WHAT IS LOVE.  
What is love? I asked a maiden,  
Beaming bright in beauty's sky.  
Love she knew, and with it laden,  
Wore the arrows in her eye.  
Blushes soft came o'er her stealing,  
Low her words of music fell:  
'Love's a strange delicious feeling,  
What it is I cannot tell.'

What is love? I asked a mother,  
Bending o'er her first-born child;  
O! the bliss she could not smother,  
As she looked at me and smiled.  
Something holier than pleasure—  
Laid the fire within her eyes,  
God had given her a treasure,  
And she loved the holy prize.

What is love? I asked the glory  
Of my household and my life,  
When in after years the story  
Of my passion won a wife;  
Deep in mine her glances glowing,  
Bathed with love and golden glees,  
While her arms around me throwing  
Kisses sweet she gave to me.

What is love? O, brightest angel!  
Wilt thou not thy self unfold?  
Lo! I feel thy soft avowal  
Sur the waters of my soul;  
Love is joy divinely given,  
To the souls of earth again,  
Binding heart to heart and heaven,  
With God's own electric chain.  
[Waverly Magazine.]

THE WORLD'S FAIR.  
We take the following from the New-Brunswick, which says that the London Times speaking of the Great Exhibition, thus notices our Province:—  
"We see no specimen of Coal from Canada, and if the absence of such correctly leads us to conclude that no basin of that mineral has yet been discovered in the province, we may assure the Canadians that they will some day be made aware of the importance of connecting themselves more closely with New Brunswick and Nova-Scotia, where this mineral is abundant. Without cheap fuel, of strong quality and small bulk, the processes of smelting, forging, and raising steam can be carried on only to disadvantage, and the industry of Canada must be exercised principally on raw material, until she puts herself in a position to command a good supply of that all powerful stimulator—coal."  
The finest province of New Brunswick has not been entirely idle, amid the general excitement, to contribute to the show of industry of all nations; but this is all that we can say, inasmuch as the samples of iron, manganese, plumbago, and pitch coal, which compose her entire list of mineral specimens, are most paltry as an index of the mineral wealth which really exists in that fine Province. New Brunswick is somewhat larger than Ireland; the greater part of her soil is fertile, and is covered with fine forests. Two-thirds of her boundary line are formed by the sea; and, as a consequence of these conditions, the energies of her inhabitants have been absorbed by timber-cutting, and by fisheries. She possesses, however, vast stores of coal, of iron, and of stone, applicable to building and to the arts, and as soon as the temptations of lumbering (cutting timber) and fishing on the small scale, diminish before the advance of population, and the demand for produce of more skilled labour, then will the star of New Brunswick take its place amid the more solid and valuable jewels of the chancel which adorn the brow of our Imperial Victoria.

SIMPLICITY OF DRESS.—Female loveliness never appears to a good advantage as when set off with simplicity of dress; and our dear human angels, if they would work the title to that name, should carefully avoid ornaments, which properly belong to Indian squaws and African princesses. These tinies may serve to give effect on the stage or on the ball room floor, but in daily life there is no substitute for the charm of simplicity. The absence of a true taste and refinement or delicacy cannot be compensated for by the possession of the most princely fortune. Mind measures gold, but gold can not measure mind. Through dress the mind may be read, as through the delicate tissue of the lettered page. A modest woman will dress modestly. A really refined and intellectual woman will bear the marks of careful selection and taste.

Pius IX. was recently presented, at Rome, by one of the nuns of the Ursuline Convent, Corch, with a "beautiful roset," worked by a pupil aged ten. His Holiness accepted the gift, expressing his intention to wear it, and his desire that the manufactures of Ireland may flourish.

## THE MEETING OF CATHOLICS IN DUBLIN: RIOTS, &c.

The aggregate meeting of the Catholics of the United Kingdom was held in the Rotunda at Dublin, on Tuesday, and led, as was expected, to several scenes of violence. All business was suspended, the ships in the river were decorated with flags, and large bodies of police (some of them from London) were posted in different parts of the city. The day previous several cases were heard before the police magistrates, relative to the posting and defacing of placards. The agents of the Protestant Association issued a placard against the assumption of the ecclesiastical titles by the Catholic archbishops. The Catholics presented these bills from being posted, upon which the Rev. Mr. Gregg proceeded to post them himself. He was hereupon stoned by the crowd, and had to drive off as fast as possible. The cases were dismissed, with advice from the magistrates to both parties.

The platform of the Rotunda was filled by members of parliament and clergymen of the Catholic persuasion, and a large number of ladies filled the reserved seats. Shortly after eleven o'clock the Rev. Dr. Cullen, accompanied by the Roman Catholic bishops, Mr. Reynolds, M. P., Mr. Sadler, M. P., Mr. Keogh, M. P., and several leading members of parliament, entered the room, and were received with loud and deafening cheers. Upon the motion of Mr. Keogh, Dr. Cullen was called to the chair.

The Rev. Dr. Cullen said that the people of Ireland should defend their rights and lay down their lives for the salvation of their souls. (Cheers.) The present was a grand manifestation of the Catholic feeling of Ireland, and he was sure they need not say that that manifestation had been forced upon them—(hear, hear!)—by the unexpected event which took place some months back, and which so dearly affected their religion. He congratulated them upon the attendance they had from all parts of the empire; they had bishops from England, Scotland, and America attending there that day to join with them in defending their rights. (Cheers.) The Rev. gentleman then alluded to the manner in which their religion was represented in the Imperial Parliament. They should have their bishops and archbishops in Parliament; men who would understand their duties as representatives of the people, their duties towards the poor, and who would act accordingly.

After the transaction of some business connected with the meeting, Mr. Sadler, M. P., read the requisition calling the meeting, which he said was signed by thirty-five Catholic prelates, thirty-one peers and sons of peers of the United Kingdom, ten barons, thirty-three members of Parliament, one hundred and fifty-five justices of the peace, and several thousands of the Catholic clergy and laymen of the country. It next became his duty to read a letter which was addressed to the Archbishop of Armagh by Cardinal Wiseman. (Loud cheers, which lasted for several minutes.) The learned gentleman then read a lengthened letter from Cardinal Wiseman, which stated that such an association was necessary, and entirely co-operating with its purpose. The letter was signed "N. Card. Wiseman."

THE RIOTS, &c.  
At ten minutes before eleven o'clock the Rev. T. D. Gregg left Morison's Hotel, accompanied by Mr. Henry Cooke, Mr. Shea, and Mr. Walbrock, in a carriage and pair, for "The Aggregate Meeting of Catholics." In a short time his carriage was recognised, and attracted a mob who ran after it. Arriving at the gate leading into the Rotunda, the Rev. gentleman and his friends, alighted amid the deafening applause of their friends, presented their tickets and demanded admittance, which was refused by the Rev. T. D. Gregg on this said, "Then I pronounce your meeting a packed meeting of Papists, and not Catholics, in which is violated every principle of law and order." Mr. Henry Cooke: "And I do the same."  
Mr. Gregg and his friends then returned into their carriage, the windows of which were instantly shivered, while the coachman was struck with a stone, which injured him severely in the jaw. However, the carriage succeeded in driving off amid a volley of stones, and proceeded up Great Denmark street, followed by an immense mob of coal porters, to Mountjoy square West, the house of Mr. Shea, at which point their pursuers were completely distanced. After a short stay there the Rev. gentleman proceeded to Kingstown. The police arrangements, it is said, were so inorganic, that had it not been for the speed of the horses, the inmates of the carriage would in all probability have been murdered; and a bloody track might have taken place between the opposing parties.

## EUROPEAN INTELLIGENCE.

The Europa arrived at Halifax on Monday evening, with the Mail of the 6th inst. The English papers contain scarcely any political news, but the discovery of an immense Gold Field in Australia, has afforded them abundant matter. This Field is said to be about 150 miles from Sidney and to extend over a very large tract of country. The town of Bathurst and surrounding districts were greatly excited and the inhabitants were rushing in crowds, to the digging. The clipper yacht America has been purchased by Capt. de Blaquiere, of the Indian Army, for seven thousand pounds sterling. He is about immediately to start on a voyage of pleasure to the Mediterranean.

The exports of British and Irish manufactures for the seven months ending the 5th August exceeded in amount those of the same period last year by £2,703,084. Sixty persons had been arrested in Paris in consequence of the discovery of a conspiracy against the Government; they belonged to Ledu Rollin's party. Subsequent arrests continued to be made, among them were several persons of note. It is now officially announced that the Prince de Joinville will be a candidate for the Presidency. The state of Naples and indeed the whole of Italy is becoming daily more uneasy. Very great excitement has been created throughout the whole of Europe by the promulgation of two decrees by the Emperor of Austria, declaring that his Ministry are henceforth responsible to no other political authority than the Throne. The very forms of Constitutional Government are abolished, and future decrees are to be countersigned "By His Majesty's Most High Command," with the formula "after having heard my Cabinet."

The story of the expulsion of Mr. Warren (American Minister) from the Austrian dominions has been contradicted by the London journals. The news from England is of little importance. The Queen was to pass through London on the 27th of August, on her way to Scotland, and much wail as well as merriment has been caused by the refusal of the Vestry of St. Paul's Church, to put a road into a fit state for use, in time for Her Majesty to pass over it to the railway station. The Scotch courtly informed the Queen that the road would be closed on the day named, and consequently Her Majesty could not pass over it. The Queen is to visit Liverpool and Manchester, on her return from Scotland.

Professor Liebig, the celebrated German, known for his great proficiency in chemistry, has written a series of 'Chemical Letters,' which have been translated and published in England, in which he makes a partial defence of the old Alchemists who spent their lives and fortunes in the vain attempt to discover the 'Philosopher's Stone.' The Professor thinks that in this age, men are too much disposed to regard the views of the disciples of the Arabian school of Alchemists on the subject of transmutation of metals, as a mere hallucination of the human mind. But, he says, "many of the fundamental or leading ideas of the present time appear to him who knows not what science has already achieved, as extravagant as the notions of the alchemist. Not indeed, the transmutation of metals, which seemed so probable to the ancients, but far stranger things are held by us to be attainable. We have become so accustomed to wonders that nothing any longer excites our wonder. The Philosopher's stone, for which the ancients sought with a dim and ill-defined impulse, was in its perfection, nothing else than in the science of chemistry. Is not that the philosopher's stone which promises to increase the fertility of our fields, and to insure the prosperity of additional millions of mankind? Does not chemistry promise that, instead of seven grains we shall be enabled to raise eight or more on the same soil? Is that science not the Philosopher's stone which changes the ingredients of the crust of the earth into useful products, to be further transformed, by commerce, into gold? Is that knowledge not the Philosopher's stone which promises to disclose to us the laws of life, and which must finally yield to us the means of curing diseases and of prolonging life?"

The Professor after enumerating many of the great discoveries of the age, speaks of man in the following manner, which, to say the least, is piquant enough. Science, says the Professor, has demonstrated that man, the being who performs all these wonders, is formed of condensed air (or solidified and liquefied gases); that he lives on condensed as well as uncondensed air, that he prepares food by means of condensed air, and by means of the same agent, moves the heaviest weights with the velocity of the wind. But the strangest part of the matter is, that thousands of these tabernacles formed of condensed air, and going on two legs, occasionally, and on account of the production and supply

A LUCKY PURCHASE.—At Tours there lives an old man who has a wife—I do not state this as a feature peculiar to Tours, or to this man, but as a necessary preliminary to what follows. The husband bought a pair of pantaloons of a soldier, and when he had worn them out, the wife unsewed them, in order to utilize them as a bed quilt or window pane; in one of the seams, she found a note on the bank of France for 1000 francs. The old man, supposing it to be an assignat of the republic, and utterly valueless, passed it upon a brick in the wall. A visitor informed him of his error, whereupon he cut the brick out of its solid bed, and carried it bodily to one of the principal bankers. The note was too closely attached to be removed, but it was evidently good, and was cashed on the spot. The old gentleman was so overjoyed, that having come to the bank with a brick in his pocket, he probably went home with one in his hat.

THE GARROT.—The garrote, by which Lopez was executed, is a mode of punishment peculiar to Spain and Mexico. Death is caused by strangulation, the victim being placed in a chair, with a post behind, to which is affixed an iron collar with a screw; this collar is made to clasp the neck of the criminal, and drawn tighter by means of a screw, until life becomes extinct. Death is almost instantaneous—quicker, it is said, than by the guillotine, or any other mode of execution. "Full Inside."—The Lowther Arcade, in wet weather is always crowded with ladies waiting for conveyances. A facetious conductor of our acquaintances calls it "The Haunt of the Rein Deers."

## LAW RESPECTING NEWSPAPERS.

Subscribers who do not give express notice to the contrary, are considered as willing to continue their subscriptions. If subscribers order the discontinuance of their papers, the publisher may continue to send them till all arrears are paid. If subscribers neglect or refuse to direct their papers from the office to which they are directed, they are held responsible till they have settled their Bills, and ordered their papers to be discontinued. If subscribers remove to other places, without informing the publisher, and the paper is sent in the former direction, they are held responsible.

REMOVAL OF THE COLLECTOR OF NEW ORLEANS.—A despatch from Washington states that the President has removed the Collector at New Orleans, for allowing the Paupers to depart with Lopez and his party to Cuba.

VACANT SEATS.—In a recent debate, the Solicitor-General (Mr. W. Page Wood) said: "With regard to keeping the seats empty after service had begun, no person had a right to do so, whether they were paid for or not. He knew a case in which a person holding a pew in church objected to having any person admitted into his pew, and used to put a padlock upon the door, and come himself after the service had begun. The clergyman, however, had the padlock taken off, and put persons into the pew, when it was empty at the commencement of service, and he was upheld by the Courts in that course."

## NOTICE TO THE PUBLIC.

A SUPPLY OF POSTAGE STAMPS has been received from England, and will be on sale at this Office on FRIDAY next, the 6th September. They are of the respective colors and values as under, viz:—  
Black—Three Pence.  
Yellow—Six Pence.  
Pink—One Shilling.  
Supplies will also be immediately forwarded to all Postmasters throughout the Province, and through them to the Way Office Keepers, in whom the Public will be able to obtain them at cost prices, in any quantities they may require. N. B. The postage stamps should be affixed to the face, or reverse side of the Letter, on the Right hand upper corner.

GENERAL POST OFFICE,  
St. John, 1st September, 1851.

## Meeting of Courts.

The Courts of General Sessions of the Peace and Common Pleas, for the County of Charlotte, will sit at the Court House in St. Andrews, on Tuesday the 16th day of September next, at 12 o'clock. The Courts of Oyer and Terminer and General Jail Delivery and Nisi Prius for the said County will be held at the Court House in St. Andrews, on Tuesday 4th day of November next, at 12 o'clock. At which time and place all Magistrates, Coroners, and Constables of said County, and all persons required to be at those Courts, are hereby Publicly Notified to give their attendance. By Order of Her Majesty's Justices, THOS. JONES, Sheriff of Charlotte. St. Andrews, August 27, 1851.

## Steamer Nequasset.

THE STEAMER NEQUASSET, Capt. CAREY, having been put in thorough order, has begun commencing her usual daily trips between Eastport and Calais, touching at St. Andrews and Robbinston both ways. She connects with the Steamer ADRIAN, now plying between Boston, Eastport, and St. John on Tuesdays and Fridays, and further notice. Family Tickets for the Season may be had on application to ROBERT KER, Agent.

## FOR SALE.

THE lot of Land and premises, with the Cottage thereon, situate on Princess Royal Street in the Town of St. Andrews, formerly occupied by John S. Jarvis. For terms of sale and other particulars apply to GEORGE D. STREET.

## REMOVAL.

DR. BAYARD, Has removed to the House formerly occupied by Mr. Sloan, situated between the stores of Messrs Dimock & Wilson, and Odell and Turner. St. Andrews, Oct. 22, 1850.

## London Porter and Pale Ale.

Just received:  
67 BELLA BYSS, London Porter and Pale Ale (Quarts and Pints)  
2 Hills Stout,  
1 do Pale Ale.

PHILIP WALTON,  
AND COPPER

FROM LATE ENGLISH PAPERS BY THE EUROPA AT HALIFAX.

Her Majesty and Prince Albert, with the Royal children, accompanied by Lord John Russell and a distinguished suite, occupying eight carriages, left Buckingham Palace on Wednesday, 27th of August, by the Great Northern Railway, for Balmoral. The Royal party remained at Doncaster during the night, and reached Edinburgh on Thursday afternoon. On Friday morning they arrived at Balmoral. The most enthusiastic loyalty marked the progress of Her Majesty throughout the whole journey.

Next day, Her Majesty and His Royal Highness Prince Albert were much amused by the receipt of intelligence that His Royal Highness Prince Ferdinand of Saxe-Coburg-Gotha died on the 27th ult. The deceased Prince was the uncle of Her Majesty and His Royal Highness Prince Albert, the brother of the Duchess of Kent and the King of Portugal, and the father of the King of Sardinia. Her Majesty and His Royal Highness visited the Duchess of Kent at Abercrombie, soon after the receipt of the mournful intelligence, and dined in private with Her Royal Highness at Abercrombie in the evening. On Sunday, Her Majesty and His Royal Highness Prince Albert attended divine service at the Parish church of Craibie. The service was performed by the Rev. Mr. Anderson. After service, the royal party again visited the Duchess of Kent, at Abercrombie. On Monday, Her Majesty and His Royal Highness Prince Albert, accompanied by Prince Alfred, drove to the Baller's Hall.

The Duke of Saxe-Coburg-Gotha recently deceased, was a general of cavalry in the Austrian service. Further arrests have been made in Italy, and the number of prisoners is reported to be 125. A general Socialist revolution is the object of the conspirators. There is little or no excitement of the subject in Paris. It seems certain that the Prince de Joinville will stand for the Presidency, although such intention is considered highly injurious to the country, and will have fatal effects on the interests of the Orleans branch.

The London Exhibition.—Mr. R. N. Riddle gives an interesting account of the labours of the World's Fair Committee of Award. He says, that in the matter of awards, whether of money or medals, and in the matter of favourable notice in the reports, there is no foreign nation represented which, in proportion to the number of its contributions, will stand better when the results shall be known, or appear higher, more successful, or more honorable ground, than the United States.

In the report of awards made by the agricultural implement jury, the plough of Messrs. Prouty & Moffatt, Boston, received the medal. This, when it is considered that the ploughs from all the foreign nations were tried at the same time, is no small honor. The reaping machine of Mr. A. C. Cornick, of Chicago, received the great medal. This medal is awarded only where there is in any article the successful introduction of a new principle into the useful arts; and to this respect alone, of all that is shown in the foreign departments, is the honor of having received its itself the great medal.

The London Chronicle says that Mr. Steers, the builder of the yacht America, has already received orders for three yachts for English gentlemen, and that many of the English yachts are to be lengthened and otherwise Americanized.

In Birmingham, a Hungarian woman, styling herself Baroness Von Deckhut, said to be of flow origin, and a spy in the employment of Austria, was brought up in the police court, and dropped down dead in the audience.

It is proposed to reduce the entrance fee to the great Exhibition to sixpence. The average receipts are now about the same as last month ago.

The potato disease is said to be making great ravages in France, particularly in Marne.

In Spain the continued seizure of opposition journals, is almost the only thing to note.

The Duke and Duchess of Norfolk have become converts to Protestantism.

The Pope is about to erect the city of Hamburg into a bishopric.

Mr. Philip Scott, of Queenstown, has been selected by the Greek government as consul for that country in the port of Cork. This is the first instance of a consul for Greece being appointed for that port.

The Cunard Company have contracted at the Clyde for four powerful iron screw steamers, but for what service is not known.

A destructive earthquake has occurred near Naples, burying seven hundred persons in the ruins, and wounding about two hundred more.

FRANCE.—A report is current that an expedition is about to be sent from France into the sea of Japan. It is said that it will consist of a frigate, a corvette, and a steamer, under the orders of a rear-admiral. This expedition will be at once military, commercial, and scientific; and has for its object to open to European commerce, States which have been closed against it since the 16th century.

There was a rumour at Vienna on the 21st ult., that Russia had despatched a sharp note to Constantinople, warning the Porte not to liberate Kossuth or his companions, without the consent of Austria.

The last steamer from England brings the official notification, in the London Gazette, of the confirmation of the appointment of the Hon. R. D. Wilton, J. H. Gray, and G. Hayward, to the Executive Council of this Province.

Foreign Affairs.—The "rush" across the Atlantic shows no sign of subsidence. On Friday 400 emigrants sailed from Waterford for Liverpool, and on the day following another vessel left the same port, freighted with a human cargo bound for the New World. On Saturday the Naiad left Cork for Liverpool, with between 300 and 400 emigrants on board. The Dominion sailed the same day, freighted with 100 emigrants, and the Indus, for the same place, with 200. The entire passenger list for the latter vessel, were the tenants of the Manors of Londonderry, who has paid their expenses out, and made provision that on landing they are to be supplied with money to defray their expenses to the interior.

Criminal Statistics.—The returns of the criminal offenders in Scotland for the year 1850 have just been issued by His Majesty's Advocate. In the total number of criminals and convictions there has been a decrease, but not more than can be accounted for by the decrease of the population, and the number of juvenile offenders has decreased more than a third. This gratifying feature in the records of juvenile crime may be traced to the operations of industrial reformed schools, which had their origin in Scotland.

Retiree Admiral Lord John Hay died at Stokes on the 26th ult.

The weather in England, Scotland, and Ireland, had been sunny and yet at intervals, but the crops in the three countries were promising enough—the potato had been only trivially injured by the blight.

The Paris Gazette.—A letter from Rome, in the Univers, states that the city was thrown into great excitement on the 26th ult. by the chambers of Stungo, a member of the superior officials of the Secretary of State, being taken up by the police, and immediately arrested. It is also stated that the chambers of Stungo, a member of the superior officials of the Secretary of State, being taken up by the police, and immediately arrested.

The same correspondent states that an attempt had been made to assassinate the Count Dandolo on the 26th ult. The count is a general and director of the police, but the attempt struck the top bone and caused but a slight wound.

Public Meetings.—An expedition to the North Pole, under the command of Mr. W. W. Phelps, is expected at Vienna. The object of the expedition is to reach the North Pole, and to return to the United States.

Her Majesty's Ship Reynard.—Intelligence has been received by the overland mail of the total loss of Her Majesty's steamship Reynard, which was wrecked on the 26th ult. Her Majesty's ship Reynard, being under orders for England, was coming, provisioning, and returning, to the United States.

When the Reynard was wrecked, the total loss of the ship, and the crew, was estimated at £100,000. The ship was carrying a cargo of provisions, and was bound for Liverpool.

The ship then struck with tremendous force, all hands were lost, and the crew were scattered in all directions. The ship was wrecked on the 26th ult.

The very calmness of the night had proved her destruction. Had there been the slightest wind, the ship would have been driven to the rocks, and the crew would have been saved.

On the contrary, the sea was like glass, and the water as blue as the sky. But this lasted but for a few minutes. As the tide fell, the ship, and the ship's company, were scattered in all directions.

The ship then struck with tremendous force, all hands were lost, and the crew were scattered in all directions. The ship was wrecked on the 26th ult.

wood, and a number of them were of little value. [New Brunswick.]

THE STANDARD.

ST. ANDREWS, WEDNESDAY, SEPT. 24, 1851

Our latest English dates are to the 6th inst. by the Europa at Halifax. On our first page we give the principal news of the day by this arrival. The revenue of the country appears in a prosperous condition, amounting to an excess of £2,703,984 on the seven months to 5th August over the same period last year. The Queen had left London on a visit to Scotland. The Crops were good—and but for a few days of frost, the potato crop would have been a bumper crop.

The "aggregate Meeting" held in Dublin, on the 23rd inst., was a success. It was presided over by the Rev. Mr. [Name], and was attended by a large number of persons. The meeting was held in the evening, and was a most interesting and profitable one.

The Great Railroad Jubilee at Boston. We give below a condensed account of the three days' celebration at Boston, which was witnessed by a number of the most distinguished persons of the day.

The celebration commenced on Wednesday last the 17th inst. The President of the U. S. arrived in the city about 11 A. M., accompanied by the heads of Departments from Washington; a delegation sent by the Governor, received him, and he was escorted to the Revere House by the Mayor and City authorities. The streets were decorated with flags and mottoes, the stars and stripes uniting in close embrace with the flag of Old England. After partaking of a lunch the President was escorted to the State House, the streets being filled with strangers from all parts of the Union, Canada, New Brunswick, and Nova Scotia. At the State House the President was presented to the Governor, who addressed him in appropriate terms; to which the President made a suitable reply. A grand review took place on the common, the military guests from Canada were present.

The President expressed himself highly pleased with the military display, as did also the officers from Canada. In the evening, the Corporation dinner was given at the Revere, at which some of the Canadian government, the British military officers, Sir Allan Napier, and other distinguished persons were present, and made excellent speeches.

On Thursday the President and suite, and the city guests from Canada, and the other British provinces, went in six steamers, with a band on board each vessel, for an excursion to the capacious harbor. The President's party embarked on board the new steamer S. S. Lewis, after excursion over the Grand Junction Railroad. When the train crossed the line between Chelsea and East Boston, it was saluted by a discharge of cannon, and a handsome arch was erected, bearing the inscription

"Boston and the Canadas united by bonds of iron" and on the reverse "Union is Strength" after a pleasant excursion, the party returned to their respective hotels.

At about five o'clock, Lord Elgin and suite arrived at Boston and Worcester railroad station, where he was received by Mayor Bigelow and the civic authorities. After an address from the mayor welcoming his Lordship, to which he made an appropriate reply, his Lordship and suite entered carriages, and were escorted to the Revere house; the streets were lined with spectators who loudly cheered Lord Elgin. Levees were held by some distinguished individuals, and a large military ball which was attended by the distinguished visitors from Canada, New Brunswick and Nova Scotia. This closed Thursday's proceedings.

On Friday the grand procession took place, which, for original display, was never excelled in Boston; an account of which occupies three columns of the smallest type in the largest Boston paper. Having marched through the principal streets, each department separated. The pavilion on the common was soon filled. In the centre of the dais sat the Mayor, on his right President Fillmore, on his left Lord Elgin, on the left of Lord Elgin sat Hon. W. Crampton, with a host of distinguished persons on either side.—New Brunswick and Nova Scotia were well represented; we observed Hon. Admiral Owen, Capt. Robinson, R. N., Col. Hennessy, John Wilson, Esq., Julius Thompson, Esq., A. L. Light, Esq., Hon. Joseph Howe, Hon. Wm. Young, and others whose names we do not remember. Speeches were delivered by President Fillmore, Hon. A. N. Stuart, Hon. Mr. Conrad, Lord Elgin,

and the Rev. Mr. [Name]. The procession was a most interesting and profitable one, and was witnessed by a large number of persons.

wood, and a number of them were of little value. [New Brunswick.]

THE STANDARD.

ST. ANDREWS, WEDNESDAY, SEPT. 24, 1851

Our latest English dates are to the 6th inst. by the Europa at Halifax. On our first page we give the principal news of the day by this arrival. The revenue of the country appears in a prosperous condition, amounting to an excess of £2,703,984 on the seven months to 5th August over the same period last year. The Queen had left London on a visit to Scotland. The Crops were good—and but for a few days of frost, the potato crop would have been a bumper crop.

The "aggregate Meeting" held in Dublin, on the 23rd inst., was a success. It was presided over by the Rev. Mr. [Name], and was attended by a large number of persons. The meeting was held in the evening, and was a most interesting and profitable one.

CARD.

THE Subscriber respectfully returns his acknowledgments to those Ladies who have presented him, on their return from the pleasure trip, with a handsome Flag, for his vessel, with her name neatly worked in the centre. This genuine mark of favor, is the more highly prized by him, as the work of the fair daughters of St. Andrews.

JAS. McMASTER, Master of the "Fleet Mail" Sep. 10, 1851.

JUDSON'S CHEMICAL EXTRACT OF

CHERRY AND LUNGWORT, FOR THE CURE OF

Coughs, Colds, Hoarseness, Spitting of Blood, Night Sweats, Asthma, Liver Complaints, and CONSUMPTION.

DO NOT NEGLECT CONSUMPTION. Can be and has been cured in thousands of cases by this or any certain remedy.

JUDSON'S CHEMICAL EXTRACT OF CHERRY AND LUNGWORT, and is really the only remedy ever before discovered that will cure CONSUMPTION.

The most strikingly marked and developed cases of Pulmonary Consumption, where the lungs have become diseased and degenerated and the case so utterly hopeless as to have been pronounced by Physicians and friends, to be past all possibility of recovery, and at times thought to be dying, has been cured by this medicinal remedy, and is now as well and hearty as ever.

The compound of medicinal herbs which are peculiarly adapted to cure essentially necessary to the cure of

COUGHS AND CONSUMPTION. Inspiration is made, yet efficacious; it opens the phlegm which creates so much difficulty, relieves the cough and assists nature to expel from the system all diseased matter by expiration, producing a most beneficial change in the breathing and chest, and thus, after the prescriptions of the very best medical men and the inventions of kind suffering friends and Nurses, have failed to give the smallest relief to the Consumptive sufferer.

THOUSANDS OF CONSUMPTIVE persons have been cured in Europe and America which were said to be incurable cures, but which have proved entirely palliative, but a cure for altered lungs. It contains no deleterious drugs and one trial will prove its astonishing efficacy better than any assertions or certificates in curing consumption and all diseases of the lungs, such as Spitting of Blood, Coughs, pain in the side and chest, night sweats, &c. &c.

About 1000 certificates of almost miraculous cures, performed by this medicine, from some of the first Doctors, Clergymen, and Merchants, have been sent us for this medicine, but the publication of these looks too much like Quackery, [it will show them to any person calling at our office.] This medicine will speak for itself and enough in its own favour wherever it is put up.

Caution. - This medicine is put up in a large bottle and you must find the name of Comstock & Brother, Proprietors, New York, on the splendid wrapper around the bottle. All orders, must be addressed to Comstock & Brother, No. 9, John St., New York.

TO OWNERS OF AND DEALERS IN HORSES.

CARLTON'S FOUNDER OINTMENT. For the cure of Founder, Spilt Hoof, Hoof bound Horses, and contracted and Feverish Feet, Wounds, Bruises in the flesh, Galled Backs, Cracked Hoofs, Scratches, Cuts, Kicks, &c., on horses.

CARLTON'S RING BONE CURE. For the cure of Ring Bone, Blood Spavin, Bone Spavin, Windgalls, and Splints - a certain remedy.

CARLTON'S CONDITION POWDERS FOR HORSES AND CATTLE. The changes of weather and season, with the change of use and feed, have a very great effect upon the blood and sinuous fluids of horses. It is at such changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbedded, and which, if not attended to, will result in the Yellow Water, Leaves, Worms, Boils, &c. All of which will be prevented by giving one of these powders, and will at any time cure when any symptoms of disease appears, if used in time. They purify the blood, remove all inflammation and fever, loosen the skin, cleanse the water, and invigorate the whole body, enabling them to do more work with the same feed. The action of these powders is direct upon all the secretory glands, and therefore have the same effect upon the Horse, the Ox, the Ass, and all Herbivorous animals - all diseases arising from or produced by a bad state of the blood, are speedily cured by them. Remember and ask for CARLTON'S CONDITION POWDERS, and take no others.

CARLTON'S NERVE AND BONE LINIMENT FOR HORSES. and for the cure of all diseases of man or beast that require external application, and for contracted cords and muscles, strength of weak limbs, and is also used for sprains, bruises, saddle galls, swollen legs, sores of all kinds on horses.

CARLTON'S articles for Horses and Cattle are prepared from the recipe of a very celebrated English Farrier, and will cure in ninety nine cases out of one hundred any of the above complaints. They have been used by Farmers, every man, stage proprietors and others, with the most marked and decided success.

### SHERIFF'S SALES

to take place at the Court House.

Real Estate of William Porter Dec. 10 Do Wm Wynau Sep 27

To be sold at Public Auction, on Saturday, the 15th FEBRUARY, 1851, at 12 o'clock, at the COURT HOUSE, in St. Andrews.

ALL the right, title, interest, claim and demand whatsoever, of WILLIAM PORTER, of in and to the following properties, viz:

All that Lot of land situated in the Parish of St. Stephen's, conveyed by John Dunn to the said Wm. Porter, by deed dated 13th Jan. 1837, beginning at the Eastern corner of the lot upon which Aaron Upton resides, 147 feet from the corner of the street, making the angle of the Road leading from the Public Landing to the country Northwards, and the road leading down the river towards the Leige, thence running the extent of the site line of garden lot No 5, thence across the rear of lots No 5 and 6, thence on the back line to said Aaron Upton's lower line, thence on the line between the lot formerly owned by James Nicholson, and the said Aaron Upton, to the first named boundary, containing about one acre and a quarter.

All the Lot of Land in the same Parish, conveyed by Mary Nicholson to the said William Porter, by deed dated 13th September 1838 bounded South by the main street leading through St. Stephen towards Oak Point West by a lot owned and occupied by Aaron Upton, North by a lot belonging to the estate of the late Peter Christie, and East six feet from the house in which the said Mary Nicholson then resided, by the said lot purchased from John Dunn, containing one quarter of an acre.

All of those two lots of land in the same Parish, known as Lots No. 12 and 18 of the tract formerly belonging to Robert Pagan Esq, the said lot No 12 fronting on the Leige Road, and being 160 feet in width on the road, and 177 feet in rear, and 165 feet in length, the said lot No 18, fronting on a road 3 rods wide, laid off in rear of lot No 12, and extending back 165 feet to the line of N. Marks' land.

The Eastern half and front of a lot of land in the same Parish, in part occupied by Jas C Kirby.

All of that lot or parcel of land at the Leige, so called, in St. Stephen, formerly owned by the late Joseph Porter, and purchased by him from Michael Young.

All of that lot of land at the Leige, aforesaid, conveyed by Michael Young to the said Wm. Porter, by deed dated 3d of August, 1835, commencing at a road leading from the main road to Young's Point, and running at right angles with said road 120 feet, thence parallel with said road 160 feet to within 23 feet of Young's wharf, so called, thence parallel with said wharf, to low water mark, thence pass the end of said wharf up stream, until it meets the Eastern line of land formerly of Joseph Porter, deceased, thence following said line to the said road, thence along said road to the first mentioned bound.

All that Lot of Land at the Leige aforesaid, conveyed by the said Michael Young to the said Wm. Porter, by deed dated 27th January, 1840, on the south easterly side of a lane on the south easterly line of Lot No. 121, in the 5th Division of the Penobscot Grant, thence by said lane N. 45° 20', E. 17 rods and 23 links to the south side of a road 3 rods wide, running S. 78° 30' E. 1/4 rods to a stake and stones, thence S. 2° W. passing 35 feet from the north-east corner of Porter's Wharf, thence westerly by low water mark to the easterly line of said Lot, said to Porter, and following the several courses of the Lot easterly, northerly and westerly, to the lace of beginning, containing 3 acres.

All of that Lot of Land in the Parish of St. Stephen, conveyed by Thomas Hasty to Wm. Porter, by deed dated 31st July, 1832, being farm lot No 29 in the 2d Division, granted to James Fraser, in the grant to Joseph Porter and others, containing 100 acres.

And also all other real estate belonging to the said Wm. Porter, situated in the County of Charlotte, not included in the above list. The same having been seized and taken to satisfy an execution issued out of the Supreme Court, at the Suit of the President, Directors, and Company of the Commercial Bank of New Brunswick, indorsed to levy \$1150, 16s. 8d. besides Sheriff's Fees, &c.

THOS. JONES, Sheriff of Charlotte, St. Andrews, July 31, 1850.

The sale of the above mentioned property is postponed until Wednesday the 25th May next, then to take place at 12 o'clock at the Court House.

THOS. JONES, Sheriff of Charlotte St. Andrews, Feb. 15 1851.

The Sale of WILLIAM PORTER'S Properties is further postponed until Friday the 1st August next, at 12 o'clock.

THOS. JONES, Sheriff of Charlotte, St. Andrews, July 1, 1851.

The Sale of William Porter's Properties is further postponed until Saturday the 13th September next, at 12 o'clock.

THOS. JONES, Sheriff of Charlotte, St. Andrews Aug 1, 1851.

The sale of William Porter's properties, advertised to take place on the 13th September, is further postponed until Wednesday, the 10th day of December next, at 12 o'clock.

THOS. JONES, Sheriff of Charlotte, St. Andrews, Sep. 10, 1851.

To be Sold by Public Auction on Saturday the 27th day of September next at the hour of 12 o'clock, at the COURT HOUSE in St. Andrews.

ALL the right, title, interest, claim and demand whatsoever of WILLIAM WYMAN, of in and to the following Property, viz:

All that certain lot, piece or parcel of land commencing at the junction of the Western side of the Road leading from St. Andrews to St. Stephens, containing one acre and a half. Also, that lot commencing at the junction of the Eastern side of the Road from St. Andrews to St. Stephens near the Board Road, so called, containing one half-acre, more or less, being purchased from John Cotterill.

Also—A piece of land in Saint James, bounded South by the little Rolling Dam, and North by Barry's Rops, embracing land on each side of the Digues River, containing one hundred acres more or less, purchased at Sheriff's Sale.

The same having been seized and taken to satisfy an execution issued out of the Supreme Court, indorsed to levy \$162 16s. 6d with interest, besides Sheriff's Fees, &c.

THOS. JONES, Sheriff of Charlotte, St. Andrews, March 18, 1851.

HENRY BATES, Calais, June 24, 1850.

HEALTH where 'tis SOUGHT! Extract of a Letter from Mr. Matthew Harvey, of Chapel Hill, North-Carolina, dated the 15th of January, 1850.

Holloway's Pills. CURE OF A DISORDERED LIVER AND STOMACH, WHEN IN A MOST HOPELESS STATE.

Extract of a Letter from Mr. Matthew Harvey, of Chapel Hill, North-Carolina, dated the 15th of January, 1850. Sir—Your valuable Pills have been the means, with God's blessing of restoring me to a state of perfect health, and by a time when I thought I was on the brink of the grave. I had consulted several eminent doctors, who after doing what they could for me, stated that they considered my case as hopeless. I was a lost resource, and I was in a state of despair, when I received a box of your Pills, which soon gave relief, and by persevering in their use the some weeks together with rubbing night and morning your Ointment over my chest and stomach, and right side, I have by their means got completely cured, and in the most comfortable manner and every body who knows me, is signed) MATTHEW HARVEY.

CURE OF A CASE OF WEAKNESS AND DEBILITY, OF FOUR YEARS' STANDING. Extract of a Letter from Mr. Smith of No 5, Little Thomas Street, Gilsen Street, Lambeth, dated Dec. 24, 1849.

To Professor Hooley. Sir—I beg to inform you that for nearly five years I have known what it was to have a day's health suffering from extreme weakness and debility, with constant nervous headaches, and inability to move the stomach together with a great depression of spirits, I used to think that nothing could benefit me as I had been to many medical men some of whom after doing all that was in their power informed me that they considered that I had some spinal complaint beyond the reach of cure, together with a very disordered state of the stomach and liver, making my case even complicated, and I went on persevering in their use for six months, when I am happy to say they effected a perfect cure.

(Signed) W. H. SMITH, (frequently called EDWARD) CURE OF ASTHMA, OF TWENTY YEARS' STANDING. Extract of a Letter from Mr. J. K. Heydon 78 King Street, Sydney, dated 10th of November 1849.

To Professor Hooley. Sir—I beg to inform you that I have been afflicted by means of your Pills. One is that of a Lady residing near the "Rozelback," who after having for twenty years been much troubled with the highest exertion suffering very carefully from shortness of breath, coughing, and spitting, but is now, to use her own expression, able to run up to the top of that building, and in the case of Mr. Heydon, 78 King Street, who was so dreadfully afflicted that he was confined entirely to his bed-room for six months, prior to his commencing with your Pills, and who is now regularly by his medical man, who pronounced him to be in a dying state, yet he, unknown to my knowledge, has been restored to perfect health by the use of your Pills, and rubbing your Ointment night and morning into his chest.

(Signed) J. K. HEYDON ANTONISHING CURE OF THE EARL OF ALBOROUGH. By this Miraculous Medicine! after every other means had failed!

A Copy of a Letter from the Earl of Alborough dated 11th August, 1849, 21st Feb. 1845. Sir—Various circumstances prevented the possibility of my thanking you before this time for your politeness in sending me your PILLS as you directed, and for the opportunity of sending you an order for the amount, and at the same time, to add that your PILLS have effected a cure of a disorder in my Liver and Stomach, which all the most eminent Physicians at home, and over the sea, the Continent had not been able to effect; nay! not even the waters of Carlsbad and Marienbad. I wish to have another Box and a Pot of Ointment in case any of my family should ever require either.

I remain, with much respect, Your most obliged and obedient servant. (Signed) ALBOROUGH. TIME should not be lost in taking this Remedy for any of the following diseases:— Consumption Fits Rheumatism Tumours Asthma Debility Gout Retention of Urine Ulcers Bilious Complaints Dropsy Head-aches Sore Throat Venereal Affections Blisters on the skin Dysentery Indigestion Scrophulous or King's Evil Worms of all kinds Erysipelas Inflammation Bowel Complaints Female Irregularities Jaundice Stone and Gravel in the Gall Bladder Liver Complaints Secondary Symptoms Weakness from whatever cause Lumbago Constipation of Bowels Fevers of all kinds Piles The Diphtheria &c. &c. These Medicines in England are sold at 1s. 1/2 2s. 9d. 4s. 6d. 11s. 2s. 3s. each Box and Pot. There is a considerable saving by taking the large sizes.
