## ASQUITH CURBS HOME RULE FEVER

### Chancellor Declines to Support the Motion, Which, When Amended, Carried 313 to 157.

LONDON, March 30.—The house of commons to-night, after a lengthy debate on the question of home rule for Ireland adopted by a vote of 313 to 157, a resolution moved by John E. Redmond, the Nationalist leader, that "in the opinion of this house, the solution of this question can only be attained by giving the Irish people legislative and executive control of all purely Irish affairs" after having been amended by adding the words, "all subject to the supreme authority of the imperial parliament."

It was known beforehand that the debate could have but an academic interest, because the government already had pledged that there would be no deal in the matter of home rule until it had been given a mandate at the general election. But the debate was made notable thru the strong declaration of Chancellor Asquith, which was all the weightier because made at the moment Mr. Asquith is actually assuming the premiership.

Mr. Balfour, in a brief speech had accused his opponents of speaking with two meanings, a radical meaning, and a Nationalist meaning. He asked how it was conceivably possible to carry out great Irish reforms in a British parliament, and ironically challenged Mr. Asquith to clear up this ambiguity.

And ironical Asquith's laughter, Mr. Asquith rose and said that never in his life had he felt less embarrassed. For over twenty years he himself and his colleagues had steadily and consistently advocated self-government for Ireland's purely local affairs. He held that opinion now as strongly as ever.

He could not, however, support Mr. Redmond's motion in its present form, because he found in its explicit recognition of imperial supremacy, and, further, because no parliament would be justified in embarking in such a task unless the matter first had been submitted to the electorate. It would be a gross and unnecessary violation of their promises to do so in the lifetime of the present parliament.

As far as the present parliament was concerned, he said, they had expressed their powers in regard to the present Irish government in the Irish council bill last year.

## W. K. Fraser is Chosen Rhodes Scholar From Toronto

### Son of Prof. Fraser Selected by University Senate as Third to Go to Oxford.

William Kaspar Fraser, eldest son of Professor W. N. Fraser of Toronto University, is the third student of the institution to have achieved the honor and distinction of going to Oxford. Only 23 years of age, he has won against all competitors for the Rhodes scholarship for a three years' course at Oxford, England, the premier university of the world.

Mr. Fraser received his preparatory training at Upper Canada College and the Parkdale Collegiate Institute. He matriculated in 1904, gaining the Edward Blake scholarship for classics and moderns. Entering Varsity, contrary to usual custom, he took two courses—classics and moderns, and in his first year succeeded in winning the Edward Blake scholarship for moderns. In his second year he retained a normal position, but in the third he outshone all his fellows, headed the list in both classics and moderns, and won the Moss scholarship for classics, an achievement that has not been accomplished for several years.

He is of a retiring and modest disposition, very popular with his fellow students, an ardent athlete, taking part in football and hockey of which sports he is a no mean exponent. This year he is president of the Modern Language Club, to which position he was unanimously elected.

He succeeded in winning the Rhodes scholarship, worth \$400 a year, for three years against six competitors, as he was the only candidate to fulfill the requirements of the late Cecil Rhodes will, viz., "his qualities of manhood, truth, courage, devotion to duty, sympathy for the protection of the weak, unshakableness and good fellowship, in addition to literary, scholastic attainments."

Mr. Fraser will leave for England in September and commence his new studies in October. The best wishes of his fellow students, the staff and senate of the university will go with him.

## GOVERNMENT TO REORGANIZE CUSTOMS SYSTEM

### Prime Minister Declines to Accept Mr. Foster's Suggestion for a Purchasing Commission.

OTTAWA, March 30.—(Special.)—That the government will not depart from the old system of purchasing supplies was made evident to-day by the prime minister, who declined to adopt Mr. Foster's suggestion to take the work out of the hands of the departments and appoint a permanent commission. He agreed fully with Mr. Foster's remarks that all supplies ought to be purchased by tender, but he insisted that the responsibility of the ministers ought to be maintained.

Mr. Foster's resolution reads: "That all supplies for the department should be procured on the basis of public tender and contract, and that the direction of a competent purchasing commission, and with regard, primarily, to quality and price."  
The subject had been dealt with by the civil service commission, said Mr. Foster, and that body had recommended that the idea be adopted, observing that there was a "pretty centrifugal tendency," that was, to fly off from the main or central idea. He proceeded to show that for forty years the burden of taxation on the people amounted to about \$1,217,000,000. He laid down these two general principles: (1) Public money should go only to necessary objects, and then in the order of requirement.

(2) It should go directly to the object for which the money is voted.  
Odd Methods Will Not Do.  
With these principles laid down, he pursued, we should have modern business methods. He proposed to deal with the question in a non-partisan way. Hardly any had had sufficient regard to the progress of the country in the past fifteen or twenty years, and that being the case they were liable to wake any day to find that the old methods would not do. Only the incapable or unwilling man would say that it would not do to apply new methods to changing conditions. He had no sympathy with the idea that nothing but lavish expenditures would suffice to keep up the system.

With regard to the system of buying supplies there was no uniformity. The old-fashioned system of buying by contract was falling in disrepute. He believed the minister of militia and defence adhered to the old system; the same applied to the navy department, branch, but in other departments they had fallen away.

Circulars were sent to party friends, calling for tenders. Then there was the vicious principle of purchase thru the middleman. The latter made his profit as high as he could, while the departments paid different prices for the same articles. "Couldn't that happen under tender?" asked Hon. Wm. Patterson.

Can't Be Beat.  
"You" replied Mr. Foster, "you can find a way to beat any method, but it wouldn't be hard to beat such methods as these."  
There was not the thoroughness of inspection as to quality that there ought to be, urged Mr. Foster. The same with regard to quantity.

## LOCAL LIBERALS ARE GETTING BUSY NOW REORGANIZING THE CUSTOMS HOUSE STAFF.

### John H. Bertram Likely to Become Collector if Mr. Small Retires, with "Corney" Ryan as Assistant

Seven years ago John Small, collector of customs for Toronto, offered his resignation to Hon. William Paterson, minister of customs, but the minister did not see any occasion for a change at that time or since that date, altho the customs staff was increased and re-arranged so as to relieve Mr. Small of considerable exacting and trying phases of the work.

Should the collector, however, now press to be allowed to retire, it is understood John H. Bertram of the customs staff will be promoted to the position of collector, and re-organization of the staff will be effected.

During recent visits of M. J. Haney, P. C. Larkin, J. F. M. Stewart, Cornelius Ryan, and others of the Toronto Reform Association to Ottawa, the Toronto port of customs was fully taken into advisement, and it is understood when the changes outlined have taken place, that Cornelius Ryan will be appointed assistant collector or chief appraiser of customs at Toronto.

A selected committee of the Toronto Reform Association will to-day consult with the patronage committee and draft a scheme of complete re-organization and forward the necessary recommendations to the minister at Ottawa.

## COAL MINERS TO QUIT WORK TO-DAY

### Pending Adjustment of Wage Scale Many Thousands Will Be Idle at the Mines.

INDIANAPOLIS, Ind., March 30.—The union miners in most of the coal fields of the country will lay down their picks and shovels to-morrow night. Almost 250,000 of them will stop work in Ohio, Western Pennsylvania, Missouri, Iowa, Kansas, Oklahoma, Arkansas, Texas and probably in Indiana, Illinois, Michigan, West Virginia and Kentucky. The mining contracts under which they are now working expire at midnight to-morrow night, and except in Central Pennsylvania and in the Indiana block coal district, no contracts have been made, nor have the miners and operators yet entered into district agreements providing for the operation of the mines after April, pending agreement.

There is a possibility in the Indiana bituminous coal districts in Illinois, Michigan and West Virginia of an agreement. The Indiana, Western Pennsylvania and Illinois miners and operators are in joint sessions at Terre Haute, Pittsburg and Springfield.

Technically on Strike.  
Technically the miners will go out on strike, but, in reality they stop work because the operators, except in Indiana and Illinois, show no real intention of meeting and treating with them, tho the question of wage or principle is at stake.

John Mitchell returned to-day and is preparing to step out of office. Congressman W. B. Wilson is back from Central Pennsylvania, where he scored the first big success in the present situation by getting the Central Pennsylvania operators and miners into an agreement. That district will continue at work.

## AUTO WORKS' EMPLOYEES PROTEST AT LEGISLATION

### Mass Meeting at West Toronto Factory Appoint Delegation to Wait on Government and Board of Trade.

The recent action of some members of the Ontario Legislature in introducing legislation almost prohibitory in its nature with respect to the running of automobiles in the rural districts is causing not a little uneasiness in the local industries.

At the big Canada Cycle & Motor Co.'s works, at West Toronto, at 12 o'clock yesterday, a mass meeting of the employees, numbering over 450, was held, at which the whole matter was discussed and a committee appointed to wait upon the government and board of trade with a view to heading off the threatened legislation.

It was pointed out that 450 skilled workmen, representing altogether, with men in other departments, some 700 families in West Toronto alone, are vitally interested in the successful operation of the works, and the passage of the bills introduced by Mr. Sutherland of South Oxford, Mr. Bowman of North Bruce and others, is passed, will mean the closing up of the factory. The matter is regarded as most serious, and Dr. Godfrey, M.L.A. for West York, who is himself an enthusiastic motorist, is out strongly against any legislation which would have the effect of closing down the enterprise.

## ONTARIO MEANS BILL WITH ALARM

### Premier Whitney Submits Strong Resolution Against O. and M. Power Co. Incorporation.

Premier Whitney laid a resolution before the legislature yesterday respecting the "Ontario and Michigan Power Co." The company has a blanket measure before the senate of that comprehensive type of which James Connors has generally been regarded as the original designer.

Premier Whitney hoped that the house might "attempt to realize that the bill reaches out to grasp control by the parliament of Canada of every imaginable occupation or form of business enterprise in which any citizen of Ontario may enter."

He quoted an editorial from last Friday's Globe stating forth the objections to the measure, and denouncing it as a "very anticlimax of legislative tomfoolery."

He intended that the resolution be considered to-day, and justified its importance in view of the "tremendous possibilities attached to any such legislation passing at Ottawa."

Hon. Mr. Mackay doubted whether there was sufficient time given to consider the matter.

Premier Whitney pointed out that the bill is to come up to-morrow at Ottawa, and that a protest to be of any use must be made at once. He thought when Mr. Mackay read the bill he would make no difficulty about this resolution.

Premier Whitney considered the question one of national importance, but did not hold the federal government responsible for introducing the bill.

The Resolution is as follows:  
Resolved, that the attention of the house has been called to a bill introduced in the senate of Canada entitled, "An act to incorporate the Ontario and Michigan Power Company."

"That it is proposed by the bill to incorporate two persons who are described in the act as the United States of America, and Herman Finger of Port Arthur, and A. W. Fraser and Thomas A. Burgen of Ottawa, under the name of the Ontario and Michigan Power Company, and to confer on the company the following powers: "for the purpose of obtaining, developing, improving, generating, transmitting and using water-power by any means of application, converting wear-power into electricity, heat, light or any other form of energy, storing water-power, gas, compressed air, electricity, heat, light or any other form of energy, and of transmitting and supplying the same by any means for use in any manner at any place in Canada, or in the Isle Royale or in any place in the United States of America, the company"

(a) Acquire lands, easements, privileges, water and water-rights at any one place on each of the following rivers, namely, the Pigeon River in the Province of Ontario, and the State of Michigan, the Nestor River and the Sturgeon River, both in the district of Thunder Bay in the said province.

Can Regulate Waters.  
(b) Acquire such lands, easements, privileges, water and water-rights as are necessary for establishing, maintaining, improving, generating, transmitting and regulating of the water in any lake whose waters flow into any of the said rivers, and in any streams or other watercourses conveying such discharge, and in each of the said rivers between the points of confluence of such streams or other watercourses therewith and the place selected under paragraph (a).

(c) At any place in the district of Thunder Bay, Isle Royale or the State of Michigan, bore for natural gas, manufacture gas and collect and store natural and manufactured gas, and transmit it and use the same at any place in Canada or the United States for any of the purposes aforesaid.

(d) Acquire all necessary lands, easements, privileges, and other rights, and acquire, construct, erect, maintain, use, control and manage all necessary works, structures, buildings, machinery, plant, appliances, instruments and devices, great poles, stanchions and lay pipes, cables, wires and other conductors and do all other things necessary for the purposes aforesaid.

THE MAPLE SAP IS RUNNING.  
Maple syrup is made from the sap of the maple tree. And maple sap is nothing but pure water with a little sugar in it, put there by nature. Pure sap is as clear as pure water, and if the sap goes into the evaporator clean, it will come out as syrup with very little color. The quality of maple syrup is shown in its color, or rather, in its lack of color. The so-called deep red color in maple syrup comes from impurities, from leaves, from contact with iron, from comes light and clear in color, because it is evaporated as soon as it can be taken from the trees, touches nothing but tin and is boiled very rapidly in great shallow pans over a roaring fire. It goes thru evaporation in an hour. The old-fashioned way was to boil it two days in iron kettles.

Yesterday marked the best run of sap for this season in the Donlands sugar bush and the evaporator turned out over twenty-five gallons of the finest quality of syrup. It will be on sale this morning at Michie's.

To-day promises another big run. Orders are coming from all over for the Donlands goods. One club in Ottawa has ordered 100 bottles.

Enthusiastic Convention of Conservatives Addressed by Hon. Frank Cochrane and Others.

**EMSDALE, March 30.**—At the largest and most representative convention in the history of the Conservative party in Parry Sound, John Galna, M.L.A., was renominated amid much enthusiasm, no other name being placed in nomination.

James Arthurs, merchant of Powsan was unanimously selected as the standard bearer for the commons after four ballots, the other candidates balloted for being W. L. Haight, E. Piro and Col. Knifton of Parry Sound; Dr. Robertson of Dunchurch, Joseph Edgar of Sunridge, and O. M. Arnold of Breacebridge.

Every portion of this large riding was almost completely represented. W. J. Ard, the president, was in the chair.

W. R. Smyth, M.L.A., of Algoma, in a brief speech offered a tribute to the Whitney government.

Haughton Lennox, K.C., M. P. for South Simcoe, after a merited tribute to R. L. Borden, dealt effectively with some of the deals of the Laurier government, such as those connected with the names of Dodge and Lodge, Pearson and Merwin.

Hon. Frank Cochrane on behalf of the government thanked them for placing Mr. Galna again in the field. The Conservative party at Ottawa had made good in showing up the Laurier government and had as least a worthy successor of Sir John A. Macdonald. He pointed out that grants to roads, schools, locks and bridges under the Whitney government far exceeded those of its predecessors and explained how the government had improved conditions for the settler in the newer parts.

**Doctors All Advise Suitable Spring Tonic**

**Pays You to Get Strong and Nourish the Blood During Change of Seasons**

In the spring time the vigor and resisting power of the body fall very low. Instead of being rich and nourishing, the blood is thin and watery. As a result the bodily forces become less active, sleep fails to bring rest, an ever-increasing tiredness develops into liver-softening weakness.

People suffering from this spring sickness feel heavy and drowsy; they don't want to eat; they don't enjoy work—about half sick and half well. This is just the condition that favors pneumonia and typhoid, and you must build up as quickly as possible. You must increase your blood supply and make it rich and red.

The only way this can be done is by being Ferronze, which is acknowledged to be the most efficient spring medicine.

The marvelous purifying and tonic properties of Ferronze are quickly felt, because the blood is at once supplied with the elements it needs to become rich and red. It is ironized, vitalized and rapidly brought to its normal strength.

The very best ingredients for toning up the system are contained in Ferronze, and if you use it you are sure to get back your old-time strength and spirits.

If you suffer from debility, insomnia, nervousness, loss of appetite, or any of the symptoms of disordered blood, nothing will so rapidly tone you up as this great food tonic—Ferronze. Its recommendation by the public, by druggists and doctors commends it to every thinking person.

You need Ferronze to make you well. Why not get it to-day? Sold by all druggists—price 50c per box or six boxes for \$2.50.

**HAMILTON CITY COUNCIL HAS A BUSY SESSION**

Miss Lewis Determined to See Her Hospital Scheme to a Successful Issue—City News.

HAMILTON, March 30.—(Special.)—The city council spent most of a long session this evening in a discussion as to whether the city should remain behind Miss Lewis' Sick Children's Hospital scheme or not. The up-shot of it was that Mayor Stewart and John Billings, the trustees appointed by the council to take care of the money, were left to decide themselves whether they would continue to act or not. Miss Lewis addressed the council and requested the mayor to purchase a trenching machine at a cost of \$4000 for the building of the annex sewer. Aid. Pennington and Farrar questioned the right of the council to purchase a supply of hard coal, and a petition was filed by the local coal merchants, asking for a change of tender. The fuel committee's action was ended. Aid. Sweeney gave notice of motion that he would ask the council to petition the Dominion Government not to encourage the immigration of any class except farm hands.

Because so many aldermen left to shirk the Street Railway vote there were not enough left to pass a bylaw providing for the construction of cement.

The tenders for the new fire station were sent back for further consideration, as the mayor stated that he would not consent to a contract.

Mrs. Margaret Baird, North James-street, died this afternoon.

The recent smelting outbreak cost the board of health \$4000, and the city council will be asked to pay the bills. The Assumption Church this evening the music boxes, containing \$1000, were opened.

**Committed to Trial.**

Giuseppe and Bruno Greco were both committed to trial at the police court this morning on the charge of murdering Antonio Rieszko at Doolittle & Wilcox's stone quarry near Dundas. No other evidence was brought out. Mr. O'Reilly, K.C., is acting for the prisoners, and he reserved his defence.

**CHESTER GILLETTE PAID PENALTY WITH HIS LIFE**

**Confessed Murder of "Billy" Brown and Left Letter With Advice for Young Men.**

AUBURN, N. Y., March 30.—Unmoved and without showing the faintest sign of emotion of any kind, Chester Gillette was put to death in Auburn Prison this morning. The electrocution was the most successful that ever took place in the local prison. But one condemnation it was made a detailed statement was all that was required to carry the mandate of the law into effect, and when that was over the murder of Grace, or "Billy," Brown had been avenged and the slayer had paid the penalty, giving a life for a life.

Gillette made a confession to his spiritual adviser. This much is contained in a statement that the clergyman gave out after the electrocution. This reads as follows:

"Because our relationship with Chester Gillette was privileged, we do not deem it wise to make a detailed statement, and simply wish to say that no legal mistake was made in his electrocution. (Signed) Henry MacCliravy, clergyman, "Cordell" street, Auburn.

**A Letter to Young Men.**

Altho the statement as to the confession was not in detail and came to the world through the signed statement of the ministers, Gillette had a word to say to the young men of the world. This was a communication that was handed to Warden Benham last night at ten o'clock and that was given out this morning. It is as follows:

"In the shadow of the valley of death it is my desire to do everything that would relieve any doubt as to my having found Jesus Christ, the personal Saviour and unfailing friend. My one regret at this time is that I have not given Him the pre-eminence in my life while I had the opportunity to work for Him.

"If I could only say some one thing that would draw young men to Him, I would deem it the greatest privilege ever granted me. But all I can say now is, I know in whom I have believed and am persuaded that He is able to keep that which I have committed unto Him against that day.

"If the young men of this country could only know the joy and pleasure of a Christian life, I know they would do all in their power to become earnest, active Christians and would strive to live as Christ would have them live.

"There is not one thing I have left undone which will bar me from facing my God, knowing that my sins are forgiven, for I have been free and frank in my talks with my spiritual advisers, and God knows where I stand.

"My task is done—the victory won." (Signed) Chester Gillette."

**PRISONERS IN FUTURE TO GO BACK TO THE LAND**

**Hon. Mr. Hanna's Resolution in Accordance With Special Committee's Report**

In accordance with the report of the special commission on prison conditions presented to the legislature some time ago, Hon. Mr. Hanna will submit the subject resolution in the house this afternoon. It will be observed that no reference is made to the indeterminate sentence, that being of a matter under the jurisdiction of the federal government.

The resolution is: "That in the opinion of this house with a view to improving the conditions existing in respect to the custody and employment of prisoners in the province it is deemed expedient:—

"1. That a tract of land suitable for the transfer of the central prison thereto, and the employment of the inmates thereof be purchased.

"2. That steps be taken towards the erection thereof of a new prison.

"3. That the property now known as the central prison be disposed of when the accommodation for the transfer is provided.

"4. That no further contracts on what is known as the contract or piece price systems of employment be entered into, but that the inmates be employed in the improvement and cultivation of the land, and the making so far as practicable of such supplies as are necessary for the various institutions of the province, and in such work as is of a trifle jealous of the new province of Ontario. A little over a year ago these old provinces adopted almost in its entirety the constitution and bylaws and general policy of the Ontario Fish and Game Protective Association, and great success is attending the movement.

New Brunswick lies so close to the State of Maine that it has become a trifle jealous of the immense prosperity enjoyed by that state under the large sums of money left there each year by visiting sportsmen.

The New Brunswick Association has invited Mr. Kelly Evans to speak a series of meetings arranged for the last week in April at St. John, Fredericton, Newcastle and Moncton. To the St. John meeting will be brought in by the railroads every registered fisherman in the province, and much interest is expected to be taken by the public in the proceedings.

Gradually the people generally thruout the province are awakening to the importance involved in maintaining anything which may prove an attraction to the tourist.

**LAWYER TOO VOLUBLE, And Chairman Coteaworth Gives Him a Friendly Tip.**

Chairman Coteaworth of the license commissioners took occasion yesterday to tell the solicitor who was appearing for Mrs. Mary O'Chowlliv, widow of John D. Chowlliv, late proprietor of the Boy's of Trade Hotel, to hold his tongue and be quiet.

The lawyer was asking as to the best steps toward selling out the business; should his client seek a renewal of his license on the first of May, or would she experience any difficulty in getting one? Without waiting for an answer, he continued to rattle away about the lady's disinclination to run a hotel. She positively would not continue the business, but was anxious to get a good price for the business.

Mr. Coteaworth held up his head. "I'm afraid you are telling us too much for your client's good," he interrupted. "You had better make application in the name of the estate for a new license, and to-morrow is your last chance." George J. Foy and Eugene O'Keefe are the executors.

The license of the Princess Hotel, corner King and Princess-streets, was transferred to the widow of the late George H. Shambrooke.

The shop license of the late H. J. Shaw, 283 Church-street, was transferred to Catharine Shaw, widow of deceased.

**RECOGNIZING TOURIST TRAFFIC**

New Brunswick's Fish and Game Attractions Become a Live Issue.

It is very seldom that the old provinces of New Brunswick and Nova Scotia will adopt any movement having its inception in the newer provinces to the west, and it is therefore interesting to note that in the case of fish and game protection, they have learned a lesson from the Province of Ontario. A little over a year ago these old provinces adopted almost in its entirety the constitution and bylaws and general policy of the Ontario Fish and Game Protective Association, and great success is attending the movement.

New Brunswick lies so close to the State of Maine that it has become a trifle jealous of the immense prosperity enjoyed by that state under the large sums of money left there each year by visiting sportsmen.

BROCKVILLE, March 30.—(Special.)—Another public meeting was held to-night under the auspices of the anti-vaccination league to protest against compulsory vaccination. All the speakers were local men with the exception of P. S. Weir, president of the Grand Master Fred, Don Toronto. Gunn was the distinguished guest at a Masonic lodge of instruction held here to-day in connection with district No. 15. The district deputy grand master, E. A. Geiger, was master of ceremonies. The simplification of degrees was undertaken by many lodges in the presence of between 200 and 300 members of the craft. A grand banquet was held in the evening.

NOTE AND COMMENT

That circular letter issued by the Ferrus Lacrosse Club is O.K. as far as the residence rule goes, but the idea of having home professionals play with the team is a little out of order.

It is not only the losing of the games, but the action of some of these tourists in the towns, that brings the game into disrepute. When the home-brew works to hours a day, and in practice also, it shakes a monkey with this tourist, who has been hanging around town all day.

Getting back to home professionals, Ferrus, the home of the home-brews, would have a great team, and one most likely to win the intermediate championship, if the foregoing was adopted.

The feature of the Benninga meeting so far has been the remarkable horse-ship of Little D. McCarthy, who is under contract to W. H. Mosby.

His most competent at present, Egan Clark in East and Sport Merton on the home, and by the time this combination got thru with the others they would be billed for the Olympic games.

Hising at one of the tracks near Melbourne was postponed one day last month on account of the heat, the thermometer showing 112 degrees in the shade and 114 in the sun.

Former Jockey Tod Sloane has discovered a new way of making a living. He has turned author, and relates his experiences while riding for W. C. Whitney.

Arrangements are practically completed for a race between the University of Washington (Seattle) eight-oar crew and that of the Imperial University of Japan.

Among the fifteen enrolled at the Washington University is an undersea man who formerly rowed No. 5 on a crew put out by the Imperial University.

Next Saturday night will be one of the red-letter days for Garrison baseball, as four teams from Hamilton will play four of our Garrison teams.

Halifax Oarsmen Are Active. HALIFAX, N.S., March 30.—(Special.)—The representatives of local rowing clubs it was decided to hold a local trial of four-oar crews and send the winning crew to St. Catharines to compete in trials for the Canadian team for the Olympic Regatta.

Tabernaacle Athletic Club. The seventh annual meeting of the Tabernaacle Athletic Club was held at Broadway Tabernaacle to reorganize for the coming season when the following officers were elected:

Pitcher Blatchford Joins Leafs. Providence Shortstops Dead

PROVIDENCE, March 30.—(Special.)—A telegram received here today by Manager Duffy of the Providence Baseball Club announced that Forest A. Crawford, shortstop of the Providence team, had died at Austin, Texas, his home, Sunday morning at 11 o'clock, of blood-poisoning.

Old Country Football. LONDON, Eng., March 30.—The results of Saturday's soccer games are as follows: Semi-final cup tie—Southampton 0, Wolverhampton 2; Fulham 1, Newcastle 1.

Who is Still Holding Out. Jim McGinley, who has been holding out since last week of Grace is nearly up.

LACROSSE NEWS AND GOSSIP. Doings of the Various Clubs and Players Here and There. Fring and Henning, who played with Regina last year, have returned to their home in Hanover.

The Maitland will hold their annual re-organization meeting Tuesday evening at 8 o'clock in Century Baptist Church, Macleod street.

Soccer Notes. The semi-annual meeting of the Toronto Football Association will be held on Monday, April 15, at the Labar Crystal Palace on Church street.

I.O.F. Carpet Ball League. The I.O.F. Carpet Ball League held their annual tournament in the assembly hall, Temple Building, on Saturday, afternoon and evening.

Stratford Lawn Bowlers. Will Hold a Tournament July 7.—The Officers Elected. STRATFORD, March 30.—(Special.)—The annual organization meeting of the Stratford Lawn Bowling Association was held to-night.

Houston Wins From Keogh. CHICAGO, March 30.—(Special.)—The championship pool tournament between St. Louis and Houston, which was held to-night, the first of the series, was won by Houston, 18 to 15.

Riverdale Beat East Toronto. On Thursday night, the Riverdale Gun Club shot grounds, the Riverdale East Toronto Gun Club on Saturday.

Stanley's Spoon Shoot. The Stanley Gun Club held a spoon shoot on their grounds on Saturday.

Who Will Dick the Toronto Team Today. The Toronto team will play the Hamilton team today at the Hamilton grounds.

A Morning Newspaper Published Every Day in the Year.

MAIN OFFICE, 83 YONGE STREET, TORONTO.

PARTIES AND THIRD PARTIES.

Liberal newspapers in Britain are chiding the tariff reform majority in the Conservative party because it proposes to run candidates in that interest against the Unionist Free Trade members of the house of commons.

In older days much greater independence was allowed individual members of the British political parties. Thus Robert Lowe's strong opposition to franchise reform in 1866 did not lead to his expulsion from the Liberal party.

Whether members of parliament or legislators should be representatives or delegates is a point on which, as usual, much can be said on either side, according to the view taken of their duties and responsibilities.

In an instant Mr. Goldman was vindicating the name of the late insurance king. "Yes, sir," he said, "the man who died of a broken heart and the man for whom I had the greatest admiration."

DEMOCRACIES AND THE LAW.

At one time democracies like the United States were prone to believe that anarchism was the product of tyrannical and that because they possessed constitutional freedom they were immune from revolt against the supremacy of the law.

Respect for the law and regard for constitutional methods of amending the law are losing ground in democratic countries. The causes are not confined to the presence of the advocates of terrorism, but are due also to the promulgation of restrictive legislation in advance of general opinion.

BRITISH PUBLIC SERVICES.

Senator Power remarked recently that public ownership was the operation of their utilities and services had not benefited the inhabitants of British cities.

for this purpose, and from the same profits comes the cost of municipal music, provision of bands in the parks, concerts in public halls, etc., a \$5000 grant to Sheffield University, and another yearly grant to the School of Modern Languages.

Other figures recently reported show that the Leicester municipal gas works, during the time they have been under public control and operation, have yielded no less than \$3,250,000 in relief of rates.

A decision to appeal against the judgment of Chief Justice Meredith in quashing the license reduction by-law was reached by the city council yesterday afternoon. The discussion, which lasted two hours, was at times somewhat acrimonious, and was marked by sharp exchanges between Ald. Lytle and Ald. Keeler, the latter representing reflections on the veracity of statements made by him at the Massey Hall meeting.

FAIR PLAY.

A man can get some tan on his face in Florida now when the sun is only beginning to look busy here. Mr. L. Goldman, managing director of the North American Life, has brought some of the sun of Florida home with him from his recent holiday.

Ald. Keeler and Controller Spence objected that the speaker's remarks were not in order. He struck down a simple majority should suffice, whereupon Ald. Keeler appealed against the ruling, and his motion being defeated on the following vote:

A BRITON'S COMPLAINT.

Editor World: Permit me as a laboring man who has been in this country 35 years to submit a complaint against the contractors who are building the addition to the postoffice. This is a government job, and it is only just that British subjects should get the preference as laborers on the work.

NIAGARA POWER.

Editor World: To the man on the street it is indeed a revelation to find the Toronto Globe so anxious for the public in regard to Niagara power in view of the fact that under a Liberal government the three development companies working at the falls secured their authority to utilize the water-power of the falls to generate electricity to the exclusion of all others.

The department, he charged, was thoroughly inefficient, and there was no question that the power of the electric light was sold by the city at a price which was not only below cost but below the actual cost of the power.

Calcedon Wreck Victim Sues.

ORANGEVILLE, March 29.—(Special.)—John Golden, this town, injured last at the Calcedon wreck in September last at the horse-drawn car, today filed a writ with W. J. L. McKay, against the Canadian Pacific Railway for \$2500 damages. Mr. Golden was seriously injured.

COUNCIL SAYS 'APPEAL' DISCUSSION IS LIVELY

Mayor's Ruling in Favor of Majority Decision May Pay Way for an Injunction.

THE T. EATON CO LIMITED 190 YONGE STREET, TORONTO

TECHNICALLY STOPS TRIAL Did County Council Have Right to Order Woodcock Enquiry?

No evidence was taken in the trial of T. H. Woodcock, on charges of perjury and false pretences, yesterday. Mr. Woodcock was arraigned before Judge Winchester and pleaded not guilty to all charges. The trial was when handed over to Judge Morson, whereupon J. W. McCullough moved to quash the indictment.

Squire Woodcock was charged with perjury in swearing falsely before the county board of audit and inspector of legal offices, that he did not convict William Gray at Mount Albert on a second charge and sentence him; with false pretences in obtaining \$5.46 from the County of York; and perjury, again, in falsely swearing that he paid Albert Big Cahoe \$20.

Mr. Monahan for the crown objected that Mr. McCullough was too late in making his objections. All that was necessary to overcome that objection was the court's permission, and Judge Morson granted the permission. Mr. Monahan then argued that the county was certainly within the judicial county presided over by Judge Winchester.

His honor enlarged the case for two weeks in order that he might consider the objections. Ex-County Constable John Savage was also arraigned on a charge of false pretences in obtaining \$2 in fees allowed by Mr. Woodcock, and pleaded not guilty. His case was also adjourned until the next day.

Inspector Hughes opened the committee's eyes to this effect yesterday when the question of destroying all waste material came up once more. Trustee Rawlinson had stated that he saw old books and paper mixed up with dirt and sweepings in the basement of several schools, and he desired to see it destroyed each day. The inspector, who was making a strong plea for the preservation of old books, scribbles, etc., which could not be styled combustible, for the sake of the children, would bring, asserted that those conditions had not existed until the board decided to make use of this material. Then the dirt was specially mixed with straw, to render it useless to anybody. The principal of Grace-street school had applied revenue acquired by the sale of waste paper to the athletic fund of his school.

The committee did not recommend the destruction of all waste paper as per Mr. Hughes' request. Trustees Henry Simpson, Rawlinson, Ken, and Secretary Wilkinson will report on a scheme for paying teachers salaries that will not necessitate their coming to the city hall each month.

Make the Don a Sewer. Ald. Sanderson has revived the idea of converting the Don into a sewer by street to the bay into a sewer by covering it up, so that all the sewage from the north end could be discharged into it and sewerage disposal works established in that section.

Controls on Tour. The board of control yesterday took a tour of inspection of civic undertakings in the west end of the city. The widening of the Dundas-street bridge was decided to be necessary after a visit, and the board was also impressed with the necessity of restoring the Lake Shore sidewalk to a safe condition.

WASTE PAPER AN ASSET. One School Principal Used it to Swell Athletic Fund.

It developed in the meeting of the finance committee of the board of education that certain caretakers and principals had been making capital out of the waste paper of the schools, prior to the recent action of the supplies department in gathering it in and selling it.

Inspector Hughes opened the committee's eyes to this effect yesterday when the question of destroying all waste material came up once more. Trustee Rawlinson had stated that he saw old books and paper mixed up with dirt and sweepings in the basement of several schools, and he desired to see it destroyed each day.

EDITOR SAM GRAHAM PASSES AWAY SUDDENLY

One of the Best Known Newspaper Men in Province Victim of Heart Failure.

OSHAWA, March 30.—(Special).—Samuel H. Graham, editor and owner of The Vindicator, died this morning at 9.30 from an acute attack of heart failure. Mr. Graham's death was appalling in its suddenness. He was only 50 years of age. He had never had a fitness in his life till this morning, at 5 o'clock, when he complained of sharp pains in his chest. Dr. Kaiser was called and found Mr. Graham suffering from angina pectoris. Although he rallied somewhat for a time, yet he passed away at 9.30. Mr. Graham leaves a wife and two children. He had been a resident of Oshawa for eight years. The funeral takes place on Wednesday at 3 p.m.

The late editor was born and bred on a farm in the Township of Reach, Ontario County, and spent his youth like the sons of most pioneer farmers, in hard work. During the winter months he took what advantage he could of the educational facilities afforded by the rural school, but the work on a bush farm interfered greatly with his attendance, and although his natural aptitude and his zealous application availed him much, still when he left school and the farm and struck off to Port Perry to make a name for himself he was at a disadvantage. He had no credit beyond robust health, a strong will and indomitable pluck.

He entered the printing office of Mr. Baird, proprietor of The Port Perry Observer, and after serving some time changed to the office of the rival paper, The Standard. He rose to the rank of assistant editor in a very short time, and it was while so employed, that he accepted an offer from Col. A. G. Henderson, proprietor of The Weekly Chronicle, to manage that paper. Subsequently he entered into partnership with Mr. Henderson, becoming editor and manager.

After twelve years of such connection with The Chronicle, he became editor of The Royal Ontario Gazette, of which he conducted with marked ability and success. Eight years ago he purchased The Oshawa Vindicator, which had been allowed to deteriorate, but under his vigorous management it soon became a power in Ontario County.

Editor Graham was a vigorous, if not polished, writer. He was positive in his opinions, outspoken in expressing them, and altogether a downright straight-forward man. He was a lifelong advocate of temperance and lived in his own life what he professed in his writings. He was the enemy of wrong-doing wherever it showed itself, and did not mince his words nor spare his victims. He was the enemy of wrong-doing wherever it showed itself, and did not mince his words nor spare his victims. He was the enemy of wrong-doing wherever it showed itself, and did not mince his words nor spare his victims.

He was a man of ardent impulses and unblemished reputation. It would be hard to find anywhere a man who combined more of the sturdy qualities of manhood than go to make up the typical Canadian character. His sense of public morals in Ontario County will never be forgotten by Port Perry, Whitby and Oshawa. He did his work in spite of the jeers and sneers of the evil-doers, and always good-naturedly, smiling alike on friend and foe.

What Sam Graham has done for Ontario County in pointing out high ideals of public service and morals will be appreciated before long, if it has not now. He was a man of splendid manhood who served his country well and who died as he would have wished, in harness.

Doctor Priest is Dead. ST. JOHN, N. B., March 29.—The death took place this morning at Hotel Dieu, Chatham, of Rev. William Mortimer, for thirty years priest of Barabois, and known as the "doctor priest," Father Mortimer was 68 years of age and had studied medicine at Rome, practised far west as Vancouver to consult him. He was a native of Halifax.

Trade Marks Convention. TOKIO, March 30.—A convention between Japan and the Allied States and Great Britain, and agreements will be signed soon.

Ask Him... Lips white? Checks pale? Blood thin? Consult your doctor. Bad skin? Weak nerves? Losing flesh? Consult your doctor. No appetite? Poor digestion? Discouraged? Consult your doctor.

ROOSEVELT'S POLICY.

London Times Says There is No Other in U.S.A.

LONDON, March 30.—The Times, commenting editorially on what it describes as the remarkable change which has occurred in the attitude of the political parties in the United States toward President Roosevelt and his policy, says that his reward for holding to that policy against all opposition is one of the most remarkable personal victories ever won in political life. There is no policy before the United States, says the Times, except his policy. Party lines have been obliterated and the three candidates now before the country are politically indistinguishable. Their programs are all of one color, and that color is new in American politics. "That is a very curious and interesting situation," continues the Times. "It revivifies one's faith in individual worth and ability, proving that under the most democratic forms a man may still impose his personality upon the conduct of a nation's affairs."

YOUTH WAS GOING HIGH.

Jeweler Proctor's Suspicions Were Aroused, and He Kept Tabs.

Frank T. Proctor writes The World: "I noticed in this morning's paper that you say that a young man who has been arrested for stealing a diamond from Ellis Bros. succeeded in getting a ring from us a few days previously and substituted an inferior stone. While it is true that he was not stealing anything from us, in fact, I personally served him, in the first instance he asked for a diamond ring at \$200, and before he went out he said that he would go as high as \$400. As he is a little unusual for a person of his age not to know within \$200 of how much money he has to spend, I immediately went over all the goods that he was looking at. For that reason I am quite sure that he got nothing from me."

HOCKEY HIS RUIN.

What Edward Morgan's Wife Told the Authorities.

MONTREAL, March 30.—Edward Morgan, a well-known athlete and a one-time trainer of the Wanderers team, had a warrant taken out against him to-day by the Society for the Protection of Women and Children, charging him with non-support of his family. The authorities said his home was one of the worst in the city, the only furniture consisting of a picture of himself taken with the Wanderers team. His wife said hockey had been his ruin.

CORONER NOT SATISFIED.

Orders Joseph Lafamme to Appear Before Magistrate.

MONTREAL, March 30.—The coroner's jury this morning acquitted Joseph Lafamme, bartender, who in a scuffle on a street car early Sunday morning, ran the point of his umbrella into the eye of Frederick Kaiser, who died from the wound. The coroner said the verdict was a miscarriage of justice, and he ordered Lafamme to appear before the magistrate.

STAKED LIFE FOR FREEDOM.

Charles Bunton Shot in Effort to Escape.

ENID, Okla., March 30.—Charles Bunton was shot and killed here to-day by Sheriff Campbell of Garfield County. Bunton was under arrest charged with forging a cheque on the Garfield County Bank and while being taken to jail attempted to escape.

Will Enrich Stevens' Family.

TOKIO, March 30.—The Korean cabinet has decided to give 50,000 yen to the family of Durham W. Stevens, who was assassinated in San Francisco by a Korean spy.

Langham, Sask., March 30.—Doughboys are "aking out" naturalization papers and making honest entries in the latest development separated the great bulk of those people from their more bigoted and less tractable fellows.

Hold-Up at Chatham.

CHATHAM, March 30.—A young man named Fred Davis, a molder in the Manson Campbell Company's factory, was held up early this morning about 1 o'clock by three armed men.

ASLEEP FOR CENTURIES VOLCANO HAS AWAKENED

People Flee for Their Lives Before Thunderings of Mountain in Guatemala.

SAN FRANCISCO, March 30.—The steamer Panama to-day brought news of a volcano in Guatemala, so long extinct that its name has been forgotten, having recently broken out. Its long sleep terminated three weeks ago with such terrifying mutterings and spouting of lava and smoke that the people living in San Felipe at the base of the mountain, are fleeing for their lives. Opposite the new volcano is Santa Maria, a volcano which, during the last 200 years, has wiped out town after town. The inhabitants of the district fear a repetition of the Santa Maria catastrophe, and are therefore deserting the mountain-side. Already the country for miles is covered some inches deep with dust and ashes from the active mountain.

FIFTEEN YEARS IN PRISON.

Noted Burglar Sentenced by Berlin Judge.

BERLIN, March 30.—Henry Shafer, a self-confessed burglar and housebreaker, appeared for sentence before Judge Chisholm this morning and received fifteen years in the Kingston Penitentiary on the charge of burglarizing Hector McEabain's house, and ten years on each of two charges of stealing from the G.T.R. station at Waterloo, and breaking into Schmidt's jewelry store, the latter two sentences to run concurrently with the first sentence. His honor informed the prisoner that he had the worst criminal record he had ever dealt with. The very pretty duo tone photographings show the beauties of the new fair land far more effectively than words can do. The illustration of the cover, which is reproduced by triochromic process from an oil painting, is a typical scene in the "Lake of Bays" territory—an Indian on a promontory gazing at the search-light from the lake steamer. A copy can be obtained free on application to J. D. McDonald, D.P.A., Toronto.

A GENEROUS DONATION.

Dr. James Douglas Gives \$10,000 to School of Mining.

KINGSTON, March 30.—Dr. James Douglas of New York has subscribed \$10,000 towards an endowment which the school of mining, affiliated with the Queen's University, has lately undertaken to raise. The endowment is to be used for general purposes for the mining school. Dr. Douglas is an eminent bridge builder, who some years ago was made a doctor laws by Queen's. He graduated here in 1853. The school wants \$200,000 so that it can qualify for the Carnegie foundation fund.

JUSTICE MABEE SWORN IN.

Liquor Locked in Trunk.

BRANTFORD, March 30.—High County Constable Kerr made a raid on the house of W. H. Loft on the Indian reserve, searching the premises for liquor. All went well until the officer endeavored to open a trunk, which was locked. Then the owner, fugit desoperately, the result being his arrest. The officer claims he found a jug of whiskey in the trunk.

Judge Orders Acceptance.

BROCKVILLE, March 30.—(Special).—Judge McDonald authorized F. R. Oliver, liquidator of the Ferrin Plover Company, Smith's Falls, to accept the works at so much on the dollar. What the total purchase price will amount to cannot yet be determined, but it is thought will figure up close to \$100,000. Just as soon as matters can be arranged the transfer will take place.

Becoming Citizens.

Mrs. Joseph Robinson, Halletton, Que., writes: "I had an eating ulcer on my ankle. I took two bottles of Burdock Blood Bitters and it worked like a charm, cleaning out all the impurities from my system and improving my appetite. While taking the B.B.B. internally I used it externally to cleanse the sore, and it helped."

CUDNEY ARRESTED FOR WHOLESALE ROBBERY

Alleged Accomplice of Guelph Man Taken at Palmerston—Some Good Police Work.

GUELPH, March 30.—(Special).—Alex. Cudney, who lives in a building once used as an old hotel, and which is situated near Marden, was yesterday arrested by the police. On Saturday the city police visited Cudney's residence and found a large quantity of stolen goods, besides about three hundred dollars' worth of furs and merchandise that had been stolen from a store at Belwood, also a number of stolen tools.

Cudney escaped the police on Saturday. When the police again visited the house yesterday, after getting information that he had returned home, they found a large quantity of tools. The tools found are valued at five hundred dollars.

The capture of Cudney was followed by the arrest at Palmerston of James Scarrow, who was an intimate chum of Cudney at the time the local burglaries were committed, and has later been learned that he had a lot of stolen property at his home in Palmerston. His arrest was effected by the Palmerston police this morning on advice from Chief Randall of Guelph. The arrest of Cudney and Scarrow, it is thought, will clear up many of the burglaries that have for some time been terrifying this city and neighborhood, and the arrest and recovery of the goods are thought to be some of the cleverest pieces of police work pulled off here in some years.

Cudney appeared before Magistrate Batters this morning and was sent to jail. Only one case was heard this morning, but there will be at least seven charges against him and Scarrow. Chief Randall left for Palmerston to-night. He will return with Scarrow to-morrow, who will be given his preliminary hearing.

Power Rates at Guelph.

The power and light commission met this morning and considered a reduction for the hydro-electric power. It was understood the commission favors reducing rates as it will soon have to compete with the hydro-electric power commission in selling power. A number of the City Merchants' Association have been interested in this matter. It is thought a reduction will be made soon, but no figures will yet be quoted.

THE BEAUTIES OF THE "LAKE OF BAYS" COUNTRY.

A Summer Paradise for Summer Travel.

A handsome brochure, artistically illustrated, issued by the Grand-Trunk passenger department, telling of the beauties of the Lake of Ontario. A new feature of this district is the new hotel—the Wawa—at Norway Point. The hotel itself has a page illustration, reflecting the summer glories of woodland and water, with a brood of seven wild geese soaring skyward beyond the tower. The concise description embodies the story of a very charming resort, the story of a preparatory poem by Mr. C. W. Warburton, who tells that he is off "To the Highlands of Ontario, in the merry merry berry moon, To the haunts of Hiawatha that are nigh; By the Banks of Athabaska, where it's always afternoon, I'm waiting for the Wawa to go by. The very pretty duo tone photographings show the beauties of the new fair land far more effectively than words can do. The illustration of the cover, which is reproduced by triochromic process from an oil painting, is a typical scene in the "Lake of Bays" territory—an Indian on a promontory gazing at the search-light from the lake steamer. A copy can be obtained free on application to J. D. McDonald, D.P.A., Toronto.

Sees Signs of Separation.

LONDON, March 30.—(C.A.P. Cable).—The Berlin Conservative Reichstag details the separatist tendencies of the British colonies, and points out that Canada is beginning to organize its own army, and demanding the abrogation of several rights vested in the British crown because England did not protect her sufficiently against American and Japanese encroachment.

Called on Prime Minister.

OTTAWA, March 30.—Lieutenant-Governor Dunsmuir of British Columbia is in Ottawa to-day on his way to Europe, and called upon Prime Minister Laurier and Hon. R. W. Scott.

AN EATING ULCER.

Ulcers are a skin disease, and are more or less directly occasioned by a bad state of the blood, which produces acid humors and corrupts the secretions. No one can expect to have a skin free from disease when the blood is in a disordered condition and the stomach and bowels acting feebly in consequence. Through its wonderful cleansing, purifying powers on the blood, and its renovating action on the entire system, Burdock Blood Bitters has made thousands of cures of different skin diseases during the past thirty years it has been on the market. Mrs. Joseph Robinson, Halletton, Que., writes: "I had an eating ulcer on my ankle. I took two bottles of Burdock Blood Bitters and it worked like a charm, cleaning out all the impurities from my system and improving my appetite. While taking the B.B.B. internally I used it externally to cleanse the sore, and it helped."

LONGEST-LASTING NO. 9 STIFF-STAY FENCE

While new to Canadians, the "MONARCH" lock has been for years one of the most popular in the U. S. It is somewhat different and altogether superior to any lock found on any other Canadian Fence. Unlike other locks, the "MONARCH" is applied without a heavy pressure being on the point where the lateral and stays cross. This heavy pressure weakens the wire greatly, and though the lock is not apparent while the wire is in place, the cause of the weakness is easily seen when the wire is parted or broken later.

Front, post, rail and hog proof—the longest-lasting—a distinctly better investment—is the **MONARCH STIFF-STAY FENCE**. Our booklet gives complete details. And you can make a booklet sent you free.

**ACTING AS OUR AGENT.**  
**"MONARCH" STIFF STAY FENCE**  
**OWEN SOUND WIRE FENCE CO., LTD., Owen Sound, Ont.**

The fence that restrains the Wild Buffalo at Elk Island (Government) Park, near Ft. Saskatchewan, Alberta, is Lamb Fence. Twenty miles of Lamb Fence around this park, which contains over Four Hundred Wild Buffaloes, the only large herd of Buffaloes in the world.

If Lamb Fence will hold a Wild Buffalo, it surely will hold the most vicious domestic animal.

Lamb Fence is a fence that will go over any hill or through any valley—a fence with a straight, hard steel upright and a knot that never slips—a fence with wires of even length—a fence made of high-grade steel wire—a fence that will continue to be its owner's pride.

They have a line of fence that sells readily and gives entire satisfaction. They have a firm behind them that treats them right in every way.

OHAS. A. OYPHERS' Model Incubators and Brooders

On my Model Poultry Farm I now have poultry numbering \$30,000, hatched and reared for service at my Model Incubators and Brooders. Buying your incubators and brooders from one who knows nothing (or next to nothing) about hatching and raising poultry is a useless risk. Don't do it. I not only sell you a Model Incubator or Brooder, I add to them the valuable experience of years, as shown in their construction. Model Incubators show exact details for hatching and hatching eggs. The Model Brooder grows sturdy chicks.  
 Send your order to-day, and get in line with the profit-getters.  
**BECAUSE** our directions for operating the Model Incubators are correct.

THE WORLD AS THE MEDIUM.

Encouraging letters are being received by the Farming Editor regarding the good results being obtained from the advertisements running in the Farming and Live Stock Pages.

Not only in auction sales, but in all classes of agricultural work, these pages are pullers for business men.

When we learned that one horse sale in the country had 47 out of the 65 of its enquiries from World readers, it was pleasing news to our advertisers, because they know what they are getting. Poultry men who have tried the columns report nearly all their sales to this medium.

You keep a man to speak for you, when you advertise. This talking goes into over 40,000 farm homes, where the merits of the goods are read by the very people who want them. The better you talk by the ad, the better the results.

It is well-known that it is no pleasure to talk to some people, because they are hard to hear, slow to speak or indifferent. Just so with the ad. A poor talker gets poor listeners. A poor looking ad gets little attention. The writing and placing of an ad, requires thought also, and nothing is surer of results than an ad, at the right time.

Now is the right time for poultry, stock, eggs and agricultural machinery. Nearly every advertiser for poultry has written telling of his sale. One man who is making a success from Greenwood, says that all his orders but one were obtained from The World, and he advertises in the poultry journals.

Another Pickering man cannot supply his orders, and has to turn them down. It is evident that our readers want the goods. Now is the time to get. The low rate of half a cent a word per insertion will hold good in these condensed lines for a few weeks.

Seed men or any farmer having a few bushels of seed grain or potatoes to sell should be advertising now.
