British Capture Who of Pozières Village; Dominate Plateau which Germans Occupy

In Desperate Fight, Foot by Foot they Drive Enemy Out Our Troops Now in Commanding Position Overlooking Plain on Which German Lines Extend to Eastward—Enemy Had Regarded Village as of Great Importance

London, July 26.—The village of Pozières has been completely captured by the British, according to an official announcement made today by the war office. The text of the statement follows: "The whole village of Pozières is now in our hands. West of the village our territorial troops made a further advance and captured two strong trenches and a number of prisoners, including five officers. Elsewhere on the battlefield there is no change."

GAIN OF GREAT IMPORTANCE

London, July 26.—The capture of Pozières in the Somme River region, reported today by Field Marshal Sir Douglas Haig, the British Commander-in-Chief in France, gives the British troops domination of the highest point overlooking the plateau on which the Germans extend to the eastward.

One of the most stubborn fighting in the recent British offensive which now has lasted nearly a month, has occurred in the streets of this village, which the Germans have fortified until it became one of the strongest points of their line. Every house had to be fought for and taken separately, and the British, after obtaining possession of a considerable portion of the village, were subjected to severe counter-attacks, which they withstood successfully for several days, and then in turn again seized the initiative until the whole place fell before their onslaught.

The German general staff regarded the possession of Pozières as of such importance that they even brought reinforcements from troops which had been fighting in the Verdun sector, and these held out to the north of the village, until driven out or captured in the hand fighting.

GERMANS PUT SIX BELGIANS TO DEATH

London, July 26.—Six civilians have been executed by the Germans at Ghent charged with "war treason," according to a Reuters Amsterdam despatch, quoting the Telegraf. The despatch also says that the Germans have removed 2,000 men, 2,000 women and 150 pupils of the Turbot Institute from Roubaix, presumably for agricultural work in Germany.

WAR TREASON IS CHARGE—THOUSANDS TAKEN TO WORK IN THE FIELDS

London, July 26.—Six civilians have been executed by the Germans at Ghent charged with "war treason," according to a Reuters Amsterdam despatch, quoting the Telegraf. The despatch also says that the Germans have removed 2,000 men, 2,000 women and 150 pupils of the Turbot Institute from Roubaix, presumably for agricultural work in Germany.

JULY RECORD ONE IN BUSINESS OF PORT

London, July 26.—The first symptom of the expected Irish revolt in the House of Commons as a consequence of the despatch over the Lloyd George negotiations, broke out in the House of Commons last night on the report stage of a series of votes.

OUTLOOK ALSO EXCELLENT FOR ANOTHER BIG WINTER AT ST. JOHN

The trip which two of the city commissioners took to Ottawa and Montreal this spring seem to have produced good results. They went seeking a big share of summer trade for the port, and the increase has been sufficient to more than fulfill their hopes. A new established a new record and from the figures for the month so far, it is evident that July will show a bigger traffic than any other summer month in the history of the port.

BRITAIN WANTS 500 HARBOR AND RIVER MEN FROM CANADA

Ottawa, July 26.—The British government has sent an agent to Canada to obtain 500 harbor and river men for the inland waterways service of the Royal Engineers. Lieut. H. W. Owens, who has just arrived with a letter from Lloyd George, says that the men are wanted at once, and that tow boats and bargemen will be gathered throughout Canada.

MR. HATHWAY CABLES ADVICE

That the war will be followed by an enormous demand for goods which Canada can produce is the word cabled from Paris by W. Frank Hathway, a member of the dominion commission on after-war commerce, which is now touring Europe. Mr. Hathway, in a cable to J. A. Likely, president of the Board of Trade, urges that the local manufacturers and business men should begin now to prepare to take care of their share of the business which will await the enterprising as soon as peace is arranged.

ONE TRIAL IN THE MANITOBA CASE

Winnipeg, Man., July 26.—The trial of Sir Rodmond Roblin, C. R. Coldwell and Hon. James H. Bowden, must proceed as one. Mr. Justice Frensdorff this morning refused to allow the crown's request for a severance, permitting the trial of Coldwell and Bowden to precede that of the ex-premier. R. A. Bonnar, for the crown, moved yesterday for a severance. The defense vigorously opposed it and the judge considered the case over night.

Tyne Slides Off Ledge; Now in Port

Steamship, Believed Total Wreck in Bay, Floats Again and is Brought Here For Examination

There have been cases where men have read their own obituary, but now a steamer which was blown up for lost and reported to be breaking up, floats again in apparently good condition. Such was the case this morning when the Tyne, which ran on the Murr Ledges at 8.30 o'clock on Sunday morning, came up the harbor partly under her own steam and partly with the assistance of the tug Helena. Reports from the scene of the wreck yesterday were that the steamer's back was broken and that she was lying over on her side, so when she hove in sight this morning more than one man along the water front rubbed his eyes to make sure he was not seeing things.

HERE FOR RECRUITS FOR PIONEER BATTALION

Conley, of 86 St. Patrick street, received a letter from each of her brothers, who went overseas with the Canadian forces. One, Ples Walker, is a prisoner in Germany, and in his letter he writes that he is being used well, and none of the prisoners have any cause to complain. The other brother, Sergt. George Conley, also writes a cheery letter. Both soldiers are sons of David Conley and have been overseas since the outbreak of the war. Lieut. Carr Killed Instantly. The following extract from a letter received from Capt. W. C. Birrell, commander of the 29th battalion, tells, under date of July 9, how Lieut. Frank J. Carr met his death at the front. "It is too bad about Frank Carr being killed. I went up to get some particulars from his installation, which came out of the trenches only a day or so ago, and found Sergt-Major Fraser. He said the Hun made a direct hit on the dug-out Frank was in, killing him instantly. He never knew what hit him. "Frank was over here only six weeks and in that short time became very popular. Officers and men speak very highly of his work in the trenches."

EVIDENCE AS TO THE DEATH OF JAMES A. RYAN

The coroner's jury empaneled to inquire into the death of James A. Ryan, at the General Public Hospital last Thursday evening, held its first session last night at the hospital. Three of the witnesses of the tragedy, roommates of the late Mr. Ryan, are yet confined to their beds. In the case of two of these their evidence was taken in their room but the condition of the third patient made it impossible to question him last night. The evidence of these two patients and several of the nursing staff was taken last night and adjournment was made until tonight when the court will re-assemble at the court house. Mr. Ryan died as the result of injuries sustained by falling or climbing out of his window in the hospital last Thursday evening. The jury empaneled by Dr. W. F. Roberts, coroner, was James B. Daly, foreman; F. C. Beattay, J. P. Scannell, J. A. Kennedy, R. J. Walsh, John Thornton and Percy Steele. The court proceeded to the room lately occupied by Mr. Ryan and there the evidence of two of his roommates was taken. L. A. Conlon appeared on behalf of Mrs. Ryan, widow of the deceased, while J. King Kelley, K. C., was present in the interests of the hospital commissioners. Dr. Thos. Walker and Senator Daniel, two of the hospital commissioners, were also in attendance through the session. Evidence was given by John Boulter, Edward L. Heinle, patients in the same room, and the following nurses: Misses Maud Gaskin, Lydia W. Marvin, night superintendent; Alma F. Law, E. Stairs, Dorothy Merry, Emma Bell, Ada Foley, Cecelia Gleason, Marion Berry, Alice Gulliford, Helen Vallis and Thora Berg. Jolly Man (whose appetite is the envy of all his fellow-boarders)—Well, I never! I've lost two buttons on my vest. Lady of the House (who has been wanting to give him a hint)—You will most likely find them in the dining-room, sir.

No Seconder For His Resolutions

Deadlock Continues Over Proposals of Commissioner of Public Works; Common Council in Weekly Session. The regular weekly meeting of the common council which was held yesterday afternoon was marked by a continuance of the deadlock over public works matters. Commissioner Fisher's recommendations that the duties of the city engineer and the road engineer remain as at present fixed by order-in-council, that the city engineer's grade for First street be accepted, and that the bill relating to sidewalk obstructions, vesting the power to issue permits in the council instead of in one member, be given its first reading, all failed for lack of a seconder.

THE SCHOOLS

Trustees J. V. Russell, R. B. Emerson, Dr. James Manning, Thomas Nagle and H. S. Bridges, superintendent of schools, were named as a committee last night at a special meeting of the building committee of the school trustees, to wait upon the government and put forward the request to be given authority to issue bonds to build the Douglas school to replace the present building. The need of a new school in New street was discussed at considerable length, but no action taken. The loan asked over an hour and a half. Like all committee meetings, it was behind closed doors.

SEVENTY-EIGHT DAYS

This is the seventy-eighth day since Hon. P. G. Mahoney was appointed Minister of Public Works. He is still Minister of Public Works—the big spending department—though rejected by the people. How much longer will Lieut. Gov. Wood permit this gross violation of the principles of responsible government to continue?

KINGS COUNTY.

What Conservatives admit is a strong ticket was nominated by the large opposition convention at Hampton yesterday. The nomination of Mr. E. S. Carter is not only a tribute to the work of the man who more than any other deserves the credit of having exposed the grafters in high places in this province, but it is also proof that the people believe in Mr. Carter and accept his declaration that so far as he is able to act in the matter the place of the wrong-doer will be in jail, not in the legislature or the cabinet. His nomination by so representative a convention of the people of his native county ought to warn the St. John Standard that when it grossly abuses him it is also abusing them. But it is evident that the Standard as at present conducted depends upon its ability to besmirch the reputation of men in opposition rather than to defend its own leaders and their acts. Indeed those acts cannot be defended, in the face of the reports of royal commissions. A few sentences from Mr. Carter's speech of acceptance yesterday will fully explain the Standard's frantic desire to keep him out of the legislature. He said:—

"If we cannot go into power with clean hands, we cannot give you clean and honest government and it would be better for us to stay in opposition. If the people prefer the grafters and the grafters' methods, let them have the grafters. There will come a time when the bills they will have to pay will take such a toll from their farms and personal property that they will have to toll and labor so much more to make it up. But as for us, gentlemen, and in speaking for myself, I speak for those who are associated with me in opposition, we have made up our minds that the grafter must go out of politics. We cannot fight graft with graft. We cannot buy votes and drown the consciences of men with money to win our elections and then hope to give you a better government. I cannot be elected without doing what I propose to remain in private life. I want you to understand that if I find a grafter anywhere—a man who has the money of the people—we will not save him. If a road supervisor pads his accounts and puts in his pockets what should help make better roads we will get him. Politics is not a game. It is a struggle for the truth and for the good of the people. We are going to get all that belongs to this province no matter who our friend or foe may be. I have the promise of my associates that this will be done and the people can rest assured that it will be done."

The whereabouts of Flemming and the defenders of the numerous grafting operations exposed by Mr. Carter can have no sympathy with a man who talks in this plain and manly fashion. He exposed so much without being a member of the legislature that they have a very natural dread of what would happen if he were a member. It is decidedly to the credit of the opposition party in Kings that it has nominated Mr. Carter. Dr. G. N. Pearson and Mr. Fred E. Sharpe are strong and able men with a clean record. Both are well known throughout Kings county, and both have experience in municipal affairs. Both are clever speakers, and close students of provincial affairs. The choice of the three candidates was made unanimous, and there were Conservatives as well as Liberals at the convention. They represent different sections of the county, and, if elected, may be depended on to exert their influence to reform the provincial administration. They were nominated at a convention which was not padded, and they tell the people that if they cannot win without bribery they will stay at home. With such a ticket opposed to them, Messrs. Murray, Jones and Dickson will have a lot of explaining to do, and may be expected to lose considerable sleep. Things have changed since the last campaign in that county.

The Standard makes a personal attack upon Dr. Pearson and Mr. Sharpe, as well as upon Mr. Carter. It tries to convey the impression that they are all dishonest and not to be trusted. Instead, however, of weakening them the Standard by its abuse will bring them more support. The people know why the government organ adopts abuse as its weapon. The work of bringing out strong candidates in the various constituencies progresses well. No time should be lost in getting men in the field in every county. There may soon be an appeal to the people, but whether it come soon or late the opposition party will gain by having its candidates named and its organization perfected.

The Standard could not withhold a sneer at Dr. McAllister in its comment on the Kings county convention. It will probably be found that Dr. McAllister has a good many friends in Kings county who will resent the sneer. And they are not all Liberals.

THE WAR OUTLOOK.

"The British have become a 24-hour-day army, fighting at night as well as by day. Not once in three weeks have the guns been silent." These two sentences, from a cable from the front, tell the story of the complete change that has taken place on the British lines. There is no longer a scarcity of munitions. Another sentence describes the change in the spirit of the men who for so many months held doggedly to the trenches but were not able to advance. It says:— "Through all the army there is a new sense of elation, which seems to allow no one to become tired—an exaltation over the army's first offensive."

That offensive has been continued and we are told in another cable that "London believes it recognizes the real thing in it, and that the push for the Rhine is well under way." It is estimated that the British and French in three weeks took over 26,000 prisoners, besides 140 heavy guns, forty bomb throwers and several hundred machine guns, while the fourth week is marked by further success. At one point British troops, at Pozieres, went beyond the German third line.

There is a new note of confidence in all the British reports. German counter attacks have failed to regain lost ground, and they probably have no defences this side of the Rhine as strong as those which have lately been broken down by the terrific fire of the British and French guns. On the eastern front the Russian war minister claims that in six weeks about 800,000 prisoners have been taken, and many guns and immense quantities of stores. The remarkable success of Gen. Sakharoff on the Lapa and Styry rivers has only to be pushed a little farther and the Austrians will be compelled to retreat across Galicia. At other points on the eastern front German armies are in grave danger. The tremendous striking power of Russia is being exerted along the whole line from Riga to the Carpathians, and there is not the slightest prospect that the enemy will be able to take the offensive and compel, as it did last year, the retirement of the Russian armies. The initiative has been wrested from the Central Powers, in the east, in the west, and on the Italian front.

The effect of constant reverses upon the minds of the people of Austria and Germany will be an important factor in bringing the war to an end. The Times yesterday quoted from one German newspaper which described Germany as a besieged fortress. The correspondent of the Vossische Zeitung, writing from the western battle front gives the following very gloomy summary of the situation:— "We are shaken by burning pain at new streams of German blood are flowing, and we recognize our powerlessness over what cannot be changed. After two years of war the Angel of Destruction is passing through the ranks of the German armies with a fiery mercilessness as if he were a conqueror. The whole world is suffering from the death dance of battles had only just begun. Whilst our enemies suffer fearful losses, we do not blind our eyes to the new mourning come to us, nor over the seriousness of the fate of this decisive battle raging on all fronts. We should be unworthy the stupendous task we have to fulfil and the almost incomprehensible sacrifices our heroes make if we were not able to understand the whole fury and burden of these weeks. We feel the raging storm of the united power of the enemy. It is now a question of everything for the life or death of our nation. We stand differently now from what we did in August, 1914. Unexampled deeds of fate lie between. But still the concluding point has to be reached—everything is in the balance of death or life."

It is in vain that the press attempts to soothe the people by boasting of their superiority over the people of other races. It is in vain that the Kaiser goes with frantic haste from east to west and west to east again. The military power of Germany is about to be broken, and the hated England is to emerge from the war a great military power as well as the world's greatest naval power. "The mills of the gods grind slowly, but they grind exceeding fine." Germany tempted fate in a mad ambition for world domination. The war-lords had Austria and a crushed and desolated Germany and a broken and humiliated Germany will be the outcome. The world will be the better for the changes that will occur in the map of Europe. The nightmare of fierce competition in armaments will pass with the Kaiser and his brood. Though it is yet a long way to Berlin the men who are on that road will make the journey—whether with or without the consent of Germany depends entirely upon the German people. And there is at least a possibility that the German people are many months may take matters into their own hands and refuse to give the Kaiser any more food for British, French, Russian and Italian cannon. The longer they permit themselves to be duped, the worse for Germany.

Mr. E. S. Carter gives notice that the present opposition will neither claim credit for any virtues of a former government nor be held responsible for its faults or crimes. If the government party expects to make a campaign on that issue it will be some years behind the times. It must look to its own record. That is the issue.

"Doctor," said the young man, "I have a queer pain in my side." The doctor's eyes glittered. "Yes, yes," he said. "Low down in the right side? That's it, isn't it?" "Now, doctor," said the young man, "I only get thirty shillings a week, so don't you go looking for any expensive appendicitis symptoms." The doctor's eyes fell, and it turned out that the young man only had indigestion after all.

ROSY CHEEKS

THE AMBITION OF EVERY WOMAN—PALE PEOPLE READ THIS.

Hollow cheeks with dark lines, sallow complexion—how a woman hates them. But rosy cheeks, clear skin, bright eyes—these are the woman and she is happy. In the blood is found the first sign of trouble. It grows thin and watery, its color fades, and increasing pallor and sallowness give the outward evidence of the change within.

Soon the nerves weaken, the heart easily tires and palpitates, strength declines. The delicate mechanism of the woman's functions is interfered with, and pleasures, activities and even duties are loaded down with the burden of declining health.

Why is it that women neglect the first warnings? Usually she waits till she is ready to drop—often then it is too late.

These conditions are easily checked, easily cured at the beginning—but even when long established Ferrone will remove the cause and cure the trouble. Ferrone's action aids the three principal functions of the body—digestion, assimilation, elimination.

By strengthening digestion it forms an abundance of rich, red blood—this gives good color. By perfecting assimilation, Ferrone suppresses nutrition—this gives strength, firm stability. Elimination is assured because Ferrone quickens the action of the liver, kidneys and bowels—this guarantees the maintenance of vigorous health.

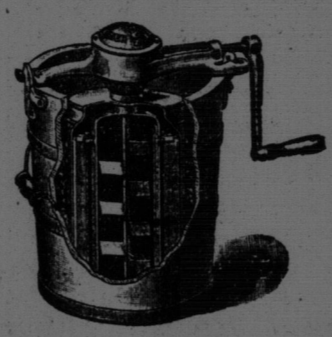

Ferrone puts you on the right road to health and happiness. Not a man, woman or child needing blood, vigor, endurance—not a person who is weak, nervous or sickly, not a person in ill-health who won't receive immediate help from Ferrone. As a tonic and restorative, as a health-bringer and body-builder, Ferrone is unrivaled. It cures because it contains the elements that build up and strengthen. Try it yourself—sold everywhere in 60c. boxes.

BRITONS BUILDING SHIPS IN CANADA

Three Firms to Follow One Now in Dominion, Says London Report

London, July 15.—(Correspondence)—A new epoch in shipbuilding which has been inaugurated by the formation of a "Standardized Ship Construction Company" with a capital of \$1,500,000, has its inception from the United States where the first suggestion of standardization emanated. The plans are provided for the construction at Chepstow of ten large ships at the same time, of a standardization type, 8,000 tons dead weight with a length of from 450 feet to 650 feet, while machinery will also be especially designed for producing standard parts of hulls and engines.

She is Still Alive and Has Very Vivid Memories of "Jim" Riley. Many will be surprised to learn that there ever was a real "Orphan Annie." "Orphan Annie" is now Mrs. Wesley Gray. Although not a great many miles from the poet's birthplace, Greenfield, Ind., Mrs. Gray's farm is situated in the real, old-fashioned back country. It was a raw, bleak day when little "Orphan Annie" was brought to the Riley home. She came from a primitive country settlement in a rough wagon, riding on a heavy board laid across it for a seat. She recalled the happenings at the Riley home with amusement and delight.

TO THE DEATH!

German Writer Warns People That is What a Lie Means

POINTS TO GREAT BRITAIN

Determination to Fight Till She or Enemy is Annihilated—France, Too, Has no Thought of Peace—Germans Being Disillusioned

London, July 25.—The Daily Mail says that Maximilian Harden, in the latest number of the Zukunft, discusses the meaning of the Anglo-French offensive. Speaking particularly of Great Britain's gigantic preparations in men and munitions, Harden declares that Germans "must reckon with the determination of England to keep on fighting until she or her enemy is annihilated."

In the article, entitled significantly "At the tree of disillusion," Harden warns the Germans to abandon forthwith their childish dreams of an early peace.

After describing the struggles now raging on all fronts, the like of which mankind has never known, and telling how death is every minute mowing down a German and how "every hour of the day and night, \$200,000 of German treasure is being swallowed up," Harden says: "Is the enemy who wants peace? On a recent occasion in the French senate when such sentiments might well have found expression, not one single voice was raised to that end. Premier Briand never sat so firmly in the saddle; Joffre's star was never more in the ascendant. The French are meditating over the possibility of the fall of Verdun, but means of peace. France still believes, or believes again, in victory. That this belief will crumble if Verdun is captured or a bank of the Meuse taken for the entire city falls, sounds like nothing but a well-meant and flattering fairy tale."

NO LET UP TO BRITISH WORK IN MAKING MUNITIONS

Reducing Contracts in United States and Increasing Output at Home

London, July 25.—During a discourse debate on the questions of the war in the House of Commons last night, Dr. Christopher Addison, parliamentary secretary of munitions, said that the department of munitions was endeavoring to reduce the contracts for munitions in the United States, by increasing the output here. In one of the most important undertakings, he said, the department had undertaken the construction and equipment of factories to produce these explosives on an unheard of scale.

ROSS PEOPLE NOW TO MAKE THE ENFIELD

Seek Amended Contract From the Dominion Government—Thousands of Discarded Weapons

Ottawa, July 25.—The Ross Rifle Company is negotiating with the government for an amended contract looking to the manufacture of the Enfield rifle, now that the Ross type of arms has been abandoned as the Canadian service rifle. Sir Charles Ross and Wallace Nesbitt, K.C., counsel for the company, have been in Ottawa in connection with the matter.

ALLEGED LAND FRAUDS

Several Men Indicted in San Francisco, Including a Montrealer

San Francisco, Cal., July 25.—The federal grand jury yesterday returned indictments charging S. A. D. Pater, his sons, H. D. and W. S. Pater, all of Berkeley, Calif., W. L. Murray of Montreal, and three other men, with complicity in so-called California-Oregon land frauds. The accused men were alleged to have secured by illegal use, more than \$200,000 from their victims, most of whom were residents of San Francisco.

The government's case against eighteen other men on a similar indictment, resulted in a disagreement of the jury. S. A. D. Pater, who served a sentence in 1909 in Oregon for conspiring to take land from the government, was alleged by the officials to be the leader of other men now indicted. The indictments charged that the defendants falsely represented that the government was co-operating with the defendants in forcing the Southern Pacific Company to sell land in Oregon in accordance with its grant and that preference right to locations could be secured by filing an application to purchase.

MR. WADMAN AN OFFICER

Toronto, July 25.—At yesterday's session of the Supreme Grand Black Chapter of British America, a resolution was passed expressing sympathy with the position of loyal Protestants on the question of home rule, viewing with alarm any action jeopardizing religious liberty and close union with the crown, and expressing appreciation of the patriotic services of the Ulster Protestants, the Orange Order and their leaders.

Summer Punch and Pep come from a food that is rich in muscle-making material and is easily digested. It is what you digest, not what you eat, that makes healthy tissue. Every shred in Shredded Wheat Biscuit is full of body-building nutriment. The burden of years of food folly can be unloaded by going on a Shredded Wheat diet and sticking to it. Get back to Nature before it is too late. Shredded Wheat contains all the body-building material in the whole wheat grain prepared in a digestible form. A satisfying Summer food. For breakfast with milk or cream; for luncheon with berries. Made in Canada

GERMANS AND BRITISH FIGHT HAND-TO-HAND

Fighting for the village of Posieres has produced some of the most sensational hand-to-hand fighting yet seen in this war. After the British infantry carried the entrance to the village in a brilliant rush on Sunday morning, the Germans made an extraordinary attack, the fumes of ether on their breath indicating how their courage had been stimulated. The rifle played no part in the fighting; knife, bayonet and revolver were the weapons and the Germans introduced a new weapon in the form of a long-handled and spike-studded mace, somewhat similar to those used in medieval times. In a duel between an English lieutenant, armed with sword, and a Bavarian captain using a revolver, both were killed.

WOMEN WITH WEAKNESS FIND NEW STRENGTH

For all special weakness from which girls and women suffer, no surer remedy exists than Dr. Hamilton's Pills; they maintain that bracing health every woman so earnestly desires, they prevent disease and bring strength that lasts till old age.

The blood is richly nourished by Dr. Hamilton's Pills. Appetite increases, weakness and secret ills give way to surplus energy and reserve vigor.

WANT JUDGE McKEOWN
Amherst Guardian.—Plans for a public meeting here on August 4, to mark the second anniversary of Britain's entry into the war were set on foot at a meeting in the town council chamber last evening when a committee representing the town council and the citizens generally was appointed to make the necessary arrangements for the meeting. Hon. Harrison A. McKeown, of St. John, one of the judges of the New Brunswick supreme court, has been suggested as a speaker for the evening.

Victory for Levinsky
St. Louis, Mo., July 25.—Battling Levinsky beat Tom Burke of St. Louis in a twelve round bout here last night. Levinsky weighed 170 pounds and Burke 160.

Safe Milk Foods for Baby's Summer Diet

The cow's milk sold in towns and cities is so likely to contain harmful bacteria, particularly in hot weather, that it is recognized as unsafe for baby unless it has been pasteurized. Yet ordinary pasteurizing makes the curd-forming portions of the milk tough and indigestible for his little stomach.

Allenburg's Foods

are prepared from fresh, clean milk, modified scientifically to the composition of mother's milk, and evaporated to dryness at a heat sufficient to destroy bacteria, but not high enough to lessen its digestibility.

Milk Food No. 1. Is suited to the first three months of baby's life.

Milk Food No. 2. Is just right from three to six months.

Malted Food No. 3. Is what he needs from that time onward until he can take solid food.

Write for Booklet, "Infant Feeding and Management".

PULP AND PAPER In connection with the Riddell Pulp and Paper Company, Greenfield and Company say: "A significant result of our offering is the large proportion of stock purchased by those engaged in the pulp and paper industry itself. The extraordinary situation which now obtains in the trade is, of course, better known to those engaged in it than to the general public."

WILL YOU TAKE TWO AT OUR RISK? So many customers who suffer from run down nervous condition, with its consequent loss of insomnia, indigestion and general debility are being greatly helped by Zetocin—the nerve tonic that we wish to have every ailing person in this town try this really famous remedy. It is all that a tonic should be and more than any other tonic is. It combines the most precious of health-building substances. Glycine-Phosphates are the actual element of the human body in most assimilative form. You know the value of Cod Liver Oil and the invigorating effects of tonic wine. In Zetocin these are combined in an exceedingly pleasant tonic which in two weeks will work quiet wonders in your health. If at the end of two weeks' honest trial you cannot report real progress toward health, we will refund the purchase price. Doesn't this convince you that you should start trying it today? E. Clinton Brown, sole distributing agent.

Do you really know how to shave? Make this striking test and see. SO many men do not know how, that this is not intended as a joke. Most men who twice the time necessary and undergo unnecessary torments. A simple test will show whether you are among them. Shave one side of your face with the preparation you now use. Then shave the other side with Mennen's, following the directions contained with every tube. You will be astounded at the difference—not only in the way your razor cuts and how the two sides of your face feel, but in the shorter time it takes you to shave with Mennen's. The reason is that Mennen's is absolutely different in composition from every other preparation. It took three years' experimenting to perfect it. It requires no "rubbing in"—no "rubbing out". MENNEN'S SHAVING CREAM FOR MEN Delightful after-shave—kills germs—relieves itching—keeps the skin soft and moist—prevents the formation of a skin rash. Send 10c. for Trial Tube Wrap a dime in a piece of paper, and send it with the coupon for a trial tube of this shaving cream. We will send you a trial can of Mennen's Shaving Cream for Men, very desirable for after-shaving, because it does not show white on the face. Cut out this coupon now, to remind you to write.

KINGS COUNTY OPPOSITION CHOOSES DR. PEARSON AND MESSRS. CARTER AND SHARPE

Rousing Convention Held in Hampton; Stirring Speeches and Marked Enthusiasm; A Clean Fight

Hampton, July 25—Kings county, with all its record for good political conventions, never had a larger or more enthusiastic and successful gathering than the opposition assembly today which selected Dr. George N. Pearson, of Sussex, E. S. Carter, of Robitash, and Fred E. Sharpe, of Spryfield, to contest the county in the provincial general election in the interest of better government.

Dr. McAlister was amply justified in his statement which aroused the gathering that it was the greatest convention ever held in the county for every man who was there paid his own way and his own expenses.

It was a democratic gathering and everyone present was a voter. It was a responsive crowd for every sentiment in favor of better government was applauded to the echo. It was, moreover, a big meeting of honest earnest men of both political parties intent upon clearing up the mess and placing Kings county in the foreground of the light.

The names of the candidates were cheered to the echo and the speeches of acceptance found ready favor and most attentive hearing and applause. Organized E. S. Carter must have been proud of the reception they gave him in recognition of his work in exposing the condition of the province and its misgovernment.

Two or three incidents stood out in bold relief in the proceedings. Dr. McAlister's reception and his speech; his great hold upon the audience and the way he swung them to his humor or his seriousness. Dr. McAlister does not pretend to preparedness in speeches but his popularity, readiness at repartee and knowledge of his people and their wishes give him a hold upon an audience that few speakers possess.

There wasn't anything dull about the candidates' speeches. Dr. Pearson had plenty of force and expressed himself vigorously. Fred E. Sharpe has often shown himself one of the best campaign speakers in the province, and E. S. Carter poured forth an array of facts that astounded his hearers. His plain talk drew much applause from the enthusiastic crowd.

"If we cannot go into power with clean hands, we cannot give you clean and honest government and it would be better for us to stay in opposition," he declared.

"If the people prefer the grafters and the grafters' methods, let them have the grafters. There will come a time when the bills they will have to pay will take such a toll from their farms and personal property that they will have to tell and labor so much more to make it go. But as for us, gentlemen, and in speaking for myself, I speak for those who are associated with me here—our friends—we have made up our minds that the grafters must go out of politics. We cannot fight grafters and be grafters ourselves. We cannot buy votes and drown the consciences of our voters with rum to win our elections and then hope to give you better government. If we cannot be elected without doing that we propose to remain in private life.

"But I want you to understand that if we go into power, if we find that we are here—a man who steals the money of the people—we will treat him as a common thief. Politics won't save him. If a road supervisor pads his accounts and puts in his pockets what should help make better roads he will go to jail. The machinery of the convention moved like clock-work. The delegates here chosen by the parish representatives present. The chairman and convener, J. H. McFadden, outlined the proceedings necessary and in a short time the following delegates were chosen: F. W. C. Nae, W. Roy McKenna, George E. Bond, S. H. Flewelling, R. E. Baxter, Geo. Ketchum, Isaac Palmer, John Coleman, R. C. McQuinn, H. F. Morton, F. H. Keith, Chas. E. Ketchum, Ina Rieck, Howard Frazee, Frank E. Shanklin, Jas. E. Bates, Wm. F. Dann, James Malone, Frank Rouse, R. A. Costes, S. E. MacDonald, H. B. Taylor, Otto Hayes, Campbell, W. McGarigle, D. H. McAlister, Arthur Keith, Dr. White, W. H. Culbert, G. H. Adair, Otto Hayes, Andrew McLary, King McFarlane, Andrew Sprout, J. M. McIntyre, Michael Gullfoyle, Charles Reynolds, W. S. Mason, J. A. Patterson, J. W. McAfee, Wm. Puddington, John Scallion, Charles Rodgers, George E. Lamb, Herman Belyea, A. P. Sherwood, E. J. Huggard, Wm. Reynolds, Thomas Gulliland, C. O. Foss, Walter S. Saunders, M. E. Harrison, Herbert Monahan.

In a short time the nominating committee, which had G. Hazen Adair as its chairman, reported to the full convention through the secretary, J. M. McIntyre, that Dr. Pearson, Fred E. Sharpe and E. S. Carter were the choice of the delegates and upon motion the report was adopted unanimously and with cheers for all the candidates. Dr. Pearson was summoned to the platform. The Sussex candidate has been a county councillor and taken much part in the town council of Sussex and school work and his ability has been recognized for a long time apart from his profession. In his speech he referred to the patriotic potato purchase and many of the outstanding instances of misgovernment, and asked: "Are we going to stand for this" and the crowd shouted: "No."

"It is the worst and most dishonest government," said the speaker, "that has ever been permitted to rule in this province. If we cannot take the reins from their hands then God help New Brunswick.

"There never was a time in New Brunswick when the premier was not respected until Premier Fleming's misdeeds were discovered. Then what did the representatives of Kings county do? Did they abject and take a firm stand? No they shamed their county and defiled their position as representatives by voting to whitewash him by a resolution in the legislature."

The Valley Railway expenditure, the change of route, the graft in connection therewith, all came in for attention at Dr. Pearson's hands and he paid particular attention to a recent contract for a bridge at Dobson's Brook which cost more than \$200,000 when it should not cost more than \$50,000 or \$60,000. The contractor was John Armstrong and the question was Armstrong to get the \$2,310,000. He closed an admirable speech of ac-

and the money which should have been used to bridge the Kennebecasis at Ferry Point will now be spent at the Nercept.

"A Branch Line." "You men of Greenwich, Kingston parishes, Kees and Rothesay—had the great work of construction on the Valley road been honestly performed; had there been no raffle-offs and deals for men you trusted in the government and as representatives, you would have had the railway built as it was promised you. Instead of that—instead of a through line from Grand Falls to St. John and Rothesay, with Transcontinental through it, you have a branch line that will enable the C. P. R. to shut off competition.

"The representatives of yours have apparently preferred to protect the raffle-off men rather than look after the public services of the people. Mr. Jones has the session taken up the line of the legislature even to make a motion, much less a speech upon any public question, with one notable exception. THAT WAS THE SECOND OF THE RESOLUTION TO WHITENASH EX-PREMIER FLEMING'S RECORD."

Mr. Jones's chief distinction has been protecting men who bought farms for the province with mortgages upon them; in disposing of public lands in the agricultural department; and when acting premier being the chief supporter of the west side route for the Valley railway—directly contrary to his plighted word to the people. As for Mr. Hedley Dickson, his influence with the government is so powerful that it runs away with him. He seems unable even to get a broken plank replaced in a river wharf. Bdt at least he is harmless.

"This is how these men are disregarding the interests of the people in my opinion. Mr. Jones's conduct I have doubt you in the other actions can tell the same story. Public interests have been made subservient to the selfish interest of raffle-off. It made no difference whether it was a lordly lumbermen with hundreds of thousands of acres of Crown lands looking for a renewal of his license, or a poor lunatic with a little property in Sunbury county whose friends asked the protection of the hospital for the insane.

Our "Patriotic" Gift. "When starving Belgium pleaded for help, when there was thought and perhaps fear that the wives and children of the boys defending England might need food, Ontario sent flour to make bread; so did the prairie provinces; British Columbia sent canned salmon; Prince Edward Island sent oats to be ground into oatmeal; New Brunswick sent money to the everlastingly disgraceful New Brunswick our contribution of potatoes to "express the loyalty of the people" was mixed up with graft. With this government at Fredericton many things seemed to have a common sense. The liquor dealers paid thousands for something they didn't get; the lumbermen saved hundreds of thousands for themselves and deprived the province of just so much revenue by being generous to Premier Fleming and Bill Berry. Gould took his hundreds of thousands more to Fleming and his assistants and in consequence the Valley railway is in arrears for our province than I think any other province in the Dominion. New Brunswick, are paying interest upon \$7,000,000 every year and for all time.

"Do you wonder when you think of all these things that the people of New Brunswick are asking for better government than the present one? It is not the cry of the people. It is the cry of the people who are asking for better government. It is not the cry of the people who are asking for better government. It is the cry of the people who are asking for better government. It is not the cry of the people who are asking for better government. It is the cry of the people who are asking for better government.

"Do not make any mistake, we are bound to have better government. It is in the every breath we draw. The opposition who propose to give this better government must approach the task in a right spirit and with clean hands. We cannot go out and take clean contributions from lumbermen and liquor dealers and other interests wanting favors and then deal with them in the interests of the people.

"If we cannot go into power with clean hands let us stay in opposition. If the people prefer the grafters and the grafters' methods, let them have the grafters. There will come a time when the bills they will have to pay will take such a toll from their farms and personal property that they will have to tell and labor so much more to make it go. But as for us, gentlemen, and in speaking for myself I speak for those who are associated with me in opposition, we have made up our minds that the grafters must go out of politics. We cannot buy votes and drown the consciences of our voters with rum to win our elections and then hope to give you better government. If we cannot be elected without doing that we propose to remain in private life.

The contractor was John Armstrong and the question was Armstrong to get the \$2,310,000. He closed an admirable speech of ac-

appear that Hon. William Pugsley and the government of which he was a member were responsible for an alleged deficit of \$184,000 of Central railway funds. Don't you think it is about time the people had the truth and that these slanders cease?

"The opposition, and I speak with authority on this occasion, DOES NOT PROPOSE TO WHITENASH THE POLITICAL SINS OF ITS FRIENDS OR ITS ENEMIES. We are going to get all that belongs to this province no matter who—friend or foe—has it. I have the promise of my associates that this will be done and the people can rest assured that it will be done.

"Mr. Chairman, my time is too short to deal with the opposition reform policy; of our intentions concerning the management of the crown lands and the placing of the roads in the hands of the people and the making of permanent highways. I hope to speak to you many times at many places and when you hear all that we propose to do for you and for the province; when you think of the deception and the rascality that have characterized the government of the day, then I will leave it to you to make a choice, to decide between right and wrong, to work and strive for better government."

Mr. Carter touched briefly upon the need of a county opposition association, and made a glowing reference to the late Sheriff Frazee, who was a warm personal friend of his own and of many of those present. He also expressed regret that the influence with the government had detained Mr. Carvell and a telephone message from Dr. E. A. Smith, M.P.P., of Shediac, told of his sudden illness while en route to the convention. The convention cheered his reference to Dr. Smith and the Westmountain victory to the echo.

The Men Who Are Gone. In Dr. McAlister's speech there were many pointed and pathetic references. He too paid a warm tribute to the "dear old sheriff", and to the many men in the county who had passed away since he entered politics. He thought himself after his defeat in 1911, that he would leave politics alone, but the acts of the local and federal governments were such that no man with any interest in his country's welfare could do so. While he was in politics he had carried himself honestly, and that was what every man should do in politics. What a pity it was that Fleming with his great hold upon the county, had not done so! Referring to the candidates, he spoke highly of each, and E. S. Carter, he said that but for his work, and the publication of the government's misdeeds, there would have been no convention in Kings or any other county.

"Dr. Pearson is a gentleman in every way, shape or form, and that's a lot for one physician to say about another," said the speaker amid much laughter.

His reference to Fred Sharpe was also highly complimentary. His description of his attention to the financial affairs at the county council and that he would know the date of every five cent piece that was spent, showed him to be the kind of a man that was wanted.

His allusion to the attacks of the Conservatives upon Mr. Carter and the reasons for them as well as his acquaintance with him, and his work as organizer was warmly received.

W. R. Foster. W. R. Foster, of St. John, made a brief speech and promised that in the next issue of the paper he would talk to them upon the financial standing of the province. He finished a hearty greeting and his subsequent of the ticket and the convention was County Opposition Association.

Coloned Wetmore and S. H. Flewelling both made short addresses, hearty and cordial in their expression of support for the ticket and the party.

Upon motion, a county opposition association was formed with the following officers: President—S. H. Flewelling. Vice-President—F. H. Morton. Treasurer—Arthur Keith. Secretary—G. Hazen Adair.

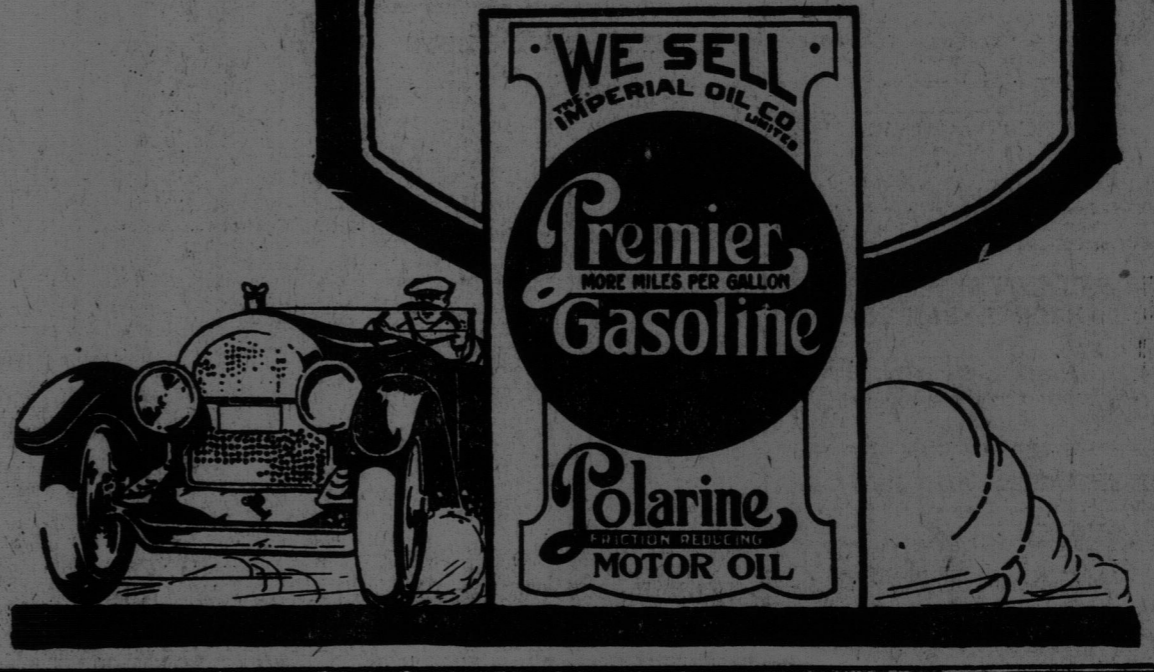

Assistant Secretary—Charles Reynolds. Appeal for Recruits. An incident of the day was the presence of William Kirkpatrick of Rothesay, a member of the Construction Corps working for recruits, and the appeal of Dr. McAlister for those who could do so to volunteer for this corps to assist in building railways for the boys in France.

News of New Brunswick Soldiers—
General Inspection by Lieutenant Governor of Quebec Tomorrow

Valcartier Camp, July 24—Private Thomas Bayliss of the 119th Battalion, who came from Montreal, was drowned while swimming in the Jacques Cartier river on Saturday afternoon. His body was recovered. This is the first drowning fatality at the camp.

Rumors are again flying around the camp that certain units will soon leave for overseas, and there are strong reasons to believe that it will not be long before the 182nd Battalion, C.E.F., embarks. This battalion, under Lieut.-Colonel Mercereau, is one of the best in camp, and with a little more training of an advanced nature will be ready to take its place in the firing line. The men are an especially fine lot, and their physique has attracted the attention of inspecting officers. The battalion is at present spending most of the time at drill on the plateau, and during this week it is expected that they will spend

The Man In The Street

Oh, well, they say fog is good for the ladies' complexions. . . .

But that's little consolation to the men who do not know whether or not they have a complexion. . . .

Why not submit to arbitrators the sacred right of the city engineer to fix grades in the North End streets. . . .

Judging by their demands that officers and men should receive the same rates of pension, the common council of St. John Falls must be planning to enlist in a body. . . .

If Germany can so easily clear up mysteries by reference to captured archives, why not let them capture the British archives and settle the Shakespeare-Bacon controversy. . . .

With soldiers clad in steel, fighting hand-to-hand with knives and axes, all that is needed to complete the picture is a few companies of archers with their bows and arrows. . . .

If this is to be a regular summer weather the man who bought a light suit this spring can use it on the two fine days each year until it dies of old age or gets out of fashion. . . .

What The Rattle Cost. . . .

The big five thousand dollar touring car was stalled on Bathurst avenue and the chauffeur was working painfully at its mechanism and murmuring something that sounded like "no prayers, but wear". Another chap came along in his Ford and, with the Freemasonry of the road, stopped with the usual well-meant question. . . .

"In trouble?" he asked. "No, I'm just doing this for the fun of the thing." "Can I be of any use to you?" the Ford owner persisted. "No, you can't," was the explosive answer. "Couldn't I give you a tow into town?" still urged the would-be Samaritan. "No, you couldn't," was the gruff answer. "What's that rattle you've got with you, any way?" "That rattle?" Oh, you noticed that, did you? asked the other, at last somewhat nettled. "That rattle is the jingle in my pocket of the extra forty-six hundred dollars that my car didn't cost me." . . .

Not The Same Lodge. . . .

The young chap was sent to the recruiting office on a message from his boss and, when he got there, the recruiting clerk suggested that he should sign on for overseas service. The lad had tried to enlist before, but had been rejected, but when the notices were issued, he had received one. In order to save trouble and explanations he pulled aside the sergeant and modestly concealed on his vest. But the button made no inaudible noise, the recruiting clerk evidently had had never seen one before. "Well, what's that? I don't belong to that lodge. You can't pull any stuff like that on me," said the recruiter. . . .

Unintended Philanthropy. . . .

His new car was installed in a local garage and, even if it was pouring rain on Sunday afternoon, he thought he would have a trip in the chariot. "I'll fill up with gasoline," he said, as he indicated his car to one of the helpers at the garage. . . .

The tank was filled and the new owner started out through rain and mud and enjoyed the travelling for a short time, and then turned back to the car barn. "Say, that wasn't your car you took out?" said the proprietor, as the driver came to a safe anchorage on the garage floor. . . .

And it just cost him the extra four and a half gallons of high-priced gasoline he had not used and another dollar and a half to have the car washed. . . .

The Height of Hospitality. . . .

"I struck a new one the other day," said the traveller. "I blew into a Nova Scotia hamlet about three miles smaller than a village and located the only hotel. "Can you put me up?" I asked the proprietor, after I had roused him from his nap behind the desk. . . .

"Oh, I guess so, maybe," he told me. "So I registered and then stuck around waiting for developments. . . .

"Got any one to show me to my room?" I wanted to know, when I got tired waiting. . . .

"Guess so, hey, Minnie," he said, and a little girl turned up, grabbed my hand bag and started up the stairs skyward. She only stopped when the roof wouldn't let her go any farther, and she steered me into a room that had to have a bright young Englishman, who came to Canada some ten years ago, and was for a time employed in the establishment of Manchester Robinson Allison. From here he went to Montreal, and at the outbreak of the war went from Montreal with the first contingent. He was promoted to the rank of sergeant. His only relative in Canada is a sister in Dunville, Ontario. Sergt. King was a fine looking young man of worthy character, and had made warm friends during his stay in St. John. . . .

MASCOTS OF 115TH ARE NOW IN ROCKWOOD

Bear Cubs From Lt. Col. Wedderburn's Regiment — More Seats For Park

The two young bears, mascots of the 115th Battalion, which were presented to the Park by Lieut.-Col. Wedderburn, and members of the corps have arrived at the park and are now enjoying the freedom of an extensive cage which has been constructed for them. . . .

They are a lively young pair, and their playful antics will prove of great interest to the many visitors to the park. A suitable sign or inscription is wanted giving the particulars as to their having been the mascots of this New Brunswick battalion etc. If some expert in sign writing will be good enough to offer to contribute this, such will be gratefully accepted. . . .

Com. G. Fred Fisher of the Public Works Department has managed to spare eight of the city seats or benches which he has kindly permitted to be placed in the park. They will be found on the southern shore of Lily Lake, and already have been extensively used. . . .

NOW IS POSTMAN.

Harold Duplisse, of Beauséjour, formerly of the first Canadian contingent and later the Princess Patricia, and invalided home, has secured a position as postman on one of the city routes. He has gone through a great deal and his friends will be glad to hear that he has been placed. . . .

REUBEN C. BURPEE

The death of Reuben C. Burpee, second son of the late A. Cyrus and Arranna P. Burpee, took place on Monday in the General Public Hospital. He had been ill for some time, but the end came suddenly, and his death has proved a great shock to his relatives and friends. He was a highly respected resident of the North End, and, for several years, had been engaged as a machinist with J. F. Williamson & Company. His father-in-law was Burton, Sunbury county. One brother, George H. Burpee, of J. F. Williamson & Company, survives. The funeral will take place on Thursday afternoon from his brother's residence, 166 Bridge street, service commencing at 2:30 o'clock. . . .

FORMER ST. JOHN RUNNER WAS KILLED IN ACTION

The war news brings a feeling of sorrow to many who were interested in the athletic sports conducted in this city by the Every Day Club. One of the members of that club, and one of its distance runners was Ernest W. King, a bright young Englishman, who came to Canada some ten years ago, and was for a time employed in the establishment of Manchester Robinson Allison. From here he went to Montreal, and at the outbreak of the war went from Montreal with the first contingent. He was promoted to the rank of sergeant. His only relative in Canada is a sister in Dunville, Ontario. Sergt. King was a fine looking young man of worthy character, and had made warm friends during his stay in St. John. . . .

CONSERVATIVES AT THE HAMPTON CONVENTION

One of the striking features of the opposition convention at Hampton yesterday was the large number of Conservatives. They were there from nearly every parish, and those present named many others who were determined to do all in their power to defeat the present government. No delegates were more earnest in their desire to have a thorough house-cleaning at Fredericton. The opposition candidates therefore go into the fight with the assurance of the support of many electors who in the last provincial election worked hard for the government candidates. . . .
