Volcanic eruptions have changed the face  
of nature at Yama. Time, too, makes its  
changes upon the human face. In Robert's  
photographs remains the same, unchanged by  
the flight of days. See scale of prices and  
samples of work at the studio, over C.  
Nairn's.

lie Rines died of fever at Oshawa, on  
Sunday last. She was progressing very  
favorably, but, taking a relapse, her

disease. She was buried at Oshawa on  
Tuesday.

A large arrival of ripe large Georgia  
water melons at Ball's at 25 and 30 cts.  
each. They are better and cheaper than

"staff" was treated to a big melon yel-  
low by Mr. Fall, and enjoyed the  
"luscious".

ing the past few months, but have print-  
ed none of them. We do not insert

tising rates. Our charge is 8 cents a line  
for obituary poetry.

preferred against them by James Purvis.

between the parties, however, and the  
case was withdrawn.

PRINTING FOR THE FALL SHOW.—We  
are now prepared to receive orders for  
show printing of all kinds. We expect  
our merchants and business men to do  
considerable in our line for the agricul-  
tural show to be held here this fall, and  
we are in a position to supply whatever  
is required in this direction.

A. M. Polleyon Wednesday last ship-  
ped 16 magnificent horses for draught pur-  
poses to Pennsylvania, where he has  
opened up a good market. The man  
who gets the start of A. M. P. in the  
matter of gathering up good horses has  
to get started before he will awake all  
the time. Mr. Polleyon says he is going  
into heavy purchases this fall.

A writer in the American Wheelman  
declares Canada in the matter of roads is  
fifty or one hundred years ahead of the  
United States. While this information  
will doubtless please Canadian lovers of  
the "bike," it will certainly be gratify-  
ing to many a poor municipal repre-  
sentative who is perpetually being reproach-  
ed with the horrid state of the roads.—  
[E.]

THE HIGH SCHOOL.—Goderich high  
school re-opened on Monday last with a  
registered attendance of about 70. Any  
of the pupils who passed at the recent  
examinations, and who have not yet re-  
ceived their papers containing marks on  
the several subjects, can have the same  
by writing to H. L. Strang, principal of  
the high school, and enclosing stamp for  
reply.

THE VOTERS LIST.—The following is  
a synopsis of the appeals in con-  
nection with the voters list of Goderich  
town, for the year 1883. J. G. Ward  
complains that 25 voters were wrongfully  
omitted; 1 voter was wrongfully  
named; 34 were wrongfully inserted on  
the list; and 1 voter was wrongfully de-  
scribed on the list. James Vivian ar-  
ranged that 49 names should be put on,  
4 corrected, and 13 struck off.

PARIS GREEN ON PLUMS.—We un-  
derstand that the use of Paris green on  
plum trees has not been altogether bene-  
ficial. The effect almost invariably has  
been to blight the leaves of the trees, and  
unduly hasten the ripening the fruit, and  
injuring the quality. Buyers who have  
visited orchards where Paris green was  
sprinkled over the plum trees in spring  
are not in favor of the practice, and are  
not anxious to handle the fruit.

A reporter of the Emerson Interna-  
tional has been visiting Manitoba City,  
C. P. R. town some 100 miles south-  
west of Winnipeg, and thus refers to  
the enterprise of a former resident of  
Goderich:—"Among the other com-  
pleted improvements is a large hotel,  
which is to be erected at once at a cost  
of about \$8,000. It will be run by Wm.  
Saults, who is a typical hotel man in  
appearance, weighing over 250 pounds  
and like most stout people, genial and  
good-natured. Mr. Saults runs the  
Grand Southern, the present hotel, and  
it is doing him simple justice to say that  
he sets one of the cleanest and best tables  
of any hotel in Manitoba, and that he  
can put to shame some of the alleged  
first class hotels of Winnipeg."

WEST HURON TEACHERS' ASSOCIATION.

The Semi-Annual Meeting of the West  
Huron Teachers' Association will be held  
in the Goderich High School on Friday  
and Saturday, October 12th and 13th,  
commencing each day at 9 o'clock a. m.  
An interesting programme has been pre-  
pared. On Friday evening, J. W.  
Bengough, the clever cartoonist of Grip,  
will deliver a lecture entitled "Carica-  
ture, the Funny Art," under the auspices  
of the association.

Mrs. G. H. Young and child; Mrs. G.  
K. Jackson, and two children; Mrs. E.  
T. Williams and child, Miss Notline,  
Miss J. Ward, Miss C. Ward, Mrs. W.  
W. Page; Mrs. H. E. Cobb and child,  
all of Bay City, are at the Grigg House.  
The party have been spending a three  
weeks' holiday in the vicinity of Gode-  
rich, and are on their way to Detroit,  
where they propose remaining for an-  
other week when they will return  
home.—[London Advertiser.]

A correspondent of the Clinton Year  
Era, who has been attending Grimsby  
a n.p meeting, thus refers to an old re-  
cognizance:—"One was there whom I  
had heard before, the Rev. Dr. Wil-  
liams. He did not preach, but gave us a  
most earnest and thrilling exhortation at  
the close of a very able and eloquent ser-  
mon by the Rev. Mr. Crossley of Brant-  
ford. During the doctor's exhortation,  
"Praise the Lord" and "hallelujah" were  
frequently ejaculated by his hearers."

A correspondent of the London Ad-  
vertiser writing from Bayfield, and de-  
scribing that quiet little village, says  
among other things:—"Next year ad-  
ditional attractions will be secured, as  
Mr. T. G. Moorhouse, of Goderich, has  
purchased the large estate on the north  
side of the river, opposite the Morgan  
House, and is laying off pleasure grounds  
by the acre. Architects and builders  
are already at work, and in a few months  
a ten thousand dollar mansion will crown  
the Bayfield Heights."

The central and ward schools opened  
on Monday, when the pupils were ar-  
ranged in the classes they are to remain  
in for the current term. From present  
date the 2nd book class in the central,  
will be discontinued, and the subjects as  
formerly taught in it will form part of  
the work of the senior department in the  
ward schools. This arrangement has  
enabled the school board to reduce the  
number of teachers from 13 to 12. There  
is no alteration in the staff this term  
except that Miss McQuarrie, as per agree-  
ment, will no longer teach, and Miss  
Louisa Trainer has temporary charge of  
Miss Trainer's class until that lady's re-  
turn from the North West.

THE NORTHERN GAMES.—The Luck-  
now Caledonian society will hold their  
annual celebration of Scottish games in  
their commodious park on Wednesday  
next, the 12th inst. Donald Dinnie, the  
world-renowned veteran Scottish athlete,  
will be at the gathering, and participate  
in the sports for the last time, this being  
his farewell tour through Canada. In  
addition the best-known Canadian and  
American athletes have also signified  
their intention of being present, together  
with pipers, dancers and well-dressed  
Highland men, ladies and lassies. The  
prize list has been increased to \$1,300,  
and the attendance is expected to be  
larger than on any previous occasion.  
The games will commence at 11 a. m.  
sharp. In the evening a grand con-  
cert will be held in the society's new  
octagon hall. Railway tickets from Gode-  
rich, go out to return next day, 90cts.  
For further particulars apply to John Mur-  
chison, secretary.

RESIGNATION OF REV. J. C. POMEROY.  
—Rev. J. C. Pomeroy, who took charge  
of the M. E. church of this town about  
the middle of April last, at a salary of  
\$600 a year, has been offered, and has  
accepted, the position of head master in  
a high school elsewhere. The salary, we  
understand, is in the vicinity of \$1,000,  
and the rev. gentleman gave notice to  
his stewards on Sunday that he had ac-  
cepted the position, and left on Monday.  
The members of the church here feel  
agrieved that the rev. gentleman  
should have taken himself away on such  
short notice, as his engagement with  
them was for a year. Some of them, we  
believe, are inclined to think that the  
additional \$400 on the year's salary was  
the chief factor in determining him to  
change the pastor's pulpit for the teacher's  
desk. The going off of the pastor  
will not, however, interfere with the  
services, which will be conducted as  
usual, pending the appointment of  
another minister by the London confer-  
ence.

Notes from the Harbor.

On the last trip of the Ontario, she  
loaded nine car loads of freight at Gode-  
rich.

The Ontario and Oconto were in the  
harbor on Sunday. The latter experi-  
enced heavy weather crossing over, as the  
storm was high at the time.

The schrs. China and German availed  
themselves of Goderich harbor of refuge  
on Tuesday last.

The dredge Challenge has been steady-  
ly at work for the past few days. "Wait-  
ing for orders" is no longer an excuse.  
The Dufferin is loading a salt freight  
for the Huron Salt Association.

The United Empire passed down on  
Monday and the Manitoba on Wednes-  
day.

Cricket.—Wingham vs Goderich.

A match was played on Wednesday  
between the above clubs, on the ground  
of the latter, resulting in a victory for  
Goderich in the first innings by 29 runs.  
Goderich went out in the second innings  
for 73 runs at 5.50 p. m. and as it had  
been arranged to draw stumps at 6 the  
Winghamites did not think it worth  
while to go in for 10 minutes, especially  
as they had to make 112 to tie. The  
ground was in good condition and the  
bowling of both sides well on the wicket  
—that of Messrs Armstrong and Mac-  
Dermott for the home team, proving very  
destructive to the visitors. None succeed-  
ed in making double figures. The only  
double figures for Goderich in the first  
innings were a 12 from Armstrong, and  
27 from C. C. Ross, who carried his bat  
through without giving a chance. In the  
second innings the only double figures  
were a 14 from MacDermott and  
21 from H. Vidal. The following is the  
score.

others, ye that tooi' uncessing. More with heat and heart than had. Seekin' daily for new wisdom. Safe to 'de your little ban't. I would fain bring you a message. That o'uld' enser and help you too; But my words seem weak and useless. For a cause so grand as I tru.

Any day 't summer, says the Detroit Free Press, one may meet around the ferry dock an old lake captain who was once crossing Saginaw Bay in his schooner with such a gale howling after him that no one expected the craft to reach harbor. As the gale reached its climax, the captain announced to the mate beside him:

"Mr. Thomas, if we come safe out of this I am done with whiskey." The mate said it was the same with him, and the Captain presently continued: "And I'll never utter another oath."

"And I solemnly declare, Mr. Thomas, that I'll leave off chawing and smoking." "There's another thing, captain," shouted the mate after a while. "What's that?" "You might promise to leave off lying."

"Yes, I—hold on—hold on! No, I'll be hanged if I do! There's blue sky over there and we've seen the worst of it! Git those men on deck ready to put her about, and if you ever tell anybody of this I'll pulverize you to a jelly!"

There are a few general principles that ought to be borne in mind in draining. A ditch will drain directly 50 feet each way; and when the slope is three feet or more in a hundred feet it will indirectly drain one-third of the land beyond this 50 feet.

For drains not more than 500 feet long a 2-inch tile will drain five acres. Lines more than 500 feet long should not be laid with 2-inch tile. A 3-inch tile will drain five acres, and should not be of greater length than 1,000 feet.

A 4-inch tile will drain 12 acres. A 5-inch, 20 acres. A 6-inch, 40 acres. A 7-inch, 60 acres. Of course these are the averages, and are supposed to be three feet in depth and on a grade of three inches to the hundred feet, which may be less or more as an average.

To further assist in leveling drains it may be stated that 1 inch of water falls in 24 hours, and that on one acre 40,731 gallons will fall in the same time and one-half this amount is used by plants and carried off by evaporation; so that 20,265 gallons of unnecessary water per acre would be required to pass through at least a part of the main drain.

The Wild Strawberry leaf is a good antidote to the poison of the green apple and cucumber. In other words, Dr. Fowler's Extract of Wild Strawberry is a sure cure for Colic, Cholera Morbus, Cramps, Dysentery, and all Bowel Complaints so often caused by the irritating effect of unripe fruit.

How Long to Sleep.

Probably no better division of time has ever been made than that into three equal periods of eight hours each, eight hours given to business, eight to reading and improvement, and the remaining eight to sleep.

The celebrated Alfred divided his time in this way. I have long thought that the native American requires more sleep than the European. For myself, I find that nine or ten hours sleep in a night will cure me of all trifling maladies with which fate in time to time I may be afflicted.

Some extraordinary advice has been given by certain distinguished persons, with reference to the writer devoted to sleep, but each writer falls into the common blunder of applying a rule to all, which he finds good in his own case.

Bishop Taylor advises three hours. Wesley suggests six as the least time that will answer. He declares that during his life he never knew anyone to retain vigorous health even for a year with less quantity than six hours, and he thought that women require more than men.

Excess of sleep is very bad in its influence, produces dullness of mind and body, corpulence and disposition to apoplexy, hence Galen calls sleep the brother of death, and says nothing is more pernicious when carried to excess.

The Americans should go to bed at 9 o'clock and rise between 5 and 6. I do not mean to say that circumstances may never justify their sitting up till midnight, or later, but I am simply interpreting the voice of physiology.

The average American with the narrow chest and small vitality would retire at nine o'clock, he would live some years longer, and each year would afford him more happiness and ability to work.

But American women most need a change to early hours. Their crazy nerves, neuralgia and other evidences of premature decay would be at once checked, and they would become younger and fairer.

With tight corsets, pastry, candies, furnace heat and midnight, American girls begin to fade at 20, and women are old at 40. —[Dio Lewis.

A Successful Rescue. A short time ago some Philadelphia Quakers, belonging to an Indian delegation, were crossing a wide plain in a hostile country. The driver of the ambulance called their attention to four Indians on horseback, who soon surrounded the vehicle.

A young brave in war-paint made unmistakable demonstrations of hostility. The interpreter told him they were medicine-men and peace. He replied that they must prove themselves medicine-men; if peace-men they had had too many already to steal their land and have soldiers kill them.

"Be quick," said he, "show us some wonderful medicine work, or we will kill you," putting action to his words by the flourish of arms. Here was a dilemma. Pointing to the oldest one, a fine-looking Quaker, six feet in his stockings, with white hair, who had been the first talker of the party, he furiously gesticulated and cried out:

"Medicine man, show! Medicine man, show!" An inspiration seized the Quaker. He had a double set of false teeth, on plates of flesh-colored material, and pointing at his teeth with his finger, and then tapping them with much grimace and decision, he motioned for all of the braves to come up within sight, and when all were intent upon him he deliberately took out first the upper set and then the lower set of teeth, and made a motion with his neck as if about to separate his head from his body, when the braves wheeled their horses and rode furiously away, and the party of peace-makers also turned their horses' heads forward, rejoiced at their shrewd deliverance.

A Word to the Boys.

Water is the strongest drink. It drives miasms; it's the drink of lions and horses, and Samson never drank anything else.

Let young men be teetotalers if only for economy's sake. The beer money will soon build a house. If what goes into the mash-tub went into the kneading-rough, families would be better fed and better taught.

If what is spent in waste were only saved against a rainy day, workhouses would never be built. The man who spends his money with the publican and thinks the landlord's law and "How do ye do, my good fellow?" mean true respect, is a perfect simpleton.

We don't light fires for the herring's comfort, but to roast him. Men do not keep pothouses for the laborer's good; if they do they certainly miss their aim.

Why, then, should people drink "for the good of the house"? If I spend money for the good of my house, let it be my own, and not the landlord's. It is a ball well into which you must put water; and the beer-house is a bad friend, because it takes your all and leaves you nothing but headaches.

He who calls those his friends who let him sit and drink by the fire is ignorant—very ignorant. Why, Red Lions, and Tigers, and Eagles, and Vultures are all creatures of prey, and why do so many put themselves within the power of their jaws and talons? Such as drink and live riotously, and wonder why their faces are so blotchy and their pockets so bare, would leave off wondering if they had two grains of wisdom.

They might as well ask an elm-tree for pears as look to those habits for health and wealth. Those who go to the public house for happiness climb a tree to find fish.

An exchange says: Steam threshing machines will soon be in operation all over the country, and people in charge of the country, and people in charge of the engines and boilers cannot be too careful in working them properly and seeing that they are in proper order.

The other day a terrible boiler explosion occurred in the county of Norfolk, by which one man was killed, another fatally injured, and two had narrow escapes from death. This was caused by a faulty steam gauge, a defect which might or might not have been known to them in charge, but which to allow to remain in that condition was a criminal neglect.

As steam must become more and more used on the farm as the country progresses, it is necessary that boiler and engine inspection should be extended over the rural districts. Many people have been killed and maimed on farms by horse machinery, but a boiler explosion is more dreadful than any other probable accident with agricultural machinery, and every possible precaution should be taken to guard against it.

The Globe knocked another Algoma election slander on the head, in the following paragraph:—"A statement is going the round of the Norway organs that Sheriff Clarke, of Algoma, has been prevented from acting as Returning Officer in the approaching election, in order that a partisan of the Government may, for some sinister purpose, be put in his place.

A CORRESPONDENT, signing himself "Veritas," in another column makes a correction concerning the item recording the death of Mary Ann Buckley, which appeared in our issue of last week.

HON. DAVID MILLS, the able editor of the London Advertiser, is just now the target of every Tory slang-whanger in the Province. Mr. Mills has brought to the editorial calling a large fund of varied information, and his vigorous and timely articles on the political situation are unpalatable to the Conservatives.

THE Times wants the people of Wingham to take advantage of the breaking of the dams by the recent freshets to clean out the old millponds of garbage and refuse, in the sanitary interest of the town.

TREATING BY CANDIDATES.

That portion of Justice Patterson's judgment in the Muskoka election case relating to treating should be pondered by every political candidate.

An attempt was made to bring the case within the doctrine held in some cases in our courts, when, upon the question whether a particular instance of treating was or was not corrupt, weight was given to the fact that the custom of treating was very general, and only a token of good fellowship, and that the person charged habitually treated persons whom he met at taverns.

POLITICAL NOTES.

The Queen's Bench Division will sit on Saturday next to give judgment on the West Northumberland election case.

One of the Dominion Government employees in Huron is, we regret to state, delicate health, and already the Tory office-seekers are putting forth claims for the prospective vacancy.

JOHN SHIELDS, of Section B, notoriety, is at present a fugitive from justice at Rat Portage, on account of his efforts to debase the Muskoka electorate last spring.

NOTICE has been given in the South Essex election case that the petitioner against the return of Mr. Balfour, will withdraw the protest and pay all costs.

THOMAS GIBSON, M. P., for East Huron is not losing flesh by fretting about the result of the petition against his return in East Huron.

ON Saturday last an application was made by the petitioner in the Monk election case to withdraw. This was consented to, and the case was dismissed with costs against the petitioner.

THE Tory "big trunk" pack are now in full cry throughout Algoma, and the Mail, although aware of the fact, is preaching the gospel of electoral purity.

WE don't hear any further remarks from our Tory county contemporaries to the effect that "Cameron must go."

MR. JAMES BETHUNE, Q. C., on Monday last, on behalf of the petitioner, Mr. Bettes, made application for summonses to be issued to show cause why Shields, Roddy Pringle, "Gum Swamp" Anderson, "Big Push" Wilkinson, Capt. Kirwin, and others should not be disqualified.

MONDAY last judgment was given at Osgoode hall by Justices Patterson and Ferguson on the petition of Mr. Bettes, for the disqualification of Mr. Fauquier, the respondent in the Muskoka election case.

THE Big Trunk full of Liquor. Any one who took the trouble to read through the long report of the first day's hearing of the Muskoka election petition knows what the result promises to be.

What makes the whole matter worse is the certainty that the funds administered with such glaring corruption (in Muskoka) were supplied directly by the Dominion Government, or at their instance, a state of affairs which cannot be too severely condemned.

NIAGARA FALLS, Sept. 3.—At Niagara Falls Saturday afternoon Horace Davenport, of Surbiton, England, started from the foot of the inclined railway in Prospect Park to indulge in a swim across the river.

OUR TOWN FATHERS.

The regular meeting of the town council was held on Friday evening last.

THE TREASURER'S STATEMENT for the month of August showed Receipts \$1,029.29 and Expenditures 1,132.75.

THE SEXTON'S REPORT showed that four adults had been interred since last report. Filed.

THE STREET INSPECTOR'S REPORT showed that the sundry expenses since June 29th had been \$439.08, for public works, \$650.95, and for street watering, \$72.75.

ACCOUNTS.—A number of accounts were read and referred to printing committee.

RELIEF.—Councillor Elliott reported that he had given relief to Hugh Ross, in St. David's ward, being a case requiring immediate attention, and that for a short time yet relief would be required.

THE FINANCE COMMITTEE reported as follows: (1) That at present no action be taken respecting Mr. A. McD. Allan's communication (on canneries), but that it lay over for future consideration.

THE RAILWAY QUESTION.—Moved by J. H. Colborne, that the clerk communicate with the council of Wingham, in reference to the extension of the T. G. & B. R. (now leased by C. V. R.)

THE FUND FOR CORRUPTION.—What makes the whole matter worse is the certainty that the funds administered with such glaring corruption (in Muskoka) were supplied directly by the Dominion Government, or at their instance, a state of affairs which cannot be too severely condemned.

Another Presentation.—During the trip across from Saginaw a party of gentlemen consisting of James Doyle, J. J. Doyle and M. Nicholson, of Goderich, and G. J. Kidd, of Dublin, presented Capt. McGregor with a mariner's compass in a gold setting, surmounted with an anchor and the figure of a sailor.

COMMUNICATIONS.

We do not hold ourselves responsible for the opinions of our Correspondents. Contributors to this department must confine themselves to public questions, and be brief.

ASHFIELD, Sept. 3, 1883. To the Editors of The Huron Signal.

SIR,—In your last issue you make the following statement:—"Mary Ann Buckley, on Wednesday evening, Aug. 15, went for a pail of water, which she had to haul out of a well with a rope, on account of a defective pump, and is supposed to have fallen in."

Desiring to be as brief as possible in contradicting this statement, I have to state that Mary Ann Buckley on the evening referred to did not go to the well for the purpose of drawing a pail of water therefrom, but she did go to the well for the purpose of drawing a pail of water therefrom.

Now, for further information your attention is respectfully drawn to the following taken from a Clinton newspaper, which is acknowledged as a truthful statement of the facts in the case:

"A girl named Buckley, aged about 26, employed at the Rev. Father Beaussant's, was missed on Wednesday last. Search was made, and she was found in a well 26 feet deep, with 20 feet of water. She was taken from the well by Mr. Hussey. He was passing when the alarm was given, and took the lines of his horses and drew the body from the well.

There can be no doubt that she suicided while laboring under mental aberration. An inquest was not considered necessary. The funeral took place on Friday."

IN conclusion, trusting to your sense of justice and fair play, you will please insert this communication in rebuttal of the above statements, no doubt unwittingly admitted into your columns of last week.

CLINTON LOCAL EXCHANGES.—Clinton curlers and skaters are taking steps to establish a good rink in the junction town.

THE Blyth Review denounces Haylo & Jenney, of Day-st., New York, as "dead beats of the worst kind."

THE Brussels Post took holidays last week, and the natives of the village had to depend upon outside literature.

JOHN WILFORD has sold his farm on the town line, three miles east of Blyth, to J. Coulter, for the sum of \$8,100.

CLINTON LODGE I. O. G. T., No. 705 will hold an entertainment in the temperance hall of that town this evening, Sept. 7.

REV. P. J. SHEA, of Seaford, will deliver one of his instructive lectures in the R. C. church, Blyth, on Sunday, Sept. 16.

A FEW days ago T. Carter, of the 9th con., Goderich township, split 1,000 cedar rails and cut 100 posts, the rails averaging four inches in diameter, on the farm of J. B. Currie, 7th con.

THE team from the 33rd or Huron Battalion consisting of Messrs. Charles Alexander, J. A. Wilson, Malcolm Munroe and Alex. Love, of Seaford, and N. Robson, of Clinton, have succeeded in winning the Ladies' Challenge Cup and \$50 in cash, being the 1st prize in the team competitions at the Ontario Rifle Association's match at Toronto last week.

A CHANCE WORD.

Myra Sydney was sitting in the window of her little parlor watching the slow rising of a storm over the opposite sky.

Many an autumn sun had she watched from her front windows; many a soft spring rain and whirling snow storm.

The room in which Myra Sydney sat expressed its owner's tastes, whether meant to do as a parlor, in no respect of size or color.

There was something wistful in the face, which touched Myra Sydney. "It will be time wasted, I dare say," she said to herself.

Everything had a use. No trifles yielded for unwary guests in the shape of minute tables, Queen Anne or otherwise, laden with trumpery bric-a-brac.

The clock struck seven. The black cloud had crept to the zenith, and now a strong gust of wind swept from beneath it.

"It's two girls with a parcel, Miss Myra," said Esther, the parlor-maid.

Miss Sydney went out into her little entry. The girls, about the same age, wore of the unmistakable shop girl type.

"Yes'm. My snow said he wasn't sure which of the under-waists it was you took so he sent both kinds, and you will try them on, please?"

"Certainly. Are you to wait for 'em?"

Miss Sydney made what haste she could, but before she returned the rain was falling in torrents.

"She has," replied one of the girls, with an embarrassed giggle. "I'm pretty near by, and the horse car runs right in front of the door."

Miss Sydney glanced at the shoes—cheap, paper-soled boots, with a dusty velvet bow sewed on the toe of each, and the too, concluded that by all means, "Come in here, please."

The girl thrust the velvet bowed shoes which gasped for lack of buttons, out to the fire, and, half from embarrassment, held up a hand to shade her face.

"To be sure I do. You look surprised. Ah, you think that because I have a little home of my own, and live in a pretty room, I must be a lady with nothing to do."

"I wish you'd tell me how you do, ma'am."

"I will, though I'm not in the habit of talking quite so freely about my affairs, but I'll tell you, because it may give you an idea of how to manage better for yourself. In the first place I

kept to two or three colors. I have a black gown or two, and an olive brown, and this yellowish green that you see, and some lighter ones, white or pale yellow. Now, with any one of these the same bonnet will do.

"Why, yes, it does seem so," said Cary, drawing a long breath. "I'd like to do something different myself, but I don't suppose I'd know how."

"No'm, I'd thank you."

"That's what mother used to say. And Mark, he always liked me best in a white bib apron. To be sure he never saw me in city clothes," she stopped, blushing.

"I think in his place I should prefer you to be different," said Miss Sydney, decidedly.

"Yes, I suppose it is," admitted Cary. "Well, then, I must tell you the plain truth; you utterly fail in your attempt. No one would mistake a girl, dressed as you are at the moment, for a lady; nobody!"

"How nice!" she said, with a sigh of satisfaction. Her heart opened under the unthought kindness and comfort, and Miss Sydney had little difficulty in learning what she wished to know.

"Can you lay up anything out of that?" asked Miss Sydney.

"No, ma'am, not a cent; at least, I don't. There are some girls in the store that do, but they've got sick friends to save for."

"I must be going now, ma'am. You've been ever so good to let me stay. I shan't forget it, and—I guess you're about right."

"I wonder if I said the right thing, or have done the least good?" queried Miss Sydney, as she watched her guest depart.

It was some weeks before she had occasion again to visit Snow & Asher's, and she had half forgotten the little incident, when one day, entering the shop in quest of something, her attention was attracted by a face which beamed with sudden smiles at the sight of her.

"Do you work, ma'am?"

"I know some people have a fancy for them, and they are very pretty sometimes. But don't you see that they must cost a great deal of money, and that working people, you and myself, for instance, ought to manage more carefully?"

"I will, though I'm not in the habit of talking quite so freely about my affairs, but I'll tell you, because it may give you an idea of how to manage better for yourself. In the first place I

got herself an apron like hers. Miss Sydney left the shop with a pleasant amusement at her heart. She meant to go often, to keep a little hold on Cary, but circumstances, took her off to Florida, soon afterward, and it was late in April when she returned.

"That girl from Snow & Asher's was here to see you about a week ago, ma'am," said Esther, the evening after her arrival.

"Cary indeed it was, with a steady, manly-looking young fellow by her side."

"You are going to be married?"

"Yes—with a happy look—to-morrow morning. And oh, Miss Sydney, what do you think Mark says? He says if he'd found me looking like the rest of the girls at the store, with false hair, and jewelry and all that, he'd never in the world have asked me at all. And I did just look like that, you know. It was what you said that rainy night that made me change, and except for that nothing would have happened that has, and I shouldn't be the girl I am."

"Broad on the waters," thought Myra, as a little later she watched the lovers walk down the street. "Such a little crumb, and such wide waters, and yet it has come back! How impossible it seems, or would seem, if one did not have to believe that what we call chances and accidents, are God's opportunities, by which He allows us to lend a helping hand in His work, not quite understanding what we do, but knowing that guided by Him the smallest things end sometimes in great results."—[Sarah Coolidge in the Congregationalist.]

The great secret of beauty lies not in the enamellers or the tonsorial art, but it depends upon good health, a fair bright complexion, rendered so by pure blood. Burdock Blood Bitters purify the blood, cure Scrofula and all diseases of the Blood, Liver and Kidneys. 25-1000 bottles were sold during the last three months.

For horses that are troubled with the scratches Dr. Dow's Sturgeon Oil Liniment proves a sure cure, as witness the following: "Last April, during the wet season, both my horses were terribly bad with scratches. They were both quite lame and gradually growing worse. I tried various horse remedies but all of no avail, until a friend recommended Dr. Dow's Sturgeon Oil Liniment. I bought a bottle and my horses were well in two days. I never saw its equal for horse flesh."

Improvements have been made at the sawmill in the water supply, and the engineer is thinking of organizing a fire company to work the hose.  
Pettibonester Bean called out his beat last week. Mr. Finland's team took the shine out of all the others. A further grant for the hill work is desired from the council.

Right of way for road traffic has been purchased during the time the Tay bridge here is building. The road commissioners held a friendly pow-wow here last week, and took the work under their control.

**Auburn.**  
**CHURCH NOTES.**—An addition of about seventy volumes has recently been added to the Presbyterian Sabbath school library. Services are now held each alternate Sabbath evening in the church of England, Rev. J. Parke, of Blyth, officiating. A special collection was taken up at the Methodist church on Sabbath evening, the amount collected being sent to the London sufferers.—Rev. Dr. Ure is expected to preach in the Presbyterian church next Sabbath.

A great deal of dissatisfaction is still felt regarding the mail change, no notice apparently has been taken of the petition sent to the Post-master General two months ago.

Some of the farmers in this vicinity have threshed their fall wheat. The yield is very unsatisfactory and the sample very poor. A grist was taken to the mill some days ago, consisting of six bushels by measure. When weighed, it was found that by weight there were only four and a half bushels.

Workmen are at work repairing the injuries made to the mill dam, by the floods of two weeks ago.

**Leoburn.**  
Miss Jane Lang, a former resident, was visiting old friends here last week.  
Miss Hume, of Lucknow, is the guest of Mrs. R. E. Brown.

A sewing bee at R. E. Brown's was attended by a score of maidens on the 28th ult. In the evening, some of the opposite sex put in an appearance, and a happy time was spent. On motion of P. Stewart, seconded by R. Burke, Joe Maywood, of Dunlop, was called to preside over a game of forfeits. Some of the penalties were heavy, but all were merry. The Misses Foley, Carnegie, Bogie and others sang acceptably during the evening. The pleasant party broke up about 11 o'clock.

**PEA-CUTTING CHAMPIONS.**—W. Frazer and John Chisholm, of Butternut Row, were a little excited upon reading in THE SIGNAL last week the pea-cutting feat of the Kintail boys. The young men above named say that they have beaten the Kintail record by 25 minutes, and authorized THE SIGNAL to challenge J. and R. McKenzie to come down to Hugh Chisholm's, Lake Farm, to test their muscle at cutting and binding five acres of oats on time for a stake of not less than \$10, the match to take place within ten days of the publishing of this challenge. Fred Horton, of the Exchange hotel, Dunlop, to be umpire for the Leoburn lads.

**THE JAVA HORROR.**  
British Indian Agent Sent to Investigate and Report—Straits of Volcanic Storm in the Sea at Sumatra.

(CONTINUED FROM PAGE 2.)  
LONDON, Sept. 1.—Dispatches from Batavia report that fears of further eruptions in Java have subsided, and all efforts are now concentrated on the burial of the corpses, which thickly strew the coast. The acids of vapors issuing from fissures in the divided mountains have caused unusually rapid decomposition. There are exposed parts of great rocks at the summits of seven peaks. A number of them split apart suddenly on Wednesday, releasing many tons of depending earth. This caused several huge landslides, which carried destruction and death on the edge of the town of Narra. Fifteen Chinese in that section of the Sanitary Corps were buried. A vessel which attempted to enter the Straits of Sunda on Wednesday, had a hole stove in her bow.  
So serious are the changes in the coast, and the entire formation of the Straits of Sunda, that the British Government and the Lloyd's yesterday evening telegraphed from London to all foreign points warning vessels that navigation of these waters had become exceedingly dangerous.

WASHINGTON, Sept. 1.—The United States ships Junia and Enterprise, now at Singapore, have been ordered to the Straits of Sunda to examine into the condition of affairs there.  
AMSTERDAM, Sept. 3.—It is believed that 100,000 persons perished in North Bousam in the recent calamity. It is also believed that the garrison and fort at Anjier were swept away. An extensive plain of volcanic stone has formed in the sea near Lompang, Sumatra, preventing communication with Tokobelong and the south-west of Java.

THE HAGUE, Sept. 3.—The Governor-General of British India has sent two agents to Bantam to ascertain the extent of the calamity in Java and the neighboring islands. Ships have been sent to warn vessels approaching the Strait of Sunda of the danger of navigation. A committee, with the Prince of Orange at its head, has been formed here to collect subscriptions toward the relief of the sufferers by the calamity.  
The row Duke of Marlboro' has been disgraced by the Queen, who declined to receive the insignia of the garter belonging to his father from his hands.

**THE WORLD OVER.**

A chicken plague is raging in the vicinity of St. Catharines.  
Uxbridge has voted \$5,000 debentures to buy land to erect a market building.

Rev. T. S. McCall, Baptist minister of Paisley, has accepted a position as teacher in the university, at Nashville, Tennessee.

John Minihinnich is charged in London East with damaging his wife's property. He threw a cat on the table and broke the dishes.

Residents of Pittsburg, near Kingston, state that on Thursday night they felt two earthquake shocks.

An independent volunteer fire brigade in opposition to the corporation brigade, is being formed in Kingston.

The plate on De Chambord's coffin is inscribed: "Henry Fifth, by the grace of God, King of France and Navarre."

Government Engineer Gray has handed a report into the public works department recommending that a breakwater be erected at Port Arthur 5,200 feet long at a distance of 2,700 feet from the shore.

The Hamilton Tribune makes a good point in calling the attention of the Conservative press to the fact that John Shields, of section B, notoriety is a fugitive from justice. It is a fact there is no disputing.

Prof. Tanner, of the Kensington Art Department and Agricultural Institute, London, England, on Monday paid a visit to the Agricultural College and Experimental Farm at Guelph, and expressed himself much pleased with what he saw.

A contract has been made by the Dominion Salvage and Wrecking Company to get the steamer Brantford City off the rocks near Lockport, Shelburne, and bring her to Halifax for \$40,000. The company will also get forty per cent. of the value of what caroes they save.

The remains of a new-born child were found on a by-street at Kincardine, Thursday. The child was fully dressed, and in addition had a small parcel of clothing attached to its person. An inquest held was not successful in clearing up the mystery as to the child's death and parentage.

Rev. Mr. Hooper and wife, of Kingston, were upset out of a rowboat. Mr. Hooper caught and held his wife until she was taken out of the water and then swam twenty-five feet after the boat, which contained his little boy. Spectators spoke very highly of the clergyman's courage and expert swimming.

CONTRACT.—The travelling public will rejoice to learn that the road lying between Blyth and Wingham is to be gravelled. The contract for the work was let in the village of Belgrave last Friday afternoon. The gravelling is much needed as the road is without exception one of the worst in Canada.

A WARNING TO POT HUNTERS.—David Johns and John Taylor, of Exeter, were summoned by the Lambton Game Inspector to appear before Squire Carnell at Theford on Saturday last for shooting ducks on the 14th day of August. They paid fine and costs amounting to \$32, for shooting a day or two ahead of time.

A large wheel running in Holmes, Moore & Courtwright's sawmill, Inwood, Elgin county, broke in several pieces a day or two ago. One piece struck S. Deemer on the arm, breaking the bone below the elbow. Another struck J. Ray on the back, injuring him seriously.

A good many men are employed in the mill where the accident occurred, and all of them had a narrow escape from being killed.

F. Welsh, champion swimmer of Ohio, defeated Capt. Williams, of Montreal, in a one and a half mile swim at Cincinnati Tuesday last. Welsh, who has only one foot, beat Williams about one minute, and was fresh when he ended, whereas Williams is said to have been completely pumped out. The match was for \$50 a side.

A colored man arrested at Chatham, Ont., yesterday had the following articles in his possession, supposed to have been stolen:—An 18k chased gold ring, a 14k plain gold ring, a three stone opal gold ring, a lady's gold watch, made by Russell & son, an old-fashioned lady's gold chain, a round gold and coral brooch, a gentleman's gold seal, a gold stud, enamelled, a pair of jet and gold bracelets, a round jet brooch, a plated pencil case, and a gold key.

"His Usefulness is Gone."  
The Conservative party in Ontario has sustained a certain loss by the extinction Judge Hughes as a leader or former of public opinion. Graciously and without cause he extinguished himself; nobody else did it, the case is one of suicide of a certain sort. The people of this country will not be guided in matters of opinion by any who maintain the legal right of a husband to beat his wife. Since he has posed before the public as champion of that doctrine "his usefulness is gone" as a teacher of the people. His exposures of abuses connected with the working of the Crooks act in the county of Elgin were not without influence on the public, but now he has done the Ontario Government a favor by extinguishing himself and his influence together. In matters of public controversy he is now "a dead cock in the pit," if we may be so irreverent as to speak thus of a learned judge.—[Toronto World.]

**A \$15,000 Fire at Brussels.**  
BRUSSELS, Ont., Aug. 31.—The flour and saw mills owned by W. F. Vanstone of this place were destroyed by fire this morning at 3 o'clock. The fire originated in the engine room, adjoining the three-storey flouring mill and quickly spread. In less than two hours both flour and saw mill were burnt to the ground. The flour mill and a number of stacks of flax belonging to J. & J. Livingston narrowly escaped being burnt. They were saved by the prompt action of the fire company and the people. Mr. Vanstone's loss on the flour and saw mills and contents is \$15,000, insured as follows: Western for \$2000; Northern, of Montreal, \$5000; Gore District \$1000.

Daniel Curran, a young farmer, from Glenhuron, put up at the Beaver House Toronto, on Friday night, and, on the door of his bedroom being forced open next morning, he was found lying on the bed unconscious. It took a couple of hours to bring him round, and the first words he uttered were, "Well, I blew out the gas all right last night, and there must have been a leak somewhere."
