## Shocking Double Murder Recalls "Jack the Ripper"

**Aged Couple Practically Tortured to Death — Bodies Frightfully Mutilated — Murderer Left No Trace Except Bloody Fingerprints.**

NEW YORK, Jan. 7.—A case of double murder found in an east side house to-day is one of the most shocking in detail of any since the Golden-Gate dismemberment and the "Jack-the-Ripper" series of crimes. Isaac Futerman, 50 years old, and his wife, Rachael, 72 years old, were found dead in their rooms at No. 101 Norfolk-st., their bodies terribly mutilated.

The police believe that the aged couple were practically tortured to death, and in the absence of any well-established motive for such a crime, the police think the Futermans were victims of some religious maniac.

Futerman was a retired manufacturer, who had accumulated a small fortune, but he had always refused to leave the east side neighborhood, where he settled when he came from Russia many years ago. He was a zealous church worker and aided in founding a synagogue in his district, at which he and his wife had been regular attendants for many years. The couple lived alone, with three children living in other parts of the city.

**Bodies Terribly Mutilated.**  
One of these, Aaron Futerman, superintendent of a brass factory, discovered the bodies when he called at the house to-day for his regular weekly visit. He and the police forced an entrance and found the father's body on a sofa and the mother's on a bed, both only partially dressed. There were deep gashes across both faces and bodies, and the eyes of both were terribly mutilated. One of the man's hands was torn from his socket, the man's abdomen was running lengthwise from head to foot. The nature of the mutilation led the police to believe that it had been begun while the Futermans were alive, and that death had actually been caused by blows over the head which fractured both skulls.

The bodies bore finger prints which police experts took photographs of. The key to the door of their rooms was missing, and a small bag in which Mrs. Futerman is said to have carried money, tied about her neck, and jewelry which Mr. Futerman is said to have worn, could not be found, but the police did not believe that robbery was the motive of the crime. The murderer evidently locked the door behind him and took the key with him and left no trace of his identity except the bloody fingerprints on the bodies.

**Murder a Mystery.**  
The son, Aaron Futerman, declared that the murder was a complete mystery to him, for he did not know that his father had an enemy in all the world. He said that what money the murderer could have secured was comparatively small, as his father kept practically all his money in a bank.

A large number of central office detectives were at work on the case to-night, but up to a late hour they had run upon no good clue. The police believe that the murder occurred several days ago, as decomposition had set in slightly, and neighbors do not remember seeing the aged couple since Jan. 3.

**MORE AFRAID OF OBLATE THAN OF A FREEMASON**  
Senator Legris Hands Out a Hot Bolt to Religious Order—Claims His Son Was Assaulted.  
MONTREAL, Jan. 7.—(Special).—Hon. Senator Legris tells in Le Pays to-day why he sends his two sons to McGill University and replies to L'Action Sociale of Quebec, who claims that the senator is hatched up with a Freemason, meaning, no doubt, G. Langlois, M.L.A., editor and proprietor of Le Pays. He says he does not care whether he has to do with Freemasons or not, all he wants is a sincere adherent to Liberalism.

The senator points out that Sir John A. Macdonald was a man high up in the Masonic Order and asks what is the difference, as Sir John Macdonald was supported by the clergy of this province to a man. Then Senator Legris tells how an Oblate Father brutally assaulted his son Wilfrid while the latter was asleep in the dormitory, and that, although the boy lost an eye and carries a broken nose as a result of the attack, the college authorities pleaded that they were not responsible for the act of one of their number, and, consequently, Senator Legris affirms that he is more afraid of an Oblate than a Freemason, and regrets that his sons were not always at McGill.

## ARMISTICE TO BE EXTENDED

**Republicans Assume Control of Tientsin-Pukow Railway — Treaty Powers to Protect the Railway.**

SHANGHAI, Jan. 6.—There is reason to believe that the armistice will be extended for fifteen days. Yuan Shi Kai has requested the extension and President Sun Yat Sen is willing to agree to it conditionally. Terms are now being arranged.

The republicans to-day assumed control of the Tientsin-Pukow Railway. They notified the foreign officials representing the British and German bondholders that the headquarters of the road had been removed from Peking to Nanking. Foreigners are being re-employed.

By order of the president a prominent contractor was shot this evening for extorting funds in the name of Sun Yat Sen.

General Homer Lee, the American officer who accompanied Dr. Sun Yat Sen to China, it was said for the purpose of taking a responsible position with the revolutionaries as military adviser, has received official notification that there is a penalty of death attached to the participation by an American in the insurrection in China. General Lee some time ago declined to act as chief of staff.

**Powers to Act**  
PEKING, Jan. 6.—The treaty powers have undertaken the protection of the railroad between Peking and the sea. Interruption of traffic along this line, which has prevented the passage of the mails for four days, has resulted in the decision. Detachments of British, German, Japanese, and French troops have been stationed at intervals between Peking and Chihwangtao, according to the plan devised two months ago. A Japanese general is in command, as he is the training officer.

The respective nations assume charge of different sections of the road. Great Britain takes care of the section between Peking and Tangshan, France between Tangshan and Tientsin, Germany, Shanghai and Tangshan, the United States, Tangshan to Lanchow, and Japan from Lanchow to Chihwangtao. The United States has no troops in North China, except a small detachment of marines, but the section allotted to it, but British troops are protecting that district, until the Americans arrive. Just when additional American troops will reach China is not known, although Minister Calhoun cabled several days ago to the state department at Washington, advising the dispatch of a regiment on a peace footing. So far he has received no reply from the department.

**Limitations to Control.**  
The legations regret that they cannot control the Chinese Imperial railroad up to the Japanese junction in Manchuria, thereby ensuring a continuation of the trans-Siberian mails, but the protocol does not authorize anything further than maintaining communication to the sea, the nearest open port being Chihwangtao, as Tientsin is ice-bound.

Yuan Shi Kai is pleased at the action of the powers, because it relieves the Imperial administration of responsibility.

## Ice Bridge at Falls

NIAGARA FALLS, Ont., Jan. 7.—(Special).—The first ice bridge of the season spans the Niagara to-night. It reaches from the upper bridge to within a few yards of the Horse-shoe Falls. Several people crossed it to-day, although the natural wonder is not yet quite safe.

## FOSTER'S LITTLE AX IS PUZZLING MR. RUST

**Moreover, Waterworks Engineer's Fellowes Marvels Muchly—Always Friendly, They Say.**

In conversation with The World last night City Engineer Rust stated that he could not understand why Controller Foster should make a motion asking for his resignation, and also that of Waterworks Engineer Fellowes.

"I am sure it has not been out of personal spite," said Mr. Rust. "I have known him for a great many years, and we have always been the best of friends. We always got along very well when he was chairman of the board of works, and he made a good chairman, too. Mr. Foster advocated changes and improvements on the board of works in his platform speeches, and I suppose he has got to attempt to carry it out. I think, however, that that motion was quite uncalled for, and it certainly is not pleasant to get that sort of advertisement."

When asked what he thought of the plan advocated by one of the evening papers to do away with the board of works altogether, Mr. Rust thought that the idea was not at all feasible.

"The board of control have too much to attend to now," he said. "There are a lot of plans advocated, which are attempts to get closer to the commission form of government, but commission government does not appeal to me as they have it in the States."

Deputy City Engineer Fellowes could not understand Controller Foster's motion at all. They had always been on the best of terms, he said. He believed that Controller Foster made his motion believing that it was for the best. Mr. Fellowes, however, thought the motion would not be taken seriously.

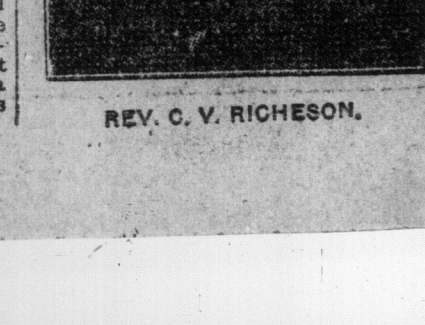

**DYNAMITE CUIRAGE**

**Italian Tried to Blow Up Home of Girl Who Rejected Him.**

MONTREAL, Jan. 7.—Because he was rejected as a suitor by 15-year-old Denise Serrain, who said that she would never marry an Italian, Victor Ruccepi, aged 23, attempted last night to blow up the young girl's home with dynamite. The dynamite cartridge went thru the lower story of the house, and exploded in the kitchen of the flat occupied by Joseph Cousineau. No one was hurt.

Ruccepi was arrested, later confessing. He will be arraigned to-morrow.

**Line to Peace River Country.**  
VANCOUVER, Jan. 7.—The Canadian Pacific Railway has filed a route map to run along the north side of Burrard Inlet from Port Moody into North Vancouver. This is taken as a move to promote North Vancouver as the southern terminus of the Canadian Pacific line to the Peace River country.

REV. C. V. RICHESON.

## CONFESSED TO MURDER OF HIS SWEETHEART

BOSTON, Jan. 6.—The Rev. Clarence V. T. Richeson, formerly pastor of the Immanuel Baptist Church of Cambridge, to-day made a written confession to the effect that he poisoned his former sweetheart, Miss Aris Linnell. The statement was given into the hands of the court, which made the confession public at 1 p.m.

As Rev. Mr. Richeson stands to-day before the law, he is indicted for the murder in the first degree of Miss Linnell, by giving her a quantity of cyanide of potassium. The penalty for such a crime in Massachusetts is death in the electric chair. If Richeson stands in court on Jan. 15 next, the date set for his trial, and acknowledges his guilt in accordance with his state-made public to-day, the court under the law, would be obliged to impose the death sentence, in the opinion of court house officials.

VETERAN COON HUNTER: I Think He'll Come Down Soon.

## A WINTER'S TALE

Begging Pardon of Our Old Friend Bill Shakespeare.

Scene: Corner Queen and Yonge streets last Saturday night at a late hour. Thermometer about 15° below. Three citizens waiting for a Queen car. First Citizen: Many cities have I visited in my time, but none such car service as here exists has passed beneath my notice. Second Citizen: "It is too early yet to voice impatience. Save your strength. The night is cold and a long wait before us. Soft! Something is coming." Third Citizen: A car, sure enough, but the sign I cannot distinguish. However, it draws nearer. "Parliament!" so goes the sign. Second Citizen: Too early once before I said it is to voice impatience. Only thirty minutes have we waited. Third Citizen: But the wind bites shrewdly. It is an eager and a nipping air. Third Citizen: Blow wind and crack your cheeks. Thou art not half so ungrateful as Fleming's ingratitude. Second Citizen: By the pricking of my thumbs a Queen car this way comes, perchance. First Citizen: As the one that passed before, this one also bears the high sign "Parliament." Second Citizen: But more follow closely. 'Tis not a Queen on this deal. Stand we close then, and if a Queen perchance it be, board her then right merrily. The first, second and third cars pass in procession, but all prove to be Parliament.

## SESSION EXPECTED TO LAST TILL END OF MARCH

Opposition May Get Up Series of Fights, But Government Says to Them "Go Ahead."

OTTAWA, Jan. 7.—(Special).—The house of commons gets down to work again on Wednesday and will be in session, it is expected, until the end of March. The government is practically ready with all its important legislation and has finished up the preparation of estimates for the year. The session's work is all ready for the house and it is up to that body to get on the part of the opposition to get up a series of fights on those subjects, which it thinks the government is not willing to have discussed. The hands of the government say that there are no such questions and that the opposition is perfectly welcome to go ahead. In any event there is a general expectation of protracted debate.

The procedure of the inaugural meeting is as follows: 11 a.m.—Prayers. Inaugural address of Mayor Geary. Election of directors of the exhibition, 7 to be elected. Representatives to the board of trustees.

## GRAND CIVIC DINNER HELDS LARDS TO-DAY

Laurel-Crowned Victors Meet For Inaugural—How the Schedule Runs.

The inaugural meeting of the city council will commence at 11 o'clock this morning. Previous to that hour, the mayor and all the members must make their declaration of qualification, the mayor before the judge of the county court, and the members of the council and the board of education before the city clerk. At the conclusion of the meeting, which is usually about 1 p.m., a dinner will be held at McConkey's cafe.

The procedure of the inaugural meeting is as follows: 11 a.m.—Prayers. Inaugural address of Mayor Geary. Election of directors of the exhibition, 7 to be elected. Representatives to the board of trustees.

## NAVAL WAR STAFF CONSTITUTED IN ENGLAND

**To Study Continuously Naval Strategy and Preparation — Duties Will End With the Tendering of Advice to the First Sea Lord.**

LONDON, Jan. 7.—The first lord of the admiralty, Winston Churchill, has made further important changes in addition to those initiated in November last, when Admiral Sir Francis Bridgeman, Vice-Admiral Prince Louis of Battenburg became first, second and fourth sea lords respectively. An admiralty memorandum issued to-day, completes the naval reorganization by the creation of a naval war staff, of which Admiral Ernest Trowbridge, heretofore private secretary of the first lord of the admiralty, becomes chief.

Sir Francis J. S. Hopwood, formerly under-secretary of state for colonies, who was on the staff of King George, then Prince of Wales, during his visit to Canada, in 1908, is appointed an additional civil lord on the admiralty board. Rear-Admiral David Beatty, who, in 1901 married Ethel Field, daughter of the late Marshall Field of Chicago, succeeds Admiral Trowbridge in the secretariat.

Captain Geo. A. Ballard, of the battleship Britannia, and Captain Thomas Jackson, assistant director of naval intelligence, have been appointed directors of the operations division and the intelligence division, respectively. Brain of the Service.

Mr. Churchill, in a long explanatory statement, says that the new staff is to be the brain, applied continuously to scientific and speculative study of naval strategy and preparation, and will be organized from the existing elements in the three divisions—intelligence, operations and mobilization. These divisions will be combined under a flag officer as chief of staff. The new staff will have no executive authority. Its responsibilities will end with the tendering of advice to the first sea lord.

A complete list of the officers forming the staff, which will comprise most of the grades, will be promulgated soon.

Mr. Churchill further explains that the new civil lord will be the "buyer and business manager" of the navy, while there will be close co-operation between the naval staff and the war staff of the army.

## These Passengers Were Left Stranded

**They Got Off to Take the "Car Ahead," But It and the Other Departed.**

"Take the car ahead" was the unexpected order issued by a conductor at about 2.30 on Saturday afternoon to the passengers on a King-street car, bound east, when it reached Kingston-road.

Some of those near the front of the car clambered out, and got aboard "the car ahead." Others were attempting to do so when "the car ahead" started off and left them gazing confusedly at the departing car and the one they had just alighted from.

Before they could return to their former car it also drew past them, and proceeded east, leaving them to do the best they could without transfers. About a third of the original passengers who had stopped on the car were told by the conductor that he had meant to "go" at Kingston-road.

Passenger on a Broadview car was aroused last night over a dialog between two street railway men. One shouted to the motorman car bound west, "Where's six?"

"I don't know; they don't run in rotation," was the reply. He corrected himself by calling out, "There she is Tom," as extra No. 6 drew up at the southwest corner of Broadview-avenue and Queen-street. For ways that are dark—the T.S.R. is peculiar.

The New York World Says: "Haddon Chambers' latest play 'Passers By' is a dramatic gem of rare purity, the finest thing Charles Frohman has presented in years. Its cast is perfect. All in all, a splendid performance of a remarkable play." "Passers By" opens at the Princess to-night with the original cast.

## HEAVY LOSS IN DOWNTOWN FIRE

**Destroyed Stock of Boyd-Brumell Co., and Invaded Adjoining Buildings — Damage \$140,000.**

Early Saturday evening fire and water did over \$140,000 damage, it is estimated, to the premises and stock of the Boyd, Brumell Co., Ltd., fancy goods, 11 West Wellington-street; Fowke Singer Co., Ltd., drygoods, 7 West Wellington; Robinson and Dale Co., Ltd., drygoods, 9 West Wellington, and the Merchants' Bank, 13 West Wellington.

The cause of the blaze is unknown. It appears to have started on the main floor of the Boyd, Brumell Co., near the elevator or at the foot of the elevator shaft, and was not extinguished until the \$100,000 stock of the company was destroyed, their \$20,000 pany was destroyed, and the building completely gutted, and the stock of the Robinson, Dale Company damaged to the extent of \$18,000 or \$20,000 by water. The stock of the Fowke Singer Company, 7 West Wellington-street, was also damaged by water to the extent of about \$2000. The bank building suffered only slightly.

The Boyd, Brumell Company are wholesale dealers in fancy drygoods, and had just received their spring stock, among which was a great quantity of celluloid goods. The inflammable nature of the wares caused them to be easily ignited, and made a most spectacular blaze.

No One in Building.  
There had been no one in the building, so far as is known, for several hours before the fire was discovered by a passerby at 5.30. A still alarm was sent in from the Dominion Express office at the corner of Yonge and Wellington-streets. The fire at that time had a good grip on the first and second stories, and when the firemen arrived, the entire four storey building was enveloped in flames. Seeing that a big fire and a dangerous one was inevitable, Chief Thompson sent in a general alarm.

Lines of hose were run from every available hydrant from Bay, Wellington, Yonge and Jordan-streets. Some difficulty was encountered at first by the ice in the hydrants. This, however, was soon overcome, but a far greater setback occurred thru the poor water pressure. This too, was overcome when the engines arrived, and within twenty minutes there was a pressure of 200 pounds playing upon the burning building from a score of streams.

No. 1 aerial reel was of incalculable value. It was placed immediately in front of the Boyd-Brumell building.

In fancy weaves and heavily mercerized, made in the phoenix style with one or two dome fasteners, and full size chest protectors; neck piece is closely knitted to prevent stretching. Colors navy and white. Special price, Tuesday ..... 19c

### Men's Silk and Knitted Neckwear, 17c

A tremendous assortment to choose from in this clearing lot of men's neckties, in four-in-hand shapes. The silks are made with open or folded ends in block, stripes, floral and conventional patterns in many colors and combinations; the knitted are shown in full assortment of cross-bars, two-tone effects and plain shades. Semi-Annual Sale price ..... 17c  
—Main Floor—Centre.

### GRENS AND KILTIES WIN INDOOR BASEBALL GAMES

Fair-Sized Crowd See the Officers Play in the Armories on Saturday.

Despite the severe weather a fair sized crowd turned out to see the officers' ball games Saturday night at the armories and were well repaid, for the first game between the Grenadiers and the Kilties was a corker, abounding in brilliant fielding and base-running, and some tall slugging. Holmes pulled off the fielding feat of the evening when he captured a line drive after a long run, robbing Andy Dunsmuir of a sure two base hit. Len Morrison hit a home run with the bases full. Beardsmore pulled off a base-running stunt in the eighth. He was the first man up and on a hit to the infield the first baseman dropped the ball. Beardsmore continued on to second, running into the player with the ball and knocking the ball out of his hand. He tore for third and slid, beating the throw and while the third baseman was looking around for the umpire to learn his decision, Beardsmore raced home with the run that tied the score. This incident put heart into the Grens and they scored ten runs before being retired.

The second was a good, close, hard game, not quite as snappy as the first, but interesting just the same. The Body Guard had some difficulty trying to solve Foy's pitching, none of them fanning the atmosphere. The Guards' fielding was a little off color, their errors being costly, the one redeeming feature in this respect being McDonald, who played a very fine game, accepting nine chances with one miss. Judging from the class of ball played last Saturday night the patrons of this league are going to see some rattling good games this winter. There will be two games next Saturday night.

**FIRST GAME**

	Grenadiers	Kilties
Runs	10	10
Hits	12	10
Errors	2	3
Left on base	8	7
Strikes out	10	11
Umpire	McDonald	McDonald

**SECOND GAME**

	Grenadiers	Kilties
Runs	10	10
Hits	12	10
Errors	2	3
Left on base	8	7
Strikes out	10	11
Umpire	McDonald	McDonald

### Wanderers Walk Away From the Stanley Cup Holders

MONTREAL, Jan. 7.—It did not take long for Wanderers to show the packed arena that they had the best team in the association last night by sweeping the champion Ottawa fairly off their feet. The locals scored three goals in the first twelve minutes of play and maintained the superiority so well that at the end of the hour they were victors over the one-time invincibles by the decisive score of 3 to 0.

Wanderers did not have much on the champions in the matter of speed; in fact, the Senators have a trifle faster than the locals, but in every other department of the game the Wanderers had the edge. From goal to centre they showed better form, especially in their combined efforts. In the first quarter they outscored the Senators, 3 to 0, and in the second they again won, 2 to 0. In the last quarter, without the services of Ernie Russell at centre, they scored goal for goal.

**Public Utility Bowling.**  
In the Public Utility League, at the Toronto Bowling Club Saturday night, the City Engineers won two out of three games, 2 to 1. The latter put up a good argument in the rubber game, and made the league leaders busy. The City Engineers, who they did by only 30 pins. Newton, for Hydros, was high roller, with 37, and also scored high single, with 33, in the first game. Norman Smith, also for the "five wires," was second, with 35, while money and Kirkwood split honors for the Engineers, with 47 pins each. Scores:

### Putnam's Corn Extractor

Mr. J. McGuire of the Kingston, Ont., post office, says: "I was almost crippled with corns. They made me so lame and sore I could scarcely walk. I used a number of remedies but got no relief. Fortunately, I tried Putnam's Painless Corn and Warthog as they were prompt. A few applications perfectly cured my corns, and I recommend Putnam's Corn Extractor as the best corn cure I ever heard of or used." Twenty-five cents buys a bottle of Putnam's Extractor at any good drug store.

### SIX-A-SIDE A FROST.

If anyone can give a reason why the sentence of the hockey court shouldn't be based on that six-man rule, it's just the time for them to come forward. Sometimes we see some pretty raw attempts at rule-making on the part of the sport directors around the country, but this one is the worst ever. The penalty system made to bolster up the six-man rule, could very well stand on its own legs; but, as for the other stuff-out with it, when the six-man rule was made, someone suggested that there might come a time when the better part of the team might be on the sidelines. The new fine system, with three warnings, and the full team always on the ice, was the result. It worked out well, since last night's game was a clean one, and there wasn't much chance to get any idea how it would work if the teams decided to rough things up. The six-man rule does all that its enemies claim for it—it breaks up any kind of combination play, tries out the forwards and makes the game fast in spots only. Russell, Bowles, one of the best referees in the game, condemned it; that Quebec manager, M. J. Quinn, has no use for it; the Ottawa players don't like it. In fact, the six-man rule seems to have no friend at all. The best thing to do is to get back to the last year's game, which seemed to be good enough for the hockey fans—Ottawa Journal.

**Guelph Bonspiel Draw.**  
QUELPH, Jan. 6.—The following is the draw made for the Canadian Association of the Victoria Rink, beginning on Tuesday Jan. 8, when the Elsiean Trophy, which served to be good enough for the hockey fans—Ottawa Journal.

**Hamilton the Winner.**  
The employees of the cutting room of E. & S. Currie held a handicap tournament on the Hamilton rink, with a handicap of 15, it was returned the winner.

MONDAY MORNING, JAN. 8, 1912

## START RIGHT.

When the council meets this afternoon some keynotes will be struck, which will resound through the year. The aldermen should be particularly careful not to take positions from which they may not care to recede. Consistency, it has been said, is a mark of little minds, but the path of the inconsistent is not rendered an easy one. To make a good start is going a long way towards accomplishing something. Last year there were delays for weeks, and when matters began to move further exasperating delays prevented the carrying out of the more important things recommended. The policy of delaying discussion is well suited to obstruction and is generally resorted to, but the big questions ought to be put in hands at once.

There should be no delay about getting the city bill ready for the legislature. Very frequently the private bills committee complains about Toronto's tardiness in this respect. The council can facilitate departmental work and get the important things all settled in time.

The city's views on assessment should be impressed upon the legislature for one thing, as the assessment committee of the house is certain to take action this year in view of the government's statements.

Taking account of all the franchise difficulties and entanglements facing the city The World would once more urge upon the council the necessity for the annexation of North Toronto. There are many other good reasons, but this need of securing control of all franchise rights in the northern municipality is a paramount one.

We have no doubt the council will deal with the Bloor-street viaduct. All parties are agreed upon the city engineer's recommendation for the east end stretch from Danforth-avenue to Castle Frank. This, at least, can be proceeded with at once.

It is understood that one of the controllers has an intention to make some proposal regarding a public utilities commission. The city council should certainly go on record with regard to the Ontario Railway and Municipal Board, which ought to perform the function of such a commission, but which has misinterpreted its duties to some extent, and resolved itself into an abortive count. It is claimed, of course, that the act so constitutes it. Then the act ought to be changed, and the city council should say so.

## BETTER CITY GOVERNMENT.

Dr. Morley Wickett appears to have been reading The World during the past few years, and has with some changes of titles adopted the principle of The World's suggestion of government by commission for Toronto. The name of a commission is evidently the difficulty with most of the people who object to it. Dr. Morley Wickett would elect a council as we suggested which would appoint—and this is the variation—"paid experts as department heads and chairman of standing committees." We would have the paid experts appointed by the council, and let them go ahead with the business. If they don't know their business they are not experts. If they do know it the committees would only hinder and hamper the transactions of the business. It would be quite sufficient to give the council power to call a halt in any policy which it disapproved, without keeping up the endless obstruction which is the feature of the present council system. Practically all the alleged inefficiency of the works department is due to aldermanic obstruction.

Controller Foster should make a note of this before he has his own record and that of other members of the council unfolded to their memory. Dr. Morley Wickett, The Globe, and some other eminent authorities are very strong for maintaining the council as "a training school for future administrators." The public is to suffer while succeeding generations of amateur administrators are trained at the public expense. This method has not been found successful in the case of doctors or lawyers. Will the public submit to suffer collectively what they won't tolerate individually? Besides, Dr. Morley Wickett's premises are wrong. What is needed to make a good administrator is a successful business experience combined with the broader outlook that some men have naturally. By our present method we get not the most successful class of business men, but the condition has been improving, and not the men with the broadest views. The main difficulty in the past, and

a difficulty which is not singular to Toronto, but is met with in municipalities throughout the country, is the lack of co-operation of the board of control and council with the permanent officials. Some aldermen appear to think that whatever the officials recommend should be criticized and opposed. Toronto has an income to administer much the same in amount as the province. The cabinet ministers are able to get along with their deputies and heads of departments without all the bluster and bullying that make the city council notorious.

At least the people are beginning to see that an improvement is needed. There is no reason why the present council should not register a distinct advance. As a beginning the aldermen might take pains to get all the facts in connection with the stories they hear, and especially to get the other side. Some facts are not enough for a man in public life. He should make an effort, if only to save his own reputation, to learn all that can be had.

## COPPER AND NICKEL AND IRON.

Have we in Ontario the ore and the conditions that will make this province a great producer of copper and nickel? We believe we have. We are now turning out more nickel matte (unrefined nickel) than all the rest of the world. But it is sold to the world as the product of the United States, because it is refined in New Jersey. And it is sold to the world at an almost prohibitive price outside of battleship armor. But it could be sold cheaper, and at a cheaper price could be used in many other ways. We must find a way under the national policy of developing and producing finished nickel metal in our own country—and of actually knowing how much we do make, and who buys what we mine. We have the monopoly of the nickel of the world—and we know nothing about it. The new government must take this up later on.

As to copper: we believe there are immense stores of copper ore in New Ontario, and new explorations, we believe, are now under way. We must encourage the smelting and refining of copper in Canada, and especially in Ontario. But it needs national policy to develop the industry. We remember when a free trade paper in Canada said one blast furnace running a few months in a year would produce all the pig iron we could need for fifty years. We have a lot of furnaces and we are buying from the States the product of many other furnaces. We must make all our own iron, our own steel, our own rails, all in Canada. So copper, so nickel. Perhaps it would be worth while to find a way of producing cobalt.

The United States is the greatest iron and steel country in the world; great in copper production; in aluminum: we can on the same line of encouragement, produce all these things in Canada—not only what we need, but much for export. National policy as Sir John A. Macdonald established it is only, we trust, on the threshold in Canada.

## GET LOCAL KNOWLEDGE.

The Telegram talks with the assurance of absolute ignorance about the Bloor-street viaduct. "An unsheltered viaduct almost one mile long is necessarily a more exposed route across the Don Valley," it declares, "than the sheltered streets at the beginning and end of a short viaduct." The man who wrote this is supposed to be in harmony with, if he did not write, the article last week declaring that the viaduct must be built from Danforth-avenue to Castle Frank.

## PEANUT SHELL CONSOLATION

Speaking of the street railway Mayor Geary is reported to have said in an interview: "We must bear some discomfort until we get relief."

As the only relief in sight is thru the construction of tubes, the people, who, if they had an opportunity of expressing their opinion, say in a plebiscite of the householders, bona fide renters and freeholders, would demand them by a large majority, are wondering why Mayor Geary does not actually support this available and practicable remedy especially when he has no other to propose.

Or, if he has, will he bring it forward at once? Either the tubes or something better? The street railway company will endorse his philosophy that "We must bear some discomfort until we get relief," but it affords the citizens the sort of consolation they can get out of a peanut shell. It is somewhat light and empty.

Those who remember that the strongest opposition to the union a century ago came from the "loyal north," are not unhopful that the north will once more be able to revert to a view of Irish government, which has worked well in principle in the provinces of Canada. There will always be three parties in Ireland, and Ulster could easily rule the country by holding the balance of power.

## KEW BEACH PROTEST.

Editor World: For the past few weeks, we residents east of Kingston road have experienced the very worst

street car service. About 9 p.m. Friday with the mercury around zero, a car half filled with passengers, and as usual, mostly women, on reaching the Kingston rd., "dumped" its load with the usual "take the next car," and there we were in the cold until the next car arrived.

Something must be done or there will soon be a worst riot than last year. Our patience has been well worn out. Strange that our public men, whose voice could be used to produce some effect, have not the "civic and moral courage" of organizing some public demonstration with the government, protesting against this disgraceful and immoral car service to which we are subjected.

It must be admitted, even by MacKenzie, Fleming & Co., that we have been not only "too docile," but a "tame lot of too law-abiding citizens" and "depend too much on our sleepy representatives at Queen's Park."

Surely "Toronto" ought to get some kind of square deal from our Tory government.

Are we good Conservatives to be used for "good things" just as the election and then cast aside like the boy does when he is tired of his toy?

Appeal to the Ontario Railway and Municipal Board? A joke! We have on this job big men with big and progressive ideas—men of intelligence, courage and fair mind—men filled with the love of the brotherhood of man, and then we let them go!

Wake up, Sir James! The Toronto Street Railway is using the spurs on its patrons. You are the human agent. We look up to you for help.

One of the Suffering Car Patrons.

## WHITAKER'S ALMANACK.

This indispensable adjunct to the desk of all who have to deal with public affairs, has with this year reached its forty-fourth edition. First published on Dec. 30, 1868, it consisted of 362 pages, now it takes 336 pages to cover its vast field. For this includes all the nations of the world, with particular reference, however, to the British Empire and the United States. The topics dealt with require an index giving 7000 references, covering all the important branches of human and national activity, admirably condensed and systematized and conspicuous throughout for that accuracy inseparably associated with the name of "Whitaker."

Each year has seen additional and improvements, and the volume for 1912 is no exception. There are new articles on Canadian, Australian and South African affairs, the United States, science and labor unrest, trade union, public and private wealth, and other important subjects. Pages of fresh miscellaneous statistics have been inserted regarding new work in trade, commerce and industry, education and finance. Altogether Whitaker's stands by itself in an order extending the time for its use.

Order made extending time for two weeks.

Before Geo. M. Lee, Registrar, W. and Grand Valley Railway Co. v. T. H. Peine for A. J. Patterson. Motion by defendant Patterson for an order extending the time for his answer to the third party, Geo. M. Lee, Co.

Among the specially Canadian books of reference none deserves higher place than "Heaton's Annual," otherwise known as The Commercial Handbook of Canada and Board of Trade Register, now in its eighth edition. Each year of its publication has seen constant improvement and much additional information of national value. This volume is no exception to that excellent record, and it will be found indispensable to all business men and those dealing with or interested in public affairs. The edition for 1912 just out contains for the first time a short account of the various kinds of insurance effected in the Dominion with a directory arranged in alphabetical order of all the companies operating under either federal or provincial license. This, we understand, is an original departure not hitherto attempted in any commercial handbook.

Heaton's Annual is in constant use by customs officials thruout Canada, and no pains have been spared to maintain its character as a standard authority on the tariff. Appended are the various foreign trade treaties, and a very complete summary in alphabetical form of the recently brought down to date. This is a unique feature not found in any other book. The latter portion of the volume is divided into three parts: Descriptions of towns, general information and accounts of agricultural and fruit districts to which immigration is being attracted. There is also a note of special opportunities offered to manufacturers and investors, while the general information really consists of a concise encyclopedia covering the whole resources of the Dominion under appropriate headings. Heaton's Annual is a credit to the compilers, and remarkable for its extent and general accuracy.

## E. K. COULTER ON "CIVIC BETTERMENT."

To-night at the Association Hall, Ernest K. Coulter, the clerk of the New York Children's Court, will lecture on "Civic Betterment." The fact that Toronto has recently opened a children's court which is presided over by the Rev. J. R. L. Starr, should make his subject one of some general interest to the public.

Mr. Coulter is a lawyer, an observer trained by early years of journalism, a sociologist whose work has been in action rather than speculation. Mr. Coulter has a knowledge of his subjects and a power of forceful presentation that keep him in wide and growing demand as a lecturer. There is a vigorous dealing with causes among which congestion, bad environment, "delinquent parents" and human greed loom big. He sets forth not only conditions but practical remedies.

Within a very short time Prince Rupert, the Pacific Coast terminus of the Grand Trunk Pacific Railway, will not have any occasion to import its supplies of cement from England, Germany, China or even Victoria.

The part summer there was located near Shames a large deposit of limestone, that is considered perfect for the manufacture of cement. The local stone locators staked the property, awaiting an examination by an experienced mining engineer.

## Do You Buy Magazines?

Special Club Offers at extremely low rates. Every copy promptly delivered. Place no orders or renewals until you have our prices.

Wm. Dawson & Son, Limited Magazine Specialists, 61 Church St., Phone M. 2537.

## THE NEW YEAR

Is a time for making resolutions, taking stock of the mistakes and omissions of the past, and turning over a new leaf.

## RESOLVE

That in 1912 you will greatly improve your financial position by spending less than you earn, by saving a fair proportion of your income, and depositing it so that it will earn interest for you. If you open a deposit account with us now it will assist you in keeping this resolution. You may begin with a dollar.

Established 1855 13

## At Osgoode Hall

ANNOUNCEMENTS.

Jan. 6, 1912.

Single court and chambers will be held during the week beginning Jan. 8, 1912.

Motions set down for single court for Monday, 8th inst., at 11 a.m.:

1. Guthrie v. Clark.

2. Guthrie v. McLagan.

3. Bank of Hamilton v. Pearen.

4. Lang v. Ottawa Coal.

5. Rundle v. Bailey.

6. Gates v. Linck.

7. Empire City v. Linck.

8. Robinson v. Linck.

9. Driscoll v. Linck.

10. Ogilvie v. Linck.

Peremptory list for divisional court for Monday, 8th inst., at 11 a.m.:

1. Lincoln E. Co. v. Packard Electric Co.

2. Noble v. Noble.

3. Mannheimer v. Forman.

4. Heller v. G.R. Co.

5. Pukulski v. Jardina.

6. Gray v. Reynolds.

## Master's Chambers.

Before Geo. M. Lee, Registrar.

W. and Grand Valley Railway Co. v. T. H. Peine for A. J. Patterson. Motion by defendant Patterson for an order extending the time for his answer to the third party, Geo. M. Lee, Co.

Order made extending time for two weeks.

## Trial.

Before Riddell, J.

Thompson v. Playfair—D. Robertson, K.C., for plaintiff, R. McKay, K.C., for Playfair and White. O. E. Klein (Walkerton) for Byers. An action for specific performance by defendants of an agreement for the sale by plaintiff to defendants, Playfair and White, of certain timber, on Yeo Island, Manitoulin district, for 25 cents per acre, balance due plaintiff, or, in the alternative for damages against defendant Byers, alleged to have been sustained thru untrue representations made by him.

Judgment: I have found as a fact that neither Thompson nor Byers had any authority either to buy the timber or to sign a contract for the purchase. I think that Playfair and White did adopt the contract, whatever it was. If the defendants had not bought the timber, they would not have been bound to sign a contract for the purchase. Judgment for plaintiff against Playfair and White for \$5000, with interest thereon from June 22, 1911, and full costs of suit. Action dismissed as against Byers. There will be no costs against this claim.

## ORDER FLEET FOR HALIBUT FISHING.

Mr. Geo. H. Collins, managing director of the Canadian Fish and Cold Storage Co., Prince Rupert, is at present in England, where he will call on tenders for building sixteen fishing vessels to be used in the waters of the Pacific adjacent to the plant next April.

The company will commence business in the vessels to be built and delivered by the time the company is capitalized at \$2,500,000, and the plant will cost when completed close to \$500,000 and will be the largest of its kind in the world.

The buildings of the company at Prince Rupert are of reinforced concrete built at one end of the harbor, and will be fitted up with the most modern machinery.

The storage capacity will be fourteen million pounds of fish with a freezing capacity of 10 tons per day.

In an interview Mr. Collins said: "With the completion of the G. T. P. fish from the Pacific coast will be put in the eastern market three days quicker than now. This he explains by the fact that the greatest proportion of the fish is caught near Prince Rupert and thence has to be taken to Vancouver and Seattle for shipment."

The establishment will give employment to 500 men, none of whom will be Japanese. White men and Indians only will be employed.

The remaining directors of the company are: Andrew Kelly, president of the Western Canada Flour Mills, Winnipeg; James Carruthers of Montreal, grain exporter, and Grier Starrett, former manager of the New England Fish Company.

## HORSES BURNED TO DEATH.

PORT COLBORNE, Jan. 6.—A barn and four horses were burned here today. The barn was owned by Cronmiller and White, brewers, and was very close to the brewery. As there was no wind the firemen succeeded in confining the fire to the one building.

## Aquarium for Toronto.

The natural history section will meet at the Canadian Institute, 128 College-st., this evening at 8 o'clock. Mr. John Maughan, Jr., will lecture on "The establishment of a permanent marine and fresh water aquarium in Toronto," with lantern slide illustrations. The public are cordially invited. The subject being of interest to the citizens generally, a good audience is hoped for.

## CANON DYSON HAGUE RETURNING TO TORONTO

Will Eecome Vicar of Church of the Epiphany on February 15.

His Lordship the Bishop of Toronto preached in the Church of the Epiphany, Parkdale, yesterday morning and the Rev. Principal O'Meara of Wycliffe College in the evening. The occasion was the formal announcement of the appointment as vicar of the parish of Rev. Canon Dyson Hague, M.A., at present rector of the Bishop Cronya Memorial Church, London.

Some little time ago the rector of the Church of the Epiphany, Rev. Canon Bryan, owing to uncertain health, applied to the bishop for the appointment of a vicar who would take complete charge of the church and parish. As a result of this application, while Canon Bryan remains rector and will actively assist in the parish work, Canon Hague as vicar will have full control and responsibility for the efficient work of the parish. Canon Hague, who will take charge on Feb. 15, is one of the outstanding preachers of the Anglican Church, with a reputation extending far beyond his own communion. He is also recognized as one of the most successful administrators of parochial affairs, and under his direction the Church of the Epiphany, which has been growing so rapidly since the erection of the new church building last spring, will doubtless take a foremost place amongst the churches of the city.

## His Career.

Canon Hague is a son of Mr. George Hague, formerly general manager of the Merchants' Bank of Canada, and was educated at Upper Canada College and Toronto University. His divinity course was taken at Wycliffe College, and his clerical training was obtained while curate at St. James' Cathedral under Rev. Dr. Rainford and the late Bishop Du Moulin. He has proved himself a worthy pupil of these eminent divines, and his successful career, first as rector of St. Paul's Church, Brockville, and afterwards as rector of St. Paul's Church, Halifax, and the Memorial Church in London, stamp him as a man whose eloquence and fearless preaching must make for the rapid upbuilding of his church in the west end of Toronto. He is also lecturer on liturgies at Wycliffe College, and is the author of several books of theology and church history, one of which, on the liturgy of the Church of England, has been greatly used on both sides of the Atlantic. He will be a welcome acquisition to the ministerial ranks of Toronto and a tower of strength to the Anglican pulpit.

## Toronto Symphony Orchestra.

Tickets now on sale for request program on next Wednesday. Miss Eva Myott, contralto, assisting artist. Good seats at 50c, 75c and \$1.00.

## Trial.

Before Riddell, J.

Judgment for plaintiff against Playfair and White for \$5000, with interest thereon from June 22, 1911, and full costs of suit. Action dismissed as against Byers. There will be no costs against this claim.

Judgment: I have found as a fact that neither Thompson nor Byers had any authority either to buy the timber or to sign a contract for the purchase. I think that Playfair and White did adopt the contract, whatever it was. If the defendants had not bought the timber, they would not have been bound to sign a contract for the purchase. Judgment for plaintiff against Playfair and White for \$5000, with interest thereon from June 22, 1911, and full costs of suit. Action dismissed as against Byers. There will be no costs against this claim.

**O'Keefe's**

**Stout Is Extra Mild**

Those who prefer English Porter to Ale, will find O'Keefe's Stout uncommonly delicious.

It has the rich flavor of the finest imported porter—but, being extra mild, will not make you bilious.

All bottles sealed with Crown stoppers to prevent cork and tinfoil getting in your glass. Sold everywhere.

"The Stout That is Always O.K."

## PUBLIC AMUSEMENTS

"Passers-By" at the Princess. To-night at the Princess Theatre, Mr. C. Haddon Chambers' latest comedy drama, "Passers-By." This is the play that had such splendid success at the Criterion Theatre, New York, and at Sir Charles Wyndham's Theatre, London. The New York critics said the success was decisive and thorough, not less for the delicate charm and exquisite humor of its lines and incidents, than for the skill and evenness of its general performance. It is decidedly a modern play, with a novel story, filled with surprises, involving sentiment and humor that cannot fail to fascinate.

Mr. Frohman has given an excellent cast to the piece, which includes Richard Bennett, Julian Royce, G. C. Andrews, Ernest Lawford, Louise Rutter, Ivy Hertzog, Rosalie Toller, etc. The author himself directed the rehearsals. Nothing seen in Toronto is so attractive, judging from the opinions of those who witnessed "Passers-By" in New York.

"The Blue Bird" To-night. Fifty-five men are at work on the stage of the Royal Alexandra Theatre this morning putting the final touches to "The Blue Bird" production for to-night. In fact the Royal Alexandra will be one of the busiest places in Toronto until mid-afternoon when everybody will go home to snatch a short rest before the renewed hustle and bustle of the opening.

The special train carrying the new theatre company and production of Maeterlinck's celebrated fairy tale, arrived last evening. Three baggage cars, two day coaches and a Pullman were required to transport the effects and personnel. The members of the organization quickly dispersed, the actors to their hotels, the children to the special homes provided for them, and the mechanics to their boarding places for supper and sleep prior to the big business of the week-end hours.

Norman Hackett in "Satan Sanderson." Norman Hackett, the distinguished young Canadian actor, will return to the local stage after an absence of two years at the Grand Opera House to-night in his new play "Satan Sanderson," which is a dramatization of Helio Esmarques' famous novel of the same name by John Galsworthy.

Mr. Hackett is a native born Canadian. His grandfather, Capt. James Hackett, back in the 40's succeeded in having a bill put thru Ottawa to establish a light-house on Belle Isle, and was made the first keeper of it. His father, the late Captain Thomas Hackett, sailed the Great Lakes for many years and in 1871 distinguished himself for bravery by saving many lives from the burning steamer, "Marine City," on Lake Huron.

Mr. Hackett is a cousin of the late John Kemp of this city and Sir John Schultz, who was for many years lieutenant-governor of Manitoba. Hackett's engagement at the Grand is looked forward to with interest by his many admirers in Toronto.

The Vassar Girls at Shea's. The Vassar Girls will head this week's bill at Shea's Theatre. This is their first appearance in several years and with their distinct musical novelty are sure of a warm welcome from the audience.

The special features for the week are: Arthur Deacon in "Satan Sanderson," The Four Holydays, Sensational European Wire Act, and M. Golden and His Famous Troubadours, Russian Singers, Dancers and Musicians. Other well known favorites included in this week's bill are: Home Muses and Company in "The White Kites," artistic exponents of music and song, Marie Pearson, The Magnificent Melody Maid and the kinetograph.

"Star and Garter Show." Eloise Matthews and the "Star and Garter Show" will be the attraction at the Gaiety Theatre this week and surrounded with a beauty chorus of thirty graceful and charming girls and a cast of comedians and entertainers that takes rank with a metropolitan production, this company should have a most profitable engagement. Departing from the usual style of entertainment of first night burlesque, the Star and Garter Show will present a two-act musical comedy with a plot and story woven through the entire performance as in "The Wolf in the Sheep's Clothing." The story of the audience from start to finish. One of the features is the European novelty, "The Eagle and the Girl," which was a cyclonic sensation in Europe.

"Daffydillie" at the Star. A "Furnished Room" is the title of a two-act comedy to be given by Sam Rice and his "Daffydillie" at the Star Theatre all this week. Mr. Rice is a well-known burlesque comedian who heretofore has found it an easy matter to tickle the risibilities of the patrons of this theatre. Sam has associated with him this season such clever performers as J. C. Wolf, the star of the "Prince of Pilsen" Company, Miss Blanch Carter, who is probably the best comic singer on the American stage, and dainty Lulu Beeson, one of the cleverest singing and dancing soubrettes in the theatrical firmament.

The story of a "Furnished Room" deals with the vagaries of an itinerant musical professor who falls in love with one of his pupils, being under the impression that she is an heiress to a vast estate. She entertains the same idea as regards finances, but it turns out that both together haven't a dollar with which to bless themselves. Hence the necessity of their having to spend their honeymoon in a "Furnished Room."

Dr. Torrington's Oratorios. For his farewell performances of the "Messiah" and "Elijah" Dr. Torrington has arranged to have the Toronto Symphony Orchestra in its full strength. This engagement will ensure performances of these two magnificent works of the highest possible standard, and subscribers may look forward to real treats. The subscription lists are open.

EMMA EAMES COMING. Mme. Emma Eames, the great prima donna, whose appearance here musicians are eagerly anticipating, has had a most exceptional career. In grand opera, which she opened when she was but 17, at the Grand Opera House, Paris, it was in the role of Juliet, and under the personal direction of the composer, Gounod, that her operatic debut was made, and her name became familiar to all Paris. Her friendship with Gounod is one of the most precious memories of her life, and the privilege of

## The HIGHLANDS

PROMINENT among the suburban home localities in the vicinity of Toronto is The Highlands—situated on the plateau overlooking the Don Valley and the grounds of the Rosedale Golf Club.

Favored by a munificent nature in the matter of stately pine, birch and maple—among which wind gracefully curved boulevards—coupled with the magnificent view of the entire city, glimpsed through the foliage, the location of The Highlands is especially advantageous for the purpose for which it is intended—a district by itself of strictly high-class suburban homes.

THE HIGHLANDS lie just north of and adjoining the grounds of the Rosedale Golf Club, and in addition to the scenic advantages it has it enjoys the social and athletic features of not only the Rosedale Golf Club, but also the beautiful grounds of Lawrence Park, with its magnificent walks, sequestered nooks, bowling green and tennis courts.

FOR THE FIRST TIME in the history of Toronto's suburban subdivisions, a property is being placed on the market where one will be enabled to acquire not a lot but a small estate to himself, some of these tracts containing over an acre of ground, and a number of them have 100 feet frontage by a depth of 400 to 600 feet.

NOTHING CAN BE PROBLEMATIC about the future location of the best residential section of this big and constantly growing city—"North and Northwest—the Hill and North Toronto." A few short years will see the peace, quiet and beauty of Rosedale marred by the hum of the street car, increased traffic, and ruined from a residential standpoint by the very necessary but very ugly apartment house. Had I told you fifteen years ago that Jarvis Street, with its stately homes, would become in a short time a street of apartment and boarding houses, my statement would have been designated as "one of Hayes' pipe dreams." Well, here is another: "Before we see fifteen years slide by again, Sherbourne, Parliament, Wellesley, Wilton Ave., Bloor, Howard, Glen Road, and all the southern portion of Rosedale, from Yonge Street to the bridge, will be one congested mass of apartment houses, boarding houses, hotels and stores, and Toronto, with a population of 800,000—multiply 33,000 (last year's increase) by 15, and you have 900,000 to 1,000,000—will have forced the building of its permanent homes to the north and northwest. Take the history of any city—St. Louis, Chicago, Denver, Montreal, Portland, Oregon, San Francisco—the wealthy class became tired of moving every few years, and in every city I have named they finally moved out far enough to be left alone. You will have to come to it here—better DO IT NOW. In a year or two you will pay \$50.00 for what you can buy for \$25.00 to-day, or \$10.00 for what you can buy for \$5.00.

IN EVERY ISSUE OF THIS PAPER for the next week or so you will find some interesting facts relative to THE HIGHLANDS. In the meantime, talk to us. Our motors are for your use. Weather permitting, we will run you out at any time. Call for photos, prices, etc., and watch the papers.

J. C. HAYES CO.  
LIMITED  
154 BAY STREET  
Tel. M. 7140SHOULD FREE MOTORMAN  
AND ARREST R. J. FLEMING

Such is View of Controller Church, Who Complains of Crown Attorney's Attitude.

Controller Church has by no means hung up his little hammer with which he has been punishing the Toronto Street Railway Company for the past month or so. Mr. Church had R. J. Fleming and his street car company on the anvil again Saturday night when in talking to The World the controller had the following warm things to say, in which County Crown Attorney Corley was also the subject of caustic reference:

"I have received applications from no less than twenty laboring men of the city to-day," said Mr. Church, "to use my influence in having Motorman Moore, who was on the ill-fated car that upset on Christmas eve, released from custody. I went to Mr. Corley and offered him for Motorman Moore, but the crown attorney would not accept it. He said I would have to see Attorney-General Foy or somebody in the high court. Meanwhile this poor man has to stay in jail while his family suffers. There is one law for the rich here and another for the poor. 'Why don't they arrest Fleming?' The word 'person' in our statutes means president, vice-president or manager of a company as well as the meannest of its servants."

"Fleming was as much to blame in having a faulty schedule as was the motorman who was doing his best to keep pace with it. It looks like flagrant injustice to me."

CHESTER.

Rev. A. L. McFar, rector of Bath, Ont., preached the first of the Epiphany missionary sermons at St. Barnabas Church last evening. Owing to a catastrophe late on Saturday it was necessary to transform the old parish hall into a church for the services. At 8 o'clock the rector found that the furnace in the church had burst. In spite of the cold weather the old parish hall was packed to the doors.

RUSHING G. T. P.

Main Line From Tete Jaune Cache to Fort George Ready Next Fall.

VANCOUVER, Jan. 6.—Instructions have been given by the Grand Trunk Pacific to Foley Welch & Stewart that the main line from Tete Jaune Cache to Fort George must be finished by next fall. Sub-contractors have been awarded as follows: H. E. Carleton & Co., Edmonton, 25 miles west from Cache; Burns, Jordan & Co., Spokane, 50 miles; Sims Bros. & Kerry, St. Paul, 75 miles. There is still a gap of 30 miles. Supplies are now being rushed to by various sub-contractors, who will be hard at work in six weeks. The rail head is now within 35 miles of Yellowhead Pass.

## DOUBLE FATALITY

Two Brothers Struck by G. T. R. Express at North Glencoe.

GLENCOE, Ont., Jan. 7.—A double fatality occurred at the Canadian Pacific Railway crossing at North Glencoe last night at midnight, when Henry and Walter Smith were struck and instantly killed by the Canadian Pacific express. Walter Smith, an employee of John Curmeo of London, had arrived by the Grand Trunk Limited Express, which was about three hours

late, for a visit to his brother, Henry, a farmer of Moss. It is thought that they were heavily wrapped, as the night was very cold, and they did not hear the train. Their horse was killed and the bodies of the unfortunate brothers mangled almost beyond recognition. Walter was unmarried, while Henry leaves a young wife, the daughter of the late William Quirk.

Sunday Morning Free Breakfast. Very cold they looked, these men with their cold, pinched faces, icicles hanging from their whiskers and shivering in their poor, thin clothing. The warmth and cheeriness in Yonge-street Mission yesterday morning was a welcome change from the zero weather outside, and those 250 men ate with gusto the 3000 beef sandwiches, while 70 gallons of steaming hot coffee quickly disappeared. Then the men listened to an earnest address by Rev. Jesse Gibson. There was an increase of 30 men over the first breakfast last year. The mission makes appeal for under-clothing and clothing of all kinds for the homeless and poor, and to the superintendent, J. C. Davis, will receive prompt attention.

More Comfort for the Traveling Public. To meet the desires of the traveling public the Canadian Pacific have inaugurated a through car service from Toronto to Goderich, leaving Toronto on train No. 638, 4.30 p.m. daily except Sunday.

Furthermore, to accommodate passengers desiring to points on the Goderich and Listowel branches where there are no refreshment facilities, light refreshments will be obtained in Toronto at a small cost, en route between Toronto and Guelph Junction. The company has to be congratulated on its foresight in arranging this service.

## LOST.

LOST—Gold watch and chain, Saturday, between Carlton and Wyatt. Reward, \$1. Return to 21 Bathurst street.

# The Wonderland of Values Lies in the Simpson Store

## "And the Moral of that is"—

Watch the papers for the key to the opportunities of each day. Or, better still, come to the Store to-day; for the very things you want may be giving **unannounced values**, as they often do, because of the limited advertising space in the newspapers.

## A Whitewear Sale That Consults Your Needs

and meets them with a storm of special values in the qualities you are accustomed to buy, is a sale that will be of real use to you in saving your pocket-book. Buying now for your springtime outfit is a wise proceeding, as these prices are not likely to be duplicated on such a range of splendid goods.

### For a Graceful Figure
