THEIR BOOTY WAS DEATH.
Train Robbers Shot in Daring Hold-Up
Express Messenger Killed One and Seriously Wounded Another—The Others Fled.
PORTLAND, Ore., Sept. 24.—The Atlantic express on the Oregon railroad and navigation line, which left here at 8:15 last night, was held up by four masked men near Corbett station, 21 miles east of this city. One of the robbers was shot and killed and another seriously wounded, while the engineer was wounded by a bullet from the express messenger's gun after passing through the heart of the highwayman. The two other bandits escaped without any booty.
Two of the robbers boarded the train at Troutdale, and as soon as it started crawled into the cab and covered the engineer and fireman with guns. They stopped the train near Corbett, where the second pair of highwaymen joined them. The robbers then started for the express car and, mistaking the baggage car for the express, threw sticks of dynamite at the doors. Express Messenger Kerner heard the explosion and opened fire and killed one robber, the bullet passing through his heart, and wounding Engineer Barrett over the heart. After the shooting the three robbers made their escape, but later one was found seriously wounded.
The Oregon Railroad and Navigation Co. offers a reward of \$1,000 for the arrest of the highwaymen.

BORDEN MONUMENT.
Yesterday afternoon at Canning, N. S., the monument to Harold Borden, son of the minister of militia, who lost his life in the late Boer war, was unveiled in the presence of an immense gathering. Several well known public men of the province were present. The monument was unveiled by Lord Dundonald, who spoke in eulogy of the late Harold Borden. Addresses were also made by Dr. Allison, Prof. Kierstead and Attorney-General Longley.
The monument, which is placed in a prominent part of the town, is of granite with a bronze bust of the dead hero. On the sides are representations of the various battles he took part in. A detachment of militia, representing the various arms of the service, came from Aldershot camp and formed a guard of honor, a direct guard of honor being furnished by Kings county Hussars, of which deceased was major.

Her Davies, Sir Thomas Lipton's representative in this country, to George de Pina, who says the price is under \$20,000. The purchaser says he has not decided what to do with the horse. Shamrock I cost Sir Thomas Lipton over \$250,000.

CHAPMAN FESTIVAL.
W. R. Chapman, the well-known musical director met his orchestra this morning at the York Theatre, and put it through a trying rehearsal. After it was over Mr. Chapman said: "It is the best, largest, and most perfect aggregation of instruments I have ever seen. In the orchestra are men from the Symphony Orchestra of Boston, and from the Metropolitan Grand Opera House of New York. It has cost Mr. Chapman between \$5,000 and \$7,000 for the different festivals throughout the New England States. His first concert master is F. W. Kraft.
Madame Blauvelt is the finest soprano before the public today. She is just across from Covent Garden, England. Madame Shotwell-Piper will prove a surprise.
The Wagner programme will be carried out to the letter.

FUNERALS TODAY.
The funeral of the late Gordon S. McLeod took place this afternoon at half past two from the residence of his father, George McLeod, 81 Orange street.
The services were conducted by the Rev. Dr. Morrison, of St. David's church. Boyer Smith, Jack Warner, Simeon Jones, Percy Robinson, J. Thomas and Charles Troop acted as pall-bearers. Interment was made in Fernhill cemetery. Many beautiful and costly tributes bear witness to the general esteem in which the late Mr. McLeod was held. The Barber Asphalt Paving Co., in whose employ Mr. McLeod had risen to much prominence, sent, as a slight tribute of their respect, a very handsome cross of flowers. A wreath of roses was also received from Mr. Griffiths, the company's manager at Philadelphia. Among others were a wreath of roses, carnations and smilax from Miss M. McLaren. An ivy cross with roses and lily of the valley from Mr. and Mrs. G. F. Smith, a cresset, Mr. and Mrs. L. E. Wilson, and a large star of purple and white flowers from Mrs. I. Burpee.
A large number of St. John people went by train yesterday to the Fredericton exhibition.

ST. JOHN MAN FLIM-FLAMMED
Clever Swindle Worked on Charlotte St. Druggist.
Bunco Man Takes \$975 Out of Charles McGregor With a Silk Scheme.
The confidence man is still abroad in the land. One of St. John's merchants fell a victim to his wiles last evening in the most simple manner imaginable. Between 5 and 6 o'clock yesterday afternoon Chas. McGregor, the Charlotte street druggist, had a telephone call from a prospective customer. Mr. McGregor answered the wire. The man at the other end asked the druggist if he would please send a boy to 121 Union street with a bottle of Pabst Malt Extract and at the same time send along the change of a \$10 bill, minus the price of the malt.
Unsuspecting the mixer of drugs sent his boy to the address named with the bottle—and the change.
Strange to say, before the youngster with the special money delivery had time to reach his destination he was met at the door of 121 Union street, opposite No. 3 engine house, by the young man who had wired for the malt—and the money.
There Mr. McGregor's boy handed over \$2.75. The cool person that received the money handed the boy an order on a Brussels street house for \$10, telling the little fellow to go to the house he designated and, on his return he would give him 25 cents for his trouble.
The boy went as sent, but found the house a vacant one. He returned to his Union street place and then learned that it was his vacant office.

NEW CONSUMPTION THEORY
Tuberculosis Not Hereditary—May Be Contracted From the Milk of Tubercular Cows.
BERLIN, Sept. 24.—The Deutscher Medicinische Vochenschrift publishes a synopsis of a lecture which Professor Von Behring, of Marburg, will deliver before the German Naturalists' Congress at Cassel next Friday. Prof. Von Behring does not believe that tuberculosis can be inherited or contracted epidemically by an adult. He asserts, however, that a decisive factor in the spread of tuberculosis is the nourishing of infants with milk taken from cows suffering from that disease. Prof. Von Behring's efforts are being directed towards the substitution of sanitariums and a system of inoculation for consumption in infants.
He is convinced that, like animals, human beings can be rendered immune by inoculation with tuberculous toxin obtained from cows.

THE CARNIVAL BOOMING.
Entries For All Events Pouring In.—Some New Features For The Horse Show.
Everything is booming in connection with the carnival and St. John people can expect the finest week of sport ever enjoyed. Secretary Gleason is at present in Fredericton furthering matters in connection with boat racing. Entries for the horse show are piling in and the list is swelling to such an extent as to already make the horse and equipment department an assured success. The committee feel confident that with Van Horne's prize horses in the lists, such an attraction will be a source of delight and pleasure to all who take even the slightest interest in seeing noble horses. Not only will there be an exhibition of beautiful animals, but the exercises will show what noble animals can do. Among other attractions will be ladies' jumping and saddle horses. Ontario saddle-back horses, the finest in Canada. It is very likely that the services of two bare-back rough riders will be secured to give an exhibition of their daring performances.
Already all the boxes have been secured in advance and new seats are placed in such a position that they will command as good a view as the boxes. They will be sold at the same rate—\$20 for each admission. By this means plenty of good seats will be provided.
It is hoped to make this show an annual affair. In all the larger cities in the States they occur annually, and St. John people will not be behind in their support of so worthy a project.

Miss Jean Rowan and A. M. Rowan are still at the scene of the disaster hoping against hope.
John L. Carleton, K. C., is looking after the matter for the crown. It has been definitely decided to hold an inquest, but a date has not yet been set. Mr. Carleton has been advised by Attorney General Fugatey that he will receive notice to proceed with the inquest.

A GIGANTIC BUNCO EXPOSED
Shrewd Soundrels Victim-ize Best Business Houses
By Opening False Business and Fake Bank to Bank Them, They Steal \$130,000.
CHICAGO, Sept. 24.—More than \$130,000 stolen, business houses in every part of the United States victimized, a bank created, a waiter risen from poverty to affluence, and an ex-convict again placed behind the bars. These are features in the meteoric career of at least one of the men now under arrest in Chicago. Post office inspectors made the captures. Julius M. Nison, known also by a dozen other names and Arthur J. Horbat, said to have many aliases, are the prisoners. Nison has confessed, but Horbat will not admit that he had any part in the big swindle.
This is the mode of procedure. According to the inspectors, Nison and Horbat would go to a city and open an office, engaging ostensibly in the retailing of metal ware, novelties, machinery or anything that they could secure on credit. They would operate under the name of some company well known to the business world and in ordering goods to the value of thousands of dollars would give commercial agency references.
After the articles had been received, the rogue company would transfer the consignment to a warehouse, and then ship them to New York where they would dispose of them through a "fence." They baffled the inspectors for months. When suspicion was aroused the men would flee to another city.
One of the boldest games of the two men is said to have been to establish a bank to give financial strength to their enterprises. One such concern called "The Cook Company Bank of Trade and Commerce," is alleged to have existed on paper only. Nison was for several years a waiter and in 1890 he owned a restaurant in Chicago. He sold this place and toured Europe. Then he returned to Boston and was sentenced there to one year for shop-lifting.

WILL FIGHT THE TELEGRAPH.
Grits Will Start a New Morning Paper.
By Blair and Policy Changed—Mr. Milligan Resigns.
The Daily Telegraph's announcement this morning that it had again changed its policy and would oppose the government on the Grand Trunk Pacific deal, coupled with the statement that this action had forced C. J. Milligan from the management, awakened consternation among the old-line liberals, who thought they saw in the recent pledge of that journal's support to the government or against Mr. Blair, visions of a reunited party in this province. Of the reason for this third change of policy within a few weeks only the directors know definitely, and they positively refuse to make it public. Thos. McAvity, the president, said this morning that at a meeting of the directors yesterday, the resignation of C. J. Milligan, the manager of the Telegraph, was received by wire and accepted. Who would now take charge of the paper, or what its policy in the future would be, he declined to state. Others of the directors were equally non-committal. Mr. Milligan returned on the C. P. R. today from Montreal, where he has been in consultation with party leaders. Beyond admitting that he had resigned because he was unable to agree with the policy mapped out for the paper, he would say nothing.
The Star is informed that the real reason for the change lies in the fact that David Russell, acting for Mr. Blair, has bought all the stock of the Telegraph held in St. John and acquired a controlling interest in the paper and its policy.
Now that the Telegraph has definitely joined forces with Mr. Blair against the government it is authoritatively stated that a new morning paper which will be the official organ of the liberal party in New Brunswick will be started in St. John in the near future. It is reported that Mr. Milligan will assume the management. Since the Telegraph by again swinging with Mr. Blair, indicates that the ex-minister of railways is no means out of politics, the dividing line between the straight liberals and the Blair men is more sharply drawn than ever. What will be the outcome is unknown but it is certain that the Telegraph which, has developed under liberal government patronage, will now be fought to the limit by that government.

YOUNG MAN, BE GOOD.
CHICAGO, Sept. 24.—"Young man, be good." This is the ultimatum delivered to some 30,000 young men by their employers. Race track gambling, excessive indulgence in liquor, immoral conduct, late hours and excessive cigarette smoking are the vices charged to the young men. The Western Electric Co., which employs about 12,000 men, posted this drastic notice in their shops and general offices: "Playing the races, and all other forms of gambling, immoral conduct and excessive use of liquor and cigarettes greatly impair one's usefulness. Notice is hereby given, that any employee who thus abuses himself is subject to dismissal."
The wave of reform has spread to many of the giant business corporations of the city. The big wholesale and retail stores of Marshall Field & Co. have the same laws in operation which the electric company is enforcing. Railroads throughout the country are waging war against the use of liquors and tobacco by employees engaged in operating trains. The revolution which is being effected in these respects is shown in the new rule books which many of the managers of the Chicago roads have just issued.

TRADE WITH JAMAICA.
If the C. P. E. or any other transportation company would bridge Jamaica and St. John with a fast line of steamers, there is little doubt that everything would be thoroughly done and, I will further add without the slightest hesitancy, that the undertaking would be a financial success."
The speaker was G. Eustace Burke, who is in the city for the purpose of promoting closer trade relations between Jamaica and Canada. Mr. Burke is a member of the firm of G. Eustace Burke & Bros., mayor of Kingston, Jamaica, and commercial agent for Canada in Jamaica. Owing to his prominent position in the business life of that colony, he knows whereof he speaks. Mr. Burke simply takes the facts of the case and from them argues as to the success of the venture.
On the one hand he has Jamaica buying every year large quantities of white pine and deal lumber. Now, it is estimated that ninety per cent. of this originated in Canada, but it has been diverted to American ports by reason of their greater transportation facilities. Again, there is an even chance for New Brunswick merchants to supply Jamaica with dried and pickled fish.
In return St. John would be able to capture the bulk of the Canadian fruit trade. As we form the Atlantic terminus of the C. P. E. there would be every facility for supplying our own and the upper Canadian markets.
Besides developing a large freight trade, a fast line of steamships, with good passenger accommodations, would greatly increase the tourist traffic between St. John and Kingston.

DOMINION PARLIAMENT.

OTTAWA, Sept. 23.—Another score of petitions greeted the commons today praying for delay in the construction of the Grand Trunk Pacific.

When the national trans-continental bill came up Hon. Mr. Fitzpatrick offered an amendment to meet Mr. Oseier's contention that all supplies for the road would come in free of duty.

On clause 8, calling for the construction of the eastern division, Mr. Clancy moved an amendment calling for delay in carrying on the work until it shall have been determined that the line will follow the route permitting the best possible grades.

Mr. Clancy pointed out that there was no information as to the line, and in view of the fact that a score of petitions had been presented to parliament against the job, deliberation on its merits was necessary.

Mr. Borden said the country would know now what it had to expect. The whole argument in support of the construction of the eastern section made by the member for North Norfolk, on which the government so much relied, was based on practicable gradients being found, and yet gradients of no gradients the government was resolved to go ahead against all counsels of prudence and experience.

In the course of the debate Mr. Charlton was given a warm time of it by the opposition for his somewhat heated charges that the conservatives were disloyal, which led Casgrain to remark that the opposition would not accept any lesson in loyalty from Charlton.

Mr. Fleming's interview in the Halifax Chronicle was read in support of the scheme, but another interview published in the Toronto News a day later, and revised by Sir Sandford Fleming, was quoted by the opposition, as showing that he was really opposed to the deal.

The government was challenged to prove their faith in Fleming's opinions by asking time to submit his professional report on the merits of the proposal.

Clancy's amendment was defeated, and Fitzpatrick's amendment was then taken up. Mr. Oseier considered it did not go far enough. He claimed that the period of construction no supplies should be admitted free of duty.

Fitzpatrick's amendment passed and the period of construction no supplies should be admitted free of duty. Canadian manufacturers should be given all advantages arising out of the construction of the new road.

Mr. Borden and Mr. Fielding had a warm exchange as the result of the remark by the latter that the conservatives were unpatriotic. Mr. Borden declared that this came with bad grace from the ex-premier of Nova Scotia, who led the campaign which threatened confederation.

On section 2, last clause standing, the government voted to protect amendment and amendment to protect Canadian ports and industries.

Gourley had an amendment to force trade to the maritime ports, but it was defeated in the same way as those preceding it.

NEW YORK, Sept. 23.—Prince Albert, the pacing hero of a hundred races and the champion of a score of half-mile tracks, went against the world's pacing record of 1:59, held by Dan Patch, and beat it most decisively at the Empire City track today.

The weather and track were perfect and the wind, which was high early in the day, kindly subsided so that all the conditions were favorable.

The death occurred early this morning of Francis William, the twelve weeks' old son of Francis I. and the late Josephine M. McCafferty.

BRITISH POLITICS.

LONDON, Sept. 23.—The political crisis has taken on a phase which lends to the present situation an historical and constitutional importance of almost unprecedented interest.

Premier Balfour's continued presence at Balmoral has given rise to much surmise and comment, but the Associated Press is able to state definitely that it is due to the King's determination not to assent to the formation of a new cabinet until thoroughly satisfied that its personnel and combination is such as to ensure the efficient carrying on of the affairs of the empire pending the resumption of parliament.

For years previous cabinets were formed or ministerial vacancies filled with the mere formal presentation to the sovereign of the names of the new ministers.

King Edward has done away with this tradition. He has spent the last few days in constant discussion with Mr. Balfour as to the advisability from the point of view of national welfare of the latter's suggested appointments. Ministers now holding office and those nominated for office have been summoned to Balmoral to join in these conferences and all have been subjected to a degree of interrogation such as has surprised even those who knew King Edward intimately as Prince of Wales.

King Edward has not shared the keen public indignation against Lord Lansdowne aroused by the report of the South African war commission and after a minute examination of the circumstances he is alleged to have consented to his lordship continuing as foreign minister.

The question of having some general, notably Lord Kitchener, as head of the war office, has been keenly discussed at Balmoral between the King and the ministers, but the Associated Press understands that the consensus of opinion was that such an appointment would be interpreted as a modified form of military dictatorship which the public would never sanction.

LONDON, Sept. 23.—Alexander W. Black, liberal member of parliament for Banffshire, makes public tonight an interesting series of letters which passed between himself and Mr. Chamberlain in which Mr. Black maintains that the former colonial secretary launched his fiscal scheme while ignorant of Canada's attitude.

The officers of the old union are said to be opposed to it, but while Peter Sharkey is absent from the city no decisive move will be made on the part of the men.

CHARGED WITH MANSLAUGHTER

Joseph Thompson, a young colored man, was up before the police court this morning.

The magistrate told Thompson that he was charged with the very serious crime of manslaughter and that he did not wish him to say anything in regard to the matter. Thompson was then remanded.

This man Thompson is a young negro, tall, athletic looking, and seemed to be worried somewhat about his condition. He evidently wanted to tell all he knew about the death of the boy Josselyn. The magistrate suppressed his vocabulary until something is done after the coroner's inquest.

Thompson was not represented by counsel.

THE BASEBALL SITUATION.

Old Alerts May Play the Franklins Soon.

The local baseball situation is in somewhat of a muddle this week. The Franklins are away on a tour to Fredericton. They are expected home tonight or at the latest tomorrow. Manager Hovoy of the Roses is also in Fredericton hustling to bring the Roses into bloom again after games with the Waterlilies, Fairfields or some other equally strong lot of baseball artists.

Dan Britt, who is at home in capacity of representative of the late Waterlilies-Alert combination, is also being on his mind. Dan would like to bring his team here to meet the Franklins or any other body of players as soon as possible. Britt says his team wants \$100 guarantee and that they can be here in a half day's notice, and furthermore, that the famous lot of ball players will come in a body, no hedge podge bunch.

The Franklins' friends are, it is said, willing to subscribe for such an event, so it is within the possibilities that some very fast ball may be expected here before the season closes.

The advent of Tip O'Neill on the scene by October, means baseball affairs all the more interesting from a local point of view.

Y. M. C. A. SPORTS.

F. W. Green, gymnasium instructor at the Y. M. C. A., has begun work on the Victoria grounds by putting them in condition for the athletic sports during the carnival. A start has been made on the 100 and 125 yard track. This will be changed somewhat from where it was last year and when finished will be one of the best grass tracks in the eastern provinces.

The 220 yard track will be in the same place as before. By the day of the races Mr. Green says the ground will be as level as a smooth Y. C. A. table. The courses of the longer runs will be carefully roped off, so that no "cutting in" can take place. Jumping standards and vaulting poles are now being procured to put them in place, so that they will be ready to prohibit any football playing on the grounds until after the sports are over.

FOOTBALL.

If the Victoria grounds are in a suitable condition a practice will be held there this evening by the Y. M. C. A. football team. After the practice is finished a meeting at the Charlotte street rooms will take place, when the team will elect a new captain. Don. McAlon, who left recently for McGill, was the former captain.

The football match, arranged to take place this afternoon between Carleton and Trinity teams, has been postponed until tomorrow. They will commence at 5 o'clock on the Shamrock grounds.

JILTED - JUMPED FROM TRAIN.

A young man by the name of Bellefontaine created a sensation on Tuesday by jumping from the Sydney express near Antigonish, while the train was in motion. He was on his way to Halifax to be married, but had received a letter from his fiancée in which she said that she had changed her mind, and it is thought that the news made him insane. Search was made, but no trace was found of the man, after the train had been stopped, and it is thought that he was not much injured.

Many prizes were in store for the bidders.

NEW INDUSTRY FOR ST. JOHN.

There is a probability that the new plant of the Carleton-Patterson Mfg. Co., Ltd., will be established in St. John for the manufacture of tar paper. Formerly the plant has been in the Halifax city council to erect the plant in that city, but the matter has met with some opposition, and the company has stated that unless the desired permission were given by Thursday the industry would locate in St. John.
