LONDON, June 29 .- The thirteenth vain attempt of the militant suffragettes to obtain access to Premier Asquith by deputa-tion resulted in exciting scenes in Parliament Square to-night and the arrest of more than one hundred women.

The plan of campaign followed the lines previously employed by the suffragettes. The women's parliament assembled in Caxton Hall at 8 o'clock in the evening and sent a deputation, headed by Mrs. Pankhurst to endeavor to see the prime minister who had previously decided not to see the deputation.

Enormous crowds of onlookers assembled in the vicinity of parliament house before the time set for the raid upon the house, around which large bodies of police, numbering three thousand on foot and mounted, had taken up strategic positions.

The first noteworthy incident was the arrest, after a great deal of

trouble, of a buxom equestrian suffragette who tried to penetrate the police cordon to take a message to the premier. ASSAULTS POLICE INSPECTOR. Next appeared the deputation under command of Mrs. Pankhurst, and it was received by the crowd with wild cheers.

Escorted by the police the deputation arrived at the St. Stephen's. entrance to parliament where it was met by Chief Inspector Scanlebury, who handed Mrs. Pankhurst a letter from the premier, regretting his inability to receive the deputation. Yesterday Mrs. Pankhurst had stated they would "Bend or break Asquith."

Angrily throwing the letter on the ground, Mrs. Pankhurst exclaimed: "I stand on my rights as the King's subject to enter the

House of Commons," and she endeavored to force an entrance. The police tried to induce the women to disperse quietly, and then began to take the members of the deputation by the arms to lead them

To the surprise of the spectators, who were massed around the entrance, Mrs. Pankhurst slapped Inspector Jarvis in the face, knocking his cap in the mud. There were cries of "shame" and several

of the spectators told the suffragettes leader that she had no provo cation to do such a thing. A moment later, another of the deputation, Mrs. Saul Solomon, made determined attempts to reach the cordon of police. Eventually, the entire deputation was placed under arrest.

TRIED UNDERGROUND PASSAGE. By this time a second deputation had left Caxton Hall, accompanied by some hundreds of suffragettes and others, and an attempt was made to reach the House of Commons thru the underground pas-

sage leading from Westminster Bridge. This, too, was unsuccessful, but for two hours the whole district was in a state of uproar, the police dispersing the crowds and arrest-

ing women by the wholesale. The windows of many of the government buildings were smashed Altogether 112 women were arrested, including Mrs. Pankhurst, with stones wrapped in paper.

Solomon, the Hon. Mrs. Haverfield, daughter of Lord Abinger, Miss Margesson, daughter of Lady Margesson, Miss Maud Joachim, niece of the violinist, and men other prominent women.

Probably 50,000 persons gathered at the scene. All avenues of

approach were cordoned by police and ambulances were provided to deal with cases of accident. Within the cordon were a very large number of members of both houses of parliament, and scores of ladies in dinner wraps and men in evening dress. The prime minister himself drove away from the house unobserved by the crowd. Great excitement was caused by the movements of the eques-

trian suffragette, Miss Vera Howe, who, in riding habit and bowier hat, rode backwards and forwards, carrying messages between the different deputations, and who ultimately was arrested. The police behaved with the utmost forbearance, but the suffra-

gettes in many cases forced them to some amount of rough handling. There was much screaming and in some cases fainting, and many women had to be taken to the hospitals in a state of collapse.

NEW DRIVEWAY SCHEME IS EVOLVED BY MAYOR

Follows Course of Over Five Miles From Don and Eastern Avenue Back to Yonge Street.

Mayor Oliver has evolved all by himself a scheme for a driveway, which he believes will commend itself to all who are interested in making the city more beautiful. So taken is he with the idea that he has invited the civic improvement committee to go over the

ground to-day. The driveway would begin at the east bank of the Queen-street crossing of the Don, and would follow Easternavenue to the Woodbine. This route las been a favorite one for several years with fashionable equipages, during the Woodbine meet, but to add to its allurements the mayor would have it lined with trees. At the Woodbine the drive would follow the Kingstonroad to its junction with Woodbine avenue, and proceed up Woodbine-avenue to Danforth-avenue. Thence it ed home. Ravine, and thence to Yonge-street. The whole distance is about 5 1-2 miles.

OTED FOR PURITY BRILLIANCY AND UNIFORMITY

Waterway First in Barton Steeplechase-Seventh Day at Hamilton.

Another fine day with a good card was the order of things at the Hamilton race track yesterday afternoon. The gard which consisted of seven races, had two feature events, the Barton Steeplechase and the Hamilton Club Handicap. In both events the fields were of a good size, while the racing was of the keenest. In the mile race, which was won by Paudmore, the track record was lowered by the fifth of a second, the winner owned by oJe Doane of Toronto, stepping the circuit in 1.39 4-5 seconds. The attendance was well up to the mark, although the special train from Toronto was not quite as heavy as o nthe previous day. ilton race track yesterday afternoon quite as heavy as o nthe previous day.

The steeplechase had two added starters. Braggodocio and Bilberry. starters. Braggodocio and Bilberry The race was one of the hardest that have been run over this course in some time. Fulford went to the post the first choice at two to one, while the winner stood at sixes with no one wanting any part of it. When the gate was sprung, Sal Volatile went to the front with a rush that made the others dizzy and won, hand ridden, by over a length. Osorine the Walker

over a length, Osorine, the Walker horse was always the contender and way, outgaming Mozart for the place. In the second race another first choice in Moquette went down, when Plaudmore, with juicy odds of seven to one, came home in front an easy winner. T. M. Green, from the stable of D. N. Prewitt, was easily the next best and ran over the top of the rest of the

field at the end.

The third event was for maiden twoyear-olds, and was won by the second choice, Short Order, while the favorite, Beau Nash, who was the good thing the last time out, ran second. When the gate went up, Beau Nash was taken off in front and set the pace for a piece. Short Order soon overtaking him and going to the front leading all the way home, winning handily by two

TORONTO'S TRACTION POLICY. Toronto is fortunate in having a council that refuses to be stampeded into approving the Street Railway Company's stand-and-deliver attitude. In appointing a committee to consider and report upon the present situation and to extend its examination beyond the surface system, the council has taken a very proper course, which should result in the acquirement of much useful information for their future guidance. As The World pointed out recently, what is particularly needed is expert assistance on every branch and aspect of the transportation problem. The present franchise grant expires in about twelve years, when the city can then take over the system at a valuation in accordance with the provisions of the agreement. With this contingency before it the company has alternative policies, each of which it will follow in their order. The first is to

compel or induce the city to extend the franchise, either by doggedly refusing necessary extensions or by alluring offers of immediate relief. If these prove futile, the company will set itself to make the greatest possible profit it can during the remaining years of its fran- \$10,000 that it is cheaper to pay rent. chise, an object incompatible with a It is willing because it owns the house properly expanded and extended ser-That the city will resume its transportation franchise must be taken as the basic factor in the question as now presented. Hamilton Spectator: If a man is to be known by his associates, Mayor McLaren is fortunate to have incurred the enmity of The Toronto World and some others.

Hamilton Times: The highest compliment paid to Mayor 'Mc-Laren's administration of his office s the abuse showered upon him by The Toronto World in connection with this power matter. The virulent anti-Hamilton organ seems to be quite jubilant over the fact that Mayor McLaren's solicitor adhim that it has carefully

HAMILTON AND THE POWER

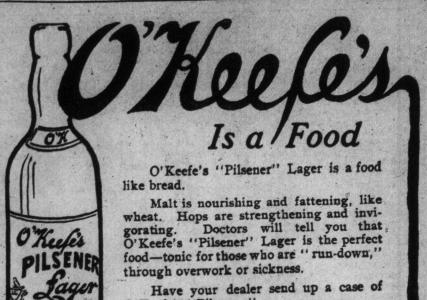

Lies, desperate lies, and statistics are the three degrees of verbal assault when argument is weak. The Hamilton Times and The Spectator have resorted to figures in the attempt to bewilder their readers. They do not attempt to disprove that a corporation which pays dividends on watered stock, and which, like all corporations, anticipates still further watering in the near future, and therefore bigger sums in dicase of a publicly owned plant, run not for profit but for the supply of cheap power to its public promoters. That is the one hard fundamental fact The Times and The Spectator can-

not get over. The Cataract corporation wants divi dends and will grind dividends out of the Hamilton people if the Hamilton representatives can be wheedled or bulldozed or persuaded in any way not to carry out the thrice-expressed wishes of the people.

"The people be damned." was the motto of a late eminent capitalist. This tion archives. Every possible measure that can be taken to harass and reduce the people of Hamilton to submissio will be taken. The people know what they want ,and will abide the issue.

They do not want the Cataract power contract, and they have said so. The Spectator wishes to ignore this plain fact, and thinks "the ratepayers of Hamilton know better."

We hardly see the force of the argument," says The Spectator, in reply to The World's contention that the Cataract Power Company could retrieve its paltry bets over and over

"The Issue cannot be evaded," declares the Cataract organ.

In fact the committee should submit such a complete review of the foundation of a clear, well-considered and thoro policy covering the unexpired term of the franchise agreement, and at the same time anticipating the conditions that will arise when the whole system is under civic ownership.

When you find your heart the least bis out of rhythm, your nerves unhinged, your breath short, don't wait until you are prostrated on a bed of sickness. Take Milburn's Heart and Nerve Pills. They'll put you in such condition you'll never know you have a heart, make your nerves strong and your whole being thrill with new life. Milburn's Heart and Nerve Pills cured Mrs. K. E. Bright, Burnley, Ont. She writes: "I was greatly troubled, for six years, with my heart and shortness of breath. I could not walk eighty rods without resting four or five times in that short distance. I got so weak and thin I only weighed seventy-three pounds. I decided at last to take some of Milburn's Heart and Nerve Pills, and after taking eight boxes I gained in strength and weight, and now weigh one hundred and thirteen pounds, the most I ever weighed in my life. I feel well and can work as well as ever I did, and can heartily thank Milburn's Heart and Nerve Pills for it all."

NERVOUS ENERGY IS ELECTRICITY.

man body is electricity. Ali the organs, every function of the body and the health of the individual depend upon the electricity pos-sessed by the nerves, and pain, weakness, despondency, lost energy and ambition denote a lack of it. If the stomach fails to digest the food that is given it, if the nerves are weak, kidneys inactive, or any organ fails to do its work, it can be restored to perfect health by the proper use of it. The greatest proof of the value

of electricity, and how it is replacing drugs for a weak, broken-Cown system, is the fact that physicians who a few years ago scouted at the idea of electricity as a cure are to-day applying it in preerence to drugs. The results of experiments conducted by the greatest scientists in the country show that the action of the organs, the

basis of life in the body, is electricity, and where it has been wasted by overwork, indiscretions or disease, it can be replaced by the pro-If you are skeptical, all I ask is reasonable security for the

Nearly \$1,250,000 of New Issue Taken Up During Present

Hon. A. J. Matheson, provincial treasurer, announced yesterday that near-ly \$1,250,000 of the \$3,500,000 issue of 30year 4 per cent. bonds had been sold during the month of June, which is nearly equal to the sales for a like on the loan three years ago, which was sold by public subscription. "As a matter of fact," said the pro-vincial treasurer, "when you consider that the sales to private parties are noticeably greater than they were of the former loan, this showing is even been taken up by private individuals." About six weeks ago a syndicate of bankers absorbed \$1,500,000 on a former

issue, which shows very clearly that the provincial securities are not a glut on the market. on June 30, even the not received until later, will be allowed the June in-

"The connection established in the Northwest referred to in the last annual report is proving to be a valuable one, three new branches have been opened there, and some three hundred and thirty farmers have already become shareholders. The number is steadily increasing, and while in most cases their holdings are but limited in extent, the bank should in the derive much advantage from having a large body of shareholders of so valuable a class in that important section of the Dominion.

ing you a year ago at our last annual meeting, we stated that the crop prospects in the Northwest and in different parts of Ontario were promising, and if expectations were realized the financial stringency, which then prevailed, would have passed away before we met again. I think it is now safe to say that this has taken place, and confidence once more restored. The outlook for the present season in the Northwest and Ontario, according to the latest crop reports, is encouraging, and we may naturally look for a good harvest. Last fear the harvest was satisfactory in practically all sections of the Northin practically all sections of the North-west, and there are now 11,110,000 acres

been sown and coarser grains taken its place.

"As there was not the same demand for money during the past year, there was naturally a sepreciation in the rate of interest secured for good loans, and particularly for call loans on the collateral security of stocks, bonds and debentures. Banks generally found some difficulty in keeping all their funds employed in desirable loans, and consequently we had at times a considerable amount of uninvested funds on hand, but following the same conservative policy, that we have on former occasions referred to, we deemed it more advisable to carry a larger proportion of uninvested funds and to accept only loans that were unquestionably good.

No further calls may be made upon shares as all the shares of the Company will be issued and sold as fully paid up.

Of the shares of the Company it has been agreed to issue 500,000 fully paid up shares to Herbert W. Edgar under the terms of the contract dated the 30th day of March, 1909, hereinafter referred to.

By an agreement dated the 30th day of March, 1909, Herbert W. Edgar, of the City of Toronto, sold to the Company unpatented Mining Claim T.R. 685, con-

sisting of the southwest quarter of the south half of Lot No. 3, in the second concession of the Township of James in the District of Nipissing, and unpatented Mining Claim M.R., 380, consisting of the southwest quarter of the south half of Lot. No. 2, in the second concession of the said Township of James, both of which unpatented Mining Claims are situated in the Montreal River Mining Division, the consideration payable therefor by the Company being 500,000 fully paid up shares of the capital stock of the Company (taken at 30 cents on the dollar), and the sum of \$30,000 to be derived from the sale by the Company of 100,000 shares of its capital stock, the Company having agreed to offer it sale 300,000 of its shares at the price or sum of thirty cents each, the entire capital stock of the Company having been authorized by By-law to be sold at a discount of seventy per cent, such By-law having been duly confirmed and filed with the Provincial Secretary.

Transfers of the said unpatented Mining Claims have been executed by the said H. W. Edgar and delivered to the Company and recorded by it with the Mining Recorder for the Montreal River Mining Division.

No sums are to be paid as commission for subscribing or agreeing to procure subscriptions for any shares in the Company or for underwriting or procuring underwriting of any securities issued or to be issued by the Company. The estimated amount of preliminary expenses is \$1500,00.

No money, cash, shares, or debentures are to be given to any promoter.

By Agreement bearing date the 30th day of March, 1909, The Toronto General Trusts Corporation has agreed to receive all moneys paid by subscribers for the said 300,000 fully paid up shares

Trusts Corporation has agreed to receive all moneys paid by subscribers for the said 300,000 fully paid up shares of the capital stock of the Company, and to give receipts to the various persons paying the same, and to hold such moneys until the expiration of forty days from the date on which the said 300,000 fully paid up shares have all been subscribed for and certificates for the same have been de-

livered to the various purchasers or subscribers, and thereafter to deliver to Herbert W. Edgar the sum of thirty thousand dollars out of such moneys, and to deliver the balance to the order of the Company; and in the event of the said shares having been paid for by the subscribers and certificates not having been delivered to them within thirty-seven days from the date when the said 300,000 shares have all been subscribed for, then to return to each of the persons who have subscribed for any of the said shares the moneys paid by them respectively.

The Agreements referred to above may be seen at the office of Messra, Blake, Lash & Cassels, Canadian Bank of Commerce Building, corner King and Jordan Streets, Toronto.

The unpatented Mining Claims hereinbefore referred to as having been sold to the Company were held by H. W. Edgar in trust for certain persons, including the directors, other than Sidney Jones, and the 500,000 fully paid up shares of the Capital stock of the Company hereinbefore referred to are held by the said Edgar in trust for Such persons and each of the said directors is entitled to a seventh interest in the said shares and to a sixth interest in the said shares and to a sixth interest in the said shares and to a sixth interest in the said shares and to a sixth interest in the said shares and to a sixth interest in the said shares and to a sixth interest in the said sound of \$30,000 mentioned in the said Agreement of the 30th day of March, 1909, made between the said H. W. Edgar and the Company, Of the said 500,000 shares each of the directors, other than Sidney Jones and Fred H. Ross, has received one share to qualify him as director. Except as hereinbefore mentioned, none of the directors are in any way interested in the promotion of or in the property acquired by the Company, and no sums have been paid or agreed to be paid to any of the directors either in cash or in shares by any person, either to qualify them, or any of them, as directors.

Men Who Invest Their Money in Mines Entitled to a Due Consideration.

"Play the mine and not the market" were the words of a prominent New York financier, in discussing the situaof the Cobalt stocks yesterday. The same gentleman in talking over the situation was thoroly in accord with The World's contention for a long time that too many speculators are endeavoring to live on the actual in-

Mines are not developed by the mor ey of individuals who simply go into the proposition for a few days and sell out again at a small profit to a similar individual, who repeats the operation. What Cobalt wants and what every What Cobalt wants and what every mining camp wants for development purposes is the money of the investor who is willing to put in his funds after having satisfied himself that there is a fair opportunity of a return of his original investment, with a reasonable profit for the adventure. original investment, with a reasonable profit for the adventure. A large part of this idea has been killed by the action of the professionals at the To-ronto and other exchanges where Co-balt stocks are listed.

The legitimate investors have gone into the market believing that they are getting a fair run for their money. They are perhaps ignorant of the stock market end of the proposition, and it is on this ignorance that the professionals thrive.

In many cases the stock of the investor is left in the hands of those who purchased it for safe keeping and it is this stock which is utilized to make the frequent drives against prices. As an investment proposition no other camp in the world presents such opportunities as Cobalt, but the public which has put its money into the development of the camp has not received the advantages to which it is entitled, owing to the tremendous rake-off which has been taken by the

stock market operations.

A species of disgust evidently pervades the public mind on account of the manner in which they have been treated in the past. There is a good reason for this, and unless a fair and ordinary investor it is but a question of time before the confidence of these will be lost and the market become stagnant for the want of outside in-

to himself, and that is to buy good Co-balt stocks, accept delivery and keep the stock off the market, thus pre-venting the use of his securities in making damaging fuctuations against the security to which he has pinned his faith.

LA ROSE THE ONLY FEATURE OF STRENGTH.

World Office.

Tuesday Evening, June 29. A feeble effort to accord with the upward movement at the New York Market was made at the local Stock Exchange to-day. Dominion Steel rallied a point on pool support, but other stocks, such as Rio, Mackay and Sao Paulo, made lower prices on realizing sales. The one and only feature of strength was La Rose, which sold up again and had the strongest kind of undertone at the highest price yet reached. With odd exceptions the public are not participants in the daily operations, the present fluctuations representing the in and out dealing of professionals. A clean up of margins is evidently contemplated in the South Americans. HERBERT H. BALL.

World Office,
Tuesday Evening, June 29.
A species of irregularity not altogether explainable developed at the Toronto stock market to-day. Spots of strength were offset by similar evidences of weakness, neither movement being accounted for by any special market to raise it to a still higher

being accounted for by any special news development.

The weakest feature of to-day's market was Rio, which fell three points further in the day's business, and least week are cally a fractional reliable.

The weakest feature of to-day's market to raise it to a still higher plane. Anaconda declared regular quarterly dividend of 50 cents per share.

Beaty & Glassco had the following closed weak at only a fractional rally: at the close: Stocks became more ac-Sao Paulo was also heavy, but liquitive and strong during the afternoon

Sao Paulo was also heavy, but liquidated to a much smaller extent.
On the reverse side decided strength was shown in La Rose, which advanced to another new high level, selling up to \$8.14, and on the New York market four points higher than this.
Dominion Steel also developed some firmness, the influence in this issue being sympathetic with the movement in the Steel stocks in New York.
The market as a whole offered very little chance for critical comment, the day's trading being of a small kind of calibre, and transactions of any moment only occurring in a few issues.

Speculative enthusiasm is evidently little chance for critical comment, the day's trading being of a small kind of calibre, and transactions of any moment only occurring in a few issues.

79 CARS AT UNION YARDS Quality of Cattle and Prices Fully Up To Monday.

There were 79 car loads of five stock arrived at the Union Yards, consisting of 1554 cattle, 90 sheep and lambs, 22 caives.
Like Monday's receipts the quality of cattle was good.

Trade was never better during the year than it was to-day, notwithstanding the large number of cattle on sale.

Prices for butchers cattle were about the same as Monday's quotations. Many helfers and steers of what used to be considered butchers cattle, weighing from 1000 to 1100 lbs., were bought for export purposes. The Swift Company bought 9 loads of these paying from \$5.75 to \$5.95 per cwt.

Loads of best butchers sold at \$5.60 to \$5.80; medium to good, \$5.25 to \$5.50; common, \$4.50 to \$5.15; cows, \$3.50 to \$4.75.

Milkers and Springers.

A few milkers and springers sold at \$35 to \$55 each.

YOU NEED.

I wish yeu could know for yourself the wonderful effect of the
galvanic current on weak and
nervous men. I wish you could
realize the health and happiness
that will be yours when this wonderful force infuses every nerveand vein of your body as accomplished through my treatment. I
have been curing thousands every
year, and have come to believe
that my method will cure any curable case. able case.

I use electricity applied to the body by means of the world-famous Dr. Sanden Herculex Electric Belt, in a steady, invigorating stream during your sleeping hours. You get up in the morning feeling as if born anew.

FREE UNTIL CURED Call or write to me and I will at once arrange to let you have the Belt on trial, not to be paid for until cured. No deposit or advance payment. Send it back if it doesn't do the work. Liberal discount for cash if you prefer to deal that way.

The World has no use for a weakling. Men must be strong to-day or give way to those who are. There is no compromise. Strength means success. Weakness spells failure. Which will you be?

our earning power; how to be successful in business and popular in ociety; how to rid yourself of rheumatism, indigestion, lame back, etc.; how to be strong, vigorous, magnetic and happy, and make life a real pleasure; all this and much more are told and pictured in a neat little book which I am distributing free for the asking. The Simpson Housefurnishing Club Open for July

The Club Secretary Will be Ready Friday to Sign 500 New Members

O UR HOUSEFURNISHING CLUBS have won a place in Housekeeping Economics distinguished above any other opportunity of the sort. It is the most liberal plan we know of. It means home-owners may have the remarkable privilege of a charge account at Simpson's for all goods required from the Carpet and Curtains and the Furniture Department. If desired we will include Pictures and Silverware.

As you know our prices are based upon cash merchandising. We charge those who become members of our club not a cent extra for the convenience of time payments.

If you need-Carpets Rugs Summer Matting Linoleums Oilcloth Curtains

Shades Screens Furniture Covering Verandah Furniture Summer Cottage Furniture A Refrigerator A Bedroom Set

or any goods sold in these departments you will be serving your own interests by joining our July Club. Extra business is our sole purpose in making this offer, assuredly a most liberal one, for we charge nothing for interest or any other expense whatsoever.

The Club Office is on the Ground Floor, James-street. The Secretary will give you full particulars.
