Raspberry, Strawberry, Pineapple & Lemon Syrup.

Sovereign and Montserrat Lime Juice.

Also Something New in the line of Lemon Powder.

TRY A CAN; ONLY 10c.

GEO STABLES.

THE PEOPLE'S GROCER.

HARCOURT.

Much sympathy is felt in the village for the family and friends of Mrs. Robert Hutchinson, whose death occurred at the home of her son-in-law Mr. David Johnston Monday evening. Mrs. Hutchinson, whose maiden name was Mary Ann Christie, was born at Gasperaux Queen's Co., eighty years ago. She is a daughter of John and Pamela Christie of Gasperaux, and niece of Mrs. Andrew Dunn of Harcourt. She is survived by one brother, resident in Minneapolis, Minn., and two sisters, one in Boston, Mass., and one in Berkeley, Cal.

All the immediate members of the family were present at her death-bed, Mr. John Hutchinson, of Harcourt; Robert of St. John; William of Boston, Mrs. McKay of St. John, Mrs. Beattie of Boston, Mrs. Perry of Rogersville and Mrs. Johnston of Harcourt, with whom deceased has for many years made her home. Mrs. Hutchinson was a devout and faithful adherent of the Presbyterian church.

In the absence of Rev. R. H. Stavert the funeral services were conducted by Rev. Mr. Hubley on Tuesday afternoon, after which the remains were taken to Redbank, Queens Co., for interment, beside those of her husband, who died twenty three years ago. The deceased lady was universally beloved. Her gentle disposition gained for her a host of friends. Few have been followed to the grave by more sincere mourners than this aged lady, who will be much missed and long remembered by all who knew her.

To the sons and daughters who mourn a loving mother, the sympathy of the community is extended.

CASTORIA. The Kind You Have Always Bought. Bear the Signature of *Wm. D. Galt*

BISHOP BLESSES CATHEDRAL BELLS.

Interesting Ceremony at New Cathedral Sunday Afternoon.

An interesting and impressive ceremony took place in the upper church of the new Roman Catholic Cathedral Sunday afternoon, when the three bells for the handsome edifice were consecrated. The service was the first to be held in this portion of the cathedral and was attended by a very large congregation.

The bells were arranged at one end of the church and were prettily decorated with flowers.

The large bell, weighing 4200 pounds, was dedicated to St. James, in memory of the Rt. Rev. James Rogers, first bishop of Chatham.

The second, weighing 1200 pounds, was dedicated to St. Thomas, patron saint of Rt. Rev. Thomas F. Barry, present Bishop of Chatham.

The third, weighing 1000 pounds, was dedicated to St. Pius, in honor of Pope Pius X, gloriously reigning.

The service was conducted by Bishop Barry, assisted by R. V. Father O'Keefe, deacon, Rev. Father Hart, sub deacon, and Rev. Father O'Leary, master of ceremonies.

The sermon was delivered by Rev. Father Ethelhurst, O. F. M., who in an eloquent manner showed how the bells brought a message of peace and joy, and of conferring of grace from on high, while at the same time they pealed forth the joyous, sorrowful, as well as the prayerful sentiments of the faithful below. He explained the ceremony and hoped that the sound of the bells would mean the participation by the congregation in the celestial jubilee in time in eternity.

The smallest bell will be placed in the present tower at the Pro-

cathedral, and the bell now there, weighing 2000 pounds, will be placed along with the other two in the tower of the new Cathedral. At the close of the ceremony the congregation sounded the bells in turn, and made offerings to the amount of \$270.—Commercial

MILITARY INQUIRY AT ANNAPOLIS, N. S.

(Graphic)
ANNAPOLIS, Md., July 26.—Today's session of the board of inquiry at the Naval Academy, which is investigating the circumstances surrounding the death of Lieutenant Jas. N. Sutton, of the Marine Corps, who was mysteriously shot two years ago, afforded some surprise in the testimony given by Chas. W. Kennedy, now a private in the Marine Corps at Norfolk, Va. and Surgeon A. D. McCormick, U. S. N.

Kennedy dropped into the situation like a bolt from the clear sky and told a frank straightforward story of some of the incidents prior to the shooting which had not been mentioned by any of the young officers who have already testified. Though an eye-witness to the early encounter between Sutton and Lieutenant Adams on the night the former was shot, Kennedy's name has not been mentioned by the witnesses concerned in the affair. His testimony supported the contention of Sutton's mother and sister, that Sutton did not seek the fight with Adams and the other officers. In attacking his credibility, Major Leonard, the judge advocate, went into the private record and showed he had been disciplined on several occasions in the service.

Kennedy said he had been reluctant to mention his part in the affair because Lieutenants Utley and Adams his superiors, had both admonished him on the morning following the shooting to keep quiet. On his way to relieve a sentry at 1 o'clock in the morning of the shooting he came on Sutton, Adams, Osterman and Utley in an angry argument, the witness said.

Adams was in his shirt sleeves, ready for a fight, and Sutton had accosted him, Kennedy, and asked him to hold his blouse, cape and cap.

"All right, Adams, if you want to fight I'll fight you," he heard Sutton say, the witness testified. They fought hard for a few minutes, when Lieutenant Utley interfered and stopped the fight, saying the guard would be out if they did not stop.

A second time he saw Adams and Sutton come together as he was going away to his post, Kennedy said. Half an hour later Kennedy heard the shots from his post at the naval hospital, and soon after Adams appeared at the hospital and volunteered the information to Kennedy, that Sutton had shot himself and that Adams had his finger shot off. Utley also told him at the time that Sutton had killed himself, the witness said.

Next morning they both cautioned him not to say anything about the affair. While at early drill on the following morning, the witness said, he saw Lieutenant Utley go to the edge of the parade ground and pick up a .25-calibre Colt service revolver, which Utley carried into the barracks with him. The incident had been observed

SPRING HILL MINERS STRIKE.

At a mass meeting of 1,200 of the U. M. W. held at the drill hall in Spring Hill, N. S., the following resolution was passed unanimously:

"Whereas, the mine workers of Springhill have various grievances which we have endeavored to have adjusted by and through the medium of conciliation; and

"Whereas, the various boards of conciliation have failed to give us the desired end.

"Be it resolved, that we, the mine workers of Springhill, cease work Tuesday, August 10, 1909, and remain idle until the Cumberland Railway & Coal Company grant the following demand:

"1—Recognition of the union.

"2—That 1,770 pounds be the standard weight of a box of coal, as decided by the Patterson board, that the price per ton be based on this standard, and the miners be paid by the ton.

"3—The establishment of a schedule of prices for all kinds of work, in and about the mines, and same regulations as are necessary for the proper government of mutual interests.

"4—The establishment of a fair docking system."

The decision to strike calls out everybody employed by the Cumberland Railway & Coal Company except 100 men belonging to the Brotherhood of Railway Employees, and it will soon affect them also, because of the fact that if the mines are tightly tied up it leaves nothing for the rail way men to do, and they will be idle whether willing or not.

While the men are thus unanimously agreed, the company are no less determined. General Manager J. R. Cowans will put up posters in the town tomorrow stating that the men desiring to return to work now may do so on the old wages and old terms. But if they do not return and he has to close down the mines he will never take them back except at a reduction of ten per cent.

District President Dan McDougall and International Vice President S. McCullough were present at night's meeting and informed the men that the international organization were ready to give them all the support necessary to fight the issue to a conclusion.

UPPER BLACKVILLE.

Farmers in this district are busy with the hay which is a fairly good crop.

Mrs. M. B. Coughlan and daughter Willa, returned from Bristol on Saturday.

Mr. and Mrs. Chas. Donald have returned from a very pleasant trip to Newcastle, St. John and Fredericton.

Mrs. B. Donald has returned from Whitneyville.

Mrs. Paul Luther of Bridgeport, Conn., is visiting her parents Mr. and Mrs. J. E. Dunphy.

Rev. Mr. Walden is holding a series of evangelistic services in our church here.

Mrs. Thomas Sewell and Miss Grace Davidson have returned from a pleasant trip to Indian-town.

The Spanish Pretender who died the other day wasn't pretending when he did so. Man's last enemy isn't so easily fooled.

So serious is the cholera epidemic in St. Petersburg that the proposed visit of the King and Queen of Denmark has been abandoned.

If New Brunswick is ambitious to become the South Dakota of Canada, three divorces granted by one court on one day is a good start.

by other privates in the company, the witness said.

Kennedy's testimony was not shaken by cross examination of Adams, counsel, Mr. Birney, nor by that of Major Leonard.

FIRES AT NEWCASTLE. The Dwelling of Fred McRae and Barn of Wm. Ashford Burned.

On Friday morning at about ten o'clock smoke was seen coming from the dwelling of Frederick McRae on Upper New Highway. In a few minutes a considerable crowd had gathered and a fire alarm sent in. The house, though within the town limit is outside the fire district.

Several of the firemen, however, drove to the scene and assisted in removing the contents of the house and in this way most of the household effects were saved. But with only a bucket brigade and a scant supply of water, all efforts to save the house were unavailing, and it was reduced to ashes. The building was insured.

At about four o'clock in the afternoon another alarm rang in. This time the fire was reported at the Leader Office and thither the Fire Brigade went, only to find it was in another direction—the barn of Mr. William Ashford on Mitchell street, was being rapidly demolished by the flames. Several streams of water were directed on the building and in short time the fire was under control.

The building, however, was pretty badly burned, and a couple of adjoining buildings scorched. The contents of the barn—chiefly hay—was practically ruined. There was no insurance.

HON. MR. HUBLEY ON HIS WAY EAST.

Prince Albert, Sask., Aug. 9.—Hon. Wm. P. HUBLEY saves here on his eastward journey today.

He visited Saskatoon and remained there Friday afternoon and part of Saturday. He was received by Mr. McCranney, M. P., and a large number of citizens and visited the fair. On Saturday he addressed the Canadian Club at luncheon. He arrived at Prince Albert on Saturday evening and was entertained at a civic banquet.—Telegraph.

FIGHT THE EVIL.

TO THE EDITOR UNION ADVOCATE.

SIR—Referring to your remarks on the article from the Albert Journal, in the Advocate last week I would like to ask a question. If the goods are no better or no cheaper from the Upper Canada Departmental stores is it not strange that the thousands in the Lower Provinces who patronize these stores are not cognizant of the fact. The proof of the pudding is in the eating. It's quite true, I believe, that hundreds of dollars go from Millerton each year chiefly to Eatons. But why? People say they could not live if it were not for Eatons. Let me give one instance or two. They can be multiplied a hundred times. I was told only a few weeks ago that a person bought three pounds of Tapioca. The price was 45 cents. A short time afterwards an order was going to Eatons. The same person sent there for the same quantity and the price was 15 cents—a difference of 30 cents, only, which remained in the purchaser's pocket. A year last Xmas a lady in Millerton ordered Xmas goods from Newcas. L. L. Xmas she sent to Eaton's and had more than double the quantity for the same amount, and the goods did not suffer in comparison with those purchased in Newcastle. Again I saw two tins of salmon purchased in a store not a hundred miles from Newcastle for 36 cents. The salmon were of an inferior quality. Two tins of a better quality can be purchased at Eaton's for 25 cents. It is quite easy to understand why the people in increasing numbers send to the Departmental stores. The people of Newcastle and Millerton send hundreds of dollars. The great majority of them work for their living and they have a right to spend it to the best advantage.

Yours truly,

READER.

Yours truly,

TO THE MOTHERS OF PALE GIRLS.

A Case Showing How the Tonic Treatment Restores Lost Health.

Anaemia is simply lack of blood. It is one of the most common and at the same time most dangerous diseases with which growing girls suffer. It is common because the blood so often becomes impoverished during development, when girls often over-tire, over-work and suffer from lack of exercise. It is dangerous because of the stealthiness of its approach and because of its tendency to grow so steadily worse, if not promptly checked that it may run into consumption. Every growing girl should take an occasional tonic to ward off the insidious trouble, and in all the world there is no tonic that can equal Dr. Williams' Pink Pills. Every dose of this medicine helps to make new, rich blood, which promptly makes weak, pale, listless girls bright, rosy and strong. Miss A. M. Dugan, Lower Cove, N. S., says: "I believe I owe my life to Dr. Williams' Pink Pills. My blood seemed to have turned to water. I was pale as a sheet; I suffered from headaches, and floating specks seemed to be constantly before my eyes. As the trouble progressed my limbs began to swell, and it was feared that dropsy had set in and that my case was hopeless. Up to this time two doctors had attended me, but now that I kept growing worse. It was at this juncture I began using Dr. Williams' Pink Pills, and after taking a few boxes I was much improved. I kept on using the Pills until I had taken eight boxes, when my health was completely restored."

DROWNING AT CHARLOTTETOWN.

Charlottetown, Aug. 5.—About noon yesterday Irving McKenzie, aged 24 while swimming Oyster Cove, Hamilton, ten miles from Summerside, took cramps and sank drowning before the eyes of his twin brother Fred and a young lad, both on the shore. The lads had been out sailing and after landing, McKenzie started to swim from a dory near the shore to where a larger boat was anchored. He called out he was drowning and others tried to catch him with an oar but the water was too deep. By the time they got to the dory McKenzie had perished. The body was recovered shortly after.

JUVENILE INDUSTRY.

New York Globe. A Harlem matron, calling upon a friend the other afternoon, was obliged to wait some minutes in the parlor. During this period two interesting small boys of the household were busy catching flies on window panes, wall, or furniture. "Don't you know boys, that it is cruel and wicked to do that? I never allow my children to do it," she said. "Ma didn't let us, either, until this summer," was the elder's reply. "But she says they've found out that flies can give you all kinds of diseases, so now she tells us to go ahead. We save 'em all when we kill 'em, and Dad gives us five cents for every fifty."

ABSOLUTE SECURITY. Genuine Carter's Little Liver Pills.

Must Bear Signature of Aunt Good. See Pac-Simile Wrapper Below. Very small and as easy to take as sugar. FOR HEADACHE, FOR DIZZINESS, FOR RILIOUSNESS, FOR TORPID LIVER, FOR CONSTIPATION FOR SALLOW SKIN, FOR THE COMPLEXION. CURE SICK HEADACHE.

MURDER AT GUYSBORO.

Hallifax, Aug. 5.—The belated information has come to hand of the atrocious deed of a vicious negro boy of Boylston, Guysboro Co. This lad is a son of Joseph Isset, generally known as 'the violinist'. The father and mother were away on a picnic on Thursday last and upon returning home found that the son, thirteen or fourteen years of age had tied his little six-year-old sister to a ladder and beaten her to death. The father applied to the overseers of the poor for assistance to bury the dead child and an order was given him to have this done. Subsequently suspicion was aroused and the local authorities had the body disinterred and examined. Coroner Atwater empanelled a jury and held an inquest. At this inquiry magistrate Desbarres was present and Dr. Buckley, who made the autopsy, testified as to the cause of death. The boy, who is charged with the deed, was arrested and lodged in jail and will be tried before a magistrate today. Two brothers, one younger and another older by a couple of years are held as accomplices.

A GREAT EXPLOSION.

The biggest blast used on the G. T. P. construction east of Quebec was recently successfully carried out at Hennigar Mountain on the Willard Kitchen Company's work. It was intended to tunnel this place, but the rock proved of the wrong formation. A charge of between five and six tons of dynamite was used at each end, and the explosion opened up about 40,000 cubic yards of material.

In the early days of the Victorian era a London belle thought she was much in society if she attended six or seven balls in the course of the season. Now a debutant is not in it unless she has invitations for that many parties a night.

ITCH, Mange, Prairie Scratches, Barber's Itch and every form of contagious Itch on humans or animals cured in 30 minutes by Wolford's Sanitary Lotion. It never fails. Sold A. E. SHAW'S Pharmacy.

The drowning of the two girls in Lake Deschenes, on the 13th, is only another added to the age-long list of drink's doings. Girls as well as men, according to some witnesses, seem to have been drunk, and so irresponsible.

ENGLISH SPAVIN LINIMENT removes all hard, soft or enlaid lumps and blemishes from horses, blood spavin, curbs, splints, ringbone, swellings, stiles, sprains, sore and swollen throat, coughs, etc. Save \$50 by use of one bottle. Warranted the most wonderful Hemorrhoid Cure ever known. Sold by A. E. SHAW'S Pharmacy.

The moral of the successful flight of the Blériot monoplane across the English channel appears to be, according to the expert, that the nations of the world should forthwith consign their fleets to the scrap heap and should disband their infantry regiments and cavalry squadrons, reserving only their artillery with which to destroy "errors of the air".

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, O. We the undersigned have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm. WALKER, KINMAN & MAKVIN, Wholesale Druggists Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists. Take Hall's Family Pills for constipation.

St. John, Aug. 5.—J. E. Stewart, who is at the Victoria Hotel, said last evening that the construction contract for the Tobique and Campbellton Railroad would be let early in the autumn and that construction work would begin this year. The new railroad, which is practically an extension of the Tobique Valley Railway from Plaster Rock to Riley Brook, will be operated by the Canadian Pacific Railway under terms similar to those under which that company operates the Tobique Valley Railroad. Mr. Stewart and J. F. Tweedale, M. P. P. for Victoria, but recently returned from Montreal, where they completed arrangements with the C. P. R. for signing the operating contract.

The Tobique and Campbellton, according to present expectations, will be twenty-eight miles in length, running from the present terminus of the Tobique Valley Railway to Riley Brook. From the latter place the road is eventually to be extended from Riley Brook to tap the International. Until the latter road is completed the work of location cannot be carried out. The new road will run along the west bank of the Tobique river through a thickly settled district. A short distance from Plaster Rock the railway will connect with the National Transcontinental.

The brainless fool who rocks the boat is getting in his work now. He generally gets drowned, but his place is always taken by some other pinhead.

COUGH IN ONE DAY.

Coughs Disappear Magic When Hyomei is Used.

If the thousands of people who suffer from hacking coughs and agonizing colds would arouse themselves sufficiently to follow this advice, they would cease to complain within hours.

Here is the advice, if you take it you are afterwards sorry that you did not take it sooner. Go to T. J. Durick the druggist, and purchase from him a Hyomei (pronounced High-oh-mee) outfit. It will only cost you \$1.00. Take it home use it according to directions and if it does not cure your cough or cold, take it back and T. J. Durick will refund the purchase price.

Mrs. I. Coon, of John Street, Acton, Ont., says: "I had a swelling come near my eyes which was caused by the catarrhal condition. I had to cough up the bad impurities which dropped into my throat, and it felt as if a hard cold had attacked me, right in my head, nose and glands. A week's treatment of Hyomei overcame my trouble. I am glad to endorse Hyomei."

When you use Hyomei you don't swallow nauseating drugs. You simply breathe in the soothing, pleasant and antiseptic Hyomei air through the little pocket inhaler that comes with each outfit. As this medicated air passes over the inflamed parts, relief comes almost at once and cure follows.

Hyomei is also guaranteed by T. J. Durick to cure catarrh, croup, grip and asthma.

DALHOUSIE.

(Graphic.)

Dalhousie, N. B., Aug. 5.—Among many pleasing functions that took place this week in town was the garden party given by Rev. Mr. Bate at the rectory on Monday evening in honor of Bishop Richardson. The grounds were prettily decorated with flags and Chinese lanterns. A large number of our citizens attended. After refreshments had been served on the grounds a musical program was carried out in the rectory. Those who took part were—Mrs. H. A. Hilyard, Mrs. John Potts, Miss Bessie Stewart, James B. Storer, Robert L. Lennox, Miss Jette of Savannah gave a couple of recitations.

Mrs. John Potts also recited. His Lordship Bishop Richardson delivered a very interesting address to the guests. He was pleased with the reception tendered him by the congregation and spoke of the good work being done by the church in Dalhousie. He was delighted to meet so many Dalhousie citizens and thanked the pastor and his wife for having afforded him the opportunity of making so many friends.

Ideal weather prevailed here on Wednesday for the annual Sunday School picnic of St. Mary's Episcopal congregation. The picnic was held above town on the grounds formerly owned by the late Marshall Reid and all enjoyed the day.

The Misses Crockett of Fredericton are visiting their uncle, Mr. Simon McGregor. Miss Stowell, Miss Conant, Miss Hope, Boston; Miss Lines, Illinois; Mrs. Lawrence, St. John; Mrs. McCallum, Master Douglas and baby, Miss Deckman, Ottawa, are guests of the Misses Stewart at Glen Cottage.

The following are recent arrivals at Inch Arran House:—The Misses Page, Toronto; F. E. Neale, Chatham; Jas. Edwards, Mrs. Edwards, Misses Ruth, Ellen and Helen Edwards, Masters Arthur and Donald Edwards, Moncton; Mrs. A. R. Wetmore, Master Allen and Miss Margaret Wetmore Fredericton; Mr. and Mrs. A. Lealie and two children, Picton, Ont.; Mr. and Mrs. A. M. Bain, Toronto; Mrs. G. Smith and four children, St. John; Miss Johnson, St. John; Laurence Lamb, Ottawa; Mr. and Mrs. Jack Fairbairn, Miss Fairbairn, Master Jack Fairbairn, Montreal; W. H. Powell, Boston; Miss Bishop, Bathurst; Miss Helen Bishop, Mrs. James Byrne, Bathurst; Mr. A. Gordon Lee, Quebec; Judge W. S. Decker, N. B.; Mrs. W. G. Scott, St. John; Master Guy Scott, St. John; P. S. Archibald, Moncton; Mr. H. Evans, Moncton; Mrs. C. C. Lines, Peoria, Illinois; Mrs. J. M. Lawrence, St. John; Miss Mary A. Stowell, Boston; R. Moffat, Campbellton; Mrs. Malcolm, Campbellton; Mrs. F. E. Neale, Miss Neale, Miss DesBrisay, Chatham; Mr. and Mrs. J. Champagne, Ottawa; T. E. Berrill, Fredericton; Miss Massey, Fredericton; Mrs. H. S. Alexander, Miss Marion Alexander, Campbellton; Mrs. Gordon Grant and family, Ottawa; Mr. Wm. McCarthy, Ottawa; Mrs. F. S. Blair, Campbellton; C. W. Irvin, Toronto; Mr. and Mrs. E. Stratton, New York; Miss Helen E. Stratton, New York; Mrs. D. Fisher, Springfield; Miss E. Duth Dunton, Mass.; Mrs. Jas. Burnes, Toronto; D. Ferguson, Miss Ferguson, Chatham; Miss Jellet, Cross Point; A. R. Fraser, Quebec.

Mrs. C. O. Vall arrived home from the States on Tuesday to spend a few weeks with her parents Mr. and Mrs. T. G. Scott.

Mr. and Mrs. Stanley Hood of Halifax were guests at Murphy's Hotel on Tuesday.

Mr. and Mrs. Rodgers and Miss Marion Rodgers of Amherst, N. S., were at Murphy's on Wednesday.

Miss Lillian Baxter of Campbellton was in town this week.

Mr. W. K. McKeen of St. Omer, Q., was in town this week. Mrs. James Greene of Miguasha Q., was in town on Monday. Mr. and Mrs. deB. Carrite and Mr. Bert Carrite of St. John were at Murphy's Hotel on Tuesday enroute to Matapedia with their automobiles. Miss Helen Bishop of Bathurst is visiting Mrs. H. A. Hilyard. A very enjoyable dancing party was given on Wednesday evening by the Misses LaBilloy to their young friends in honor of their guest Miss Josephine Jette.

DROWNING AT APOHAQUI.

St. John, Aug. 5.—A telephone message from Apohaqui last evening told the story of a tragic drowning which took place in the Kennebecac river there during the afternoon, by which George Burton Vessey, the 14 year old son of Mr. and Mrs. George Vessey, lost his life. The body was quickly recovered.

Mr. W. K. McKeen of St. Omer, Q., was in town this week. Mrs. James Greene of Miguasha Q., was in town on Monday. Mr. and Mrs. deB. Carrite and Mr. Bert Carrite of St. John were at Murphy's Hotel on Tuesday enroute to Matapedia with their automobiles. Miss Helen Bishop of Bathurst is visiting Mrs. H. A. Hilyard. A very enjoyable dancing party was given on Wednesday evening by the Misses LaBilloy to their young friends in honor of their guest Miss Josephine Jette.

Mrs. George Gordon and her daughter, Miss Irene of Boston arrived here in Wednesday evening to spend a few days visiting their old Dalhousie friends. They are the guests of the Misses Stewart at Glen Cottage.

Monday, Aug. 2nd, was a red letter day at Bonnie Brae, the residence of Mr. Geo. Haddow, one of the best known and most highly respected residents of the North Shore. It was the fiftieth anniversary of Mr. and Mrs. Haddow's wedding day, and as practically the whole of their married life has been spent in Dalhousie, considerable interest was taken in the occasion by the community at large.

Mr. Haddow came to Dalhousie from Miramichi more than half a century ago and engaged in ship-building, canning, and general mercantile business. He was 41 one time Member of Parliament for Restigouche, having been twice elected to the House of Commons for this constituency. For some years past he has been collector of customs for the port of Dalhousie. Mrs. Haddow was a daughter of the late Rev. John McCurdy, D. D., of Chatham, N. B.

A large number of guests were present at the golden wedding celebration including all the children both by birth and marriage and the grandchildren. The children are Rev. Robt. Haddow, (died of "The Westminster" and "The Presbyterian" of Toronto; Mrs. Keith, wife of Mr. George Keith of Toronto; Miss Lena Haddow of Dalhousie; Mrs. Keith, wife of Mr. John Keith of the Dominion Bank Winnipeg. Other guests included Professor J. E. McCurdy of Toronto University (Mrs. Haddow's brother), Mrs. Anderson of Chatham, N. B., Miss Anderson, Mr. Alexander Peden, of Montreal, Mr. D. Richardson of Schenectady, N. Y., Mr. and Mrs. A. S. Campbell of Moncton, Mrs. John Burns of Toronto, Miss Pride of Boston, and others. A reception was held on Monday afternoon when friends from town and country availed themselves of the opportunity of extending their congratulations and good wishes to Mr. and Mrs. Haddow. Telegrams of congratulations were also received from New York, Vancouver, Toronto, Montreal, Peterboro, Fredericton, Moncton, and many other points.

The presents were numerous and varied in character, several of them taking the form of gold coins. In some instances they were accompanied by addresses. One of these addresses was from the immediate members of the family. Another was from the session of St. John's Church, Dalhousie, in which Mr. Haddow has served as elder, trustee and Sunday school worker for many years, and in which Mrs. Haddow has also taken a diligent and helpful part. Another address was from the Dalhousie Division of the Sons of Temperance. This referred to the fact that for over fifty years Mr. Haddow had been an earnest and faithful member of the Division and that he and his wife had ever stood in the community for all that elevates and Christianizes. One of the most pleasing features of the occasion was the reception of an address from former Restigouche friends now residing in Vancouver, B. C. This address, beautifully engrossed on parchment, made special reference to the kindness, generosity and unflinching hospitality of Mr. and Mrs. Haddow. It was accompanied by a purse of one hundred dollars in gold and was signed by the following:

Janet DesBrisay, Maize DesBrisay, Helena DesBrisay, Ella DesBrisay, Alex. DesBrisay, Albert DesBrisay, Merrill DesBrisay, Percy DesBrisay, Solomon DesBrisay, James DesBrisay, Robert Dickie, Mary Dickie, R. A. Dickie, Elizabeth Dickie, Ansl Thatcher, Elizabeth Thatcher, Margaret Dickie, Geo. A. Dickie, E. A. Dickie, J. A. Dickie, Anna P. Dickie, Matilda Hopburn, John Hopburn, Wm. McMillan, Catherine McMillan, M. K. Morrison, Mrs. M. K. Morrison, Robert McNair, Annie McNair, Angus Fraser, C. W. Murray, E. J. Murray, Gertrude Smith, J. R. Reid.

Both Mr. and Mrs. Haddow are still in the enjoyment of a goodly measure of health and strength, and the sincere wish of a host of friends is that they may still be spared for many years of happy usefulness.

"RED BALL" ALE AND PORTER. THESE FAMOUS BEVERAGES ARE NOW QUITE AVAILABLE to all private homes, no matter in what county residence may be situated. THE LAW SAYS: "2. Paragraph (C) of sub-section 1 of this section shall not apply to any intoxicating liquor sent, shipped, brought or carried to any person or persons for his or their personal or family use except it be sent, shipped, brought or carried to be paid for in such county or city to the person delivering the same, his clerk, servant or agent or his master, or principal of the person delivering it is himself a servant or agent. As you will see by the above, you are allowed to purchase for private use." WRITE FOR PRICE LIST. FROM BREWERY TO YOUR HOME. LIMEON JONES LIMITED, ST. JOHN, N.B. ESTABLISHED 1855. BREWERS.

BOYS AND GIRLS.

DO YOU SEE THAT It is yours for one day's work.

The delight of every boy and girl is to own a watch. Realizing this, we have determined to place a golden opportunity at the door of every little boy and girl throughout the country.

During the next two months until September 1st, we will give to every little boy and girl sending us seven new subscribers to the ADVOCATE a handsome watch, chain and charm. This is not a toy premium, but a reliable time-keeper, GUARANTEED by the makers and by OURSELVES. Hundreds of these watches have been sold by our local jewelers, and have given abundant satisfaction. WE ARE DETERMINED TO DOUBLE OUR CIRCULATION DURING THE PRESENT YEAR REGARDLESS OF THE COST. We have purchased two hundred watches for distribution among the little ones; and they will be sent out to every little boy and girl sending in seven new subscriptions. Just think of it! A GUARANTEED WATCH for only seven new subscriptions: ONE SUBSCRIPTION FOR EACH DAY OF THE WEEK. Get busy during Vacation!! Tell this story to your friends, and they will help you earn one of these watches.

RULES. (1) As soon as you get a new subscriber, send his name in at once, together with \$1.00 for a full year's subscription in advance to THE ADVOCATE. When you have sent in seven names and seven dollars the watch will be sent to you.

(2) OLD SUBSCRIBERS. An old subscriber paying up all arrearages will be credited as a new subscriber provided he pays one year in advance. Write all names plainly and give address.

(3) This golden opportunity closes September 1st. Any little boy or girl who has worked faithfully, and after sending in two or more subscribers, fails to get the remainder within the time limit, may write us of their troubles, and we will be pleased to forward special premium list, or grant liberal commission for money sent in.

The Advocate Pub. Co., Newcastle, N. B.

Beng's Flour

Both an Ontario wheat flour and a Manitoba wheat flour

Both a "Bread" flour and a "Pastry" flour

As good for one as for the other. Best for both.

At Your Grocer's

Dealers write us for prices on Feed, Coarse Grains and Cereals. The T. H. Taylor Co., Limited, Chatham, Ont.

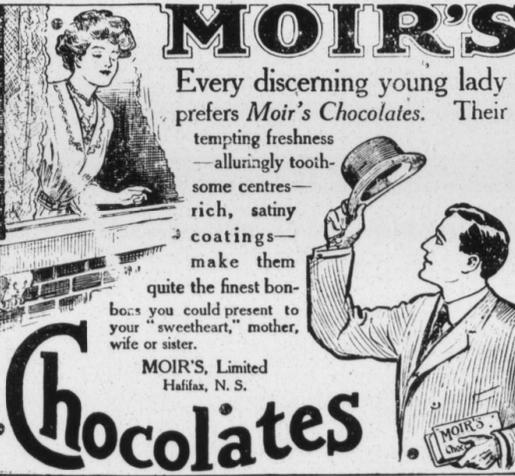

MOIR'S

Every discerning young lady prefers Moir's Chocolates. Their tempting freshness—alluringly toothsome centres—rich, satiny coatings—make them quite the finest bonbons you could present to your "sweetheart," mother, wife or sister.

THE BARRIER

BY REX BEACH

COPYRIGHT, 1908, BY HARPER & BROTHERS

"Say, are these people hidin' me?" he inquired.

"Wat's dat?" ejaculated Doret in amazement.

"No more hard luck stories and 'hurry ups' for mine. I'm the stony-hearted jailer, I am. From now, henceforth, world 'thout end, amen! No busted miners need apply. I've been a good thing, but tonight I turn on the time lock."

"Ba gosh! You're foiny feller," laughed Poleon, who had lent the one-eyed man much money in the past and, like others, regarded him not merely as a bad risk, but as a total loss. "Mebbe you tink you've been a spon'rif' all dese year."

Doret took the hero of the day by the arm and led him to the rear of the store, where he bedded him on a pile of flour sacks, but he had hardly returned to the bar when Lee came veering out of the dimness, making for the light like a ship tacking toward a beacon.

"What kind of flour is that?" he spluttered.

"Dat's just plain 'wheat flour."

"Not on your life," said the miner, with the firmness of a great conviction. "It's full of yeast powders. Why, it's 'arin' and risin' like a buckin' boss. I'm plumb seasick." He laid a zigzag course for the door.

"Were you goin'?" asked Poleon.

"I'm goin' to get somethin' for this stomach trouble. It's fierce." He descended into the darkness boldly and stepped off with confidence—this time too soon. Poleon heard him fondering about, his indignant voice raised hoarsely, albeit with a note of triumph.

"Wh'd I tell you? You put that step back while I was asleep." Then, whistling blithely, if somewhat out of tune, he steered for the new saloon to get something for his "stomach trouble."

At Stark's he found a large crowd of the new men, who welcomed him heartily, plying him with countless questions and harking to his maudlin tales of this new country which to him was old. He had followed the muddy river from Crater Lake to the delta, searching the bars and creek beds in a tireless quest till he knew each stream and tributary, and, like Gale, he had lived these many years ahead of the law, where each man was his own court of appeals and where crime was unknown.

"Oh, there's lots of countries worse'n this," he declared. "We may not be very han'some to the naked eye, and we may not wear our handkerchiefs in our shirt cuffs, but there ain't no widder and orphans doin' our washin', and a man can walk away from his house, stay a month and find it there when he comes back."

"These days are past," said Stark. "There's too many new people coming in for all to be honest."

"They'd better be," said Lee aggressively. "We ain't got no room for strangers. Why, I had a hand in makin' the bylaws of this camp myself, 'long with John Gale, and they stipulates that any person caught robbin' a cache is to be publicly whipped in front of the tradin' post; then, if it's winter time, he's to be put in the ice barefooted, or, if it's summer, he's to be hung."

"I say he won't!"

For the second time in their brief acquaintance these two men looked fair into each other's eyes. Few men had dared to look at Stark thus and live, for when a man has once shed the blood of his fellow a mania obsesses him, a disease obtains that is incurable.

The two men battled with their eyes for an opening. Lee and the other began to babble under the influence of the gambler's arm for silence.

"I'm arguin'," he told the other. "I can't do it. I'll hold my peace till the boat comes; then I'll see you at the river to St. Michael's."

And upon the negro and made for the door, with face set and eyes wat'ring and alert, knowing that

a man's weight might shift the balance and cause these men to rive him like wolves.

Lee's indignation at this miscarriage of justice had him so by the throat as to strangle expostulation for a moment till he saw the soldier actually bearing off his quarry.

"Stop that!" he bellowed. "To h—l with your law! We're goin' accordin' to our own!" An ominous echo arose, and in the midst of it the miner in his blind fury, forgetting this exalted position, took a step too near the edge of the bar and fell off into the body of the meeting. With him fell the dignity of the assemblage. Some one laughed, another took it up, the nervous tension broke, and a man cried: "The soldier is right! You can't blame a dingo for stealin'!" And another: "Sure! Hogs and chickens are legitimate prey!"

Lee was helped back to his stand and called for order, but the crowd poked fun at him and began moving about restlessly till some one shouted a motion to adjourn and there arose a chorus of seconders.

As Poleon and Gale walked home the Frenchman said, "Dat was nery ting to do."

The trader made no answer, and the other continued, "Stark is goin' for kill 'im sure."

"It's a cinch," agreed Gale, "unless somebody gets Stark first."

When they were come to his door the trader paused and, looking back over the glowing tents and up at the star sprinkled heavens, remarked, as if concluding some train of thought, "If that boy has got the nerve to take a nigger thief out of a miners' meeting and hold him against this whole town he wouldn't hesitate much at taking a white man, would he?"

"Waal," hesitated the other, "mebbe dat would depend on de crime."

"Suppose it was—murder?"

"Ha! We ain't got no men lak dat in Flambeau."

They said good night, and the old man entered his house to find Alluna waiting for him.

Burrell took his prisoner to the barracks, where he placed him under guard, giving instructions to hold him at any cost, not knowing what wild and reckless humor the new citizens of Flambeau might develop during the night, for it is men who have always lived with the halter of the law tight upon their necks who run wildest when it is removed.

After he had taken every precaution he went out into the night again and fought with himself as he had fought all that day and all the night before—in fact, ever since old Thomas had come to him after leaving Necla and had so cunningly shaped his talk that Burrell never suspected his object until he perceived his position in such a clear light that the young man looked back upon his work with startled eyes. The corporal had spoken garrulously of his officer's family, of their pride and of their love for his profession; had dwelt enthusiastically upon the lieutenant's future and the length he was sure to go and finally drifted into the same story he had told Necla. Burrell at last sensed the meaning of the crafty old soldier's strategy and dismissed him, but not before his work had been accomplished.

When Burrell drove his reason with firm hands he saw but one course to follow, but when his mind went slack for a moment the old desire to have her returned more strongly than ever, and he heard voices arguing, pleading, persuading. She was the equal of any woman in the world, they said, in mind, in purity and in innocence. He hated himself for hesitating, he killed at his own indecision, and then when he had justified his love and persuaded himself that he was right in seeking this union there would rise again the picture of his people, their despair and what would result from such a marriage.

He had wandered far during this debate, clear past the town and out

through the Indian village, but now that he believed he had come to an understanding with himself he turned back toward his quarters. He knew it would be hard to slip her up, but he had irrevocably decided, and his path began to unfold itself so clear and straight that he marveled how he could have failed to see it. He was glad he had conquered, although the pain was still sharp. He felt a better man for it, and, wrapped in this complacent optimism, he passed close by the front of the trader's store, where Necla had crept to be alone with her misery.

Burrell had almost passed her when she was startled by the sound of his name breathed softly; then, to his amazement, he saw her come forth

and, as if it were a part of her, she stepped into the silver moon.

"Necla," he cried, "what are you doing here at this hour?" She looked up at him sadly. He saw that her cheeks were wet, and something inside him snapped and broke. Without a word he took her in his arms, meeting her lips in a long kiss, while she, trembling with the joy of his strong embrace, drew closer and closer and rested her body wearily against his.

"Little girl, little girl!" he whispered over and over, his tone conveying every shade of sympathy, love and understanding she had craved. He knew what had made her sad, and she knew that he knew. There was no need for words. The anguish of this long day had whetted the edge of their desire, and they were too deeply, too utterly lost in the ecstasy of meeting to care for speech.

"Your lips cling so that I can't get free," sighed the girl at last.

"You never shall," he whispered. But when she smiled up at him pitifully, her eyes swimming, and said, "I must," he wrenched himself away and let her go.

CHAPTER XI
WHERE THE PATH LED.

AND now began a new era for Flambeau—an era of industry such as the frontier town had never known. The woods behind rang with the resounding discords of axes and saws and crashing timber, and new cabins appeared on every hand, rising in a day.

A dozen tents were pitched on Lee's discovery claim, for the owner had been besieged by men who clamored to lease a part of his ground, and, yielding finally, he had allotted to each of them a hundred feet. Forthwith they set about opening their positions, for the ground was shallow and the gold so near the surface that winter would interfere with its extraction, wherefore they made haste. The owner oversaw them all, complacent in the certainty of a steady royalty accruing from the working of his allotments.

Burrell sought Necla at an early day and, in presence of her father, told

her that he had been approached by men who wished to lease the claims he held for her. It would prove an expensive way to develop her holdings, he said, and she would run no risks. However, it would be rapid and insure a quick return, for a lease so near to proved territory was in great demand. After some discussion this was arranged, and Meade as trustee allotted to Burrell in trust, as Lee had done, Poleon followed suit, but the trader chose to prospect his own claims and to that end called in a train of stiff backed Indian packmen, moved a substantial outfit to the creek and thereafter spent much of his time in the hills, leaving the store to Doret. He seemed anxious to get away from the camp and hide himself in the woods. Stark was almost constantly occupied at his saloon, for it was a night and rainy day and night. Runyon was busy with the erection of a substantial structure of square logs, larger than the trading post, destined as a dance hall, theater and gambling house.

Burrell entered into a season of penance and magisterial of spirit, lightened only by the moments when he was with Necla and when she made him forget all else. This damnable indecision gnawed at his self-contempt. He despised himself for his weakness, his social instincts and training, his sense of duty and the amenities of life that proud men hold dear tugged steadily, untriflingly at his reason, while the little fire of impulse sat grinning wickedly, ready to pop out and upset all his high resolutions.

It was on a heavenly day, spiced with the faintest hint of autumn, that Necla received the news of her good fortune. One of her lenders came into the post to show her and Poleon a bag of dust. He and his partner had found the pay streak finally, and he had come to notify her that it gave promise of being very rich, and now that its location was demonstrated no doubt the other "laymen" would have it within a fortnight. As all of them were ready to begin sluicing as soon as the ground could be stripped, undoubtedly they would be able to take out a substantial strike before winter settled and the first frost closed them down.

She took the news quietly, but with shining eyes, though her pleasure was no greater or more genuine than Poleon's, who grasped both her hands and his and shouted gleefully:

"Hient! I'm glad! You'll be rich for sure now an' wear plaitnee fine dress lak I fetch you. Jus' tink, you

her that he had been approached by men who wished to lease the claims he held for her. It would prove an expensive way to develop her holdings, he said, and she would run no risks. However, it would be rapid and insure a quick return, for a lease so near to proved territory was in great demand. After some discussion this was arranged, and Meade as trustee allotted to Burrell in trust, as Lee had done, Poleon followed suit, but the trader chose to prospect his own claims and to that end called in a train of stiff backed Indian packmen, moved a substantial outfit to the creek and thereafter spent much of his time in the hills, leaving the store to Doret. He seemed anxious to get away from the camp and hide himself in the woods. Stark was almost constantly occupied at his saloon, for it was a night and rainy day and night. Runyon was busy with the erection of a substantial structure of square logs, larger than the trading post, destined as a dance hall, theater and gambling house.

Burrell entered into a season of penance and magisterial of spirit, lightened only by the moments when he was with Necla and when she made him forget all else. This damnable indecision gnawed at his self-contempt. He despised himself for his weakness, his social instincts and training, his sense of duty and the amenities of life that proud men hold dear tugged steadily, untriflingly at his reason, while the little fire of impulse sat grinning wickedly, ready to pop out and upset all his high resolutions.

It was on a heavenly day, spiced with the faintest hint of autumn, that Necla received the news of her good fortune. One of her lenders came into the post to show her and Poleon a bag of dust. He and his partner had found the pay streak finally, and he had come to notify her that it gave promise of being very rich, and now that its location was demonstrated no doubt the other "laymen" would have it within a fortnight. As all of them were ready to begin sluicing as soon as the ground could be stripped, undoubtedly they would be able to take out a substantial strike before winter settled and the first frost closed them down.

She took the news quietly, but with shining eyes, though her pleasure was no greater or more genuine than Poleon's, who grasped both her hands and his and shouted gleefully:

"Hient! I'm glad! You'll be rich for sure now an' wear plaitnee fine dress lak I fetch you. Jus' tink, you

THE UNION ADVOCATE.

ESTABLISHED 1867. Issued Every Wednesday morning by The Advocate Publishing Co., Ltd. TERMS: If paid in Advance, \$1.00; At End of Year, \$1.25; American Subscriptions, \$1.50 (in advance.)

Subscribers are requested to take notice of the date printed on the paper after their name. For instance, "May 09" means that the subscription is paid up to May 31st, 1909. When a new payment is made the date will be changed to correspond. SUBSCRIBERS ARE REQUESTED TO SEE THAT THEIR DATES ARE CORRECT.

Subscribers are requested to notify the proprietors of any failure to receive the paper promptly. No paper will be discontinued until all arrears are paid, except at the option of the proprietors.

ADVERTISING RATES. One inch, one insertion, 50c; Each subsequent insertion, 25c; Professional and Hotel Cards, 1 inch per year, \$5.00.

T. H. WHALEN, PRES. AND MANAGER; W. J. MCNEIL, SEC. TREASURER.

NEWCASTLE, N. B., AUGUST 11th, 1909.

HOME BUYING VS. MAIL ORDER BUYING.

In another column of this issue we print a letter from "A Reader" (who forgot to give his name in confidence) criticizing our comment on an extract from the Albert Journal, which we published a short time ago. We welcome the criticism believing in the justness of our own cause.

It was not our intention to refer to any particular firm—there are several doing business in the lower provinces on the Mail Order System. Our correspondent however, has selected two items from Eatons and we join issue, taking his examples, seriatim. Tapioca, like all other products of the soil, has a variety of qualities and fluctuates greatly in price. We will, however, compare the prices given with those of our local grocer, George Stables, whose ad. appears on 1st page (we trust he will forgive the use of his name without permission).

He sells Tapioca BEST GRADE at 10c per lb or 3 lbs. for 25c. If you want a cheaper grade you can get it as low as 5c per lb. He sells salmon for 16c per can. Eaton's salmon is 12c. Difference in favor of Stables, 2c. We might go farther and draw many similar comparisons. But it is difficult to make such unless we get the same brand in each place. We will therefore take e.g. condensed milk. Reinder brand, Eaton sells it for 14c advertised in big figures. Mr. Stables sells 2 cans for 25c. Difference in favor of Stables 1c. If we were to go through the catalogue of Upper Canadian stores and compare the prices given with prices at home we would find on the whole that the balance was in favor of the home merchant. Be as we said before, people did, in a know this. Our correspondent asks: "How is it that if the goods are no cheaper or no better, the people are not aware of the fact?" We repeat: The people are not aware of the fact because our local men do not sufficiently advertise. Our correspondent was evidently not aware that Mr. Stables could sell him good salmon for 2c less per can than Eaton's, and he would not be required to send CASH WITH ORDER either. We dare say there are other goods in the town which do make an equally good showing, but the people don't know it. They do not tell the people. We read the paper, but look in vain for their aid. We conclude they have gone out of business and, accordingly, send to Eaton's. Mr. Stables' ad. appears on our front page. Vi-it his store and convince yourself, reader, that it is at the front in reality as well as on paper. Visit his store and compare his prices with those of any Departmental store in Upper Canada—take the catalogues to the store with you so that there will be no mistake in the comparisons, and you will never be tempted to send CASH WITH ORDER to foreign markets.

Private Sowers, etc. Your correspondent would remind the Board of Health that there are at least three private sewers, on what is known as the N. Lane shore. These sewers are open out on the beach, and occasionally, I may say, the water does not reach the openings of such sewers. Our readers can imagine what rank odor would be emitted from such a locality. Has the Board of Health ever thought that it has been some what cough about this matter. Perhaps they have thought that on account of the lane having been partly cut off, I may as well mention, that it would be impossible to arrive at the place indicated, but your correspondent, along with another person fortunately found one of the lane left to walk in Indian fashion down the beach to examine the sewers. Here is another case of neglect. Altered to it, sire, if you please.

Your correspondent has also taken notice of what is known as the gravel pit, near the said N. Lane mentioned above. There has been a tenement house removed from across the street to that place lately. There is also another house on the north side. In the first house mentioned there are two tenants, consisting of 18 inmates, and in the other house one tenant with four inmates. All above inmates throw their refuse in this gravel pit, and I must not forget to mention that there is a well not far from the surface of the pit, the water of which is used by said tenants. The surface water and I suppose refuse water, is at present coming up in different places throughout the gravel pit. If this is not looked after, we will have in not a far distant future, an odor almost equivalent to that of the slaughter house at the village. I have said enough, Mr. Editor and readers, to make it known that the

TEETHING makes baby nervous and fretful, and stops gain in weight. SCOTT'S EMULSION is the best food-medicine for teething babies. It strengthens the nerves, supplies lime for the teeth, keeps the baby growing. Get a small bottle now. All Druggists. THE STANDARD OF THE WORLD.

BROILS IN NEIGHBOR TOWNS

(Graphic.)

Mr. Editor:— Excuse me for one moment, until I call up some one on the phone. Hello there, Central, please give me the Chairman of the Board of Health. Hello, is that you Doc? Yes? Well, have you managed to trace out the d..... who is writing to the Graphic? Not yet. Well doc. I would advise you not to try and trace him, as he can prove all the statements he has made in reference to the Board of Health. It would be better for you to try and reform said Board so as to give satisfaction to the people. Who is talking? Why, 'Anti-Smallpox' him self.

Yes, Mr. Editor and readers, your correspondent defies the Board of Health to prove one statement where-in he has told an untruth. Oh, I must be truthful. By the way, there is one statement, only one, that may be criticised as to its truthfulness, and that is the following: The young man who was quarantined in the Chairman's medical office, victim of smallpox and who I thought would not return to the mines, apparently returned and is now in the pest house, near the vicinity of the mines. It was reported in the village, after his escape, that it was the pleurisy with which he was affected. Is this rumor true? When the physician sent this man to the Chairman, he must have thought it was the smallpox otherwise he would have treated him for pleurisy. Surely he would have known the difference; at least, we have more confidence than that in his abilities as a medical man.

This brings to my memory an incident of a medical man in town who visited a person who was not well, and he pronounced it smallpox, but our Chairman reversed the decision of his confrere, and defined it to the shingles. However, the young man in question is now having a good rest, resulting from a visit to the mines of the Chairman and a supposed M. D. We will still say he has the smallpox, or else he would not be in the pest-house. I must give credit to whom credit is due. You have done your duty in this case, my friends.

The Board of Health having left itself open to criticism, particularly the Chairman, in more ways than one, which through courtesy I will not mention here; and this being a public question in which all our people should be interested, as we will no doubt have to pay out money, directly or indirectly if a serious epidemic should strike our town; this being the case, why should not the Board of Health be aroused from their slumber. It is high time for them to open their eyes. It seems that this burden has fallen on your humble servant, but I must not forget that I have been assisted in one of your issues by one who signs himself "Onlooker". I am very thankful to him and will not comment on what he has written, more than say that he is as truthful in his statements as I am myself. I will simply give the Board of Health the following advice: Advise the lady who has entered a prosecution against a man on St. Andrews Street, to squish this business. If this affair goes ahead the Board of Health will certainly come out at the end with an unclear bill, instead of a clear bill of health.

Now comes a story to the effect that the British Government has already the Dreadnought of the air, a huge balloon propelled by two motors of 200 horsepower each. Are we to learn next that John Bull has a squadron or two of Dreadnoughts hidden in some out of the way harbor?

THE HAPPINESS OF HEALTH.—Exhalation is the ripple and laughter of pure blood as it courses through the veins. South American Kidney Cure drives out all impurities and insures the richness and purity that is essential to perfect health—successful because it merits it—popular because it fulfills every promise—a Kidney medicine solely and purely. It never fails.—125

The highest railway bridge in the United States is on the line of the Southern Pacific Railway. It spans the Pecos River 10 miles west of Comstock, Tex. The tracks are 221 feet above the water line. The structure is said to be fireproof and it cost \$750,000.

GET INSTANT RELIEF FROM PILES.—This most irritating disease relieved in ten minutes by using Dr. Agnew's Ointment, and a cure in from three to six nights. Thousands testify of its goodness Good for Eczema, Salt Rheum, and all skin diseases. If you are without faith, one application will convince. 35 cents.—127.

Board of Health has not fulfilled its duty, neither in the smallpox question or other sanitary matters. Mr. Editor, I will at present retire from the field. The articles I have written I hope, will go a long way towards ameliorating the contaminated state of affairs which are now existing under the present supervision of our present Board of Health. I, at least, have tried to do my duty, as a citizen of our town, in that respect, and I hope that all my efforts have not failed to bring forth good results. Before closing I will bring to the recollection of my amiable friends of the Board of Health the following beautiful words: 'Magna est veritas et prevalbit.' Yours truly, ANTI-SMALLPOX Bathurst, N. B., July 29th, 1909.

FARMER'S COLUMN.

HOG NOTES.

A swine keeper of large experience says:—Where pigs are grazed pretty heavily they improve the pasture, providing the land is not allowed to trample it when too soft from heavy downpours of rain. There is a tendency for clover to thicken where the pigs graze the swine, as the bottom grasses, too thick on all the better. This is partly caused by the evacuations enriching the soil, partly from the tall grasses not being allowed to monopolize the situation, for your hogs graze low, and, in a measure, because the very small seed (especially the minute white clover) passes to some degree through the pigs undigested, and then it falls on to kind, rich soil, grows and flourishes exceedingly.

The importance of getting the pigs to eating nicely before they are separated from the sow is not sufficiently considered. When handled right not a day's loss in growth need be sustained.

The practical conclusion from this is that the sale of concentrated feedstuffs should be under the control and inspection of some branch of the Government service, that these materials should be sold and be subject to inspection in the same way as our fertilizers are. May I repeat. The ground that I take is this: fertilizers are plant food, these materials are cattle feeds, and if it is desirable and necessary to protect the interests of the farmer with respect to the composition of commercial fertilizers it is equally important to protect his interests in connection with the composition of cattle feeds, and possibly more so, because where there is one farmer who buys commercial fertilizers there certainly must be ten farmers who buy cattle feeds. (Continued in next issue.)

MINARD'S LINIMENT CO., LIMITED. GENTLEMEN,—In June '03, I had my hand and wrist bitten and badly mangled by a vicious horse. I suffered greatly for several days and the tooth cuts refused to heal until your agent gave me a bottle of MINARD'S LINIMENT, which I began using. The effect was magical; in five hours the pain had ceased and in two weeks the wounds had completely healed, and my hand and arm were as well as ever. Yours truly, A. E. ROY, Carriage Maker, St. Antoine, P. Q.

May it please Your Excellency We heartily welcome Your Excellency to this portion of Her Majesty's Dominion, as the Representative of our Most Gracious Sovereign.

In the appointment of Your Excellency to the high and responsible office of Governor General of the Dominion of Canada, we recognize a full appreciation of Her Majesty of the importance of this country as a portion of the British Empire.

In this visit we are pleased to observe the anxious desire of Your Excellency to become acquainted with the different parts of the Dominion of Canada and sincerely trust that the results of your journeying may enable you and your Constitutional advisers to devise and carry out such measures as will lead to the rapid development of the great and varied resources of this country.

That your Excellency's Administration may be distinguished by the rapid advancement of the Dominion in material wealth and

SIR JOHN YOUNG.

On Tuesday afternoon His Excellency, Sir John Young and Lady, and a number of the Staff, arrived at this town by the land route from Bathurst, to meet the Steamer Napoleon at this port. A Levee was held at the Court House, to which some of our citizens who had heard of the arrival (for it was not generally known) made their way. An address was hurriedly got up and presented to His Excellency. It was read by Geo. Kerr, Esq. Sir John responded in a short and appropriate speech in which he thanked them kindly for the reception they had given him and the feeling manner in which reference had been made to himself and Lady Young he hoped that he would administer the affairs of the Government as to merit the approbation of the people of the Dominion. The party proceeded to Chatham in the evening, and as they were crossing the river a salute of seventeen guns was fired by the Newcastle Battery with excellent precision.

THE ADDRESS.

To His Excellency, the Right Hon. Sir John Young, Baronet, one of Her Majesty's most Honorable Privy Council, Knight Grand Cross of the Most Honorable Order of the Bath, Knight Grand Cross of the Most Distinguished Order of St. Michael and St. George, Governor General of Canada;

The address of the undersigned, Magistrates, Merchants and other Inhabitants of Miramichi, in the Province of New Brunswick,

Some scientists are now declaring that deep breathing is highly injurious. Fortunately we can get new fads as quickly as they destroy the old ones. In the social swim, it really seems that one of the most popular garments is a divorce suit.

We Expect As a matter of course

Our usual rush the first of September. No need of waiting till then. There is no better time for entering than just now. A seat in our rooms these hot days is a positive luxury. Call or send for Catalogue containing terms and conditions of study.

Home Course In Modern Agriculture

IX.—Weeds and How to Combat Them

By C. V. GREGORY,
Agricultural Division, Iowa State College
Copyright, 1909, by American Farm Association

In attempting to produce large crops the farmer finds that he has many enemies working against him. One of the most serious is weeds. One of the greatest problems that confront the farmer is that of keeping his crops free from these pests. After a field has been sown and prepared that a large amount of plant food is in available form, with plenty of moisture to dissolve it, it is poor policy to allow weeds to take this food and moisture and convert them into a worthless product.

Weeds may be divided into three general classes—annuals, biennials and perennials. Annual weeds are propagated entirely by seeds and live but one year. An exception to this is found in the winter annuals, which come up in the fall, live through the winter as small plants and produce seed the following spring.

Among the most troublesome annual weeds are the foxtails. These are grass-like plants that are too common to need any special description. The root that makes them so difficult to

FIG. XVII.—A RUSSIAN THISTLE.

combat is their great seed producing capacity. It is not difficult to kill one annual plant, but no sooner is that done than another springs up to take its place.

Early fall plowing gets rid of many of these weeds by turning them under before the seed is ripe. Some of the seed which is ripe will grow up, and the plants will be killed by the first frosts of winter. If the field is harrowed early in the spring many of the remaining seed can be induced to start. The more weeds that come up at this time the better, since they will be killed in the subsequent preparation of the land for planting.

There is no better implement for killing weeds before corn comes up than the harrow. Harrowing is a cheap operation, since so many acres can be gone over in a day. The more times a cornfield can be gone over with the harrow before the corn comes up the better. In harrowing to kill weeds care should be taken not to do the work when the weather is cloudy or the ground too wet, or the weeds will be transplanted rather than killed.

In regard to the value of harrowing growing corn opinions differ greatly. It is almost impossible, however, to harrow corn without destroying some of it. It is a waste of time to test the seed and planter with the idea of getting a good stand and then harrow part of it out. Unless the weeds are very bad the harrow had better be put away in the machine shed as soon as the corn begins to appear above the surface of the ground.

Thorough cultivation from the time the corn is two or three inches high until it is ready to "lay by" will do much to keep the weeds in check. The deep early cultivations will bring up the seeds that have been lying dormant at the bottom of the furrow slice. These will germinate and be killed by the later cultivations. Fox-tail may grow up and go to seed after the corn gets too large to cultivate. It is often a good plan to sow rape in corn at the last cultivation. This will come up quickly and shade the ground so completely that it will prevent the growth of annual weeds almost entirely.

Annual weeds seldom do much damage in small grain. If the grain is drilled in on a properly prepared seed bed it will get such a start that most of the weeds will be smothered out and die for lack of plant food and light. One annual that is sometimes troublesome in grainfields is mustard. Since this weed is easily killed by cultivation it seldom goes to seed in cornfields. Consequently when small grain follows corn there is little mustard seed in the soil except that which is sown with the oats.

There is another annual, or rather winter annual, that is much harder to eradicate than those mentioned so far. This is squirreltail grass, so called because of its fuzzy heads. The seeds are very light and are attached to long hairs, which cause them to be carried for considerable distances by the wind.

Squirreltail grass is not troublesome in cultivated fields, but often infests meadows and pastures to such an extent as to make them almost worthless. Mowing as soon as the

heads appear will not kill the plant, but if kept up throughout the season will prevent it from producing seed. The best remedy about the only remedy is to plow up the field and put it in its most unfertile crop. Where a regular rotation which includes the meadows and pastures is followed this weed can be readily kept in check. A point that must be carefully attended to in preventing the spread of this as well as of any other weed is to keep the meadows and fence corners from taking seed enough each year to keep the entire farm seeded.

Another troublesome annual in some sections of the country is the Russian thistle, a form of tumbleweed. By rolling across the fields after it ripens it scatters its numerous seeds very widely. These weeds are usually not so plentiful but that they can be easily destroyed by pulling before they form seed. By doing this they may be kept from becoming thick enough to do any serious damage.

Perennial weeds live through the first winter and produce seed the second year of their life. They die as soon as the seed is ripe. The common bull and prairie thistle and burdock are conspicuous examples of this class of weeds. Biennials are not difficult to subdue. In cultivated fields they seldom live long enough to produce seed. They seed so late that they hardly ever ripen seed in meadows. In permanent pastures they may be controlled by cutting off below the surface of the ground just at the beginning of blossoming time. Sheep and goats will rid a pasture of these and all other troublesome weeds.

The hardest class of weeds to combat are the perennials. These do not depend entirely upon seed production to spread themselves, but are propagated by means of underground stems. These stems extend along beneath the surface of the ground, sending up stalks at short distances. They live in the soil from year to year, sending up fresh shoots every spring.

Some of the most common and troublesome perennials are the Canada thistle, morning glory, wild artichoke, milkweed and quack grass. These weeds are found on all parts of the farm—in cultivated fields, in small grain and in meadows and pastures. The only way to kill them is to destroy the roots or starve them by preventing leaf growth. This is much more easily said than done. Where the weeds occur only in small patches the desired result may be accomplished by covering them with a thick layer of straw. In a dry season thorough cultivation will discourage them, though it will seldom exterminate them entirely. When the ground is wet cultivation will do more to spread perennial weeds than to kill them. The pieces of the underground stems which stick to the shovels will grow wherever they happen to fall and thus start a new center of trouble.

Of all the means of getting rid of perennial weeds that have been tried none is so effective as turning the field into a hog pasture. If the fields are fenced hog tight and the rotation includes the hog pasture the hogs will get a chance at all parts of the farm

FIG. XVIII.—QUACK GRASS.

every four years or so. They are very fond of the roots and stems of perennial weeds, especially those of quack grass and morning glory, and they will continue to root until the last piece is brought to light and eaten. Where all the fields are not fenced hog tight a temporary pen may be used. This can be moved about over the patches of quack grass, and morning glory until they are destroyed.

The weed problem is not nearly so difficult as many people believe. The remedy for weeds is good farming, and when good farming becomes the rule weeds will largely disappear. In a way weeds are more of a benefit than an injury. If it were not for them we would often be tempted to let the cornfield go a few days longer before cultivating and thus fall to get as large a crop as we might otherwise have done. It is the cultivation that the presence of the weeds forces upon us that makes plant food available and prevents the escape of capillary moisture and so enables the plants to put their best efforts into producing a maximum yield.

FATHER 'MCGRORY'S PICNIC A GRAND SUCCESS

Notwithstanding the heavy rain early on Tuesday morning, July 20th, also the night before, the attendance at Father McRory's picnic was very satisfactory indeed, almost one thousand people taking advantage of the excursion trains from Chatham and Fredericton. Shortly after noon the clouds began to disappear showing to more advantage the gay costumes of the ladies and making things much better all around. The Odd Fellows Hall was turned into a large dining room and fully twelve hundred meals must have been served between the hours of eleven and two o'clock and alike number at the tea. A more ideal spot for a picnic of this kind could not be imagined. The track on which the sports were held, although newly made, was in good shape and it's situation in a large hollow afforded the crowds ample opportunity to witness each event from the surrounding hillocks to great advantage. Early in the day the dancing pavilion (where the "light fantastic" was trod to the excellent music of MacEachren's orchestra) and the booths where merchandise of different kinds was sold were crowded with patrons and a rushing business done. It seemed as though everybody in the surrounding district had been saving up their money for this picnic and were bent on having a good time and it must have gladdened the heart of Father McRory to witness the enthusiasm with which everybody both young and old, male and female, entered into the spirit of the occasion. There is no question about it that Father McRory has worked very hard for weeks past and the success with which this picnic was attended was well merited. A noteworthy feature, showing the great respect and veneration in which Father McRory is held by everybody in that section of the country, the fact that every place of business was tightly closed up for the day and even the hotels refused to serve meals, whereas they might have reaped a rich harvest on such an occasion as this. The slogan seemed to be "This is Father McRory's day and we will do our best to make it a good one" and it was a good one.

Father McRory was ably assisted by Mr. J. E. Lawlor of Newcastle, Mr. M. H. Downey, one of the new Railroad engineers, Mr. W. H. Wood, Station Agent, Duffy Brothers and others and the ladies seemed to have turned out in a mass to make things go with a swing.

In the intervals between the different events a military band from Fredericton discoursed sweet music in the centre of the track, and they certainly played very well.

The sports attracted a large number of spectators and each event was not only interesting but very often exciting, particularly the relay race and the five mile race. In the former the Chatham team was handicapped by the absence of Wood. A substitute had to be appointed at the last moment and it was in this race that Watling showed up so well starting in with a big handicap he came very nearly turning a deaf into victory. This same runner also ran so close a second to Finnimore in the 440 yards dash that a good many people thought it was a dead heat, but the judges decided otherwise. Just before the five mile race, which was the last of the programme, Father McRory made a short, though eloquent speech thanking the officials, contestants and everybody who had helped in any way to bring about the success of the picnic and stating that although this was his first experience at anything of the kind, he had been so encouraged by the results that he would feel justified in repeating the attempt at no very distant date. He was cheered to the echo by the crowds assembled around the ropes and along the hill-sides and it must

have been very gratifying to him to know he had to so large an extent, the love and sympathy not only of his own people but of a large number belonging to other denominations. During the five mile race Father McRory encouraged the runners by holding aloft the very handsome cup which was being competed for; and when it had been won, Miss Kate Allen of Chatham very gracefully presented the cup to the winner, Wihard Cribbs, who called for three cheers for Father McRory, and three more were heartily given for Miss Allen! The five mile race itself was a good one and when the seven starters lined up it was pretty hard to pick the likely winner, they were such a good looking lot. As soon as the pistol was fired Cribbs shot to the front and practically sustained that position throughout the race although at times Whyte and Coward would sprint a little and take the lead, but they did not keep it long. In the 6th lap Arsenean dropped out as did Flahery in the 10th. In the 12th Rice had some trouble with his wind pipe and he too retired. In the 23d lap Arthur Duffy (the eldest son of the popular hotel proprietor, Chas. T. Duffy) although running well and apparently as fresh as when he started decided to leave the contest to the remaining three—Cribbs, Coward and Whyte (the last named, by the way, was announced by starter Stockford as the champion of Nova Scotia). This trio was making things lively for each other, but about the 40th lap Whyte began to show signs of distress and although he appeared to be suffering great pain he pluckily remained in the race till the finish when he collapsed entirely in a dead faint. From the 40th lap the race was between Coward and Cribbs and the first named young runner showed up remarkably well, running with a splendid stride and apparently with a good deal of reserve energy, and when in the 49th lap he passed Cribbs the latter's friends thought it was all over. But Cribbs surprised everybody with a most wonderful burst of speed that they had not thought him capable of, winning a great race by a quarter of a lap in the excellent time of 23 minutes, 44 seconds. When it was all over round upon round of cheers greeted the one and only "Wihard" and the consensus of opinion was that he would only get into training he would very soon be in the Struth class.

At the conclusion of the race, a well contested ball game was played by teams from Fredericton and Chatham, the latter winning by 5-2. About ten o'clock the Chatham and Fredericton visitors entertained for home, a treat but happy lot, but a large number remained for dancing until the "wee sma' hours."

The summary of events is as follows—
100 yds dash—1st, Finnimore, 2nd, W. Watling, 3rd, J. Scammell, P. X. Hawkes. Time 1:11-5 sec.
220 yds dash—1st, W. Watling, 2nd, P. X. Hawkes, 3rd, Finnimore. Time, 25 sec.
440 yds dash—1st, J. Scammell, 2nd, Finnimore, 3rd, W. Watling, Time, 57 sec.
Half mile race—1st, G. Y. Mersereau, 2nd, P. J. Whyte, 3rd, Finnimore. Time, 2:10.
One mile race—1st, P. J. Whyte, 2nd, U. Y. Mersereau, 3rd, Ewert Atkinson. Time, 5:19.
Five mile race—1st, Bernard Cribbs, 2nd, Thos. Coward, 3rd, P. J. Whyte. Time, 28:44.
Relay race 8-10 mile—1st, Fredericton, Ryan, Whyte, Atkinson, Finnimore, 2nd, Chatham, Watling, Hawkes, Carrigan, Scammell.
Running broad jump—1st, P. X. Hawkes 15'7", 2nd, Finnimore.
Hop, step & jump—1st, P. X. Hawkes, 35'3", 2nd, W. Watling, 34'5".
The officials were—Starter—Mr. D. Stockford, Fredericton. Judges—D. Tibbits, Fredericton, J. R. Lawlor, Newcastle, G. D. Christie and Ernest Scott Peacock, Chatham.
Time keeper—W. H. Wood, Boiestown.
Clerk of the course—H. M. Downey, Boiestown.

The Kind You Have Always Bought
Bears the Signature of

THE UNITED STATES TARIFF.

The conference tariff bill has passed the United States House of Representatives by a small majority of twelve. This leaves the modified measure with only the Senate between it and the statute book. The history of the proceedings is this:—

First the House bill, introduced by Chairman Payne, made some important reductions in the Dingley tariff, generally pursuing the course of downward revision, but making few radical changes.

Then came the Senate bill, bearing the name of Aldrich, which was generally more nearly prohibitive than the Dingley bill. This measure was substantially an upward revision.

At this point President Taft intervened and used his influence to modify the Aldrich bill by reducing its schedule of duties on raw material.

Meanwhile the Senate and House were taking the regular course provided for a case of conflict of opinion. Each chamber appointed representatives to a conference and this joint committee proceeded to frame a compromise measure. The President constituted himself an informal member of the conference by holding daily interviews with his friends in both delegations and persistently pressing upon the Republican legislators the binding obligations of the tariff platform.

While the conference bill is mainly the Senate bill it contains some striking modifications on which Mr. Taft had set his mind, and which will go some way to "save the face" of the framers of the tariff platform. These modifications include reduction of the tariff on rough lumber from \$200 to \$25, free hides, and some mitigation of the iron, steel and coal duties. Concerning these, President Taft can say with Polonius "A poor thing, but mine own."

This slightly-reformed Senate bill has passed the House by a majority indicating a narrow escape. The Republican opposition in this chamber claims that the downward revision has been headed off. Moreover the retaliatory clauses in the Senate bill, retained by the conference, are not satisfactory to all the congressmen. Some of them anticipate trouble from Canada in the matter of pulp and paper material, and that by prohibiting export, the Dominion could smother the whole paper industry of the United States.

While congressmen object to the compromise bill as too high, seeing that it is much higher than their own, the Senate may object to it as too low. But as the President's modifications of the Senate bill were few compared with the Senate's changes in the House bill it may be expected that the Senate will accept the measure as representing a great triumph for their chamber.—Standard

British Columbia is soon to have a plebiscite on the liquor question. Great is the rejoicing in Great Britain. The foreign troops have left the island.

Directions For Making Lead Tea.

Warm the tepid. Put in a heaping teaspoonful of "Salada" Tea for every two cups. Pour on freshly boiled water and allow to infuse from 4 to 8 minutes. Pour the liquor off the leaves and let cool. "Salada" Tea is a most delicious and refreshing beverage. A small piece of lemon will add to its flavor.

EDITORS MAIL

[[For opinions expressed under this heading the Editor does not necessarily hold himself responsible.]

Dear Editor

Information as regards the right burglars, may be obtained between the lower end of Oak Point, and New Jersey if some of those people who are doing the talking now, were closely examined, and I think under the circumstances these people should be examined, for they must really have some knowledge about the burglary which has caused so much trouble.

A Ratepayer from Alnwick.

EDITOR UNION ADVOCATE

Fred H. McQuestion found not guilty of breaking into O'Leary and Montgomery store on the night of May 19th, 1909.

The trial of Fred H. McQuestion took place in Newcastle Court, before Judge H. McLatchy on July 29th 1909, after being in jail for about 6 weeks. The Solicitor General for the province being present took part in the prosecution for the Crown, Mr. R. A. Lawlor defended the accused.

The evidence against him was O'Leary and Montgomery's staff at Loggieville, namely—

R. H. M. Gilker, manager of the firm, Miss J. McLean, Harry Archibald, Grattan O'Leary and Alex. McIntyre, also Mr. Noble, I. C. R. Police and J. J. Leotile (Private Detective.)

There being no evidence to convict the man of breaking into O'Leary and Montgomery store on the night of May 19th 1909, this charge was dismissed. The second and third degree was then brought on namely—

Receiving and retaining stolen goods, namely—1 pair gloves, 2 mittens and a pair of slippers, which he swore on the stand he received in security for money lent to Raymond Landry. The jury then disagreed on the 2nd and 3rd Degree and the trial was postponed till Aug. 17th 1909.

It appears to me that this detective is rather backward in his profession, and is not quite as active as the great men we read and hear about. We have thousands of men in our county who could do better work with half the expense. Not only has he caused a lot of trouble and worry to the ones who were unnecessarily arrested, but to the whole county for the reason of the heavy expenses.

There were some 25 or 30 witnesses subpoenaed from various parts of the county and only about half of them were examined. This certainly meant a heavy expense to the county. And on nearly every occasion while on his detective work was escorted by Deputy Sheriff, or Chief of Police or both together and also had a town police or Constable from Chatham making a band of four nearly every time they appeared. And after all the expense and anxiety he has caused different people, there is no trace of the burglars who broke into the store on the night of May 19th as yet. Some of the officials of this county who have taken part in assisting this detective in his work, should get wiser and look after the interests of the county better instead of urging on such unnecessary work and heavy expense to the county.

A RATEPAYER

THE SALT HABIT.

One who holds table salt as essential should try eating the skins of all vegetables and fruits and the whole cereals, and see whether the craving for salt does not grow less as one perseveres. Vegetables cooked in their jackets do not require salt. The organic salts are in the skins. There is the iron to make red blood and rosy cheeks, even as it makes red cheeks of the apple; there is enamel to protect the teeth even as the tender meat of the fruit is protected; there are the bone and brain builders in correct and available form.—From August Physical Culture.

The Baltimore Sun says the trolley car, the automobile and the train are responsible for the decadence of walking and for making people fat and pudgy, and liable to disease.

An Italian prince has just married a wealthy New York widow 23 years older than himself, but when he deducted from her age \$200,000,000 he probably found her to be young enough.

I'll Explain Why I Always Drive a GENDRON. "You see the breaking of the springs causes us baby drivers more trouble than any other weakness in carriage cars. But there is no spring weakness in the GENDRON car. Note that double curve. It is exclusive with the GENDRON. It so distributes the strain that the spring never breaks. And then the wheels,—you see they are specially welded, and cannot warp or break. Note also that little rubber cap over the nut of the axle. Sometimes when I have a restless passenger, I want to drive the car around the house without scratching the furniture—it is a little point, but a good one. The materials for all the GENDRON cars are the very best in the bodies, tops and every other part. There is style and service in every GENDRON model—Canadian made, so that any unexpected accident can be easily remedied."

WIT AND HUMOR. NEW YORK PRICES. Hamilton Odell, the lawyer, lunches at the Lawyers' Club sometimes. One day when he was dining alone, taking the order slip from the waiter, he wrote: One oyster stew. Not much milk. It is the custom at the Lawyers' Club to return the order slips which the members have written, with the amounts of the different items filled in, and at the end of the month in question Odell received his slips and took them home with him. After dinner he started to look through them, and while idly turning them over came across this one. One oyster stew \$0.50 Not much milk 10 \$0.60 HEINZES QUIET JOB. Everybody works but Heinze. He sits around all day, Figuring up his profits. To while the time away: Rogers gives out orders. To his friends all tired and hot: Everybody works but Heinze, Who seeps the whole jacket. New York Times. THE SULTAN'S THREAT. The Sultan of Sulu is the man who is not afraid. He imported an \$18,000 uniform from Paris for the occasion of the Taft reception, not long ago and when the costume came he refused to pay duty on it. The custom authorities made a fuss and threatened to keep the uniform. "Very well," said Mr. Sultan, "keep your old uniform, a understand that I shall wear that at the reception or nothing." The horrified officers perceived that he meant what he said and the suit was handed over in silence.—Minneapolis Tribune. DIED AT POINT LA NIM. Mr. William Lawlor, a prominent farmer of Point La Nim, died at his home on Tuesday. The late Mr. Lawlor was born a short time after the Miramichi fire and was over 80 years of age. The funeral took place this morning at the R. C. cemetery, Dalhousie, and was largely attended a great many friends and relatives were present from Durham and other parts of the county. The pall bearers were J. Harquail, Sr., J. E. Stewart, J. Knowlan, L. Chaytor, Thos. King and Benj. Chiverton. KEPT AT MATAPEDIA. The St. John company of the 3rd Regiment C. A. were held up at Matapedia last Sunday eight hours owing to the Lord's Day Act. The officers and men were highly indignant that they were thus obliged to spend a day more away from home than was necessary. The Western Federation of Miners have decided to fine any member \$10 who calls another a liar. This, probably, is cheaper than the old-fashioned funeral.

FRIGHTFUL STOMACH TROUBLE

For Four Long Years He Suffered—Then "Fruit-a-tives" Brought Relief.

Stratford Centre, Wolfe Co., Que. May 13th, 1908. I have been completely cured of a frightful condition of my stomach through this wonderful medicine, "Fruit-a-tives." I suffered for four long years with this trouble. My head ached incessantly. I could not eat anything but what I suffered awful pain from indigestion. I used every known remedy, and was treated by physicians, but the dyspepsia and headache persisted in spite of the treatment.

I was told to try "Fruit-a-tives," and I sent for six boxes, and this was the only medicine that did me any good. I am now entirely well. I can eat ordinary food and I never have a headache, and for this relief I thank this wonderful remedy "Fruit-a-tives." My case is well known in this vicinity and you may publish this statement.

ALCIDE HEBERT. 50c a box, 6 for \$2.50, or trial size 25c. If, for any reason, your dealer does not handle "Fruit-a-tives," they will be sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

No Summer Vacation

We would greatly enjoy one, but as many of our students are from long distances, and anxious to be ready for situations as soon as possible, our classes will be continued without interruption.

Then, St. John's cool summer weather makes study as pleasant during the warmest months as at any other time.

Students can enter at any time. Send for catalogue.

S. Kerr Principal THE ST. JOHN'S COLLEGE

EASTER FLOWERS.

Easter Lilies, Calla Lilies, Lily of the Valley, very choice roses, Carnations, Violets, Hyacinths, Daffodils, Narcissus, &c. Our flowers this year are better than ever. Leave your orders early and receive prompt attention.

H. S. RUIKSHANK, Florist, 159 Union St. St. John N. B.

Do You Use a Liniment?

Then you want the best. The best Liniment, and other things being equal, is the strongest, and,

GATES' ACADIAN LINIMENT

is certainly the strongest in use. The moral is obvious.—Get Gates'. A bottle kept constantly on hand will save many an ache and pain. Lumbermen have found Gates' Liniment the best they can get, for both human and beast.

Athletes find it just the thing for a rub down.

For internal use it is par-excellence.

Sold everywhere at 25c. C. GATES, SON & CO. Middleton, N. S.

SIGN OF THE SEVEN DEVILS.

A distinguished doctor some time ago wrote to a professional friend saying: "I would advise you a patient with almost any other disease enter my consulting room, than one afflicted with the seven devils of Indigestion and Dyspepsia." That doctor knew exactly that indigestion is difficult to cure—that it poisons the blood, staves and weakens the body and nerves. But he didn't seem to know that Mother Seigel's Syrup has cured tens of thousands of cases of Indigestion. Simon Briand, Cape August P.O., Richmond Co., N.S., wrote on January 27th last, saying: "For over 3 years I suffered from stomach troubles. The little food I ate gave me no nourishment to my body. Three months ago, I tried Mother Seigel's Syrup and two bottles of it completely cured me." He adds that it also cured a number of his friends.—Price 60 cts. per bottle. A. J. White & Co., Ltd., Montreal.

The Liberty of the Press

The following gem on the liberty of the press is from an argument made by John Philpot Curran in defence of A. H. Rowen accused of criminal libel in the Court of Kings Bench, Dublin, on January 24th 1794.

What then remains? The liberty of the press only—that sacred palladium, which on influence, no power, no minister, no government, which nothing but a depravity, or folly, or corruption of a jury, can ever destroy. And what calamities are the people saved from, by having public communication left open to them? I will tell you gentlemen, what they are saved from. I will tell you also to what both are exposed by shutting up that communication. In one case, sedition speaks aloud and walks abroad; the demagogue goes forth—the public eye is upon him—he frets his busy hour upon the stage, but soon either weariness, or bribe, or punishment, or disappointment bears him down, or drives him off and he appears no more. In the other case how does the work of sedition go forward? Night after night the muffled rebel steals forth in the dark and casts another and another brand upon the pile, to which, when the hour of fatal maturity shall arrive, they will apply the torch.

If you doubt the horrid consequence of suppressing the effusion even of individual discontent, look to these enslaved countries where the protection of despotism is supposed to be secured by such restraints. Even the person of the despot there is never in safety. Neither the fears of the despot, nor the machinations of the slave, have any slumber—the one anticipating the moment of peril, the other watching the opportunity of aggression. The fatal crisis is equally a surprise upon both; the decisive instant is precipitated without warning by folly on the one side, or by frenzy on the other—and there is no notice of the treason, till the traitor acts. In those unfortunate countries, one cannot read it without horror—there are officers whose province it is, to have the water which is to be drunk by their rulers, sealed up in bottles, lest some wretched miscreant should throw poison into the draught.

But gentlemen, if you wish for a nearer and more interesting example, you have it in the history of your own revolution. You have it in the memorable period, when the monarch found a servile acquiescence in the ministers of his folly—when the liberty of the press was trodden under foot—when venal sheriffs returned packed juries, to carry into effect those fatal conspiracies of the few against the many—when the devoted benches of public justice were filled by some of those foundlings of fortune, who, overwhelmed in the torrent of corruption at an early period, lay at the bottom, like drowned bodies, while soundness or sanity remained in them; but at length becoming buoyant by putrefaction, those rose as they rotted, and floated to the surface of the polluted stream, where they were drifted along, the objects of terror, and contagion, and abomination.

In that awful moment of a nations travail, of the last gasp of tyranny, and the first breath of freedom, how pregnant is the example. The press extinguished, the people

enslaved, and the prince, undone. As the advocates of society, therefore of peace of domestic liberty and the lasting union of the two countries I conjure you to guard the liberty of the press, that great sentinel of the state, that grand detector of public imposture; guard it, because, when it sinks, there sinks with it, in one common grave, the liberty of the subject, and the security of the Crown.

THE MIGHTY POWER OF MIO-NA.

Mio-na, that extraordinary and perfect stomach tonic, will relieve dyspepsia in twenty-four hours.

It will cure and is guaranteed by T. J. Durick to the readers of the UNION ADVOCATE to cure the most pitiful cases of dyspepsia, if taken according to directions.

Mio-na tablets not only cure dyspepsia, but all stomach disturbances, such as vomiting of pregnancy, sea or car sickness and the stomach sickness after excessive indulgence.

Mio-na cures by strengthening and invigorating the flabby stomach walls and after a course of Mio-na treatment constipation, if there is any, will entirely disappear.

Mrs. S. Keast, of Clarksburg, Ont., says: "A bad stomach trouble that had bothered me for years, baffled and puzzled skilled physicians, was nicely relieved by my using Mio-na. My trouble was on account of food not digesting but fermenting in my stomach, forming a gas that gave me untold suffering and pain and also made me weak, nervous irritable and unable to rest. Since using Mio-na I can go to bed at night and wake up in the morning refreshed. I cannot speak too highly of Mio-na."

Mio-na is a most economical treatment, a large box of tablets only costs 50 cents at T. J. Durick's and the dyspeptic, nervous or otherwise, who does not give them a trial is losing an opportunity to regain health."

OBITUARY

(Graphic) HARRY D. HARKAN.

The death of Harry D. Harkan, son of Mr. and Mrs. Henry Harkan, took place at his home here yesterday afternoon, after an illness of six months.

The deceased young man contracted phleury, and later consumption developed, from which he died, being confined to his bed only two days. Besides his parents, three sisters and two brothers at home survive.

All during his illness he was cheerful and bore his trouble with patience. He was highly respected by all who came in contact with him and the family have the sympathy of all in their bereavement. He was twenty-two years of age.

The funeral will take place at 7.30 a. m. tomorrow (Saturday) morning, interment to be in the R. C. cemetery.

J. M. MATHESON.

Mr. J. M. Matheson, teller in the Bank of Nova Scotia here, died this morning after an illness of a few weeks.

Mr. Matheson had suffered from inflammation of the glands of the neck with abscess of the throat for a couple of weeks, but had so far recovered as to be able to walk about and returned to take up his duties in the Bank again. He had only worked one day, however, when he had to give up work again. A few days afterwards, other internal troubles set in and although last night he appeared to be considerable better and indications pointed towards recovery again, yet at an early hour this morning heart failure set in and he sank rapidly.

"Monte," as he was familiarly called, was a general favorite, not only with the members of the bank staff, but with all who had formed his acquaintance. His parents reside in Revelstoke, P. C. He has also relatives in P. E. Island where he formerly resided, all of whom have been communicated with by wire for instructions. Had he recovered sufficiently to travel it was the intention of the manager here to send him to his home in P. C. for a prolonged vacation, with the hope that the rest and change might benefit him.—Graphic.

Zam-Buk is the best remedy known for sunburn, heat rashes, eczema, sore feet, stings and blisters. A skin food! All Druggists and Stores.—50c.

THE WOES OF THE WEAK-STOMACHED MAN

Relieved by Father Morrissy's "No. 11"

Did you ever see a happy dyspeptic? Or a man cheerful over his indigestion? No wonder you didn't, for the man who cannot digest cannot enjoy very much. When the stomach refuses to work the whole system goes wrong, and there follows heartburn, headache, constipation, bad breath and severe pain. Then the mind is affected; a person becomes irritable, sarcastic, surly—in fact, almost unbearable.

Father Morrissy gave this matter special study, and devised a tablet now known as "Father Morrissy's No. 11," which relieves the misery. Each tablet is capable of digesting 1 1/2 pounds of food—a good square meal. One tablet after eating, with a half tumbler of water, insures perfect digestion, providing reasonable care is taken to avoid foods that have been found especially disagreeable to the stomach.

If you have suffered from a weak stomach, why not do as thousands have done—take Father Morrissy's No. 11 Tablets and be cured? 50c. at your dealer's, or from Father Morrissy Medicine Co., Ltd., Chatham, N.B. 50

A BUMPER CROP.

All reports from the West indicate a bumper harvest. The work of cutting, threshing and garnering this immense crop will give months of employment to a vast army of laborers, and it is estimated that between twenty-five and thirty thousand helpers will be required for this year's harvesting.

Noah R. Marker, assistant cashier of the First National Bank of Tipton, Ind. is missing. \$0 is the cash in the vault, between fifty and sixty thousand dollars.

The British government has granted a pension of \$2,500 annually to Lady Wylie, widow of Lieut.-Col. Sir William Curzon Wylie, who was assassinated recently by Dhanari, the Indian student in the Imperial Institute.

Dr. Starr-Jordan and Prof. E. E. Prince, the International Fishery Commissioners, have been visiting Winnipeg, and Prof. Jordan was so impressed with the fishery wealth of Lake Winnipeg that he declared that its whitefish were the finest in the world.

WRINKLES—THEIR CAUSE AND CURE.

Wrinkles usually indicate certain characteristics. Worry, for instance, is perhaps the most frequent cause of a wrinkled countenance. Worry is nothing more or less than a poison to the mind. It deteriorates the nerve tissues, it devitalizes the blood, it is destructive to the mind, body, and soul. One who has the worrying habit will be merely wasting time in attempting to eliminate wrinkles from his features. Those desirous of eliminating wrinkles should first of all forswear mental worry and anxiety; second, increase the general vitality of the body; third, avoid the use of soap on the face, substituting cold cream or olive oil. Either of these should be used at least once a day, and thoroughly removed from the face after once having been thoroughly rubbed out with a soft towel or chamois skin. Massage, a face mask, or any mechanical means that will help to remove the furrows from the skin may be recommended. Face powder should be avoided, as it is nothing more than white dirt, and dirt of any kind, white or black, is disastrous to the maintenance of a clean, smooth skin.—From August Physical Culture.

THE CIRCUS.

(Graphic) The Norris & Rowe circus arrived here Thursday morning at daylight from Rimouski. At six o'clock the unloading was well under way and a large crowd of spectators was at the L. C. R. yards watching the work. The town was crowded, work in all mills having been suspended for the day. The parade was good and the performance, both afternoon and evening was about up to the usual standard. Two slight accidents marred the afternoon performance, but no one was injured. The ropes holding one of the series of trapeze broke allowing the performers to fall quite a distance. The best of order prevailed throughout the day.

WARNING TO POSTMASTERS.

Several complaints have reached our office of late that subscribers have not received their papers regularly. The names are all set up on galleys and are imprinted on the papers automatically, so that it is impossible for the names to have been omitted. We warn postmasters that they must in future be more particular about the assortment of our mails, otherwise we will be obliged to have the matter referred to the Postal authorities at Ottawa.

FARMER'S COLUMN.

CORN PRODUCTS.

First we may consider the by-products from the starch and glucose factories. All manufacturers do not adopt precisely the same terms for these products, but the following are generally recognized in the trade: Gluten meal, especially rich in protein; gluten feed, consisting chiefly of the gluten and corn bran mixed and containing much less protein than gluten meal; corn oil cake rich in gluten and oil, consisting of the corn germ from which the greater part of the oil has been expressed, and corn bran or the hull of the corn, with a very low feeding value.

These feeds may be used for stock producing beef or milk. The materials which go to form the casein of milk will also be useful in the formation of the muscle or flesh in the animal which is being fed for beef. It is the very same class of nutrient (protein) which is required for both purposes.

I may add a few words of explanation regarding these products. In the separation of the starch from the corn kernel, which, of course, is the primary object of the manufacturer, he finds that the residue may be divided into certain classes. These he may sell separately or he may mix them. In the latter case you have "gluten feed," which is not so rich in protein as "gluten meal," because it contains the bran of the corn which is of poor feeding quality. Gluten meal, properly so called, consists very largely of the protein of the corn and is consequently the most valuable of all the by-products. The bran, or husk, or hull of corn is not of high feeding value. The embryo, or germ, separated in the process of manufacture, is very rich in oil. This oil is expressed by means of high temperatures and hydraulic pressure, and the residue is known as corn oil cake. This may be ground and sold as corn oil cake meal. It is a high class product. We have, therefore, gluten meal representing the gluten or protein; corn oil cake as representing the embryo minus the larger proportion of the fat; and corn bran, a material of comparatively low feeding value. Gluten feed is a mixture, with a more or less variable amount of protein, because it contains more or less corn bran. We must be careful, therefore, to distinguish between that which should be rightly called gluten meal and gluten feed. Gluten meal is the gluten only, a material of high feeding value, and should contain no corn bran. Gluten feed, on the other hand, is a term which designates a material made by mixing these by-products together.

Gluten meal should, as I have said, contain in the neighborhood of 30 per cent. protein, but the "Jersey brand gluten meal" contains not more than 15 per cent., and frequently, much less. Occasionally I have a gluten feed run as low as 12 per cent. of protein. Now the point is this: if a gluten feed is sold as a gluten meal the farmer has no means of knowing that it is gluten feed. There is no provision by law that a gluten meal should contain a certain percentage of protein; nevertheless the fact remains that there are genuine gluten meals on the market, and that there is a material being sold as gluten meal which is not a gluten meal at all, but simply a gluten feed. It does not contain much more than half the amount of protein which a true gluten feed should contain.

It must not be supposed that I am making a statement against manufacturers generally. There

THIRD OPERATION PREVENTED

By Lydia E. Pinkham's Vegetable Compound

Chicago, Ill. — "I want to tell you what Lydia E. Pinkham's Vegetable Compound did for me. I was so sick that two of the best doctors in Chicago said I would die if I did not have an operation. I had already had two operations, and they wanted me to go through a third one. I suffered day and night from inflammation and a small tumor, and never thought of seeing a well day again. A friend told me how Lydia E. Pinkham's Vegetable Compound had helped her, and I tried it, and after the third bottle was cured."—Mrs. ALYENA SPERLING, 11 Langdon Street, Chicago, Ill.

If you are ill do not drag along at home or in your place of employment, until an operation is necessary, but build up the feminine system, and remove the cause of those distressing aches and pains by taking Lydia E. Pinkham's Vegetable Compound, made from roots and herbs.

For thirty years it has been the standard remedy for female ills, and has positively restored the health of thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Why don't you try it?

are many honest and reputable manufacturers and they naturally wish to sell their material at the highest possible price. There is no law in this country, however, to prevent the sale of inferior feeds under names usually attached to feeds of high feeding value. Nor do I think we could enact such a law, but what I do wish to see is some enactment that will compel the manufacturers to state the percentages of protein and fat the feed contains. I might say that this matter has not only been brought to our attention by the purchasers of feeds, but also by the manufacturers of reputation. Certain of the manufacturers have pointed out to me that they are putting a good material on the market, whereas materials under the same name are offered to the public the actual value of which the public have very little means of judging, but which are of decidedly inferior quality.

Prof. Bolly, of the North Dakota Agricultural Experiment Station, has tried many experiments with chemicals or destroying weeds, and recommends two pounds of iron sulphate in a gallon of water. This strong solution, he claims, may be used without injury to gain crops. Sulphate of copper he has also used with the same results, using three pounds to ten gallons of water.

Picnic at Bartibogue, Aug. 24th.

F. H. Gough has imported for sale some very handsome stoves and ranges. The prices are right and on easy terms. Call and see them—to see is to buy.

NO HEART TOO BAD TO BE CURED.—Testimony could be piled high in commendation of the wonderful cures wrought by Dr. Agnew's Cure for the Heart. No case stands against this great remedy where it did not relieve the most acute heart sufferings, inside of thirty minutes. It attacks the disease in an instant after being taken.—131

On Tuesday the 8rd inst., death claimed the 7 year-old son of Mr. and Mrs. Samuel Kingston Chaplin Island Road. This is the second child Mr. and Mrs. Kingston have lost within a week. Death in each case was due to Scarlet Fever.

"500 PEOPLE BADLY BENT" have in effect used these words in speaking of the curative qualities of South American Rheumatic Cure—"My legs were crippled"—"My hands were distorted"—"My joints were swollen"—"My back was bent double"—"My pain was excruciating"—"Bedridden for years." This great remedy has been the heaven-sent agent that worked a permanent cure.—130

INQUIRY AT MONCTON.
Inquiry into the charges made against Police Magistrate Kay of Moncton was begun before M. G. Teed, the Commission appointed by the Local Government to make investigation. Kay is charged with receiving money for services within his duties as a salaried officer of the city of Moncton. So far nothing very damaging was established at the hearing.

IF THERE'S A HINT OF CATARRH TAINI apply Dr. Agnew's Catarrhal Powder without delay. It will save you suffering, heal you quickly whether you have been a slave one month or fifty years. It relieves cold in the head and catarrhal headaches in ten minutes. The Hon. David Mills, Minister of Justice for the Dominion of Canada, endorses it. 50 cents.—129

DROWNED AT DALHOUSIE.
Dalhousie Aug. 9.—On Sunday morning the body of John Toner was found in the gap of the breakwater to the east of the ferry wharf here. He had been reported missing on Sunday morning and a crowd soon gathered about the wharves in search of him. From this point his body was seen at the breakwater. The unfortunate man who had not been enjoying good health for some time, probably made a mistake in walking on the breakwater instead of the wharf, forgetting that there was a dangerous gap caused by an easterly gale. John Toner was a widower. He leaves two daughters, one whom resides in St. John and the other in Boston.

Picnic at Ellground Aug. 25th. All are invited.

A large number of people from Newcastle and up-river districts attended the circus in Chatham on Saturday.

At the United Baptist church on Sunday evening last a special sermon was preached by the Rev. J. H. MacDonald, B. A. of Fredericton from Ezekiel III, 15 verse. I sat where they sat or put yourself in the other man's place. In an eloquent sermon Mr. MacDonald urged upon the large congregation to put themselves occasionally in the place of the pastor so as to have some better idea of the difficulties with which he has often to contend. Mr. MacDonald is the secretary of the Baptist Convention of the Maritime Provinces and in that capacity he came so as to speak a hearty welcome the Rev. Dr. Cousins, the pastor who had recently settled amongst them. The church has already shown marked signs of revival and many improvements are contemplated both as regards the church building and the conduct of the public services. Dr. Cousins has had a wide and valuable experience both in South Africa and England. It is sincerely hoped that the Newcastle church will greatly prosper under his leadership.

About the first thing a new cook expects the mistress to learn is to keep out of the culinary department.

A Michigan man waited fifty years for the girl he loved. He must have been a school teacher waiting for an increase in salary.
