facts about Cumberland Pipeless and Pipe Model Furnaces. It tells about the extra material, the extra care, used in making them to serve you well for a life time.

THE CURFEW LAW

"The town fathers should enforce the curfew law, if there is one, and give some of the 'advanced' pupils a chance to rest, as school now opens about their regular bedtime." —Heard on the street.

LAST TRIP

A. C. Currie of St. John, agent of the Eastern Steamship Corporation, announced officially that the S. S. Governor Dingley would be with drawn from the St. John-Boston route after her departure from St. John on October 31.

HEARD LLOYD GEORGE SPEAK

On Wednesday last, Gordon McKay and other members of the family had the pleasing privilege of hearing over a radio set, the wartime Premier of Great Britain, Hon. Lloyd George, in a public speech, broadcasted from Pittsburg, P.A. on that evening.

THE COURAGEOUS

If you are courageous, you will follow your best judgment of the right thing to do regardless of what those about you think or feel about it. You will tell the truth if it hurts. You will do the right thing if it costs you money or pain. You will stand for that right while others may scoff, scorn or abuse you.

EXTENSIVE OPERATIONS

J. E. Waugh has an operation of twenty million feet of lumber on Stetson and Cutler's limits, which will be taken by Fraser Companies Ltd. This operation is on burnt timber limits and there will also be extensive operations in fire damaged timber throughout other sections of the province.

Why is it necessary that the water for making tea should be freshly boiled? Because if it has been boiling for a great length of time water loses its aeration and becomes flat. The best tea—MORSE'S SELECTED ORANGE PEKOE—must, in order to secure the best flavor, be brewed in water that has just come to the boil. See directions on the package.

NATIONAL FISH DAY

Wednesday, October 31, has been designated as national fish day. The value of fish as a food and the importance of encouraging the fish industry are reasons why on National fish day and on other days fish should be eaten. It is a staple, which, if the market was encouraged would offer both a whole some and a cheap food.

THE WIRELESS STATION

It is understood that the rum-running schooner which was seized last Thursday at Cocagne, N.B., with a cargo estimated at \$12,000.00 was detected by a Revenue steamer while at sea and information transmitted by wireless through the Newcastle Wireless Station to Revenue officers on shore, to be on hand at the point the expected rum runner was headed.

A GRAND SUCCESS

The recent Harvest Festival and Auction held in the Rink by St. Mary's Congregation was a grand success, the net proceeds amounting to about \$1200, which will be added to the Building Fund. The winners of the articles on lottery were:

- No. 324—Cow—Miss Hedge Morris
- No. 49—Safety Razor—Miss Agnes Lawlor.
- No. A45—Pr. Chickens—Francis Poirier.
- No. 312—Pr. Boots—Bill Nevin.

HALLOW E'EEN PRANKS

Wednesday being Hallow'een, the mischievous sprites will no doubt be in evidence. While not wishing to deny the young folks participating in harmless reveries, it would be well for them to refrain from indulging in youthful pranks that are likely to result in serious, if not fatal injury to the victim. It is not without ground that we mention this matter. One Hallow'een in Newcastle, some mischievous persons placed a wire across the sidewalk and a lady in passing, tripped and fell, seriously injuring herself. Let young folks have all the innocent fun and merriment they like, but keep within the reasonable bounds of common sense.

GUARD THE BABY AGAINST COLDS

To guard the baby against colds nothing can equal Baby's Own Tablets. The Tablets are a mild laxative that will keep the little one's stomach and bowels working regularly. It is a recognized fact that where the stomach and bowels are in good order that colds will not exist; that the health of the little one will be good and that he will thrive and be happy and good natured.

The Tablets are sold by medicine dealers or by mail at 25 cts a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Here and There

A grant of \$25,000 to the Salvation Army to aid Canadian emigration work in Great Britain has been authorized by a Canadian Order in Council.

According to information received by the Canadian Pacific Railway at Winnipeg, sixty-three bushels of wheat to the acre has been harvested on the farm of T. M. Ballantyne, three miles north of Lacombe, Alberta. The wheat graded No. 1 and weighed 64 pounds to the bushel.

Weighing 3,170 pounds, a steer said to be the largest ever received in Winnipeg, arrived at the union stockyards from Wainwright, Alberta. It was sold for \$250, the highest selling price of any steer in Winnipeg since the war.

The Canadian Pacific S.S. "Brunton," which arrived in Liverpool on September 5th, put up what is considered to be a record in the speedy discharge of cargo when she sailed the following day, Sept. 6th, at 7 p.m., having discharged over 2,000 tons of cargo.

It is announced that the Canadian Pacific will increase the size of its irrigation headgates at Kimball, in southern Alberta, by 50 per cent in anticipation of an increase in area of 40,000 acres in the Lethbridge district. Water will be turned into the ditches of the Lethbridge Northern project, it is expected, some time this fall.

Buffalo steak will be abundant in Canada this fall. A herd of 2,000 surplus Buffalo wandering on the range in the National Park at Wainwright will be slaughtered by an Order-in-Council, and the meat and skins sold. For several years the Government has paid special attention to the preservation of the buffalo and the work has been so successful that the National Parks are now overstocked.

At a dinner given in his honor by the Vancouver Board of Trade, E. W. Beatty, President of the Canadian Pacific Railway, announced that the Company proposed immediately to add two large modern steamers to its coast fleet in order to take care of its increasing tourist traffic over the Company's Pacific Coastal lines. He also announced the early completion of a new pier at Vancouver at a cost of several millions.

There have been large increases in the number of pure bred animals in Canada during the decade between the last two censuses. The increase in the number of pure bred horses between 1911 and 1921 was 44 per cent; of cattle, 139 per cent; of sheep, 75 per cent, and of swine, nearly 44 per cent. The number of pure bred horses in the Dominion in 1921 was 47,782; cattle, 236,656; sheep, 93,643, and of swine, 81,143.

A conservative estimate of the amount of money spent in Quebec by tourists reaches \$2,358,750. From the beginning of May until the first of September, 15,000 motor tourists had called for information at the offices of the Quebec Auto Club. Taking an average of four people to each car, this meant that at least 60,000 people had come to the city by automobile. Of this number there were approximately 8,000 camping parties, or 12,000 people.

At the Chateau Frontenac, Quebec, recently, Colonel J. S. Dennis, Chief Commissioner of Colonization of the Canadian Pacific Railway, outlined in a detailed speech existing conditions in Canada and prospects for the future. He emphatically stated that there was no cause for discouragement, but, on the contrary, every prospect of a renewal of rapid development, including an increase in our population and the development of our latent natural resources, by such a way as to insure, in the comparatively near future, that we should be out of the woods, and progressing rapidly to a large population and favorable business and financial conditions.

SPECIAL MEETING TOWN COUNCIL

continued from page 1
plication to this Council to fix the said valuation at Ten Thousand Dollars (\$10,000.00) and to supply water and electricity as hereinafter set out;
And Whereas this Council deems it expedient and in the interest of the said Town to comply with the said request and to fix the said valuation under the provisions of Statutes in such case made and provided.

Be it Therefore Resolved, that after, and as soon as the said Company, shall acquire and take over the said property as the site of the said industry, that then in such case and so long as the same shall be maintained as a going industry the Town Council shall and hereby doth fix the valuation of the said real estate and all buildings and improvements now on or hereafter to be erected thereon for the immediate and direct purposes of the said industry, and all plant, machinery and personal property of every kind of the said Company, situate or being on the said site at the sum of Ten Thousand Dollars (\$10,000) saying and excepting and hereby providing, and excepting that the said fixing and valuation does not and shall not extend to nor include the fixing of valuation of said property for school assessment purposes

and that the period of the said fixed valuation is and shall be ten years from this date and not longer

And Further Resolved that the said Town shall and will during the said period of ten years and while the said industry is maintained as a going one, supply the said Company with electricity for power at the price and rate of four cents for kilowatt hour, delivered at a meter to be placed on the Company's said lands, situate between the said Railway tracks, but under the conditions which govern the town's contract with the New Brunswick Electric Power Commission, and provided that the Town shall have the right to increase the said rate or price in proportion with any increased cost of electricity supplied to or generated by the said Town during the said period.

And Further Resolved that the said Town shall and will during the said period and while the present water supply is more than sufficient for domestic uses and fire protection supply the said Company with water for steam purposes, not exceeding Fifteen Thousand (15,000) gallons per day, at the price or rate of five cents per One Thousand (1000) gallons at a connection to be made on the Town's water main at or near the junction of the King's Highway and Hogan Lane, the meter herein to be placed on the Company's said property between the said Railway tracks, the Company not to be charged for water used in case of fire on the Company's premises.

And Further Resolved that the said Town do enter into a proper contract with the said Company under advice of the Town's Solicitor in respect to the foregoing provisions and this resolution and that the Mayor and Town Clerk be and are hereby authorized to execute the said contract.

REGAL FLOUR

The woman who is not satisfied with her bread making should try a baking with Regal Flour, the best flour for bread making sold in any market.

And Further Resolved that the

And Further Resolved that the Town Clerk be, and he is hereby authorized and directed to give to the said Company a copy of this Resolution certified under his hand and the Corporate Seal of the Town. It was moved by Ald. Mackay seconded by Ald. Crocker and carried unanimously that this Resolution be adopted.

The Chairman also reported that the Committee of the Whole had considered the bill of the St. John County Hospital for \$240.40 for board of Mrs. Julia Taylor and would recommend that the Town of Newcastle, not having had responsibility in the past regarding Mrs. Julia Taylor, refuse to accept any responsibility in her case in the future.

On motion of Ald. Mackay, seconded by Ald. McGrath, this report was received and adopted.

Ald. McGrath brought up the question of a refund to Charles Farrah for 1921 taxes, and submitted some cheques and vouchers from Chatham. It was moved by Ald. Mackay, seconded by Ald. Crocker, and carried that the cheques and vouchers be handed to the Petition Committee for further investigation.

Ald. Morris gave notice that at the next regular meeting of the Council the License Committee would introduce a By-Law to regulate the licensing of persons driving automobiles in the Town of Newcastle.

On motion the Council adjourned
