BULLETIN.
Constantinople, April 17.—War with Greece has been de-
clared.

Constantinople, April 17.—Following the news of the incursion by the Greeks on Turkish territory the Council of Ministers at the palace to-day recalled the general assembly, gave passports to Prince Maurocordato, the Greek Envoy Extraordinary and Minister Plenipotentiary, and ordered Edhem Pasha, the Turkish military commander-in-chief, to assume the offensive and lead to the rupture of diplomatic relations between the countries.

Greek Minister Was Healed.

The so-called outrage at Preveza this morning, when the Turkish batteries there sank the Greek steamer Macedonia, further justified Greece, in the minds of the Athenians, in waging war to the death against Turkey. The Greek Government, therefore, is warmly in favor of re-rolling the Greek Minister at Constantinople, and not waiting, according to the Turkish version, until Prince Maurocordato was handed his passport.

Assim Bey Skipped Out.

It is stated in some quarters that Assim Bey, the Turkish Minister to Greece, did not wait for his passport to be handed to him, but so soon as he received the sum of 500 francs transferred to him from Constantinople through the Athenian Bank, for traveling expenses etc., he hastily quit this city.

Heels Frontier Abases.

Little news of a reliable nature has been received here or allowed to leak out, regarding what has really transpired on the frontier. It is known, however, that the whole frontier of Thessaly has been blazing with murderous firing since early this morning, and that the Greeks have captured a fortification post at Menexa in Macedonia.

Turkish Plan of Campaign.

According to the general understand-
ing here, the Turkish plan of campaign is a concentration of the Turks near the important Greek frontier town of

Tyrnavos, with a view of forcing the mountain passes leading towards Larissa. One report, which is generally credited, has it that Edhem Pasha, at the head of 12,000 men, has already cre-
ated this movement, and while this

is being done, the Greeks are being ex-
pected to be fought at or near Tyrnavos.

Greek Plan of Campaign.

The Greek plan of campaign, so far as it is understood by the Athenians, is founded on the defense of Larissa in the first instance, an attack upon that place having been anticipated and prepared for by occupying and taking every possible advantage of all strate-
gic points in the country there is ad-
mirably suited for defense, and while this

is being done, the Greeks are being ex-
pected to be fought at or near Tyrnavos.

At 11 o'clock the Greeks began to attack the Turkish forts outside the entrance of the Gulf, partly to divert the enemy's attention and partly in order to prevent the massacre of the Greeks at Preveza. The Greek ironclad Sperma has arrived to assist in bombarding Preveza and the gunboats continue to bombard from inside the

Gulf.

The Turks Repulsed.

Athens, April 17.—In the Legislative Chamber M. Delyanis, the Premier, replying to interpolations, said that official advices from the frontier left no question about the Turks being the aggressors in Friday evening's fighting. At Nezero, the Turks attempted to occupy a somewhat strategic position situated in the neutral zone. This the Greeks could not permit. Thereupon the Turks opened fire, the Greeks replying. The fight lasted from early in the evening until midnight and ended in a repulse of the Turks. This morning the Turks again attempted to occupy this same strategic position and again they were repulsed. After the firing ceased orders were issued to the Greeks to maintain their positions but to avoid provoking encounters with the Turks.

Fighting on Saturday.

Skins of a Greek Steamer Brings on
Preveza's Bombardment.

Athens, April 18, 11 a.m.—The Turkish batteries at Preveza, on the north shore of the entrance of the Gulf of Arta, where, according to the treaty of Berlin, the Turks had no right to erect fortifications, fired on and sank a Greek steamer, the Macedonia, this morning while she was attempting to leave the Gulf of Ambracia. The crew of the steamer were saved by boats from the shore, but the captain of the Macedonia was severely wounded.

Upon receipt of this news, the Greek Government sent orders to the Greek fleet in the Gulf of Ambracia to bombard Preveza. Consequently the bombardment of Preveza commenced at 6 o'clock this morning and continues as this despatch is sent. Preveza, which is in Epirus, is 18 miles from Arta, is strongly fortified.

Passports for Assim Bey.

The Turkish Minister here, Assim Bey, has asked for his passports. They have been handed to him and he has left Athens for Constantinople. The Greek Minister at Athens, Baron Von Plessen, has undertaken to protect Turkish interests in Greece during the severance of diplomatic relations between the two countries. The Greek Minister at Constantinople, Prince Maurocordato, has been recalled.

Extraordinary Excitement.

Throughout the day there were scenes of extraordinary excitement here. The streets were crowded with people discussing the outbreak of war and its probable outcome. The general feeling was one of satisfaction at the relief from the irritating tension of the past few weeks, which had gradually become almost unbearable, and which is ended at last by overt acts. It is claimed here, upon the part of Turkey, that the Greeks had an attempt upon the part of the Turkish forces to occupy a strategic portion of the neutral zone. The Turks continued to abandon their advance posts, a general movement apparently taking place. Firing is reported from Moluna. From Larissa the flashing of guns can be seen. In yesterday's fight at Mount Analipsi the Greeks lost 40 wounded and 3 killed.

Greece Enters a Protest.

Athens, April 18, 1.30 a.m.—The Cabinet has decided to protest to the powers against the aggressive action of Turkey. An invasion by Edhem Pasha, the Turkish commander, is expected.

stantinople as a reason for ordering Edhem Pasha, the Turkish commander, to assume the offensive, and led to the rupture of diplomatic relations between the countries.

Greek Minister Was Healed.

The so-called outrage at Preveza this morning, when the Turkish batteries there sank the Greek steamer Macedonia, further justified Greece, in the minds of the Athenians, in waging war to the death against Turkey. The Greek Government, therefore, is warmly in favor of re-rolling the Greek Minister at Constantinople, and not waiting, according to the Turkish version, until Prince Maurocordato was handed his passport.

A Great Battle Expected To Day.

Edhem Pasha at this hour is holding a council of war and it is expected that a great battle will be fought tomorrow. The Turkish troops are most eager for a general engagement.

The weather continues very cold.

The Powers Notified.

Athens, April 18, 7 p.m.—The Independence Barge to-day announces that Turkey has officially declared war against Greece, and that a notification to this effect was sent to the powers this morning.

Fort at Actium Destroyed.

By the Turkish Fire Which Opened Not at 5.30 a.m. Yesterday.

Athens, April 18, 2.40 a.m.—Firing is reported along the whole line of the frontier in Thessaly.

Both the Turkish and Greek forces have taken up positions for the purpose of being in readiness to repel the advance.

All Along the Frontier.

Athens, April 18, 2.40 a.m.—Firing is reported along the whole line of the frontier in Thessaly.

Greek Must Leave Turkey.

Constantinople, April 18.—Tewlik Pasha, the Turkish Minister for Foreign Affairs, visited the foreign envoys yesterday and informed them that the Turkish frontier had been crossed on Friday night by fresh bands of Greeks, among whom were a number of Greek regulars. It was this news which led to the calling of a council of Ministers and precipitated the decision to announce that war had broken out between Greece and Turkey. The Greek Minister here, Prince Maurocordato, was at the same time notified of the rupture of diplomatic relations between Turkey and Greece. His passports were handed to him and he will leave Constantinople. At the same time the archives of the Greek legation will be removed. In addition, all the Greek merchants in Turkey were notified to leave the Ottoman Empire.

A detailed circular sent this evening to the Turkish representatives abroad recalls the week's invasions and states that the newest incursion was participated in by the Greek troops, which, therefore, established war, which has been made.

The circular expresses the hope that the powers, in a spirit of justice, will agree that the entire responsibility for the war falls on Greece. Turkey has no idea of conquest, and, as a fresh proof of pacific intentions, offers to retire the Turkish troops on the frontier if Greece will retire her frontiers and from Crete.

BRITAIN IN EGYPT.

The Anglo-Egyptian Forces in the Soudan to Advance at Once to Meet of a French Expedition.

LONDON, April 16.—The next advance of the Anglo-Egyptian forces in the Soudan will be made so soon as there is water enough for the steamers to pass the fourth cataract of the Nile, probably in the first week of May. The first object of the troops will be the capture of Abu Hamed, where there is a small Dervish garrison, then the railhead of the railway, which is to be built to Abu Hamed. When the road is finished the gunboats now in course of construction will be sent by rail, in sections, to Abu Hamed, whence it is open water to Berber and Khartoum. The Khalifa is concentrating his forces at Omdurman, and is determined that he is not to be forced to offer much resistance elsewhere. Sir Stanislaus Pasha, the Austrian officer who was attached to the intelligence department of the Anglo-Egyptian expedition to Dongola, in an interview at Vienna has declared that the Mahdists will never attempt to recapture Kasala unless Italy voluntarily abandons it.

France's Little Game.

New York, April 17.—The London correspondent of The Sun cables to-day: "After nearly twelve months of denials, equivocations, admissions and recriminations, the British Government of London and Paris, reached only the faintest re-echoes have reached the outside world. It is now plain beyond a doubt that the British expedition smugly established on the upper Nile and tacitly challenging Egypt's right to territory which Egypt's veterans declared to be indisputably Egyptian. Nine or ten months ago an account was cableed of the mysterious movement of ships towards Egypt and suspicion as to its real meaning induced the British Government to undertake operations against the Dervishes. It was generally agreed that the advance to Dongola was actually directed against French intrigues, and the Government, therefore, gave various reasons not one of which was logical or convincing, for the apparently meaningless policy which exasperated its opponents and puzzled its friends."

BRITAIN MUST ACT.

If a forward movement in that part of Africa was necessary to British interests a year ago, it is imperative now. The Government has blandly admitted that a French force under Lieutard, an officer of the regular French army, will certainly be sent to the Balkans-Gaza region if it does not establish itself on the banks of the Nile. Lord Salisbury's policy will compel England not to go as far as possible, possibly farther, to the boundary of Uganda, which latter country, people seem to forget, is now British while the French, who may play an important part in the Anglo-French struggle for supremacy in the Dark Continent.

Sir Charles Dilke regards the French movements in the Upper Nile as of vast importance. He would like the situation to be cleared up as quickly as possible. The recent decision of the Government to send the House of Commons immediately after the Easter recess.

ENGLAND AND LIBERIA.

The latest phase of this Anglo-French conflict in Africa, developed in the west coast of Europe, is shown as a disposition to interfere with Liberia, the curious black republic founded by emancipated slaves from Union slaves. The rebels are heavily in debt, and England has been reluctantly undertaken to lend her money, which the French rightly fear is a preliminary step to a close alliance or even suzerainty.

THE CUBAN FIGHT FOR LIBERTY

Seems to be Just About Where It Was a Year Ago—No Spanish Troops to be Withdrawn.

Havana, Cuba, April 17.—Reliable private sources assure us that Quintin Randolph, the insurgent leader, a few days ago passed with 200 men in the direction of San Salvador, El Salvador. They did not do this for the purpose of joining the insurgent general, Mayala Rodriguez, who is trying to cover westward, and the City of Pinar del Rio.

It is reported that Captain-General Weyde expects to return to Havana in the near future.

The Cuban Graphic continues to report the fall of Banes. The gunboats have not succeeded in effecting a landing of troops, but the insurgents have made a bombardment of the stronghold of the insurgents on the mountain heights. It is not possible for them to effect an entrance to the city for the purpose of attacking it.

Gen. Diaz and Gen. Bacallao, the independent leaders of Pinar del Rio, are no longer incommunicado. They are recovering from their wounds, and it is reported are well cared for.

Greeks to Hold on.

Athens, April 17, 10 p.m.—Athens were sent to day to the Greek troops to keep strictly on the defensive, but to maintain their positions at all cost.

SEEDS FIGHTING.

Athens, April 17, 10 p.m.—A telegram from London dated April 16, Saturday afternoon, says that firing is still proceeding, and that the canons can be distinctly heard.

Purgatorial Pills.

The druggist would hardly smile if you asked for "purgatorial pills." There are many of them. But he would probably recommend a pill that did not grip; a sugar-coated pill, gentle in action, and sure in effect. What are they called?

London music halls are not the only ones that call for favors. And it is therefore safe to say that Miss Ada Jones, who appears at the Bijou Theatre, is well known to the working classes. She is reputed to be an entertainer of no mean ability, and is sure to please.

Frank Clayton will appear in his old rôle of "Hah-hah! Bravo!" London! Bravo! Bravo! He is a gay

How the Result of the C.W.A. Meet Vote is Taken in Chatham, England.

London, April 16.—The last advance of the Anglo-Egyptian forces in the Soudan will be made so soon as there is water enough for the steamers to pass the fourth cataract of the Nile, probably in the first week of May. CANNON THUNDERING.

Continued from Page 1.

Greek warship *Baedonios Georgios*, the cruiser *Narcissus* Musala taking up the fire. The Hamidiye and Pantokratoros batteries return the fire, but their practice not good.

At 2.30 p.m. a shell from the *Narcissus* Musala fell fairly in the Hamidiye battery.

The Firing Note.

Aydin Bey has sent M. Skouzas, the Greek Minister of Foreign Affairs, the following note: "In consequence of the aggressive attitude of Greece, diplomatic relations between the King of the Hellenes and his Imperial Majesty the Sultan of Turkey and their respective Governments are hereby broken off. The Greek Minister at Constantinople and the Greek Consuls have been ordered to quit Turkish territory. For the same reason the Turkish Consuls in Greece have been recalled to Constantinople. Within a fortnight from the date of this announcement all Greek subjects must leave Turkish territory. Ottoman troops now in Greek territory have been invited to leave it within the same period."

Turks in Greek Territory.

Constantinople, April 18.—The Porte has received a despatch from Edhem Pasha, the Turkish commandant-in-chief at Elasos, dated Saturday, saying that in consequence of an invasion by the Greeks of Turkish territory his troops have seized the heights of Pernar and Velschka. The fourth division from Elasos, under Hamid Pasha and a full brigade under Hamid Pasha, have entered Greek territory.

Distribution Arms.

Arta, April 18.—The Mayor of Arta has distributed rifles to all male inhabitants of the town. The transfer of all public offices and official records from Arta to Konipote is now proceeding. The town is almost deserted. A despatch from Trikala says that a sharp fusilade was heard this morning beyond Koura, which is now occupied by Greeks. A band of insurgents had entered Macedonia and is now advancing in the direction of Koniklos.

Turkish Batteries Destroyed.

Athens, April 18, 9 p.m.—A despatch just received here says that the Skafidiki batteries, which were attacked by Greek warships shortly before 3 o'clock this afternoon, have been completely destroyed. The Greek battery at Kesipanaghi co-operated effectively with the fortifications of the Turks.

Turks in Full Retreat.

Larissa, April 18 (headquarters of the Greek army in Thessaly).—The Greeks have captured the Turkish positions from Nezerokloutra, and the Turks are in full retreat toward the interior, where their forces are massing.

The batteries at Menexa ceased firing at 11 p.m. Sunday.

THROWS IT ALL ON GREECE.

Turkish Government is Now Squaring Itself Before the World.

Constantinople, April 18.—An official communication to the newspapers states that the Imperial Government has spared no pains to preserve the peace, but that Greece, having sent troops to Crete in defiance of the wish of the powers, and having begun hostilities on the frontier, has compelled Turkey to defend her integrity and to retaliate by an act of war.

The Minister of War has given explicit orders to Edhem Pasha, in accordance with the Imperial decree, to make all arrangements of the council and adopting the plan of operations formulated by the military commission.

The first division of the troops are at Doimik, the second at Elasos, the fifth at Skopje and the sixth at Karaya (or Kosky). The last two are engaged in defensive operations. The Greeks who have invaded the district of Mount Godomane have been repelled. Battalions from the divisions at Apium and Karasharis are arriving at Jannid route for Rodosto and Muratli, in order to reinforce the troops in that district.

To Cut Off a Railway Line.

Salonica, April 18.—Greek bands have landed at Elevethepoli, west of Kavala, and are marching on Goyarn, distant about one kilometre from Deagach. Their design is evidently to cut the railway line to Salonica. Turkish troops have been seen in pursuit and there has been fighting, but the result is not known here.

Greek Brigands Working Too.

Athens, April 18.—A telegram from Trikala, sent at 8 o'clock this evening says that the Greek brigands continue to capture the towns, after capturing the town of Aspros, Satias, Sarti, Brodicas, Molle Velour, Moire Poplin, etc., ranging in price from \$4.50 to \$20.

FIFTY THOUSAND MEN ENRAGED.

Elasos, April 18.—The Greeks from all their positions in the Karava district began the advance toward the frontier at 7 o'clock on Friday evening. The fighting lasted all night and extended on Saturday to within ten miles of the frontier. It is estimated that 15,000 Greeks were engaged. The battle continued with great vigor throughout Saturday, when altogether 50,000 were engaged.

On Sunday morning the fire was concentrated toward the southeast of Milouma. About noon to-day (Sunday) the Greeks began to give way after the hottest fighting of the engagement. The Turks advanced only a little beyond the frontier into Greek territory. Considering the rapidity of the firing and the expenditure of ammunition, the number of killed is comparatively small, probably under 200. Altogether the behavior of the Turkish troops was better than that of the Greeks. Their officers remained cool and collected. The firing still continues, but it is expected to cease at nightfall, as the troops have been engaged for hours without food or sleep.

THE HOSPITAL AT ELASSONA.

Visited by The Times Correspondent.—A distressing scene of agony.

London, April 18.—The Times' correspondent at Elasos says: "I visited the hospital to-day (Sunday) and found all admirably conducted. But the scene was most distressing, the women screaming in their agony, the feverish tearing the bedding in babbling delirium. On Saturday's bill-fighting the Turks had the advantage. They were judiciously ambushed behind the rocks, and from their sheltered positions maintained an incessant fire.

TURKS ARE GREAT FIGHTERS.

To-day's (Sunday) fighting at Milouma Pass, April 18, 10 a.m.—A fierce battle raged in the pass all night long. The Greeks, who entered and descended toward the valley, encountered four battalions of Turks who drove them back, and at the point of the bayonet, rescued the force garrisoning the Turkish blockhouse, which the Greeks had encircled before entering the pass.

Neshad Pasha, commanding the fifth division, is occupying Mount Pasha with a great force, while Halid Pasha, commanding the sixth division, is preparing to enter the Tchachia Pass, and Halid Pasha, with the fourth division, occupied the Milouma Pass.

Before dawn Edhem Pasha rode out to direct the disposition of those divi-

sions.

A General Engagement.

A general engagement ended. The battle still continues along the entire pass, over 20,000 men being engaged.

The combat turns on the possession of the Greek blockhouse, which was most obstinately defended. Several vigorous attacks were made by the Turks, without success, but finally, about 9 o'clock, by a magnificent dash, they took the blockhouse at the point of the bayonet.

TURKS ARE SILENTLY SURPRISED.

"As events came on three of the Greek outworks surrendered and asked the Turks to cease the shell fire. The latter now hold the advanced line except at one spot.

The principal fighting done by the Turks' infantry was at Skumha and Dumenic, to the right of the Pass.

TURKS HAD THE ADVANTAGE.

TURKS FIGHTING LIKE LIONS.

The Greeks are still defending their positions on the summit of the hill. At present the Turkish commandant-in-chief at Elasos, dated Saturday, saying that in consequence of an invasion by the Greeks of Turkish territory his troops have seized the heights of Pernar and Velschka. The fourth division from Elasos, under Hamid Pasha, and a full brigade under Hamid Pasha, have entered Greek territory.

HALID PASHA KILLED.

The correspondent of the Associated Press says: "I regret to have to announce the death of Halid Pasha at Milouma. The battle is still undecided, but the Turks, without calling up the reserves, have taken almost the whole pass. It is impossible to give details as to the losses. I saw many groups of wounded men, but they were mostly sent to the frontier positions already taken. The Turks are fighting like lions, the Turkish artillery doing splendid execution under the command of Riza Pasha."

ART.

Arta, April 18.—The Mayor of Arta has distributed rifles to all male inhabitants of the town. The transfer of all public offices and official records from Arta to Konipote is now proceeding. HE HAD DEALS IN NEWTOWNS**A Talk With Mr. J. F. Mr. Joseph F. Wardner of Rossland is stopping at the Queen's. He has just reached town direct from the Kootenays, and says that when he left the west there was no snow in Rossland, and that the streets of Spokane were dusty. There was snow in the mountains yet, but there was ample evidence that the warm season was at hand and that prospecting could be soon resumed.

As before stated in *The World* Mr. Wardner recently plaited out a town in East Kootenay, which he thinks will become the leading centre of the district. It is situated on the Kootenay River, just 21 miles below Post Steele, where, according to C.R. surveys, the Cowichan River will cross the river. Building operations are now going on, and people are flocking so fast into the neighboring country that it will before long be a city. The post office is open, and the population is bound to grow an extent.

Hawk Bay and Saw Bill.

According to reports, things are in great shape at the Hawk Bay.

All the teams and machinery have been successfully transported to the mines without loss or breakage, and it is expected that the Saw Bill will be running in full blast in June.

Vice-President H. C. Beckett speaking as follows: "We have the finest mill plant in Ontario at Saw Bill."

Wardner is president, and which has contracted to carry to the Jennings smelter 5,000 tons of ore from the North Star mine. The mine is in full blast, and the output is now a solid wall of one six feet across in sight, carrying gold, silver and copper.—*Nelson Tribune*.

Luck in Wild Horse Creek.

One of the greatest strikes in the Wild Horse district was made a few days ago by Mr. John Gillen, the proprietor of the Hamiton and Rossland Gold Mining Company. This mine was located last June by Bob Turnbull, and in January to Mr. J. C. Creath, the superintendent, who was engaged to work for a snug little fortune. Mr. McCreath is a man who knows a good deal when he sees it, and as soon as he came into the Wild Horse district he was told that the sale of east-bound wagons had stopped, and that the miners were not getting paid for their work.

The caries in the Wild Horse district are now a solid wall of one six feet across in sight, carrying gold, silver and copper.—*Nelson Tribune*.

Miners' Strike.

On Saturday, April 11, a new town of Wardner is the result of these running north and south are named after Mowat, the present Ottawa Government, and the thoroughfares running east and west are called Tupper, Daly, etc., after the members of the old.

Referring to the district of East Kootenay as a whole, Mr. Hugh McQuaid of Hazelton said that the spirit of miners in that comparatively new country in the interests of English capital, told him that Wardner would be a good place to start a mine.

Wardner is president, and which has contracted to carry to the Jennings smelter 5,000 tons of ore from the North Star mine. The mine is in full blast, and the output is now a solid wall of one six feet across in sight, carrying gold, silver and copper.—*Nelson Tribune*.

MINING AT SUDBURY.

Some Inside Information About the Canadian Copper Co.'s Operations There.

Despatched from time to time to the press sent out that the Canadian Copper Company's nickel mining operations near Sudbury are being carried on at a loss, the very opposite is true.

When down in Hastings county the other day, *World* met a former employee of the company in the person of A. H. Derry, and from him obtained some interesting information.

The Cliff, Evans and Slater are the names of the three nickel mines now being worked by the company. On the cliff the shafts are 100 feet in diameter, and there is enough ore in sight to maintain the present output of ore—viz., 40 tons daily—for 50 years to come.

One peculiarity about the mine is that it was at first operated for copper, which after certain depth gave way to the rich nickel ore now being taken.

The Standard Oil Co. had the Cliff, Evans and Slater two years ago in the company, it is said, and are mining a profit. The company have a secret process of refining the nickel.

PLACER GOLD.

Sciene River May Become a Hydromic as Well as a Quartz Mining Region.

According to a correspondent of the Rainy Lake Journal, the greatest excitement now prevails at Mine Center and Bell City over the finding of gold in the Rainy River. He writes from Bell City: Jack Quinn, a miner, who has just gone up from his sick bed to see the world again, has not yet started across after him. The cutter was rapidly carrying Everett down to the bottom, and as he lay on the surface, and Cassady assumed considerable risk when he went to his rescue. Finally, however, he managed to get Everett out, and he was quickly recovered.

Again when they were crossing the river, Everett, who had been brought to the hotel, where he got into his boat and panned the clay and black sand. The panning was done, and the boy both men brought through the ice and went in about their necks.

Several other narrow escapes helped to make the trip uncomfortable for the men.

Between the trip and the landing at the Rainy Lake country, and during the while interview the two kept their fears to themselves, fearing lest the surface, and Cassady assumed considerable risk when he went to his rescue.
