Montreal Stock Market.

A FAVORABLE SPECIMEN OF A WAITING MARKET—CABLE REGISTERED 2 LOWER—LOCAL MONEY NOT HIGH BUT DIFFICULT TO GET.

The forenoon session had some activity of an ordinary sort that kept the market from appearing idle or dull, but with the exception of Commercial Cable Bonds there was nothing which was put through at materially different values. Even broken lots of Cable, of Montreal-London, of Dominion Cotton, of Bell Telephone Rights, Merchants Bank did not change unless to a very much smaller extent than is usual with broken lots as compared with whole parcels. The market had all the marks of a waiting market, a very favorable specimen of a waiting market, but it wanted the large amounts traded in, and 1 or 2 points daily differences of active market.

Commercial Cable's \$10,000 registered bonds selling at 102 were 2 points lower than the last sale.

Montreal Street Ry. stock was active to the extent of 525 shares that changed hand at an advance of 1. This stock of late has acted eccentrically, rising when others decline and vice versa. It closed fairly firm. It cannot be said that the MINING STOCKS were changed in price, nor did they seem under any pressure whatever. The stock offered was in no great quantity nor was it absorbed with any eagerness. In Montreal-London, War Eagle, Payne and Virtue one transaction each was all that was put through, while Republic if it did have three transactions was like the other four mines, unchanged in value. Canadian Pacific in unusually small business at 93 was firm at yesterday's price and closing with this offered for more,

gave as much appearance of strength as any stock to-day.

RICHIEU AND ONTARIO at 104 retained the yesterday's price. This did not indeed appear on the list, which by some oversight had omitted 140 Rich. and Ont. at 104. The stock closed strong with the same being offered for more.

TORONTO RY. at 102½ was an ½ higher than the last price of yesterday. MONTREAL TELEGRAPH at 170 was 3 above last year lowest and 8 above its highest for the last year.

As to local money it is quite as tight as ever. Never very high as to rate even the squeeze was closest, it is not high now though unlowered, but it comes out in very small quantities from the bankers.

MONTREAL MINING EXCHANGE.

MARKET REVIVES — BUSINESS MORE ACTIVE—DEER TRAIL ADVANCES — MONTREAL-LONDON HEAVY.

The market was far more active to-day, business being better distributed all over the list. The strong features were Deer Trail, No. 2, which sold at 12½ cents, and North Star, 500 shares of which sold at \$1.05.

A meeting was held yesterday by the Directors of the Virtue Consolidated Mining Co., but no news has as yet transpired. The stock was inactive to-day. It was offered at 56½, with buyers offering 53.

The sale of 500 shares of the North Star was made at \$1.05. The new strike on the North Star is said to disclose ore to the value of \$700,000. The stock was freely offered at \$1.06.

Deer Trail was more active and stronger on the official confirmation of the amalgamation of the Bonanza and Deer Trail properties. The directorate of the amalgamated company is a very strong one and will be of great benefit to the present shareholders of the Deer Trail. The amalgamation should also tend to decrease expenses. The stock sold as low as 11½ cents and as high as 12½, at which figure it closed, 3000 shares changing hands. It was offered at 13 cents on the last call.

The first dividend of the Centre Star was announced yesterday of one per cent. on the paid up capital stock of the Company for the month of January, payable on the 15th day of February next, to such shareholders of the Company as appear on register on the 1st day of February next, from which day the transfer books will be closed.

There was a sale of Rathmullen at 6 cents, and of Dominion Consolidated at the same price, 2000 shares changing hands in the former and 1000 shares in the later.

Montreal-London was a little off color and sold at 35½ for 2500 shares, and at 35 for 500 shares. The stock was offered freely at 35½ at the close, buyers being indifferent.

Noble Five sold at 12 cents for a 1000-share lot, and Big Three at 7 for 500 shares.

The demand for Golden Star was quiet. The stock was offered at 31½.

NEW YORK EXCHANGE.

MARKET ALMOST STAGNANT—
SUGAR THE MOST ACTIVE—NEWS
FROM AFRICA WAITED FOR.

New York, Jan. 16.

The London market is in a state of stagnation owing to the absence of any definite news from the Transvaal. The report which was said to be official yesterday that Warren had crossed the Tugela is not confirmed. In fact, for the time being events from Africa are shrouded in the deepest mystery. Americans are at parity, but there is absolutely little or nothing doing, consequently arbitrage transactions on our exchange will be impossible.

The selling of M. K. yesterday was partly due to the fact that the bids for the underground tunnel were to be opened; it appears that only two bids were received, but both are from responsible parties and it is not unlikely that the contract will be awarded in the near future, one of the bidders is thought to represent Vanderbilt and possibly M.K. interests, the other bidder is a member of Tammany Hall and is supposed to represent that organization.

The story of a strike at Cleveland unfavorably affected the steel and wire company there, President Gates is out in an interview this forenoon stating that the company employs something like twenty-eight thousand men and that the number of strikers is four hundred. He ridicules the idea that the company will in any way be affected by the strike.

Recent selling of A. M. T. is said to be due to rumors that the opposition of the Con. Tobacco Co. is making considerable headway and that consequently dividends on Con. Tobacco preferred may be imperilled, the A.M.T. Company is a large holder of Con. pf'd.

As to Sugar it has degenerated into a gamble, the largest trader is said to be a Boston speculator. A slight advance in the selling price of refined sugar caused a little buying, the Street believing that any increase in the revenue of the company may lead to the declaration of a full dividend in March.

THE LATE MR. WILLIAM WATSON OGILVIE.

Yesterday afternoon the body of Mr. William Watson Ogilvie, whose name is a household one in Montreal, Canada, Britain and many parts of the world, was laid in the family vault at Mount Royal cemetery. His was a great life, his removal from life was sudden and his obsequies were marked by extraordinary signs of universal and profound respect, mingled with grief that though unavailing was genuine. It is scarcely too much to say, that, in the work of his life, he was head and shoulders above any other in the world. His opportunity was the expanding Dominion and the way it was taken advantage of was simply amazing. Nothing but a genius for business could, from the small beginnings made by his father, at Quebec and Lachine Rapids, have evolved the present Ogilvie mills, which absorb every year twelve million bushels of wheat. From the Goderich, Seaforth, Winnipeg, Royal and City Mills, Mr. Ogilvie could annually send out about 3 million barrels of flour, a quantity more easily spoken of than realized. What an enormous influence every year a work like this must have exerted on Canada, in the way of fostering agri-

culture and making it one of the great granaries for Europe! No small share in the honor of transforming unbroken and uninhabited prairies, into fields yielding hope and comfort to thousands, is due to him whose life is just ended.

The end came to Mr. Ogilvie in the very midst of his work. Strong looking, as usual, Mr. Ogilvie on Friday morning had gone to his office down town and done business there. After this he was present at a meeting of directors in the Bank of Montreal, leaving this at 12 o'clock. Feeling unwell, he hurried home in a sleigh, picking up on his road a medical man, who did everything possible to bring relief, but in less than an hour Mr. Ogilvie had succumbed.

The time that has elapsed since then has not failed to bring forth from the Board of Trade, the Corn Exchange, Bank of Montreal directors, and other public bodies with which Mr. Ogilvie was connected, resolutions of condolence with sorrowing relations and of unanimous arrangements about personal attendance, so as to pay the last sad tribute of respect to a great, genial, forceful business man.

Yesterday many hundreds looked through the glass on the coffin, their last look at the well-known face. Numerous representatives from the previously mentioned public bodies and many prominent citizens formed a cortege that told of a public bereavement. The hundred or more of the great miller's employees, who accompanied the funeral procession to the cemetery, can be credited, as well as the more prominent citizens, with feeling the sad respect their presence indicated. The family, so unexpectedly deprived of its head, consists of Mrs. Ogilvie, three sons and one daughter. Sorrow like theirs can be healed only by time, and is probably soothed by so much genuine sympathy.

As showing how large a place Mr. Ogilvie occupied in public esteem, it is enough to mention that he had served at various times on the Board of Trade as director and president, acted as a harbor commissioner, as president of the Corn Exchange, as director of the Sailors' Institute, as director of the Bank of Montreal, as president of the Montreal Horticultural Society and of the Provincial Fruit Growers' Association, also as captain of the Montreal Cavalry.

In religion Mr. Ogilvie was a Presbyterian, and it was in accordance with the rites of the Presbyterian Church that the funeral services were conducted.

MINING NEWS.

ORE FOUND IN THE I.X.L. THAT RUNS OVER \$5,000 TO THE TON.

Rosslund, Jan. 9.
 O. K. mountain is evidently a very rich one, as good results have been obtained when systematic work has been done. The I. X. L. mine yielded good values for the amount of development work done, and had it been well managed it would still be doing well. I. X. L., for the amount of work done upon it, has yielded very well. There are a number of properties on this mountain with fair surface showing, on which nothing has been done. On Sunday a very rich pocket of ore was encountered in No. 1 stope above No. 1 level. About a ton of this rich ore has so far been taken out, and there is considerable more in sight. Mr. Roy H. Clarke, the manager of the mine, is of the opinion that this ore will run between \$5,000 and \$7,000 to the ton. A half ton from another pocket, not as rich as this one, gave a smelter return of \$2,400 for half a ton or \$4,800 per ton. This late find is the richest pocket of ore that has yet been found in the Trail Creek division. The rock glitters with stringers and bunches of free gold. So far no stopping has been done on any level in the I. X. L. except No. 1.

STRAWS.

Copper holds firm at 16¼c. for Lake.

Northern Pacific began operating two new lines in the Canadian Northwest at the beginning of the year. One, 9 miles long, is from Portage La Prairie to Oakland, and the other extends 20 miles west from Portage La Prairie.

The American Steel & Wire company recently shipped 1900 tons of wire nails to China, and 1500 tons to Japan. Also 236 tons of wire nails were sent to Australia and 175 tons to Great Britain. Shipments of wire were also large, Australia, the heaviest buyer, taking 1,117 tons and Europe 839 tons.

Portland, Maine, dealers have begun to import large quantities of bituminous coal from Cape Breton, although there is a duty on each ton of 67 cents.

The Ashcroft Journal, B.C., of Jan. 6, 1900, contains a Christmas speech by a Mr. Murphy, of Cariboo, full of strong thought and manly sentiment about Queen country, Anglo-Saxon and the present war.

The Ashcroft Journal says on the authority of a prominent official of the C.P.R. that Ashcroft will be made the distributing point for telegrams in connection with Klondike Quesnelle overland telegraph.

It is worth remembering in connection with copper values that copper in ore is worth about 7 cents less than the highest New York quotations. Ore at 17 cents to

the pound is a deception. Refiners and railway companies want money for their work and their charges would make a diminution on this 17 cents that would leave net value not very far other way from ten cents.

The Crow's Nest Pass Coal Company is reported as being compelled to decline some large orders lately, but to be engaged on enterprises which will make out-put more commensurate with demand

The evidence collected by the Canadian Commissioner on the labor troubles in mining centres is said to show that mines cannot do so much work in eight hours as in ten hours and that therefore they are wrong. If this is true the companies have been justified in refusing the miners' demands for a full day's wages for a partial day's work.

CHICAGO MARKET.

CHICAGO MARKET—January 18, 1900.

WHEAT 1 PENNY LOWER AT LIVERPOOL... OPENINGS ON THIS SIDE... ET SUPPORTED BY PUTS ANT... LIS.

Chicago, Jan. 18.

At Liverpool yesterday wheat declined $\frac{3}{8}$, and declined another $\frac{3}{8}$ at this morning's opening. Openings to-day are therefore 1d lower for March and May, both being 5-8 $\frac{1}{2}$.

New York market opened 1-16 lower for March at 74 $\frac{1}{2}$, $\frac{3}{8}$ lower for May at 72 $\frac{3}{8}$.

At Chicago January wheat opened $\frac{3}{8}$ lower at 68, May $\frac{1}{4}$ lower at 66 $\frac{1}{2}$, July $\frac{1}{2}$ lower at 67 $\frac{1}{2}$. Activity was most pronounced in May wheat, but the fluctuations were within $\frac{1}{4}$ of a cent. Corn was unchanged in opening, and prices never moved more than $\frac{1}{8}$. Oats opened unchanged and on light trading advanced $\frac{1}{8}$. Provisions opened from 5 to 7 cents lower than previous close and appeared likely to advance. The two-dollar bulge in May pork of late is an evident attack on a large short interest by strong traders.

It is being made matter of remark that not merely daily puts but weekly puts at 66 $\frac{1}{2}$ have been very largely sold. This means that for a week at least the market will likely be supported from further decline.

Provision receipts were: Hogs, 89,000; cattle, 4,000; sheep, 14,000.

Primary receipts:

Last week 444,856, shipments 215,050.

Last year, 685,274, shipments 249,102.

Four ports 648,134, shipments 475,006.

Exports of flour last year 48,146 barrels.

Car lots, wheat, 35; shipments, 703,24. Corn, carlots, 491; shipments, 58,081. Oats, carlots, 316; shipments, 21,388.

A New York despatch says: Advice from India etc., that the famine is increasing.

Minneapolis wires, "Demand for cash wheat not very urgent this morning. Millers bought yesterday about all they care for at present. Prices same as yesterday, but not much sold yet." The long and lean crowd who bought yesterday are selling out. Country sales of Corn very light."

In the local market, houses with foreign connections are the most pronounced bears on slack demand, and full supplies abroad.

May wheat on Bradstreet's report showing four millions increase, decline $\frac{1}{8}$ cents to-day. Other wheat declined similarly.
