A GREAT GAME OF GRAB.

DEPUTATIONS AT OCTAWA AFTER

Why Was Mr. Monsseau Made a Judge ?— A Mo'don for Information Rejected— Gre re Charges Unrefuted. Special Despatch to The World.

OTTAWA, Feb. 6.-The house sat till 6 te-night. Most of the time was occupied in the discussion of the following motion by Mr. Laurier, seconded by Mr. Blake, tor a copy of the petition contesting the election of Mr. Mousseau in 1882 to the legislative assembly of Quebec for the electoral district of Jacques Cartier, and How He was Caught in the Meshes of the the particulars delivered in connection

In a neat speech Mr. Laurier pointed out the notorious facts connected with Mr. Mousser n's election dodges in Quebec and the "Levee," where Cronson has been stron by censured the government for appointing him to the bench with such a past. It is claimed by some of his friends oud of suspicion hanging over him. In that he has been disposing of diamonds

The motion being put, loud cries arose of "carried," "lost."

Mr. Blake demanded the yeas and nays. The members were called in, when a straight party division occurred, 47 voting yea and 89 nay.

The following bills were introduced and reed a first time: An act to incorporate the Dry-dock company of Owen Sound—Mr. Allan; an act respecting the Ontario and Quebec railway company—Mr. Wells; a bill giving power to wind up the affairs of the Spring Hill and Casgrain coal company—Mr. Tupper, jr.; an act incorporating the Atlantic Mutual marine insurance company—Mr. Daly; an act respecting the ing the Atlantic Mutual marine insurance company—Mr. Daly; an act respecting the International railway company—Mr. Hall; an act incorporating the Nova Scotia and Mutual marine insurance company—Mr. Daly; a bill to amend the charter of the Bell telephone company in Canada—Mr. Cameron (Victoria); an act to amend the consolidated railway act of 1879.

Mr. Norquay, accompanied by the Manitoba members and members of the legislature in Manitoba new in town, waited on Sir John this morning to urge the claims of Manitoba. When Mr. Norquay proposed that the government should hand over the government should hand over the public lands to Manitoba, Sir John purse of \$2000.

said so much had been given the Canadian Pacific railway and to assist other railways that it was scarcely worth while handing over the balance. Mr. Norquay then said Manitoba would demand a cash remuneration for the lands. At this Sir John became infuriated, and dashing Norquay's manifesto, which he held in his hand, on the floor, stamped on it and fussed about the office, excitedly exclaiming that it was dishonest to make such a demand. He told Mr. Norquay that he had already broken faith with the government, for he had promised last year when he obtained \$45,000 from the government in lieu of the lands not to come back for three years. Some rather high words ensued, but Senator Sutherland poured oil on the troubled waters and Sir John cooled down.

A DIAMOND EMBEZZIER'S DOINGS.

A DIAMOND EMBEZZLER'S DOINGS.

Police.
CHICAGO, Feb. 5. -The arrest in this city of Leon Cronson, the diamond embezzler, has caused a buzz of excitement along poir ating him to the bench with such a c' oud of suspicion hanging over him. In the opinion of thousands of Canadians Mr. Mousseau was hardly entitled to citizenship let alone a seat on the bench. It was scandalous to appoint him before he was declared innocent of the very grave charges against him. He was charged with promising to return liquor to certaint saloon keepers convicted of selling without a license. If innocent, as the government and its followers claimed, what was the necessity to have appointed him? Mr. Laurier read extensively from the Montreal Star in corrobation of his charges.

Mr. Ouimet and Sir Mector Langevin defended Mr. Mousseau and charged Mr. Laurier with unfairness in not presenting the house with the exact state of the case.

The motion being put, loud cries arose of "carried," "lost."

Mr. Blake demanded the yeas and nays. The members were called in, when a straight party division occurred, 47 voting yea and 89 nay.

The following bills were introduced and reed a first time: An act to incorporate that of the land until, through that the alone disposing of diamonds that he has been disposing of diamonds that he has been disposing of diamonds that he has been disposing of diamonds every day and spending the money in different places as fast as he got it. His liberality drew about him a host of alleged friends, who stuck to him as close as possible, until lone of their number, whose name is given as Julius Edwin, sold him out to the New York detectives for \$5000. Edwin became cognizant of the fact that Cronson was the same man who embezzled \$30,000 worth of Goldsmith & Kuhn's diamonds, and caused that firm's failure. He communicated his knowledge to the New York detective force, and agreed to turn Cronson over for \$5000. It is alleged that the amount was paid to him, It is also claimed that Cronson disposed of his diamonds without regard to time or place, and the names of several prominent saloon. We was rife. It is said that he disposed of rare gens at astonishingly low figures, merel tinue his debauch. Granary Burying Ground at Boston. Boston, Feb. 6.—The funeral services over the remains of Wendell Phillips were held to-day. The church was crowded, thousands being unable to gain an admit-tance. Committees from the legislature, the common council, woman suffrage associations, labor organizations, temperance societies, Irish societies, freethinkers' asso-ciation, American free soil society, young men's congress and many reform organiza-tions with which Phillips was identified were present. Theservices were conducted by the Rev. Samuel Longfellow. The body was taken to Fancuil hall, where it lies in

ness about a hundred miles north of the Ottawa river.

The government immigration returns for January show a large falling off compared with figures for the same month last year. The total number arriving for the month is said to have been 5266, against 5930 in January, 1883. Of last month's arrivals 2982 remained in Canada, compared with 3357 in the same month last year.

A number of members' seats are vacant, their usual occupants having gone by special train this afternoon to attend the Montreal carnival. After the public had viewed the remains a cast of the head was taken at the request of the family. The casket was then borne to the Old Granary burying ground and placed in the family tomb, which is near the graves of John Hancock, Samuel Adams and Crispus Altocks. curred yesterday afternoon. Mr. McVittie has been for years well and favorably known in connectien with the cartage business of Messrs. Wm. Hendrie & Co., having been some years ago raised from the position of driver to that of foreman. He has always discharged his duties in a manner highly satisfactory to his employers, and he was the last man whom any one would suspect of such rascality as is now laid to his charge.

Yesterday morning McVittie entered upon his duties as usual, and worked up to 12 o'clock. Before going to dinner he informed Mr. Thos. McBride, the superintendent, that there was a meeting of Wentworth county orange lodge in the afternoon which, from his connection with the order, it would be imperative for him to attend. He said he would only be away an hour, and of course was given leave of absence. While the doctor was in attendance upon his sick child and wife he sneaked into his house and carried off the best of his wearing apparel, and a hack with his trunk on board was subsequently seen going in the direction of the railway station. It is needless to say that McVittie did not pay a visit to the county lodge during the afternoon, and its members, after waiting for him for some time, proceeded with their business in his absence. He was a prominent orangeman. He was county master until yesterday; he was past district master; he was treasurer of Hamilton benefit loyal orange lodge No. 286, and at the last audit of this institution (Dec. 31, 1883) there was in his hands \$575 of lodge funds. This money he has stolen, besides the dues from members which have been paid in since that date. Every year the grand lodge sends \$40 to the county master to be handed to the Protestant orphans' aslyum of this city. It is alleged that McVittie received the money and failed to hand it over to the poor little ones it was intended to assist. The members of the orange order in the city naturally enough feel very sore about the matter, as they had unbounded confidence in his integrity.

The heartless desertion of

Thompson, the occupants of McGarvey's old stand. The two stores fronting on Broadway, the warehouse, stables and sheds were speedily consumed. A small quantity of goods was saved and nearly all the household furniture that was got out of the second story was very badly damaged. No fire or light had been used for some hours near the place where the fire appears to have originated. The firm have been but three months in business and a few weeks ago met with considerable loss and inconvenience by the ceiling of a room up-stairs taking fire from a defective chimney. The loss will be between \$15,000 and \$20,000, but will be pretty well covered by insurance.

The Times, commenting upon the situation in the Soudan, says that the repeated disasters arising from the cowardice and defection of the Egyptian troops prove incontestibly that the government must use English troops principally if it expects to preserve the Red sea ports and the control of the Nile to Khartoum.

The Standard has a despatch announcing that its correspondent, Mr. Cameron, who accompanied Baker's expedition, has escaped in safety.

Baker Pasha has telegraphed that the force by which he way attacked was less than 1000 strong, but the Egyptians threw away their arms and fled.

According to later reports giving details of the fight near Tokar, the Egyptian cavalry threw away their saidles and turned their horses loose, effecting a retreat on foot that they might not be sent back to fight again. Earl Derby in a speech to night said the government would not engage the honor and resources of England in the task of recovering the Soudan. The government had no intention of converting the occupation of Egypt into annexation.

These sands get their name from a peculiar sound resembling somewhat the barking of a dog which they give forth when walked upon and disturbed in any way. Already twenty-six samples of this sand have been received, indicating their existence in as many different localities in this country. Heretofore "singing" beaches have only been known to exist in two places—one in this country and the other in Europe.

Big Suit Against the Grand Trunk. MILWAUKEE, Feb. 6 .- The case of the Northern Transit company v. the Grand Trunk railway company of Canada, in a Trunk railway company of Canada, in a suit for \$300,000 damages, is before the United States courts here. The damages claimed are said to have been suffered by plaintiffs through a failure of defendant company to promptly handle freight in accordance with certain traffic agreements between the two companies. In their answer the defendants claim \$50,000 on their part. The case was tried in the same swer the defendants claim \$50,000 on their part. The case was tried in the same court here two years ago, when plaintiffs were given damages to the amount of \$114,000.

STREETSVILLE, Feb. 6 .- Thomas Gill, ontractor for carrying the mails between here and the Credit Valley railway station, was instantly killed at the latter place this evening. It is supposed that he slipped off the platform under the engine which passed over him. Death was instantaneous.

The speaker ruled the amendment out of order. Lord Churchill moved that the house adjourn for the purpose of calling attention to urgent public business. All the conservatives rose in support of the motion. Great excitement prevailed.

Mr. Harry Chaplin seconded the motion, and violently attacked the government.

Sir Stafford Northcote declared that the abrupt termination of the debate was conduct unworthy of the government.

Parnell has announced his intention of moving an amendment to the address in reply, to the queen's speech in reference to the recent conduct of the government's policy in Ireland. The tendency, he says, has not been to tranquillize the people. He especially deplores the wanton prohibition of legal and constitutional meetings, whereby free speech has been practically

Mr. Gladstone stated in the house of commons to day that Admiral Hewett had decided to strengthen the forts at Suakim, and the government had taken measures to increase his forces to insure the safety

the number being one calling for a return containing all particulars in regard to mining lands in his constituency. He complained that the local government had, after several individuals had gone to much expense in prospecting for iron mines, allotted the claims to persons whom they styled previous applicants. Mr. Pardee stated that there was nothing in the complaint worthy of notice and promised all the returns with one exception.

Mr. Mowat brought down a despatch from the lieut. governor transmitting the interim estimates for \$232,000, being the mount required for carrying on the various departments of the government until the regular estimates shall have been passed. He also moved the sponitment of a committee to strike the standing committees and a committee to assist Mr. Speaker in the control and maintenance of the library. Mr. Meredith enquired of the treasurer as to when the public acts would be laid on the table, which elicited from the latter gentleman a reply that they would be brought down as soon as possible, and probably in the coming week.

New Parliament Buildings.

The parliament buildings are in a wors state now than ever. They are unwhole some, leaky, musty, ill-lighted, costly to heat and illuminate. Those who have to work there justly regard them as a pest house. Valuable records, documents, and the library are liable to be destroyed by fire any day. Yet what is the government loing to provide new ones? Apparently nothing. Mr. Gibson, the member for Hamilton, in his speech the other day denounced the present barracks and came out strongly in favor of new buildings, and city of the civilized world to buy its pro- an innocent man, to the gallows?

There is no doubt that the old piace is wholly unsuited to the needs of the province. It is unhealthy, dark, too small, and in a poor state of preservation. There is a large surplus in the treasury, and the revenue is greatly in excess of the legitimate needs of the government, although the surplus has been fargely reduced during the past few years. If Mr. Mowat is the man for the place he fills he will go on with the work. We think a suitable building ought to be erected for half a million; if it cannot, let a million be spent. We are told that laboring men are out of employment. Well, the expenditure of even half a million will find work for a good many of them. If half a million is enough for the purpose, he is wrong in not putting up a building to cost that sum. If it is not enough, he is wrong in not asking for a sufficient sum. The man who knows what is wanted and dare not go on with it for fear of opposition criticism is not fit to be premier of Ontario.

Mr. Mowat is too timid in dealing with this question. The province would support him in putting up suitable buildings, and he need have no doubt of that. Ontario is not so careless of the comfort of her servants as to seek to put them in danger, or of her documents and records as to have them in constant dread of fire.

Send Upper Canada college to the park (not the legislative buildings), turn the college block into Parliament Square, and on it erect a structure worthy of the people of Ontario. And let the work be commenced this session.

The stocks in Scotland and Cleveland amounted to 780,000 tons at the beginning of 1878, and we shall commence 1884 with about 1,075,000 in those two districts. The furnaces in blast in those two districts were 192 on January 1, 1878, and there are now blowing about 220. America, our largest buyer, is powerless to resist the depression in her own markets, nuch less to assist us even with a reduced tariff. Our shipbuilding department (latterly one of the mainstays in our home trade) is on the eve of comparative depression, in the place of unparalleled activity. Many of the yards are now working

on their last ships, and there is little prospect of fresh work while the freight narket remains in the present unremuner-

Two conspicuous men—Bennett of the New York Herald and Bonanza MacKayhave joined together in the Atlantic cable business, in opposition to the cable monopolists who have so far controlled it. It having been rumored that they had no intention of laying any new cables at all, but only of getting the old companies to buy them off, Mr. MacKay writes to the London Times saying that they man business, and will certainly do as announced. Two cables have been ordered from the Messra. Siemens; the laying of the first is to be commenced immediately, and both will be laid and ready for work ere the ensuing summer be over. "criminals." Less than one-half of them, however, crossed the Ural in accordance with the sentences of the courts. The others were thrown into Siberia without others were thrown into Siberia without having seen any judges, by simple order of the administrative, or in accordance with resolutions taken by their communes—nearly always under the pressure of the omnipotent local authorities. Out of the 151,184 exiles who crossed the Ural during the years 1867 to 1876, no less than 78,676 belonged to the last category. The remaining were condemned. Fred. Arch a, the famous English jockey, is 27 years of age. He has been earning his living in the saddle fourteen years, having scored his first success with Athol Daisy in 1870. 151, 184 exiles who crossed the Ural during the years 1867 to 1876, no less than 78,676 belonged to the last category. The remaining were condemned by courts; 18,582 to hard labor, and 54,316 to be settled in Siberia, mostly for life, with or without loss of all their civil rights.

Twenty years ago the exiles traversed on foot all the distance between Moscow and the place to which they were dispatched. They had thus to walk something like 4,700 miles in order to reach the hard labor colonies of Transbaikalia, and 5200 miles to reach Yakutsk. Nearly a two years' walk for the former and two years and a half for the second. Some amelioration has been introduced since. After having been gathered from all parts of Russia at Moscow or at Nijne-Novgorod they are transported now by a steamer to Perm, by rail to Ekaterinburg, in carriages to Tumen, and again by steamer to Tomsk. Thus, according to a recent English book 2a exile in Siberia, they have to walk "only the distance beyond Tomsk." In plain figures, this trifling distance means 2065 miles to Kara, something like a nine months' foot journey. It the prisoner be sent to Yakutsk he has "only" 2940 miles to walk, and the Russian government having discovered that Yakutsk is a place still too near St. Petersburg, are sending them now to Verkhoyansk and Nijni Kolynisk (in the neighborhood of Nordensk jold's wintering station), and a distance of 1500 miles must be added to the former "trifling" distance, and we have again the magic figure of 4500 miles—or two years' walk—reconstituted in full.—Prince Krapotkine in Nineteenth Century. Dr. Hedgson's b. g. Charlie, in the 2.45 class, is the only representative of Toronto at the Montreal carnival trotting races. The six events have, however, filled well, the three minute having twelve entries and the 2.45 fifteen. At Montreal, Feb. 5, the Merchants Cup snowshoe contest, two miles, was won by Mr. J. G. Ross, M. S. S. C. in 13 minutes 8 sec. Mr. Ross is a brother of the sporting editor of the Mail and of the amateur champion bicyclist. amateur champion bicyclist.

The popularity of athletic exercise is said to be rapidly spreading among the young ladies of New York. Anything that will strengthen women so that they can carry up coal and shovel the snow off the pavement ought to be encouraged.

The latest story of Lucas, of the St. Louis Union baseball club, is that he offered a well-known league pitcher \$25,000 to sign a three-years' contract. "Prew!" Lucas must want a good pitcher by d. He ought to be able to get half a dozen for that large sum.

The New Jersey society for the prevention of cruelty to animals has resolved to tak the grand jury of Camden county for the indictment of twenty residents of Williamstown. It appears that a party of alleged fox hunters took a fox from a trap in which one of its legs had been broken. It refused to run, although it was kicked, and it was allowed to see the hounds. The injured leg was cut off and How to Make a Will. was kicked, and it was allowed to see the hounds. The injured leg was cut off and then another attempt was made to get it to run, but it would not stir. Next kerosene oil was poured over it, and then its tail was cut off. When the human brutes saw that it could not be made to give the dogs a run they allowed the dogs to tear it to places. A will to be valid does not require to b long. * WHAT * IS * CATARRH ? *

[From the Terente (Canada) "Mail."]

Catarrh is a muco-purulent discharge caused by the presence and development of the vegetable parasite amœba in the internal lining membrane of the nose. This parasite is only developed under favorable circumstances, and hese are: Morbid state of the blood, as the blighted corpuscle of tubercle, the germ poison of syphilis, mercury, toxoema, from the reten-tion of the effeted matter of the skin, suppressed perspiration, badly ventilated sleeping apartments, and other poisons that are germinated in the blood. These poisons keep the constant state of irritation, ever ready for the deposit of the seeds of these germs, which spread up the nostrils and down the fauces, or back of the throat, causing ulceration of the throat; up the Eustachian tubes, causing deafness; burrowing in the vocal cords, causing hoarseness; usurping the proper structure of the bronchial tubes, ending in oulmonary consumption and death.

Many attempts have been made to discover a cure for this distressing disease by the use of inhalents and other ingenious devices, but none of these treatments can do a particle of good until the parasites are either destroyed

Some time since a well-known physician of forty years' standing, after much experimenting, succeeded in discovering the necessary combination of ingredients which never fails in absolutely and permanently eradicating this horrible disease, whether standing for one year or forty years. Those who may be suffering from the above disease should, without delay, communicate with the business managers, Messrs. A. H. DIXON & SON. 305 King Street West, Toronto, and get full particulars and treatise free by enclosing stamp.

What the Rev. E. B. Stevenson, B. A., a Clergyman of the London Conference of the Methodist Church of Canada, has to say in regard to A. H. Dixon & Son's New Treatment for Catarrh.

MESSRS. A. H. DIXON & SON:

OAKLAND, ONTARIO, CANADA, March 17, 1883.

Dear Sirs,—Yours of the 13th inst. to hand. It seems almost too good to be true that I am cured of Catarrh, but I know that I am. I have had no return of the disease and never felt better in my life. I have tried so many things for catarrh, suffered so much and for so many years, that it is hard for me to realize that I am really better.

I consider that mine was a very had case. It was aggravated and chronic, involving the throat as well as the nasal passages, and I thought I would require the three treatments, but feel fully cured by the two sent me, and I am thankful that I was ever induced to send to you.

You are at liberty to use this letter, stating that I have been cured at two treatments, and I shall gladly recommend your remedy to some of my friends who are sufferers.

Yours, with many thanks,

REV. E. B. STEVENCOM.

ROUGH SLUGGING MATCH

IN ALBERT HALL BETWEEN CHECK-

Kight Brutal Rounds are Fought-Blood Free as Water and Shirts Red With Gore-What is Allowed in the Main

The World knows of two red-letter days at least in the eventful history of Mark Checkley. The first, when, dressed in son velvet, with feathers in his cap, he was introduced by Harry piper to the last evening, Mr. Joseph Pop, the refere tamer of yore was the victor in the battle just fought with James Moriarty.

The contest last night at Albert hall was the nearest thing to a prize fight that has been seen in Toronto for years. Both men were severely punished and bled profusely. At the finish Moriarty was bleed ing from half a dozen wounds, while the shirts of the men were all spotted with

of three minutes each with intervals of one minute, Marquis of Queensbury rules, for the receipts of the house, probably \$100. The referee decided the match on the clear hits made by each, that is when both scored hits it did not count. By this scoring Checkley delivered 91 clear blows on Moriarty, and Moriarty 83 on Checkley, giving the latter the fight by 8 points. Everyone of these blows was a stinger, though that number did not by any means represent a fourth of the knocks they gave each other, for, as was explained, when any blow was followed by a counter-blow it did not count.

any blow was followed by a counter-blow it did not count.

Joe Pop, the referee, gave entire satisfaction. He is a Yorkshireman, a bricklayer by to de and an old puglist by profession, and is at home in the ring. He said it was his first appearance here as a referee and he would settle the matter as it appeared to him in spite of whatever the

In the second round he knocked Checkley down and struck him when down, a foul, but it was not claimed. Checkley so for seemed a little off his pins. Moriarty followed him round and forced the fight. In the third round Checkley went down again and crawled about looking for a chance to get upon his feet without receiving a blow, and claiming ten seconds' time to do this. Moriarty knocked him squarely down again, and when Checkley got up he doked weak and was somewhat battered. Moriarty opened the fifth round by a series of well delivered blows on Checkley, six of them in succession, when the lionseries of well delivered blows on Checkley, aix of them in succession, when the lion-tamer began to realize that he must fight or loose. Accordingly he started in and did some hard knocking giving the round in his favor. The fifth and remaining rounds were in favor of Checkley on the whole but they were simply a slugging match. They pounded one another for all they were worth. Time after time Check ley landed the same blow on Moriarty's left face, breaking his nose and cutting his jaw. Once Checkley was almost used up, but he revived and went at it. Moriarty on the contrary seeming to improve. They knocked one another down, and they knocked one another through the doorway One terrible clout knocked Checkley reel One terrible clout knocked Checkley reeling against the door post, but though his head struck it with great force he did not seem to mind it. In the seventh round Moriarty looked very bad, and had given up all forcing of the fight. The lion-tamer was now doing that. The blood was streaming down Moriarty's face, while Checkley was spitting it out. Moriarty was weak, and when they got locked they pulled apart thoroughly played. Two or three rounds more would have seen one of them knocked out. The most intense excitement prevailed in the audience, at times a pin drop could have been heard. It was a bloody, brutal show. The only creditable thing in the fight was the way in which the men kept their tempers.

No report can describe the fight; but the above ought to give the public a fair idea

above ought to give the public a fair idea of the kind of prize-fighting that is allowed in a public place in Toronto, and a similar exhibition is promised for next Wednesday night. Had the number of rounds not been limited it would have been a prize fight pure and simple for the men would have fought till one threw up the sponge.

Several exhibition matches took place before "the principals" appeared. The first was between the "Smith Brothers,"

two young shavers of six or seven years age, followed by two duffers, and these by two lads of nine who pummelled one another with soft gloves. A neat exhibi-tion was given by Paul Patillo and John Moniarty
