CHARGES BRIBE OFFERED TO OBTAIN HIS SUPPORT

John A. Montague Swears Liberal Candidate Smith at the \$500 Promised Him \$700.

CHARGE
"Smith promised me that the party would be issued and I would get \$500 on the 20th of October, providing I gave him support," John A. Montague of Smith St. Marie, in a sworn statement.

Smith St. Marie, Oct. 22.—(Special).—A sensation was caused here tonight at a Conservative public meeting by John A. Montague, the well-known mining expert and metallurgist, who made charges against the Liberal candidate, C. N. Smith, and J. O. Cameron, a prominent Liberal worker, now at Michipicott, where he is acting as deputy returning officer.

The charges, which are made in a sworn statement, were read by Montague, and follow in a condensed form:

Montague's Charges.
"Shortly after the opening of the campaign I was asked by Mr. Smith for my support. He told me I could not give it if he would go to Toronto and support the corrupt Ross government. I mentioned a number of specific corrupt acts of the Crown Lands Department and demonstrated the illegality of withholding mining leases for the benefit of W. A. Charlton.

"Mr. Smith said they were serious and he would investigate them when he went to Toronto. He did so, and on his return told me things were as stated, and Mr. Charlton was holding up my campaign. He said when he went to Toronto as a representative he would clean up this crookedness. I announced that I would make an exposure."

"On October 15 I was visited by a prominent Liberal, who told me I could give the position of chief metallurgist with the Allied Companies, but if I took part against Mr. Smith it would result in my dismissal. He said as Mr. Smith and Shields were both strong Liberals I declined to forgo against making my campaign, but the next night the suggestion to me was repeated."

Smith St. Marie, Oct. 22.—(Special).—"Afterwards Smith told me it would be foolish to back against him, as he was sure to win. I told him that I would not support him. Smith promised me that 'THE PAYTON LEASES WOULD BE ISSUED AND I WOULD GET \$500 ON THE 20TH OF OCTOBER, PROVIDING I GAVE HIM MY SUPPORT AND STOPPED THE ISSUE OF DENYATORY LITERATURE OR WRITE AN ARTICLE TEARING HIM IN IT.'"

"I went on to see how far he would go, and he would go far. He gave me \$100 and Smith gave me Mr. Shields' position and had already negotiated to that effect. I asked him to campaign against him, and offered to pay my expenses down the line while he had the faith. I was further offered a half interest in the water power of Michipicott River owned by J. N. Cameron, who was getting the other half for \$700."

Well-Known Man.
Mr. Montague is a well-known locally, and in view of other acts brought to light in connection with the Liberal campaign, his action was not surprising. He attempted to bribe made an impression on the big audience in the Opera House. He gave a number of details in support of his charge. People are eagerly waiting to see what explanation Mr. Smith will make.

The meeting was a great rally. The house was crowded. Mr. Montague was cheered as he spoke. Other speakers also received enthusiastically were Dr. J. O. Reame, Rease, W. H. Hearn, Lambton, Mr. Rease, and W. H. Hearn.

U.S. FAILURES.
United States financial institutions have started to close. The present week is more prolific of failures than the immediate past, and up to date since Monday those that have closed their doors include the Union Trust Company of Baltimore, Maryland Trust Company, Baltimore; Federal National Bank, Pittsburgh; and First National Bank, Allegheny. Besides these the International Trust Co. of Mexico City, with branches in the United States, has gone to the wall. Hard times seem to be with Uncle Sam again, in spots.

WHAT HE IGNORES.
(Canadian Associated Press Cable.) London, Oct. 22.—The Daily Mail, referring to Lord Hamilton's speech, says: "He ignored the immense progress that other countries have made under protection, and that the Federal National Bank, Pittsburgh, and First National Bank, Allegheny, besides these the International Trust Co. of Mexico City, with branches in the United States, has gone to the wall. Hard times seem to be with Uncle Sam again, in spots."

LYNCH, HIS CONFESSION.
Smith St. Marie, Oct. 22.—(Special).—Immigration officials of the American Consulate here have uncovered a plot by which it was intended to smuggle Chinese into their country by the wholesale. On Monday last they arrested Jack Lynch and two Chinese, who had been smuggled across the river below the city, and who were on the train at Deater Station. Lynch was ordered to return to the city, and the Chinese were deported. Lynch confessed that he had been engaged in smuggling opium at Buffalo.

GAMEY DENIES CHARGES SHOWS MYSTERY IN DEAL

Cressin Refused to Reveal Names of Men Who Bought Up Gamey's Stock.

PUBLICATION STRANGELY TIMED
Says Book of Evidence Does Not Bear Out His Late Partner's Sworn Statement.

ANXIOUS TO KNOW SOURCE OF \$500
Campaign in Muskoka Grows Warm as the End is in Sight.

Bracebridge, Oct. 22.—(From a Staff Reporter).—R. R. Gamey gave to The World a complete denial of the charges contained in the affidavit of Cressin. When he got the train from Huntsville this morning he was informed by The World of the substance of the latest document in this sensational case.

"Well, I can't say anything until I see the affidavit, except that if the charges are as you say, they are false in every important particular," he asserted emphatically. The man from Manitoulin was somewhat surprised that Mr. Cressin had given such a statement. He had left Cressin at 2 o'clock Wednesday and the latter was as friendly as ever.

Later in the day Mr. Gamey took up the charges categorically. By reference to the book of evidence in the bribery case, he showed that Cressin's affidavit did not agree with his sworn testimony in the witness box, but said that whoever drafted it had evidently tried to get as close to the evidence as possible. "I can't see the hand of Cressin in that document," he remarked. "It might have been as well, however, if some light had been thrown on the question where did the money come from, but the statement is remarkably silent on that point."

He said his interest.
"Yes, it is quite true I have sold my interest in the piano business. I got \$2000 yesterday, and there is \$500 more to be paid within a week. When I left Toronto a week ago last Sunday to come here, I did not have any money on my person. I was leaving from him last Friday, when I got a letter from Bracebridge, saying he was arranging with some parties to buy the piano business. I went to him that night and saw him Saturday, and I asked him who wanted to buy me out. He said it was the piano business, and he said that he was going to do all the dealing, and as soon as I had all my stock deposited, he would deposit it in the bank there would be a cash deposit of \$2000. I had my certificate nearly ready Tuesday afternoon, and asked Cressin again who was buying me out, and again he said the parties would not want to see me at all. On Tuesday it was arranged that Cressin would meet me on Wednesday forenoon at 11 o'clock. I went to his house at 11 o'clock, and he was not there. I went down to the Walker House, and at 12:45 got a telephone from Cressin.

CANADA MUST CONTROL.
Money for Defence Not to Be Spent by War Office.

Montreal, Que., Oct. 22.—(Special).—The Garrison dinner this evening to Sir Fred Borden was a splendid success. The Minister made a rousing speech, in which he said: "The Canadian nation, like any man of self-respect, must be prepared for attack, and there was, he added, no better way to make attack impossible than to be always ready. The people of Canada, he declared that no money Canada voted for military purposes should be handed over to the War Office in London. The Minister said that he would be the best kind of imperialism."

CANADA BEARS THE COST AND THE BLOOD-LETTER
Alaskan Commission Expense to This Country is Placed at \$200,000.

(Canadian Associated Press Cable.) London, Oct. 22.—The general opinion in London holds to the belief that Canada, in view of the adverse decision in the Alaskan matter, can now ask the British government for all she wants, and that the composition of the boundary line in return for the acquisition of the Alaskan Islands by the United States.

Another suggestion is that Canada should recent nearly the whole of the territory, arbitrated in return for the British sacrifice in another part of the world. The cost of the recent arbitration is estimated at close to \$400,000. Canada spent nearly \$200,000 in preparing the case and in fees to British lawyers. The United States' expenditure was about \$100,000.

COMPOSITION OF TRIBUNAL
Will Not Be Repeated, Is Lord Alverstone's Opinion.

(Canadian Associated Press Cable.) London, Oct. 22.—Lord Alverstone declines to believe that Mr. Stiffon said that this decision was more diplomatic than judicial. His opinion was founded solely upon legal considerations, and he declined to injure his reputation by making a shadow of a sign that the workmen of the country are opposed now to his fiscal policy. Mr. Chamberlain hints that the general election will not come so soon as the prophets predict, and he promises during the interval to educate the country.

Mr. Ritchie says that on Dec. 12, at Crofton, he will make a complete answer to Mr. Chamberlain.

CHARLTON AT CLEVELAND PREDICATING RECIPROCAL

REPRODIATION MEANS WAR
CANADA STANDING ALONE

Diplomacy, Arbitration and War Were Only Ways Open to Settle Very Conflicting Claims.

LOGICAL RESULT OF PROTEST, WAR
And No Canadian Wishes That, Just Because Chief Justice of England Decided Against Us.

OUR CASE STRAINED AND WEAK
Should Be Thankful to Have Cause for Danger Averted—Chance to Strengthen Country as It Is.

Col. Denison writes The World as below regarding his view of the Alaskan boundary settlement.

I see in your issue of this morning an editorial criticizing the position I have taken on the question of the Alaskan boundary award, and I would like to state clearly my views.

The dispute was one complicated and difficult, both sides making very conflicting claims. It had to be settled some time, and could only be settled finally by diplomacy or arbitration or adjudication or war. Diplomacy was absolutely failed, arbitration was refused, but both parties agreed to leave it to the adjudication of six jurists, and the majority of the jurists have given a decision which I believe to be a fair one. This adjudication should have settled the matter, for it is final, unless we wish to repudiate it and adopt the only other alternative—war.

Does any man in Canada wish to go into a costly and dangerous war with the United States? I do not believe there is one. I do not believe there is one of our representatives have protested against the protest, unless they advocate the legitimate and logical result of such action, viz., war by Canada alone. We should not assume the position of the man put out by the umpire for leg before wicket, who refuses to leave the field.

I have held the view for years that our contentions were slight and unimportant, and that the higher level of statesmanship, something was to be done to avert the drift of events towards hostility of sentiment and divergence of interest, and it wants to be done soon. A judicial RECIPROCAL TRADE IN NATURAL PRODUCTS WILL ACCOMPLISH THIS, AND WILL LEAD TO A MUTUAL ENLIGHTENED INTEREST IN TRADE RELATIONS IN OTHER DIRECTIONS. As to whether it is a reasonable proposition, it will be determined. It will work just as smoothly and with the same degree of mutual advantage as the American union.

If this policy were put into operation, it would bring the amount of wheat and other products handled by Americans for export, and confining the question to the matter of farm products imported by each country.

Get Ready.
Do you want to be prepared for a cold snap? One's duty is to be ready. Order your goods to-day. We don't suppose that next to buying diamonds there is anything that causes as much worry as buying fur, and unless you are an expert you must rely on your merchant. Dime's business has been built up on his reputation as an honest furrier. Write for the new catalogue.

FAIR AND COOLER.
Meteorological Office, Toronto, Oct. 22.—(8 p.m.)—Pressure changes continue to be rapid. A depression which was centered west of Lake Superior last night is now north of the lower St. Lawrence Valley and has been accompanied by moderate west and scattered showers in Ontario and also in the St. Lawrence Valley. In Manitoba and the Territories the weather has been fair. And in the more western districts the temperature has been unusually high for the season.

Minimum and maximum temperatures: Victoria, 46-56; Calgary, 22-44; Winnipeg, 28-38; Toronto, 40-50; Montreal, 38-48; Quebec, 28-32; Halifax, 23-34.

Lower Lakes and Georgian Bay.
Strong northwesterly winds; much cooler and mostly fair; some scattered showers.

Ottawa Valley and Upper St. Lawrence.—Some scattered showers, but partly fair and becoming much cooler.

Lower St. Lawrence and Gulf St. Lawrence.—Moderate gales; southwesterly to westerly, turning cooler, with showers. Lake Superior—Fair and cool.

Manitoba—Fair and warmer.

Have your dinner to-day at the "Palms" Cafe and you will not regret it.

ONE OF THE OLD MULDON GANG?

Police Think James Lynch, Chicago Saugier, May Have Been.

In an alleged confession by one Jack Lynch, arrested at the American Consulate for smuggling Chinese, a Toronto Chinaman, name not given is implicated. The World called on several of the oldest established Chinese in the city in regard to Lynch's statement, but was met on all sides by plain English protestations of innocence of any knowledge of such things. Quite a number have recently arrived in Toronto from the Orient and an effort was made last night to learn the disposition of the fresh arrivals with that institution. Lynch's answers were all that could be gleaned. All, however, were particularly anxious to redeem all matters relating to their own past tax was paid. Beyond that they would not tell anything. They did not know the men of their race who generally met new arrivals or how they happened to come to Canada or Toronto. All they knew was that they had paid their toll tax.

The local police have not been notified as yet of the confession of the Chinaman who is working the Toronto end of the smuggling game. It is learned that the Chinaman is working at this point in connection with the Chinaman. The gang that Lynch is said to have cooperated with, extend from Montreal to the Soo. So well have the principals systematized their game that the chances of detection were materially diminished and an effort was made last night to learn the disposition of the fresh arrivals with that institution. Lynch's answers were all that could be gleaned. All, however, were particularly anxious to redeem all matters relating to their own past tax was paid. Beyond that they would not tell anything. They did not know the men of their race who generally met new arrivals or how they happened to come to Canada or Toronto. All they knew was that they had paid their toll tax.

BASEBALL MEN AT ST. LOUIS.

Meeting Held Behind Closed Doors and They Made a Banquet.

St. Louis, Oct. 22.—Eighteen baseball organizations, composing the National Association of Professional Baseball Leagues, are represented by delegates to the conference which began here today. The meeting was held behind closed doors. The most of today's session was devoted to the hearing of reports from President P. T. Powers of New York and Secretary J. H. Farrell of Albany, N.Y., and the reelection of all the officers and members of the board of directors.

INTIMIDATED THE ALDERMEN

Inspector Smith Was Called to Order by Chairman Biggar of Council Committee.

RAILWAY BY-LAW NOT POPULAR

But Committee and Company Refuse to Accede to Requests of Certain Citizens.

Hamilton, Oct. 22.—(Special).—The members of the Finance Committee spent most of this evening discussing the Hamilton and Caledonia Railway by-law. The Augusta and Caledonia Railway residents, headed by G. S. Lynch, Stanton, K.C., were out in full force to protest against the handing of the streets over for the use of the company.

For the railway people, J. W. Nesbitt, K.C., objected to the clause providing compensation for what he termed "fancied damages." He said the corporation of the road would be started, just as soon as the company got right, or way through the city. The clause was a death-trap, if the city did not oppose the Augusta-Ottawa railway route, the company would undertake not to bring freight further than Ferguson-avenue.

"The aldermen who vote in favor of it," said Inspector J. H. Smith, and Chairman Biggar called him to order for intimidating the aldermen. The committee voted down the proposition to use the two streets, and the company refused to bring freight into the city over the James-street incline railway. So the battle remains to be straightened out at a future meeting.

Union Bible Class. A series of union Bible class meetings was opened in the James-street Baptist Church this evening. The building was crowded. Prof. Jas. Johnston conducted a service of song and Rev. H. E. Howitt taught the Sunday school lesson. The principal speaker was Norman G. Camp, Chicago. The next meeting will be held Thursday evening in Association hall.

Kitties Going Ready. The 61st Regiment had another big parade to-night. The honorary lieutenant-colonel, J. R. Moody, addressed the men and congratulated them on the way they were picking up the drill. The officers have made arrangements to get their khaki uniforms made after the style worn by the 13th Regiment officers. The sergeants will be outfitted for their suits to-morrow. The rifles will be forwarded from the stores in Toronto, and should be here in a very short time.

Strike Is On. The tailors say they will undertake no more work for their employers until their demand for a 10 per cent. increase is granted. Just as soon as they think the work hand they will go out. About 75 hands are affected. The vest and trouser makers, who are making the work hand, number only about 25. They are not members of the union, but the garment coat makers and all the union workers will stand by them.

Happenings. Engineer Henwick, who runs one of the city's steam rollers, was badly scalded this morning. Miss Margaret McCoy, who has been appointed solicitor of the Dundas-street Methodist Church, London, left for that city this morning.

William Reynolds, an ex-American soldier, was arrested this morning charged with being the man who pointed a revolver at Conductor Whitehead a few days ago.

William Lee & Son, William Dermody, P. C. and Robt. Smith have been summoned on the charge of making lightweight bread. It is charged that they have adopted the plan of making smaller loaves than the city by-law requires, and that they have neglected to put labels with the weight on them.

H. S. Stevens, assistant manager of the Bank of Hamilton, has severed his connection with that institution. The treasurers of the local Presbyterian Churches are asking the government to exempt them from the payment of the new stamp duty on coins found on their collection plates.

CHARLTON AT CLEVELAND

try from the other for consumption. It is doubtful whether the balance of trade in favor of Canada in the exchange of food products would be large, while the general balance against Canada would continue to be heavy. Last year the imports of farm products into each country from the other were almost exclusively for consumption. These imports amounted to \$20,000,000 and the United States to Canada to \$7,500,000.

What Canada Wants. This condition of the trade renders it probable that under free trade Canadian imports for consumption from the United States would scarcely balance Canadian exports for consumption to the United States. The idea that free importation into the United States of Canadian farm products will depress prices is a mere hypothesis. We offer a last market in the Maritime Provinces in the lumbering and the mining regions of Quebec and Ontario, and in British Columbia and the gold regions of the Yukon for American food products. The Canadian wants free access to the American market for the purpose of depressing prices there, either of lumber or on food, but for the purpose of getting higher prices himself.

The export to the United States for consumption would be a very small proportion to the vast production of that great country. For instance, our export of lumber would amount to two cents per annum for each inhabitant of the United States, and so in very much the same proportion thru the entire list of food products.

Providence seems to have designed the North American continent as the home centre of Anglo-Saxon power. The resources of the territory upon this continent in the possession of the English speaking race are enormous, and not yet fully comprehended. The entire region would form a vast compactly assembled empire with capacity for sustaining five hundred million people. The policy of the future must be to shape the destiny of this mighty land.

Let There Be Peace. The least and most effective efforts of the political leaders of the United States for more than a generation have been put a check upon the progress to destroy harmony and community of interest, and to secure the establishment of national unity pressing to the utmost every advantage of position and preponderance of wealth and influence; the other emphasizing a sense of ungenerous treatment.

Is it advisable to continue these conditions? Separate autonomy is not inconsistent with harmonious relations, common purposes and unity action, and the future may be made conducive to the welfare not only of these two immediately interested parties, but also to the entire English-speaking world.

CANADA'S PROTEST 'HOLEY'

of the three American politicians. To this the government at Ottawa replied in effect that whatever the United States might do, the Canadian course for the British side to pursue was to appoint only jurists of high standing, according to the original understanding. The Colonial Office made pretty plain its understanding of the fact that the United States would undertake not to bring freight further than Ferguson-avenue.

British Diplomacy. Moreover, the United States Senate could not wait and British diplomacy hurried Canada into a reluctant participation in the arbitration proceedings.

Papers Brought Down. The Alaska boundary correspondence was handed down. The correspondence of London, October 31, 1902, from Mr. Chamberlain, asking Canada to consent to a tribunal, the members of which should merely record their respective opinions, was submitted to the Canadian government on condition that the reference to the tribunal should include all aspects of the dispute, and that the tribunal should be composed of jurists of high standing, according to the original understanding.

Had Caused Surprise in England. The reply to this was that of a despatch from Lord Osoy, dated London, Feb. 21, to the Governor-General at Ottawa.

With reference to your telegram, dated the 18th and 21st of February, the reply to the American representatives of the tribunal has been the source of much surprise to His Majesty's government as to your reply being so full of difficulty, and His Majesty's government earnestly desire to have concurrence of your ministers in dealing with the matter.

It seems certain to His Majesty's government that the event of the tribunal being appointed as such surprise to His Majesty's government as to your reply being so full of difficulty, and His Majesty's government earnestly desire to have concurrence of your ministers in dealing with the matter.

Between Two Governments. His Majesty's government have, therefore, to choose between breaking off negotiations altogether or accepting of the tribunal as appointed by the American representatives who will meet the altered circumstances of the case. They will regard the latter alternative as a grave misfortune to the interests of Canada, and would prefer that the tribunal should be composed of jurists of high standing, according to the original understanding.

The answer to this from Lord Minto was sent to the Colonial Office on the same day on which the American representatives were appointed. The appointment of Messrs. Root, Lodge and Turner as the United States commissioners was the subject of much discussion in the House of Commons.

Referring to your despatch of 27th February, the answer to this was that the situation was much anxiety. They desire to emphasize the fact that the treaty which they will regard as the basis of the arbitration is a treaty which provided for the creation of a tribunal composed of jurists of high standing, according to the original understanding.

On Feb. 18, Mr. Chamberlain wired to Ottawa that the President of the United States had decided to appoint Mr. Root, Secretary of State, as one of the members of the tribunal.

Canada Wanted Jurists. Following this is the message from Lord Minto to the Colonial Office dated Feb. 21, in which he stated: "I have now agreed to sign the draft treaty adding that he wished to reply to the proposition of Jan. 12, that the Lord Chief Justice of England and the Chief Justice of Canada be appointed British members of the tribunal."

On Feb. 18, Mr. Chamberlain wired to Ottawa that the President of the United States had decided to appoint Mr. Root, Secretary of State, as one of the members of the tribunal.

otherwise the ground upon which they had their assent would be changed, and it is feared the whole situation would require to be reconsidered.

"My Ministers would be ready to implement their part of the understanding as to the composition of the British side of the commission, but do not think it advisable to submit their views until the American representatives of the commission is satisfactorily disposed of."

Economy that Costs

CHEAP LABOR is too costly for us. A cutter could easily cost us ten thousand dollars per year more than his salary if he didn't know his business.

This is why we can't afford to have any but the best work people on Semi-ready. When we get these, we hold them through liberal treatment and proper appreciation.

As a consequence, Semi-ready clothes are conscientiously made—with smooth shoulders, close-fitting collars, and that indefinable effect which spells "style."

Just try on a "Semi-ready" if you'd see what a well-balanced coat can do for your figure.

New World's Record Made Without

Wind Shield, Two Runners

Setting the Pace.

Memphis, Tenn., Oct. 22.—The third day

of the harness racing at the Memphis Trot-

ting Association track was made memora-

ble by the magnificent performance of

Dan Patch, who paced a mile in 1:50, clip-

ping three-fourths of a second from the

world's record of 1:57, held by Prince

Alert, and lowered his own record by two

and three-quarters seconds. The mile was

paced without a wind shield and at the

finish Dan Patch was fresh. Two runners

set the pace. After the trial there was a

solid burst of enthusiasm in the grand

stand; women and men shouted and sang

were hurled in. At Dan Patch reached

the quarter in .20, half in .38, three-

quarters in 1:27. Summary of today's

results:

FOR AN ANNUAL DEED.

Southampton, Eng., Oct. 22.—The two Creoles, giving the names of Tappan and Kebar, arrested on board the American liner Philadelphia here, appeared before the Southampton magistrates to-day and were remanded at Bow-street Police Court for trial on the charge of murder.

J. P. Ferguson, a railroad contractor, at West Middleton, Pa., Sept. 23, who was blown up by dynamite placed in the roadway.

Contributors \$5000 for an Organ. Queenstown, Oct. 22.—Andrew Carnegie's last public act before embarking today on board the Celtic for New York was to contribute \$5000 to help purchase an organ for the Catholic Cathedral at Queenstown.

To Hunt Deer. The hunting season in Muskoka district is under way, and several parties are being organized to go over the hills. The city of New York, one of the most famous of the city of America, has been the scene of a series of murders, the most recent of which was the shooting of a man on the ground of a building.

Victims for \$10,000,000. Butte, Mont., Oct. 22.—Judge Cliney in the District Court here today decided the famous Minnie Miller mining suit in favor of P. Auguste Henze. The value of the mine is estimated at \$10,000,000.

Daughters of Ireland. Gilmour Lodge, No. 1, Daughters of Ireland, and their friends spent a very pleasant evening at the Gilmour Lodge, at the corner of Queen-street and Queen-street, last evening. Grand President Bush presided. Addresses were delivered by Past Grand President Bush, Grand President Bush, and others.

Regarding the opening of the new road, the City Engineer has expressed an opinion that it is not necessary to close the road to traffic, and that the road may be kept open for the use of the public.

The Board of Works for the City of Toronto has decided to permit the passage of carriages over the new road, and to allow the use of the road for the purpose of the public.

A plank sidewalk is recommended for West Lodge-avenue, Marion-street, and the concrete sidewalks on Ottawa-street, from Shaftesbury to Summerhill, and on McCaul-street, from Patrick to Baldwin, 8112.

The Bell Telephone Company will substitute fifty and fifty-five foot poles for those at present on Macdonell-avenue, in order to avoid any interference with the trees. The City Engineer endorses the application, as the new concrete walks are being placed next the curb on both sides, and the roadway is narrowed. The rights of the company are to be preserved by a special agreement.

IN RECEIVERS' HANDS. Peoria, Ill., Oct. 22.—The Acme Harvester Company, one of the largest manufacturers of agricultural implements, has been forced to place in the hands of a receiver, the result of a combination of the creditors, and an extension of time.

The assets are considerably in excess of their liabilities.

Government Appointments. Ottawa, Oct. 22.—The government has appointed F. C. Connelley, a clerk in the Yukon, and William L. Walsh, H. W. Newlands and O. H. Clark, Dawson City, to be Kings.

In a few days the announcement will be made of the appointment of H. D. Spaulding, a clerk in the Yukon, and a junior judge of the district of Nipissing.

REPUTATION MEANS WAR

Continued from Page 1.

war would entail. We had better be thankful to have a cause of danger averted, in order that we may devote all our energies to the development and strengthening of our country as it is.

TOO SUDDEN CHANGE.

Editor World: As you invite people to speak their minds on the Yukon boundary question, I will tell you what I think is the trouble. Personally, I am not much worried by questions of flags, Kings and Presidents. I regard a King or a President simply as the servant of the people, and a flag as the badge of his servitude. My sympathies are with the man, with the family, with the home, whether in Canada, in Great Britain, in the United States. The government is simply the instrument for guarding the maximum number of happy homes. It is the policeman.

A lot of people in this country have been trying to persuade us that we have a sort of natural or hereditary antagonism to the people of the United States. This I must say, I regard as nonsense. My worst enemy may be my next door neighbor, my best friend may live in Patagonia. My own opinion is that the ruling classes in all countries try to keep up a sort of artificial antagonism, in order that their own privileges may not be questioned or invaded.

In Canada we have people who have been educating us into hatred of the United States. As against the government, they are right, in order that their own privileges may not be questioned or invaded.

But what irritates Canadians, and I think quite naturally, is that, having been taught for so many years to hate the inhabitants of the United States, or France, or Germany, as a national enemy, they are suddenly told that for grave reasons of state they must love all these people, and make all kinds of sacrifices in order to cultivate their friendship. Is it to be peace or war? There are certain advantages connected with both. Which is to be our policy?

In the case of the United States, it seems to me that our policy gives us the advantages neither of peace or war. If we were to become too friendly with these 80,000,000 of the south of us, Great Britain would become uneasy. When we must to assert our rights against them, Great Britain is ready to support us. We must be friendly, but not too friendly; our brethren across the Atlantic must see how far we are to go in friendship or self assertion. Their quarrels are to be our quarrels. This is a relation which must last.

Equality.

ALASKA BOUNDARY AWARD.

Editor World: The citizens of Toronto are hot about the Alaska boundary award. People are asking why the Laurier government ever consented to refer the question to a tribunal.

It is not fair to blame the British government and let the Canadian government go free. Sir Wilfrid Laurier has declared that he will not consent to a tribunal which will give the decision to the United States.

Will he not declare that Canada has no rights as a nation? No such tribunal can be set up without the consent of the Canadian government. The Canadian people have no right to consent to a tribunal which will give the decision to the United States.

CITY HALL AFFAIRS.

Medical Building Offered as a Public Library Site.

The latest offering for a site for the public library has been made by Dr. Pyne, who is willing to dispose of the corner of Bay and Richmond-streets, on which the Medical Building stands, for the site of a public library.

The lot is 85 by 87 feet in extent, and is hardly large enough for the required purpose, altho the location is not undesirable.

A good suggestion was made yesterday by a gentleman, that the lot should be secured 200 feet frontage on West Queen-street at the foot of the University-avenue, running thence to Richmond-street. This would permit the opening of the avenue another block, and the lot would be supported by many people of extending it.

Permission has been asked by the City Engineer to move the houses at 131 to 135 McCaul-street to a lot on West Queen-street, in order that a new church may be erected on the premises. The proposed structure will seat a congregation of 1,000 people, and will be immediately south of the monastery, facing on McCaul-street.

ALM. RAMSDEN MAYOR.

Alderman Ramsden filled the Mayor's chair yesterday, and had a number of callers from the district west of Bathurst-street, who wished the scheme for opening up cross streets between College and Bloor-streets pushed forward.

He also, with Assistant Street Commissioner Evans, made a trip to the proposed site of the northern station, where they met the representatives of the north end, composed of Messrs. Gamble, Fairweather, Sherrard, Stokes, Boutwell and others.

The party went over the ground and the officials explained what was proposed to be done with the site. The officials explained what was proposed to be done with the site.
