Accordingly Mr. Speaker, with the House, went up to the Senate Chamber ;and then Mr. Speaker spoke to the following effect:

### MAY IT PLEASE YOUR EXCELLENCY:

The House of Commons have elected me as their Speaker, though I am but little

able to fulfil the important duties thus assigned to me.

If, in the performance of those duties, I should at any time fall into error, I pray that the fault may be imputed to me, and not to the Commons, whose servant I am, and who through me, the better to enable them to discharge their duty to their Queen and Country, humbly claim all their undoubted rights and privileges, especially that they may have freedom of Speech in their Debates, access to Your Excellency's person at all seasonable times, and that their proceedings may receive from Your Excellency the most favourable consideration.

The Honourable the Speaker of the Senate then said:

## Mr. SPEAKER,

I am commanded by His Excellency the Governor General to declare to you that he freely confides in the duty and attachment of the House of Commons to Her. Majesty's Person and Government, and not doubting that their proceedings will be conducted with wisdom, temper and prudence, he grants, and upon all occasions will recognize and allow their constitutional privileges.

I am commanded also to assure you, that the Commons shall have ready access to His Excellency upon all seasonable occasions, and that their proceedings, as well as your words and actions, will constantly receive from him the most favourable

construction.

And The House being returned,-

Mr. Speaker reported that The House had been in the Senate Chamber, and that he had, in their names and on their behalf, made the usual claim of privileges, which His Excellency had been pleased to confirm to them.

Mr. Speaker informed The House, that the Clerk of The House had received from the Judges selected for the trial of Election Petitions, pursuant to The Dominion Controverted Elections Act, 1874, Certificates and Reports relating to the Elections:

For the Electoral District of King's, N.B., and for the Electoral District of

Joliette:

And the same were read as follows :-

### KING'S, N.B., CONTROVERTED ELECTION.

In the Supreme Court,

THE DOMINION ELECTIONS ACT, 1874.

In the matter of the Election of a Member of the House of Commons, for the Electoral District of King's, in the Province of New Brunswick, holden on the twentieth day of June, A.D., 1882.

DOMINION OF CANADA, PROVINCE OF NEW BRUNSWICK.

Between

WILLIAM H. BAXTER, and JAMES H. SECORD,

Petitioners.

GEORGE E. FOSTER,

Respondent.

I, the Honourable John Wesley Weldon, one of the Judges of the Supreme Court of Judicature for the Province of New Brunswick, and the Judge assigned to hold an Election Court, in matters arising out of the election of a Member to serve in the Parliament of Canada, for the County of King's, and the Judge before whom the said election was tried,

Do certify that the twenty-fifth day of September, 1882, was the day appointed for the trial of the matters contained in the said Petition, upon the application of the Respondent, and reasonable grounds shewn, the trial was postponed until Monday, the second day of October, then to be holden at the Court House, in Hampton, in the

said County of King's.

On which day the trial was proceeded with, and four witnesses were examined. On this day, Tuesday, the third day of October, when the fifth witness was called on behalf of the Petitioners, the Senior Counsel for the Respondent addressed

the Court, as follows:

"In view of the evidence given yesterday in this matter, and the circumstances connected with it, and in view of the rulings of Judges, as to agency in election matters, and after consultation with my learned friends-associated with me-I am ready to admit that money had been spent by persons who might be construed to be agents of the Respondent, and, on his behalf, I am willing Your Honour should report the seat vacant without going into further evidence."

I stated to the Counsel that this admission would justify me in declaring the seat vacant, and I could so report it, but the Petition charges corrupt practices on the part of the Respondent, to disqualify him, and unless the same are withdrawn, the

trial must go on, the costs up to this time would be on the Respondent, the costs from further proceedings on the Petition would fall on the failure to sustain that charge.

The Counsel for the Petition asked for a short time for consultation. After a consultation, the Counsel for the Petitioners said: "In justice to the Petitioners he would say that what was stated in the Petition was not without some grounds, he therefore acquiesced in the seat of the Respondent being declared vacant, which was the main object of the Petitioners, and they withdrew and abandoned any further proceedings against the Respondent personally."

I approved of the very proper course the Counsel for the respective parties have taken; and in declaring the Election of the Respondent null and void, I beg leave to report that no corrupt practice or the indiscretion of the witness was proved to have been done or committed by or with the knowledge or consent of the Respondent at

the said election.

In declaring the election of the said Respondent for the Electoral District null and void, and in pursuance of the said Election Act, I beg leave to report, that no corrupt act or practice has been proved to have been committed by or with the knowledge or consent of any candidate at such election, nor have I any reason to

believe that corrupt practices to any extent prevailed at the said election.

And, I am of opinion, that the enquiry into the circumstances of the election has not been rendered incomplete by the action of any of the parties to the Petition, and that further enquiry, as to whether corrupt practices extensively or at all further prevailed than what appeared at the examination of witnesses was not desirable nor necessary.

J. W. WELDON, J. S. C.

Dated this fifth day of October, 1882. To John George Bourinot, Esq., Clerk of the House of Commons.

# JOLIETTE CONTROVERTED ELECTION.

JOLIETTE, 15th November, 1882.

To John George Bourinot, Esquire, Clerk of the House of Commons.

In view of the vacancy in the office of Speaker of the House of Commons, I conceive it my duty, under the Law, to make to you this my report as follows: That on the 2nd, 3rd and 4th days of November instant, I presided as a Judge of the Superior Court for the Province of Quebec, at the trial of the Election Petition, complaining of the Election and Return of Edouard Guilbault, Esquire, Member elected to represent the Electoral District of Joliette in the House of Commons of Canada, at the last General Election, and that on the 4th day of November instant, I rendered the judgment, a copy of which is hereunto annexed, maintaining the said Election Petition and declaring the said election of the said Edouard Guilbault null and void, and rejecting the other conclusions of the said Election Petition.

I have further to report in conformity with the Dominion Controverted Elections Act, 1874, that the said election was annulled on a declaration of the Respondent Edouard Guilbault, that he consented that by reason of corrupt practices committed at the said election by certain Agents of the Respondent, but without his knowledge, without his participation, and contrary to his express prohibition, the said election

should be annulled for all purposes whatsoever.

I further report that the Petitioners, after having caused several witnesses to be examined, and having begun to prove certain acts of corruption, declared that they withdrew the personal charges made against the Respondent, Edouard Guilbault, and that the Respondent, by reason of the consent he had given and of the withdrawal of the personal charges by the Petitioners, declared that he had no witness to produce, and as the evidence was not completed,

I consider that it is not my duty to make a special report mentioning the persons who may have been proved to have committed corrupt practices during the said election.

The shorthand writer appointed by me to record the enquête, by means of stenographic notes, not having as yet handed in copies of his notes, I shall produce

them so soon as they are furnished to me,

I have the honour to be, Sir, Your obedient servant, M. MATHIEU, J. S. C.

JOLIETTE, 4th November, 1882.

### PRESENT:

The Honourable Mr. Justice MICHAEL MATHIEU, J. S. C. (No. 1.) Election of a Member of the House of Commons of Canada for the Electoral District of Joliette, situated in the Judicial District of Joliette.

BENOIT TREMBLAY, etgal.,

Petitioners.

vs.

## EDOUARD GUILBAULT,

Respondent.

The Court, after having heard the parties, to wit: the Petitioners and the said Respondent, Edouard Guilbault, by their respective Counsel, on the Election Petition presented against the Return, at the last election for the House of Commons of Canada, of Edouard Guilbault, Esquire, Respondent, for the Electoral District of Joliette, which took place on the 13th day of June, 1882, for the presentation of the candidates, and on the 20th day of June last for the polling of votes, examined the said petition, the answer thereunto fyled by the said Respondent, and all proceedings in this case and on the whole duly deliberated:

Inasmuch as the said Respondent, Edouard Guilbault, did, on the 13th October last, fyle in this case a declaration that in view of the corrupt practices committed at the said election by certain agents of the Respondent, but without his knowledge, without his participation, and in spite of his express prohibition, he consented that

the said election should be annulled for all purposes whatever;
Whereas on this day, the Petitioners, by their Counsel and Attorneys, have declared that they withdraw the personal charges made against the Respondent,

Edouard Guilbault personally

Whereas the said Respondent, by his counsel and attorneys, hath declared that, inasmuch as the Petitioners had declared that they purposed to bring no evidence except in proof of the charges against the Respondent personally, and whereas the said charges were withdrawn, he the Respondent declared that he had no counter evidence to bring to disprove the charges which the Petitioners had attempted to establish against the Respondent directly and against his agents in an indirect manner;

Whereas the said Petitioners have prayed that the said election be annulled with costs against the Respondent, and Respondent hath declared that he had no

objections to the said prayer;

Whereas it appears from the said admission of the said Edouard Guilbault, the Respondent in this case, fyled as aforesaid on the 13th day of October last, that the said Election is tainted with certain acts of corruption and corrupt practices practiced and committed irregularly for an unlawful purpose on behalf of the Respondent, by his agents and supporters, but without his knowledge and without his consent;

In virtue of the Act of the Parliament of Canada, intituled: "The Dominion Controverted Election Act, 1874," hath declared and doth hereby declare the said

Election null and void and of no effect:

And whereas the Petitioners have declared that they withdraw the personal charges they had made against the said Respondent, and in consequence thereof the Respondent hath not furnished evidence in disproof of the charges made in the said Election Petition and which the Petitioners had begun to prove and of which the proof is not complete;

Hath rejected and doth reject the other conclusions of the said Election Petition

except those relating to the nullity of the said election;

Hath condemned and doth condemn the said Respondent, Edouard Guilbault, to pay to the said Petitioners all costs by them incurred on the said Election Petition.

DESROCHERS & DESILETS, P. S. C.

And the said Certificates and Reports were ordered to be entered on the Journals of this House.

He also informed The House, that in conformity with the Act 37 Victoria, Chapter 10, Sections 5 and 36, the Clerk of The House had issued his Warrants to the Clerk of the Crown in Chancery to make out new Writs of Election for the said Electoral Districts, respectively.

Mr. Speaker further informed The House, that the Clerk of The House had received from the Judges selected for the trial of Election Petitions, pursuant to "The Dominion Controverted Elections Act, 1874," Certificates and Reports relating to

the Elections :-

For the Electoral District of Napierville; For the Electoral District of Terrebonne;

For the Electoral District of the South Riding of the County of Norfolk; and

For the Electoral District of Verchères. And the same were read as follows:—

Report that after the closing of the trial of the said Petition, to wit, on the sixth September instant (1882), I rendered my decision, dismissing the said Petition, and declaring that the said Médéric Catudal had been duly elected a Member of the said

House for the Electoral District of Napierville.

And in conformity with the same section of the said Act, I annex hereunto a written and certified copy of my said decision, and of the evidence adduced, which said evidence consisted solely of the interrogation of the said Médéric Catudal.

Enquête before Mr. Justice Chagnon. Sixte Coupal dit Lareine,

Petitioner.

MÉDÉRIC CATUDAL,

Respondent.

In the year 1882, the 6th day of September, appeared *Médéric Catudal*, manager of *La Banque St. Jean* at Napierville, residing at Napierville aforesaid, in the said District of Iberville, aged twenty-five years, witness summoned by Petitioner;

Who, having been duly sworn, deposeth and saith: I am the Respondent in this case. I was a candidate at the last election of a Member of the House of Commons for the Electoral Division of Napierville; voting took place at the several polls on the 20th June last. After the voting I was declared the candidate elected, with an apparent majority of one hundred and forty-seven votes. My authorized agent was Narciss Catudal, a burgess of Napierville. The names of all the persons mentioned in the Bill of Particulars now shown me are the names of electors of the Electoral slivision of Napierville; and I believe these several persons voted at the last election.

From the issuing of the Writ ordering the election up to the day of voting I had frequent occasion to meet the said persons; and with some of them I spoke at times f my election, when I so met them. None of these persons were ever engaged by

me as carters during the said election.

I never at any time paid any money whatsoever to any of the persons mentioned in the said Bill of Particulars, for services rendered during the said election. I never

made them any promise of payment; neither directly nor indirectly.

Question: Apart from the various means you made use of in this electoral contest on the hustings, were you at any time during the said election guilty of corrupt practices or fraudulent proceedings in relation to all or any of the persons mentioned in the list or Bill of Particulars which was exhibited to you at the opening of your evidence?

Answer: No.

Counsel for the Respondent declines to cross-examine the witness.

Further deponent saith not, and this deposition having been read to him, he declareth it contains the truth, persists therein, and hath signed.

MÉDÉRIC CATUDAL.

TORONTO, 27th December, 1882.

To John George Bourinot, Esq., Clerk of the House of Commons.

SrR,—I have the honor to inform you that a Petition presented to the Court of Appeal by William Cookson Doyle, complaining of the undue election of Joseph Jackson at the election for the South Riding of the County of Norfolk, holden on the twentieth day of June, A.D., 1882, on the grounds of bribery, treating, undue influ-

ence and other corrupt practices, was tried before me on the fifth, sixth, seventh, eighth, ninth, eleventh, twelfth and fifteenth days of the present month of December, 1882.

I certify that I determined that the said Joseph Jackson was duly elected and

returned.

I adjudged that the Petitioner pay the Respondent his costs of the petition and

trial.

And that there is no reason to believe that corrupt practices prevailed exten-

sively at the said election:

And that I am not of opinion that the inquiry into the circumstances of the said election has been rendered incomplete by the action of any of the parties to the Petition; and I am not of opinion that further enquiry as to whether corrupt

practices have extensively prevailed is desirable.

The Court, after having heard the parties, by their Counsel, on the merits of the Election Petition presented on the 14th day of August last, (1882), examined the procedure and deliberated:

Inasmuch as the said Petitioner hath not proved the allegations contained in the said Election Petition, dismisses the said Election Petition with costs, and declares the said Honourable Felix Geoffrion, duly elected a Member of the House of Commons of Canada, for the Electoral District of Verchères, Judicial District of Montreal.

To John George Bourinot, Esq., Clerk of the House of Commons.

And the said Certificates and Reports were ordered to be entered on the Journals of The House.

Mr. Speaker further informed The House, that the Clerk of The House had received from the Clerk of the Crown in Chancery, Certificates of the Election and Return of the following Members, viz:-

Of the Hon. Joseph Adolphe Chapleau, for the Electoral District of Terrebonne.

Of Flavien Dupont, Esq., for the Electoral District of Bagot. Of Edward Guilbault, Esq., for the Electoral District of Joliette.

Of George R. L. G. H. S. de Beaujeu, Esq., for the Electoral District of Soulanges; and

Of George E. Foster, Esq., for the Electoral District of King's, New Brunswick.

Sir John A. Macdonald introduced a Bill No. 1 respecting the administration of Oaths of Office; which was read the first time.

Mr. Speaker reported His Excellency's Speech from the Throne, and read a copy thereof to The House, which is as follows:-

Honourable Gentlemen of the Senate: Gentlemen of the House of Commons:

It is my pleasing duty on the opening of a new Parliament to congratulate you on the auspicious circumstances under which you will begin your labours.

Canada is in the enjoyment of peace and prosperity, and all her industries, agricultural, manufacturing and commercial, are in a healthy and improving condition.

Following the example of my distinguished predecessor, I paid a visit of some length to British Columbia last season. The great natural resources of that Province promise that as soon as the Pacific Railway is completed, an impulse to its prosperity, commensurate with the progress made elsewhere, will be assured. Meanwhile, the disposal of the lands set aside in aid of the Railway to actual settlers will add to the importance and wealth of the Province.

While passing through the United States I was rejoiced to observe many evidences of regard for the Empire of which this country forms so large a portion. May this friendship, which is so fully returned by us, be as enduring as it is natural

and advantageous to the mutual interests of both great nations.

The steady flow of settlers into Manitoba and the North-West Territories last year, and the assurances received of an increased immigration during the coming season, promise well for the early development of those fertile and salubrious regions.

It is important that the laws relating to the representation of the people in Parliament should be amended, and the electoral franchises existing in the several Provinces assimilated. A measure for this purpose will be submitted for your consideration.

I am advised that the Judgment of the Lords of the Judicial Committee of the Privy Council, delivered last June on the appeal of Russell versus the Queen, goes to show, that in order to prevent the unrestrained sale of intoxicating liquors, and for that purpose to regulate the granting of shop, saloon and tavern licenses, legislation by the Dominion Parliament will be necessary. Your earnest consideration of this important subject is desired.

Your attention is specially invited to a measure regulating Factory Labour and

the protection of the workingman and his family.

Bills for the consolidation and amendment of the laws relating to the Customs,

the Militia, and the Public Lands, will be laid before you.

Among other measures, Bills will be presented to you respecting the Civil Service, the Acts relating to Banking and the examination of Masters and Mates of

vessels navigating our inland waters.

I am glad to be able to inform you that the progress of the Canadian Pacific Railway has been quite unprecedented. Traffic can now be carried on the main line from Thunder Bay to within fifty miles of the crossing of the South Saskatchewan, a distance of over one thousand miles. It is confidently expected that the Rocky Mountains will be reached during the present year, and that within the same period substantial progress will be made on the Lake Superior Section of the Railway, and the track laid upon a large portion of the road now under contract in British Columbia.

I have also pleasure in stating that the traffic on the Intercolonial Railway is largely in excess of any former year, and that the balance in favour of the roal shows

a gratifying increase.

Gentlemen of the House of Commons:

The accounts of the last fiscal year will be laid before you.

You will be pleased to learn that, notwithstanding the expenditure on Capital account amounted to more than seven millions of dollars, the surplus of the Consolidated Revenue, together with the proceeds of the sales of the lands in the North-West during the year, were more than sufficient to cover that expenditure, and that the net debt at the close of the year and the amount of interest paid thereon were less than for the year previous.

The Estimates for the ensuing year will also be submitted. They have been prepared with all due economy consistent with the necessary development of the

varied resources of the Dominion.

On the first of January, 1885, the large 5 per cent loan will mature. A Bill will be submitted authorizing the issue of Debentures bearing a rate of interest not exceeding 4 per cent. for the redemption of this loan.

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

The subjects I have mentioned to you are of much importance, and I commend them to your consideration, with full confidence in your discretion and patriotism.

On motion of Sir John A. Macdonald, His Excellency's Speech was ordered to be taken into consideration, on Monday next.

Resolved,—That Select Standing Committees of this House, for the present Session, be appointed for the following purposes:—1. On Privileges and Elections.—2. On Expiring Laws.—3. On Railways, Canals and Telegraph Lines.—4. On Miscellaneous Private Bills.—5. On Standing Orders.—6. On Printing.—7. On Public Accounts.—8. On Banking and Commerce.—9. On Immigration and Colonization,—which said Committees shall severally be empowered to examine and enquire into all such matters and things as may be referred to them by The House; and to report from time to time their observations and opinions thereon; with power to send for persons, papers and records.

Mr. Speaker also laid before The House, the Report of the Librarian of Parliament, on the state of the Library of Parliament, which is as follows:—

# TO THE HONOURABLE THE HOUSE OF COMMONS OF CANADA, IN PARLIAMENT ASSEMBLED.

The Report of the Librarian of Parliament respectfully sheweth: -

Since last Session, the Library Staff have been busily engaged—in addition to their ordinary duties—in a careful comparison of the books on the shelves with the titles entered in the Catalogues; a work which is necessary, every few years, in order to ascertain existing deficiencies, attributable either to the gradual, but unavoidable destruction, through long continued use, of books in frequent circulation; or to the occasional loss of books, for which no account can be given. The result of this investigation has proved very satisfactory. The number of volumes missing and unaccounted for, is but small. At the same time, it has been deemed advisable, for the greater security of the collection, to exercise an increasing vigilance in restraining the access of the general public to the galleries surrounding the Library.

The increase in the number of books within the past year was above the average. For although the balance of the ordinary grant for purchases (after deducting sufficient to defray accounts accumulated before its receipt), was inconsiderable; yet, through the liberality of Government, a sum of about fifteen hundred dollars, standing to the credit of our contingencies—was permitted to be used to purchase certain valuable books, unexpectedly offered for sale by auction at New York, in December last. These books belonged to the late Dr. E. B. O'Callaghan, the well-known historian, formerly a leading member of the Lower Canada Parliament, whose accumulations upon early Canadian history were of peculiar interest and value. Mr. L. P. Sylvain was deputed from this office to attend the sale, and though the competition was keen, and prices generally ruled high, he succeeded in buying a number of books which will form a noteworthy addition to our collection of works on the

history and literature of this country.

And here I cannot refrain from adverting to the loss sustained by the Dominion in the death, last summer, of Mr. Antoine Gerin-Lajoie, who was the principal Assistant in this Library from 1856 to 1880, when he was compelled to retire from the service, through failing health. Mr. Lajoie was highly esteemed and widely appreciated in Canada, not merely because of the exemplary discharge of his official duties, and for his private worth, but especially for his literary ability, which had secured him a place in the front rank of French Canadian authors. Of late years, he had been chiefly addicted to historical studies, and had amassed a large store of useful knowledge on the history of Canada, which, had his life been spared, he purposed to embody in some connected treatise. Meanwhile, he was always ready to render intelligent assistance to all who sought his aid, upon topics of enquiry on which he was known to be familiar, and all frequenters of this Library have reason to regret the loss of his extended information, and of his readiness in turning it to immediate practical account.

The charge of the department of Canadian history had been appropriately assigned to Mr. Lajoie; and it is in this direction that, since his increasing infirmity obliged him to relax his efforts, and finally to relinquish his work,—the deficiencies of this Library have been most apparent. The selection, however, as Mr. Lajoie's successor in office, of Mr. Alfred De Celles, gives promise that this loss will be amply made good, for Mr. De Celles past reputation as a student and public writer is a pledge of his competency to discharge with increasing zeal and efficiency the duties which will devolve upon him in the future. I have, therefore, requested him to assume the special charge of Canadian and American books, and to spare no endeavour to make

this portion of the Library as perfect and complete as possible.

Since 1880 (when Mr. De Celles was appointed) the Library has been suffering from diminished pecuniary resources, owing to an excessive expenditure in former years for the purchase of Law Books, principally for the use of the Supreme Court.

This excess was met and covered by reducing current expenditure, as well on behalf of the Law Library as for miscellaneous books, and no extra grant was solicited from Parliament. But the time has now arrived when I would respectfully suggest that a considerable augmentation of the Library, in all its departments, is imperatively called for, in order to maintain its credit and to increase its usefulness as a public institution.

The past year has been memorable in our annals for events of much import in relation to the mental growth and advancement of this Dominion. The attention of learned societies, both at home and abroad, has been awakened to the present condition and future prospects of Canada, to an extent hitherto unprecedented. Eminent scientific associations have met for the first time, or have announced their intention of soon assembling, on Canadian soil, to prosecute their philosophical enquiries. Moreover, through the energy and foresight of His Excellency the Governor General, a Canadian Royal Society of Literature and Science has been instituted. In the deliberations of this new association, which includes representative men from the several Provinces of British North America, each of whom had achieved distinction in some field of labour for the public benefit, we have proof that the mental activity of our people has kept pace with the rapid and extraordinary increase of the country in population and material wealth. To meet the intellectual wants of such a class, and to aid their literary labours, by making due provision for the requirements of those who devote themselves to study and research, strenuous efforts should be made to enlarge and perfect this, the only public Library in Canada. The Government have spared no pains and grudged no outlay which they considered needful to develop the physical resources of this vast Dominion; it is not, therefore, unreasonable to anticipate that they will be equally prepared to recommend to Parliament whatever may be needful to promote its intellectual progress, and to supply the higher wants of Canadians, in their mental and scientific cultivation. I therefore confidently rely upon the willingness of Government to recommend, and of Parliament to grant, whatever sums of money may be required, in the future, to place and to maintain this Library in an adequate degree of completeness and efficiency.

Perhaps I should add, that no difficulty would occur in accommodating a very considerable increase of books, in the existing apartments. Pursuant to the directions of the Library Committee last Session, several thousand volumes of English and American Law Reports have been removed to the Supreme Court Building, for the greater convenience of the Court. This affords space for other works; besides which, the shelving elsewhere available would readily suffice for the deposit of many

thousand additional volumes.

The charge of the Library Accounts has been recently assigned to Mr. James Fletcher, of this Department, whose previous experience in the Bank of British North America, enables him readily to undertake this duty. Heretofore, and until the Library of Parliament was constituted a distinct Department, the Clerk of the Senate was the official custodian of moneys voted by Parliament for the purchase of books. He deputed this service to Mr. R. W. Stephen, Assistant Accountant to the Senate; who, for several years after he ceased to be officially responsible for the same, continued punctually to keep Accounts on behalf of the Library. In reporting the introduction of the new system, which has been effected by desire of the Auditor-General, I gladly avail myself of the opportunity to record my thankful recognition of the value of the services which Mr. Stephen has gratuitously performed for so long a period, and my hope that they may not remain unrewarded.

Within the year the Library has been enriched by a considerable number of Donations; a complete list of which is hereunto appended, together with an enumer-

ation of the works deposited under the Copyright Act.

Conspicuous amongst the Donations, in value and bibliographical interest, is the gift received from Mrs. John Carter-Brown, the widow of the late John Carter-Brown, of Providence, Rhode Island, the eminent and learned Book-collector, whose magnificent Library of early printed books relating to this continent, is probably the finest and most complete in either hemisphere. The donation consists of a copy, in 4

volumes, of the Catalogue of Books, concerning North and South America, to be found in this Library, and which were printed between the years 1482 and 1800. This catalogue is enriched with fac-similes of early title pages, of illuminations and portraits, of copies of ancient maps, and similar embellishments, and is annotated by an experienced American scholar, Dr. John Russell Bartlett. Very few copies of this catalogue were printed, and these only for private circulation. Mrs. Brown has received applications from several of the great Public Libraries of Europe, and from many similar institutions on this continent, for a copy of the catalogue, but she thought there should be one, at least, in the Dominion of Canada. She, therefore, generously responded to my earnest appeal for one of these remarkable and sumptuous catalogues, to be deposited in the Library of Parliament.

I would also call attention to the list of Books received from General Horatio Rogers, an American officer of distinction, who visited this Library about a year ago, for purposes of literary research, and who, in grateful recognition of the assistance then afforded him, kindly forwarded to the Library, the Books enumerated in the

Appendix, under his name.

The number of volumes in the Library, last year, was estimated at 100,800. Since then the total number has increased to about 104,000.

All which is respectfully submitted.

Alpheus Todd, Librarian of Parliament.

Mr. Speaker informed The House, that he had received the Judgment of the Hon. Mr. Justice Torrance, one of the Judges selected for the trial of Election Petitions, pursuant to the Dominion Controverted Elections Act, 1874, in the matter of the Controverted Election for the Electoral District of Jacques Cartier, by which the sitting Member is declared to be duly elected,—and the same was read, as follows:—

### JACQUES CARTIER CONTROVERTED ELECTION.

Dominion Controverted Elections Act, 1874.

No. 2.

In re

The Election of a Member of the House of Commons of Canada for the Electoral District of Jacques Cartier, Judicial District of Montreal, held on the 13th June, 1882, for the nomination of Candidates, and the 20th June, 1882, for the voting.

The 22nd day of January, 1883.

### PRESENT:

The Hon. Mr. JUSTICE TORRANCE.

Antoine Belanger, day labourer and sailor, of the Town of Lachine, in the Electoral District of Jacques Cartier, in the Judicial District of Montreal,

Petitioner.

DESIRÉ GIROUARD, Q.C., of the Parish of Lachine, in the District of Montreal,

Respondent.

The Court after having heard the parties, by their Counsel, on the merits of the Election Petition, presented on the 14th day of the month of August, last, (1882), examined the proceedings and deliberated:

Whereas the said Petitioner hath not proved the allegations contained in the Petition, dismisses the said Election Petition, with costs, and declares the said Désiré Girouard duly elected to the House of Commons of Canada, for the Electoral District of Jacques Cartier, Judicial District of Montreal.

(A true copy.)

HUBERT, HONEY & GENDRON, P. S. C.

And the said Judgment was ordered to be entered on the Journals of this House.

Eleven Petitions were brought up, and laid on the Table

The House proceeded to the consideration of His Excellency's Speech at the opening of the Session.

Mr. Tupper (Pictou) moved, seconded by Mr. Wood (Westmoreland):—

1. That an humble Address be presented to His Excellency the Governor General to thank His Excellency for his gracious Speech at the opening of the present Session, and further to assure His Excellency,—that we receive with much pleasure His Excellency's congratulations on the auspicious circumstances under which at the opening of a new Parliament we shall begin our labours.

2. That we are gratified by the expression of His Excellency's opinion, that Canada is in the enjoyment of peace and prosperity, and that all her industries, agricultural,

manufacturing and commercial, are in a healthy and improving condition.

3. That we thank His Excellency for informing us that, following the example of his distinguished predecessor, he paid a visit of some length to British Columbia last season; and for the expression of his conviction that the great natural resources of that Province promise, that as soon as the Pacific Railway is completed, an impulso to its prosperity, commensurate with the progress made elsewhere, will be assured, and that meanwhile, the disposal of the lands set aside in aid of the Railway to actual settlers will add to the importance and wealth of the Province.

4. That we learn with great satisfaction that while passing through the United States His Excellency was rejoiced to observe many evidences of regard for the Empire of which this country forms so large a portion; and that we concur heartily in His Excellency's wish that this friendship, which is so fully returned by us, may be as enduring as it is natural and advantageous to the mutual interests of both great

nations.

5. That we share His Excellency's belief that the steady flow of settlers into Manitoba and the North-West Territories last year, and the assurances received of an increased immigration during the coming season, promise well for the early develop-

ment of those fertile and salubrious regions.

6. That we understand that His Excellency has been advised that it is important that the laws relating to the representation of the people in Parliament should be amended and the electoral franchises existing in the several provinces assimilated; and that the measure to be submitted to us for this purpose will receive full consideration.

7. That we thank His Excellency for the intimation that he is advised that the Judgment of the Lords of the Judicial Committee of the Privy Council delivered last June on the appeal of Russell versus the Queen goes to show, that in order to prevent the unrestrained sale of intoxicating liquors, and for that purpose to regulate the granting of shop, saloon and tavern licenses, legislation by the Dominion Parliament will be necessary; and that His Excellency may rest assured that our earnest consideration will be given to this important subject.

8. That our special attention shall be given to any measure submitted to us for regulating Factory Labour and the protection of the workingman and his family.

9. That the Bills for the consolidation and amendment of the laws relating to the Customs, the Militia, and the Public Lands, which His Excellency is pleased to say will be laid before us, shall receive our consideration; as shall also any measures presented to us respecting the Civil Service, the Acts relating to Banking, and the examination of Masters and Mates of vessels navigating our inland waters.

10. That it affords us much satisfaction to be informed by His Excellency that the progress of the Canadian Pacific Railway has been quite unprecedented, that traffic can now be carried on the main line from Thunder Bay to within fifty miles of the crossing of the South Saskatchewan, a distance of over one thousand miles, that it is confidently expected that the Rocky Mountains will be reached during the present year, and that within the same period substantial progress will be made on the Lake Superior Section of the Railway, and the track laid upon a large portion of the road now under contract in British Columbia.

11. That we share the pleasure expressed by His Excellency in the statement that the traffic on the Intercolonial Railway is largely in excess of any former year, and

that the balance in favour of the road shows a gratifying increase.

12. That we thank His Excellency for informing us that the accounts of the last fiscal year will be laid before us; and that we are pleased to learn that, notwithstanding the expenditure on Capital account amounted to more than seven millions of dollars, the surplus of the Consolidated Revenue, together with the proceeds of the sales of the lands in the North-West during last year, were more than sufficient to cover that expenditure, and that the net debt at the close of the year and the amount of interest paid thereon were less than for the year previous.

13. That we shall respectfully consider the Estimates for the ensuing year to be submitted to us, and which will, we trust, be found to have been prepared with all due economy consistent with the necessary development of the varied resources of the

Dominion.

14. That in view of the fact that on the first of January, 1885, the large 5 per cent. loan will mature, the Bill to be submitted to us authorizing the issue of Debentures bearing a rate of interest not exceeding 4 per cent. for the redemption of this loan, will receive our careful attention.

15. That we feel with His Excellency, that the subjects he has mentioned to us are of much importance, and that we shall endeavour by our earnest consideration of all of them to justify the full confidence which His Excellency has so kindly expressed in our discretion and patriotism.

And Paragraphs 1 to 15 inclusive, of the said proposed Address, being severally

read a second time, were ageeed to.

On motion of Sir John A. Macdonald, the said Resolution was referred to a Select Committee, composed of Sir John A. Macdonald, Sir Leonard Tilley, Sir Hector Langevin, Sir Charles Tupper, and Messrs. Tupper (Picton) and Wood (Westmoreland).

Sir John A. Macdonald, from the said Committee, reported the draft of an Address, and the same being read a second time, was agreed to, and is as follows:—

To His Excellency the Right Honourable Sir John Douglas Sutherland Campbell, (commonly called the Marquis of Lorne), Knight of the Most Ancient and Most Noble Order of the Thistle, Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George, Governor General of Canada, and Vice-Admiral of the same, etc., etc.

PRAYERS.

Nine Petitions were brought up, and laid on the Table.

Mr. Ives, from the Select Standing Committee on Miscellaneous Private Bills, presented the Third Report of the said Committee, reporting the Bill No. 63 to amalgamate the 'Presbyterian Ministers', Widows' and Orphans' Fund, in connection with the Presbyterian Church of the Lower Provinces, and the Widows' and Orphans' Fund of the Presbyterian Church in the Maritime Provinces in connection with the Church of Scotland, and to create a Corporation to administer such Funds, without amendment.

The Committee beg leave to recommend, that the fees and charges, less the cost of printing and translation, be re-funded on the said Bill, as it is not liable to the fees and charges levied on *Private Bills*, under *Rule* 51.

Also, reporting the following Bills, with amendments, viz.: -

Bill No. 75 to incorporate the Board of Management of the Church and Manse Building Fund of the Presbyterian Church in Canada, for Manitoba and the North-West;—and

Bill No. 49 to incorporate the Dominion Phosphate and Mining Company.—With respect to this Bill, the question of jurisdiction having arisen, the same was reserved for the decision of The House.

Mr. White (Cardwell), from the Joint Committee of both Houses on the Printing of Parliament, presented the Third Report of the said Committee, which is as follows:—

The Committee beg leave to submit, as their Third Report, the Report of the Sub-Committee appointed to audit the Printing Accounts, and for other purposes, together with the "Report of the Clerk of the Committee on the Printing Services of the past year," and the "Parliamentary Printing Account Annual Statement from the 1st July, 1881, to the 30th June, 1882." all hereto annexed; which, having been adopted, they respectfully recommend for the consideration of both Houses.

### REPORT OF THE SUB-COMMITTEE

COMMITTEE ROOM,

20th March, 1883.

The Sub-Committee of the Joint Committee of both Houses on the Printing of Parliament to whom was referred the audit of the Printing Accounts for the past year, and to ascertain if any changes were necessary in the distribution of the documents, printed on the recommendation of the Committee, beg now to report as follows:—

The annual statement of the Parliamentary Printing Accounts, with vouchers, receipts, cheques, &c., were submitted to them by your Clerk, and although these accounts and vouchers had been previously audited by the Auditor General, and certified to by him, as being correct, still, your Committee in accordance with their usual practice, made a careful examination of these accounts, and are now happy to report that they found them correct, and the books, cheques and vouchers kept in excellent order.

The Sub-Committee direct its attention to the distribution lists, and they find that it is impossible to make any very great changes at present; the number of Blue Books and Documents printed are only sufficient to supply the distribution as it

now stands, leaving a very small margin as a reserve.

The Sub-Committee would recommend that before the prorogation of Parliament the Committee should take the matter of distribution under its serious consideration, and if possible arrange with the Government to utilize, in its distribution the large numbers of copies of the Blue Books, &c., printed by it for the different Departments. It is clear to your Committee that in some way additional copies of the various documents printed by you, must be provided for circulation.

The attention of the Sub-Committee was called to the inferior quality of the paper supplied by the Contractor, and directions were given to your Clerk, to write to the Contractor on the subject, and we hope the cause of complaint will be removed.

Reduction ....... \$11,446.39

The cost of the service is now less than the Sub-Committee believed it ever could be brought to.

The Sub-Committee is strongly of the opinion that in arranging for new contracts,

efforts should be made to secure a better style of Printing and Binding.

The Sub Committee in view of the possible necessity of extending the distribution List, and thereby increasing the cost of the service, think the appropriation asked for should not be less than the amount provided last year, say \$60,000.

In conclusion your Committee are happy to be able to report, that your Clerk and the distribution Staff have performed their respective duties in a highly satis-

tactory manner.

All which is respectfully submitted.

J. SIMPSON,
THOS. WHITE,
ALPH. DESJARDINS,
GEO. W. ROSS,

### REPORT OF THE CLERK OF THE COMMITTEE.

To the Chairman and Members of the Joint Committee of both Houses on Printing: -

GENTLEMEN,—I beg to submit the annual statement of the Receipts and Expenditure on account of the Printing of Parliament for the fiscal year ending 30th June, 1882.

To this statement the Auditor-General has given his certificate of examination

in the following words:-

"I certify to the correctness of the above account, so far as my duties give me a "knowledge of it. I have no means of determining the quantity of paper or other

" material on hand."

The only observation necessary for me to make on this certificate is;—that the vault where the paper is stored is open at any time, on application, to the inspection of the Auditor-General. The counting of the bundles of paper therein, and the requisitions of the printer, will determine the quantity on hand; of other material we have none that I know of.

The statement shows a decrease in the Expenditure as compared with that of the

preceding year.

The appropriation for the Printing services was reduced last year from \$70,000 to \$60,000.

The above statement might warrant a further reduction if the Committee should

think it advisable.

William Cairns, one of the Sessional Messengers, has resigned his position in the Distributing Room. It is absolutely necessary the vacancy should be filled as speedily as possible, as temporary assistance had to be obtained to keep the work from

accumulating.

The several services have been performed in the usual manner; but I must again call the attention of the Committee to the variation in the shade of colour in the paper. This is specially noticeable in the Blue Books. I have several times complained to the Contractor but he seems to think it impossible but that such will occur in each separate making.

All which is respectfully submitted.

HENRY HARTNEY, Clerk, Joint Committee on Printing.

# VOTES AND PROCEEDINGS, HOUSE OF COMMONS.

#### OTTAWA, FRIDAY, 30TH MARCH, 1883.

PRAYERS.

Twelve Petitions were brought up, and laid on the Table.

The following Petitions were read and received :-

Of the Reverend *P. Goodfellow* and others, of the County of Antigonish; of *Peter McDonald* and others, of Pugwash; of *Samuel Simpson* and others, of Gulf Shore, County of Cumberland; of the Reverend *Peter Clark* and others, of Cape North, County of Victoria, all of Nova Scotia; and of the Reverend *John James*, D.D., and others, of Knox Church, Hamilton, Ontario; severally praying for the adoption of such measures as will prevent the running of Railway Trains on the Lord's Day.

Of the Municipal Council of the County of Essex, Ontario; praying that an Act

may be passed constituting a Court of Railway Commissioners for Canada.

Of the London Board of Trade; praying that the Bill now before Parliament, for the equitable distribution of Insolvents' Estates, may become law.

On motion of Sir Hector Langevin, 900 copies of the Statements made before the Select Standing Committee on Railways Canals and Telegraph Lines of this House, for and against the Bill No. 3 for constituting a Court of Railway Commissioners for Canada, and to amend the Consolidated Railway Act, 1879, were ordered to be printed for the use of Members, and Rule 94 suspended, in relation thereto.

Mr. Cameron (Huron) moved, that The House do resolve itself into a Committee of the Whole on Monday, next, to consider further of Bills No. 6 to provide that persons charged with misdemeanor shall be competent as witnesses, —No. 2 to amend an Act respecting procedure in Criminal Cases, and other matters relating to Criminal Law,—No. 4 to amend the Law of evidence in Criminal Cases,—and No. 30 to amend the Criminal Law, and to declare it a misdemeanor to leave unguarded and exposed holes cut in the ice on any navigable or frequented water (all consolidated into one Bill) as amended by the Select Committee.

Objection having been taken to this procedure in the case of a Bill not reported from a Committee of the whole House,—and to the motion being made without

notice;

Mr. Speaker ruled "that it was not competent for a Committee to kill a Bill, and "that in case of a Bill disappearing from the Orders of the Day, as in the present " case, it was the correct practice for a Member to move, -that it be placed on the "Orders of the Day for further consideration on a future day. If The House agreed "to this motion, then the Committee should take up the Bill at the stage it stood "when the Committee rose. In case of such motions, no notice was necessary under " Rule 31, and in accordance with the usage of the English Parliament."

And the question being put on Mr. Cameron's (Huron) motion; -it was negatived

on the following division :-

#### NOTICES OF MOTIONS.

Sir Leonard Tilley On Friday next—Committee of the Whole to consider the following Resolution:—

That it is expedient to amend the Acts relating to the Superannuation of persons

employed in the Civil Service of Canada, by providing that-

(a.) The Governor in Council may grant to any person having served in an established capacity in the Civil Service for ten years or upwards, and having attained the age of sixty years, or being incapacitated by bodily infirmity from properly performing his duties, a superannuation allowance, calculated on his average yearly salary during the then last three years, and not exceeding the following rates that is to say:—If he has served for ten years, but less than eleven years, an allowance of ten-fiftieths of such average salary, and if for eleven years and under twelve years an annual allowance of eleven-fiftieths thereof, and in like manner a further addition of one-fiftieth of such average salary for each additional year of service up to thirty-five years, when an annual allowance of thirty-five fiftieths may be granted, but no addition shall be made for any service beyond thirty-five years; if the service has not been continuous, the period or periods during which such service has been interrupted shall not be counted, and the Order in Council made in such case shall be laid before Parliament at its then or then next session.

(b.) The Governor in Council may, in the case of any person who entered the Civil Service after the age of thirty years, as being possessed of some peculiar professional or other qualifications or attainments required for the office to which he was appointed, and not ordinarily to be acquired in the public service, add to the actual number of years service of such person, such further number not exceeding ten, as may be considered equitable, for reasons stated in the Order of Council made in the case; and such additional number of years shall be taken as part of term of service on which the superannuation allowance of such person shall be computed, the Order in Council in any such case being laid before Parliament, at its then or then next

Session.

(c) Towards making good the superannuation allowances hereinbefore mentioned, an abatement shall be made from the salary of each person in the Civil Service to whom this Act applies, at the rate of two per centum per annum on such salary, if it be six hundred dollars or upwards, and of one and a quarter per centum per annum thereon, if it be less than six hundred dollars, and the sum so deducted shall form part of the Consolidated Revenue Fund, but such abatement shall be made

only during the first thirty five years of service.

(d.) The full superannuation allowance as aforesaid shall only be granted to persons who have been subject to the said abatement during ten years or upwards; the superannuation allowance of any person who has not paid it, or has paid it for a less period, being subject to a diminution of one per centum for every year less than ten during which he has not paid it, except that the superannuation allowance of any person hereafter retiring, shall not be subject to any such diminution by reason of his not having paid the abatement hereinbefore mentioned, during any year or

years after his first thirty-five years of service.

(e.) Retirement shall be compulsory on any person to whom the superannuation allowance hereinbefore mentioned shall be offered, and such offer shall not be considered as implying any censure upon the person to whom it is made; nor shall any person be considered as having any absolute right to such allowance, but it shall be granted only in consideration of good and faithful service during the time upon which it is calculated, and nothing herein contained shall be understood as impairing or affecting the right of the Governor to dismiss or remove any person from the Civil Service.

(f.) If the Head of a Department reports with respect to any person employed in his Department, and about to be superannuated, from any cause other than that of ill-health or age, that the service of such person has not been satisfactory, the Governor in Council may grant such person a superannuation allowance being less than that to which he would have otherwise been entitled, as to him may seem fit.

(g.) If any person to whom this Act applies, is constrained from any infirmity of mind or body to quit the Civil Service before the period at which a superannuation allowance might be granted him, the Governor in Council may allow him a gratuity not exceeding one month's pay for each year of his service; and if any such person is so constrained to quit the service before such period, by reason of severe bodily injury received without his own fault in the discharge of his public duty, the Governor in Council may allow him a gratuity not exceeding three months' pay for every two years' service, or a superannuation allowance not exceeding onefifth of his average salary during the then last three years.

(h.) If any person to whom this Act applies is removed from office in conse-

quence of the abolition thereof, in order to the improvement of the organization of the department to which he belongs or is removed or retired from office to promote efficiency or economy in the Civil Service, the Governor in Council may grant him such gratuity or superannuation allowance as will fairly compensate him for his loss of office, not exceeding such as he would have been entitled to if he had retired in consequence of permanent infirmity of body or mind, after adding ten years to his

actual term of service.

(i.) The allowances and gratuities granted under this Act, shall be payable out

of the Consolidated Revenue Fund of Canada.

(k.) All superannuation allowances fixed and granted under the Acts hereby repealed are confirmed.

PRAYERS.

Five Petitions were brought up, and laid on the Table.

The following Petitions were read and received :-

Of William Murray and others, of South end Lochaber; of Horatio McDonald and others, of Caledonia, St. Mary's, County of Guysborough, Nova Scotia; of the Guelph Ministerial Association; and of William Wry and others, of Shediac, County of Westmoreland, New Brunswick; severally praying for the adoption of such measures as will prevent the running of Railway Trains on the Lord's Day.

Of W. H. Waller, Vice-President and others, Members of the Metropolitan Society for the Prevention of Cruelty to Animals, and others of the City of Ottawa; praying that the Bill now before Parliament to amend the Acts respecting Cruelty to

Animals, may become law.

Of the Professors and Lecturers of the School of Practical Science at Toronto; praying that the Bill now before Parliament to provide for the admission to the profession of Dominion Land Surveyors of Graduates of the Royal Military College, may not become law, unless all other Scientific Schools in the Dominion be admitted to the like privileges.

Mr. Colby, from the Select Committee appointed to assist Mr. Speaker in the direction of the Library of Parliament, so far as the interests of this House are concerned, and to act as Members of a Joint Committee of both Houses on the Library, presented the First Report, of the said Committee, which is as follows:—

The attention of the Committee has been specially directed to the necessity, at the present time, of making adequate provision for the enlargement and perfecting of the Library; which has fallen considerably into arrear, in the important sections of works in relation to the North American Continent, and in regard to subjects of Scientific enquiry; mainly on account of large expenditure incurred in the purchase of Law Books, since the establishment of the Supreme Court.

Last Session, upon the advice of the Committee, it was agreed to transfer to the Supreme Court Building, the series of English and American Law Reports. Experience has shewn the inexpediency of separating the Reports from the text-books on law. In consideration, therefore, of the desirability of rendering the Library of the Supreme Court as complete as possible, and at the same time of relieving the Library

of Parliament from the great outlay required to maintain this collection in a proper state of efficiency, the Committee have decided to recommend that the bulk of the Law-books be permanently transferred to the Supreme Court Building, that the Department of Justice be henceforth responsible for the maintenance and management of this Law Library, that it be no longer regarded as forming part of the Library of Parliament: subject, however, to a right of preferential access by Members of both Houses to these books, whenever and wherever they may require to consult them. Such text-books only to be retained in the Library of Parliament, or hereafter added

thereto, as may be necessary for purposes of legislation.

In agreeing to the Report of the Sub-Committee on this subject, which is hereunto appended, the Committee desire to express their opinion that the Library of Parliament cannot be brought up to a reasonable degree of efficiency for its intende t uses, or rendered creditable to the Dominion, without an increase of the present annual Grant. They propose, that for the ensuing five years, the sum of Twelve thousand dollars, at least, should be appropriated, annually, for the augmentation of the Library; especially in the direction above stated, leaving it to the Department of Justice to apply for whatever moneys may need to be voted on behalf of the Law Library assigned to the use of the Supreme Court.

The Committee would beg to call attention to the Report of their Sub-Committee upon the question of salaries payable to the Library staff: and they request the con-

currence of both Houses to the recommendations contained therein.

They have duly considered the application of J. G. Bourinot, Esq., Clerk of the House of Commons, herewith submitted, for aid in the publication of a work upon which he has been engaged for some years, in the elucidation of the Practice and Procedure of Parliament. Being satisfied of the merits and usefulness of this treatise, the Committee advise that Three hundred copies of the same be purchased, for the

use of Members of both Houses, at the price of Five dollars per copy.

The Committee are desirous of procuring a complete set of all the printed Journals, Statutes, and official records of the several Provinces, now forming part of the Dominion of Canada, from the earliest date; as well as of the official publications of Canada, since Confederation; which shall be retained for reference in the Library only, and not permitted to be taken out of the Building. They have accordingly instructed the Librarian to make application for such Books in all available directions; and they invite the co-operation of the Executive Government in the furtherance of this undertaking.

SPEAKER'S CHAMBERS, House of Commons, 5th April, 1883.

The Sub-Committee, to which was referred the question of the annual grant to the Library, beg leave to report as follows :-

The Sub-Committee felt that the first question to be settled was that of the Law Library. They have come to the conclusion that the present arrangement, whereby the reports are kept in the Supreme Court building, and the text-books in the Library of Parliament, is quite indefensible.

These books should be kept together, and under our management.

They recommend that all the text-books, save earlier editions and text-books on constitutional law, and such others as should be found in a general Parliamentary Library, as, for example, works on Criminal Law be kept with the Reports in the Supreme Court building: that this Law Library be placed under the control and management of the Department of Justice, which should apply for the necessary votes for its maintenance and management, and that it be no longer treated as part of the Library of Parliament; subject however to the reserved right of Members of both Houses to preferential access to, and use in the Library and the Parliament buildings of any of the books.

They recommend that the future purchase of law books for account of the Library of Parliament be restricted to the Provincial and Supreme Courts reports, and to text-books on questions of constitutional law, which will involve only a limited expense.

They find that the result of the expense for law books since the establishment of the Supreme Court diminishes so seriously the purchases in other branches, that the

Library has fallen sadly in arrear.

There is a lamentable deficiency on the subject of books on North America, a subject in which our Library ought to be complete.

The older books wanting on this subject can be obtained only at occasional

times and at high prices.

They find also that the Library is very deficient in books on scientific subjects, and that in this respect large arrears have to be made up, as well as considerable

yearly purchases to be made.

They would call the attention of the Committee to the fact that a large proportion of the yearly grant is necessarily expended in the purchase of books in the French language, and consequently that the annual charge of this Library must be heavier than for most public libraries where the bulk of the purchases are in one language.

Nevertheless, the grant compares very unfavourably with the resources at the command of other Libraries as will appear from the Memorandum appended to this

report.

On former occasions the state of the public revenues rendered it inopportune to propose an increase to the grant, but the Sub-Committee feel that under the present circumstances they would be wanting to their duty if they were to hesitate to propose

that step.

They believe that a special grant should be made for five years of \$2,000 a year, to be devoted exclusively to the purchase of books on North America; and that the general grant should for the same period be in addition at least \$10,000 a year; and they recommend that this proposal should be submitted to Parliament for its concurrence.

They recommend also that all the rare and specially valuable works in the Library be placed in a separate room, and that special precautions be taken by the

Librarian for their preservation.

All which is respectfully submitted.

GEORGE A. KIRKPATRICK.

OTTAWA, 21st March, 1883.

MEMORANDUM of Annual Expenditure on behalf of certain large Public Libraries: compiled from official sources.

Boston Public Library, (containing 400,000 vols.), has an annual grant from the city of \$115,000; in addition to an income arising from trust funds.

Cincinnatti Public Library (123,000 vols.) expended, last year, \$51,465.

Astor Library; and Lenox Library, New York. Each possesses an endowment of over \$1,100,000.

Manchester Public Library, (160,000 vols.), expends annually about \$55,000.

Library of Congress, Washington, (400,000 vols.) has an annual grant from Congress, for increase and management, of \$52,840.

Melbourne Public Library, Victoria, Australia. (Nearly 100,000 vols). Grant,

last year, was \$25,000.

British Museum Library, expends annually about \$50,000 in the purchase of books; besides enormous additions under the Copyright Act: \$12,500 for the purchase of manuscripts; and about \$45,000 for sinding and repair of books.

The Library of Cornell University, New York, has an income of nearly \$50,000 per

annum.

A new Library has recently been established in the State of Indiana, with funds amounting to \$750,000, which are to be spent in the purchase of books within the next ten years. And in the north west part of Chicago, a sum of over \$2,000,000, has been bequeathed to found a Free Library in that part of the city; in addition to the large Public Library which has existed in Chicago since 1872.

The Sub-Committee, to which was referred the question of the Salaries of the Library Staff, beg to report as follows:—

1. The Joint Library Committee on the 13th day of April, in A.D. 1880, reported on the whole subject and fixed the salaries and the principle which should regulate increases (See Commons Journals, page 232) and this Report has since been acted on.

2. Mr. Laperrière applies to be made a Chief Clerk; but the Sub-Committee have not been able to take the view that such an officer is necessary for the proper performance of the public business in the Library; and they cannot recommend the step.

3. A difficulty has arisen in the cases of Messrs. Fletcher and Campbell, owing to the change in the classification of Clerks made by the Civil Service Act of last, Session.

In order that these two gentlemen may obtain the \$50 increases for the current and the next year, for which they are eligible under the Report already mentioned, and for which they have been recommended, it is necessary under the ruling of the Auditor General, that there should be a recommendation of the Committee, concurred in by Parliament.

The Sub-Committee are satisfied that Messrs. Fletcher and Campbell are entitled to these increases, and they recommend that this view should be adopted by the Committee, and recommended to Parliament for its concurrence; when doubtless

the necessary votes will be submitted.

4. Mr. L. J. Casault has applied for an increase to his salary, which was fixed by

the former Report at \$850 a year, with his residence.

The Sub-Committee are of opinion that the emoluments of Mr. Casault are adequate to the office of Chief Messenger and Caretaker, but they have ascertained that Mr. Casault having acquired a very comprehensive knowledge of the library has made himself extremely useful in assisting in the discharge of the duties towards Members and the public which devolve on the Clerks in the library; and in consideration of his special qualifications and services the Sub-Committee recommend a further and final addition to his emoluments of \$50 a year.

But the Sub-Committee recommend that in the event of a vacancy in Mr. Casault's office the whole question of the emoluments attached to that office be considered open; as according to the impression of the Sub-Committee the salary should be reduced were the duties limited to those of Chief Messenger and Caretaker.

The Sub-Committee make no other recommendations on the subject of salaries, as the application of the principles of the Report of 1880 seems to settle satisfactorily all questions arising as to the other officers.

3RD APRIL, 1883.

THE HONORABLE G. A. KIRKPATRICK,
Speaker of the House of Commons.
&c., &c., &c.

DEAR MR. SPEAKER,—During the past ten years I have employed a large portion of my leisure time in the preparation of a treatise on the rules, usages, and procedure of the Senate and House of Commons. This work has been very carefully compiled from the most authoritative sources in England and Canada. It explains the origin of every rule and usage, and the practice in reference to the same. It

shews the difference, whenever any exists, between the practice of the Canadian Parliament and the practice of the English Houses. In all doubtful and unprovided cases, the practice of the English Parliament is set forth and sustained by many references. It has been my object throughout to give the work that practical scope which my official experience of fifteen years in the two Houses proves to me will be most useful to the Parliamentarian.

This work is divided into twenty-two chapters, each of which is a very full exposition of the particular subject therein treated. These chapters are also divided into distinct parts, so that a reference may be made in an instant to any special

point. For example:--

#### CHAPTER XIV .- Public Bills.

I. Introduction of Tax or Money Bills.

II. Procedure in presenting Bills in the two Houses.

III. Bills relating to Trade.

IV. Bills involving charges or burthens on the people, considered first in Committee of the Whole.

V. Second Reading of Bills.

VI. Motion that the House go into Committee of the Whole.—Instructions.

VII. Reference of Bills to Select Committees.

VIII. Notice of Amendments in Committee of the Whole.

IX. Bills reported from Select Committees.X. Proceedings in Committee of the Whole.XI. Report from Committee of the Whole.

XII. Bills not referred to Committee of the Whole.

XIII. Third Reading of Bills.
XIV. Motion for passage of Bills.

XV. Bills communicated to either House and proceedings in case of amendments thereto.

XVI. Royal Assent to Bills.

XVII. Revival of a Bill.

XVIII. Bill introduced by mistake.
XIX. Expedition in Passage of Bills.

XX. Bills once introduced, not altered except by authority of the House.

XXI. Mistakes during the passage of a Bills, and method of correcting the same.

XXII. Loss of a Bill during a Session.

XXIII. The same Bill, if once rejected, not to be again presented in the same .

Session.

XXIV. Acts may be amended in the same Session.

This method of dividing each chapter taken in connection with a copious Index, ought to make the work much more easy of reference.

The Chapters on Private Bills will also be found very useful, since it has been my aim to cite the various precedents which illustrate the large constitutional scope

of Dominion legislation.

I have also thought it advisable to give in an Introductory Chapter a brief review of the various constitutional changes which have led to the establishment of the very liberal system of parliamentary government that Canada now enjoys. In this Chapter, the reader will find a digest of the various constitutional enactments under which the British North American Provinces have been, and are now governed, as well as references to such authorities as are necessary to a clear understanding of our parliamentary system.

The labour necessary to perfect this work has been very considerable, but I shall be quite content if it answers the purpose for which it is intended. My own expe-

rience at the Table of the House has shewn me that a work of this nature, carefully

compiled, ought to be invaluable to the Parliamentarian.

It is my desire to have this work published in time for the next Session of Parliament. The labour of reading the proofs and preparing the Index will necessarily require several months. I may also add here that the precedents will be brought down to the end of the present Session.

I feel it due to myself to say that had I devoted the same amount of time and labour to other studies of more general interest, I might have received far larger compensation than I am ever likely to receive from the publication of a work whose circulation must be necessarily confined to Canada. I have, however, felt that the Members of the two Houses will fully appreciate my desire to devote myself to those studies which may render my services more useful to Parliament.

I would therefore respectfully submit the result of my labours to the careful consideration of yourself and other members of the Committee on the Library of Parliament. Should the work meet with the approval of the Committee, I would fain hope that they will make such a report as may encourage me to publish it as

soon as possible in a creditable style and form.

I have the honour to remain, Respectfully yours,

JNO. GEO. BOURINGT.

Mr. Abbott, from the Select Standing Committee on Banking and Commerce, presented the Fifth Report of the said Committee, reporting the following Bills, with amendments, viz .:-

Sir John A. Macdonald introduced a Bill No. 107 respecting the Electoral Franchise; which was read the first time, and ordered for a second reading, on Tuesday, next.

Mr. Blanchet, from the Select Standing Committee on Privileges and Elections, to whom was referred the Return, transmitted by Michael McCormack, Returning Officer for the Electoral District of King's County, in the Island of Prince Edward, at the last Election for the said Electoral District, together with all papers attached thereto, presented a Report of the said Committee, which is as follows:—

The Committee examined James E. Robertson, Esquire, the Candidate at the last Election for the Electoral District of King's County, Prince Edward Island, named in the said Return, and the Committee also procured, and had produced, before it certified copies of the Writ of Election for the fourth Electoral District of King's County, whereby the High Sheriff of King's County was required to cause the

Electors thereof, to select two Members to represent the said Electoral District in the House of Assembly of that Province, which said Writ bears date the fifteenth day of April, 1882, and also certain other papers and documents, relative thereto, all of which are herewith, together with the evidence of the said James E. Robertson, certified to the House.

The Committee find that the facts in relation to the matter of the said Election, and the alleged disqualification of the said James E. Robertson, established by the evidence of the said James E. Robertson, and the documents material to the enquiry

are as follows:-

(A.) That the said James E. Robertson was a Candidate at the Election for the fourth Electoral District of King's County for the House of Assembly of the said Province, holden on the 1st and 8th days of May, and appears to have been duly elected and was so returned by the Returning Officer Michael McCormack, Esquire, at the said Election as one of the Members of the said Electoral District on the 27th

day of May, all in the year 1882.

(B.) At the Election for the Electoral District of King's County had for the purpose of electing two Members to represent the said Electoral District in the House of Commons, and which was holden on the thirteenth and twentieth days of June, 1882, Peter Adolphus McIntyre, the said James E. Robertson, Augustine C. MacDonald, and Ephraim B. Muttart, Esquires, were Candidates, and received the number of votes following, that is to say:—

Peter Adolphus McIntyre	2,124
James E Robertson	2,002
Augustine C. MacDonald	1,941
Ephraim B. Muttart	1,854

(C.) That it was made to appear to the Returning Officer, the said Michael McCormack, to whom the said Writ was directed, before or at the time of the declaration, that the said James E. Robertson had been a Candidate at, and been by him the said Returning Officer returned as one of the Members for the said fourth Electoral District of King's County, for the said House of Assembly, on the said twenty-seventh day of May, and that the Lieutenant-Governor of the said Province had not on, or prior, to the twenty-sixth day of the said month of June received from the said James E. Robertson, or from any person on his behalf any resignation of the seat of the said James E. Robertson as a Member of the said House of Assembly, nor had he received any notice of such resignation from the said James E. Robertson or from any Member or Members of the said House of Assembly, nor from any person whomsoever on behalf of the said James E. Robertson.

(D.) That the said Returning Officer thereupon, and on the said twenty-sixth day of June, returned as his answer to said Writ, that the said James E. Robertson at the time of his nomination as a Candidate as such, and at the time of holding of such Election, was a Member duly elected and returned for the House of Assembly of the Province of Prince Edward Island for the fourth Electoral District of King's County, and further that Augustine Cotin MacDonald, a Candidate at such Election, duly qualified had the next highest number of votes lawfully given at such Election.

(E.) That on the 12th or 13th day of the month of June and prior to the nomination on the said last mentioned day, the said James E. Robertson by a declaration in writing, directed to Malcolm McFadyen and Peter McLaren, who were then Members of the Legislative Assembly of the said Province, declared his intention to resign as the Member of the fourth Electoral District of King's County, as it was as therein stated "his intention to nominate and run for the Dominion House of Commons at "the fourth coming Election to be held on the twenty-first day of June, for King's "County, Prince Edward Island."

(F.) That except as hereinafter stated notice thereof was not communicated to

(F.) That except as hereinafter stated notice thereof was not communicated to the Lieutenant-Governor, until the eighth day of the month of July following, when by a document under the hands and seals of the said Malcolm McFadyen and Peter McLaren, bearing date the twenty-sixth of June they thereby "pursuant to the

"provisions of the Thirty-Ninth Victoria, Chapter 3, notified His Honour the Lieuten"ant-Governor that the said James E. Robertson Member Elect for the fourth Electoral
"District of King's County, to the House of Assembly of the Province did on the
"12th day of June address and deliver to them a written declaration duly signed by
"him of his intention to resign, and his resignation of the seat as the Member Elect
"of the said fourth Electoral District of King's County, a copy of which they there-

"with enclosed."

(G.) That on the twenty-ninth day of June, by a letter addressed to His Honour the Lieutenant-Governor of the Province, the said James E. Robertson informed His Honour the Lieutenant-Governor of the Province, that a protest had been filed against his Return as a Member for King's County in the Dominion House of Commons, on the ground that he had not resigned his seat in the Local Legislature, and wherein he informed His Honour, that he had the day before the nomination for the Dominion Election, duly resigned his seat in the Local Legislature by delivering his written resignation in proper form to Malcolm McFadyen, Esquire, and Peter McLaren, M.D., Members for the House of Assembly for the fourth and third Districts of King's County, respectively, which from all that appears is the first knowledge that the Lieutenant-Governor had of the alleged resignation of the said James E. Robertson.

(H.) That no reason has been given or explanation offered to the Committee why the said notice had not been communicated to the Lieutenant-Governor until after the Election to the House of Commons had been held other than the statement contained in the letter of the said James E. Robertson, of the twenty-ninth day of

June, to the Lieutenant-Governor in the words following that, is to say :-

"I presume the reason your Honour has not received notice from them of my "resignation, has been owing to the almost continuous absence from the Island since

"then of Mr. McFadyen."

(I.) The Committee is of opinion that according to the Law of the Province of Prince Edward Island a Member elected to the House of Assembly is not permitted to resign his seat until after the expiration of twenty-one days, exclusive of Sundays and holidays from the date of the Return to the Provincial Secretary of the Writ of Election by the Returning Officer and it is further of the opinion upon the authority of a case.

In Re the West Riding of Durham decided by the Court of Queen's Bench in the Province of Ontario (31 U.C.Q.B. 404) upon an Act of that Province, similar in terms that a Member cannot resign his seat prior to the first meeting of The House, after a General Election and that the said attempted resignation of the said James E.

Robertson was void and of no effect.

(J.) The Committee is further of the opinion, that assuming that the said James E. Robertson did tender to the said two Members of The House of Assembly his resignation on the day named therein, that irrespective of the question arising from the failure of the said two Members to notify the Lieutenant-Governor thereof prior to the nomination of Candidates for the Election for the House of Commons, that the said James E. Robertson was on the said thirteenth and twentieth days of June one of the Members of the said Fourth Electoral District of King's County in the said House of Assembly.

(K.) The Committee find, that according to the terms of an Act of the Province of Prince Edward Island, intituled: "An Act for further securing the Independence "of the General Assembly of the said Province," passed in 1876 (39 Victoria, Chapter 3), that no person who is a Member of the Senate or House of Commons of Canada is eligible as a Member of the House of Assembly of the Province, and, according to the said Law, such a person shall not sit or vote in the same, during

the time he is a Member of the Senate or House of Commons of Canada.

(L.) The Committee is of opinion that under the provisions of the Act of 1872 (35 Victoria, Chapter 15), intituled: "An Act to compel Members of the Local "Legislature in any Province where dual representation is not allowed, to resign "their seats before becoming Candidates for seats in the Dominion Parliament," and of the Act of 1873 (36 Victoria, Chapter 2), intituled: "An Act to render Members

"of the Legislative Assembly and Legislative Council, of the Provinces now "included, and which may be hereafter included in the Dominion of Canada, "ineligible for sitting or voting in the House of Commons," that the said James E. Robertson then being such a Member of the House of Assembly of the Province of Prince Edward Island, was ineligible for, and disqualified from being a Candidate for the representation of the said Electoral District in the House of Commons, or being elected a Member of the House of Commons.

(M.) The Committee has also had under consideration the question whether the section 2 of the Act first referred to in the last preceding paragraph, is applicable to,

and in force in the Province of Prince Edward Island.

(N.) The Committee has carefully examined the Order made by Her Majesty in Her Privy Council, dated 26th day of June, 1873, whereby upon the Address of the Senate and the House of Commons of Canada and of the Legislative Council and House of Assembly of the then colony of Prince Edward Island, Prince Edward Island was admitted into, and became a Province of the Dominion, and of the Act of the Parliament (36 Victoria, Chapter 40), providing for the admission of the said Province.

(O.) And the Committee finds, that by the Act referred to all the Acts of the Parliament of Canada passed in that Session, or at any former Session and relating to amongst other subjects "the Senate and House of Commons including the proceed-"ings therein, and the vacating of seats of Members of the House of Commons, and "the filling of vacancies," was in so far as they were not inconsistent with the provisions of "The British North America Act of 1867," or the said Order of Her Majesty in Council, admitting the said Colony into the Union made to apply to, and to be in force in the said Colony or Province of Prince Edward Island, as if it had formed part of Canada when the said Acts were respectively passed.

(P.) The Committee is of opinion that there is nothing in the Order in Council inconsistent with the provisions of the Acts relating to the Senate and House of Commons up to that time enacted except as to the holding of the first Election in the Province of Prince Edward Island and that therefore the Act of 1872 (35 Victoria Chapter 15), already cited, relating as it does to the Dominion Parliament was from the time of the admission of the Province of Prince Edward Island in force in that

Province.

(Q.) Section 2 of that Act is in the words following "If any member of a "Provincial Legislature shall notwithstanding his disqualification as in the pre-"ceding section mentioned, receive a majority of votes at any such Election, such " majority of votes shall be thrown away, and it shall be the duty of the Returning "Officer to return the person having the next greatest number of votes provided he be otherwise eligible."

(R.) The Committee is therefore of opinion that the said James E. Robertson, being at the time a member of the House of Assembly of Prince Edward Island in which Province by the Act thereof already referred to (39 Victoria, Chapter 3), it was made illegal for any member of the House of Commons to be elected to, or sit or vote in the House of Assembly, that according to the express terms of the Section of the Act of 1872 herein before set out, that the majority of votes given for the said James E. Robertson at such Election were thrown away and that it was the duty of the Returning Officer to return Augustine Colin MacDonald as the Candidate, he being otherwise eligible, having the next greatest number of votes and therefore that it recommend to The House, that the Return to the Writ of Election be amended accordingly.

(S.) The Committee having arrived at the conclusions already stated, on the Law relating to, and in its opinion governing the questions necessary for determination in discharging the duty imposed on it, finds that it has no discretion, but is

obliged to give effect to the Law as the Committee finds it to be.

On motion of Mr. Bowell, the Evidence, and all documents and papers in connection with the foregoing Report, were referred to the Joint Committee of both Houses on the Printing of Parliament,

Sir Leonard Tilley moved, that Mr. Speaker do now leave the Chair, for The House to go again into Committee on Ways and Means.

At 6 o'clock P.M., Mr. Speaker left the Chair, to resume the same at half-past seven o'clock P.M.

7.30 P.M.

(The Order for Private Bills was called under Rule 19.)

A Message was received from the Senate, agreeing to the following Bills, without amendments, viz.:—

Bill No. 23 further to reduce the Capital Stock of the Quebec Fire Assurance Company;—and

Bill No. 29 to incorporate the Bank of London, in Canada.

The following Bills were severally considered in Committee of the Whole, reported, read a third time, and passed, viz.:—

Bill No. 71 to incorporate the Cumberland Coal and Railway Company; -and

Bill No. 72 to incorporate the Qu'Appelle, Long Lake and Saskatchewan Railroad and Steamboat Company.

The House then resumed the consideration of Sir Leonard Tilley's proposed motion, that Mr. Speaker do now leave the Chair, for the House to go again into Committee on Ways and Means.

And The House having continued to sit after 12 of the clock, midnight;

SATURDAY, 14TH APRIL, 1883.

And the question being put; -it was agreed to.

The House accordingly went again into Committee on Ways and Means.

## No. 48

# VOTES AND PROCEEDINGS, HOUSE OF COMMONS.

# OTTAWA, FRIDAY, 20TH APRIL, 1883.

PRAYERS.

One Petition was brought up, and laid on the Table.

The Petition of Messrs. Verret, Stewart & Co., Merchants, and others, interested in the Herring Trade of Canada,—and of Messrs. J. B. Renaud & Co., Merchants, and others, interested in the Herring Trade of Canada, severally praying that such measures may be taken, as will cause the Act to repeal certain provisions of the General Inspection Act of 1874, to be put into force by Proclamation, were read and received.

Sir Hector Langevin, from the Select Standing Committee on Railways, Canals, and Telegraph Lines, presented the Twelfth Report of the said Committee, reporting the following Bills, with amendments, viz.:—

Bill No. 93 from the Senate, intituled: "An Act respecting the Northern Rail-

way Company of Canada"; -and

Bill No. 76 to amend the Act intituled: "An Act to incorporate the Northern, North-Western and Sault Ste. Marie Railway Company," and to change the name of the said Company, to the "Northern and Pacific Junction Railway Company."

They also beg leave to submit the following recommendations, viz.:-

1st. That Bill No. 38 to incorporate the Rainy River Improvement Company, be withdrawn, and that the fees and charges paid thereon be refunded, less the cost of printing and translation.

2ndly. That with the concurrence of the promoters of the Bill No. 32 to amend "The Consolidated Railway Act, 1879," it is inexpedient to proceed with the measure

in its present shape this Session, and that the said Bill be withdrawn.

3rdly. The following Resolution, That the time for receiving Reports from the Select Standing Committee on Standing Orders, be extended for one week, from this date.

On motion of Mr. Dawson, the said Bill No 38, was withdrawn, and the fees and charges paid thereon, less the cost of printing and translation, were ordered to be refunded, in accordance with the recommendation of the foregoing Report.

Mr. Hackett, from the Select Committee appointed to consider the question of Steam communication between Prince Edward Island and the mainland in winter and summer, presented a Report of the said Committee, which is as follows:—

The Committee beg leave to report as follows:-

When Prince Edward Island was admitted into the Union the following was one of the stipulations on the part of the Dominion Government contained in the terms of Union:

"Efficient steam service for the conveyance of mails and passengers, to be established and maintained between the Island and the Dominion, winter and summer, thus placing the Island in continuous communication with the Inter-

"colonial Railway and the Railway system of the Dominion."

This communication has been maintained, in the summer season, by the Prince Edward Island Steam and Navigation Company between Summerside and Shediac and between Charlottetown and Pictou, calling at Georgetown, and in the winter season, by the steamer Northern Light between Georgetown and Pictou and by ice

boa's between Capes Traverse and Tormentine.

To determine the efficiency of this Service in the past, and how communication may be most regularly and efficiently maintained in the future, the Committee carefully examined the records of the trips made by the Northern Light, during the seasons she has been on the route, also summoned and examined some of the officers in charge, and find that she performed the following number of trips and failed the number of days marked opposite each season:—

		N	Tumber of Round	Trips.	Days Failed.
During	Season	1877-78	31		44
"		1878-79			30
"	"	1879-80	37		44
66	"	1880-81			72
"	"	1881-82		**** ****	. 54

That on an average there were forty-eight days in midwinter she was unable to effect a crossing.

The daily records kept by the Captain of Northern Light and the testimony given by the officers show that the heavy ice encountered was the cause which com-

pelled him to discontinue crossing in midwinter.

The evidence of the officers examined is also to the effect that the steamer is not sufficient to overcome the difficulties of the winter navigation, and although they suggest slight improvements on her model which would better fit her for the purposes for which she was intended, still are unanimously of opinion that no steamship can be built capable of keeping up continuous communication, in mid-winter, between the Island and the mainland.

We examined personally several gentlemen of large practical experience in crossing from the Island, in the winter season, all of whom confirm the above and

whose evidence is hereto appended.

We next directed our attention to the communication between Cape Tormentine on the mainland and Cape Traverse on Prince Edward Island, and we find that this route has been used as a means of communication, in mid-winter, for the last fifty years. The crossing is effected by means of open boats hauled by hand over floating ice. The evidence of those in charge of the service, at that point, goes to show that little improvement has been made in this mode of crossing since it was first attempted. That it has been maintained with a good degree of regularity and with but little loss of life or property, but also that the same is susceptible of great improvement at a comparatively small cost.

In view of these facts and in order best to meet the obligations of the Government of Canada, under the terms of Union, and to meet the requirements of the people of Prince Edward Island, to some extent, your Committee recommend as follows: That the Government adopt Capes Traverse and Tormentine as the points

of communication for mails and passengers; all the evidence showing that the communication during the most severe part of the winter season can only be maintained between those points, and that the Government make the present ice boat service as efficient as possible, and to that end would make the following suggestions:

1st. That instead of being let by contract to private individuals this should be,

in the future, a Government service.

2nd. That a larger number of boats and an increased number of men be employed sufficient to enable daily crossings to be made in both directions whenever crossing is practicable.

3rd. That boat houses be constructed on each side of the Straits for protecting

and repairing the boats and for accommodating the men.

4th. That stations for observation and signal service be adopted for the guidance of the boats while crossing.

5th. That good sized row boats be provided to assist or relieve the ice boats in

open water stretches.

6th. Your Committee are also of opinion, from the evidence before them, that a small screw steamer could be used during a considerable portion of the winter in connection with the ice boats and could be safely docked in the board ice when not at work, and recommend the Government to take measures to test by actual experiment the feasibility of this project.

7th. In reference to the summer communication your Committee further recommend that in connection with the Railway to Cape Traverse and the branch now in course of construction on the mainland, piers should be constructed at both Capes and a steam ferry established for the conveyance of the mails and passengers in the summer season in accordance with the Report of Mr. McLeod, Civil Engineer.

The Committee find that the mail contract is in the hands of the Prince Edward Island Steam Navigation Company subsidized by the Dominion Government and that the boats employed by them to perform this service carry the principal portion of passengers and freight, and that the boats now in use have now in use have been doing the work with fair success and regularity (with the exception hereinafter referred to) for the last nineteen years.

That one of the boats of this company makes daily trips to and from Ports of Summerside, Prince Edward Island and Point du Chene, in New Brunswick, and the other makes tri-weekly trips from Charlottetown and Pictou, calling occasionally at

Georgetown.

That these boats while they may have been sufficient to meet the requirements of the trade of the country, when first placed upon the routes, are now found altogether inadequate to perform the work required of them. It having been shown to your Committee that the exports of Prince Edward Island have very largely increased within the last decade with every prospect of continuing to increase in the future.

That more than two-thirds of the freight carried by said boats goes viá Summerside and Point du Chene and thence forwarded by the Intercolonial Railway to its

destination.

That the boats of said company, being driven by paddle wheels, are not capable of contending with ice and that suitable screw boats could continue crossing about three weeks later in the fall and commence two or three weeks earlier in the spring.

The Ports of Summerside and Charlottetown from their geographical position and excellent harbours must continue to be the natural and principal outlets for the

trade of the Island.

That after the Harbours of Summerside, Charlottetown and Shediac are closed in the fall and before they open in the spring steamers can ply between Georgetown and Pictou or Cape George for some weeks each season (several witnesses of considerable experience having expressed the opinion that Cape George is more accessible than Pictou during the winter season.)

For the better accommodation of the largely increased freight traffic between the Island and the mainland we further recommend that a sufficient subsidy be granted to a company for the purpose of maintaining communication on the present routes

and that it be stipulated that good substantial boats be provided to run between Shediac and Summerside, Charlottetown and Pictou calling at Georgetown and Souris of sufficient capacity to meet the requirements of increasing trade of the Island.

That at least one of these boats should be a screw boat of such construction as would enable her to run as late in the fall and as early in the spring as a proper

regard for the safety of life and property would permit.

That the service between Georgetown and Pictou at present performed by the Northern Light be continued, and as the evidence before your Committee goes to show that the Northern Light is fast becoming unfit for service we therefore recommend that another suitable steamer be provided to take her place.

In the interests of the people of Prince Elward Island your Committee consider

that the above suggestions should be carried out with the least possible delay.

(For the Evidence accompanying this Report, see Appendix No. 3.)

On motion of Mr. White (Cardwell) it was Resolved, That that part of the Second Report of the Joint Committee of both Houses on the Printing of Parliament, which recommends that "the Report of the Hon. James Cockburn, the Commissioner appointed to collect, examine and classify the Statutes of the Dominion of Canada," be not printed, le referred back to the said Committee, for re-consideration.

On motion of Mr. Abbott, the Petition of the Canadian Pacific Railway Company, presented, this day, was read and received; praying to be permitted to lay before The House their Petition for an Act empowering them to lease the Lines of the Credit Valley Railway Company,—the Ontario and Quebec Railway Company, and part of the Line of the Atlantic and North-West Railway Company, notwithstanding the expiration of the time, for presenting Petitions for Private Bills;—and the said Petition was referred to the Select Standing Committee on Standing Orders.

Sir Charles Tupper presented the following Returns, viz:-

Supplementary Return to an Order of The House of the 15th ult.; for a copy of all correspondence between the Grand Trunk Railway Company of Canada, or any of its officers and the Government of Canada, or any of the Departments or Members of the Government, in reference to the purchase or sale of the Rivière du Loup Branch of the said Railway now owned by the Government of Canada; also, any correspondance shewing the manner in which the said Company have expended or proposed to expend the money so received for the said Rivière du Loup Branch; and also, all correspondence in reference to their expending the said money or any portion thereof, either in purchasing or constructing a Railway or Railways in the United States, either in their own name or by an associated Company, or in any other way, and how much money received for the Rivière du Loup Railway purchase has been so

expended; and also, any and all correspondence shewing whether the Government lien for the debt of £3,111,500 and accrued interest owing by the said Railway attaches upon the said Railway or Railways so purchased or built in the said United States, with the length and cost of the same ;-and

Sir Charles Tupper also laid before The House,—Reports, Railway Statistics of Canada, and Capital traffic and working expenditure, of the Railways of the Dominion, -with a Map shewing the Railways of Canada, to accompany the annual Report on Railway Statistics.

On motion of Mr. McLelan, the House went into Committee of the Whole, to consider a certain proposed Resolution, further to amend the Act 36 Victoria, Chapter 63 respecting the Harbour of Pictou.

(In the Committee.)

The following Resolution was adopted:—

Resolved, That it is expedient further to amend the Act 36 Victoria, Chapter 63, respecting the Harbour of Pictou, by exempting vessels exceeding forty and not exceeding eighty tons register, from the payment of Harbour dues more than twice in any calendar year, whatever may be the number of times of entering the Harbour.

# VOTES AND PROCEEDINGS, HOUSE OF COMMONS.

# OTTAWA, WEDNESDAY, 25TH APRIL, 1883.

PRAYERS.

One Petition was brought up, and laid on the Table.

The following Petitions were read and received :-

Of John B. Chalmers and others, of the County of Restigouche, New Brunswick; of Roderick McLennan and others, of Middle River; and of Angus McIver and others, of Little Narrows, County of Victoria, Nova Scotia; severally praying for the adoption of such measures as will prevent the running of Railway Trains on the Lord's Day.

Of the Anglo-American Telegraph Company (Limited); praying that the Bill to incorporate the Canadian Rapid Telegraph Company (Limited) may not become law, unless their interests are protected, and that they may be heard by counsel against

any violation of their chartered rights and privileges.

Mr. Beaty, from the Select Standing Committee on Standing Orders, presented the Fifteenth Report of the said Committee, informing The House, that they have considered the Petition of the Provisional Directors of the European, American, Canadian, and Asiatic Cable Company (Limited), resident in Canada; praying to be permitted to lay before The House their Petition for the passing of an Act empowering them to change the name of the said Company, notwithstanding the expiration of the time for presenting Petitions for Private Bills, and as the reasons assigned for the delay are satisfactory, they recommend that leave be granted therefor.

Mr. Hall, from the Select Standing Committee on Banking and Commerce, persented the Seventh Report of the said Committee, reporting the Bill No. 112 from the Senate, intituled: "An Act to amend the Act to incorporate the North-Western Bank," with amendments.

They would also recommend that the Bill No. 47 to revive and amend certain Acts respecting "The Union Assurance Company of Canada," and to change the name of the Company to "The Crown Assurance Company of Canada," be withdrawn, and that the fees and charges paid thereon, be re-funded, less the cost of printing and translation.

On motion of Mr. Beaty, the said Bill No. 47 was withdrawn, and the fees and charges paid thereon, ordered to be re-funded, less the cost and charges for printing and translation, in accordance with the recommendation of the foregoing Report.

Mr. Paint, from the Select Committee appointed to take into consideration and report how Interprovincial Trade may be best promoted, the earnings and enlarged traffic of the Intercolonial Railway be further increased by products from Ontario and Quebec, East to the Maritime Provinces and Newfoundland and by returning freight, presented a Report, which is as follows:—

The Committee have had before them persons from various parts of the Dominion conversant with the trade carried on between the several Provinces of Ontario, Quebec, New Brunswick, Nova Scotia, and Prince Edward Island, and having examined them touching the growth of that trade since the Union of the Provinces in 1867, its present position, the opportunities for its enlargement, and the conditions under which its much greater development may fairly be anticipated.

They are gratified in being able to state, that upon all these points the evidence

given appears to them to be important and encouraging.

For example, it is shown that, while in 1866 goods to the value of \$1,200,000 only were imported into the Maritime Provinces from Canada, in 1882 their importations from the Upper Provinces had arisen to \$22,000,000, and although the volume of trade has been largely from the West to the East, yet it is found that the importation of coal from Nova Scotia into Quebec has within a few years past greatly increased, and the trade in herring and codfish from Cape Breton and Nova Scotia has, in the language of one of the witnesses, "developed to very large proportions." "Interprovincial trade," he says, "is growing daily and the feeling between the Provinces is very much better than it was some years ago."

Another states: "As far West as Montreal a very considerable trade is already

Another states: "As far West as Montreal a very considerable trade is already done in fish and in oils and in West India goods and coal." It is, however, felt that this trade has, by no means, reached its just proportion and that much may be

effected in the way of removing impediments and extending its volume.

The witnesses concur that the facilities are not at present what they ought to be. The railway accommodation for traffic, it is alleged, is not adequate to the demand upon it. The merchants and others examined state that the Grand Trunk Railway cannot do the business. One gentleman, it will be seen, states: "We have freight now out about two months from London to Quebec, of which we cannot get any tidings, and there was also quite a large quantity out for a month before I left home. This has been the case all winter. We have now one customer in the Town of Chatham to whom we ship a good deal, and to whom we recently shipped five car loads, and this shipment has failed to reach him, although it has been on the road somewhere for about six weeks."

Another says: "We in Toronto are from 800 to 1,300 miles from Halifax, and in the winter season, more especially this winter, we have found that the delays have been very annoying and it has taken as long as six weeks to get our shipments through to their destination. This is one of the great obstacles to the trade and in the summer it frequently takes thirteen days and sometimes it is done in ten days."

Again: "You have no idea of the annoyances we are subject to. We have exceptionally great difficulty in keeping this trade alive. Recently there were 136 cars of freight in one yard awaiting transfer. The Grand Trunk is not at fault, because all

its rolling stock was employed to its fullest extent."

Another refers to a recent block of coal cars at the Chaudiere Junction, to overcome which the Intercolonial Railway authorities offered to send out their own locomotives, if the Grand Trunk would let them haul the coal over the road to Montreal and get their cars back; and the same gentleman speaks of a letter from a Chicago correspondent, saying that he had been obliged to discontinue the fish trade from Halifax as some of the freight had been forty days in transit from Halifax to Chicago.

To meet these difficulties the chief practical suggestions which have been submitted to Your Committee, beyond the increase of railway accommodation by through competing lines—which must of necessity be a matter of considerable time—are the putting on immediately of a line of propellors to connect the westernmost ports of Lake Ontario with the Intercolonial Railway at Point Levis, and the deepen-

ing, as speedily as possible, of the St. Lawrence Canals to a uniform depth with the Welland Canal. It is claimed that not only would a line of propellors, regularly run in connection with the Intercolonial Railway, afford the requisite relief to traffic, but that it would affect such a reduction in the rate of freight as to divert into our own channels a large amount that goes from Ontario by way of the United States, and to enable the coal of Nova Scotia to be placed in the cities and towns of Ontario at as low a price as that at which it can be imported from the neighbouring Republic; while the other products of the Lower Provinces would also thus reach the market of the Upper in much greater quantities than they now do. It is, however, alleged that with the control which the Railway system is able to exert, no line of propellors could be established without a guarantee of freights for each trip to a specified amount, or a subsidy granted by Government, though it is thought that once fairly established they would continue in after years without it. The better opinion appears to be that ten thousand dollars for six months for each boat put on would be required, though some assert that an efficient line of from three to four boats could be secured for from \$25,000 to \$30,000. With regard to the deepening of the canals, it is strongly contended that this is indispensable for the proper development of the Inter-Provincial trade. A gentleman from Ontario, of large experience affirms, "that the most direct means of increasing the trade with the Lower Provinces would be the enlargement of the St. Lawrence Canals, at the earliest possible period, to a uniform size of the Welland Canal in size of lock and depth of water, so that large vessels could pass Vessels carrying large cargoes would have a tendency to cheapen through them. the rate of freight. They could go to the Lower Provinces, discharge their cargoes, and take in return cargoes of coal, and carry it up at a low rate of treight, say \$1 to \$1.25 per ton. They could also take fish and what other goods they could get. In this way coal could be probably laid down in Western Ontario at a less cost than the American coal, and it would consequently go largely into consumption throughout Ontario."

Another resident in Cape Breton, interested in its mining enterprises, declares: "Were the canal enlargement completed we could send over a million tons of coal into Ontario. Once enlarged the grain trade must flow to Montreal, our coal to the

West, freight will be reduced, and Canada will supply her own demands."

The Committee have deemed it to be their duty to thus advert to the facts and opinions which have been elicited in the course of their inquiry, and they now beg leave to present herewith the evidence and statements in detail as given before them for the consideration of The House.

(For the evidence, accompanying this Report, see Appendix No. 4.)

On motion of Mr. Colby, the Petition of the Provisional Directors of the European, American, Canadian, and Asiatic Cable Company (Limited); presented this day, was read and received; praying for the passing of an Act empowering them, to change the name of the said Company to that of "The American, British and Continental Cable Company (Limited)."

Sir Hector Langevin introduced a Bill No. 116 further to a nend the Act respecting the incorporation of a Company, to establish a Marine Telegraph between the Pacific Coast of Canada and Asia; which was read the first time, and ordered for a second reading, to-morrow.

On motion of Sir Leonard Tilley, The House went into Committee of the Whole, to consider a certain proposed Resolution respecting the Acts relating to the Superannuation of persons employed in the Civil Service of Canada; and to amend the same.

(In the Committee.)

The following Resolution was adopted:-

Resolved, That it is expedient to amend the Acts relating to the Superannuation of persons employed in the Civil Service of Canada, by providing that—

(a.) The Governor in Council may grant to any person having served in an established capacity in the Civil Service for ten years or upwards, and having attained the age of sixty years, or being incapacitated by bodily infirmity from properly performing his duties, a superannuation allowance, calculated on his average yearly salary during the then last three years, and not exceeding the following rates that is to say:—If he has served for ten years, but less than eleven years, an allowance of ten-fiftieths of such average salary, and if for eleven years and under twelve years an annual allowance of eleven-fiftieths thereof, and in like manner a further addition of one-fiftieth of such average salary for each additional year of service up to thirty-five years, when an annual allowance of thirty-five fiftieths may be granted, but no addition shall be made for any service beyond thirty-five years; if the service has not been continuous, the period or periods during which such service has been interrupted shall not be counted, and the Order in Council made in such case shall be laid before Parliament at its then or then next session.

(b.) The Governor in Council may, in the case of any person who entered the Civil Service after the age of thirty years, as being possessed of some peculiar professional or other qualifications or attainments required for the office to which he was appointed, and not ordinarily to be acquired in the public service, add to the actual number of years service of such person, such further number not exceeding ten, as may be considered equitable, for reasons stated in the Order of Council made in the case; and such additional number of years shall be taken as part of term of service on which the superannuation allowance of such person shall be computed, the Order in Council in any such case being laid before Parliament, at its then or then next

Session.

(c.) Towards making good the superannuation allowances hereinbefore mentioned, an abatement shall be made from the salary of each person in the Civil Service to whom this Act applies, at the rate of two per centum per annum on such salary, if it be six hundred dollars or upwards, and of one and a quarter per centum per annum thereon, if it be less than six hundred dollars, and the sum so deducted shall form part of the Consolidated Revenue Fund, but such abatement shall be made

only during the first thirty-five years of service.

(d.) The full superannuation allowance as aforesaid shall only be granted to persons who have been subject to the said abatement during ten years or upwards; the superannuation allowance of any person who has not paid it, or has paid it for a less period, being subject to a diminution of one per centum for every year less than ten during which he has not paid it, except that the superannuation allowance of any person hereafter retiring, shall not be subject to any such diminution by reason of his not having paid the abatement hereinbefore mentioned, during any year or

years after his first thirty-five years of service.

(e.) Retirement shall be compulsory on any person to whom the superannuation allowance hereinbefore mentioned shall be offered, and such offer shall not be considered as implying any censure upon the person to whom it is made; nor shall any person be considered as having any absolute right to such allowance, but it shall be granted only in consideration of good and faithful service during the time upon which it is calculated, and nothing herein contained shall be understood as impairing or affecting the right of the Governor to dismiss or remove any person from the Civil Service.

(f.) If the Head of a Department reports with respect to any person employed in his Department, and about to be superannuated, from any cause other than that of ill-health or age, that the service of such person has not been satisfactory, the Governor in Council may grant such person a superannuation allowance being less than that to which he would have otherwise been entitled, as to him may seem fit.

(g.) If any person to whom this Act applies, is constrained from any infirmity of mind or body to quit the Civil Service before the period at which a superannuation allowance might be granted him, the Governor in Council may allow him a gratuity not exceeding one month's pay for each year of his service; and if any such person is so constrained to quit the service before such period, by reason of

severe bodily injury received without his own fault in the discharge of his public duty, the Governor in Council may allow him a gratuity not exceeding three months' pay for every two years' service, or a superannuation allowance not exceeding one-

fifth of his average salary during the then last three years.

(h.) If any person to whom this Act applies is removed from office in consequence of the abolition thereof, in order to the improvement of the organization of the department to which he belongs or is removed or retired from office to promote efficiency or economy in the Civil Service, the Governor in Council may grant him such gratuity or superannuation allowance as will fairly compensate him for his loss of office, not exceeding such as he would have been entitled to if he had retired in consequence of permanent infirmity of body or mind, after adding ten years to his actual term of service.

(i.) The allowances and gratuities granted under this Act, shall be payable out

of the Consolidated Revenue Fund of Canada.

(k.) All superannuation allowances fixed and granted under the Acts bereby repealed are confirmed.

Resolution to be reported.

Report to be received, to-morrow.

A Mes age was received from the Senate, agreeing to the Bill No. 28 to continue an Act to incorporate sundy persons by the name of the President, Directors and Company of the Farmers' Bank of Rustico, with amendments.

Mr. Blanchet moved, that the Report of the Select Standing Committee on Privileges and Elections, respecting the last Election for the Electoral District of

King's County, Prince Edward Island, be now concurred in.

Mr. Weldon moved in amendment thereto, that all the words, after the word "that" in the said motion, be left out, and the following inserted instead thereof:— "in view of the provisions of the Dominion Elections Act 1874, and the duties of the Returning Officer, as therein defined, and also in view of the fact, elicited from the evidence produced before the Select Standing Committee on Privileges and Elections, now before The House,—it was the duty of the Returning Officer at the last Election for the Electoral District of King's County, Prince Edward Island, to declare and return James Edwin Robertson, as one of the Members elected at the said Election."

And a Debate arising thereon;—at 6 o'clock P.M., Mr. Speaker left the Chair, to resume the same at half-past seven o'clock, P.M.

7.30 P.M.

# (The Order for Private Bills was called under Rule 19.)

The Order of the Day, for The House to go into Committee of the Whole on the Bill No. 93 from the Senate, intituled: "An Act respecting the Northern Railway Company of Canada," was discharged and the said Bill referred back to the Select Standing Committee on Railways, Canats, and Telegraph Lines, for further consideration.

The Bill No. 113 to author ze the Grand Trunk Railway Company of Canada to extend their traffic arrangement with the North Shore Railway Company to fifty years from the date thereof, was considered in Committee of the Whole, reported, and ordered for a third reading, on Monday next.

The amendments made by the Senate to the Bill No. 49 to incorporate the Dominion Phosphate and Mining Company, were on motion of Mr. Cameron (Victoria, Ont.) taken into consideration, and concurred in.

The House then resumed the Debate on the proposed motion in amendment to the motion for the concurrence in the Report of the Committee of Privileges and Elections, in the matter of the King's County, P. E. I., last Election.

Mr. Cameron (Huron) moved in amendment to the proposed amendment, "that a difference of opinion exists in the Select Standing Committee of Privileges and Elections, and exists also in this House, as to the effect of the provisions of the Statutes bearing on the Election for King's County, in the Island of Prince Edward.

That the spirit of recent legislation has been to refer questions affecting

Elections to the Judgment of the Courts.

That the Supreme Court is the Court of last resort in Election cases,—that the Supreme Court Act provides that any matter whatever may be referred to the Supreme Court for hearing and consideration by the Governor in Council, and that the Court shall thereupon hear and consider the same, and certify their opinion thereon.

That in the opinion of this House it is desirable, that before a division is reached by this House on the subject, steps should be taken to obtain the opinion of the Supreme Court on the questions, whether under the Law regulating the holding the Election, James E. Robertson was on the 13th June, 1882, disqualified to be elected a Member of the House of Commons for the Electoral District of King's County, P. E. I.;—and 2nd whether under the Law the said James E. Robertson, or the said Augustine C. McDonald should have been declared elected and returned as Member for the said Electoral District in the present Parliament by the Returning Officer, or whether the said Election was null and void.

And The House having continued to sit after 12 of the clock, midnight;

THURSDAY, 26TH APRIL, 1883.

And the question being put on the amendment to the said proposed amendment; —it was negatived on the following division:—

On motion of Sir Leonard Tilley, the amendments made by the Senate to the Bill No. 46 further to amend an Act intituled: "An Act relating to Banks and Banking," and the several Acts amending the same, were taken into consideration, and concurred in.

The Bill No. 104 further to amend "The General Inspection Act, 1874," was read the second time, considered in Committee of the Whole, reported, and ordered for a third reading, to-morrow.

The House resumed the adjourned Debate on the proposed motion of Mr. Caron, that the Bill No. 31 to consolidate and amend the Laws respecting the Militia of Canada, as amended in Committee of the Whole, be now taken into consideration,—and of Mr. Ross' (Middlesex) motion in amendment thereto,—and which motion was, that the said Bill be re-committed to a Committee of the Whole, in order to amend the same, by inserting after the word Army in line 2, Section 64, the following words:—"but nothing in the said Regulations and Orders, so far as they relate to the establishment of Canteens, shall render lawful the sale of beer or malt liquors of any kind whatever."

And the Debate continuing,—the said motion was with leave of The House,

withdrawn.

The said Bill was then considered, as amended, and agreed to.

Mr. Caron moved that the Bill be now read a third time.

Mr. Ross (Middlesex) moved in amendment thereto, that the said Bill be not now read a third time, but that it be Resolved,—That by Clause 21 of the said Bill it is proposed to authorize the enlistment for continuous service, in addition to the existing Batteries "A" and "B," of a third Battery of Artillery, a Troop of Cavalry, and three Companies of Infantry, which will involve an increased permanent charge upon the Revenue of over \$200,000, in connection with the Militia,—That in the opinion of this House, if any increase in the charge for the Militia is to be made, the efficiency

of the Force and the public good would be promoted by better provision for the training of the Active Militia, than by the proposed enlistment of a Battery of Artillery, a Troop of Cavalry and three Companies of Intantry,—and that the said Bill be referred back to a Committee of the Whole in order to amend the same, by omitting the provisions for the said proposed enlistment; -which was negatived on the following division :-

## ERRATA.

In the Votes and Proceedings of yesterday, page 372, the word division, in paragraph 4, was erroneously inserted; it should have been decision.

The correct motion should read, as follows:-

Mr. Cameron (Huron) moved in amendment to the proposed amendment, "that a difference of opinion exists in the Select Standing Committee of Privileges and Elections, and exists also in this House, as to the effect of the provisions of the Statutes bearing on the Election for King's County, in the Island of Prince Edward.

That the spirit of recent legislation has been to refer questions affecting

Elections to the Judgment of the Courts.

That the Supreme Court is the Court of last resort in Election cases,—that the Supreme Court Act provides that any matter whatever may be referred to the Supreme Court for hearing and consideration by the Governor in Council, and that the Court shall thereupon hear and consider the same, and certify their opinion

thereon.

That in the opinion of this House it is desirable, that before a decision is reached by this House on the subject, steps should be taken to obtain the opinion of the Supreme Court on the questions, whether under the Law regulating the holding the Election, James E. Robertson was on the 13th June, 1882, disqualified to be elected a Member of the House of Commons for the Electoral District of King's County, P.E.I.;—and 2nd whether under the Law the said James E. Robertson, or the said Augustine C. McDonald should have been declared elected and returned as Member for the said Electoral District in the present Parliament by the Returning Officer, or whether the said Election was null and void.

And on the same page (372), the name of Mr. Robertson (Hamilton) amongst the "Yeas" was erroneously inserted, instead of Mr. Robertson (Shelburne), in the division

taken on the above amendment.

The Bill No. 104 further to amend "The General Inspection Act, 1874," was read a third time, and passed.

The Resolution adopted in Committee of the Whole on the 25th instant, respecting the Acts relating to Superannuation of persons employed in the Civil Service of Canada, and to amend the same, was reported, read a second time, and concurred in, and is as follows:—

Resolved, That it is expedient to amend the Acts relating to the Superannuation

of persons employed in the Civil Service of Canada, by providing that-

(a.) The Governor in Council may grant to any person having served in an established capacity in the Civil Service for ten years or upwards, and having attained the age of sixty years, or being incapacitated by bodily infirmity from properly performing his duties, a superannuation allowance, calculated on his average yearly salary during the then last three years, and not exceeding the following rates, that is to say:—If he has served for ten years, but less than eleven years, an allowance of ten-fiftieths of such average salary, and if for eleven years and under twelve years an annual allowance of eleven-fiftieths thereof, and in like manner a further addition of one-fiftieth of such average salary for each additional year of service up to thirty-five years, when an annual allowance of thirty-five fiftieths may be granted, but no-addition shall be made for any service beyond thirty-five years; if the service has not been continuous, the period or periods during which such service has been interrupted shall not be counted, and the Order in Council made in such case shall be laid before Parliament at its then or then next session.

(b.) The Governor in Council may, in the case of any person who entered the Civil Service after the age of thirty years, as being possessed of some peculiar professional or other qualifications or attainments required for the office to which he was appointed, and not ordinarily to be acquired in the public service, add to the actual number of years service of such person, such further number not exceeding ten, as may be considered equitable, for reasons stated in the Order of Council made in the case; and such additional number of years shall be taken as part of term of service on which the superannuation allowance of such person shall be computed, the Order in Council in any such case being laid before Parliament, at its then or then next

Session.

(c) Towards making good the superannuation allowances hereinbefore mentioned, an abatement shall be made from the salary of each person in the Civil Service to whom this Act applies, at the rate of two per centum per annum on such salary, if it be six hundred collars or upwards, and of one and a quarter per centum per annum thereon, if it be less than six hundred dollars, and the sum so deducted shall form part of the Consolidated Revenue Fund, but such abatement shall be made only during the first thirty-five years of service.

(d.) The full superannuation allowance as aforesaid shall only be granted to persons who have been subject to the said abatement during ten years or upwards; the superannuation allowance of any person who has not paid it, or has paid it for a less period, being subject to a diminution of one per centum for every year less than ten during which he has not paid it, except that the superannuation allowance of

any person hereafter retiring, shall not be subject to any such diminution by reason of his not having paid the abatement hereinbefore mentioned, during any year or

years after his first thirty-five years of service.

(e.) ### PRAYERS

The Petition of the Canadian Women's Suffrage Association, praying that in the Bill now before Parliament respecting the Electoral Franchise, it may be provided, that all women, as well as all men, possessing the proper qualification, shall be entitled to vote, was read and received.

Mr. White (Cardwell), from the Select Committee appointed to supervise the Official Reports of the Debates of this House during the present Session, presented the Fifth Report of the said Committee, which is as follows:-

The Committee would recommend:

1st. That Mr. John A. Lumsden, a Member of the Official Reporting Staff, havin. sent in his resignation, the same be accepted; and that Mr. T. J. Richardson be appointed in his stead, and paid at the same rate as the other Members of the Reporting Staff, -said resignation and appointment to take effect at the close of the present Session.

2nd. That six Caligraphs be purchased for the use of The House, in connection with the Official Reporting, in accordance with the suggestions contained in the following Memorandum from the Chief Reporter:

### Memorandum.

I beg to suggest that six Caligraphs be purchased by the Debates Committee for the use of the Official Reporters of The House.

The machines will of course remain the property of The House as is the case with the writing machines supplied by the Ontario Courts to their Official Reporters. The advantages to be derived from the use of Caligraphs, are speed in getting

out "takes" and excellence of "copy."

A ten minute take of a rapid Reporter can be got out in about 30 minutes by an expert Caligraph Operator. A regular amanuensis will only occasionally get through in 50 minutes the regular interval between the "takes."

Machines therefore facilitate the sending of copy promptly to printers.

A Reporter having an operator working Caligraph, would be able to revise his "takes." With an ordinary amanuensis, revision is impossible, and is not made in practice. In the event of machines being supplied the Chief Reporter should be instructed to see that each Reporter revises his "takes." The cost of six machines would be \$400 (no duty being charged). As they would do service for five years at least the outlay would be equivalent to an annual charge of \$80.

No change would be necessary in the present amanuensis system, machine

Operators taking the place of long-hand writers.

Caligraphs are now being used by Mr. Eyvil and myself, with most satisfactory results.

G. B. BRADLEY,

Chief Reporter.

Sir John A. Macdonald laid before The House the following Mining Regulations:

### MINING REGULATIONS.

Department of the Interior, Dominion Lands, Ottawa, 19th April, 1883.

Regulations to govern the disposal of Mineral Lands other than Coal Lands.

1. These regulations shall be applicable to all Dominion Lands containing mines of gold, silver, cinnabar, lead, tin, copper, iron, or other mineral deposit of economic value, with the exception of coal.

2. Any person may explore vacant Dominion Lands not appropriated or reserved by Government for other purposes, and search therein, either by surface or subterranean prospecting, for mineral deposits, with a view to obtain under these regulations a mining location for the same.

3. A location for mining, excepting for iron, shall not exceed twenty acres in area. Its surface boundaries shall be straight lines not more than four in number. Its

length shall not be more than three times its breadth.

Its boundaries beneath the surface shall be the vertical planes in which its surface boundaries lie.

4. Any person having discovered a mineral deposit, and desiring to be protected in his claim to acquire a mining location, under these regulations, in order that he may work the same, shall, to entitle him to such protection, proceed as follows:

He shall mark the location on the ground by placing at its four corners wooden posts, not less than four inches square, driven not less than eighteen inches into the ground, and showing that length above it. If

the ground be too recky to admit of so driving the posts into it, he shall build about each of them to support it and keep it in place, a cairn or mound of stones, at least three feet in diameter at the base, and eighteen inches high. On the most north-easterly post he must mark with a cutting instrument, or with red chalk, his name in full, the date of such marking, and the letters ML. 1., to indicate that the post is a Mining Location post No. 1. Proceeding next to the most south-easterly post it shall be marked ML. 2, and with his initials. Next, the most south-westerly post shall be marked ML 3, and with his initials; and lastly the most north-westerly post with his initials and the letters ML 4. Furthermore, on one of the faces of each post, which face shall in the planting thereof be turned toward the post which next follows it in the order in which they are here named and numbered, there shall be marked in figures the number of yards distance to such next following post. If means of measurement are not available, the distances to be so marked on each of the posts may be those estimated.

(In this manner any subsequent prospector, informed of these regulations will,, on meeting any one of the posts, be enabled to follow them all round, from one to another, and avoid encroachment either in search or in marking out another location

in the vicinity for himself.)

5. Having so marked out on the ground the location he desires, the claimant shall next, within sixty days thereafter, fyle with the local agent in the Dominion Land Office for the district in which the location is situate, a declaration on oath according to form A in the schedule to these Regulations (which may be sworn to before the said agent, or may have been previously sworn to before a Justice of the Peace or Commissioner) setting forth the circumstances of his discovery, and describing, as nearly as may be, the locality and dimensions of the claim marked out by him as aforesaid; and shall, along with such declaration, deposit with the Agent the sum of fifty dollars to the end and for the purpose set forth in the second clause hereafter.

6. The Agent shall give him a receipt, according to form B in the schedule to these Regulations, for such deposit. This receipt shall authorize the applicant, his legal representatives or assigns, to enter into possession of the location applied for, and during the term of one year from its date and subject to the royalty prescribed in clause 19 of these Regulations, to take therefrom and dispose of any mineral deposit

contained within its boundaries.

7. The deposit of fifty dollars shall be paid into the Receiver General by the Land Agent, along with and in like manner as other revenue from Dominion Lands in his district, and in the event of the mining applicant fulfilling all the conditions prescribed by these Regulations, the said deposit shall be deemed payment by him

to the Government for the survey of his location.

8. At any time before the expiry of one year from the date of his making his application and deposit as aforesaid, it shall be open to the applicant to purchase the location on fyling with the Local Agent proof that he has expended not less than five hundred dollars in *bona fide* mining operations on the same, such proof to consist of his own sworn statement setting forth in detail the nature of such operations and the amount expended, and to be accompanied and confirmed by the affidavits of

two disinterested persons.

9. Should the applicant, or his legal representatives as aforesaid, fail to prove within one year, the expenditure prescribed, or having proved such expenditure, fail within that time to pay in full, and in cash, to the Local Agent, the price hereinafter fixed for such mining location, then any right on the part of the applicant or of his legal representatives in the location, or claim on his or their part to acquire it, shall lapse; and the location shall thereupon revert to the Government and shall be held along with any immovable improvements thereon for disposal, under these regulations, to any other person, or as the Minister of the Interior may direct, and the deposit paid by the applicant shall be forfeited to the Crown.

10. The price to be paid for a mining location shall be at the rate of twenty-five

dollars per acre.

11. If, on account of its remoteness or other cause, a mining location cannot, at the time of the payment of the deposit of fifty dollars by the applicant for the purpose, be surveyed by the Government for that sum, he shall be subject to the alternative of waiting until the employment of a surveyor by the Government on other work in the vicinity of the claim renders it possible to have the survey made at a cost not exceeding fifty dollars, or of sooner procuring at his own cost its survey by a duly commissioned surveyor of Dominion Lands, under instructions from the Surveyor General; in the latter case, on receipt of the plans and field-notes of the survey and approval thereof by the Surveyor General, the claimant shall be credited on account of royalty due, or to become due, with the fifty dollars deposited by him to defray cost of survey.

12. Where two or more persons lay claim to the same mining location the right to acquire it shall be in him who can prove he was the first to discover the mineral deposit involved, and to take possession by demarcation, in the manner prescribed in

these regulations, of the location covering it.

13. Priority of discovery alone shall not give the right to acquire; but a person subsequently and independently discovering, who has complied with the other conditions prescribed in these regulations, shall take precedence of the first discoverer if the latter has failed to comply with the said other conditions. Provided, however, that in any case where it is proved that a claimant has in bad faith used the prior discovery of another and traudulently affirms that he made independent discovery and demarcation, he shall, apart from any other legal consequences, have no claim, and shall forfeit the deposit made with his application.

14. Not more than one mining location shall be granted to any individual

applicant.

15. The Minister of the Interior may grant a location for the mining of iron not exceeding 160 acres in area. Provided that should any person making an application purporting to be for the purpose of mining iron, and thus obtain, whether in good faith or fraudulently, possession of a valuable mineral deposit other than iron, his right in such deposit shall be restricted to the area hereinbefore prescribed for other minerals, and the rest of the location shall thereupon revert to the government for such disposition as the Minister of the Interior may direct.

16. When there are two or more applicants for any mining location, no one of whom is the original disocverer, nor his assignce, the Minister of the Interior, if he sees fit to dispose of the location, shall invite their competitive tender, or shall put it

up to public tender, or auction, as he may deemexpedient.

17. An assignment of the right of an original discoverer to purchase a mining location shall be endorsed on the back of the receipt or certificate of assignment, (Forms B and C, in the schedule hereto,) and the execution thereof shall be attested by two disinterested witnesses; upon the deposit of the receipt or certificate with such assignment executed and attested as herein provided, in the office of the Local Agent, accompanied by a registration fee of two dollars, the Local Agent shall give to the assignee a receipt in the Form C in the schedule hereto, which certificate shall entitle the assignee to all the rights and privileges of the original discoverer in respect of the claim assigned; and the said assignment, with the registration fee of two dollars, shall be forwarded to the Minister of the Interior by the Local Agent, at the same time and in like manner as his other returns respecting Dominion Lands, and shall be registered in the Department of the Interior; and no assignment of the right of an original discoverer to purchase a mining location which is not unconditional and in all respects in accordance with the provisions of this clause, and accompanied by the registration fee herein provided for, shall be recognised by the Local Agent or registered in the Department of the Interior.

18. If application be made under the next preceding clause, by the assignee of an original discoverer, to purchase a mining location, and such claim is duly recognized and registered, as hereinbefore provided, such assignee shall, by complying with all the provisions of clause 8, become entitled to purchase the location for the price

and on the terms prescribed in these regulations, whether or not his assignor may have previously acquired a mining location under them.

19. The patent for a mining location shall reserve to the Crown, for ever, a royalty of five per cent. on the sales of the products of all mines therein; and also on

the sales of any timber or wood that may be on the location.

20. Returns shall be made by the grantee sworn to by him, or by his agent or other employee in charge of the mine, at monthly or such other intervals as may be required by the Minister of the Interior, of all products of his mining location

and of the price or amount he received for the same.

21. The Minister of the Interior may direct mining locations to be laid out wherever, from report of the Director of the Geological Survey or from other information, he has reason to believe there are mineral deposits of economic value, and may sell the same to applicants therefor, who, in his opinion, are able and intend in good faith to work the same; or he may from time to time cause the said locations to be sold by public auction or tender. Such sales shall be for cash, and at prices in no case lower than those prescribed for locations sold to original discoverers, and shall otherwise be subject to all the provisions of these regulations.

> LINDSAY RUSSELL, Deputy of the Minister of the Interior.

PRAYERS.

The following Petitions were read and received:-

Of John Catheart Hutchison of the City of Toronto; praying that the Minister of Justice be desired to communicate his final decision in the matter of the Escheated

Estate of the late John Hutchison of Ramsay.

Of Isabella Murray and others, of the Province of Ontario; praying that no licenses be granted to persons to sell intoxicating liquors in connection with groceries, or other merchandise; that the sale of liquors to minors be prohibited; that licenses be refused to keepers of so-called Hotels that have not the full legal requirements for the accommodation of travellers; that the number of licenses be limited further than by the existing Provincial Laws; and that higher penalties for the violation of the law be enacted.

Sir Charles Tupper presented,—Return to an Order of The House of the 30th ult.; for a copy of the award of arbitrator on claim for damages put in by the contractor for the Grenville and Carillon Canal, under contract in force in 1871-72,—with statement of sums paid thereunder.

Sir Charles Tupper introduced Bill No. 127 to further amend the Consolidated Railway Act, 1879, and to declare certain lines of Railway to be works for the general advantage of Canada; which was read the first time, and ordered for a second reading, to-morrow.

The House went again into Committee of Supply.

(In the Committees)

The following Resolution was adopted:-

### XXV.—GEOLOGICAL SURVEY.

175 Geological Survey...... 60,000 00

At 6 o'clock P.M., Mr. Speaker took the Chair, and left it, to resume the same at half-past seven o'clock, P.M.

7.30 P.M.

(The Order for Private Bills was called under Rule 19.)

The Bill No. 93 from the Senate, intituled: "An Act respecting the Northern Railway Company of Canada," was considered in Committee of the Whole, amended, reported, considered as amended, agreed to, read a third time, and passed.

The Bill No. 120 from the Senate, intituled: "An Act to incorporate "The Canadian Rapid Telegraph Company (Limited)," was considered in Committee of the Whole, amended, reported, considered as amended, agreed to, read a third time, and passed.

The amendments made by the Senate to the Bill No. 50 to amend an Act respecting the Credit Valley Railway Company, were read a second time.

Mr. Blake moved, that this House doth disagree in the amendments, Clauses C

and D, for the following reasons:-

"Because having regard to the facts,-

1st. That the Credit Valley Railway Company is a Provincial Company, incorperated by the Ontario Legislature;

2nd. That it has received from Ontario Municipalities aid to the amount of

\$1,165,000, on various conditions;

3rd. That it has received from the Local Legislature aid to the amount of

\$457,500;
4th. That this aid has been given on conditions that the Local Government may require the Company to enter into agreements to be settled by the Local Government for running powers, or user, or haulage arrangements, by other Companies over its road; and upon conditions for the giving of Returns and information to the Local Government; and upon conditions as to the retention of its rails;

5th. That the Company is now subject to the control of the Local Legislature.

and that its rates and tolls are regulated under Local Laws;

6th. That the conditions under which the Municipal grants have been given, can

now be enforced by the Local Legislature;

7th. That it is within the competence of the Local Legislature to authorize the lease of the Railway to the Canadian Pacific Railway Company on such conditions, as it deems just;

8th. That no application has been made for that purpose to the Local Legislature:

9th. That no notice has been given of any intention to apply to the Parliament

of Canada for the legislation contained in the amendment;

10th. That no Petition has been presented, praying for the amendment, it is not expedient that legislation which will have the effect of withdrawing the Railway from Provincial jurisdiction, and of vesting in the Parliament of Canada its exclusive control should be passed, without the notice required by the Standing Orders of The House, or any notice or Petition whatever, and without giving the parties concerned any opportunity of being heard on the question;"—which was negatived on a division.

Mr. Cameron (Victoria, Ont.) then moved, that the said amendments be amended, as follows:--

6. If at any time hereafter the Credit Valley Railway Company shall enter into any agreement for amalgamation or leasing, or into any pooling arrangement with the Grand Trunk Railway Company, or into any agreement for the joint use of their respective Railways, either directly, or through any Company leasing or controlling its line, then the powers conferred by sections 3 and 4 of this Act shall cease, and determine; "-which was agreed to.

The amendments, as amended, were then concurred in.

The amendments made by the Senate to the Bill No. 43 to amend an Act to incorporate the Missionary Society of the Wesleyan Methodist Church in Canada, were read a second time.

On motion of Mr. McCarthy, the first, third, fourth and fifth of the said amendments, were concurred in ; - and the second of the said amendments was disagreed to,

for the following reason:—"The Parliament of Canada not having jurisdiction in matters of civil right, which belongs to the Legislatures of the Provinces, it ought not to prescribe the terms and conditions in which the conveyances are made to the Society, leaving all Laws in each Province to operate as to such conveyances."

And a Message was ordered to be sent to the Senate, to acquaint their Honours

therewith.

The Committee of Supply then resumed.

The following Resolutions were adopted :-

ing up or execution of the same.

11. The decision of the majority of the electors against the granting of licenses as declared at the poll, shall come into force on the then ensuing license year, beginning on the first day of May, and such prohibition shall continue in full force for such year and any future year until repealed.

Mr. McCarthy moved in amendment thereto, that the Bill be re-committed to a Committee of the Whole, in order to amend the Bill, as follows:—That all the words in section 39 after the words "at their discretion" in line 34 down to the words "and such License" in line 37 be expunged, and that a new Clause be inserted as follows:—

"On the trial of any information or complaint against the provisions of this Act, the person charged, or husband of such person shall be competent and compellable to give evidence as a witness in the said matter;—"That the following changes be made in section 46: "The word "Parliamentary" shall be expunged wherever it occurs; the words "or Chairman" "and registered" shall be expunged in subsection 2; the words "Chief Inspector" shall be substituted for the words "License Inspector." The word "five" shall be substituted for the word "four" wherever it occurs in section 46;—as to the hours named for polling and voting days the word "qualified" shall be expunged in sub-section 5;—which was agreed to.

The Bill was accordingly re-committed to a Committee of the Whole, further

amended, reported, considered as amended, and agreed to.

And the question being again put,—that the Bill be now read a third time;

Mr. Foster moved in amendment thereto, that the Bill be re-committed to a Committee of the Whole, to amend section 74 by expunging the words "to be con-

sumed on the premises," and by adding to section 82, the following:

When any Inspector, policeman, constable or officer in making or attempting to make any search under or in pursuance of the authority conferred by section 81 of this Act, or under the warrant mentioned in the last named section, finds in an unlicensed house or place, any liquor which in his opinion is unlawfully kept for sale or disposal contrary to the said Act, he may forthwith seize and remove the same, and the vessels in which the same is kept, and upon the conviction of the occupant of such house or place, or of any other person, for keeping liquor for sale in such

house or place without license, the Magistrate making such conviction, may in and by the said conviction, or by a separate or subsequent order, declare the said liquor and vessels, or any part thereof, to be forfeited to Her Majesty, and may order and direct that the said Inspector, policeman, constable or officer shall destroy the same or any part thereof, and the Inspector or other person as aforesaid shall thereupon forthwith destroy the same or part thereof as directed by such conviction or order;—which was agreed to.

The Bill was accordingly recommitted to a Committee of the Whole, further

amended, reported, considered as amended, and agreed to.

And the question being again put,—that the Bill be now read a third time;
Mr. Gigault moved in amendment thereto, that the Bill be re-committed to a
Committee of the Whole, to amend the same by adding to section 7, as sub-section (e)
the following:—"The Board may in granting a License to an Hotelkeeper, authorize
him to sell Liquors in quantities exceeding one Imperial quart, and not exceeding
one Imperial gallen, at any one time to any one person, said quantities not to be consumed on the premises;—which was negatived.

Mr. Fleming then moved in amendment, to leave out all the words after the word "that" in the said motion, and to insert the following instead thereof:—"The Provincial Legislatures have since Confederation exercised Legislative powers in the regulation of the issue of Licenses for the sale of Intoxicating Liquors, and the hours

and certain other incidents of the sale.

That the Appeal Courts of Ontario and Quebee have each decided in favor of the exercise by the Provinces of the Dominion of the Jurisdiction, and this Appeal Court of Quebec has further determined that the Judgment of the Privy Council in Russell and The Queen does not decide that the Provincial Legislatures have not this Jurisdiction.

That the questions involved are now under the consideration of the Supreme Court of Canada, and will shortly be brought under the consideration of the Privy Council.

That the Parliament of Canada should not assume Jurisdiction as proposed by the said Bill until the question has been settled by the Court of last resort;"—which was negatived on the following division:—

Mr. Robertson (Shelburne) then moved in amendment, to leave out all the words after the word "that" in the said motion, and to insert the following instead

"The general understanding since Confederation has been that under the Constitutional Act the Provinces have jurisdiction over the regulation and restriction of the issue of licenses for the sale of intoxicating liquors, the hours of sale, and certain other incidents of the business.

That the local character of the questions, and the use of the local machinery and institutions in dealing therewith show that the public interest will be best

served by the continuance of Provincial jurisdiction over these matters.

That a question as to such jurisdiction having been raised in the Gracious Speech from the Throne, the action of this House should be in the direction of procuring the removal of doubts by the establishment of the Provincial jurisdiction, instead of assuming jurisdiction as proposed by the said Bill; "—which was negatived on the same division, as the last.

A Message was received from the Senate, with the following Bill No. 144 of their own, intituled: "An Act to amend an Act of the present Session respecting booms and other works constructed in navigable waters, whether under the authority of Provincial Acts, or otherwise," to which the concurrence of this House, was desired.

Fisheries Act, were taken into consideration.

On motion of Mr. Bowell, the 2nd and 3rd of the said amendments were concurred in, and the first of the said amendments was disagreed to, for the reason that the taking out of Licenses is not compulsory on riparians, or special grantees of the French Crown, whose interests would be protected under the Fishery Laws, as holders of such Licenses; - and a Message was ordered to be sent to the Senate to acquaint their Honours therewith.

PRAYERS.

On motion of Sir John A. Macdonald, it was Resolved,-That an humble Address be presented to His Excellency the Governor General, expressing the desire of this House, on behalf of those whom we represent as well as on our own, to give expression to the general feeling of regret with which the Country has learned that His Excellency's official connection with Canada is soon about to cease; and that we are however happy to believe that in the Councils of the Empire in the future, and wherever opportunity enables him to render her service, Canada will find in His Excellency a steadfast friend with knowledge of her wants and aspirations and an earnest desire to forward her interests; and that His Excellency's zealous endeavours to inform himself by personal observation of the character, capabilities, and requirements of every section of the Dominion have been highly appreciated by its people, and that we feel that the Country is under deep obligations to him for his untiring efforts to make its resources widely and favourably known; and that the warm personal interest which His Excellency has taken in everything calculated to stimulate and encourage intellectual energy among us, and to advance science and art, will long be gratefully remembered, and that the success of His Excellency's efforts has fortified us in the belief that a full development of our national life is perfectly consistent with the closest and most loyal connection with the Empire; and that the presence of His Illustrious Consort in Canada seems to have drawn us closer to our beloved Sovereign; and that in saying farewell to His Excellency and to Her Royal Highness, whose kindly and gracious sympathies, manifested upon so many occasions, have endeared her to all our hearts; and that we humbly beg that he will personally convey to Her Majesty the declaration of our loyal attachment, and of our determination to maintain firm and abiding our connection with the Great Empire, over which She rules.

The said Resolution was then referred to a Select Committee, composed of Sir John A. Macdonald, Mr. Blake, Sir Leonard Tilley, Sir Hector Langevin, Sir Charles Tupper, and Messrs. Macdonald (King's, P.E.I.), Vail, Casgrain and Barnard, to draft an Address to His Excellency thereon.

Sir John A. Macdonald, from the said Committee, reported the draft of an Address, which is as follows:—

To His Excellency the Right Honorable Sir John Douglas Sutherland Campbell, (commonly called the Marquis of Lorne), Knight of the Most Ancient and Most Noble Order of the Thistle, Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George, Governor General of Canada, and Vice-Admiral of the same, etc., etc.

# MAY IT PLEASE YOUR EXCELLENCY: -

We, Her Majesty's dutiful subjects, the House of Commons of Canada in Parliament assembled desire on behalf of those whom we represent, as well as on our own, to give expression to the general feeling of regret with which the Country has learned that Your Excellency's official connection with Canada is soon about to cease.

We are happy however to believe that in the Councils of the Empire in the future and wherever opportunity enables you to render her service, Canada will ever find in Your Excellency a steadfast friend with knowledge of her wants and aspira-

tions and an earnest desire to forward her interests.

Your Excellency's zealous endeavours to inform yourself by personal observation of the character, capabilities and requirements of every section of the Dominion have been highly appreciated by its people, and we feel that the Country is under deep obligations to you for your untiring efforts to make its resources widely and favourably known.

The warm personal interest which Your Excellency has taken in everything calculated to stimulate and encourage intellectual energy among us and to advance Science and Art will long be gratefully remembered, the success of Your Excellency's efforts has fortified us in the belief that a full development of our national life is perfectly consistent with the closest and most loyal connection with the Empire.

The presence of Your Illustrious Consort in Canada seems to have drawn us closer to our beloved Sovereign, and in saying farewell to Your Excellency and to Her Royal Highness whose kindly and gracious sympathies manifested upon so many occasions have endeared her to all hearts, we humbly beg-that you will personally convey to Her Majesty the declaration of our loyal attachment and of our determination to maintain firm, and abiding our connection with the Great Empire over which She rules.

The sail Address being read a second time, was agreed to, and ordered to be engrossed, and to be communicated to the Senate for their concurrence.

The Bill No. 124 from the Senate, intituled: "An Act respecting the High Court of Justice for Ontario," was read the second time, considered in Committee of the Whole, amended, reported, considered as amended, agreed to, read a third time, and passed.

The Bill No. 139 from the Senate, intituled: "An Act to amend the Act 36 Victoria, Chapter 4, intituled: "An Act to provide for the establishment of "The Department of the Interior," and to amend "The Indian Act, 1880," was read the second time, considered in Committee of the Whole, reported, read a third time, and passed.

The Bill 140 from the Senate, intituled: "An Act to legalize proceedings taken for the naturalization of Aliens in the Province of Manitoba," was read the second

time, considered in Committee of the Whole, and reported.

And the question being put,—that the Bill be now read a third time;
Mr. Blake moved in amendment thereto, that the Bill be re-committed to a Committee of the Whole, to amend it by making its provisions applicable to all the Provinces;—which was negatived.

The Bill was then read a third time, and passed.

The Order of the Day, for the second reading of the Bill No. 107 respecting the Electoral Franchise, was discharged, and the Bill withdrawn; as well as

Bill No. 117 to define certain offences against persons employed in Factories.

The Order of the Day, for a third reading of the Bill No. 111 from the Senate, intituled: "An Act to amend and consolidate the Laws relating to *Penitentiaries*,' was discharged, and the Bill re-committed to a Committee of the Whole, further amended, reported, considered as amended, and agreed to, read a third time, and passed.

# VOTES AND PROCEEDINGS, HOUSE OF COMMONS.

# OTTAWA, FRIDAY, 25TH MAY, 1883,

10 o'clock A.M.

A Message was received from the Senate, agreeing to the Address to His Excellency the Governor General, expressive of the deep regret at His Excellency's approaching departure from Canada, etc.;—and stating that they have filled up the blank with the words "Senate and."

Also,—agreeing to the amendments made by this House to the following Bills of their own, without amendment, viz.:—

Bill No. 124 intituled: "An Act respecting the High Court of Justice for Ontario."

Bill No. 91 intituled: "An Act to amend and consolidate the Acts relating to the Superannuation of persons employed in the Civil Service of Canada;"—and

Bill No. 111 intituled: "An Act to amend and consolidate the Laws relating to Penitentiaries."

Also,—agreeing to the following Bills, without amendment, viz. :-

Bill No. 132 respecting the sale of Intoxicating Liquors, and the issue of Licenses therefor.

Bill No. 131 to encourage the manufacture of Pig Iron in Canada, from Canadian Ore.

Bill No. 119 further to amend the Tariff of Duties of Customs.

Bill No. 138 to provide for advances to be made, by the Government of Canada, to "The Saint John Bridge and Railway Extension Company."

Bill No. 143 to extend to British Columbia the Act relating to Fishing by Foreign Vessels,—and

Bill No. 133 to continue for a limited time the Acts therein mentioned.

Also,—agreeing to the Bill No. 127 to further amend the Consolidated Railway Act, 1879, and to declare certain lines of Railway to be works for the general advantage of Canada, with amendments. (On motion of Sir John A. Macdonald, the said amendments were taken into consideration, and concurred in).

Also,—informing this House that the Senate doth insist on their first amendment to the Bill No. 101 further to amend "The Fisheries Act:"—

1. Because it is unreasonable to require the owner of a right to pay for using it.
2. Because if any additional benefit (such as protection) is, or should be conferred upon the owner of a right, a separate charge might be made for it;—and

3. Because it is incorrect to affirm that it is not compulsory upon Riparian owners (there is nothing in the Bill or the amendment in regard to special or other Grantees of the French Crown), to take out Licenses, since by the sub-section to Clause 2 it is made unlawful for every one without exception to fish with nets, or other apparatus, for salmon.

And also,—that they have agreed to the Bill No. 128 for granting to Her Majesty certain sums of money required for defraying certain expenses of the Public Service, for the financial years ending respectively the 30th June, 1883,—and the 30th June, 1884, and for other purposes relating to the Public Service, without amendment.

Sir John A. Macdonald presented the reply of His Excellency the Governor General to the Joint Address of both Houses, expressing their regret at his approaching departure from Canada, which is as follows:—

### Honourable Gentlemen :-

No higher personal honour can be received by a public man than that which by this Address you have been pleased to accord to me. In asking you to accept my gratitude, I thank you also for your words regarding the Princess whose affection for Canada fully equals mine. It will be my pride and duty to aid you in the future to the utmost of my power.

Now that the pre-arranged term of our residence among you draws to its end, and the happiest five years I have ever known are nearly spent, it is my fortune to look back on a time during which all domestic discord has been avoided; our friendship with the great neighbouring Republic has been sustained; and an uninterrupted

prosperity has marked the advance of the Dominion.

In no other land have the last seventeen years—the space of time which has elapsed since your Federation—witnessed such progress. Other countries have had their territories enlarged, and their destinies determined by trouble and War, but no blood has stained the bonds which have knit together your free and order-loving populations. And yet in this period, so brief in the life of a Nation, you have attained to a Union whose characteristics, from sea to sea, are the same.

A Judicature above suspicion; self-governing communities entrusting to a strong Central Government all national interests; the toleration of all faiths, with favor to none; a franchise recognizing the rights of labour, by the exclusion only of the idler; the maintenance of a Government, not privileged to exist for any fixed term, but ever susceptible to the change of public opinion, and ever open through a responsible Ministry to the scrutiny of the people;—these are the features of your rising Power.

Finally you present the spectacle of a Nation, already possessing the means to make its position respected by its resources in men available at sea or on land. May these never be required except to gather the harvests the bounty of God has so lavishly bestowed upon you. The spirit, however, which made your Fathers resist encroachments on your soil and liberties, is with you now; and it is as certain to-day as it was formerly, that you are ready to take on yourselves the necessary burden to ensure the permanence of your Laws and Institutions.

You have the power to make Treaties on your own responsibility with foreign Nations, and your High Commissioner is associated for purposes of negotiation with

the Foreign Office.

You are not the subjects, but the free allies of the great country which gave you birth, and is ready with all its energy to be the champion of your interests. Standing side by side Canada and Great Britain work together for the commercial advancement of each other. It is the recognition of this which makes such an occasion as

the present significant. Personal ties however dear to individuals are of no public moment. These may be happy or unhappy accidents. But the satisfaction experienced from the conditions of the connection now subsisting between the old and the

new Lands, can be affected by no personal accident.

I therefore rejoice that again it has been your determination to show that Canada remains as firmly rooted as ever in love to that free union which ensures to you and to Great Britain equal advantages. Without it the maintenance of your Institutions and National Autonomy would not be allowed to endure for a twelvementh; while the loss of the alliance of the communities which were once the dependencies of England, would be a heavy blow to her Commerce and renown.

I thank you once more for your words which shall be dear treasures to me for ever; and may the end of the term of each public servant who fills with you the office which constitutes him at once your Chief Magistrate, and the Representative of a United Empire, be a day for pronouncing in favour of a free National Government,

defended by such Imperial alliance.

LORNE.

Then the Honourable the Speaker of the House of Commons addressed His Excellency the Governor General as follows:—

" MAY IT PLEASE YOUR EXCELLENCY,

"The Commons of Canada have voted the Supplies required to enable the

Government to defray the expenses of the Public Service.

"In the name of the Commons, I present to Your Excellency a Bill intituled: 'An Act for granting to Her Majesty certains sums of money required for defraying certain expenses of the Public Service, for the financial years ending respectively the 30th June 1883, and the 30th June, 1884, and for other purposes relating to the Public Service;—to which I humbly request Your Excellency's Assent.'"

To this Bill the Royal Assent was signified in the following words:-

"In Her Majesty's name, His Excellency the Governor General thanks Her

Loyal subjects, accepts their benevolence, and assents to this Bill."

After which His Excellency the Governor General was pleased to close the First Session of the Fifth Parliament of the Dominion with the following Speech:—

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

I desire to thank you for the diligence and earnestness with which you have

performed your duties during this protracted Session.

The large sums which the buoyant state of the Revenue has enabled you to appropriate in aid of the construction of Railways and the great works of internal improvement will be carefully applied and economically expended, and must contribute in a large measure to the prosperity and progress of the Country.

The Dominion Lands Bill which embodies the results of the experience acquired during the last two years will, it is believed, greatly assist and encourage the settlers now flowing in such unprecedented numbers into Manitoba and the North-West

Territories.

The amendments to the laws respecting the Militia will tend to improve the

discipline, training and military education of that invaluable force.

The consolidation and amendment of the Statutes relating to the management of the Customs, while protecting the honest trader against fraudulent and dishonest competitors will free the commerce of the Country from some of the restraints imposed on it by the previously existing laws.

The readjustment of the Tariff and the reduction of duties on the raw materials used in our manufactures, together with the bounty granted on the production of pig iron, must aid in the further development of Canadian industries.

It is gratifying also to know that the financial position of the Public Treasury has enabled you to lower the pressure of taxation by more than a million of dollars. The Bill for the regulation of shop, saloon, and tavern licenses must have the

The Bill for the regulation of shop, saloon, and tavern licenses must have the effect of preventing the unrestrained sale of Intoxicating Liquors in every Province of the Dominion, and affords an efficient system for its successful operation freed from the suspicion of political bias or control; while at the same time it will not unduly interfere with the rights of those who had engaged in the trade under the authority of Legislative enactments.

Gentlemen of the House of Commons:

I return you my thanks for the supplies you have granted for the various public services.

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

I desire to thank you for the great honour conferred on me by the presentation of a Joint Address. The Princess and I have both been profoundly touched by your words; and the Message of which you make us the bearers comes, as we personally know, from a people determined to maintain the Empire.

The severance of my official connection with Canada does not loosen the tie of

affection which will ever make me desire to serve this country.

I pray that the prosperity I have seen you enjoy may continue, and that the blessing of God may at all times be yours to strengthen you in Unity and Peace.

The Parliament of the Dominion of Canada was then prorogued to Wednesday, the 4th of July, next.

GEORGE A. KIRKPATRICK,

Speaker.
