## OVER ATLANTIC IN FOUR DAYS

Important Scheme for Development  
 of All British Route to Far  
 East to Be Launch-  
 ed Soon.

## TO CUT IRELAND'S CORNER.

With 25 Knot Steamers Halifax Can  
 Be Reached in Four Days—  
 Six Million Dollars Cap-  
 ital Required.

(Canadian Associated Press Cable).  
 London, Jan. 8.—An important scheme  
 for the development of all-British  
 routes to the far east is likely to be  
 produced at the coming parliamentary  
 session.  
 Its object, says The Tribune, is to  
 accelerate the carriage of mail by es-  
 tablishing a packet station at a point  
 in the British Isles nearest Canada,  
 viz., Blackhead Bay, Mayo, where there  
 are a deep and spacious harbor, a dis-  
 tance of 250 miles from the nearest  
 way ferry and steamers to carry mails  
 and passengers across to Ireland.  
 It is stated that 25-knot steamers are  
 used, Halifax can be reached over the  
 route in four days. The capital re-  
 quired is £1,500,000.

## TROOPS FIRE ON STRIKERS THIRTY DEAD ARE COUNTED

Serious Disturbance Attends Labor  
 Dispute in Arizona Dis-  
 trict, Mexico.

City of Mexico, Jan. 8.—Belated re-  
 ports from the mill district of Arizona,  
 State of Vera Cruz, where rioting has  
 attended the strike of the textile work-  
 ers, indicate that the government is  
 now complete master of the situation.  
 To gain control of the rioters, how-  
 ever, it was necessary for the troops  
 to fire on the men. Thirty dead have  
 been counted, while over 80 are re-  
 ported wounded. It is believed that  
 the strike has been broken.  
 The mills where the trouble occurred  
 employ about 3000 men. On Friday last  
 it was announced that the strike of  
 the textile workers, which had spread  
 throughout the republic, had been  
 settled through the intervention of Pres-  
 ident Diaz and Vice-President Corrales.  
 The owner of the property thus far  
 destroyed is Eduardo Garcia, a citizen  
 of France. The trouble started on  
 Saturday morning, when 2000 workers  
 met in Rio Blanco near Orizaba, and  
 voted not to accept the award of Pres-  
 ident Diaz. Violent speeches were  
 made and the men arming themselves  
 with sticks and stones looted the com-  
 pany's store, destroyed it and confiscated  
 thousands of dollars in money and goods.  
 They then pillaged private houses and  
 government shops.

## CAP. PHILLIPS IS DEAD WROTE THE FLAG FOR ME

Well-Known Journalist Expires in  
 Ottawa Press Gallery.

Ottawa, Jan. 8.—John A. Phillips, a  
 former well-known journalist, and  
 known to the profession as "Captain,"  
 died at 9 o'clock to-night in the press  
 gallery of the house of commons from  
 heart failure.  
 He was born in Liverpool, England,  
 Feb. 23, 1842. He commenced his jour-  
 nalist career in New York, January,  
 1860, and in 1870 joined The Montreal  
 Star. He was editor of The Ottawa  
 Citizen for years, and then of the  
 Montreal Gazette for 14 years. He was  
 the author of many  
 short stories and an illustrated history  
 of Canada.  
 He also was the author of a patri-  
 otic song, "The Flag for Me." He was  
 president of the press gallery in 1896.

## NO PROFITS FOR S. A.

(Canadian Associated Press Cable).  
 London, Jan. 8.—Colonel Kitching, in-  
 terviewed by The Tribune, denied that  
 the Salvation Army is making a profit  
 out of its emigration scheme. He said  
 all the money received from this  
 branch of the work by way of profits  
 goes back into it, together with a con-  
 siderable amount of additional money.

## NOTHING LEFT.

(Canadian Associated Press Cable).  
 Amsterdam, Jan. 8.—Captain Rood  
 Stier declared in a statement that  
 Capt. Bernier discovered two boats be-  
 longing to Franklin at Erebus Bay  
 as only available remains: iron bolts  
 and parts of boat-hooks, had been  
 brought back to civilization by Gjoa.

## Father in Log Cabin Tells the Life Story Of Two Girl Forgers

Gertrude and Margaret Harris  
 Were Born in North York,  
 Near Newmarket, and Went  
 to School There—Came to  
 City Three Years Ago, and  
 Led Apparently Respectable  
 Careers—Had Been Visiting  
 Home Until Morning of Arrest.

### ELDER GIRL "GRACE CAMERON" OR TRYING TO SAVE SISTER?

"Say I'm sorry. Tell them how  
 bad I feel about it and that as soon  
 as they get out of this trouble I'll  
 always be glad to have them back."  
 Such is the message which the father  
 of the two girls now languishing  
 in jail upon several charges of forgery  
 yesterday implored a World reporter  
 to try and convey to the young wom-  
 en known as Grace Cameron and Ruth  
 Wilson.

GERTRUDE HARRIS  
 (Alias Grace Cameron.)

market, lives James Harris, the old  
 man who claims these girls as his own  
 flesh and blood.  
 He is unable to eat or sleep, and,  
 even worse, is unable now to wield as  
 he once did the ax, or use the cross-  
 cut saw, with which he has gained a  
 livelihood for himself, his sister-in-  
 law and his three youngest children.  
 Half a mile in the bush from his  
 little log shanty, a World reporter  
 found Mr. Harris, stripped to his under-  
 shirt and trousers, chopping logs into  
 cordwood. The snow was piled thick  
 on the ground and the air damp and  
 murky from the recent heavy rains.  
 "You don't need to tell me," he re-  
 plied when The World asked him if  
 he had two daughters in Toronto, "I  
 can't strike a blow every time I think  
 of it," he continued. Then raising his  
 head, he pointed to a few stumps

MARGARET HARRIS  
 (Alias Ruth Wilson.)

pieces of cordwood which constituted  
 his work for 123 years. He had spent  
 his years with hard work, he sat down  
 on a log, with his head between his  
 hands, and sobbed as if his heart  
 would break. His youngest son, a  
 boy of 13, who is the perfect image  
 of Gertrude, the elder of the two pris-  
 oners, tried to comfort him.  
 "I'm all right, Harry, don't worry,"  
 he muttered the old man, as he grasped  
 the boy's hand in his own. With an  
 effort he kept back the tears, while  
 his boy went and picked up his father's  
 coat. "Come home now, father,"  
 pleaded the boy and he put on his  
 coat and allowed his son to lead him  
 back to his cabin they call home.

The Two Sisters.  
 Here the old man related to the re-  
 porter the real history of his two eld-  
 est children, Gertrude and Margaret  
 Harris, who are down on the police  
 court register as Grace Cameron and  
 Ruth Wilson.  
 Either the police have laid the  
 charges against the wrong girl, and  
 Gertrude Harris is taking her  
 sister's place, or else their father has  
 made a mistake, for he claims that the girl  
 whom the police call Grace Cameron  
 is Gertrude, and that she did not mas-  
 querade under the name of Cameron,  
 but that it is Maggie, the youngest  
 girl, who has borne this alias through-  
 out their forgerly adventures. The old man  
 bases his claim on the fact that when  
 Gertrude was at home with him early  
 last week, a postcard came from a  
 doctor in Toronto for Miss Grace Cam-  
 eron, and this postcard was for his  
 daughter Maggie, the girl whom the  
 police call Ruth Wilson.

## Earliest Ice Break Up In 49 Years at Galt

Some Cellars Flooded Along Dam  
 —Electrical Steam Breaks Over  
 Galt—Kingston Harbor Open  
 and Many Sun Bathers Sit in  
 Parks.

Galt, Jan. 8.—The first installment of  
 ice on the dam came down this morning  
 at 7 o'clock, and a small-sized flood  
 is now in progress.  
 When the ice first broke up the water  
 reached a level to within 18 inches of  
 the top of the retaining wall at the  
 Knox and Central Church manses.  
 About 8 o'clock the flood began to di-  
 minish, and at noon the water had fallen  
 about 3 feet.  
 The cells of the merchants and resi-  
 dents on South, and a few of those  
 on North Water-streets, were flooded,  
 but beyond this little damage was done.

## CALL PARTY TOGETHER TO FRAME NEW PLATFORM

Kingston News Thinks This Time  
 for Heart to Heart Talk.

Kingston, Jan. 8.—The News to-night  
 calls on the Conservative leaders to  
 bring together a convention of the party  
 to consider a new platform. It says:  
 "It might be worth while for the  
 Conservative party of the Dominion to  
 arrange for a meeting at some central  
 point during the coming summer, and  
 consider the formation of a platform.  
 It is now some time since there was  
 such a general gathering, and in the in-  
 terval new questions have arisen, and  
 old questions may require restating.  
 The best time in which to do this is  
 between the general elections. Then  
 the head is likely to be cooler, and the  
 people can become familiar with the  
 various platforms before the election cam-  
 paign is on. Aside from these features,  
 it will be an advantage for the local  
 leaders to meet the Dominion and pro-  
 vincial leaders, to know of them by  
 personal contact, and to catch their  
 spirit. Half of the success of a battle  
 is in the careful and wise planning by  
 the generalists before the armies have  
 moved in the attack."

## PREFERENCE WHEN IT SUITS FIRST FOR PROTECTION

Ramsay MacDonald, Labor M. P.,  
 Gives Views of Australia.

(Canadian Associated Press Cable).  
 London, Jan. 8.—Ramsay MacDonald,  
 Labor M.P., asked by the miners of  
 Brokenhill, Australia, what he was go-  
 ing to tell the mother country concern-  
 ing the preference on British goods  
 given by Australia, said:  
 "You are prepared to give the prefer-  
 ence just when and where it suits you;  
 your idea of an economically self-con-  
 tained Australia is antagonistic to an  
 imperial preference in anything but the  
 name. The case for Australian prefer-  
 ence is incomplete till an industrial  
 census is taken, showing how much  
 high wages have increased the cost of  
 your production."

## HALF MILLION DAMAGE CLAIM

Dominion Iron and Steel Co. Files  
 Statement of Loss From Re-  
 cent Suspension of Con-  
 tract With Coal Co.

### VALUE OF 90-YEAR CONTRACT

Is Put at Fifteen Million Dollars  
 and Full Claim Almost Accounts  
 for Entire Capital of the Do-  
 minion Coal Company.

Montreal, Jan. 8.—(Special).—If the  
 courts allow the full damages claimed  
 by the Dominion Iron and Steel Com-  
 pany against the Dominion Coal Co.,  
 Mr. James Ross will have to hand over  
 the entire capital of his company save  
 about half a million.  
 The sum of \$400,000 is claimed for  
 damages to the coke ovens, furnaces,  
 loss of profits and increased cost of pro-  
 duction up to Nov. 20, 1906.  
 The sum of \$68,850 is also claimed  
 for the increased price of coal bought  
 from outside sources, and actually de-  
 livered to the Steel Co. up to Nov. 20,  
 1906.

In addition to the above claims, the  
 steel company asks that the value of  
 the 90-year contract to the steel com-  
 pany be assessed at the sum of \$15,-  
 000,000, and that the coal company be  
 held liable to the steel company in that  
 amount. The total amount of the  
 claims is, therefore, \$15,468,850.

## PERSIA'S SHAH IS DEAD ANNOUNCEMENT DELAYED

After Sunset Doors of the Harem  
 Are Closed, the Sign That  
 All Is Over.

London, Jan. 8.—The Daily Mail's  
 correspondent at Teheran, in a tele-  
 gram sent last night at 11.50 o'clock,  
 says:  
 "The Shah of Persia died this evening,  
 but no public announcement of the  
 fact will be made until to-morrow  
 (Wednesday). All the shah's vital  
 functions were suspended to-day, and  
 at 5 o'clock this evening the hair-ap-  
 parent and the ministers were sum-  
 moned. The women of the palace also  
 began preparations for mourning.  
 "Soon after sunset the doors of the  
 harem were closed. This was the sign  
 that all was over."

GOOD PLANT; NO BUSINESS.

But Cape Breton C. I. & R. Co. Will Reorganize and Do Things.

Sydney, N. S., Jan. 8.—(Special.)—The Cape Breton Coal, Iron and Railway Co., while undergoing an entire re-organization of affairs, have deferred the payment of the interest of bonds, which amounts to about half a million dollars.

The company has an extensive plant located at Broughton, and in connection with development work, there was erected one of the finest hotels in eastern Canada.

The streets were laid out in every direction and foundations of a model town laid, but the place still remained isolated with a railway communication, but no rolling stock.

For nearly a year now about 20 men have been kept busy working to keep the engines and boilers from rusting.

English capital will be interested in the re-organized company.

It is not correct that the steel company have taken an option on the property.

SKIN COVERED WITH SORES

DEFIED ALL REMEDIES FOR 7 YEARS, AND DOCTORS SAID, "NO CURE."

Yet Zam-Buk Has Completely

So powerful are the healing essences in Zam-Buk that in some cases which have been pronounced beyond relief they have worked complete cures!

Such an instance is just reported from Invermay, Sask. Mrs. J. M. McCormick of that place says: "About three years ago my face broke out in rough, red blotches, which burned and itched and smarted in turn almost beyond endurance. I commenced to try every known remedy I could get my hands on, but that I should have to wait until I outgrew the disease.

"Finally my husband sent for a supply of Zam-Buk. We applied a small sample to a small portion of the disease. To our delight, the portion treated with Zam-Buk very quickly healed. We then obtained a proper supply and began the Zam-Buk treatment. I am now delighted to state that after having used a few boxes, I am free from the old trouble and completely cured. I will never be without Zam-Buk in the house as long as I live, and to all who are troubled with skin diseases in any form I would say, waste no time in obtaining it in my own case I have obtained a supply for an old lady who had an ulcer on her leg for 30 years. Three boxes were sufficient to close the wound."

Zam-Buk cures cuts, burns, bruises, scalds, and all skin irritations, as well as skin diseases. Applied to eczema, scaly sores, pimples, poisoned wounds, children's rashes, ulcers, boils, abscesses, itching, sore backs, festering and discharging wounds, etc., it acts like a charm. Its antiseptic ingredients kill all germs, and prevent inflammation and festering. Then its healing powers come into operation, and build up new, healthy tissue. All druggists sell Zam-Buk. 50c. per box, or obtain Zam-Buk from The Zam-Buk Co., Toronto, for price; 6 boxes for \$2.50.

CAN'T TRUST THE COUNCIL TO MANAGE THE STREET RY.

Methodist Young Men Debate a Matter of Public Ownership.

"Resolved, that if the City of Toronto were to own and operate the present street railway system it would result in great benefit to the citizens."

This was the subject of debate with which four members of the Methodist Young Men's Association wrestled in the parlors of Trinity Methodist Church last night. For the affirmative, Mr. Patterson and P. G. might put up a strong fight, claiming that Glasgow, with its municipally owned street railway system, was better served than any city in the world.

The events of the last two weeks showed that the municipalities throughout Ontario were rapidly moving in the direction of public ownership. Municipal-owned street railway would not give worse service than the present company, who were systematically robbing the citizens by selling to a better class of aldermen, who are to provide seats.

The fact that the aldermen of the city were incompetent and could not be trusted to manage the Toronto street railway, and even if they could, the credit of the city would be ruined by an added expenditure of \$5,000,000, the valuation of the street railway. The bonds of the city would be worth \$26,000,000, and prudence counselled a halt.

NAVY LEAGUE PLATFORM.

Progressive Canadian Maritime Policy—Defence of Defence.

In view of the imperial conference next April, the Toronto branch of the Navy League are endeavoring to add to their membership.

The attitude of the league is that, pending the consummation of a general scheme of imperial defence, any proposal for mutual co-operation between the mother country and the self-governing colonies must recognize as a fundamental principle that, in providing for mutual defence, whether by material, the colonies must proceed along the lines of their own national growth in such a way that the means to be provided by them shall be so organized as to be interchangeable, and in the event of a general scheme of imperial defence, the colonies, on one supreme command in war.

HAMILTON HAPPENINGS

STEWART 923 TO THE GOOD SPECULATION ON CABINET

Ald. Macleod Is to Be Chairman of Finance, While Labor Man Can Have Something.

Hamilton, Jan. 8.—(Special.)—Ald. Stewart's plurality, according to the official figures, over Ald. Findlay is 923, and over William Barrett, 2238, and his majority over the two candidates is 13. One popular plank in the platform he is pledged to is a reversion to the ward system of electing aldermen. There was a great deal of delay around the polling booth, and the aldermen, who are to be elected, were not present at the meeting.

Change of Venue.

The Cataract Power Company has secured a change of venue for the trial of two damage actions against its railway, on the ground that it could not get a fair trial in Hamilton or Wentworth County.

Hamilton Presbytery.

At a meeting of the Hamilton Presbytery, it was arranged that the industrial of Rev. Donald J. Macdonald, pastor of Haynes-avenue Church, should take place on Jan. 23.

Notes.

I will open an up-to-date Barber Shop in room 6, main floor, Federal Life Building, on Jan. 15.

WATCH THE NEW ALDERMEN.

Hamilton Herald: There is no doubt whatever that Ald. Stewart's record of steady opposition to the schemes of the Cataract Power Company strengthened him greatly as a candidate, while some of the votes given by Ald. Findlay, indicating as they did a certain degree of subservience to corporation influence, weakened him.

**DEMAND FOR HOUSE ROOM SHOWN IN LACK OF APPEALS**  
 Only 25 Applicants for Rebate of Taxes Thru Vacancy Stipulations.  
 Despite the great building operations that have been in progress in Toronto during the past 12 months, there is no apparent flagging in the demand for houses.  
 The fact that Toronto has not yet begun to be overbuilt was strikingly emphasized at the meeting of the court of revision called yesterday to listen to the applications for rebate of taxes. Under the existing law of assessment, owners of buildings, whether stores, factories, devoted to offices or private residences, which have been vacant for three months or more, are exempt from paying a portion of their taxes, running on a graded scale up to exemption for seven months, when a property has had no tenant for an entire year.  
 Out of the whole city, there were only 25 applicants who presented themselves, or one less than last year. There were nine or ten other appellants who failed to appear. The total amount of remission granted came to about \$1500, practically the same as for 1905. There were about 86 properties involved, the majority being in the central section and rated as office buildings, rebates being allowed on portions of the building that had gone unoccupied. Outside of the downtown district, the sixth ward had the greatest number; the majority of claims being made on dwellings above stores on West Queen-street. There were also several of York Loan properties, J. J. Walsh appearing on their behalf.  
 The owner of the Toronto Church School property, 31-29 Alexander-street, was represented by Solicitor Fowler, who asked for a 7-months' rebate. The property is assessed for \$12,775 and has been unoccupied for a year. The court adjourned consideration till Jan. 22.  
**Houses at Jail Now.**  
 The evil of overcrowding at Toronto jail has ceased to exist. Such is the statement made by Steward John McMillan in his annual report. The number of prisoners committed during the year was 3507, for an aggregate length of custody of 71,473 days, while the daily cost of rations for each prisoner was 71-5 cents per day. The total cost of the jail maintenance was \$20,490.53, exclusive of the cost of a new 70 h. p. boiler. In fines \$4400.25 was received.  
 The relief from overcrowding is due to the weekly removal of Central Prison convicts and also of juveniles. As to complaints of grand jurors and magistrates, the jail is not well equipped, Mr. McMillan asserts that the jail is more sanitary, better heated and generally better equipped than ever before, to his knowledge, while repairs and improvements have been made.  
**Car Route Changes.**  
 Rumblings of discontent among street railway employees, due to the reduction in the number of cars in operation since the loops came into use, with a consequent laying off of men, continue to be heard.  
 While the manager does not admit to be so, it is calculated that the company saves daily over 1000 miles in haulage.  
 The street railway will start running Dupont-street and Avenue-road cars around Scott-street loop today. Manager Fleming says two extra cars will be added during the rush hours, when the loop will allow a 3-minute service.  
**Assessment Notices.**  
 Assessment Commissioner Forman is having duty time preparing notices of assessment on incomes to be sent out. He expects to have them ready in another week.  
 The building permits issued by the city architect from January 1 to January 8 totalled \$387,150. This big item included \$250,000 for the new reference library, the corner-stone of which building was laid several weeks ago.  
 The United Empire Lumber and Mill Company five-story brick factory at the corner of Queen and Crawford-streets. In the list of permits is also the new Empire Lumber and Mill Company, near Cottingham-street; 19 dwellings, a show-room, and alterations to a dwelling.

**HOW ELEVATED RAILWAY WOULD SOLVE EXHIBITION CAR PROBLEM**  
 By Means of an Inclined Track on Dufferin Street, Service Could Be Provided Thru the Grounds and Continued East to Strachan Avenue That Would Benefit Passengers and Company Alike.  
 Is this the longed-for solution of the exhibition car services problem? The suggestion given below in a letter from J. H. Duthie not only seems to provide the necessary transportation facilities, but also adds the added feature of novelty for thousands of those who attend the fair. Mr. Duthie writes:  
 An improvement in the street car service to and from the exhibition is a necessity, but there appears to be some difficulty in determining the method by which it is to be secured. It has occurred to me that perhaps an elevated railway would provide a satisfactory solution of the problem, and would suggest the following plan for the consideration of the city council. Starting at a point on Dufferin-street, south of King, the cars could be run up an inclined plane until the necessary height was obtained, continued south on that street to a point below the present entrance to the exhibition, then turned east and run through the exhibition grounds as an elevated railway to the east end, and from there north, reaching the level again over the Strachan-street bridge or other route that may seem advisable, starting from the east end of the grounds. The inclined plane on Dufferin-street should be made a two-track line, but if thought advisable three or four tracks might be run thru the grounds proper, and with several stations erected within the exhibition grounds, the crowds could be handled safely and expeditiously. The advantages offered by this plan would be:  
 1 Harbor was properly equipped with life-saving appliances, etc.

**HERE'S THE SECRET OF STRENGTH**  
 Do you sometimes wonder why you are not as strong as others, and why you can't put through as much work as they do? It is no wonder to me. You lack a full supply of electricity. Electricity is life itself. It is the foundation of muscular, nerve and mental energy. Lack of electricity is shown in weakness of any organ of the body, in Backache, Lumbago, Rheumatism, Nerve Weakness, Indigestion, Stomach, Kidney and Bowel Troubles. Why? Because the nerves control the organs and muscles and electricity supplies to the nerves the power to control. Electricity is nerve food. When the supply is less than necessary the nerves become weak and the organs perform the functions in an irregular manner.  
 The secret of strength, then, is plenty of electricity in the human body. Keep it full and every organ will do its duty, pain and weakness will disappear.

**HEALTH IN THE HOME.**  
 Dr. Oldright Gives Some Suggestions to Members of the C.H.E.A.  
 In the theatre of the normal school yesterday, Dr. Oldright lectured under the auspices of the Canadian Household Economic Association on "Health in the Home."  
 "Nothing," he said, "is so essential as pure air and plenty of it. Every man, woman and child required every hour some 2000 cubic feet of air, and in order to obtain this one-half inch of space at the bottom and top of a window would be found effective. If the sleeping-room contained more openings even better results would be obtained. This was essential in view of the gas from stoves, furnaces and shower traps, which last were, unless in first-class shape, a menace to health.  
 The president, Mrs. Heustis, was in the chair.  
**Alleged Theft of Shoes.**  
 Harry Barnett, 27 Concord-avenue, was arrested last night on the charge of stealing three pairs of over-shoes, eight pairs of tan boots (Strathcona), found in his house. Detectives Archibald and Butts were searching for these stolen goods and ran across them in a woodshed. Barnett says he got them from an unknown man.  
**Robbed His Chum.**  
 Fred Kuplitz and John Jansko were working together as laborers at Ontario. Kuplitz came to Toronto and after his departure Jansko missed his watch and chain and \$45. He followed Kuplitz and Detective Kennedy arrested him. He was wearing the watch and chain.

THE CANADIAN BANK OF COMMERCE

Report of the Proceedings of the Annual Meeting of Shareholders Held Tuesday, 8th January, 1927.

The fourth annual meeting of the shareholders of the Canadian Bank of Commerce was held on Tuesday, 8th January, 1927, at 12 o'clock.

The directors beg to present to the shareholders of the bank a report covering the year ending 30th November, 1926, together with the statement of assets and liabilities.

Table with 2 columns: Description and Amount. Includes items like 'Balance at credit of profit', 'Net profits for the year ending 30th November, 1926', and 'Dividends on 78 and 70'.

Table with 2 columns: Description and Amount. Includes 'Notes of the bank in circulation', 'Deposits bearing interest', and 'Other current loans and discounts'.

The statements of the bank which have been laid before you, as you will remember, are the result of the audit by Messrs. B. E. Walker & Co., Chartered Accountants.

You will observe that we are reporting a profit of 14 per cent on the capital employed, which is a very satisfactory result.

The annual dividend of 7 per cent, a dividend of 1 per cent, making the total dividend 8 per cent, and the payment of the same to the shareholders.

der the name of the Dominion Realty Company, Limited, which contracts and owns the main building. This company provides a certain percentage of the total cost of the building.

The increase of \$300,000 in the amount of the loan during the year is attributed to the purchase of property in Montreal and the erection of a building in 1926.

In accordance with an agreement made between the bank and the Dominion Realty Company, the bank has agreed to purchase the property in Montreal.

The directors have approved the report of the president and the statement of assets and liabilities, and have recommended the payment of a dividend of 7 per cent.

The president, Hon. George A. Cox, has been re-elected for the year ending 30th November, 1927.

The directors have also approved the report of the president and the statement of assets and liabilities, and have recommended the payment of a dividend of 7 per cent.

The president, Hon. George A. Cox, has been re-elected for the year ending 30th November, 1927.

The directors have also approved the report of the president and the statement of assets and liabilities, and have recommended the payment of a dividend of 7 per cent.

### BRITAIN IS TO TAKE LEAD IN THE PURSUIT OF PEACE

#### Will Bring Forward Proposition Towards the Maintenance of Perpetual Amity.

Paris, Jan. 8.—Wm. T. Stead, the well-known English journalist, who arrived here yesterday, says in an interview, that he is on his way around the world in the interest of peace.

He further declares that he is authorized by the British premier, Sir Henry Campbell-Bannerman, to say that Great Britain, if no other country do so, would at the approaching second peace conference at The Hague, raise the question of taking steps to provide for the maintenance of international peace.

Mr. Stead says this will be done in the form of two propositions, as follows:

(1) That each country participating in the conference appropriate a sum of money to be used in the propagation of the idea of maintaining international peace.

(2) That each country participating in the conference render obligatory the observance of the article of the act of the peace conference of 1899, permitting arbitral power to tender mediation, without giving offence between two disputing powers, and also that the participating powers extend the scope so as to bid the signatories, in case of a declaration of war, not to begin hostilities for a fortnight, in which interim friendly powers would have the right to intervene in an attempt to adjust the quarrel.

### CAN CHARGE DOUBLE FARE.

#### Decision in the B.R.T. Case Upholds Contentions of the Company.

Albany, N.Y., Jan. 8.—The court of appeals to-day decided in favor of the Brooklyn Rapid Transit Company, the case involving the right of that company to charge a double fare (10 cents) from central points in Brooklyn to Coney Island.

In the opinion of Judge Haight, the court holds that the charters of the originally steam railroads operated by the Brooklyn Heights Road do not require it to charge but one fare; that the charters of the steam roads permitted them to charge three cents a mile, and this permission is still operative; they are not "street surface railroads," within the meaning of the statute limiting such to one fare.

"Nor do we think," says the opinion, "that the defendant in dispensing with steam as a motive power, and substituting electricity, affected the situation or changed its right so far as the question of fares is concerned. Such change has been authorized under general laws, and by complying with the requirements of the statute with reference thereto it may be lawfully made."

### THE MINIMUM SALARY.

#### Rev. Mr. Ruddell Writes Again in Reply to Dr. Sutherland.

Rev. T. W. Ruddell of Sturgeon Falls writes as follows: Editor World: Dr. Sutherland fences very adroitly to pull himself out of an untenable position, only to fall into a worse one. He is again mistaken when he says I have assigned to third parties. I have not done so, and do not intend to. Nor have I, directly or indirectly, agreed to settle any "debts contracted during the past year" thru the collection of arrears of salary. According to the doctor, I have to "take chances" on that. But I shall amply meet all those liabilities from a reserve of assets. He has been mistaken, and, as an honorable gentleman, I expect he will embrace the first opportunity of withdrawing the statement.

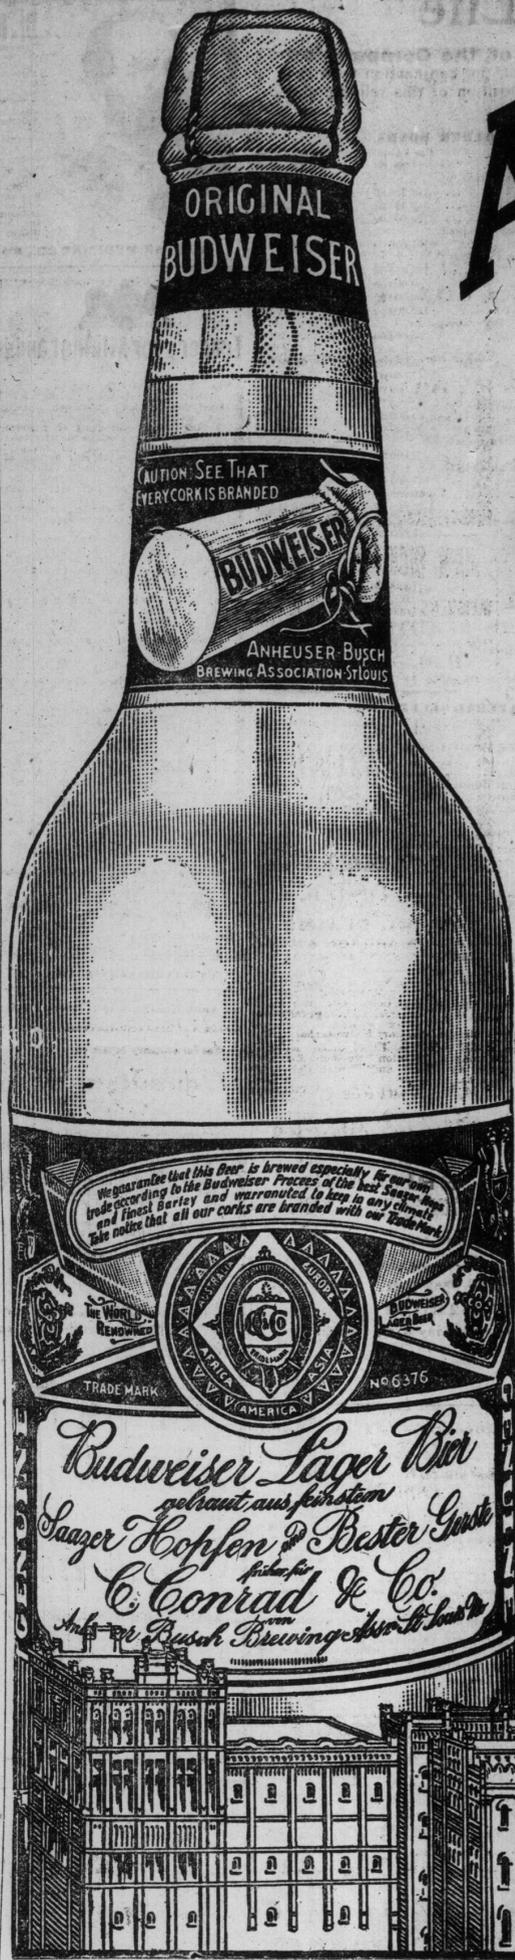

According to Dr. Sutherland's interpretation of the church law, a minister has "to take chances" on his salary. The famous footnote forbids Methodists "to play at games of chance." Much more are they to renounce the rule "of chance" in the conduct of business. The Christian philosopher rules out all play of chance from the cosmos, either in its creation or government. If the rev. gentleman has become a believer in and an advocate of chance, he has fallen in grace—is no longer a believer—in an supreme and intelligent ruler—is, in effect, anti-Christian. A chance salary will not pay the baker, the butcher, the grocer, nor any of a clergyman's legitimate expenses. In 1904 Mr. Chance gave Dr. Sutherland \$2000 salary, and the stingy old fool gave me only \$600. Living in Sturgeon Falls is 25 per cent. higher than Toronto; consequently, the purchasing power of \$600 in Sturgeon Falls corresponds with the purchasing power of \$450 in Toronto. Is it any wonder we are endeavoring to substitute the reign of law, justice and faithfulness to contracts for that of "chance"?

According to the rules of the Methodist Church for 1904, the clergyman's stipend is governed by the following rule No. 372: (2) "The minimum allowance for a married minister on a home mission shall be \$750 per annum, with a free house." This is a promise, a contract, a guarantee, according to the true and ordinary meaning of the English language, and any attempt at juggling the words to mean that, "a minister must take chances on his salary," as Dr. Sutherland says, or that "it is merely a standard suggested by the church to stimulate the generosity of the people," as Mr. Rowell, makes bad worse. The above regulation is a legal contract to pay the clergyman \$750 a year when he has fulfilled his appointment one year at an outpost of the church's service.

Sacramento, Cal., Jan. 8.—Governor Pardee, in his annual message, which was presented to-day to the legislature, devoted much space to the Japanese school question. "It is safe to say that the president, when he penned the portion of his annual message upon the opening of congress, in which he refers to the

treatment of the Japanese in the San Francisco schools, was not aware of the condition of the coast, and especially in California," said the governor. "In common with people of the east who have had no experience with unassimilable people of Japan and China, the president does not understand the racial differences between the Japanese and the Chinese and people of Caucasian blood. Coming in contact only with a few educated and intelligent individuals of these two races, the people of the Eastern States do not understand that to permit the immigration of only a small

fraction of the whole number of these people means the monopolizing by them of such pursuits as they may engage in." **ROCKEFELLER GIVES MILLIONS FOR PROFESSORS' PENSION FUND**

VISITOR FROM THE WEST.

W. Lloyd Rehill, formerly of Toronto, prospering in Saskatchewan. W. Lloyd Rehill, formerly of this city, but now a prosperous farmer near Lumsden, Sask., close to Regina, is spending the winter in town. Mr. Rehill and his brother are the possessors of a 1600-acre farm in Saskatchewan, from which they garnered 29,000 bushels of wheat last year. It netted them 68 cents a bushel. Both have been in the west four years, and Mr. Rehill reports that everything is prosperous in the western provinces. The railways are the only drawbacks now near Regina, as the number of cars for transportation purposes is limited.

Lumsden is in the centre of a wheat belt thirty-five square miles in extent, has 800 of a population and possesses a newspaper. There is a dearth of marriageable young women in the country there. There are quite a number of Ontario and Toronto people in and around Lumsden. This year will be a great one in the western provinces in railway construction work; five branches near Lumsden alone will commence operations as soon as the snow melts. An electric line from Regina to Long Lake, twenty-six miles in length, to accommodate summer tourists, will be built, and will be continued farther to Lumsden, seven miles from the lake. Mr. Rehill is past master of L.O.L. No. 412, past commander of Metropolitan Tent, K.O.T.M., and was a late member of Doric Lodge, A. F. & A. M. He is stopping at 1944 East Queen-street.

CHAMBERLAIN'S MESSAGE.

Sentiments should go straight to heart of every Briton. Canadian Associated Press (Cable). London, Jan. 8.—The Glasgow Herald, referring to Mr. Chamberlain's message to Canada in connection with the year's trade returns, says that consideration of the latter leads Mr. Chamberlain once more to emphasize the preference and to pass lightly over protection. "When trade is good, talk 'imperialism; when bad, talk protective duties," is the ingenious political version of "Heads I win; tails you lose." The Scotsman says the sentiments embodied in the message should go straight home to the heart of every patriotic Briton, and the paper asks: "If we continue to show no inclination to meet the approaches of Canada, can we depend upon the people of Canada maintaining their present attitude? The issue has never yet been fully raised in this country."

East Toronto. East Toronto, Jan. 8.—The preliminary investigation into the charges preferred against Thomas Davies, agent of the now famous "donkeys" case, which came to an abrupt termination thru the refusal of Constable Burns to testify before Magistrate Lyon in the Spruce-avenue firehall last night, will now be ventilated in another court. Constable Burns objected on the ground that Magistrate Ellis had not given his consent to Magistrate Lyon to try the case, while Nicholas Murphy, K.C., who appeared for Mr. Davies, withdrew from the case on the ground that the magistrate was not duly empowered, and in proof of his contention, read a letter from Crown Attorney Drayton supporting his argument. Notwithstanding this, Magistrate Lyon proceeded with the examination of Constable Cobby, and it was only when Constable Burns refused to give evidence at the magistrate decided to adjourn the case for one week, in order to learn his precise jurisdiction in the matter, by consulting with Judge Winchester, who he did this morning. His honor informed the magistrate, after looking up the matter, that he was exceeding his authority in the matter, as the case came properly within the scope of the constable's authorities. Magistrate Lyon thereupon placed the whole matter in the hands of Judge Winchester, who appointed Magistrate Ellis to do in the matter, which will come up for trial on Tuesday next. His honor, however, refused to answer the questions when called upon to do so by the magistrate. The charge against Mr. Davies was laid at the instance of the Toronto Humane Society.

Charges of irregularities in connection with the municipal elections in ward one are freely made, and it is stated that legal steps will be at once taken to set aside the election on these grounds. It is stated that some 25 persons were admitted to the booths at the hour of closing, and allowed to record their votes after the closing; also, that many votes were cast illegally by those not entitled. The high school pupils are not expected to be present at the new building on Charles-street.

THE WAY TO SAVE THE BOY IS TO PUNISH THE MAN

Judge Lindsay of Denver, Col., Tells of the Basis of His Children's Court.

One of the most interesting Americans is now visiting Toronto in the person of Judge Lindsay of Denver, Colorado. He is famous as the "boys' judge" or he who has established the first juvenile criminal court in the world, and the first one perhaps to establish a practical solution of the question of juvenile criminality.

In his position as member of the judiciary of the state of Colorado, he frequently came in contact with the personality of the youthful criminals who came up before him, and he came to the conclusion that his moral duty as a magistrate did not end with the disposal of the case in relation to the crime, but far more important was that of the juvenile criminal who committed the offence. He also about the same time discovered that the state he represented as a member of its judiciary, was in that respect, by a criminal law such as a statute enacted on its first formation with the union, provided that no boy or girl should be placed behind prison bars.

This law from the first had been disregarded, and it was left for Judge Lindsay to invoke its aid and to prevent youth from being sent to prison, with all the attendant demoralizing influences. He made the closest and most searching examinations of the home-training and surrounding influences in connection with the lives of several boys charged with serious breaches of the law, and found that in almost every instance the child was the product of the environment, and that the child, also committed by the child, was in the largest measure attributable to evil association, immoral example or neglect of proper parental teaching.

The Real Criminals. "These people," said Judge Lindsay, in addressing the city teachers, "who contaminated the boy by sending him to the saloon for drink; the people of the saloon who allowed him to gamble and profane on their premises, to be witnessed and heard by any child who might be there; the parents who neglected their duty by failing to inculcate a reasonable standard of morality in the child; the people who committed perjury in their legal practices in its presence; those who by example or precept, were responsible for creating a warped respect for law and honest order in the presence of up-growing youth—were the real criminals. The ones who from the fact of being parents, and who were the less excusable, and by a chain of influences, contributed to the crime of the child, and who were passively, they were the people responsible for the subsequent delinquency of the child, and they were the ones who were really deserving to be punished."

Satisfied that he was right, and that the greatest evil in the child was the boy himself, and not only Judge Lindsay, "was only an incident and a secondary cause of the crime," he resolved to get established a proper juvenile delinquent court, and to have the statute amended and adjusted so that whoever might be held accountable before the courts in the acts of omission or commission in which their share was represented.

Methods of Training. All this Judge Lindsay has successfully brought about, and that state it is held and punished as criminal to have any act or part in the life of a child, that has tendency to demoralization and culture in the commission of a crime. When a child is arrested in Denver, he is not charged as a criminal, but he is held in the ordinary sense, but sent to school, or if he is beyond the usual school age to work at an occupation which will be useful to him thru life. In no way or form is he treated as a criminal, but it is given to understand that he is trusted and that great good things are expected of him. When he does anything to merit praise it is never withheld from him, and the boy is given to understand that he is trusted and treated in this manner for the reason that the state believes him to be capable of good, rather than the opposite, and that he is not held responsible for his past delinquencies, except that he be repaired them by future good behavior.

There is a training school at Golden, and so well is the mutual trust established between Judge Lindsay and the delinquent boys with whom he has to deal that they seldom return to this place, but of their own free will go and faithfully put in the time allotted at school or at work, and in 7000 cases there have been few disappointments. But in the cases of the adults—those who by one reason or another are the indirect causes of the child's downfall—no mercy is shown them, and Judge Lindsay's name, rightly upheld by the world of childhood of Colorado as a protecting power which they all love, is to the people of delinquency influences a caution and one to fear.

Great Results. The statistics prove the system; since adopting this method, the percentage has reached 97 per cent. of the boys thus reclaimed, as against 3 per cent. under the old regime, which regarded every child before the court as a fledgling criminal, to be treated with the severity and brutality that has even failed to reclaim the adult. Judge Lindsay was yesterday given reception by the mayor, at which many leading educators and prison officials were present, and before he leaves the city it is the intention of all who are in authority in matters of child-training to obtain all the information the celebrated jurist can supply.

PARKDALE FREIGHT SHEDS TO BE GREATLY IMPROVED

G.T.R. Intend to Enlarge Accommodation and Improve Appliances and Facilities.

The growth of the west end of the city, with a consequently increased volume of railway traffic, is to bring about marked improvements in the present facilities at Parkdale. The Grand Trunk station at Parkdale. The signing of a 21 years lease of land adjoining to the east of the present site of the station and freight shed, is a preliminary to the carrying out of the plans for extension. The land so acquired has a frontage of 60 feet on Queen-street and runs back about 55 feet, and is the property of the John Abell estate.

It isn't often or always that a railway's plans meet with such hearty approval as is being bestowed in the present instance. Rumor of the alterations to come has spread, and in the vicinity particularly are residents wearing a pair of self-congratulation. The approach to the freight sheds has for years been looked upon as highly inconvenient, owing to the up grade, and the slippiness of the cobble pavement, to mention the sharp turn from Queen-street. Only within the last few days a collision between a heavily laden trolley and a trolley was narrowly averted. For years aldermen of the ward have had complaints of shippers and others poured into them without effect.

Now, it is different, or soon will be. The railway's program is to level down the incline and to have the road diagonally from the northeast corner of the newly-acquired property, instead of the present approach, and eliminating the dangerous short turn into the street. The roadway will be open to all kinds of vehicular traffic, while the station will be privileged to adopt the same route if they should prefer. The approach of the approach up to the railway sheds.

It is stated that during the last two years the freight traffic has doubled at Parkdale, and that the shed will be much improved next spring. The general host of Hotel Gladstone, Turnbull, has secured the credit for the change that is to be. In June last Mr. Smith had his eye on the property, with a view of becoming lessee of it, that he might compass the removal of a towering sign that blocked the view of his hotel from the street. The G. L. Gladstone then stirred into activity and took it over themselves. Now the objectionable sign has passed and Mr. Smith's friends are complimenting him on his strategy.

CONTAGION IN HOSPITAL. Another Pathetic Death Reported in Isolation Hospital. W. H. Davies, 102 Fairview-avenue, writes to The World as follows: "From a paragraph appearing in your issue of the 13th inst., in which one Robert Fye had entered an action against the City of Toronto and Dr. Tweedie, to recover damages for the death of his infant daughter, I hope you will grant that appearance of this letter in your next issue, not only as an expression of sympathy towards Mr. Fye, but also as one who has similar cause of complaint, as it was my unfortunate lot to lose also a little child, who died of the same conditions to those in the case mentioned."

THE TIME HAS COME FOR PROMPT ACTION. Delay is Dangerous and Possibly Fatal. That hacking cough, that irritation in the throat, that pain under the shoulder or in the chest, that difficulty in breathing, that tired, languid feeling, that worried look upon the face, are the unfailing symptoms of a very serious condition, that calls for immediate attention. Every time you cough, every time that pain catches you when you breathe, aggravates the trouble and can only result fatally unless arrested as once. The one thing that will do this quickly, effectively, and positively is Psychine, that wonderful remedy for all diseases of the throat, chest, and lungs. It not only acts directly upon the respiratory organs, but it builds up the entire system by strengthening the stomach, improving the appetite, aiding digestion, and toning up the nerves.

SIMPSON Custom Suit at an Uncustomary Price

PARDON the joke. It's true both ways, just the same. You pay the tailor \$22 to \$28 to make you a suit to measure, don't you—as a general thing? Well, then, you'll not object to an introduction to our custom tailoring department which saves you from \$3.50 to \$9 on a new suit to see you respectably through the winter and on into the spring. It's a stock-taking offer on our part, but the cloths are staple imported goods, such as we'll have to duplicate afterwards. We are content now, however, to average them all at \$18.95 a suit.

Single or double-breasted sacks. Made to your measure, tailored to your satisfaction or money back. Selling in the regular way at \$22.50, \$24, \$25, \$26.50, \$27 and \$28. Measures taken Thursday or Friday, at \$18.95.

HAMILTON DENTIST ELOPES. Dr. Fred O. Brown, Marries Alice St. Louis, Mo., Jan. 8.—(Special.) Miss Edith V. Beall of Alton, Ill., niece of Mayor Edmund Beall of Alton, Illinois, was married to Dr. Fred O. Brown, a dentist of Hamilton, Canada, eloped to St. Louis yesterday and was married. Dr. Brown said that they will spend a few days in St. Louis, after which they will go to Calgary, Alberta, where they will remain a year. Dr. Brown and Miss Beall have been engaged for a year and a half, but the fact had been kept a secret from all except the bride's mother, even a sister, Miss Effie Beall, was in ignorance of the fact that the marriage was to occur.
