Supposed Drunk Taken to Hospital Died in Less Than an Hour—His Name is Gillespie—Boy Consigned to Industrial Farm Jumped From Moving Car.

Thought to have been suffering from carbolic poisoning, a man named Gillespie died in the Western Hospital last evening. He was first found helplessly drunk by a constable at the corner of Harbord and Brunswick, about 8 o'clock in the evening, but when the police patrol arrived the drivers, believing the man was in a bad way, took him to a nearby physician, who ordered his removal to the Western Hospital, where he died about 9.45.

Before Mr. Graham began his speech, Hon. J. D. Reid, acting minister of railways and canals, presented a statement of the intercolonial and a general review of the work of the department of railways and canals for the fiscal year ending on the 31st inst. He claimed a surplus of \$800,000 for the intercolonial, which he said was a good showing in view of the increase.

PETROLEA, Ont., March 24.—Andrew Morrison of Copseston, formerly one of the best-known oil men of this part of the province, died at his home there this morning, following an illness of about a week. The death of his wife a couple of weeks ago brought on his death. He was 72 years of age.

Act Becomes Operative Not Later Than January, Nineteen-Fifteen, and May Be in Effect Much Sooner—Hundred Thousand Dollars Annually for Administration.

At the very latest date the Ontario workmen's compensation act becomes operative on January 1, 1915. Indications, however, point to the machinery of the new court getting into motion as early as November, and if the government finds it possible to have all things in working shape by this latter date there will be no delay in the proclamation.

Canadian Press Despatch. LONDON, March 24.—Westminster continues to be a seething cauldron over what the Liberals now denounce as the "mutiny of the army aristocrats" against democratic government.

Before they left London yesterday they sent telegraphic messages to their brother officers in Ireland that they had found support "from the highest quarters."

KILLED CALMETTE TO SAVE HUSBAND

Caillaux's Threat of Violence Drove Wife to Shoot Editor.

TORTURE WAS ACUTE

Unable to Endure Strain, She Took Law Into Own Hands.

Canadian Associated Press Cable. PARIS, March 24.—Madame Caillaux has been taken from the prison of Saint Lazare to the Palace of Justice.

As she passed thru the corridor leading to the court, where she was to be examined by Henri Boucard, the investigating magistrate, she saw a group of photographers and said: "Let them photograph me. Then I hope they will be satisfied."

When she entered the court, M. Boucard said to her: "Give us an account of what you did on Monday, the day you shot Gaston Calmette."

Mme. Caillaux replied: "Shortly after 8 o'clock in the morning I received Bernard Monier, chief judge of the civil tribunal of the Seine, with whom I had spoken, as I have previously told you, on the question of whether any legal means existed to prevent the publication of my private letters in The Figaro.

"Judge Monier was unable to make any suggestion as to how he could prevent it. He left my house at 8.30.

"Afterwards I drove to the ministry of finance and told my husband what Judge Monier had said.

"My husband was furious. He exclaimed: 'Then there is nothing else for me to do except to go and break his neck.'

"I did not doubt at that time that my husband intended to commit some act of extreme violence.

"In this state of mind we took our lunch together at home. The meal was a wretched one. Our cook, who was to leave us that evening, had neglected her work. I could eat nothing, as I was accustomed to a severe diet."

Alarmed by Threat. Mme. Caillaux seemed to recollect keenly while she was relating it the annoyance she had suffered through that day. She continued:

"Altho we talked a good deal about the bad quality of the luncheon, I was in reality becoming more and more preoccupied with the nervousness of my husband. I could think of no means to prevent the publication of two letters which I feared would appear in the newspaper.

"My fright over my husband's words grew, and I felt the imperious necessity of taking some step against the editor of The Figaro.

"I felt so nervous and I reiterated that it seemed impossible for me to go to the embassy that evening, and I telephoned that I was ill. Then more than ever I became obsessed with the desire to go and see Gaston Calmette. A terrible fear clutched me lest my husband, who was a remarkably good shot, should kill M. Calmette, in my delirium I already pictured to my mind the figure of my husband on the prisoner's bench, and I was already confronted with the consequences of such a frightful tragedy. What added to my anguish was a deep personal conscientious scruple, as there was a use concealing from myself that I should be the involuntary cause of this terrifying drama.

Mme. Caillaux told of her movements on the afternoon of the crime among them being her visit to a gunsmith to buy a revolver.

RELATIONS WITH JAPAN WILL NOT BE ALTERED

WASHINGTON, March 24.—Carefully protected by the iron rule of custom against the vicissitudes of international politics, the external relations of Japan will remain unaffected by the resignation of the Japanese cabinet as a result of the disagreement of the two houses of parliament over the naval estimates.

Consequently it is anticipated by the officials here that there will be no substantial change in the tone of the negotiations that have been in progress between the United States and Japan over the question of Japanese land ownership in this country.

KARLUK FRICTION STORIES REVIVED Capt Bartlett Said to Have Disregarded Advice—Believe Karluk Safe.

Canadian Associated Press Cable. SEATTLE, Wash., March 24.—All the steam whalers in the Arctic Ocean next summer will keep a sharp lookout for the expiring ship Karluk of the Stefansson expedition. It is the understanding here, however, that the Canadian government believes the chances are in favor of the Karluk being safe in the ice, and Stefansson himself is known to take that view. Capt. Peterson, skipper of the steam whaler Herman, which is about to leave San Francisco for the Arctic, commanded the Karluk when she departed from San Francisco for Victoria last June and expected to command her on the Arctic expedition, but was superseded by Capt. Robert Bartlett, who was sent out from the east by the Canadian government. There was some friction between the two commanders, it is said, when Bartlett took over the boat at Victoria. Later, it is said, Bartlett waived advice given him by the mariners, who told him of special dangers from winds, currents and ice near Point Barrow. Capt. Peterson afterward took command of the Arctic whaler Albatross, which was crushed in the ice north of Plaxman Island, and abandoned as a total loss Sept. 26, 1913. Peterson came out from the Circle City and Fairbanks and 19 of his crew found shelter on the steam whaler Belvedere, which is still frozen in west of Herschel Island.

GRAND VALLEY RAILWAY PURCHASE IS APPROVED Galt Citizens Pleased With Result of Vote in Brantford.

GALT, March 24.—The purchase of the Grand Valley Railway by the City of Brantford, as endorsed by the ratepayers' vote yesterday, creates a good impression in Galt, which likes being linked so closely to the Telephone City. Despite varying fortunes for several years, the Grand Valley has maintained an excellent service and enjoyed the confidence and support of its community. Under new management it is learned nothing will be left undone to improve the Galt-Brantford line and further popularize the route, which is a link in the trolley chain clear thru to the Niagara border.

WHAT DYSPEPTICS SHOULD EAT A PHYSICIAN'S ADVICE. "Indigestion and practically all forms of stomach trouble, nine times out of ten, due to acidity; therefore stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Unfortunately, such a rule eliminates most foods which are pleasant to the taste as well as those which are rich in blood, flesh and nerve building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in that vital energy which can only come from a well fed body. For the benefit of those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on gluten protein, I would suggest that you should try a meal of any food or foods which may like, in moderate amount, taking immediately afterwards a teaspoonful of biaurated magnesia in a little hot or cold water. This will neutralize any acid which may be present or which may be formed, and instead of the usual feeling of uneasiness and fullness, you will find that your food agrees with you perfectly. Biaurated magnesia is doubtless the best food corrective and antacid known. It has no direct action on the stomach; but by neutralizing the acidity it does more than could possibly be done by any drug or medicine. As a physician, I believe in the use of medicine whenever necessary, but I must admit that I cannot see the sense of dosing an inflamed and irritated stomach with drugs instead of getting rid of the acid—the cause of all the trouble. Get a little biaurated magnesia from your druggist, eat what you want at your next meal, take some of the biaurated magnesia as directed above, and see if I'm not right."

ALBANY N. Y., March 24.—Mayor Mitchell's New York police bill was killed in the assembly today by a vote of 49 yeas to 91 noes. An amendment proposed by Assemblyman Brennan, which would have given the mayor power of veto in the most important cases, while withdrawing the right of appeal to the courts, was rejected by a vote of 18 yeas to 120.

The only Democrat who voted for the measure, by which the mayor hoped to increase Col. Goethals as police commissioner, was Assemblyman Soule of Schenectady. The Progressives and Independents were almost evenly divided.

AMERICAN ASSOCIATED PRESS CABLE. WASHINGTON, March 24.—Congress is on the verge of the most vigorous legislative struggle that has ever taken its proceedings in many years—the contest over the administration proposal to repeal the provision of the Panama Canal Act granting toll exemption to American coastwise shipping.

OPERATION FORMIDABLE. Considerable speculation exists as to the strength of the opposition to the repeal in both houses of congress, composed of reversal of policy, while claiming an assured majority in both houses, admitting that the opposition is formidable. It is an unusual situation confronting the Democratic party in the house, where the president has arrayed against him the majority leader, Mr. Underwood, Representative like Fitzgerald, chairman of the appropriations committee, Representative Kitchin of North Carolina, ranking member of the ways and means committee, and according to undated reports the speaker of the house. Whether Speaker Clark will yield the gavel to take part in the debate is a matter causing the repeal assumptions considerable concern.

ON THE N. T. R. VESTIGATORS

Charge That Lynch-Staunton and Gutelius Were Determined to Discredit Railroad Was Made by Ex-Minister of Railways—I.C.R. Surplus Was Smaller Last Year.

(Continued From Page 1.)

charge and the sharp advance in the price of coal and other material. Forty millions was the cost of the Hudson Bay Railway and the National Transcontinental. Mr. Reid took occasion to comment upon the report made by Mr. Gutelius and George Lynch-Staunton, which he said, demonstrated beyond peradventure that at least \$100,000,000 of the country's money had been wasted by the N. T. R. Commission during the lifetime of the Laurier government.

This was apparently just the good commenced his assault upon the investigating commission with such heat and earnestness that he was not allowed to clear to the echo by his colleagues of the opposition. They followed his speech with attention and frequent applause and there was a great demonstration by the Liberals in his honor when the house adjourned at midnight.

Cost of Welland Canal. Dr. Reid, upon moving the house into order to consider the estimates for the department of railways and canals, said it was customary at this time for the minister to submit his financial statement to the house. In the absence of Mr. Cochrane, it became his duty to do this. There was first to be considered the canal of the country. These estimates, he said, were for the year ending March 31, 1914, and during the past year had called for no special expenditure on the part of the government except in the case of the Welland Canal and the Trent Valley Canal.

He was glad to report satisfactory progress upon the new Welland Ship Canal. Contract for the work aggregating \$20,000,000, and others would follow. The canal had been estimated to cost \$50,000,000, but the indications were that the actual cost of construction would be considerably less. In the case of the Trent Valley Canal the government hoped soon to have a report on the subject. This would greatly add to the business of the canal, and it was hoped that within a reasonably short space of time the great waterway would be opened to the Georgian Bay to Lake Ontario.

Turning to railways, Dr. Reid first dealt with the Hudson Bay Railway. The estimates for the fiscal year ending the 31st instant were estimated at \$2,822,973, and the expenditures at \$1,238,000. This would mean a surplus for the year of about \$1,600,000, which would be passed to the equipment renewal account instead of being turned over to the railway general fund. In some former years, the acting minister reminded the house that the I. C. R. had paid out as a result of a deficit during the past year as a result of an increase in wages and also because of the sharp rise in the price of coal.

The Prince Edward Island Railway for the fiscal year ending the 31st instant had a deficit of \$145,000, which was larger than usual because of an increase in wages and higher prices of fuel and material.

Hudson Bay Railway. Turning briefly to the Hudson Bay Railway, Dr. Reid said that the road as projected was 418 miles long. Steel had been laid to mile 90 and grading completed to mile 130. Substantial progress had been made on the section up to mile 240 where the road made the crossing of the Nelson River. Work between this point and the ninety mile crossing would be commenced at an early date as supplies had already been sent in. The total amount of work to be done was estimated at \$1,000,000.

Turning now to the National Transcontinental Railway, Dr. Reid said that the expenditures up to Dec. 31 last were \$4,822,147. Dr. Reid then proceeded to make the picture even more gloomy by suggesting that there should be added the cost of the Quebec bridge, \$17,000,000. Hon. George P. Graham sarcastically suggested that the cost of the costly suggested that the cost of the building might also be added.

SURE OF GETTING THEIR MONEY BACK

E. R. Wood Tells Why British Capitalists Pour Money Into Canada.

INSURANCE SITUATION Discussed by Thomas Bradshaw of Ames, at Last Finance Forum.

Mr. Graham then made a charge contained in the report to the effect that the Laurier government, in erecting and equipping the shops at Transcona, had not only inspired, but had practically written that part of the report of the commissioners which dealt with the subject.

Referring to the charge made by the investigating commission that the late government had constructed some miles of double track contrary to statute, Mr. Graham read from the statutes to show that the government had been empowered to construct a "line of railway." The act did not state whether this line was to be single or double track.

At the evening sitting Mr. Graham dealt exhaustively with that portion of the report of Messrs. Lynch, Staunton and Gutelius, which denounces the N. T. R. Commission for having wasted \$40,000,000 in the construction of the continental shops. Mr. Graham went on to show that the legality of the act had been questioned two or three years ago, and that at that time E. L. Newcomb, then minister of the interior, had stated that the commission were bound by the contract between the government and the Transcona shops at Transcona and other shops at terminal points it required.

Why was it, Mr. Graham asked, that Messrs. Lynch, Staunton and Gutelius, who were not only inspired, but had practically written that part of the report of the commissioners which dealt with the subject, should have been so sure of getting their money back? They knew their money would come back with interest.

British Capital Essential. "British capital and British confidence are absolute essentials of our development and expansion. They have been necessary for the gigantic works we have completed and are necessary for the completion of the undertakings in which we are engaged. We can keep British confidence by being worthy of it, and as we are worthy in word to say so, we are worthy in deed to show it."

Why was it, Mr. Graham asked, that Messrs. Lynch, Staunton and Gutelius, who were not only inspired, but had practically written that part of the report of the commissioners which dealt with the subject, should have been so sure of getting their money back? They knew their money would come back with interest.

Relatives of Missing Man Say Body at Morgue is Not His.

MORE FINDS NOT LIKELY Ruins Have Been Thoroughly Searched—Fifty Dollars for Firemen's Benefit.

Changes of identifying the unnamed body taken from the Woodbine Hotel ruins are not so good as they were on Monday. Yesterday the sister and two brothers-in-law of Charles Hurston, whose body it was thought to be, started the authorities by saying it was not that of their missing relative.

There seems to be no immediate solution of the mystery. It is surmised by some that a mistake may have been made in identifying the body. All of which have not been buried, but this is not considered probable since means of telling whose the remains were. Since the ruins have been searched it is not likely another body will be hidden there.

Counsel for Management Admits There Were No Fire Ropes, But Says Plans Were Passed and Work Carried on Under Supervision of Fire and Architect's Departments.

Much new detail but no disclosures of great importance was the result of a two and a half hours sitting of the Woodbine Hotel fire inquest last night. Twenty witnesses, all connected with the Woodbine staff, gave evidence.

Midway in the hearing, W. G. Thurlow, counsel for the Woodbine Hotel, made a rather startling statement. He objected to the crowd enquiring of witnesses after witness as to fire appliances, and said:

NEWS OF SPECIAL INTEREST TO WOMEN

SECOND SUFFRAGE ASSOCIATION ORGANIZED BY ONTARIO WOMEN WILL BE NATIONAL IN SCOPE

Door is Wide Open to Suffrage Leagues Thruout Canada, Tho Meagre Minority at First Meeting Desired to Hold Association Within Provincial Bounds—Mrs. L. A. Hamilton President.

Yesterday afternoon at an open meeting held in the studio of the Margaret Eaton School a second national Canadian suffrage society was launched. An unusual amount of interest was manifested in the proceedings. All seats were taken and a number stood during the entire meeting, so attractive did it prove to those in attendance. In addition to a fair-sized general audience, there were present representatives and delegates from the suffrage organizations of Ottawa, London, Montreal and Toronto. The local societies represented were the Equal Franchise League, Beaches Progressive, Junior Suffrage and Teachers' Suffrage. Mrs. Gordon Wright of London was elected to the chair. In her opening remarks, Mrs. Wright said she believed the meeting upon the work of which they were about to begin would be one of great importance. She requested the present to ask the blessing of God upon the undertaking. Miss Burt of Ottawa was then elected secretary pro tem. The presiding officer called upon Mrs. Brown, secretary of the Equal Franchise League, to make a statement of the reasons that had brought about the meeting. In complying Mrs. Brown stated that she had just returned from a trip to the west, where she had been astounded at the number of women who were not satisfied with the existing suffrage literature might be sent them. Toronto in itself was not able to meet the demand, and it was therefore obvious that a national society able to meet all calls was an immediate necessity.

A Dominion-Wide Body. The following resolution which had been prepared to place before the meeting, was then read: "Whereas it was considered advisable some time ago to form a national suffrage society and such society was duly incorporated, and whereas some of those who subsequently joined the society are not satisfied with the manner in which it is being conducted and have withdrawn or intend to withdraw therefrom; whereas it is considered preferable to form a new association rather than take steps which would result in pain and trouble where harmony should exist; whereas the rules of the present society provide that under certain circumstances two societies should be formed instead of one, therefore it is resolved that a new national society, open to the whole of Canada, and including the Dominion of Wales, of the Dominion be this day formed and the meeting proceed to take immediate steps to give effect to the resolution."

"The Vicious Circle." After the resolution had been read by the secretary, the president asked for discussion. Mrs. Barker, in the wording "deemed advisable" somewhat vague. To elucidate matters Mrs. Lang read a statement she had previously written for publication, giving an account of the suffrage organization up to the point where notices had been sent out for the annual meeting to be held on the 24th and 25th of the present month. This was later canceled, but the progressives, as the new organization called themselves, insisted on a meeting being held on the 12th. Here the old National refused to allow anyone but themselves to vote, claiming that they alone had the right to do so. The statement ended with the assertion that "the vicious circle" was then complete and the meeting hopeless.

Why They Withdrew. In response to Mrs. Barker's query as to what societies were affiliated with the present body, Mrs. Brown replied it was impossible to answer as the corresponding secretary of that body, when asked for the same information, had stated that the number of societies was unknown. A letter from Mr. Munis of the Canadian Suffrage was then read, for notification of the Equal Franchise that they were regarded as troublesome, their affiliation, which at first had been accepted, had been rescinded. A cheque of \$5, the amount of annual fee, was also returned. A reply from the Equal Franchise, denying the right of the Suffrage to take the action they had, but also stated that the Franchise gave notice of withdrawal. Federal Arrangements. At this point Miss Carruthers enquired if the meeting were local or provincial. Mrs. Wright explained that all who had been convened had the right to vote, and then prepared to put the motion as stated above to the meeting. After the resolution had been moved by Mrs. Brown, seconded by Mrs. Maciver, and read by the chair, there was considerable delay as to who should vote, and also as to the advisability of passing it in its present form. Miss Carruthers made a strong appeal to change the nature of the purpose of the motion. While having no sympathy with the old association she thought it would be much better to form a provincial organization. It appeared to her somewhat presumptuous for the meeting, which only represented a studio-full of the women of Canada, to form for the entire Dominion. She reminded the meeting, too, that they had been told by Sir James Whitney that they did not represent Ontario. Better organize for themselves than for the nine provinces of the Dominion. She concluded with a reiterated plea for a strong provincial society. In reply to Miss Ross, who enquired what societies had been asked to send representatives, the president, Mrs. Wright, spoke for London, Miss Burt for Ottawa, Mr. Lewis of the Montreal suffrage for his city, Mrs. Hamilton for the equal franchise, and others for other Toronto organizations.

Officers Elected. The meeting then proceeded with the election of officers with the following results: Hon. President, Lady Drummond, Montreal; president (by acclamation), Mrs. L. A. Hamilton, Toronto; 1st vice-president, Mrs. Gordon Wright, London; 2nd vice-president, Miss Carrie Derrick, Montreal; 3rd vice-president, Mrs. Mary Crawford; 4th vice-president, Mrs. Cassin, acclamation; corresponding secretary, Mrs. W. R. Lang; recording secretary, Miss Jessie McLeish; treasurer, Mrs. Maciver. Mr. Lewis was elected convener of the finance committee, but declined. Mrs. Leathes was then appointed. Mrs. Campbell, convener press and literature; Mrs. McClung, convener of legislation committee. On motion of Mrs. Tilly, seconded by Mrs. Maciver, it was carried that the appointment of provincial vice-presidents should be left to the respective provinces. Thanked Mrs. Wright. A vote of thanks was given Mrs. Gordon Wright for the able manner in which she had conducted the meeting, after which she left to take the six o'clock train for London. The delegates then formed themselves into a committee, and went over the constitution which had been prepared. This will be given to the executive on Saturday and will afterwards be presented to the annual meeting of the acceptance by that body it will become law. Remarkable Record of Thomas E. Shea, the Popular Character Actor. Thomas E. Shea, who announced from the stage at the Grand Opera House last Monday evening that on account of business arrangements this would be his last appearance in Toronto in "The Belles" and "Dr. Jekyll and Mr. Hyde," has presented the character of Mathias in "The Belles" 2500 times, and has appeared in the dual role of Jekyll and Hyde 1800 times. This is a remarkable record for an actor, and evidences his popularity in the his heart for Toronto, as the theatre-goers here have always shown their appreciation of his work by a liberal patronage. In thank the theatre-goers for the cordial reception they extended towards him on his several visits.

HOME FOR DELINQUENT GIRLS. HALIFAX, March 24.—The many interested in the problem presented to the department of dependent and neglected children and to other workers by the number of delinquent girls in the institution to receive them, on the one hand, and the lack of an other will receive with gratification the news that a farm of 250 acres within the limits of the Town of Truro has been purchased by the committee, and it will be opened as a training home for delinquent girls about July 1. The house is a large one of fourteen rooms, and will be used while the other buildings are in process of erection.

The amount of Food. The total quantity in 24 hours is determined by the age and to a certain extent by the size of the child. The amount of sugar and milk is determined by the weight, as we explained yesterday. After deciding upon the amount of milk and sugar, look into the table given below for the total quantity in 24 hours, and add enough boiled, cooled water, to make up that amount.

Table with columns: Age, Total Quantity in 24 hours, Amount at each Feeding, Interval between Feedings, No. of Feedings in 24 hours.

Getting the Window Boxes Ready. In having your window boxes made be sure that the boxes are not too deep. A window box full of good soil is a heavy box to lift, and besides being heavy is very inconvenient to manage. Many place their boxes upon the outside window sills, leaving them undisturbed in this position through the summer. If it is at all possible to manage your boxes in the following manner you will find it an advantage over the sill situation: Iron or wooden brackets are fastened to the wall below the level of the sill that the boxes when placed upon these supports are just below the level of the stone or wooden sill. The management of the fashion of placing the boxes should offer no difficulty since the whole thing depends simply upon suitable strong brackets to support the boxes.

Problems of Village Life. England is turning her attention to the revival of the village which deeply ingrained into the life of that nation have already made their appearance in Ontario. One of the latest books published is a fair trial of the village with rural depopulation. Mr. Bennett's summing up of the conditions which have driven the strong farmers from the fields to crowded streets, and his indication of a curative policy will be of interest to many in Toronto who have studied the free breakfast issue published each Monday morning by the superintendent of the Yonge Street Mission. Mr. Bennett does not solve the problem. It will take more than a book to do this. "Problems of Rural Life" points out some features of the situation which seem as if they might be correctable. Mr. Bennett's preliminary sketch of English rural history closes with the statement that by the end of the nineteenth century the laborer had "generally relapsed into apathy and hopelessness." The serf, deprived of any real opportunity of securing an independent livelihood, looking ahead to a long, hard life and pauperism to finish up with, had no privilege denied to his forefathers. He could leave the land. He is doing so; "silently, without consultation, and without murmuring, he rises up and goes. And it is this which in the course of time will bring salvation to him and his class. The agricultural laborer is indispensable; the nation cannot prosper without him. And this the nation is slow to recognize. Still but dimly aware of its cause or its threatened results, Englishmen are beginning to regard with vague and undefined dread the peril of the rural exodus."

CROWDS CLUSTER TO SEE GREEN WIG

Miss Gould Introduces Fashion in Toronto and Excites Much Wonder.

EFFECT WAS PLEASING Both Men and Women Stared Discreetly and Indiscreetly at Headwear.

Men and women who were down town on business yesterday morning were given a chance to judge of the effects of a green wig worn by an attractive young woman, when Miss Rita Gould, who is headliner at Loew's Theatre, appeared with this striking piece of headwear. The vast majority of men were too modest or discreet to stare openly at the apparition till it had passed them, but many women, with the open fearlessness of their sex in dealing with matters in which their sex are concerned, openly advanced in front of Miss Gould and almost blocked her path, till they were able to take in all the points of the innovation. Most of them admitted that the green wig was not so startling after all, tho all that some could say was such expressions as "For the Lord's sake look!" and "Give me a chance to get closer to it!" The "historic" training of Miss Gould stood her in good stead on more than one occasion and enabled her to keep her countenance and not laugh at funny remarks of street urchins. One police officer allowed his gaze to wander away from the direction of the street traffic to catch a glimpse of the green wig and then the traffic was allowed to take care of itself for a time till he was able to recover from his amazement. Another police officer was seized with uncontrollable fits of laughter at the sight of the green headwear. Miss Gould went shopping in several stores and drew upon her the admiration of many of the business women who foresaw new lines of business which their departments if the new fashion took hold of the elite.

Alive to New Trades. One downtown shop took occasion to display several colored wigs in the window in an effort to get in on the flood tide of any new business which might happen to flow from the first appearance of the gaudy wig on Toronto streets. But the belief was general that there would be no rush for these wigs till time was had for consultations between husbands and wives. "At any rate," remarked a young man, "she is frank enough, for nobody could be for one moment deceived that the hair she was wearing was her own." Miss Gould confided to her friends who accompanied her on a fashion pilgrimage that underneath the wig she had brown hair and could discard the wig at any time.

EFFICIENT HOUSEKEEPING BY HENRIETTA D. GRAUEL DOMESTIC SCIENCE LECTURER. For the Mopel Kitchen. An important and desirable improvement has been perfected to add to the range. It is a lighting device that enables user to light any or all of the top burners by pressing a button on the lighter. The tiny flame burns constantly in the end of the appliance and when the button is pressed the air admitted increases the flame so it reaches the burners. The cost of attaching and operating this is very little and saving, in cleaning up burnt matches and using matches, is considerable. Another new thing for particular housekeepers is a mop wringer. This is worked by gentle pressure on a lever and will wring a mop in less time than it takes to tell about it. The woman who keeps her hands soft and smooth will enjoy this contrivance, for with it one does not have to touch the mop or wet the hands. There has never been a more popular material for kitchen ware than white or blue and white porcelain, so a welcome is assured the new utensils made from this.

### WEDNESDAY MORNING, MARCH 25

#### THE SITUATION IN BRITAIN.

Another climax has been reached in the development of constitutional government in Great Britain. In some respects it is the most serious in centuries, but when the greater self-control of the masses is considered, the situation is not worse than at the time of Catholic emancipation or the reform bill. It is unique, however, in so far as it embraces all the phases of popular unrest that stirred the country at these epochs as well as at the time of Irish Church disestablishment, and carries the student back to the revolution of William III, who fought the battle of the Boyne to establish religious liberty for all faiths and churches; and back to Cromwell, who fought to overthrow the aristocratic-royalist domination of the people.

Today the situation presents a mixture of contradictions and historical somersaults, any attempt to explain which arouses fierce recriminations.

In the first place, the long quarrel between the aristocracy and the democracy has once more become acute. The growing power of the democracy has thoroughly alarmed the party which under wise guidance once set out to be the leaders and guardians of the democracy. The Lloyd-George budget, however, touched the self-interest beneath, and as a direct result the Parliament Act was passed after the rejection of the budget by the lords. The Parliament Act means the supremacy of the democracy in legislative affairs.

In the second place, the home rule issue has been before the nation for many years. Nominally an assertion of Irish nationality, the real principle involved is decentralization of government. It was the principle whose violation lost the American colonies to Britain. It was recognized in Canada and elsewhere. Under stress of contiguity and by coercion, it has been reduced to a smoldering condition in Ireland for generations. Last year it was recognized as a principle applicable not only to Ireland but also to England, Wales and Scotland.

In the third place, the power of the aristocracy, curbed in the house of lords, has asserted itself in the military arm. We have no desire to emphasize the seriousness of this phase of the situation, but whether slight or serious, the intimation given of the attitude of the aristocratic military officers is sufficient to mark the progress of the conflict from the hustings to the ballot box, from the house of commons to the house of lords, and from the gilded chamber to the mess room.

But the novelty of the whole situation consists in the fact that the new conditions have reconstituted the relations of all the old parties. The democracy of Ulster, which represents the sturdiest and staunchest of the old covenanters, repudiates the old causes of democracy and decentralization, and is aligned with the army and the aristocracy. The forces which looked with little favor on "Dirty James that lost Ireland" are at one with the British democracy in the demand for popular government and decentralization. The aristocracy and the army, inherently supporters of law and order and constitutionalism, are in defiance of the government of the day, and almost on the verge of acts which might precipitate the gravest crisis, and they have already carried forth the reprobation of an important section of the British press.

In any other country in the world such a state of affairs would have led to open revolution. But in Britain the stock market is unaffected. Business goes on as usual. Democracy will work out its destiny.

#### ORDER IN THE COUNCIL.

Controller Church successfully carried out a premeditated attack on the order of the city council when he lashed himself into hysterical fury and defied the mayor. Controller Church's reading of the Municipal Act, which states that "the head or other presiding officer may expel or exclude from any meeting any person who has been guilty of improper conduct at such meeting," would prevent the mayor calling on the police for assistance. Controller Church appears to think that Mayor Hocken should attempt to put the controller out without assistance. This fairly illustrates Controller Church's point of view. He would like to turn the city council into

ju-jitsu arena and have Mayor Hocken flip the lanky controller through the glass doors. The mayor has a clearer sense of what is due to the council, however, and Controller Church's prearranged demonstration only displayed himself as a rather discredited rowdy.

The tone of the council is on the whole very much better than it has been for some years, and it will be a pity if Controller Church permits himself to follow such an undignified and unprofitable course. He may become the rival of the great obstructive, Joseph Biggar, but he will not in this way advance the business of the city, nor enhance a reputation which the reluctance of the police did not adorn.

#### FUTILE CRITICISM.

"Maguire riddles bond sales. Lowest price on record." "Mayor tries to defend bond sales." These are typical headlines from a paper whose campaign against Mayor Hocken has been marked with an unscrupulousness and inaccuracy which are remarkable even for it.

The only criticism that had any point was that of \$4,500,000 bonds in N. W. Harris. These were hydro-electric bonds, which had been hypothecated two or three times, and were sold to bring 5.13 per cent. About the same time the harbor commission sold exactly the same bond to bring 5.16. There is no criticism of the harbor commission, but much of the mayor's who made the better bargain.

Ald. Maguire wanted to know why the city did not accept an offer for \$1,000,000 a month for eleven months when \$11,000,000 were wanted immediately. Ald. Maguire would not have asked such a question except under dictation.

It cannot be forgotten that the congestion of securities which Mayor Hocken and Controller McCarthy had to deal with was a legacy from the Geary-Church-Foster-Coady regime, and the ratepayers are very well satisfied to have had the mess so satisfactorily cleaned up. The more the facts are known the greater will be Mayor Hocken's credit, and the less that of his predecessors.

#### MORE PICTURESQUE SAYINGS.

The Telegram indulged itself with one of its highly ridiculous articles last night under the caption, "An Insult to Memory of Rev. Dr. Kane." An extract from our article of last Saturday is made to do duty for a text, but the point of our article is of course omitted. Because we selected the well-known story of Dr. Kane having, in his salad days, given expression to a prevalent view in Ulster and threatened to kick Queen Victoria's crown into the Boyne if the Irish Church were disestablished, the Telegram, forsooth, regards this as an insult to Dr. Kane's memory.

The Telegram, which is totally un-informed on the local Ulster situation, is clearly not aware that this threat is the proudest laurel in his wreath in the estimation of those who know Ulster better than the Telegram does. Any act of courtesy towards the Vatican on the part of Queen Victoria or King Edward revived Dr. Kane's historic utterance, and even the Telegram cannot have forgotten the very recent threat to appeal to Germany under certain circumstances.

The Telegram remarks: "The advantage of seven years' residence in Ireland does not necessarily enable the world to know what it is writing about." We wonder if the Telegram knew what it was writing about when it penned this sentence, or if it could explain it. At all events The Telegram, whether with seven or seventy years' residence in Ireland, seems totally to misunderstand the attitude of Ulstermen. Dr. Kane's characteristic utterance, which may be repudiated for official purposes, represents the spirit and principle underlying Ulster's resistance. If King George were to ally himself with the democracy of Britain in forcing home rule on Ulster, then firmly but sadly, the threat will once more be made. Those who have signed the Ulster covenant, and those who have enrolled themselves as the Ulster volunteers ought to be able to convince The Telegram of the correctness of The World's statements. But we do not think anyone could ever convince The Telegram of anything essential. When The Telegram regards as "slandering the dead," an incident by which he is most widely remembered, and in the spirit of which he is most dearly honored, it is clear that The Telegram has still a lot to learn about Ulster.

In case of misconception we will repeat our former point that "people of hot blood and excitable temperament, like the editor of The Telegram are apt to say picturesque things."

#### ARCHITECTURAL OULS.

The National Casket Company are suing the Canadian Express Company for \$5000 damages, because a shipment of coffins, which were to be used for victims of the Titanic disaster, were delivered a day too late at Halifax.

## WARRANT ISSUED FOR BECK'S ARREST

### Criminal Libel Charged Against Newspaperman for Publishing Graft Story.

MONTREAL, March 24.—A warrant was issued for the arrest of Edward Beck, the Montreal newspaper man, who directed the plans of the Burns detectives who caught Quebec legislators in a bribery trap, and who in a journal of his own called Beck's Weekly, printed dictaphone reports of an alleged conversation between Jules Crepeau, assistant city clerk, and sleuths about the possibility of getting contracts at the city hall.

The paper credited Crepeau with mentioning the name of Ald. Tom O'Connell, the Irish lacrosse and hockey enthusiast, and contended that the assistant city clerk, who it was also alleged, was on the payroll of the would-sue him in certain things he proposed to do. It was O'Connell who swore out the warrant against Mr. Beck this morning, charging him with criminal libel.

When the warrant was issued Mr. Beck's counsel, J. J. Creelman, had been expecting it and had waited for the police court until it was signed by Judge Lee. Creelman, his client, who immediately visited the court, where the warrant was served on him. Mr. Beck was admitted at once to bail in bonds of \$1500, but counsel for Mr. O'Connell insisted the security need not be deposited.

The case was adjourned till Thursday morning. The case has caused immense excitement as it is expected that daylight will now be let in on municipal conditions which have been denounced for years and which were not revealed at the graft enquiry at Quebec because the government committee decided that only matters specifically affecting the house could be probed.

## RAILWAY BOARD NO PLACE FOR WOMEN

### Objection Raised in Regard to Bruce County Project — Bill Reported.

OTTAWA, March 24.—R. G. Code, K.C., for the Ontario Railway Commission, objected in the railway committee, before the Bruce Peninsula Railway bill because it being in one county, from Waterloo to Toronto. The charter, he maintained, should come from the legislature.

W. S. Middlebrooke stated that the line was to be built by Bruce people and that when completed it would be operated with the Grand Trunk, a federal incorporation.

Chairman Lancaster took exception to two women, Ruth Brown and Isabella Cooper, being among the provisional directors, along with their husbands.

"I do not know," said H. H. Stevens, "that in 90 per cent of the cases in which this committee the charter is passing the names of stool pigeons in a law firm's office." The bill was reported.

#### "A FRENCHMAN'S EXPERIENCE."

The following is from a well-known Frenchman who has been in Quebec to the Russell Motor Car Company, Limited, and in a few words speaks volumes:

"You will excuse my English writing, for when a Frenchman is doing his best, you cannot blame him. 'Some curs have style of body like mine, but cursing is never in their line. Last summer I made a trip to Boston, from Boston to Springfield. I had the pleasure to meet a six cylinder car—then we race on the great State Road. The speedometer story to sixty miles an hour, that was his limit. It took me a minute to go by, but I did, and after a few miles the man that had the car said to me, 'I have turned my head and he ask me what car I have. I tell him Canadian Russell-Knight and he tell me next time he see one he will take his hat off.'"

#### ACTIVITY IN REAL ESTATE.

SASKATOON, Sask., March 24.—With the past week or ten days the real estate situation has greatly improved, and several important deals have been concluded. Three of such deals involved a total of \$175,000. In addition, a number of similar large operations are now in process of negotiation and may be closed at any time. This early period of the season so important a movement was scarcely anticipated, and it is, therefore, deemed to augur well for the near future.

### Master's Chambers.

Before J. A. C. Cameron, Master. Dimfort v. Mulochoff—R. R. Wadell, for plaintiff, moved for order striking out certain paragraphs of statement of defence as embarrassing. Order made amending paragraph of defence in part. Costs to plaintiff in cause.

Stark v. Malvern—J. M. Duff, for plaintiff, moved for judgment in favour of plaintiff. Costs of action. E. C. Ironsides for defendant. Order made, not to issue before 11 a.m.

Clarke v. Allen—W. M. Hall, for defendant, moved to dismiss action for non-payment of costs of day. M. Grant for plaintiff. Order made that defendant pay costs within 24 hours. April 8, and in default order to go dismissing action, with costs to defendant in any event.

Canada Electric Light v. Baker Traction Co.—A. L. Shaver, for defendant, obtained order for issue of writ for seizure of lunatic defendants, and authorizing carrying out of same. Order made.

Berrowski v. Berrowski—Mirde (McBrady Doucette), for plaintiffs, obtained order for issue of writ for seizure of Edmonton, Alberta. Time for appearance limited to 20 days. Costs in cause.

Bennett v. Hodgell—W. Boland, for defendant, moved for order requiring plaintiff to reattend for examination and production of documents. F. McCarthy for plaintiff. Enlarged before trial judge.

Taylor v. C. P. R. Co.—H. W. Macdonald, for defendants, obtained order dismissing action with day on or before Rex ex rel Sullivan v. Church—E. E. A. DuVerne, K.C., and R. J. Slatery, for Murtogh Sullivan, moved for order unseating Thomas S. Church, who was declared elected, and acclamation of office of deputy reeve for Church. Judgment at the bar.

The twelve names struck off at the hearing by the county judge, the 87 who voted down on the subdivision were not more than the 35 tenants who were not tenants on the day of the election or counted as qualified voters upon the facts as sworn before me at the hearing. If this be so, the municipality is not entitled to a deputy reeve under the act, and the case, and the costs to such office was null and void, and is set aside. I disposed at the hearing of the preliminary objection raised.

Application for writ of habeas corpus. Taylor v. Chatterley—Lee & Co., for defendant, obtained order without consent dismissing action without costs and without costs to defendant.

Ardito v. Clayton—H. O'Donnell, for plaintiffs, obtained order on consent dismissing action without costs and vacating its pendens.

### Judges' Chambers.

Before the Chancellor. National Casket Co. v. Canadian Express Co.—F. McCarthy, for defendant, moved for order for further production and discovery. J. G. Smith for plaintiff. Order made. Costs in cause.

Hall v. Drake—R. G. Agnew, for plaintiff and defendant, moved for order for sale of certain lands. J. R. Meredith for infant. Order made.

Corrigan—R. H. Holmes for applicant on motion for a writ of habeas corpus stated that matter had been settled and withdrawn.

Re Appleby—R. H. Holmes, for applicant, on motion on return of habeas corpus, stated that matter has been settled and withdrawn.

Re Austin—R. D. Moorhead, for executor, moved for order discharging Charles Burgoyne from executorship. J. R. Meredith for infant. Order made.

Re Bellinger and A. O. U. W.—A. G. F. Lawrence, for the society, moved for leave to pay \$2000 insurance into court. J. Haight for defendant. Order made.

Child v. G. M. Willoughby for inspector of prisons and public charities. Order made directing J. R. Meredith to pay to adults and one share (the infants) to be paid into court. Costs of all parties out of fund.

Smith v. City of Toronto—G. Smith,

for plaintiff, on motion by defendant for order striking out statement of claim as not disclosing any cause of action obtained enlargement until 27th inst.

Re Eastern Rubber Co.—J. M. Langstaff, for company, moved on consent for order dismissing application for winding-up order. Applicant asking costs, which was not asked for in notice of motion. No order made. Leave to serve new notice.

McLeary, for plaintiff, on appeal from order of master-in-chambers refusing to order payment of alimony. J. G. Smith for defendant. Enlarged at plaintiff's request until 27th inst.

Gilpin v. Purdy Mansell, Ltd.—G. Wilkie, for defendant, moved for order vacating and discharging its pendens. C. W. Plamondon for plaintiff. No order. Costs in cause.

Re Chase and A. O. U. W.—A. G. F. Lawrence, for J. E. Chase, moved for order for payment out of insurance moneys in court in question in this matter. A. Gilmour for Sarah E. Miller. Order made directing payment out to J. E. Chase of \$1000 less premium. Costs of action.

Toronto Electric Light Co. v. Gibson Electric, Ltd.—G. T. Walsh, for defendants Stein and Dorin, appealed from order of master-in-chambers refusing motion for order requiring plaintiff to elect which defendant to proceed against. G. S. Hodgson for plaintiff. No order. Costs in cause.

Clayton v. Clayton—J. F. Edgar, for plaintiffs and for defendant administrators, moved for order appointing official guardian the guardian ad litem of lunatic defendants, and authorizing carrying out of same. Order made.

Pierce v. G. T. Ry. Co.—F. McCarthy, for defendants, moved for order to appeal from order of Middleton J. for defendants, refusing to direct particulars of names of negligence of defendant company, whose negligence, it is alleged, caused the death of T. N. Phelan.

### Single Court.

Before the Chancellor. Prout v. McCollum—G. H. Pettit (Welland), for plaintiff, J. R. Meredith for defendant. J. R. Meredith for infant plaintiff. Action to recover damages to plaintiffs for injuries received by defendant's automobile running into their rig from the rear, and throwing out and injuring plaintiffs for \$4500 and consent for apportioned, \$3000 to infant, \$1500 to father, and \$500 to mother.

Before Lennox, J. Wright v. Toronto Railway Commission—L. McCarthy, K.C., for plaintiffs, moved to set aside award. R. McKay, K.C., for plaintiff. Judgment was clearly an arbitration, and the plaintiff has neither law nor equity to support her contention to the contrary. The communications made by Dr. St. Charles to the arbitrators who made the award, including, as they did, his unsworn opinion, practically an argument, as to the character, extent and permanency of the injury, vitiated the award. Dr. Powell alone seems to have fully realized the judicial character of the duties imposed upon him by his position, and clearly vitiated the award. Dr. Powell alone seems to have fully realized the judicial character of the duties imposed upon him by his position, and clearly vitiated the award.

Before Lennox, J. Labatt v. White—W. R. Smyth, K.C., for plaintiff. A. E. H. Creawick, K.C., for defendants. Action by execution creditors of Joseph White for a declaration, that the property in question in the Town of Barrie, standing in the name of Sarah White, is really the property of Joseph White, and as such liable to pay his debts, that Sarah White is a trustee of said lands, and that Joseph White, for an order for sale of said lands, etc. Judgment: Whatever may be the fact as to the old creditors, it is admitted on all hands that the business passed into the hands and ownership of Mrs. White every obligation in connection with it was punctually met, and when Mrs. White sold out in calendar and purchased the Barrie hotel property she was worth in the neighborhood of \$10,000. I am satisfied that Mrs. White gave a candid, truthful statement of the facts, that the sale of the Barrie business was because she did not feel equal to carrying it on, and that instead of money out of the Kuntz or the Kuntz loan—albeit there may have been temporary accommodations between the husband and wife in anticipation of this loan—to the husband—going into the Barrie property, a very substantial sum was given by Mrs. White to her husband when he again embarked in business, as she swears. Action dismissed with costs. Thirty days' stay.

### Appellate Division.

Before Mulock, C.J.; Clute, J.; Sutherland, J.; Letich, J. McNally v. Anderson—E. J. Meredith (London), for plaintiff, appeal by defendant from judgment of Middleton, J., of Jan. 18, 1914. Argument and appeal resumed from yesterday and concluded. Judgment reserved.

Wilson v. Thomson—S. H. Bradford, K.C., and P. Hildes, for defendants. H. E. Choppin (Newmarket), for plaintiff. Appeal by defendant from judgment of Meredith, C.J., of Jan. 20, 1914. Action on a mortgage for foreclosure, and on the covenant therein for payment. The judgment was for plaintiff for payment of \$7285. In default of foreclosure, and for immediate payment on the covenant of \$7080.90. Appeal argued. Judgment reserved.

City of Berlin—No one appeared. City of Berlin—No one appeared. Appeal by plaintiff from judgment of Reade, J., of Perth, of July 15, 1913, as far as it relates to Heller Brothers. Action by plaintiff a married woman, to recover \$500 damages for injuries received by fall from a hole in the sidewalk on King street, Berlin, on Aug. 30, 1912. At trial action was dismissed with costs and dismissed, without costs, as none are asked.

## GRATEFUL FOR AID.

The World has received from the secretary of the Porcupine Fire Relief Fund the following letter, which he asks should be published:

F. D. Tolchard, Esq., secretary Northern Ontario Fire Relief Committee, Toronto Board of Trade, Toronto, Ont.

Dear Sir,—The township council is in receipt of the report of the Northern Ontario Fire Relief Committee in regard to the administration of funds subscribed for relief of fire sufferers of Northern Ontario, July 11, 1911, and desires me to convey their thanks on behalf of the people of the Township of Whitney, who received aid and assistance through the efforts of the Toronto Board of Trade.

They also desire me to express their appreciation especially for the satisfactory administration of the funds by the chairman and trustees of the Northern Ontario Relief Committee.

Yours faithfully,  
Florence M. Baker, Clerk, March 19, Township of Whitney.

Co-operation, publicity, arbitration. This is what we need. It is no more of a labor union than the Canadian Bankers' Association. As to the comparison made between the student and the bank clerk, (a) the student learns new lessons each day; (b) the student is employed by and working for himself, while the bank clerk works for a corporation; (c) the student's energy goes to waste, so far as his own interests are concerned; (d) the student develops an individuality and grows into an independent calling, but the bank clerk is appreciated an proportion as he adapts himself to rules laid down by his "superiors," and the longer he serves the more dependent does he become; (e) the reason that young men of very little experience can step into and take his place. Please observe, I am speaking not of the top-notchers, but of the average man—the one who adapts himself to rules laid down by his "superiors" and the longer he serves the more dependent does he become. I perhaps know more about bank clerks personally than Mr. Wilkie does, and to my definite knowledge more five-year men earn \$400 than \$800. Many of these men started in at \$100 and \$150, and they are not better off now. Why hold them down to \$50 and \$100 increases and bank loans for an excuse to the days when they were cheap? In short, why say upon, what bank clerks may receive and quibble over what they do receive?

I wish I had space to go into the question in detail—but I realize how sweet brevity is to editors. In due time the association will print pamphlets for the enlightenment of the public and the prejudiced.

## SEASONED SECURITIES

This Corporation was established in 1913, and for fifty-nine years has been steadily growing in strength and in the confidence of the depositing and investing public. In that long period there have been "hard times" as well as seasons of prosperity, but the monies entrusted to our keeping have always been ready when called for.

The Corporation's bonds are, therefore, a "seasoned security." They are issued in accordance with the restrictive provisions of the Corporation's Charter, and also that which the Legislature in special circumstances has provided for the investment of Trust Funds. Ten and one-quarter Million Dollars of Shareholders' Money are a further pledge of their security.

These Bonds may be had in sums of One Hundred Dollars and upwards.

We shall be glad to have you call and inquire as to the terms upon which they are issued, or to send you a copy of our Annual Report and all particulars.

## MIGHTY TIM JOINS TORONTO SQUAD

### Jordan Hits a Couple Over Fence and is Pleased—Fisher Reports.

(Canadian Press.)  
MARLIN, Texas, March 24.—The weather was less favorable today, with lowering skies, a cool wind, and the promise of rain, which held off until the afternoon practice was over. Despite the chilly conditions, Kelley found the squad eager, and they were given six hours' hard work, evenly divided, morning and afternoon. Kelley attended the final afternoon practice, and was impressed with a young right-hand hitting outfielder, who may wear a Toronto uniform.

Shortstop Fisher reported today, and, despite the two days' train trip and the loss of his trunk, he turned out immediately. His performance exceeded the advance notices. He hit three home runs, brilliantly covered a wide area, and pegged across the diamond like a flash. He completely what looks like a lightning bolt. Castleton's cross-fire delivery looks effective, and he seems to have plenty of speed. In general, the team gives evidence of the beneficial effects of a year's international experience that should prove valuable.

Bullpen shapes up well and may make the grade. He bats well, and has speed, a nice assortment of curves, and fields his position like a veteran.  
Tim Jordan was back at first, and his presence stimulated the whole squad. He drove a couple over the short right-field fence, and was pleased with himself. Manager Kelley is inclined to be enthusiastic over Smith, who started equally well with Catcher Kelly. The collection has a nice, easy style, throws well, and bats victoriously.

Kelley is offered a couple of youthful southpaws from up north, but has declined them, as already has a superb abundance of untried material, and wants no more green pitchers.

The New York club goes north tomorrow night, and will leave no players behind. Their discarded will not be turned over before opening day.

It shows a disposition to avoid the Hearne matter.

## Ante-Season Baseball

At Shreveport, La., the Chicago Federals, with Tinker playing at shortstop, won from Centenary College, 9 to 0.

At Nashville, Tenn., also the Nashville Southern League outfit the Chicago Nationals, they could do nothing with the Chicago pitchers when men were on bases, and lost the game, 0 to 2.

At Macon, Ga., the Cleveland American Association team defeated the Boston Nationals, 6 to 0, in a game that was the game at the end of the eighth innings.

At Jacksonville, Fla., the St. Louis Nationals won from a team made up of Philadelphia American recruits and the Jacksonville South Atlantic League, 5 to 3.

At Birmingham, Ala., by bunching hits, the St. Louis Browns easily defeated Birmingham, 8 to 2.

GLASGOW, March 24.—Third Lanark defeated Stevenston United in the fourth round of the Scottish Cup by a goal to one. The winners will meet Celtic in the semifinal.

## TWO GOOD GAMES IN ALL-TORONTO

### St. Pauls and Clintons Won Out in Final Moments—Aura Lee Not Pressed.

The finals in the All-Toronto series are all ready except in the senior section and they will be staged on Saturday afternoon at the Arena. Last night Aura Lee successfully downed Westmoreland by the score of 6 to 1, and will meet Victoria in the final. Aura Lee were too good for the Civic League champions and won all the way. The teams: Aura Lee (4)—Goal, Bertram; defence, Garrett and Batters; rover, Humphrey; centre, Rennie; right wing, Lepper; left wing, McWhinney.

Westmoreland (1)—Goal, Majury; defence, Earl and McKee; rover, Butler; centre, Brady; right wing, Arkell; left wing, Hanna.

Referee—F. Waghorne, Jr. St. Pauls of the M.Y.M.A. were forced to extend themselves all the way to win out from Victoria of the West Toronto Club by the score of four to two.

The winners started at a terrific clip and looked good enough to walk away with the game, but the Vics came back so strong in the last half that the M.Y.M.A. boys were fighting hard to save the score being tied up. St. Pauls will meet Riverdale of the Beaches League in the final.

St. Pauls (4)—Goal, E. Collett; defence, Green and Smalley; rover, G. Collett; centre, McKee; right wing, Applegate; left wing, Collins.

Victoria (2)—Goal, Dudley; defence, McKee and Smith; rover, Atwell; centre, Wallace; right wing, Black; left wing, Wright.

Referee—F. Waghorne, Sr. Clintons of the M.Y.M.A. won their semi-final game of the senior series by the score of four to three, when they outdistanced North Toronto of the Toronto League. It was a grand battle all the way and neither team spared the other in the play. The winners checked back like the Vics, and the pace told heavily on the north enders. Clintons will meet the winner of the Broadway-Kew Beach game in the final.

Clintons (4)—Goal, Turner; defence, Allan and Gordon; rover, F. Wilkinson; centre, Johnston; right wing, H. Wilkinson; left wing, McLeod.

North Toronto (3)—Goal, Cook; defence, Murphy and Burkhardt; rover, Brown; centre, Kimber; right wing, Stewart; left wing, Moxon.

Referee—Lew Brown. Broadview and Kew Beach will meet in the semi-final of the senior series on Friday night at the Arena from 7 to 8. The times will be played on Saturday afternoon, beginning at two o'clock, and three o'clock good games are promised.

## Amateur Baseball

There will be a meeting of the members of the executive committee of the Ontario Baseball League this evening at eight o'clock, at the residence of the secretary, No. 2 Olive Road. All members are requested to attend.

All Anglican churches in the west and interested in the formation of a Senior Anglican Baseball League are requested to send representatives to a meeting to be held for that purpose in St. Stephen's gymnasium building (near church), on Wednesday evening, April 1, at eight o'clock.

The L.C.B.U. baseball team will hold a meeting on Friday at 8 p.m. in their clubrooms, King and Jarvis streets. All interested are asked to attend.

At a meeting of the St. Barnabas' Young Men's club, the election of officers took place, with the following results: Hon. president, Rev. L. B. Vaughan, L. Th. hon. vice-president, Wm. C. Turner; president, H. H. Hayes; vice-president, Chas. Wilson; treasurer, P. H. Hood; secretary, E. J. Farmer, 395 Manning avenue. Frank Hood was elected baseball captain.

McKinnons of St. Catharines, champions for the last two years, and teams from Welland, Niagara Falls, Merrickville and Thorold were admitted to the Ontario District League, at the organization meeting, by applications from the Bishops of Hamilton and the Alumina, before Niagara Falls, N.Y., will be considered before a final meeting.

The Vancouver players made more out of their exhibition games than did the Victoria Monarchs as they got \$1250 for each of their three exhibition games in the east and split up the purse at New York.

There may be changes in both pro leagues next year, according to Ottawa and Hamilton. Ottawa is anxious to get in the N.H.A., and Westminster may be dropped from the P.C.E.L. in favor of Portland or Seattle. The other two clubs had to carry Westminster along this winter.

The second game for the "Amateur" championship between P.R. & A.A. and the Winnipeg Monarchs is billed for tonight in the Arena.

### AD SPORT.

Bob Mohr, hockey star, was easily outpointed by Battling Levinsky of Philadelphia in a ten-round no-decision contest at Milwaukee. Mohr finished without a mark and was almost as fresh as when he started, while Levinsky appeared to be very tired, and his face was covered with blood.

### THIS WAR IS OVER.

HAMILTON, March 24.—At last the war between the Alerts (Limited) and the Hamilton Ball Club officials over the rental of the Britannia Park has been settled to the satisfaction of both sides. Yesterday afternoon the ball club officials agreed to accept a lease on the park for one year, and this season's games will be played there. It is hardly likely that any new stands will be erected, but a new diamond will be made, and the outfield will be leveled off.

## CANADIAN GOLF TOURNEY DATES

### Men's Open at Toronto Club, and Ladies' at Lambton—Play Starts Today.

As a course is clear and the game of golf hereabouts will start today. The Lambton Golf and Country Club announced that the nine holes for spring play are ready, and practice games are due this afternoon. With the links clear of snow, Lambton's first medal games will take place next Saturday, as per program.

The summer of 1914 will see two of the best tournaments ever held in Canada. The Men's Open, amateur and professional, at Toronto Golf, Aug. 21 and 22. The Ladies' tournament at Lambton, opening Sept. 28.

This tournament will likely be put back a week, as clashes with the American open championships.

The dates for the Canadian Professional and Amateur tournaments have not yet been announced.

## S.P.S. CLEAN UP AT STUDENTS' INDOOR MEET

### Winning From Arts and Meds at Central Y by Close Margin.

The S.P.S. students cleaned up in the student indoor athletic meet at Central Y last night, winning from the Arts and Meds by four points, after coming third. The Meds were strong in the five-men relay, and had no trouble in annexing that event.

The first event, the 35-yard dash, was well filled, having twenty entries. The first was won by L. Hill of the Meds, in 2-5 seconds. Second heat won by F. Parney of the Meds; time 4-2-5 seconds. Third heat won by Barnes, Meds, time 4-2-5 seconds. The fourth heat was won by V. Hearst, Arts; time 4-2-5 seconds.

Final—L. V. Hearst, Arts; 2 L. Hill, Meds; 3 F. Parney, Meds; Time 4-2-5 seconds.

The second event, the 12-pound indoor shot, went to S.P.S. E. Savage doing 36 feet 6 inches, while Charlie Gage came second, with 35 feet 11 inches. Gage getting third, Parney putting it 34 feet 11 inches.

The 220-yard dash was the most exciting and closely contested event of the afternoon. Adlard of S.P.S. and L. Hill of the Meds were the main contenders. Adlard won by a hair, with a time of 2-15-5 seconds.

Charlie Gage coming third, with a time of 2-15-5 seconds. The times were played on Saturday afternoon, beginning at two o'clock, and three o'clock good games are promised.

### Summary.

35-yard dash: Hearst, Arts; 2. L. Hill, Meds; 3. F. Parney, Meds; Time 4-2-5 seconds. Savage, S.P.S.; 2. C. Gage, S.P.S.; 3. F. Parney, Meds. Distance 36 feet 6 inches.

220-yard dash: Adlard, S.P.S.; 2. L. Hill, Meds; 3. L. Moore, Arts and V. Hearst, Arts; 3. C. Gage, S.P.S. Time 2-15-5 seconds.

Relay—1. Meds; 2. S.P.S. Time 1 minute 29 seconds.

## Three Pro Leagues As to Stanley Cup

MONTREAL, March 24.—President T. Emmett Quinn of the National Hockey Association has received a letter signed by William Foran, on behalf of the trustees of the Stanley Cup, in which the trustees are pleased to learn that the three leagues, the Pacific Coast, the National Hockey Association and the Maritime, have adopted the Stanley Cup as emblematic of the professional hockey championship.

The trustees are perfectly satisfied to allow the representatives of the three leagues to make all arrangements each season as to the series of matches to be played for the cup, but they are notified so that they can get in touch with the cup trustees for the necessary bond required before the cup is handed over to the winning team.

The long way in bringing the winners of the three leagues together each season in a series for the championship, and the possession of the historic trophy, President Quinn of the Toronto Club will forward the bond for the cup to Trustees Foran at an early date.

## BASKETBALL.

The St. Andrew intermediate basketball team, winners of group No. 1, O.B.A., will play the Idlers of Hamilton in a semi-final game on Wednesday night on their floor, 71 Simcoe street, when all club members and supporters are requested to be on hand. The return game will be played in Hamilton Saturday night, Mar. 28.

The Business Men's League basketball games at the Central Y last night resulted: Scotch 8, Toronto 2. The volley ball game resulted in favor of G. A. King's team over W. H. Radcliffe's, 2 to 1.

## Preliminary Tennis Trials for Davis Cup

MONTREAL, March 24.—Preliminary trials for Canada's representatives in the coming year's Davis Cup, the world's championship tennis trophy, will be held this summer in Montreal, St. John and Vancouver. An endeavor is being made by local enthusiasts to have the trials of the Canadian series held in Montreal, and John M. Taylor, president of the Province of Quebec Lawn Tennis Association, will represent the Province at the annual meeting of the Canadian Lawn Tennis Association, which will be held in Montreal two days ago that he had been appointed one of the vice-presidents of the association, and has strong hopes of arranging for the finals to be held in this city.

## The Oxford Crew Shows Marked Improvement

CANADIAN ASSOCIATED PRESS Cable. LONDON, March 24.—A rowing expert, expressing his opinion on the boat race practice, says Oxford showed by the championship trials, that they are being disappointing. They failed to get a scratch crew for the Thames Regatta, in which they were to compete against the part of the date to clear the opposing eight in just over a minute. Oxford crew more anxious to rowed with plenty of life, Pittman stroking the boat with fine dash and vigor.

Cambridge rowers a mixed Leander and London scratch crew taking them along the first half of the row and a good Leander crew over the second half. They failed to beat Leander, who finished nearly half a length up. Cambridge's form was disappointing. They failed to get a good length and there was a lack of "dash" in their rowing.

Saturday's race will probably be a more exciting affair than appeared likely a week ago. Oxford have improved in marked fashion.

## Picked League Teams Play Hockey at Lucknow

LUCKNOW, Ont., March 24.—A fast game of hockey was played here between Ontario teams of the Lakeside League and Northern League, resulting in a victory for the Lakesiders by a score of 5-2. Half-time, 3-1 for Northerners. C. B. Adlin was the fastest man on the ice. The line-up:

Northern (3)—Goal, T. McDonald; point, M. Johnston; cover, Millson; left wing, A. McDonald; right wing, R. Malouin; centre, F. McCoy.

Lakeside (5)—Goal, W. Reid; point, C. Reid; cover, C. Adlin; left wing, H. Gorton; right wing, N. Hedley; centre, T. Kitchener.

Referee—Bob Thompson.

Billy Hay says: "Did you ever notice how an old, badly-fitting suit harmonizes with a whipped-out, dejected looking man? The two go together invariably."

"Now, did you ever notice the man who accomplishes a lot and enjoys work? He also enjoys play. He feels good! He looks good! His clothes seem to set him off to the best advantage, don't they?"

"Which is it—the man or his clothes? Let us be fair with each other—IT'S BOTH!—They go together, that's all."

"Come to think of it, Easter is getting around, isn't it?"

## WIND UP OF THEIR BOWLING SEASON

### Excellent Scores Made at the Athenaeum Mercantile League Tournament.

As a final wind-up of the very successful season's bowling the Mercantile League held a handicap tournament last night on the Athenaeum alleys, when 38 members entered. Some excellent scores were made as shown below, and it is up in the running for some of the Chicago whirlwind. Schilman, the former Chicago whirlwind, topped the list with a magnificent score of 866, including spilling the pins with the big count of 632, while the old reliable "Alley" finished up with a score of 693, which is a record for the league.

The "Specials" next with 583, and E. Hurd of the Hunter Rose team with 581.

**PIRATE STARS OFFERED BIG MONEY TO DO JUMP ACT**

Federal Agents Busy in Southern Camps — Leafs Play First Exhibition Game on Saturday — Canadian League Notes — Hank O'Day Has a Big Job on His Hands — Gossip.

**HOT SPRINGS, Ark., March 24.**—An attempt to induce several stars in the Pirate team to jump their contracts and sign with the Pittsburgh Federal League Club apparently has resulted in a failure. It is said Jimmy Viox and George McQuillan were approached by Edward Camnitz, who was a member of the Pirates for many seasons, and were offered a bundle of greenbacks to hurdle over to the outlaws.

It became known today that Camnitz and a stranger reached here Sunday night supplied with money. It was supposed to have been a "big job" but the mysterious stranger who offered a big bonus to jump, while Camnitz did not put in his appearance at the Eastman Hotel, where the players are stopping, it is said that he sent emissaries to the players he was after. He declared that he knew that Camnitz was a member of the Pittsburgh Federal League. Camnitz here could not be located. President Barney Dreyfus tonight refused to discuss the latest move made by the outlaws to cripple his team.

"I am worrying for I tell you there will be four or five awful tough teams to beat in this league this year. It won't be like last season when we got by on one pitcher, four bats and a catcher. The situation with my club is like this: I need a shortstop and a pitcher. I am banking a lot on Joe Lill this season and if he has acquired any kind of control he will be the worst pitcher in the league. If his control is no better than the already working out at St. Louis, I already working out here, I will have written him frequently how to report up gradually and expect him to be at his best. Kane may be a useful pitcher for us this season, also he has a reputation of being a warm weather man. I have as good a breaking curve ball as any pitcher I ever saw, but I have a poor thing at all. I think Renfer will make good at Nashville, but he doesn't have a number of pitchers in view but there is no use boosting them up till we see whether or not they can come thru. I will cheer, however, even though we have a 100 per cent better pitching staff than last year."

This looks like "Mighty Tim" Jordan's year. The big fellow has been working with the Giants for a couple of weeks, and is in great shape. He showed a lot of pep in the Leafs' morning workout at Marlin Springs yesterday.

The Ward brothers, owners of the Federal franchise in Brooklyn, refuse to let their ballplayers work on the Sabbath, and no Sunday ball will be played across the bridge.

Joe Kelley spent yesterday afternoon watching the Giants work and also putting a flea in John McGraw's ear. Kelley said a couple of twirlers and an outfielder.

Casleton, the big southpaw that the Leafs got from the coast, showed a lot of "smoke" yesterday at Marlin. He has a "smoke" delivery that is puzzling.

The Leafs play exhibition games in Waco, Tex., on Saturday and Sunday.

Fisher, the shortstop that the Leafs got from Brooklyn, has failed to put in an appearance at Marlin. The Leafs were hot after the ex-Superba late last fall. Here's hoping they haven't landed him.

A team of California Japs will tour the United States this summer. This will mark the first visit of a Jap team from the United States to tour their fatherland.

The Hamilton club has all but settled for Britannia Park, and it is expected that final arrangements will be made to again play at the Barton street resort this season by the end of the week.

Manager Yates of the Hams will report to Hamilton on April 1. The Tigers club at Hamilton last season.

**CHARLEY BLOUNT, THE PETERBORO LEADER, IS STILL SIGNING MEN, DESPITE THE FACT THAT HE HAS AWAY OVER 25 PLAYERS IN THE FOLD.**

Frank Fox writes to him at Youngstown that his ankle is as good as ever. Fox, the former London infielder, will be given a thro trial at third base. Peterboro has secured a semi-pro hurler from Rochester, the iron man last season, has not signed up with the 2 stars yet. Blount, who played for Erie last season, will be given a trial at first base. He will not promise a pennant winner, but he will be there, hustling all the time till the last dog is bled.

A picked team will be sent from the Canadian League against the Philadelphia Athletics when they play in Brantford on August 11, one of the old home week dates at the Telephone City.

Of course Babe Adams was very sorry it occurred and all that, but when he hit an outlooker on the leg with a pitched ball at Hot Springs several days ago and broke the party's member, he felt somewhat cheered over. "They can't tell me I haven't any stuff when I can do that," said Babe in the evening. "Of course I'm right sorry I ruined the man's limb all right, but just the same, the smoke, don't it? And he was some 200 yards away, too. I'll lay you a little bet that you can line a cow up 300 yards away and I'll break all four of her legs in four chances. Of course I'm sorry about the guy's leg, but gee, I didn't suppose I had all that smoke."

Harry Howick is in receipt of a letter from Eddie Wright, the former St. Thomas third sacker, who was drafted by Providence of the International League by Providence of last season. The letter at the close of last season. The letter was written from Savannah, Ga., and of the Greats, Eddie states he is going good and expects to make the grade and land a regular berth in the Providence infield.

The Philadelphia Record's correspondent with the Athletics at Jacksonville, Fla., has the following to say: "A little pre-season pep on the National League 1914 race could be spun during the Athletics-Cub series. The Athletics are in the lead of the Cubs is identical with that of Byron Hoock. They'll beat the world if they get control."

With the Cubs it is control of their selves that is the necessary ingredient to back their pennant bid. As manager of the Cubs, Hank has the not-to-be-envied situation of sitting on the safety valve of the nation's hot air balloon. It Hank can stay on the valve, all will be well. With harmony, the Cubs may walk to the top of the mountain.

If you have a high-geared imagination, stop reading right here. If not, proceed and take the consequences.

Imagine yourself manager of the Chicago Cubs in a hot July afternoon. Hebble Zimmerman has just kicked a grounder with the bases full and every body else is snarling at him from the other side of the diamond. Hank is on the mound and second base. Hank is on the mound and second base. Hank is on the mound and second base.

But if he can, phew, what a team! Every man a clean-up hitter. Zimmerman topped the National League last year in hitting. Sweeney was close behind in slugging. Sweeney was close behind in slugging. Sweeney was close behind in slugging.

But it is a distinct disadvantage to have one ex-manager and seven would-be managers playing in the same ball club at the same time.

The rumor is current at McGill University that a baseball nine will be formed this summer, with the intention, if possible, of entering one of the Montreal city leagues. It is a well-known fact that hundreds of the students are in Montreal on the sabbath during the summer months, and most of them know how to play the game.

Harry Brand, drafted from Peterboro last year by Chattanooga, isn't mentioned in the despatches from camp.

George Leclair, the ex-Montreal pitcher, released by Quebec last season, is with the Pittsburgh Federals.

**Russell 34-ton Delivery Wagon**

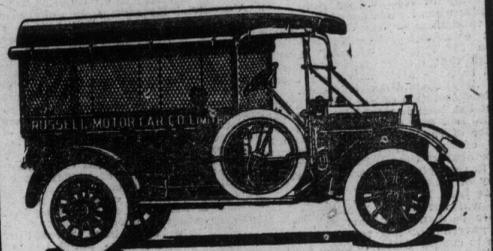

From bumper to tail-light the RUSSELL 3/4 ton Delivery is purely a high-class delivery wagon.

Axles, frame, wheels, springs, transmission, are designed and built for this model.

The only part this delivery wagon has in common with any of our other models is its famous "30" engine. And we use this simply because engineers and mechanics are unable to build a better poppet motor.

The RUSSELL wagon is built for the hardest kind of service under its maximum capacity load. It is NOT a converted pleasure car, nor a commercial vehicle utilizing pleasure car parts—but a rugged, reliable, rough-and-ready delivery outfit designed with Canadian conditions in mind.

# NO DISSOLUTION OF PARLIAMENT TILL IRISH HOME RULE IS PASSED

### Redmond Declares Bill Will Be Proceeded With Till It Becomes Law—Col. Seely Will Investigate Trouble With Officers—Aldershot Disaffected.

Canadian Associated Press Cable. LONDON, March 24.—"There certainly will be no dissolution of parliament until the home rule bill for Ireland has been passed." This statement was made by John E. Redmond, the leader of the Irish Nationalist party. Mr. Redmond added that the second reading of the bill would be taken by the house of commons on March 30, and that the bill would be proceeded with until it became law.

Col. John Seely, secretary of state for war, today promised in the house of commons that he would tomorrow lay on the table all the material and written documents which, he said, would clear up the whole mystery of the recent crisis among the officers of the army in Ireland. He gave this promise when he was asked by a member to confirm or deny the statement that a written assurance had been given to Brigadier-General Hubert Gough that the troops would not be used to force home rule upon Ulster.

**Say Dissolution Hastened.** The dissolution of the British parliament has been hastened by the events of the last few days and by the surrender of the government to the officers of the army who declined to serve against the Ulstermen, according to the opinion generally expressed today in political circles.

The Irish Nationalists, it is pointed out, will not accept home rule with Ulster permanently excluded, while the government has found it impossible to compel Ulster to come under a Dublin parliament.

It is argued that the only way out of the difficulty is to hold a general election, and none would be surprised if the government during the second reading of the home rule bill next week should offer to dissolve parliament on condition that the home rule, the Welsh disestablishment and the plural voting bills be passed.

**Liberals Angry at Army.** The dissatisfaction of the rank and file of the Liberals with the treatment of the army officers is another factor which is likely to hasten the election. Many radicals would like to join forces with the labor members and make an appeal to the country on the refusal of officers to act against the Ulstermen compared with their readiness to act against striking workmen.

The provincial Liberal papers are even more outspoken on subjects of government's surrender to the officers than their London contemporaries. The Manchester Guardian says it is with the deepest regret and some shame, it has heard of Premier Asquith's even partial acceptance of the doctrine that officers have the right to lay down for themselves the conditions under which they will continue

to serve the King. It continues: "They are so treated because they are rich men, and because they had the prejudices of their class. Not only then is there one law for the rich man in the army and one for the poor, but there is one standard for the Tory officer's loyalty to his oath and another standard for the private soldier with sympathies for the laboring man."

Similar comments appear in The Liverpool Post, also a strong Liberal paper.

**Aldershot Disaffected.** "The government cannot rely upon the officers at Aldershot in the present crisis any more than on those of the Curragh in Ireland," declares The Pall Mall Gazette correspondent, who is investigating conditions at Aldershot. He asserts in answer to the question of what will happen if the regiments are ordered to Ulster, that he was told that 75 per cent of the officers will follow the example of the Curragh officers in resigning.

The Westminster Gazette, a ministerial paper, says that "whereas in the long run no parliamentary or democratic system if the armed forces of the crown were at the disposal of the Unionist opposition against the Liberal government. The army in such circumstances would either have to be brought under the control of parliament. If the strike of officers against the government could be successfully carried thru in one issue, it could be tried in all, and there would be nothing but to dedicate our lives to getting a constitution with a different kind of army."

**Pays Respects to Carson.** Major-General Sir Cecil MacReady, attached to the adjutant-general's department of the war office, paid a visit to Sir Edward Carson, the Ulster Unionist leader, today. The general, who had been especially sent over to Ireland by Col. Seely, the secretary of state for war, to confer with Brig.-Gen. Count Eibert Gleichen, commander of the 15th Infantry Brigade here, arrived at Craigavon the seat of Capt. Craig, in full uniform. He declared the object of his visit was to pay his respects to the Ulster Unionist leader. The incident is much commented on.

**T.S.R. PAYS COSTS.** Justice Lennox set aside yesterday the award of two or three physicians, who acting as arbitrators, awarded Mrs. May Wright \$9985 for injuries sustained in a collision between two street cars. The Toronto Railway Company, however, must pay the costs of, and incidental to, the motion. The judgment objected to "an ex-parte and unfounded reference to an offer of settlement." The case is to be carried to the appellate court.

# TEXAS GOVERNOR OFFERS REWARD

### Wants Arrest of Five Mexicans for Murder—Washington Anxious.

Canadian Associated Press Cable. WASHINGTON, March 24.—The offer of Gov. Coziquit of a reward of \$1000 for the delivery on Texas soil of five Mexicans suspected as murderers of Clemente Vergara has caused state and war department officials serious concern for international complications.

The five Mexicans sought are Captain Apolonio Rodriguez, Nito Ceara, Juan Castillon, Hesa Rodriguez, and Dinomio Martinez. In his report today Brigadier-General Bliss says: "The men named are charged in the newspapers with complicity in the death of Clemente Vergara."

The right of the governor to offer a reward for justice is not denied by the officials. But in this case it is feared that the offer may lead to an attempt to nab the Mexicans and bring them into the United States and afford the Mexican government grounds for a demand for the extradition of the kidnapers with all sorts of legal entanglements.

# TORONTO AND EASTERN CHOOSES NORTHERN ROUTE

### Found Impracticable to Use Kingston Road Line From West Hill.

It has been learned that the Toronto and Eastern Radial Line has definitely decided to abandon the project of gaining an entrance to the city over the Kingston road line from West Hill. An official of the company stated to The World yesterday that the difference in the width between the rails would prevent the T. and E. cars using the Kingston road tracks and that transference of passengers between the two lines was not looked upon with favor.

This is taken to mean that the route thru Leaside to the North Toronto Yonge street station is the one to be adopted. In this a double purpose would be accomplished, the T. and E. giving Leaside a radial connection with the city.

**Are You Going West this Spring?** If you are, the opportunity is now being offered by the Grand Trunk Railway System in connection with Homeseekers', Settlers' and Colonist excursion tickets.

Homeseekers' round trip tickets are issued from stations in Canada to points in Manitoba, Alberta and Saskatchewan at very low fares, and are in effect each Tuesday, until Oct. 27, inclusive, via Chicago, St. Paul or Duluth. Tickets will also be on sale on certain days via Barnard and Northern Navigation Co. Through Pullman tourist sleeping cars are operated to Winnipeg each Tuesday, leaving Toronto at 10 p.m. Change of cars, giving Lesauve and West Kingston. Tickets are valid returning to Toronto from date of issue. Settlers' one-way second-class tickets are also on sale each Tuesday during March and April from stations in Ontario, Kingston, Renfrew and west to points in Alberta and Saskatchewan at low fares.

Colonist one-way second-class tickets are sold at very low fares, from stations in Ontario to certain points in Alberta, British Columbia, Arizona, California, Idaho, Montana, Nevada, Oregon, Texas and New England, and are in effect daily until April 15, inclusive.

The Grand Trunk Pacific Railway is the shortest and quickest route between Winnipeg-Saskatoon-Edmonton, with smooth roadbed, electric-lighted sleeping cars, through the newest, most picturesque and most rapidly developing section of Western Canada.

Through tickets sold and reservations made by all Grand Trunk agents. Costs no more than at low fares. Trains now in operation Winnipeg to Saskatoon, Edmonton and Regina, Yorkton and Canora, Sask.; Camrose, Mirror, Edson and Calgary, Alberta; also to Jasper, Tete Jaune and Prince George, B.C.

**ESTREAN REMANDED.** Isaac Estrean, the Russian Jew who three weeks ago shot and killed Annie Garlick, his former love sweetheart, appeared before Magistrate Denton in the police court yesterday to face the murder charge, but was remanded without plea or election until April 1.

**WANTED TO GO BACK TO IRELAND.** HALIFAX, N.S., March 24.—Among the steerage passengers on board the Allan liner Scotia, when she left Toronto was a young man from the north of Ireland, who, just before the ship entered Halifax harbor, declared that he did not want to enter Canada, and although he had a thru ticket to Winnipeg, requested the purser to permit him to return home. When the ship arrived here the man's case was taken up by the Nova Scotia immigration agent, who finally induced the man to stay in Canada, offering him a position in Nova Scotia. The man was given a refund on his ticket and will be placed on a farm immediately.

# SUFFERED AGONY WITH NEURALGIA

### Nothing Helped Her Until She Tried "Fruit-a-tives."

Campbellville, Ont., March 5th, 1913. "I cannot speak too highly of 'Fruit-a-tives.' For over thirty years I have suffered from Chronic Neuralgia and Constipation, experiencing untold agony. The Neuralgia settled in my lungs and I took bottle after bottle of medicine without relief. The doctor told me I would not get better, but 'Fruit-a-tives' proved that the doctor was wrong by giving me quick relief, and finally and completely curing me. I would not have my present health if it was not for 'Fruit-a-tives,' and I am glad of the opportunity of giving you this letter about such a splendid remedy as 'Fruit-a-tives' for the guidance of other women who may be similarly affected."

**MRS. NATHAN DUNN.** "Fruit-a-tives" is the only medicine made from fruit juices and is particularly suited to women because of its mild action and pleasant taste. "Fruit-a-tives" is sold by all dealers at 50c a box, 4 for \$2.50, trial size, 25c, or may be obtained from Fruit-a-tives Limited, Ottawa.

# COL. ROOSEVELT REPORTED SAFE

### Ex-President of United States Not With Party That Lost Baggage.

NEW YORK, March 24.—All feeling of anxiety regarding the safety of Col. Roosevelt, who is in the jungle in Brazil, has been removed by additional advices from Anthony Flata, whose party lost their equipment in the Rapide of the Devil, in the Papagayo River. Flata reports that the colonel is in good health and was not with the party that met with mishap. With another part of the expedition Mr. Roosevelt is exploring the Rio Duivata or River of Doubt, a higher to unexplored stream. Flata lost two canoes, loaded with food and equipment, but his party of eight men are safe.

# SIX INSPECTORS TO COVER FIELD

### S. P. C. A., at Annual Meeting, Considers Lack of Animal Supervision.

**MOTOR AMBULANCES** For Horses Needed—Mrs. Durie Reads Presidential Address.

The Canadian Society for the Prevention of Cruelty to Animals met at the home of Mrs. A. M. Stewart yesterday afternoon to discuss the annual reports. Mrs. Durie, the president, read her address, in which she expressed the need of the services of a competent organizing secretary. Montreal has six inspectors, whose work is to look into cases of cruelty and neglect of animals. Toronto could easily make use of such a number or more. The need of a speedy aid to horses falling disabled in the streets from sickness or other causes was also emphasized, and it was urged that the now tardy horse ambulances, which never answer a call in less than two hours, should be supplanted by motor ambulances. The president also expressed her appreciation of the ardent work carried on by the members since the incorporation, not more than seventeen months ago. Judging from the animals cared for in the shelter its need has been thoroughly endorsed, and it is hoped that the members will continue their financial support towards the home. An open meeting for April, at which prominent speakers will be present, was announced, after which tea was served, Mrs. Stewart being the hostess.

**MARRIED IN CITY HALL.** The policy which Judge Crotsworth has adopted since going on the bench, of having the man who had wronged a girl marry her instead of sending him to jail, was again shown when the parties of such a case were married in the city hall at high noon yesterday. Chas. Thorne of Willowdale and Annie Bowen of Langstaff were made one by Rev. M. C. MacLennan of Ossington avenue Baptist Church. The girl was but seventeen years of age, and the consent of the father had to be obtained before the ceremony could be performed.

## AUTO COLLIDES WITH STREET CAR

Accident at Corner of Keele and Dundas Streets Yesterday.

## NEWS OF WARD SEVEN

Blaze in Two Storey Brick House on Vine Avenue—Other News.

Another collision between a street car and an automobile occurred yesterday about 12.30 p.m. at the busy intersection of Keele and Dundas streets, when a Dundas car, No. 1374, while Y-ing, backed into a motor car, license number 15418, owned and driven by Rosa Belven of 1002 Bathurst street. The impact was sufficient to partially demolish the front of the motor car and to throw the conductor of the street car, W. H. Parker, who was standing on the rear platform, violently against the door. Fortunately no one was injured, and the auto was taken to a nearby garage for repairs.

The Davenport Athletic Club held a social evening last night in St. James Hall for the inauguration of the spring season. A large number of members and supporters of the team with their friends were present and a good program was provided.

At 5 o'clock last night an alarm of fire rang in from Box 713 brought the Keele street, Carlton and Perth avenue fire departments to a blaze in a two-storey brick house at 149 Vine avenue, occupied by Wilfred Jamieson and family. The origin of the blaze is as yet unknown, but when the firemen arrived they found the fire extending from the basement to the second floor. Creeping along the joists and beams and fed by a strong draught from below broke out on the ceiling of the first floor. Fortunately the men were able to get it well in hand before it had gained much headway, and the damage to the building will not amount to much more than \$100. The building is owned by John Johnson of 147 Glenora avenue.

## Yearn for Food — Don't Spurn It

A Brisk Appetite is a Healthy Necessity. Stuart's Dyspepsia Tablets Quickly Restore Lost Relish for Food.

Unless you have a real hearty desire for food you should by all means take no chances of stomach trouble. For a loss of appetite means a signal of distress from a deranged digestion.

When the stomach wants food it signals the mind through the nerves, and these excite the taste buds in the mouth which at once secrete large quantities of saliva. This is called "mouth water," and all of us know when our "mouths water" we want food.

Stuart's Dyspepsia Tablets are a system that will restore your appetite and give you a good appetite. They are a system that will restore your appetite and give you a good appetite.

"There's an appetite that Stuart's Dyspepsia Tablets gave me." Stuart's Dyspepsia Tablets very quickly restore appetite by making the stomach want food. They are a system that will restore your appetite and give you a good appetite.

## OIL CARRYING CRAFT HAS OIL ENGINES

LONDON, March 21.—The first British vessel engaged in the oil trade to be fitted with oil engines, sailed from the Thames to Black Sea ports on its maiden voyage.

The new vessel was built by the Caledon Shipbuilding Co. of Dundee and is 310 feet long, has a deadweight capacity of 4500 tons and can attain an average speed of 14 1/2 knots. The engines of the Diesel type can develop 800 horsepower at 165 revolutions per minute.

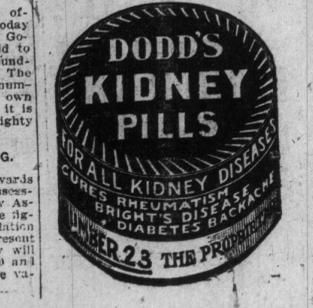

Five vessels of the same type are under order for the admiralty, and it is certainly curious that this should be the first vessel of the large fleet of British built engines engage in the oil carrying business to be propelled by oil.

The contract for the engines had to be placed with a Swedish firm, as no British firm could be found which would guarantee the Diesel machinery required by the Sebastian Diesel marine engines of large size will, however, be turned out in Great Britain ever, he turned out in Great Britain.

# News From The Parliament Buildings

**WARNING ISSUED BY A NEWSPAPER WORKMEN'S BILL SOON IN FORCE**

**COUNCIL GIVEN POWER TO ACT**

**Collingwood Bill Given Third Reading Pending Any Legal Action.**

**SOME MORE ARGUMENT**

**Those Opposed to the Bond Issue Will Be Heard.**

The attention of the government has been drawn to an article in The Financial Times which characterizes the bond issue of the Lake Huron and Northern Ontario Railway as the "latest gold brick." In answer to Mr. Rowell in the House yesterday, the minister of lands, forests and mines claimed that he had not heard of it, but that he would be glad to have it brought up again for attention.

Concerning this railway, which was given a land grant at the last session, the minister stated that the bond issue was a factor in the new north, the newspaper in question warns prospective purchasers "to look before they leap." They state that Canadian credit is being impaired by the million dollar bond issue which is now on sale in New York and Boston, especially since the bond is "definitely not a government bond."

They claim that a prospectus issued is couched in most extravagant terms, and while advertising land granted at \$8 per acre, they neglect to add that adjoining land could be purchased at a flat rate of thirty cents. The highest possible extravagance of statement is said to be reached in the phrase that "all the bonds will be retired within six to ten years, leaving all values behind the stock, which, after retirement of the bonds, will be easily worth \$200 per share."

**Some very determined positions were taken by men representative of different interests in the Town of Collingwood when the bill to validate a by-law guaranteeing a \$100,000 bond issue by the Imperial Steel and Wire Company came before the private bills committee yesterday. In the end the decision was that, provided the scrutiny of the vote by the county judge now in progress did not interfere, the council could adopt the by-law. The bill allowing this passes on its third reading in the legislature under certain amendments, but it is understood that certain of the opposing forces will have a voice in the debate on the floor of the house before it goes thru.**

The chief ground of the opposition to the bill was that the scrutiny of the vote should be completed before the committee attempted to deal with it. They would endeavor to have it hurried thru the court before the house rose. The position was taken that otherwise they would be hampered in investigating certain alleged instances of crooked work in the polling sub-divisions. Numerous affidavits were produced in the room above the court, but were not confined to a small number.

An iron works. A division occurred on the suggestion that an amendment be added to constitute the company in question an "iron works," the significance of which meant that if the scrutiny materially reduced the present majority the vote would still carry because an iron works ballot requires a much smaller majority than the clause carried after considerable discussion.

The most exciting period of the morning appeared when Town Solicitor Birnie attempted to rush thru a clause which would make the bill entirely independent of the court probe into the corruption charges. The intention was to cut the ground of necessity from beneath any further investigation. Chairman W. J. Hanna considered success necessary, but met with some opposition.

"To pass it would prevent our proceeding with the court action at all," said some of those contrary to the bill.

"We don't intend that you shall go off with this action," said Mr. Birnie with heat, "we don't want to put to that expense at all."

This brought Mr. Marshall of Monk to his feet to enquire if court action would actually be stopped "if this clause remained."

"Yes, that is what it means," said Mr. Hanna, and was echoed by Mr. Birnie. The latter continued to urge that it be retained, but was waved at by some of his supporters.

"You had better sit down," was the advice, and the counsel after a moment's reflection followed it.

**MERCER REFORMATORY MAY SOON BE SOLD**

**Inmates Will Be Sent to Cobourg and Whitby if Change is Made.**

Hon. W. J. Hanna intimated at the evening session of the house yesterday that the government may dispose of the Mercer Reformatory, and shift the inmates to the Cobourg Hospital for the Insane. Those now taken charge of in the latter institution could in turn be accommodated in the new buildings under construction at Whitby.

The explanation occurred during the discussion of the estimates, and Mr. Hanna further stated that if a government plan now under consideration materialized, the funds for the new proposal would be forthcoming.

**GOVERNMENT READY TO EXPLOIT RADIUM**

**House Concurs in Sentiments Expressed by Hon. W. H. Hearst, Regarding Discovery.**

If there is any possibility that radium of a commercial value exists in Ontario the government is prepared to take all steps necessary towards exploiting it for the benefit of humanity in general. This was the tenor of the remarks of Hon. W. H. Hearst yesterday afternoon, in moving that the house go into committee of supply to consider the expenditure of \$25,000 to the first prospector who makes the lucky strike. In all those sentiments the opposition heartily concurred.

**DECREASE IN UNEMPLOYED.**

**NEW YORK, March 24.**—Rowell D. Collins, secretary of the United Board of Business Agents of the unions in the building trades, in a report today, said that the number of unemployed mechanics in this city had decreased in the last week or six weeks. Between five and six thousand building mechanics idle, and at present the number is about 50,000.

"How we should treat the immigrants which come to this country" was the topic dealt with by Dr. Peter Roberts of New York in an address at the West End Y.M.C.A. last evening. Anglo-Saxons should not look down upon those of different blood, for those people's boasted men of culture and bravery could compare with any who occupied places in British history, declared the speaker. A most varied program was contributed by the members of the foreign classes of West End. Besides musical selections by two Finnish quartets, an Italian choir, a French young lady and a Hebrew addresses were given by Greek and a Chinese student, who each gave some sidelights on the history of their respective countries.

The work among foreigners is carried on for 1200, who are organized into seventy classes, the supervision of which is under the direction of Oscar Pearson.

**BIGAMIST WAS SENTENCED.**

**BELLEVILLE, March 24.**—Judge Deroche today sentenced William Lindsay to the Central Prison on a charge of bigamy, for which he was convicted. In 1900 Lindsay married Ethel Switzer, who left him, and last year he married another woman, Jane Caniff. The accused thru his counsel said that he was not aware that the first wife was living. No evidence was offered for the defence in the case.

**WORKMEN'S BILL SOON IN FORCE**

lamation. In a purely non-partisan spirit he would state that any delay was due entirely to the necessity of organization before operation could be thought of. The hope was to bring it into force this year, but the recommendation of the commission itself would necessarily have to be considered. To end the discussion and fix a date he was prepared to move in committee that at the very latest the new year would be chosen but that if at all possible he would advise the first day of November.

The debate on second reading was then taken up and pursued into the evening session. There was little partisan spirit shown although several government speakers made it plain that the cry of "no politics" which had been raised by the opposition would not take from the government the credit of the measure. Each man on the floor who spoke was loud in praise of the bill as one appealing alike to the worker and the manufacturer. The second reading was carried without division.

In opening the bill on the floor Mr. Rowell called attention to a change which he had noticed in the final draft. Whereas the original bill provided for apportionment compensation as the basis for the earnings capacity of the man before and after the work at the rate stated in the offer submitted.

An accepted bank cheque on a chartered bank of Canada for the sum of \$5,000.00 made payable to the order of the Minister of Railways and Canals, must accompany each tender, which will be forfeited if the party tendering declines to execute the contract for the work at the rates stated in the offer submitted.

Each cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

**HAMILTON BILL ARGUED AGAIN**

**People Will Vote on One Section of It, But Not All.**

As the Hamilton bill now stands, the people will have a voice upon one section of it, but not on the other. The agreement between the city and the Hamilton Amateur Athletic Association, by which, in exchange for a tax exemption, the club allows the use of the field as a playground, was violently opposed by Alan Strohman, who claimed that the people were entitled to a vote in the matter, especially as their rights were left in the hands of the owners of the property in the section, however, passed thru the committee.

A vote will be taken, however, to see whether the people are in favor of the city doing its own quarrying. This decision follows a very warm opposition by the stone dealers of the city.

**GEO. HENRY WANTS TO CHANGE ACT**

**Municipal Amendments Proposed by the Member for East York.**

Measures to change several parts of the Municipal Act were introduced by George S. Henry of East York. These changes, if passed, will compel every municipality whose assessment exceeds \$500,000 to appoint a road commissioner. Another along the lines of economic legislation in some parts of Ontario would make it optional for any municipality to hold its elections on Year's Day, while a third to have councilors in township and village councils designated as "one," "two," "three" or "four."

J. B. McElroy, Carlton, has introduced a bill to facilitate the borrowing of money by municipalities to borrow money before its debentures are issued, thus removing all doubt of the power of a corporation in such a case.

**Young Toronto Girls Given Stage Try-Out**

The Ashton Sisters Made Their First Appearance at the Park Theatre.

The Ashton Sisters, aged twelve and fifteen, two Toronto girls, were given their first stage try-out at the Park Theatre last night, which consisted of fancy dancing and good singing. Dressed in the most beautiful costumes and making their act the girls appeared five times in different costumes and made a big hit with the audience. The juvenile pair have remarkably powerful voices, far above the average for their age, and should have a bright future before the footlights ahead of them.

TORONTO MARKET ADJUSTS ACCOUNTS

Strained Contracts Are Now Being Straightened Out on Exchange.

OPPOSITION TO BRAZILS ENTHUSIASM IS SPENT

Day's Business Inactive and Market Has Very Few Features.

Brazil made a further rise to 30-34 on the Toronto market yesterday, but again met resistance and short selling which proved an insurmountable obstacle.

Rogers is still under the influence of forced liquidation, but support was rendered one point below Monday and the offerings were absorbed at 115.

Instructions have been issued by the New York Exchange to the Mackay Company for further particulars of the earnings, etc., of the holding and subsidiary companies of this concern.

The market closed dull after an almost featureless day.

EVERYTHING UP ON LONDON EXCHANGE

Early Settlement of Ulster Situation Expected by Traders.

LONDON, March 24.—Money and discount rates were quiet today. Germany and Russia secured most of the \$5,625,000 new gold offered in the open market.

Belief in an early settlement of the Ulster crisis and better South African news caused bears to cover hastily on the Stock Exchange and everything from Consols to rubber shares advanced with Brazilian issues the leading features.

American securities opened steady and a fraction higher. Prices improved during the forenoon, but later eased off and closed quiet.

The general settlement is progressing smoothly.

EUROPEAN BOURSES.

BERLIN, March 24.—Trading was quiet and prices were rather firm on the bourse today. Exchange on London 20 marks 4 1/2 pence for cheques; money, 3 1/2 pence; private rate of discount, 3 1/2 per cent.

DULL TRADING IN NEW YORK MARKET

Apart From Dips in Certain Specialties, Dealings Were Featureless.

ENTHUSIASM IS SPENT

Rumely and Corn Products Showed Signs of Severe Liquidation.

NEW YORK, March 24.—The demand for stocks fell off today and the market possessed none of the vigor of the preceding session. Various obscure stocks fluctuated widely, but among the standard shares variations were insignificant.

Small gains were made at the outset. London, which was more cheerful over the latest aspects of the Ulster crisis, came into this market as a buyer and took away 10,000 shares.

This buying served to hold up the list for a time, but traders took advantage of the rise to take profits on long stock. The manifest curtailment of buying encouraged the shorts to undertake fresh speculative selling and the market lost its opening advantage.

But little was accomplished other than to check the upturn. During the latter part of the day the market was dull and lifeless.

Weakness in Specialties.

Weakness again developed among some of the specialties. Rumely issues resumed their decline, making new low records at 9 for the common and 25-28 for the preferred.

Active liquidation of Corn Products shares was dictated by the remark of President Redford at the annual meeting of the company, that if the corporation were dissolved as a result of the government's suit, the common stock would not be "worth a cent" and that the value of the preferred would be doubtful.

Corn Products preferred slumped over five points and the common advanced half as much. Copper shares made no response to continued improvement in the metal market.

The price of the metal was advanced to 14 5/8 cents, and there was said to be good buying for foreign domestic account. Bonds were irregular, with movements unusually narrow.

BRAZILIAN WAS CHIEF FEATURE

Rise Continued at Montreal—Other Stocks Were Almost Stagnant.

MONTREAL, March 24.—Further improvement in Brazilian Tracton was the one feature of interest in the local stock market today. Brazilian was in good demand at a range about 1 to 1 1/2 points higher than on Monday and finished 7-8 higher on the day.

Only 20 shares of Bell Telephone were changed at 30 1/2. London advices were fairly cheerful, but provided no definite incentive to the market.

Porcupine Syndicate

(Operating the Gould Leases of the Peterson Lake Co.) WATCH THIS STOCK. The Porcupine Syndicate Ltd. has a capitalization of only \$500,000. It is shipping and producing ore. The capitalization of the Gould Consolidated is \$3,000,000. The Porcupine Syndicate has nearly one-third stock interest in the Gould. After 25 per cent. of the production has been deducted by the Peterson Lake, the Porcupine Syndicate retains sufficient funds to entirely reimburse it for all operating expense and a large sum to retire its ore certificates, then divide any surplus with the Gould in which it has the large stock interest. Porcupine Syndicate shares are \$10.00 par value, bought at \$1.00 each means a value of only \$50.00 for its capitalization. We believe this too low and predict a higher price.

Random Notes on the Mining Stocks

Another instance of Cobalt companies extending their operations into Porcupine came to light yesterday with the news that the Kerr Lake Mining Company had bought into the Hollinger Reserve.

Peterson Lake had a buying session and while it touched 45, the greater part of the trading was around 44-1-4. There has been considerable investment buying in Peterson of late, and talk of a dividend for May is becoming stronger.

McKinley-Darragh continued on its decline and went to 78. There is a general impression among the traders that McKinley has not reached its low point and is due for a recovery shortly.

Commenting on the Jupiter-McKinley deal, a Montreal paper says: "The Savage mine, one of the McKinley-Darragh properties, is to be sold to the Jupiter mine, and it is presumed that he will act in an advisory capacity in the new venture."
