MURDER OF WOMEN AND CHILDREN

Turks Report Italians First Bound Them With Ropes, Then Killed Them

PROTEST IS LODGED

Execution of Arabs in Tripoli Brought to Notice of Powers—Said to Number 4,000, Including 400 Women and Children

(Canadian Press) Constantinople, Nov. 4.—Neshaud Bey reports with regard to the killing of many women and children by the Italians in Tripoli that they were bound with ropes before they were murdered. The Turks find everywhere corpses with their throats cut. The government has lodged a protest with the powers which signed the Hague agreement of 1907 against the execution of Arabs in Tripoli. Berlin, Nov. 4.—The Lokal Anzeiger Tripoli correspondent says Italy's losses in Tripoli, since Oct. 23, amount to 1,000 men of whom 280 were killed. Eighteen soldiers are suffering from cholera. "The Italians," continues the correspondent, "have executed 4,000 Arabs including 400 women and children. Cholera is rapidly increasing among the Arabs and Jews. No room exists in the city for the expected refugees and their arrival must further increase the ravages of the cholera." A cablegram from Herbert Montagu, a second lieutenant of the Fifth Fusiliers who is serving as a volunteer with the Turkish troops tells of the finding of bodies of women and children with their hands and feet tied, mutilated, pierced and torn. In another town they found a mosque filled with bodies of women and children mutilated almost beyond recognition. They are getting news of further massacres from farms lately occupied by the Italians.

KILLED PROTECTING HIS EMPLOYER'S PROPERTY

Watchman at Home of Copper Millionaire Found Shot to Death

New York, Nov. 4.—Burglars frustrated in their attempt to rob the country home of Isaac Gungahson, a copper millionaire at Fort Washington early today, shot down and killed the night watchman, Alfred Crocker. The burglar escaped in a boat. After the sound of the shots members of the family and the servants ran out and found Crocker lying dead on the lawn in a pool of blood. A revolver was clutched in his hand, but none of the family members had been discharged, showing that his assailants had dropped him before he could fire a shot. There are no clues beyond footprints on the piazza.

WEATHER BULLETIN

Issued by authority of the department of Marine and Fisheries, R. F. Stewart, director of meteorological service.

A LIBERAL VICTORY

London, Nov. 4.—The East Bristol by-election, necessitated by the elevation of C. E. Hobhouse to the chancellorship of the Duchy of Lancaster, resulted in a majority of 2,000 for the Liberal candidate. The figures were: Hobhouse 4,913, W. Moore, independent, 2,913.

FREED BY JURY

Denver, Colo., Nov. 4.—Less than an hour after the case had been given to the jury last evening, a verdict of acquittal was returned in the case of Mrs. Eleanor C. Valentine, charged with the murder of her husband, Harry C. Valentine, on March 15. Self-defence and temporary insanity resulting from long continued abuse formed the defence.

BILL MINOR RE-CAPTURED

Waynesboro, Ga., Nov. 4.—Bill Miner, said to have been a notorious train robber, who with Tom Moore escaped from a Georgia prison several days ago, was captured in a box car at St. Clair late last night. Moore, who resisted arrest, was killed.

SOME EXCITEMENT

A large pot of tar affixed some excitement this morning in Bridge street.

HANKOW AFIRE AS MASSACRE GOES ON

Fearful Conditions in Chinese City This Morning; Many Lives Are Lost

Fifty Blind Boys and 150 Wounded Men Likely Burned in Wesleyan Mission—Red Cross Steamer Driven Back by Fire of Forces—Threat of Massacre in Foo Chow

(Canadian Press) London, Nov. 4.—The Times Shanghai despatches say that the situation at Hankow is reported most serious. The city is half burned, and it is feared that large numbers of wounded were burned in the ruins. The massing of innocents was apparently on both sides. There is danger of reprisals in other quarters, thus changing the whole character of the revolution. The Times' Peking despatches say: "The feeling here is more hopeful, but there are still immense difficulties to be overcome, which will not be lessened if the stores of the massacre at Hankow prove true."

FEAR MANY LOST IN MISSION

Hankow, China, Nov. 4.—(Via Wu Hu) —Almost the whole of the native city of Hankow is afire this morning, and it is feared that the Wesleyan mission near the Han River, in which are fifty blind boys and 150 wounded persons, who, with the staff of the mission, make up a total of 300 persons, will be destroyed. The head of the mission asked the imperialists to grant an armistice of two hours to permit removal from the mission, but the firing ceased for only half an hour. A Red Cross steamer which attempted to rescue the people in the mission was driven back by the fire from the rebel fort. One shell riddled the steamer. When the vessel was compelled to turn back the mission was still standing, but its position was hopeless, the flames being within 200 yards of the building. The fire in the town was started by the imperialists, who threw inflammable shells into the place. A strong wind carried the flames across the river to Han Yang and a strip of that city on the waterfront, a mile long, was destroyed, and the fire is still burning. A few hundred rebels against whom the imperialists are preparing to advance, occupy the unburned parts of Hankow. When the steamer left the harbor, a battle was taking place between the batteries of the imperialists which were planted on the bank of the river. Several British rebel shells landed in the foreign concessions, piercing the walls of houses. China, Nov. 4.—All steamers arriving here from Foo Chow are crowded with refugees who report that eighty per cent. of the population had fled that city. The new army has been disarmed, but the pay of the men is continued. General Sun Tse

UP RIVER CONSERVATIVES BUY THE McMULKIN-SMITH DREDGE PLANT

Thirty Thousand Said to Be Price—Some York Men Who Are After Government Positions

A YORK LOAN DIVIDEND SOON

Another 25 Per Cent Expected By the End of Year—One More Later

Toronto, Nov. 4.—It is reported that there will be another dividend of the York Loan & Savings Company assets on Jan. 1, 1912. There is at present the sum of \$37,000 in the bank for the purpose of a dividend and the liquidation commission is estimated to require an additional \$20,000 required for a 25 per cent dividend by the end of the year. That will make a total payment of \$57,000 to the shareholders. The cheques will be sent out to 108,000 addresses all over the world, and the post office alone will be \$1,200. There will be a third and final dividend, but what this will be is uncertain. The \$83,000 of unclaimed balances and unclaimed cheques may be divided among the other shareholders, though special legislation would probably be necessary for that. Then there is a tract of land in the west floor street district which is not sold yet, and which will increase in value if the Humber Valley scheme in which Mr. Smith is interested is carried through.

NO PLACE FOR THEM IN VOTE

Lancaster Has an Interesting Situation Under Rearrangement of the Polling Districts

An interesting situation has arisen in the Parish of Lancaster as the result of the revision of the election act by the provincial government at the last session. The voting districts were arranged, under the new act, according to the school districts and it was said today that no provision is made for the voters who are not included in any of the school districts specified. The New Brunswick Election Act, by which the revision of voters is regulated, was largely amended by the legislature in April, 1911. The parish of Lancaster heretofore was divided into two voting districts, No. 1 and No. 2, and under the amendment there will be four polling districts, school district No. 2 and 3 will vote at Wesleyan Hall, Fairville, school district No. 11 and 12 at the Public Hall in Lorneville, school district No. 1 will vote at Griffith's store, Elm street. Lancaster and school districts Nos. 13, 14 and 16 at the Temperance Hall, Millford. There are some voters who are in none of these school districts, and for these, it is said, no provision is made for the registration of their vote. In order to solve this difficulty it is probable that the names of these voters will be added to one of the existing districts, but the legislature will be asked to pass a special act authorizing this change.

LOCAL NEWS

CARLETON FIRE

The west side fire department was called out yesterday for a fire in the home of James Holmes in Winslow street. The damage was slight.

THANKS OF THE TIMES

The Times staff yesterday received a box of very fine Farnham apples, some of these shown at the exhibition of the New Brunswick Fruit Growers' Association. The apples and the courtesy which prompted the gift are both highly appreciated.

VISITING PUGILIST

"Young" Donohoe, well known Boston boxer, passed through the city last evening from Sydney on his way to New York, where he intends trying to arrange a combat with Knockout Brown. Donohoe has won several bouts and is anxious to meet some Canadian lightweight in a "go." He expects to return to the maritime provinces about January.

C. E. R. WORK

General Superintendent William Downie of the Atlantic Division of the C. P. R. returned today after an inspection trip over the line. There is, he said, considerable ballast being laid on the Tobique and Edmundston branches and several wooden bridges are being replaced by steel structures. There are also some coal sheds being built in the vicinity of Presque Isle and Carleton, in Maine. The inspection was found very satisfactory over the division.

BISHOP CASEY IN QUEBEC

His Lordship Bishop Casey has gone to Quebec to attend the consecration of the new cathedral, the recently appointed Bishop of Regina, Sask. He will be consecrated tomorrow in Quebec, where he is a leader for many years. The bishop will be His Grace Archbishop Beaudry, of Quebec. The apostolic delegate, Monsignor Lagani and most of the archbishops and bishops of Canada will be present. The Bishop of St. John will be represented by Rev. F. J. McMurphy, of Woodstock.

IN ST. PATRICK'S HALL

Before a large and appreciative audience in St. Patrick's Hall, Carleton, last evening the members of St. Rose's Dramatic Club, Fairville, presented "The Convict's Daughter" in which they again scored the success which they first procured in their own hall some time ago. The characters were capably enacted and rounds of applause greeted the efforts of the players. The characters were portrayed by Misses May Butler, Gertrude Hagioe, and Agnes McManus, and Messrs. J. J. O'Toole, Wm. Quigg, Joseph Colgan and James Conway. Music was furnished by Mrs. J. J. O'Toole, and Messrs. A. Thibideau and J. Joyce. Mr. Thibideau gave a specialty which would have done credit to a far larger theatre or stage, completely mystifying his audience in a "handcuff act." The proceeds were in aid of the Church of the Assumption.

FIFTY MILLIONS A YEAR IN TIPS

Commercial Travellers of United States Start an Anti Campaign. Chicago, Nov. 4.—A campaign against tipping has been started by commercial travellers of the United States. According to H. E. Dowie, president of the Commercial Travellers' National League, \$50,000,000 is disbursed by salesmen annually among bell boys, waiters and porters, in addition to \$25,000,000 paid as regular hotel charges.

AN EMPIRE WIDE SHOOTING COMPETITION

London, Nov. 4.—An imperial challenge competition open to the services of the whole British empire will be held on an available range between April 15 and May 24 next year. Lieut. Schumacher has given a challenge cup of the value of 100 guineas with silver and bronze commemorative medals and \$2,000 in money prizes to be competed for by open teams of forty from any unit in His Majesty's services, with the object of encouraging the boys throughout the empire to learn how to use their rifles effectively.

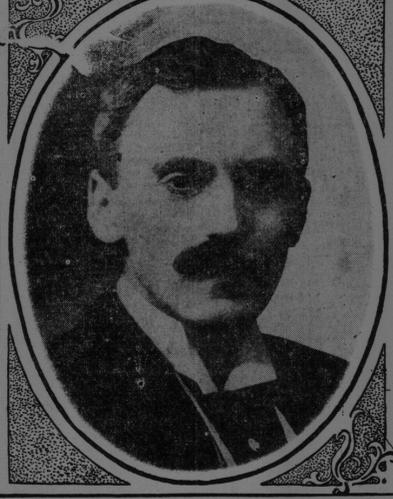

CASHIER SEEKS JAIL

Rochester, Ind., Nov. 4.—After state bank examiners had closed the Citizens Bank, Ind., and had announced that its funds were short about \$50,000, Harry H. Hartley, the cashier, obtained the sheriff's permission to stay in the jail until inquiry into the bank's affairs had proceeded further.

TEN NEW CITIZENS

Registrar J. B. Jones reports for the last week seven marriages, and ten births—five boys and five girls.

ONTARIO'S NEW LIBERAL LEADER

Newton Wesley Rowell, K.C., the new leader of the Liberal party in the province of Ontario. He is not a prominent parliamentarian, never having been elected to a legislative body, but during the recent federal campaign he proved himself to be a most eloquent and forceful speaker. He is a prominent Methodist, was the first president of the Laymen's Missionary movement in Canada, is prominent in educational circles and is forty-four years of age.

WANT OLD RAILWAY SHOPS IN MONCTON PUT TO SOME USE

Citizens Wait Upon Hon. Mr. Cochrane—Government Members, Including Mr. Hazen, to Ottawa. Winter weather has struck the upper reaches of the river early this year. L. A. Curry, K. C., said today that he had received word that, owing to the river being frozen over the steamer Hampstead was unable to proceed to Fredericton this morning. She got as far as Upper Maugerville, but owing to the fact that her hull is of wood it was impossible to force her way through the ice there. The Elaine, which is of steel construction made her way through the ice and the Hampstead attempted to use her track, but this was found impossible, as the ice formed again too rapidly. The captain communicated with Dr. Curry and received instructions to return to Gagetown to await further orders.

RIVER FROZEN OVER; ICE APPEARS THIS YEAR RATHER EARLY

The Hampstead Could Not Get to Fredericton Because of Ice Blockade at Upper Maugerville This Morning. Winter weather has struck the upper reaches of the river early this year. L. A. Curry, K. C., said today that he had received word that, owing to the river being frozen over the steamer Hampstead was unable to proceed to Fredericton this morning. She got as far as Upper Maugerville, but owing to the fact that her hull is of wood it was impossible to force her way through the ice there. The Elaine, which is of steel construction made her way through the ice and the Hampstead attempted to use her track, but this was found impossible, as the ice formed again too rapidly. The captain communicated with Dr. Curry and received instructions to return to Gagetown to await further orders.

PERSONALS

Mrs. W. S. Carter, of Fredericton, is visiting friends in St. John. Mrs. E. K. Cole, of McDonald's Corner, is in the city visiting her children. Miss Jessie Graham of Fairville has returned home after spending two weeks vacation in Boston. John T. Kelley of the inland revenue service returned this morning after a visit to Boston. Rev. M. E. Fletcher, field secretary of the Baptist Foreign Mission board, returned this morning after a visit through the upper part of the province. Thomas E. McDonald of west St. John returned this morning from Montreal. Hon. Robert Maxwell came home from Hartman this morning. Major Ashburnham of Fredericton, is in the city today for the purpose of inspecting the military stores and the local ordnance department. Senator Wood, who arrived in the city yesterday, returned to Sackville this morning.

BURIED TODAY

The funeral of James Smith took place this afternoon from his late home in Winter street. Funeral services were conducted by Rev. Gordon DeWick and interment was in Fernhill. The body of Mrs. Elizabeth Williams was laid at rest this afternoon at 2:30 o'clock in Fernhill. Funeral services were conducted at the home of J. B. Jones in Winter street by Rev. W. O. Raymond, and Rev. W. Dunham of Madam.

LOST LIFE TRYING TO SAVE YOUNG WOMAN

She Fell Into Canal While on Way Home After a Party. Utica, N. Y., Nov. 4.—William McSweeney, 25 years old, lost his life while endeavoring to save Miss Charlotte Smith from drowning in the Erie canal. The young woman, dressed in ball gown and furs, fell into the water, while going home after a party. Her cries attracted McSweeney, who plunged in. He helped her out and then sank. His body was recovered half an hour later. Miss Smith suffered no harm beyond a drenching.

POT OF RED PAINT ON HEAD OF THE PREMIER

Madrid, Nov. 4.—Prime Minister Canalejas while passing a shop which was being redecorated, revolved the contents of a pot of red paint upon his head. The painter, who had fallen, was not badly hurt, but the premier's hat and clothes were covered with paint, and his eyes glasses were broken.

AN EXPLANATION

Because of a heavy pressure on the advertising and news columns of the Times today some of the interesting Saturday features have to be omitted today. They will be published early in next week.

IT IS A 4-FOR-A-QUARTER CIGAR

IT IS made by S. DAVIS & SONS, who have made cigars and nothing else, for over half a century.

IT IS called the DAVIS' "SUBLIME" CIGAR, and the name fits it well.

THE "SUBLIME" CIGAR

was made for the smoker, not for dealers' profits, and as a 4-for-a-quarter cigar represents a unique standard of value.

IT IS made by a firm which produces the celebrated "NOBLEMAN" CIGAR—renowned not only from the Atlantic to the Pacific, but beyond the seas.

S. DAVIS & SONS LIMITED, MONTREAL

Makers of the Celebrated "NOBLEMAN."

Clean, Dry Heat

Clean, dry heat, with no smoke or odor and with no flying ashes or soot—that is what you get with a Perfection Smokeless Oil Heater.

The Perfection is the most reliable and convenient heating device you can find. It is always ready for use. There are no pipes or flues or wires to bother you. You can pick it up and take it wherever extra warmth is wanted.

Every mechanical improvement that experience and science have already embodied in the Perfection Heater.

A special automatic device absolutely prevents smoking. Always easily cleaned. Gallon fuel; lasts nine hours. Cool handle; damper top. Details everywhere or send descriptive circular to any agent.

REBELS CAPTURE SHANGHAI

Shanghai, Nov. 3.—Except for the foreign concessions Shanghai itself is entirely in the hands of the revolutionaries.

LOGOMOTIVE ENGINEER HAS REMARKABLE EXPERIENCE

I have been thinking that word from me would benefit those who may be suffering as I was before I began taking my Swamp-Root, the great kidney, liver and bladder remedy. I am a locomotive engineer, employed on the Tyrone & Clearfield Branch of the Pennsylvania Railroad.

PROVE WHAT SWAMP-ROOT WILL DO FOR YOU

Send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. It will convince anyone. You will also receive a booklet of valuable information, telling all about the kidneys and bladder.

SPEECH ON MORMONISM IN 1877

Editor Times: Sir,—As the pulpit and the press are at present giving attention to the subject of Mormonism, I am sending you an account of a lecture delivered in this city in the Mechanics Institute on that subject on Thursday evening, Feb. 22, 1877.

Mrs. Ann Eliza Young was met at the Mechanics Institute on Thursday evening last by one of the finest audiences ever assembled there to hear a lecture. Her appearance before them and her address on the subject of polygamy was in every way successful.

La MARQUISE de FONTENOY

Lady Herbert de Lea—The House of Bentinck Rich in Historical Association—One Member Saved Life of William of Orange

(Copyright, 1911, by the Brentwood Company)

The death of Lady Herbert de Lea during the last week has placed in mourning one of the two American Lady Herberts, the widow of the late Sir Michael Herbert who died as British ambassador to the United States, daughter of the late Richard T. Wilson of New York and sister of Mrs. Cornelius Vanderbilt and Mrs. Ogden Goelet, both of that city.

She was the widow of Lord Herbert of Lea, better known as Sydney Herbert, late brother of the 12th Earl of Pembroke, the most distinguished and fascinating man of his day. He was portrayed by Lord Beaconsfield in several of his novels, notably in "Endymion," under the name of Lord Herbert of Lea.

The House of Bentinck

Lord Gladstone's secretary, Major Walter de Bunsell of the Rifle Brigade, who has just obtained from King George a warrant enabling him and his male relatives to use the title of baron, is, in point of seniority, the head of the entire House of Bentinck.

Major Walter de Bunsell, from now on Baron Bentinck of Schoonhoven, is an officer of the English Brigade, who has distinguished himself in the Transvaal war, where he was severely wounded.

He is married to the English heiress, Countess Clara Wedel, by whom he has two daughters, one of them married to Major Conrad von Krosigk, of the Prussian cavalry.

The successful claimants in the great Bentinck lawsuit, son of General Count Charles Bentinck of the British army, sold their sovereignty of Kniphausen and of Varel to the Dutch.

Here will be found the names of some of the prize-winners in recent contests. The names and addresses of persons who have won prizes in the various contests are given in this column.

Write the above words plainly and neatly, in case of ties, both writing and neatness will be considered in this contest.

We do not ask you to spend one Cent of Your Money in order to enter this Contest. We will send a partial list of the names and addresses of a few persons who have won prizes in the various contests.

Address: BOVEL MFG. CO. DEPT. 25 BOVEL BUILDING MONTREAL, CANADA.

PREVENTION!—The Modern Doctor's Watchword.

To prevent disease is easier than to cure it, and Bovril and Bread and Butter are a great team to keep the system in shape to repel disease.

A cup of Bovril, or a Bovril sandwich between meals or at night will dispel fatigue and keep one "fit."

All that is good in beef is in Bovril.

The Evening Chit-Chat

By RUTH CAMERON

"I DON'T see why I'm so tired today," ruminated the lady who was calling on me.

"Merely no," you've just told me that your husband brought home three guests and you had to get up a big dinner for them," I reminded her.

"Doesn't that explain it?"

Commissioner Lane advocates more federal control over large enterprises engaged in interstate business.

Reported movements of currency indicate loss of \$3,000,000 by banks.

Idle cars for fortnight decreased by 15,385.

Weather conditions favorable to cotton crop with winter wheat outlook excellent.

Business outlook good with tone in iron and steel notably improved.

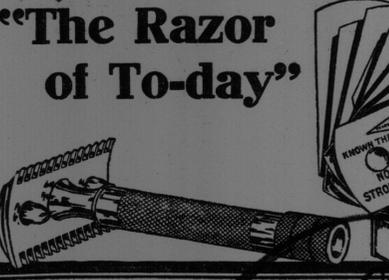

American Express Company's annual report shows surplus about \$2,286,800, compared with \$1,288,800 for nine months, 1910.

Exports of manufacturers this year valued at one billion dollars, or double that of ten years ago.

Twelve industrial advanced 12 per cent; twenty active railroads advanced 24 per cent.

C. P. R. 4th week October increase \$404,000; month October increase, \$863,000; from July 1 increase, \$3,460,000.

DOW JONES & CO.

GILLETTE Blades Are Harder—Keener—Smoother—Than Forged Razor Blades

Before the GILLETTE was invented razor blades were all forged. That is, a piece of mild steel was heated and hammered out till it took the form of a razor blade.

In making GILLETTE blades we start with an ingot of steel, too fine in quality to stand forging, whose composition we know by analysis.

Two of the hardest, keenest, smoothest shaving edges the world has ever seen are found on each and every GILLETTE blade.

Standard Best \$5.00. Pocket Editions \$5.00 to \$6.00.

READY TO OPEN ST. PETER'S HIGH TEA

Attractively Arranged Tables and Booths—Those in Charge

After weeks of preparation to make the affair as much of a success as possible, committees having charge of the annual high tea and fancy sale of St. Peter's, North End, have about finished their labors, and everything is now in readiness for the opening on Monday evening in the handsomely decorated hall, in Elm street. The tea will continue until Thursday.

Only skillful hands could have wrought such a beautiful transformation in the interior of the hall. It will be even more attractive when the tables are laden with the tempting menu for which St. Peter's high tea has won renown, and when about the booths and tables are busily sitting scores of winsome waitresses.

The color scheme is pleasing and in good taste. It is difficult to discriminate; both the long supper tables are daintily arranged. The colors are pink and white and green and white, and the network of flowers, colored electric bulbs, and colored strips present a pretty spectacle.

The color scheme is pleasing and in good taste. It is difficult to discriminate; both the long supper tables are daintily arranged. The colors are pink and white and green and white, and the network of flowers, colored electric bulbs, and colored strips present a pretty spectacle.

Those in Charge

Mrs. Thomas Martin has charge of the green table, while the pink table will be under the supervision of Mrs. John Hillas. Assisting on the pink table will be Mesdames M. Mullin, M. Quigg, J. Merrick, Jas. Dever, Jas. Conroy, J. Quinn, Jas. Walsh, T. Lloyd, D. Boyer, P. Mahoney, E. Higgins, J. Brown, M. Garvin, Wm. Dalton, L. J. Conlogue, R. J. Carter, T. Gallagher, J. Davern, M. Wharton, G. Coody, M. Finnegan, H. Montague, Misses M. McKinley, Katie O'Connell, N. McBriarty, M. Lang, M. McMahon, S. McMahon, Alice Dever, M. McHarrige, C. McElwaine, R. Connors, Josephine Connors, M. Doherty, N. Collins, F. Gallagher, G. Clark, Nellie Harrington, E. Brown, Annie Gonnell, Nellie Gonnell, M. Donahue, Zeta McDonald, Margaret McPeake, A. Maher, J. Jeffreys, Lena Dryden, Minnie Goughlin.

The following ladies will attend at the green table: Mesdames J. Jenkins, C. F. O'Hara, D. Conlogue, A. King, T. Hurley, J. Mulvaney, J. Lowney, W. Leonard, M. J. Coody, W. Maloney, Misses Ida Keagan, Minnie Carlyn, Annie Carlyn, Margaret McMillan, Greta Coll, Esther Lannen, Florence Robinson, M. Shea, G. Hansen, M. Coger, B. McEadden, J. Walsh, Edna Creary, Ethel Creary, Lena Harrington, Margaret McCarthy, Hester Martin, K. Connolly, Mary Forrest, Lucy Palmer, Annie Tracey, Loretta Tracey, Ethel Walsh, Teresa Gorman, Annie McInerney, Mary McAndrew, Teresa McCormick, Josephine Darick, Nellie Dever, Susie McWilliams.

The ice cream parlor occupies an elevated platform at the rear of the hall and is prettily decorated in yellow and white. A portion of it will be reserved for the sale of candy. The ladies in attendance will be Miss Eva Doherty, Miss Lena Doherty, Miss Gilly, Miss Beattie Gillen, Mrs. G. Doherty, Miss Beattie Gormley and the Misses Phillips.

The fancy and doll table has been made to appear attractive as usual and presents a very pleasing appearance. The ladies in this booth are: Miss Margaret Tierney, Mrs. A. L. Dever, Mrs. H. Lyons, Misses M. Murphy, S. McEwaine, Margaret McMinamon, Helen Murphy, Irene Kierwan, B. Hillis, K. McMillan; Ella Martin.

The fish pond is replaced this year with a booth of oriental design and dainty appearance known as the "bonanza bungalow," which will be attended to by Misses May and Evelyn Mullin. Mrs. E. Hanson will have charge of the check room.

The ticket committee will be composed of Messrs. Jas. Howard, K. J. Casey, Wm. Shea, D. Sweeney, Jas. Duffy, T. McEwan, H. Lyons and James Duncan. The Gillen and John Bain will attend to the game booth, while the beanboards will be in charge of D. Conlogue, E. O'Hara, A. P. Delaney and Walter Cronin, with L. Conlogue and J. T. Haggerty attending to the fortune wheel. Edward McGuire and L. Murphy will preside at the refreshment booth.

Rev. Martin Maloney, C. S. R., is supervising the fair again this year and under his careful direction the committees have labored with success.

TONIGHT—Attend the Reduction Sale of Fall and Winter Millinery. Entire Stock of Trimmed Hats at \$2.50, \$3.50, \$4.85, \$5.50, \$7.00 and \$8.50. Also the handsomest of Pattern Hats, choice Gage Models at Much Reduced Prices.

The Sale of Carpets and Squares, also Great Sale of Silk Continued this evening

Our Big Remnant Sale of Colored and Black Dress Goods, Suitings and Coat Cloths Will Commence Monday Morning

Hundreds of Ends of Choice Materials Suitable For Ladies' Dresses, Costumes, Skirts and Waists; Girls' Dresses, Skirts, Coats and Waists; also Many Short Lengths, Suitable for Boys' Suits or Odd Pants

THE MATERIALS ARE: Serges, Cheviots, English Worsted, Tweeds, Broadcloths, Amazon Cloths, Poplins, Panama Cloths, Etc.

In Lengths From One to Six yards. Exceptional Bargains Will Prevail.

Sale to Start at Sharp 8.30 in the Dress Goods Dept., Ground Floor.

MEN'S WINTER OVERCOATS Select Models Extremely Stylish

Every little detail that distinguishes high-class apparel is to be found in these beautiful new Overcoat models which we are extremely anxious to have you see.

Each one possesses the little intricacies of originality and exclusiveness which are so pleasing to all who desire to wear "different from the ordinary overcoats."

Come and try them on. We'll not urge you to buy—the overcoats will do that.

Men's Black Overcoats, in Melton, Cheviot and Vicuna, - \$10.00 to \$24.00

Men's Fancy Overcoats, with velvet or self collar. These coats are 44 to 50 inches long; made from Vicunas, Cheviots, Beavers and Tweeds; colors are browns, greens, olives and greys, - - - - - From \$7.50 to \$27.00

Men's Long Ulster Coats, with Prussian or convertible collars; single or double breasted style; made from the new Moss Cloths in Tweeds and Cheviots, showing all the best shades of brown, grey and green, - - - - - \$10.00 to \$30.00

CLOTHING DEPARTMENT

THE COTTON OUTLOOK

Extra demands on the Times advertising and news columns today prevent publication of the whole of the weekly cotton letter of E. & C. Randolph of New York, furnished by J. M. Robinson & Sons.

In conclusion the letter states: "Considering the enormous available supply now piling up in the interior, in connection with the heavy financial obligations of southern planters maturing between now and the first of the year, we feel that the market has still to feel the maximum pressure of actual supplies, and while nine cents for cotton seems a low price compared with the average values of the last two years, the resistance that has been encountered around that level must, in our opinion, eventually yield to the accumulating supply in the south."

CANADA TAKES ALL RAILS PLANT CAN TURN OUT

(Montreal Herald)

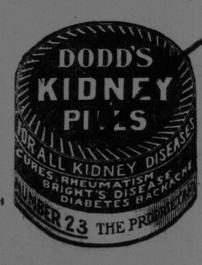

We expect to be in the market with a full range of wire nails, other wire products, bolts and nuts, in the spring of 1912. All of our new plants will be complete next year. They will increase our output fifty per cent.

J. H. Plummer, president of the Dominion Iron & Steel Company, who was at the Windsor yesterday, summarized the progress of the plant at Sydney.

The business of railroad building in Canada still continues to boom, if estimated on the business of the Dominion Steel Company in rails. "We already have advance orders for rails which will keep the plant busy until next summer," said Mr. Plummer. "We have plenty of applications for our product from countries outside the dominion, but the home market takes everything we can make."

PILES

Do not suffer another day with this PAINFUL, BLEEDING, PROTRUDING, ITCHING, and UNCLE SAM'S OINTMENT. It is the only cure for PILES, Hemorrhoids, and all other ailments of the rectum and anus. Sample box free if you send this card and address to the proprietor.

DODD'S KIDNEY PILLS

FOR ALL KIDNEY DISEASES

CURES RHEUMATISM, BRONCHITIS, DIABETES, GRAVEL, AND ALL OTHER DISEASES OF THE URINARY SYSTEM.

Do not suffer another day with this PAINFUL, BLEEDING, PROTRUDING, ITCHING, and UNCLE SAM'S OINTMENT. It is the only cure for PILES, Hemorrhoids, and all other ailments of the rectum and anus. Sample box free if you send this card and address to the proprietor.

THE HUMAN BODY IS AN ELECTRIC BATTERY

Startling New Discoveries Prove Beyond All Doubt That "Electricity is Life."
Men of Science Demonstrate the Value of Electricity As a Cure for Disease.
Remarkable New Invention Meets With Great Success.

That the human body is electrical is no longer a mere theory among scientists and up-to-date physicians. It is generally conceded to be an absolute fact. Professor Edgar L. Larkin, discussing the new physiology, writes as follows: "A man, brain and body, is a battery, and nerves correspond to wires. It is now certain that transmission of sensation over them is electric. Nerves have been cut and a galvanometer inserted. The needle moved, proving that nerve power is electric. The human system is an electro-chemical battery and the life principle is electrical. The electric age is here. Drugs are hard hit on all sides, and an intelligent physician tells me he has almost entirely stopped their use. The word health now means a normal supply of electricity in the body and the word disease means an insufficiency of that power."

Dr. Albert J. Atkins, the eminent California scientist, is still at work proving that every principle in what we call our electrical science is merely borrowed from the human body. We propel railroads, trains and automobiles by means of electricity and think it wonderful, but the human dynamo has always known how to propel itself and with skill and almost absolute safety in either walking or running, and now Dr. Atkins shows us that the millionaire in his automobile and the hobo on foot are alike carried forward by electrical force.

"With a man's stomach as the only electric battery," says a San Francisco morning paper. "It demonstrates that the human body is an electric battery."

"The experiment consisted in the swallowing of two platinum electrodes, so that they touched the walls of the living stomach."

"My means of copper wires the electrodes were connected with a telephone and a microphone, a sensitive instrument which greatly intensifies sound."

"There was absolutely no mechanical or chemical battery in the circuit, yet the moment the electrodes were swallowed sufficiently to touch the walls of the stomach, human electricity flowed over the wires, rendering audible sounds. The electric charge measured from seven to eight volts on a western galvanometer."

Finds Cure for Appendicitis

Dr. Harvey Archibald, of New York city, has discovered that appendicitis yields to the action of electricity pretty nearly as mists are dissipated by the sun. When a case of appendicitis comes into Dr. Archibald's office, the physician trains the powerfully penetrating electric ray upon the sore spot. Right away the swelling goes down and the excruciating pain stops short. And after five or six days, Dr. Archibald says, the cure is always complete.

Electricity the Basis of Human Vitality

Professor Jacques Loeb, after 10 years' research and experiment, made this statement: "A part of the chemical energy of foodstuffs is transformed into electrical energy, which in turn gives energy to the muscles and organs of the body. Electricity, and not heat, is the life of the body. These discoveries are going to upset the theories of medicine as administered by the physicians of today, and the normal working of the bodily functions restored."

Keeps Old Age at Bay

"Electricity will restore elasticity and buoyancy of youth," declares a famous New York physician, writing in the Medical Times. "No matter how old a man may be nor how young in years, whenever his arteries begin to harden, to resist the increased pressure of the blood, then he actually is old. Then the electric treatment must be applied, and after a few lines nature takes up the work and carries it on, and the patient gets young again—or at least he is able to resist the encroachments of old age."

Electricity Will Supersede Drugs

I maintain that electricity is the power which runs the human body—the force that keeps the heart going, the blood circulating and the various organs performing their functions like so many machines. I claim that electricity works the miracle of digestion and assimilation and converts the food into blood and bone, tissue and muscle and supplies the brain with power to think. I have had my theories confirmed by the world's most learned scientists and today the use of electricity as a curative agent is spreading to every corner of the civilized world. While others were speculating and arguing over the merits of electric treatment, I have gone ahead achieving results and I can point with pride to men and women in all walks of life who regained their health and strength through the use of my Electric Body Battery. Before I talk further regarding the use of my appliance, you must understand that the human body is an electric organism, deriving its motive power from the digestion of food in the stomach. This electric force

generated in the stomach is taken up by the nerves and conveyed to the different organs of the body, and is their life. So long as there is sufficient electric energy to satisfy the demands of nature, the vital organs perform their regular functions properly, but just as soon as the natural electric force is overtaken in any way the organs become weak and inactive and sickness or disease is the result. Now, you can't cure the trouble until you restore the lost force. Nature must have more electricity, or vitality, as it is termed by medical men, in the ailing part. You can not renew this force by dosing the stomach with poisonous drugs, which only help to drain away the vitality that you have. When every organ of the body has all the motive power—electricity—it needs, weakness and disease can not exist.

Now, the purpose of my invention, is to restore this electric force in a natural, scientific way. When the stomach is unable to supply the demands of the vital organs you must assist nature by filling your nerves with galvanic electricity. My appliance is a generator of a powerful but soothing current of electricity, worn about the body while you sleep. It sends a subtle stream of electric life coursing through the nerves and vitals for hours at a time. Its touch is gentle, without stinging or burn. There is no shock. All you feel is a glowing warmth. Electricity fills the nerve cells with new life. It drives out pains and aches, builds up vitality and strength and cures to-day such troubles as lung bugs, nervousness, rheumatism, insomnia, female complaints, varicose veins, weakness of any kind and all stomach, kidney, liver or bowel disorders.

The Product of Experience

I have devoted years to the perfection of my appliance. I have removed all defects as fast as they appeared in actual use, and have supplied new features from time to time, so that my appliance is a class by itself. The current can be regulated to any degree of strength by the pressure of a finger upon the regulator arm. Compared with mine, all other electric body appliances are products of the blacksmith's hammer. It is not upon this point, however, that my success has been founded. My immense business is due to my knowledge of the effect of electricity upon the ailments to be treated and the best way to obtain that effect.

I study the effect of the application of my appliance may be suited to the demands of each particular case. When you consider that electricity is life to the organs into which my appliance sends it, you can see how we get our results. My success is due to the cures effected by my appliance. If it did not cure, my business would have died out long ago.

When I say that my appliance cures, I don't ask you to accept my word alone as evidence. I ask you to let people who get back their health through the use of my appliance, and they will tell you what it did for them.

Here is Proof

Rheumatism quickly removed. Electricity dissolves the acid and strengthens the kidneys. RHEUMATISM CURED—NEVER FELT SO WELL FOR THIRTY YEARS.

Cochran, Que. Dear Sir—I cannot say too much for your Belt. I am cured of my rheumatism and my back and kidney disease. I only wore your Belt for one month. Yours truly, WILLIAM HONAN. A REMARKABLE CURE OF PARALYSIS.

Blanche, Que. Dear Sir—No doubt you have forgotten me, for I bought your Belt from you twelve years ago, and after wearing it for three months, was cured, and have been well until this summer, when in July I took cold in the back and kidney disease. I only wore your Belt for one month. Yours truly, CHARLES JACOBSON. CURED OF LUMBAGO.

Dear Sir—I write to let you know of the success of your Belt. Before getting it, some of my friends tried to persuade me that I was foolish to get one. But I had a sag of faith that the Belt would help me, and it did. For two months before I got your Belt, my wife had rubbed my back night and morning, with all kinds of liniments, salves, etc., most of all of which I got from local doctors. Since I have used the Belt, all the hand rubbing has ceased, which has been a great comfort to my wife and myself. I had Lumbago, and I had it probably worse than you suspected. Yours respectfully, FRED CHAPMAN, Plaster Rock, Vic. Co. BELT CURED WHERE DOCTORS FAILED.

Dear Sir—I have worn your Electric Belt for about three months now, and must say that it has done more for me. I have had doctor after doctor, and they have failed to do me any good whatever. Therefore, I must say, that I cannot recommend your Belt too highly, and I intend, that wherever I may go, or wherever I may come in contact with, to recommend it as a sure cure. Sincerely yours, HERMAN O. COOK, Yarmouth, N. S.

Originals of above statements can be seen at my office, 214 St. James street, Montreal, Que. Copies of these and hundreds of others, together with an 84-page book telling all about this home electric treatment by my appliance, are furnished free if you will send or call for them.

Health Without Drugging

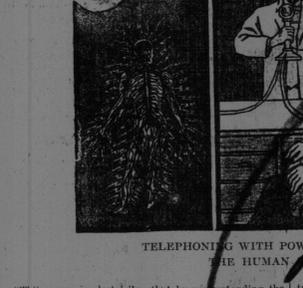

M. d'Arsonval, a well-known savant of the Physiological Institute of Paris, in an address at the Institute, said that electricity would be the medicine of the future. He showed that it is excellent for certain maladies and described the difference between sudden shocks and the slow method by which it pervades the system without the patient's consciousness.

Electricity is Nature's Medicine

Professor Andrew MacConnell, president of the Society of Universal Science, in a recent essay, made this statement: "The only difference between a well man and an invalid is that the invalid is not producing enough electric power to run the functions of his body and keep the vital organs up to the necessities of life."

"With some 300 scientific experiments from recognized scientists it has been conclusively proved that Drugs are poisons, and poisons wreck the nerves."

HOW THE NERVOUS SYSTEM CONVEYS ELECTRICITY TO ALL PARTS OF THE BODY

RESTORING THE BUOYANCY OF YOUTH BY ELECTRIC TREATMENT.

If you are weak, run down, nervous and unambitious; if you suffer from frequent headaches, and have spells of despondency, it means that your nerves are starting for new energy. Rest them. That's all the need, and nothing else will restore them. My appliance saturates the nerves and vital with electricity and builds up strength and vitality in every weakened organ and drives out pain and aches. If there was any nourishment in drugs, they might do some good, but you know there is not. Drugs are drugs, stimulants, narcotics, antidotes, poisons, not food. Electricity is nerve food. It restores the nerves and vital organs by steadily dosing your nervous system with my appliance. It is a complete cure for all ailments.

THE DANGER IN DRUGS

Many people believe that when a drug gives relief it is doing good. That's a big mistake. Drugs can only give temporary relief, and it is always at the expense of the nerves and vital organs. If you have a pain or an ailment of any kind, you don't want to fool yourself into the belief that you are getting well when you are not. That's all you do when you dose yourself with drugs.

It is easy enough to stop a pain by stupefying the nerves with poisonous food, but the pain will return as soon as the stupor passes off. You can force a weak organ to act by giving it a powerful stimulant, but you can't restore its natural strength that way, and it will be weaker than ever when the drug stops working. That is why temporary relief is dangerous. Drugs do not remove the cause of the disease and every minute that they give relief the disease is getting a firmer hold upon your system. As long as the cause remains the trouble stays there, and the only way to get rid of it is to assist nature. Nature wants strength, vitality, power to fight disease and drive it out, not poisons which only make it worse.

Men Made Young at Sixty

There is no excuse for men being old at 60, complaining about pains in the back, stiffness in the shoulders and legs, that "tired feeling," nervousness, indigestion, constipation and failure of vitality. Nature started you with a constitution that ought to have held good until you are 80, and you ought to feel like a man. But you have overdone some things and wasted your vitality. You still have the constitution, but lack the force. That is electricity. My appliance will restore it.

Look at the men who have used Electricity and you will see men of force, men of power and confidence, men who respect themselves and are respected and admired by their fellow men. Wouldn't you like to be the man you were a few years ago? To have the same ambitious spirit, the strength and vitality that you used to possess? Wouldn't you like to be free from pains and aches, and to feel that you are the equal in strength of any man of your age? You can be.

All that you lack is vitality—new life. You are like an engine without steam—you haven't the motive power to keep the machinery of your body working properly. Anything that will restore your "steam" will make a new man of you. Drugs have been tried and have failed. You know that my appliance will not fail; it is electricity, and "electricity is life." That is what you require, and the proper use of this grand appliance will give you health and happiness.

Woman Saved From Dangerous Operation

A large percentage of women's ailments are so perplexing that operations are often recommended by physicians. Such operations are not only dangerous, but they sometimes cause serious complications. Thousands

Electricity for Weak Nerves

A great many people suffer from ailments caused by weak, impoverished nerves, and try to cure these

of women are uselessly butchered who could be cured by Electricity in the privacy of their own homes. In most cases all such women need is new strength, more vitality and nerve force. When the organs of the body are denied the vitality necessary to perform their proper functions, inactivity and disease result. My appliance renews the activity of the weak organs and builds up vitality and strength where it is needed by infusing the body with a glowing current of electric life.

Why My Appliance Cures

A party asked the other day why it is that fanatic batteries and static machines do not give such results as my electric body appliance. That's because you can't stand the treatment for more than a few minutes at a time. A nervous person can't endure it that long on account of the shock. What a man tries that method and finds that it does not help him, he naturally concludes that electricity is no good. Now, my system is different. With my plan a current is sent into the body for six or eight hours every day or night, usually while the patient sleeps. The delicate nerves are not jarred or shocked by the current, as it goes into them like drizzling rain saturates a newly ploughed field. They absorb it, drink it in and as it is their very life, they grow strong with it. Poor digestion, inactive liver, constipation, sluggish heart, slow thinking, dormant energy and laziness are all due to lack of electricity. Understand that electricity is the motive power of the human machine, the power that keeps the organs active, and you will see what we mean. In such cases you will see how my appliance will put energy into the body. It renews the electric life of the nerves, and transforms the sluggish into a bundle of vigorous energy.

Because you have experimented with fanatic batteries and belts, or taken electric treatment from physicians without being cured, is no reason why my method should prove a failure. The doctor's battery can only be applied for a few minutes at a time, and that is not enough to effect a cure. Besides, that method is inconvenient and expensive. My appliance can be used all day or all night without interfering with your work or rest. It takes up none of your time.

Prejudice Against Advertised Treatments

There is a whole lot of prejudice against advertised remedies, due no doubt to the large number of quacks and schemers that have foisted worthless treatments on the public during the past few years. If it were not for this prejudice I would not be able to handle all the business that would come to me. Many fake electric belts and so-called "vitalizers" advertised by charlatans have made many people skeptical, but I know that I have a good thing and will win away until everybody knows it.

Any organ of the body, any part that lacks the necessary vitality to do its work as nature intended, can be restored by this electric treatment. It gives strength; it makes the blood rich and warm; it vitalizes the nerves and puts vim into the brain and muscles; it just makes a good man out of a bad one every way.

My appliance cures rheumatism in its worst form. It cures pains and aches, weak nerves, general debility and any other trouble which can be cured by restoring the life force. No matter where you live, you can use my appliance as successfully as if you could come here in my office.

Books Worth \$2.00 Free

To any man or woman who will mail me this coupon I will send free (closely sealed) my finely illustrated book regarding the cause and cure of disease. The books are written in plain language and explain many secrets you should know. One especially for men; also one for women, 84 pages.

Don't spend another cent on doctors and their worthless medicines. Electricity cures to stay cured. You should know about it. Don't wait another minute. Cut out this coupon right now, and mail it. I will send the book without delay, absolutely free.

M. C. McLAUGHLIN, 214 St. James St. Montreal, Que.

Dear Sir—Please forward me one of your Books as advertised.

HERE IS A WOMAN OF VERY FEW WORDS

Tells Why She Recommends Dodd's Kidney Pills

She Was Run Down, Had Dark Circles Under Her Eyes And Her Kidneys Bothered Her—Dodd's Kidney Pills Cured Her Completely.

Upper St. John, Gloucester Co., N. B., Nov. 3.—(Special)—"Dodd's Kidney Pills are a grand medicine for a suffering woman," in those words Laura Robichaud well known and highly respected resident of this place, writes her commendation in regard to the grand Canadian Kidney Remedy. And she is not the only one who has borne similar testimony to its efficacy from experience.

THE HERPICIDE GIRL ADVISES GENTLEMEN

At Mrs. Beak's reception I met a gentleman who fulfilled my ideal of a man in all but one particular. He had a good head, fine physique, perfect manners, was a most interesting personality, and bore himself with the distinguished air of a gentleman. His linen was immaculate and his clothes faultless as to cut and material. But all the pleasant impression was ruined when I discovered the collar and shoulders of his dresscoat covered with loose hair and flakes of dandruff.

William E. Skillen, of St. Martins, who is leaving to take up his residence in Boston, was tendered a banquet on October 31, Dr. Gilmour was chairman. On behalf of friends, J. B. Hodemuth presented to Mr. Skillen a gold-headed cane.

Common Companions, dyspepsia and bad teeth. There are no teeth in your stomach. You can't expect it to perform the double duty of masticating and digesting your food. If the grinders do their work poorly the stomach will cease to perform its function, and you are miserable as a result.

What a difference good strong teeth make in one's physical condition. Would you like to insure the preservation of your teeth?

SOZODONT AMERICA'S FAMOUS DENTRICE is a delightfully PLEASANT, ANTISEPTIC and POWERFUL DENTRICE—get right into the crevices of the teeth, scrubs them and washes the gums away.

are free from grit and acid, and will make your teeth pearly white without scratching the enamel.

Better Look Out that the cream you buy is fresh, sweet, of full strength and also late purity. The Cream You Get Here will meet every test. It's purity, freshness, strength and sweetness are guaranteed. It is just pure cream and nothing else.

ST. JOHN CREAMERY 92 King Street.

CARUSO TO SING ON FIRST NIGHT

Aida Will Be Opening Bill of The New York Opera Season

SOME OF THE SINGERS

Concert Season of More Than 600 Performances Has Started—Musical Notes of Interest From the Metropolitan of the United States

(Times Special Correspondence) New York, Nov. 1.—Ludwig Thuille's "Lohentanz," one of the new operas promised by the Metropolitan Opera Company management, will have its initial American presentation during the first New York week of opera, Johanna (Gadsli), the soprano, and Herman Jadowker, whose first appearances two seasons ago brought recognition, will have the leading roles and Alfred Hertz will conduct.

The concert season in New York, which will number more than six hundred performances before spring makes its appearance, has started and we have heard Vladimir de Pachmann, who returned with a fine crop of hair and his exquisite art still unimpaired; Reinald Werrenrath, a promising baritone who needs further vocal development to reach the goal he is striving for; Efran Zimbalist, the Russian violinist; Harold Bauer, pianist; and the American debut of the Philharmonic Symphony Orchestra's new conductor, Josef Stransky.

Reginald de Koven, whose skill opened the way for the American composer in this country in the field of Opera Bouffe, will soon have another work credited to the long list he has already brought. "The Wedding Trip," is the name of the newest work by the author of "Robin Hood," and its premiere takes place very soon. List Centenary programmes are being given all over the world by the representative symphony orchestras. The great composer was born October 22, 1811. The New York Symphony Society has just given the first concert of the season devoted to Liszt writings.

That admirable cellist, Paolo Grappo, who is playing in Europe with such credit to himself, sails shortly for this side of the Atlantic to begin his season, which will be long and call him to the principal cities of the United States and Canada.

New York opera goers are interested in the appearance of Marguerite Matzenauer, the German contralto, who is expected to make her American debut the first night of the Metropolitan's season as Amneris in "Aida." She sings equally well in English, German and French.

Another operatic newcomer who will shortly have his vocal and artistic abilities measured is the American basso, Putnam Griswold. According to accounts he is one of the foremost of living basses, and, if this be so, his addition to the Metropolitan roster of principals was a proper managerial move.

For the first time in her American career Mary Garden has sung the role of Carmen in the Best opera of that name. Last night, in opening the Philadelphia season, Miss Garden was heard and seen as the cigarette girl. She sings the part in New York later.

Sir John Jackson, one of the English contractors, who tendered for the work at Courtenay Bay, accompanied by A. Brooks, of Montreal, was in St. John yesterday and paid a visit to Courtenay Bay. It is understood that some of the unsuccessful contractors are seeking to have new tenders called.

An Important Announcement to the Citizens of St. John From Ungar's Laundry and Dye Works

We take pleasure in announcing to the public of this city that we are now in a better position than ever to attend to the Dyeing and French Dry Cleaning department of our business, and we are now prepared to receive and promptly execute all orders for this department, in all of its various branches.

WE DRY CLEAN Gowns, Coats, Evening Wraps, Costumes, Dressing Sacques, Silk and Flannel Waists, Skirts, Gloves, Neckties, Feathers, Laces, Curtains, House Draperies, Carpets, Men's Suits, Overcoats, Fancy Vests, Blankets, etc. OUR DYEING PROCESS Our wonderful success in this line enables us to assure satisfactory results in dyeing the most elaborately made gowns, of crepe, silk and wool. Articles can be dyed to any shade submitted. Many an old garment is given a new lease of life, if dyed by us. MOURNING GOODS Goods for mourning dyed on shortest notice. Black crepes renewed, refinished and dyed by special process.

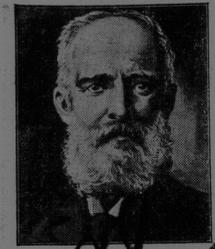

This department of our business is in the hands of skilled experts from England and Scotland, and we can guarantee our work to be equal to any done in America, and desire but a short time to execute all orders. We will be pleased to have you call at our office and our expert will explain our processes and give you any information you may desire on this subject.

Our Teams Will Call Phone Main 58 Ungar's Laundry and Dye Works Offices: 28 Waterloo Street, St. John, N. B. 66 Barrington Street, Halifax, N. S.

TORTURED FOR THIRTY FIVE YEARS

I Really Could Not Live Without "Fruit-a-tives."

"Fruit-a-tives, Ont., Jan. 29th, 1910. For thirty-five years (and I am now a man over seventy), I have been a terrible sufferer from Constipation. No matter what remedy or physician I employed, the result was always the same—impossible to get a cure. About two years ago, I read about "Fruit-a-tives" and I decided to try them.

"I have used 'Fruit-a-tives' ever since. They are the first and only medicine that suited my case. If it were not for 'Fruit-a-tives' I am satisfied that I could not live. "JAMES PROUDFOOT."

The greatest remedy in the world for all forms of Indigestion, Dyspepsia, "Fruit-a-tives" is well known to hundreds of people. It is a natural and healthy food. It makes the liver active, strengthens the kidneys, purifies the blood and keeps the stomach sweet and clean. "Fruit-a-tives" is the only remedy made of fruit juices.

At all dealers, or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

Advertisement for Asepto Premium Store, Mill and Union Streets, St. John, N. B. The ad features the Asepto logo and text: "No store in this city sells quality goods for less than we offer them to you. Therefore you must pay the same for what you need anywhere else—but here you get premiums which make your dollar buy \$1.20 worth—and you get the same value in Boots, Shoes, Clothing, Furniture. It is simply our way of advertising Asepto products. You don't have to wait for your premium—you select it from an immense stock of new goods and take it home with you. It is time you realized that there is a new merchandizing idea in St. John. You cannot realize how new and how good it is for you until you visit the ASEPTO LIMITED PREMIUM STORE Mill and Union Streets ST. JOHN, N. B."

MILLIONAIRES AT SEA

Rockefeller, Carnegie and Morgan afloat in a tub, with the waters of government suit threatening them. Three wise men of Gotham went to sea in a bowl.

WOMAN'S HAT SUGGESTS VALUABLE INVENTION

Water Filter for Use in Armies Comes From the Pierrot Shape. London, Nov. 3.—A dainty woman's hat of the fashionable pierrot shape has led to the invention of an ingenious military filter which may save many lives on active service.

SPORT NEWS OF A DAY; HOME AND ABROAD

Chicago, Nov. 3.—Ad Wolgast, the world's lightweight champion, is closing a deal for a Milwaukee saloon, he has decided to invest in for his brother Otto. The elder Wolgast is in the city and when Adolph comes the site of the new cafe will be selected and the Wolgasts will enter to the thrills of the champion's friends.

BASEBALL

Philadelphia Athletics will be shown at the Nickel Monday and Tuesday of next week in all their important details. This is a sporting feature that costs plenty of money over and above the usual high film rental, but the Nickel's declared policy is to show all the best features no matter how high the price, for its patrons invariably support each project with large attendance.

CASTORIA For Infants and Children. The Kind You Have Always Bought

Signature of J. C. Watson. MORNING NEWS OVER THE WIRES. The degree of doctor of law was conferred on Sir Louisa Gosin, premier of Oshawa, Ont., Nov. 3.—Hugh Tremblay, lightweight champion of the world, defeated Jim Durie, of Germany, in two straight falls tonight, getting the first with a toe-hold in twenty-six minutes and the second with a combination head and crotch hold in nineteen minutes. Tremblay was conceding some twenty pounds in weight.

"77" Humphreys' Seventy-Seven Breaks up Grip and COLDS

Duration of a Cold. The length of time it takes to break up a cold with "Seventy-Seven" depends upon how soon the treatment begins. Taken early the cold short promptly. Taken during the prevalence of colds, it prevents the system and prevents its invasion. Taken after the cold has gotten seated, it is quite as effective but takes longer. It pays to keep "Seventy-Seven" handy. All dealers sell. 25c. or mailed. Humphreys' Homeo. Medicine Co., Cor. William and Ann Streets, New York.

RHEUMATISM GONE, SAYS DETECTIVE KILLEN.

Morriscy's No. 7 and Lini-ment Cured his Knee. "Feels good as new."

St. John, N.B., April 12, 1911. "I am glad to report that my knee is completely cured of Rheumatism—thanks to Father Morriscy's No. 7 Rheumatism & Kidney Tablets, as they alone are responsible for my cure. I was troubled for a number of years, and tried everything I heard of, and none of them did me any good. I have no further trouble now, and my knee feels as good as new. I was personally acquainted with the Father Morriscy and know his remedies are good. Anyone suffering from Rheumatism and Kidney trouble should at once try Morriscy's No. 7 Tablets, as I can heartily recommend them."

HON. MR. WHITE ON HIS CHANGE IN POLITICS

Gannaque, Ont., Nov. 4.—"I do not believe there is any healthier sign of the times, than that an honest man should change his party in the interests of the country," said Hon. W. T. White, minister of finance, in a speech to the electors of the Ontario Liberal Party.

LOCAL NEWS

ALLIANCE MEETING The Evangelical Alliance will hold its monthly meeting on Monday next at 10.30 a. m. A paper upon "What can the church do to help the wage-earner?" will be read by Rev. M. F. McCutcheon.

BOARD OF TRADE The board of trade will meet on Tuesday, November 7 at three o'clock in the afternoon. Among other business will be the nomination of officers for the coming year, the balloting to take place at the December meeting.

TWELVE DEATHS The board of health reports the following deaths for the week: Senility, three; pneumonia and endocarditis two each; accident, bronchitis, convulsions, meningitis, mitral stenosis, cerebral softening, intestinal obstruction, one each.

HOLY NAME SOCIETY The monthly meeting of the Holy Name Society will be held at 7.30 o'clock tomorrow evening in the Cathedral of the Immaculate Conception. The course of addresses on church history by Rev. A. W. Meahan, will be continued.

ARCHAEOLOGICAL The annual meeting of the St. John Branch of the Archaeological Institute will be held at the close of Prof. Wilson's lecture on Monday evening in the Cenotaph church school room. On his last visit here two years ago Prof. Wilson proved a very interesting lecturer and those who attend Monday evening are promised a treat.

JOSEPH McMURRAY. People in the city as well as in Fairville will be sorry to learn of the death of Joseph McMurray, aged twenty years, eldest son of Patrick McMurray, baker, which occurred today. He had been in poor health for some time. His father, mother, five brothers and five sisters survive. The funeral will be held on Monday, James McMurray, baker, of Fairville is an uncle.

C. M. B. A. MATTERS Rev. Dr. O'Reilly's lecture on "St. Ignace's plays in relation to religion," will be delivered under the auspices of C. M. B. A. Branch 134, on Sunday evening, November 12 in the Union Union Street. "The Church and Liberty," will be the subject of Rev. Charles McLaughlin's lecture on Sunday evening, December 10. The next ritual recently promulgated by the grand council will be used on Tuesday evening next in the initiation of several members. This is the first occasion for Branch 134 to use the new ritual, and a large attendance is looked for.

TEAMSTERS' LICENCES The following have been reported by Police Sergeant Campbell for driving teams without a license: James Alexander, Nicholas Lavery, George Burns, Murray Alexander, Thomas Hamilton, Frank Bettle, William Johnston, B. Connell, James Adams, William Sherwood, Edward Whitlock, Nathan Fowler, Colin Chisholm, Daniel Morrell, Henry O'Leary, John Cook, John John, James McNeill, Robert Harris, Daniel Fullerton, Albert Kindred, John Pollock, Allan Alberts, Charles Colman, James Behr, Samuel Cunningham, Michael Hayes, William Coyles, Richard Joyce, McIntosh Bros., John Driscoll and James Warnock.

ST. ANDREW'S CHURCH REPAIRS St. Andrew's Presbyterian church, which has been closed since September for repairs to the interior, will be reopened for service tomorrow morning. The interior of the church has been thoroughly renovated, and now looks greatly improved in a new coat of paint. The work has been done by Johnston & Co. The walls and ceiling have all been gone over. Besides the painting, the electrical fixtures have also been rearranged, and several new ones added. New carpets have been ordered from the old country, and are expected to arrive some time next week. The pastor, Rev. David Lang, will occupy the pulpit at both services tomorrow. The repairs, when complete, will have cost about \$1,500.

FORMERLY OF ST. JOHN The death of James Sylvester Knox in East Boston on last Tuesday, as noted in the Times last evening, was read with regret by many St. John people who remembered him before his leaving for Boston some twenty-five years ago. He had been seriously ill only a few days. Mr. Knox was native of St. John. He married a daughter of the late Capt. John McCaffrey, of Sand Point, so well remembered in the ferry service of years ago. She survives her husband, as do three sons and one daughter, all in Boston. He also leaves one sister, a member of the Sisters of Charity, Cliff street. Mr. Knox was a man of exemplary life and leaves behind him the record of days well spent. His funeral was held in Boston yesterday.

POLICE COURT TODAY

Teams Must Not Be Allowed To Obstruct the Sidewalks

But two prisoners were arraigned in the police court this morning. Charles McCarthy was remanded on the charge of drunkenness and Hugh Kelley was fined \$8 or thirty days in jail on the charge of drunkenness and \$8 or two months in jail for profanity. James Dempsey, reported for driving a horse and wagon on the sidewalk in Pond street, did not appear, but Councillor Donovan, his employer, explained to the court that Dempsey was removing manure from the Dominion Express Co's barn and that it was necessary for him to drive on the sidewalk. The Magistrate said that there was altogether too much of this going on in the city, and said to the police that all offenders in future should be brought before him. "The rights of pedestrians in this matter, must be looked after and teams should not be allowed to encroach whatever on the sidewalk. It too often occurs that citizens have to take to the road while a coal team or some other wag on obstructs the sidewalk. This has to cease, and all offenders brought before me will be fined." The matter was allowed to stand over till next week.

THE WATER SERVICE Residents of Mount Pleasant are reported in favor of the double pressure water system at least as applied to their part of the city. Since the valves in the mains were manipulated to divert a larger supply to the higher levels they say they have enjoyed a more satisfactory service than they have had for years. The fire insurance underwriters are said to be pleased with this situation as regards the heights but are waiting for the next tests to see the effect on the lower parts of the city.

LUMBER OUTLOOK NOT GOOD

Operators All Agree That Cut This Season Will Be Smaller

VARIOUS REASONS

Most of the Local Mills Will Probably End the Sawing Season Early in December Though One Firm Will Run Into New Year

The outlook presented to the lumbermen in this province for next year does not seem particularly encouraging at the present time and, unless a change for the better presents itself, it is not expected that the season of 1912 will be recorded as distinctly noteworthy for its activity. All lumbermen agree that the cut this year is to be greatly curtailed and various reasons are given for the decrease. The strike in England some weeks ago practically paralyzed business for a time, but trade is now assuming its normal conditions. The disturbance in trade, however, caused much uneasiness. Ocean freights advanced considerably and this fact curtailed shipments during the months of September and October. It has been practically impossible to charter any tramp steamer in the ordinary way for a lumber cargo, as business for them in other ways, has been much better. These reasons are attributed by authorities on the lumber trade for the slackness at the present time, but there are others as well. Stocks of Canadian spruce are not excessive in England, it is reported, but the competition for the last month was disappointing. New Brunswick and Nova Scotia spruce has formidable competitors in the Russian woods, which up to two years ago were not marketed in very large quantities, but since that time have become factors in the British lumbering trade.

English capitalists have gone into Russia's plays in relation to religion, and production has greatly increased, and is expected to still further increase. Labor in Russia is but a fraction compared to what it is in Canada, and the cost of production are considerably cheaper; while the ocean freight is only about one half what it is from maritime province points. Though it is an acknowledged fact that Russian wood cannot compete as to quality with that of Canada, yet the price of it is considered the United Kingdom, is responsible for the increased demand as small quantities can be purchased at a relatively low price and delivered in a remarkably short period.

Operations on a small scale have been begun in the New Brunswick woods, and several lumbermen have sent crews into the woods but their work will be quite limited as compared with other years on account of the reasons given and because of the general curtailment. Since they have quite a supply of logs already piled up, it is expected that the mills of Sisson, Cutler & Co., will be about the last to cease operations this year, in fact it is thought they will run until well into the New Year.

With most of the other mills, however, this will not be the case. Early in December they will probably see the close of the mills owned by Murray & Gregory, Charles Miller, John E. Moore & Co., Hilyard Bros., Messrs. Warner and others, but much, of course, depends upon the weather, which if favorable may allow some of these plants to continue cutting for a little while longer.

WOMEN'S CANADIAN CLUB

Plans for the Winter Discussed and Committees on Programmes Appointed—Membership 320; More Wanted

The first meeting of the executive of the Women's Canadian Club since the election of officers for this year, was held yesterday afternoon at the home of the president, Mrs. E. A. Smith, in Carleton street. There was a large and representative attendance and matters of importance were discussed and arrangements made for a programme for each month during the winter. Three ladies of the executive were appointed to take charge of each month, as follows: November—Lady Elley, Mrs. Robert Thomson and Mrs. G. A. Kühring. December—Mrs. J. F. Robertson, Mrs. W. W. White, Mrs. A. R. Melrose. January—Mrs. J. H. Thomson, Mrs. G. U. Hay, Mrs. G. E. Allan. February—Mrs. G. P. Smith, Mrs. G. K. McLeod, Mrs. J. H. Frink. March—Mrs. J. M. McAvity, Mrs. D. P. Chisholm, Mrs. D. McLellan.

Officers of the executive will have charge of the arrangements for April and the executive will also be in charge of the reception and tea to be held this month. It is hoped to have one of the prominent men who will be here for the laymen's missionary convention give an address to the club members. The membership of the club totals 320, and the executive hopes that every member will bring at least one new one in during the year. All desirous of joining the club should send their names to the secretary Miss C. O. McGivern, 32 Wellington row, or to any member of the executive. This should be done at once so that the new members may enjoy the benefit of the full winter programme.

THE WATER SERVICE

Residents of Mount Pleasant are reported in favor of the double pressure water system at least as applied to their part of the city. Since the valves in the mains were manipulated to divert a larger supply to the higher levels they say they have enjoyed a more satisfactory service than they have had for years. The fire insurance underwriters are said to be pleased with this situation as regards the heights but are waiting for the next tests to see the effect on the lower parts of the city.

We're All Ready to Supply You With the Proper Kind of Clothes. As the cold weather draws near and your thoughts naturally turn to heavier clothing, we want you to bear in mind the values we have to offer. There's no question but that our FALL SUITS AND OVERCOATS will appeal to you the moment you cast a glance at them. It won't cost you very much, if you buy your fall and winter outfit at this store. Men's Overcoats - - \$7.50 to \$20.00 Mens' Suits - - - - \$5.00 to \$20.00 H. N. DeMILLE & CO 199 to 201 Union Street Opera House Block

If You Are About To Purchase a Range or Heater This Fall You Should Not Fail to See Our GLENWOOD RANGE and the GLENWOOD OAK HEATER Before Making Your Selection. The Glenwood Range is simple to operate, light on fuel and a perfect baker. The Glenwood Oak Heater has many advantages, being quick to light and very on fuel. The oak framed lower draft door are fitted so very tight that a wood fire can easily be kept in one night. It also makes from the side which prevents the dust from escaping. The Glenwood Oak is provided with a patented iron band to consume the gas. It circulates the inside of the fire pot and will be found a valued addition especially to people wishing to burn soft coal. The Glenwood Oak Heater like our Glenwood Ranges have always given perfect satisfaction where ever they are in use. We also carry a complete stock of the New Burrell-Johnson Silver Moon in different sizes. McLEAN, HOLT & CO. 155 Union Street St. John, N. B. Write or call for our 1911 Glenwood catalogue.
