OVER TWENTY-FIVE YEARS I have been in the Spectacle business, and during that time have fit ted hundreds and hundreds of persons. Some had put off getting glasses so long that they could not see large 4-inch letter A without going within 2 or 3 feet of it, and might have gone blind if they had put off getting glasses much longer, Others had been fitted, or rather misfitted, with wrong glasses by travellers and than they ought to have been. Significant. IT is significant of the extreme weakness of the One-Man-Government that five or six of its most prominent supporters in the last election Hon P McNutt, are now candidates on the part of the Opposition. To whom it may concern. I boughta Home Comfort Range of the Wrought Iron Range Co. in May, and on the 12th of June my house and its contents were stroyed by fire. The Range have ng been subjected to the most in tense heat, it was predicted by many that it was ruined, but the body of the Range was as solid as before the fire, and not a piece warped or out of place. The reservoir was of course melted, and the vessels damaged, but the Wrought Iron Range Co. replaced them free of charge and put them in good working order. As to the merits of the range it is a perfect baker and good heater, and I can conscientiously recommend them for my Range stands as evidence of the fact that they are the best made.
