LOCAL NEWS

FROM FRIDAY'S DAILY.

Hospital Bureau.—A report has reached the city that the Wamborough hospital at Mount Sicker, was burned down last week. There were several patients in the institution, and, according to the news received, these were transferred to a cannery when the fire broke out.

Fruit Shipment.—Tomorrow F. B. Stewart & Co. expect to send the first shipment of the new portable fruit from here to northwest points. As the fruit is about a week on the road it is sent in refrigerator cars, and the equipment will be made up of apples, plums and crabapples.

Mount Sicker.—Mr. Hugh Campbell, one of the pioneers at Mount Sicker, reports that the shaft on the mine, in which a number of Nanaimo men are interested, has been dug down to a depth of 100 feet, and is a double compartment shaft all the way. The prospects are excellent.

The claim adjoining the Trusts shows extensive improvements and additions are being made to the plant. Work has been suspended on the road for some time owing to some difficulties growing out of the reorganization of the company.

Unfortunate Englishman.—Advice from the north received yesterday was to the effect that the mysterious disappearance of Daniel Moore, a Canadian, supposed to have been drowned in the forty-mile canyon, has been cleared up by finding the body of the unfortunate Englishman some distance below the scene of the accident. The accident, which cost Moore his life happened some weeks ago. Some miners reported the canyon with no owner to claim them, while below they had picked up a canoe badly battered as though it had been jammed against a rock. It was investigated and was found to be the canoe which Moore had seen a day or two previously making his way toward the canyon with an outfit.

The Crop Outlook.—Prof. William Saunders, director of the experimental farm at Ottawa, who is now in Columbia looking over the crops, says the crop here is a fair one, Oats are some instances a little lighter than last year in consequence of the dry weather. The fruit crop is a fair one, however. The northwestern part of the province is satisfactory, and the prospects excellent for a good crop. The northwest has not been so much affected as the rest of the case in some parts of Manitoba, the breaking up of large areas and the ill-effects of the drought. The effect in lessening the danger from frost, which was formerly one of the great sources of trouble to the farmer, was that he was at Indian Head experimental station the farmers were fearful of frost, and already the cutting has commenced.

Orchard Experiments.—In connection with the visit of Prof. Saunders to it has been decided to make some changes in the orchard connected with the varieties of fruit to be tested. The vast majority of these tests have been of the apple, and the constant replacing of discarded varieties has, Prof. Saunders says, been a hindrance to the orchard. The object has been to serve the fruit growers, and to have the appearance of the plantation as though it were a real orchard. It was decided to set out about ten acres of the best kinds in order to test the fruit connection.

San Juan.—Professor Edmund S. Meany, of the history department of the University of Washington, and secretary of the National University Historical Society, who is now in Victoria, proposes to mark with becoming ceremony the site of the British and American camps on San Juan island, and to have a historical pageant between the two daring navigators, Vancouver and Quadra at Nootka in 1792, the anniversary of the date on which Captain Vancouver's expedition gave his decision as arbitrator in the boundary dispute. Should the construction of the National University be secured, an effort will be made to have the British government represented by ships of the Pacific squadron, while prominent officials will be present. Excursions will be conducted from Victoria and Nanaimo, and there will be an international celebration, features of which will be made known later.

FROM SATURDAY'S DAILY.

To Make Guano.—Says the Nanaimo Herald of yesterday the presentations have been made to Ralph Smith, M.P., that it is the intention of a Fraser river company to take up a large tract of land for the purpose of manufacturing guano. In anticipation of this Mr. Smith, in his capacity as the local provincial inspector of fisheries, has come to Nanaimo to consult with the local fishing companies on this question.

At the Front.—The London Morning Post in a recent issue prints the following despatch from General Buller: "The front and all around it are quiet, pending the advance. For some days the line of communications of the Second Army for eleven days, and found the transport cars, trains, mines and electric cables, are handled by coolies, efficient and capable of maintaining a continuous supply. The arrangements for the transport, commissariat and hospitals are excellent."

Reports on Tanana.—J. H. Rogers, general agent of the White Pass, who is in the Tanana in behalf of his company, in writing from Fairbanks says: "The camp is on a cash basis. Credit is not given. The output thus far has been wholly without profit of any money, which means the camp has supported itself. I am convinced this will leave this fall. A large number will come in by the lower river, and the upper, and much work will be done. Clay looks to be the best stream. Fairbanks and Pedro also are good. Over \$500,000 has been taken out this year. The ground is rich in places. Many lumps are being found. There will be some more this fall. The telephone line has been completed between Chena, Fairbanks and Soldotna."

Swifwater Bill.—A Dawson correspondent writes under the heading of August 25, says: "Swifwater Bill," more particularly known as the "Swifwater" man who married the Lamore family, and stopped only when there were no more sisters, has landed on his feet. The Lamore after as many ups and downs the last five years as usually experienced by a divorcée, has a New York skyscraper. "Swifwater" has bought the Elly interests of No. 1 and No. 8 below Wall Street, together with Howard Turner. It is understood "Swifwater" is back in the States. The last few years he has been in hard straits. In early days he

blonde he was one of the luckiest men and scattered his dust like water in the gay life of the new centre.

Opium Expert.—An opium expert in visit the Sound with the object of investigating the operations of smugglers who are plying their trade from Victoria, according to the Seattle Post-Intelligencer, which prints the following despatch from Boston: "United States Secret Service Agent Frank Burke, who has been in charge of the Boston office for several months, has been detailed to duty at Seattle, possibly in connection with some opium frauds. Burke was instrumental there in running down a lot of opium smugglers and making a large seizure of the drug. He will receive under United States treasury laws some \$3,000 in cash for his share of the proceeds of the contraband. He has been very successful here."

FROM SUNDAY'S DAILY.

Exhibition Note.—Entries for the provincial exhibition, held under the auspices of the British Columbia Agricultural Association, close September 20. Therefore all those who intend to enter should make their entries early.

Grout Scarce.—Hunters returning from points up the railway lines report that grout is much scarce this year than past seasons. Farmers of outlying districts claim that illegitimate shooting has taken place this year to a great extent than ever before.

Military Manoeuvres.—It is likely that interesting military manoeuvres will be conducted at Esquimalt as a result of the visit of Major-General Parsons, commanding the imperial forces in Canada. During the visit the gun teams of the Royal Artillery will be tested as to their efficiency.

West Coast Iron.—Messrs. Bentley & McGregor, who are opening up some valuable iron properties in the Esquimalt area, on the west coast of Vancouver island, have succeeded in interesting a prominent Esquimalt capitalist in the person of W. H. Kaywick, himself a money maker in the Esquimalt area, in the most valuable on the coast. A Mr. Price, of Tacoma, who has had large experience in examining such properties, expresses the opinion that it contains more than nine-tenths of the most valuable iron in the world, combined, and Messrs. Bentley & McGregor confidently expect to make a deal being made with Mr. Kaywick.

The Winning Laurels.—From a perusal of provincial papers it is evident that the three Victoria artists now pouring their artistic efforts into the brush everywhere. The Armstrong-Adviser writes of them: "Mr. Herbert Taylor has painted a great hit in the various selections, and the numbers given by Miss Marwick were highly appreciated. It is very gratifying that little Miss Glen Switzer has won the laurels with her painting of the Inland Sentinel, of Kamloops."

PEACE RIVER.

An Edmonton Man Enthusiastic Over its Great Possibilities.

The Edmonton Bulletin has the following: "W. C. King, who left Edmonton last May to visit the Peace River country, has returned with a report on its agricultural possibilities; returned to the city this morning with his party. Mr. King reports most enthusiastically in favor of the Peace River country as most suitable for carrying on mixed farming. There are wide tracts of splendid country waiting for cultivation to yield bumper crops. A railroad is all that is needed, and it is wanted badly and at once. Climatic conditions have been favorable this year and the crops are in good shape. The country is full of splendid semi-arboreal crops. Ripening tomatoes were picked on the night of this month at Lesser Slave Lake. He has magnificent samples of grain and minerals, and a photograph of interesting features of his trip. Mr. King's reports give a flat contradiction to Macoun's report on this country."

THE FULL FAIR.

A Proposal to Fill Cadboro Bay Wharf to Land Stock.

A suggestion has been made which will likely be acted upon that the old Cadboro Bay wharf be utilized for the purpose of stock show at the forthcoming British Columbia Agricultural Exhibition. Capt. Zupp has taken the matter up vigorously, and it is probable that the suggestion will be adopted. The wharf is only a short distance from the fair grounds, and the road leading from the wharf is reported to be in splendid repair.

In this connection the following letters have been received by Secretary Swinerton: Secretary Victoria Exhibition, August 20. Sir:—The members of the Delta Agricultural Society respectfully request that you object to unloading our stock and exhibits at Fernie, British Columbia, and that you would ask that they be unloaded at Cadboro Bay wharf, which is the most convenient place for unloading stock in the night through Victoria's streets a distance of three miles, and Cadboro Bay being only one-half mile from downtown Victoria.

Dear Sir:—I would like two or three of your entry blanks and your special price list, there will be a large exhibit from Chilliwack for Victoria this year. I expect to visit the Kent fair at Anacostis next Monday. I hope we can arrange to land at Cadboro Bay. Your transport committee will help us out.

We will want the same space and arrangement for our district exhibit as we had last year.

Levee's Y-Z (Wise Head) Disinfectant Soap powder dusted in the bath softens the scales as the same as that it disinfects."

DISCUSSES STATUS OF CRETE.

Rome, Sept. 3.—Prince George of Greece, commissioner general of the powers in Crete, visited the foreign minister today and lengthily discussed the situation in Crete, expressing the opinion that it would be possible to further delay the union of Crete to Greece for religious, economic and political reasons.

The Sunlight way of washing requires little or no rubbing. You should try Sunlight Soap. Will not injure delicate fabrics.

Prizes Won in Yesterday's Shoot

Australian Captures the Governor-General's Prize at Ottawa.

Other Successful Competitors in Matches of Dominion Association.

FROM OUR OWN CORRESPONDENT.

Ottawa, Sept. 2.—The proud distinction of winning the Governor-General's prize in the Dominion Association, was secured by the team of Starnaud, Victoria, Australia, while the second in the match was Walter, New Zealand, and both of these contestants were from the Llanowest club from Victoria on the 10th.

Aggregates of six men in the match, the Dominion and Governor-General's prizes, were won by the Llanowest club and St. Paul's, British Columbia, 470 (830); G. G. P. E., 1,425 (824); Tenth Regiment, 1,440 (810); Thirteenth Regiment, 1,428 (815); 48th Highlanders, 1,428 (815); W. Cassin, 1,425.

Gordon Highlanders' Troop.—Aggregate scores of eight men in the first stage of the Governor-General's prize, the Dominion and Governor-General's prizes, were won by the Llanowest club and St. Paul's, British Columbia, 470 (830); G. G. P. E., 1,425 (824); Tenth Regiment, 1,440 (810); Thirteenth Regiment, 1,428 (815); 48th Highlanders, 1,428 (815); W. Cassin, 1,425.

C. M. M. League prize winners.—Military prizes were won by the Llanowest club and St. Paul's, British Columbia, 470 (830); G. G. P. E., 1,425 (824); Tenth Regiment, 1,440 (810); Thirteenth Regiment, 1,428 (815); 48th Highlanders, 1,428 (815); W. Cassin, 1,425.

Private William W. H. Kaywick, of the Tenth Regiment, D. C. O. R., 1st team, 750 (824); 48th Highlanders, 747. Next in order: Governor-General's, Foot Guards, 760; 48th Highlanders, 747.

Russian Casualties Said To Be Thirty Thousand

A Fearful Death Roll Attending Recent Fighting—German Experts Inclined to View Liaoyang As the Sedan of the Campaign.

FROM OUR OWN CORRESPONDENT.

Berlin, Sept. 2.—Military specialists treat the news from Liaoyang as indicating a Great Russian reverse, which with the railway north out and bad roads, may be turned into a rout. As to the number of casualties, it is estimated that the Russian loss is about 30,000 men.

Continued and dogged confidence in General Kuropatkin is noticeable in many quarters and the public generally, as well as many of the military authorities, absolutely believe that Liaoyang has not been abandoned, or if it has been abandoned, it is only a tactical retreat, and that the Russian position is a better one than it appears to be.

The lack of definite information from the seat of war continues up to this time, and nothing is known regarding the situation at Liaoyang. It is known beyond the fact that Kuropatkin has withdrawn the main portion of his forces to the north of the city, and that the Japanese are in possession of the city.

Experts who are familiar with the Liaoyang situation, believe that the Russian position is a better one than it appears to be. They believe that the Russian position is a better one than it appears to be.

St. Petersburg, Sept. 2.—(2-19 a. m.)—The text of the despatch sent to the Emperor by General Kuropatkin Thursday evening, the gist of which was given out by the war office, was as follows: "Associated Press at 4:50 o'clock Friday night as expected. It was promised to the local press and was awaited with interest by the public. It was announced that it would be issued today. All the news, however, as far as the Russian position is concerned, is expected in telegrams from foreign sources, and there is painful suspense awaiting news from Russian sources."

Continued and dogged confidence in General Kuropatkin is noticeable in many quarters and the public generally, as well as many of the military authorities, absolutely believe that Liaoyang has not been abandoned, or if it has been abandoned, it is only a tactical retreat, and that the Russian position is a better one than it appears to be.

Kootenay Steel Range

Burns Coal, Coke or Wood

Two sets of grates are supplied with every range and the flues are wide and deep, with no square corners, so that the ashes and soot produced by soft fuels cannot clog up the smoke and draft passages.

This feature of the Kootenay Range is a decided success. The grates are so easily changed that a boy can perform the operation.

Sold by all enterprising dealers. Booklet free.

HOW TO KEEP WELL.

The best efforts of the great physicians are expended in finding how to keep people well and prevent disease. Dr. Chase's Nerve Food was prepared with this object in view. It is only a cure for diseases of the nerves, but a restorative to be used when vitality runs low and the weakness of the system invites attack by fevers or contagious diseases.

BURGLARS AT LARGE.

Glenn Falls, N. Y., Sept. 2.—Warren county officers are searching for Lawson Beatty, Arthur Sansoulet and John H. Beatty, who broke jail at Lake George last night. They were charged with burglarizing during the past six months.

ALL REPAIRING STOPPED.

Shanghai, Sept. 2.—The Chinese government according to the demand of the Japanese effected the stoppage today of all repairs on the Russian protected craft docked and the Russian torpedo boat destroyed.

JAPS WERE DISAPPOINTED.

Field Headquarters of the Second Japanese Army, Saturday, Aug. 27.—The Japanese evacuated the island of the island the Dyaks had lain all night within range of their machine guns.

RUSSIAN STEAMER BLOWN UP.

Tokyo, Sept. 2.—A Russian steamer, Arthur, struck a mine and was destroyed last Wednesday.

Piles

To prove to you that Dr. Chase's Ointment is the best for piles, we have prepared a booklet which you can get by sending for it. It tells you all about the disease and how to cure it. It is a booklet that you should have.

The Wings of the Morning

By Louis Tracy.

(Continued from last Tuesday's Edition)

Fortunately the fumes of the sulphur fed on the boy's shoulders and he endured sufficient time to see every Dyak who caught a glimpse of the monstrous object cresting in luminous horror within the dismal cavern. Not even the stirring exhortations of his chief, whose words were raised in a furious speech, could induce the boy to get up again, and so it was that he lay there, his head on the floor, his eyes closed, his hands clasped in prayer, his heart beating in a slow, steady rhythm, his mind wandering in a dreamy state, his body rigid as a statue, his face pale as death, his hair matted with sweat, his clothes drenched with blood, his hands stained with gore, his feet swollen with pain, his body racked with agony, his mind tormented with despair, his heart broken with sorrow, his soul in agony, his life in peril, his death in sight, his fate in his hands, his destiny in his grasp, his future in his power, his fate in his hands, his destiny in his grasp, his future in his power.

and England. He noiselessly wormed his way to the edge of the rock and looked down through the grass-roots. The Dyaks were already stirring. Some were replying to the first, others were drawing water, cooking, eating, smoking long thin-stemmed pipes with limbs and wipers. The chief sat on the rock, but when the first beams of the sun glided the water was stopped over the prostrate form and said something that caused the sleeper to rise. He looked at the man who stood over him and said something that caused the sleeper to rise. He looked at the man who stood over him and said something that caused the sleeper to rise.

The W.C.T.U. Convention

Second Day of the Big Gathering of Christian Workers in Victoria.

Interesting Address by President Reports Showing Financial Position.

Day's Proceedings Brought to Close by Successful Meeting in Mission Tent.

The devotional meeting Wednesday morning at the W. C. T. U. convention was conducted by Miss O. U. of Vancouver. At 10 o'clock Mrs. Gordon, president, called the convention to order. She read the minutes of the previous day's session and reported on the financial position of the convention. She stated that the total receipts for the convention were \$1,200.00, and the total expenses were \$800.00, leaving a net gain of \$400.00. She then reported on the work of the various departments of the convention, including the evangelistic work, the social work, and the educational work. She concluded her report by saying that she was proud of the success of the convention and hoped that it would be a blessing to the world.

Further amendment was laid over until the afternoon session in order that more definite information be obtained as to the nature of the constitution. The amendment was then referred to the executive committee for consideration. The committee reported that it had decided to accept the amendment, and the convention voted to accept it. The amendment was then read and approved by the convention.

The afternoon session of the convention was held in the mission tent. It was opened by a prayer by Mrs. Gordon, and then by a reading of the minutes of the previous day's session. Mrs. Gordon then reported on the work of the various departments of the convention, including the evangelistic work, the social work, and the educational work. She concluded her report by saying that she was proud of the success of the convention and hoped that it would be a blessing to the world.

The convention closed with a prayer by Mrs. Gordon, and a benediction by the pastor of the church. The convention was a great success, and it was a pleasure to have so many Christian workers gathered together in Victoria.
