NEW YORK, Dec. 4.—A cable despatch to the World from Rome says: The Vatican correspondent of the Stampa at Turin is authority for the statement that when a few days ago, Manager Thomas S. Byrne, Bishop of Nashville, Tenn., was received in private audience by the Pope the conversation of the Pontiff dwelt principally upon serious abuses which are said to be found in the church in America, and which he declared he was determined to suppress at any cost.

BERLIN, Dec. 4.—A despatch to the Lokal Anzeiger, from Kieff, via Podvolocysk, December 3, noon, says: One company of a pontoon battalion mutinied today, and fully armed, marched through the streets trying to persuade other troops to join in. Only an engineer corps did so. The mutineers, then 2,000 strong continued their march. Two hundred Cossacks were sent to prevent their advance, but General Drake, in order to prevent bloodshed, subsequently withdrew the Cossacks and permitted the mutineers to pass. General Drake made repeated appeals to the barracks several mutineers were sent to abandon their foehardly course.

INQUEST TONIGHT MAY BE SENSATIONAL. Doctors and Nurses Will Give Important Evidence. A Full Statement Made by Miss Clarke Before Her Death May Be Submitted.

With keen interest the result of the inquest tonight into the circumstances surrounding the death of Edith Clarke is awaited by the public. Though no official information is obtainable, either from the coroner, the police or the witnesses, the Star learns from credible sources that evidence will be given of a highly sensational character fully justifying the action of the police so far and making the fate of Dr. Preston, if they testify, as there is reason to believe they will, that the unfortunate girl came to her death from blood poisoning following an illegal operation performed for the purpose of procuring an abortion, it will probably go hard with Dr. Preston as there is said to be other evidence connecting him certainly with that operation.

Other essential witnesses will be the physician, Dr. J. H. Scammell, and Dr. W. F. Roberts, who were called in to treat the dying girl after the alleged operation was performed and Miss Maxwell and Muir, Victorian Order nurses, who cared for her. A sensational feature of their evidence will, it is understood, be an ante-mortem statement made by Miss Clarke, relating the circumstances of the tragic affair which ended in her death. It is said that this statement was written in writing and will form one of the strongest weapons in the hands of the prosecution.

COST \$1,800,000 TO ELECT ROOSEVELT. \$2,000,000 Less Than McKinley Had in 1896. Statement Issued of Republican National Campaign Fund—Money Came From 10,000 Different Sources.

WASHINGTON, Dec. 4.—According to a Washington newspaper which prints a long statement about the expenditures of Chairman Cortelyou in 1904, the Republican national committee used the sum of \$1,800,000 to elect Roosevelt and Fairbanks, and had in bank when the campaign was ended about \$100,000. It is shown that Chairman Hanna had in 1900 and nearly \$2,000,000 less than he had in 1896. It is stated that the money expended by Chairman Cortelyou came from 10,000 different sources. About 4,000 contributors are known, leaving about 6,000 unknown to the chairman of the national committee. The article is singularly lacking in details as to the identity of corporations and corporation managers that contributed to the Republican fund.

### LIVELY TIMES IN THE HALIFAX HOTEL

HALIFAX, Dec. 3.—The police lately have been very active in enforcing the liquor license law, and on Saturday night they caught the Queen Hotel for selling after hours. At the Halifax afterwards they failed, but a more sensational occurrence happened. Three policemen, saying they were looking for liquor elsewhere in the hotel, went to the room occupied by Major Watts, an imperial army officer. One of the policemen entered. He was put out. Then he came back with reinforcements and a scuffle ensued. Col. Drury, who was in the hotel, was sent for to assist his friend Watts. Then the chief of police was summoned, but he could not be found, and finally an armistice having been agreed upon the major was brought in. No liquor was found as a result of the search,

### BARGE REMBRANDT HAS GONE ADRIET

HALIFAX, Dec. 3.—The Dominion Coal Company's barge Rembrandt, loaded with coal and with a crew of six, bound from Louisburg for Halifax, has been adrift since Wednesday, and grave fears are entertained for her. She was in tow of the tug Douglas H. Thomas, when in the fierce gale and heavy sea that were prevailing the thirteen inch hawser parted. With the jar of the breaking hawser the tug's machinery became deranged, and by the time this was repaired and the tug under control the barge had drifted out of sight. After a fruitless search the Douglas came to Halifax and reported the loss. Today she and the Coban from Halifax and the Roebing from Halifax were sent out to search for the barge.

## THE GAME SEASON WAS A GOOD ONE

### Returns For Licenses Better Than Ever Before.

The game season in New Brunswick closed on Thursday last and as far as the returns have been received, it has been the most successful on record in the way of receipts for shooting licenses. Upwards of twenty-four thousand dollars has been sent to the commissioner's office up to date and this is between seven and eight thousand dollars more than last year's total.

L. B. Knight, chief game commissioner, speaking to the Sun last evening said that while a portion of this increase was due to the higher charges for non-resident licenses there had been many more local sportsmen in the woods this year and this would swell the revenue to no small extent, even though the fee was only two dollars. But Mr. Knight also thought that there had been something of an increase in the number of hunters from the States.

There has been, he says, some little objection to the higher fee for non-resident licenses, but it has not amounted to much, and was only to be expected. It has not in his opinion kept away any men who wanted to come to this province, but it may have some effect in this way next year, as most of the contracts with guides and for other hunting arrangements are made a year ahead.

Mr. Knight is now preparing his report to the government and is busy engaged in gathering information from the license vendors all over the province. In some cases this is difficult work for the system in force is new and has not had time to get into proper working order. For years Mr. Knight has been trying to establish a perfect system of registration so that the department will have an accurate account of every animal killed. For this purpose tags were last spring attached to every license sent to the vendors, but the thousands of tags on a hundred or two were returned to Frederick, showing that the new law had not yet taken hold. The tag which is of paper, does not seem authoritative enough and the registration of every animal killed. It is possible that some improvement may be made for the next season. According to reports from all sections of the province moose continue to increase in numbers while deer remain about the same. Now Brunswick is rapidly becoming the best field for sportsmen.

## THREE IMPORTANT REASONS

### Why intending purchasers of a Piano should buy from The Nordheimer Piano Co., LIMITED,

28 CHARLOTTE STREET.

1st—Because if you want quality you have the best in the city or province.

2nd—Because you buy direct from the manufacturer and save dealers' profits.

3rd—Because when you purchase a STEINWAY & SONS PIANO or a NORDHEIMER PIANO you get a piano worth its price. And you are sure that the same style piano only has ONE price and is not sold at three or four different prices in your vicinity or elsewhere.

OTTAWA, Dec. 3.—Members of the ministerial tariff commission left for Winnipeg yesterday.

Comstock, ex-M. P. for Brockville, another pillman, is to succeed the late Hon. G. T. Fairford in the senate. The government is evidently bound to have the upper house in comstock thought he should have had the seat when it was given to Fairford.

The report that Alf. Wood is retiring from the management of the Ottawa Free Press was supposed to be true. The Governor General this afternoon unveiled a beautiful window in Saint Alban's Church, to the memory of the late Major E. P. Taylor, of the G. O. F. G., who died about two years ago.

Hon. Mr. Emmerson, minister of railways, left for Boston yesterday. He will address the Canadian Club banquet there tomorrow.

Col. Bacon, for many years secretary of the D. R. A., died yesterday. He was in his eightieth year.

## MYSTERIOUS SHOOTING

### IN NEW YORK HOTEL

British Columbia Girl Killed—Her Supposed Husband Has Fled

NEW YORK, Dec. 3.—Roy L. Miller, a telephone superintendent in an uptown hotel, early today aroused the occupants of the flat adjoining the one he had occupied in 43rd street for the last three months with Lottie Miller, who he had introduced as his wife.

Early this morning he called that some one had been shot. Horace Hodges, living in the adjoining apartments, rushed out and followed Miller to the latter's dining room, where the woman fully clothed, lay unconscious upon the floor. Miller fell on his knees and begged her to speak to him, to tell the visitors she had shot herself, but there was no response. Hodges then hurried out for help. He returned in a few minutes with a policeman and a doctor and he found the woman dead and Miller gone. A search has failed to locate the man. A general alarm has been sent out for the arrest of Miller.

Neighbors of the Millers heard no quarrel nor did they hear the report of a wound in her left breast. Her clothing was scorched by the flash of the powder so closely had the revolver been held to her breast. The police say there was, however, no trace of powder upon the woman's fingers. The pistol lay near the body on the floor, one chamber empty. A search of the woman's effects leads the police to believe that she had the gun with her from British Columbia.

The authorities believe it was in a quarrel about her going back to her home that the shooting occurred.

## ERNEST TURNBULL HERE

VISITING OLD HOME.

Ernest Turnbull arrived in St. John on the Lake Champlain yesterday from England to visit his old home.

Speaking to the Sun last evening Mr. Turnbull said that there would be nothing revolutionary in the politics of England in the event of an election.

It is the general opinion that Premier Balfour will be returned probably with a reduced majority. The Daily Mail, which has facilities for forecasting the result of elections, predicts that the seats will go about the same as on the previous election. This is what is called "holding a poll."

The feeling seems quite strong that Balfour should not resign before coming before the people for election. Balfour has not displayed the sterling qualities which marked the progress of some former premiers as Disraeli, Gladstone and Salisbury, and has not retained all the influence which he had on first becoming premier. It is generally conceded that his power is waning, but it is likewise conceded that he will be returned in the event of an election.

In speaking of Chamberlain's influence in the result of an election, Mr. Turnbull said that undoubtedly Chamberlain would have a very strong personal following, but protection will gain no appreciable ground. The policy of protection could never be carried in England. It would be only a protection for a few, while to the majority it would mean an increase in the cost of living.

Mr. Turnbull was of opinion that there would be no greater interest taken in the present election than there is generally taken in an election in England.

ST. ANDREWS MEN STRUCK IT RICH. John and James Treadwell Own One of the Richest Mines Ever Discovered in California.

ST. ANDREWS, N. B., Dec. 2.—The following in reference to the good luck of two Saint Andrews boys, John and James Treadwell, is copied from the San Francisco Sun of the 25th ult.: "The richest and largest high grade gold mine ever discovered in California is now being opened in Trinity county, in the Bonanza King group, recently bought by John and James Treadwell and associates. It is noteworthy that the Treadwells developed the largest low grade quartz mine on the coast at Douglas Island, Juneau. From a seam only seven inches wide, extending across the face of a seven foot tunnel, has been taken gold ore that amounts to \$80,000. This ore assays \$50 to the ton. It is wire gold deposited on quartz.

"It is the richest ore ever exhibited in San Francisco, as the gold assays \$10 an ounce. The company, which paid only \$50,000 for the mine, has located claims along both sides of the ledge, which has been traced for two miles, and will build a mill on the east fork of Trinity river. Most of the ore can be worked through tunnels on a steep side hill. Around this rich seam for four feet the ore averages \$2,000 a ton; for thirty feet each side it assays \$50 a ton.

"Besides the Treadwells, J. Dabell Brown, of the California Safe Deposit and Trust Company, and W. J. Barnett, of the Western Pacific Railway, are interested." "The John and James Treadwell referred to are St. Andrews boys, sons of the late John Treadwell. Their aged mother resides here with her son Nathan, who with her daughter, Mrs. James Stoop, is tenderly ministering to her in her declining years.

Their aged mother resides here with her son Nathan, who with her daughter, Mrs. James Stoop, is tenderly ministering to her in her declining years.

Both John and James spent part of the past summer in St. Andrews, and John with his wife intends to spend the Christmas and New Year holidays in the old hometown. It can safely be written that as boys and men, the Treadwell brothers were great favorites in their native town, by all their associates, who are pleased to hear of their continued prosperity.

"Mrs. John Treadwell, accompanied by Miss Bartsch of St. John, arrived today by C. P. R. on their return from a visit to New York.

THOSE GIRLS. "Vernon told me this morning," related the blonde, "that he passed the tree where two years ago he carved your initials and his own and encircled them with a heart. He says he felt as good he almost danced with joy." "Ah," said the tall brunette anxiously, "he must still love me after all. Did he say why he felt so happy?" "Yes," he said, "some men were cutting the tree down."

C. P. R. VS. CONNELL. On Saturday afternoon before His Honor Judge Tuck application was made by P. R. Taylor on behalf of the C. P. R. for an injunction to restrain H. A. Connell of Woodstock, from interfering with the railway in their operations of banking around a pier of the company's bridge across the Medunkenness. There is now pending an equity suit brought by the C. P. R. against Mr. Connell to restrain the defendant from further excavating around the pier in question. J. C. Hartley, for defendant, claimed that the banking would create an obstruction 30 feet high in Mr. Connell's mill pond. H. H. Maclean, K. C., argued briefly in support of the application. The chief justice said that he would consider and decide early.

ELECTED JUDGES.

Nothing in recent American political development has created more sensation than the strong arraignment of the supreme court bench of New York County by William Travers Jerome, the newly re-elected district attorney, whose splendid campaign against boss domination has drawn to him international attention.

In the course of his remarks he said: "Go over to the bar association in this city, and if you know the men you meet well enough and they are inclined to talk they will say that they dare not take this or that case before a certain judge because he was assessed so much for his nomination and borrowed in from this corporation or that, or that a certain judge is mixed up in this or another commercial transaction. It is known that certain members of the judiciary to which I have reference retain their interests in commercial and other business matters and transactions while they sit on the bench. Every day that passes over their heads is filled with imminent peril—peril of a scandal that seems about to break because of these affiliations."

This has moved a valued American contemporary, the Portland Press, to an impressive advocacy of the system of life tenure of judicial offices such as exists in Canada. "We have," it says, "practically the same here in Maine, where judges are appointed for fixed terms; and as they are re-appointed almost without exception, it amounts to tenure for life or during good behavior. That is the right way, for it lifts the judiciary out of the realm of party politics and gives it an independent dignity. More than once a party dispute has arisen in the history of our State, which has given rise to a highly excited state of public feeling and has threatened the public peace, but which has finally been referred to and settled by our supreme judges regardless of how they voted when they went to the polls, such was the confidence in their fairness and judicial integrity. That is the way it should be. If we cannot trust the dispensers of justice, whom can we trust? But the elective system, which prevails in New York and many other States, inevitably tends to degrade the judgeship to the level of a political office, to be scrambled and fought for in the usual way. If, then, unworthy men are elected, or men beholden to wealthy patrons for favors, or men who are elected to office through the influence of party politics, it is not surprising that in a year two New York judges have been accused of grave misdemeanors, and though not convicted they have been unable to free themselves from suspicion. It looks very much as if the lid were about to be pulled off again. While New York is in the reforming mood it should reform the method of selecting its judiciary."

THE SUFFRAGE IN RUSSIA. It is evident from the Russian despatches that unless conditions change for the better very soon Count Witte's marvelous staying powers will be submitted to a dangerous strain. He has already undergone enough to kill a man of less solid nerve and fibre; and if he goes this last barrier against, anarchy will disappear. The urgent need of some immediate action to turn the current of popular feeling is strengthening the position of those who are advising a universal suffrage, and there is good prospect that this expedient, dangerous as it may seem, in view of the ignorance of the great mass of the Russian people, will be adopted. As one of the leading advocates of this policy points out, the objections that may be raised on the grounds of the ignorance of masses must be balanced by the absolute necessity of doing something to restore peace and confidence to this distressed country. The events of the past week have amply demonstrated the complete inability of the government to bring about this desired result. There is every reason to fear that the outrages and lawlessness fostered by misrule in the towns may have a terrible sequel in the villages unless prompt action be taken to arrest the contagion and the readiest method available is a general appeal to the consciences of the people in the form of universal suffrage. The present electoral law is utterly inefficient. The peasant vote is diluted to the fourth degree which not only renders it void of its personal element but leaves it at the mercy of local officials and traders. One thing is certain the movement in the direction of universal suffrage is spreading. The Moscow city council is going to request in order to give place to another body elected on a universal suffrage basis.

As one of the leading advocates of this policy points out, the objections that may be raised on the grounds of the ignorance of masses must be balanced by the absolute necessity of doing something to restore peace and confidence to this distressed country. The events of the past week have amply demonstrated the complete inability of the government to bring about this desired result. There is every reason to fear that the outrages and lawlessness fostered by misrule in the towns may have a terrible sequel in the villages unless prompt action be taken to arrest the contagion and the readiest method available is a general appeal to the consciences of the people in the form of universal suffrage. The present electoral law is utterly inefficient. The peasant vote is diluted to the fourth degree which not only renders it void of its personal element but leaves it at the mercy of local officials and traders. One thing is certain the movement in the direction of universal suffrage is spreading. The Moscow city council is going to request in order to give place to another body elected on a universal suffrage basis.

At any rate, you seem to be getting rid of it as much as possible. Stop the auction with Ayer's Hair Vigor. It checks falling hair, and always restores color to gray hair. A splendid dressing. Sold for over sixty years.

Great fun running a newspaper when you have as much money as Dave Russell. The St. John strikers got sore on his papers, the Telegraph and Times, because they advised them to go to work. Dave promptly sends down oil for the troubled waters to the amount of one thousand dollars, to be expended in conveying the Montreal strike-breakers out of St. John at once. The Times sells for one cent, so it will take the sale of 100,000 copies, (making no allowance for profit) to recoup David-Halifax Echo.

As the star goes to press we learn that the mayor is still holding his job. A disquieting rumor is prevalent, however, that Mr. David Russell is preparing another telegram.

It is reported that the labor trouble in the Telegraph and Times offices is to be settled by arbitration.

MANTOU. (By William Wilfred Campbell.) Girdled by Huron's throbbing and thunder. Out on the drift and lift of its blue; Walled by mists from the world around, Far from all hate and passion and wonder, Lieth the isle of the Manitou.

Here where the surfs of the great lake tramp. Thundering time worn caverns through. Beating on rock-coasts aged and ample, Stareth the Manitou's mist-walled temple. Floored with forest and roofed with blue. Grey crag-battlements seared and broken. Keep these passes for ages to come; Never a watchword here is spoken, Never a single sign or token. From hands that are motionless, lips that are dumb.

Only the sun-god rideth over, Marking the seasons with track of flame. Only the wild-fowl float and hover—Flocks of clouds whose white wings Spaces on spaces without a name. Stretches of marsh and wild lake meadow. Reaches that bend to the end of the world; Morn and even, sunshine and shadow, Wild flame of sunset over far meadow, Fields of white vapors sun-kissed and furled.

Year by year the ages onward Drift, but it lieth out here alone; Earthward the miles and the earth-ists onward, Starward the days, and the nights blacken. Whisper the forests, the beaches make moan.

Far from the world and its passions floating. Drift, but it lieth out here alone; Earthward the miles and the earth-ists onward, Starward the days, and the nights blacken. Whisper the forests, the beaches make moan.

HOME RULE WILL BE THE ISSUE In the Coming Election Campaign in Great Britain

LONDON, Dec. 3.—Evidence of the intention of the unionist party to force the use of the "home rule" in the coming election is shown by a letter written by Mr. Balfour to a unionist saying he hoped he would not support a "home rule policy."

The political gossip are busy leadership for the liberal party. The names suggested are interesting in forecasting the return to office of Sir Charles Dilke, who has been for twenty years without a portfolio. The Daily Telegraph somewhat curiously predicts that the chief secretary for Ireland in the liberal cabinet will be Sir Anthony Macdonnell, at present under-secretary to the lord lieutenant of Ireland.

HE PROVED IT. Casey—Whin I was passing your shanty last night that coat of yours nearly knocked the lift out of me. Sure, he's not well bred. Doolan—Maybe not, Casey, but he's a good butter, all right.

**The Wornout Nerves, The Weak Heart, The Tired Brain, The Wasted Strength.**

What a multitude of women there are who feel that these words exactly suit their case. From early morn until late at night they have been on the go, yearning and yearning, attending to the daily household duties, looking after the wants of her children and spending the rest of her time attending to social and church work. Is it any wonder that that sooner or later there comes a general collapse? The action of the heart becomes weak and palpitating, the nerves become unstrung, the brain feels in a whirl half the time and the usual force of vitality is lacking.

It is at this time a woman should look after herself. If she does not, serious female disorders may set in and often cause weary months and years of helplessness and miserable suffering. What she wants is something to build up her system. For this purpose there is nothing to equal

**MILBURN'S HEART AND NERVE PILLS**

They are the women's friend in every case of the kind.

They will strengthen the weak heart, tone up the shaky, starved nerves, make the blood and diet pills and was so run down I could not attend to my household duties. I bought two boxes of Milburn's Heart and Nerve Pills and after taking them I found that my trouble had all passed away. I am now strong and healthy again.

Milburn's Heart and Nerve Pills are in 50 cent boxes for \$1.25. If your dealer does not handle them, send direct to The Milburn Co., Ltd., Toronto, Ont.

**THE WINTER PORT BUSINESS RUSHING.**

Lively Times These Days at Sand Point.

The Lake Champlain Arrived Yesterday With 250 Passengers and a Large Cargo.

Business at Sand Point is very brisk, and the lively manner in which the cargoes are being handled by the local shipmen is very noticeable to every eye.

The Allan liner Sicilian sailed on Saturday afternoon with a good cargo and a fair passenger list. She arrived at Halifax yesterday to finish taking in cargo and mails for Montreal and Liverpool.

The Head liner Bonora Head is loading at No. 2 berth and will sail tomorrow for Belfast.

The Donaldson liner Athena, Capt. McNeil, is discharging at the new Corporation pier and will shift to No. 4 berth, Sand Point, tomorrow.

The Donaldson liner Alcides will be ready to sail for Glasgow tomorrow or Wednesday. She is taking in cargo at No. 4 berth, and will leave here filled to the hatch combings with general cargo.

The C. P. R. steamer Montezuma is being rapidly filled with a good general cargo at No. 1 berth and is expected to sail tomorrow for Liverpool.

The C. P. R. steamer Lake Champlain, Capt. Stewart, arrived in port yesterday afternoon, docking at No. 3 berth about four o'clock. Her voyage out was uneventful, although some heavy weather was encountered.

The Champlain brought out about two hundred and thirty passengers all told, nearly all of them Britisheers bound to the Northwest. Fourteen were Scandinavians and there were also a few Scandinavians and French. Twenty-five of thirty were going to settle in the United States, but the rest were anxiously looking forward to homes in the Canadian west. All the immigrants were in splendid health, and the women, and Dr. Ellis, immigration physician, remarked to the Sun that he had never seen a better lot of men and women.

They were placed aboard a special train, which left for the west early in the evening.

Another C. P. R. official who came on the Champlain was A. Piers, head of the steamship department, who was present at the launching of the steamer, the Empress of Britain, which was christened by Mrs. Piers. Both Mr. Piers and Mr. Ham spoke in the highest terms about the new ship.

Another passenger was O. D. Casselman, of the firm of Sandous, Sole & Casselman, Chesterville, Ont., who with Mrs. Casselman is returning from an extended trip to England and the continent. His firm exports great quantities of eggs to the old country and Mr. Casselman has been combining business with pleasure and looking after the interests of his firm abroad.

He said business in that line, especially in the west, was good there, and the future was brighter than it had been for some time.

A private car with the officials of the company and a first class car with western passengers left for Montreal about eight o'clock.

The steamer has a large general cargo, which is being rapidly discharged. She will take away a large cargo, sailing for Liverpool about Saturday.

Last evening at Sand Point the C. P. R. tendered a dinner to the first cabin passengers on the Lake Champlain. During the evening A. Poole proposed, and H. Sewell seconded, toast to the health of Captain Stewart. Both of the speakers had many compliments for Capt. Stewart and high praise for his steamer. The captain responded.

George McL. Brown, the new general passenger agent of the C. P. R. Atlantic steamship lines, formerly superintendent of the sleeping, dining and parlor car department, accompanied by Assistant Agent G. A. Ringland, C. E. E. Usher, general passenger agent of the railway, and W. G.

**LOCAL NEWS**

Rev. David Lang, pastor of St. Andrew's Church, announced at the service last night that a Bible class would be inaugurated Thursday evening. A large number have expressed a desire to enter such a class.

In the course of a letter to the London Times, Mrs. Close states that she has just bought a suitable farm in Canada, and that she is now in a position to place 15 children there on the lines suggested in the scheme for emigrating poor law children. "The farm is in New Brunswick, 18 miles from St. John and four from Rothesay and Hampton. It consists of 185 acres. The house has 10 rooms, each 15 feet by 10 feet, and is built on stone cellars throughout, 7 feet in height. The price is \$200. Our friends will thus be housed at an average capital cost of, say \$20 per head, whereas in England some 20,000 cost us more than \$250 per head. The staple articles of food are cheaper in Canada than here, and the farm will contribute largely towards the maintenance of the children."

Annable, the new general baggage agent, came to the city on Saturday on Montreal on a visit of inspection. They spent the afternoon at the west side. On Saturday evening Mr. Usher went to Halifax, and Mr. Annable and F. R. Perry will go today. Messrs. Brown and Ringland met Mr. Piers on the arrival of the Lake Champlain yesterday and returned with him to Montreal last evening.

The enlarging of the baggage room in the Union street immigration quarters is a great help to the C. P. R. officials and the baggage can be now better handled.

**"OZONE" ITS BEST FORM.**

The prompt and permanent removal of any internal germs is most surely effected by the use of "Solution of Ozone" or its "coupon kind." It means the liquefied oxygen is in the most concentrated form and that in addition is given free with either the 50 cent size, or the one dollar size of the Solution a coupon, good for a twenty-five cent laxative in the use of the stringent "Ozone" without lessening its curative properties. The Public Drug Co., Hildesburg, Ont., control exclusively the manufacture of both "Solution of Ozone" and "Celery King."

**THE ACADIA SECOND FORWARD MOVEMENT NEARING THE GOAL.**

The Acadia second forward movement, which was an undertaking to raise one hundred thousand dollars, was matched by another one hundred thousand dollars from Mr. Rockefeller, who began in 1903. It was necessary that the pledges should all be in by the first of January, 1906, though the payments of these may be extended until January first, 1906. The canvass for pledges is nearing completion. The Rev. W. L. Archibald and the Rev. H. F. Adams are at present engaged in covering those sections of the field not previously visited and it is morally certain that by the first of January the century line will have been crossed and the governors will have in their hands in cash pledges the full one hundred thousand dollars required. This is a magnificent achievement on the part of the Baptists of these provinces and other friends who have assisted. About thirty-five thousand dollars of the amount has already been collected, and a corresponding amount has been obtained from Mr. Rockefeller. When the entire amount shall have been realized from these pledges and from Mr. Rockefeller's pledge, the financial situation will be in a most satisfactory position. The buildings and laboratories will all be in excellent condition; all debts will be cancelled on college, seminary and academy and the endowment of the college will have been very substantially increased.

**RECENT DEATHS.**

**LOIS THOMPSON OF WELSPOR.** Yesterday morning, Lois Margaret Patience Thompson, daughter of William and Blanche Thompson, of Welsford, died in the General Public Hospital of peritonitis following an operation for appendicitis. She was only five years, four months and seventeen days old. She was brought to the city to the hospital on Friday evening, December 3rd, and operated on the same day, and seemed to be recovering nicely till last Friday, when she grew weaker, and gradually sank.

She was a particularly bright little child, and will have the sincere sympathy of all who knew them. The funeral will take place Tuesday afternoon at 2:30 from the residence of E. T. Seeds, 289 Germain street.

**MRS. MARY O'BRIEN.** Mrs. Mary O'Brien died on Saturday night at the residence of her daughter, Mrs. Joseph O'Brien, Brussels street. She was aged eighty years and had lived in St. John the greater part of her long life. She came from Donegal, Ire., about sixty years ago. Her husband died in Boston, Mrs. Joseph O'Brien was very well known. Of a devout disposition, she was noted for many good works in the city for some time, but no serious effect was anticipated till Saturday morning, when she sank rapidly till dark. Three sons and two daughters survive. The sons are Thomas and John, of this city, and James in Boston. Mrs. Joseph O'Brien, in whose house she died, and Mrs. Andrew Joyce, of Boston, are the daughters. The funeral will be held Tuesday afternoon at 2:30 o'clock, from her daughter's residence, 214 Brussels street.

**MRS. MATILDA MCGOWAN.** The death of Matilda McGowan, wife of Neil McGowan, occurred at the Mater Misericordiae Home yesterday. Deceased is survived by two daughters in the United States and one, Miss Mary, who is at home. The funeral will be on Tuesday morning at 10 o'clock, from the home.

**MRS. MARY COMEAU.** Mary, beloved wife of Harry ComEAU, J. C. R. engineer, died yesterday after a lingering illness of cancer. She was aged about fifty years. The funeral will take place at 2:30 o'clock tomorrow from her late residence, 377 Haymarket square.

**MUST NOT THROW STONES AT TRAINS**

PHILADELPHIA, Dec. 3.—As a result of the casting of a plumb bob into President Roosevelt's special train as it was passing through the northern part of this city Saturday night, the Pennsylvania railroad police and the Philadelphia police authorities have united in a determined effort to break up the practice of throwing missiles at trains. A thorough investigation of last night's incident is in progress.

"We have been persistently annoyed," said a Pennsylvania road official today "by the throwing of stones and bricks through car windows by miscreants. These occur usually in outlying parts of the city. The only thing that will break up the practice is a heavy fine and imprisonment for the offenders when caught."

**U. S. REVENUE SHOWS AN INCREASE**

WASHINGTON, Dec. 3.—The annual report of Commissioner John W. Yerkes of the revenue bureau treasury department shows that the receipts of the year ending June 30, 1905, were \$231,178,778, an excess of \$1,234,195 over the fiscal year of 1904.

The leading states in the payment of revenue taxes for the past year are Illinois, New York, Indiana, Kentucky, Ohio and Pennsylvania.

In 1904 the total production of distilled spirits was 129,958,214 gallons; in 1905, 153,255,373 gallons. There has been an increase in the amount of tobacco and snuff manufactured, and in the production of beer.

The amount of snuff imported shows a large increase over last year.

**Great Crowds Through This Store and Take Advantage of Thousands of Dollars' Worth of Merchandise Being Sold for Close to Half, in Our Reorganization Sale**

Saturday, every eye was turned towards Oak Hall. Saturday, storekeepers and citizens watched the outcome of the first day of our Great Reorganization Sale. Saturday, the greatest Clothing sale ever held in St. John opened with a rush and a crush. From eight o'clock in the morning until eleven at night the store was crammed, jammed full of eager buyers—we were compelled to close for one hour, between 6 and 7 at night, to straighten stocks. Saturday, the effect of square dealing in the past, coupled with the fact that we had commenced a Genuine Reduction Sale, was proved by the hearty way in which the crowds besieged this store and carried off the goods. Saturday was a great big red letter day at the Oak Hall.

Sale will continue all the week, closing Saturday night at eleven. To-night and Tuesday night we will remain open until 9 o'clock for the accommodation of those who had to work all day and late at night on Saturday, and could not get here.

## HEAVY LOSS CAUSED BY RAIN STORM.

### Choked Drain Pipe Flooded Premises of London House Wholesale—Expensive Stock Was Badly Damaged.

Last night, about 9.30 o'clock when Policeman McNamee was trying the door, off Church street, he found the sotch of the rear elevator doors of the London House (Wholesale) movable. He procured a lantern and with Policeman Wm. Sullivan started to make an investigation and instead of finding burglars they discovered that the stock inside was being rapidly destroyed by a deluge of water that was coming through the roof.

The policemen were under the impression that the adjoining premises were also affected. R. B. Paterson, of Brock & Paterson, was communicated with and he found it was not his stock that was being damaged but only that of the London House. F. S. Blatner, vice-president of the London House Company, telephoned for the Salvage Corps and their covers were used to cover up the stock.

A drain pipe between the building occupied by Henderson & Hunt and the London House had become clogged and the overflow caused the deluge.

The fifth and fourth floors contain staples and piece goods. The third floor is devoted to millinery, dowers and feathers and it is estimated that much of this stock is absolutely ruined. The second floor holds a stock of ready-to-wear goods, and small wares occupy the ground floor. The rooms in the half of the building which adjoins Brock & Paterson's Ltd., have escaped much injury.

Considerable goods have been saved by oilcloth covers placed on by the policemen and rubber covers from the Salvage Corps. The rain of Saturday night and Sunday had, however, done a great amount of damage before it was discovered and although the firm cannot give a statement as to their loss as yet it is feared that the loss may amount to \$500 or \$1000. The stock is badly soaked with water and a large quantity of the goods totally destroyed.

The building is owned by the Whitaker estate. Both the building and contents are insured against fire but the owners do not receive any insurance for damage done by water under these circumstances and the loss will have to be borne by the owners.

The roof of the building where the water came in was a comparatively new one having been built about three years ago.

The Carleton Foundry Company has applied to the courts for a winding-up order. The application was made to Judge McLeod last Thursday in consequence, it is said, of Patterson, Downing Company having issued an execution and levied a distress on the boiler and engines of the company for an account for coal supplied. The goods were advertised for sale when the company made their application, and summons returnable on Saturday, was served on the plaintiffs to show cause why the sale should not be suspended until the winding-up order was granted. The case was not taken up on Saturday, and stands postponed until a date to be agreed upon by the counsel. Iron. H. A. McKown will represent the Carleton foundry, and J. King Kelley will appear for Patterson, Downing Company.

### Tooth Hints!

"When ought we to go to the dentist?" Many think it unnecessary to devote particular attention to the teeth until the appearance of the mouth is affected by damaged, decayed or broken teeth. Others give their teeth no attention till pain compels them.

The sturdiness and short-sightedness of either policy is evident.

Every one who thinks a moment on the subject knows that we cannot masticate our food satisfactorily if one or more of the teeth are tender, inflamed, decayed or otherwise out of working order; and that if this be the case the mouth requires immediate attention.
