## YOUNG LADY FELL INTO OLD ORE SHAFT

### Narrow Escape From Drowning in 300 Feet of Water. Was Picking Berries Near Londonderry, N. S.—Mouth of the Shaft was Concealed By Debris.

Londonderry, N. S., August 27.—A young lady 16 years of age, Miss McEachern, had a thrilling experience and narrow escape from a horrible death at Lornvale, two miles from town. Miss McEachern is a visitor at the house of Mr. McTavis, and the day in question she with a number of others went to pick berries up on the side of the mountain. She sat down to rest and suddenly thereafter disappeared as though the earth had swallowed her up, and so it had, for she disappeared into an old ore shaft, the mouth of which was partially concealed by debris of one kind and another. Her companions who quickly took in the situation, appealed to some men who were working in a hay-field nearby, who hastened to the rescue. Mr. W. D. Scott, secured a rope, fastened one end of it to a solid object, the other about his waist and proceeded to descend the pit. When he had reached a depth of eight feet he found Miss Mc-

Eachern standing on some ice and snow, but the horror of the situation will be better understood when it is learned that beneath that frail coating of ice and snow was water to the depth of 300 feet. The unfortunate young woman was quickly taken to the surface, Mr. Scott removing the rope from his person and securing it to that of the young woman, willing hands quickly drawing her back to sunlight. Dr. Dickson was called to attend her, but aside from the awful fright and a few bruises, strange to say she was otherwise unharmed. She had an experience that she will never forget. A strange part of the affair is that the young woman cannot remember anything of the fall after she entered the pit, or of her rescue. If your hair is thin, brittle or poorly nourished, apply BEARINF (made from Canadian Bear grease). It saves hair. 50c. a jar.

A., Newcastle (N. B.); 2. Battery C. A., Newcastle (N. B.); 3. 19th Field Battery C. A., Moncton; 4. 17th Field Battery C. A., Sydney, (N. S.); 4. 3rd Battery, 7th Regiment, C. A., Pictou (N. S.); 5. 13th Field Battery, C. A., Winnipeg; 6. 10th Field Battery, C. A., Woodstock, (N. B.); 7. 25th Field Battery, C. A., Lethbridge, (Alta.); 8. 18th Field Battery, C. A., Antigonish (N. S.); 9. 2nd Battery, 7th Regiment, C. A., Digby (N. S.); 10. 4th Battery, 7th Regiment, C. A., Yarmouth (N. S.). In general efficiency of all batteries first place was taken by the 20th Battery, Ottawa. The 12th Newcastle Battery was fourth; the 19th, Moncton, was 7th; the 17th Sydney Battery was 8th; the 30th Pictou was 17; 10th Woodstock was 21st; 18th Antigonish was 23rd; 20th Digby was 24th and the 4th Pictou was 25th.

## HAS FINE GARDEN IN THE HEART OF MIRAMICHI WOODS

It is not generally known but it is a fact just the same that in the heart of the Miramichi woods many miles from civilization, is located one of the finest vegetable gardens of this Province. It is the property of Mr. Arthur Robinson, a New York broker, who has a costly outfit of camps at Holmes Lake, near the headwaters of the Little Southwest Miramichi, and it is looked after by Mr. John G. Thomas, of Cross Creek, York County, a brother of Mr. S. B. Thomas, Fredericton. Mr. Thomas, who is recognized as one of the most expert gardeners in the province, has been in Mr. Robinson's employ for three years. He started the first year, by clearing three-quarters of an acre of land and converting it into a garden plot, and this year he had two and a half acres under cultivation. Mr. Thomas has been very successful in growing all kinds of vegetables and he also grows small fruits, such as currants, raspberries and strawberries. As the spring season is very backward in that section of the country, he starts his plants in a hot-house about the middle of April and transplants them when the danger from frost is past, usually about the first of June. Last year Mr. Thomas raised forty barrels of prime potatoes and he expects to have a larger yield this season. He says that potatoes in that region are worth about \$9 a barrel, at least it would cost that much to hire a team to tote them from the nearest settlement, about seventy miles distant. Commercial fertilizers are used in the garden and give every satisfaction. Mr. Thomas has had a root house constructed, in which he stores vegetables for use during the winter season. As there are generally from twenty-five to thirty men around the camps winter and summer, the products of the garden are not allowed to go to waste.—Mail.

## NORTH SHORE WOMAN FINDS SISTER LOST FOR YEARS

### Mrs. Peter Hassen, of Coughlan, Northumberland Co., And Mrs. Betsey MacGuish, of Malden, Mass., Reunited.

Boston, Aug. 25.—Mrs. Betsey MacGuish, of Malden, has found at Coughlan, Northumberland County, N. B., a sister, Maria, Mrs. Peter Hassen, whom she had not seen or heard of for fifty eight years. Mrs. MacGuish had endeavored to find her sister, but heard she was dead. Mrs. Hassen was located through a friend in Malden who knew the family years ago. The youngest and the oldest of a large family of children, they were separated when their mother died. Betsey going to live with her sister in Annapolis, N. S., and Maria being cared for by her grandparents, who lived in Northern New Brunswick. In those days travel in the provinces was a more difficult undertaking than it is today and mails were quite infrequent, so the girls

heard but seldom from one another. In time, Maria married and moved still farther away and when her sister, Betsey, also married and came to the States, all communication between them ceased. Mrs. MacGuish recently returned from Coughlan, CONVALESCENTS from fevers and injuries that have kept them bed ridden for some time and all people run-down and below par generally will find a course of treatment with FERROVIM, the invigorating tonic being the thing to put them on their feet again in good shape. ## MEET DEATH IN FOREST FIRES

Spokane, Wash., Aug. 27.—Port Townsend, Wash., Aug. 27.—Dense clouds of smoke from the burning forests of Washington and Oregon overspread the waters of the Pacific from one hundred to three hundred miles off the coast of both States. A report of conditions, said to be particularly difficult for navigation, were brought yesterday by the steamship which came from San Francisco. Captain Barry said that the vessel was never free from the ball of smoke on the run in. Shipping on every port of Puget Sound is hampered by the dense smoke.

## APPEAL TO PRESIDENT

Seattle, Wn., Aug. 27.—President Taft has been appealed to instruct the war department to comply with the request that the coast fortifications in the Puget Sound districts unite with the warships in firing their guns in the hope of starting a general rain fall. In spite of the attitude of the war department, the business men of Seattle and the officers of the forest fire association believes that if sufficient pressure is brought to bear their request will be granted. To this end they have started a deluge of messages to Washington and Beverley.

## SHIP FROM DALHOUSIE WRECKED

S., which sailed from Dalhousie, N. B., August 10th, for Buenos Ayres August 24th in a sinking condition, the ship being then in longitude 40.51 west and in latitude 44.24 north. All of the crew of the Harvest Queen, were taken aboard the Koenigin Luise and the ship was left burning in mid-ocean.

## FAVORS EXTENDING I. C. TO TORONTO

### Advantages to Upper Canada and the Maritime Provinces—Mr. E. Tiffin Interviewed at Ottawa, Says Acquisition of Certain Branch Lines Will be Recommended.

Ottawa, August 27.—An important official of the Intercolonial Railway of Canada believes that the system could be profitably extended to the west. E. Tiffin, traffic manager of the Intercolonial said: "I have always been in favor of the extension of the Intercolonial Railway system through Ontario. It would give the lower province manufacturers a better entrance to the upper Canada markets than they have now, and it would facilitate manufacturers up here in getting their products to the provinces. At present, however, the greater complaints are from the former." What route would be taken from Montreal? "Paralleling the Grand Trunk and Canadian Pacific," stated Mr. Tiffin. "It is the through traffic particularly that we would be after. Personally, I am in strong sympathy with the movement in

Toronto that our line should be extended there, but it is a matter of policy in which the ultimate decision will rest with the government." "Will the Intercolonial be leased?" Mr. Tiffin was asked. "If we should go back to the days of deficits I believe it might be beneficial to lease it, but at present it is on a paying basis, and is one of the best assets the government has." Mr. Tiffin states that the board of management will likely make before long recommendations for the acquisition of certain branch lines under the act of last session, but it has not yet been decided which will be taken. It is understood that certain lines, especially in New Brunswick are applying their earnings to betterments in order to attain the standard required if they are to be leased by the government.

## TERRIBLE WRECK ON THE GRAND TRUNK RAILWAY

### From 12 to 20 Are Dead—An Engine Ploughs Its Way Through a Sleeper—All the Victims Were in Berths at the Time.

Flint, —In a rear end collision, a passenger train Nos. 4 and 1, both eastbound, on the Grand Trunk Railway two miles east of Durand late last night, eight persons are known to have been killed, three were probably fatally injured and five were seriously hurt. It was reported early today that four passengers are missing. Train No. 14 stopped to repair a defective brake, when No. 4 crashed into the sleeper of the standing train. The engine of No. 4 ploughed half way through the sleeper and crushed to death some of the sleeping passengers. The wreckage of the sleeper caught fire, and others of the passengers were burned or scalded. It is said there were eighteen passengers on the ill-fated car.

When the forward train stopped, a brakeman was sent back to signal the train following, but the explosion of the torpedo which was placed on the track as a warning was heard too late by the engineer of No. 4 to stop his train. As fast as they were recovered from the ruins of the burned sleeper, the bodies of the dead were taken to Durand. Some of the injured were also taken to that village and others were brought to the hospital in this city. The dead bodies recovered during the night are those of two unidentified women, one about fifty years old and the other about sixty, and six persons whose bodies were so badly scalded and burned as to make identification difficult if not impossible.

## DEALS HARD BLOW TO C... AS

New York, Aug. 28.—Justice Putnam, in the state supreme court in Brooklyn, sustained the board of health in its refusal to issue burial permits on death certificates signed by osteopaths. The court held that

osteopaths, while their practice might be of a grade just as high as that of regular practitioners, were not qualified by their studies to determine the cause of death.

## DREDGING OPERATIONS TO BE STOPPED

Chatham, N. B., Aug. 26.—The Royal Commission on Technical Education met this morning. W. B. Snowball said it would be a great advantage if all Canadian lumber could be manufactured on this side of the line. He said there was a scarcity of skilled labor for the mills of the Miramichi. Many of the young men who have edu-

cation enough went away. He believed in the value of manual training. W. S. Loggie, M. P., said he oyster beds on the Miramichi were being well protected. He had been endeavoring to induce the minister of agriculture to open an experimental farm on the North Shore.

## MILL PLANT DESTROYED

Tacoma, Wash., Aug. 27. Fire at or near 11 o'clock last night totally destroyed the saw mill plant of E. J. McNeely and Company, causing a loss of \$550,000; insurance partially covers the loss.

Hopewell Hill, Aug. 26.—The sale of the big lumber property of I. C. Prescott at Albert to an American concern which has been under consideration for some months, has been finally completed. The purchase price is said to be about \$75,000 and includes the timber areas, mill and residence, the latter being one of the finest in the county. The property has been in the possession of the Prescott firm for about eighteen years.

## CONCLUDES HEARING ON NORTH SHORE

Ottawa, Aug. 30.—Dredging operations in several parts of Canada, have been brought to a close and as a result there have been anxious inquiries at Ottawa for reasons. It is learned that the minister of public works has adopted a new

policy with respect to dredging works. In the past dredges were kept at work until a job was finished, even if the money voted by parliament for the season was exhausted, a vote being taken at the following session to pay for the extra work done.

### CARLETON P. O. ROBBED FRIDAY

Campbellton, N. B., Aug. 26th.—The post office at Carleton, P. Q., was entered last Friday night and a small sum of money, some postal notes and money orders were stolen. On Saturday night an attempt was made to enter the Robitaille, P. Q., Post Office, but the postmaster living in the office frightened the robbers off.

The men are supposed to be two deserters from a barque which was at a Gaspé port, and are foreigners. One was tall and the other below the average height. The tall man was the younger of the two, and wore rubber boots, while the older and shorter one wore a suit of grey clothes and a slouch hat. The pair were seen at Escuminac on Sunday.

The Campbellton police were not notified until Monday night and it is thought the suspects had crossed the river and been able to get away.

Inspector Green of the Quebec P. O. department spent several days down the coast and was here on Wednesday but nothing new was discovered.

### CAMPBELLTON'S PLIGHT

Campbellton, N. B., Aug. 25th.—The generous response of individuals to Campbellton's appeal for help must not blind us to a realization of the fact that, liberal as it has been in many instances, it is still far from sufficient to insure the victims the ordinary comforts or even all the necessities of life through the long winter months which will soon put an absolute stop to the work of rebuilding the burned city. It must be kept constantly in mind that women and children form a goodly proportion of the faithful who are camping over the ruins of their homes, and that many of the families have no other option than to stay where they are, live through the winter as best they can, and take their chances in the spring with the new Campbellton which is to rise from the ashes of the old if pluck and confidence are as potent factors in the building of cities as they are currently supposed to be. All the possessions they had in the world were represented, in many cases, by the home and its contents. They could not move far enough away to reach new fields even if they wanted to; and, to the credit of Campbellton's spirit be it said, few of them appear to want to.

A one-story shack is a poor substitute for a cottage, but it is better than none at all. Even in a shack, however, some things are absolutely essential if it is to be the winter home of women and children. It must be roughly weather-proof; it must contain a stove; and it must be supplied with a certain amount of foodstuffs and clothing. The relief committee is doing all that is humanly possible to split every dollar contributed to the Campbellton fund into as many pieces as possible, but the best of their efforts have not been able to satisfy the situation. There is need—urgent need—for more contributions of food, clothing and household supplies; more than all, there is need for contributions of money for the purchase of materials which must be bought and put to use immediately if the winter is not to mean an epidemic following on the heels of the disaster.

### WHAT IS ITCH BIRT?

It is the old Anglo-Saxon name for Dandruff and it's good one. If you have dandruff you have itchy dirt and the little mites that are part and parcel of dandruff are working persistently night and day and sooner or later will reach the very life of your hair and destroy its vitality.

Then you'll be bald—bald to stay—for not even the wonderful rejuvenating properties in Parisian Sage can grow hair after the hair bulb or root is dead. Parisian Sage cures Dandruff, T. Durick the druggist, sells it for only 25 cents a large bottle, and your money back if it fails to cure dandruff, falling hair and itching of the scalp.

### HOW ONE WOMAN REGAINED HEALTH

Utterly Helpless and Friends Did Not Expect Her to Get Better.

The great fame of Dr. Williams' Pink Pills is due to the fact that they have restored to active health and strength hundreds of people when all other treatment had failed to cure, and who had come to believe themselves hopeless, chronic invalids. The case of Mrs. Henry Britton, 1295 Alexander Avenue, Winnipeg, Man., adds another striking proof to the truth of this assertion. Mr. Britton writes as follows concerning his wife's long illness and ultimate cure through the use of Dr. Williams' Pink Pills: "It is a simple thing to recommend Dr. Williams' Pink Pills, and yet it is difficult to express fully one's heartfelt gratitude for such a marvellous remedy, as they have restored my wife to health and strength after the best efforts of the medical fraternity had failed. For years prior to our coming to Canada, and since that time up to about three years ago, my wife had been subject to severe illnesses from what the doctors said was chronic anaemia. She was utterly and entirely helpless, and so weak that she had to be lifted in and out of bed for weeks at a stretch. The trouble was aggravated by recurrent rheumatism and heart trouble. She had no appetite or strength for anything. I employed the best medical attendance and nurses procurable. The doctor gave her tonics and ordered beef tea and wine. The tonics and medicine would relieve her for a time, and then she would slip back once more into the old state—but worse if anything. Then we began giving her advertised remedies, but all seemed to no avail. One evening while reading a newspaper I happened to see an advertisement of Dr. Williams' Pink Pills. It told the case of a young woman who had been a great sufferer from anaemia, and who testified to having been cured through the use of these Pills. The case seemed to describe very closely the symptoms of my wife, and although I had pretty nearly lost all hopes of her ever getting well again, I decided to get a supply of the Pills and urged her to use them. My wife was thoroughly disheartened, and said she expected it was only another case of money thrown away. However, she began taking the Pills, and I thank God she has not since. She had used them for a time, she felt they were helping her. From that time on her appetite came back, her color began to return, and she looked upon me as a helpless invalid began to take an interest in life. She continued taking the Pills, and through them her health continued to improve, until at last we were able to heartily congratulate her upon her complete restoration to health. Some three years since have passed, and in that time she has never been bothered in the slightest degree with the old trouble. Her cure has astonished everyone who knew how ill she had been, and we acknowledge with heartfelt thanks our gratitude to Dr. Williams' Pink Pills which literally brought her back to health from the brink of the grave."

Dr. Williams' Pink Pills cure such cases as this in just one way—they actually make new blood, which fills the depleted veins and brings new strength to every nerve and every organ in the body. Nearly all the everyday ailments of life come from poor or watery blood, and it is because Dr. Williams' Pink Pills make new blood that they cure anaemia, indigestion, headaches, sideaches and backaches, rheumatism, neuralgia, general weakness and the ailments that growing girls and women do not like to talk about, even to their doctors. If you are weak, sick or ailing, no other medicine will cure you so quickly as Dr. Williams' Pink Pills. Sold by all medicine dealers or by mail at 50c a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Summer school of science has not forgotten the session they held in Campbellton 10 years ago as shown by the following letter to Mayor Murray, enclosing a check for our relief fund at the close of their session at Liverpool N. S., Liverpool, N. S., July 30, 1910.

His Worship, Mayor Murray,  
My dear Dr. Murray:

You have received from Mayor Mulhall, of Liverpool, a draft for \$125 raised by the Summer School of Science and the town of Liverpool. We usually have a concert at the school to supplement our funds. In view of your misfortune, and in recognition of the many courtesies your town has shown and particularly your own self showed the school, I suggested that the whole proceeds be forwarded to our suffering friends to remind them that the school has a memory and that unstinted kindness has an influence which may show its results in unexpected places. I was sorry that the sum was not larger, but we had what a full house gave us, and send it in the spirit you showed when the opportunity was on the other side. We are still aware of your appreciative friends of the Summer School of Science,

### CAMPBELLTON HAS MORE FIRES

Campbellton, N. B., August 26. Campbellton was visited by another serious fire Sunday morning when the lumber yard of Messrs Guimond & Co., near the I. N. R. station was completely burned. Between two and three million feet of sawn hard wood was piled here awaiting shipment, when in some mysterious manner it caught fire and spread from pile to pile. This material was very dry and made a hot fire.

The International Railway Station, freight shed and shops, together with the cars in the yard, and Coun. John Waite's residence were also with great difficulty. The fire department was on hand and with assistance of spectators saved the above buildings. The occupants of many houses packed their household goods in preparation for a hasty move.

This lumber was sold recently to the Frank Harrison Co., Liverpool, England, and is fully insured.

**MORE FIRES.**  
Early Monday morning Mr. T. Ellsworth's new ice house at Doherty's Pond was discovered to be on fire and was entirely destroyed. The former ice house at the same place was destroyed in the recent conflagration and the new one was built over the immense pile of ice. It is thought that fire was smouldering in the old ruins and set fire to the new structure. A shack on the Shives property was burned down on Tuesday and a tent used by Mrs. John Morton for cooking was also destroyed. Mrs. Morton lost quantity of household goods.

**FOR "RUN-DOWN" PEOPLE** there's nothing known in medical treatment to-day so effective and certain of a cure and so magical in its building up power as South American Nerve, because it strikes at the root of all nervous ailments, the digestive organs, makes rich red blood, drives away emaciation, puts on flesh and makes over physical wrecks generally. Sold by A. E. SHAW'S Pharmacy.—143.

**MAYOR GAYNOR IS OUT OF ALL DANGER.**

New York, Aug. 29.—Mayor Gaynor's condition was excellent today, his physicians said, and the danger period has now passed. The doctor agrees that he will be completely recovered within a short time and he will go to the Adirondacks to complete his convalescence. Mayor Gaynor, though, has indicated that he thought he ought to return to his home in St. James, Long Island, after leaving the hospital.

The physicians have practically decided not to operate to remove the bullet, as they think there will be no inconvenience from it.

**DISCOURAGED STOMACHS.**—Could you wonder at the delicate organs of digestion refusing to be helped and comforted when day after day they are literally "drowned out" by strong tonics, bitters and hurtful nostrums. ### CHOLERA SCOURGE RUSSIA'S ENEMY

St. Petersburg, Aug. 17.—The horrors of the cholera scourge in Russia, according to Prof. Rein, of the Red Cross, who has been sent by the government to South Russia to study measures of combating the disease, are steadily increasing. Children are starving in many instances, because their parents and adult relatives have been swept away by the disease, leaving them unsupported. There is no indication yet of the epidemic diminishing in vigor and thousands of new cases are being registered daily, the official figures according to reports though immense in themselves, understating the full extent of the disease owing to the impossibility of registering all cases.

**TRADING ON A GOOD NAME** and deceiving the public is what the imitators of the well-known "The D. & L." Menthol Plaster are doing. Don't be fooled. Insist on the genuine, "The D. & L."

**NEW YORK, AUG. 29.**—Mayor Gaynor's condition was excellent today, his physicians said, and the danger period has now passed.

The doctor agrees that he will be completely recovered within a short time and he will go to the Adirondacks to complete his convalescence.

Mayor Gaynor, though, has indicated that he thought he ought to return to his home in St. James, Long Island, after leaving the hospital.

The physicians have practically decided not to operate to remove the bullet, as they think there will be no inconvenience from it.

NEW STEAMBOAT

In the several reports of the meeting of the Maritime Board of Trade held at Chatham recently, we note a resolution was passed urging a steamboat between Chatham and P. E. I. points, but no mention of Newcastle or Nelson in connection therewith. We trust, however, that our delegates to the meeting, did not allow our rights to be ignored in this resolution.

We are situated on the main line of the I. C. R. with deep water terminal, we are also several miles nearer the up river lumbering camps where much of the P. E. I. produce is consumed, we have good up river navigation and good freight carrying accommodation on the same, besides direct railway communication with most of the up river distributing centres, and there can be no reason why such a boat if put on should not come to Newcastle, calling at Chatham coming and returning.

We regret that this was not brought into prominence at the Chatham meeting, as the wide publication of the report would have been an excellent channel for advertising Newcastle. We trust that the matter will be dealt with at the local monthly board of trade meeting, here on Monday

HON. MR. SIFTON'S FIND

HIS NEW ATTORNEY-GENERAL IS A NEWCOMER IN POLITICS.

Charles Richmond Mitchell is Thirty-Seven Years of Age and Comes From the Maritime Provinces Where Statesmen Are the Chief Item of Export—His Home is in Medicine Hat.

One of the foremost of Hon. Mr. Sifton's colleagues in the new Alberta Government is a brassy young man from the Maritime Provinces, Hon. C. R. Mitchell, the new Attorney-General and Minister of Education, returned in the by-election recently. He is somewhat of a new figure in the western political arena, but his intimate friends say that he has plenty of the grey matter that is bred down by the sea and that has been so fruitful in producing Premiers of Canada, distinguished college professors, and thinkers in other walks of life, and they state that Premier Sifton has made a very wise choice in selecting for two such important portfolios this young member of the judiciary. The new Minister is a man of very strong character and in the growing province of Alberta he will find large scope for his exceptional powers and undoubted ability.

Charles Richmond Mitchell is a son of the late James Mitchell, inspector of lighthouses for the province of New Brunswick, and was born at Newcastle, N.B., November 20, 1872. He received his education at Harkins Academy, Newcastle, and in the University of New Brunswick at Fredericton, N.B., graduating from

HON. CHARLES R. MITCHELL, the latter institution with the degree of B.A. in 1894. Shortly afterwards he commenced the study of law in the offices of the late Hon. Andrew G. Blair at St. John. In 1897 the degree of B.C.L. was conferred upon him by King's College, Windsor, N.B. After practicing his profession for a time with the Hon. L. J. Tweedie at Chatham, N.B. he went west and in February, 1898, opened an office in Medicine Hat, continuing in practice there until his appointment in November, 1907, to the district court bench for the judicial district of Calgary. From 1901 to 1907 he held the position of crown prosecutor. During his residence in Medicine Hat he was actively identified with its municipal progress, being a member of the town council and for a number of years afterwards city councillor. From the start he has been actively identified with the municipal growth of the city and is proud of its young and progressive growth. Last year he married Miss Grace, daughter of the late Alexander Ross, of St. Thomas, Ont.

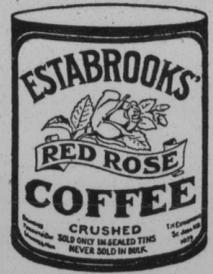

Memorial to Wauchope. An affecting scene was witnessed at a luncheon given in Edinburgh in honor of the late Gen. Wauchope (Highlanders) after a formal presentation to the City Council of a memorial to officers and men of the regiment who fell in South Africa. Mrs. Wauchope, who was accompanied by her daughter, was killed while leading the Highland Brigade at Magersfontein, and was asked to say a few words. In trembling voice she said: "I am proud to think you all know what the Black Watch means to me, and I will just thank you." On sitting down Mrs. Wauchope was overcome with emotion and she had to be assisted to her seat. Col. Grogan, in formally handing over the memorial—erected at the Mount—said that the names of Gen. Wauchope and his officers and men were also in records of gallant and brave. Their memory would be honored in the Black Watch as long as the regiment existed.

A Soldier's Grave. Sir Ian Hamilton, who is to go to India in place of Lord Kitchener, is one of the most striking personalities in the British army. Hardly less tall than Lord Kitchener himself and of a reserved and retiring nature, Sir Ian is noted for his flashes of eloquent silence. It was once remarked of him, indeed, by a well-known official at the War Office that "one of Hamilton's graces is more expressive than a whole sentence from anybody else." Sir Ian is famous alike as an administrator and for his services in the field.

Execution of Warden. Warden, the young Nationalist who murdered George Fagan, the Egyptian Consul, was executed at Cairo the other day. Warden was very persistent during the last moments of his life, and had been put to death by the British military authorities. He declared that there was no god but God, and that Mahomed is the Prophet of God. To his last breath he said that he was a Muslim, and that he was a Muslim, and that he was a Muslim.

HOLIDAY-MAKERS IN ENGLAND.

Men Who Take Holidays and Men Who Make Them.

Holiday-makers are not so common as one is apt, at first blush, to imagine; for when we mention "holiday-makers," it is not "holiday-makers," we really mean, but "holiday-takers." The men who take holidays, and the men who make them are of a very different order; people who agree the greater portion of their lives endeavoring to make a pleasure of business, while the latter succeed in making a business of pleasure. Vacations are their vocation.

King among the small company of true holiday-makers is Sir Henry Lunn, whose inclusion among the new knights has caused such general satisfaction. For almost twenty years "Dr. Lunn's Tours" have been a feature of every holiday season, and he has made holidays in the most literal sense of the word.

"Curiously enough," Sir Henry told an interviewer recently, "I have, during the past few years, entirely reversed the principle on which I worked in the days of the Grimsby Conferences, which were the beginning of my tourist campaigns. My object then was to bring together people who differed. My object now is to bring together people who agree." "But, no matter how careful one may be, on very rare occasions one is bound to find a gooseberry in a strawberry basket, or a strawberry among the gooseberries. I recall one gentleman who got mixed in with a party of savants with whom I went on a cruise to the Isles of Greece. Naturally, the talk on the particular expedition was somewhat learned, while the places we visited were mainly of academic interest. He stood bravely for some days, without a murmur of complaint, till I came upon him standing on the steps of the Museum at Olympia, passing a handkerchief across a freckled brow.

"He regarded me reproachfully for a minute. 'Pray,' he exclaimed at length, 'I'll take me three good weeks at Blackpool to get over this!'

"Quite an unexpected incident happened at the time of Queen Victoria's Diamond Jubilee. I had chartered three steamers—the Argonaut, Bathos, and Koh-i-Noor—for the great Naval Pageant, but on the Monday before the eventful Saturday discovered that only a handful of people had applied for places on the last-named vessel. Almost at the same moment I learned that Lord Goschen was encountering great trouble in arranging for the presence at the review of all the Colonial troops. I at once telegraphed, saying: 'Can you put at your disposal a steamer and two special trains for the conveyance of Colonial troops.'

"Lord Goschen was as glad to avail himself of my offer as I was to save what looked like being a serious financial loss. In this way I helped the Government, and the Government helped me."

One of the most remarkable examples of Sir Henry's enterprise is the manner in which he has opened up the different valleys in Switzerland during the winter season. A few years ago these valleys were all closed in winter, and no skis, runners, or sledges disturbed their virgin snows or shined on their lakes. To-day, Sir Henry controls no less than 3,000 beds in these Alpine valleys, which are mainly occupied each winter by members of the famous Public Schools Alpine Sports Club, of which the headmaster of Eton is president, and Earl Roberts and the Earl of Lytton are vice-presidents.

FRIDAY NIGHT

The Ladies Aid of the Methodist church have arranged to have Chas. A. Cooke, Canada's Indian Basso and Elocutionist, to give one of his concerts in the Methodist church Friday evening. He was the organizer of the greatest gospel choir that Ottawa has ever had, the Torry-Alexander Choir which sang at the mission here."

A splendid display of fire works were a feature of the children's part in the programme. The presents received by the happy couple included many handsome and useful articles in out and plain glass. Mrs. O'Shaughnessy was assisted by her daughter Mary, her sister Miss Mary Murphy and Miss Annie Bayle.

AN INTERESTING EVENT

At New Richmond, P. Q. on August 28th, an interesting event took place at the home of Mrs. Hugh Dorrbridge when her only daughter Lena E. was united in marriage to Joshua F. Henry of the Island of Jersey. The ceremony which was performed by Rev. Wm. MacCallum took place at eleven a. m. beneath an arch of evergreens backed with flowers and ferns in the presence of a large assemblage of relatives and friends. The bride looked charming in a dress of white albatross trimmed with lace and ribbon and carried a bouquet of sweet peas. Mr. Malcolm of the Bank of Nova Scotia played the wedding march, and little Isabel McCallum attended as flower-girl. The bride entered on the arm of her brother Mr. Wessley Dorrbridge. Little Jimmie, the young son of Mr. and Mrs. Charles Delano had a narrow escape from drowning on Sunday. The little fellow went out dinner hour to the watering tank in the rear of Ritchie's store and fell in the water. The parents missing the child went to the tank and rescued him just in the nick of time. Dr. Desmond was summoned and attended the half drowned child. He is around as usual, none the worse of his close call.

TWO SHIFTS

Daniel Sullivan & Sons mill at Redbank started night operations last night. The mill has been running steady since early in June but it has been found necessary to put on a night crew to keep up with the demand for deals. This mill which only started operations a year ago is doing a flourishing business. It is fitted up with the latest improved machinery. The Messrs. Sullivan now employ upwards of one hundred men. An electric light plant has recently been installed for lighting purposes and will likely be extended to the houses of the members of the firm.

THE ATHLETIC WORLD

"OUTDOOR CANADA'S" name changed to "THE ATHLETIC WORLD."

The August number of "THE ATHLETIC WORLD," a new name for "OUTDOOR CANADA" Magazine, has just been received at this office. Since this publication was taken over by W. J. Taylor, Limited, Woodstock, Ont., each issue has shown a marked improvement over its predecessor. Its change of policy to that of a national athletic periodical is this month carried out both in name and nature. Besides the change of title the size has been increased and the contents augmented. Judging by the August number, full as it is of good, up-to-date reading pertaining to things athletic, a conspicuous place is assured "THE ATHLETIC WORLD" among the leading Canadian national publications.

### THE OLD HOME

(On hearing that it was destroyed by fire.)

And so they say my mother The "Auld Hoose" stricken lies Its blackened embers scattered Beneath the pitying skies.

But Mother while your grieving For the home that used to be, Let me tell you of a picture That I brought away with me.

A picture of the old home That hangs on memory's wall, Where no changes can attend it And no mischance e're fall.

In a lowly valley lying, With the great rough hills to screen, Is the cottage I remember Tho' for years I have not seen.

On its walls a wealth of ivy Tells of vines you set with care (Pretty vines that never languished Till we left the old home there.)

An old garden sweeps around it, And beside the broad brook flows; Oh Mother can't you see it too The scene my picture shows?

And in the morning sunbeams As I stood so long ago I am standing in that garden While its sweets about me blow.

Where the lilac and narissus Swing their censers in the air Where the apple bloom but shortly Strewed the ground a shower fair.

Every avenue thr' flowers Led you to that cottage door, Every wind that stirred their petals Loosened perfumes to you bore.

Dear Mother as I ponder I'm living there again I hear the waters flowing In that familiar glen.

Where our home lay in its bosom And the old hills looking down Imparted an attraction As methought the whole to crown.

So it matters not what changes In the course of years may come, I will still my picture cherish I will still have my old home.

### TO BUILD COTTAGES

The building committee in connection with the relief work has an asking for tenders for the erection of thirty cottages for the housing of the destitute. Lots for these have been secured from Mr. F. It is planned to erect these so that at a later date they can be sold, and the proposed structure used as a kitchen for a more pretentious residence.

### OFF TO TRURO

A number of the Campbellton firemen in charge of Chief Christie, left Tuesday morning for Truro, N. S. to take part in the Firemen's Tournament. They took a hose reel and some of the hose which went through the Campbellton fire.

### OUR TEMPORARY OFFICE.

Our temporary office which is situated on Ritchie street, on the rear of the lot on which our office formerly stood is nearly ready for our plant, and we expect to occupy it next week. Our plant will be here in a few days and in less than two weeks we will be in business as heretofore.

### GRAPHICS WANTED

Any persons having copies of the Graphic of July or earlier dates would confer a great favor upon us by mailing them to us at Campbellton. Unfortunately we lost all our files in the recent fire and such copies would be of great assistance to us. Address copies to H. E. Anslow, Campbellton.

### BUY AT HOME

Campbellton is just rising from its ashes and will need every dollar to make her the prosperous town she was before the fire. Remember a dollar spent in Campbellton for goods is a dollar put into circulation here, while a dollar sent out is never regained and the spender can never hope to regain it. Buy in Campbellton whenever possible.

Some of the merchants who are re-establishing their business are making a serious error in charging slightly advanced prices in many lines offered, and all merchants are consequently losing much business. Since the fire the large mail order houses have been doing a very large amount of business here. If we may be allowed to make a suggestion, it is that our merchants sell for the lowest possible price for cash, and endeavor to compete with the mail order houses. There is no reason why Campbellton merchants should charge 35 cents for a staple article which is regularly sold at 25c, and which was advertised by a Montreal firm for 15c, yet this was done to our knowledge by a Campbellton merchant recently. All our citizens are anxious to save their money and is there is such a difference between the prices the outside merchant will get the business.

### Not Sisters

Now and again you see two women passing down the street who look like sisters. You are astonished to learn that they are mother and daughter, and you realize that a woman at forty or forty-five ought to be at her finest and fairest. Why isn't it so? The general health of women is so intimately associated with the local health of the essentially feminine organs that there can be no red cheeks and round form where there is female weakness.

Women who have suffered from this trouble have found prompt relief and cure in the use of Dr. Pierce's Favorite Prescription. It gives vigor and vitality to the organs of womanhood. It clears the complexion, brightens the eyes and reddens the cheeks. No alcohol, or habit-forming drugs is contained in "Favorite Prescription." Any sick woman may consult Dr. Pierce by letter, free. Every letter is held as strictly confidential, and answered in a plain envelope. Address: World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

**SPECIAL MEETING TOWN COUNCIL**

The Newcastle Town Council met in special session on the 25th instant, Mayor McMurdo in the chair. Aldermen present—Allison, Falconer, Layton, Morrison, Russell and Sargeant. Ald. Butler and Clark were absent, Ald. Butler being in St. John.

The special business was to consider the bills sent in by R. L. Maltby for services in fumigating some 60 or 70 quarantined houses during the recent scarlet fever epidemic and by Druggists Durick and Shaw for formaldehyde &c. supplied for disinfecting purposes. The total cost of fumigating the houses averaged about \$7.50. Instead of the private parties being billed for services rendered them the bills were sent in to the town, as the services had been one by the order or with the consent of the chairman of the Board of Health.

The Council had several times refused to pay the bills, on the ground that it did not consider itself liable, and also because several aldermen thought the charges for formaldehyde and also for fumigating work were excessive.

Ald. Morrison held that the Town was not liable for the bills. But if the Town would not pay the druggists and Mr. Maltby could come upon the late Chairman of the Board of Health personally, which should be avoided if possible. The chairman, who had had about all the work of the Board to do, had done the Board of Health business as it had been previously transacted for some time. No bills had been presented to the parties served, though many had expressed a willingness to pay.

Ald. Layton pointed out that a

number of persons had had their premises fumigated two and even three times, and all was charged to the Town.

Ald. Russell was not willing to have Town pay the whole of the account. Some 40 of the parties were able to pay their own expenses.

Ald. Morrison said that more stringent measures would have to be taken with tax defaulters. There was a disposition among many, even real estate owners, to refuse to pay back taxes. A number of cases, impartially selected, should be proceeded against legally. The town was in need of all the money due to it.

Ald. Sargeant and Layton favored paying the Health bills and collecting from the parties served.

On motion of Ald. Falconer and Allison, the following motion passed:

"That, while not admitting the legal liability of Town, but realizing that the Board of Health acted in good faith but not exercising good judgment, the Bill of the Board of Health amounting to \$518.69 be paid by the Town and that the Town Council be instructed to bill the parties for services rendered by Board of Health as per list submitted by special committee at last meeting."
