PROBS—SHOWERY

PRICE TWO CENTS

THIRD ATTEMPT TO KILL KING ALFONSO OF SPAIN

Anarchist Fired Three Shots Point Blank at His Majesty

SAVED OWN LIFE BY QUICKNESS OF MIND

Secret Service Man Arrests Would-Be Murderer After Fierce Fight—Found to Be a Noted Criminal.

Madrid, April 13.—For the third time in his reign, King Alfonso narrowly escaped today being the victim of an anarchist attempt against his life. Three shots were fired at the King this afternoon in the streets of the capital by a native of Barcelona, Rafael Sanchez Allegro, who was immediately overpowered.

King Alfonso owed his life to his own courage, quickness and skilled horsemanship. Accompanied by his staff, he was riding along the Calle de Aica on the way back from the ceremonies of swearing in the results, when a man sprang from the sidewalk and seized the bride of the King's horse with one hand, presenting a revolver pointblank with the other.

The King took in the situation at a glance. With lightning rapidity he dug his spurs into his horse which reared violently. His quickness saved his life. The bullet, instead of burying itself in the King's breast, struck the horse on the neck, but so close was it that the King's left hand glove was blackened by the powder discharge.

Before the assassin was able to pull the trigger again a secret service man sprang on him. The two men fell to the ground locked in each other's arms, struggling furiously. The assassin managed to free his right arm and fired two more shots in rapid succession but the officer knocked him arm aside and the bullets flew harmless through the air.

Officers to Rescue.

At the sound of the first shot the King's staff forced their horses on the sidewalk and made a ring around the assassin who fought long and fiercely in the grip of four policemen before he was overpowered and handcuffed.

King Alfonso, as soon as he saw that the man had been secured, raised himself in the stirrups, turned to the crowd, gave a military salute, and shouted in ringing voice, "Long live Spain."

He then dismounted and reassured his staff saying "It is nothing, gentlemen."

There upon a mighty roar from the wildly enthusiastic crowds, which rolled along in great waves of sound all the way as the King rode to the palace, cool, collected and smiling.

Wrong Men Arrested.

A pensioned Royal Halberdier pushed forward impudently to offer his congratulations to the monarch, but he was mistaken for another assassin and arrested. He was released, however, as soon as the mistake was discovered. A young Frenchman, who was standing beside Allegro, was also arrested, but it does not appear that he was in any way connected with him.

Continued on page two.

SAVAGE MORO WARRIORS PEN IN AMERICAN TROOPS

Despatches Tell of Attack of Tribesmen on Town of Jola in Philippines—War Has Spread to Surrounding Islands—Many Killed.

San Francisco, April 12.—Manila papers received here today tell of the Moro siege of the town of Jola continued since the latter part of January, and say that thirty American soldiers are in the hospital here, 17 of them seriously wounded. The papers say a strict censorship is being maintained and it is difficult to obtain accurate information regarding conditions of the island.

An American civilian brought word to Manila of the fighting. He said officers and men were chafing under inaction and they were not permitted to return the Moro's fire.

"A one-sided battle was fought on the night of Feb. 25, more than one thousand shots being fired into town by the tribesmen," he said, according to the paper. Four American soldiers were wounded, none of them seriously.

"Come out you cursed American pigs. Come out and fight us like men or we will make you swim the seas," was the taunt of the Moros, who came within easy talking distance of the walls and barbed wire entanglements.

"In spite of the number of men within the walls, guard duty is so severe that all men are on duty every other night and the strain is rapidly telling on them.

"The cordons of stone houses which encircle the town at a distance of half a mile and which were formerly held by American troops, have been given up and are now occupied by Moros.

"The burning of crops and houses of friendly Moros goes on, the friendlies being either killed or forced to join the hostiles.

"The cable office is as strictly censored as is the post office and it is impossible for even a civilian to send a message, even a business matter.

"To make matters more serious the trouble has spread to the surrounding islands and marauding bands are burning and killing on Zamboanga, Tawitawi, Davao and Sulu."

POPE PIUS' CONDITION REGARDED AS CRITICAL

Grave Symptoms Give Cause for Much Alarm

PONTIFF GRADUALLY BECOMING WEAKER

With Temperature Rising and Throat Trouble More Manifest Great Anxiety is Felt by Attendants—Confessor Summoned to Bed-Chamber.

Rome, April 14.—All indications point to the utmost gravity of the Pope's condition. At midnight the fever and cough were giving cause for great alarm. The impression had gained ground that the tracheitis had developed into pneumonia. While not absolutely denying this, Prof. Marchafava said, "At the present time it could not properly be called pneumonia, but with tracheitis sometimes the lungs do not function properly. Probably the resistant and robust fibre of the Holy Father may overcome this danger. Meanwhile we can make a statement which must give rise to much real hope that albuminuria has disappeared."

As the two bulletins, issued one in the morning and one in the evening, the Pope's condition was set forth as it had been learned that the attending physicians have come under the censorship of the papal secretary of state.

The explanation is now given that Drs. Marchafava and Amici embody in their bulletins all the details with reference to the pulse and respiration. In addition to other pathological conditions. These bulletins are submitted to Cardinal Merry Del Val, and when they reach the apostolic nuncio what the papal secretary considers unnecessary and undesirable for publicity.

After midnight there was an increase in the temperature of the patient, and the fact that a large quantity of disinfectants had been brought into the sick apartment was considered as an indication that the bronchitis had developed into pneumonia.

Pope's Confessor Summoned.

The Monk Vives Y Tulo, brother of the Cardinal, who has been for some time the confessor of the Pope, entered his room and remained there for five minutes. It is supposed that during that time he heard the Pontiff's confession.

Extraordinary measures were taken late at night by the Vatican authorities. The entire Vatican gendarmerie was on duty, patrolling both inside and outside the apostolic palace. At the same time the Italian government organized a special police service around the Vatican.

Great alarm was occasioned about 11 o'clock when the Pope, during a strong attack of coughing emitted a quantity of blood. Those present thought that he was dying and rushed for a doctor and Cardinal Merry Del Val. The latter on reaching the bedside, restored calm, saying that probably the Pope would feel great relief, as the presence of the blood was doubtless due to the rupture of small vessels in the throat.

There was another alarm yesterday afternoon. That occurred at St. Peter's. Some Polish pilgrims led by their bishop were within the Basilica when they heard the sound of many bells, thinking that this was the announcement of the death of the Pope they gathered around the bishop and intoned prayers for the dead.

Dr. Amici in a statement made last night prior to the extremely serious conditions which arose, said:

"The condition of the Pope is grave but not alarming. We can overcome the present crisis. Then if he follows the doctors' advice he may live some years more.

"The present relapse was due to the reluctance of the Pontiff to submit strictly to the medical regime. The moment he feels better he wishes to resume his ordinary occupation, which causes loss of strength and great danger."

MANY SETTLERS COMING FROM U. S. TO THE WEST.

Special to The Standard.

Ottawa, April 13.—That the present season will equal last year in regard to the influx to the Canadian west from the United States, is indicated in the report received at the apostolic nuncio on Saturday. During March, 300 carloads of settlers' effects arrived at western points from Omaha and Kansas and the owners are already located on their homesteads.

POWERS REPLY TO BULGARS PROPOSALS FOR MEDIATION

Soňa, Bulgaria, April 12.—The representatives of the powers today handed to Premier Guechoff their reply to the last note of the allies regarding the proposals for mediation in the war with Turkey. Guechoff promised to confer with the representatives of the allies and obtain their views on the note. The reply of the powers is as follows:

"The powers note with satisfaction the disposition of the allies in favor of peace and make reply in the following manner to the points raised by the allies' note. To the first point, Bulgaria's demand regarding the Turkish-Bulgarian frontier, no objections are raised. On the second point, the powers point out that the fate of the Aegean Islands having been reserved for the consideration of the powers, this point can only be admitted subject to decisions arrived at regarding certain of the islands.

"On the third point, the powers inform the allies that they are ready to communicate to them at once the north and northeastern frontier of Albania and that the southeastern and south frontier will be communicated to them as soon as it is determined. On the fourth point the powers state the solution of all questions of a financial character having been reserved for a technical commission in Paris, in which delegates of the belligerents shall take part, they do not see any reason for giving their views at present on the question of indemnity."

NO CHANGE IN SITUATION IN THE CAPITAL

Liberal Organ Advises Rioting to Prevent or Mark Passage of Closure—Government Permits Much Latitude.

Ottawa, April 13.—The week-end rest has come to a close with no visible change in the situation here. On Friday night the demoralization of the opposition was apparent. If it desired to offer arguments against details it resorted to rioting to prevent or mark the passage of closure.

If it desired to utter an effective protest it still was unsuccessful, for the speeches had no life, and if it desired to obstruct it was inept, for it worked off no less than five of its speakers including several of the long-winded brigade.

The debate indeed seemed on the point of collapse.

On Saturday there were some signs that the Liberal leaders were considering their chances for a rally. The Ottawa Free Press which on Friday was screaming for a compromise, on Saturday once more abruptly changed its tune and urged that Liberals should resort to rioting to prevent or mark the passage of closure.

As regards this, it takes two to make a riot. If the Liberals resort to unseemly methods it will be through an artificial pumped up, hollow affair. The Conservatives feel that the Liberal party are in a very humiliating, exasperating position into which they have got by their own fault, and feeling also that their success is complete, have been pursuing a policy of scrupulous avoidance of provocative language.

From St. John, N. B., K. J. Lytle, Liberal, has been allowed, without protest, to utter unparliamentary expressions which ordinarily would be within the bounds of decorum. The Conservatives simply are sitting back and looking at the frantic rage of the opposition who are baffled not only in regard to the naval policy but in getting an election.

G. P. R. STEAMER STRIKES A ROCK

The Princess Sophia Injured on British Columbia Coast at Place Where Sister Ship was Wrecked.

Juneau, Alaska, April 12.—The G. P. R. steamer Princess Sophia, Capt. Charles Campbell, struck a rock at Sentinel Island at 2:10 o'clock this morning. A large hole was torn in the port side of the steamer's bow but she was able to proceed on her way to Vancouver, B. C., under her own steam.

The steamer's double bottom kept her from sinking. She is making a little water and is believed to be in no danger.

The accident to the Princess Sophia was at the place where her sister ship the Princess May was wrecked August 5th, 1910.

FORMER U. S. SENATOR DIED ON SATURDAY

Washington, April 12.—John Brooks Henderson, former United States Senator from Missouri, and author of the thirteenth amendment to the constitution of the United States, died at 6:30 o'clock tonight at a hospital here from a complication of diseases. He was 55 years old.

SUNDAY EXCURSION IN MONTREAL WAS FATAL

AN IMPROVED SERVICE TO WEST INDIES

Increase in Subsidy Granted—Pickford & Black and Other Shipping Interests to Provide Steamers.

Special to The Standard.

Ottawa, April 13.—The Dominion government has, it is understood, completed arrangements for an improved steamship service between Canada and the West Indies. The arrangement is a temporary one, the contract being for a year. The old service was provided by the firm of Pickford and Black, with four boats sailing from Halifax every twelve days and calling at St. John on the homeward voyage. The subsidy paid by the government for this service was \$100,000.

The new service will call for a subsidy of \$200,000. Pickford and Black will have other steamship interests associated with them, and two first class modern passenger vessels will be placed on the route. The ports of call will be the same as under the old contract, providing a service between Canada and all the islands, which are parties to the new trade agreement between the Dominion and the British West Indies. It is understood that no offers were received for a lengthier contract on terms satisfactory to the government.

MONCTON WOMAN, IN FIT OF INSANITY, COMMITTED SUICIDE

Mrs. Reverdy Lutes Drank Muriatic Acid and Zinc on Saturday—Death Followed at Noon Yesterday.

Special to The Standard.

Moncton, April 13.—Mrs. Reverdy Lutes, on Saturday afternoon, took a dose of muriatic acid and zinc, which resulted in her death about noon today. The deceased, who had been in failing health for some time, had of late shown symptoms of insanity and her rash act is attributed to that cause. The medical attendant could do little to relieve her as she seemed determined to die. The deceased is survived by a husband, who works in the I. C. R. shops in Moncton, and two young children. She was a native of Shubenacadie, N. S., to which place the body will be taken for interment.

SUDDEN DEATH OF ARTHUR DEFOREST IN ALBERT COUNTY

Well Known Commercial Man Passed Away in Prince Albert Hotel, Hillsboro, at an Early Hour Today.

Special to The Standard.

Hillsboro, April 14.—Arthur DeForest, the well known commercial traveller of St. John, died at the Prince Albert Hotel at twelve thirty this morning. He came to Hillsboro on Tuesday last and immediately took to bed complaining of stomach trouble. His illness was not considered serious until a couple of days ago. He was unconscious a considerable part of yesterday and passed away at twelve thirty.

PROMINENT COLLEGE PROFESSOR RETIRES.

Toronto, April 12.—After nearly 50 years of useful service, William H. Vander Smissen, professor of German in the University of Toronto, is to retire and take the long holiday.

SUFFRAGETTES CONTINUE IN THEIR CAMPAIGN OF ARSON

Bold Attempt to Burn School Building in England—Harmless Demonstration at Holloway—Cabinet Minister Publicly Scolded.

London, April 12.—The inflammatory speech made by George Lansbury, a former member of the House of Commons, at the suffragette meeting at Albert Hall, Thursday night, urging the militants to continue their campaign of incendiarism and show no regard for property of any kind, has borne fruit. An attempt was made today to burn down the Shipcote council schools at Gateshead. Through a window of a rear building the incendiaries gained access to the room in which carpentry is taught. After drenching the place with kerosene, they set it afire. The outbreak was discovered early, which enabled the firemen to prevent the flames from spreading to the other classrooms. The damage therefore was small.

Evidence that the perpetrators were suffragettes was afforded by labels scattered about the premises, inscribed: "We burn to get votes for women." "For the damage done sue Asquith." "You cannot stop us by the cat and mouse bill."

A Harmless Demonstration.

Several hundred militants, many of them bearing black banners, marched in procession this evening, accompanied by two brass bands, to Holloway jail, where fourteen suffragettes are said to be on hunger strike. They chanted the jail twice singing, "The March of the Women." They gave three lusty cheers for their imprisoned comrades before starting on the return. The object of the demonstration was to encourage the hunger strikers to resist all temptations to surrender to the pangs of hunger, and the discomfiture of forcible feeding.

Cabinet Ministers Scolded.

The suffragettes continue to harass the cabinet ministers, whenever they get a chance. Augustine Birrell, chief secretary for Ireland, who attended a matinee today, was scolded by Miss Nancy Lightman, a prominent militant. When the curtain fell she addressed the secretary in a loud voice, saying: "How can you, as an honorable man, continue as a member of this despicable government which breaks its pledges to the women. We will soon show you that the cat and mouse bill is utterly useless."

Some of the audience blessed, but many women cried "Bravo."

Seven Dead, Fifteen Hurt In Train Wreck Near City

FREE TRIP PROVED COSTLY FOR MANY

Train Crowded With Guests of Real Estate Agents Left Rails—Three Passenger Cars were Telescoped.

Montreal, April 13.—Seven persons are dead and fifteen injured as the result of the derailment of an excursion train this afternoon on the Montreal-Chamby branch of the Central Vermont Railway, about four and a half miles out of St. Lambert. The train, which was carrying about seven hundred passengers, who had taken advantage of the free trip given by Cottrell, Ltd., real estate agents, to prospective purchasers of the lots at Albani subdivision, was returning to Montreal at a speed of between twenty and thirty miles an hour when, from some unknown cause, the engine and the three first coaches left the rails a few hundred yards from the other side of the Sunlight City station, near East Greenfield Station.

The engine was running tender first when the derailment occurred. The tender jumped to the right side of the track, turning bottom up, while the engine went to the left, falling on its side. The engine and the three first coaches were both thrown from the cab, the fireman receiving injuries from which he died soon after, while the engineer escaped with some painful bruises.

Coaches Telescoped.

The three coaches which were derailed remained upright on their trucks, but the telescoping of their ends caused most of the fatalities.

The first coach stood across the track nearly at right angles, its front end being superimposed upon the overturned engine. The second coach stood in an oblique angle across the track, its front end jammed into the rear of the forward coach, while the third coach, on the left, was parallel to the track, wedged into the side of the second car near its rear end.

The passengers of the first and second coaches suffered severely. All the deaths except that of the fireman and most of the injuries occurred in these two cars. As the train was crowded to its fullest capacity, many persons were standing on the platforms and it was among their number that the victims were chiefly found. Escaping steam from the boiler of the locomotive filled the derailed coaches with blinding steam and adding to the horror and confusion of the surviving passengers, impeding their efforts to escape and scalding some painfully.

Extracting Dead and Wounded.

The occupants of the four rear coaches, which remained on the rails, quickly made their way out and a number of them hastened to extricate the dead and injured from the wreckage. Their efforts were fruitless.

Continued on page two.

CROWDS IN LONDON MOB SUFFRAGETTES

Hyde Park, Wimbledon Common and Hampstead Heath Scenes of Disorder at Sunday Afternoon Meetings.

London, April 13.—The weekly attempt of the suffragettes to hold a meeting in Hyde Park against the opposition of the anti-suffragettes took place today. The crowd bowled down the speakers and hurled missiles at them until the police were forced to interfere and escort the suffragettes from the park.

Wild scenes of disorder occurred at Wimbledon Common where an enormous force of police was engaged in protecting from violence the suffragettes holding an open air meeting. The speeches were inaudible and the mob roared beyond expression. Mounting police were obliged to charge several times before they were able to rescue the women. A suffrage meeting at Hampstead Heath was also broken up.

TORONTO MAY SELL HER CITY BONDS IN FRANCE

Toronto, April 13.—The sales of Toronto bonds in the money market of France is a possibility of the near future.

An agent representing one of the big financial houses of Paris, France, recently visited Acting City Treasurer Patterson and discussed the opportunities for the sale of city bonds in the French market. It was pointed out to Mr. Patterson that if the city bonds could be sold in small denominations there would be no better market than France.

MANY IMMIGRANTS COMING TO CANADA.

Special to The Standard.

Halifax, April 13.—Three steamers arrived in Halifax yesterday and today with 4,150 immigrants, of whom 2,900 remain in Canada and 1,250 proceeded to American ports.

The Canada had 1,300, the Russian steamer Casr, 1,180, and the Corsican 1,670.

The Hamburg-American steamer Graf Waldersee, due tomorrow, has 1,400, and the Wittenkind of the same line, a similar number. The two German boats have 1,800 for Canada.

THE LATEST SHIPPING NEWS AND ANNOUNCEMENTS

MINIATURE ALMANAC. April Phases of the Moon. New moon, First quarter, Full moon, Last quarter.

FOREIGN PORTS. New York, April 11. Arrived—Stmr Baltic, Liverpool; France, Havre; Schrs Silver Leaf, Pansboro; Lucia Porter, St John; McClure, do; Elma, do; Harold B Cousins, do; Annie B Mitchell, Some Sound, Me.

foreign goods valued at \$51,455, making a total of \$262,875. Among her shipments were 125 Canadian automobiles and 15 foreign automobiles.

In 1880 as parliamentary correspondent for the Toronto News and afterwards represented the Toronto Globe and Montreal Herald. Latterly he was with the Ottawa Journal. He was a well-known athlete in his earlier days and in 1888 went to Great Britain with the famous Toronto lacrosse team.

HOW "THE MACHINE" WORKED.

No doubt now exists as to the intention of the Laurier Government to introduce the Closure had the administration survived the last General Election.

The Moncton Transcript gave prominence to an obviously inspired despatch from Ottawa under date July 27th, 1911, in commenting on the closing days of the session.

"A brilliant and vigorous speech from the Premier (Sir Wilfrid Laurier) that will be a landmark in the coming campaign, namely, Reciprocity versus obstruction; true Imperialism versus ultra Imperialism, and majority versus minority rule, will probably mark the last scene.

"Sir Wilfrid, if the opportunity of fers, will thus give a rallying cry to his followers and sound the war note of the campaign.

"Meanwhile the hours of obstruction talk still being endured emphasize one chief moral of the present session, namely that the new Parliament must take prompt steps to prevent a recurrence of another eight months' session with less than half the business of the House put through.

"Liberal members have been loath to advocate closure, but patience has now ceased to be a virtue. There is a general consensus of opinion that no sane man can be expected to long remain a Member of Parliament under present conditions when there is absolutely no remedy for needlessly long sessions, and holding up of the country's business at any time by a stubborn minority.

"In the coming campaign the Liberal members will frankly declare the necessity for some form of closure, and when the Government is returned to power it will have a mandate to change the rules of the House in accordance with the present obvious need for reform."

ENGLAND'S HOUSING PROBLEM.

A noteworthy movement in England, looking to the better housing of the working class in rural districts, has been the subject of much favorable comment in the British press.

Official notice of the movement has been taken in the recent issue of a memorandum by the British Local Government Board dealing with the design and construction of houses for workers.

The advice is primarily intended for local authorities, but it is believed it will be equally serviceable to private persons and philanthropic companies.

One of the most important points brought out in the Board's report is the undesirability of crowding too many houses together on a given area of land.

A serious obstacle to the provision of cottages in England at moderate cost is the insistence by local authorities on a number of irritating and useless building by-laws.

On this point the Local Government Board urges the authorities not to insist on by-laws which are "unduly restrictive in regard to the erection of small dwelling houses."

GERMAN ARMY ON STARVATION WAGES

(Toronto Mail and Empire.) While it has been generally conceded that Germany has the greatest army in the world, critics of late have been pointing out some very serious flaws in it.

Now comes criticism from another source. It is said that the German army is the worst fed, clothed and housed in Europe, with the possible exception of the Russian army.

The following editorial comment in the St. John Globe is well worth careful consideration: "If it is not entirely a new idea in court proceedings for the presiding head of an inferior court to discuss the possible attitude of a superior Judge, in the event of an appeal, it is certainly unusual.

"The Globe is unwary. This old and greatly respected journal may now be added to the list of supposed conspirators which includes, apparently, all persons who do not approve of the travesties upon justice which from time to time are performed in the Police Court.

"Industrial Canada enters a timely protest against any assumption that goods made in the United States should be marked 'Made in America,' and suggests that manufacturers in the various countries of North and South America would welcome a definition of terms in the following article from the Philadelphia Telegraph:

"The suggestion that 'Made in America' be made a slogan for manufacturers and for consumers is an excellent one. 'Made in Germany' used to stare at us from half the toys and countless other articles, and its effect upon the imagination was to convince many that superior quality attached to merchandise coming from that country.

"Commenting on the above statement, Industrial Canada asks in the Telegraph pleading for co-operation among the manufacturers of Canada, Mexico, Newfoundland, the United States, Central and South America, or is it restricting the word 'America' which covers two continents, to a certain section of one of these continents, known as 'The United States'?"

Why should a manufacturer located in the United States label his goods 'Made in America'? A German manufacturer does not label his goods 'Made in Europe,' but 'Made in Germany.' The Canadian manufacturer, the Mexican manufacturer, the Brazilian manufacturer, or the Argentine manufacturer has as much right as the United States manufacturer to label his goods 'Made in America.'

If the manufacturers of the United States are ashamed of the name of their country they should petition their Government to change it, instead of masquerading under a title which is the common property of a score of nations.

It is of interest to note that a Bill somewhat on the lines of the Board's recommendations has been introduced in the British House of Commons by Mr. Fletcher, a private member. This Bill provides for the erection of three-bedroom cottages with an eighth of an acre of land, at rents within the means of the agricultural laboring population.

Two methods of supplying the cottages are dealt with—(1) for owners of land, and (2) for local authorities. Money is to be lent for the purpose by the State both to owners of land and to district councils, repayable in 6 1/2 years. In return for the loan the owner is to provide the land free, and the rent chargeable is not to exceed 2s. a week.

In the case of the district council conducting the building the higher rent of 2s. 6d. a week will be charged, consequent on the purchase of the land and other charges. Neither owners nor local authorities may make any profits out of the tenants. No charge is to fall on the rates where owners of land are induced to build.

Other provisions in the Bill enable tenants to buy their cottages on par with any other terms, and in order to ensure the success of the scheme a new provision is to be introduced.

OPHELIA'S SLATE

IN LIGHTER VEIN

THE CURSED DAMOZEL. B. L. T. in Chicago Tribune. The Cursed Damozel cut loose About half past eleven. Prepared to do as wild a deed As any under heaven.

A Better Offer. Dick—What did she say when you asked her to walk hand in hand through life with you? Tom—She said my rival had offered to provide an automobile.

Timely Warning. "You'd better eat slow," said Willie to the clergyman who was dining with the family. "Mamma never gives more'n one piece of pie."—Boston Transcript.

The Usual Kind. "How fast is your car, Jimpson?" asked Markaway. "Well," said Jimpson, "it keeps about six months ahead of my income generally."—Harper's Weekly.

Maxims of a Housewife. A man that can't replace a missing button on his trousers ought never to marry. Call a doctor for the children if you think they are getting fat. The neighbors from talking. They'll talk about you anyway. I know a woman who has more closets in her new house than she has things to put inside them. You can overdo anything.

Best Soldiers Quit the Army. The breakfast of the German soldier consists of a cup of coffee. His supper is a piece of bread and a sausage and a cup of coffee. What remains of the appropriation of 8 cents per day is spent in dinner, and what sort of dinner it is may be imagined. This starvation diet without its effect upon the physique of the young men; and it has even a more decided effect upon their spirits. It gives them such a distaste for the army that the authorities are finding the greatest difficulty in getting the privates to stay on as non-commissioned officers after their term of enlistment has expired.

Neuralgic Condition of the Nerves

In this age of nervous disorders neuralgia is fearfully common. The first thought is of neuralgia in the head or splitting headache, but neuralgia may affect any part of the body in which there are sensitive nerves.

While neuralgic pains are usually sharp and consequently difficult to bear, the trouble is usually sore and tender under pressure.

Neuralgia is pain, and as such is the symptom of a disease—nervous exhaustion. The nerves must be re-

stored before cure can possibly be effected. In many cases neuralgia is easily curable by the use of Dr. Chase's Nerve Food. The patient is thin and bloodless and needs tonic treatment to form new, rich blood.

The application of cloths rung from hot water will afford relief from the suffering, and the regular use of Dr. Chase's Nerve Food for a few weeks will completely overcome the neuralgic condition.

Powerful drugs are to be avoided, because of their injurious effect in further weakening the nervous system. The Nerve Food cures by building up the feeble, wasted nerve cells, and for this reason is of lasting benefit.

Dr. Chase's Nerve Food

The first great exhibition of fireworks in Europe, so far as known, was witnessed in the city of Rome in 1588. Fireworks have been made in China since remote ages, but were not invented in Europe until 1669, and did not reach the point of affording a real spectacle until the display in Florence, which gave a great impetus to the industry. The first really magnificent spectacle of this kind in England was in celebration of the peace of Rywick in 1767, when the display cost \$60,000. Since the beginning of the United States fireworks have been largely used on Fourth of July celebrations, and with such disastrous effects that stringent laws have been passed regulating their manufacture, sale and use.

THE WEATHER.

Maritime—Moderate to fresh winds; showery, not much change in temperature.

Toronto, April 11.—Showers have occurred today in the Maritime Provinces but elsewhere in Canada the weather has been fine. It has been comparatively mild from the Great Lakes eastward and decidedly warm in the western provinces.

AROUND THE CITY

A Key Found.
A key found on Brussels street yesterday by Policeman Addison awaits the owner at Central Police Station.

Drunk and Profane.
Herbert Downey was arrested on North street Saturday about 6.30 o'clock on the charge of being drunk and profane.

Reported for Assault.
Policeman Addison has reported Robert Stafford for beating and assaulting Robert Stack on Brunswick street yesterday.

Found by Police.
A bundle of working clothes, found on Prince William street, and a pocket book found on Charlotte street, Saturday, by the police, can be obtained by the owners applying at Central Police Station.

Little Wanderer Found.
Saturday afternoon a small boy named Raymond Walsh was found by the police wandering about the South Market wharf and was taken care of by the officer until later on in the afternoon when he was handed over to his mother who resides on Duke street.

Special Musical Programme.
At the Sunday evening service of the First Presbyterian church of Carleton, St. John West, Rev. Dr. Morrison, the pastor, delivered an excellent sermon on "Pessimism and Optimism." There was a special programme of music. The choir rendered the anthem "Sun of My Soul," Allie C. Smith taking the tenor solo parts most acceptably. A hymn composed of Mrs. George Bailey, Miss Heales, Thomas Rippey and Allie C. Smith, were heard to advantage in "Some Day, Some Blessed Day."

The Feast of St. Joseph.
In the Roman Catholic churches of the city yesterday the solemnity of the Feast of St. Joseph was observed. In the cathedral at the seven o'clock mass His Lordship Bishop LeBlanc was the celebrant, and the members of St. Joseph's Society received holy communion in a body. In the evening the regular meeting of the Holy Name Society was held when Rev. Dr. Meahan delivered an interesting address on the history of the church. His Lordship Bishop LeBlanc officiated on Tuesday morning at pontifical requiem for the late Bishop Sweeney.

CRYSTAL STREAM CO. TO START ON RIVER TODAY

First of the Company's Boats Expected to Get Away this Morning—May go to Fredericton.

Although it was the intention of the Crystal Stream S. S. Company to have some of their boats running last week they have been delayed in making repairs and today will see the commencement of this company's steamship service for the season. The steamer D. J. Purdy which has been undergoing repairs at Market slip was taken through the falls on Saturday and brought to her wharf at Indian town. She will leave her wharf this morning on her first trip of the season and it is expected will be able to go as far up river as Fredericton. If, on account of ice, she is unable to make Fredericton, the Purdy will stop at Oromocto.

Tomorrow the steamer Majestic will make her first run up river when she will leave her wharf at 10 o'clock and proceed as far as Cole's Island.

The May Queen had planned to commence sailing last Saturday morning but she was unprepared to make the voyage. It is the intention of the company now to have her make her first trip of the season about the middle of this week.

TONIGHT'S CONCERT

Good Seats Remaining for "The Messiah" this Evening—Three Prices.

Tonight's concert has aroused great interest, and will doubtless be deservedly patronized. For those who have delayed in securing their seats there are still many good ones remaining, which should be called for early today. There are three prices, 75 cents and \$1 for reserved seats and 50 cents for the gallery. All the singers arrived in the city yesterday, thus giving opportunity for a full rehearsal, which proved most successful. Those who can make it at all convenient should miss this splendid musical event.

THREE FIRES SATURDAY NIGHT; ONE THOUGHT TO BE INCENDIARY

Much Damage Done in Upper Floors of Sutherland Building, Union Street — Two Horses Suffocated During Fire in McAlary & Company's Barn, North End — Small Fire in Peters' Tannery.

Three fires resulting in heavy loss Saturday night gave the firemen plenty of work. The first fire caused hundreds of dollars damage to the Sutherland building, Union street. The second fire was in McAlary's stables off Douglas Avenue and the third fire was in the Peters' tannery on Erin street.

It was about nine o'clock when the first fire was discovered and smoke was seen pouring out of the top floors of the Sutherland building. In a brief space of time the flames were seen coming from the rear windows of the flat occupied by Louis Cohen and Co., garment manufacturers. An alarm was sent in from box 2 and the department quickly responded.

It was hard work getting up to the top floor of the big building, and when the firemen reached the Cohen establishment the smoke was very thick and hot from the flames intense, but with hard work and plenty of water the firemen were soon able to get the fire under control.

Much Damage to Stock.

The Cohen company occupied the entire top floor of the building which at one time had been used as a shoe factory or a hall. The fire was confined to the eastern corner of the floor and the walls and woodwork about the windows were destroyed. The fire also burned the posts and ran along the ceiling to the front of the floor where there are a couple of dozen large sewing machines operated by electric power. The flames did not do much damage to the front of the building, but water and smoke caused considerable destruction.

In the rear portion of the floor was a great quantity of clothing being manufactured for local merchants and this was either destroyed by fire or damaged by water and smoke. Manager Cohen said that there was \$2,800 insurance on his stock and machinery. The damage done to his stock is large, but will be covered by insurance.

Lodge Rooms Damaged.

Directly under the floor occupied by Cohen are the rooms of the Ancient Order of Hibernians and although the men of the Salvage Corps did excellent service with their rubber covers and by removing furniture there was a great amount of damage done by water.

On the floor below the A. O. H. is the Irish Literary and Benevolent Society and there considerable damage was done by the deluge of water poured in the top floor.

On the ground floor of the building are James Hogan's liquor saloon, Cullinan and Sons' dry goods establishment and J. Joseph Mitchell's stoves, tinware and galvanizing store. The damage in all these stores were well covered by the Salvage Corps but the water did some damage. The building and the occupants are all insured.

It is not known what started the fire, but it is fortunate that it was discovered so early in the evening for had it gained much more headway the damage would have been very much greater.

It was while the firemen were at work on the Sutherland building that an alarm from box 125 was sent in for the fire in the McAlary stables on Douglas Avenue.

Thousands of people blocked Union street and the vicinity during the progress of the Sutherland fire and fire and watched with interest the work of the firemen.

BURGARS AT WORK AGAIN

Two North Wharf Establishments Entered on Saturday Night—Police at Work, but no Clue.

Even now with the attention of the community at large directed to prevent further robberies and although the sections of the city in which petty breaks and burglaries have occurred are now being carefully patrolled and under the strictest watch, every precaution being taken to safeguard the interests of the people, the men who have been carrying on the work of destruction continue to operate and succeed in eluding the authorities.

Early last Saturday evening the warehouse of the Imperial Oil Company, North Wharf, was broken open and entered from the rear, and an attempt was made to enter the warehouse of Philip J. O'Neill.

The thief, or thieves, tried first to force open the lock of the rear door of the Imperial Oil Company, and failing in that a window was broken and entrance made in this way. It is not known exactly how much was taken from the place.

In an attempt to enter Philip O'Neill's warehouse a large deal was driven against the door to force it open. In another door in the same warehouse the panel was broken in an attempt to secure an entrance, but to all appearances the thief was frightened away.

Fall White Leaving Car.

About eight o'clock Saturday evening Mrs. J. Sealy got off a street car the wrong way on Charlotte street, with the result that she fell heavily on the pavement and became unconscious. Four men carried her into Smith's drug store where she was attended to and revived, and was afterwards conveyed to her home in a coach. Other than a bruised shoulder and a severe shock she was not injured.

A "Wet" Sunday.

Four drunks were gathered in by the police on Saturday and the catch was thought to have been a rather good one, but they were pressed to be an alcoholic atmosphere in certain portions of the city and five drunks were gathered into the folds of the police and given a ride in the patrol wagon to the station yesterday afternoon.

FINE PARTY OF SETTLERS ON EMPRESS

One Hundred and Eighty Immigrants Arrive for Province

GATHERED IN ENGLAND THROUGH ADVERTISING

One Hundred More Coming and all will Locate in New Brunswick—Good Work of Flemming Government.

After a most successful propaganda on behalf of this province, A. Bowder, New Brunswick's immigration representative in Great Britain, arrived in the city on the Empress on Saturday morning accompanied by a party of about 180 new settlers who will locate in different parts of the province.

Through the progressive immigration policy inaugurated by the provincial government and which is being energetically carried out throughout the British Isles the tide of immigration to Canada is being diverted from the west and New Brunswick is now bestirring to receive her share of the newcomers.

That the claims of this province are being put before prospective settlers in Great Britain, and that, as presented through New Brunswick's representative, this province is appealing to the people on the other side is amply demonstrated in the large contingent which Mr. Bowder brought out on Saturday. Nor are these all.

There are in addition about one hundred more now on their way here to locate and before the close of the winter season the aggressive policy of the government shall have even more conclusively proved its value.

The party brought out on Saturday by Mr. Bowder will undoubtedly prove a valuable acquisition to New Brunswick as they are, all appearances, just the type of immigrant which will benefit the province. The majority of them are agriculturists of more or less practical experience, many of them able bodied, healthy unmarried men, others with grown up families.

Many of the party besides these qualifications have some means, the majority having defrayed their own passage expenses, while some of them start with sufficient capital to make a good start. A few of the number will take up farms under the Farm Settlement Board. Others are unskilled farm laborers. A few are mechanics who will work in or about this city. A considerable number will take positions on farms to acquire an acquaintance with local conditions in anticipation of taking up farming on their own account.

The arrival of the party at this season of the year is most opportune and will be most welcome to the farmers of the province who are looking for assistance for the spring and summer work. The party was gathered from different parts of the British Isles, with the significant fact that New Brunswick is being advertised more extensively than ever before, and with an even greater campaign such as is to be followed out in future.

The province is assured of an increased number of new settlers of the most desirable class during the coming year.

The party were met at Halifax by W. W. Hubbard, superintendent of the Dominion Experimental Farm, J. B. Dagget, Secretary of Agriculture and James Gilchrist, Provincial Superintendent of Immigration. The greater number of the newcomers have been placed and left for their destinations on Saturday and as the demand for help is large it is expected to have the others placed within a few days.

HENDERSON & HUNT'S STORE WILL NOT OPEN TILL TWO O'CLOCK THIS A.M.

We find it necessary to keep the store closed for two hours this morning to enable us to get the stock straightened out after an enormous business day. Saturday witnessed some records go at the store. Of course we expected a big day, but the way the public responded to our call to this mutual benefit is certainly gratifying. It means that our efforts to give the people the benefit of our lucky buy is appreciated. Every one of our fifteen salesmen was kept on the jump from early morning till six o'clock, when we had to close the store for one hour to replenish the bargain tables. The rush started again at 6 o'clock and kept up until 11, rounding out the biggest day in the life of the store.

To the many who came that we could not wait upon, we ask for another chance and promise proper service and values as good as on Saturday. Store opens today at 10 a. m. and closes at 8 p. m. Henderson and Hunt, 17-18 Charlotte street.

Another large body of agricultural settlers will be arriving here during the next ten days, married couples and single men. Farmers wanting help, phone or write James Gilchrist, 4 Church street.

Exquisite Pattern Hats.

Exquisite pattern hats, just received from New York, form the centre of attraction at the Mary Millinery Co's showrooms today. The new arrivals are said to be the finest shown here this season, and in view of the high grade of materials and ultra stylish patterns, are splendid values at the prices marked.
