MARRIED IN JAIL.

A Kensas City Couple Outwit the Prose cuting Attorney.

KANSAS CITY, Mo., Nov. 19.—An unusual and interesting ceremony was that which made J. Hubbard Marrand Miss Nellie Baker husband and wife yesterday afternoon. Marr was arrested charged with the betrayal of Miss Baker at McPherson, Kan., and was lodged in the jail in Kanas City. Kan. Marr intimated his willingness to atone for the crime by marrying the girl, who consented. The prosecuting attorney, however, would not allow the usual ceremony to be performed, and the sheriff, being under the latter's orders, would not permit a minister or a justice of the peace to enter the jail. Marr's attorney then performed a common law marriage, the bride and groom clasping lands through the bars of the prisoner's cell and several other prisoners acting as witnesses. Later a marriage by proxy was performed before a justice of the peace, one of Marr's friends acting as the groom. It is claimed that the marriage is perfectly legal and that Mrs. Marr cannot be made to testify against her husband in the case against Marr for betrayal.

Ottawa, Nov. 19.—John R. Arnoldi, late chief mechanical engineer of the Public Works Department, was arrested yesterday afternoon at the Russell House. There are three distinct charges against Arnoldi. The first charges him with unlawfully conspiring while in the employ of her Majesty with Jas. R. The third charge covers 40 pages of foolscap and relates entirely to the alleged fraudulent and false pretenses resorted to in obtaining various sums of money aggregating close to \$3,500 for the services of the steamer Joe, which was used in connection with the dredging done in harbors and rivers. THE DOMINION VOTERS. But one solitary newspaper in the Dominion to-day defends the Franchise Act with its cumbrous, expensive, and unnecessarily inquisitorial provisions. And we know of hundreds of good Conservatives

who are heartily sick of the measure.

When it was introduced, we were told that it would be an improvement on the municipal voters' lists, against which no protest had ever been lodged in Parliament. We are now told by the one defender of the act that, though we have manhood suffrage in Ontario, a man may have to show that he is of age and not an alien, therefore-mark the logic-manhood suffrage is not much of an improvement on the Dominion Franchise Act I We are not among those who believe that the Ontario Act cannot be improved. The ADVER-TISER is not a party organ, and it is ready at all times to condemn a law or to suggest improvement in its provisions without waiting for the nod of a boss. It does not condemn the Dominion Franchise Act and the machinery by which it is worked because it was drawn up and put in force by a Conservative Gov-It assumes much higher grounds than that, and it knows that in revealing the iniquities of the measure it has the sym-pathy and support of all sight-thinking men, no master whether they have given their support to the Liberal party or to the Conservative party in the past. We make bold to affirm that notwithstanding the red herrings the defender of the Act may drag across the trail, the sentiment of the majority of the people of London to-day is that the Dominion Franchise Act should be repealed, and that we should, at as early a date as possible, return to the simple, in-expensive Provincial lists, with the one man one vote residential franchise or its quivalent. No man who holds a contrary view need expect to command the reclass, creed or political predilection. The remedy is repeal or radical amendment. spect of the independent citizens of Lon-

WITH THEIR EYES OPEN.

1885. Its grossly discriminating provisions were brought before the House of Commons in the session of 1890, when Mr. Brien, member for South Essex, moved that all men who earned \$200 a year should have votes. This proposition was voted down, at the instance of the Conservative leaders, but not without protest from such stalwart friends of the wage-earners as Mr. Mulock, Mr. Campbell, Dr. Wilson (Elgin), Mr. Charlton and Hon. Peter

How well their arguments have been borne out by the experience at the Revision Court in this city.

Mr. Mulock pointed out that there were many worthy people who worked all the year round, and did not earn \$300 a year. There certainly are hundreds of such in this city of London. Where wages are low, or through sickness or some other cause, said this advocate of the workers, a man his own, though he may have been just as

are to be found many worthy men who are deprived of their manhood rights by the operation of this clause. Mr. Campbell (Kent) supported this view, and gave instances of the gross inequality in Chatham and elsewhere. Hon. Mr. Chapleau, who had charge of the bill, declined to accede to the proposition, and the amendment was voted down at his dictation, but not without protest from Dr. Wilson (Elgin) who has ..

serts that in every constituency there

sistent friend of the working classes. Mr. Brien made another effort to have the act amended in the interest of the wage-earning community on the following day. He moved that the yearly income necessary to obtain a vote should be reduced from \$300 to \$250. Dr. Brien as serted that as a consequence of the refusal to reduce the amount of income necessary to the sum named from 40,000 to 50,000 men in the Dominion were deprived of their manhood rights, and he very properly asserted that the remedying of this great wrong should not be a party question.

Mr. Charlton said that taking year in and year out \$300 was more than an ordinary laborer could earn in a year. He regarded the proposition to lower the amount needed to gain a vote as a simple act of justice to a worthy class.

Hon. Peter Mitchell pointed out that when the Act was introduced he had shown it was a cumbersome and obtuse one and he had always held that manhood suffrage was the simpler, fairer, least expensive method for obtaining the voice of the people. The suffrage, he said, was not extended to represent property, but labor. The restriction that he then condemned had the contrary effect. There were 800 or 1,000 laborers in his constituency (Northumberland, N.B.) prejudicially affected by this unfair enactment. Sir John Macdonald rose at this point and said he was "altogether opposed to manhood suffrage," and he asked his sup-

porters to leave the matter where it was. sary and practicable. Nothing would so much purify electoral contests. Nothing every laborer worthy of a vote already had it, and Mr. Weldon (St. John) met that statement with the assertion that to secure \$300 a year a man in the Lower Provinces had to work every day all the year round, and that he rarely, if ever, did. Mr. Ellis (St. John) and Mr. Davies (P. E. I.) corroborated this view. It bears out our experience in London and neighborhood. Mr. Davies said many good male

teachers were disfranchised by the act because they got less than \$300 a year. Mr. Paterson (South Brant) made an able reply to the statement of Mr. Burns, a Conservative defender of the act, who said every man had a vote who deserved it. "What," asked Mr. Paterson, "does the konorable gentleman mean by such an ex-pression? Does he mean that in this country, where our revenue is raised by

indirect taxation, customs and excise, in which the young men have to contribute to the revenue, and in case of war to go first to the front, while others re main behind, that those young men, because they do not earn \$300 a year, are not worthy of giving a vote as free men in a free country?" Mr. Paterson denounced such a doctrine as undemocratic, and a gross injustice to the bone and sinew of the land.

At the bidding of their leader, who said it was a waste of time to consider the question, the proposition was voted down by the Conservatives. Among the M. P.s then in the House who assisted in this wholesale disfranchisement were the fol-lowing from Western Ontario: Mr. Carling (London), Mr. McNeill (North Bruce), Mr. Carpenter (South Wentworth), Mr. Cough-lin (North Middlesex), Mr. Hesson (North Porth), Mr. Porter (West Huron), Dr. Roome (West Middlesex), Mr. Tisdale (North Notfolk), and Mr. Marshall (East

Middlesex.) It was with the confivance of these men that so many of the best citizens of London and Middlesex are to-day disfranchised tune to get out of work during the year or have met with accident. Are we not right in asserting that the act is a grossly unfair measure, while at the same time' vexation and expensive? No amount of beati about the bush can alter these facts. The are patent to intelligent men in both political parties, and the injury done to

the wage-earners is confined to men of no

THE ELECTION PETITIONS the election courts yesterday were the dis-

nissing of the petition against Mr. Charlton, M. P. for North Norfolk, and the withdrawal of the cross-petition against Dr. Wilson in East Elgin. After earnes inquiry, the Conservative agents tound that they could not bring any valid charge against the doctor. The trial of the charge against the doctor. The trial of the charges against Mr. Ingram, the sitting M. P., will take place Dec. 2. There are many reasons for the belief that he will be unscated.

In Victoria, N. S., John A. Macdonald (Conservative), who was elected by the small majority of 53, did not let his case go to trial, but confessed bribery, by agent

and paid all expenses. THE CASE IN POINT.

On Saturday last the ADVERTISER ferred to the anomalies of the law regarding the representation of the city and its suburbs, and the hardships which the electors of South London have to undergo may not be able to earn \$300, yet in defending their rights to vote. The he is distranchised through no fault of gravamen of our charge was in the following terms:

bis own, though he may have been just as industrious as the man who earns \$300. John Morkin, who worked for over twenty years for John Mustill had always earned \$300 a year till this summer; but a horse kicked him, his leg was broken, and he was out of work for two months in the summer. His income was over \$250, but of course he lost his vote under the \$300 discriminating clause. Mr. Mulock's argument is sound. He says "the real object of this income qualification is to provide that if a man is industrious, if he is occupied during the year, he shall have the right to vote." Mr. Mulock asserts that in every constituency there

known to itself, says this is an attack on Judge Davis. If this is what our contemporary really imagines, we are certain that neither His Honor nor any other judge, lawyer or layman in the land agrees with it. Every time this "cumbrous and expensive" law is condemned, every time its harassing provisions are exposed, the Free Press simulates indignation, and says the judges or the revising officers are being at tacked. What object does our contem porary hope to serve by its clumsy pre-text? It knows that the ADVERTISER has nothing but respect for the judge who does his duty, and that there is no division of opinion in the community on that subjec

Beans are quoted in Detroit at \$1 30 bushel, in Chatham at 90 cents. Our Ri councet, in Chautam at 30 cents. Our Ridge-town reporter states that practically all the beans grown in the Ridgetown district— some 200,000 bushels this year—are shipped to the Eastern States. Would the farmers of Kent be better or worse off under a treaty which allowed their beans to enter the Eastern market free of duty?

John F. Jones, Edom, Tex., writes: I have used German Syrup for the past six years, for Sore Throat, Cough, Colds, Pains in the Chest and Lungs, and let me say to any-one wanting such a medicine— German Syrup is the best.

B.W. Baldwin, Carnesville, Tenn., writes: I have used your German Syrup in my family, and find it the best medicine I ever tried for coughs and colds. I recommend it to every one for these troubles.

R. Schmalhausen, Druggist, of Charleston, Ill., writes: After trying scores of prescriptions and preparations I had on my files and shelves, without relief for a very severe cold which had settled on my lungs, I tried your German Syrup. It gave me immediate relief and a permanent cure.

For the benefit of those who see nothing but suffering and death before them I wish to say there is hope for you yet. I have been in a like condition myself and owe my restoration to health to the every-lable Histogenetic Remedies. Last spring I was utterly prostrated by a severe attack of la grippe, which resulted in bronchitis and other serious complications. When my case seemed perfectly hopeless my friends decided to try the Histogenetic Remedies, and in less than three days a change for the better was so apparent that we were all inspired with hope. I continued the treatment for a number of weeks, progressing slowly but surely day by day. I am now comfortably well and am still gaining in strength and power of undurance, and am a wonder to those who knew how hopeless my case was. To show the for commanding His blessing to rest.

THE WEEK, one of the ablest papers on the continent.-[Descriptive

\$3 per Year. Published Every Friday. \$2 for 8 Mos. THE WEEK

A Canadian Journal of Politics, Literature, Science and Arts.

THE WEEK has been greatly enlarged and improved, rendering it still more worthy the cordial support of every one interested in the maintenance of a first-class literary journal. Recognizing with gratitude the generous support it has received since the publication of the first number, it hopes to win the approval of a wider constituency and reach a much larger circle of readers.

The independence in politics and criticism which has characterized THE WEEK ever since its first issue, more than eight years ago, will be rigidly maintained; and unceasing efforts will be made to improve its literary character and increase its value and attractiveness as a journal for the cultured home, Many new and able writers are now, or have promised to become, contributors to its columns, and the constant aim of the Publisher will be to make THE WEEK fully equal to the best literary journals in Britain and the United States.

As heretofore, London, Paris, Washington and Montreal Letters from accomplished correspondents will appear at regular intervals.

THE WEEK enlarged is the same size as "Harper's Weekly," and the largest paper of its class on the continent.

I regard THE WEEK as one of the most interesting and satisfying literary publications in America; and certainly there has been no period in its history when its excellence was so marked as at present,—[T. W. Longley, Attorney-General of Nova Scotia, Halifax.

who founded the Order in England in 1792, and he asserts himself to be the Prince Michael mentioned in the 12th chapter of the book of Daniel. On these Prince Michael mentioned in the 12th chapter of the book of Daniel. On these points there are differences of opinion, as Elder Sutton, of Port Huron, chief of the "New House of Israel," who used to be accepted as leader of the faithful here, before the rise of Prince Michael, claims that his is the regular and only genuine organization of Israelites. Elder Sutton further says that Prince Michael is a fraud, and that he and his doctrines are the delusion spoken of in the second chapter of the Second Epistle to the Thessalonians. However that may be, the Israelites here have broken off from Elder Sutton and his organization, and pay unbounded respect and unquestioning obedience to "Prince Michael." The Prince announced that the millennium had begun on Sunday, Nov. S, and that at some time during its continuance all the faithful will be gathered in one body in England to wait for the end of the world. Business will go on as usual iet the present, and the start for England will not be made till further notice.

INDEPENDENT ORDER FORESTERS.

About a year ago Court Byron was instituted in South London, making two courts of the order working in that limited district. It was pointed out to the supreme of iders by Court Enterprise that a new lodge was undesirable in the locality, but no notice was taken of the protest. The two courts have now decided to join hands, and the consolidation was effected Monday evening, when the committees from Byron and Enterprise decided the name to be retained by drawing lots, the result being that Court Enterprise exists no longer. The utmost good feeling exists over the matter, and now that all differences are settled no doubt the members will work up an active membership and take more interest in the work than formerly.

Court Byron, South London, has secured quarters in the new A. O. F. hall and will meet twice a month.

INDEPENDENT ORDER GODFELLOWS.

The dream of the brethren in Toronto is at last about to be realized, and a hall suitable to the requirements of the order in that large city will soon, from present prospects, be an accomplished fact. The workmen are busy tearing down the old buildings on the corner of Yonge and College streets, and the foundations will be completed before the cold weather sets in. It is expected the building will be ready for occupation by July 1 next.

The total number of miles traveled to the recent session of the S. G. L. was 167,711; total number of days in attendance, 1,064; total amount of milage, 317,912 82; of per diem, \$5,320; milage and per diem, \$23,232 81. The representative receiving the largest amount of milage and per diem was Henry Waller, of Victoria, B. C., \$342 72.

FRATERNAL MYSTIC CIRCLE. INDEPENDENT ORDER ODDFELLOWS.

The first lodge of the secret beneficiary order of the Fraternal Mystic Circle was instituted in Dingman's Hall, St. Matthew's Ward, Toronto, the other evening by Supreme Deputy Bro. J. A. McMustry, assisted by the officers of up-town rulings (as the lodges are called). The following well-known citizens of the city east of the Don were down on the petition for the charter: Dr. A. F. McKenzie, J. W. Purvis, ex-Ald. G. S. Macdonald, Thomas Lobb, J. Noble, G. A. Lumb, S. S. McMurray, W. S. Coltart, V. Fogarty, T. W. Coleman, J. A. McMurray, J. Reed, M. Cornish, Dr. T. Butler, W. G. Harper, F. Manthie, John Bovey, T. Killey, J. H. McKnight and E. Hughes. After instituting the new ruling and initiating into the mysteries of the order a score or more of new members, the hour being lite, it was thought advisable to defer installing the officers till the meeting next Wednesday evening. This ruling makes a good start which augurs well for its future prosperity. FRATERNAL MYSTIC CIRCLE.

Last Friday, a band of Israelites passed through this city en route for Toronto. On the previous evening a meeting was held in Sarah attended by about 50 of the members of the sect known as the Latter House of Israel, and headed by Prince Michael, of whom the Sarnia Canadian says:

Another story that is told about Arion is that a party got a price on him last spring, and the value then set on him by the farm was \$2,500. The Legal and Commercial Exchange of Canada are about to issue a new Reference Book for the Dominion. The revision has been thorough, and this thoroughness will be continued constantly and carefully in fature. Their reference book differs from those issued by other agencies; their system of rating confirms this on the face of it. Other mercantile agencies give the stereotyped two columns "Estimated Capital" and "General Mercantile Credit." Theirs gives a concise report in each quotation, viz. Date of constitution of the firm, estimated capital, local standing, mercantile credit. The book is the only complete reference took of the Dominion ever issued by a Canadian firm, and is a substantial evidence of Canadian enterprise. The Mayoralty Canvass—Marriage of a Newspaper Man.

Newspaper Man.

Toronto, Nov. 20.—Now that Mayor Clarke has definitely announced that he will not be a candidate for re-election, speculation as to the probabilities of the mayoralty campaign is rife. It is said that Mr. John McMillan will make a straightout fight with the Orange order behind him, and that he will get the City Hall vote. Ald. Macdougall is engaged in organizing his campaign. Mr. R. J. Fleming is busy at work in the same way, and Mr. Beaty is still shaking hands. Little is heard on the street concerning Mr. Osler, but that does not mean that his candidature is not being pressed.

The Alleged Franco-Russian Alliance. The Alleged France-Russian Alliance.
London, Nov. 20.—A Wiesbaden dispatch says: It is semi-officially announced that the report that M. De Giers, the Russian Minister of Foreign Affairs, who is about to arrive in Paris, goes for the purpose of concluding a treaty of alliance between Russia and France is baseless. It is further said that M. De Giers is now inspired with the single motive to insure peace. He asked for nothing at the Monza interview with King Humbert and Marquis di Rudini, and he does not contemplate obinterview with King Humbert and sharquis di Rudini, and he does not contemplate obtaining anything in Paris or Berlin. His only object in visiting Monza was the hope of exchanging views that would tend to consolidate the peace of Europe, and that also is the only object he has in visiting Paris and Berlin.

WIVES AND DAUGHTERS was first published in October, 1890—only one year ago—and its circulation everywhere is steadily on the increase.

Two new departments are now added, viz, "Record of the Month"-a review of the principal events of pub-He interest the world over-and "Browsing in a Labrary." No ladies' journal is more widely or favorably

known in Canada than WIVES AND DAUGHTERS. It is published in sixteen-page form on or about the 15th of each month. A remarkable feature of WIVES AND DAUGHTERS

is that it gives more for the money than any other ladies' journal in the world. The price is only 500. for 1892, with balance of present year thrown in to new

The first report was given by Mrs. Hammer, who said: "This is the time of the fulfillment of prophecy when the spirit is poured out upon the daughters, and the women have gone into the vineyard to grapple with the subject neglected by man. "Unfermented Wine" had 'its testimony at the hands of Mrs. A. R. Esmond. The use of unfermented wine is urged upon all congregations for communion. The Bible wine, shesaid, was unfermented and modern church wine should be like it. Meetings and lectures are used to spread information in this department. "Foak and Weeble."

A friend of mine had an odd way of mixing her words. Perfectly unconscious of it, she would often make folks laugh. She would speak of feeling "feak and weeble," for weak and feeble, and "castor ill polis," for castor oil pills. But she was weak and feeble, until she took that powerful, invigorating tonic, "Favorite Prescription." which so wonderfully imparts strength to the whole system, and to the womb and its appendages in particular. For overworked women, run-down women, and feeble women generally, Dr. Pierce's Favorite Prescription is unequaled. It is invaluable in allaying and subduing nervous excitability, irritability, exhaustion, prostration, hysteria, spasms and other distressing, nervous, symptoms, commonly attendant upon functional and organic disease. It induces refreshing sleep and relieves mental anxiety and despondency.
