ROSE STREET REGINA

REGINA CELEBRATES DOMINION DAY

Hot Weather and Large Crowds—Loose Jaw Man Wins Standard Road Race—Winners of Athletic Events—Regina and Brandon Win a Game of Baseball Each—Barnstormers Defeated.

July 1st was celebrated in a busy manner in Regina. There was practically something doing all the time. The weather was clear, bright and as hot a day as we have had this year. The town was crowded with visitors from different parts of Saskatchewan.

The morning attraction was the baseball match between the professional teams of Brandon and Regina, the former winning out by a score of 4-0. There was also a bicycle race at the fair grounds in the morning.

The attractions in the afternoon were at the exhibition grounds and the ivery men did a big business as did also the C.P.R. which ran trains to and from the grounds.

STANDARD ROAD RACE.

The first event was the Standard road race. There had been 21 entries for the race, but only the following 16 started:

N. B. Read, Fairville; Harry Turney, Pense; W. Forsythe, Caron; Jas. Gordon, Grand Coulee; Ed. Marat, Moose Jaw; Felix Penepalesse, Grenfell; Chas. H. Still, Rouleau; Chas. R. Swan, Fairville; Julian Heincke, Saskatchewan; Clarence Cosman, Regina; A. Birwhistle, R.N.W.M.P.; H. B. George, Regina; W. J. Peverett, Regina; Arthur Taylor, Saskatoon; Edward Jarvis, Regina; E. G. Fowles, Regina.

Jas. Balfour started the runners at 1.54. After running two miles Jarvis and Turney dropped out. Swan left the track after running two and a half miles. By the end of the fifth mile only six runners were left. Forsythe gave up after the eighth mile. The Indian gave up in the eighth, but was induced to go on again. He also gave up in the 9th, but was again induced to try and eventually won third place.

Marat came in first, beating Forsythe, who came next by 18 seconds. The Indian and Peverett had to race for third place. A little sprint on the part of the Indian overcame Peverett's lead and won for him the place. The first man in, in each mile, had his time recorded as follows:

1—Marat, 5 minutes, 40 seconds.
2—Forsythe, 11 min., 38 sec.
3—Forsythe, 17 min., 58 sec.
4—Forsythe, 24 min., 10 sec.
5—Forsythe, 30 min., 39 sec.
6—Forsythe, 37 min., 12 sec.
7—Forsythe, 43 min., 22 sec.
8—Marat, 50 min., 22 sec.
9—Marat, 56 min., 58 sec.
10—Marat, 1 hour, 3 min., 36 sec.

The winner holds a silver cup for one year. This cup practically ennobles him to the championship 10 mile foot race for Saskatchewan. He holds the cup for one year, but receives a gold medal for his own property.

The second prize is a silver medal and the third prize a bronze medal.

HORSE RACES

The horse racing events were held at intervals during the afternoon and resulted as follows:

The half mile free-for-all was contested by R. J. Hill's "Black Tom," and McPherson & McDermott's "Sam and Uel." The latter horse won the 1st, 3rd and 4th heats and the race.

The pony race 142 and under went 1st Hill's "Minnie B." 2nd Wright's "Black Tony."

The gentlemen's road race went as follows: 1st, Le Bleu, owned by J. F. Lunney; 2nd, Lou Bars, owned by J. F. Hole; and 3rd Billie M owned by W. H. Mulligan.

The Shetland pony race went as follows: 1st, Mulligan's "Mina," 2, McDermott's "Frank," 3, Loverock's "Gritie."

TUG-OF-WAR

The tug of war was won by a team composed of Grand Coulee Grain Growers. Other contestants were, two teams from the R.N.W.M.P., a team from the C.P.R. and one from the 95th regiment.

ATHLETIC EVENTS

The program under the direction of the Saskatchewan Amateur Athletic Association resulted as follows: 100 yards championship—1, F. Stewart, Y.M.C.A., Regina; 2, L. A. Draper, Wolesey; 3rd, D. W. Grant, Y.M.C.A., Regina. Time 11 1/2.

220 yards championship—1, Fraser, Wolesey; 2, L. A. Draper, Stewart, Regina; 2, L. A. Draper, Wolesey; 3, H. C. Wallace, Grand Coulee. Time 25 2/5.

REGINA ENTERTAINS

Many Famous Women—Travelling Party of Members of National Council Spend a Day in Regina and See Sights.

Many women of note from various countries were visitors in Regina yesterday. The travelling party of the International Council of Women which convened recently in Toronto and afterwards started on a tour across the continent, reached Regina at 9.15 over the C.P.R. They were welcomed at the station by a deputation from the Regina Council consisting of Mrs. Rothwell, Mrs. J. K. R. Williams, Mrs. Morell, Mrs. J. W. Smith, Mrs. J. R. Peverett, Mrs. G. C. Hill, Mrs. J. C. Pope and others. Mayor Williams and City Clerk Hunter were also at the depot. Carriages were in waiting at the station and the ladies were taken around the city and at eleven o'clock were dined at the King's hotel.

Before the meal was served, Mrs. Rothwell, president of the local council read the following address: To the Women's Council of Women: Ladies—It has requested by the Mayor to extend on behalf of the mayor and aldermen and the citizens of Regina a hearty welcome to the World's Council of Women on their visit to Regina.

"This city recognizes in common with the other cities of the Dominion, the great and beneficent work which the Women's Council is endeavoring to accomplish throughout the universe and in doing honor to you they feel that they are doing honor to themselves."

"The scope and range of your work and the amelioration of mankind includes amongst its aims the solution of many problems, which, if achieved, must prove of the greatest benefit to all."

"We pray that God in his infinite goodness may give you all strength to forward the good work and enable you, to extend your branches throughout the world, until the time comes, when there will be one universal brotherhood and a reign of peace."

"We trust that your visit to our city will be one of pleasure to yourselves, as it undoubtedly must be one of benefit to us, and that you will carry away with you some pleasant recollections of the capital of the Province of Saskatchewan."

Given in the name and on behalf of the citizens of Regina, this sixth day of July 1909.
After the meal, Madame Forget presided while the following toast list was disposed of:
"The King and Queen."
"The Rulers of Other Nations."
"The International Council," proposed by Mrs. Rothwell and responded to by Frau Strick of Germany.
"Our Guests," proposed by Mrs. G. C. Hill and responded to by Madlle Popelin of Belgium.
"The Press," proposed by Mrs. Scott and responded to by Mrs. Morrison of England.
From 12.30 to 1.30 the visitors were entertained by the Kannata Club in the rooms upstairs in the new Post Office where the guests were registered, the table around which the fathers of confederation sat being used for a register stand.
After leaving the city the visitors were driven to the R.N.W.M.P. barracks and then to Government House where they were entertained at a garden party until 9 o'clock.
After leaving Government House the ladies watched the football match between the teams of Indians and the Regina boys.

EVENING PROGRAM.
A public meeting was held in the city hall auditorium in the evening at which a very large number of Regina ladies were present as well as a

BIG MID-SUMMER FURNITURE SALE

Read this. Think of the sacrifice it means to us. A stock of between \$12,000 and \$15,000 worth to be slaughtered to the core in our Mid-Summer Sale of Furniture, and it will be a corker and record-breaker in the history of Saskatchewan. At least \$7,000 worth of this stock must move off our floor within the month of July. If slaughtering prices cuts any figure it will go in half that time. If there is any enterprise in the people of Regina and surrounding country they will be out early, purse in hand. It is the only weapon you will require to slaughter prices right and left and carry away the greatest values ever captured in Regina. Read carefully; it costs money to advertise. We are giving you our profit, therefore we have nothing to waste. Here are a few of the many values we will offer:

Battan Rockers, large size, regular price \$6.00. Sale Price..... \$3.65	Many other Couches at same reduction.	Dining Room Chairs, hardwood, regular 85c. Sale Price..... 60c	BUFFETS A Beautiful Buffet, quarter cut oak finish, regular \$32.00. Sale Price..... \$21.75 Select Quarter Cut Oak Polished, regular \$36.50. Genuine Leather Couch, early English frame, regular \$42.00. Sale Price..... \$32.25	A Select Quarter Cut Oak Table, regular \$28.50. Sale Price..... \$21.50	Many other lines which we have not room to quote at same reduction.	
Leatherette Couch, genuine oak frame, regular \$30.00. Sale Price..... \$22.25	Very Heavy Quarter Cut Oak Polished, regular \$36.50. Sale Price..... \$24.85		
	Kitchen Chairs, regular 70c. Sale Price..... 55c		

Enamelled Beds, Parlor and Hall Furniture, Window Shades and Poles, in fact everything in our store at equally reduced prices. Room Moulding and Plate Rail at factory prices. A few Baby Carriages at about half-price. We haven't space to quote prices, but everything will be marked in plain figures at prices that will convince you that we sell as we advertise. The old saying goes: "The proof of the pudding is the eating thereof." All we ask is that you come in and prove our bargains. We are out for business. You come out for bargains and we will all get what we are after.

GENERAL NEWS

HAIR DOES DAMAGE

Indian Head, Sask., July 5.—A thunder storm swept over this district yesterday afternoon. The crops are now in shot blade and hail which fell has done considerable damage in the Wide Awake district. It is impossible to estimate the damage exactly, but it is figured to be from \$100,000 to \$200,000.

OLD RESIDENT FOUND DEAD

Swift Current, July 4.—Dave Ellams an old resident of this part of the country, and general store keeper of Ellams & Campbell, Saskatchewan Landing, was found dead in the dam at the landing today by James Stewart. The police came to town for Coroner Hoppin, who has gone out to hold an investigation.

REBUILD ELEVATOR

Carlyle, Sask., July 3.—The Carlyle Farmers' Elevator company at its annual general meeting this afternoon, almost unanimously passed a resolution that a 25,000 bushel elevator, costing about \$6,000 be built to replace the one burned last winter. The question of whether it be built on the C.P.R. or the proposed C.N.R. was left with the directors.

PROBABLY DIAMONDS

Aberdeen, Sask., July 5.—A. J. Derken arrived in town today with a pocket full of stones resembling diamonds in the rough. Some are of a dark brown color and will cut glass as well as a diamond. The stones were found incased in a peculiar rock. Samples have been sent to Toronto and New York. The town is greatly excited over the discovery.

TRAINS HELD UP

Swift Current, Sask., July 4.—Three passenger trains will be held here all night owing to six hundred feet of track being washed out eight miles west of here this afternoon. The rain fell in torrents and swept out the grade of the right of way in places. Passengers from the three trains joined in an open air service here tonight conducted by Revs. Dalgleish and McKecknie.

EDITORS AT SASKATOON

Saskatoon, July 5.—The touring Michigan editors, who arrived here last night, left at noon for Battleford. The visitors were entertained here to an auto ride about the city, and spoke in warm praise of Saska-

toon's location. They also declare that the crops in Saskatchewan look much better than at other points, an abundance of rain in this province having made conditions ideal.

FASTED FORTY-NINE DAYS

Los Angeles, Cal., July 4.—Mrs. D. Hoag, of this city, has set at naught all records for fasting by abstaining from food for 49 days. Beginning her fast on Monday, May 17, the woman partook of no food until today, when she ate a small canterjoup. During this period she has done her housework and cooked the family meals. Mrs. Hoag claims to have cured herself of several physical ailments by her long abstinence.

HOLD INDIAN POW-WOW

Vancouver, July 3.—Sam Stewart of the Indian Department, Ottawa, is here and will go north with Judge Vowell to hold a big pow-wow with the Indian chief on the question of reserves and fishing rights. The officials believe that no trouble would have occurred in the north had Chief Joe Capilano not got the Indians to think that they owned the whole northern country and should go to the King about it.

GOOD CROPS

Ottawa, July 4.—The following is a copy of a telegram just received from Dr. Saunders, director of experimental farms, by the department of agriculture: "Crops throughout Manitoba are looking well. Will average a shorter crop than crops in Saskatchewan and Alberta, due probably to later sowing. Now growing rapidly. Weather very favorable. At Brandon experimental farm the crops are in excellent condition and well advanced."

BOY KILLED BY HORSE KICK

Moosomin, Sask., July 3.—A sad accident occurred eight miles south of here last night about ten o'clock when R. E. Roe, son of Robert Roe, lost his life. The boy who was 13 years of age, was attending a horse in the forebay. His parents immediately brought the injured lad to the hospital here, arriving about midnight, but in spite of all the doctors could do the boy succumbed to his injuries at 2 o'clock this morning.

PREFER TEETOTALERS

Sharon, Penn., July 4.—The Carnegie Steel company is drawing the lines tighter than ever on the question of prohibiting employees from drinking intoxicating liquors while on duty. Notices are placed in conspicuous places in the mills of the

district yesterday govern the matter of drinking while on duty. They are to the effect that each man must refrain from intoxicants. Employees who are total abstainers will be given preference in promotions. In hiring new men also abstainers will be given preference. The men also are given notice that whoever drinks heavily, or even occasionally becomes intoxicated, will be subject to dismissal.

END OF KINRADE CASE

Hamilton, July 3.—The marriage of Miss Florence Kinrade and Montrose Wright in Madison avenue Methodist church, New York, Monday will bring about two things—the end of the Kinrade case, and the close of Mr. Wright's career as a Methodist probationer. According to the discipline of the Methodist church, he cannot now become a minister. The discipline states that any man studying to be a minister must not marry until he has been ordained. If he marries before his ordination, he is "silently dropped." It was stated some time ago that Mr. Wright intended to drop his theological studies and his marriage in New York indicates that this report was true.

LABORERS THREATEN STRIKE

Saskatoon, July 4.—The Federal Labor Union was sitting here till 4 o'clock this morning discussing the failure of the city council to relieve the conditions under which unskilled laborers are placed in the city contracts, and finally made application under the Lemiex Act for a board of conciliation recommending E. J. Stephenson as their representative on the board. The application goes forward today, and states that failing an adjustment of the dispute there will be a strike. The matter, calling for adjustment are the providing of proper cribbing in excavations, proper sanitary appliances for the men, an increase in pay from 15 cents to 25 cents an hour.

HANGED TO A TREE

As we go to press information reaches us of the finding of a body of a man hanging to a tree about one mile from O. W. Daunais' ranch. The name of the dead man is not known, but it is thought he was a German, and lived somewhere south. He was last seen alive on Friday last, when he made some enquiries at Mr. Daunais' house, at which time he was driving three oxen hitched to a wagon. Later the oxen were found with Mr. Daunais' herd, and suspicion thus aroused, a search party was organized which resulted in the finding of the body at ten o'clock this

morning. Notches had been cut in the tree to enable climbing, showing that the act was a deliberate one. In the wagon was an overcoat, in the pocket of which was found \$548 in cash. The R.N.W.M.P. are now investigating the matter.—Battleford Press.

TRAIN ROBBER IDENTIFIED

Vancouver, B.C., July 3.—The engineer and fireman of the C.P.R. train which was held up two weeks ago at Ducks, have identified the body of the man shot by Constable Decker on Monday night at Ashcroft as that of the leader of the three train robbers. The dead man is the man who held up the engineer after crawling over the tender. It is admitted that Constable Decker's murderer, the second train robber must have escaped from that part of the country. The tired posse have returned to Ashcroft after days of fruitless search. It now transpires that the desperado has crossed the road near the Cornwall estate was accosted by him and asked: "Are you the man who shot my partner yesterday?" The man told the murderer that he knew nothing of the affair and returned to town to inform the officers.

ROSEBERY TO QUIT LIBERALS

London, July 3.—Lord Rosebery has at last decided to break the ties that still bind him to the Liberal party and he will pronounce his reasons for so doing in a letter which is to be read at a meeting of the Liberal league. This will mean his complete and formal severance from the party with which he has been associated throughout his political career. He has had this step in consideration for some time and he came to the decision before his recently issued manifesto on the budget which was intended to be the first hint of his approaching defection. Strenuous efforts are being made to make him change his mind and induce him to still keep up an attitude of benevolent neutrality toward the old party. It is not expected, however, that these efforts will succeed, as it is chiefly his desire to have a perfectly free hand in discussions on the budget that has impelled him to cut off all his Liberal connections.

WIRELESS FOR THE NORTH

Edmonton, Alta., July 2.—Experiment in wireless telegraphy by which it is proposed to establish a station on the Peel river, 2,000 miles north of Edmonton, by which direct communication will be provided between the Arctic circle on the east side of

the divide and the great centres of civilization will be conducted by O. Nohn, government experimenter at the coast wireless stations, who reached the city and will accompany L. R. Warn, a miner, to the far north. The station to be established by Mr. Nohn will give direct telegraphic communication between Warn's camp on the Peel river and Seattle, via the wireless stations at Eagle, Valdez and Vancouver. Mr. Nohn will operate the apparatus himself and expects to make the venture a success. It will not be necessary to erect a tower at the station on the Peel river, from which Mr. Nohn expects it will easily be possible to effect a communication with Eagle station.

TO COMMEMORATE PEACE

Ottawa, July 5.—The suggestion made by Hon. W. L. Mackenzie King at the Harvard commencement last week that Canada and the United States should fittingly commemorate the hundred years of peace between the two countries by the erection and dedication of some striking international monument, is likely to bear fruit in the joint action of the governments at Washington and Ottawa. It is known that Sir Wilfrid Laurier is thoroughly in accord with the suggestion of the minister of labor, and it is not at all improbable that steps will be taken by the co-operation of government to invite the co-operation of the United States government in arranging for a celebration of the hundredth anniversary of the close of the war of 1812-14. It is felt that the time is opportune for the new world with its three thousand miles of international boundary, without a sign of fortification, to point in some effective way a moral to the armed camp of Europe.

MILLIONAIRES FOR JAIL

San Francisco, July 2.—Jail sentences for five millionaires, with no alternative for bail, was provided by Superior Judge A. M. Sewall this morning, and deputy sheriffs are now out hunting the men who have been ordered into custody. They are: H. Miller, forty times a millionaire, and head of the firm of Miller & Lux, one of the greatest cattle raisers in the world; J. Leroy Nicol, Edward E. Allen, L. F. Montague, and Gustave Gotch, all millionaires and trustees of the firm named. The issuing of the warrants grew out of the failure of the five men to pay to Mrs. Melissa Potter \$22,902 dividends on stock she owns in the Miller & Lux corporation. They wanted her to take stock

in the company's Nevada corporation instead of dividends. She refused the offer and three weeks ago secured from Judge Sewall an order directing them to pay the dividend. They were given until today to comply with the order, and were informed that if the money was not paid they would be judged in contempt of court.

HAULED DOWN FLAG

Stanford, Conn., July 4.—Because he flew a British flag on the Mainmast of his vessel here today, Capt. C. B. Merriam of the British schooner King Josiah, aroused the ire of some patriotic Americans, and they made complaint to the police. Chief of Police Brennan went down to the canal and had a talk with Captain Merriam after getting half a dozen complaints by telephone, and the captain hauled down the British flag. "It is ridiculous," he said, "to find fault with the display of my flag. I ran it up as a mark of respect to the United States. I have done the same thing many times in Boston, New York, and other American ports and no complaint was made. In fact it would be disrespectful to the United States if I did not run up my flag on this holiday. If I happened to be in a foreign port, say in Spain or Italy, and didn't display my flag on a holiday the captain of the port would order me to do so. I was trying to do the nice thing, that was all." Capt. Merriam is a Nova Scotian.

CANADA'S FRUIT CROP

Ottawa, July 5.—The following report on the fruit crop of the Dominion has been issued by the dairy and cold storage commissioner's branch of the department of agriculture: "The weather conditions in Canada were favorable throughout June for fruit development. Eastern Canada will have a large crop of winter apples from the present indications. Early and fall varieties will not yield as heavily. The apple prospects in British Columbia will not reach the average. An average crop is expected in the commercial pear section of Ontario. Plums are estimated somewhat lower, generally, since the heavy bloom, but are showing for an average crop, except in British Columbia, where the crop will be light. Early peaches are reported as a medium to full crop; late peaches are medium. "Currant" is very prevalent, affecting cherries particularly. In grapes concedes promise a full crop, and white and red grapes medium to full crop. Cherries will be a good average crop. The small fruits promise well everywhere. The strawberry in Southern Ontario are a very

large crop. Insect and fungus diseases are fairly prevalent, but comparatively little damage is reported yet, except from the canker worm in Nova Scotia."

TRAGEDY AT STETTLER

Stettler, Alta., July 2.—A dreadful tragedy occurred yesterday when a Bohemian homesteader named Antoine Wolrich shot and killed his wife. He has disappeared but a posse of farmers and police are scouring the country for him. Wolrich had a homestead about three miles north-east of Stettler. Wolrich and his wife recently had domestic differences and on the afternoon of Dominion day during the absence of his children at Stettler celebration, Wolrich shot and killed her. He sent his eldest son, a youth about sixteen, with a message to John Rottenfusser, a neighbor together with a pocket book containing \$28 in bills to be used for his children. Wolrich stated that he had drunk carboic acid, and when his son last saw him, he was making for the brush. As soon as word reached here this afternoon Town Marshall Causey in the absence of the mounted police set out with the coroner, and on reaching the scene of the tragedy found the woman's body partly naked and covered with blood in the cellar. The murdered woman is Wolrich's second wife and they were married last fall. He had a family of six children by his former wife, five of whom had lived with him. At the time of writing no trace of the missing man has been found.

Taking the Winter Off

Mrs. Carrie Nation said on the Baltic that she would be glad to get back home. "I felt as homesick over there in Europe," she sighed, "as the Philadelphia young man who took up a Dakota claim. "A tourist found the Philadelphia claim stantly boarded up and this notice rudely painted on the door: "Six miles from a neighbor, eighty miles from a post office, forty-nine miles from a railroad, two hundred from timber, a half mile from water. God bless our home. We have gone east to spend the winter with my wife's folks."

A little girl had been rumaging in her mother's trunk. There she found a "church letter" which her mother had neglected to present to the church in whose neighborhood she had moved. The little explorer rushed into her mother's presence shouting, "Oh, mamma, I've found your religion in your trunk!" There's a needle like point in that story for many people.

WEDNESDAY, JULY 7, 1909.

Dominion Day.

The recurring anniversary of the natal day of the Dominion finds us always able to record growth, says the Montreal Star. This may seem like a trite remark, for we have much in our mind the parallel case of the human being to whom a year usually brings growth either of mind or body; but when we look abroad upon the nations, how many of them can confidently count upon growth as the guerdon of years? In this thriving hemisphere, we see growth all about us; but we have only to cross the sea in either direction to find nations which hardly know the meaning of the word. The growth of Germany is the dynamic fact in European politics; and it is largely so because it is not matched by any other European country, except possibly Russia.

But Canada is not only growing—it is facing the most promising opportunities for future growth which invite the optimism of any country on earth. We are larger than the United States and have far more natural wealth untouched. Yet we have a population of only about one-tenth of that of our neighbors. That means that we have that much more room for growth. Australia is the nearest parallel; but it is the simple truth that our southern cousin does not attract the overflow of either Europe or the American republic as we do. The South American republics are growing—some of them with the help of our money—but they lack British sympathy and support and possess by no means our magnetism for the immigrant. Nowhere else can we find even the basis of a comparison.

We are familiar to satiety with the statistics which show exactly how rich we are and how rapidly our wealth has been increasing. We are the wonderland of the modern world. Nowhere else is there a half-continent which has developed so rapidly or which promises so lavishly. But we must never forget the conditions under which our success has come and is promised its increase. One of these conditions is staple government. That we are not likely to lose unless we permit the cancer of "graft" to eat more and more deeply into our public life. Another condition is absolute national safety without carrying an undue burden of national defence. That we get from British connection; but we would lose it if that connection were cut, for what is a nearer danger—the power of the British empire to protect us were broken.

Then if we are to get the most out of our opportunities, we must conserve our natural resources for the people. The exploiter, the political camp-follower, the greedy corporation, must be kept from "hogging" them whole. They constitute a great temptation. Possession of them may mean a fortune in a few years. But we must compel our parliament to stand guard over them in the public interest and never to act as accomplices of the predatory interests, in their eager search for opportunities to seize upon the heritage of all. A vast and fabulously valuable trust such as we possess can only be employed by constant vigilance and unceasing courage.

Recent expressions of opinion in the motherland have revealed to us the flattering and yet steady fact that Canada is there looked upon as the rising hope of the British Empire. We ought to get a vast population here within the next half or quarter century, and if we keep it British, its potential strength will become one of the dominating factors

of international politics. Canada will be in the happy position of being able to exercise this power, without carrying the burden of European armaments, just as the United States with its navy has today one of the voices for which the governments of the world listen. Still it will be essential with us—as with the Americans—to have some striking force; and that should be our care as our population grows.

The future was made possible on the occasion we are commemorating today. If there had been no confederation of the Canadian provinces, there would have been no broad foundation here for one of the piers of Empire. Just as the unions of Australia and of South Africa were necessary steps towards the consolidation of these British communities into bases for the world-wide British structure, so the union of the Canadian and the Maritime provinces opened the door to all the development which has followed. The Dominion was not complete until we had reached the Pacific, and brought in the garden province of Prince Edward Island; and there would be great gratification among the watchmen on the towers of empire if the circle were enlarged to include the sentinel colony of Newfoundland.

The point to remember, however, is that the men who laid the foundations of confederation were Empire-builders in the highest sense; and we cannot do them too much honor in this section of the Empire where we especially benefit by their work. Dominion Day may well be the great Canadian holiday of the year. It comes in an ideal season for holiday making; and it requires no effort to give vent to our enthusiasm. But while we are enjoying the day and cheering the Dominion, let us not forget the momentous event we celebrate nor the brave band of patriotic optimists who dared all sorts of political perils and navigated the ship of Union by many a perilous shoal.

Editorial Notes.

Hon. Wm. Pugsley didn't tell us when McAvity was going to hand back that money.
 Several Socialists in Winnipeg have been arrested and convicted for obstructing the street. They went to jail rather than pay their small fines. They claim they have as much right to speak on the street corners to crowds as the Salvation Army.

The two members of the 96th regiment which were handed over to be dealt with by Magistrate Trant each received thirty days. The attitude of the officers of the regiment deserve censure for their action. There can be no justification for bringing the men into the magistrate's court. The officers had the authority to deal out punishment to the culprits themselves and their action in this matter indicates a lack of capacity.

All kinds of rumors are in circulation about the National Continental Railway, since the retirement of Mr. Lumsden, the chief engineer. One thing is obvious to all, however, and that is that the road has cost vastly more than it should have. The company are in financial straits and may not be able to complete their work. As soon as the next session of the house is called another demand will be made for more money or else the G.T.P. Co. will ask the country to take the road off their hands. The company are not in a position to take over the operating of the parts of the line completed because they have not money enough to secure locomotive power and rolling stock. The road has cost so much that the fixed charges will be so great that

there will be no profits at ordinary rates. Unless the government gives some more concessions to the company it is probable that they will attempt to unload the line on the government.

Press Comment.

(Bylander in Toronto Sun.)
 The financial state of Germany is far from being such that she can well afford to rush into war, and she would certainly, if she were seen to be rushing into war, not find it easy to borrow. Commercially jealous of Great Britain, she may be; but commercial jealousy must have reached a great pitch before it can prompt to a most dangerous war. The real point of danger seems rather to be Japan, into whose arms British diplomacy has thought it polite to throw itself. There can be little doubt of the restless ambition working in that quarter, or of the temptation held out to it by the prospect of a lodgement on the opposite side of the Pacific. India is another possible if not probable source of trouble. If Islam of Turkey should break loose and the contagion should reach Islam in Hindostan.

Edmonton Makes Powder.

It is not generally known that one of the products manufactured in Edmonton is a smokeless, odorless blasting powder, which has the further advantage of not exploding from any amount of concussion, but only when ignited in a tight chamber. There was shipped over the C.P.R. from this city on Saturday twenty kegs, comprising one car load of this blasting powder. It was put up in kegs numbering about 500 and shipped direct to Vancouver, where it will be put into use in mining operations at the coast. The freight on the shipment alone was over \$700.

Fire at Cobalt.

Cobalt, Ont., July 2.—The biggest fire ever known in Cobalt broke out at four o'clock this morning in the restaurant of Joe Lee, a Chinaman, on the Halesbury road. The facts of the fire are as follows: Two thousand are homeless, half a mile of streets are in ruins, \$300,000 of damage was done, less than \$50,000 of which is covered by insurance, and one man is dead. The cause was an overheated stove in a Chinese restaurant.

The town was aroused by the fire alarm at 4 a.m., and the firemen found a vigorous blaze among the jam of wooden shacks and crazy wooden buildings on the Halesbury road in the north part of the town. The fire had started in a mass Chinese restaurant which was a mass of flames. A good stand was then taken on the west side of the street at the Gordon & Davis meat market, where wet blankets were placed on the roof, but the flames leaped the street and ignited another laundry in the north end, and in the best part of the town, to the south of the fire and the firemen strove to keep the rush of flames from the Imperial Bank and the Cobalt square. They were successful in this, but the wind overed and drove the fire to the packed rabbit warren of "Frenchtown," where Greeks, Sicilians and other foreigners lived. The fire made great headway. Frightened men and women, many of the latter carrying babes, and all in scanty attire, began to fill the streets with weeping as they tried to save their belongings. The heat was so intense that

I expect to pass through this world but once, if, therefore, there be any kindness I can show, or any good thing I can do, or any fellow human being, let me do it now, let me not defer or neglect it, for I will not pass this way again.

SHOOTING AT WADENA

A. D. Fraser, a Farmer, Shot Down in Cold Blood—Hainer, the Self-Confessed Murderer, Claimed Money.

Wadena, Sask., July 2.—Further developments in the Fraser shooting tragedy at Margo indicate a cold blooded brutal murder and Sanford Hainer is now under arrest, the self-confessed slayer of Alfred David Fraser. After the preliminary hearing held at Margo, Hainer told the story of the shooting in a cool manner and expressed pleasure on learning that he had done his fiendish act so thoroughly. The few statements made by Hainer would indicate that some financial dispute existed between himself and his victim. About one month ago he wrote Fraser stating that unless this was settled satisfactory to him he would shoot him on sight. On the morning of the tragedy Hainer proceeded in search of his victim and found him plowing in a field adjacent to Fraser's house. Fraser had just completed a tank and was in the act of taking a drink of water. Hainer from a position about 100 yards distant drew a bead upon his man and called out that he was going to shoot.

Fraser replied "don't shoot," and immediately began to run for the house. Hainer then fired three shots, the first missed his victim and lodged in the hip of the horse; the second entered Fraser's shoulder, but he did not fall, the third entered the head about two inches from the top and smashed the skull causing instantaneous death. Hainer then, it is said, calmly withdrew without examining his victim. The prisoner expressed regret that his early arrest did not permit him to make a similar end of Messrs. Sayforth, Hilliard, and McDonald, against whom he appeared to also have a grudge.

Complete reports regarding the arrest of the prisoner confirm the good judgment displayed by those who had it in hand. That Hainer was desperate and placed no value on life could be seen by his actions. He was fully armed with two rifles and a revolver with plenty of ammunition. All night he watched in his hand around his house guarding every window and door. S. Barth and Corporal Abich erected a breast work close in to the door, while Harrop and Brentison secured cover behind a bush close to a window and Messrs. Ainley, McNiel and Culp guarded the road from the house.

In the morning when the prisoner appeared at the door with his rifle in hand he was commanded to throw up his hands. He refused and endeavored to raise his gun but a couple of shots drove him to cover. He broke for the window, but was again met by shots and seeing the game was up he came out and surrendered.

Stanford Hainer is a young man about 25 years of age and a native of Stafford, Ont. He came to Yorkton six years ago and after two years there moved to Margo and took up a homestead. Fraser was about 28 years old and came here from Pilot Mound about five years ago. He played in Margo football team and took a prominent part in the social life. His remains were shipped to Pilot Mound on the request of his father who resides there.

At the coroner's inquest a verdict was found "that Alfred David Fraser set on July 1, 1909, about half past ten in the forenoon, met his death on his homestead near Margo, by bullet wounds inflicted by some other person, and we the jury are of the opinion that Sanford Hainer did the shooting intentionally."

Put a little "Sunshine" in your home

An old-fashioned, ill-working furnace is a non-producer. It consumes the coal, but through leaks and cracks wastes the heat. It is not economy to have such a furnace in your own home, or in your tenant's home.

If you are thinking of building you should be interested in Sunshine Furnace. It adds 100 per cent. to home comforts.

As soon as you let the contract for your house decide on your furnace. The "Sunshine" man will be pleased to tell you just how the rooms ought to be laid out with an eye to securing greatest heat from the smallest consumption of coal.

If you want to experiment with the question don't specify "Sunshine."

If you want to settle the question specify "Sunshine."

ails that has ever been written, and he has produced hundreds of miscellaneous compositions for band and orchestra.

Since 1903 until recently, Mr. Chambers has been in Europe and his successes there were even greater than were his successes in America. He passed from music-centre to music-centre and was listened to by the world's greatest musicians and composers. He played before the nobility of Germany and England, including King Edward and Emperor Wilhelm of Germany.

A Fly Killer.
 The Lancet, an English medical journal gives the following remedy for destroying flies. "In our experience the best exterminating agent is a weak solution of formaldehyde in water (say two teaspoonfuls to the pint), and this experience has been confirmed by others. It would appear that flies are attracted by a weak solution of formaldehyde, which they drink. Some die in the water, others only get as far as the immediate vicinity of the plate of water, but all ultimately succumb, and where they occur in large numbers hundreds may be swept up from the floor. It is surprising to know that by this method of the flies have died under a fluid that is fatal to disease organisms, a fluid which is innocuous and for practical purposes non-poisonous. The method at once provides a means of diminishing the scourge and of eradicating to some extent what is most desirable the distinction of the class.

CANADIANS IN ENGLAND

Earl Grey and Several Canadians Speak at Banquet in London on Dominion Day—The Part the Colonies Should Play.

London, July 2.—The celebration of Dominion Day in London took the form of a banquet at the White City. Lord Strathcona presided over an unusually representative and distinguished gathering, including Prince Francis of Teck, the Duke of Argyll, Earls Grey, Crewe and Aberdeen.

The animals had stood the trip to Regina very well. Toronto, July 2.—I think I can present lots of evidence to prove that cigars and tobacco are drugs.

Earl Grey in responding was enthusiastically received. He declared that though other Canadians might be more eloquent, he would not allow a single one to claim deeper affection for or greater belief in Canada than he, (cheers.)

Proceeding he anticipated with assurance the time when Canada would become a prominent factor in the empire. "What a Canadian can shrink from such a destiny," he asked amid cheers.

Mr. Fielding, in a speech full of national fervor, said, as Earl Grey had declared, if Canada were true to herself and true to British traditions she would build up a nation of which she would be proud and the empire would be proud as well.

He claimed that Canada had made progress in wholesome imperialism. "Good enthusiastic friends will produce statistics showing how many shillings the British citizen pays for defense of the empire and how many half pence Canadians pay.

Canada has a great continent to develop. Her developments of communication was nothing to the empire. He did not say "Canada should do nothing more, but it was not necessary that everyone should think in great movements like that coming upon us.

Mr. Olivet proposed in eloquent terms the toast, "Our Guests," referring to their number and distinguished positions in happiest fashion.

Mr. Borden followed. He referred to the first harmonious relations between overseas and the mother-country, and said that Canadians desired that there should be co-operation in all that concerned the interests of the empire.

ENGINEER RESIGNS

Hugh Lumsden, Chief Engineer of the Transcontinental Railway Commission Tires of the Job—Question of Classification Probably the Cause.

Ottawa, June 28.—The resignation of Mr. Hugh D. Lumsden, chief engineer of the Transcontinental Railway Commission, which was announced yesterday afternoon by the government, came as no surprise to those who have been following the course of recent events in connection with the construction of the great national railway.

As long ago as 1870 Mr. Lumsden was in charge of the location of the northern portion of the Toronto and Nipissing Railway, and so well was his work done in those early days his experience has been in constant demand in similar cases ever since.

Mr. Lumsden is an Aberdeenshire man by birth and the son of Colonel Thomas Lumsden, C.B. After a Liberal education in England and Scotland he went to Canada in 1861, when he had attained the age of 17, and at once began the study of engineering.

"There was no personal friction," was the reply. The chairman of the board declined to speak more fully, but it is learned that for some time things have not been going smoothly. It may be asserted without fear of successful contradiction that behind the whole matter is the eternal question of classification, as applied to the construction work on the National Transcontinental Railway.

There was no personal friction, was the reply. The chairman of the board declined to speak more fully, but it is learned that for some time things have not been going smoothly.

INDIGESTION ENDS

You can eat anything your stomach craves without fear of a case of indigestion or dyspepsia or that food will ferment or sour on your stomach if you will occasionally take a little Diapiesin after eating.

Your meals will taste good, and anything you eat will be digested; nothing can ferment or turn into acid or poison or stomach gas, which causes Belching, Dizziness, a feeling of fullness after eating, Nausea, Indigestion (like a lump of lead in the stomach), Bloatingness, Heartburn, Water-brash, Pain in stomach and intestines or other symptoms.

Headaches from the stomach are absolutely unknown where this effective remedy is used. Diapiesin really does all the work of a healthy stomach. It digests your meals when your stomach can't. Each triangle will digest all the food you can eat and leave nothing to ferment or sour.

Get a large 50-cent case of Pape's Diapiesin from your druggist and start taking today and by tomorrow you will actually brag about your healthy, strong stomach, for you can eat anything and everything you want without the slightest discomfort or misery, and every article of impurity and gas that is in your stomach and intestines is going to be carried away without the use of laxatives or any other assistance.

Land Rush at Lethbridge. Lethbridge, Alta., July 5.—Not since the opening of pre-emption land last September, has there been such a rush at the Land Office as there was this morning.

The three engineers returned the other day from an inspection of the necessary section condition was alleged. One section complained of was district F, from Winnipeg to Lake Superior junction, under contract to J. D. McArthur; the other was on district B on 50 miles west of Quebec, and on the McDonald and O'Brien contract. It is believed that while no report has yet been made, Mr. Lumsden, from his personal observations, reached the conclusion that the charges made were perhaps all too well founded and that certain of his staff have been acting in a manner that does not meet with his approval.

By the time the office opened there was a crowd of two hundred or more waiting. Acting agent J. A. Reid turned the key and then two hundred men and women made a mad rush for the narrow opening. The structure strained and nearly broke, and the human barricade was nearly carried away, but finally the mass came to a stand, and the first man got in to file on what is as good as \$3,000, \$4,000 at a cost of \$10 and a night's sleep.

One by one they were let in and passed by. The staff handled over 350 applications, cleaning the bunch up in one day and practically all the Bad Water land is taken up.

MERE MAN DISCUSSED

Women at Congress Says Harsh Things of Sterner Sex—Deplore Lack of Chaperone These Days—Canadian Women Lazy.

The women who are attending the congress in Toronto are saying some nasty things about the other sex. The following from the Toronto News will explain:

The wrath of woman was kindled and the might of man crumbled to the dust. With a frankness and directness and are that has not previously been apparent, the woman of the congress drove home sensational charges against the infamy of man before the section on "Laws that Affect Women and Children," this morning.

The ultra-fashionable and ultra-rich men and women of Britain were formed by Mrs. Symes Thompson, a delegate from Great Britain as:

"That smart set, that small and vulgar set, carrying on to the intense disgust of all right-thinking people."

And again: "Those vulgar, well-dressed women, who rush off with another woman's husband."

The words came as the fire end to a paper on "Marriage Laws and Divorce," read by Mrs. E. B. Granis, of the United States.

Discussion did not have to be invited. It came the moment the speaker had resumed her chair.

"It is shameful," pursued Mrs. Thompson, "the indifference to propriety which marks so large a portion of this generation. The old-fashioned chaperone is almost unknown today."

"One half the women in asylums are there because of their husbands, and one-half the women in their graves are there because of their husbands."

This last from Dr. Augusta Stow-Gullen, of Toronto.

Chartered banks. This is remarkable for a town that is only about a year old. These institutions realize Melville is a coming financial centre, and have lost no time in getting their share of the business. Reports from the surrounding districts show that the crops are progressing in a phenomenal manner. Cool rains, followed by warm days, have made the wheat grow as though by magic, while the growth of the garden stuff during the past month has been truly wonderful. The Saskatchewan government has arranged to connect Melville with their telephone system and give a local service. The board of trade is in communication with parties regarding putting in electric lighting and erecting a flour mill, both of which are expected to be erected this season. Besides the two large hotels now doing business, J. N. Pomereau, hotel owner, of Edmonton, is building a large up-to-date hotel on the corner of Main and Third avenue. The excavation for cellar and foundation is completed, and the actual work of building will start right away. The board of trade have been receiving enquiries regarding the location of several industrial enterprises, which shows that the interest is widespread in regard to our coming city.

IN THE SURROGATE COURT OF THE JUDICIAL DISTRICT OF REGINA. IN THE MATTER OF THE ESTATE OF EMILY GARAWAY, DECEASED. PURSUANT to the order of the Honourable Mr. Justice Johnstone, dated the 15th day of June, 1909, creditors of the above estate are requested to file their claims against the said estate with the undersigned at the City of Regina in the Province of Saskatchewan, on or before the 23rd day of August, 1909, verified by statutory declaration, and with a statement of the securities, if any, held by them. Creditors failing to file their claims by the above date will not be entitled to share in the distribution of the said estate. Dated at Regina this 23rd day of June, 1909. ALLAN GORDON & BRYANT, Barristers, Regina.

TENDERS. Tenders will be received by the undersigned up to the 15th inst for 30 to 50 loads of S'raw (loose). 6 tons Bone Grass (baled). 6 tons Timothy or Prairie Hay (baled). To be delivered on the Exhibition Grounds not later than the 25th inst. L. T. McDONALD, Sec'y and Mgr

Chapter Four

THE scene is at Hazelby, Lord Dunstanbury's Essex seat. His lordship is striking the top of his breakfast egg.

"I say, Cousin Meg, old Brownlow's got a deuced pretty kitchen maid."

"There you go! There you go! Just like your father and the English people had any spirit they'd have swept the Dunstanburys and all the wicked Whig gang into the sea long ago."

"Before you could turn around they'd have fought it up. And then they'd won an election by denying it to ships at a small fee on Sundays," said Mr. Pindar.

"Why are Whigs worse than Tories?" inquired Mr. Pikes, with an air of patient inquiry.

"The will of heaven, I suppose," sniffed Lady Margaret Duddington. "To display divine omnipotence in that line," suggested Mr. Pindar.

"A deuced pretty girl!" said Dunstanbury in reflective tones. "He's doing his best to reproduce the impression he had received at Morpington hall, but obviously with no great success."

"On some pretext, frivolous though it be, let us drive over and see this miracle," Pindar suggested. "How could we better employ this last day of our visit? You'll drive us over, Percival?"

"No, thank you, Mr. Pindar," said the young man, resolute in wisdom. "I'll send you over if you like."

low was small comfort from Lady Meg. She got a stiff touch of the truth.

"What is she now, Mrs. Brownlow?" asked Pindar, with a sly intention. "Was this Percival's deuced pretty girl?"

"The girl!" his eyes signalled to Mrs. Pikes. "Let Lady Meg see her!" she urged insistingly.

"I don't want to see her, and I know your game, Pindar," said Lady Meg. "I'm afraid she must go," sighed Mrs. Brownlow.

"Everybody in my house is a slave to the rest of me," said Pindar. "Will you have me taught?"

"Lady Meg looked hard at her. For the first time she smiled, rather grimly. "Yes, I'll have you taught, if I may have your reasons for England and, if you behave yourself, the emperor of the French—Lord help him!"

"Not unless she behaves herself!" murmured Mr. Pindar. "Hold, your grace!" Pindar said. "Now, do you see?"

"Let her go her own way," Mrs. Brownlow made bold to say for a moment. "Such a funny mark! Many people wouldn't like it, I'm sure."

"A mark on her face," Lady Meg turned sharply on her. "What do you mean?"

"A mark on her face," Lady Meg turned sharply on her. "What do you mean?"

ingling Miss Julia's pardon. "Be sure she'll do admirably at it. But a poor affair it is."

"The real thing," Julia saw Sophy's eyes grow thoughtful. "The world—since—London—Paris—Geneva, and wherever—Lord, I thought I should show you, and I'll show you that."

"What shall I do if I come with you?" "Do not eat and drink and waste time and money, as the rest of me," said Pindar.

"Of course," said Mr. Pindar, with a placid smile. "I shall be a servant again!"

"Everybody in my house is a slave to the rest of me," said Pindar. "Will you have me taught?"

"Lady Meg looked hard at her. For the first time she smiled, rather grimly. "Yes, I'll have you taught, if I may have your reasons for England and, if you behave yourself, the emperor of the French—Lord help him!"

"Not unless she behaves herself!" murmured Mr. Pindar. "Hold, your grace!" Pindar said. "Now, do you see?"

"Let her go her own way," Mrs. Brownlow made bold to say for a moment. "Such a funny mark! Many people wouldn't like it, I'm sure."

"A mark on her face," Lady Meg turned sharply on her. "What do you mean?"

"A mark on her face," Lady Meg turned sharply on her. "What do you mean?"

INDIGESTION CURED EVIDENCE IN PLENTY

Your Neighbors Can Tell You of Cures by Dr. Williams' Pink Pills.

Every case of indigestion, no matter how bad, can be cured by Dr. Williams' Pink Pills. Not only cured, but cured for good.

"I shall be a servant again!" "Everybody in my house is a slave to the rest of me," said Pindar.

"Lady Meg looked hard at her. For the first time she smiled, rather grimly. "Yes, I'll have you taught, if I may have your reasons for England and, if you behave yourself, the emperor of the French—Lord help him!"

"Not unless she behaves herself!" murmured Mr. Pindar. "Hold, your grace!" Pindar said. "Now, do you see?"

"Let her go her own way," Mrs. Brownlow made bold to say for a moment. "Such a funny mark! Many people wouldn't like it, I'm sure."

"A mark on her face," Lady Meg turned sharply on her. "What do you mean?"

"A mark on her face," Lady Meg turned sharply on her. "What do you mean?"

"A mark on her face," Lady Meg turned sharply on her. "What do you mean?"

MODES IN LINGERIE

Princess Chemises Among the Really New Things.

Among the really new things in the princess chemise, a garment very like the combination of corset cover and short petticoat and one which could as well be worn outside as under the corset.

"I shall be a servant again!" "Everybody in my house is a slave to the rest of me," said Pindar.

"Lady Meg looked hard at her. For the first time she smiled, rather grimly. "Yes, I'll have you taught, if I may have your reasons for England and, if you behave yourself, the emperor of the French—Lord help him!"

"Not unless she behaves herself!" murmured Mr. Pindar. "Hold, your grace!" Pindar said. "Now, do you see?"

"Let her go her own way," Mrs. Brownlow made bold to say for a moment. "Such a funny mark! Many people wouldn't like it, I'm sure."

"A mark on her face," Lady Meg turned sharply on her. "What do you mean?"

"A mark on her face," Lady Meg turned sharply on her. "What do you mean?"

"A mark on her face," Lady Meg turned sharply on her. "What do you mean?"

A FALSE ECONOMY

The Housewife Who Boils Her Window Shades.

Here is a new one for the frugally minded housewife. "I have a new idea for you," writes a housewife in a certain magazine for women.

"I shall be a servant again!" "Everybody in my house is a slave to the rest of me," said Pindar.

"Lady Meg looked hard at her. For the first time she smiled, rather grimly. "Yes, I'll have you taught, if I may have your reasons for England and, if you behave yourself, the emperor of the French—Lord help him!"

"Not unless she behaves herself!" murmured Mr. Pindar. "Hold, your grace!" Pindar said. "Now, do you see?"

"Let her go her own way," Mrs. Brownlow made bold to say for a moment. "Such a funny mark! Many people wouldn't like it, I'm sure."

"A mark on her face," Lady Meg turned sharply on her. "What do you mean?"

"A mark on her face," Lady Meg turned sharply on her. "What do you mean?"

"A mark on her face," Lady Meg turned sharply on her. "What do you mean?"

SUNLIGHT SOAP

HALF THE TOIL of household work is taken away when Sunlight Soap is brought into the home.

"I shall be a servant again!" "Everybody in my house is a slave to the rest of me," said Pindar.

"Lady Meg looked hard at her. For the first time she smiled, rather grimly. "Yes, I'll have you taught, if I may have your reasons for England and, if you behave yourself, the emperor of the French—Lord help him!"

"Not unless she behaves herself!" murmured Mr. Pindar. "Hold, your grace!" Pindar said. "Now, do you see?"

"Let her go her own way," Mrs. Brownlow made bold to say for a moment. "Such a funny mark! Many people wouldn't like it, I'm sure."

"A mark on her face," Lady Meg turned sharply on her. "What do you mean?"

"A mark on her face," Lady Meg turned sharply on her. "What do you mean?"

"A mark on her face," Lady Meg turned sharply on her. "What do you mean?"

"A mark on her face," Lady Meg turned sharply on her. "What do you mean?"

Where Tipping is Barred.

Tourists generally will be interested in the new regulations to force on the German railways.

"I shall be a servant again!" "Everybody in my house is a slave to the rest of me," said Pindar.

"Lady Meg looked hard at her. For the first time she smiled, rather grimly. "Yes, I'll have you taught, if I may have your reasons for England and, if you behave yourself, the emperor of the French—Lord help him!"

"Not unless she behaves herself!" murmured Mr. Pindar. "Hold, your grace!" Pindar said. "Now, do you see?"

"Let her go her own way," Mrs. Brownlow made bold to say for a moment. "Such a funny mark! Many people wouldn't like it, I'm sure."

"A mark on her face," Lady Meg turned sharply on her. "What do you mean?"

"A mark on her face," Lady Meg turned sharply on her. "What do you mean?"

"A mark on her face," Lady Meg turned sharply on her. "What do you mean?"

"A mark on her face," Lady Meg turned sharply on her. "What do you mean?"

CYCLONE DOES DAMAGE

Reports from South-eastern Part of Province Tell of a Severe storm—Lives Lost and Several Injured.

Gainsboro, Sask., July 2.—The neighborhood of Redvers and Carievale was visited by a severe wind and rain storm last night. It was most destructive towards the north. The home of W. Hackett was completely destroyed. Eleven families being rendered homeless, and three were killed outright and over thirty wounded.

The dead are Mrs. Peter Raymond, Charlie Hackett, aged 2, and an unknown child in the French settlement. Those in a critical condition are Peter Raymond, Wilfred Raymond, Vital Raymond, A. Jacque and his son and daughter, A. Garvis, P. Tarcan, T. Guftit, M. Bertrand and family of four, badly hurt, F. Bandett, leg broken, seven children all badly hurt, Lu Danager, Mrs. W. Hackett, badly bruised, brother of W. Hackett, leg broken. All the homes and outbuildings of these families are completely destroyed, and the agricultural machinery twisted beyond use, heavy machines in some cases being blown half a mile. The hail was the size of hen's eggs and inflicted disastrous damage.

Carberry, Man., July 2.—This morning about 3 o'clock an electric storm passed over the district and the home of Joseph Williams, a farmer living three miles south-east of town, was struck by lightning and completely destroyed. The family got out with just their night clothes and what things they could gather as they went. Mr. Williams and the hired man made a fight to save the building and when they saw it was impossible it was too late to save any of the contents other than the piano. The loss will be about \$3,000, partly covered by insurance.

Carievale, Sask., July 2.—The vicinity between Redvers and Carievale was visited by a very severe storm about eight o'clock on the evening of the first. About fifteen miles north of Carievale, it was most destructive to buildings and fatal to lives. A family by the name of Hackett had all their buildings demolished and a three year old child was killed. Mrs. Hackett sustained a severe fracture of the skull and a young man got his leg broken. The Raymond family who are big farmers, had their fine buildings all destroyed and Mrs. Raymond killed. The St. Antoine post-office was destroyed and the postmaster's little boy was killed. Much more damage has been done than is yet known. Two Carievale doctors were called to the sad scenes. The storm reached as far as this town, but no very serious damage was done except that the skating rink and a small house were demolished and a few other minor results. No hail is reported of any account.

Pierson, Man., July 2.—One of the most terrific storms that ever visited this district passed over last night. It was accompanied by fierce lightning and very heavy rains. R. McDermitt and C. Chambers had two fine barns demolished. Foreman Harris of the C.P.R. telegraph gang and J. J. Brown were sitting in a board-ing car when they knocked down by a bolt of lightning which struck a telegraph pole in front of them. They got up somewhat dazed but otherwise uninjured. The storm came from the north and a funnel shaped cloud came with it causing the damage. Fortunately it came without hail and no damage is reported to the crops which, barring accidents, will be a bumper one.

Melita, Man., July 2.—The storm did considerable damage; the hail was very heavy, the stones being as large as hens' eggs and numerous windows were broken. The stable of Roy Colland, a farmer of South Melita, was destroyed and four valuable horses killed.

Convention of Christian Indians.

The Indian Y.M.C.A. convention at Hurricane Hills from Friday to Sunday of last week proved quite successful. Indians were present from Buelah and Pipestone in Manitoba, and from the neighboring reserves. Mr. John Thunder, president of the association was in charge, and his conduct of the meeting was very capable. He was assisted by the traveling secretary, Mr. Stephen Jones, an educated Sioux Indian. A large tent 30x60 was erected for the meetings, the Indian tents and tepees surrounding the open space of the camping ground presented a pleasant scene. A large number of visitors from Sinitluta, Wolseley, Indian Head and the country surrounding the reserve were in attendance. The missionary, Rev. E. McKenzie, with his wife, and the Christian Indians, extended a hearty welcome to the visitors. The election of officers for the association resulted as follows: President, Mr. John Thunder; first vice president, Rev. E. McKenzie; second vice president, Philip Irons; secretary, John McLeod. The meetings commence at 8 a.m. and continue till noon, the afternoon being devoted to sports. The evening sessions commence at 7.30. Mr. Jones gave several addresses on Y.M.C.A.

work and bible study. Charles Rider spoke on clean sports. Rev. M. A. Clark, on World Wide Missions, Rev. T. McAttee on The Bible; Rev. R. B. Heron, Regina, on education. The very fact that such a convention is possible, and that the responsibility for the program and arrangements lies in the hands of Christian Indians speaks of the progress that has been made in the evangelization of our Indian neighbors.—Prairie Witness.

Westerners Bannooed.
(To the Editor, The West.)

Sir,—So it would appear from the recent utterances at Prince Albert and Saskatoon by the Hon. Murphy, secretary of state in the Dominion government, that we are not to have the Hudson Bay railway at once, and why? He gives the why with great coolness—THE EASTERN PROVINCES ARE AGAINST IT.—We are to have it in the sweet bye and bye. Surely the people who produce \$100,000,000 worth of goods do not intend being tied up in this manner so that one particular port, Montreal, shall benefit. The remarkable way in which the output of Canada centre is increasing must make it evident to all we residents of the plains that we must be up and doing. Since the Ottawa people are not going to do their duty, it is up to the three prairie provinces to help themselves. Laurier bannooed us nicely at the last general election with his \$100,000 vote for H. B. railway preliminary survey. Now he is squaring himself with the eastern provinces.

Now is the time for the Interprovincial Executive of the Grain Growers and the Boards of Trade throughout the three prairie provinces to get extra busy on this matter. You, Mr. Editor, who have the main points of the question at your finger ends better than I have, might enlarge on it. I suggest that the prairie provinces club together and run their own show in this matter.

Yours truly,
WALTER SIMPSON.
Regina, July 6, 1909.

Examinations will be held each year in March. The following officers were elected: President—J. C. Pope. Vice Pres.—A. A. M. Dale. Sec. Treas.—T. Grant. Council—C. V. Gladwell, W. H. Hurley, W. E. Hodge and O. J. Godfrey.

Auditors—C. V. Gladwell and W. H. Hurley. Examining Committee—A. A. M. Dale, W. H. Hurley and T. Grant. Minard's Liniment Cures Diphtheria.

PERISH AT SEA

Victoria, B.C., July 4.—When the Chinese steamship Nihonkai Maru was burned to the water's edge, six miles off Amori on the Chinese coast, 149 lives were lost. Advice received here today show it to be one of the most pathetic tragedies of recent years on the Asian sea. The vessel had been trading along the China coast from Japan to Hong Kong and made her call at Amori and was six miles off shore when fire was discovered in the coal bunkers. The fire soon became unmanageable. The ship had on board eight score fishermen and their wives returning to their homes and panic quickly prevailed. The boats were found to be unseaworthy and all were either broken or carried away by mishandling in the moment of need. The fire gained rapid headway and to add to the horrors of the occasion dense fog prevailed, which hid the doomed vessel and her cargo from the shore and air. Many sprang overboard, preferring death by drowning to being burned alive, while others went mad and cast themselves into the sea dragging others with them. The glare in the heavens eventually was seen from Nootch and assuming something to be amiss, the town authorities dispatched a rescue vessel, which, however arrived too late. This vessel, the Benton Maru, found her way with difficulty through the fog, picking up the other vessel burned to the water's edge. But 27 miserable human beings remained aboard her, so badly burned that their lives are in jeopardy. Most of them were clinging to the rigging and could have held but a short time longer.

Lady Grey's Speech.

Lady Grey visited the International Council at Toronto recently and made the following speech: "Ladies,—As honorary president of the Canadian National Council of Women, it is my privilege to associate myself with Lady Edger in offering a cordial welcome in the name of the women of Canada, to you the delegates from over seas and especially to Lady Aberdeen, our admirable and invaluable president of the International Council, on this the occasion of your first official visit to the Dominion. "You come at a time when the greatness of our Canadian destiny is assured to us, and yet at a time when our lines of national development are not so stereotyped as to prevent our adoption of the best methods of social organization as may

Why I Go to Church on a Rainy Sunday.

I attend church on rainy Sundays because: 1. God has blessed the Lord's Day and hallowed it, making no exception for hot or cold or stormy days. 2. I expect my minister to be there. I should be surprised if he should stay at home for the weather. 3. If his hands fall through weakness I shall have great reason to blame myself unless I sustain him by my prayers and presence. 4. By staying away I may lose the prayers which may bring God's blessing, and the sermon which would have done me good. 5. My presence is more needful on Sundays when there are a few than on those days when the church is crowded. 6. Whatever station I hold in the church, my example must influence others. If I stay away, why not they? 7. On any important business, rainy weather does not keep me at home, and church attendance is, in God's sight, very important. 8. Among the crowds of pleasure seekers I see that no weather keeps the delicate female from the ball, the party or the concert. 9. Such weather will show me on what foundation my faith is built; it will prove how much I love Christ. Love rarely fails to meet an appointment. 10. Those who stay from church because it is too warm or too cold, or too rainy, frequently absent themselves on fair Sundays. I must not take a step in that direction. 11. Though my excuses satisfy myself, they still must undergo God's scrutiny, and they must be well grounded at that. 12. There is a special promise that where two or three meet together in God's name he will be in the midst of them. 13. An avoidable absence from the church is an infallible evidence of decay. Disciples first follow Christ at a distance, and then, like Peter, do not know Him. 14. My faith is to be shown by my self denying Christian life, and not by the rise and fall of the thermometer. 15. Such yielding to surmountable difficulties prepares for yielding to those merely imaginary until thousands never enter a church, and yet

C. N. OFFICIALS VISIT CITY

Want to Make Arrangements About Terminal Facilities—Line Through Regina to Become the Main Line of Their Transcontinental.

A number of the officials of the C.N.R. were in the city yesterday to hold a conference with members of the city council. Among the C.N.R. men present were D. D. Mann, vice president of the company; M. H. McLeod, general manager; and Mr. Davidson, head of the C.N.R. land department. The officials met the city representatives in the mayor's parlor in the afternoon and discussed railway matters. The C.N.R. lack terminal facilities here. They have access to the city by the Prince Albert line, but they only get into the station with their trains from Brandon by use of C.P.R. tracks for which they have no agreement for any stated time. They are willing to go in with the C.P.R. and G.T.P. in the matter of a union station and other necessary facilities. The aim of the company is eventually to have the line which reaches here from Brandon their main line, the same, in time, running on to Edmonton and then on to the coast. The city council after hearing the case, will also have an interview with the C.P.R. officials who will be in the city next week. It is to be hoped that railway matters as they affect this city may be put on a definite basis this year, so that both the city and the railway companies may know where they are at.

Hon. W. Pugsley Here.

Hon. Wm. Pugsley, minister of public works, in the Dominion Cabinet, spent Monday in the city. The minister is out west on a tour of inspection and yesterday he visited Craven to look into the question of a dam at that place. He is accompanied on his trip by Mrs. Pugsley.

C.P.R. Time Table.

The C.P.R. put a new time table into effect on Sunday last. The trains run from Regina as follows:

EASTBOUND.
No. 2 leaves at 5.19k. daily.
No. 96 leaves at 18.22k. daily.
No. 12 leaves at 6.53 daily except Sunday.

WESTBOUND
N. 1 leaves at 24.06 k. daily.
No. 87 leaves at 9.15 k. daily.
No. 11 leaves at 19.40 k. daily except Sunday.
The Arcola train leaves Regina at 7.05 each morning and arrives at 22.20 every day except Sunday.

McMillan Bros., lost one of their most valuable horses on July 1st from sunstroke. It was one of their beautiful black span. The horse was in commission driving a party to the Old Crossing on that day.

For western Canada's Great Industrial Fair at Winnipeg, July 11th to July 17th, 1909, the Canadian Pacific Railway Company will have in effect special rates, limits, etc., apply to nearest C.P.R. Ticket Agent.

Members of the Winnipeg automobile club will wheel as far as Regina next month on a pleasure spin. The party will leave Winnipeg on Aug. 7 and will travel over 1,000 miles before their return to Winnipeg.

Miss Anna Hugg, who has been a clerk in the Public Works Department for some time, left last week for Winnipeg, to visit her relatives. Miss Hugg will not return to the department but will make preparations for her approaching wedding this autumn.

Dominion Park has been completed and is now ready for use. The city will derive a revenue from the rental of the grounds. When an admission of 25 cents to the grounds and 25 cents to the grand stand is charged, the city charges professionals \$20 and amateurs \$10.

W. L. Wallace who has been with the J. I. Case Co. for a number of years, has left the company and will go into business for himself. Prior to his leaving the company he was presented with a handsome travelling bag by Manager Rutledge and other members of the Regina office.

At the last regular meeting of the Regina Typographical Union the following resolution was passed:

"Whereas in the opinion of Regina Typographical Union No. 657, no effort seems to be made to enforce the local bylaw respecting spitting on sidewalks and in public places, and whereas, two certain corners of South Railway street are usually in a disgraceful condition with expectoration and tobacco juice, thus endangering the public health by filth and disease, therefore, be it resolved that this union respectfully urge the civic authorities to enforce the bylaw regarding this nuisance, and we would further suggest that signs warning parties against spitting on sidewalks be posted in conspicuous places along the principal streets of the city."

Indians Visit City.

A number of Sioux Indians arrived in the city yesterday from the reserve and are camped in the exhibition grounds. Besides the head of the band and another chief and their retinue, there are a number of other braves and their squaws, as well as their football team.

About six o'clock they formed a procession and under the leadership of Dr. Armstrong, marched around the city and to Railway Park where a game of football was played between Regina and the Indians. A large number of ladies from the National Council of Women were present on the grand stand, and before the game started the chief made a speech to them which was delivered through an interpreter.

The game which was played was not a very good exhibition of football. The Regina boys got the better end of a 4-3 score.

The Indians will camp at the Exhibition grounds for a few days before returning.

REGINA ENTERTAINS.

(Continued from page 1.)

number of gentlemen. Mrs. Wm. Rothwell, president of the local council of women, presided. The hall was very tastefully decorated with flowers and evergreens.

The speakers were introduced by Mrs. Willoughby Cummings of Toronto, who had charge of all arrangements for the trip the party is taking.

Miss Jones, president of the council of Great Britain and Ireland was the first speaker and dealt with the work being done by their council.

Miss G. Krog, of Norway; Frau Stritt of Germany and Fru Anne Buch of Denmark dealt with matters of the council and the work done in their respective countries.

Marchise Bourbondel Monte of Italy invited the ladies to meet with the council in Rome five years hence.

Mrs. Grannis of New York and Miss Peters of Montreal also spoke.

During the evening musical selections were given by Miss Munro, Mrs. Jas. Wright, Mrs. Tanager and Mrs. W. M. Martin.
