3 Express Waggon.

Side and End Spring,
Price Low.

JAMES A. KELLY,
644 Main Street, - Portland.

THE TAMMANY METHOD.

Paddy Roche on Politics as a Protest.

In an article in Leslie's Monthly for November the author gives the personal views of the notorious Paddy Roche. When I asked that uniformly successful candidate for office, the Hon. Patrick Roche, better known as "Paddy," how he felt that Tammany continued to get large majorities on the east side, he answered: "That's easy; we keep in touch with what the aristocrat calls the 'lower strata of society.' Tammany was organized to fight the aristocracy. But for the masses I never could have spent so many terms in the legislature. Tammany plays to the people. What is it that Abe Lincoln used to say? 'You can skin a part of the people all the time; you can skin all the people a part of the time, but you can't skin all the people all the time.'"

THE COURTS.

In the probate court today letters of administration of the estate of Edward Durnan were granted to Michael Durnan. The estate is valued at \$500 personally. A. P. Barnhill, proctor. Letters of administration of the estate of the late Leonard Dunphy were granted to his widow, Margaret, \$1,300 personally. H. W. Robertson, proctor. In the admiralty court today in the case of the Stmr. Pawnee v. Sch. Roland, J. A. Gregory and J. A. Ewing were examined as to the value of the schooner and J. A. Ewing as to the coal on board. Argument will be heard this afternoon. H. H. McLean, K. C., for plaintiff; C. J. Coe, K. C., for defendant.

PERSONAL.

C. P. Harris of Moncton is in the city today. Chas. Fawcett of Sackville came in to town by the Quebec express today. Miss Maggie Johnson of St. Patrick's street, who has been seriously ill with typhoid fever, is recovering.

AN ENGLISH CRITICISM.

LONDON, Nov. 22.—The St. James Gazette this afternoon repeats its assertion that English actors are "coarsened" in America and that "visits there are artistically detrimental to English actresses." The paper also says: "We fear there is no doubt about the matter. In the United States a less subtle and more unaccommodated style of acting is necessary."

A PRO-BOER ELECTED

To Represent Galway in the British Parliament—Redmond is Pleased.

DUBLIN, Nov. 22.—The result of the voting was as follows: Lynch, 1,241; Plunkett, 473. DUBLIN, Nov. 21.—On the whole the polling was conducted with comparative orderliness. A large number of police officers were present to prevent any street demonstrations which were the outcome of drunkenness from developing seriously. Women were conspicuous in these affairs and many of them were arrested.

In the event of Col. Lynch's election being quashed on the ground that he is a traitor, Mr. Plunkett says he will decline to take the seat thus reverting to him. He will be returned straight or not at all. Col. Lynch's friends seem satisfied that he will attempt to take the seat. NEW YORK, Nov. 22.—The London correspondent of the Tribune cables concerning the Galway election as follows: "A victory for Col. Lynch was generally anticipated, but the pluralism is greater than his supporters had expected. Not much sympathy is expressed for Mr. Plunkett, the defeated candidate, in this morning's papers. His attitude in Galway was not sufficiently anti-National to secure him the full Unionist vote. The government may not have sufficient evidence to show that Col. Lynch fought for the Boers, so that if he decides to disavow the testimony of his backers he may after all be able to act as a member of parliament."

(Special to the Star.)

OTTAWA, Nov. 22.—Mr. Redmond was delighted by the success of Lynch, the pro-Boer, in Galway, and says he expects him to take his seat in the house.

THE BOARD OF HEALTH.

Puts an End to Dr. Barney's Tuberculosis Experiments.

NEW YORK, Nov. 22.—Tuberculosis experiments by Dr. George D. Barney, of Brooklyn, which aroused considerable indignation when he announced recently that he had inoculated a young woman with the disease, were brought to a sudden close by Dr. Robert A. Black, head of the board of health in which he had formed his work. Dr. Barney combated the theory of Dr. Koch, the eminent German medical authority, that consumption could not be communicated from a lower animal to a human being, and with that end in view he inoculated the cow with the disease and kept her in his stable to watch the progress of the disease. The cow has become very sick and he was preparing soon to hold an autopsy on which the agents of Dr. Black pointed upon the creature with a bookkeeper's pen and carried her away to the public house where, it is said, she will be destroyed.

DECEASED A BANK.

LIVERPOOL, Nov. 22.—Great excitement was caused here today by the announcement that the Bank of Liverpool had been victimized by a trusted bookkeeper to the extent of hundreds of thousands of dollars. What the losses amount to is not known, but an official statement issued by the bank says that through the dishonesty and betting transactions of a bookkeeper they may lose \$170,000 (\$330,000). The Bank of Liverpool's shares fell 11 on the stock exchange today. The defaulter has not yet been arrested.

CATTLE BY THE I. C. R.

OTTAWA, Nov. 22.—Hon. Mr. Blair has written a letter to the secretary of the Dominion Livestock Association, stating that the government had undertaken to provide at St. John a commodious and efficient facilities for the efficient handling of eighteen hundred cattle this winter. This will enable exporters to ship by the Intercolonial direct to St. John, whence the cattle can be sent to Liverpool in Canadian vessels.

FAVORS BRITISH.

NEW YORK, Nov. 22.—According to the London representative of the Tribune the Standard's South African correspondents are authority for the statement that Gen. Andries Cronje, a brother of the famous Boer leader now a prisoner in St. Helena, is among the ex-burgers who are enlisting men against the Boers and who are taking up arms against their former companions-in-arms, and in favor of the British.

ANOTHER VICTIM DEAD.

LOS ANGELES, Nov. 22.—Conductor R. R. Higgins, the eighth victim of the Santa Fe wreck in Arizona, is dead at the hospital. Those injured in the accident are progressing favorably, and no more fatalities among them are expected. Concerning the probable loss to the road as a result of a smash-up, railroad men in this city say it as their opinion that it would amount to \$150,000.

THE WEATHER.

TORONTO, Nov. 22.—Maritime—Moderate westerly now, fine, not much change in temperature. Saturday, southwest to southeast winds fair until evening, then a change likely. WASHINGTON, Nov. 22.—Forecast—Eastern states and northern New York—Increasing cloudiness tonight; probably rain or snow except in extreme south portion; warmer in west portion. Saturday, rain in south, rain or snow in north and west portions, variable winds.

MR. TARTE'S PAPER

Learns From Ottawa That no More Contingents go to South Africa.

MONTREAL, Nov. 22.—La Patrie publishes a special despatch from Ottawa which declares that no Canadian contingent will be sent to South Africa in the sense of the first two contingents. The British government, according to the despatch, may recruit in Canada for another contingent, but that is all.

THERE WAS A PLOT.

Adventurers Had Planned to Seize the Yukon—Official Reports Received at Ottawa.

OTTAWA, Nov. 22.—There appears to be considerable basis for the report that a conspiracy was planned by adventurers to overpower the mounted police and seize the Yukon. Owing to the vigilance of the police, however, the plot was nipped in the bud. The story of the plot, based upon official reports to the minister of the interior, is as follows: About three weeks ago, the police of Dawson, under direction of Supt. Woods, shadowed a man whom they deemed a suspicious character. The police got into this man's confidence, and he formally disclosed a plot which he said had been formed by people at Skagway and Seattle. The idea was to rush the posts in the lower part of the Yukon and then take possession of the country. The conspirators reckoned upon American citizens in Yukon not assisting the Canadian authorities, so that the raid, in their opinion, would be a comparatively easy matter. News of the plot was quickly sent from Dawson to White Horse, and the police there soon had under surveillance all suspicious characters. The headquarters of the conspiracy was located in Skagway, and it was ascertained who the characters associated with it were and where papers bearing upon the plot were kept. There was nothing, however, to show any overt act of treason to the United States or Canada; consequently the authorities could not take any proceedings.

MILLIONS FOR STEAMERS.

PHILADELPHIA, Nov. 22.—It is stated here that the Standard Oil Co. have within the last few days closed important contracts with shipbuilders for the building of several large bulk oil carriers for the trans-Atlantic trade. The Wm. Cramp ship and engine building company of this city have been awarded one of the contracts and the others go to shipbuilders at Richmond, Va., and elsewhere. The contract call for the expenditure of several million dollars. At the present time there is not an American steamer in the European oil trade. The vessels will be 350 feet in length and will have a minimum capacity of 1,500,000 gallons each. The contract awarded to the Cramps is the first they have ever received for a bulk oil carrier.

CANADIAN BRIEFS.

OTTAWA, Nov. 22.—Sir Strong's plans to go to England have been upset. The cause is not stated.

OTTAWA, Nov. 22.—It is stated that no by-elections will be held for two months.

(Victoria, B. C., Nov. 22.—A political shuffle involving a change in the premiership of the province is reported.

TORONTO, Nov. 22.—Four-fifths of the Nova Scotia Steel and Coal Co. bond offer has been taken up at 50.

WINNIPEG, Nov. 22.—A company has been formed to build a railway from Winnipeg to Hudson Bay.

PAUPERISM INCREASING.

NEW YORK, Nov. 22.—According to the London correspondent of the Times the industrial problems of the British metropolis are complicated by the increase of pauperism, the number of paupers in London, according to the report just issued, being 115, more than recorded in any report issued in the last eight years. The increase last year was nearly 4,500. The paupers thus enumerated are only those who have been relieved in the workhouses or by other means.

CASTRO WANTS BLOOD.

CARACAS, Venezuela, Nov. 21.—via Haytian cable.—President Castro, believing that a conspiracy to overthrow him existed, caused the arrest today at Puerto Cabello of Ramon Guerra, the minister of war. The president also brought about the arrest at Caracas of a number of partisans of Ramon Guerra, among them being Montauban, who claims to be a French citizen. The arrests have caused a great sensation. Joachim Garido succeeds Ramon Guerra as minister of war.

LOGS LUNG UP.

The logs in the St. John river above Fredericton are apparently frozen for the winter. There are about 10,000,000 feet between Grand Falls and Fredericton, 10,000,000 feet above Grand Falls and 6,000,000 feet in the Aroostook. The Douglas boom has been safely taken in.

QUÉBEC, Nov. 22.—

Captain Frank Penne, chief of police, has been officially appointed gentleman usher of Black Rod in connection with legislative council, to fill the vacancy caused by the death of S. S. Hatt.

DEATH ROLL.

German Ambassador to England is Dead—One of Germany's Cleverest Diplomats.

LONDON, Nov. 22.—Count Von Halsevelt-Wildenburg, who a few days ago retired from the post of German ambassador to Great Britain, died at the embassy this morning. Count Von Halsevelt-Wildenburg returned from a holiday six weeks ago, but since that time had been able only once or twice to leave his house, and then in a bath, chair. He suffered greatly from asthma. On Saturday his malady developed into congestion of the lungs and he died peacefully this morning in the presence of his wife and son. Last night he received the last sacrament of the church and then lapsed into coma. His body will be buried in the family vault in Germany.

Count Von Halsevelt-Wildenburg was born in 1831 and was one of the cleverest of German diplomatists. After being secretary of legation in Paris and at the Hague he became German minister at Madrid. Later he was ambassador at Constantinople. Returning to Germany he was for a time secretary of state for foreign affairs. Since 1885 he has been German ambassador in England, and it was only about a week ago that the emperor reluctantly accepted his resignation on account of ill-health.

THAT SUSPICIOUS DEATH.

CHICAGO, Nov. 22.—It has been learned that the strychnine tablets which were the cause of the death of the five-year-old daughter of Mrs. Harvey S. Dale, were purchased probably in Chicago the night before Mrs. Dale and her friend, Elbert Waler, left for the east.

It is learned further that Mrs. Dale and Mr. Waler were fond of pet dogs and had three running about the house in which they lived at 433 Belden avenue. Two weeks ago one of these dogs died of poison, supposed to have been placed in the yard by a neighbor. The day Mrs. Dale left for the east another died in convulsions, and Mrs. Mathilda Miller, who had the third in charge after Mrs. Dale's departure, found that it was ailing. Mrs. Dale is the daughter of a physician.

THE HORSE SHOW.

NEW YORK, Nov. 22.—Although the horse show seemed to reach the flood tide of its popularity last night, there was no apparent flagging of interest at the opening today. The enthusiasts were on hand as early as the exercising hour, and the crowd steadily grew in size. French coaching stallions, heavy stallions, standard bred trotting stallions, saddle ponies, paces in harness, pairs of broughams, chargers and four-in-hand teams were featured and the day's card also bore a preliminary trial for light weight harness and a speed test in changing teams on road coaches.

EXPENSES OF VANDERBILT HEIRS.

NEW YORK, Nov. 22.—According to the World, heirs of the late Cornelius Vanderbilt must pay \$361,803.43 into the coffers of the United States. This is the total of the inheritance tax fixed by the federal government against the estate. The heirs have already been compelled to pay a state tax of \$530,998. The legal expenses of fighting the tax, which have been carried into the highest courts of the state and nation, will bring the grand total up to \$1,963,000.

A CRIPPLED GENIUS.

NEW YORK, Nov. 22.—The French Academy, says a despatch from Paris to the London Times and the New York Times, has awarded the prize for "Virgile" of 1,000 francs to Cecile Morand, a seamstress who is a dwarf and lame, and who, from the age of thirteen years has supported a paralytic father, a sick mother and ten brothers and sisters.

GUILTY OF MURDER.

DETROIT, Mich., Nov. 22.—A special to the Free Press from (Lansing, Mich.) says: "Elmer Quimby, who was charged jointly with his wife for the murder of Mrs. Quimby's children on the night of May 19th last, was found guilty of murder in the first degree by the jury last night. Mrs. Quimby's trial is now in progress."

BANKS CONSOLIDATE.

BOSTON, Nov. 22.—The directors of the Third National bank, capital \$1,000,000 have voted to consolidate with the National Shawmut bank. This is the thirteenth bank absorbed by the National Shawmut bank since its organization in 1858. Other combinations have reduced the number of national banks in Boston to 41 from 61, the number in 1888.

DON'T WANT THE GOSPEL.

ATHENS, Nov. 22.—The turbulent demonstrations here growing out of the proposals to translate the gospels into modern Greek, were continued today in the streets, especially in front of the chamber of deputies and before the university. There were many ugly ruffians. The military are finding difficulty in controlling the rioters.

Word has been received in Fredericton by friends announcing the marriage on October 30th, at Nicomen Island, B. C., of Miss Julia Thompson, formerly of Sheffield, Sumbury county, to Fenwick Wilfred Magar of Dewdney, B. C.

STAR PRINTING COMPANY (LIMITED), at St.
John, New Brunswick, every afternoon
(except Sunday) at \$3 a year.

ST. JOHN STAR.

ST. JOHN, N. B., NOVEMBER 22, 1901.

THE COTTON MILLS.

Mr. James F. Robertson and his associates have lost no time in carrying out their plans for resumption of work in the cotton mills. The new manager comes to his work with an excellent record, and will be all the more cordially welcomed that he is a native of this city. As the Star has several times stated, the reopening of these mills means much for St. John. They give employment to a class of operatives who need work, and whose wages go quickly into circulation to purchase goods for their families.

VACCINATION.

The jury which last night decided that impure lymph caused the death from tetanus of the little girl whose case was under consideration, was not a jury of experts, and it is to be hoped their verdict will not deter people from seeking vaccination as a preventative of smallpox. Thousands have been vaccinated in this city, and while there has been some suffering involved there has been but the one case of tetanus. The operation in that case was performed by a druggist who had successfully vaccinated many others, and whose long experience and well known care precludes the idea of want of precaution on his part. Just how the fatal germ was received by the child is a question that cannot be settled by a jury of laymen at one evening's sitting. In today's Star Dr. Bayard discusses the subject from the standpoint of an expert.

RECIPROCITY.

The reciprocity convention at Washington has adjourned without practical result other than to recommend the appointment of a reciprocity commission. The members of the convention, however much they might approve of reciprocity in theory, found it impossible to devise a practical method that would not sacrifice some vested interest in their own country. The moment it is proposed to admit free duty or at a low tariff rate any article that would compete with the products of the country, there arises an agitation in behalf of the latter that makes progress very difficult. In the resolutions adopted special reference was made to the necessity of conserving home industries. So far as Canada is concerned, this country would not agree to a measure of reciprocity which would not give our products greater advantages in the American market than are now accorded them, and the moment such were done there would be fierce opposition from interested parties on the other side. For a like reason our people are not willing to sacrifice a local industry to American competitors. Before anything practical can be done, the proposed commission must formulate a plan that will give to each party to the treaty the greatest possible measure of advantage at the least possible sacrifice of vested interests. That is a very hard problem to solve, and we need not look for practical results until there has been a much more thorough enquiry into the whole subject of trade relations than has yet been attempted. Canada is not anxious for reciprocity, and has not forgotten the cold shoulder given her when she did seek concessions. Everything that can be done to extend and strengthen friendly relations between the two countries should receive cordial support, but there is no disposition on the part of Canada to make sacrifices in an effort to secure what in the light of our present knowledge would seem but a doubtful good.

HARD ON THE THEATRE.

The Rev. Dr. James Moore, a Methodist-Episcopal clergyman of New Brunswick, N. J., speaks very emphatically against theatres. There is no saving clause in his denunciation, part of which is as follows:—"No respectable theatre can live. Unless the stage goes down to infamy, panders to vice and shame, there is not a city either in Christian England or America, to say nothing of the small towns, where it can pay its way. The manager is after receipts, the cultivation of art is incidental. The actors are hired on terms that encourage too low and end too short. Either this is because the material is so expensive or else it is intended to inflame the passions. In either case it is grossly indecent. Reform the theatre or close it. The theatre is out of the question."

TO IMPROVE CHURCH MUSIC.

A meeting was held recently in the Synod Hall, Ottawa, to discuss the question of a Diocesan Choral Association throughout the entire diocese. An Ottawa paper says:—"Principal Hackett, who was at the meeting, explained the object of a choral association as the perfection of the Anglican liturgical music, and the encouragement of uniformity in chanting and pointing throughout the diocese, the standard being the Cathedral of St. John. The choral unions in England hold annual festivals in the cathedrals of their dioceses, the services being either plain or ornate, as might seem desirable. It was finally decided that a diocesan choral association should be formed for the vast and unvested choir of the whole diocese, which should hold an annual festival in the cathedral of the diocese, or in such other churches as might be appointed."

A WORD WITH MR. TARTE.

History is repeating itself. The Laurier government is so far behind public sentiment in respect to Canada's duty to the empire that its own organs find it necessary to enter a protest against the present inaction. For example, the Halifax Recorder, which is ordinarily an out and out supporter of the government, says:—"We must say we think the time opportune for a further testimony of our interest in the Empire's weal by not only sending a contingent, but paying for the same. It is not much that we are called upon to sacrifice in return for the protection which is accorded to this fair land by the fleets of old Britain, as well as for the security which we are afforded in being a part of the British dominions. Canada has already spent two millions and a half dollars in the contingents sent about two years ago. It may be wise for one thing to let the whole world again know that our sentiments have not changed in the slightest, nor that our determination to stand by the old flag is any less than it was at that time."

The dragging skirt, which has met with many a rebuff, is having an especially hard time in New York at present, and many indignant letters are being written about it. The dragging skirt may be pretty and all right in its place, but that place is not on a muddy street, or even a clean one. This fact is recognized and its sound sense respected by St. John women whom New Yorkers would do well to imitate in this one respect at least.

Special work is being done by the medical association in New York to find a serum that will destroy typhoid fever germs. The difficulty is said to be to find a serum that will destroy the many races of typhoid cultures, but the outlook for eventual success is promising.

There is talk of a syndicate being formed in Hamilton, Ontario, for the purpose of obtaining control of a good hotel in each city between Montreal and Vancouver. The proposed capital stock is \$2,000,000.

PORTLAND'S MUSIC FESTIVAL.

Portland, following Bangor's example, is to erect a big structure of sufficient size to accommodate the constantly increasing audience at the Maine Music festival concert in that city. Work on the building will be commenced early in the spring and it is planned to have it hurried along so that the new hall will be ready for occupancy by next festival time in October.

The Free Hotel Co. is to put up the new building on Preble street, just below the Preble Hotel, which will have a hall with a seating capacity of 2500 to 3000. The building will be 100 feet long, 150 deep and four stories in height.

The hall will contain galleries on all sides so built that all of its occupants will be enabled to see the entire floor space. Work on the new structure will be commenced as soon as the ice leaves the ground in the spring. It is estimated that its cost will be about \$75,000 and it will be one of the largest halls in New England.

NO LOCKJAW.

CAMDEN, N. J., Nov. 21.—The white rats which were inoculated with vaccine virus last Monday for the purpose of ascertaining whether the virus contained tetanus germs, have come through the 72 hours' test period without developing any symptoms of lockjaw. Six of the other physicians at Cooper Hospital, where the experiment was made, say either that it was not conclusive, inasmuch as "it was made by clever young men, but not by pathologists, or else that it has proved merely that every bacteriologist already knows to be true—that the tetanus germs are in the air and not in the vaccine virus. The experiment will be continued along several lines, and a report will be made to the board of health at an early date by the county physician. The investigation was started at the instance of the board as a result of the development of nine cases of lockjaw following vaccination. Of the nine cases seven of the victims died.

HALIFAX.

HALIFAX, Nov. 21.—Admiral Sir Frederick Bedford some time ago recommended the admiralty to place a training ship at Halifax. This recommendation, it is announced, has been acted upon, and such a ship will be named to go on the North American station next spring. The Charlydis, now in port, has a number of naval reservists on board, recruited from among Newfoundland fishermen. Lieut. Col. J. E. Wilson, in company with Sergeant Weatherhead, today inspected the stores and equipment of Sydney Garrison company and found everything in excellent condition. They leave tomorrow for St. John. Col. Wilson is accompanied by Mrs. Wilson.

SMALLPOX IN BOSTON.

BOSTON, Nov. 21.—Nineteen new cases of smallpox in this city and Cambridge were reported by the boards of health of the two cities Thursday. Of the number all but two are in Boston.

YOUNG MEN BEING SUED.

Halifax Authorities Taking Steps to Enforce the Poll-Tax Law.

(Halifax Recorder.) Some twenty-five writs are being issued by the City Clerk against city young men who do not pay taxes, and who are liable for the yearly poll-tax of \$2. The summonses are issued at the instance of the city collector, and the cases will come up before the city clerk at its next term. The writs are against well-known young men who are supposed to be in the receipt of about \$500 or \$700 a year, and who do not pay one cent towards the running expenses of the city.

The collector intends to sue all young men who do not "pony-up" their poll-tax. Some of them will be sued for two or three years' taxes. Some years ago a similar attempt was made by the city to collect the taxes, and they met with considerable success. The outcome of the suits will be looked for with interest, as there are hundreds of young men in the city who do not pay anything into the city's revenue. The civic taxation committee will consider the poll-tax question at its next meeting. It is understood they will recommend a change in the law, fixing the poll-tax at \$4, and making any young men in the receipt of salaries over \$500 liable to the said tax.

RECENT DEATHS.

William Law, M. L. C., of Yarmouth died yesterday, aged 68 years. He was a prominent business man and politician. A widow, one son and one daughter survive.

William S. Lawson, eldest son of the late Rev. David C. Lawson of Westmorland county, died at London, England, yesterday. His wife survives him, and the other surviving members of his family are his mother, at Westmorland Point; B. James, in Amherst; Alfred, in Boston; Rev. George C., at Isaac's Harbor, and Mary, wife of Rev. A. S. Lewis, Aylesford. William Lawson of the St. John Globe is a cousin of deceased.

William G. Cochran died at Bloomfield Wednesday night. He was 38 years of age, and leaves three children.

Mrs. James Tucker of Parrsboro died this week at the age of 92 years.

RICHEST MONARCH.

Emperor William is undoubtedly the richest monarch in the world now that Queen Victoria's estate has been divided. He inherited more than \$30,000,000 from his grandfather thirteen years ago, which was well invested and has since rapidly increased in value. He inherited another fortune from his father, the late Emperor Frederick. His wife is also rich, and her property has multiplied under prudent management and with the development of the material interests of the empire. The Emperor has been fortunate in securing good investments through his friends in financial circles. They know that he appreciates such favors, and when they have something they can recommend they save him a slice of it. But he never speculates in stocks or bonds, and never buys anything on margin. Most of his money is invested in gilt-edged mortgages upon buildings in Berlin and other of the large cities of the empire. He owns acres on Frederickstrasse, the principal business street of Berlin, and holds mortgages upon acres more. In the new part of the city he has extensive investments in residence property, and is the proprietor of whole blocks of apartment houses erected on land which he purchased when it was an unsightly dumping ground, but is now the most expensive part of the fashionable residence quarter. He has similar investments in other cities.

ONE OF SCHWAB'S JOKES.

President Schwab of the Steel Trust makes the impression of being "a good fellow" wherever he goes. To the members of the Society of Naval Architects, with whom he dined in New York on Friday, he said that he could not help knowing that he was a great man. The fact was brought home to him the other day, in a little town in Pennsylvania, not far from Pittsburgh. "I had my colored driver Bob sitting beside me," Mr. Schwab said, "and was driving through the town. A woman and a little girl, evidently her daughter, were watching us. 'That's Mr. Schwab,' I could not avoid hearing the mother say. 'Which one?' asked the child."—Hartford Times.

SONS OF TEMPERANCE VISIT.

St. John County District Division of T. paid a visit to Gurney Division last evening. There was a large number of the sons of the city present, and after routine business was gone through with the following programme was successfully carried out: An ad-

P.; solo by Miss Worden of Gurney division; speech by the district chaplain, Bro. John Gowan; reading by Miss Cameron of Gurney division; solo by Bro. Daly of Granite Rock division; speech by Bro. Patterson of Albion division; speech by Bro. C. E. Everett.

To cure a Headache in ten minutes use KUMFORT Headache Powders.

DIDN'T DO IT ANY MORE.

A Kansas lawyer was recently broken of the habit of writing his name all over every blank piece of paper, he sat down before. When trying a suit he would scratch his name over all the paper on the table in front of him. One day a friend of his got hold of a slip of paper on which he had written his signature, and over it wrote a promise note for \$10,000. He took the note to a local banker and asked him to present it to him for collection, which was done. He didn't pay the note, but he stopped writing his name on everything.

TWO CANADIANS.

Trooper Armstrong, of Melita, Manitoba, is dead at Cape Town. Trooper Tesser is dangerously ill at Dyrenham of enteric fever. His next of kin are in Toronto.

WANTED—A case of Headache that KUMFORT Powders will not cure, in from ten to twenty minutes.

THE JOINT HIGH COMMISSION.

WASHINGTON, Nov. 21.—Some Maine people have been hounding about the possibility of the Joint High Commission being again called together. President Roosevelt stated Wednesday that it would not be.

A RUN OUT.

On Thanksgiving day the members of the Y. M. C. A. GYMNASIUM classes will have a run-out. They will leave the building about ten o'clock in the morning for Bothersay, where they expect to arrive at eleven thirty. After dinner they will put in part of the afternoon playing football or some other game and start on the return run about three o'clock. So far seventeen men have expressed their willingness to take part in the run, and it is expected that others will join. Mr. Allen, the physical director, has made these out-door exercises very popular.

LOCAL NEWS. WILL SOON START.

The infant daughter of Mr. and Mrs. Joseph G. Starkey of Fredericton died on Wednesday afternoon.

Chas. K. Cameron & Co. will offer special bargains in hats and bonnets tomorrow evening.

Miss Gertrude Maltby, formerly of Newcastle, was married on Nov. 4th to Henry Houston of Nelson, B. C.

Dr. Thomas Smith and Miss Maud Choran, both of North Sydney, were married Wednesday morning.

In today's Star G. F. Brown, 201-202 Main street, advertised incandescent lamps for sale at his store.

G. S. Cosman of Mill street, who was reported very ill as a result of vaccination, is a little better today.

Margaret M., the 12-year-old daughter of Mrs. George Crawley of King street, Fredericton, died Wednesday night.

Principal Mullin of the Fredericton Normal School has not yet decided whether he will accept the offered principalship of the normal school in Pretoria.

Daniel McBean, formerly a prominent citizen of Moncton, died at Chelsea, Mass., Wednesday. His wife, who survives, is a sister of W. B. McKenzie of Moncton.

The steamer Mossmouth, which is to carry horses from this port to South Africa, is expected to arrive tomorrow. The horses will not be here before next week.

Manifests were received at the custom house today for five cars of provisions, seven of lard, ten of meats, three hams and one of oats for export to Great Britain.

Messrs. Osler & Hammond, brokers, Toronto, report that they have received applications for over two millions of bonds of the Nova Scotia Steel and Coal Company, Ltd.

There are half a dozen cases or more of diphtheria at Gibson and St. Mary's, and it has been deemed necessary to close the school on that account. One of the teachers, Miss Emack, was found this morning to be suffering from the disease.

A club meeting of the Neptune Rowing Club will be held in the rooms, 35 Charlotte street, on Saturday evening at 8 o'clock after the ladies' reception, to consider the resignation of John T. Robinson as president, and other matters.

The death is reported of William Keith, one of the oldest residents of Moncton, which occurred at his home yesterday afternoon. Mr. Keith was eighty-four years of age. His funeral will take place on Sunday.

Jim Paul and his daughter expect to leave Fredericton on Monday next for Philadelphia, to take part in the Sportsman's Exhibition there, which opens on the 27th inst. Jim is taking along a lot of Indian wares and will have charge at the exhibition of the wigwam and Indian sports.

Harold Brown, organist in the Presbyterian church, who has been ill for some days at his home in Sussex, has returned to Moncton. Mr. Brown's many friends in Moncton are pleased to see him around again.—Moncton Transcript.

The poultry, pet stock and kennel exhibition will close this evening. The judging has been concluded. There was a large attendance of visitors last evening, and tonight should see a much larger crowd, as the exhibition is an excellent one.

The Dominion Coal company will in the course of a week or two ship a cargo of 8,000 tons of coal to Hamburg. While the company has already sent several cargoes across the Atlantic this will be the first cargo sent to Germany. This shipment will be significant in view of the fact that Germany itself is a coal producing country of some importance.

Lieut. Col. Gordon, who accompanied the Canadian Mounted Rifles to South Africa, and remained there, is on his way home. Lieut. Col. Gordon fell ill some months ago with enteric fever and for a time his condition was serious. On becoming convalescent he left South Africa for England, and may be expected to reach Canada inside of a few weeks.

THE KING STREET ARCH.

Many citizens feel that the King street arch should be removed to the park and converted into a bandstand. To remove the arch there and set it up would cost the city \$100. After being set up it could be partially roofed over and a stand erected for the purpose. The painters are willing to undertake the cost of this work if the arch is taken out there and set up. Mr. Charlton, who designed the arch, has shown plans for the necessary additions to be made. The matter may be brought before the council again.

THE MARKET.

There was a large supply of stuff in the country market this morning. Most of it, though, had been consigned to the commission men, and there were but few country people in attendance. Yesterday there were only three country sellers in the market. There was an abundance of beef for sale today, and it was offered at quite a low price. Turkeys have taken a drop this week and have sold as low as ten cents a pound. The average price today is about twelve cents.

ARITHMETIC CONTEST.

The standing of the leaders in the contest at the Currie Business University today is as follows:

	Points.
C. E. Colwell.	225
Stephen Downing.	128
Wm. Elliott.	128
Sadie Lindsay.	87
H. B. Doherty.	52

J. B. Cudlip Appointed Manager of Cotton Mills.

He Was Manager of Gibson's Mill Six Years—A Very Bright Prospect.

The cotton mills will be in operation again within a few weeks. J. B. Cudlip has been appointed manager, and arrived in the city this morning. He will at once enter upon his duties, and as soon as necessary arrangements can be made the machinery will be set in motion.

James F. Robertson and the other members of the company are being heartily congratulated on their choice of a manager. Mr. Cudlip is a native of St. John, was formerly employed in the St. John mills, and has valuable experience later in the United States, where for several years he was superintendent of a mill in Baltimore, and for the last six years he has been manager of the Gibson cotton mills. The Gibson mills have been exceptionally successful under his management, being probably the only ones in Canada to be operated continuously for the last six years. He therefore augurs well for the success of the St. John mills that Mr. Cudlip has given up that situation to accept the management here.

In conversation with the Star this morning Mr. Cudlip said that operations would be begun as soon as possible—the sooner the better. Such changes as are deemed advisable from time to time will be made to put the plant on a modern basis, and keep it in the front rank of cotton manufacturing establishments in the Dominion. It will be the company's purpose to produce goods of the very highest grade in each class, so that in the market the name of St. John will represent first class goods of every description manufactured.

St. John, Mr. Cudlip points out, possesses exceptional advantages as a cotton producing centre. The climate is probably the most suitable of any in Canada for cotton spinning. The work people are intelligent, and when properly trained make a most excellent class of operatives, capable of turning out a large product of good quality.

For fuel supply, the mills are very favorably situated, as they profit by the competition of water borne freight, thus ensuring reasonable rates from the railways at all times. For shipment of goods the like is true, for being served by two railways, they can get a reasonable rate to all parts of Canada.

Mr. Cudlip enters upon his work with enthusiasm, and before the winter has fairly set in we shall see the two mills, with nearly 500 employees, in full operation. Of these employees a record as a manager of other mills. Mr. Cudlip is looking for a house in a central locality, and will remove his family to St. John as soon as arrangements can be made.

J. B. Cudlip is a son of the late Hon. J. W. Cudlip, who was at one time a prominent St. John business man and politician, and afterwards inspector of customs.

The young man is returning to the office of his first job. As a lad he entered the business office of the Cotton Bay cotton mill, but not content with the position of clerk, he concluded to learn the mechanical part of the business. Entering the mills as an apprentice he worked his way up to the position of foreman of one of the departments. Then he was engaged as one of the superintendents in the St. Croix cotton mills. Leaving Milltown he went to the United States, where he was engaged in erecting cotton mill machinery, and afterwards as superintendent of a mill. Later he came to Marysville.

Mrs. Cudlip is a daughter of the late Robert Cruikshank of this city.

CORONER'S JURY

Believe Impure Lymph Caused Little Causton's Death—Dr. Bayard Interviewed.

Coroner Berryman held an investigation last evening into the cause of the death by lockjaw of Little May Causton. The jury was composed of George Thompson, Elsie Cosman, Thomas Seeds, Frank McCafferty, E. T. Worden, John Currie and David Wilson. The witnesses examined were: Mrs. Elsie Causton, William Hawker, Dr. H. G. Addy and Dr. G. A. B. Addy.

In reviewing the evidence, Dr. Berryman spoke of Mr. Hawker's long experience, but said the question must arise before the jury, whether or no this qualified him to vaccinate. It seemed that in this case ordinary precautions had been taken, and from the testimony of Dr. Addy it would appear that the infection would have been liable to occur under any hands. It was also for the jury to determine whether Mr. Hawker as a druggist was qualified to vaccinate in any case. He advised them to consider carefully before attributing the cause of the trouble to the vaccine, as the effect of such a decision would be to alarm the people, hinder the board of health in their compulsory vaccination and also to injure the firms manufacturing and selling the preparation of lymph. If Mr. Hawker was fully qualified to vaccinate, although not actually permitted by the law, he was entitled to the benefit of the doubt.

After due deliberation, the jury found that the Causton child died of tetanus, caused by the use of impure vaccine. While they believed that every precaution was taken in that case, they strongly recommended that the operation in no case should be performed except by a certified medical practitioner.

The Star this morning interviewed Dr. Bayard with reference to the above case. He said:

"I have no hesitation whatever in saying that according to the evidence as published in the papers, the verdict of the coroner's jury in the Causton case was not justifiable.

"It is a serious thing to contradict the decision given by a jury, but the evidence in the present case does not support the verdict. While I know very little of the history of this case, it certainly seems to me from what I do know that further information should have been obtained. There are various kinds of lockjaw. A person may have it without having any wound and it can be developed after the wound is made, from germs in the earth or in any fluid with which the wound may come in contact. In the present case while lockjaw may have been caused by the insanitary conditions of the surroundings of the child or have developed in the insanitary conditions while the wound was maturing, it may on the other hand, have occurred from totally different causes not in any way connected with vaccination. When a wound exists, no matter what form of lockjaw may have developed, the tetanus germs would almost certainly be found in the wound; when the vaccine lymph is accused of generating the disease the tetanus germs would be found either in the lymph itself or in the wound, and for these reasons I think that bacteriological tests should have been made. The lymph should have been tested in order that the charge against it might be supported and the secretions from the wound should have been tested to ascertain positively whether tetanus germs existed in it, not for the purpose of supporting the doctor's diagnosis, but to furnish additional proof to the jury. It should not be forgotten that even though tetanus germs are found in the secretions from a wound, the wound may not necessarily be responsible for the disease."

In connection with the above, Dr. C. A. B. Addy, bacteriologist of the General Public Hospital, says that it was his intention to have made a test of the discharges from the wound, but owing to the fact that all his assistants are in the hospital, and that he is unable either to have it removed from there or to gain access to it. He has made application to the board of health for admission to the hospital in order to carry on his bacteriological work, but not being a visiting physician his application was not granted.

Dr. Addy also says that when there are so many sources from which tetanus may originate the coroner's jury were not justified in ascribing the disease in the Causton case to the vaccine lymph upon the evidence given.

THE SMALLPOX.

A Case on Wentworth Street and a Suspect on Brussels Street.

This afternoon a case on Brussels street was reported as a suspect. Yesterday another case of smallpox was discovered in the General Public Hospital. The patient is Charles Taylor, aged twenty-three, of Newfound-land, who has been in the hospital since Sept. 22. He was in ward D, a male ward, at the opposite end of the building from Ward C, where all the previous cases had developed.

Another case was reported this morning. The patient is Miss Rosella Currie, aged twenty-four. She boards in the house of Mr. Bartheaux, 131 Wentworth street.

About noon today a man by the name of Myles, residing on City road, attempted to take a short cut through the hospital grounds. He was observed and caught, and by the officers of the board of health was handed over to the police.

About noon today Edith, the four years old child of Henry Blair, Brindley street, died of smallpox. She was reported as having the disease on the 12th of November.

At today's meeting of the joint committee, no definite action was taken in regard to purchasing a building to be used as an additional epidemic hospital. It is understood that the owners of suitable places have put up their prices to a figure beyond what the committee feels is a fair one. Should a reasonable figure be named the committee will buy immediately. While the members of the committee are not giving out any information, it is said that there was a difference of \$1,000 between their offer for one of the places and the price named by the owner.

The buildings at Lawlor's Island, says yesterday's Halifax Recorder, are being fumigated today. The small-pox patients will be released from quarantine tomorrow. Dr. Montisambert yesterday made an inspection at the Halifax quarantine station.

There is talk of sending out of the epidemic hospital some patients who are now convalescent, but whose homes are still in quarantine. They would go home and finish out their period of quarantine there, and it would be possible to send new cases to the hospital.

The Rev. H. H. Roach will gladly distribute among persons confined to the house owing to smallpox any good reading matter that may be sent to him at the old Tabernacle building, 368 Haymarket square.

THE NORTH END POLICE HAVE RECEIVED

many complaints from people living near Haymarket square about a dog which makes its home in the quarantined Hamilton house and visits all around the neighborhood.

TRINITY CHURCH SOCIETIES.

At the meeting last evening of the Young Women's Guild of Trinity Church the following officers were elected: Mrs. Gillie, president; Miss G. Patton, vice-president; Miss C. Robertson, secretary-treasurer. Those comprising the council of eight are: Misses A. Scammell, L. Langan, M. Patton, M. Munro, Simpson, Hayes, Bruce and Jordan.

The election last evening of officers of Trinity Church Boys' Association resulted as follows:—Warden, Rev. W. W. Craig; vice-warden, Bert Coupe; secretary, Bert Church; treasurer, R. Wright.

Between nine and ten o'clock this morning an alarm was rung in from box 126 for a fire in a chimney of a house on Douglas avenue. No damage was done.

PHILLIPS BROS.,

541 Main Street, North End.

The funeral of the late Little May Causton, daughter of Oscar Causton, took place from her father's residence at half-past two o'clock this afternoon. The services at the house and grave were conducted by the Rev. T. J. Delistadt and interment was made in the Church of England burying ground.
