The Toronto World FRENCH BREAK GERMAN LINE AT PERONNE Italian Troops Engage Bulgarians West of Vardar River

ITALIANS JOIN BIG OFFENSIVE IN MACEDONIA

Clash With Bulgars Near Lake Butkovo, West of Vardar, Serbs Make Advance

In Co-Operation With French, They Occupy the Town of Sorovitz.

LONDON, Sept. 14, 3.05 a.m.—The British forces which crossed the Struma River into Greek Macedonia last Sunday have been withdrawn, after having inflicted heavy losses on the Bulgars, according to a report sent by the British press representative at Saloniki.

Special Cable to The Toronto World. LONDON, Sept. 13.—Official announcement today that Italian troops are participating in the heavy fighting proceeding along the Macedonian front emphasizes the fact that the entente allies have launched an offensive on a broad scale in the Balkan theatre. The Italian war office claims that Bulgarian detachments have been forced from positions near Lake Butkovo, west of the Vardar, where the Italians are in close touch with the French. Italian columns had skirmishes with the enemy, who was forced to fall back beyond the Demir Hissar-Doiran Railway line, according to Rome, but Sofia offers a different version, stating that two Italian companies with machine guns and a squadron of cavalry which had advanced in the direction of Butkovo and Duzna, were dispersed by a Bulgarian counter-attack.

The French war office refers to Italian operations, stating that "in the region of the Beles Mountains, Italian troops are engaged in the direction of Butkovo Duzna."

Sorovitz Captured. A Franco-Serbian offensive on the western end of the Macedonian front has resulted in the capture of the town of Sorovitz, near Banic, on the railway line west of Lake Ostrovo.

The Serbian official communication issued today says: "A violent artillery duel was started by the Serbians yesterday. Serbian infantry at many points expelled the Bulgars from their advanced positions and attacks carried out during the night were successful."

LARGE STEAMER SUNK OWNED BY OIL TRUST

LONDON, Sept. 13.—Lloyd's Shipping Agency announces that the Dutch steamer Antwerpen has been sunk.

The Dutch steamer Antwerpen was a vessel of 11,800 tons, and was built at Newport News. She belonged to the Standard Oil Company, and left Newport News in ballast on her maiden voyage for New York, Aug. 24, and sailed Aug. 31 from Bayonne, N.J., for London, on her first trip across the Atlantic.

The Antwerpen was in command of Captain Herman Segbarth, and was 480 feet long, 60 feet beam and 30 in depth.

BOSPHORUS TUNNEL IS LATEST TURKISH DREAM

BERLIN, Sept. 13.—A proposition for a tunnel under the Bosphorus is being discussed at Constantinople. Engineers have worked out detailed plans showing that the project is feasible and financially profitable, while its strategic importance is obvious.

Earlier projects for direct communication between the European and Asiatic shores of Turkey, inspired by the construction of the Anatolian and Bagdad railways, were devoted to the subject of bridging the narrow at Sunk Hissar.

FRENCH HOLD GAINS IN HEAVY FIGHTING

Cling Tenaciously to Salient Driven North of Peronne.

TAKE TRENCH SYSTEM Ally's Troops by Additional Success Place Combes in Jeopardy.

LONDON, Sept. 13.—The French troops to the north of Peronne are holding tenaciously to the salient they have driven into the German line eastward of the Bethune-Peronne road near Bouchavesnes. They also hold intact the town of Bouchavesnes and other points along the line captured in the offensive which they started Tuesday. In addition a powerfully organized German trench system south of the Lepriez Farm, near the road running west from Ranocourt to Combes has been captured, placing Combes in further jeopardy.

The fighting in the region of Bouchavesnes has been captured, placing Combes in further jeopardy. Finding that the French had cut their line of communication from Peronne northward, the Germans made violent attacks against L'Abbe Wood and succeeded in recapturing both places. The French, however, returned valiantly to the attack and after hard fighting, some of it hand-to-hand, finally drove out the Germans and kept the ground they had won. In the two days' fighting more than 2000 Germans were taken prisoner and a large number of guns and machine guns captured.

On that part of the Somme front held by the British the situation remains unchanged. South of the Somme heavy artillery duels between the French and Germans continue in the region of Verdun, a German attack near Fleury, in the Verdun sector, is reported by Paris.

ROMANIAN TROOPS GOES WARD IN DANUBE FIGHT

Defeats Hostile Detachment, Capturing Eight German Guns.

ADVANCE ON DOBRUDIA Ally's Forces Establish Contact With Enemy on Entire Front.

LONDON, Sept. 13.—The Romanian War Office today issued the following at Bucharest: "There have been light skirmishes on the whole of the north and northwest fronts. We took 275 prisoners."

"On the Dobruja we are in contact with the enemy on the entire front, with lively engagements between patrols and advance guards."

A detachment of the enemy which had advanced up the Danube was counter-attacked and repulsed, leaving in our hands eight German guns."

The latest official communications shed almost no light on what is happening in the Dobruja region of Roumania. There is no news of the activities of the Russian forces in the theatre.

That the Romanians attach importance to the Dobruja operations is indicated by the announcement that General A. Averesco, former Roumanian War Minister, and the kingdom's most distinguished soldier, who initiated the brilliant invasion of Transylvania, has been transferred from the northern front to command in Dobruja.

Another illustration of the military leadership which has been shown in Transylvania has been taken over by General Oranikoino, who also is a former chief of the general staff, and war minister.

SLAVS HOLD PEAKS AGAINST ATTACKS

Russians Retain All Territory Won in Wooded Carpathian Region.

FOIL TEUTON MOVE

Czar's Troops Check Attempts of Enemy to Cross Bistritza.

Special Cable to The Toronto World. LONDON, Sept. 13.—The battle in the region of Halicz, the key of the southern roads to Lemberg, continues with great intensity. The Germans and Austrians launching fierce attacks. The Russians repulsed their fire frustrated attempts of the enemy to cross the Bistritza River.

The Teutons also failed in counter-attacks to recapture the heights seized by the Russians along the upper course of the "Bistritza" river. The Russian Carpathians, according to the Russian official communication from Petrograd today.

The German, in their official communication, claim that they repulsed Russian attacks between Smotritsch and the Golden Bistritza River in the Carpathians. The Russian, however, announced that in the region of Riga and the Dwina River the considerably the German aeroplane fleet in the Baltic encountered German trawlers in the Irben Straits, compelling some of them to run ashore.

The Political Pot Aboil!

OTTAWA, Sept. 13.—Politicians here are very much concerned over the evidence that has already come out before the Winnipeg commission appointed to investigate the election of the agricultural college in Manitoba, and in which the reputations of the Roblin government and of Hon. Robert Rogers, who was a member of that government, and now a member of the Borden government here, are concerned.

In the investigation on Tuesday a contractor named Carter declared that Hon. Mr. Rogers, at that time provincial minister of public works, had called on the witness, who had the contract for one of the buildings, and asked him to increase his tender, and that in accordance therewith he had increased it to the extent of \$5000, and that some three weeks later a political agent of the Conservative party had called on him and had got two contributions, one of \$5000, and another of \$2500 for the election fund in the then impending Dominion election of 1911.

Mr. Rogers, in reply to this evidence, stated here today that he had permitted an increase of the price of the contract in question, but with no intention of assisting Carter to make a political contribution, and that as a matter of fact, any money that he may have given to any party fund was given as other Conservatives had given when asked to do so, simply and solely as Conservatives, and not as any political cause they had at heart.

Observers here are convinced that this evidence, and other evidence that may be coming later on, show that a determined effort is being made by his political opponents to "get" Mr. Rogers, to borrow a phrase used by one of them in discussion of this question some time ago. Any charge in this direction will have a far-reaching effect on the political destinies of Conservatives now in office in Ottawa, and whose candidates will shortly have to appeal to the voters of Canada in a general election. Everyone here, therefore, is watching the progress of the evidence bearing on the politics of Canada that may have been given today or will be given hereafter.

Also the political sign readers here are now divining why Hon. Mr. Murphy and Hon. Mr. Lemaire withdrew from the contest for the Ontario Temperance Act, that they will assist the government in enforcing it, but that they may seek for some slight modification. They are, of course, free to manufacture, as formerly, but they cannot sell anything stronger than two-per-cent beer in the province.

Every brewer, therefore, in Ontario will sell outright large quantities of beer from time to time to some outside of Ontario, say in the Province of Quebec. The Toronto or other Ontario man who wants to buy some beer for domestic consumption will have to send an order dealer for his favorite brand to an outside dealer, say in the Province of Quebec. Printed blanks for that purpose can be obtained on application from all local brewers.

The blank order, addressed to the dealer in Hull, Montreal or some other place out of Ontario, will read about like this: "Dear Sir,—I am enclosing \$..... for which please deliver to me the following..... (cases or kegs or..... (P. Brown, or other)..... carter."

The only question in doubt is whether the beer will have to be actually shipped by the Ontario brewer to Quebec and then reshipped from Quebec to the Toronto consumer. The brewers have legal advice to the effect that they may hold the beer in their brewery subject to the order of the Quebec dealer to whom they have sold it, and that he may order it for delivery in Ontario as he gets orders for it from Ontario consumers.

Direct From Brewery. In other words, an Ontario consumer can get beer brewed in this province delivered to his home direct from the brewery, provided he mails an order therefor to a dealer outside of Ontario, who has already bought and paid for and had stored in the brewery a stock of such beer. In short, the order goes outside of the province, but the beer will not take any unnecessary journey to Montreal or Hull and back. It will come direct from the brewery.

A prominent brewer speaking to the World said that while the brewers might avail themselves of any construction of the law, which would save the needless expense of shipping to Quebec from Ontario and re-shipping again to Ontario from Quebec, they intended to obey the law in letter and spirit.

"We will sell only to Quebec," said this gentleman, "and will not sell any beer in Ontario. The sale to the man in Quebec will be an outright sale and people who prefer our brand of beer will have to write to him. We will furnish them with blanks and envelopes for that purpose, but we will not handle any money. If it comes to your attention that our beer is being shipped into this province to be sold again in violation of law we will certainly notify the authorities."

Of course anyone shipping intoxicating liquor into this province to be dealt with in any way contrary to the Ontario Temperance Act will have to answer to the federal as well as to the provincial authorities. The Doherty bill passed at the last session of the Dominion Parliament, makes it criminal for a railway company or anyone else to bring into the province intoxicating liquor, excepting

FRENCH SHOVE LINES ONWARD IN SHARP OFFENSIVE ACTION

British Repulse Germans Artillery Action Goes On Teuton Attempt From Direction of Mouquet Farm Suffers Reverse From Tremendous Fire of Defenders, Fooled Losing Heavily in Fiasco.

LONDON, Sept. 13.—The British forces south of the Ancre and north of the Somme stopped an attack of the Germans from the direction of the Mouquet farm by their fire, and they drove the enemy back to his trenches with considerable loss. The result of the fighting has been unchanged, says tonight's British official communication, which follows: "The general situation continues unchanged. An attack made last night on our lines from the direction of the Mouquet farm, was stopped by our fire and the enemy driven back to his trenches with considerable loss. "The hostile artillery activity is normal."

LICENSED BARS AND SHOPS TO GO ON SATURDAY NIGHT

But Ontario Householders May Get Beer and Spirits to Homes in Roundabout Ways—Brewers Will Still Do Business.

What are the brewers going to do after Sept. 16? This question may be answered by saying that they have intimated that they intend to obey the Ontario Temperance Act, that they will assist the government in enforcing it, but that they may seek for some slight modification. They are, of course, free to manufacture, as formerly, but they cannot sell anything stronger than two-per-cent beer in the province.

Every brewer, therefore, in Ontario will sell outright large quantities of beer from time to time to some outside of Ontario, say in the Province of Quebec. GREECE TO HAVE WAR MINISTRY?

Dimitracopoulos, Probable Successor of Zaimis, Holds Decided Views.

CANNOT STAY NEUTRAL He Will Confer With Allies' Ministers Before Deciding on Acceptance.

LONDON, Sept. 14.—Special despatches from Athens say that the former minister of justice, M. Dimitracopoulos, after reaching an understanding with the king, will expound his views to the cabinet ministers and decide according to their attitude whether to accept the premiership.

M. Dimitracopoulos, the despatches add, is of the opinion that departure from neutrality on the part of Greece is the only remedy for the present international situation and refers to the Greeco-Turkish war of 1897, when Premier Deliyannis incurred all risks in order to re-establish unity in the nation, which was then divided as now.

It is reported that M. Dragoumis, the former minister at Petrograd, will be foreign minister in the Dimitracopoulos cabinet.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

IN the battle of the Somme yesterday the French did not stop with the gains that they had made the day before, but they swept onward to the east of the Peronne-Combes-Bapaume-Bethune road, carrying in their progress a complete trench system, powerfully organized, south of Le Priez farm; Bouchavesnes Village, and Bois L'Abbe farm, 650 yards east of the road. These points marked the limit of their advance, for the Germans had been able to send forward reinforcements by noon and to begin their counter-attacks in order to catch the French unprepared before their consolidation. At one time six German regiments which were launched against Bois L'Abbe farm recovered it, but the French troops poured back again like a flood and reformed their new front without losing any of their territorial gains. Round Hill or Slope 76, seized by the French last night, a desperate fight raged throughout the day, but the French managed to retain possession of it in the final efforts.

The foregoing successful actions brought in about 2300 unbound German prisoners and ten guns and they bring the French and three-quarters miles between Combes and the Somme River. A notable point about these gains is that they will permit the pouring of an enfilading fire from the south on the German lines to the north when the British army takes its turn at advancing. On their part yesterday the British maintained the artillery action and they repulsed a German counter-attack from the direction of the Mouquet farm. Otherwise they found the general situation unchanged.

It is probable that the heaviest fighting of the war at the present moment is proceeding north of Saloniki and in Macedonia. Italians for the first time joined in action and drove the Bulgarians from positions near Butkovo Lake, west of the Vardar River, to positions in the rear of the Demir Hissar-Doiran railway line. Close liaison is being maintained between the Italians and the French. The Franco-Serbian offensive on the left wing of the allies, has resulted in the capture of the town of Dorovitz on the railway line west of Lake

QUEBEC DEATH LIST PLACED AT THIRTEEN

QUEBEC, Sept. 13.—Another victim has been added to the list of killed in the Quebec bridge tragedy on Monday, bringing the list of dead up to 13.

The latest victim is J. Thiffault of St. Adolphe, Que. He was first reported rescued but inquiries at his boarding house today proved that he had not been seen since the collapse of the span.

DINEEN'S GENUINE FURS.

The main consideration in buying fox fur is to know that the skin is that of an animal living wild in its native hunting ground. The "farmed" variety do not fluctuating fortunes, the same quality of fur. The animal is still plentiful in the north-western parts of Canada, and the fur is its best feature. It is very soft and warm, and is very serviceable and long-lasting. It is very popular in the realm of fashion. Dineen's furs—established 1894, Toronto, 110 Yonge street, and in Hamilton, 50-52 King street west.

Such Smart Frocks For Mourning Wear, Reduced to \$25.00

On Sale in The Women's Dress Department at 10.30 a.m. Friday

SOME OF THESE are suitable for deepest mourning, some are in half mourning effects, but all are characterized by that quiet good taste that adheres to simplicity of line, and elegance of material that should always distinguish mourning apparel.

The dresses are charmingly fashioned of such materials as dull satin and taffetas usually combined with georgette, or net or marquisette, of crepe de Chine, and of georgette alone, and soft, thick crepey silks.

Little jumper crossover and jacket bodices are plentiful while the Russian blouse is also represented, and the moderately wide skirts are frequently band-ed or hemmed with a contrasting silk.

Little kilted frills that face upwards, quaint ball buttons, pipings, rope girdles, odd looking buckles and large cape collars, with cuffs in proportion are all details that testify to their modishness. A few, too, are embroidered with silver thread. All are fresh and new, and in the good, deep blacks that are so necessary for really nice mourning. As for values they speak for themselves, for all the dresses have been reduced in price. On sale at 10.30 a.m. Reg. \$30.00 to \$55.00, Friday, \$25.00.

WESTMINSTER BANK ROBBERY REVIVED

Michael B. Shortall, Chicago, Latest Arrest in Famous Case.

DENIES COMPLICITY

Tried to Withdraw a Portion of the Half Million Booty.

A sequel to the \$500,000 bank robbery at the Bank of Montreal, New Westminster, B.C., five years ago, was enacted yesterday afternoon, when Michael B. Shortall, who gave his address as 4829 Perry avenue, Chicago, was arrested by Detectives Cronin and Mitchell in a downtown bank on a charge of attempting to secure \$125,000 of the stolen money.

Shortall was released, and the money was deposited in a private box in the deposit vault at the bank where Shortall was apprehended. Officials were suspicious. When Shortall called at the bank yesterday for the money, the officials became suspicious, and telephoned detective headquarters.

Capt. Christie Explains That Department Must Economize and Staff Was Cut Down.

EIGHTEEN ATTESTED

Thirty-Six Volunteered in Toronto Yesterday for Overseas Service.

Several non-commissioned officers who enlisted with the Toronto Recruiting Depot Battalion at the armories to do recruiting and instruction work until their unit was ordered to recruit to battalion strength for overseas have been discharged from the headquarters staff in Toronto.

There has been no change in the recruiting system. The militia department at Ottawa requests that the militia department as economical as possible. It will be some time before the recruiting depot battalion will be authorized, and all the units forming at present are using their own men to obtain volunteers there.

Eighteen out of the 36 volunteers who applied yesterday for overseas service were attested and signed over to the 238th Infantry Battalion with four recruits added to their strength topped the list for the day.

THE SYNOD OF ONTARIO

By DR. QUILL.

"Almighty and Everlasting God, who by Thy Holy Spirit didst preside in the councils of the blessed apostles, and hastenest that Thy Son Jesus Christ be with Thy Church to the end of the world; we beseech Thee to be present with the synod of this province now assembled in Thy Name. Save us from all ignorance, error, pride and prejudice, and of Thy great mercy, vouchsafe so to direct, govern and sanctify us, in our important work, by Thy Holy Spirit, that Thy blessing on our deliberations of the Gospel of Christ may be faithfully preached and obeyed, and the order and discipline of Thy Church maintained among us, so that Thy Kingdom of Satan's power and the final establishment of Thy heavenly Kingdom through the merits and mediation of Jesus Christ our Saviour. Amen."

The Synod of Ontario has this special prayer appointed by the house of bishops for use during their deliberations. It is fittingly to the great work in hand, they are careful not to allow business to get out of proportion to worship. The Holy Communion every morning at 8 o'clock, followed by morning prayer at 10 o'clock, and evening prayer at 7 o'clock, are the order of the day. The synod is held in the afternoon at 2 o'clock, and continues until 5 o'clock. The synod is held in the afternoon at 2 o'clock, and continues until 5 o'clock.

Instant Relief for Sick Headache

Nausea and Heartburn

You cannot have sick headache when your liver is right. Dr. Cassell's Instant Relief sets it right, and that is why it cures sick headache and other bilious troubles so quickly, so surely, so thoroughly. It is not violent, like so many preparations, and you don't need to keep on taking it. It just helps your liver to regain its power, and thus natural action and natural cure follow at once.

"Solence Sittings," a prominent English scientific journal, says (April 11, 1910): "Providence has given us the brains to devise means to compensate nature for our ill-treatment of her." The message at hand comes from natural sources, and we have them embodied in such splendid combinations as Dr. Cassell's Instant Relief."

Take Dr. Cassell's Instant Relief for constipation, biliousness, torpid liver, sick headache, dizziness, specks before the eyes, flatulency and windy spasms, acidity, heartburn, impure blood, and that dull, heavy feeling which is a sure indication of liver troubles.

THURSDAY MORNING, SEPT. 14.

Dreams

The scientists have been discussing again the weird and mysterious subject of dreams. They are now trying to account for the fact that a number of incidents apparently occupying many hours may be dreamed almost in the flash of an eye or the sound of a bell. The reason given is that in sleep the mind can receive and assimilate impressions much more rapidly. If the same number of things happened about us in waking hours, it is said we could not grasp them simultaneously. In short, a hundred startling events may happen in a second, but to the waking mind it is a confused blur, or as so many of the occurrences no impression is recorded, it dreamland no matter how quickly the impressions succeed one another, they leave their imprint on the memory.

Certainly everyone is familiar with the experience of dreaming quite a complicated chapter of incidents in what some have been a mere moment of time. Nearly everyone, for example, has had a dream inspired by the ringing of an alarm clock at the head of his bed. The sound awakes him in a few seconds, but in the meantime he has held in dreamland long conversations and met with many experiences, all more or less inspired by and connected with the sudden sound that is bringing him back to consciousness.

Time always seems to pass slowly when a great deal is happening. After all, we measure time by events, and when many events are following closely upon one another we are astonished to learn how little time has actually elapsed.

But whatever the scientists discover or profess to discover, dreams will still continue to exercise a more or less mystic influence upon the minds of men. Communications from another world, if such communications come at all, will come to men in the watches of the night. Visits from those who are dear and dead come only when we are in the wonderful twilight of dreamland. August commands believed to be of supernatural origin that have roused men to action and changed the history of the world, came to them when they slept.

The dreamer does not always admit that he is asleep. The prophet Mohammed and his wife had many disputes on this point. But men will dispute about dreams and their meaning as long as the world endures.

The Danish West Indies

The United States, from a small nation territorially, has expanded into a large one mainly thru its ability to buy contiguous territory at bargain prices. The great herd of splendid states on the west bank of the Mississippi and beyond resulted from the Louisiana purchase; California, Arizona and New Mexico cost only fifteen million dollars; Alaska was purchased for seven million two hundred thousand. No wonder, therefore, many people are ferociously protesting against the purchase of the Danish Islands for twenty-five million dollars!

It may be pointed out that Napoleon ceded Louisiana, and that Russia ceded Alaska, more to head off British aggression than for the actual money consideration received, and that Mexico bargained away the California with a pistol at her head. But the Danish Islands have been in the market before now, and were actually sold to the United States fifty years ago for seven million dollars. The senate, which reluctantly concurred in Secretary Seward's purchase of Alaska, flatly refused to ratify his bargain with Denmark. Some years ago five millions were offered and refused.

The tiny islands have little value in themselves, but they might be of enormous use to a European power as a naval base. Between them and Porto Rico is a great trade route that leads to Europe from the Caribbean Sea. Germany, it is said, wants the islands

SERBIA TO APPOINT MINISTER TO U. S.?

Negotiations Under Way With Washington Are Likely to Succeed.

WASHINGTON, Sept. 13.—Negotiations are in progress between the United States and Serbia for the appointment of a Serbian minister to this country. Serbia never has had a representative in Washington, being represented only by a consul-general at New York. The minister who represents the United States in Belgrade and Roumania also is accredited to Serbia. It was learned today that the Serbian government, which now has headquarters at Paris, has suggested that it send a minister to the United States, presenting a name for approval, and that the state department probably will accept the designation.

DRANK INTOXICANTS DIED SHORTLY AFTER

Grenville Farmer Met Death Under Peculiar Circumstances.

Special to The Toronto World. BROCKVILLE, Sept. 13.—James McQuade, a well-known farmer living at Grenville in Grenville County, died last night under circumstances which warrant the opening of an inquest. During the evening the canal near Morrisburg called at the McQuade home, presumably for the purpose of trading horses.

The men spent some time in the house, and it is alleged that a quantity of intoxicants were consumed. Miss McQuade, who lives with her brother, escorted the visitors to the gate when they left the premises, and upon returning found Mr. McQuade dead.

ITALIANS GAIN CONTROL OF TRAVANANZES PASS

Capture Commanding Positions and Cut Austrian Communications.

Special Cable to The Toronto World. ROME, Sept. 13.—In a brilliant operation in the Dolomites, at the extreme north of the Italian front, the Italians captured the commanding positions of Travanzes Pass, and they cut the Austrian communications between the Travanzes valley and the Lepizzone region. The Italians also fought minor offensive actions in the area, and in the upper Ponsa valley, and they repulsed attacks east of Gria and in the Zera valley.

WILLS PROBATED

The Royal Trust Co. have applied for ancillary probate of the will of Mrs. Abbie E. D. Mackoy of El Paso, Texas, who died on Dec. 29, 1915, leaving in Ontario \$7200 of an estate valued at \$48,022. The estate is divided among her husband and relatives, none of whom reside in this province.

CHURCH CANNOT HOLD RELIGIOUS PROCESSION

Board of Control Refuse to Overrule Chief of Police.

The board of control refused yesterday to overrule a decision of the chief of police, refusing to the Italian Church on William street, permission to hold a religious procession. The deposition, headed by Father Vigilante, told the board that Chief Grasset had told them that such things

SAYS POLICE GRANTED PERMISSION FOR PARADE

Members of Holy Name Society Claim to Have Letter From Chief Grasset.

According to an evening paper last night the chief of police denied, in answer to Mayor Church, that he gave a permit for a parade on William street on Aug. 20 by members of the Italian Church of Our Lady of Mount Carmel, Roman Catholic. A deposition from

INTERFERED WITH RECRUITING

MONTREAL, Sept. 13.—For interfering with recruiting on Craig street Arthur Holland of Oswego, N.Y., was sentenced by Judge Lacombe today to six months in jail or a fine of \$50, this being the first case here under the new order-in-council.

HYDRO PROGRESS IS SUBSTANTIAL

Toronto Commission Has Issued Report—Thirty Per Cent. Increase.

SURPLUS WAS SMALL

Cost of Promoting New Business Meted Out of Year's Income.

Splendid results for the year 1915 are shown in the annual report of the Toronto Hydro Commission, just issued. The surplus for the year was \$3157, and the total number of k.w. hours sold for the year was 109,500,000, representing a 20 per cent. increase over 1914 business. The gross income was \$1,420,157, whereas the cost of the current was \$979,208.

During the year the surplus on income amounting to \$440,978, was used in paying \$12,773 for contingencies and \$42,007 for interest, sinking fund and depreciation. The whole cost of promoting new business was met out of the year's income. Of the sinking fund instalments which accrued during the purely construction period ending Dec. 31, 1911, a balance amounting to \$98,728.96 is still carried forward as a charge upon future surplus earnings.

Interest Not Paid. The interest due and accrued in favor of the City of Toronto, also fully earned, has not yet been paid, because no provision has yet been made by the city for the necessary working capital of the system as distinct from construction capital, and to the fact that the proceeds of the debenture issues so far received from the city do not cover the net expenditure on construction account.

Other features set out in the report are an increase of 7204 customers in 1915 over 1914. The connected load h.p. of the hydro at the end of 1914 was 111,413, as against 90,162 at the end of 1914.

Additions in System. Nearly \$600,000 was expended during the year in additions to the system. These additions covered necessary extensions, including the construction of the West End substation, the Stanley Park substation and various new street lighting systems.

The net cash expenditure on construction account at the end of the year was \$5,798,000, while the net cash proceeds of the debenture issues received from the city to the same date amounted to \$5,287,000. The sum required from the city to meet the construction expenditure amounts to \$510,000.

TO UNVEIL MEMORIAL IN MEMORY OF SOLDIER Private Harry Wright Remembered by St. Barnabas' Congregation.

At the harvest home service on Sunday Sept. 17, at 3 p.m. at St. Barnabas' Church, corner of Danforth and Hampton avenues, a memorial tablet will be unveiled by the lord bishop of Toronto to the memory of Private Harvey Wright, 19th Battalion, second contingent, who fell in action May 1, 1916, near St. Eloi, Belgium. Returned soldiers will be welcomed.

PRESENTATION TO MRS. SMALL On behalf of the non-commissioned officers of the 208th Battalion, Sgt. O'Grady made a presentation to Mrs. Ambrose Small of a handsome silver table-gong. The gift, which was presented on Mrs. Small's birthday, bears an inscription of appreciation for the many kindnesses she has conferred upon the donors.

DEFENDS HIGHWAY FROM CRITICISM

George Gooderham Prepared Lengthy Report on Toronto-Hamilton Highway.

POINTS EXAGGERATED

Commission Will Welcome Any Inspection By Board of Works.

George H. Gooderham, chairman of the Toronto-Hamilton Highway Commission, yesterday laid before the board of control a lengthy report defending the highway from the criticisms of Works Commissioner Harris. He says no part of the roadway is to be replaced and that the criticism leveled against a few bad spots greatly exaggerates the actual condition. All the defects, he points out, are in that section of the roadway laid subsequent to Oct. 15, which proves that no work of this kind should be undertaken at a later time of year owing to our climatic conditions.

Quoting from the report of the commission's own engineer, he informs the board that "of 3076 sections laid in 1915, only 82 showed cracks, which, in order to preserve the road, require attention."

"Of the total of 2071 joints made in 1915, 85 require slight attention and 42 require to be chiseled."

"We feel," Mr. Gooderham said, "that the work done by this commission will compare favorably with any road construction and we are absolutely certain that not one single section of this road will have to be replaced."

"With reference to the second part of your board's resolution, that an official of the works department inspect and superintend all construction between Etobicoke River and the Ham-bur, the commission will welcome any inspection suggested or advice that the works department can give, but you will of course understand that we could not countenance any direct interference with our staff."

The board received the report, deferring action.

OUTSIDE COUNSEL FOR EXPRESS FIGHT

Board of Control to Act Upon Motion of Mayor Church.

Upon motion of Mayor Church, the board of control yesterday voted to instruct City Solicitor Johnston to engage outside counsel in the application of the city for express service to all parts of the city. The action taken in the face of Mr. Johnston's report, which declared that such a course was unnecessary and undesirable, "in my judgment," he wrote the board, "such action would be an expression of want of confidence in the ability of the staff of this office."

Controller Cameron, when the motion was first introduced, refused to support the motion.

"Our law department has not good enough counsel," the mayor told him. Controller O'Neill, the mayor told him, "leave it to the department he would go himself and fight the case, and over-riding the department."

Controller O'Neill alone opposed the motion.

TRIED TO ROB MAN WHILE HE WAS DRUNK

In the criminal sessions yesterday, Frederick Davidson was found guilty of attempting to rob William Garland while the latter was in an intoxicated condition, and was sentenced to 18 days in jail.

Plainclothesman Douglas Marshall said that Garland had his left pants pocket turned inside out when arrested for drunkenness. A young lady employed in the Swiss Laundry on Simcoe street gave evidence to the effect that she had seen, thru a window, Davidson with his hand in this pocket, and did not think he was on Simcoe street.

FINED HUNDRED DOLLARS.

As it is unlawful to have beaver skins in one's possession before Nov. 1, Sam Rosenberg and Sam Saperro, who pleaded guilty to having seven, were each fined \$100 without costs, or 30 days, when they appeared in the police court yesterday.

SUCCESS OF WAR LOAN IS ASSURED

First Day's Results Satisfactory to Bankers and Bond Brokers.

EVERYONE MUST HELP

Great Opportunity That Should Be Grasped by Savings Depositors.

Bankers and bond companies express satisfaction with the manner in which the public has taken up the new war loan, and confidence is generally expressed that before the time for closing a week from next Saturday, the loan will be over-subscribed.

This should not be taken, however, to mean that everyone should not get behind this loan. The eyes of the entire world are on the Canadian loan, and it is important to the Dominion that the amount asked for is obtained.

Owing to the desire of United States investors to have interest paid in New York—it is not made payable in New York on these bonds—it is that subscriptions from them will not be as numerous as was at first expected. Interest, not payable in New York is opposed by a certain prejudice among the Americans. The investment is, however, a very profitable one and should interest the American investor.

The banks are doing a great deal of business, as late in the entire issue was taken up before the small investor had much of a chance to invest. The small depositor is investing to the limit and is anxious to pay off his subscription as soon as possible. Some are buying above what they have saved at the present time, but depend on their savings during the next four months to pay off the balance.

FRENCH DELEGATE ARRIVES.

NEW YORK, Sept. 13.—Dr. d'Argent, French delegate to the Canadian dental conference, arrived here today on the French line steamship La Touraine from Bordeaux. Four American surgeons and a number of nurses who have been serving with the American Ambulance Corps on the western front were also on the ship.

W. T. Fisher, who says he was unable to rent property on Keele street and Indian Grove because of the abattoir odors, has entered suit against the city for \$10,000 damages.

CHAMPION ATHLETE 100TH. Watch Presented Last Night to Staff Sgt. G. L. MacKay.

The athletic championship of the 100th Regiment carried with it a handsome gold watch presented by the hon. Colonel, W. M. McCreary. The watch was presented by Major John Elvira at the regimental parade to the winner, Staff Sgt. G. L. MacKay of the bicycle section. Sgt. MacKay competed in nearly every line of sport at the regimental field day, including pitching the ball, the winning baseball team and captain of the winning tug-of-war team. The prize was a genuine surprise, as nobody knew that it was up for competition. Corp. Norman Webster was presented with an umbrella as second prize.

RHEUMATISM

A HOME CURE GIVEN BY ONE WHO HAD IT. In the spring of 1911 I was attacked by Muscular and Inflammatory Rheumatism. I suffered for over three years. I tried many remedies, but doctor after doctor, but such relief as I received was only temporary. Finally, I found a cure. I was cured completely, and a number who were terribly afflicted with Rheumatism, have given it and it effected a cure in every case. I was every sufferer from any form of rheumatic trouble to try this marvelous remedy. Simply mail your name and address and I will send it free to try. After you have used it and it has proven itself to be that long-looked-for means of curing your Rheumatism, you may send the price of it, one dollar, but understand, do not count your money unless you are perfectly satisfied to send it. Let that fair. Why suffer any longer when positive relief is thus offered you free? Don't delay. Write today. Mark H. Jackson, No. 144 Cursey Bldg., Syracuse, N. Y.

Comfort Afloat, Go Always by Boat

America's Greatest Week-end Water Trip Again Available at a Special Rate \$9.50

YOU have often said you would like to take the 1,000 Island Trip in September. Well, here's your last chance. A rate so low as to make it almost absurd to stay home this coming week-end. How else can you spend \$9.50 to such advantage? How, otherwise, can you crowd so much solid enjoyment into two days? This is the ideal water trip. In and out among those wonderful Islands, the Ramble Trip takes you on Sunday without extra cost. Early Monday you will arrive back in Toronto with that feeling of vigorous health that is the portion of those who spend the week-end in the open. The special rate is good only on Saturday, September 16th. Many are arranging to be on that boat—so, to be sure of your accommodation, reserve your berth to-day.

on MINES and MINING

Last week a man sent me \$1000 with a request that I put it in some good mining stock.

I promptly returned the \$1000 and explained that under no circumstances could I accept such orders, as this was nothing more or less than discretionary business.

I am always ready and willing to give investors full and complete information on mining stocks.

Years ago legitimate brokers accepted discretionary business, that is, they would accept orders where they could use their own judgment.

Your own common sense will tell you the selection should be left to the customers, and when this responsibility is put on them, they will no doubt take the trouble to investigate a security before making a purchase.

Nearly every large brokerage house has its statistical department that sends its clients authentic information on investment propositions.

When you cannot secure full and complete information on a security there is a nigger in the woodpile somewhere and it is a good rule to pass such securities up.

When new securities are offered you, it is a good plan to get a report on the stock from some legitimate broker who is not interested in its sale.

The best securities to purchase at all times are listed, not that there are no good unlisted securities, for some of the unlisted are just as good if not better than the listed.

Another important point in buying listed securities is the fact that any broker can obtain full and complete information on a listed stock, while the same cannot be said of the majority of unlisted stocks.

I know of scores of good mines that could have earned and paid dividends had they been properly financed, but as it was, those who purchased stock lost their all in a few short months.

Capital is a very important factor in the success of every company and investors should never put money in a company until they are assured it is adequately financed.

You will probably say, "How is one to know such things?" and I acknowledge it is not always an easy matter, but you can always be practically certain by the class of brokers who undertake the financing.

When a large brokerage house or a number of high-class brokers agree to underwrite a certain stock issue you can take it for granted the company is fully financed.

When the Newray Company offered brokers 100,000 shares of treasury stock at not less than 30 cents a share, brokers from all parts of the United States and Canada put in bids for almost 300,000 shares at prices ranging from 31 to 34 cents.

The company, of course, accepted the highest bids and many brokers who expected stock were disappointed, as there were only 100,000 shares to be allotted.

The fact that representative brokerage houses from different cities were prepared to purchase Newray for cash before work was even started on the mine is pretty good evidence that Newray is an exceptional stock and the sensational results of the past two months show that it is a good plan to follow the brokers.

The reason these brokers bid so freely for Newray stock was because they knew all about the property, they knew the past history of the mine, the location, acreage and capitalization and were convinced it only needed ample capital to bring it into the producing class.

One of the New York brokers who secured quite a large block of the treasury stock at 33 cents, recently paid a visit to the mine, accompanied by an experienced mining engineer, and when I saw him in Toronto on his way home, he told me he would not sell a share of his stock at any price, as he intended to put it away as a personal investment.

It is little things like this that count, and when you find brokers putting stock away as an investment, it is better than any straight tip and my personal advice is for you to do likewise.

Newray (as a prominent engineer said this week) will not only make a mine but it will, without doubt, be one of the big mines of Porcupine.

PORCUPINE WAS ONCE IN THE "SNEER ZONE"

Doubting Thomases and Wise Ones Passed Up Camp as Impossible.

DEVELOPED WONDERFULLY

Famous Croesus, Sold for a Year, Finally Sold for a Song.

The graduating class of a mining college decided to spend the summer prospecting in order to gain practical experience. They went to a well known mining engineer for advice, a man who is both optimistic and conservative.

As a gold mining field Canada was all in the "sneer zone" a few years ago. Very rich placers had been worked, first in British Columbia, and later in the Klondike, but lode mining had been for the most part a dismal failure.

Holly vs. Rand. The development and equipment of the great mines of the Rand usually cost \$1,000,000. For that reason many of them have considerable bonded debt, and none of them are now paying dividends equal to the Hollinger Consolidated.

One of the surprises of Porcupine is the Newray. Less than four months ago the holders of the controlling stock sold out at a price of \$100,000. There are 320 acres in the property. The provincial geologists report that it is on the extension of the Hollinger vein system, and the mine has produced over \$210,000 by amalgamation alone.

The history of the Davidson is somewhat similar. This fine property was abandoned after a large plant had been completed, and a considerable amount of ore put in sight.

The Croesus, in Munro, was hawked about Toronto for over a year, and turned down by more than one gentleman "from Missouri." The ore was too dazzling. Mining engineers are accustomed to seeing more quartz than gold, and values of \$40,000 per ton left little room for gaudy or waste.

PAYABLE AT PAR AT OTTAWA, HALIFAX, ST. JOHN, CHARLOTTETOWN, MONTREAL, TORONTO, WINNIPEG, REGINA, CALGARY, VICTORIA.

INTEREST PAYABLE HALF-YEARLY, 1st APRIL, 1st OCTOBER. PRINCIPAL AND INTEREST PAYABLE IN GOLD.

ISSUE PRICE 97 1/2

A FULL HALF-YEAR'S INTEREST WILL BE PAID ON 1st APRIL, 1917. THE PROCEEDS OF THE LOAN WILL BE USED FOR WAR PURPOSES ONLY.

THE MINISTER OF FINANCE offers herewith, on behalf of the Government, the above named Bonds for subscription at 97 1/2, payable as follows:—

- 10 per cent on application; 30 " " 16th October, 1916; 30 " " 15th November, 1916; 37 1/2 " " 15th December, 1916.

The total allotment of bonds of this issue will be limited to one hundred million dollars exclusive of the amount (if any) paid for the surrender of bonds as the equivalent of cash under the terms of the War Loan prospectus of 22nd November, 1915.

The instalments may be paid in full on the 16th day of October, 1916, or on any instalment due date thereafter, under discount at the rate of four per cent per annum. All payments are to be made to a chartered bank for the credit of the Minister of Finance.

Subscriptions, accompanied by a deposit of ten per cent of the amount subscribed, must be forwarded through the medium of a chartered bank. Any branch in Canada of any chartered bank will receive subscriptions and issue provisional receipts.

This loan is authorized under Act of the Parliament of Canada, and both principal and interest will be a charge upon the Consolidated Revenue Fund.

Forms of application may be obtained from any branch in Canada of any chartered bank and at the office of any Assistant Receiver General in Canada.

Subscriptions must be for even hundreds of dollars.

In case of partial allotments the surplus deposit will be applied towards payment of the amount due on the October instalment.

Scrip certificates, non-negotiable or payable to bearer in accordance with the choice of the applicant for registered or bearer bonds, will be issued, after allotment, in exchange for the provisional receipts.

When the scrip certificates have been paid in full and payment endorsed thereon by the bank receiving the money, they may be exchanged for bonds, when prepared, with coupons attached, payable to bearer or registered as

to principal, or for fully registered bonds, when prepared, without coupons, in accordance with the application.

Delivery of scrip certificates and of bonds will be made through the chartered banks.

The issue will be exempt from taxes—including any income tax—imposed in pursuance of legislation enacted by the Parliament of Canada.

The bonds with coupons will be issued in denominations of \$100, \$500, \$1,000. Fully registered bonds without coupons will be issued in denominations of \$1,000, \$5,000 or any authorized multiple of \$5,000.

The bonds will be paid at maturity at par at the office of the Minister of Finance and Receiver General at Ottawa, or at the office of the Assistant Receiver General at Halifax, St. John, Charlottetown, Montreal, Toronto, Winnipeg, Regina, Calgary, or Victoria.

The interest on the fully registered bonds will be paid by cheque, which will be remitted by post. Interest on bonds with coupons will be paid on surrender of coupons. Both cheques and coupons will be payable free of exchange at any branch in Canada of any chartered bank.

Subject to the payment of twenty-five cents for each new bond issued, holders of fully registered bonds without coupons will have the right to convert into bonds of the denomination of \$1,000 with coupons, and holders of bonds with coupons will have the right to convert into fully registered bonds of authorized denominations without coupons at any time on application to the Minister of Finance.

The books of the loan will be kept at the Department of Finance, Ottawa.

Application will be made in due course for the listing of the issue on the Montreal and Toronto Stock Exchanges.

Recognised bond and stock brokers will be allowed a commission of one-quarter of one per cent on allotments made in respect of applications bearing their stamp, provided, however, that no commission will be allowed in respect of the amount of any allotment paid for by the surrender of bonds issued under the War Loan prospectus of 22nd November, 1915. No commission will be allowed in respect of applications on forms which have not been printed by the King's Printer.

Subscription Lists will close on or before 23rd September, 1916.
