

Midsummer Sale of Men's Suits

For quick selling we have placed on sale a number of splendid suits in Tweeds and Worsted to be sold at \$6.00, \$6.75, \$7.50, \$8.50, \$10.00, \$12.00 and \$15.00 that have been reduced from \$4 to \$6 a suit. This makes a splendid chance to obtain a good serviceable suit at a small cost, and enables us to clean up our stock before our fall lines come in. The styles are mostly sack coats, with a sprinkling of Norfolks. The fabrics and shades are good for any season, and the sizes all told are from 33 to 46.

Orangeman Brings Interesting Suit Against George Lawrence.

Because he quit work to celebrate with the Orangemen on the 12th of July, against the wishes of his employer, Robert Neilson was the plaintiff against George Lawrence yesterday in an interesting wage question. For this breach of duty Mr. Lawrence refused to pay him for the five days he had worked, and under an agreement the employes have to sign,

he contended that he is not only entitled to withhold \$10 which a driver has to deposit with the company, but he can hold back any wages should the full week not be completed. The judge is going to allow the case to go to the division court to be threshed out.

TIGHT SKIRTS CAUSE ACCIDENTS.

KINGSTON, July 24.—(Special.)—That the fashionable tight skirts have been the cause of a great many accidents here is the statement of H. C. Nickle, superintendent of the street railway. There have been three times off and on cars within the past year, he said, and the majority of these can be traced to tight skirts.

PECULIAR ACCIDENT OF YOUNG GERMAN

Oscar Becker of St. Mary's Suffering From Limb Stiffening.

ST. MARY'S, July 24.—Mr. Norman Irons of West Aloukton and Miss Minnie Hanson of Science Hill were married on Wednesday, July 16. There were about fifty guests present from London, Mitchell, Arkansas City, Leamington and New York. The happy couple are taking a bridal trip to Chicago and other points.

At a meeting of the Collegiate Institute on Thursday evening Mr. Cook of Beachville was appointed teacher for junior work.

Oscar Becker, a young German, employed in the electrical department of Portland Cement Company's plant, was overcome by an acute attack of muscular rheumatism, which completely stiffened all the limbs of his body. The Methodist Church Sunday school held their annual picnic on the Collegiate Institute grounds on Wednesday afternoon. There was a large attendance of the scholars present who enjoyed themselves in games, etc.

The St. Mary's Alerts lacrosse team play an intermediate league game in London on Saturday next. They played in Brantford yesterday.

A very pretty wedding took place on July 14 at the parsonage, Fordwich, the home of Rev. J. W. Andrews and Mrs. Andrews, when their daughter, Miss Estella J., was united in marriage to Mr. Walter Stringer of Mitchell, formerly an employe of The St. Mary's Argus.

Mr. and Mrs. William Willard of Galt will celebrate their golden wedding on Monday, August 4, at their residence in Galt. Mr. Willard is a brother of Mr. John Willard of St. Mary's.

Mr. Charles W. Robinson of Stratford announces the marriage of his only daughter, Emma Almira, to William G. Mitchell of Toronto, the marriage to take place in September.

Miss Florence McKee is spending her holidays with friends in Wingham. A new F.R. station will be erected in St. Mary's at a cost of \$9000 and \$3000 for surroundings.

CARNEGIE SHIFTS BIG TRUST FUNDS

Ten Millions in Steel Bonds Now Under Control of Dunfermline.

Special Cable to The World. Copyrighted by The Toronto World and N. W. DORNOCHE, Sutherlandshire, Scotland, July 24.—(Special.)—Mr. Andrew Carnegie was called upon today at Victoria Castle by the World correspondent and asked the significance of the newest gift to Dunfermline, transferring from the Carnegie Corporation of New York to the Dunfermline Trust, the administration of the income from \$10,000,000 of United States Steel 5 per cent. bonds, which, it has been stated, New York trustees were not consulted.

"The documents explain themselves," Mr. Carnegie stated. "The trustees of the New York Corporation were fully informed and agreed. We knew changes must soon take place which will render administration in Great Britain very difficult and unsatisfactory. We have quite enough to attend to the administration in our own country. The idea is to relieve the American trustees of such unsatisfactory work."

"Altho I myself and my secretary will still come to spend the summer every year in Scotland in the nature of things this cannot last long. Hence, the provision I have made."

"The whole thing is perfectly simple and perfectly clear."

"BURNING OF ROME" REHEARSALS BEGIN

Eight Hundred Will Take Part in Spectacular Scene at Exhibition.

Over 800 men, women and children of Toronto will commence rehearsing to night Monday, the spectacular scene to be presented before the grand stand at the Canadian National Exhibition. John Henderson of London, England, arrived in the city yesterday and at once got busy with the work of preparation for the spectacular scene. He will stage and direct it. It is called "Nero and the Burning of Rome."

"The features of the scene," said Mr. Henderson, "will be a military patrol and surprise parade, in which 300 bandmen and 200 cadets will take part, the cadets playing on French pipes while the bands are playing the patrol. There will be a song descriptive of the century of peace between Great Britain and the United States. The singer will be in the uniform of a British admiral.

There will be a classical dance by 50 maidens, costumed as Grecian dancers. The dance will show beautiful movements and posturing. Very spectacular will be the race between three chariots, each chariot drawn by four thoroughbred racing horses. The grand finale will be the "Burning of Rome."

Mr. Henderson put on "Sardana-paenas" at the exhibition a quarter of a century ago, and today he looks as tho his staple beverage is taken from the fountain of youth.

Cheap One Day Outings to Port Dalhousie and Victoria Park. The new one day return rate quoted by the Niagara-St. Catharines line will be found extremely convenient by Torontonians, with a free day for a pleasant outing to Port Dalhousie or Victoria Park, Niagara Falls.

This rate, which is \$1 to Port Dalhousie and \$1.50 to Victoria Park is good from Toronto only going on the 8 a.m. and 11 a.m. boats, daily except Sundays and public holidays.

This new rate, together with the 50c afternoon ride to Port Dalhousie and the two day return rate of \$1.75 to Niagara Falls, is an earnest of the willingness of the Niagara-St. Catharines line to provide its patrons with trips carefully planned for enjoyment and convenience at the least possible expense.

For tickets and information apply to the Yonge street wharf, M. 2553, or city ticket office, 53 East King st., M. 5179.

BOULEVARD REPORT IS ALMOST READY

Proposed Conference, However, Is Postponed Until Vacation Is Over.

Commissioner Chambers has about completed his report upon the belt boulevard system to be given Toronto by connecting up the Don and Humber ravines and the island. He had arranged early in the week for a conference with the board of control, Ald. Anderson and citizens active in promoting the completion of the belt boulevard, but the sudden decision of the board of control to take a ten day holiday has postponed the conference to next week.

In the establishment of the belt boulevard the harbor commission has its plans for the waterfront perfected. Home Smith is helping in the planning of the Humber section. Property owners in the west branch of the Don ravine are willing to contribute a large proportion of the land. It is proposed to connect the Don and the Humber ravines at the north by running a diagonal road from above North Toronto to the valley of Black Creek. Mayor Hocken has suggested connecting the west Don ravine with the waterfront by way of Woodbine avenue, making that avenue 100 feet wide.

"Such a belt boulevard would not be rivalled in the world," Mayor Hocken remarked during a trip by the board of control over the route recently.

GAVE CHEQUES BUT LACKED THE FUNDS

Cobalt Enterprise, With Headquarters in Toronto, Is in Trouble.

COBALT, July 23.—(Special.)—As the result of issuing a batch of 65 worthless cheques, the Orion Realty & Investment Co., Limited, have got themselves into hot water. The cheques were for last month's pay to their employes, and when presented for payment it was found that there were no funds in the bank to meet them.

So far a miner, Fred Stables, is the only one of the men to take action. Stables has a cheque for \$72.75, and when payment was refused by the bank he put the matter in the hands of George Mitchell, with the result that Inspector Rowell received a warrant of attachment against the company on a car load of concentrates valued at \$11,000, which is being shipment was seized by Inspector Rowell. The Orion Realty Company of Toronto was working the old Silver Cliff mine on an option basis.

BRYAN TO MEXICO SO 'TIS RUMORED

Washington Understands Secretary of State Will Head Commission.

WASHINGTON, July 24.—(Can. Press.)—That Secretary of State Bryan may be despatched to Mexico at the head of a commission seeking to mediate between the warring factions there, was the report current at the capitol today, when it became known that Chairman Flood of the senate committee and Bacon of the senate committee on foreign relations had discussed the question of such a peace move with the president.

"I have heard the name of no man mentioned for this commission," the declared Senator Bacon, who nevertheless exhibited no surprise that the rumor was abroad. He did not deny the further report that a long telegram on the matter has been sent to Bryan following yesterday's talk at the White House.

"THANKFUL DAY" AT CONVENTION

Bible Students Heard Addresses From Local and Outside Speakers.

TO LAST THREE DAYS

Delegates Speak in High Terms of Reception in Toronto.

The same enthusiasm that has been apparent at all the meetings of the International Bible Students' Association, now in convention in this city, characterized yesterday, or "Thankful Day." It was the fifth day of the convention, which will remain in session through Sunday, and so far there has not been the slightest diminution in interest or in the numbers in attendance.

The speakers of the day were L. F. Zink of Brandon, Man.; C. A. Wise of Indianapolis, Ind.; E. H. Barber of Greenwich, N.Y.; and J. M. Pherson of New York City. As this day has been set aside as "Thankful Day," all the speakers endeavored to show our cause for thankfulness for all the blessings, both temporal and spiritual, which the Lord has showered upon us.

At 2 p.m. Prof. Walters of Tampa, Fla., conducted the entire praise service, following which R. B. Barber addressed the convention on "Our Cause for Thanksgiving." Rapt attention was given throughout as he endeavored to show the many causes the Christian has for thanksgiving.

The next speaker was J. E. McPherson of New York City, who chose as his subject "Consider Him Lest Ye Be Proud," basing his remarks upon the apostle's words to the Hebrews 12: 1-4. He said in part:

"All Christian people familiar with the teachings of the Lord's word recognize that our Redeemer is the example for everyone who is endeavoring to follow in His footsteps. As we consider the man who laid down His life for us, we are reminded of the condition of blessing we see indeed that He was rich, yet became poor that we through His poverty might be made rich."

After three years and a half of suffering our Lord finished His work of the redemption of the race on Calvary's heights. Three days subsequent to His death, He was raised from the dead by the mighty power of Jehovah, and exalted far above angels, principalities and every name that is named in this present world of the divine nature.

The speaker urged that everyone consider Him very carefully, as He is our example and if we will enjoy life on the spiritual plane of existence, it will be necessary for us to follow in the footsteps of our pattern. His footsteps lead through glory, shame, contempt, into death, and then death to glory, honor and immortality. In conclusion he reminded his hearers that the apostle states, "It is right that we should be overcomers, though it will cost us our lives, for we are not to be ashamed of our Father in His hour of trial."

The convention is to run three days more tomorrow being "Harvesters' Day," Saturday is "Spirit Begetting Day" and Sunday, "Praise Day." The convention thus far has been very successful, and the management and also the delegates speak in high terms of the cordial reception extended to them by the citizens of Toronto in opening their homes to the delegates and giving them the use of the auditorium at the park.

7899 Fancy Blouse, 34 to 40 bust.

WITH ROUND OR HIGH NECK, ELBOW OR LONG SLEEVES. The blouse that is worn over a gimpie is especially fashionable, and especially attractive, peculiarly so at this season when so many contrasting fabrics are worn.

This one can be made in several different ways, each one being so distinctive as to suggest a separate model rather than a variation. On the figure, it is made of a plain crepe de chine over plissé chiffon. In the back view, plain crêpe de chine is combined with the same material in broché effect. A still different effect could be produced by using broché material or shadow lace for the blouse portion and making the long sleeves of the same while the gimpie is of a plain crêpe de chine. The selection of state material is a favorite material of the season and treated in this way is very charming.

There is an entire gimpie to which fancy material is attached, and over which the blouse is arranged. The blouse is made in front and back portions only, the sleeves being joined to it at the drooping line.

For the medium size, the blouse will require 2 1/2 yards of material 27, 2 yards 36 or 1 1/2 yards 44 inches wide, with 3 1/2 yard 44 inches for the platted gimpie portion and 1 1/2 yards of lace; 2 yards 21 inches wide for the gimpie portions and sleeves, and 3/4 yard 18 inches wide for the yoke as shown in the back view.

The pattern of the blouse 7899 is cut in sizes from 34 to 40 inches bust measure. It will be mailed to any address by the Fashion Department of this paper, on receipt of 15 cents.

GIDEONS FAVOR SHORT ADDRESSES

"Business" Is Motto of Delegates at Travelers' Annual Convention.

YEAR'S WORK REVIEWED

Reports Show That Association Is Steadily Increasing in Membership.

Gay with entwined British and American flags and jubilant with zealous songs of praise, the Metropolitan Church lecture hall presented an animated scene at the opening exercises yesterday morning and afternoon, of the International Convention of the Christian Commercial Travelers' Association, popularly known as the Gideons.

President J. C. Simon of the Canadian department was chairman at the morning session. He briefly but heartily welcomed the advance guard of the delegates then present. He said that the convention was one for more than a speech, the addresses at the sessions would relate what was being done, and define how to be more effective in the future. He called upon President A. P. Moore of the International association to take the chair, but the latter insisted that the Canadian president lead the proceedings at the morning session.

Hon. S. H. Blake sent a message of congratulation. He regretted being unable to attend today's convention luncheon. Tributes to the memory of the late United States chaplain of the association, Rev. L. C. Smith, D.D., were paid by several of the delegates.

Charles Smith, Detroit, offered fervent prayer for Dr. Smith's widow and children. George W. Truett, D.D., pastor First Baptist Church, Dallas, Texas, spends his vacations visiting the cattle ranches and preaching to the cowboys. Dr. Truett led the quiet hour from 11 to 12 o'clock.

In presenting his topic, "Christian Service," he said: "Faith is not dogma, but passion. The self-centered man is a dogmatic man, but he may be as brilliant as a meteor. And the government which does not watch the good of its people cannot succeed. True success is doing the will of God. A party of young business men formed a partnership on the principle that Jesus Christ should share in their profits, and their business be conducted mutually for His cause and themselves. That is the new attitude we are trying to create."

That four Hamilton hotelkeepers out of a total of 64 there, showed hostility to the work of the Gideons, transpired at the afternoon meeting of the convention. The report for Hamilton was presented by the secretary-treasurer there, C. W. Van Norman, who said: "Our thoughts revert to our organization two years ago, and we realize our very extreme youth. We have not been active in our work, but we can report a camp that is alive."

We have placed Bibles in nearly all the hotels in Hamilton. Four hotelmen out of 64 expressed a prejudice against our work, but the remaining 60 received us, and our Bibles very cordially. We also placed Bibles in the Durrington Beach.

"Our last annual meeting, March 1 of this year, in the Y.M.C.A., was an inspiration to all." President R. B. Smith, London, Ont., reported the formation of a Gideons' camp there on May 5. The meetings are held in the Y.M.C.A. parlors. The camp is active and has conducted services in a number of the city churches. The association also presented Bibles to the hospital.

Five minute reports from a number of states were given. The report from Powers of Nebraska was indicative of the practical view the members take of local situations. The Omaha, Nebraska, camp for the summer, which was held in the Y.M.C.A. parlors, and which is active and has conducted services in a number of the city churches. The association also presented Bibles to the hospital.

The afternoon session concluded with the appointment of a committee to send messages of sympathy to a number of prominent members who were unable to be present, either thru the sickness of that of some member of their family.

When the delegates who subscribed for the Gideon Magazine were asked to rise, everyone present stood up. One delegate said: "All the live members take our magazine."

The delegates will be tendered a luncheon by the city at the Exhibition grounds at 1 o'clock today. The 42nd Highlanders Band will be in attendance.

AUSTRALIA'S SPIRIT PRAISED BY KING

LONDON, July 24.—(C.A.P.)—Amid great pomp King George, dressed in an admiral's uniform, laid the foundation stone of the Australian Government's building which is being erected on the Aldwych site.

His majesty congratulated the government on the acquisition of this splendid site and noble structure, which it was proposed to erect. He said: "Nothing can gratify me more than the testimony which you bear to the growing sense of kinship and unity which pervades the self-governing communities of the empire and to which I am well assured that as in the past will be ready to play her part for the common cause, and that for loyalty her sons will never be appealed to in vain." (Cheers.)

PROBATION PLAN HAS WORKED WELL

Over Ninety-One Per Cent. of Juvenile Delinquents Have Made Good.

JUDGE STARR'S REPORT

Statistics Show Good Work Done by Toronto Children's Court Officials.

Of 724 delinquent boys and girls released from the Toronto Juvenile Court on probation during the year 1912, 653 made good, according to the report recently submitted by Commissioner J. Edgar Starr.

Of the remaining sixty, it was found necessary after probation trial to commit into the custody of the court, and nine of those on probation at the end of the year were consigned to the custody of the court.

Of the twenty-two girls put on probation, ten were subsequently put in industrial schools, so that the only deal with a girl on probation is to put her in a school at the list of offences given in the report.

It is interesting to note that the report shows that the great majority of trivial misdemeanors are of such a kind that only boys might be expected to come under their shadow.

A feature of the report is the small number of offences recorded in certain cases where public opinion believes that there is an abundance of criminality. The following figures, abstracted from 724 cases, will illustrate:

Crab-shooting 1
Mischief 1
Tobacco 2
Compared with these figures, we find that 101 incorrigibles were dealt with, 47 of them boys and 54 girls.

Of the 114 cases which were serious enough to need court settlement, a total of 850 children were placed on probation after the case had been heard, fines being levied in some instances, and others the offender being ordered to make restitution for damage done.

Discussing the system of requiring restitution Commissioner Starr says: "Not until the delinquent realizes that the wrong he has done has been righted as far as he can do it himself—not until he realizes his responsibility for the wrong done—there is much to be gained in attempting a cure for the conditions that made the wrong possible, and restitution lays up his sense of personal responsibility both to the law and his fellow men as nothing else does, especially if he must go to work in order to earn his earnings, and generally on the installment plan, he can make the required restitution."

When placed on probation each boy or girl receives a printed card outlining the conditions of the release, and the probation officer is required to report each Saturday for a stated time to a police officer who is named. If any fail to report on Saturday they are looked up next Monday. The probation officer attempts to act as a friend and counselor of the boy or girl placed in his charge, and many cases are on record where boys have come back for advice after their probation term was up.

Parents to Blame. The chief causes of delinquency as mentioned in the report are drunkenness and immorality on the part of one or both of the parents, wife desertion and consequent neglect of children, the neglect of parents who employ boys and girls out on the street to earn money too young, and the indifference of many parents to the physical weaknesses of the children.

Automobile-riding with strange men brought more than twenty girls into the notice of the court officials thru complaints on the part of parents. The report blames the gun-play pictures in "movie" playhouses for an outbreak of revolver stealing and for a great deal of pocket-picking. It is claimed that the word "adult" is so loosely defined by the law that there is no way of preventing picture show proprietors from admitting children to their performances.

Blame Picture Censors. Ontario Board of Censors, who continue to license films depicting "leering villains, gun-play and crime, not to say revenge and wanton love."

In concluding his report Commissioner Starr says: "The proper attention given to a training school for delinquents, up-to-date industrial schools and a physiotherapeutic connection with the new General Hospital."

Blame Ontario Board of Censors, who continue to license films depicting "leering villains, gun-play and crime, not to say revenge and wanton love."

Seeds to be Gathered

Yes, even this soon, if you please. If you do not believe it, just take a look around your beds.

Some plants form seeds much more quickly than others do. And, do not forget that many have been in blossom since early March.

Do you know that the forget-me-nots have seeded themselves down some time ago? Look close around your patches of these flowers. Do you see many tiny leaves just coming up?

These are young forget-me-nots. If you please, this is a plant whose seeds you will not need to gather. Not only does it seed itself down but also you will remember we discussed long ago, the way to divide the roots.

But there may be some especially fine plants you noticed, when in bloom, whose seeds you want. "Did you mark it?" Or has it gone to seed and you do not know which one it was?

It is always a good plan when the plants are growing in clumps to mark with a piece of tape or like matter so that it can be readily picked out. Usually the first blooms are the largest, and these are the seeds best saved.

The sweet Williams are seeding now. Some of the seed vessels are now opening, and should be gathered, for although falling on the earth they will come up next year, still it may be desired to gather in a special envelope and mark. It is best not to put these seeds away until they are perfectly dry, else there is danger of must occurring. Let them remain on a paper in the sun for a day or so, up in the attic, or in a vacant room, where there is no danger of a casual passerby upsetting them.

Seeds are best left open to the air in a china or glass vessel, until needed, if such can be managed. But your seed cups on the top shelf of the pantry, or some place where they will not be disturbed. Often a careless maid will throw things out in her cupboard cleaning hurry, so be sure to put a marker along with the seeds.

The Grand Trunk Passenger Department are in receipt of a letter from a prominent Boston traveler, who visited Algonquin Park recently. He says: "We are enjoying this area very much at the Highland Park, Algonquin Park, and can only offer our heartiest congratulations on the efficient management in which everything is managed here, in fact my wife likes it so well, she is planning to remain some time after I leave."

THE TRIPLE TIE BY A. H. C. MITCHELL

(Continued From Yesterday.)

CHAPTER XXX.

When Forrest Cain, lying unconscious in the road beside his automobile, retails his senses, he saw Gordon Kelly standing over him. His mind was befuddled and he did not recall what had happened to him. Kelly prodded him with the toe of his shoe, as though he was a dead snake, and said, sharply, "Get up."

Cain rose slowly to his feet. The light was all out of him. "Walk around," ordered Kelly. Cain took a few steps. Kelly left him and John and Elmer. "He is all right. Get in the car, please, and we will get out of this."

Without even another glance at Cain, the three entered Kelly's automobile, retails in the road beside his automobile, retails his senses, he saw Gordon Kelly standing over him. His mind was befuddled and he did not recall what had happened to him. Kelly prodded him with the toe of his shoe, as though he was a dead snake, and said, sharply, "Get up."

Cain was sober by this time—sober, silent and resentful. His right hand gripped the wheel of the car. He had seen the stone thrown by Elmer had struck him. It was crushed and bloodied. The fingers hung down as the withered life. He felt of the bruise and winced. There was no doubt but that bones were broken. He cranked the motor with his left hand, entered the car and attempted to get the control into low speed, but he found he had lost the use of his right hand. Reaching over with his left hand, however, he was able to manipulate the lever, and then, easing in the clutch, the car moved slowly ahead. It was necessary to turn around. This was accomplished with infinite labor and time. The car was straightened out for the journey to Cain's shack. This had to be taken at low speed, because once the car started ahead he could not change the speed, as he only had the use of his left hand and could not take that from the steering wheel in order to change gears.

The Mountaineer. In gloomy silence he crawled back the six miles to his mountain habitation. He summoned his man George and commanded him to pack up. His campaign had utterly failed. He would go back to Atlanta to nurse his injury, nurse his acerbated feelings and plan some revenge that would settle scores with Gordon Kelly once and for all. While his man was busy packing he bathed his hand in cold water, and after pouring whiskey on the wound as an antiseptic (and pouring a considerable quantity of it down his throat as an anesthetic), he handed the injured member, swore at George on general principles, and went outside to smoke and think some more.

In his three personal encounters with Gordon Kelly, Cain had been badly worsted, verbally or physically, every time. For Gordon Kelly was in no way to blame in any case. He was attending strictly to his own business and had sought no quarrel with the man, who declared himself his foe. This phase of the matter never once entered the mind of Cain. He only knew that it was thru Gordon Kelly that all his troubles came.

"I asked you awhile ago where you came from, I take it you live around here somewhere. If you live on my property you can continue to do so for all of me. I only built this shack to have a place as headquarters to hunt and fish. I have never used it before and I don't believe I ever will use it again."

"I call that right good stuff," remarked the stranger when he had sampled the contents of the bottle. "You don't get any like it in this part of the country, do you?"

Cain was treading on dangerous ground, if he had only known it. The stranger reached a point where a huge knob made direct reply to the question. "You all in named Cain and you come from Atlanta, don't you?"

"Yes," replied Cain. "You done own a right smart piece of property, up yere, don't yer?"

"What you all doin' up yere?" Like an Oyster. Cain might have answered, "None of your damned business," but he didn't. He simply said: "Some friends of mine came up from Atlanta to spend a few weeks in the summer camp and I just came up, too. They drank silently. Cain spoke again.

have to this backwoodman if he attempted to visit him, especially with a damaged hand. The thoughts of his hand instantly put his mind back to the encounter with Gordon Kelly. And thinking of Gordon Kelly suddenly put another idea in his head. His face wrinkled into a smile.

"I beg your pardon, stranger," he said in his pleasant manner, "I met with an accident this afternoon and my hand gives me so much pain that it puts me back to the why there's a lot of other stuff in the shack you are welcome to eat and maybe a little to drink. And that reminds me, will you join me in a drink?"

This mollified the stranger remarked that he didn't care if he did. Cain ordered George to fetch a table, two chairs, a bottle of whiskey, some glasses and fresh water.

"I call that right good stuff," remarked the stranger when he had sampled the contents of the bottle. "You don't get any like it in this part of the country, do you?"

EFFICIENT HOUSEKEEPING BY HENRIETTA D. GRAUEL DOMESTIC SCIENCE LECTURER

Marketing Series—No. 3. I AM going to give you some recipes and directions for using that quantity of food you carried home from market to the best advantage," said Edith's neighbor, as they settled themselves into comfortable porch chairs.

"You bought three large porterhouse steaks. One would have been sufficient for you two persons; but since you have more, trim them all carefully.

"These trimmings may be used for steak in casserole. This is a delicious dish, and what remains of this may be chopped with any cold broiled steak that is left and made into a meat loaf, and into meat balls or Irish stew."

"I am worried about the five pounds of fish," said Edith. "I can give part of it to Jane to take home, but I do not like to think I have been extravagant."

"I think you had better fry all the fish in deep fat; this is the best way to cook fish six inches long or shorter. Let Jane have a few if you have too many, but cold fish make a fine dish when creamed, and fish balls are usually liked for breakfast," replied her neighbor. "Now," she continued, "if you will let me have paper and pencil I will write the recipes you will need. If you like the dishes they make you can copy them into your recipe book."

Below are the recipes she left with Edith: Steak en casserole—Brown the trimmings and tough ends of the steaks in a frying pan after cutting the meat in pieces about an inch long. Put the meat in the casserole and braise two potatoes, cut in quarters, one onion sliced, and one small carrot cut in slices.

Mix the browned vegetables with the meat and cover all with stock or boiling water. Add salt and pepper and a teaspoon of Kitchen Bouquet. Cook two hours without raising the lid, in a very moderate oven.

Beef balls—Chop cold steak with a little bacon for seasoning; flour your hands and shape into rolls or balls. Season and roll in flour. Fry brown on both sides. Dish and make brown gravy to pour over them.

Meat loaf—Chop the meat and mix with a half a cup of cracker crumbs for each cup of meat. A little bacon or ham added to beef improves the flavor. Moisten with two beaten eggs and a little milk. Shape into a loaf and place in a buttered baking dish. Put dots of butter over the top and bake in a hot oven forty minutes. If loaf seems to be getting too hard baste with a few spoonfuls of hot water.

Creamed fish—Flake any cold fish into tiny bits; remove bones and skin. Make a rich white sauce with one tablespoon of butter and one of flour, and a cup of milk. Cook, stirring, until smooth and thick. Add the fish; cook one moment longer. Sprinkle with curry powder and serve on sippets of hot-buttered toast.

Fish balls—Mix cold flaked fish with well seasoned, mashed potatoes. Shape into balls or cakes, flour liberally and brown in butter.

"If you find that you have more cheese than you can use before it loses its freshness, put it where the air can circulate about it. It will soon dry and can be grated for an gratin dishes or rabbits," said Mrs. Hart, as she dotted her last "I" and put down the final period.

"Thanks," beamed Edith, "perhaps I shall learn to manage after a few trials."

FLYING FAIRY FIRST BUT IS DISQUALIFIED

Strenuous Thus Wins the Southampton Handicap at Belmont Park.

BELMONT PARK, July 24.—Strenuous won the Southampton Handicap for 3-year-olds today by a foul on the part of Flying Fairy, which finished first, nearly a length ahead. Flying Fairy got a head and was closely followed by Strenuous and Fifty-Five, but the last named soon tired. Strenuous tried to get away from the home turn and over to the rail at the home turn and was succeeding when Davies on Flying Fairy forced Karick to pull up and take an outside position. This cost the race. The Caughnawaga Stable added Bruin Belle as a starter in this event, but she ran away at the post after throwing her rider, McNair. The mudlarks had their first opportunity of the meet.

FIRST RACE
1. Any Time, 105 (Wolfe), 4 to 5, 1 to 3 and out.
2. The Spirit, 105 (Brady), 6 to 1, 7 to 5 and 1 to 2.

GRAND CIRCUIT HEATS ONLY TWO AT FORT ERIE

Billy M. and Del Ray Finished in Front and Then the Deluge.

BUFFALO, July 24.—A heavy down-pour of rain this afternoon resulted in the Grand Circuit races at Fort Erie being postponed until tomorrow. The deluge struck the track at 3:46 o'clock after the first heats of the 2:09 and 2:11 pace had been finished. It began to sprinkle when the horses were scoring for the first heat, but stopped, and the sun burst thru the clouds. It was sprinkling again at the conclusion of the first heat of the 2:11 pace. The free-for-all pace was being run when the storm broke, and for 45 minutes the rain came down in sheets. The track, still heavy from last night's rain, became a quagmire, and the judges announced the postponement of the card.

Weather permitting, the two unfinished races and the free-for-all pace will be run off tomorrow, and the Grand Circuit will move along to Grand Rapids. The 2:09 trot, carded for today, was declared off because of lack of starters.

Billy M., after acting badly when scoring for the first heat of the 2:09 pace, won, driven out to stall of Walter Cox with the brown stallion, Cabel, Stalbrink last of the three-quarters in the Fort Erie Stake for \$5000, but finished last after a bad break. Frank Bogash Jr. led to 100 yards from the wire, where Del Ray, the favorite, urged by Cox, caught him, crossing the wire a length to the good. Said many made up the 2:09 pace, three in five purse \$1000 (unfinished).

Long Branch Defeat Oakville.
Long Branch bowled Wednesday evening in charge of Louis Cote, Hubert Chisholm and that good old horse, Corcoran, at Lightbourn Chamblee Green, Miller, J. Chisholm, Redington, Groat, Barclay-Tate, Cowan and Ruddle made up the party. It was a right royal contest on every green, the score being tied over and over again throughout the entire 21 ends. The Branchites were skipped by Charlie Halford, Bert Dale and J. A. Harrison, and won out on every green by the following score:

Long Branch 37
Reit Thale 22
C. J. Halford 21
H. C. Chisholm 18
J. A. Harrison 21
E. T. Lightbourn 19

The final game of the Eaton A.A. House Baseball League will be played at Kew Gardens on Monday night next, between the Main Floor and General Office teams. These two teams are tied in the race for the championship, both having defeated each other once, and this game is bound to be a battle royal. Anderson and Clark will be the battery for the Main Floor, while Crowe and Corcoran will likely work for the men-puffers, and Eddie Tolley will handle the indicator.

GRAND CIRCUIT MAY DROP FOUR CITIES

Pittsburg, Buffalo, Grand Rapids and New York Expected Out Next Year.

CLEVELAND, O., July 24.—The biggest shakeup in the Grand Circuit's history will probably take place before the start of the 1914 campaign unless many sweeping changes take place between now and the close of the present season. According to the indications four cities are ready to toss up the sponge. Pittsburg, Buffalo, Grand Rapids and New York are the cities expected to withdraw from the big line this season. It will be necessary to fill the vacancies, and the stewards believe that they will be compelled to clip four weeks off the season.

Pittsburg track officials declare they experience too much difficulty in making their meetings a success. The Pittsburg place, and for that reason, inconvenient, will also do not patronize the track officials are dissatisfied and make no week was a keen disappointment.

Buffalo's track is also poorly located; the races are held at Fort Erie and each season horses are forced to both themselves living up to the Canadian gravating chances. Then, too, the trotting association shares the track with sport have first call when it comes to choice dates. Buffalo is not expected to be a member of the 1914 Grand Circuit.

New Yorkers have always failed to enter the over trotters and pacers. The running game is the big attraction in the metropolis, and the matinee preference is for the "Sears-Murphy-Cox outfit" don't draw crowds that compare favorably with the turnouts in other big cities. The Grand Rapids Association is said to have announced that unless it more than breaks even this season, its franchise must be thrown out. Grand Rapids managed to balance its money total last season but behind the sport in the Furniture City say they are not in the business for fun and may quit entirely if the desired crowds there doesn't produce the desired cost.

Dropping these four tracks will mean a big change in the schedule. The Forest City Live Stock and Race Company, which annually conducts the North and South circuits, is willing to open the Grand Circuit again next season, but insists on the date being late in July, preferably the last week.

Big Time Expected At Amateur Race Meet

The Green Bush amateur race meet is to be held Saturday afternoon, Aug. 2, on Mr. John Elliott's farm, Yonge street, seven miles north of the C.P.R. tracks. The program consists of four steeplechases and two flat races, and includes some of the best steeplechasers of today, the none but amateurs may try their luck. The best way to see the races is from a motor, as there is room for over 1000 machines inside the course. With good weather the amateurs expect to have one of the best afternoon's sport ever held in the country. All the tea will be supplied at a nominal charge. The band of the Governor-General's Body Guard will be in attendance.

Motorcycle Races at Exhibition Tomorrow

The Ontario Motorcycle championships at the Exhibition tomorrow should provide some great racing. The first event is carded at 2 o'clock so as to give everybody a chance to see the complete program. In the professional races the "rolling start" will be used for the first time in Canada, the rider making a turn of the track before the actual start and coming down to the mark at top speed. In the amateur events there will be the usual standing starts. Ben Wilson, the amateur champion of Rochester, has entered in these events, and Alex Duff, Bob Scott and the other Canadian flyers will have to go to the limit to beat him. The officials will be as follows: Referee, Dan Davis; judges, A. E. Humphries, Geo. Oakley, A. Saylor; starters, John McGarry, William G. Saff; scorers, E. A. Burnett, C. Oakley, W. Martin, H. S. Leafs Make It an Even Break on Series With 11 to 5 Victory

FOUR BALTIMORE PITCHERS HAMMERED TO ALL CORNERS

Kelleyites Gathered Sixteen Hits and Eleven Runs For the Afternoon - Northern Drove in Four Tallies - Lush Hit Hard at Times.

Indeed, baseball is the funny old game. It was only on Wednesday that the Leaflets searched Maple Leaf Park from end to end with all men on the job with spy glasses and all, and could only find four little bingles lying around loose inside the big enclosure. Yesterday the hits were heaped up in piles that you could hardly climb over, and it took only five men to scare them up out of their hiding places. The men were four Baltimore pitchers and our own Johnny Lush. Twenty-eight was the total number rounded up by the ancient hunters, sixteen by the Kelley Camo and twelve by the Dummies. The hits netted Toronto 11 runs, while Baltimore's share was 5.

It was the merriest little afternoon session you ever set eyes on. The Leafs clouted the ball in a fashion that would warm your heart and the knuckers set back dumfounded. Every man took at least one wallop at the ball and ran bases until they were tired. Four Baltimore pitchers had the busiest afternoon in many a long day and they were all alike to the local stick-swingers. The game was evenly pitched in two sessions and the Birds made it interesting. Johnny, however, got straightened away after the Kelley Boys punched the runs for him, and with the Leafs far out in front after the second inning, it was just a romp.

Dunn made a mistake when he trotted out Danforth again. The southpaw trimmed the Leafs on Monday, but his second start in the series proved his undoing. One inning was his limit and this gave Toronto three runs as many hits. Morrisette tried it next, but two-thirds of an inning finished him. Both worked for one and one-third innings, and then gave way to Davidson, who finished the game. Lush went the route for the Leafs.

Hub Northern was the bright shining star with the yellow club collected three hits in five journeys to the plate and drove in four of the Leafs' runs. McConnell raised a homer in the first many times up. Holly connected three times and Lush supplied a double and a single.

Lush got rid of the Birds as they batted in the first, but Danforth was not so lucky. McConnell started with a single and O'Hara walked. Shultz scored and Northern broke in with his first hit. It was a single to the right field sent in Mac and O'Hara. W. Bradley dropped a safe over second and Hub scored. Bradley was thrown out at second trying to stretch his hit into a double. H. Bradley flew out.

Baltimore won when they got after Lush in style in the second. Johnny helped things along with a bad throw that let the catcher get the first ball pitched into the right field bleachers for the circuit, and then Houser dropped a single into left. Capron laid down a bunt and Lush heaved it to the right field fence. Houser came home and Capron pulled up at third. Twombly doubled and another was in. Egan sacrificed and G. Malsel was sent in to bat for Danforth. He hit high fly to Northern and Twombly easily beat the return home. F. Malsel grounded out.

Morrisette went to the mound for Baltimore in the second and the Leafs gave him a warm reception. A hit and two infield outs scored one run, and then Morrisette hit McConnell, who walked. He was benched and H. Malsel was sent in to bat for Danforth. He hit high fly to Northern and Twombly easily beat the return home. F. Malsel grounded out.

Singles by Holly and Egan, and a sacrifice fly by McConnell in the third, made the Leafs total seven. Both were derricking in the batting order to try and stop the Leafs. Holly was first to face him and replied with a single to center that knocked out the pitcher. The inning ended with Toronto again in front with a two run margin.

Two singles and a double gave Baltimore their fifth and last run in the sixth. Ben Houser knocked out a single and finished the game at the first corner, Bergen going behind the bat.

FIFTY TONS OF HAY GOES UP IN SMOKE

Fire in Western Cattle Market Partially Destroyed Store House.

Fire of unknown origin ate up fifty tons of hay and partly destroyed the storehouse at the western cattle market at 5:30 o'clock last night. The storehouse had been filled with hay just recently, and as it was quite dry it went up like paper. The flames spread quickly on account of the high wind that was blowing and for half an hour the cattle stables were in danger.

The good work of the Cowan avenue brigade, however, prevented the stables from being destroyed. The loss amounts to \$2500, of which \$1000 was to the contents.

DOUGHERTY THE STAR

Struck Out Eleven of the Visitors and Twirled Finely Thruout.

HAMILTON, Friday, July 25.—Hamilton put another crimp in St. Thomas' pennant hopes by trouncing them to the tune of 8 to 3 in yesterday's game at the cricket grounds. The Saints looked like a tail-end club, while the locals put up a class of ball that would have done credit to the champions, despite the fact that three errors were marked against them. They displayed all kinds of ginger, both in fielding and base running, while their hitting was exceptionally timely. The three errors were marked against them, and he certainly looks like a valuable addition to the team. His base running was timely, and he was a real asset to the team. He was a real asset to the team. He was a real asset to the team.

ALMEIDA BREAKS IN AT MONTREAL

Rain Stops Game When Royals and Pests Each Had a Run.

MONTREAL, July 24.—Rain ended today's game when the Skeeters and Royals each had one run. Almeida's infield hit, two stolen bases and Schafly's error scored Montreal's only run. Bues' single and Schafly's double in the fourth evened the score. Almeida's fine catch of Purcell in the fourth saved Mattern further trouble. Montreal has purchased Pitcher Harter from Cincinnati. Score: Montreal, 1; Royals, 1.

BAILEY DOES THE COME BACK STUNT

Providence Pitcher Makes His Second Start of Week Against Rochester.

DEFENCE WENT CRASH

Simmons Booted Three Chances Behind Hughes—Daring Base Running.

ROCHESTER, July 24.—After being pounded out of the box Monday, Bill Bailey came back against the Hustlers today and Providence won, 5 to 3. Hustler's defence cracked behind him, while spectacular base running by Platte, who hit for three sacks, helped to put the visitors in the running. Score: Providence, 5; Rochester, 3.

Providence's defence was shaky, and Bailey's hitting was excellent. He hit for three sacks, and helped to put the visitors in the running. Score: Providence, 5; Rochester, 3.

GUELPH HAD LUCK DOWNED RED SOX

Defeated Brantford on Four Hits—Some Poor Base Running by Red Sox.

BRANTFORD, July 24.—Guelph had all the luck of the game here today, and knocked one from the lowly Red Sox on four hits. The score was 2 to 2. Poor base-running let the Sox the game, catch him. Tyson continued to third and scored when Wright let the return home get away from him. Gilhooley was safe on Wright's error, and scored second. He went to third on Wright's error, and scored second. He went to third on Wright's error, and scored second.

PETERBORO GOT ELEVEN HITS

But Booted at the Critical Stages—Score Three-One.

PETERBORO, July 24.—The Petes had eleven hits and sixteen men left on bases today when Berlin won the first of his series by 3 to 1. Berlin got but four hits off Sterling, and no passes, but errors helped them in the run-getting. It was boaters' day and a big crowd was present. Score: Peterboro, 11; Berlin, 3.

RAIN STOPPED LEADERS.

The rain stopped the Newark, Buffalo game, and all the National League games. It was an off day in the American League.

LEAGUE LEADERS HERE TODAY

Newark, the league leaders, open a four-game series with the Leafs at the field this afternoon. The Indians come from a very successful stay in Buffalo, and Joe Kelley's Leafs will have to jump up their big clubs to win the series from the Redskins. Our old friend Wyatt Lee will be along, and will pitch one of the games for Newark. This afternoon's game will be called at 3:30 o'clock. Brown will pitch for Toronto.

HOME BANK DIVIDEND.

A dividend at the rate of seven per cent. per annum upon the paid-up capital stock of the Home Bank of Canada has been declared by order of the board of directors on and after Monday, Sept. 1, 1913. The transfer books will be closed from Aug. 17 to 31, 1913, both days inclusive.

GOOD CROPS IN WATERLOO.

BERLIN, July 24.—(Special.)—Geo. Herner of Williamsburg, near here, has an excellent yield of hay this season. He has cut 13 acres which yielded 43 loads, or two and a quarter tons to the load. This averages over three tons to the acre. This is an exceptionally good yield and is an indication of the crops in Waterloo County.

GREAT SOUTHPAW IS AFTER A NEW RECORD

Providence's southpaw, Jack Dunn, is looking for a new record. He has pitched 100 innings in the past season, and is looking for a new record.

ERRORS HELPED DUTCHMEN TO WIN

Peterboro got eleven hits but was booting at the critical stages. Errors helped the Dutchmen to win.

SOME MIGHTY GOOD BARGAINS.

Already storekeepers are beginning to prepare for the fall season, as is shown by the increasing number of clearing out sales. At such times the public is fully aware Ed Mack will be much in evidence, and he is again on the job with the offer of mighty good bargains in fancy tweed and worsted suits and overcoats. This is an exceptional opportunity and these will be found in sizes to suit everyone.

CITY MUST PROVIDE SEWAGE OUTLET To Prevent Outlying Districts Contaminating Sanitary System. ANNEXATION PROBLEMS Ald. May Says Outside Property Owners Should Confer Among Themselves.

"Now that Toronto has adopted a comprehensive policy of annexation it is well to give consideration to conditions bearing upon enlargement of the area of the city," said Ald. May yesterday. "A dominating fact is that populous districts are rapidly spreading beyond our northeastern and northwestern borders, and in defence of our sanitary system there must be proper sewerage provided in the near future. Necessarily it is in our interests to have those sewers conform to our system, and that works out to an extension of our system. We would not permit those northern districts to contaminate the waters of the Don and the Humber with sewage, as the contamination would extend to the bay and the lake.

"Those districts will eventually put it up to us to provide them with a sewage outlet. They now form part of the area in which North Toronto has a central position, and we must take care of North Toronto sewerage in the near future. In the meantime we should keep tabs on sanitary conditions in the outlying districts. Imperfect sewerage and the use of well water invite an epidemic of contagious disease that might overrun the city. "Another pregnant fact is that we cannot shut out those districts from getting a water supply from the lake. This undoubtedly means the extension of our water mains beyond the northeastern and northwestern borders. Were a strong north wind to combine with a fire under good headway in the populous and unprotected districts beyond our northeastern and northwestern borders, the flames might easily spread within the city limits and cause our citizens a loss amounting to many thousands of dollars. Furthermore, a water supply is essential to a sewerage system. "Another feature of the annexation issue is that while our city develops populous districts immediately beyond our borders, speculators will persist in investing a few thousands in getting radial franchises there and compel the city to eventually expend many more thousands in buying out the franchisees. "Three Great Factors. "Those are the three great factors in the annexation issue," Ald. May said. "We cannot avoid giving them more and more serious consideration. They are here to stay. We have tackled the situation by adopting a policy of making the property benefited pay for local improvements. We should systematically go into the matter of the reasonable obligations of the city and the outlying populous districts to each other, and endeavor to establish a harmonious understanding as to what measures should be adopted in the safeguarding of mutual interests. "On our part we have now adopted a sewerage plan which can be applied to all of the proposed metropolitan area. We have also solved the problem of a pure water supply for that area. We have also adopted a policy under which annexation would be automatic. "In all reason, now, the property owners of the outlying districts should confer among themselves upon their obligations to the city. It is unreasonable to put the city in the position of the party who has to do all the planning, all the talking, all the legislation-getting, and bear the bulk of the expense in keeping up with the rapid growth of Greater Toronto," Ald. May declared.

O. D. CASSELMAN IN THE RUNNING Will Contest Dundas Convention Whenever A. Broder, M.P., Retires. OTTAWA, July 23.—(Special.) O. D. Casselman, an ex-president of the Conservative Association of Dundas County, and a leading merchant of Chesterville, in that constituency will contest the convention against all comers, whenever A. Broder, M.P., retires. The story that Mr. Charles McLean of Brockville, son-in-law of the Liberal, had been offered the Conservative nomination, is vehemently denied by leading party workers at Morrisburg, Winchester and Chesterville. It is further intimated that Mr. Casselman will have the approval, both of Mr. Broder, M.P., and Sir James Whitney, its high political circles here, it is said Mr. Broder, M.P., was slated for the chairmanship of the highway commission, which measure was manifested in the senate last session. Mr. Broder, by the way, was first elected to the Ontario Legislature in 1875, and first came to the notice of commons in 1896.

Cities in the Making CITIES in the making take two imaginations and a large pocket book. One man has to look at vacant ground with grass on it, sometimes with a dump pile and tin cans on it, and he has to see it laid out in well paved streets. His imagination and his pocketbook are necessary. Then comes your imagination. You have to see the city moving out that way. You have to see the people coming out here for more room and air. You have to see this territory filled up with new, fine homes. And you have to see that all of this offers a great opportunity for you. The time has passed when cities, like Topsy, "just grow." Now they are made to grow, and their growth is faster and healthier. There is no element of chance in buying real estate. It is bound to increase in value. For people make real estate values. Better investigate these properties. Turn to the Real Estate Advertising in the Want Ad section. And every time you answer an Ad please mention this paper.

IMPROVED TONE IN TORONTO EXCHANGE

For First Time in Some Days Market Showed Real Rallying Power.

BRAZILIAN UP A POINT

Fair Demand For Favored Issues—Drop in Sao Paulo Bonds.

For the first time in a number of days the Toronto Stock Market yesterday showed a disposition to respond to the clearing skies on the financial horizon.

European news was generally favorable and sentiment was undoubtedly affected by the continued firmness of prices in Wall Street.

The market accomplished nothing at all until after the noon adjournment, and the improvement which occurred in the last hour was only worthy of comment in that it followed a period of continued weakness.

When trading began bidding for Brazilian and carried the quotation up a full point in their anxiety to get stock, the speculative fraction took heart, since it had been effectively demonstrated that the erstwhile leader had not been rallying power.

In the general list mid-summer dullness reigned supreme, the grain of comfort derived from the firm upturn in the Toronto Railway was bid for above 138 all day, and closed wanted at 137 1/2.

On Tuesday, July 24.—Bank clearings for the week ended today \$3,874,466, as compared with \$3,458,389 for the corresponding week last year.

OTTAWA, July 24.—Bank clearings for the week ended today \$3,874,466, as compared with \$3,458,389 for the corresponding week last year.

QUEBEC, July 24.—Bank clearings for the week ended today \$3,206,585, compared with \$2,829,582 for the like week in 1912.

MONTREAL, July 24.—Bank clearings for the week ended today \$4,889,578, compared with \$4,538,918 for the corresponding week in 1912.

On January 9 the twenty railroads sold at 118 1/2 and the twelve industrial stocks at 85 1/2.

At 10.50 the lowest point, the railroads and the industrial at 72.11, a decline of one point from the high of 119.12.

At Monday's close the average of the twelve industrial stocks was 78.16, and of the railroads 85.16.

BANK CLEARINGS OFF SEVEN MILLION

Another Large Decrease in the Toronto Figures—Other Cities Report Losses.

SPURT WAS TEMPORARY

But in Ensuing Dulness Prices Were Not Allowed to Sag.

Toronto bank clearings for the week ended yesterday were \$3,874,464, the smallest total for the six-day week in a long time.

Compared with the previous week there was a loss of two and a half millions, and compared with last year, a decrease of over seven millions, or 15 per cent.

This was a smaller decline than that of the previous week, but was considerably above the average of the past month or two.

The bank clearing figures of this city have shown a loss in every week for some time now, and considerable interest is being taken in the weekly exhibit on that account.

It is quite evident that the decreases are due in no small degree to the diminished activity in stock market and real estate speculation.

It is also apparent that the slight business reaction around the province has played a part in inspiring the poor record.

Reports from all over the districts indicate that owing to the present monetary situation, business is falling behind last year, and that in manufacturing centres there is a tendency to move very conservatively.

In view of this fact the bank clearing exhibit is not at all surprising.

BEARS WERE BUSY IN MINING MARKET

Pearl Lake Pounded Down Again and General List Eased in Sympathy.

The bears were busy in the mining exchanges again yesterday, and succeeded in pounding down values to considerable extent.

Their efforts were centred on Pearl Lake which looked more or less vulnerable after its recent advance, and the response to their operations was to withstand continuing liquidation.

Sentiment was adversely affected by the pressure, and consequently the list evidenced the disposition on the part of the holders to stand firm.

It is hardly likely that public confidence will be built up by such regrettable methods as those which appear to have been employed in the market at this season.

Speculation was to a great extent disappeared from the exchange, and a more general participation in the day-to-day dealings, there is little chance of any further improvement.

Meanwhile, such incidents as the rise and fall in Pearl Lake savor much of manipulation, and are simple, and as such are more likely to keep the public away than to attract it to the exchange.

Shorts Renew Their Lines Whatever the result behind the decline in Pearl, it was quite evident that some of the shorts were not so easily satisfied as they had been in their short selling on the setback, the shorts continuing confidence with each successive recovery.

The feature of the day was the five points at 3 1/2, and then rallied slightly to 3 3/4, and only to recover to 3 1/2 in about two days.

There were several other weak spots in the list, but the general downward being no doubt in response to the bear attack on the active leader.

Hollinger, which has been a steady performer, was now dropped below the sixteen dollar mark for the first time this month.

SPURT WAS TEMPORARY

But in Ensuing Dulness Prices Were Not Allowed to Sag.

NEW YORK, July 24.—The course of today's dull stock market was a curious medley of advances and declines, which in the later dealings gave way to general and well sustained rise.

Initial government issues also registered lower prices. As a partial offset various specialties, including People's Gas, American Tobacco and National Biscuit rose 2 to 4 points with less material gains in more obscure issues.

After a quiet afternoon a brief but vigorous buying movement in the S. S. Union Pacific, Amalgamated Copper, and Pacific and Reading lifted prices from 1 to 2 points through the list.

This was followed by a hurried covering of profits, after which the market reacted to its early dulness, but with no adverse effect on quoted values.

Indeed, best of the day was the final hour, when business was at low ebb. In the final dealings the list receded fractionally, but closed strong.

Piling Up Reserves. The day's slight of news embraced the weekly report of the Bank of England and the Bank of France, the former disclosing a substantial increase of reserves and gold, and the French institution showing a gain of \$2,500,000 in gold and a substantial decrease in advances.

American were generally lower in gold and for the first time this week the Paris bourse was steady, despite some mistyings respecting the local banking situation and Bond's market was decidedly weaker, a sharp fall in the shares contributing largely to that condition.

Keeping Eye on Crops. Home and foreign deals largely with the crops, Kansas advices indicating more or less exaggeration as to corn damage, and wheat in the northwest was much improved.

Estimates of U. S. Steel earnings for the third quarter of the year, to be issued next week were estimated at \$39,000,000, compared with \$25,000,000 last year.

The general bond market was steady with pronounced strength in Rock Island and all government issues were weak.

PEACE IN BALKANS WILL AID MARKET

Erickson, Perkins and Co. had the following: The clearing Balkan situation with a higher range for some of the Balkan securities in London, was unquestionably a factor in the rise in the market here and abroad.

It is now confidently felt in banking circles that order will be long take the place of chaos in the Balkans. If so, the money market will be appreciably benefited.

England has information that there is much distress in the Mexican Republic, but England is expected to work in harmony with the United States. Present Wilson will pursue, so far as possible, a pacific policy.

CATTLE MARKET SLOW AND LOWER

Receipts of live stock at the Union Stock Yards were 37 cars—3,022 cattle, 1,096 hogs, 1,683 sheep and lambs, and 2,211 calves. There were few good to choice well-finished cattle, but too many of the medium, common and inferior unfinished classes.

MONEY TIGHTER IN FRANCE THAN HERE

Unsettled Over Balkan War Leading Factor—French Dislike U. S. Issues Now. NEW YORK, July 24.—(Special.)—Maurice Leon, the French lawyer, upon his return from Europe states that money is much tighter in France and on the continent than here. The factor which has more effect there than here is the uncertainty over the Balkan development. Mr. Leon believes that the money situation there and in New York will tend to equalize, that Paris money will slacken slightly and New York will stiffen to meet the situation.
