BRITISH ENTRAP GERMAN IN BEAUMONT-HAMEL REGION GERMAN CONSUL AND FOUR ATTACHES GUILTY OF CONSPIRACY Russians Break German Lines in Battle South of Riga

RUSSIANS WIN BIG ADVANTAGE IN RIGA AREA

Advance More Than Mile in Offensive Around Tirul Marsh.
STOP GERMAN ONSET
Soldiers of Ally Capture Thirty-Two Guns From Enemy.

Special Cable to The Toronto World.
London, Jan. 10.—In the fighting in the region of Lake Babi, west of Riga, on the northwestern Russian front, the Russians have already gained a considerable victory and they are prosecuting their advantages with vigor, according to official communications issued at Petrograd.

The Russians in a desperate battle succeeded in capturing the German positions on the front between the Tirul Marsh and the River Aa, and this success has permitted them to advance about 2400 yards southward. The Germans attempted to counter this movement by attacking the Russian troops established in a new position east of Kalmem Village and five miles southwest of Lake Babi, but the Russians met them with a terrific and energetic counter-attack, compelling them to retreat.

From the capture of 32 cannon, including 21 heavy pieces, by the Russians since Friday last, it is judged here that the victory for the allies is important. Eleven limbers, two searchlights and great numbers and variety of arms and equipment were also captured.

The fighting, which began with successful assaults south of Riga, has extended nearly 275 miles to the region of Vilia, according to a News Agency despatch from Petrograd. The firing has greatly lived up along this axis, and signs are said to be developing of the launching of heavy assaults along this lengthy front.

The Russians have also opened attacks on the enemy in the region of Ostropiana, northeast of Lake Wisheva, where, in a successful attack on the trenches of the enemy, they took some prisoners and various war materials.

The Germans in their official communication admit that strong Russian attacks were launched southwest of Riga, the assaults being delivered with stronger forces, and numerous advances were also made by smaller detachments between the coast and Lake Naroch. The Germans add that these attacks and advances were "without success."

SUPVIVOR OF "PRINCESS PATS" HOME ON HONEYMOON

One of the passengers on the American Line SS. St. Paul when she arrived at New York Thursday was Captain Reginald Bertram, one of the few survivors of the original "Princess Pats" Regiment, who brought his English bride over here on a honeymoon trip. The pair are going to Ottawa to spend the two weeks' leave which has been allotted to the captain before he has to rejoin his regiment. Captain Bertram first met his bride when he was wounded on the western front, and was taken to a hospital near London where she was acting as a nurse. The captain was loth to get well, and returned to France reluctantly. When he was again wounded he took good care to be sent back to the same hospital and the same care. To save the necessity of being wounded a third time he married his nurse. The photo shows Mr. and Mrs. Bertram on the deck of the St. Paul as she steamed into New York harbor.

GREEK SHIPS HELD UP.

New York, Jan. 10.—Failure of King Constantine to accede to the demands of the allied allies has resulted in a virtual blockade of Greek shipping here, it became known tonight. Greek ships have arrived in this port in several weeks and none has sailed away.

Several Greek ships, which put into Bermuda for coal, according to reports here, have been seized by the British. The steamship Themistocles, which for three weeks has been anchored off the Statue of Liberty here, has taken on about 4,000 tons of general cargo. The steamship Deo, 3,100 tons, which was the vessel said they believed the king of Greece soon would comply with the demands of the allies and that the steamship would then put to sea. The officials said the action of the British authorities several days ago in permitting the steamship Patis to proceed from Gibraltar, after having been detained there two months, indicated that an understanding soon would be reached.

GRAIN GROWERS OF MANITOBA WANT A NATIONAL GOVERNMENT

Eight Hundred Delegates Representing 20,000 Farmers Pass Strong Resolution Calling for National Government, National Service and Conscription of Men and Money.

THE RESOLUTION

The resolution read as follows: "Whereas the British Empire and her allies are engaged in a life and death struggle in which we believe the interests of civilization are at stake, and whereas the Canadian Government, in order that Canada might render more efficient service in the prosecution of the war, has undertaken to make a census of the man power of the Dominion, with the expressed view of organizing it to the highest point of efficiency. Therefore, be it resolved, that this convention endorse the action of the government in this regard, but while endorsing its desire to try in the strongest possible terms our abhorrence of private profiteering on the part of those engaged in the manufacturing or furnishing of supplies of any kind for war purposes, and also urge that a census of the wealth of Canada should be immediately taken with a view to imposing upon it the full share of the burden it should bear in this time of national sacrifice.

BOPP AND FOUR OTHERS FOUND GUILTY OF PLOT

German Consul-General at San Francisco Conspired With Attackers to Blow Up Munition Plants, Steamers, Bridges and Trains.

San Francisco, Jan. 10.—Franz Bopp, German consul-general here, and four of his attaches or employees were found guilty tonight by a jury in the U. S. district court, of having conspired to blow up munition plants in the U. S. and Canada, steamships carrying supplies to the enemy, railroad bridges and military trains.

Two actions were consolidated in the trial. The defendants were charged with a violation of the act of July 2, 1896, by conspiring to restrain interstate and foreign commerce by destroying factories, railroads and steamships. The other action was for alleged violation of sections 13 and 37 of the U. S. criminal code in conspiring to set on foot and to provide and

prepare means for a military enterprise to be carried out from within the U. S. against the territory and dominion of the King of Great Britain and Ireland.

Turied Against Associates. Besides Bopp, the defendants were E. M. von Ebnack, vice-consul; Wilhelm von Brincken, J. P. van Koobergen, Margaret E. Cornell, Charles C. Crowley and Louis J. Smith. Van Koobergen was out of the country and could not be brought here to stand trial, as his alleged offense was non-extraditable. Smith was the government's star witness.

The grand jury investigated the alleged conspiracy the latter part of 1915 and the indictments were filed Feb. 14, 1916, and March 4, 1916. The cases went to the jury at 3 p.m. The verdict was reached at 8:30 p.m. Smith, technically a defendant, was given immunity for testifying for the government.

Major Chas. Benson Worsnop, infantry, led his battalion in a night attack with conspicuous success and gained the objective, captured 22 prisoners and two machine guns, and successfully consolidated the position.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

IN Mesopotamia the Indian corps of the British expeditionary force has captured a thousand yards of trenches northeast of Kut-el-Amara. The position is situated on the Tigris River and it doubtless facilitates the process of reducing the town by siege methods. The reason why speedy results have not been attained is that the British in this advance have deliberately adopted plans for slow siege work instead of adopting the German system of assaulting and not besieging fortresses. This system of assault has been adopted by the enemy for the gaining of quick results, and altho it has succeeded in some cases, it has signally failed in others. On the other hand, siege methods, tho slow, are considered invariably sure, unless some outside force can come and raise the siege. The positions carried are on the right bank and in a bend of the Tigris, and seven officers and 175 men were captured by the Indians. At the same time the trenches of the enemy at Sannaiyat were bombarded and raided in three places.

The capture of 32 pieces of artillery south of Riga by the Russians in the fighting since Friday last is a proof that they have already won a considerable victory. Their advance of about 2400 yards, as announced in yesterday's official communication on the battle, is the result of the latest fighting, for they had previously to make a considerable advance in order to secure the first batch of guns. This engagement, which is being resumed by the Russians after suitable artillery preparation, is also extending on a front of 275 miles, as shown by the awakening of lively artillery firing almost as far as the point east of Vilia. Whether Gen. Ruzsky will immediately strive to make a big advance before strong German reinforcements arrive to whether he is content to wear the enemy down with his artillery and his infantry assaults, the actions on the Russian northern front are bound to help the situation, especially in Rumania and in the Balkans generally. In order to save East Prussia, and with a considerable source of food supply, from a devastating invasion, the German high command will be driven to make a heavy concentration of men to hold back the Russians. The action will greatly increase and even multiply the traffic on the East Prussian

CHALLENGE REPEATED

Scott Calls Again for Proof of Alliance With Liquor Interests.

A Staff Reporter, Simcoe, Ont., Jan. 10.—With an approach of election day in the West Simcoe by-election, the date exchange of invective between the opposing forces becomes increasingly bitter. At two villages today—Stayner and Nottawa—C. M. Bowman, A.L.A., chief of the Liberal whip, accused Col. Currie of conducting "the lowest gutter-sniping campaign he had ever seen." In accusing him of inciting pro-Grain demonstrations in Stayner, Bowman had put himself on exhibition as a consummate ass. He boasted that if Isaac Scott was elected the colored should receive the lion's share of the honors.

Lucas Declares Question Most Prominent One in West Simcoe.

By Staff Reporter, Simcoe, Ont., Jan. 10.—Declaration that the great issues in the West Simcoe by-election is bilingualism was made by Hon. I. B. Lucas at a meeting tonight in support of W. D. Allan, the Conservative candidate. The speaker made cutting references to the Liberal papers in Ontario, and to the Liberal candidate, Mr. Bowman, who he said was known as "Ten For a Cent." "This is a result of an official investigation in contacts some time ago."

BOWMAN ACCUSED OF HAVING FORCED BY-ELECTION DESPITE PROMISES.

By Staff Reporter, Simcoe, Ont., Jan. 10.—"Regulation is the most important and burning question in this constituency today," said Mr. Lucas. "Mr. Bowman will come out and say he is behind regulars. If I will get out of this constituency, he will not do it. He hedge and gets around the question. Like a good little man he cared to obey the orders of his superiors and not to offend the majority vote in this province."

The Liberal organizers say that the editor had prejudiced between Ontario and Quebec. "I would quit," said the Liberal candidate, "if I would quit. If we can't win it that way we will get licked."

THURSDAY MORNING, JAN. 11.

Conservation of Resources

An excellent summary of the electric power situation between Canada and the United States has been contributed by Mr. Arthur V. White, consulting engineer to the commission of conservation, to the annual number of the Monetary Times, recently published.

Mr. White accepts the conclusion of the geologists that Ontario has no coal. Last November the district attorney in the investigation at Buffalo asked a witness whether, when Canadians put an embargo on power when there is a power shortage, the United States should not put an embargo on coal when there is a coal shortage?

The world's reserves of coal are by no means inexhaustible, and that of the United States is regarded as so material to the existence of the nation and its prosperity that experts like Dr. George Otis Smith of the geological survey do not hesitate to say that all the United States coal should be kept at home for their own manufacturing.

The policy of conservation is not a new one. The United States have already enforced it in connection with phosphate beds in the west, and these are withdrawn from private entry and held for the nation.

BIG MEETING TODAY

Lloyd George, Bonar Law and Reginald McKenna to Speak.

London, Jan. 10.—Altho the formal terms of the new British war loan will not be made public until Friday, a nation-wide campaign for subscriptions will formally be launched at a mass meeting in the London Guild Hall tomorrow.

Just now the electric problem is before the two nations, "Ontario and Canada," says Mr. White, "may yet require every unit of electrical energy just as much as the United States may require every pound of phosphate rock, or every find it expedient to retain every pound of coal."

The weak point is that the governments do not consider the nation as a whole and the welfare of all the people, but merely the interests of the individual corporations whose claims come before them.

Tirpitz's Torpedoes

Ambassador Gerard's speech at Berlin on the relations of the United States and Germany is interpreted in Great Britain as a hint to the Germans of what is to be expected should there be any revival of the Falkenhayn and Tirpitz policy of submarining.

A certain element of German opinion recognizes this and is anxious to conciliate the United States Government.

It can be done by fine words that plan will be adopted, but fine words have begun to lose their efficacy, and it is believed that Germany is willing to pretend that she has abandoned the Lusitania just to kill.

But there is also a very large element of German opinion which harks back to Tirpitz as the heroic admiral who had no scruples about massacring innocents or any others that happened to come in his way.

ment of German opinion which harks back to Tirpitz as the heroic admiral who had no scruples about massacring innocents or any others that happened to come in his way. Dr. Gustav Stresemann, a National Liberal deputy, speaking at Hanover, declared that Germany must possess the Flemish coast as a result of the war and also that a neutral Belgium was an historical impossibility after the war.

Much is still to be done, and as the months pass it seems likely that we shall have time before the war is over next year to double our past exertions. But for some time we shall probably have the problem to discuss whether Germany will risk the enmity of the United States, and whether the Tirpitzian methods are to prevail.

However, the peace terms may be in sight else, we may be confident that Belgium will not belong to Germany as a result of the war.
