SUNBEAM LODGE AND LOCAL REBEKAHS ATTEND SERVICE

On Sunday afternoon, the Oddfellows and their sisters attended divine worship in a body.

The members of Sunbeam lodge and local Rebekahs, as well as a number of visiting brethren from surrounding sister lodges assembled at the lodge room. From the lodge room the members marched to the United Church, under the able marshaling of Bro. G. H. Vroom. Over 160 were in parade.

The church was filled to capacity, and the large audience had the pleasure of listening to a splendid service. The large choir was an exclusive lodge one, being made up of singers from the Rebekah and Oddfellow lodges. A beautiful duet was ably rendered by Harold Reagh and Norman Baker, like wise a quintette by Messrs Harold Reagh, John Reagh, Norman Baker, G. W. Crowe and

S. A. Grimm, with the latter taking the leading part.

Rev. Robert Miller was the preacher for this service and was assisted by Rev. W. D. Wilson. Mr. Miller took as his subject "Truth" and delivered a powerful sermon, bringing out clearly many points of what the truth is, how it should be applied and the result.

A million dollars was spent last year in advertising coffee. A lot of money, but it reaped a harvest, for the average per capita consumption of coffee was increased eighty cups a year at an advertising cost of less than one cent per capita. A famous soup canner's advertising expense runs to enormous figures. But before he started to advertise his sales cost him 20 per cent. Today it is 5 per cent. A cents worth of advertising sells him six cans of soup. Advertising pays both buyer and seller—the buyer in smaller costs, the seller in increased production.

Let every man think for himself. Let him call a conference of his powers, his common sense in the chair, his desires and his knowledge of things as they are pleading the case before him. Let every man be his own judge.

Make Care of Babies Easier

Stomach disturbances and constipation are responsible for much of the peevishness of babies and young children. When the baby is cross or irritable the mother should not resort to so-called soothing mixtures to correct the trouble for in the majority of cases these mixtures simply drug the child into an unnatural sleep. What is needed is a gentle laxative that will sweeten the stomach and regulate the bowels. Such a remedy is found in Baby's Own Tablets. They are easy to take and are guaranteed to be entirely free from opiates and narcotics. Concerning them Mrs. Joe. Toussaint, Ste. Sophie's Que. writes:—"I would like all mothers to know that I fed there is no other medicine to equal Baby's Own Tablets. I always keep a box in the house and their prompt use never fails to restore my little ones to health." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

MYSTERIES ARE VALUED AT BILLIONS

What are things? Everybody knows and nobody can tell about these mysteries that are valued at billions of dollars. The word thing is one of the most common in the speech of many peoples. There are 11,000 important references to it in the Bible. One standard dictionary uses seven and one-half columns of fine type to try to define the word thing. It uses eighteen main distinctions of meaning and dozens of subdivisions.

What are things worth? Nobody knows. A rough estimate of the wealth of nations varies from a thousand billions to fifteen hundred billions of dollars.

Where do they come, all these mated things that come from one hundred and thirty-nine different countries or ports? They may come from the air, the latest source of mysteries.

In the United States alone 300,000 industrial plants use forty billion dollars' worth of world-wide materials to make things for American comfort and convenience or to resell abroad, according to the National Foreign Trade Council.

How many things are used? Nobody knows. Things are accumulating so fast in the United States that there can no longer be any record of their number or their use. Each generation has new uses for old things.

The United States War Supplies for the last war year contained 120,000 separate items, involving millions of things and billions of values. One of these was coconut shells. Coconuts were originally used for food by natives of tropical countries, and by monkeys to hurl at unwary visitors. Later a hundred million pounds yearly came to be imported into the United States for a half-dozen food uses. Then the United States Army used coconut shells in making absorbent charcoal for gas masks.

Cotton is a thing, a flower, a nothing. One hundred and thirty years ago it was maintained in the United States Congress that it was a non-productive plant for Americans. In this war catalogue of 120,000 items, cotton played a chief role. Thousands of factories were kept busy using cotton to make underwear, tents, sheets, socks, tire materials, smokeless powder, hospital absorbent cotton, twine, haversacks.

There are two hundred and nine listed articles made of cotton by American factories. There are probably 10,000 different uses of cotton. Silk was once limited in its uses. Today there are 125 common uses and kinds of natural and artificial silk.

Wood once had a few primary uses for the making of spears, or canoes, or as firewood, then for houses. Today there are listed 105 uses of wood. Under the word fibre, without respect to kind, there are ninety-one classes and kinds, ranging from shoe strings to plumes.

WILL OPEN BRANCH OFFICE IN HALIFAX

Manufacturers Life Reports Increasing Business—Appoints New Manager for Nova Scotia.

O. P. Goucher, Middleton, N. S., appointed Manager of the Manufacturers Life Insurance Co. for Nova Scotia.

On account of increasing business in Nova Scotia, The Manufacturers Life has decided to open a Branch Office in Halifax. This Company is one of the largest Insurance Companies of Canada and has operated in Nova Scotia for over thirty years, through a Maritime Agency in St. John, N. B. The establishment of this Branch Office in Halifax under the direction of Mr. Goucher, will be of much interest not only to his friends, but to the large number of policyholders in this province as well.

Mr. Goucher started his insurance career about twenty-five years ago, taking over the general agency of the Manufacturers Life for Western Nova Scotia. Since that time he has not only developed into one of the leading men in the insurance business, but has reached out and become one of the outstanding men in many branches of the life of the Province. He has been interested and taken an active part in the religious work of his denomination, having been sought out and his sound judgment asked for at many times. He is at present a member of the Board of Governors of Acadia University, which position he has held for almost a decade.

He is keenly interested in the public life of the Province and has always been an advocate of those things which are in the best interest of the people. Mr. Goucher is under nomination as Conservative candidate for Annapolis County in the coming election.

Mr. Goucher will also be remembered by those interested in sport on account of his interest and activity in Nova Scotia baseball, having been honored with the presidency of that association.—The Herald, Halifax.

Country Life

Country life has its drawbacks but it has its great advantages which overcome them. True, those who live in the country are "Rubes" and "Farmers" and Hayseeds to the city slickers in town, but the boast of the business men in the world to day is that they were born on a farm. Take away the surrounding civilization that best the young men of women on the threshold of life's journey: the city, and substitute the helpful influence of nature, and you fortify them for the sterner walks of life. The few things they do not know about table etiquette when it is proper to leave two visiting cards and when but one, they will catch onto quicker than city boys and girls will learn to properly stoke the furnace or make good bread. No boy or girl need be ashamed of living on a farm for if they have taken the advantage of what it has offered they are well fortified for after life.

The Barber Pole

How many of our readers can tell us the stripes on the barber pole signify? You see the pole with its stripes and you know there is a barber in the country are self-made men and the knowledge of the average person ceases. In the early days barbers did the bleeding for the community and surgeons were not as plentiful as now. The first thing thought necessary, way down to the time of George Washington's death, was that any patient should be bled. Tap him, and take a few ounces of blood from him, no matter how weak he might be. When Washington was at the last gasp, the tools bled him. Well, the red stripes on a barber pole mean the red ribbon bandages that barbers bound over the wounds caused by bleeding people. That's all. When they got through with a plethoric man, of full habit and had tapped him like a hard maple tree in February, he was patched up and bandaged till his arms, legs and trunk looked like a much-garbed leg.

Childhood Training

We would be glad to see all children grow to useful manhood and womanhood. They should be trained along the lines of industry. In short the home ought to be a sort of school for manual training that through this useful occupation the real bent of the child's mind might be readily perceived. Not all work, neither all play, but enough of both to make work and pleasure alike enjoyable and refreshing. Thus the child may be trained in useful ways and obtain physical vigor now almost impossible by the usual strain put on the child inclined to studious habits.

No Bank Account

That young man who thinks he is poor because he has no bank account, little understands the value of God's free gift of health and strength. Little appreciates the fact that the brightest and best in the country are self-made and come to the notice of the world from just beginnings. Not by idly musing that they are poor, but by going carefully to work—perfecting themselves in their chosen pursuits and becoming so useful to those about them that their services are always in demand, whether it be on the platform, in the shop or in the kitchen, for all are honorable alike.

In The Blood

It is not surprising that some of our young men seem to have such hard work to be decent. Just remember that the first man to dwell upon the earth was no saint. If we can rely upon history he was a liar and a sneak. The first woman kept bad company, and woman-like prided into things that did not concern her. The first child born was a murderer and killed his brother. Our first ancestors were a tough lot and it is hard to get it out of the blood.

A bachelor is one who looks before he leaps, and then stays where he is.

Collin's Body Is Recovered

Boulder Which Pinned Him Less Than 100 Pounds in Weight.

Cave City, Ky.—Floyd Collins' body has been freed from the underground trap where he met slow death two months ago while a nation vainly prayed and waited for word that did not come, that he should be saved alive.

On the cavernous hills of Barrow County a lone guard was revealed standing sentinel over the mouth of Sand Cave, at the bottom of whose seventy-foot pit rested the body of the dead explorer, free at last from the rock shackles that fell on him on January 30th and held him until death relieved him after seventeen days of suffering.

Lie in the day miners engaged in a second effort to release his body from the fastness of the cave, succeeded in tunneling under a huge limestone rock in the path of a new trial from the seventy-foot level and came upon the body. Instead of encountering a man with rock support to be pinned the body, they found a stone of but 75 to 100 pounds weight across his ankles.

Another funeral. Although final funeral arrangements have not been announced the body will lie in state for a few days at the Baptist Church here and then in compliance with original wishes of his aged father, Led Collins, and Floyd's brothers, it will be buried on a hill above Crystal Cave another cavern discovered by Collins.

ENTERPRISE

The best rewards in business as in life, go to the person who has enterprise. This all important quality of mind can be cultivated as surely as one can learn more about music, mathematics or about music. Usually it is about one-fifth inherited and four-fifths acquired.

The first requisite in developing enterprise is to have a clear idea of what it is, and to admire that quality wherever you see it. Anyone can go that far if he will; and the rest is easy.

What then is enterprise? It is a certain boldness that dares to do things that have not been done before, that dares to back up an ideal with money and effort. It is a certain energy that drives ahead as if for the sheer joy of doing—a spirit of activity that never questions the hardships of action, but which goes ahead as a matter of course. It is a certain spirit of inventiveness, always seeking a newer and better way, and willing to test out the new by experiment—and never afraid to put both feet on the bridge that separates the old from the new. It is, very especially, a rich and active imagination trained to operate in very practical matters, foreseeing possible results of new combinations. But above all, it is the spirit that desires to achieve simply because to achieve is to live. Such is enterprise. Acquire it, and the best is yours.

Across Canada

Although Alberta only became a
province eighteen years ago, its
population has increased fourfold,
while the grain yield has increased
twentyfold. The total agricultural
products of Alberta in 1923 were
worth \$223,000,000.

The scheme for the settlement of
British emigrants in Canada may
assume a new aspect as a result of
the presence in London, England, of
the Hon. J. A. Robb, Canadian Min-
ister of Immigration. Canada fa-
vors the movement of entire fami-
lies to Canada from Great Britain,
rather than that of single men.

Among the biggest muscalunges
caught this year was one landed at
the Canadian Pacific Railway's
French River (Ont.) Bungalow
Camp, by Samuel Franklin, South-
ern Sales Manager of Claffins, Inc.,
New York City. Mr. Franklin had
a light tackle and had never hooked
a lunge before. He had a hard
fight to secure the fish, which
tipped the scale at 38½ pounds.

A total of 13,743 Canadians,
most of them native-born, has been
repatriated from the United States
during the months of April, May
and June, according to figures
announced by the Department of
Immigration. During these three
months 53,425 persons immigrated
to Canada, which represented an in-
crease of 12,292 over the same pe-
riod of last year.

Marquis wheat, originated at the
Dominion Experimental Farms and
now world famous, has success-
fully invaded South America, being
grown in the Argentine Republic
last year with results that, accord-
ing to authorities there, exceeded
the expectations of the most opti-
mistic advocates of the grain. Fur-
ther shipments of seed are being
made to the Argentine by the Cana-
dian Seed Growers' Association.

One of the most diverse and in-
teresting aggregations of passen-
gers ever assembled in Canada left
Montreal for Europe on August
20th aboard the Canadian Pacific
liner Minnedosa. It included Ma-
jors S. de Beires and Brito Pais,
who recently flew from Lisbon to
Macao, China, a large party of
scientists returning from the recent
convention of the British Association
for the Advancement of Science at
Toronto, Colonel Geo. Ham, Gen-
eral and internationally known
"ambassador of the Canadian Pa-
cific" and "Soldier" Jones, Cana-
dian heavyweight boxer.

The first all-British direct cable
service between Montreal and Lon-
don was opened on August 18th by
the Canadian Pacific Telegraphs.
As business warrants, this service
will be extended to embrace other
Canadian cities with which it is now
connected but which, as yet, cannot
offer a reasonable return for a regu-
lar service. Messages were ex-
changed between the London Cham-
ber of Commerce and the Montreal
Board of Trade and between the
Canadian and the English head-
quarters of the Bank of Montreal,
conveying expressions of mutual
goodwill and prophesying closer
relations as a result of the improved
cable facilities.

According to a report prepared
by the Merchants Exchange of Van-
couver, forty-two regular steamship
lines are now operating out of that
harbor, the gross tonnage for last
year being 14,478,518 which is over
a million tons in excess of the 1923
figures. The Canadian Pacific Rail-
way is now erecting a new pier there
which will be one of the finest and
largest on the continent.

The Campbell River Company of
White Rock has purchased the en-
tire holdings of the James Logging
Company of Vancouver which in-
clude 25,000 acres of timber lands
containing over two billion feet of
logs, a saw mill with a capacity of
more than 50,000 feet of lumber a
day, three large tugs and a com-
plete logging outfit. A sum of more
than five millions dollars is said
to be involved.

Arrangements have been com-
pleted to ship 200 books by Cana-
dian authors to be exhibited at
Wembley this year. A special grant
has been made by the Provincial
Government of Quebec to provide
artistic bindings for these books
many of which will be by French-
Canadian authors. That this is to
be done is largely due to the initia-
tive of the Arts, Science and Letters
Society of Quebec City in co-opera-
tion with the provincial government.

again be extensively advertised at

ment by Premier Oliver.

The Universal Film Company is
perfecting its plans for filming the
Calgary Stampede this summer as
part of a forthcoming production
in which Hoot Gibson will star.
This will involve an expenditure of
about \$100,000.

Canadian exports to France in
1924 were valued at 432,235,000
francs as against imports from that
country of 333,264,000 francs. There
has been a marked increase in trade
of late years which is attributed
partly to the Treaty of Commerce
and the propaganda work of the
Canadian Peace Exhibition train.

S. Frank Musard of the South
African Irrigation Association, Jo-
hannesburg, who has just completed
an independent investigation of the
agricultural conditions throughout
Canada has stated that he is "per-
fectly satisfied with the possibili-
ties Canada has to offer the right
type of settler."

this organization throughout the

ject to copyright fees or royalties

case in the United States.

Approximately five millions dol-
lars will be spent in maintaining and
constructing new highways within
the Province of Quebec during the
present year. At present there are
2,585 miles of highway in the pro-
vince stretching into all parts of
Quebec and linking up with main
roads in the U.S. and the sister
provinces to the East and West.

Up to the end of October, 1924,
more than 1,000 circulating libraries
were in operation in Saskatchewan,
as compared with about 800 at the
same time in 1923. The average
number of families reading each
book is 17. More than half a mil-
lion volumes were circulated by
these libraries during the year.

A huge wooden, tar-paper lined
shell erected over the stage, provid-
ed for the structure and heated by
thousands of feet of steam coils
connected with 380-horse power
boilers, which provide a summer-like
atmosphere for the carrying on of
concerts, is an interesting and
novel feature of the arrangements
made to combat the difficulty of
building the new wing of the Cha-
teau Lake Louise, the Canadian
Pacific Railway's famous Rocky
Mountain hotel, under winter con-
ditions. Thanks to this innovation,
the wing, despite frequent drops in
temperature to far below zero, is
progressing excellently and the com-
pany expects it to be ready for next
summer's tourist season.

Sweeping changes in the Canadian
Pacific Railway's service of great
benefit to the communities concern-
ed are scheduled for January 11.
They include revision of the time-
table of the Vancouver express (Tor-
onto-Vancouver), reach Fort
William and Port Arthur between 10
and 11 p.m., instead of 2 and 3 a.m.,
and Winnipeg at 10 a.m., instead of
2.30 p.m., as heretofore. The new
times are more convenient to the
Twin Cities than the old and a half-
day is gained for business in Win-
nipeg. Regina is to be reached by
the same train at 11 p.m. instead of
1.20 a.m., and Moose Jaw at mid-
night instead of 2.45 a.m., Regina-
Saskatoon connections being thus
radically improved, while arrival at
Calgary at 4 p.m., enables Edmonton
to be reached that evening. Van-
couver is reached at 7 p.m. instead
of 9.30 p.m. as previously. The To-
ronto Express (Vancouver-Toronto)
reaches Winnipeg more convenient-
ly, while arrival at Toronto at 8.45
a.m. will make possible connections
with early morning trains for On-
tario points and with day trains for
American cities, thus saving more
time. Gales on other trains between
Montreal, Ottawa, Toronto, Chicago
and Winnipeg are also scheduled.
These arrangements follow the can-
cellation of the recently inaugurated
train between Winnipeg, Montreal
and Toronto, which is to come off
January 16.

FACTS ABOUT TEA SERIES—No. 6

Appearance of Tea No Guide

The only way to test tea is to taste it. Many
people have the idea that a finely rolled
and tippy tea is superior in flavour to a
large rough leaf. In reality this is not of
necessity the case. The altitude at which
the tea plant grows determines the amount
of essential oil and alkaloid theine in the
leaf. The essential oil gives tea its flavour;
the theine contributes the stimulating
value. The only way to insure always re-
ceiving a uniform quality is to insist upon
a skillfully blended and scientifically sealed
tea like "SALADA" whose reliability, good-
ness and delicious flavour have become a
household word.

SUGGESTIONS TO BOYS AND
GIRLS

Stand up straight. If you wish to
know whether you are standing
straight, put your back against the
wall and stand so. I knew a mother
who made a hollow-chested boy
straight by having him stand against
a wall regularly every day. Keep
yourself well—your hair, your teeth,
your nails, your clothes should all be
well cared for and groomed.
Nothing will make for good health
more than to eat slowly, and chew
your food thoroughly. This is of
great importance.
Keep your mouth shut. In breathing,
breathe through your nose. If you can't
do this something is the matter with
you, and you should be examined for
adenoids or polypus.
Speak distinctly. Do not speak
too rapidly. Do not jumble your
words. Let every letter in the word
stand out clearly, especially the con-
sonants, say respect, not respect-
and so on.
Be cheerful and try to wear a
pleasant face. You do not need to
smile, but you should learn how to
smile.

Table manners are important, for
nothing so plainly bespeaks the bore
as the way one eats. Learn to con-
centrate your thought. Why read or
pretend to be reading when you do
not put your mind upon it? Strive
to think straight. Master things.
Do not simply get a smattering. Try
to be able to give to every one that
asks you a reason, for what you do
and think. Watch your grammar.
Do not say "I come" when you mean
to say "I came." There are many
grammatical errors that mark a per-
son uneducated. But there are
things more important still than habits
that apply to the body or the mind,
they are the habits that go to form
character. Always be frank, open
and sincere in all your dealings. Be
honest with yourself and others. Be
truthful. Be clean and pure. Be
kind and good. Do right always.
"Fear God and keep His command-
ments, for this is the whole duty of
man."

IMMORTAL

Of all things in this world below,
what thinkest thou will be most use-
ful in the world above?
I will tell thee—it is thine hours
of sacrifice, thy moments of loss.
Nothing else will be so valuable
yonder—not riches, not honor, not
glory. It is thy clouds that are train-
ing thee; it is thy burdens that are
expanding thee—it is thy times of
arrest that are promoting thee. Thou
callest them God's silence—they
will be the organs of thy speech one
day. Thy crossing shall make thee a
comforter; thy hardships shall make
thee a helper; thy clouds shall make
thee a cleanser. By thy stripes thou
shalt strengthen; by thy pains thou
shalt pity—by thy falls thou shalt
console—by thy mistakes thou shalt
minister—by thy battles thou shalt
bear; by thy griefs thou shalt guide;
by thy days of sorrow, thou shalt
have doors of sympathy.—Rev. Geo.

replied Jimmie.
"And can you teach a goat all
that?" asked Uncle Wesley who
came up from the other side.
"Sure," answered Jimmie.
"Queer that boys aren't as smart
as goats," said his uncle.
"They're heaps smarter," answered
Jimmie indignantly.
"So?" questioned his uncle. "Seems
to me I heard somebody's mother
say this morning that her small son
never came when she called him,
and she didn't know what she was
going to do to teach him to mind.
Guess she'd like to be able to pull

rein told him to."

"Humph," said Jimmie slowly, "I
guess I'll go and do that errand right
now." And before Uncle Wesley

could answer, the goat team had

Individuality For Only \$2

There is always a way in which the individuality of a person is determined. Every lady, girl and young man appreciates a distinctiveness. The Outlook gets out a line of Personal Stationery that has found a certainly wonderful favor wherever shown. Of course only the very best paper is used for this class of work. There is nothing trashy about this stationery, and we are justly proud of this product. We tell you exactly what kind of paper is used, not merely saying a linen paper which is very vague. We tell you it is genuine "NORMAN" Linen, with an elegant writing surface. The price is very moderate, being only \$2.00 for 100 sheets of folded paper and 100 Envelopes printed up with your name and address. The printing is the same on both envelope and paper. A very artistic, though plain, type is used, and the ink is a delicate bronze blue. Those desiring half an order, that is 50 sheets and 50 envelopes, we will do these for \$1.25. Prices quoted are postpaid anywhere on the continent. The paper, type and ink present a most irresistible combination. Seeing is believing, so let us show you. No matter where you live, your orders will be sent postpaid for above prices. If not satisfied your money will be returned. Be sure and write very plainly to avoid errors in printing. This is truly a rare opportunity to get a stock of real nice stationery. We also print Visiting Cards, Wedding Announcements, Wedding Invitations, Dance Invitations, At Home Announcements, and all kinds of society printing; besides the general run of Business Stationery, Posters, etc. You will find The Outlook Printers, Middleton, Nova Scotia, always at your service and ready to serve you better.

THE TREE THAT TOOK OFF ITS COAT

By W. L. Y. Davis

One autumn day a tree in my back yard was shaking itself like a dog. "Why are you taking off your coat?" I asked. "You will need it in the winter to keep you warm." "You wait and see" it answered, as it gave an extra shiver. Some hours afterward a storm blackened the western sky, and winds raced and raged across the hills. The tree dodged about and swayed and parried. I could easily see it was a fight to the finish. I could hear the wind whistling and snorting, and I could hear the tree thrashing its arms about. And sometimes I thought I could hear it growling. It lasted all night and the next day and the next night.

Then the storm ran off to gather strength and came again and again. fiercer and fiercer than ever. I began to understand why the tree had stripped itself. It had sensed what was coming. Just before spring, when it had worsted the last storm, I talked the matter over again with the tree. "Great work, old tree," I said. "Through the home is very lonely when he's gone; I live a true and honest life, and trust him all the time."

"The great tree had a glint of pink among its branches. I thought it was bushing at my praise. A practical bystander said it was just the spring time. But the tree blushed no more, and began to put on its coat again, ready for company. You can do better fighting with your coat off. Too much luggage impedes the voyager. The spritlier stripes for the race. The best authorship has been poverty-stricken. The best religion lays aside every weight."

WHICH CLASS ARE YOU IN
There are two classes of people in this world. One of these classes is composed of the people who cheerfully and willingly do their duty at all times, and who, therefore, make possible all the benefits any organization can give. In fact, it may be said that they are the pillars of wealth. The other class are the ones who want all the benefits and all the good things of life, but they are not willing to contribute their share toward the production thereof. To which of these classes do you belong? If to the latter do you not think that you ought to transfer over to the former?

Not every boy can be a rich man or a great man, but every boy can be a gentleman. A boy with gentlemanly manners, who is trustworthy and honest and does his very best every day, will gain the attention and confidence of men and will be given paying and responsible positions as soon as he is old enough to fill them. Boys like to have fun and a good time, but it is right that they should. They will never be boys but once, but to have fun is not altogether a bad thing. Boys are of value chiefly to make men, good for something in the world. Character, a boy must have the right kind of a foundation. The foundation stones of a good character are reverence for God, respect and obedience to parents, deference for old people.

Some parts of the world seem to have been created merely as slates for the pencil of history. On some of these slates the copy once allowed to stand for a little, and then expunged to make room for fresh text. On others the original text has been of such import that Time has only served to fix the text more indelibly, the "scene" more vividly, as when painters of old varnished their pictures to bring out the colors and "fix" them.

Now there is not a reader but can bring to mind without the slightest effort on his part dozens of such "slates" in Canada. A million romances . . . to run serially, or each an entity in itself . . . might be swept from these earth-slates of the Dominion on to the printed page, and still leave a million more unfold. And so it is that we learn to come back to the original slate, the land itself, with its endless tales. The best short stories of this year and every year, past, present and to come.

Such a tiny slate is the little village of Saint Joachim, a few miles from Quebec city. It begins in water-reeds, lush from the toying waters of the St. Lawrence takes a couple of steps upward and spreads out into a plain on which some scattered farmhouses of ancient habitation type and a church have been flung as if by way of illustration. Then the plain steps up suddenly into a low bench and the bench in turn spreads out levelly for a little way and then suddenly leaps with vim into giant Cap-Torment, two thousand feet high, its head in the clouds and its feet circlingly abate in the mighty river.

ONE WOMAN WHO HAS SUCCEEDED IN SOLVING THE PROBLEM

How to keep one man in line is the study of my life. For I think it is the duty of a true and loving wife, I do not make myself a slave by the course that I pursue. In trying my best to please him is everything I do.

I act upon his wishes and his tastes in everything; I try to live within my means, and do what's best for him, I try to be attractive, make things around me shine. And I note with satisfaction that he keeps right in line. The children watch his coming with eyes shining bright. Which causes him to think of home with feelings of delight; I always make a practice of having meals on time — 'Tis a very simple matter to keep a man in line.

I don't object to have him spend an evening at the club. Though the home is very lonely when he's gone; I live a true and honest life, and trust him all the time. That's another way I know helps to keep a man in line.

Fifty years we have been married, and still he is the same. As when he was my lover— noble, kind and true. And the better roll swiftly by I find no fault in him— I see no reason why I should, do you?

HE REALIZED IT

"Young man," said the apostle solemnly, "do you realize when you retire at night, that you may be called before the morning dawn?" "Yes sir," responded the young man, "I realize it fully. I am the father of a three-weeks' old baby."

"The Town was Burned Three Days Later"

(1) The Wolfe Headquarters, which survived the burning of St. Joachim, prior to the taking of Quebec, P.Q.
(2) The second Wolfe Headquarters, which was burned the morning dawn.
(3) An old church with very beautiful and rare interior at St. Joachim, P.Q.

Some parts of the world seem to have been created merely as slates for the pencil of history. On some of these slates the copy once allowed to stand for a little, and then expunged to make room for fresh text. On others the original text has been of such import that Time has only served to fix the text more indelibly, the "scene" more vividly, as when painters of old varnished their pictures to bring out the colors and "fix" them.

Now there is not a reader but can bring to mind without the slightest effort on his part dozens of such "slates" in Canada. A million romances . . . to run serially, or each an entity in itself . . . might be swept from these earth-slates of the Dominion on to the printed page, and still leave a million more unfold. And so it is that we learn to come back to the original slate, the land itself, with its endless tales. The best short stories of this year and every year, past, present and to come.

Such a tiny slate is the little village of Saint Joachim, a few miles from Quebec city. It begins in water-reeds, lush from the toying waters of the St. Lawrence takes a couple of steps upward and spreads out into a plain on which some scattered farmhouses of ancient habitation type and a church have been flung as if by way of illustration. Then the plain steps up suddenly into a low bench and the bench in turn spreads out levelly for a little way and then suddenly leaps with vim into giant Cap-Torment, two thousand feet high, its head in the clouds and its feet circlingly abate in the mighty river.

"More Bread and Better Bread"

Cleans Like China

When you use SMP Enameled Ware Utensils, you never need to scrape, scour and scrub the way some wares demand. Hot water, soap, a cloth—that's all you need to clean them. It washes like china, has the cleanliness and surface of china, but wears like steel. Don't be the slave of your cooking ware; equip with clean, pure sanitary, lasting

IF WE PATRONIZE OUR HOME
MERCHANTS WE KEEP
THE MONEY IN OUR TOWN

A COVENANT

We eat with one another. The loaf and the cup pass from hand to hand. This means that we are pledged to help one another. The Supper is for those who are one family of God in Christ, for those who love Him, and, therefore, love one another. The family and social aspects of the Supper are too often overlooked. The loaf, according to Paul, speaks to us both of the body of Christ which was given for us

and of the unity of church, the body of Christ. We, who are many, are one loaf, one body; for we all partake of the one loaf. We enter into a covenant relationship with one another; we promise to seek our brethren's good, and never their harm. This thought will enrich our conception of the blessedness of the communion of saints. — Australian Christian.

Coln of the realm is an article or commodity, or anything you would mind to call it, is very much sought after. In fact most people find that it is almost a necessity. With this particular bit of stuff the wheels of industry can be made to run more smoothly, workmen can be satisfied with it, and a business cap purchase the goods needed to replenish stocks. It's a queer thing too, it is as slippery as a greased pig and just as hard to hold. Did you ever try to keep it? Wonderful how it gets away. Even The Outlook management has a desire, almost a craving for this stuff. Ever known it? Well, it's a fact. We work for it, we ask for it and sometimes lose sleep for it—but by love it must be afraid of us, because we get so little of it—ever thought there are hundreds of green backs that are tickled for us, but somehow they get side-tracked and haven't come home yet. Well, dear reader, this is just a hint—perhaps you'll take it if the shoes fit and oblige us. We hasten to extend our thanks—so don't let us waste words "thank you".

Be Cheerful
Make up your mind that whatever you may have done in the past you will in the future wear your clouds "inside out and show the lining." We all have clouds, but that is no reason why we should draw the attention of the world to them. It is the brave, cheerful soldiers who inspire the others. So if you can't get what you like, determine to make the best of it and go on your way bravely, without complaining.

WE CAN HANDLE THAT SUB AT ANY TIME TO GOOD ADVANTAGE THANKS.

As you too your little tooter, and lay aside your horn, there's not a soul in ten days will know that you are horn. The man who gathers punning is the man who plows all day, and the man who keeps bumping is the man who makes it pay. The man who advertises with a short and sudden jerk is the man who blames the printer because it did not work. The man who keeps the business has a long and steady pull and keeps the local paper for years and years quite full. He plans his advertisements in a thoughtful, honest way, and keeps forever at it until he makes it pay. He has faith in all the future, can withstand a sudden shock, and like the man in scripture, has his business on the rock.

Laugh and the boss laughs with you. Grouch and you lose your job; For many a boss has been cinched with a smile.

Mother—Yes, it's really remarkable, Clifford seems to eat twice as much chicken when we have visitors. Miss Prim—And why is that Clifford? Clifford—Cause that's the only time we have it.

A man unaccustomed to praising a wife went out of his way to call her an angel.

She ventured to ask why she had been so honored.

"Well," said the witty one, "in the first place you are always flitting about; secondly, you are always harping on things; and thirdly, by your own account you have nothing to wear."

A man visiting a country town in Maine went to the local barber shop for a shave. The barber made several slips with his razor and each time he would pass a small piece of paper over the cut to stop the bleeding. When the operation was over the victim handed the man a dollar. "Keep the change, barber," he said, "it is worth a dollar to be shaved by so versatile an artist. Why, man, you're a barber, butcher and superannuated all in one."

A man of woman may live alive of honesty and purity, battling bravely for all they hold dear, so firm and sure of the rightness of the life that they never think for an instant of the diabolical ingenuity that makes evil and evil report where naught but good really exists. A few words lightly spoken by the tongue of slanders, a significant expression of the eyes, a cruel shrug of the shoulders, with a pursing of the lips—and then friendly hands grow cold, the accustomed smile is displaced by a sneer and she stands alone and aloft with a dazed feeling of wonder at the vague, intangible something that has caused it all.
