NO 29.

HAMILTON, CANADA., WEDNESDAY, FEBRUARY 5. 1908.

# **CLEAR SAILING FOR** H., W. & G. RAILWAY.

Satisfactory Arrangement With G. T. R.

Surprise at Statements Attributed to M'Farlane

### Mayor Stewart Plans to Prevent Overdraft.

Well, it's clear sailing at last for John Patterson to build the Hamilton, Waterloo & Guelph Railway. The company's application for a right of way on the Grand Trunk property near Harvey Park was up at Ottawa yesterday, and the Dominion Railway Board made the necessary order. City Clerk Kent was there, representing the city in the interests of the application, should there be any opposition, but none was offered. The Grand Trunk announced that terms satisfactory to it had been made. Mr. Patterson was also present. He will sail for the old country on February 18 to arrange for the financing of the scheme It is the intention to push the project vigorously, and the promoters hope to have the line to Guelph com-

The officials of the Waterworks De partment declared to-day that Engineer McFarlane, of the Beach pumping house, had either been misquoted regarding the installation of electric pumps at the Beach, or that he had a remarkable change of mind from the time he visited. the office yesterday. Secretary James says it was no later than yesterday morning that Mr. McFarlane emphasized morning that Mr. McFarlane emphasized the dangerous position the city would be in if one of the old pumps should break down. In the time of heaviest consumption from nine to eleven million gallons of water are used, while the combined pumping capacity is thirteen millions. With one of the Osborne-Killey pumps out of commission, the water pumped would fall short by nearly two million gallons of what would be required. The officials say Mr. McFarlane has repeatedly pointed out the necessity of having the pumps installed without delay. They recall that when Ald. Farrar was fighting to get water for county people, in reply to a question as to the city's position. Mr. McFarlane declared, "We are on the danger line."

It is not the aldermen, but the city steps toward realization of what has leen a dream for years among Tennes-

tion Mr. McFarlane declared, "We are on the danger line."

It is not the aldermen, but the city officials who are anxious to have the pumps installed at once. City Engineer Barrow, who has been blamed for a good many skips made by the aldermen in the past, declared to-day that he would assume no further responsibility in this matter. He considers he has done his duty in placing the facts before the aldermen and warning them of the risk they are running. It will be up to them to shoulder the blame, he says, if anything happens. The committee to-night will deal with the tenders for the pumps.

## **OUT OF WORK DEED**

New York, Feb. 5.-Max Sackman aged 26; his wife, Galetin, and their baby, Rose, aged 14 months, who lived at 339 East 104th street, were found dead in bed to-day.

The father and mother had fastened a rubber tube to the gas jet over the bed, and the hospital surgeons and the police who made an investigation were satisfied it was a case of double murde

Sackman had been out of work fo ore than two months, and neighbo in the house said that he and his wife In the house said that he and his wife were discouraged. They had not been seen since Sunday. They were found by the janitor of an adjoining flat house, who decided to make an investigation because neither Sackman nor his wife had been seen since Sunday.

### AGENTS HERE.

### Frost Wire Fence Annual Convention Opened To-day.

The annual convention of the agents of the Frost Wire Fence Company open ed at the company's works this morn ing, and will continue two days. Ther are about 150 agents present from all are about 150 agents present from all parts of Ontario, and some also from Quebec and the west. They were received at the factory this morning and spent the day in inspecting the institution and in discussing matters of trade. The same order of business will prevail to-morrow morning and afternoon.

Arrangements have been made to give the visitors a good time. To-night they will all attend the Savoy Theatre, and to-morrow night the annual banquet will be held in the Hotel Royal.

Deputy C. H. Grigg, of the Knights of Pythias Grand Lodge, marks the first steps toward realization of what has been a dream for years among Tennessee Pythians. It is planned to build in the central part of the State a model city. It is to be inhabited by Pythians, their wives, sons and daughters, and is to be self-governing. The city is to partake of the nature of a summer resort, a training school for boys and a Chautauqua. And a number of cottages are to be built to be rented to Pythians during the summer months.

City Engineer Barrow spent a strenuous afternoon yesterday at the Beach, plowing shrough snow drifts waist high, to attend a conference with Government Eng neer Armor over the application of Saiffieet residents to have a ditch cross the pipe line about a mile from the waterworks. Mr. Barrow says he thought it was a matter of the utmost (Continued on page 5.)

### **COMPANY WAS RIGHT IN** ENFORCING THE NEW RULE.

### But the Street Car Case Was Dismissed Because the Car Was Crowded.

At Police Court this morning the case inside the car to stand, as in this case rought by the Street Railway Company gainst Harry Brown, 11 Fairmount ave the benefit of the doubt, and discharge the benefit of the brought by the Street Railway Company against Harry Brown, 11 Fairmount avee, who was charged with a breach of rules, in that he would not step inside the car, but stayed on the back platform, caused a great deal of discussion

nductor, William Coffey, was put in the box by G. H. Levy, who appeared for the company. He stated that on Mon-day last the defendant got on his car last the defendant got on his car King and James streets and stood he back platform. He requested him step inside, but Brown refused, and he was just as comfortable on the platform. The conductor said he not call the police, because Mr. was as respectable man and he ught he might be able to show him error of his ways before he travelled further. Brown, however, refused near King and James streets and stood on the back platform. He requested him to step inside, but Brown refused, and said he was just as comfortable on the back platform. The conductor said he did not call the police, because Mr. Brown was a respectable man and he thought he might be able to show him the error of his ways before he travelled much further. Brown, however, refused to go into the car at all, and he gave his name and cheerfully told the conductor to be sure and briag him up.

William Hill, market clerk, was in the car at the time and corroborated the

car at the time and corroborated the conductor, but was doubtful as to room inside.

Mr. Brown wanted the case enlarged, but was advised to go on by Magistrate Jelfs, so he went into the box. He swore that there was no room in the car at the time he was asked to go inside to stand up, and that he had stood in the vestibule while the car loaded up because there were some ladies who needed seats worse than he did. When the ladies got in there was no room for him inside, and he thought that he might just as well stay out of the road on the back platform. The Magi-0-rate said that the company was right in enforcing this rule, and that it had a right to run the cars any way it pleased. If a man chose to disagree with it he did not have to ride, but in a case where there was a doubt as to whether there was or was not room

William Hines, 10 Ferrie street west

William Hines, 10 Ferrie street west, was dragged in as the court was nearly over by Constables Sayers and Robson. He was charged with stealing two pairs of hockey skates and boots from Edward Fowls' boat house on Monday night. His age he gave as 17, and he wept copious tears in the dock as he stood up and pleaded guilty. As it was his first offence he was given a lecture. his first offence he was given a lecture by the Magistrate, and allowed to go on deferred sentence. The police stated

Beatrice Unsworth, charged with vag-rancy, was further remanded for one week. She will probably be deported, as the only excuse she could give for her failure to work was that she did not "ave to work erself to death hover ome, and she did not intend to do so ere."

# FEELING THE PINCH.

### Barton Street Minister Prepared to Undertake Relief.

Many families in East Hamilton are eeling the pinch of the winter and gendeserving are the least known to the deserving are the least known to the public Rev. H. G. Louisville, Ky., Feb. 5.-Three hundred and fifty masked night riders rode into Dycusburg, in Crittender ounty, at 1 o'clock yesterday morning ourned the tobacco factory of Ben burned the tobacco factory of Bennett & Roberts, adjoining, shot up the home of William Groves, foreman of the tobacco factory, drove him from the building, then captured and beat him to death.

Henry Bennett, a member of the firm of Bennett Brothers, was taken from his home, tied to a tree and severely whipped. He was left bound to the tree.

to the tree.

Bennett Brothers operate an inde-pendent factory and have been buying tobacco from non-association growers.

### Last Saturday Was

The biggest day's business at Fralick & Co's, for the time of year in the history of the store. Overcoats were the big attraction, and to make this Saturday's business as great we are offering special inducements in many lines; \$80 fur-lined overcoats reduced to \$47.50; overcoats worth \$15 for \$9.98; men's \$15 suits for \$8.98.—Fralick & Co., 13 and 15 James street north and 15 James street north

### You Are Invited.

Jell-O will be demonstrated all of this week at our store. Drop in and see the many dainty ways of preparing it. It's time well spent. You haven't the slightest idea of the many nice dishes that can be prepared from Jell-O and Jell-O lee Cream Powder. Mrs. Christie will be pleased to tell you all about it.—Bain & Adams, 89, 91 King street east.

LEAP YEAR NUPTIALS FAIL.

Home Cooking Sooner. Pittsburg, Pa., Feb. 5.-Pittsburg's

Pittsburg, Pa., Feb. 5.—Pittsburg's first leap year marriage ended in a tragedy this afternoon, when John Hull, aged 47, a well-to-do book-keeper, on the North Side, put a bullet through his brain just before the time for him to leave work for home.

Hull had been employed as head book-keeper for a big wholesale twine house for a number of years. His wife was a pretty milliner of the North Side. They were married in the day after New Year's, Mrs. Hull laughingly claiming the credit of being the first woman of the North Side to take advantage of the leap year prerogative.

e North Side to take and ap year prerogative.
Hull was a confirmed dyspeptic, and manager and ill-health un-

HEN LAYS A 25-CENT PIECE. Incloses it in an Egg to Insure Its

Safety.

Lynn, Mass., Feb. 5.—Jailed for safe-keeping until their owner could be located, a dozen hens imprisoned in the county jail have repaid the jailer for the care and attention be stowed on them by leaving behind an egg in which, inclosed in the yolk, was a quarter of a dollar.

The police found a negro walking down the street last night with a dozen hens in a sack. He was arrested and the hens kept in a cell in the jail until the owner was found this morning. Jailer Garfield say the cell was swept just before the hens were

was swept just before the hens were incarcerated. When he went there thi morning an egg was lying in the corner. He accidentally broke it, and was astonished to find the quarter.

Lieut. General Sir Bryan Milman, the Major of the Tower, who was at the re-lief of Lucknow, celebrated his 85th birthday on the 30th ult.

"Youngling is going to marry the widow Henpeck." "Why, she's twice as old as he is." "Oh, well, he'll age fast enough after the wedding."

### THE COUNTESS OF YARMOUTH.

### Her Marriageto Earl Has Been Annulled.

She is Harry Thaw's Sister-Their Domestic Affairs Very Unhappy-Earl Too Extravagant-Much Sympathy For the Countess.

### Quits the Earl.

London, Feb. 5.—Sir Birrell Barnes, president of the Divorce Court, to-day granted the Countess of Yarmouth, who was Miss Alice Thaw, of Pittsburg, a decree nullifying her marriage to the Earl of

The case was heard in private. At the time fixed for the commencement of the proceedings every one not actually engaged on the case was excluded from the

court room. The countess, attired in a fashionable black gown, was present, but the Earl of Yarmouth was not in court.

Alice Cornelia Thaw, daughter of the late Wm. Thaw, of Pitts-burg, was married to George Francis Alexander Seymour, Earl of Yarmouth, at Calvary Church, Pittsburg, April 21, 1903. The marriage followed a rather brief courtship, and stopped the earl's stage career, which had begun in private society theatricals, at Newort, and had later been more or less successful in a professional

Lady Yarmouth has always been the favorite of the family with her brother, Harry K. Thaw, whose cond trial for the killing of Stanford White resulted in acquittal on the ground of insanity. She was present all through the first trial of her brother, but did not come to New York for the second hearing.

London, Feb. 5.—The papers in the case are being kept secret, and all information regarding the nature of the charges has been carefully withheld. The statement was made, however, that the character of the medical evidence to be given made a public hearing inadvisable.

It has been well known for two years It has been well known for two years past that the domestic affairs of the Yarmouths were most unhappy. The Earl's companions and his manner of living, it was said, were such that he could not give his wife the place in society which she had a right to expect. She supplied large sums of money to defray her husband's extravagances, and her friends say that she has conducted herself with dignity throughout the troubles resulting from this unhappy union and the difficulties of her brother, Harry K. Traw.

bles resulting from this uncappy union and the difficulties of her brother, Harry K. Traw.

The fact that the Countess had decided definitely to seek an annulment of her marriage was made known here Jan. 3rd, when she applied to the divorce court for a degree.

The Hertford family. the head of which is the Earl of Yormouth's father, to whom the Earl is heir, as eldest son of the sixth marquis, is one of the eldest and proudest of the British nobility. The Marchioness of Hertford stood by her daughter-in-law throughout her troubles, and exerted herself to reconcile the couple, but in vain. The family of the Earl is much distressed at the notoriety brought upon it as a result of the action taken by the Countess.

Since her marriage the Countess has made her home in England.

### Fifteen Years in Wood.

A mellow fine flavored Scotch Whiskey, matured in wood for fifteen years—very smooth and fine flavored extra strength, by far the finest Scotch whiskey we have ever offered. Price six dollars per gallon. We carry a full line of all the best brands of whiskey, wines, etc.—Bain & Adams, 89, 91 King street east.

### Shocked to Death.

Nyack, N. Y., Feb. 5.-"Death from shock" was the verdict of physicians who examined into the sudden death of Mrs. Claudine Abry, of this place. Mrs. Abry on Friday was watching a number of boys and girls skating on the Hudson, when the ice broke and three of the boys were drowned.

She watched the work of rescue. were brought out of the river she fainted. She was removed to her daughter's home, but died without

It is expected that the case will go to the Court of Appeal and from there to the Supreme Court, where the points in dispute will be decided.

### MUST FILE NEW PLAN.

Ottawa, Feb. 5.— (Special.)—The application of the Hamilton, Waterloo & Guelph Railway Co. was granted by the Railway Commission yesterday, subject to a new plan being prepared.

### May Take Two Days More Before It's Passed

### MacLean's Motion to Defer the Bill Lost.

### Barker Opposed to Bill But Will Vote for It.

Ottawa, Ont., Feb. 5.—(Special.)— The Hamilton Radial Railway Bill was up again at the Railway Committee to-day. Mr. Butler, Deputy Minister of Railways, stated in regard to what he said vesterday that negotiations were going on in connection with the inquiry as to jurisdiction between the Dominion and the Province but no conclusion had been reached.

He wanted to make this clear. Mr. Guthrie, Chairman of the Committee, said that he had been in-formed by the Minister of Railways that he was perfectly satisfied that the bill should pass subject to what

ever general law might be passed. Mr. Bristol (Toronto) talked for some time on the question of juris

Mr. Barker (Hamilton) did not agree with the system which had been followed by members of the House declaring certain roads for the general advantage of Canada. In regard to the Radial Bill he thought it would be an anomaly to say that the brid-Dominion works and the remaining 230 miles a Provincial work. Some people say that they did not intend to build the 230 miles, but his con-stituency thought otherwise and he

was prepared to vote for the bill. MacDonell (Toronto) said that if the bill passed the right of the munipapilities would be disregarded.

McLean (South York) thought the preamble of the bill was an at-

tack on Provincial rights. Mr. Cockshutt complained that the company settled with Hamilton anf Toronto, but they did not do so with Brantford.

Mr. Clark informed Mr. Cockshuts that the company was not asking any privileges from the city of Brantford, Ottawa, Feb. 5.—Mr. Lancaster want-

ed something in the bill which would compel them to build to the boundary lines or drop their charter. W. B. Doherty, City Solicitor of St. Chomas, wanted St. Thomas to get the ame privileges as was being granted to

Hamilton.

Mr. McLean (South York) moved an Amendment to the preamble of the bill, asking that the bill be deferred for a reasonable time, in order to allow a conclusion to be reached in the negotiations now pending between the Province and Federal powers.

and Federal powers.
In reply to questions from Messrs. In reply to questions from Messrs. Blain and Lancaster as to the construc-tion of the road, Colonel Gibson said that the company means business

ed. 19 voting for and 44 against.

The bill was talked out and may take a couple of days more before it is passed.

# PAUL VANE'S WIFE

hells of that gay city, by a lucky turn of fickle Fortune's wheel he found himself a rich man.

His thoughts turned to America—to the lovely, cruel weman who had won his heart, and for whom he had ever since been in exite.

It had been the one redeeming trait of Gordon's Hall's life, this love for Loraine Lisle.

If she had not played with the man's heart as with a childish toy, and then cast it aside, bruised and bleeding, who knows but what Gordon Hall's life story might not have read differently?

As it was, the one impulse for good in his life was lost. Changed into fiend by his disappointment, he flung himself recklessly into the whirlpool of life, seeking only to forget the fair, false cougette. In the words of the poet:

"And then I wandered for away To quell my spirit's wild unrest. From place to place, a lonely one, And rocked on ocean's heaving breast." One day at the Cafe Anglaise, while reading the "Galignani Messenger," he saw in the American Gossip column an announcement of Paul's Vame's exceed marriage with heiress of Arcady, and a strong magnetic force drew him to the seene of action. When Colonel Eugene Fairlich had fallen in that death-like swoon bfore he could utter a word to arrest the marriage, Gordy Hall looked at him with a bitter interest, supposing him to be, like himself, a victim to beautiful Loraine's treachery. A fierce sneer curled had fallen in that death-like swoon bfore he could utter a word to arrest the marriage, Gordy Hall looked at him with a bitter interest, supposing him to be like himself, a victim to beautiful Loraine's treachery. A fierce sneer curled had fallen in that death-like swoon before he could utter a word to arrest the marriage, dordy hall looked at him with a bitter interest, supposing him to be, like himself, a victim to beautiful Loraine's treachery. A fierce sneer curled had fallen in that death-like swoon before he could utter a word to arrest the marriage, dordy had love here and the proposed had a strong magnetic force drew him to the scene of action. W

"He comes from within the little red school-house," he muttered, peering through the window.

A moment he gazed, then a low, gurgling cry of surprise that was almost horror escape him. As he continued to stare into the room, his face blanched to an unearthly hue, he saw—

\*\*When Vivian Vane—poor, blind, unhapp gir!—was left alone in the sleigh, a merciful oblivion came over the half-awakened brain. The long ride through the freezing air had chilled her delicate frame, until now a strange numbness overpowered her, and she slipped down among the heavy buffalo robes. The hoarse cry of a raven, as it flapped its dark wings close to his ear, startled the pony, and it dashed forward in mad haste, dragging the broken reins beneath its feet. Its rapid course lay along the river road, which it followed for some distance, dragging the light sleigh after it. Should it swerve to the left the help-less occupant would be thrown into the wild, dashing stream twenty feet below. But no, it goes on. God's angels watch with pitying eyes over Vivian's fate. A little further on, the horse, at the fork of the road, runs into a deep show-bank, overturning the sleigh and throwing Vivian to one side of the road. In falling she struck her head against some sharps substance, making a crimson wound in the white temples.

Alas! poor Vivian, as she lay lifeless and pale, with her sweet face upturned to the blue sky, had her pure soul climbed the rugged pathway to the stars?

How long Vivian lay there in the snow that of the ground, lest the long to the road, rune man and looked into your eyes, never talk of my going to the rectory with a consequence of the road. In falling she struck her head against some sharps substance, making a crimson wound in the white temples.

Alas! poor Vivian, as she lay lifeless and pale, with her sweet face upturned to the blue sky, had her pure soul climbed the rugged pathway to the stars?

How long Vivian lay there in the snow

the blue sky, had her pure soul climbed the rugged pathway to the stars? How long Vivian lay there in the snow was never known. Billy Lester, a young country chap on his way to Lisle, came upon her, and, bending down with a ery of fear, gazed into her deathly white face.

Rubbing Vivian's face and hands with snow, he was rewarded by finding that she moaned feebly.

"She lives! I will place her inside the moaned feebly."

school-house and run for Dr. Beardt' exclaimed the frightened country rustic. In a moment the slight, drooping fig-ure was carried in his arms to the school-house and deposited on one of the

wooden benches.

"She may wander away. I will lock
the door." He did so, slipped the key in
his pocket, and sped on to Lisle.

Gordy Hall stared with dilated eyes at bench and was staring wildly about her.
The shock had done its work. The clouds had lifted from the shadowed brain, and, touched by the sweet mercy of our Father's hand, she lay before him

of our Father's hand, she lay before him—sane and seeing!
"Has the grave given up its dead!" he cried—and well he might say so. The lovely golden head was clotted with blood, the delicate cheeks were pale and ghastly. Gordy pressed his saturnine face against the pane, and his eyes gleamed with savage joy as it slowly dawned on his mind that Vivian was alive.

alive.

What a weapon was this to hold over the heads of Paul and Loraine! A sword of Damocles suspended by a single hair, that, if broken, would bend proud Loraine to the dust with shame. She was not the rector's wife. Here before him lay the first wife, alive! To-day's marriage was a sham. At last the fates were kind to Gordy Hall. Revenge was in his hand.

Gloatingly he ran over the situation.

in his hand.

Gloatingly he ran over the situation.

mo—a bruliant thought: "I wil IteleIt would spoil the game if Vivian returned at once to Lisle, as she must have
been on the point of doing, else why her
mysterious presence here. He would
keep her secluded for a few days until
Lorainen' reputation would he lost, and
then confront both his foes with the
fatal truth.

CHAPTER XLI.

Among the guests assembled in Forest Church to witness the marriage of Paul Vane and Loraine Lisle was Gordy Hall, his cold, crafty heart filled with the deepest hate as he watched from his secluded seat the triumph of Paul Vane, his hated rival.

For over a year Gordy Hall had hidden himself among the alluring scenes of labelle Paris, and one night, while seated at the green cloth in one of the gaming hells of that gay city, by a lucky turn of fickle Fortune's wheel he found himself a rich man.

His thoughts turned to America—to the lovely, cruel weman who had won his heart, and for whom he had ever since been in exile.

It had been the one redeeming trait of Gordon's Hall's life, this love for Loraine Lisle.

If she had not played with the man's

"Anywhere, anywhere, out of sight of her triumph!" he thought.

Cacousciously his feet strayed into the little path behind Forest Church leading into the woods, and in his despair at losing imperious Loraine, he wandeed heedlessly on and on along the frozen path, crosser the narrow foot-bridge over the river; then, at last tired out and breathless, sat down to rest on the wooden bench beneath the window of the little red school-house.

Suddenly the moody man was startled by a low, deep groan, so near at hand that he sprung up in consternation.

Again the groan broke the Christmas stillness, and he looked wildly about to locate the sound.

"Anywhere, anywhere, out of sight of her triumph!" anywhere, anywhere, anywhere, anywhere, out of sight of tragain now."

A pretty, mutinous light came into the dark, upraised eyes, and Loraine whook her head.

"Nonsense, Paul! You did not really we were married? Do you not know they expect me to take charge of the vagantic again."

"Nonsense, Paul! You did not really we were married? Do you not know they expect me to take charge of the vagantic again.

"Nonsense, Paul! You did not really we were married? Do you not know they expect me to take charge of the vagantic again.

"Nonsense, Paul! You did not really we were married? Do you not know they expect me to take charge of the again.

"Nonsense, Paul! You did not really we were married? Do you not know they expect me to take charge of the vagantic again.

"Nonsense, Paul! You did not really we were married? Do you not know they expect me to take charge of the again.

"Nonsense, Paul! You did not really we were married? Do you not know they expect me to take charge of the again.

"Nonsense Paul! You did not really we were married? Do you dat het all the we were married? Do you and the we were married? Do you are never charged in the dark, upraised eyes, and 'Loraine again.

locate the sound.

"It comes from within the little red school-house," he muttered, peering through the window.

A moment he gazed, then a low, gurgling you save the great gift of yourself and your love." Paul Vane said, with true

tones:
"Ah! if I had my will I would burn that old house to the ground, lest the sight of it wake in your heart memories of the dead! But since I can not, must not, at least let us leave the old rectory alone with the bats and owls that have haunted it ever since you went away! It is yours, Paul, is it not? I believe grandmere told me once that you bought it when you first came to Lisle. Then sell it, give it away, burn it to the ground—anything, rather than that you or I should pass its threshold again.

again.

He gazed at her, silent, appalled by the intensity of her emotion. What a fierce thing this love of hers was—a defierce thing this love of hers was—a decomming passion, the vouring flame, a consuming passion, the very heart of her life; yet, like a rest-less torrent, it carried the man's heart with it on that rushing tide. Coquette siren, tiger-lily, all in one, this passion-ate bride of Paul Vane!

"She touches my cheek and I quiver— I tremble with exquisite pain; She sighs—like an overcharged river My blood rushes on through m

He sprung toward her; he caught her-back into the clasp of his arms, and proud, imperious Loraine, melted and mastered by love, the mighty conqueror, dropped her head against his breast and wept stormy tears, sobbing wildly in her jealous misery.

wept stormy tears, sobbing wildly in her jealous misery.

"Loraine, sweet wife, do not weep. It shall be as you say. If you wish it, I will sell the rectory and we will go away, since it would pain you to remain. Your happiness must be my first care now, and Vivian in her bright home beside the great White Throne need not mind the worship I give to you. She is happy there, and I here, with this new, sweet passion that has bloomed with the sweetness and rapidity of a gorgeous tropical flower in my life. Loraine, love, wife"—he pressed her tightly in his arms, the last remnant of reason gone in this fierce simoon of passion sweeping over his soul—"do not let her memory haunt you. I swear to you I love you best! If I could bring her back from the grave in which she lies yonder?—he waved his white hand toward Forest Churchyard, where that lonely little grave lay under the deep drifts of snow—"I would not do it. I would cling to you!" And one rare glance from those

MINES OF WAX.

Many Parts of World.

In several parts of the world a rein-

ous substance called ozocerite, and bearing considerable resemblance to beeswax, is found, usually in connec-tion with rock salt and coal.

tion with rock salt and coal.

There are depots in Austria, Russia,
Roumania, Egypt, Algeria, Canada
and Mexico, but, says an eminent authority on the subject, ozocerite has
not so far been discovered in suffic-

ient quantities to pay for mining any-where except in the district of Bors-lay, in Austrian Galicia, and on an island on the west coast of the Cas-

In mining this mineral wax shafts

e sunk until a bed, or "nest," of occrite is struck. Then connecting

ozocerite is struck. Then connecting galleries are driven. There is considerable danger, and many lives have been lost in consequence of the sudden forcing up of the soft wax into the shafts by the enormous pressure to which it is subjected. It is used largely for manufacturing ceresin, which is employed, together with beeswax, for making wax candles, as well as in the manufacture of phonographic cylinders, and for many other similar purposes.

WHAT CAUSE'S HEADACHE From October to May, Colds are the most frequent cause of headache. LAXATIVE BROMO QUININE removes cause. E. W. Grove on box. 25c.

Workers on the Ice

Can find suitable clothing at prices that are amazing. Lined leather mits, 25c; heavy sweaters, rubber shoes and boots, reefers, extra heavy sox, fur lined caps, etc. We must sell. M. Kennedy, 240 James street north.

Wireless From Balloons

The Italian Government are carry-ing out experiments by means of wire-less telegraphy instruments in war-balloons. The weight of the receiv-ing transmitting apparatus is just under one and half hundred weight, and allows messages to be sent 60 miles.

Tariff revision will be undertaken by the United States Congress next year. A commission in lunacy may be ap-pointed to inquire into the anity of Robt. C. Caidwell, who is being held

# MAN BADLY FROZEN.

Former Railway, Clerk at Niagara Falls Will Lose Hand.

Niagara Falls, Ont., Feb. 4.—About 5 o'clock this morning John Pope, an exrailway freight clerk, wandered into the M. C. R. station on Queen street in a stupefied condition, with both hands hadly frozen. He was handed over to the police and was taken to the hospital. What he was doing out at this hour with the thermometer at five degrees below, no one knows.

The may's foottrints in the contraction of the policy of the through cultivation as large place can be.

Firms which make yeast for the market must grow these plants quite as carefully as the florist grows his flowers. Care must be taken that they do not become mixed with other varieties, therefore destroying the culture.

In some laboratories where yeast is grown two separate buildings are kept

they do not become mixed with other varieties, the culture.

In some laboratories where yeast is grown two separate buildings are kept for this purpose, and if it is found that the yeast becomes contaminated in one building the culture is started anew, and the other building previously disinfected before moving into the purest culture of yeast is probably obtained in the compressed yeast. it.

The purest culture of yeast is probably obtained in the compressed yeast cakes. These can be kept only for a very short time, and then in a cool place, which renders it inconvenient for the warmer parts of the country. In this case, of course, the dry yeast cakes must be used, which, when fresh are, perhaps quite as good as

INDIAN BOYS KILLED.

Victims of Middlemiss Tragedy From the Grand River Reserve.

Glencoe, Feb. 4.—It is now believed that the terribly mutilated bodies found on the Wabash tracks near Middlemiss a week ago were those of two Indian lads. Mr. McGugan, of Talbotville, now says two Indian boys stayed at his place about ten days ago. One was aged thirteen and the other fourteeen, and gave their names as Reuben Lewis and Willie Jacobs, and said they came from the Brantford reserve. Mr. McGugan describes the clothing worn by the boys most minutely. He says that they wore sweaters, and mentions a safety pin used by one of the boys to pin up his cap. fresh, are, perhaps, quite as good as the compressed, except that they re-quire a longer time, and should be started in the sponge instead of the started in the sponge instead of the start dough.

This plant, like bacteria, requires warmth, moisture and food. The materials out of which the bread is made should always be warmed, and the dough should always be kept in a should always be warmed, and the decigh should always be kept in a warm place. The temperature most favorable is about that of the body, a little less than 100 degrees.

There is always considerable moisture in bread and plenty of food for the plant. The food which it requires is sugar. This it obtains from the wheat, there being some sugar in the flour, and more sugar is also formed from the starch.

As the yeast plants feed upon sugar they break it down into two substances—alcohol and a gas known as cabon dioxide, or carbonic acid gas. As the gas is formed it is held by the gluten, which is a very elastic substance. When the bread is put into the oven the heat expands the tiny bubbles of gas, causing the bread to rise, or to become much lighter. The alcohol formed, being a volatile product (passes off in the baking.

cap.

As this is a close description of the clothes found on the track, there is no As this is a close description of clothes found on the track, there i longer any doubt that the bodies those of the missing boys, who probably stealing a ride on a fre train and lost their footing.

INSULTING LANGUAGE Allen Huber, Mayoralty Candidate in

Berlin, on Suspended Sentence.

Berlin, Feb. 4.—At the Police Court this morning Magistrate Weir found Allen Huber, the defeated Mayoralty candidate, who was instrumental in causing a new election in Berlin, guilty of using grossly insulting language respecting George Rumple, a member of the Water Commission, at the nomination meeting. Huber was allowed to go on suspended sentence. Odd Facts About Iron.

It has been ealculated, to a nicety what value a bar of iron may acquire in the several uses to which it may be put. For instance, made into horse shoes, it becomes worth \$12; into table knives, \$160; into needles, \$355; into blates for penkives, \$3,180; into button buckles, \$4,500; and into watch

### LUMINOUS PAINT.

Interesting Chemical Compound

With Strange Peculiarities. Nearly every one has heard of luminus paint-the sulphide of calciumbut it is probable that comparatively few persons know much about the behavior of this interesting compound. When of good quality it is quite white, as seen by reflected light, but the light that is emitted by it in the dark immediately after exposure to the direct rays of the sun is quite blue, and the emitted light is of a lavender hue directly after subjection to the action of ordinary diffused daylight. Both of these colors, however, in a dark room rapidly fade into a white light that is more luminous. A greater luminosity is produced by a short and near exposure to an ordinary artificial light, or by being placed near a window about sunset on a rainy day. The direct rays of a bright full moon fadling on it for several momenta have very little effect making it barely visible in a dark room. After 10 seconds exposure to good diffused daylight, which is as effective as an exposure of ten hours, this substance navior of this interesting compound. in exposure of ten hours, this substan an exposure of ten hours, this substance will give out a practical light for 10 or 12 hours, and its lummosity will not entirely disappear in less than 30 hars. This great difference in the times required for the absorption and the emission of light is quite remarkable and makes it seem as if the light emitted were many times greater than that absorbed.

were many times greater than that acsorbed.

When luminous paint of poor quality
is removed from light to darkness, the
light emitted by it fades rapidly, and
in a few minutes becomes of a dull reddish or smoky color, much like that of
the moon during total eclipse.

A temperature of four hundred degrees will not put calcium sulphide in
a luminous condition, though after exposure to light an increase in temperature of twenty degrees will make it
much more luminous. That this is not a
conversion of heat into light is shown
by the fact that if kept at a high temby the fact that if kept at a high tem-perature it will become non-luminous in a shorter time. As might be expected,

luminosity.

This luminous condition is not conveyed from particle to particle like heat. If a quantity of the dry powder be exposed to the light all day, on breaking through the surface the interior will be found to be non-uminous, the light having affected the outer portion to a depth of perhaps a sixty-fourth of an inch. If a bottle partly filled with the dry powder or revelved in the light until the whole mass has become luminous, and then be set away in the dark, the interior loses its light as rapidly as the surface, but no cing so does not help the surface to glow any longer or more brightly.

The luminous property of this substance is known to have remained unimpaired for more than five years. uminosity.
This luminous condition is

impaired for more than five years A LEAP YEAR TIP.

### An Astrologer Kindly Puts Up Birth Month Danger Signals.

Month Danger Signals.

Are you contemplating matrimony?

So many girls are, since its leap year.

Of yore, the leap year maiden was at sea. She had no compass by which to steer the barque of matrimony, nothing to count from, as it were. Now, a wise astrologer has come forward with deductions taken from the planets. He has a theory that the sons or daughters of certain months cannot be happy with the sons or daughters of certain other months. Witness the following:

January cannot agree with one-born in July.

uly. February cannot agree with one born in August.

March cannot agree with one born in

April cannot agree with one born in May cannot agree with one born in June cannot agree with one born in

INDUSTRIALS.

MINING TAX REVENUE.

From the mining tax it is said the revenue of the province last year was between \$30,-000 and \$100,000. This was based on the mineral production of 1905, which was much less than that of 1907. The law which imposed the tax allows the province to collect 3 per cent. of the profits and a small acreage tax. It is understood that no payments have as yet been made of the bounties on minerals refined in the province.

Sales to noon \$236,600. QUEER PLACE FOR GOLD.

CHICAGO WHEAT.

After a decline of 5c during the past week and of 12c in the past month, Chicago wheat has turned upwards again. Opening at 8c, yesterday's closing price, May wheat dipped a little early, but soon steadied, and finally closed at 57%c. Latest reports show a rather unfavorable outlook for the winter wheat crop in the southwest, as damage from insects is feared. Other buil features to-day were a report that Argentine wheat receipts we have a report that Argentine wheat receipts of 1,750,000 and 1,750,000 and 1,750,000 according to the world's visible supply. Fungoid Growths Have Fondness for the Yellow Metal. N. Y., Feb. 5., Wall St.-Very few orders were executed in the opening stock market and the movement of prices was not decided in either direction. St. Paul scored and dayance of Sa and American Smelting and Western Union declined Sa. The market opened irregular.

the Yellow Metal.

Several years ago Dr. Berin, of Goeteingen, observed that gold could be removed from solution and suspended by fungoid growth, and has since made further investigation. The gold was held in suspension in distilled water that had been prepared at different times, the gold being reduced from a weak solution of the chloride by means of phosphorous dissolved in ether. A complete precipitation usually takes place.

Examining the bottles which had been settling for ten years, he found that in those having fungoid growths, usually at the bottom of the bottles, the liquid was ruby red or purple, the gold being still in suspension. In one bottle put up eight years ago, having the liquid colorless, a purple blue fungoid growth had taken' place, which, under the microscope, was a mass of matted purple blue filments, but after being directions or the series of the color was a mass of matted purple blue filments, but after being directions. scope, was a mass of matted purple blue filaments; but, after being dried over a spirit lamp, the filaments retained their form, but acquired the lustre and color

form, but acquired the lustre and color of gold.

Three years ago other experiments were tried with more precise results. But it was found that not only molds produce the result, but also any organic matter, living or dead.

Rules for Consumptives. The following rules for the guidance of consumptives are taken from those of the Henry Phipps Institute:

Avoid handshaking and kissing. These

cooking, and afford plenty of hot baths for a large family not only during their down lives, but would continue to perform these useful functions for about twenty these useful functions for about twenty and the second of the s

sum lives, but would continue to perform these useful functions for about twenty generations without falling off. "One grain of radium," he said, "emits each hour enough theat to raise a grain of water through 100 degrees, and one grain of ice." Radium emanation changes into helium and "something else," and if dissolved in water it decomposes the water into oxygen and hydrogen. On removing the oxygen and hydrogen there is left neon, another of the inactive atmospheric gases, which Sir William Ramsay and Dr. Travers discovered. Similarly, radium in the presence of copper produced lithium, potassium and sodium. Sir William, therefore, suggested that it seemed we were in the presence of the transmutation of copper into a lower element than itself. "It is probable, though not proved," he said, "that the element sodium is also a transmutation product of copper, because the residue obtained by evaporating the copper solution, deprived of copper, which had been at treated with emanation, is more than twice as heavy as that obtained from untreated copper sulphate." It was too early, however, he added, to propound any satisfactory theory "as to the relationship which undoubtedly exists between the properties of the atomic weights of the bodies which he have been accustomed to term elements."

Causes of City Grime.

City grime is not due to perform the Kaiser and ady happened to be the object of a sharp lecture on extravely appearance of the stream of the properties of the atomic weights of the bodies which he have been accustomed to term elements."

Causes of City Grime.

untreated copper sulphate." It was too early, however, he added, to propound any satisfactory theory "as to the relationship which undoubtedly exists between the properties of the atomic weights of the bodies which he have been accustomed to term elements."

Causes of City Grime.

City grime is not due to factory smoke alone. In experiments lasting saveral months the chemist and analyst of Glasgow has shown that every nillifon erbic feet of chimney gases from an ordinary domestic fire contains 5.4 pounds of heavy oily hydrocarbons, which are black in color and practically solid at ordinary temperature, but when liquified have the properties of a very adherent heavy oil. This little considered source of air pollution is important. The 130,000 inhabited house of Clasgow have each one fire at least 22 lours daily, and these fires must scatter in the air each day 31 tous of the heavy oily hydrocarbons.

### OBITUARY.

### Three Deaths in the Hospitals Since Yesterday.

Mrs. Agnes Blough, wife of William Blough, passed away at an early hour this morning at St. Joseph's Hospital, after a brief illness. Deceased was 47 years of age. The funeral will take place on Friday afternoon at \*2 o'clock from her late residence, 52 Stuart street

Frederick Arundel died at the City Hospital last evening, after a short ill-ness, with pneumonia. He was an Eng-lishman, and resided in this city for about nine months. The funeral will take place from his late residence, 159 Gibson avenue, to St. Matthew's Church, on Thursday morning for hide celebras. on Thursday morning for high celebra

The funeral of Mrs. Annie Connell took place from her late residence, 138 Hun-ter street east, yesterday afternoon, and was largely attended. The services were in charge of the Plymouth Brethren, and in charge of the Plymouth Brethren, and six of the members acted as pall-bearers.

The remains of Mrs. Mann were laid

toppani.

toppan

Mrs. Ann Applegate, widow of Thos. Applegate, died at the City Hospital this morning after a lingering illness. She was 70 years of age, and had resided in this city for many years. The funeral will take place from the residence of her son. Thomas, 242 Hughson street north, on Friday afternoon at 2 o'clock. Mrs. McIntyre, widow of the late Mr. Mrs. McIntyre, whow of the law Mr. John McIntyre, for many years foreman of the boiler shops of the old Great Western Railway, and who went to Stratford when the works were removed there, died at her home, 190 Church street, that city, on Monday. Her husband predeceased her about two years.

Mrs. McIntyre had many old friends in The body of the late Evan Kerruish The body of the late Evan Kerruish, of this city, who died from the effects of an overdose of laudanum, in Winnipeg, last Friday, arrived here to-day, and the funeral took place this afternoon at 3.30, from the residence of his sieter, Mrs. Bailey, 35 Smith avenue, Rev. T. L. Kerruish, of Ingersoll, brother of deceased, was present.

Hugh, the infant son of Mr. and Mrs. Michael Hayes, passed away yesterday at the residence of his parents, 202 Canada street. Deceased was six years of age. The funeral will take place to-morrow morning to Holy Sepulchre Cemetery for interment, and will be private.

The funeral of Mrs. Catherine Hendershott took place from her late residence in Stoney Creek, yesterday afternoon, to Trinity Church, Glanford. Rev. Dr. Clark conducted the services, and the pallbearers were F. R. Hannon, O. Horning, J. Fletcher, J. Hendershott, E. Oliphant and J. Kennedy. There was a large attendance, and many beautiful floral tributes were laid on the casket.

### DUE TO NEGLIGENCE.

Windsor, Ont., Feb. 5.-That the death of William McNeish, the Michigan Cen-tral fireman who was killed by the blowing out of a flue on his locomotive at Ruscomb last week, was due to negli-gence on the part of the railway com-pany is the finding of the jury at the inquest held by Coroner McNieve

### THE HAMILTON TIMES

WEDNESDAY, FEB. 5, 1908

### OVERDRAFTS.

Mayor Stewart is doing exactly this year what he did last year-laying down the law to the chairmen of com mittees that no irregular payments of money should be made and that the committees must keep within their appropriations, whatever they may be. That farce has been played over and over again for years back with the me result. No attention is paid to the yearly lecture. The committee spending their money until it is all gone, and then they go on spend ing more they have not got. As the months pass, the mayor forgets about his admonition and promises and the finance Minister weakly assents to the expenditure of money that has to be borrowed from the bank. The helpless and apathetic, looks on, and sees overdraft after overdraft heaped up. The citizens also look on and wonder that men who call themselves business men should transact the city's business in such an unbusinesslike way. Why do they do it? Do they save money by this method? Does the city benefit in any way by piling up these overdrafts? We fail to see where it can. If the money is borrowed the city has to pay for the use of it, and if enough of taxes are not collected to pay the expenditure it has to be paid in some other way. It is said that a higher tox will keep manufacturers from the city, and that a lower tax will bring them here. But manufac-turers are not fools. They can tell if a city is paying its way or piling up a load of debt which will hang around its neck like a millstone, and keep them busy helping to pay it off after they come here. We have just one fear in this connection, and that is, that even if the tax rate was raised we would have the same old overdraft at the end of the year.

effort has been made to miniscapegoat. mize last year's overdraft by deducting from it the over expenditure of the independent boards. But then, why not allow for the surpluses from other quarters.

### A CLEAR WASTE-In the House of Commons a strik-

ing ilustration of the uselessness and

costliness to the country of the foolish course being pursued by the Opposition in regard to public documents required was presented by Hon. Mr. Pugsley. when referring to a motion by Mr. Le furgey for a return showing all Public Works expenditure in Prince Edward Island and in Prince county from 1873 to 1907-a motion involving an imm amount of work, while it could as well be obtained by any member from the printed Parliamentary reports. Pugsley deprecated this objectionable unnecessary practice, and pointed out that the leader of the Opposition had last session asked for a return which involved about 1,000 typewritten pages. He desired to give the Opposition leader the fullest latitude, but he thought that when the information could be got from the published official reports, he might have refrained from loading such work on the staff and placing extra expens on the country. In the present case he complied with Mr. Borden's request and placed the 1,000-page return before him. To the astonishment of the House, no oubt, Mr. Borden, in excusing himself for the course Hon, Mr. Pugsley condemned, declared that he "hardly recalled" asking for the return! That shows how recklessly the Opposition add to the work and expense of the House

### FATAL FOOTBALL

and the departments

According to the London Lancet, England had on Novem 15th been causative of six deaths and the disablement of sixty other persons at the Association game alone. season was then but a few weeks advanced, and it does not end till the last of March, so that if the ratio of the early weeks is continued the record will be a startling one when it closes. would seem that such a game might be capable of some changes in the direction of moderation in this civilized age. Football must be strenuous, but it does not need to be murderous. English papers are disposed to charge some of the blame for the abuses of the game to the fact that it is almost altogether in the hands of professional players, who, says the Lancet "are all the time out for the money. If a club cannot uphold its reputation it loses its grip upon public and ceases to be a money-making ncern. Thus the premium placed upon winning is very great, and the temptation becomes proportionately urgent among the players to resort to meawhich do not come within the range of legitimate sport."

And now, perhaps we shall learn sometruth of the situation regarding the British Columbia Cabinet and Lieut.-Gov. Dunsmuir, If Premier Ma Pride's Cabinet did not give His Honor the tip to refuse his signature to that demagogic measure the doctored or batched "Natal Act," then they should promptly have resigned their portfolios; if they were responsible for the Lieutenant-Governor's course in that matter they have acted a very unmanly There is a constitutional question bere which is vastly bigger than the small men of the McBride type or the pettifogging legislation with which they have been playing, and the public will be pleased to see light shed upon the facts connected therewith.

### **EDITORIAL NOTES.**

Mayor Stewart has not yet bough

The Liberal Club rooms are real cosy nese evenings. 'Are you a member?

February is throwing in an extra day this year to show that, if it be cold, it is not stingy.

The Legislature opened to-day with Mr. Whitney in the leading role. There was a full House.

The hundred thousand population oom appears to have been lost sight of during the cold snap.

Harry Thaw's lawyers proved at his trial that he was insane. They will now endeavor to show that he is sane.

Ottawa has a set of professional jury men, who serve on most of the Coron ers' quests. They should get unionized Some would-be aldermen are patiently

raiting to see if the city wards are to be redivided before starting out on their

een a death from sunstroke in this city. But people should be careful not to overheat themselves. The school trustees and the male

You will notice that Mr Zimmerman is insisting on Hamilton's interests being protected. But Mr. Barker is too busy with the muck rake to take any

eachers of Stratford recently dined to-

gether. The lady teachers didn't even

Mr. Gibson is very accommodating. He is willing to agree to any arrange ment the Dominion and Province may come to regarding electric roads. But he objects to the Radial being made a

The Society for the Prevention of the Desecration of the Landscape, if there be such a society, should come to the assistance of the Wentworth County Council in its efforts to get rid of the bill-board monstrosity. No man has any right to disfigure the natural beauty the country by such a means.

The Mail and Empire's method of man ufacturing scandals is illustrated in the case of Mr. Turriff, M. P. It devoted five columns to insinuations and innu endoes against that gentleman, and disposed of his very full and satisfactory reply in twenty-five lines, omitting therefrom every point made by Mr. Tur-riff. That's journalistic fairness.

According to the contentions of the anti-Radial Torontonians, any municipality should be free to hold up an inter-Provincial railway that may be operated by electricity, and forbid it to even cross highways within its boundaries save by purchasing its permission. Isn't that carrying the worship of municipal rule to an extreme degree? If some muni cipal swelled heads are not furnished with iron bands soon they may burst.

There does not seem to be much mystery about the hardship experienced in Toronto. Dr. Sheard says 75 per cent. of the unemployed, relieved by way of snow-shovelling employment by his department, had not been in the city three nonths, and most of them probably not that time in the country. He declares that they are quite unfit for our climate or work, and that ten of his regular men can do as much as 100 of them.

What would become of Sir Wilfrid Laurier's reputation in this country if he hadn't the Hamilton Times to stand by his side and interpose its shield between him and his defamers?—Herald.

(Goldwin Smith.)

Socialism proper is a benevolent dream of uniperal traternity, to be regarded with symbathy though utterly impracticable under the actual conditions of humanity.

Silent Now.

Tory organ that the Times should expose its eager efforts to misrepresent the Premier, and charge him with deliberate misstatement on the floor of the House Well, it should not place itself in such humiliating position.

The Toronto Globe has raised by public subscription almost \$10,000 for the relief of the suffering immigrants who are housed in shacks in the outskirts of that city. These people have not been able to save enough money to keep the wolf from the door during the reign of a Canadian winter, and they have suffered severely from want of proper food, scarcity of coal and clothing, and the houses in many cases are mere shells. A band of philanthropic people is helping the Globe to provide for them. It is a good work, and our contemporary deserves commendation for what it has done and is doing in their behalf.

The Winnipeg Telegram is delighted at the prospect of a new "grievance" against the Laurier Government. It has been demanding that the boundaries of regret, it has become convinced that the Dominion Government has in view such a distribution of the territory to the north and east of Manitoba as will increase the Province's area. But the Telegram is not easily daunted. which to hang its much desired "griev-ance," and it is now exploiting it. It consists in no less a matter than that

essful issue negotiations of much deli acy, will not tend to reconcile the organs to the situation. They had made haste to anticipate his return by anements of the failure of his mission and it will be gall and wormwood to them to read this tribute of the great organ of British opinion. The comm sense of the people of Canada will approve the judgment of the London Times which is that a satisfactory result has ben reached, and that throughout the matter the attitude of the Canadian Government has been a correct one,

statesmanlike, calm and dignified.

either adopt the local improvement plan, or resort to some system of borrowing money for road work and other improve ments. This local improvement plan is in great favor with the spenders in municipal life. It simply means that eople who have been taxed to pay for their share of the improvements all over the city would now be taxed again to pay for the whole cost of the improvements fronting their properties. It offers nothing by way of economy; it is a scheme hard to make equitable; the one feature which commends it to its advo-cates is that it gives them greater power, and more money to spend. Has it ever occurred to Mayor Stewart that if many of the kite-flying schemes imposed on the city by the spenders were cut out, and the money devoted to street and other improvements, the money problem would be less acute?

The Opposition in the Commons made a great ado the other day because a demand by Ames of Montreal for original from the files was not acceded to. After they had been as noisy, and abusive as they could well be, they discovered that they had not complied with the very wise rule that a member wishing to have an original document brought down, should state the reason on which his motion was founded. As soon as Mr. Ames complied with this, his request was granted. Hon. Mr. Foster became quite nasty during the debate and was properly called down by Hon. Mr. Oliver, who said that he (Foster) had two years ago obtained some original documents from the Interior Department, and up till the present time he had not returned them. Mr. Foster was forced to admit his abuse of this privilege, and promise to try to find and return the missing documents.

The following opinion on the "hard imes" in Canada is from the Winnipeg Telegram, a Tory organ, and is nended to the attention of the Hamilton Spectator, which expresses a regret that in effort has not been made by the party press generally to turn them to partisan account:

san account:

It is an indication of the fact that, while the financial crisis in the United States began in the speculative markets, it speedly became so acute as to seriously affect the production and interchange of commodities; in Canada it was limited entirely to speculation, and was not permitted to extend any further. It is impossible to understand what other inference could be drawn from the figures of the gross earnings of our railways. The prices of town lots and of shares do not affect the earnings of a railway company, and, as the earn f a railway company, and, as the eart of our railways were not affected the financial stringency in Canada must have been largely confined to the prices of town lots and of shares.

# INDISPENSABLE

For Her Children-Little Girls Suffered with Itching Eczema Which Simply Covered Back of Heads— Baby Had a Tender Skin, Too.

ALL PROMPTLY CURED BY

# 'WONDERFUL OINTMENT"

"Some years ago my three little girls had a very bad form of eczema. Itching eruptions formed on the backs of their heads which were simply covered. Before I heard of Cuticura, I used to try almost everything, but they failed. Then my mother recommended the Cuticura Soap and then applied the wonderful ointment, Cuticura. I did this four or five times and I can say that they have been entirely cured. I have another baby who is so plump that the folds of skin on his neck were broken and even bled. I used Cuticura Soap and Cuticura Soap and Cuticura Continent and the next morning the trouble had disappeared. I am using the Cuticura Remedies yet whenever any of my family have any sores. I cannot find its equal. Mme. Napoleon Duceppe, 41 Duluth St., Montreal, Que, May 21, 1907."

### PAINFUL ULCER On Foot for a Year. Healed by

### ON POWER BILL

### Fireside Club Mock Parliament Discussed It.

The third reading of a power bill occu-

ied the attention of the members of the oung Men's Fireside Club of Centenary Church last evening, when, in a mock parliament, they discussed the advisability of passing that important measure. Premier Norman Mead moved that all of the waters going over the Canadian Niagara Falls be utilized for power purposes. Mr. Mead presented the question in an able manner, and was ably supported by James L. Jolley, Minister of Public Works. The attendance was divided, half-peing the Government and the rest the Opposition. The regular parliamentary rules governed. Speeches by the following gentlemen, who supported the bill, were given in an interesting way; Messrs. J. Jolley, Geo. Gerrie, Darroch, R. McBride, B. Campbell, and C. Thomson. For the opposition, Leader Geo. Foote and Messrs. P. Birely, Geo. Hancock, P. Brown, G. S. Brown, R. Stone, and P. Pennington opposed vigorously with excellent addresses. A vote was taken and the bill passed by a small majority. The following occupied the different positions: Premier. N. Mead: parliament, they discussed the advisabilmajority. The following occupied the different positions: Premier, N. Mead; leader of Opposition, Geo. Foote; Speaker of the House, F. Griffith; clerk, Robt.

page, S. Job. The gentlemen who upheld the question were the ministers of the departments. departments.

A supper was suppried after Parliament adjourned. Fifty members were present. There was no business transacted, the whole evening being taken up with the mock parliament.

Burlington.

The Burlington Literary Society held

a very successful entertainment last evening in the old Masonic Hall in that

town. It was for the purpose of cele-

to make the evening a "night with Burns." The speaker was Mr. W. M. McClemont, of this city, who gave a stir-ring address on "Robert Burns and His Times." Mr. McClemout was listened to

with rapt attention. A number of others contributed to the musical portion of the

BUBONIC PLAGUE.

THE CYMRIC.

Boston, Jan. 5.—Two Boston tow-boats with newspaper men aboard spoke to the Cymric as she lay at anchor out-side Boston light early this morning, but the officers on deck denied them the privilege of coming alongside, and re-fused to give them any information by magazines.

A highly pleasing grade of entertain ment is drawing big business to the Savoy Theatre this week and proving entirely satisfactory from start to fin ish. The artistic hit of the bill of course is Henry E. Dixey, the celebrated com edian and late star of "The Man on the Box" appearing in his dainty little play "David Garrick." The sketch, based on an episode in Garrick's life, occupies about twenty minutes and it is with reluctance that the audience watches the curtain descend for it is all so dainty and artistic that one could thoroughly enjoy it if it were much longer. Possessing an intensely elever and magnetic personality Mr. Dixey carries the sketch through with a yin' that adds to its attractiveness. Comedy, tragedy, fencing and dancing following in such fast succession that it is al-most impossible for the audience to ex-

most index succession that it is atmost impossible for the audience to express its real appreciation of his art.
His assistant, Aniss Marie Nordstrom,
like Dixey, is charming and clever in
c erything she says and does.

Although Ferrie Corwey, the ceaebrated Englisa musical clown, came unheralced te is one of the hits of the bill.
Introducing much stage business that is
both novel and extremely funny and producing music from a number of original instruments Corwey aroused unusual enthusiasm last night and forced
a perfect storm of applause. His gratesque makeup and novel entrance is not
the least feature of his act. Elsie Greman and company in a real laughing
hit, entitled "A Matrimonial Blizzard,
is another number that is getting the is another number that is getting the laughs and scoring hard, Miss Greshar is a clever emotional actress and the sketch is as pleasing in its mirth provoking qualities as the best that ha een here this season.
rest of the bill in its entirety

will be found enjoyable and thoroughly entertaining. It includes Carson Broth-ers, marves of grace and strength, and who are just what the title implies; the Jolly Prices, exceptionally clever colored singers and entertainers; Pau lia and Heaty, a clever singing and dan ing turn, and Delmo, a juggler, who has a pleasing number. The oill this week is under the auspices of the Canadian Order of Oddfellows.

### Mr. Allen's Recital.

Mr. Allen's Recital.

The organ recital given by Mr. Harry Allen, in Knox Church last evening, was well attended. The programme was well chosen and gave Mr. Allen an excellent opportunity to display his executive and artistic abilities. Mr. Harold Jarvis, of Detroit, assisted Mr. Allen with three numbers. The programme was:

Organ Overture from the "Occasional Oratorio" ... Handel.

Mr. Harold Jarvis. Organ-Concert Variations on a Familiar Air . . . . C Pereival Garratt (Mr. Garratt is organist and choirleader of Central Presbyterian Church of

this city.)
Song—Hear Me My Saviour... Leone

Children's Hospital Benefits. Miss Jeanette Lewis has made ar-rangements to be at the Terminal check rangements to be at the Terminal check room every night from 7.30 to sell tickets for the Sick Children's Hospital fund. Yesterday she disposed of 500 tickets to the J. McPherson Shoe Company, which will be used by the employees of that firm on Friday night. So many people have expressed a desire to give donations to the fund rather than to buy tickets that she has opened a donation account in the Bank of Moritreal, and all gifts will be acknowledged as they are received. Another point that Miss Lewis wishes to call attention to is that the hospital will be open for the use of all the children in the country paople accordingly.

"When Knighthood Was in Flower."

"When Knighthood Was in Flower." Grace Merritt as Mary Tudor in "When Knighthood Was in Flower," will appear at the Grand next Monday, and from all accounts gives a very elever por-trayal of the madeap princess. An al-most forgotten fact in the life of Mary Tudor, Duchess of Suffolk, is that she Tudor, Duchess of Suffolk, is that she was the grandmother of the ill-fated Lady Jane Grey, who was a nine-days' Queen of England. The Princess Mary Tudor's marriage to Charles Brandon, the Suffolk squire whom King Henry the Eighth made Duke of Suffolk, was a prolific one, and her daughter Frances, like her sisters, married one of the most powerful noblemen in England. He was Henry Grey, Earl of Dorset, and father of Lady Jane. Had Jane been content with the simple routine of country life, there is no doubt she would have saved her head and lived to a good old age, as did her grandmother, who was the happy wife of Brandon for over twenty years. Grace Merritt, it is said, depicts Mary Tudor as she was in her early youth.

Honorable Mr. Willoughby, Dr. Clark,
Superintendent of the Asylum for the
Insane, Toronto, and Dr. Ryan, Superintendent of the Asylum for the Insane at
Kingston, proceeded during the recess to
Great Britain and the continent in order
to investigate modern methods of caring for and treating the insane. Their
very interesting report will be laid before you.

In accordance with my reference to

In accordance with my reference to the subject last year, my Ministers have considered the question of prison labor, with a view to preventing competition with free labor, and the Provincial Secretary and other gentlemen proceeded to ecveral of the prisons in the United States, in order to observe the systems in operation there. The result of their visit will be laid before you, together with interesting and valuable information obtained by them.

My Ministers will propose for your consideration a scheme of law reform with a view to decreasing appeals, short-ening trials and lessening the cost of litigation.

A bill to rearrange the constituencies

igation.

A bill to rearrange the constituencies of the Province, in order, as far as possible, to equalize representation, will be laid before you.

The large increases in the appropriations for the teachers' salaries, additional Normal Schools, and various other educational processes have received. The little black bear who rides a wheel, the monkey who leaps from the roof of the theatre into its trainer's arms on the stage, and the dogs which draw the rigs around, are representative of the best class of performing animals. Schrode and Mulvey, in their nonsensical laugh producer called "The Theatrical Agency," are counted as two of the funniest artistes in the business. Lola Cotton's mind reading is another popular item. Miller Brothers' diorama, Dudley and Cheston, Anderson and Goines, and the motion pictures make up the rest of the show.

Between the Acts. tional Normal Schools, and various other educational phrposes, have received the commendation of the public, and you will be asked to now consider increased appropriations for urban schools. The policy of throwing open the publication of text books to public competition has led to considerable reductions in the prices of school reading books, and it is confidently hoped that reductions in the prices of other books will result from an extension of this policy.

Bills will be laid before you in amendment of various enactments of a public nature, now on the statute book, including the mining laws, the liquor license act, the act creating the Railway and Municipal Board, the public lands act, the free grants act, the supplementary revenue act and the Ontario shops regulation act.

Owing to the steady increase of settle-

regulation act.

Owing to the steady increase of settlement, it has been found necessary to create the new judicial district of Rainy River.

Between the Acts.

The Van den Berg Grand Opera Company, which was expected to fill a two-nights' engagement here next week, has re-arranged its bookings, and will not visit Hamilton.

"The Choir Singer," a very good popular price drama, that met with favor on its last presentation here, returns to the Grand next Saturday, matinee and night. The plot of "The Choir Singer," revolves around the efforts of the heroine, Alice Leighton, to make her way in the world by putting to use her talents as a singer, which at the beginning of the play has been devoted exclusively to the choir of the little church near her ancestral home in rural Virginia. The sale of seats epens to-morrow. Dominion Government, with a view to adjusting the differences which have arisen relating to the respective juris-dictions of the Dominion and the Province on the subject of railway and oth-er companies, and it is to be hoped that satisfactory solution will be found. You will be delighted to learn that the revenues of the Province are largely in excess of the estimates and more than sufficient to meet the public ex-

than sufficient to meet the public ex-penditure during the year.

The public accounts will be laid before you for your consideration, at the earli-est moment, and the estimates for the coming year will also be submitted for your approval at an early day.

Charles R. Robertson, whose exploits were recorded in the Saturday Times a short time ago, gave a lecture on Central Africa to a large and enthusiastic audiance last evening in Association Haf. About two hundred views were shown by limelight and Mr. Robertson fully explained them. They depicted by the introduced by the Hon. J. J. Foy and Mr. J. S. Duff. M. P. P. for West Simco. Mr. A. E. Donovan, the new member shown downward will be introduced by the Premier, and Mr. J. H. Fergusson, M. P. P. for Grenville, and bowed many types of natives. In the rest of the service of these natives, Mr. Robertson brought up a much-discussed point; considering the bright ness and intelligence found in the children of these tribes, how can the heavy dullness after a certain age be explained. He said that some of the foremost scientific men of the age explained that after a certain time the savages, growing untanght, a filament forms over their brain and retards their thinking and acting faculties outside of the brute that is paramount in them. His seenes of sport in the wilds delighted his audience and he explained them in a heart to heart manner, describing each battle with the habitants of the forests he had visited.

DIDMC? MUCLET. The New Members.

day.

His Honor then retired and the Speaker took the chair. After the three new members Dr. Godfrey. of West York: A. E. Donovan, of Brockville, and C. P. McKeown, of Dufferin, had been introduced, the House adjourned.

The debate on the addess in reply to the speech from the throne will be commenced on Thursday.

### COURT HOPE.

### Ancient Foresters From Toronto Here on a Visit.

Court Hope, A.O.F., of Toronto. sent a representation between 40 and 50 strong to this city last night to 50 strong to this city last night to visit Courts Pride and Maple Leaf. The visitors included, Will J. Vale. Chairman of the Laws Committee; Harry Wilson, High Court Treasurer; Robert Jessamin, P.H.C.W., and other prominent Foresters. The iniatory work was conducted by the Toronto Degree Team, 8 candidates being initiated. After the work of the evening speeches were given by some of the San Francisco, Feb. 5.—With the dis-charge yesterday of the last patient un-der treatment at the isolation hospital, San Francisco, was officially declared to be free of bubonic plague. Drastic precautionarry measures are being adopt-ed for the purpose of preventing a re-currence of the contagion in the spring. insurated. After the work of the evening speeches were given by some of the visitors and local members and an interesting musical programme was presented. On behalf of Courts Pride and Maple Leaf, John Young, High Sub-Chief Ranger, presented a gavel to the visiting court, Wm. Woodstock, D.C.R., receiving it.

## EXCITING DEBATE.

Barton Street Young Men's Union Discusses Labor Union Problem.

Last night the Barton Street Young Men's Union held one of the most suc-cessful meetings of the season. The cessful meetings of the season. The evening was almost entirely devoted to a debate on the subject, "Resolved, that trades unions are detrimental to the welfare of a country." The affirmative was taken by Mr. John Bryers and Mr. C. Elkington, while the negative was ably represented by Mr. J. F. Walker and Mr. A. R. Lancefield, Mr. Lancefield made his maiden speech in this debate, and it was certainly a credit to him. The judges were Messrs. N. F. Firth, L. Le Vernois and C. A. Berry. Mr. Firth announced the judges' decision, which was that the negative had scored the most points for delivery, and had also won the debate.

boints for denvery, and had also won the debate.

While the judges were out the discussion was taken up in a very neat speech by Mr. John Skillen. The discussion waxed warm, and the speakers followed each other rapidly. Those who took part were Messrs. Smith, White, Lomax, E. Black, F. B. Edmunds, N. E. Zimmermna, James Bryers, George Head and George Mummery.

The subject for debate for next Tuesday night will be, "Resolved, that more can be learned from travel than from books." Messrs, Head and Firth will take the affirmative, and Messrs. Le Vernois and Skillen the negative.

### HAD AN OUTING.

### Coppley, Noyes & Randall Employees at Waterdown.

The warehouse and office staff of Coppley, Noyes & Randall held their anaual outing last evening, leaving at 5.30 where a sumptuous repast was in readiness for them. After toasts to the King and country had been proposed, speeches were made by Joe Thake, for the traveling staff, S. S. Beatty for the warehouse, John Eastwood Clark and G. R. Finch Noyes for the office and firm. Everybody then repaired to the roller rink, which had been reserved for the occasion, and-a pleasant hour was spent. The event of the evening was a matched race where a sumptuous repast was in readi event of the evening was a matched race between Doc. Birely and Charles Thompson Beatty, the former winning by an

A few choice vocal selections were ren dered by Aubrey M. Hamilton, baritone who was in good form. The party returned home at midnight it being unanimously declared the most successful outing ever held.

### **JERSEYVILLE**

A supplementary meeting of the Women's Institute was held on Monday afternoon in the vestry of the Methodist Church. A large crowd of ladies were present and listened with interest and pleasure to a splendid programme, which consisted of instrumental music by the state Chestre. Of Summit. by Miss Katie Cheshire. of Summit; duet, by Mrs. (Dr.) McAlister and Mrs. S. A. Miller; readings by Misses Myrtle Peterkin and Lela Vansickle. Miss duet, by Mrs. (Dr.) McAlster and Mrs.
S. A. Miller: readings by Misses Myrtle
Peterkin and Lela Vansickle. Miss
Gray, of Toronto, addressed the ladies
on "Home Decoration," and Mrs. Erland
Lee, of Stoney Creek, also gave a short
talk full of good advice and encouragement. A joint meeting of the Women's
and Farmers' Institute was held in McPherson's Hall in the evening. A large
crowd was present. Several gentlemen
gave interesting addresses, after which
Miss Gray gave a fine talk on "Science
in the Kitchen."
Mr. Genton, a Victoria College student, conducted missionary anniversary
services in the Methodist Church on
Sunday last. These addresses were full
of interest, as Mr. Genton has spent several years in missionary work in the
Cobalt mining district, in the lumber
camps and also among the Indians.
Miss Clark spent Saturday at her
home in Stoney Creek.
Miss Mary Morris visited Sunday and
Monday with friends in Brantford.
Mr. George R. Patterson is expecting
a car load of cedar posts in a few days,
which he will offer for sale at a reasonable price.
Miss Della Myers, of Hamilton, is visiting her cousin, Mrs. Sim. Wilson.

Money and Exchange.

Boston, Jan. 3.—1 wo boston tow-bost with newspaper men aboard spoke to the Cymric as she lay at anchor outside Boston light early this morning, but the officers on deck denied them the privilege of coming alongside, and returned to give them any information by magaphone.

### **CLEAR SAILING FOR** H., W. & G. RAILWAY

(Continued from page 1.)

importance until he got there and found a kitchen full of farmers squabbling over what proportion of the cost they should pay in various ways. Mr. Barrow told the engineer that the city did not care a cent whether the ditch crossed or not as long as Hamilton was not roped in for any of the expense. Mr. Armor took measurements and will give his decision shortly.

The Fire and Water Sub-Committee appointed to deal with the applications of east end mountain residents for a of east end mountain residents for a water supply will meet to-night haif an hour before the committee's regular session to prepare a report. Engineer Barrow says he will recommend the city to build its own plant. He has not just figured out the cost but thinks it will be about \$17,000. The property owners down there are anxious to get water and offered to pay a liberal share of the cost of installing the plant.

Mayor Stewart proposes putting the screws on good and tight this year in the hope of getting through without an overdraft. A new system, he says, will be tried. After the estimates are struck each department wil be obliged to furnish a statement showing exactly what the money is to be used for. Close tab will be kept on these statements and an effort made to see that the money is spent as stipulated.

Mayor Stewart and some of the city Mayor Stewart and some of the city officials say there is a clause in the street railway by-law which provides that the company must fix up its tracks where the city lays new pavement. If the city and company cannot come to terms they will endeavor under this clause to force the company to make repairs.

Dr. Bryce, the Dominion Health Offi

The Mayor says some provision will have to be made in this year's estimates for the paying off of the \$42,000 overdraft incurred last year. He says he neither intends suggesting applying to the Government again for power to issue debentures for this purpose nor would he countenance such a move.

A deputation of employees from Westinghouse Company called on Mayor Stewart to-day regarding the motors to be installed at the Beach pumping house and urged that the contract should be awarded to that company. They will appear before the Fire and Water Committee to-night. There is a difference of about \$2.000 haveen the difference of about \$3,000 between the difference of about \$3,000 between the tenders of the Westinghouse Company and the Swedish firm, but Engineer Sothman to'd the committee the difference in efficiency made the prices about the capal. The Swedish company, however, claims that its motor under a load will show as high efficiency as the motor made by the Hamilton company and explains that it overlooked stating this in the bid. The Westinghouse employees think from a labor standpoint the work should be done in Hamilton.

### CARE OF HYACINTHS.

# Timely Suggestions With Reference to the Dutch Variety.

Although it is early the large flowered Dutch hyacinths can now be forced into bloom, but more care is required to flower them than the Roman. Whether in water or earth you must be sure they are well rooted. This is very im-portant. If poorly rooted they will not ower perfectly

To ascertain about the roots you nee

To ascertain about the roots you need to turn the pot upside down, place your hands underneath, and tap the rim of the pot sharply on the edge of the table.

When you try this always be sure that the earth is quite damp. If not damp it will fall apart when turned out, and many of the roots will break off with it, greatly to the injury of the plant.

If damp the ball will leave the pot smoothly and not a particle fall off, and the pot can be replaced again without any injury whatever. If sufficiently rooted they are ready for the window, but care must be taken, as with the Roman varieties, to keep them covered with an empty pot until the flower pot is clear of the bulb. It will take a much longer time to flower Dutch hyacinths at this season than the Roman sorts, and a longer time than is required if flowered a few weeks later.

longer time than is required if flowered a few weeks later.

Hyacinths in glasses, if ready at the root, can also be brought to the window, but they should be covered with a brown paper cap with a small hole at the top, n piace of the empty flower pot.

Hyacinths that have been forced in water are of no account afterwards, but those flowered in pots can be dried off afterwards and planted in the ground in the spring. They will flower the following year out of doors, but the flowers will be small.

Longest Cable Ropeway.

Longest Cable Ropeway.

Work is at present in hand on the construction of what is claimed to be the longest cable ropeway in the world. It is being constructed by a German firm, and is intended to connect the collieries of the Societe de l'Industrie Charbonniere et Miniere de Turkestan, situated about 80 miles from Samarkhand, Russian Turkestan, with the nearest railway station. Hitherto the coal has been transported by camels, the journey, on account of the very hilly district, occupying five days. The new ropeway, which will be 54 miles long, is intended to carry from eight to ten million poods per year, and the trolleys, which will each hold 20 poods, will travel at a speed of six miles per hour.

# Home Industry Week

### February 6th to February 16th

Profiting by the experience gained during the ex-ositions of 1906 and 1907, we have been able to lace and arrange our Third Annual Home Industry feek to much better advantage than formerly. Manufacturers generally have co-operated with us a our endeavor to bring the Industries of this won-reful city to the front and the source of interesting

derful city to the front, and the scores of interesting demonstrations and exhibits that are being made will give Hamilton people a much broader, more intelli-gent knowledge of home industries than many would have gained otherwise in a whole lifetime.

It is an exposition that parents should bring their children to see. It will make them proud of the city in which they live. The various demonstrations made are practical, instructive and illustrative.

During Home Industry Week this store is more than a store, and in many cases we are not only exhibiting the finished goods, but are actually showing how they are made.

Home Industry Week, in fact, is but an example of how Hamilton does things, and this store takes great pleasure in being the instrument of demonstrating some of the many and various triumphs that this city accom-We extend a most cordial invitation to all to visit us during

# THE END OF

QUEEN MARIE AMELIE.

nuel Showed Spirit of King-Behold Your Work Exclaimed the Queen to Franco-Preparations at Lisbon for the Double Funeral.

London, Feb. 4.-The Lisbon cor spondent of the Express says that interviewed ex-Prime Minister nco Tuesday. The former Minisdecided to make it clear that he not answerable for the murders. said: "I am not responsible. The belonging to any political group.

did everytning for the best."
The correspondent adds that Senhor Franco's repudiation has increased significance in view of the sharp enceunter between himself and Queen Amelie. The latter opposed Senhor Franco's policy and did her utmost to terminate his regime.

Senhor Franco entered the death toma at the Paiace shortly after the lodies were brought from the arsenal. The Queen was sitting beside the bodies. She rose, and, pointing to them, exclaimed, in a tone of bitter teproach: "Behold your work!"

It is stated that Senhor Franco hung his head and left the room without speaking.

### SPECIAL MISSION TO BRITAIN. Portuguese Minister Says Lisbon is Perfectly Quiet.

Perfectly Quiet.

Paris, Feb. 4. — Marquis de Soveral, Portuguese Minister to Great Britain, who was in Lisbon at the time of the tragedy there, and who has arrived here on his way to the Legation at London, said, in an interview to-day, that when he left Lisbon yesterday the city and country were perfectly quiet. The army is entirely loyal. He does not believe that ex-Premier Franco has fled. Marquis de Soveral has a special mission to King Eiward.

### WITH THE GREATEST POMP. Palace Chapel Decorated for the Ly-

ing in State.

Lisbon, Feb. 4.—The palace chapel is being decorated for the lying in state of the bodies of King Carlos and Crown Prince Laiz. The ceremony will be marked with the greatest pomp. The flave and choir will be draped with black velvet, fringed with silver and cloth of gold embroidered in black. A flacsimile of the royal crown will be suspended in front of the choir, and long crape streamers will be carried there from the galleries. Immense chased silver candelabra will stand on the altar, which will be nearly hidcoased silver candelabra will stand on the altar, which will be nearly hid-den in draperies. Two inclined planes, draped with black and gold, have been placed in the centre of the choir, side by side, to receive the coffins. Seven placed in the centre of the choir, side by side, to receive the coffins. Seven coloseal gold cando'abra stand on each side, while others of the same size have been placed across the nave. An immense cross, draped in black, will be placed at the had of the coffins. The noise of the hammering as the workmen fix the decorations contrasts incongruously with the masses which are being constantly said at the six lateral altars. Any priest entering the chapel may offer prayers, for which he receives a generous donation from the royal purse. The chapel bell is tolled every quarter hour, and its note is taken up by the bells of the cathedral and other churches.

Queen Amelie and ex-Queen Maria Pia continued their vigil beside the hodies last night, only leaving occasionally for a short rest on a sofa.

FUNERALS CAN'T STOP CARS.

Suit for Damages Against Toronto.

Railway Company Dismissed.

Toronto, Feb. 5.—In a suit before Judge Morson, brought by Mr. G. Marone, Company Dismissed.

Toronto Railway Co. for injury to his cab in a funeral procession, caused by a collision with a street car, his Honor gave judgment for the defendants on the grounds that a funeral had no more right to stop a street car than any other procession.

An Old Man's Suicide.

Winnipeg, Feb. 4.—Robert Townsend, and old man of about 87 years, swallow-ted friend of the Queen, who assumes power, is committed to the re-

versal of the entire policy of the dictatorship, the abolition of repressive measures, and the restoration of "the old liberal monarchy."

On Saturday Government by decree will be withdrawn, annesty ordered political offenders not implicated in deeds of violence, and the embargo, on the press raised.

of violence, and the embargo, on the press raised.

Franco's downfall is complete. He recognized that it was impossible to saddle the youthful King at the outset of his reign with the stern programme involving the immediate banishment and deportation of several hundred political offenders, to which he had committed himself if he retained office. He told a friend that the assassination of the King ended his political career.

Practically no headway has been made in unravelling the plot of which the murder of the King and Crown Prince were but one step. The police now admit that the three men arrested were not involved. Every one of the desperate band, except, the three men killed, escaped in the confusion. The identification of these three throws but little light upon their connections.

A constant stream of prominent people called at the royal palace to-day to view the bodies of King Carlos and the crown Prince, who are lying in an improvised mortuary chapel. A flood of soft light from countless candles filled the chamber of mourning. There was a mass in the chapel this morning, at which the members of the royal family were present.

### FLYING COLMNS IN MACEDONIA Sir Edward Grey's Plans for Restor-

ing Order. ing Order.

London, Feb. 4.—The plans of Sir Edward Grey, the Foreign Secretary, for the restoration of order in Macedonia, include the formation of flying mobile columns, to be supplemented by increases in the gendarmeric forces, all to be commanded by foreign officers with definite executive powers.

Sir Edward is of the opinion that the funds adequate to equip these forces should be obtained by effecting economy through the reduction in the number of Turkish troops now in Macedonia.

### TOO MUCH FOR CABINET.

London Times Suggests Commission on Colored Immigration Question.

London, Feb. 4.—The Times, discussing the colored immigration question, points out that the settlements in Canada and the Transvaal are only temporary, and says that surely it is time to establish some body more fully in touch with the various communities and races composing the Empire than the Cabinet. The question, with its enormous risks, is important enough for the colonial conference, but if that is too much to ask, the Secretariat might at least pave the way for a commission which should elaborate an imperial scheme and avert the evil by a common understanding. London, Feb. 4.—The Times, discussing

### How to Cure Stitch in the Back

This is a peculiar sort of rheumatic trouble that affects the muscles about the loins. Severe spasms of pain shoot in all directions, and become more severe on stooping. In treating a "Stitch" it is necessary to keep the back warmly covered to prevent sudden chill, and to freely apply a penetrating liniment like Nerviline. Through all the cords and muscles the healing power of Nerviline penetrates, and quick as a wink the pain and stiffness disappear. To prevent congestion returning, a second or third rub with Nerviline is advisable, and then a Nerviline Porous Plaster should be put on the weak spot. Those who have employed the Nerviline treatment say it is quicker and more efficient than anything else.

# mmittee Appointed to Consider Pos-sibility of Transferring the Annual Live Stock Show to Toronto—Meet-ing Well Attended.

MOTION MADE BY SHORTHORN

BREEDERS' ASSOCIATION.

LOSE FAIR?

WILL GUELPH

Toronto, Feb. 5 .- A motion to conider the possibility of transferring Ontario's annual Live Stock Show, from Guelph to Toronto Junction was the indevelopment at the annual meeting of the Dominion Short-horn Association, held in the Temple building Association, held in the Temple building yesterday. A committee composed of the President and six other, members was appointed to make inquiries regarding the suitability of Toronto Junction as a location for the show, and to ask the Government to make no further additions to the buildings at Guelph until the question has been thoroughly investigated. The motion is the outcome of complaints from cattle men of the Procomplaints from cattle men of the Procomplaints from cattle men of the Pro-vince, who claim that there is not at Guelph, and probably never will be, adequate accommodation either for those who attend the fair or for the cattle

quate accommodation either for those who attend the fair or for the cattle they exhibit.

The morning session of the association was devoted principally to the awarding of grants to the various Provincial stock fairs. The total appropriation amounted to over \$6,000, an increase of over \$1,000 on the sum laid aside for this purpose last year, the greater part of the increase going to western fairs. Three new winter shows—Calgary, Brandon and Regina—received grants of \$150 each. •

The report of the Executive showed a membership of 2,052, of which 1,437 were from Ontario, 329 from Manitoba, and the rest distributed over the various Provinces, with the exception of a few residing in the States. Registrations of Shorthorns during the year were 10,253, transfers 2,804, and duplicate certificates 329.

10.253, transfers 2,804, and duplicate certificates 329.

The election of officers resulted as follows: President, A. W. Smith, Maple Lodge; First Vice-President, Capt. T. E. Robson. London: Second Vice-President, Peter White, jun., Pembroke: Secretary-Treasurer, W. G. Pettit, Freeman.

Sheep Breeders' Meeting.

Amendments to the act for the protection of sheep from dogs were adopted by the Dominion Sheep Breeders' Association at the Palmer House vesterday.

The officers for 1908 are: President, John Campbell, Woodville: Vice-President, A. Whillan. Guelph; Secretary-Tresurer, A. P. Westervelt, Toronto.

The total receipts for 1907 for regis The total receipts for 1907 for regis tering sheep records at Ottawa were \$1, 234.05.

The present membership from each rovince is Ontario, 145. Manitoba 4, saskatchewan 3, Alberta 2, British Columbia 4, Quebec 107 and New Brunswick.

### STOESSEL TRIAL

JUDGE - ADVOCATE ASKS FOR DEATH SENTENCE.

Demands Condemnation of Generals Fock and Reiss Along With Stoessel-High Tributes Paid to the Bravery of Russian Soldiers.

final sessions of the Stoessel court-marwas held to-day. Lieutenant-Gen-

tial was held to-day. Lieutenant-General Stoessel, together with General Fock and General Keiss, are being tried for the surrender of the Port Arthur fortress to the Japanese.

In his summing up to-day the judge advocate demanded that the court impose the death sentence upon Stoessel, Fock and Reiss—upon Stoessel as the responsible agent for the shameful surrender of the fortress and the cowardly ending of its glorious defence, and upon Fock and Reiss as the men who inspired and abetted him. For General Smirnoff, who was declared guilty of not having taken measures to prevent the surrental terms. taken measures to prevent the surren-der, the judge advocate asked imprison-ment at forced labor for four years. General Guersky paid the highest tribute to the brave defenders of the

# LAYMEN'S CAMPAIGN HAD GOOD OPENING.

Successful Banquet In the Arcade Hall Last Night and Able Missionary Addresses.

Iwo Important Meetings to be Held This Evening and One To-morrow Evening.

countries. He also stated that Canada must not forget the duty it owes to the nissionary cause in the great Northwest, He then introduced one of the speakers of the evening, Mr. William T. Ellis, of Philadelphia, a journalist who has travelled around the world in the interests

elled around the world in the interests of missions.

Mr. Ellis was given a hearty ovation on rising, and he said he was here to speak to business men who take a business-like yiew of the missionary problem and who are in favor of giving the problem as quare deal. If business men were going to give to the cause of missions, they naturally want to see to what they are giving. Many Americans had questioned the reliability of the missionaries in the heathen countries, and had spoken of the missionaries as grafters, of a type worse than the American or Canadian politician. He characterized such remarks as an insult to Christianity. When such remarks were going around he stated that he had been sent out by his paper and a number of other papers for the purpose of finding out for himself the real truth concerning the matter. While he could not write that every missionary sent out by the churches is a saint, as there are many incompetent, and some who are in the business to make a livelihood out of it, yet so far as he could judge, Mr. Ellis firmly believed that the missionaries are a most efficient body of men. He was of opinion that the foreign missionary ranked higher than any other profession le knew of. higher than any other profession he

The time has come, asserted Mr. Ellis when we have to reply to these asser-tions regarding the work that is being accomplished, and to ram the lies down the throats of those who tell them.

accomplished, and to ram the lies down the throats of those who tell them.

Mr. Ellis went on to say that there is not a business firm in the country that is as disloval to its representatives as the church is to its missionaries. While mission boards are not a thing he believed in, as he considered that money was no doubt that great good is done by these same boards. To give an idea of the extent of heathenism, Mr. Ellis stated that one could go for a whole year through heathendom and never see a Christian or even a native missionary. He considered that the present age is only the beginning of a beginning in the missionary work that has to be accomplished.

A man who is not doing work in the home misisonary cause might be termed an infidel. Religion, like charity, should and must begin at home, but it ceases to be religion if it stays at home, and does not look farther than the shores of this country. Mr. Ellis said that he was a believer in comparative religion, and he wanted to throw the veil of Christianity over the great expanses of Christianity. The men who have writ-The men en so much about the grafting condithom of the missionaries, he had own out more trousers than shoe leather in the pursuit of their knowledge. The reeking of the aroma of the study pervaded most of the books, and did not come from the pen of a man who

had been and seen the conditions as they actually are.

Mr. Ellis stated that the non-Christian religion has produced an efficient civilization, in referring to China, Japan and India. Some people say that Japan has arisen from the muck of heathenism and is asserting herself, but he considered that while Japan might be efficient in its may and army, the moral conditions of the country were awful to behold. China has come to her day of destiny, and is frightened at the prospect ahead of her. This is caused by the belief in Confucius.

of ner. This teases by the conditions in Confucius.

"As compared with the conditions in China at the present day, the American nation is in the kindergarten of graft. The whole religion is one graft from start to finish, and the social affairs are such that one man cannot believe another," said Mr. Ellis.

The Oriental, according to Mr. Ellis, is a monumental liar, and cannot conceive truth as being a sacred thing. It was a relief beyond words to be able to get back among white people, and in a white man's country, where one can believe what another man says, with a white man's country, where one can be easonable degree of safety. In Chrisianity there has been efficiency. The gain non-Christian religions have produced a religion that is cruel and selections of the christian country when the christian country with the christia nagain non-Christian religions have produced a religion that is cruel and selfish. The cruelties practiced by the Chinese are devilish in the extreme. It isn't in China to be merciful and kind. Then again, the non-Christian religion has produced a state of mind among heathen nations, said Mr. Ellis, and immoral conditions that are unparalleled in the history of the world. A person in this country cannot for a moment understand the rottenness of the Oriental. Japan does not even understand the meaning of the word virtue. Mr. Ellis said that China was restated the meaning of the word virtue. Mr. Ellis said that China was restated than her reighbor, and, in fact, there were many cases where it was a good deal worse. And the same could be said of India. The only way to overcome this state of heathenism is to transform the lives of the Oriental by the spirit of Jesus Christ.

Mr. J. Camplell White, of New York.

Curist.

Mr. J. Campbell White, of New York, was the next speaker, and while his subject was the missionary problem, it was totally different in style from Mr. Ellis' address. He considered that men should

Last evening saw the opening of the laymen's missionary campaign in this city, when the first of a series of meetings was held. A banquet was given in the Arcade, which was attended by about 200 of the representative business men of the city of all the Protestant demominations. The menu was a splendid one, all the delicacies of the season being on the table.

The chairman of the evening, Mr. Geo. Hope, called the meeting to order about 7.30. He said that he felt greatly honored to have charge of such a meeting. He was sure that Canada was deeply interested in the movement that is being developed, and was of the opinion that the laymen should give largely to the missionary cause, especially for the development of the work in the heathen countries. He also stated that Canada and countries. He also stated that Canada and the United States are therefore a sure in proportion to population as did canada and the United States. Other nuch in proportion to population as did Canada and the United States. Other countries contributed \$3,327,000 last year. Mr. White stated that there were about 13,000 missionaries of all Protestabout 13,000 missionaries of all Protest and denominations in foreign countries, and that it costs \$1,700 a year for their upkeep. He said that this was too economical a basis to work on, and the churches should make it run up to \$2,000 a year. At this rate the cost per person that could be reached would be \$2 a year for the maintenance of the missionaries. When one stops to consider that there are 325,000,000 people, divided among 13,000 missionaries, or at the rate of 25,000 people for each missionary, the work that has to be accomplished is somewhat stupendous. If all heathendom could be reached the missionary force would have to be quadrupled.

Mr. White gave out a statement of the amount of money that was being used in religious purposes in the churches of this cit. He said that \$1510.

sed in religious purposes in the hurches of this city. He said that \$151,

churches of this city. He said that \$151,-447 had been for congregational pur-poses, \$27,339 had been sent to the Home missions, and that \$12,601 had been con-tributed to the foreign missions. These were the figures for last year. "When the Church of Christ makes religion universal, the day will not be far distant when it will be winning souls for Jesus Christ," were the concluding words of Mr. White, This afternoon a women's mass meet-

WAIT TO HEAR

Board of Works Will Take Up Road Scheme Then.

The Aldermen Seem to Favor Local Improvement.

Manager Hawkins Promises to Instal Nernst Lamps.

Until the Street Railway Company ubmits the proposition announcing the terms under which it will instal a new system the Board of Works declined to take action on the suggestion to introlaw to provide the necessary amount for going into a scheme of good roads improvement on a large scale. The mater was discussed at the meeting last night, and Mayor Stewart urged that it was important some action should be taken at once, as the estimates would be struck shortly. He suggested a special meeting of the board to deal with the matter. Ald, McLaren and Allan pointed out that Colonel Gibson had promsed to submit his proposition to the city within two weeks. As soon as this was received the board would know where it stood.

"An right, if you want to take the stand of being dictated to by the ranway, said the Mayor.

and not taking any such stand, protested Aid, Assisten, who explained that it the city found it to its interest to work with the street railway return han against it, that was the course ne

orelevant to pursue.

If the company's proposition did not brove leasible, and there was no prosove leasible, and there was no prospect of a settlement, the right tang to up was to apply to the Ontario Kaniway Board. Mayor Stewart expressed min-self satisfied that the city could do that now, and the board would order the company to fix up its tracks where the city was going to lay permanent payment.

the company to fix up its tracks where the city was going to lay permanent pavement.

Ald. McLaren could not see it in that light. The board might permit the company to use the old rails again, as it nad done on Herkimer street.

The committee was a unit in agreeing that something had to be done about the roads, and they seemed to favor local improvement. The Mayor expressed himself strongly in favor of this as against submitting a by-law. The proposition is to pave Barton street, and possibly James street north and King street west.

The Council can go into the local improvement scheme without submitting a by-law to the people. If a large sum of money is to be expended it will be necessary to submit a by-law for the issuing of debentures.

The committee will have a conference with the Finance Committee shortly about the Guelph Junction Railway, and it was agreed that a special meeting should be called as soon as the street railway's proposition is received.

Another little dispute between the city and Cataract Company was amicably adjusted. This was the matter of the Nernst lamps, which was up last year. Some of the Board of Works aldermen declared that General Manager Hawkins had told them at a conference that he would have the twelve lights in question installed at once, and the next day changed his mind and wrote a letter saying that he would not.

Mr. Hawkins appeared before the committee and said that he had given instructions to instal lamps where they would not mean a loss of more than 20 per cent. of what the company could hope to receive in gross receipts until the end of the contract term. Although Mr. Hawkins declared that he did not understand it the way the aldermen did, he said, "If I promised it, why, I will do it."

The lights will be installed at once.

do it."

The lights will be installed at once.

Mr. Hawkins stated that the installing
of the lamps meant that the company
would lose a good deal more than 20
per cent, on some of them.

per cent. on some of them.

City Engineer Barrow reported that it would cost \$2.00 to build a retaining wall at the Jollev Cut, and the board decided to put it in the estimates.

Mr. Barrow stated that it would cost \$10,920 to build a road from the foot

BURGLAR PROVES LUNATIC. Mar Who Robbed St. Catharines

St. Catharines, Feb. 4.—The man who broke into Bissonnette & Case's clothing store and Coy Bros.' hardware, about two weeks ago, was arrested in Buffalo yesterday. He turns out to be an escaped lunatic from the Brockville Asylum. When arrested he had a grip which had been stolen from a store in Buffalo on en stolen from a store in Buffalo on turday night, along with about \$300 Catharines, went to Buffalo to bring him

oack.

The prisoner first gave the name of Stanley, but admitted this was not his right name. He took the name of the control of the name right name. He took the name of Stanley because it was a "higher name" than his own, which is Kennedy. He said the clothes which he discarded here were those given him by the asylum authorities at Brockville. He had been an inmate of the asylum at Brockville for six years, and had also spent 18 months in the Ogdensburg, N. Y., asylum. He said he was born in Chicago, but his mother now resides in Kingston.

Asked how he came to leave the Brockville Asylum, he said he "just walked away." The Buffalo police were anxious to get rid of Kennedy, but Chief Parnell, of St. Catharines, did not want him. "Well, we will send him across anyway." said Chief Taylor.

GOING FOR BODY

er, Refuses to Talk.

London, Ont., Feb. 4.—High Constable Hughes and Officer Faircloth left to-day for Cobble Hill to bring the body of Mrs. Hartwick, who was murdered by her husband, to this city. Since his confinement in London jail Hartwick has refused to talk. He evidently did not complete his terrible deed without a great struggle, as his body and hands are marked with many cuts and bruises. He is about sixty years old.

### **OLIVER ON** TIMBER LIMITS.

Policy of Old Conservative Government Continued.

Highest Bidder Got the Berths in Every Instance.

Clifford Sifton Moves Adjourn

Ottawa, Feb. 4.-To the misrepres

tations, insinuations and veiled charges which have made up the Opposition's at tack on the Government's timber land administration Mr. Oliver made a complete answer to-day. He showed that the policy challenged had until December last, when the new regulations were introduced, been followed for a period of 25 years, by the last Conservative Government as well as by the present Administration, and that it was based not on the principle of securing the high-est prices for the standing timber, but the desirability of developing the lumber industry throughout the coun The difference between the two Administrations was that while the principle followed was right in both cases, methods adopted by the Conservative Government were wrong. After proving that during the past eleven years the policy of the Government had years the policy of the Government had been an unqualified success in the direction of developing the lumber industry and meeting the demands of the settlers, Mr. Oliver dealt with the suggestion that the Interior Department had shown favoritism. He pointed out that in one of the transactions actually shallenged by the Opposition the successful tenderer was a prominent Conservative of Prince Albert, and quoted from the list of tenders since 1906 to show that the tenders had ranged in some cases from \$400 to \$8,500 and \$307 to \$8,100, thus proving that the competition had been \$400 to \$6,500 and \$307 to \$8,100, thus proving that the competition had been ample and adequate. Finally he took up the insinuations of Mr. Ames with regard to the Cedar Lake limit, and gave to the House Mr. Fraser's explanation of the circumstances connected with that transaction. It was an explanation which entirely disposed of the suspiciona sought to be created by the member for St. Antoine. Mr. Oliver closed with a challenge to the Opposition to make definite charges instead of taking refuge in insinuations. The delate was adjourned on motion of Mr. Sifton.

Sale of Mileage Tickets.

### Sale of Mileage Tickets.

The bill to amend the passenger ticket ict, introduced by Mr. keid (Grenville), was read a first time. It provides that railway companies must sell mileage tickets, good for 500 or 1,000 miles, at the rate of two cents a mile; that where the holder of such, by mistake, gets on the wrong train, his ticket must be ac-cepted, and the company must collect from the company issuing the ticket the amount due for distance travelled by the Mr. Boyce on Timber Leases.

Mr. Boyce resumed the debate to Mr. Lake's amendment calling fo ar investigation of timber leases, his re marks being in the nature of a genera eriticism of the Government's policy dealing with the timber limits. He cited some specific instances in support of his view, and, commenting on the fact that the Minister of the Interior so far that the Minister of the Interior so far had not offered any explanations, said perhaps the ex-Minister (Hon. Mr. Sifton) who had displayed active interest in the debate, would no doubt have something to say, as it was during his term of office that some of the methods which the Opposition now attacked had been followed. Turning to Mr. Turriff, he declared that the former Land commissioner must have known that there were spurious tenders.

Mr. Turriff—The hon, geatleman is again indulging in insimuations. I ask him to make charges. I say again, it was not my business to act as a detective. I opened the tenders as they, came to me, and had nothing to do with questioning whethere we had to be desired to the with questioning whethere we have the control of the con

was high time there was an investigation into the doings of the gang of political thugs and liveres who were plundering the country.

Mr. Oliver's Reply.

Mr. Oliver agreed with Mr. Boyce in the expression that the discussion had become a farce. He did not think there had been anything in Parliament to compare with it, and there was probably nothing on record to compare with many thing in Parliament to compare with it. And there was probably nothing on record to compare with it. And there was probably nothing on record to compare with it. And there was probably nothing on record to compare with it. And there was probably nothing on record to compare with it. And there was probably nothing on record to compare with it. And there was probably nothing on record to compare with it. And there was probably nothing on record to compare with it. And there was probably it except the celebrated case of Bardell ve. Pickwick. The Government had been of anything like the value his resources had been squandered and its treasury robbed. The Opposition had been to severe the development of the lumbering industry, and not to secure price for the standing timber. In 1870 the Government and of the present Administration had been to secure the development of the lumber industry, and not to secure price for the standing timber. In 1870 the Government and of the present Administration had been to secure the development of the lumber industry and to compare with the timber resources of the country of the principle of revenue from said the limit was attreasted as a provision for dealing with the timber resources of the country of the principle of revenue from a consequence of the standing timber. In 1870 the mean replaced to the present time proceeding the development of the timber areas. With a view of securing the development of the timber areas as with a view of securing the development of the timber areas. With a view of securing the development of licenses did not follow the order-in-Council, the rights of ownership were exercised. The Opposition had blazoned the Galway Horse & Cattle Company transaction abroad as a corrupt deal, but the fircumstances of that transaction were exactly the same as in many of the transactions of the Conservative Government. If it was wrong in that instance it was wrong in 345 cases under the late Government.

First Come, First Served.

Proceeding, he said there could be not conservative for the first come, First Served.

Proceeding, he said there could be not cancelled shortly after the Tory Government, he said the license had been cancelled shortly after the Tory Government.

it got it, unless there was more than one applicant, in which case the man who bid most was successful. As illustrating the success of the policy under both Administrations, he stated that in 1881 the total timber cut was 13,000,000 feet, of which 12,000,000 was sold; in 1896 the figures were 34,000,000 and 32,000,000, respectively, and for the nine months ending March 31, 1907, the cut was 141,000,000 feet and the sales 128,000,000, while the number of mills increased from 55 in 1896 to 89 in 1907. This enormous advance was proof of the success of the present Government's method of getting lumber cut so as to met the demand of the people in the west. It had been secured, too, by the alienation of something less than 8,000 square miles, against the alienation of 30,000 square miles by their predecessors, and to-day lumber was stocked in every lumber yard in Manitoba, Saskatchewan, Alberta, and on the railway belt of British Columbia, beyond the present requirements of the west.

Much Timber Left.

Much Timber Left.

Standing timber, he emphasized later, in alluding to the fallacious reasoning of the Opposition members, was not worth anything as a working proposition unless it could be turned into iumber, or there was an assurance that it soon would be. The owners could not get money out of it unless they manufactured it into lumber and sold at the market prices. If there was any ground for speculative values placed on the limits by the Opposition members, why had they not tendered for them? They had perfect liberty to do so, and it could not be alleged, nor, if alleged, could it be proven, that since 1896 any hon, gentleman on the opposite side of the House had not had every chance to put his money into these limits. Dealing with the present resources of the timber lands held by the Crown, Mr. Oliver riouse had not had every chance to put his money into these limits. Dealing with the present resources of the timber lands held by the Crown, Mr. Oliver said an attempt was being made to make the public believe it was all alienated. There was no basis for that. It was now two years since the Government policy of setting aside timber reserves in the west was adopted, and they already aggregated 5.391 square miles. This was ecxlusive of 10,000 square miles of park reserves, over which they had special control in respect to safeguarding the timber. The gentleman who up to last year was in charge of the forestry branch of the department had, in fact, estimated that there were in the western Provinces and railway belt of British Columbia 150,000 square miles of merchantable timber. Fabulous estimates had been placed by hon, gentlemen on some timber berths in the vicinity of Primer Creek, Mr. Oliver said, but Mr. McGuire, a shrewd aumber operator, living near them, knowing all about them, and having ev. umber operator, living near them, knowing all about them, and having ev-ery opportunity to judge, had only bid \$275 for one and \$255 for another.

Highest Bidder Gets Limit Highest Bidder Gets Limit.

Dealing with the allegations that the Government's methods of timber administration had been corrupt and marked by partiality and favoritism, he quoted from the list of tenders since 1896 to show that there had been adequate competition. For one timber beath there petition. For one timber berth there had been seven tenders, and the prices offered ranged from \$400 to \$6,550; for another the tenders had numbered five and ranged from \$307 to \$8,100. For a third there had been four tenders, vary-ing from \$400 to \$2,106. Not only had there been adequate competition, but in there been adequate competition, but in every case since 1896 the berths had been awarded to the highest bidder. One of the cases cited by the Opposition as corrupt had been that of a timber berth near Prince Albert. As a matter of fact, it was one of their own friends who had got that berth, Mr. Cowan, who was formerly Mayor of Prince Albert, and a Conservative andidate in the Provincial election. He was the highest bidder and he got it. Reverting to the question of access to fyles in his department and the production of original documents. Mr. Oliver repeated the arguments he used in the recent debate.

Teh Cedar Lake Transaction.

### Teh Cedar Lake Transaction.

term of office that some of the methods which the Opposition now attacked had been followed. Turning to Mr. Turriff, he declared that the former Land Commissioner must have known that therewere spurious tenders.

Mr. Turriff—The hon, geatleman is again indulging in insimuations. I ask him to make charges. I say again, it was not my business to act as a detective. I opened the tenders as they came to me, and had nothing to do with questioning whether one or half a dozen tenders were written in the same handwriting. To say that I knew there were spurious tenders is false, absolutely false.

Mr. Boyce maintained that as Dominion Lands Commissioner Mr. Turriffs first duty was to be a detective. It was bight time there was an investigation into the doings of the gang of political thugs and thieves who were plundering the country.

Mr. Oliver's Reply. With regard to the Cedar Lake trans-

exactly the same as in many of the transactions of the Conservative Government. If it was wrong in that instance it was wrong in 345 cases under the late Government.

First Come, First Served.

Proceeding, he said there could be no gainsaving the fact that the larger the rapital invested the cheaper the lumber produced. From 1881 to December, 1897, the principle of administration in respect to a timber limit was first come first served. The man who would take

# The Daily Fashion Hint.

tawa to secure the transfer to him of tawa to secure the transfer to him of that same limit on condition of the writers of the letter having one-third interest in the property. He strongly criticized the attitude of the Opposition and the resolution moved by Mr. Lake, saying it was quite evident that they would make insimuations, but not charges, that what they wanted was not investigation, but to discredit the Government without being put in any position of responsibility.

Mr. Borden.

Winnipeg, Feb. 4.—There is a rumor in circulation that a registered package containing \$11.000 has disappeared in the mails west of here. No official confirmation can be obtained.

### **BRAVE SEAMEN**

### Rescued hip's Crew-Gallant Nova Scotian.

Hamilton, Bermuda, Feb. 4.—The steamship Bermudian arrived here from being put in any position of responsibility.

Mr. Borden.

Mr. Borden declared he had never heard a member of the House who had been guilty of insinuations to the extent that the hon, gentleman had. The statement of the Minister of the Interior, he declared, was illogical and absurd, and he spent some time in criticism of it. Proceeding, he asked why the seas were still too high to allow of a seas were still too high to allow of a close approach. The men on the schooncose approach. The men on the schoon-er plunged into the sea and were res-cued with life lines and conveyed to the Bermudian. The exhibition of the dauntless courage by the boats crew was watched with breathless interest by was watched with breathless interest by the 200 passengers on board the Bermu-dian who testified their appreciation of the gallantry of the men by subscribing \$650 for them. Of this amount \$250 goes to J. F. Welsh, second mate, a young Nova Scotian.

### JAP TAXES.

Tokio, Feb. 4.-After a heated debate losto, reb. 4.—Arter a neated neonte lasting five hours, an increase in the taxation bills on sugar, sake, alcohol, beer and kerosene, was passed to-day in the Diet. The Government had a majority yote of 84 in every case, except in that of kerosene, on which the majority vote was 24.

CRITICISM FOR CANADA.

Should Have Conformed to Policy of 1897 Conference, Says the Post

London, Feb. 4.—The Morning Pos dealing with the Asiatic immigratio question, criticizes the Dominion Gor question, criticizes the Dominion Gov-erment, and says that had Canada con-formed to the policy adopted at the con-ference in 1897 her national dependence would be larger than it is to-day. Her immigration laws would not be char-acterized by racial discrimination, and the recent troubles in British Columbia need never have arisen.

## Is Your Skin Sallow?

Authorities like Dr. Hamilton who have made a study of skin diseases say that the trouble always originates in a torpid liver. You are apt to be dizzy, have bad taste and poor appetite. It isn't necessary to use a harsh medicineget close to nature and try Dr. Hamilton's Pills which are composed of the juices and extracts of such herbs as Mandrake and Butternut. They are an ideal regulator for the liver, tone up this organ, make it work properly, which purifies the blood, clears the complexion, and removes all poisons from the system. Never known to fail.

No one ever used Dr. Hamilton's Pills without instant relief. A more perfect remedy can't be found. They restore the sickly to health and keep the well from becoming ill. Try them for your beauty, your vigor. 25c per box, or five for \$1.00, at all dealer.

### POWDER MILL BLOWN UP.

EXPLOSION NEAR TWEED SHAT-TERED WINDOWS IN TOWN

Werkmen Made Escape-Saw Nitric Acid Vat Boil Over and Fled-Buildings Blown to Atoms-Loss

Tweed, Feb. 4.-A terrific explosion, which broke well nigh every window in town, and caused scenes of exciteoccurred a mile east from here shortly after seven this morning when the powder mills of the Ontario Pow-der Company, comprising from twelve to fifteen buildings, were utterly des-

to fifteen buildings, were utterly destroyed.

It is fortunate there was no loss of life. The men in the works had only been at their occupation a few minutes when one of the big vats of nitric acid was observed to boil over, owing to the fact that the extreme cold weather congealed the nitro-glycerine, and it entered the mixer and caused the nutric acid to boil and pour over the floor, thus setting the building on fire.

the floor, thus setting the building of fire.

The mixers, seeing the danger, ran though the works calling to the men to run for their lives. The men needed no second warning, but rush-ed to places of safety, many of them in their shirt sleeves, and as the ther-mometer registered well below zero, many of them had ears and fingers frozen.

frozen.

There was considerable of a panic in the town for a little while until some of the powder makers arrived with the intelligence that all had been saved. As it is, there is considerable in the same of the saved in the s siderable inconvenience in town, if not suffering, as, with all the win-dows broken, and the thermometer much below zero, it is impossible to

keep the houses warm.

Much perishable foodstuff has been frozen in the stores, and rendered absolutely useless, the plate glass fronts having been smashed. Business is having been smashed. Business is practically suspended, and will be for some days. The churches of the town are also without windows, and as the glass is somewhat hard to replace, there will not likely be services next Sunday.

Sunday.

The factory of the Steel Trough and The factory of the Steel Trough and Machine Co., which is situated a short distance away from the powder mills, had its big chimney blown down, as well as the glass broken.

Across Stoco Lake, a distance of six or seven miles, is the little village of Stoco. There was much damage done to windows there, and at Madoc. 19 miles away, there are some plate glass fronts reported broken.

The buildings of the Powder Company were most of them completely blown to atoms. The worst explosion took place in the building where the blasting gelignite cartridges are made.

took place in the building where the blasting gelignite cartridges are made. The company had just started the manufacture of this powerful explosive, having installed a lot of expensive machinery in December last. This explosive is 50 per cent. more powerful than ordinary dynamite.

The loss on plate class and other than the control of the control o

The loss on plate glass and other glass in the town is estimated at over \$1 1000. The company's loss will be \$25,000 at the lowest estimate.

### **NINE STOWAWAYS**

### Meet Fearful Fate on Board Burning Steamer.

spatch to the Times from the steamer Cymric gives details of the burning of the steamer St. Cuthbert. The officers and the crew of the St. Cuthbert had a terrible story to tell. At midday urday the fire was first discov turday the fire was first discovered, smoke being seen emerging from a ventilator. The first officer rushed to the bridge where the captain was to tell him of the fire, when almost immediately a terrific explosion occurred, blowing off all the hatches in the forward part of the ship, and destroying half the bridge. The captain was thrown to the deck, baddy injured and blinded by the flames. The wheelsman was driven away from his post. The foremast melted and fell, throwing a stowaway who was hidden in the crow's nest into the flames, which had by this time burned through the forward deck. There were nine stowaways on the ship, and all were caught in the forward holds and burned to death without a chance of rescue. After the fall of the mast the fire were first we will be seen the fire were first leave of the ship. After the fall of the mast the fire was partially checked, but the poisonous fumes of the fusel oil made fighting the fire almost impossible.

The ship was loaded with fusel oil,

matches, rags, willow ware and other in-

Beamsville, Feb. 5.—Grimsby's aspira

BEAMSVILLE WON.

Beamsville, Feb. 5.—Grimsby's aspirations to tying St. Catharines in group II received a jolt in an intermediate O. H. A. game here last night. Beamsville won by a, score of 11 to 5, the score at half-time being 7 to 1.

The teams played one of their old-time games. It was of the whirlwind order from start to finish, but after the first half was never in doubt, the score being 7 to 1 against the green and white.

Beamsville notebed the first, in three minutes' time, on a lightning shot down the centre of the rink from Beatty's stick, then Grbson scored in two minutes, for the home, and the five hundred fans cheered till the rafters rang. Julke made a long lift fom the end, and the puck found the visitors' goal again. The Grimsby boys bombarded the nets in heroic style after this, but the puck sailed south, and Gibson found the net. From this time on the attack was on the visitors' lines all the time, and three more were poured in like hot shot. With but two minutes to play. Walker sent in one from the side for Grimsby. Half time 7 to 1, in Beamsville's favor.

Play started with both teals working craftily, and rafter-lifting shots were the order for several minutes, when Gibson by a brilliant bit of work on a combination by Kelter and Julke, scored. It looked like a walk-over at this stage but the western boys found their wind and on a combination by Hand and Gilmore the tally was 8-2. After nearly four minutes of nerve-racking suspense Tufford got the puck, and by a beautiful and difficult side shot scored for the home. Grimsby almost from the draw sent ope in, making the score 9-3. Beamsville scored again in two minutes, on a long lift by Hewitt to Kelter and green worked to pile up, but succeeded only once, and the visitors made it it to just on the stroke of time. It was a clean game, and it would be hard to pick out any particular star on either side. Chester Gibson, the valiant little rover of the Grimsbys, was still suffering from a broken nose, and was hardly up to his usual good standa of the Grimsbys, was still su ken nose, and was hardly up to his usual good standard. Beamsville.

PRESTON IN FRONT.

Seaforth, Ont., Feb. 5.—The first home and home game between Preston and Seaforth in the intermediate O.H.A. series was played here tonight before a very large crowd. During the first half the visitors completely outplayed the locals, the score at the close standing 6-2 in favor of Preston. After about five minutes play Monroe, of the local seven, injured his knee, and was laid off till half-time. In the second half the locals did better work, scoring four goals to the visitors six. Preston have some very fast forwards, they play good combination, and their defence play a very safe game. The locals are not fast enough skaters, nor do they play as good combination; their defence played a very good game. Rahn, Morrison. Bowman and Bernard, if not seniors can qualify easily. Their team will make a very strong bid for the championship, even though the Forest City men are still in the race.

The line-up was as follows:—
Preston—Goal, Preiffer; point.

City men are still in the race.
The line-up was as follows:

Preston—Goal, Pfeiffer; point,
F Yates; cover, J. Bernhardt; centre,
J. Bowman; left, M. Morrison; right,
R Rahn; rover, A. Daughty.
Seaforth—Goal, Westcott; point, McKenzie; cover, Smithers; centre, Reeves; left, Monroe; right, Stoddard;
rover, Reid.

### CHASING THE PUCK.

Stratford O. H. A. juniors will play at Paris on Thursday, and at Strat-ford on Monday night. Uxbridge and Port Perry have been ordered to play off the tie in their dis-trict at the Mutual Street Rink Fri-

Renfrew will not be brought here

day night.

Renfrew will not be brought here Friday night, but may play at the Mutual later on. The Pirates of Pittsburg may also play the Torontos before they return home.

The Oxford-Waterloo League hockey match with Plattsville, scheduled to be played in New Hamburg Friday, will be played on Thursday instead. The cause of the collapse of the roof of the Picton Rink on Saturday was one of the iron truss rods parting, due to a flaw in the iron, thus permitting one of the principals, or arches to spread. Its starting caused the others to follow, with the result that the entire roof, save two of the arches, is flat on the ice. The caretaker succeeded in getting the youngsters off the ice in time, and no person was injured, as it gave just sufficient warning to clear the ice. The sides and the ends are in perfect form and even the galleries and balconies are in fine shape, and by taking out the remainder of the roof it would make the finest kind of a semi-open rink.

### U. S. HORSES WON

### Two of Yesterday's Races at Ottawa Ice Meet.

Ottawa, Feb. 5.—As was expected, American horses carried off the big end of the money in the two events unfinished from yesterday in the Central Canada ice races, the 2.15 and 2.40 trot and pace. One heat each was necessary to decide them to-day, and in the formto decide them to-day, and in the former Gretchen I., the Oswego mare, finished first and won first money. Vena Inezearns second and Shadow third place. All three are New York horses.

Geo. D., of Ogdensburg, took the 2.40 final and first money in the race, Lucy Torrence of Kemptville second and Sybil of Ottawa, third money. It was, however, up to King Bryson, the Toronto stallion, to win the easiest victory of the meet in the 2.20 trot. He went through in straight heats, making a clubs yesterday on the keenest kind of show of his field in each. Kitty S., a

### Buffalo mare, earned second and Dandy Wilkes, Redwood, N. Y., a close third

Wilkes, Redwood, N. Y., a close third money.

The 2.12 stake, one thousand dollars, was the feature event of the day, and furnished the prettiest racing. Major B. O., the Quebecer, was favorite, and won the first heat, but shot his bolt and had to give way to Miss Syracuse, of Syracuse, N. Y., in the succeeding three, but it was a hot battle. Second money went to the Major, while the Brantford entry, Johnny, corralled the third share. Summary:

2.20 trot—
King Bryson, McBride, Toronto 1 I

Kerr's case the News says:

"The only bit of discord of the whole evening came in the sprints, considerable kicking being done over the handicaps, which, it must be confessed, were certainly out of all proportions, some lads having as much as six yards, which, in a fifty yard race, is almost ridiculous. Bobby Kerr was on scratch in the first heat, but third was all he could do against men like Flint and Barber, who were on the six and four yard marks

The Victoria Yacht Club has accented an invitation to pay a social visit to the Twentieth Century Club on Friday

Rinks, the Lindsay cracks and the Toronto Caledonians being left for the last game, which will be played this afternoon at the Granite, starting at 2 o'clock. All the contests age 18 ends, except the final to-day, which is 22. The games yesterday were all won by large majorities, ranging from Lindsay's 40 over Paris in the first round, to Orillia's win by 8 over Sarnia. In the afternoon the Southampton Sailors, who had put away Plattsville by 31 in the morning, held Lindsay down to 9 shots, 4 on one end and 5 on the other. The Caledonians had Orillia well in hand all through the semi-final, the home curlers being always ahead after the first end, Curiously, T. Rennie's rink 'tied in both games, while R. Rennie had a lot to spare in each.

The competition for the Governor-General's prize was started yesterday afternoon, three games being played. Queen City, was noze the Prospect Park and

oral s prize was started vestering aftermoon, three games being played. Queen
City went over the Prospect Park and
lost to Newmarket by 10. This pair were
runners up in Tankard groups 1 and 5.
Of the beaten clubs in the finals, Sarnia
won from London Thistles by 15 at the Granite, and Plattsville put out Paris at Queen City by 13 shots.

### HAMS. TOP SCORE.

### Opening of the City Bowling League Last Night.

The opening games in the recently organized Hamilton Bowling Club were played last night at the Brunsfor three-years-olds, the limit lined up before Starter Cassidy's barrier. The dearn was devoid of any particular feature, and nearly every event was given to the poorer class of horses. Severus, at 9 to 2, won the fourth race by head from the pacemaker, Bitter Sir, t 25 to 1. Serverus victors was limited to the learner of the will hardson team, made the best individual score of the will be the several to the learner of the will hardson team, made the best individual score of the will hardson team, made the best individual score of the wells. The first ball was rolled by Ald. Hennessy, Vice-President of the League. The Hamilton II. in deleating the Willamson team, made the best individual score of the wells.

### CANADIAN TEAMS ENTERED.

Asjority for Hamiltons, 501.

CANADIAN TEAMS ENTERED.

Toronto, Febil 5.—Arrangements have been made for a bowling team from this city to attend the tournament of the American Bowling Congress, to be held in Cincinnati from the 8th to the 22nd inst., and it is also expected that teams will attend from Winnipeg and Vancouver. The Vancouver contingent is particularly strong. They have entered one fivemen team, three two-men teams, and six individual entries. These parties will arrange to take part in the tournament of the C.B.A., to be held in Toronto from 24th February to March 2nd, on their way back from Cincin atti. The entries received in connection with the American tournament already number many thousand, and those in connection with the Canadian event are coming in quickly.

### LONG CRUISING RACE

Is not the first occasion when the ultimate honor in this competition has been fought out by the same clubs, and it is interesting to recall that six years ago the Tankard play found them in the same position.

The Toronto News' sporting man frankly admits that there was some bad handicapping at the indoor meeting on Monday night. In regard to Bobby Kerr's case the News says:

### QUILL ON A FOUL.

Roston, Feb. 5.—Tommy Quill, of Brockton, won on a foul from Willie Fitzgerald, of Brocklyn, in the tenth round of their bout at the Armory A.A.C. last night.

Up to the time of the foul blow, Quill appeared to have slightly the better of the milling.

Fitzgerald said that while the blow probably went below it was unintentional.

Mr. James J. O'Hearn has tendered his resignation as a member of the Toronto Separate School Board.
Owing to the severe weather the railroads are in some instances refusing to accept cattle for shipment to Toronto.

# WHAT IS

## Why Gans Quit With Erne.

In an article on take fights of the past the New York Press refers to the Gane-plotters, who got odds for their cash. "After the bout Erne boasted that Erne affair as follows:

the New York Press refers to the GansErne affair as follows:

"The Erne-Gans affair at the Broadway A. C. was also a fake, although it has been generally set down as a quit 
on the part of Gans. He stopped at the 
end of the twelfth round, saying that 
the blood from a cut over the eye prevented him seeing: It had been preatranged that Gans was to lay his jaw 
open to Erne in the twelfth round and 
pretend to be knocked out. But it happened that the seam of Erne's glove 
scraped the flesh of Gans' forehead and 
caused it to bleed. Gans did not want 
it to go down in the records that he 
had been knocked out by so light a hitter as Erne, and the negro utilized the 
cut as an excuse for stopping. There

### SHORT ENDS.

### Little Paragraphs of Sport From Far and Near.

More than two thousand dogs have een entered for the Westminster Kennel Club Show, which begins in Madison Square Garden on February 11th, The actual total is 2,006, a record which has never before been reached. Robt. Colvin, of this city, has entered five of his English bulldogs.

This 'year's regatta of the Canadian Association of Amateur Oarsmen will be held at St. Catharines the week previneid at St. Catharines the week previous to the regatta of the National Association of the United States. This will probably bring it on for July 31st and August 1st.

The Philadelphia Public Ledger says:

The Philadelphia Public Ledger says:
"It has been practically settled that
James C. Rice, rowing coach of Columbia University, is to be the professional
mentor, of the all-American eight-oared
crew that is to go to the International
Olympiad in England next July. Efforts
have been made to keep the matter secret."
The

a Dangerous Condition.

Brockville, Feb. 4.—Lorimer Hay, the little son of a local florist, is lying dangerously ill with lockjaw. At the time of the recent vaccination of school children the boy was one of the subjects, and appeared to be recovering nicely until Sunday night, when the symptoms developed. It is thought that through playing in his father's greenhouses the arm became affected with poison.

St. Petersburg, Feb. 4.—Five thousand troops have been ordered from northern Caucasus to the Turko-Persian frontier, whither small detachments of soldiers have been proceeding steadily for several weeks past.

This concentration is due to the aggressive attitude of the Turks in their frontier dispute with the Persians.

It is believed in St. Petersburg that Russia is about to undertake a military demonstration against Turkey.

How will be killed as surely by a shock at fifteen miles per hour as one at forty miles? We will not give an opinion on this abstract question.

"La Presse," 24th January, 1908.

READY FOR BUSINESS.

Marconi Wireless Will Accept Commercial Messages.

Montréal, Feb. 4.—The management of the Marconi Wireless Telegraph Company makes an important announcement

ratermo, Feb. 4.—The trial of Nunzio Nasi, former Minister of Public Instruc-tion, who is charged with having em-bezzled the public funds, resulted to-day in an attempt at murder. A lawyer named Laudicina had just returned here from Rome, where he gave testimony

from Rome, where he gave testimony most favorable to Nasi. To-day he was attacked on the street by another law-yer named Valenti, an Anarchist, who fired at him twice with a revolver. Neither shot took effect. Atlantic Rate War Over.
London, Feb. 4.—The Canadian Associated Press understands that the result of the conference between the transatlantic steamship companies will be that the first and second class rates will be restored on the old basis, and possibly made higher in some instances. In the case of third class fares the old rates will be restored.

It is reported that the Grand Trunk Pacific and the British Columbia Govern-ment have settled their differences re-garding the title to Indian lands, includ-ing the site of Prince Rupert.

### LANCASTER'S BILL.

### La Presse Says It Would Eliminate Express Trains.

We learn from Ottawa that the Senate will this year refuse to send back for the third time Mr. Lancaster's bill, forcing the railway companies to cross towns and villages at a maximum speed of 15 miles an hour. At first glance this

New York and Chicago, is 100 miles more than between Montreal and Chi-cago. Notwithstanding that, however, the New York Central does the journey between the two American cities in twenty hours, while the Grand Trunk, in spite of its excellent organization, cannot do it in less than twenty-three

have been made to keep the matter secret."

O. B. Bush, who won the 220 yards race at the Montreal skating championships, hails from Edmonton, but went to the Northwest from the good sporting village of Coldwater, in this Province. Bush has but one arm. The other was lost from a gunshot wound, which followed an attempt to draw a gun out of a buggy by taking hold of the muzzle. It is understood that Harry Giddings valuable stock farm of 200 acres at Oak; fille has been purchased by T. P. Phelan, of Toronto, who has also bought the thoroughbreds that include the celebrated imported stallion Bassetlaw and four 2-year-olds. Mr. Giddings will shortly go back to Australia, where he formerly raced a stable.

CASE OF LOCKJAW.

Little Son of a Brockville Florist in a Dangerous Condition. Little Son of a Brockville Florist in a Dangerous Condition.

By the Lorimer Hay the Lorimer H other mile in which to regain it. As soon as the law is passed all the railway companies will be forced to discontinue their express trains. We will give one among a hundred examples. The journey between Montreal and Ottawa is already and appeared to be recovering nicely until Sunday night, when the symptoms developed. It is thought that through playing in his father's greenhouses the arm became affected with poison.

FOUR BURNED TO DEATH.

Whole Family Almost Wiped Out at New Richmond, Que.

New Richmond, Que.

New Richmond, Que.

New Richmond, Que.

Shortly after I o'clock the residence of Andrew Campbell, aged 74, a well-to-darmer, took fire, and he, as well as his daughter-in-law. (Firstime Anez, of 8t. Godfrey, aged 30; and her two children,

should take a retrograde step.

There is another point that we w
like to bring to the attention of origin of the fire is unknown.
Young Mr. Campbell was in his barn when the fire started, and can throw no light on the mystery. His mother-in-law, Mrs. Anez, escaped, but was so seriously burned it is feared she will not recover. The loss is estimated to be about \$2,000. There was no insurance on the building or contents.

RUSSIA THREATENING TURKEY.

Five Thousand Troops Ordered to Turco-Persian Frontier.

St. Petersburg, Feb. 4.—Five thousand the properties of the stopping to the acceptance of the public. Is a train which passes a station at forty miles. It have not at fifteen miles, providing that neither of them stops? That is, perhaps, an algebraic prollèdem. At forty miles the danger is likely to be more fatal, but he means a fifteen miles and the more fatal, but he more fatal, but he more fatal, but he more fatal, but he means a fifteen miles and the more fatal, but he more fatal, but he more fatal, but he means a fifteen miles and the more fatal, but he means a fifteen miles and the more fatal, but he means a fifteen miles, providing that neither of them stops? The danger is likely to be more fatal, but he means a fifteen miles, providing that neither of them stops? The danger is likely to be more fatal, but he more fatal, but he means a fifteen miles, providing that neither of them stops? The danger is likely to be more fatal, but he means a fifteen miles, providing that neither of them stops? The matter of them stops? The means a fifteen miles, providing that neither of them stops? The means a station at forty miles at them one at fifteen miles, providing that neither of them stops? The means a station at forty miles at them one at fifteen miles, providing that neither of them stops? DIES AT HOUR FOR WEDDING.

### Bride-Elect Was Making Preparations

for Altar When Stricken.

South Bethlehem, Pa., Feb. 5.— Stricken with a severe attack of pneumonia on the eve of her wedding day, Miss Hona Taylor, aged 20 years, died at the hour appointed for her-wedding to-day. She was making final preparations for her marriage when taken ill.

### The King's Many Hats.

Special mention must be made of two kinds of Scotch cap. They are the bonnet and the glengarry. Each carries a silver medal pinned on the side, and one or other is a necessary complement of the Scottish national dress King Edward loves to wear.

"Then come the silk late, the soft hate of all shapes, the army of caps; which alone cover thirty varieties. To be specially mentioned is the cap the King wears on board his yacht. It is of flannel or white cloth, with a device in gold thread running round it."

Celebrating the New Year.

In the remote regions of the West Highlands and Islands, where the Gael holds all but undisputed sway, the "old atyle" is generally adhered to when festive seasons are concerned. The New Year is celebrated on the 13th, and not on the 1st of January. The valorous descendants of Fioun and Cuchullin are by nature conservative to a degree, and any deviation from time honored customs they regard with suspicion and aversion. Parish councils and the better educated cinhabitants have from time to time attempted to persuade the doughty clansmen to conform to the "new style," and the first year of the present century was regarded as a peculiarly suitable time for introducing a new chronological era. Public opinion, however, has always been dead against the reformers, and their efforts have been almost entirely fruitless. In a certain insular "clachan," or village, the people last year observed the New Year on the first year observed the New Year

Weather Winnipeg . . . . 14 Parry Sound . . . \*10 Toronto .. .. .. 12 Ottawa Montreal .. .. \*20 

WFATHER NOTES. WFATHER NOTES.

The cold wave is now centred in the Ottawa and St. Lawrence valley, and the disturbance which was advancing from the southwest States has reached lowa. Snow has fallen heavily in many localities from Alaska to Lake Superior, and heavy precipitation is indicated from Ontario to the Maritime Provinces, accompanied by gales. Another cold wave is spreading into the western provinces. Washington, Feb. 5.—Forecasts:
Eastern States and Northern New York: Snow in north; isnow or rain in

Eastern States and Northern New York: Snow in north; snow or rain in south portion to-night; warmer. Thursday, snow or rain and warmer; east winds, shifting to south and southwest, becoming high by Thursday morning. Western New York: Snow or rain and warmer to-night; Thursday, snow or rain; warmer in the east portion; south to southwest winds.

The following is the temperature as registered at Parke & Parke's drug store:

store: 9 a m., 10; 12 noon, 18; 2 p. m., 18. Lowest in 24 hours, 6 below. THIS DATE LAST YEAR.

Strong northeasterly winds, with light now falls.

Cold in New York.

New York, Feb. 5.—With the thermometer registering a temperature 1 degree above zero at 7 o'clock this morning, New York experienced a real winter. It was three degrees colder than any previous day this season, and within one degree of the cold weather record in New York for the past five years.

The King's Many Hats.

"Is it generally known," asks "Le Matin," toat his Majesty Edward VIL of Eogland, has the largest choice of headgear of any living monarch?

"His collection of hats is numerous and varied. Among them is the round grey hat, known in Paris as a 'melon,' and in London as a 'bowler.' This is a style of which the King is particularly fond. He wears it encircled with a thin black riband, and always travels in it.

"Then there is the "Tyrolean," a soft hat, which he always wears when shooting, very large and very supple, with the traditional feather—a partridge's feather in England, a grouse's in Scotland—stuck in the band.

Special mention must be made of two kinds of Soctch cap. They are the bonnet and the glengarry. Each carries a silver medal primed on the side, and one or other is a necessary complement of the Scottish national dress King Edward loves to wear.

Chicago, Feb. 5.—A sleet storm during last night which turned to rain early to-day seriously affected telegraphic company to the storm of many three discapanic company to the conditional many three conditions are also as the conditional feather—a partridge's feather in England, a grouse's in Scotland—stuck in the band.

Special mention must be made of two kinds of Soctch cap. They are the bonnet and the glengarry. Each carries a silver medal primed on the side, and one or other is a necessary complement of the Scottish national dress King Edward loves to wear.

The English people are governed by Scotsmen. Imperialism, says Mr. Chesterton, has destroyed the distinctive qualities of England, because we limit our respect to that which is remote, and \*\*Boo-hoo! Pa fell downstairs!"

"Boo't take on. He'll get better soon."

"Sister saw him fall all the way. I never saw nuffin!!"—Answers.

Gently Lifted.

"More people manage to reach the top these days than ever before," remarked the moralizer.

"Yes," remarked the demoralizer, "and it is due to the fact that the ladder has been superceded by the elevator."—Chicago Newa.

### H. A. A. A. MEETING.

New Racing Bill to Please Agricultural Societies.

The annual meeting of the Hamilton Amateur Athletic Association, which owns the cricket grounds, was held yes-terday afternoon. All the old directors were re-elected, as follows: Messrs, R. K. Hope, D'Arcy Martin, S. F. Washing-R. Hope, D'Arcy Martin, S. F. Wasnington, Geo. E. Bristol, J. H. Collinson and Hon. J. M. Gibson. The question of improving the grounds and sub-letting a portion of them for a bowling club was laid over on account of the absence of

At a meeting of the directors Mr. ope was elected President and Mr Hope was elected Martin Secretary.

Martin Secretary.

Albany, N. Y., Feb. 5.—The fourth of the series of anti-race track gambling bills to fulfill the recommendation of Gov. Hughes in his message to the Legislature was introduced to-day by Senator Agnew and Assemblyman Hart. It is designed to allay the objections of the agricultural societies, based on their fear that they would lose the sums now given them under the Percy-Gray racing law by the five per cent. tax on the gross receipts of the racing associations. It provides:

The legislature shall appropriate each year an amount which, including all sums received by the comptroller from the tax collected from racing associations pursuant to chapter 197 of the laws of 1895, and chapter 570 of the laws of 1894, and chapter 570 of the laws of 1895, and all acts amendatory or hereafter otherwise collected from racing associations, corporations or clubs shall not be less than \$250,000.

The Hamilton Hockey Club is making preparations for handling a big crowd at the championship match here on Friday night between the Tigers and St. Catharines. A staff of ushers will be in charge of the reserved seats in each of the galleries. The Tigers will play the return match at St. Catharines on Monday night.

Baltimore, Feb. 5.—The Baltimor News this afternoon says that within 24 hours, if plans which have been for mulating for some weeks past, mature mulating for some weeks past, mature, the Baltimore Eastern League Baseball Club will pass into the hands of Edward Hanlon, William J. Clark and Wilbur Robinson. The assets of the present corporation have been pooled and sold to a new company, in which Mr. Hanlon will hold the majority of the steok. An option on the remainder has been given to Messrs. Clarke and Robinson. It is believed the will be able to complete the lieved they will be able to complete the deal, in which event these two old time star players, who were members of the Baltimore Club during its Nationa Battimore Club during its National League championship years, will again be seen in the Battimore Club uniforms. This means the retirement from the club of Moses N. Frank, its president, and Hugh Jennings, manager of the Detroit American League team.

Cost of a 'Possum Dinner.

Cost of a 'Possum Dinner.

A tourist in Georgia stopped over night at the Palace Hotel, in a little village, and expressed a desire to taste Georgia 'possum, according to the Atlanta Constitution.

A whole 'possum cooked in genuine Georgia style, with taters on the side, was placed before him.

"Two dollars extra for the 'possum." said the landlord, when the guest came to settle.

"It's an outrage," said the guest "It's an outrage," said the guest.
"It's cording to the way you look at
it, stranger," said the landlord, "but it
took me six nights' swamp wadin' to
ketch that 'possum, an' when I kotched
him I kotched the rheumatism with him."

By the will of Mr. Isaac Lyell Coley.

Toronto, January 39th, 1908.

Physical Geography

Physical Geography.

The teacher had put the question to the class: "From what direction do most of our rains come?"

The observant young man answered confidently: "Most of our rains come straight down, but some come sideways."

"There have been times," said the actor manager, "when I have shed real tears." "Ah, when you have been in great sympathy with the part you vere playing," suggested the matinee girl. "No, when I have had my own money in the show." replied the actor-manager, with a tinge of sad remembrance in his tone.
