INTRODUCTION

This report is a summary of the Trade and Industrial Development Program quarterly activities and results which were submitted by Canadian diplomatic missions abroad during the past fiscal year and published in four separate quarterly reports.

The political and economic environments in which our missions operate vary widely between regions of the world. Hence it is not usually valid to attempt to compare, for example, the statistics of Moscow with those of Dallas, even though each mission has five trade program positions. Nevertheless there is general consensus that comparison within a geographic region holds some validity. Graphical presentation of the statistics has been provided to assist the reader to scan the relative level of activities and results within individual geographic regions.

Each graphical presentation is followed by the statistics upon which they are based. The value of business reported relates to actual and completed transactions. The material is in the following order:

World Summary
Africa Middle East
Asia Pacific
Latin America / Caribbean
Europe
United States

INTRODUCTION

Le présent rapport est le résumé des activités du Programme d'expansion commerciale et industrielle et de ses résultats, tels que publiés dans les rapports trimestriels que les missions diplomatiques du Canada à l'étranger ont présentés au cours de la dernière année financière.

La conjoncture politique et économique dans laquelle se trouvent nos missions varie beaucoup d'une partie du monde à l'autre. Ainsi, tenter de comparer les statistiques de Moscou avec celles de Dallas, même si ces deux missions comptent chacune cinq postes liés aux affaires commerciales, n'est pas d'une grande utilité. Par contre, faire des comparaisons entre des missions d'une même région géographique présente un certain intérêt. Les statistiques sont présentées sous forme de graphiques pour que le lecteur puisse avoir un aperçu immédiat des activités et résultats enregistrés dans chacune des régions géographiques.

Chaque présentation graphique est suivie des statistiques sur lesquelles elle se fonde. La valeur des activités commerciales représente la valeur réelle des transactions complétées. Le rapport est présenté dans l'ordre suivant:
