HOME AND INFIRM

The eighth annual meeting of the friends of the Infants' Home and Infirmary was held on Saturday afternoon at the Home, St. Mary street. His Worship the Mayor presided, and there were present among others Sir W. P. Howland, Rev. John Pearson, Rev. Hugh Johnston, Rev. J. C. Antliff, Rev. John Barton, Rev. Septimus Jones, Messrs. John Macdonald, W. B. McMurrich, Henry O'Brien, Thomas Hodgins, Dr. Baynes, Dr. Burns, Dr. Palmer.

After devotional exercises the report of the managers was read by

Mr. W. B. McMurrich.

The Managers of the Infants' Home and Infirmary have much pleasure in presenting their eighth annual report to the many friends who have so kindly helped them in their work during the past years, and who they trust will still continue to do so, as it is a work which cannot in any way be made self-supporting, the time of the women being entirely occupied with the care of the children committed to their charge, and in the necessary work of the house.

Last year, to mark our entrance into our new Home, a review of this Institution was given from its founding in 1875, so that this year we need not trespass on your time and patience by going over the

same details, but will make our statement as brief as possible.

n Ave.

In the early part of this year an epidemic of whooping-cough broke out among the children and largely increased our death-rate, their little feeble bodies not being able to stand the severe strain of that distressing disease; since then we are happy to say that they have been fairly well, the cool summer, their bright and airy nursery, together with the doctor's kind care, has done much to ameliorate the miserable condition that many, nay, most of them are in when admitted, as it is a rare thing for us to receive a really healthy child, the dreadful practices of drugging and baby-farming that they are subjected to before coming to us, greatly impairing their constitutions. And while speaking of the health of the children, we desire to express our gratitude for the voluntary and unremitting services of the medical staff, who have been most faithful in the discharge of their self imposed duties, and most successful in their treatment of the little ones.

Our lady superintendent and matron continue to fulfil their duties in the most conscientious and painstaking manner, and none who do not know something of the daily working of such Institutions can understand what these duties are, or the constant calls that are being made upon their patience and forbearance. We much regret to have to record the severve and prolonged illness of Miss Gwyn, which has for some weeks completely incapacitated her for performing her duties, but we have every reason to hope that we shall soon see her restored

to her usual health.

The Sunday, and week evening services have been kept up with great regularity, Canon Osler, Mr. W. H. Howland, and Mr. Dixon, taking the morning and afternoon services on Sunday, Mrs. Meredith, Miss Chapman, and Mr. Sims, the Bible classes during the week, Miss Cooke, Miss Mulock, and Mrs. Parsons, kindly undertaking the music. Mr. Pearson, who has long been a staunch friend and supporter of the Home, holds a baptismal service on the first Monday of every month, and is always ready to respond to any call made upon him.

We regret extremely that owing to ill health Mr. Graham, who has so kindly audited our accounts for some years past, has been obliged to resign; and we desire to tender him our thanks for the great care

and trouble he has taken on our behalf.

The work-room, under the able superintendance of Mrs. Hodgins, and Miss Greig, continues to supply the women and children with clothes; and we feel deeply indebted to the many ladies who have so kindly and indefatigably given their services there during the past year; and also for the many gifts of clothing that have been sent.

Last Christmas, a sale of beautiful dolls, the gift of Mrs. Grantham, was held at the Home, the proceeds of which went a long way towards replenishing our treasury. A strawberry festival was held in July, in the beautiful grounds of Mr. E. B. Osler, at Rosedale; and in September a fancy fete at the Horticultural Gardens, helped us to meet

Mulock, one Home was dowed for a to the Hom buried at se some of our liabilities, for the size of the Home and the larger number of inmates admitted, greatly increases our expenditure, and requires us to re-double our efforts to keep ourselves free from debt. Indeed we find that it is impossible to keep up the Home under an income of \$5,000 per annum. The government and city grants, together with the board fees of the children, assist, but still leave a very large margin to be filled by voluntary contributions.

On the 13th of September we were greatly honoured and gratified by a visit from our much-loved patroness, the Princess Louise, who during her short and much occupied stay in Toronto, made time to visit our Home. She thoroughly inspected the wards, and declared herself much pleased with their neat and clean appearance, and kindly consented to continue our patroness, requesting that a Report might

be sent her annually.

Through the thoughtful care of Mrs. Alexander Cameron, the Home has been provided with a fire escape, a most necessary adjunct to a building containing so many inmates. Mrs. R. Gooderham also gave \$50 for blinds, which add greatly to the comfort of the house. And, speaking of gifts, we must not forget to mention a large donation of clothes, the work of the girls of the John Street School, and another from the children of the St. Paul's Church Sewing Class. We are heartily glad to see these dear children working for our homeless and friendless little ones, and would remind them of the words of one who said, "Inasmuch as ye did it unto one of the least of these, ye did it unto me."

If not trespassing too much on your time, we should like to say a word in regard to one of the most stringent rules of the Home. It has been said by many that such an Institution only serves to screen and encourage vice, but we would beg you to understand that it is only the homeless, the friendless, the poor, who are in many cases far more sinned against than sinning, that we shelter, hoping that by this means they may in some measure retrieve the past, and begin a better and purer life, but not those who in a higher position, and better circumstances, simply wish to place their children here, that they may rid themselves of the responsibility and disgrace; did we consent to receive such we should have an overflowing treasury. Our books are open for inspection at any time, and contain a full history of each inmate as far as we can obtain it.

In closing our Report we cannot refrain from expressing our thankfulness for the help given us during the past year, and would earnestly entreat that your prayers, and your gifts may continue in double mea-

sure in the year on which we are entering.

Mulock, one of our most energetic lady managers, whose interest in the Home was unfailing, and through whose generosity there is a cot endowed for all time, which is filled at present by a child that she brought to the Home, whose mother died at its birth, and whose father was buried at sea, a poor little homeless and friendless baby.

INFANTS' HOME-PHYSICIANS' REPORT, 1882-3.

LADIES AND GENTLEMEN,—We have the honour of presenting to you the first annual report of the Medical Board, since we have been in occupation of our new and beautiful Home.

We hope that the care and attention which has been given to the Sanitary and Hygienic arrangements will result in a most beneficial effect on the

health of our little ones.

Unfortunately, this year we were visited by a severe epidemic of whooping cough, which was fatal to eleven of our infants and undermined the strength of many others, so that although they recovered in some measure from the disease, they ultimately became victims indirectly to the same scourge. The epidemic was in no way due to the sanitary arrangements, which are in every way perfectly satisfactory.

The	number (of nurses infants	admitted was	80.	in

	dyin	g state		17.	

These latter are, of course, included in the general table. We therefore would beg to call attention to the suggestion of the Medical Board of 1881, namely, That all children brought into the Home in a dying condition, be taken to the infirmary, and also that their names be placed on a separate roll

With the exception of the months of February and March, during which time the whooping-cough epidemic visited us, the rate of mortality was very low, and compares favorably with preceding years; the mortality of the months being as follows:—October, I; November, I; December, 2; January, 4; February, 13; March, 12; April, I; May, 8; June, 3; July, 5; August, 8; September, I.

CAUSES OF DEATH.

Marasmus	Effects of opiates 3

Tubercular meningitis 6	Cancrum oris
Dentition	Varicella

As usual, in this Home and in every other institution of the sort on this continent and also in Europe, it will be noticed that the chief, destroyer is marasmus, and would say that most of these cases—victims of this fell disease—are our foundlings, and those whom we mention as being introduced into the Home in a dying state. In conclusion, we must thank our Lady Superintendent, our right hand in every way. We fear her arduous duties so affected her strength, that at last tired nature rebelled, and a severe nervous prostration caused a temporary absence from office. We are indeed glad to see her again in our midst, and are sure that, in every

Medical Board.

Dr. Burns moved the adoption of the report, and suggested that in order to avoid in the future having what was apparently an inordinately heavy death rate, those children who were in a hopeless state when admitted, as was frequently the case, should be transferred to the infirmary list. That course would be much fairer towards the medical men connected with the Home than the present was. He also suggested that the Medical Health Officer, Dr. Canniff, should be empowered to receive returns from medical men concerning suffering children, who might then be discovered and admitted to the institution before their cases had become hopeless. Dr. Palmer seconded, and the report was adopted.

MANAGERS AND OFFICERS.

Mr. John Macdonald moved that the following ladies be appointed managers and officers for the ensuing year :- President, Mrs. Ridout; First Vice-President, Mrs. Williamson; Second Vice-President, Mrs. F. Osler; Treasurer, Mrs. Grantham; Secretary, Miss Scoble. Treasurer of Building Fund, Lady Howland. Managers—Lady Howland, Mesdames Weir Anderson, Bendalari, Cooke, Alex. Cameron, Dumoulin, Edgar Ellis, Fisken, Grantham, Gooderham, Hodgins, Harrison, McLean Howard, Harvie, Langlois, Macpherson, Meredith, Millar, Nordheimer, Nanton, Fe therstone Osler, E. B. Osler, Palmer, Parsons, Ridout, Roger, W. Townsend, Wilkes, Ramsay Wright, Williamson, Young; Misses Greig, Muttleberry, and Sco-The speaker said there was not one of the numerous charitable institutions of the city more deserving of public support than this was. Some people declined to support it because its inmates were only too frequently the children of misfortune, but if there was one reason more than another why they should support it, that was the very reason, and such an argument was usually put forward only by those who wanted an excuse to get out of giving anything. If this institution did not care for these poor children, they might be left to perish. Allusion had been made to the apparently high death rate. He did not consider it high at all; on the contrary, it was a wonder to him that the nurses and doctors had been enabled to preserve the lives of so many of the inmates, seeing the deplorable state in which they were usually admitted. He heartiy agreed with the suggestion, however, that a distinct list should be kept of those who were admitted to the Home in a hopeless condition. In conclusion, he expressed the hope that the ladies who were engaged in the laudable work connected with the institution might receive all the encouragement they deserved, and might have the opportunity in after years of seeing the fruits of their labors. Mr. O'Brien seconded, and the resolution was carried. ner Miss bialdane, three pair Dor

Special thanks are due to the ladies of the Northern Congregational Church, and to the St. Paul's Dorcas Society, Bloor street, and the Magdalene Asylum, for the great assistance they have given us in our work. The Sewing Committee also desire to thank the Girls' Division of the Ryerson School, for the nice warm quilt made by them, and sent to the Home last autumn; and the many kind friends who have sewed for us in their own homes; and to those who have sent donations of clothing.

Having so many little ones to provide clothing for, any assistance is most gratefully received.

An autograph quilt was started about the beginning of the year, which has proved a great source of revenue to the work-room.

Mr. McMurrich moved the adoption of the reports, and expressed the satisfaction which all interested in the institution must feel at its present condition. He regretted that the death-rate had been so heavy, but it must be remembered that very many of the children who were admitted to the institution were in a very low state of health, indeed, their cases being frequently quite hopeless, and the mortality was thus considerably augmented. With regard to the Treasurer's report there was an item which he trusted would soon be wiped out altogether, and that was the interest on the loan, amounting to \$627.

Rev. Hugh Johnston seconded, and referred in pleasant terms to the great good which the institution was doing, and to its benevolent nature. It was a work well worthy the presence of the Mayor of this great and growing city. It was a Christ-like work—in fact it was the very fruit of Christianity, for none but Christians engaged in such work.

The reports were then adopted.

I have examined the foregoing account and find the same to be correct accerding to the books of the treasurer and the vouchers produced here. October 8, 1883. GEO. S. HOLMSTED,

In arrears for unpaid bills, \$1200.

Rev. Septimus Jones, on seconding, congratulated the managers upon the success they had met with in meeting the expenditure incurred in execting their magnificent new building. He thought it possible that a share of the debt might be paid off by collecting small subscriptions from people whose names did not at present appear upon the subscription list.

The report was carried.

Major Greig moved a vote of thanks to the clergy and medical staff for their services during the year.

Mr. Thos. Hodgins seconded, and the resolution was carried.

This concluded the business, and the Mayor then delivered a few remarks. After alluding to the great utility of the institution, he expressed the hope that another year the grant which it received from the city might be increased to \$1,000. It was \$500 last year, and he had done his best to get it doubled this year; he had only half succeeded, however, for he could not get more than \$750. The Mayor then paid well-merited compliments to the managers and officers of the institution, and expressed the hope that its present success would increase in the future.

Rev. Hugh Johnson proposed a vote of thanks to the chairman, which was carried unanimously, and the proceedings were then concluded with a

hymn and the benediction, delivered by the Rev. J. C. Antliff.

LETTERS ABOUT THE BABIES.

No. I.

O-, January 2nd, 1883.

Dear Madam,—We received your letter and the adoption papers all right, and everything has gone along so nicely up to the present time. Little Cora, as her name was when we got her, we have had christened and changed her name to May Louisa. She has been a great comfort to us. But to-day our hearts are sad indeed, she is very ill with inflammation and bronchitis, and is in great danger. Still she bears up wonderfully, and I trust with good care and faithful prayer she will be restored to us again. It would be a hard trial to give her up.

Yours truly,

Dear Madam,—Enclosed you will find a photo of little Mamie taken a few weeks ago, it hardly does her justice. Her health is very good, she is exceedingly bright and winning and has made herself very dear to us. We shall be visiting Toronto next summer and will take that opportunity of calling upon you that you may see how much she has improved.

Dear Madam,—Thinking perhaps you would be pleased to hear from my little girl, as it is little past a year since she became mine, I write to tell you that she is still improving and just as nice as she can be. One year ago weighed not quite twenty pounds, she now weighs thirty-one. My health has been very poor this winter and when not able to be up she is by me almost constantly wanting to do something to make me better. I had a Christmas tree for her (as you will see by this clipping). She was perfectly delighted with it, there were a number of very nice presents for her, twelve in all. Her papa and brothers had not forgotten her with the rest. She has a little set of dishes and "makes tea-parties," as she calls them, very often, and it is very amusing to see her preside at table with her little cousins. She spends a great part of her time attending to her dollies—four in number—washing and dressing them almost daily, and she seems to understand that part to perfection. If she does anything wrong and I have to correct her she will say almost in an instant, "Mama, I's sorry and really I wants to be good." It has been no trouble so far to govern her and seems pleased to do whatever I wish her to. She loves to do something for her papa, and gets his slippers, etc., and when he tells her she is his good little girl, will reply, "Yes, papa, do you love me too?" You cannot imagine the comfort she has been to us. When she first wakes in the morning it is with a smile, and this for us all, and is just as happy as she can be.

Madam,—The little girl we adopted is getting along splendidly, she has grown so much you would hardly know her. She is the smartest child of her age in St. J-, everybody speaks of her smartness. She remembers the Home, she has such a memory and never forgets anything. She is company for us, and a credit to us. We had a good deal of trouble with her at first. As soon as the weather is fine we will get her picture taken and send you one. No more at present.

-, September 7th, 1883.

Dear Madam,-We received yours of the 4th inst., and were wondering you didn't send the papers sooner. We have them signed, and will send them to-day. Freddie is well; he has had a very hard time with teething, he was very ill, he cut seven teeth all at once, just imagine. Little dear, he suffered so much, his pa was very anxious about him. He is quite well again and lively, he is not walking yet, but I think he soon will, he can raise himself up to a chair and stand alone. His pa just dotes on him, I hope he won't spoil him. I hope you will like his picture. How are all the dear little children in the Home? I hope you are quite well yourself.

Yours very truly,

MRS. M. H.

September 21st, 1883.

Dear Madam,-Mrs. H. and myself wish, before it is too late for the preparation of your annual report, to make our report which should have been in your hands on the first of August last, as to Florence McM. We had hoped to be in the city to make our report in person before now, hence the delay. We may yet be able to go to Toronto before the season is over, but cannot be sure. Florence is in the best of health, and has been so since she left the Home, except when she had the whooping-cough last winter, and when she is troubled with hives and teething, not having yet cut all her teeth. She has grown and developed considerably and wins the affections of all with whom she meets, though she has a pretty quick temper. She also gives promise of a fair share of talent, which I trust, under God's guidance, will be directed into useful channels. On the whole we are thoroughly satisfied with, and in no way regret, the step we took when adopting her. Please send to me a copy of last year's report, and accept the enclosed small sum (\$1) for the benefit of the poor little ones in the Home, and oblige,

Yours sincerely, JAS. H. H.

No. 153.—Charles B— —, child of Maria Burke, a girl about 23 years of age, who was placed in the dock at the Police Court to answer a very serious charge, viz., that of wilfully and wantonly abandoning and exposing a child under two years of age, thereby endangering the chi'd's life. Detective Reid applied for a remand which was granted. The prisoner was not asked to plead. It appears that the woman had been staying at the Haven along with her offspring, for some time previous, when she left with the avowed intention of procuring work as a domestic servant. During her peregrinations she applied to the house of a lady in Rosedale, soliciting employment, but the lady of the house seeing that she was physically unfit for work, brought her back to the Haven. She was alone at this time, and in answer

to the matron's enquiries, she stoutly refused to tell what she had done with the baby. She was arrested, and diligent search was made for the missing infant, resulting in the finding by a Dr. Eddis, who immediately drove it to the Infants' Home where he left it in charge of the matron. The mother being sent to the Reformatory, was made to take charge of her child there.

No. 154.—Charles S—, another foundling, still in Home, whose case we quote from the paper. A far more unnatural case of child desertion was brought to light by Mr. Northcote, residing at 49 Charles street, who discovered an infant among the shrubbery in his garden. Mr. Northcote heard the infant's cries and sent out a servant to discover whence they proceeded. After search had been made a comfortably dressed infant was found in the thickest part of the bush, with a milk bottle by its side. The little one was taken into the house, and after being warmed and fed was removed to the Infants Home.

RULES FOR ADMISSION OF CHILDREN.

Applications for admission of children must be made to the weekly committee, which meets at the Home, St. Mary Street, every Monday morning between 11 and 1.

No child over two years of age will be admitted, unless by special permission of the committee.

Infants pay \$5 per month, children who can walk, \$4, unless remitted by the Committee of Admission.

Every child admitted must be examined by a physician.

RULES FOR ADMISSION OF MOTHER NURSES.

- 1. Each woman admitted must nurse and feed a child in addition to her own, unless otherwise ordered by the physician.
- 2. Each woman admitted must give her services for at least six months to the Institution in return for board, lodging and clothing of herself and child. Should her own child die during her residence, she must continue the care of her charge until the expiration of her term, or until such time as she leaves by permission of the Board.
- 3. Her good conduct during her residence in the Home will secure her the assistance and recommendation of the Lady Managers in obtaining, when she leaves, a desirable situation.
- 4. Each applicant (whether child or nurse) who shall have received a permit to enter the Institution from the Committee, shall be referred to the visiting Physician, who, if he concur in the admission, shall order the Lady Superintendent to have the name, age, condition, etc., of the applicant entered on the record and registered as an inmate.
 - 5. No re-admission of women to this Home.

PARTIES WISHING TO ADOPT BABIES.

Must send to the Home certificates stating that they have the means of bringing up a child, and that they can give the child a Christian education. Inquiries will be made at once relative to the parties applying and those recommending, and if the result of these inquiries is satisfactory, the applicants will be notified that they can come and make their selection.

A PRAYER FOR THE INFANTS' HOME.

O Gracious God and Saviour, who has promised that where two or three are assembled together in Thy name Thou wilt meet them and answer their petitions, mercifully look on us Thy servants, and grant us Thy blessing.

We thank Thee that Thou hast put it into our hearts, and those of others, to care for those little ones whom we are gathering into this Home.

We thank Thee for the measure of success Thou hast bestowed on our efforts, and we pray Thee still to prosper and bless our humble endeavours to save both mothers and children. May we not grow weary in our labour of love, and increase the number of our helpers. Enable us by Thy grace to persevere amidst all discouragements, and to feel ourselves, and to show to others that Thy blessing rests with us. Fill our hearts with zeal on behalf of these helpless little ones, that we may do them good.

Gracious Saviour, who, in the days of Thy flesh, manifested Thy good-will to little children, rebuking those who would have kept them from Thee, bless those who may be admitted to this Home from time to time. If their lives are spared, may they live to Thy glory; or if Thou seest fit to remove them, take them to Thyself, since Thou hast said, of such is Thy heavenly kingdom. O Lord, hear us and bless us, and give us, we beseech Thee, a right judgment in all things, for the sake of our Saviour Jesus Christ. Amen.
