French continues, "it does not perate effort to cut its way west to seem to be clearly understood that the operations in which we have been rejoin the left wing, which is partially engaged, embrace nearly all of the central part of the continent of Europe, from the east to the west. The combined French, Belgian and British armies in the west and the Russian army in the east are opposed to the united forces of Germany and Austria, acting as combined armies be-

STANDING ON DEFENSIVE.

"Our enemies elected at the commencement of the war to throw the weight of their forces against our armies in the west and to detach only a comparatively weak force, composed of very few of the first line troops and several corps of second and third line troops, to stem the Russian advance until the western forces could be completely defeated and over-whelmed. Their strength enabled them from the outset to throw greatly superior forces against us in the west. This precludes the possibility of our taking vigorous offensive action, except when miscalculations and mistakes are made by their commanders, opening up special opportunities for successful attacks and pursuit.

INVITE ENEMY'S ATTACK.

"The battle of the Marne was an example of this as also our advance from St. Omer and Hazebrouck to the line of the River Lys, at the comquently been called upon to fill, has been to occupy strong defensive positions, holding ground gained and inviting the enemy's attack, and to throw back these attacks, causing the enemy heavy losses in his retreat and following him up with powerful and successful counter-attacks to complete his discomfiture.

ALLIES' TACTICS WINNING.

"The value and significance of operations of this nature since the comencement of hostilities by the allies' forces in the west, he m the fact that at the moment when the eastern provinces of Germany are in imminent danger of being over-run by the numerous and powerful armies of Russia, nearly the whole active army of Germany is tied down to a line of trenches extending from Verdun on the Alsatian frontier to the sea at Nieuport, east of Dunkirk (a distance of 260 miles), where they are held, with much reduced numbers and impaired morale, by the successful action of our troops in the west. ARTILLERY'S FINE WORK.

ARTILLERY'S FINE WORK.

"I cannot speak too highly of the services rendered by the Royal Artillery thru the battle. In spite of the fact that the enemy brought up, in support of his attacks, guns of great range and shell power, our men have succeeded thruout in preventing the enemy establishing anything in the nature of superiority in artillery. The skill, courage and energy displayed by the commanders of the Royal Artillery have been very marked. The Royal Engineers have been indefatigable in their efforts to assist the infantry in field, fortification and trench work.

LOSS THIRD OF ENEMY'S.

"I deeply regret the heavy casualties which we have suffered, but the nature of the fighting has been very desperate and we have been assailed by vastly superior numbers. I have every reason to know that thruout the course of the battle we have placed at least three times as many of the enemy hors de combat in dead, wounded and prisoners.

"Thruout these operations, Gen. Foch has strained his resources to the utmost to afford me all the support he could. An expression of my warm gratitude is also due to Gen. Dubail, commanding the Eighth French Army Corps on my left, and to Gen. De Maud'huy, commanding the Tenth Army Corps on my right."

part, Field Marshal French says:

"Since their arrival in this country and their occupation of the line allotted to them, I have been much impressed by the initiative and resource displayed by the Indian troops. Some of the ruses they have employed to deceive the enemy have been attended with the best results and have doubtless kept the superior forces in front of them at bay.

"Our Indian sappers and miners have long enjoyed high reputation for skill and resource. Without going into detail, I can confidently assert, that thruout their work in this campaign, they have fully justified that reputation.

"The general officer commanding the Indian army describes the cond bearing of these troops in strange and new surroundings to be duct and bearing of these troops in strange and new surrou

giving the greatest possible support to the northern flank of the allies in the effort to outflank the enemy and compel him to evacuate his positions. He says that the situation on the Aisne warranted the withdrawal of British troops from positions they held there, as the enemy had been weakened by continual attacks and the fortifications of the allies much improved.

Gen. French made know his view to Gen. Joffre, who agreed with it.

The French general staff arranged for the withdrawal of the British, which began on Oct. 3 and was completed on Oct. 19, when the first army corps, under Gen. Sir Douglas Haig, detrained at St. Omer.

The General Plan.

The general plan as arranged by Gen. French and Gen. Foch, commanding the French troops to the north of Noyon, was that the English should pivot on the French at Bethune, attacking the Germans on their flank and forcing their way north. In the event that the British forced the Germans out of their positions, making possible a forward movement of the allies, the French and British were to march east, with Lilie as the dividing line between the two armies, the English right being directed on Lille. march east, with Lilie as the dividing line between the two armies, the English right being directed on Lille.

The battle which forms the chief feature of Gen. French's report really began on Oct. 11, when Major-Gen. Gough of the second British cavalry brigade first clashed with German cavalry in the woods along the Bethune-Aire Canal.

Cavalry's Advance.

Cavalry's Advance. Cavalry's Advance.

The English cavalry moved toward Hazebrouck, clearing the way for two army corps, which advanced rapidly in a northeasterly direction. For several days the progress of the British was only slightly interrupted, except at La Bassee, a high position, which Gen. French mentions as having stubbornly resisted.

French mentions as having stubbornly resisted.

Gen. French says the second corps under Gen. Smith-Dorrien was opposed by overpowering forces of Germans, but nevertheless advanced until Oct. 18, when the enemy's opposition forced a reinforcement of the second corps. Six days later the Lahore division of the Indian army was sent to support the Second Corps.

On Oct. 16 Sir Henry Rawlinson, who had covered the retreat of the Belgium army from Antwerp with two divisions of French infantry, was stadiusions of French infantry, was stadiusions of French infantry was stadiused on the line east of Ypres under orders to operate over a wide front and to keep possession of all the ground held by the allies until the First Army Corps could reach Ypres. Gem. Rawlinson was opposed by superior forces and was unable to prevent the Germans from getting large reinforcements. With four army corps holding a much longer territory than their size justified, Gen. French says he faced a stubborn situation. The enemy was massed from the Lys and there was imperative need for a strengthened line.

Sent Fresh Troops.

However, Gen. French decided to send the first corps north of Ypres to stop the German reinforcements which might enable them to flank the allies. Sir Douglas Haig, with the first army corps, was sent October 19 to capture Bruges and drive the enemy back toward Ghent, if possible. Mean while the Belgians entrenched themselves along the Ypres Canal. General French commends the valor of the Belgians who, he says, exhausted by weeks of constant fighting, maintained these positions gallantly.

Because of the overwhelming numbers of the Germans opposing them. General French says, he enjoined a defensive role by the three army corps located south of Ypres. While Gen. Haig made a slight advance, General French says it was wonderful that; he was able to advance at all owing to the bad roads and the overwhelming number of Germans who made it impossible to carry out the original plan of moving to Bruges.

PARIS, Nov. 29.—The Germans advance guard today was defeated in its attacks north of Arras, France, by the allied armies, which captured important positions north and south of Ypres, Belgium, formerly held by the invading army. The allies, also, had the better of the artillery exchanges, the Germans limiting their fire to the smaller guns, while the French bombarded the German lines with their heavier pieces.

Tiolal statement Saturday afternoon as follows:

"In Belgium the artillery exchanges were continued during the day of Nov. 27 without any particular incident. The heavy German artillery showed less activity to the south of Ypres, which was repulsed by our troops.

"Toward the evening our artillery brought down a German biplane carrying the aviators. One of the men was killed and the other two were made prisoners. "In the region of Arras and further to the south there has been no change. The day passed very quietly in the region of the Aisne. In Champagne our heavy artillery inflicted serious losses on the artillery of the enemy.

"From the Argonne to the Vosges there is nothing to report."

French Victory in Vosges.

The Germans suffered severely because of the accurate fire of the French guns, along the Aisne and between Vailly and Berry-au-Bac. In the Vosges the German troops were heaten back three times in attempts to retake positions from which the French had driven them.

The Journal de Geneve says that on Nov. 21 and 22, one hundred and ten trains, each composed of fifty cars, conveying artillery and cavalry, passed thru Luxemburg from Flanders on the way to the German eastern frontier.

The German War Office gave out an announcement follows: In the western arena of the war the situation is unchanged to-day. French attacks in the Argonne forest have been repulsed. LONDON, Nov. 29.—Notwithstanding the fiercely desperate resistance of the Germans in Russian Poland, their signal defeat is an accomplished fact and the Russians are slowly but none the less surely tightening the ring that encircles the kaiser's men in the vicinity of Lodz. The Germans are striving hard every moment to cut their way out, in order that the remnant may have a roadway of retreat. To this end reinforcements have been sent, from Thorn toward Lodz, but they have not succeeded in rescuing the defeated army. A Petrograd de-

The

Death of Daughter of Col. and Mrs. J. J.

By a Staff Reporter.

HAMILTON, Monday, Nov. 30.—Norma Christie, the 15-year-old daughter of Lt. Col. and Mrs. J. I. McLaren, died yesterday morning after a brief illness. She fell ill two weeks ago, and took a bad turn on Saturday afternoon. Lt.-Col. McLaren, who is commander of the 91st Highlanders, and is going to the front with the second contingent, returned home from Toronto Saturday evening.

Concert for Relief.

The first of a series of sacred concerts was given last evening in the Lyris Theatre by the 91st Highlanders under the direction of Harry Starrs. There was a large crowd present and an excellent program was provided. A collection was taken up for the Hamilton United Relief Association.

Recital at Conservatory.

The first open recital for the season was held at the Conservatory of Music Saturday afternoon, when a splendid program was rendered by the junior pupils, After the recital the anthual conservatory children's party was given, when 300 or 100 children spent the afternoon in games and general entertainment.

Hamilton Defrauded.

Judge Snider gave his finding in connection with the civic investigation Saturday, and the following are some of the leading findings and comments contained in the report:

the name of the Crescent Oil Company, with the city in reference to oil, thruout is characterized by deceit and underhand work, and an attempt to hide dishonest transactions. work, and an attempt to transactions.

"W. C. Brennan showed favoritism and did not explain some deals with the Crescent Oil Company satisfactorily.

"Former Secretary Brennan certified to the correctness of payrolls without ascertaining if they were correct. He committed an absolute wrong in connection with the lumber deal.

"Payrolls were padded in a number of cases, and it seems to me that the only satisfactory explanation is that the money was extracted in the works department by somebody.

"It is quite clear that no audit which was of any practical use to the city has been made during the years dovered by the investigation. The auditors were manifestly mistaken in their interpretation of their duties. The audit only had the effect to make the citisens believe that they were protected, when no pretection was afforded at all.

"In the case of the confessed time-keeper, B. G. Quibell, the temptation was foo great; the carelessness was so manifest it was easy to steal the city's money.

"James Weedon was a supervising foraman who did not supervise.

"The most simple-minded could help himself to city money and material without fear of discovery.

"No doubt these same criminal practices would prevail still were it not that the suspicions of some members of the council were aroused.

"If the same state of affairs is not to prevail again, the head of the council will have to see that the officers are discharging their duties properly, and not rely implicitly on anyone.

Talk of Prosecutions.

There was great excitement at the city hall following the presentation of the report, and immediately there was talk of criminal prosecutions being made at once, as it appears that many of those connected with the investigation were guilty of criminal actions. Some believe that the evidence is sufficient to warrant the discharge of City Engineer Macallum, Deputy Engineer Hollingworth and Supervising Foreman Weedon, and the aldermen expect that there will be a clasmor for a clean sweep in the works department.

A special mesting of the growing plans for the proposed improvements.

City Engineer Macallum and his assistants will start this morning preparing plans for the proposed improvements.

Ven. Archdeacon Cody dened the qualities of a true soldier before 3000 qualities of a true soldier before 3000 members of the second contingent, at the Exhibition Park camp, at the morning service yesterday in the Transportation Building. His text was: "Endure Hardness as a Good Soldier of Jesus Christ."

Archdeacon Cody said there were five qualifications of a good soldier. A good soldier would be loyal to his commander, and would possess courage. He would be obedient to discipline, have a sense of comradeship and be of great endurance.

The 48th Highlanders' Band led the musical portion of the morning service and in the afternoon gave a sacred concert.

Placed by Hand.

Mr. Wilson, representing the company, explained that, due to the position of the culvert, the cement had to be placed by hand labor instead of machinery, and that the workmen had much trouble in excavating because of stone foundation.

He invited Mr. Barber to investigate the reports in possession of the company and satisfy himself as to the detailed cost.

Reeve Wallace of Woodbridge was dublous regarding the matter, and on the motion of Reeve Keith of Newmarketidt was left for the warden and county commissioner to the next search and the future.

"The Appeal"

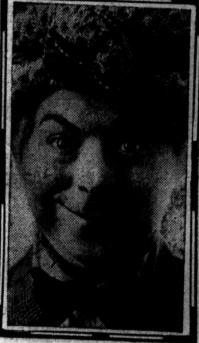

Commencing tonight the Alexandra Theatre will offer for the week an exceedingly strong drama, "The Appeal," written by C. M. Brune, dealing with the matrimonial question in its best lights. It is a strong, pure wholesome play, discussing important questions of marriage and divorce. While "The Appeal" deals with serious matters, it is not what may be called a religious play. It is written in the lighter style of drama, at the same time teaching a moral. The author submitted his manuscript to a number of the most prominent ecclesiastics, and they have all endorsed it as a thoughtful work. Cardinal Bourne, Archbishop of Westminster, says: "The moral is good and the tendency thruout making for religion and virtue. The writer has treated his delicate subject—divorce—with becoming reserve." Cardinal Fariey, archbishop of New York, says: "It is a correct exposition of the church's attitude on all important questions of divorce as well as an entertaining literary work." The play will be presented here this week by an exceedingly capable company of well-known New York players. New York players.

After an absence of several seasons Arthur Prince, the English ventriloquist returns to Shea's as the headline attraction of this week's bill. Prince, who is probably the best ventriloquist who has ever visited America, has an entirely new setting for his offering. Capt. Treats' trained seals and seal lions are unusually elever alimals. NEW YORK, Nov. 29.—Surpass the organization convention of the Innernational Federation of Catholic

has the endorsation of the three cardinals, six archbishops and 23 bishops.
Even with this eminent support and

had entered into the calculations of
anyone concerned. From Maine to
California, as well as from Montreal,
Toronto and dozens of other Canadian

The opening reception, held in the

Do you know the Grab Sister?
Are you acquainted with her brother, Mr. Snatch?
Have you met their aunt, Mrs. Keep-It-Herself, and their uncle. old Mr. Me-and-My-House?

I went motoring with the Grab Sister the other day and we passed a beautiful garden. Nothing would do but the Grab Sister must get out and snatch some roses that hung beckoning over the wall.

She wasn't so dead in love with the roses that she just had to have a luncheon and if she snatched the roses from the garden she wouldn't have to buy flowers for the table—so she grabbed.

And when we came to the house that belonged to the garden—I knew the mistress of it—she called us in and gave us tea on the verandah, and when we came away she piled our arms full of roses—red white, yellow and pink—sweet September roses with all the fragrance and the joy of summer hidden in their glowing hearts.

And the Grab Sister wasn't ashamed at all. "There," she said. "I told you she wouldn't miss a few roses."

They Never Understand.

And we taid the flowers in the shade in the bottom of the car, and when we got home the Grab Sister handed me my roses—or half of my roses—and kept her roses and half of mine for herself.

And because I didn't say a word about it she thinks I didn't know the difference.

And the next time that anybody gives me any roses I'm going to count them and keep them.

And then some day I shall hear that the Grab Sister wonders and wonders why I do not ask her to go with me to the house of my friend who has the beautiful garden and drink tea on the verandah.

I went to a picule with the Snatch Brother the other day.

It was a nice quiet, conservative little picule—just a few old friends and a few new ones and some lettuce sandwiches and some French bread and a ripe clive or so and a babbling brook and a spreading tree—and old stories and new ones—and home by moonlight on the water—and old songs and new ones. The Snatch Brother brought a Person to the picule.

A most Unpleasant Person, who talked too loud and said too much. A Person who nudged and bragged, who laughed at the wrong place and who didn't see the joke at the right time—

And they all think that nobody sees thru them. And the littlest, tiniest baby at the picnic stayed just as far away from Mr. Snatch as she could. And when I asked her why, she said:

"I was afraid he would take my ice cream away from me."

Treat Cause of a Sneeze And Save Days of Illness

By DR. LEONARD KEENE HIRSHBERG A. B., M. A., M. D. (Johns Hopkins).

"GESUNDHEIT" or "God bless you" after some one sneezes is a modern survival of the ancient rstition that a sneeze means health, wealth ess. Centuries ago no less than today, a sneeze was an omen of good fortune—a sacred sign of the gods. This superstition was ancient even before

In the time of Pope Gregory the Great there was some mysterious malady—it may have been some poison mixed with the snuff that was then taken—which so affected those who sneezed that they at once fell into a death trance. The Pope himself became so alarmed at the death of many courtiers that he inaugurated prayers to be uttered the instant the paroxysms began. "God bless you" was then said in Latin, and it was expected to avert the passage across ted to avert the passage across

British Telephone Defects.

Mr. C. S. Mr. Goldman points out that where the New York Stock Exchange uses 641 telephones, in London in the biggest stock exchange in the world there are only fifteen. A big club with 6900 members has only three lines. The house of commons has a miserably inadequate service, while every member of congress in Washington has his own line. This is the commercial world. This is the true way of public ownership, and where it is employed the result is success beyond anything that private ownership ever attains. Unfortunately the instances in which it has been put in practice are few and generally outside the British Empire.

Canadian Soldiers Take Up Winter Residences on Sling Plantation

MEN ARE COMFORTABLE

Great Interest Taken in Tactical Manoeuvres—Attack Imaginary Enemy

By John A. MacLaren, one of The World's Staff Reporters with the Canadian Expeditionary Force.

SALISBURY, Eng. Nov. 12.—Every road was filled with Canadians. Huge transports, motor driven and painted green, plowed one after another thru half a foot of mud. Bespattered mon and horses followed in the wake of a long procession of army trucks which were loaded with equipment of all sorts. The khakied soldiers, four abreast, carrying heavy kits, and with rifles thrown across their shoulders, sang their way thru the quagmires. It was moving day. The Canadians were on their way to Sling plantation, near Bulford, the new camp of wooden huts, eight miles from this ancient cathedral city. They were on their way from misery to comparative luxury. They were going to live more comfortably than they ever will again until the war is over. Needless to say they were intensely happy.

In the early morning, the movement over a 10-mile stretch of rain-soaked land began. The western battallons left Pond Farm, where they had lived since reaching England. Ahead of them were the transports carrying the stores and supplies. No man was anxious to stay under canvas. The thought of a roof over their heads, stoves to give out warmth, proper lighting and a place where clothes could be hung up and dried, was indeed refreshing. For over there weeks with never a day passing without a downpour, the men had lived under almost active service conditions. Wet clothing had been worn for days. It was impossible to keep dry.

Resch Barracks.

But after this 10-mile tramp thru more rain and mud, they reached the Canadian barracks, on the outskirts of the military Town of Bulford where thousands of Englishmen are preparing to enter the fighting line. Here the Canadians will be free to mingle with the British "Tommies," practically their first opportunity. Four battallons slept indoors tonight and in a week or 10 days, West Down South, West Down North and Bustard, where the rest of the Canadians are in tents, will be deserted. Mr. Marshall got thru the afternoon performance unbeaten with a score of 14 wins and 5 draws, but the veteran, W. T. Jones, with the exchange ahead and the better position, would certainly have broken the score but for an innocent looking at a late stage, by which Marshall was enabled to paralyze his game uriously and completely.

Marshall for the most part indulged in parting openings, the Danish gambit being much in evidence. Against Morrima he played his favorite queen's gambit and doubled Morrison's pawns in the ading, but this was the full extent against the wily Torontonian.

In the evening Marshall had quite an amy corps of chess players to battle winst and could not get thru unscathed. Gale, in his game, gathered in a least from a grotesque combination on the part of Marshall. Later he won the things and then the game, amidst an orburst of applause, this being the master's first defeat. Next Jones had his revenge for Marshall's good luck against him in the afternoon. Two or three draws followed and then interest centred with vengeance at the table occupied by the Sims. The ex-lady champion had unshow managed to gather in a deal of lumber' from the board and Marshall's me looked rank from underneath. The day was much bent on a sacrificing combination about 25 moves deep, but her mother pleaded for a policy of "safety list" by the consistent reduction of the mater's fighting force. This was easy worth, but someone unkindly suggested derwards that Marshall let her thru as lake!

"Life here at present is a very lazy one. Up to date only two of the general hospitals have moved off to Southampton to begin operations in France. The rest of the force is being held here practically inactive, whether it ill spring or not I know not, and those that do know are not telling. Rumon, of which you can guess there is a daily flood in the camp, has it that we go to Egypt, as at present it is only occupied by territorials or 'terriers,' as they are known by the men here. More unlikely things than that may happen. Col. Jones, the A.D.M.S., went to France yesterday, presumably to locate sites for general hospitals.

"Within a few days we are to be installed in huts—this is the latest word. We are quite comfortable as we are except that the walking underfoot is disagreeable, but the majority of us have rubber boots. Our tents are floored; we have plenty of blank-dets, straw mattresses, bolsters and a complete outfit. Today another round of heavy underwear was issued to the troops, also sweater coats and sleeping caps. The weather in the daytims, as the county in the camp is shining, is warm, the bracking; cold in the morning, especially, but no frosts or biting cold as in Toronto.

Judge Snider Makes Report on Hamilton Investigation

Canadian Press Despatch.

HAMILTON, Nov. 28.—The report of Judge Snider on the recent civic investigation was made public today. It will be dealt with by the council at a special session and a number of people may be prosecuted as a result. His honor found that there was much petty thieving and dishonesty as a result of gross carelessness. Many cases were proved where payrolls were padded and city time and material used for the benefit of civic employes. He found that the charge that Building Inspector Anderson had demanded money before he would pass certain work was proved in a number of cases.

Saya City Defrauded.

The report also says that the city was defrauded out of large sums of monety—probably thousands of dollars—by John Jess, a gravel contractor; also that the Crescent Oil Company, operating under one Harry Smith, secured at least \$1500 from the city by false pretences.

His honor found that nothing improper was traced to W. C. Brennan, secretary, now employed by the City of Fort William, more than that 60, feet of city lumber, which was not paid for, was used at his house, and the fact that it was due to his neglect of duty in improperly supervising the department, that led to other people stealing and acting dishonestly.

YALE MAN ATTACKS HINKEY'S COACHING

NEW HAVEN, Conn., Nov. 28.—Willard B. Luther of Milton, Mass., Yale, '02, in a scathing criticism of Frank Hinkey's coaching of the blue football team, written to "The Alumni Weekly." demands his removal.

Luther charges that the defeat by Harvard was due to the fact that the Tale eleven had not been taught the fundamentals of the game and that Hinkey neglected to ground the men in tackling plunging thru the line and ordinary preliminary football tactics. He added:

"I charge the Yale coaching of the year with having neglected each and all of these things, and I charge to this meglect the greatest diamster that Yale weeklest has ever seen."

But Hamilton's most serious alibi is the officials. They look out of their office and declare that Phillips and Roberts ence by the Argos, which was merely the legal brand, as allowed by the Big Four rules, and had the fans from the mountain-side opened their other optics they could have seen the same plays pulled off by the Bengali.

Too much credit cannot be given the Argonaut players for their decisive attack and stonewall defence. The oarsmen likely made a record for clean work in handling punts and passes without is the heavier oarsmen's line.

Dr. Smirlie Lawson, the great line plunger, never showed up better in his life than in the last half, when Argos overwhelmed the Tigers. He gained ground with the enemy hanging on him at all angles, and only slowed up when he twisted his ankle tackling Dixon two minutes be ore the final whistle blew. It was with difficulty the big fellow hobbled back to mid-field, but he stayed on for the last minute and then was carried off with the other heroes. The betting was even heavier than those times when the Tigers used to visit Ottawa. Hamilton chrysanthemum-be-decked sports asked and were accorded 5 to 4 in \$100 lots. Again supporters of the sistions suppred at the chair lunches and

aimost perfect satisfaction. The rough work was discountenanced at all stages, and the game was lost and won on its merits.

On the play shown on Saturday Argos are clearly the better team. In that second half they were on the aggressive, and try as the Tigers could the Argos could not be stopped. Argos played straight rugby all the way.

Clean Rugby.

The game was without some of the thrilis and loose play that characterized the incident between Varsity and McGill last week. There was no succession of touchdowns in the last five minutes of the play. For the first half, the play was even, and there was nothing to choose between the two teams. The heavy going had slowed up matters a little, but the rugby was clean, and play was for the most part at midfield.

There was no desperate and hair-raising finish, the Argos simply showed the better class all thru the last two quartars, and the game was never in doubt after Argos forged ahead in the third period. When O'Connor kicked a goal from the field 45 yards out the superiority of the scullers' machine became evident. With the score 6 to 4, Capt. Murphy's team strengthened for the final moments. Bickle had to retire, and Smirlle Lawson came on slightly after half time to bolster up the back division of the oarsmen. He did his full share of the work, and the shocks which the Hamilton tacklers experienced when they hit Lawson may account for the lack of pep in the last fiften minutes. Then in the last quarter with the Argos on their toes they held the Tigers helpless. Once again O'Connor beoted for a rouge, and Argonauts were another point to the good. Still another goal from the field was notched by Jack the relentless, and there the final score stood 11 to 4.

Second Quarter.

In the second period the play continued around midfield, with no decided advantage for either team. Mallett booted again behind Argos' line for another rouge, and the score was 3 to 1, but Argos evened up before the half-time whistle blew, when O'Connor kicked to McKelvey for a touch-in-goal, and a couple of minutes later for a rouge. This made the half-time score 3 to 3. At this point there was nothing to choose bepoint there was nothing to choose be-tween the rivals, and the experts figured that the result hung in the balance, with the winner to be decided by the breaks in the buck

more and will report at a meeting to be held at Buffalo, probably in February. President Glimore also appointed E. W. Gwinner of the Pitsburg club, C. E. Rasin of Baltimore, and himself a committee to draw up rules and regulations.

Twenty-one representatives of the league were present at the search of the committee to draw up rules and regulations.

Twenty-one representatives of the league were present and both Cleveland and Cincinnati sent agents to plead for Federal League teams in those cities. It is the Ohioans, it was not announced. Despite the assertion of a representative of the Kansas City club that that city had beinged greater support next season, life was generally admitted there was a possibility of the Kansas City franchise being transferred.

Altho no rule was adopted the clubowners reported the decision to carry not more than twenty players. While it was asserted that 15 major leaguers who were not with the Federal League last year had been signed and that negotiations for eight or ten others were under way, no extraordinary salaries wee to be paid, it was said. All intention to obtain the sevices of Walter Johnson of the Washington Americans has been abandoned.

The league members also decided to charge big league prices.

The resident Glimore asserted the stories given out by officials of organized base-hoods. He said even if the league did not Everett Smith returned one of Mallett's

but no person who was at the Varsity Stadium on Saturday arternoon could help but admit that the Argos were the better team. Did the Argos buck up during the last quarter? Perhaps the double blue didn't buck up in the last half of the Struggie. From merely holding their own against the Bengali the oarsmen took the aggressive, and from then on there was nothing to it but Argos. The Tigers died hard, and occasionally took a notion to win, out by means of blows instead of rugby. They lacked the right punch, however, The officials checked every tendency towards rough work.

The Jungle Kings tried some of their bluff tactics before the game started, but the Big Four executive would not stand for it, and the Hamilton team was given the alternative of taking the field with Percy Roberts as umpire or else giving the championship to the Argos by default. The Hamiltonians finally decided that it was the best policy to take the field, und in justice to Mr. Roberts, it must be admitted that the game was handled with almost perfect satisfaction. The rough work was discountenanced at all stages, and the game was lost and won on its merits.

On the play shown on Saturday Argos are clearly the better team. In that second half they were on the aggressive, and try as the Tigers could, the Argos could not be stopped. Argos played a straird.

COUNCIL IS AFRAID AT GUELPH FAIR OF YEOMANS DEAL

Exhibitors Are More Numer- Leave Responsibility for That Appointment to New Council

laws Will Probably Go to Electorate

If the volume of business pouring into the offices of the Ontario Winter Fair at Guelph is any sign of economic conditions in the province, then Ontario has no reason to be depressed. A year ago every department was crowded with exhibitors. It was thought improbable that more could be expected. Yet last year's business has already been exceeded. The seed entries exceed those of last year by about eighty. There will be fifty more beef cattle than last year and ten more cows in the dairy test. Sheep will be one hundred and fifty stronger than last year. Swine will outnumber last year's contingent by one hundred and fifty. The poultry show will number over five thousand birds and will be the greatest poultry, show in America.

The dairy test will commence on Friday evening. Dec. 4, at 9 p.m. and

Will Go to the People.

The bylaws providing for the construction of the Lansdowne avenue civic car lines, the North Toronto car line and the acquisition of the Scarboro division of the York Radial will probably be sent to a vote of the people without much apposition from the members. The bylaw to provide \$100,000 for motor buses, however, will undoubtedly receive some rough handling from members who feel that its submission will help to kill the car line bylaws, when improved transportation in these sections is absolutely essential.

tation in these sections is absolutely essential.

To reopen the incinerator site question requires a motion from a member of council who voted for the site, a motion which is not likely to be forthcoming. Chairman McBride deciares any other method of reopening the question is illegal, and will stick to his ruling in council unless the city solicitor overrules him.

GALLANT OFFICER WOUNDED IN HEAD

Brilliant Charge of Nov. 4

Mr. A. G. Farquharson, Canadian anager of the Columbia Graphophone Company, has received news that his brother, a lieutenant in the London Scottish, was severely wounded in the head during the famous charge on November 4. The first notification was received by his father, Col. Far-quharson, from the war office, but the bare fact was recorded that the gal-lant young soldier had been "seriously wounded." Subsequently a letter was received from a brother officer to the effect that Lieut. Farquharson "fell unconscious with a bullet wound in his head, whilst leading his men in a orilliant charge," and still later another letter was received by Col. Far-quiarson from one of his son's fellow officers who said he had seen the lieutenant lying unconscious in a train on the way to some hospital. Since that time, however, despite every effort on the part of the wounded man's family, no further information has been obtained concerning his whereabouts.

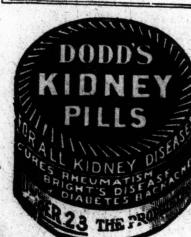

Mr. A. G. Farquharson himself formerly held a commission in the

Somerset Light Infantry, and is now member of the St. Andrew's Association Rifle Corps, Toronto. Four other brothers wear the King's uniform. One is an officer on H.M.S. Colling-wood; another is a major in the war office; a third, who took part in the defence of Antwerp, is a lieutenantcolonel of marines. In 1893 the latter was on board the ill-fated flagship Victoria which was run down in the Mediterranean by the Campendown with the loss of 400 men, and for saving the life of the ship's paymaster he received the Royc! Humane Society's medal. Mr. Farquarson's other brother is a captain in the Indian

DR. WISE A BUSY MAN STAYS HERE FIVE HOURS Arrives at Noon to Address Cana-

dian Club-Leaves Again at Five Dr. Stephen S. Wise, Rabbi of the

Free Synagogue in Carnegie Hall, New York, will be a very busy man during his six-hour visit to Toronto today. Arriving at noon he addresses the Canadian Club on "The Deeper Causes of the War," at one o'clock at Dunning's. His treatment of this subject will no doubt be of exceptional interest by reason of the fact that members of his race are fighting on both sides in the present war.

After the Canadian Club meeting he addresses the Equal Suffrage Society at 2 p.m., and at 3.30 he speaks to the Jewish women at the Conserva-tory of Music, leaving for New York again at 5.20 p.m.

again at 5.20 p.m.

Dr. Wise is one of the foremost members of the Jewish race in America. He is a leader in civic welfare work, and has done splendid work in promoting better hygiene and mor-als, and a better social life in the crowded Jewish sections of New York. As a speaker he is in the first rank.

dian Press Despatch. New York, Nov. 28.—The New York Stock Exchange reopened its doors today, for the first time in nearly four months, to permit of limited trading in bonds. The conservative element has successfully resisted all efforts to renew business, even in tentative form, until home investment conditions reflected some justification for such action.

It was evident, however, that the resumption of operations, even under the rigid terms imposed, which included the establishing of minimum prices, exercised a marked effect upon sentment thruout the financial district. There was an unusually large NEW YORK, Nov. 28 .- The New

Some Were Timid.

Trading all thru the brief session reflected hesitation and timidity on the part of investors and brokers. There resulted a number of very material declines from July 30 prices, with a few gains, chiefly in the injustrial division of the bond list. At so time was there any movement suggesting serious liquidation and of foreign seiling, concerning which some apprehension had been felt, there appeared to be none at all.

New-laid eggs brought 65c to 75c per dozen in the upper market, but in the lower it was difficult for the vendors to obtain more than the 65c, "strictly fresh" varieties, bringing 50c to 60c per dozen. Butchers from the outlying districts are now coming on the market with quarters of beef which they sell reasonably, and consequently soon dispose of their ware. John Carron, Weston, had eight quarters, which he sold at 10c per lb. for the fronts, and 12c per lb. for the hinds.

More Choice Beef.

A. Barnes, Pacific avenue, also had some choice beef which he sold at 9c per lb. for the fronts and 11c for the hinds.

Potatoes are slightly firmer in tone, altho they are still selling at 75c per bag singly and 65c to 70c per bag by the load.

J. Atkinson, Dollar, had thirty bags of New-laid eggs brought 65c to 75c per

of potatoes, which he sold at 75c per bag.

Snow apples were brought in by a large number yesterday, and were of better quality than they have been. They sold at 25c per 6-quart basket; 35c per 11-quart basket.

A. Nunnerly, Carlisle, had over sixty baskets of extra choice snows and fifty of Kings; also ten of Spys.

John Evans, Newtonbrook, had six barrels which he sold at 35c per 11-quart basket and \$2.50 per barrel, by the lot.

E. Hatfield, Malvern, had six barrels of snows at \$3 per barrel.

On Saturday there were a large number of people who sold their poultry by the weight, the only fair way.

Watson McCluskey, Orangeville, had nine turkeys at 15c per lb.; twenty-five or thirty geese at 14c, and 10 chickens at 15c.

Prices Rallied at Chicago in Belief That Surplus Has

Been Exaggerated

CHICAGO, Nov. 28.—Increasing beliefs that the estimates of the Argentine export surplus had been grossly exaggerated helped to bring about a decided rally in the wheat market today, after an early decline. The close was strong, 7-8c to 1c net advance. Corn finished 1-16c off to 3-8c up, oats varying from 1-8c to 1-4c up, and provisions the same as last night, to 17½c dewn.

Despatches received here from Argentina aff expressed conviction that the official forecast of 200,000,000 bush.

Despatches received here from Argentina all expressed conviction that the official forecast of 200,000,000 bushthe omciai forecast of 200,000,000 bushels as the crop total and 144,000,000 bushels o be available for export, was entirely too optimistic. According to advices today the crop was likely to be 140,000,000 to 150,000,000 bushels, with the surplus78,000,000 to 112,000,000 bushels. Reports of rainy weather at Rosario tended also to encourage the bulls and so too did to encourage the bulls and so, too, did fresh activity here on the part of exporters, and the disclosure that European sales in the United States Thursday and Friday aggregated 3,500,000 bushels, an amount said to exceed any previous record. Corn Was Irregular.
Continued depression in values at
Liverpool made the wheat market
here take a downward slant during the first part of the day. The nearness of the beginning of shipments from Argentina to Europe was likewise for a while a source of comfort to the bears. Corn swayed with wheat. Traders' views were about evenly divided.

Larger receipts of hogs than expected had a depressing effect on provisions. In addition, it was said that cash demand for packing house pro-WILL SPANISH RIVER

Certainly the delay in giving the shareholders the company's figures with regard to earnings for the fiscal year ending June 30, 1914, is not reassuring.

MONTREAL GRAIN MARKET IS DULL

MONTREAL. Nov. 28.—There was o improvement in the volume of usiness in grain over the cable today. there being practically no demand from foreign buyers for supplies, and the market in this respect is dull. There is a fair demand from local dealers for coarse grains and sales of some round lots of extra No. 1 feed dealers for coarse grains and sales of some round lots of extra No. 1 feed oats on passage from Fort William were made at 57½c and No. 1 feed at 56½c per bushel, c.i.f. Montreal, and in addition to this sales of ten cars of American No. 3 yellow corn were made at 73c per bushel ex-track, while Argentina corn in car lots on spot sold at 83c to 84c per bushel, ex-store. The tone of the market for flour is firm, with a fair amount of business doing for domestic account, but the export trade was quiet. Demand for mill feed is very active and the undertone to the market is stronger, with prices tending towards a higher level. An easy feeling prevails in the market for butter owing to the continued limited demand from outside sources, but there is no actual change in prices as yet to note. Receipts for the week were 3273 packages, as compared with 4351 for the same week last year.

There is a fair enquiry for cheese from over the cable, but owing to the scarcity of ocean freight space. little business is doing. Receipts for the week, 12,639 boxes, as against 7891 boxes for the like week last year.

Eggs are fairly active and firm. Receipts for the week were 15,630 cases, as compared with 4830 a year ago.
