Worst Electric Storm In Toronto This Year Caused Heavy Damage

Several Houses Were Struck by Lightning and Thousands of People Were Terribly Frightened — Street Cars Were Running Thru It All.

Commencing shortly after seven o'clock and continuing with short periods of respite for more than half an hour, the electrical storm which broke over Toronto early last evening surpassed in brilliance any other which has visited the city during this summer season. The drops of rain that fell were noticeable for their brightness, and were shown up brightly by the frequent flashes of lightning which threw the outlines of all the down-town buildings into high relief against the cloud-darkened sky. The rain flooded every city street just as the theatre crowds were preparing to leave homes and apartments for the central quarter of the city and caught scores of persons en route.

The first warning of the approach of rain came about six o'clock, when the sky became overcast and bursts of thunder were first heard. Remembering the experiences attendant upon former electrical storms this summer, the herds of factory and office employees issuing from their places of work at that hour lost no time in getting aboard street cars, hoping that the "juice" would not fall before their corner was reached.

No Hitch in Cars.

But the general expectation was disappointed, all precedents were falsified, and the Toronto public experienced the novelty of seeing cars running and lightning flashing at the same time. And even when the storm had broken in earnest there was no hitch. Telephones became useless, telegraph lines went down, putting a stop to all communication over the wires for some time, but thru it all the street cars made their regular trips.

Several fire calls were sent in during the time of the storm, and although in several cases there was no serious damage, a little broken glass, considerable loss was sustained by some of those owners who were unfortunate enough to have their properties struck by lightning.

The Victoria Presbyterial Church on Annette street suffered most. A point of lightning struck the spire, glanced downward and tore a hole in the roof. Several trees which stood in front of the church building were struck and limbs were split off.

A brick building at 553 Gladstone avenue, owned by M. J. West, sustained damage estimated at about \$75 when it was struck by a shaft of lightning. The residence of Dr. Risk at 590 Yonge street and that of L. Lafsky at 410 Euclid avenue were struck and damage to the amount of \$50 resulted in each case. What makes the damage done by fire was prevented by a casual passer on by Wilton avenue, who saw what he considered an excessive amount of smoke coming from the chimney at No. 44, and turned in an alarm.

Ball of Fire.

The men on duty at the city morgue declare that when the storm was at its height a ball of fire, which had been conducted from the roof along the iron rod which serves as a lightning protector, darted into the office thru a partially open window, and glided across the floor, being spent before it reached the opposite wall.

After the storm had reached its climax it stopped suddenly, leaving the air cool and sweet.

Telephone Wire Down.

For two hours following the storm the telegraph service between Montreal and Toronto was completely interrupted, the wires being down at several points east of Toronto. The lines south of Buffalo and Syracuse were also affected, so that the Canadian Pacific and Great Northwestern found great difficulty in getting in communication with cities in the United States. The storm seems to have swept thru eastern Canada, and the New England States and to have cut the telephone large and telephone service over a large area at about the same hour in the evening.

Hughes Not Snubbed By Kaiser

LONDON, Sept. 5.—(C. A. P.)—Telegraphing this evening from Oxford, where he is the guest of Hon. Lewis Harcourt, Hon. Sam Hughes, Canadian minister of militia, authorizes the Canadian Associated Press to say that there is not a word of truth in the report appearing in Canada, that he has been refused permission to attend the German army review, and that his arrangements are unaltered.

MILTON ANXIOUS FOR HYDRO POWER

Deputation of Manufacturers Asked Hon. Adam Beck to Rush Transmission Line — Town of Russell Asks for Estimates, and Smith's Falls is Getting Into Line.

The Town of Milton is the latest convert to public ownership, and now that the town men have decided upon the installation of electrical power, they want the hydro-electric in a hurry.

A delegation of manufacturers, headed by the mayor, called upon the Hon. Adam Beck, chairman of the Ontario Hydro-Electric Commission, yesterday afternoon asking for the immediate equipment and erection of a line to carry four or five hundred horse power to their town.

An agreement has been drawn up by the parties representing the town and the Hydro-Electric Commission which will facilitate immediate action as requested. Work will be commenced at once on the extension of the Brampton line and the town council will give the necessary bylaw two readings before submitting it to the people. The installation will cost approximately \$25,000.

The commission is also in receipt of a request for estimates on 1500, 1000 and 750 horse power to be supplied to the Town of Russell. The installation of hydro power in this township will necessitate the extension of the Morrisburg, Prescott and Brockville line.

A deputation from Smith's Falls also waited upon Hon. Adam Beck asking for particulars and estimates on hydro power.

WIFE FOUND DEAD AGED HUSBAND ARRESTED

Mrs. John Bateman Discovered in Burning Home in Oshawa Suburb; Death Having Resulted From Blows on Head — Husband Offers Little in Explanation.

OSHAWA, Sept. 5.—(Special.)—Perseverently refusing to throw light on the death of his wife, aged 78, who was found dead on the floor of her bedroom at Cedarvale, a suburb, this morning, John Bateman, an aged tailor, formerly of Toronto, is held by the police here pending a full investigation. Crown Attorney Farewell of Whitchy was here this evening and will be present at a request to be opened on Monday night next.

Noticing smoke issuing from the Bateman house about 7 o'clock, a boy employed in a grocery across the street, gave an alarm, to which both the police and fire department responded. The fire was speedily put out, and Constable Stevens discovered the body of Mrs. Bateman stretched out on the floor. A search for Bateman was begun, and later the man was found calmly seated in the police station.

Home Life Unhappy.

Bateman, who is 77 years old, makes no attempt to explain the wounds on his wife's head, the injuries being apparently the result of a blow with a heavy weapon. He freely admits that his married life was very unhappy and marked by frequent violent quarrels. He says the blow was caused by the overturning of a lamp, over which his wife was cursing her hair.

Bateman has, however, been regarded as of excellent character, and is strictly abstemious in habits.

Before coming to Oshawa nine years ago, Bateman lived for about 40 years in Toronto, for the last fifteen years being on Sullivan street. The murdered woman was his second wife, married before he came here. By his first wife, Bateman has two sons and two daughters. One son, Frank, lives at 8 Leonard avenue, Toronto. P. C. Walter Bateman of Payne avenue station, Toronto, is a nephew.

BRITAIN'S GIFT OF AUTONOMY SEALED TIES OF AFFECTION

Western Wheat Crop 180,000,000 Bushels

WINNIPEG, Sept. 5.—(Can. Press)—The Northwest Grain Dealers' Association issued today the following estimate of the 1912 crop for the three prairie provinces, as follows:

Wheat—10,584,000 acres, at 17 bushels per acre, 179,828,000 bushels.

Oats—5,245,000 acres, at 42 bushels per acre, 220,290,000 bushels.

Barley—1,500,000 acres, at 32 bushels per acre, 48,000,000 bushels.

Flax—1,110,000 acres, at 11 bushels per acre, 12,210,000 bushels.

The final estimate of the wheat crop of 1911 gives 177,109,000 bushels, and shows half a million bushels still in the farmers' hands.

Sir George Reid Sympathizes With Honest Efforts of Germans, But British Navy Must Stand Supreme—Mad Race Will Denaturalize Human Nature.

An impressive and eloquent contribution was made yesterday to the numerous public speeches with regard to the danger of the British Empire and the reality of the German menace. Sir George H. Reid, the high commissioner for Australia in London, addressed the Empire Club at McConkey's, the chair being occupied by the Lord Bishop of Toronto. Among the many prominent men present were: Sir James Whitney, the Lord Bishop of Montreal, Hon. J. J. Foy, N. W. Rowell, F. B. Fetherstonhouse, J. Castell, Hopkins, Rev. T. Crawford Brown, E. M. Chastelain, K. C. Dr. Clouse, Dr. Ham, Dr. D. J. Guggin and R. S. Neville.

Australia and the Empire.

Sir George H. Reid said: "I am extremely grateful for the warmth of this friendly and fraternal demonstration. The subject I have chosen is 'Australia in her relation with the British Empire.' Together Canada and Australia represent seven million square miles of British territory, or seven-twelfths of the whole of the British Empire. During the early relations between Great Britain and Australia, and for many years after 1788, when the first white settlers established themselves, the affairs of the colonists were administered by a governor, whose authority was all-sufficient. After 1801, a secretary of state in London. In these days, London was at an 'immense distance' from Australia, the seas unknown, the science of steam navigation undiscovered. Contrasted with the month's voyage of to-day, the early pioneers had no certainty of reaching Australia, and were very much in the hands of the sea. Now, each Australian-bound emigrant cherishes a secret hope of returning to the motherland, when he sees the coming of the day in front, and experiences a sad feeling of exile as he leaves his native shore behind him.

Gift of Self-Government.

"In 1855, one of the noble conceptions of Britishers, which ought to make the British Empire immortal, was the gift of self-government to the British colonies. Australia. To some it may seem a matter of course that this meant the severing of the connection with Great Britain, and the official tie disappeared. But the miraculous happened, for as each chain was broken, the ties of affection between Australia and the homeland increased.

"In my boyhood, I remember that many of the colonists regarded this close connection as a dangerous fetter. They were those who indulged in dreams of a republic. Today the people of Australia have a true conception of the benefits which accrue from their relationship to the old country, and there is nothing through the peoples, vast and scattered as they are, and a sentiment of gratitude for the magnificent power which has watched over the growing growth of Australia. There is a sense of appreciation of the smallest bit of bunting which has come down to us thru the years, enabled us to sleep safely in our beds, and rendered the present pleasant, and our future safe.

Ten Years Ago and Now.

"Ten years ago the British fleets asserted an unchallenged supremacy over the oceans of the world. It is not a matter for the people of Australia alone. This necessary overwhelming superiority of the British fleet is not a task for the North Sea, the south, the east or the west, but to guard the life-line of the commerce of all the continents of the globe. But during the last ten years there has developed a marvelous change. Navies of great strength and efficiency, based by the highest standard, a great people, sixty millions and more, one of the most advanced of the earth holds aloft the flag of the Germans—seek the extension of their already powerful navy. I have the warmest admiration for the German people of the same kind, and I am sure that they will not be less friendly to the British than to any other race.

Struggle for Superiority.

"The mad race in military and naval armaments is now on a scale that has never before been known. It is a struggle for superiority.

Continued on Page 7, Column 5.

CANADIAN BOYS WON KING'S TROPHY

Cadets From Nova Scotia Made a Whirlwind Finish of the Shooting Competition at Long Branch — Remnant of England Made a World's Record.

After a hard battle the Canadian cadets succeeded in winning the much-coveted King's trophy in the team shooting match at Long Branch rifle ranges yesterday. After falling down in some of the other contests, the team from Nova Scotia made a fine finish. What undoubtedly is a world's record was made by E. Remnant of England, who shot 21 shots in 30 seconds and had 20 hits. There has never been another score like this made. This range was 200 yards at the shoulder and head target. Knight of England had 19 hits out of 21 shots fired in 30 seconds. The range officers expressed their admiration at the wonderful shooting of the two boys.

Good Team Work.

The English teams had expressed the hope that they would be able to carry the cup back to England. Although several members of their teams were very far the best shots, their hopes were shattered by the great team work of the Nova Scotians. Next to Nova Scotia with 147 points ranked England No. 1 with 138. The others were: British Columbia, 135; New Zealand, 131; Manitoba, 109; Woodstock, 95; Australia, 92; Alberta, 73.

The best individual shots in each team were: England, C. Knight, 38; Nova Scotia, G. Stairs, 28; Manitoba, G. Stockwell, 28; British Columbia, R. Wallis, 27; England, H. E. Price, 25; Toronto, G. Webb, 24; G. A. Webb, 23; Woodstock, G. Brodie, 24; New Zealand, C. M. Smith, 23; Australia, A. Bretherton, 23; Catharines, Patrick, 16; Alberta, D. R. Smith, 13; Scotland, T. H. McIntyre, 12.

Lord Roberts Medal.

In the championship for the Lord Roberts medal C. Knight of England No. 1, was the best shot with the score of 38. Remnant fell down in the evening papers about the cadet trouble on Monday night was very much amplified. In referring to the work about the camp the major highly commended the Toronto cadets for the manner in which they worked to make every one happy. The majority of the cadets will break camp on Saturday or Sunday.

CADETS' PRIZES GIVEN TONIGHT

King's Trophy, Earl Grey Prize, and Lord Roberts Medal Will Be Presented to Boys.

Presentation of the Earl Roberts Medal, the King's Prize and the Earl Grey Trophy will be made to the winning corps of the cadets in competition in drill, shooting, etc., when they are paraded before the grand stand tonight in the cadets' tattoo. This according of honor where honor is due among these young soldiers of empire will be the crowning ceremony of the excellent work, which has been the greatest attraction at the big fair.

MANY ACCIDENTS DURING BIG STORM

Leonard Penney Struck by Motor Car Which Did Not Stop—Woman Also Injured — Wm. Fuerst Crushed Between Cars — Woman Stunned by Lightning.

Owing to the enormous crowd that thronged Toronto streets yesterday, the storm that came early in the evening and the oppressive heat all day, there were a great many accidents in the city.

Leonard Penney, 25 Golden avenue, while crossing College street yesterday afternoon was hit by a motor car near the corner of Teravay and suffered a severe scalp wound. The driver of the car, who he knew that he had hurt a man, put on greater speed after he struck Penney and got away before anyone had a chance to get the number of his car. Penney was taken to Grace Hospital and later to his home, 424 Walsh street, 22 bushels street, 30 years of age and a cook at the Young Women's Guild on Adelaide street, slipped on the wet pavement in front of her home last night and broke one of her hips. She was taken to St. Michael's Hospital.

Crushed Between Cars.

William Fuerst, 24 years of age, of 233 Arthur street, an engineer for the C.P.R., was crushed between two cars in the West Toronto yards last night. He was crossing the track when one portion of the train, which was being made up, was shunting into the other. He was caught and badly crushed when they came together. He was brought to the Western Hospital, where it is not known for a certainty just how bad his injuries are, although they are said to be very serious.

Mrs. Jane Purdy of 185 Dalhousie street, while getting off a street car at the corner of Springhurst and Dufferin streets fell from the car to the pavement and sustained several severe cuts and bruises. She was taken to her home.

Struck by Motor Car.

Mrs. Birch of 29 Fenning street, while wheeling her little child in a gocart along Church street attempted to cross near the corner of King when a motor car, owned and driven by William Golding of 15 Westminster street, struck her. The gocart escaped being hit. Mrs. Birch was thrown to the pavement and sustained several severe injuries. Dr. Rowe, West Queen street, attended her. She will recover.

PREVIOUS DAY'S ATTENDANCE OF 96,000 WOULD HAVE BEEN BEATEN BUT FOR EVENING STORM.

Eighty thousand folk saw the big fair yesterday, which went off with wonderful smoothness, despite the heavy storm, which struck just as the crowds were making their way into the grand stand and to the grounds for that purpose. Had it not been for this storm the attendance would have put down the record of the previous day's performance, nearly all the grand stand seats were put thru despite the storm. The track events, the musical ride and the chariot race had to be omitted, but the stage events and fireworks were given, tho' the fireworks had to be rushed on at the beginning of the program to beat the storm.

Fortunately the street cars stood up under the storm or there would have been grievous inconvenience. The hydro lights, as usual, came thru without a flutter. It was the hottest day yet up into the grounds, and this was to be expected, as the fair is held in the open, where great crowds gathered to watch the motor boat races.

It was Americans' Day, and everywhere there to be seen buttonhole flags worn for the country, or by Canadians out of courtesy. The Midway did a roaring business, both before and after the storm.

TRAIN WRECK AT MIMICO

Fireman John Doherty, 331 Sairleigh avenue, Mimico, of the Canadian Pacific Railway Exhibition special going west was fatally injured and the engine also was badly hurt when the special crashed into a light G.T.R. engine, No. 206, just 200 yards west of the G.T.R. Mimico yards at 11:05 last night. Luckily none of the passengers in the eight crowded coaches the special was carrying were hurt, altho all were badly shaken up and frightened. The fireman in all probability will die. His injuries are very severe. He was badly crushed between the tender and the engine, and was terribly cut. The engine was badly bruised, but was able to take the crippled engine back to the Junction yards.

The special had just left the Mimico yards and had not attained an excessive speed at the time of the accident. She was making about 20 miles an hour, and was rapidly gaining speed when the crash came. Without the least warning the light engine loomed up on the tracks. The engineer applied the air brake and reversed the throttle, but he was too close to the other engine to stop. Neither he nor his fireman had time to jump. They were caught like rats in a trap.

The night was clear, and the track is straight at the place where the two engines came together. No tail lights were showing on the engine ahead. That is why the engineer on the special did not get a chance to slow up before the impact came.

No satisfactory answer was forthcoming when the G.T.R. officials were asked what the light engine was doing on the main line when they knew that the C.P.R. special was coming along.

The fireman's legs were badly mangled, and he was otherwise bruised.

The C.P.R. train was delayed until 3 o'clock this morning. A new engine and crew were requisitioned from the Junction yards, and it was about four hours before the train was ready to recommence its journey.

When the impact came pandemonium reigned in the coaches.

GOVERNMENT MAY DISSIPATE UNEARNED INCREMENT GAINED FROM NORMAL SCHOOL SALE

Site Now Worth \$950,000 and Has Been Exempt From Taxation for 60 Years—Proceeds of Sale Will Go to Current Revenue Account and Not Capitalization—Sir James Whitney Not in Sympathy With Local Feeling.

Sixty years ago the Ontario Government paid \$18,000 for the seven and a half acres which form the Normal School grounds. In that interval the land has grown in value until it is now valued at \$950,000. The government has never paid any taxes upon the account of the growth of the city and the activities of the citizens around it. The government now proposes selling the property which has so long been dedicated to educational purposes for what it will fetch, and if the intentions of the government can be divined from certain utterances, the amount so acquired is not to be capitalized, but to be put into current revenue, and therefore dissipated.

Ryerson's Connection.

Egerton Ryerson is associated with the educational system of Ontario, and intimately connected with the grounds on Church street in life, by his work for Ontario education; in death, by his statue, which stands there as an honored monument. His present successor, Hon. Dr. Pyne, may have bigger plans under his hat than Egerton Ryerson ever had, but this move to sell the school grounds is not like Ryerson, and does not encourage any hopes in that direction. In fact, it rather raises fears that if a suitable offer is made, the Queen's Park will get the same way as the Normal grounds. Sir James Whitney, the resident in Toronto, is little in sympathy with Toronto local feeling. He brings the rural and not the city tradition to bear on the matter. Yet Sir James would hardly sell the old homestead. But he thinks nothing of selling Toronto's homestead.

The government should have found a better use for the grounds than to sacrifice it, if we may borrow the phrase of a contemporary, to the land-butcher. We have been told that the government has been very anxious to do something for technical education. The city has had a good deal of trouble about finding a site for the great technical school. It is intended to build the new school site to be one of the finest buildings in the city. It requires just such a site as the Normal grounds to display its architecture to the best advantage. It is too late to have the government reconsider its somewhat rapacious decision and come to some agreement with the city whereby the province may have a share in the technical institute that Ontario, as well as Toronto, so much needs.

No Taxes in Sixty Years.

The government's original \$18,000, had it lain in the bank at compound interest, would have grown to \$480,000 or so in 60 years. On the other hand, the city has claimed no taxes during that period. Even on the hardest cash basis the government might find a good deal to the city's credit. If the city saved anything on the cost of the site, the difference could be put into making a better building.

It has been decided to locate the Toronto Art School in the Normal buildings for some time to come. There will be other and plenty of uses to which the present buildings could be put, and we doubt if it is a provident policy to get rid of this junction of one of the best assets the government has, whether it be maintained as an educational adjunct or not. The one thing certain is that Toronto people are feeling vexed and hurt over the determination to sacrifice the old square.

KENNEDY'S BODY MAY BE FOUND

Brother and Undertaker Went to Rochester to Identify Remains Washed Ashore There.

The body of Daniel Kennedy, who was drowned while yachting in Frenchman's Bay, 20 miles east of Toronto, three weeks ago, is believed to have been washed ashore at Rochester, N.Y. His brother, accompanied by Undertaker W. K. Murphy, left Toronto last night for the purpose of identifying the remains.

CHATHAM TOWNSHIP FARMER VICTIM OF CHAIN OF MISFORTUNES.

Lightning struck a barn on the farm of 814 Napp, occupied by John Rumble, River road, Chatham Township, the barn, Rumble's summer crops and a valuable team of horses were destroyed by fire.

The Rumble farm is the one on which the famous dynamiting mystery of a couple of years ago took place. John Rumble and his family were thrown from their beds by an explosion that wrecked the house.

Last week the barn on Thomas Street, a next to Rumble's, was destroyed, with the contents, by a fire resulting from lightning.

MR. McNAUGHT'S BIRTHDAY

Today is W. K. McNaught's 57th birthday. The ladies will entertain him at a special luncheon in the woman's building at the Exhibition at 6 p.m.

SAFEBREAKERS AT WYBRIDGE.

WYBRIDGE, Ont., Sept. 5.—The general store of Nelson McRae at Wybridge was broken into thru the night. The safe in the office was broken open and the contents scattered about. The tools used in procuring an entrance were left behind, and the police are working on a clue.

CADET HAS TYPHOID.

J. G. Somerville, one of the New Zealand cadets, was taken from the Exhibition Grounds yesterday afternoon to the General Hospital suffering from typhoid fever.

\$500

ILLUSTRATED BIBLE

EDUCATIONAL BIBLE CERTIFICATE

TORONTO WORLD, SEPT. 6th, 1914.

ABRAHAM LINCOLN SAID: "NO LIBRARY IS COMPLETE WITHOUT TWO CERTAIN BOOKS—THE BIBLE AND SHAKESPEARE; HARDLY A QUOTATION USED IN LITERATURE THAT IS NOT TAKEN FROM ONE OF THESE WORKS."

The above Certificate with five others of consecutive dates Entitles bearer to this \$5.00 Illustrated Bible

If presented at the office of this newspaper, together with the stated amount that covers the necessary EXPENSE items of this great distribution—binding, clerk hire, cost of packing, checking, express from factory, etc., etc.

MAGNIFICENT (like illustration in announcements from day to day) is bound in full flexible limp leather, with overlapping covers and title stamped in gold, with numerous full-page plates in color from the world famous Tissot collection, together with six hundred superb pictures graphically illustrating and making plain the verse in the light of modern Biblical knowledge and research. The text conforms to the authorized edition, is self-pronouncing, with copious marginal references, maps and helps; printed on this bible paper, flat opening at all pages; beautiful, readable type. Six Consecutive Free Certificates and the

\$1.18 EXPENSE

The \$5 ILLUSTRATED BIBLE is exactly the same as the \$5 book, except in the title of binding which is in silk cloth, contains all of the illustrations and maps. Six consecutive free certificates and the \$1.18 EXPENSE items.

Also an Edition for Catholics Through an exclusive arrangement, we have been most fortunate in securing the Catholic Bible, Douay Version, endorsed by Cardinal Gibbons and Archbishop (now Cardinal) Parley, as well as by the various Archbishops of the country. The various illustrations consist of the full-page plates and maps approved by the Church, which are distributed in the same binding as the Protestant books and at the same Amount Expense Items, with the necessary Free Certificates.

Any Book by Mail, 23 Cents Extra for Postage.

Lads Obtain Liquor.
Two lads furnished liquor to other boys, and the result was that all became more or less drunk. Moss Park, on Sherbourne street, was where the liquor was taken to, and a stepson of the proprietor of the Boulevard Hotel obtained the buy from James Sullivan, a bartender. Sullivan was fined \$10 by Commissioner Starr in the juvenile court yesterday for the offence.

Norman Collis Breaks Leg.
Norman, son of William Collis, 74 Rhodes avenue, fell down the elevator shaft at the C. M. Gilmichael Co., 42 Colborne street, yesterday afternoon. He escaped with but a broken left leg. He was taken to St. Michael's Hospital.

Richmond Pleads Not Guilty.
Detective Tipton Says Prisoner Confessed to Stealing \$2,000 From Bank.

Arthur K. Richmond, the young teller of the Elm street branch of the Bank of Toronto, who was arrested some time ago on a charge of theft, was committed for trial yesterday morning and kept without bail. T. C. Robinson, K.C., appeared for him and pleaded not guilty. Detective Tipton gave evidence. He said that Richmond had told him that he had taken \$2,000 in all and that the entire amount had been lost on the race tracks, gambling. Richmond is charged with stealing \$2,000 in all and the police claim that he has admitted to the theft of all of this amount.

Four Murderers Are Reprieved.
OTTAWA, Sept. 5.—(Can. Press).—Four murderers under sentence of death have been reprieved by the government owing to the fact that the justice department has not had time to go into the cases and decide whether sentence can be commuted. John Cummings of Montreal has already been reprieved until Oct. 8. The other four are: H. Thompson, Sydney, to Sept. 20; F. Eberts, MacLeod, Alta., Nov. 4; Skiyoshk, Sarnia, to Nov. 12, and Takabloff, Sylvia, Montreal, to Nov. 15.

The Need of Relaxation.
How shall our colleges assist American youth to secure the art of relaxation and to obtain the ability to relieve the tension of the workaday world by beneficial and delightful relief from business strain? Such gifts will often be the chief assets of a college man's training. Business men and professional men, too, frequently reach middle life with no interest outside their specialties. When business is over, life is a blank. There are no eager voices of pleasant pursuits calling them away from the common round and routine tasks. It is too late to form habits. The rich rewards that education may give in leisure hours are lost, swallowed up by a thousand things that are merely on the way to the prize that count. This is a terrific loss, and for this loss our colleges are in part at least at fault.—Century Magazine.

Hamilton Wins Second.
BRANTFORD, Sept. 5.—Hamilton defeated Brantford here today in the second game of the post-season series. Ted pitching effective ball in the pinches for the Kolts. The score: B. H. E. Hamilton 5 12 4 Brantford 3 12 2

LOCAL SPEAKERS ARE ENGAGED
Toronto Social Workers Will Give Addresses at the Child's Welfare Exhibition.

Rufus D. Smith, secretary of the Charit' y organization Society of Montreal was the guest last evening of the Social Workers' Club at a tea in the Sherbourne Graduate Nurses' Club, 235 Sherbourne street.

Mr. Smith has been in the city for two days collecting material for the Child Welfare Exhibition to be held in Montreal from October 8 to 22. This exhibition is to be a thorough Canadian and will deal with every problem touching the welfare of the child.

The Canadian Conference of Charities and Correction will meet in Montreal during the first week of this exhibition, and promises to be one of the best attended in the history of this organization. Winnipeg and the west are sending delegates, as are also the Maritime Provinces, Toronto and all the larger centres in Ontario will have representatives.

Mr. Smith, during his visit to Toronto, secured as speakers a number of Toronto social workers, including Dr. Hastings, Dr. Bruce Smith, Dr. Gilmore, Commissioner Starr, J. J. Kelso, Dr. Helen MacMurchy, Miss L. I. Rogers and Miss Dyke.

HYDRO DEMONSTRATION NEAR BERLIN.
GALT, Sept. 5.—(Special).—Much disappointment is felt by farmers of this district at the failure of the hydro demonstration at Blair yesterday, when only part of the equipment was brought into operation. Hon. Adam Beck, who, with Mr. Clare, M.P., and Mr. Pattison, M.L.A., shared in the regret at the delay.

Today the whole outfit proceeded to the farm of John Stauffer, one mile west of Berlin, where preliminary preparations were made for a full demonstration which is to be given tomorrow.

BERLIN, Sept. 5.—(Special).—John Maxwell, ex-secretary of the cityhood celebration, and wanted here by the authorities for irregularities in his accounts when with the celebration committee, and who left here for Winnipeg to assume a position as advertising manager, is believed now to be in an Ohio town. He is badly wanted here.

"Does your husband know anything about baseball?" "Really, I don't know. He talks a great deal about it, but his remarks seem incoherent to me."—Chicago Record-Herald.

FRIDAY MORNING, SEPT. 6, 1912.

THE NEWS AND THE MELON

On Wednesday, August 14, it was announced from Ottawa that the Canadian Pacific Railway Co. had applied to the governor-in-council for permission to increase its capital stock to \$80,000,000. It was, at the same time, given out, and it has never been denied, that the company intended to allot the new issue of shares to its present stockholders at \$75, although Canadian Pacific stock was at that time selling in the open market around \$28.

FREE TRADE DEAD IN U.S. SAYS WILSON

NEW YORK, Sept. 5.—Gov. Woodrow Wilson, speaking at the workingmen's dinner here last night, boldly declared that free trade sentiment is dead in the United States. He said: "We once periodically all of us to go outside and then come in again and realize what is happening. So that when people talk to you about the danger of free trade and the folly of the free trader, do not be afraid that you will meet a free trader in the dark anywhere, because there is not any free trader who can get abroad in America at present. All that we are concerned with, therefore, in considering the policy of protection, is relative freedom in trade."

Schaefer's Theory Keenly Debated

Contention That Life Can Be Produced by Chemical Action Stirs Fires of Controversy. LONDON, Sept. 5.—(Can. Press.)—Professor Schaefer's declaration that life can be created by chemical action has caused widespread discussion, and controversy among scientists and laymen. Newspapers throughout the country comment on the theory of the president of the British Association, surmising that it will prove a topic of bitter argument. They compare it with the epoch-making theories of Charles Darwin and Thomas Huxley on the evolution of man.

TRAMPS MURDER CONSTABLE

CALGARY, Alta., Sept. 5.—(Can. Press.)—Special Policeman Robert G. Macintosh of the Canadian Pacific Railway was murdered about ten o'clock last night, presumably by tramps, in the C. P. R. yards. Macintosh was found lying in the shadow of some building, unconscious, with his revolver still tightly clasped in his right hand.

DUKE URGES MIXED FARMING

RED DEER, Alta., Sept. 5.—(Can. Press.)—Replying to a civic address, the Duke of Connaught said in part: "I feel that mixed farming should play a far larger part than it does in the prosperity of the country, and that it is only by its development that the cost of living will be kept within bounds."

H. L. DRAYTON AT OTTAWA

OTTAWA, Sept. 5.—H. L. Drayton, K.C., successor to the late Judge Macbee as chairman of the Dominion Railway Commission, has arrived in Ottawa and taken up his new duties at the offices of the commission. He will preside for the first time at a sitting of the board to be held on September 17.

NO BLEEDING

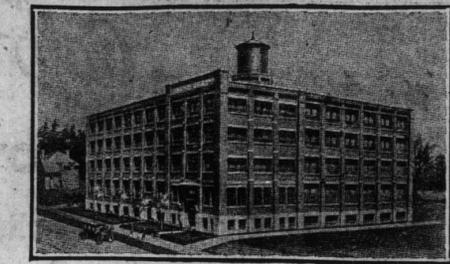

Some people think it is clever business to get as much as they can for any article they sell. It may be smart, but it is not honest. We only ask what our Jewellery is really worth, and you are therefore safe in buying from us.

WANLESS & CO.

Toronto's Oldest Jewellers.

tion of county liabilities, street lamps

and work of sewerage, paving and flagging, are not included in assets. Another statement shows that the net payments from 1911 to the date of the accounts total over \$17,000,000 on account of street improvements. All that is included, however, in the balance sheet is only vacant and surplus land available for sale. For the year, the total receipts exceeded the total payments by upwards of \$200,000, a surplus rendered possible by the profits of the municipal business enterprises. With a total turnover of \$78,000,000 odds during the year, it is evident that administrative ability of a very high order is required in every department. Manchester has been able to secure that it is forthcoming in the service of the community. That experience is common to all British cities, and is so because as responsibility has increased, so has the calibre of the men attracted to public life. Mr. Chamberlain in a notable speech once declared that the honor coming to men serving their own communities was in many ways superior to that offered in parliament. He knew, for he had tried both.

THE CIVIC ABATTOIR.

Editor World: We have read with interest the letter of the Harris Abattoir Company, appearing in yesterday's issue of your paper, and since they have taken up the question of the civic abattoir from the standpoint of the abattoir companies now doing business in Toronto, we have thought that the position was an opportunity to make some statements in connection with this matter.

We are not particularly interested as to whether or not a civic abattoir is established in Toronto. We are, however, interested to the extent of being desirous that the civic abattoir, if established, should be located in a situation which will be in the best interests of the trade and of the ratepayers, whose money will be employed in its construction.

When our company decided, some eight years ago, to enter into the packing business on a large scale, the most careful consideration was given to the question of the best location for our plant. At that time West Toronto was a new suburb, and a very advantageous location as it does at the present time. Its roadways, sewers, street railway accommodation, railroad accommodations, and other conveniences necessary to the proper conduct of a business were in a primitive condition at that time.

At the same time the postmaster-general is permitted, with the consent of the interstate commerce commission, to change the rates and zones at any time when experience shows that it is necessary.

Indemnification for packages destroyed or lost in the mails is provided for, and there are arrangements for the collection of the price of the articles mailed as well as of the postage. These are very distinct advantages over the measure as it was first advocated by the senate and are largely due to the support which the house gave to the Moon bill.

Finally, a joint commission of street and water works has been appointed to study the working of the entire system and make such recommendations as their investigation seems to warrant.

The one positive assurance of the measure here considered is that we are to have a parcels post in the United States. The rates of postage and the basis upon which they are fixed are not finally decided. Neither is the full scope of the service outlined. These are matters which may be adjusted only in the light of experience.

The parcels post itself, however, is to stand. Here, as elsewhere, to inaugurate the system is to measure its permanency, for once in possession of the service which it renders, no civilized people will ever consented to dispense with it.

The fact that two large American packers and one of the largest Toronto abattoirs have since established themselves at West Toronto, shows conclusively the judgment of the packing trade on the question of location, and the city council, with the well advised not to run counter to this well defined movement of those who have made the meat business a lifelong study.

The fact intimated, that the Union Stock Yards Company are ready to offer the city a free site and representative in the person of the mayor of this city on the directorate of the Union Stock Yards Company, thus making the city, through its representative, fully acquainted with all the details of their business, should entirely remove the impression that the Union Stock Yards Company and the packers located there are antagonistic to the city. That there is any combination or working agreement among the parties interested in the packing business in Canada we most emphatically deny as far as our knowledge goes. This company has been owned and operated by Canadians during the forty years of its existence, is absolutely independent in its policy, and at the time we located in West Toronto the Union Stock Yards Company was owned by Canadian capital, managed by a board of Canadian directors, most of whom were, and are still, prominent in the commercial life of Toronto.

Gunn, Limited, Toronto, Sept. 4, 1912.

AT LAST.

Newark, N.J., Evening News.—A parcels post for the United States is an established fact. Congress has authorized it. The postmaster-general is busy with plans for its inauguration. Its career is to begin on Jan. 1, 1913—only a few months hence.

The system finally authorized is much more satisfactory than the most optimistic of us had expected. It is frankly experimental, and as such full of imperfections, no doubt, but it is infinitely better than the parcels post inaugurated to the rural free mail delivery service, that was in the mind of the postmaster-general when congress opened. It goes farther than the Bourne bill, which the senate enacted, and is more satisfactory than the Moon measure,

which the house proposed as a substitute. In point of fact, it is the Bourne measure, so amended as to add to the service which it contemplates and adapt it better to the unforeseen exigencies that may arise under conditions existing in the United States.

It bases rates upon the zone-system as follows: Each additional Eleven Pound, Pound, Pounds. Rural route and city delivery... 05 .01 .15

100-mile zone... 08 .04 .46 150-mile zone... 07 .05 .37 200-mile zone... 08 .06 .28 1000-mile zone... 09 .07 .18 1400-mile zone... 10 .08 1.00 1800-mile zone... 11 .09 1.11 Over 1800 miles... 12 .12 1.32

HYDRO-ELECTRIC IN MODEL COTTAGE

Electric Bell Summoned Guests to Electrically-Lighted Cottage Where Meals Were Served After Being Cooked on Electric Stove and Cooled in Electric Refrigerator.

A unique and exceedingly interesting social function, was held in the process building yesterday afternoon when Hon. Adam Beck, Ontario's minister of power, entertained Mayor Geary of Toronto's Hydro-Electric Commission, with Miss Wilks of Galt and Mrs. Crear of Hamilton, at an electric luncheon in the attractive little dining-room of the hydro-electric demonstrator cottage.

The meal was prepared by Mrs. W. I. Brown of Boston, who is in charge of this model electric cottage. The menu was an attractive one. Tasty tomato bouillabaisse was followed by a dainty lettuce salad; roast turkey with browned sweet potatoes and mashed white ones followed.

C.N.R. TERMINAL YARDS AT FALSE CREEK

Sir Wm. Mackenzie Returns From British Columbia Today — Railway May Spend \$10,000,000 on Yards at Vancouver — New Electric Service for Port Mann.

Sir William Mackenzie, president of the Canadian Northern Railway, is expected to arrive back to the city today from his trip to Vancouver, where he went in connection with the negotiations being entered into between the C. N. R. and the City of Vancouver, involving an expenditure of ten million dollars.

Terminal Yards. The C. N. R. have agreed to establish great terminal yards, if Vancouver will grant them a section of False Creek for this purpose. It is understood that when Sir William arrives here, it will be to bring word that these negotiations have been successful. Should this be the case, work on the great western project will be commenced before the close of this year.

By the terms of the agreement which the C. N. R. are entering into with the City of Vancouver, the C. N. R. is to establish a surplus service between Vancouver, New Westminster and Port Mann, build a four mile tunnel connection with False Creek at a cost of four million dollars, and also to spend four million dollars on terminal facilities, and will erect one of the finest freight depots in Canada, at a cost of \$1,500,000.

Big Distributing Point. It is pointed out that in this way Vancouver will become a great distributing point for wheat as Port Arthur and Port Arthur. In this connection the railway is to place a fleet of steamships on the Pacific, thus allowing Vancouver to handle the wheat benefit accruing to Canada thru the completion of the Panama Canal.

Should a start on the work be made before the close of the year, as is now practically assured, the complete project will be finished within five years' time.

It is again officially stated by the C. N. R. that Port Mann is to be the western freight terminus, notwithstanding, despite persistent rumors to the contrary.

CHURCH BOARDS TO A MARGAMATE

Presbyterian and Methodist Bodies Will Unite—National Convention in Toronto in 1914.

Toronto will be the scene of a national Methodist Sunday School convention in 1914. This was decided at the Methodist Sunday School and Young People's Societies Board yesterday.

A deputation from the Presbyterian Sunday School Board waited on the Methodist Committee to propose a federation of the work of the two boards. The deputation consisted of Rev. Messrs. McGillivray, McIntosh and Guy.

The proposal was formally received, and a detailed scheme will be marked out by the two executives. This prospective federation of these boards was announced in the World with that of the temporary college of the church union project early this year. Both were officially denied at the time, but as usual with the World's exclusive news announcements are now verified.

Rev. John Doyle's resignation as field secretary for Manitoba was accepted with a vote of thanks for his five years' service. Rev. Manly was appointed as his successor. Rev. F. Langford was appointed field secretary for Saskatchewan. The other field secretaries are Rev. F. L. Fawcett, Ontario and Quebec; Rev. J. P. Westman, Alberta and British Columbia; Rev. J. K. Curtis, Maritime Provinces and Newfoundland; Rev. S. Bartlett, Toronto, is general secretary, and Rev. G. T. Clemondin, minister secretary of the board. Rev. Dr. Cowan presided.

Representatives were present from all the conferences in the Dominion and Newfoundland.

Zoo Employees Risk Their Lives

Animals Are Not Always Locked in Inner Cages While Others Are Being Cleaned.

Had the bear which fatally injured Charles Seymour at the Riverside Zoo on Sunday been driven into the inner cage while the main cage was being cleaned the fatal attack could not have occurred. The bear which killed Seymour was a Russian male and was not driven into the inner cage as was usual. The evidence given at the inquest last night showed that the animal keepers to have been allowing the animals in the same cage with them if they were to take the risk that Seymour's death was accidental.

MORAL REFORM LEAGUE TO MEET

Rev. Dr. Shearer is Issuing Call to Annual Meeting of Important Council — Want to Prohibit Gambling on Race-tracks — Will Change Personnel of Ottawa Delegates.

Rev. Dr. Shearer, secretary of the Dominion Board of Moral and Social Reform, is issuing the call for the annual meeting of this important national council. The meeting has been fixed for Wednesday and Thursday, Sept. 25 and 26.

The board includes representative clergy and laymen from all the evangelic churches. Bishop Farthing of Montreal is one of its most active members.

Under Dr. Shearer's aggressive field secretaryship the board conducted a Dominion campaign for the prohibition of book making at race meetings, the agitation resulting in the enactment of the Miller bill under which a limitation of eight days is placed on race meetings with legalized bookmaking or the pari mutuels.

The chief feature of the annual meeting on Sept. 25 and 26 will be the adoption of plans for a year's educational campaign.

Changes in Personnel. In view of the change of government at Ottawa, and of the assurance of the active branches of the Dominion Board, Rev. Dr. Shearer is making changes in the personnel of the general committee are prepared with a view to rendering it more influential at Ottawa than as at present constituted.

100 Acres

of good fertile farm land, every acre workable, situated within fifteen miles from King and Yonge on a radial car line. Price, \$170 per acre. This is the cheapest farm property owned in Toronto. This price for a short time only.

Room 235, Confederation Life Building.

STANDING OF HOLDERS OF RIO AND SAO

There is considerable speculation in financial quarters just now as to the standing of Rio and Sao Paulo shares. The fact is that the Rio and Sao Paulo shares have refused to move in the market for exchange into Brazilian. The truth of the matter is that there is very little likelihood of any of the old scrips remaining outstanding, since it would be a rare case indeed when a shareholder refused to partake in the "main fest" provided for his benefit. Dividends will be declared as usual, but of course, the disbursement will go to the holding company, which will in turn declare dividends on its own stock issue. Presently the shares are being bought up by the holding company, and it is expected that the new certificates will be brought forward.

The Brazilian Tractor Light and Paper Co. has been formed to act as a holding company for Rio, Sao Paulo and Sao Paulo Electric, all of which will retain their individual existence. Dividends will be declared as usual, but of course, the disbursement will go to the holding company, which will in turn declare dividends on its own stock issue. Presently the shares are being bought up by the holding company, and it is expected that the new certificates will be brought forward.

Stocks developed an almost all-round firmness in the Toronto market on Thursday, the incoming of sustained buying orders establishing many of the prime favorites in the trading on the up grade. Speculation was only of fair proportions, but in consideration of the tightness of the money market and the restraining influence of the Exhibition, amounted to very satisfactory proportions.

The greatest strength was shown by Toronto Railway, which was more active and reflected more actual public interest than in a long time. The shares opened up half a point overnight at 114½, and then moved up steadily, gaining an additional 2 points at 116½. On the afternoon board the movement dwindled away and at the close the shares were on offer at 113, indicating a net advance of 3 points for the session.

The uplift in this issue inspired a firmer undertone throughout practically the whole list, but it was only in the three week ago. Steel Company of Canada was the only security to show weakness. These shares sold as low as 27, a decline of ½ a point for the day, and a new low record for the year of date.

NEW YORK, Sept. 5.—On a comparatively small volume of business, stocks today manifested a decidedly stronger tone than they have recently shown. The rise was slow, but practically uninterrupted, except in certain of the specialties which on previous occasions have recorded meteoric advances. Canadian Pacific, Union Pacific, St. Paul, Missouri Pacific and the Atlantic shares were most prominent features of the railway division, in which New York, New Haven and Hartford alone developed some heaviness. Among the Industrials, U. S. Steel, Amalgamated Copper, American Smelting and the equipment issues rose from 1 to over 2 points, while Petroleum and Texas Co., as well as a half score miscellaneous stocks ranged from 2 to 3 points. Money Share Easier. Money was less a factor, the rate for call loans only once approached 7 per cent. The high rate of 4 per cent, most borrowings being made at a shade under that figure. Time quotations were firmer, six month loans going to 5½ per cent, also down a shade, but less urgent. Since last Friday local banks have lost over \$4,000,000 to the sub-treasury, that sum just about representing the actual surplus reserves of the clearing house institutions. Exchange on Chicago today advanced 2½ per cent, suggesting a further outflow of money to the interior.

LONDON FEARS SURFEIT OF NEW STOCK ISSUES

LONDON, Sept. 5.—There was a good supply of money available today. Discount rates were harder. The stock market lacked vigor and further realization in unsettled British securities. The continent offered foreign shares, but Kaffirs and Diamond stocks closed stronger.

American securities were quiet and featureless, until the afternoon, when New York bought moderately and prices advanced a fraction over parity. The closing was firm.

BANK STATEMENT

LONDON, Sept. 5.—The rate of discount of the Bank of England remained unchanged at 4 per cent. Today, the weekly statement follows:

Item	Sept. 5	Sept. 4	Sept. 3
Circulation	£23,574,000	£23,100,000	£23,100,000
Public deposits	12,326,000	12,225,000	12,225,000
Private deposits	47,116,000	45,415,000	45,415,000
Government securities	13,287,000	13,287,000	13,287,000
Other securities	26,313,000	26,313,000	26,313,000
Reserves	33,207,000	33,207,000	33,207,000
