"PULL - TOGETHER" SPIRIT KEEPS CAMP FOR LONDON Germans In Despair Give Up Attack On Ypres ALLIES PROGRESS AT DARDANELLES BY LAND AND SEA

Board of Trade Does Great Work in Holding Troops for the City of London

President Mitchell Found Fine Spirit of Co-operation Among Citizens — Board Secure 5 000 Acres of Land and Will Pay For Rental of It—Teamwork Won the Day.

The London Board of Trade and the utilities commissioners did splendid work in assisting yesterday in the difficult process of changing the mind of Gen. the Hon. Sam Hughes. While Mayor Stevenson and Controller Moore represented the city at Ottawa as soon as they arrived, President E. C. Mitchell, whose term expires today, being succeeded by T. W. McFarland, occupied every waking moment of his "eleventh hour" in having telegrams sent to the minister and in arranging for the securing of property. He was assisted by Messrs. Philip Pocock, C. M. R. Graham, T. W. McFarland, T. P. McCormick, George Helton, Dr. Harry Reason and many others—in fact, everyone to whom an appeal was made.

The board of trade voices the sentiment of the community in advocating the proposed movement of troops in training. No request of your department has been refused here, and no indication of dissatisfaction with present accommodation and facilities has until now been received. London will provide what-ever land is desired in the immediate vicinity of Carling's Heights, also free light and water. Great dissatisfaction will be felt throughout Western Ontario if the troops are removed from London, the natural and strategic centre.

This splendid concis statement of London's case was received by the minister and also by the mayor, and it had a great effect in clearing the air.

Here's Your Hat, Mr. Bernstorff

Collier's Weekly. The present German ambassador's job is too small for him. In addition to making his own law and his own facts, he goes over the heads of the Government to which he is accredited, and with which alone he has any business, and lectures the American people on what to do if they "desire to observe true neutrality." If Count Bernstorff's remarkable "speech-making" was merely an outbreak of Berlin's nervousness, he should have said so. If it was his own make, then he is too full of Prussian jackboots as John Hay used to call it) to ever become a diplomat. In any case, what use is he at Washington?

ENEMY BEGINS NEW OFFENSIVE

General Move Along Prussian Border Aimed At Baltic States.

CRUISERS LIKELY TO AID So Far Move Has Consisted Mainly of Heavy Artillery Fire.

Petrograd, April 29. A general German offensive movement once more is being reported today that an increased number of German cruisers were preparing to aid the contemplated advance of the German offensive movement far the German offensive movement consisted mainly of heavy artillery fire at intervals along the whole front and rapid cavalry advances without infantry support.

From Polangen, a town in the Baltic province of Courland, it was reported today that an increased number of German cruisers were preparing to aid the contemplated advance of the German offensive movement far the German offensive movement consisted mainly of heavy artillery fire at intervals along the whole front and rapid cavalry advances without infantry support.

Patheic Incidents. There have been some pathetic incidents. A long-range German shell, falling in the yard of a convent in Poperinghe, blew off the top of the head of the aged mother superior while she was gathering the aged and infirm inmates about her, preparatory to leaving for a place of refuge.

Another shell killed three of the nuns and wounded four.

ROGERS WINS OVER PREMIER, BUT DUKE IS YET TO SPEAK

Only a Miracle Will Save the Country From a General Election.

MINISTERS NOW AGREE Majority Listen To Siren, But the Governor-General Dissents.

[Special to The Advertiser.] Ottawa, April 30.—It is almost certain that Parliament will be dissolved next week. Only a miracle will prevent a general election taking place in June. A majority of the ministers has been won over by Hon. Robert Rogers.

When Mr. Rogers came back from Winnipeg and found his colleagues cold when he proposed election he was so vexed that he first went on strike, and then went to bed with a gripe. From his sickroom he kept on the pressure, and has compelled the ministers, one after another to bow to his dictation.

Premier Won Over. When a majority of the ministers had been won over, Premier Borden was taken into the Rogers camp, and he is now with the minister of election.

It is believed that Connaught would prefer to see the British practice adhered to and the country left undisturbed by the election until the close of the war. It will be the unpleasant duty of Sir Robert Borden to persuade the Governor-General that the reasons for an election are sufficiently serious to warrant a test of strength by the parties.

His Royal Highness's advisers still have His Royal Highness to deal with. Borden's Government has not yet approached the Duke who have hired the billboards.

Every deal wall and boarding from Sydney to Victoria belongs to the Conservative party and will belong to them until June 21.

Hon. Louis Coderre, secretary of state, is going out, and J. M. Telleir, leader of the Opposition in the Quebec Legislature, is coming in. The change is being made to strengthen the Government politically in Quebec.

Ballots to the Front. Votes for soldiers at the front have been sent forward in the custody of Mr. Harold Mayne Daly, son of the late Hon. T. Mayne Daly. It is of sinister significance that the instructions for taking the soldiers' vote contain an intimation that if a soldier feels incapable of marking his ballot he may have some other person mark it for him.

The Government believes that the sentiment which has been developed by the great list of Canadians killed and wounded at the front will have such an effect upon the people that whatever Government they will vote against a change of administration in Canada until the close of the war.

One thing is certain, people should begin now to make up their minds they will vote in June.

WAR REVEALS LONG LOST BOY TO HIS RELATIVES IN STATES

Minneapolis, Minn., April 30.—Thirteen years ago Bernard Frank Lanfers, of Minneapolis, disappeared, and his relatives heard nothing of him until yesterday, when they received official word from Ottawa that Pte. Bernard Lanfers, 1st Battalion, had been seriously wounded with the Canadian contingent on the battlefield at Ypres.

Pte. Lanfers were employed as a carpenter with John Hayman & Sons, and resided at 572 York street. He was 30 years old. His papers show his birthplace as Minneapolis, but none of his friends, it is stated, knew of his mysterious disappearance from home.

City's 'Pinch Hit' at the Right Time Saved the Camp

Many Good Citizens Joined Hands and Combined Their Resources With Telling Effect.

The Advertiser believes that citizens of all classes should give three big mental cheers for all the good citizens who got together and helped to save the camp for London.

It believes that the fine spirit which exists at the heart of this community was manifested yesterday during certain "dark hours."

This is the spirit that London needs to show, and this paper believes that some of the men who deserve credit for having worked with all their might and resources in the sudden necessity to prevent an injustice being done this city, were the following:

- MAYOR STEVENSON.
- CONTROLLER J. P. MOORE.
- PRESIDENT E. C. MITCHELL, board of trade.
- PHILIP POCOOCK, chairman utilities commission.
- C. M. R. GRAHAM, ex-mayor.
- WM. GRAY, M. P., board of trade.
- T. W. MCFARLAND, board of trade.
- T. H. SMALLMAN, capitalist.
- GEORGE H. BELTON, board of trade.
- GORDON PHILP, industrial commissioner.
- S. FRANK CLASS, M. P., board of trade.
- T. H. CARLING, board of trade.
- LIEUT.-COL. L. W. SHANNON, utilities commission.
- J. H. CHAPMAN, utilities commission.
- JOHN MCCLARY, manufacturer.
- F. G. MITCHELL, utilities commission.
- COL. GARTSHORE, manufacturer.

These men got out, and to quote Hughes' term, "scratched gravel," with the result that the city today is practically assured of the camp and has the land ready for the authorities.

If there is blame to be attached to anyone that will be known in due season. The present is no time to make a petty controversy of a civic disturbance that meant much to all citizens. When a municipal earthquake occurs—and this term does not seem too strong—everyone should get at the rescue work.

These men all had a hand in throwing out the lifeline.

Just here it might be said that The Advertiser has in its possession a copy of a telegram from Major-General Hughes which absolves Mayor Stevenson and any other civic authority of blame for the threatened loss of the camp. It places the blame elsewhere, but The Advertiser is unaware whether that blame is justly placed or not, and it does not believe the present a time to recriminate. Whether there is a motive behind all the furore remains to be seen. If there was politics or coercion or bluff behind the move the truth will be known in due time.

The public can rest assured that the camp will remain, and too much credit and too little censure cannot be given the men who acted in the immediate emergency.

MOTHERS SIGN PETITIONS.—More than forty thousand mothers and wives have signed petitions of the Ontario Women's Christian Temperance Union, asking the Dominion Government to do away with the wet canteen that is with the Canadian overseas contingent.

BATTLESHIPS SOON SILENCE TURKS' FORTS

Correspondent Tells of Success Gained By Allies On Monday.

BATTERIES WIPED OUT Naval Guns Aid the Landing Parties, By Shelling Adversaries.

[Canadian Press.] London, April 29.—Serious damage to the Turkish fortifications resulted from the bombardment by an allied fleet which was carried out simultaneously with the landing of troops in the Dardanelles Monday, according to the Chronicle's correspondent, who thus describes the operations:

"The bombardment grew terrific about midday. British and French ships were clearly visible from the entrance to the straits. The largest warships lay at the entrance near the European side with others in Erebus Bay, firing heavily on Kiled Bahr, and the mountains beyond. In the distance several small ships directed the fire of the large units on the Chanak and Kiled Bahr forts.

"The noise of the firing was continuous, the discharges frequently reaching twenty a minute.

Forts Battered Down. "Away to the left stretched the line of transports, which effected landings late in the afternoon on the coast opposite and on the peninsula. The effect of the naval bombardment evidently was severe. Tall columns of

FATAL ACCIDENT NEAR ST. THOMAS

John Wise Killed and Dr. Tufford Injured When Auto Overturns.

[Special to The Advertiser.] St. Thomas, April 30.—As a result of an automobile turning turtle while racing over a high embankment near the Hear-Way House on the gravel road at noon today, John Wise was instantly killed, and Dr. Tufford, of this city, terribly injured. The car belonged to Dr. Tufford, who was going to Mr. Wise's home to attend a patient. The dead man lived about four miles from St. Thomas.

MORE CASES HEARD.—To date this year, Police Magistrate J. C. Judd has heard 142 more cases than in the same period of 1914. Just 1,171 cases have been tried in the Carling street court this year, against 1,029 a year ago.

SAYS ENEMY ATTACK ON YSER HAS ENDED

Times Correspondent States Germans Have Fallen Back, and Are Struggling To Defend Their Gains—Belgians Holding Them.

[Canadian Press.] London, April 30.—The German attack on the Yser has ceased, says the Times correspondent in Northern France, writing under date of Thursday.

"The enemy has fallen back on the defensive," says the correspondent, "and is struggling to defend the small territory gained. Filled in the attempt to reach the canal the enemy made an equally vain attempt to force a passage of the Yser at Dixmude. Belgian shells and bombs destroyed ponton bridges as soon as they were in position, and the gallant Belgian army still holds its lines intact."

PRESENCE OF MAYOR AND MOORE AT OTTAWA PREVENTED REMOVAL OF SOLDIERS FROM CITY

Papers For Transfer of 33rd Had Been Signed—Carrying of Message To Hughes Saved the Situation — Stevenson and Controller Confident of Retaining Soldiers.

The retention of the camp in London seems assured, if we can get land that will be accepted by the military authorities, and we will get that." This was Mayor H. A. Stevenson's statement upon his return from Ottawa today after interviewing Major-General Sam Hughes. He was glad to know the board of trade had already secured the land.

"When Controller Moore and I arrived at General Hughes' office the mobilization papers, ordering the transfer of the 33rd and the 7th C. M. R. to Guelph, were signed and ready to be sent out. As soon as we had presented our proposition he reconsidered his previous action, and informed us that if London would provide the necessary land, water and light the soldiers would remain here.

PRESENCE SAVED THE DAY. "Major-General Hughes informed us that it was only our proposition that had been sent him from here, and particularly over journalistic interference with the announced arrangements.

"We were well received, and the minister called a special meeting of the military council to consider the proposition, with the result that Brigadier-General Hodgins will be here tomorrow to go over the ground."

The mayor and as far as Coteau Junction on his way home, and had an opportunity of amplifying the city's requests for consideration.

Everything Satisfactory. "Everything seems satisfactory now," declared Controller J. P. Moore, who accompanied the mayor. "For my own part I think that too much fuss has been raised over the proposition. I don't think that it was at all necessary."

"We have the minister's promise that if we will supply the site, water and light that we will keep the soldiers here."

"There has been some talk of the city representatives being at fault in allowing the camp to get away from here," said a reporter. "What do you think of that?"

"Why, there is nothing to it. If the city has done nothing, it is simply because we did not think that anything was necessary. When we were down at Ottawa seeing the minister in connection with the fair grounds grandstand, he was more than genial. He told me that London had done more for the military authorities than any other city, and that it would not be forgotten. We asked if anything more was wanted, and he said no. In view of that, I can hardly see where it can be said that the city was at fault."

Controller W. W. Gammage, who was present when Controller Moore made the above statement, and who was also one of those present on the visit to the minister, said the fair grounds, concurred with the latter's declaration.

Snap Election Would Injure the Government

[Special Cable to The Advertiser.] London, April 30.—The Toronto correspondent of the Times assures us again today that indications suggest an immediate dissolution of Parliament. On this subject the London correspondent in conversation with influential Canadians now over here, reveals that even supporters of Borden's Government disapprove of holding an election at the present.

They further say that, although the present Government would most likely be returned again, still holding a snap party election would be held in remembrance against it.

As to the proposal for recording Canadian votes on the battlefield, it is highly doubtful whether votes would be legally sound. Probably there would be an excellent chance of the election being upset by Canadian courts, backed up by the privy council.

Professor Adams, of Montreal, has been elected a fellow of the Royal College of Physicians. A. McInnes, of Toronto, has been granted a college license to practice.

SHOW LACK OF INTEREST.—Belgians Repulse Enemy.

[Canadian Press.] London, April 30—11:35 a.m.—There has been given out at Belgian army headquarters an official report reading as follows:

"During the night of April 28-29 our troops repulsed with success a German attack delivered from Steenstraete. On April 29 the enemy's artillery became active and bombarded at intervals various parts of our line. We occupied a farm to the south of Planvoetberg."

"Because there is a lack of interest in the meetings of the Methodist Council composed of Methodist ministers of the city, the association may be disbanded. A meeting was held last night in Wesley Hall and after some discussion was adjourned for a week, when it will decide definitely whether to continue the meetings."

MOTHER SUPERIOR, CARING FOR AGED, KILLED BY SHELL

Germans Also Manage To Slaughter Some Nuns At Ypres—Most Colossal Artillery Duel of the War Abates and the British Hold Fast.

[Special Cable to The Advertiser.] (By Wm. G. Shepherd. Copyright, 1915, by United Press. Copyrighted in Great Britain.) Headquarters of British Army in Northern France, April 29, 10 p.m., via London, April 30.—The great artillery duel, one of the most colossal of the war, abated today.

Only a few shells are falling today along the battle line, where Gen. French's forces have once again thrown back the high tide of the German offensive.

Tower Still Stands. Ypres suffered greatly, but the wonderful Cloth Hall Tower, the most noted landmark in Flanders, still stands. It miraculously escaped destruction in the hail of shells with which the town was deluged by the enemy.

4,000 Germans Annihilated: Own Guns Turned Upon Them

[Canadian Press.] Havre, April 30.—The virtual annihilation of 4,000 Germans who crossed the Yperes over a bridge near Steenstraete, is described by the newspaper Vingtieme Siecle. Belgian heavy artillery destroyed the bridge, while field artillery showered the troops with shrapnel. Many tied handkerchiefs to their bayonets and raised them in sign of surrender, but immediately their own quick-firers, the newspaper says, opened fire and mowed them down pitilessly. Many survivors were made prisoners by the Belgians.

**HEAVY MEAT EATERS
HAVE SLOW KIDNEYS**

Eat Less Meat If You Feel Backache or Have Bladder Trouble.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid, which excites the kidneys. They become overworked from the strain, get sluggish and fail to filter the water and poisons from the blood, then we get sick. Nearly all rheumatism, kidney, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.
The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacist; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acids of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so that no longer causes irritation, thus ending bladder weakness.
Jad Salts is inexpensive and cannot injure, makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding

POSITIVE CAMP WILL BE HELD IN THIS CITY

William Gray, M. P., Is Sure London Won't Lose Soldiers—Not Right To Make Anyone "the Goat" in This Matter, He Declares, Over Long Distance Telephone From Chatham.

In an interview with The Advertiser over long distance telephone, Mr. William Gray, M. P. of London, who is at the Chatham Sanatorium, seriously ill, stated that he had every confidence that the camp would be held for London.

"And I want to say this: that I do not think that it is right to make anyone 'the goat' in this matter, for before I came to Chatham the last thing I did was to see Lieut.-Col. Shannon and ask him if everything was all right. He assured me that there was nothing left undone by the city that should have been done under Mr. Gray."

"What about the telegram that was received in reply to your telegram to Gen. Hughes? Was that given out by you?"

"No," it was not, answered Mr. Gray. "I received the wire after it had been sent me, unopened, in a special delivery letter, by my father."

"What was it?"

"I did not believe anyone was responsible," he replied. "I am confident that everyone in London is anxious to do everything in his power to keep the camp, and that all that was needed was to be told what was required."

"What about the telegram that was received in reply to your telegram to Gen. Hughes? Was that given out by you?"

GIVE STRIPES IF ONLY WAY GET TO FRONT

Four Lieutenants Chosen and Some Few Men Notified That They Will Be Among 250 33rd Men Drafted For Immediate Duty On Firing Line in France.

Lieut.-Col. Wilson, commander of the 33rd Battalion is the most worried man in London this afternoon. With over 1,000 of his men in France and stamping him with requests to be sent to the front with the special draft of reinforcements, and urging every claim they can think of to get to the firing line, he has to select 250.

It was stated to The Advertiser this afternoon that Lieuts. Cooke, Rimmer, Grant and Beaumont have been chosen and that the choice of a captain will fall between Capt. Muir, of Windsor, and Capt. Sloan, of Seaford. Capt. Muir is a nephew of Mr. Wauchops, the famous Scotch soldier who was killed at Magerfontein in the Boer war.

Lieut.-Col. Wilson will not draft any of his senior officers, much to their disappointment, as when the order for action came yesterday, they offered their services in a body.

Some of the men have already been notified that they will be sent to the front, and all hoping that they will "make it." To a man they want to get into action, and ready to do anything to get there. It is likely that the full list of those selected will be ready to-night.

HEALTH AND HABIT

Continued from Page Twelve. When I go upon the stage with a certain amount of indifference, simply taking care not to have over-acted. Then I start in slowly, and soon the thoughts are coming along just as fast as I can use them. The air is full of reason, and all I have to do is to reach up and pick the ones I want.

In this matter of good health just a few plain rules suffice. The whole of them becomes automatic and self-lubricating. Health is a habit. We are ruled by habit. There are three habits which, with but one condition added, will give you everything in the world worth having, and beyond which the imagination cannot conjure forth a single addition or improvement. These habits are:

THE WORK HABIT. THE HEALTH HABIT. THE STUDY HABIT. If you are a man and have these habits, and also have the love of work, you are a man who has these habits, you are in Paradise now and here, and so is she.

Health, books and work, with love added, are a source of all the stings and arrows of outrageous fortune—a defense from all the storms that blow. Feared through their use you transmute sadness into mirth, trouble into balmy pain into joy.

Work means safety for yourself and service to mankind. Health means much happiness and potential power. Study means knowledge, equanimity and the evolving mind. And love means all the rest!

DEATHS AND FUNERALS. Death of Mrs. Peter Wilson. The death of Mrs. Peter Wilson, until eight years ago a resident of London, Ont., occurred in Detroit, Mich., April 18, at her late residence, 875 Townsend avenue, after a long illness, at the age of 59 years. Before her marriage she was Miss Charlotte Netterfield, of Wingham, Ont., an old family of that town. She leaves to mourn the loss of a dear wife and mother, her husband, Peter Wilson, three daughters and one son. The children are: Mrs. George Spence, Mrs. Charles Bennett, Annie and Chester, at home; also one sister, Mrs. John Hicks.

HORSES WERE SCOTCH. The skill of the pipes in the Mocha Tombs, which paraded up Richmond street at noon today, took effect on a team of horses, hitched to a heavy wagon, driven by King Murrell. The horses bolted, running west on King street.

They sped past Whiskey Row at terrific speed, and after a half dozen narrow escapes, Murrell, who had stuck to his seat, reined in the team just at the King street bridge. Murrell spent the next fifteen minutes in accepting congratulations from the crowd who had watched him go by from the Market Square.

Twelve-Mile Strip of Shore Main Hindrance To Allies.

[Canadian Press.] London, April 29—2:48 a.m.—A Mitylene dispatch to the Times, dated Thursday, says:

"From credible informants who have just arrived from Tenedos and Lemnos and who are also to a certain extent eye-witnesses, the following particulars have been learned of the terrific fighting that has been going on in the Dardanelles almost incessantly since 4 a.m. last Sunday.

"Forces have already been landed on both shores of the strait, and additional troops are to follow where and when they may be required. The British have attacked the European side, while the French have effected a landing on the Asiatic side.

"Capture Trenches; 3,000 Prisoners. "Several lines of trenches between Cape Helles and Kild Bahr, on the European side, have been carried by assault, and about 1,200 prisoners have been taken. On the Asiatic coast the French have captured some 1,800 men around Kum Kale.

"Today the fighting in the strait had progressed as far as the line of entrenchments along the ridge that runs from Calvert Arm at Thymora to the hill of Hissarik. From the summit of Tenedos, which was crowded with observers, shells could be seen exploding all along this line, on which the French

were advancing at about noon. Inside the straits the warships had not yet penetrated beyond Kephaz Point, but the German garrisons between Kild Bahr and Cape Helles are now said to be cut off by a strong force of British troops that has established itself across the narrowest part of the Gallipoli Peninsula.

"When once this twelve-mile strip of shore is in the possession of the Allies, it is believed the complete silencing of the batteries on the Asiatic side and the final clearing of the mines from the channel should be comparatively easy. "Happily no loss of warships is known to have occurred so far. Prisoners who were brought to Lemnos at first appeared to be much frightened, but they soon realized from their benevolent reception that they had nothing to fear from the French soldiers, who patted them on the back with true Gallipoli goodwill.

"British Airmen Effective. "The British aerial fleet is rendering valuable assistance to the operations by discovering enemy positions. They also have destroyed an important bridge over the Scamander, near Ezine, and a large depot of arms in that town. A report was current here today to the effect that bombs thrown by one of our aeroplanes had wounded ten persons at Maitos. "Among the prisoners are said to be a number of Germans."

OFFICERS' CASUALTIES DURING WAR 6,229

Of These 1,961 Have Been Killed and 3,528 Wounded.

London, April 21—(Correspondence of the Associated Press).—An officer's casualty list for the fortnight ended April 20 shows that the British army lost 46 officers killed and 110 wounded—a total of 156 during the fortnight. The casualties in only one regiment exceeded double figures—namely the Royal Engineers—which had three killed and eight wounded.

NORTH SEA GRAVE OF ANOTHER TRAWLER

German Submarine Sinks Lily Dale and Escapes Patrol Boat.

London, April 29—2:11—The trawler Lily Dale has been sunk by a German submarine in the North Sea, 75 miles off the mouth of the River Tyne. A patrol boat picked up the crew of the trawler and then went in chase of the submarine. The submersible, however, made its escape.

IRELAND JOINS IN "VIVE LA FRANCE"

Stirring Message Was Taken Across Channel By Leading Irish M. P.s.

FRIENDSHIP IS ASSURED

Catholics Also Send Message Saying "Allies' Cause Is Ours."

[Special Cable to The Advertiser By William Philip Simms.]

Paris, April 30—Ireland's sympathy with France in the present war was voiced here today by a delegation of leading Irishmen, headed by T. P. O'Connor and Joseph Devlin, president of the Ancient Order of Hibernians. The delegation, comprising leading members of the Irish party in the British Parliament, was received by President Poincare and Cardinal Amette, archbishop of Paris.

Premier Viviani, Henry Franklin Boulton and Denys Cochin, members of the Chamber of Deputies, presented the delegation to the President in the Palace Elysee.

Stands By France.

Joseph Devlin then read the address, which said, in part: "Ireland has always considered France the greatest Celtic nation, France always has granted asylum to exiled Irish chieftains. Ireland today stands by France in her great struggle against invasion by militant nations.

"All Ireland joins today in the cry 'Vive La France.' President Poincare was deeply touched by the address.

Devlin's Cause "Ours."

The address made by Cardinal Amette was by far the strongest utterance yet made by a Catholic organization on the present war. In part, it read: "The Ancient Order of Hibernians, in convention assembled, resolved to offer through Cardinal Amette an expression of profound sympathy for France. "The cause of the Allies' is our cause. The success of the Allies will be a step forward from the barbarism of militarism to a new era of progress and hope."

Bennie Burridge's Relatives Help Him In Time of Need.

Bennie Burridge, wanted by the police in connection with the Gallagher hold-up in the Grand Trunk lavatory, and who gave himself up to the detective department yesterday, was today allowed out on bail by Police Magistrate J. C. Judd until he comes up for trial Wednesday.

J. M. McEvoy, appearing for Burridge, asked for a stay in the trial until May 6 in order that he may clear up a number of things in connection with the case which were not made public. Relatives put up the bail for the prisoner.

NEWFOUNDLAND MAY BE UNDER PROHIBITION

Plebiscite To Be Submitted To People—St. Johns Only Licensed Town.

[Canadian Press.]

St. Johns, Nfld., April 30.—The recent announcement of the premier, Sir Edward Morris, that the question of prohibition would be submitted to a plebiscite in November, came as the climax of a growing agitation for the banning of liquor from this colony. Consideration by the Legislature of a resolution for prohibition had been set for the day on which the premier made his announcement, and on the

preceding day two thousand women participated in a parade in this city in favor of the resolution.

At present, under the so-called local option act, St. Johns is the only place in the island where liquor can be legally sold. The majority in favor of its sale has steadily diminished in test polls taken here in recent years. Meanwhile many restrictions have been made, so that saloons now may be open only from 9 a.m. to 6 p.m., private drinking rooms have been abolished, incurable drunkards may be blacklisted by order of a magistrate, and three offences against the law entail forfeiture of a license. Should the proposed prohibitory law be adopted by the people, it will go into effect on July 1, 1916.

Philadelphia, April 29.—America's interests as affected by the European war was the general topic of the discussions at the 19th annual meeting of the American Academy of Political and Social Science, which opened a two-days' session here today. The subject will be discussed from many different angles by leaders in various branches of activity at the six sessions.

The effect of the war on American industry and labor was considered at the opening meeting, at which Alva H. Johnston, president of the Baldwin Locomotive Works, presided. Among the speakers on the program was Samuel C. Crompton, president of the American Federation of Labor.

DELIBERATE ATTEMPT TO BURN HOTEL WHERE FORTY GUESTS SLEPT

Casings and Woodwork of Western Hotel, Sarnia, Oil Soaked, and Pail of Blazing Kindling Thrust Inside—No Clue to Vandal.

[Special to The Advertiser.]
SARNIA, April 29.—A deliberate attempt to burn the Western Hotel, in which 49 guests were slumbering, was made here this morning. A man employed at the waterworks passed on his way home and noticed flames in the rear of the building. He immediately aroused the hotel staff, and after a vigorous fight, the blaze was extinguished.

Then it was discovered that someone had taken a canny pail, filled it with kindling saturated with oil, and, after the casings and woodwork in the far end of the hotel had been also saturated, the pail was ignited and thrust inside. So well was the outrage planned that if the flames had once eaten through the door into the hallway there would have been no escape for the guests save by the windows.

Immediately the incendiarism was discovered the police were sent for. No clue could be found.
Claude Irving, the proprietor, does not

know of an enemy who would take the means of revenge. The walls and window casings where the fire was started were badly scorched. The authorities will make every effort to find the guilty party.

ST. THOMAS OFFICERS TO RAISE COMPANY FOR ACTIVE SERVICE

[Special to The Advertiser.]
ST. THOMAS, April 29.—At a meeting of the officers of the 25th Regiment held in their mess rooms, Taibot street, it was decided to raise an active service company of 250 strong in St. Thomas and district, officered by local officers in the regiment, and offer the unit to the Government for the next contingent. It is believed that this number of volunteers could be easily raised since local officers would be in charge.

AGED WOMAN BURNED IN RESCUING STOCK

Heavy Loss to Premises of Lucan Couple—House Also Destroyed.

[Special to The Advertiser.]
LUCAN, April 29.—While attempting to lead some stock to safety from a fire which started from an unknown source this afternoon, destroying the barns and residence of James Scell while he was absent from his place, Mrs. Scell, who is nearly eighty years of age, was severely burned about the hands and face.

How the fire started is a mystery. Mr. Scell was on his way to a relative some miles down the road when he was notified of his loss. His aged wife had occasion to go into the barn and on doing so found one end of it a seething mass of flames. She tried to get some of the stock out and was successful for the most part, but in going back after more she was badly burned.

RIDGETOWN, April 29.—Fire tonight practically destroyed one of the largest and finest flour mills in Western Ontario—the Ridgetown Milling Company's plant, owned by A. F. Blight, who bought the institution about eight months ago from Buckborough & Simpson.

While this fire was in progress the pump house at the Pere Marquette station was burned to the ground. This blaze undoubtedly started from a spark from an engine, lighting on the shingles which were dry as tinder.

BRITISH COMMONS DIVIDES ON TARIFF

Strong Opposition To Proposal To Raise Duties On Liquors.

SPIRITS TAX IS PASSED

Modifications Likely To Be Demanded in the Schedule.

[Canadian Press.]
LONDON, April 29.—9:40 p.m.—The proposals introduced in the House of Commons this afternoon by David Lloyd George, chancellor of the exchequer, to double the duty on spirits, quadruple the duties on wines, and to institute an increase by a graduated tax on beer—to encourage the use of lighter beers—were strongly opposed, and it is generally believed that the new taxes will have to be moderated before Parliament will accept them.

The O'Brienites, as a protest against an additional taxation on Irish whiskeys and beers, brought about the first division in the House since the outbreak of the war by taking the unusual course of voting against the provisional resolutions bringing the taxes into force at once, to prevent withdrawals from bond, while Parliament is dealing with the matter.

The resolution relating to spirits was passed by a vote of 99 to 5, the minority being composed of O'Brienites. The Nationalists also protested against the measure, but did not vote. The Unionists, who withheld criticism until all the facts could be placed before them, also abstained from voting. Usually these provisional resolutions are carried without division, for should Parliament refuse to sanction the taxes, they are refunded to those who may have paid.

Laborites to Reply.
The Laborites promised to reply to the chancellor's charges that a minority of the workmen, lured away by drink, were not putting their best efforts into the work of producing material which is so badly needed by the soldiers at the front.

Grandma Knew Them.

Dear Miss Grey—I saw in the Advertiser a request for a song, "Won't you buy my pretty flowers?" I am sending it in and hope some one knows these two very old songs as my grand-ma used to sing them; the chorus is as follows: "You have made your poor old mother weep for you from night till morn, you have made your poor old father wish that you were never born." The other chorus is quite long: "Come now let us cheer them on, for they can't be with us long, don't sneer at them because they're old and gray; but remember while you're young that the day to you may come when you're poor, and old, and only in the way."

Thanking you in advance, I remain, JUST BELLA.

Ans.—We are grateful to "Just Bella" and hope the songs "grandma used to sing" may be traced.

Her Sole Support.

Dear Miss Grey—I am a widow in delicate health and my son, my sole support, has joined the army. Would you kindly let me know if I am entitled to any help from the Patriotic Fund and, if so, how and where to go about it, and you will oblige.

A CONSTANT READER.

Ans.—I should certainly think that you were entitled to a grant. Inquire at the office of the Patriotic Society, at 438 Richmond street (upstairs). Are you not receiving the Government allowance for dependents of men at the front?

Decoration Day.

Dear Miss Grey—Here I am again with a few important questions and hope you will oblige me by answering them at your earliest convenience.

1. Would you please give me the names of a few famous cemeteries of the south?

2. When is Decoration Day?

3. What can I do to stop biting fingernails? It is one of my worst habits.

4. Are daisies good this summer for hats?

5. What is the latest shade for a summer dress and how would you have it made?

I am, ROSE.

Ans.—1. In view of your second question concerning Decoration Day, it is presumably some of the American national cemeteries, where are buried soldiers who fell in the civil and Spanish wars. I do not know the names of the cemeteries, but in each of the following places in the southern states, a national burying-ground is situated; of course, there are many more besides these which I have mentioned: St. Augustine, Fla.; Andersonville, Ga.; Alexandria, La.; Baton Rouge, La.; Alexandria, Va.; Arlington, Va.; Culpeper, Va.; Gettysburg, Pa.; Wilmington, N.C.; Beaufort, S.C.; Memphis, Tenn.; Chattanooga, Tenn.; Knoxville, Tenn.; Crown Hill, Ind.; Little Rock, Ark.; Lexington, Ky.; and San Antonio, Texas.

2. May 30 is the most of the American states. For the benefit of those who do not know, Decoration or Memorial Day is set apart as a legal holiday for the purpose of commemorating the soldiers who fell in the civil war, and decorating their graves. In all the northern and western states (except Idaho and Texas) and in Virginia, May 30 is observed; in the south, April 26, May 10 and June 2, are days observed in the various states.

3. Exercising your will power is about the only thing; when children have this habit, some rub the nails with a piece of fine sandpaper, or rub the tips with something distasteful, so as at the first bite the offender is reminded; keep strict guard over yourself, and it might be well to have your mother or sister warn you, every time you forget.

4. Yes, see in wash goods, figured voiles, crepes, cotton gabardine, and many pretty textiles may be purchased, choose any color, to become you; see a style book for design.

Oranges and Lemons.

Dear Miss Grey—I. Some weeks ago one of your correspondents promised to send in a recipe for marmalade containing one orange and one lemon. Has it been printed yet? If it has I have missed it, would you mind having it printed again, as I am anxious to have it? I have been ill for five weeks, and was not able to see a paper for two weeks, so I seem to have missed it during that time, as I have looked for it in all papers since, but have not found it.

Could you or any of your readers tell me the best way to treat a cyclamen plant, also a sword fern? We burn gas—do you think it injurious to plants, as I seem to have such difficulty in keeping them?

I have a green brussels rug, and it needs cleaning, could you tell me how to clean it at home, last summer when the roads were filled I got some

onto the rug. Is there any means of cleaning it off successfully?

4. Could you tell me how to wash a tapestry table cover?

5. Could you tell me how to clean paper on the ceiling that is blackened by the smoke from burning gas?

6. Will you kindly have printed the list of wedding anniversaries and what each one means?

ANS.—1. A DAUGHTER OF ALBION. Ans.—1. The recipe has not yet been sent in, my knowledge. Would the reader promising please let us have it for the benefit of Daughter of Albion?

2. Yes, indeed, gas does seem to injure house plants of any description. Better let the cyclamen dry out now, set the pot on one side, and cease watering; in about a month remove the bulb and keep in a cool, dry spot until the last of October; plant again in fresh earth, and you should have bloom for Christmas.

As to the sword fern, perhaps you can get it outdoors on the porch, these sunny days, and with a little fertilizer worked into the soil with a table fork, judicious watering, and fresh air, it should get a new lease of life.

3. I don't really see how you can clean the rug at home very successfully; wouldn't it pay to employ a professional cleaner? My hints which readers send in would be greatly appreciated.

4. As in No. 3, would advise sending it to a cleaner?

5. You could try using this magic white cleaner, but I am honestly somewhat doubtful if it will remove smoke; six tablespoons salt, 6 tablespoons flour, 2 tablespoons coal oil, enough water to make a batter; put on stove and cook to a thick paste; form in balls and rub soiled wall paper with this.

6. First, cotton; second, paper; fifth, wooden; tenth, tin; fifteenth, copper; twentieth, china; twenty-fifth, silver; thirtieth, gold; fortieth, ruby; fiftieth, glass; sixtieth, diamond.

Your very excellent recipes have appeared elsewhere in this paper.

The Best Paper.

Dear Miss Grey—We have taken The Morning Advertiser for nearly a year, and think it is the best paper we have ever taken.

Miss Grey, do you think it is right the way some of the women run on their husbands, and find so much fault with them? I think the women that write such letters are the ones that are to blame for most all the trouble that is in their homes. It shows they haven't got much sense or they wouldn't write about such stuff.

1. Could anyone tell me how much it would cost to get a tennis outfit?

2. How can you mix gliding? We bought some, and it is just in powder.

3. Do you think a girl 17 is too young to keep company with young men in the same good company, and her mother will allow it, not to go steady, but just for good times?

Hoping to see this in print soon, I remain, A. M. E.

Ans.—1. A tennis net costs anywhere from six dollars up to fifteen; good tennis balls are fifty or seventy-five cents, and a racket from two to five dollars.

2. The powder is doubtless the kind that should be mixed with banana oil; this may be procured at any hardware or art goods store.

3. If your mother is willing, it is all right.

Answer for Jean.

JEAN—I think I understand just how it is, Jean, and I do not regard you as silly at all, but a very dear, wise, little girl. You forget to tell me how old you are, but I suppose, sixteen or seventeen. No, I do not think you should "give him up," but by all means continue to talk in your present attitude towards these things. A good punishment for him would be that "third person" you speak of. If he sees that you are talking in earnest, perhaps it will not be necessary to ask her.

Your writing, Jean, is very good.

Grannie's Message.

Dear Miss Grey—Again I come to you for a bit space in your column. Have daily read your column, and must admit that "The Star that Guides" rather startled me, and I believe I read her letter over once or twice. What's in a name? Hers is good, and she believes in the power to do all she says. Her aim is high, ideals noble. She may fall to a certain extent through circumstances; we are all fallible. In a way, I think she is right, since the beginning of time. But I believe she will not be a failure. If all men had mothers like her we would never have had a war. I want to say to the married ladies and mothers of our correspondents, I am very sorry to think you could be so easily snubbed at any good thing. You can't begin to hurt her; you have only let the world know that your own life has been as well as an unhappy failure. Your poor husbands are just what you daily make them, and your dear children, bone and flesh of yourself!

A Difficult Matter.

Dear Miss Grey—Could you please tell me if Easter Sunday ever was on the 4th of April since the year 1857, until 1915? Thanking you, L. DEKERTON READER.

Ans.—I do not know. There possibly is some way of finding this out, but personally I have not the knowledge.

At Home For Teachers.

THE BACKYARD GARDEN

CHAPTER XVII. CABBAGE, KALE, ETC. [By Prof. Spade.]

Cabbage journeys over a hazardous path from seed to crop. Rot, maggot and worm jeopardize the cabbage head from the time it appears above the ground.

Cabbage plants are always started under glass for early crops, and transplanted. Transplanting is necessary for the later varieties, too, as only by developing the plants in beds, and exercising extreme care they reach the stage of hardiness to permit growth in the field or open plot.

If you can set but a small number of plants, buying them would, perhaps, be better than attempting to grow them. Market growers drop a small amount of liquid manure into the hole (a half-pint of water will do) where the plant is set, and never plant one a burning-hot day. A strong sun with the leaves before the root has taken hold. The cold-frame will come in useful if the backyard farmer prefers to grow his own plants.

Cabbage requires rich ground, and comparatively quick results can be obtained under good conditions. It is possible to plant cabbage quite late in the season, if it is a quick variety, right

after some of the earlier vegetables are out of the ground. The plants may be set as close as 18 inches in rows two feet apart in the small garden.

Cabbage is annually becoming a popular crop in the United States. The consumption of sauerkraut is no longer confined to the German peoples, its value as a food is now generally known.

Kale is a kind of abnormal cabbage. It is harder than cabbage and requires less care. It is sown in the spring, and the seeds are placed where the plants are to stand, often the plants are allowed to stand all winter without harm. It is even said that freezing will improve the leaves. Kale is grown for its large leaves, used as sour flavoring.

Brussels sprouts, one of the choicest varieties of the cabbage family, is a kind of growth for the miniature cabbage heads which grow thickly on its stem. It is at its best late in the season, and is all the better for having been touched by the frost. They require the entire season in which to grow, and seed may be started in a coldframe and the plants later placed in the open plot, about two feet apart. Remember to cut off rather than break the little cabbages when harvesting.

9968—A Neat and Becoming Dress for Morning or Afternoon Wear.

Ladies' House or Home Dress, with Long or Shorter Sleeve, and with Skirt in Raised or Normal Waistline.

Percale of a simple pattern in blue and white with trimming of white plique is here shown. The model is also good for seersucker, gingham, chambray, lawn, batiste, dimity, linen, flannel or tub silk. The pattern is cut in six sizes: 34, 36, 38, 40, 42 and 44 inches bust measure. It requires 5 1/2 yards of 44-inch material for a 36-inch size. It is not necessary to write in inches or years. Patterns cannot reach you in less than one week from date of publication.

I am old in years, and have borne some of the hardships of the war, and my daughter, I have seen trouble of many kinds, yet I can say my life has not been a failure, my children love me, and are kind to me in my declining years. Dear writers, when you are older, and the times come that you have to say: "I have no husband," like myself, you will weary and stand for the "touch of a vanished hand, and the sound of a voice that is still."

Soft Ginger Cookies.

CHRISTIAN—Here are two recipes for ginger cookies which have appeared in this column before, and which may be the ones you want:

Ginger Cookies—Two-thirds cup butter or shortening, one cup sugar, one cup molasses, two-thirds cup warm water, two teaspoons soda, one egg, and one-half cup raisins, mix rather soft. Or this: Two eggs, one cup sugar, one cup black strap, one teaspoon soda, one ginger, one of cream of tartar; let bake two hours in a tin. In a little flour as you can manage to roll out.

CITIZENS HELP THE BLUE CROSS TOMORROW

Having your donation ready Saturday morning as you leave your home for the downtown section. For the Blue Cross flag "taggers" will be on hand bright and early, eager to gather the contributions of London citizens into a fund for helping the horses on the battlefields of France. During the early part of the present war, it was sad to hear of fine animals lying for days, with perhaps a broken leg, or otherwise disabled. The Red Cross doctors and attendants had more than they could do to care for the wounded men. And the poor horses had to remain until in many cases they died of gunshot wounds—valuable animals lost to the allies' army.

Then the Blue Cross Society of England came to the rescue, secured a few workers and veterinary surgeons, and commenced the great task of curing the suffering, and alleviating their suffering. Since that time, scores of the horses have been saved.

It is to aid this noble work that the London Humane Society is conducting the "tag day" tomorrow. Every dime helps. Watch for the Blue Cross sign and have your contribution ready.

GIRL MEMBERS I.O.D.E. WORK FOR SOLDIERS

The meeting of the Scott Memorial Children's chapter, I. O. D. E., which was held in Croyn Hall on Wednesday last, was full of interest.

Mrs. T. C. Duncan presided, and Mrs. Ernest Smith in a brief address told the children that even their assistance was necessary at this important crisis of the world's history.

Many responded by taking work to their homes to be finished during the coming week. Mrs. W. K. Ross very kindly gave instruction regarding pillow slips for the Shorncliffe hospital, and Miss Meta Macbeth on behalf of the Humane Society urged the necessity of co-operation, that horses in the Empire's service may not be forgotten among other activities. On Saturday next the public will have an opportunity of remembering these faithful friends.

A generous donation was reported from Mrs. Walter Hungerford to be used as the recent thought best. The Lord Roberts's chapter served tea and welcomed the visiting chapter at the close of the afternoon.

Old Songs and Poems

"HULLO!" (S. W. FOSS.)

When you see a man in woe, Walk right up an' say "Hullo!" Say "Hullo!" an' "How d'ye do?" "How's the world a-comin' you?" Bring yer han' down with a whack; Waltz right up an' don't go slow; Grin an' shake an' say "Hullo!"

Is he clothed in rags? Oh, sho! Walk right up an' say "Hullo!" Rags is but a cotton roll Jest fer wrappin' up a soul; An' a soul is worth a true Hale and hearty "How d'ye do?" Don't wait for the crowd to go; Walk right up an' say "Hullo!"

When big vessels meet, they say, They saloot an' an' sail away. Jest the same as you an' me—Lonesome ships upon a sea; Each one calling his own job For a port beyond the fog. Let yer speakin'-trumpet blow, Lift yer horn an' say "Hullo!"

Say "Hullo!" an' "How d'ye do?" Other folks are good as you. When ye leave yer house of clay "Wanderin' in the Far-Away; Wanderin' in the Far-Away; When ye travel through the strange Country 'o'er the sea range; Then the souls ye've cheered will know Who ye be, an' say "Hullo!"

NATIONAL LEAGUE WILL NOT PERMIT KAUFF TO PLAY

President Tener Assures the Owner of Brooklyn Feels That Giants Cannot Use Outlaw Star.

New York, April 30.—President John K. Tener, of the National League, officially notified Robert B. Ward, president of Brooklyn Federal League club, shortly before noon today that Kauff would not be permitted to play in the National League at this time. His telegram to Mr. Ward was as follows:

"Answering your wire of yesterday relative to the Kauff incident, you are apprised that the player in question will not be permitted to play in the National League at this time. (Signed) John K. Tener, president National League."

President Gilmore of the Federal League issued a call for a special meeting of the association to be held in this city tomorrow night to consider the various phases of the Kauff case.

It is understood from sources outside the Federal League that the independent baseball organization is determined to make a strong fight in the case of Kauff and settle the status of this player and others who have signed contracts with first one league and then another.

New York, April 30.—Whether the national commission will reinstate Benny Kauff or whether the National League will order his return to the Brooklyn club of the Federal League, were the big questions in the mind of every ball fan in New York today.

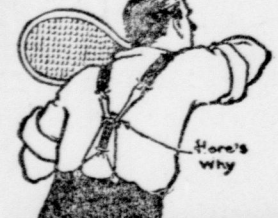

Kauff's jump from the Brooklyn club to the New York National League Club five minutes before the New York-Boston National League game was started yesterday, proved a bombshell for the baseball world, when President Gaffney, of the Boston Braves, refused to allow his club to play the Giants with Kauff in the field for the home club.

Mr. Gaffney contends that Kauff is an "outlaw" so far as organized ball is concerned, because of his original jump to the Federal League. Manager McGraw, of the New York club, admitted today that Kauff would have to be reinstated by the national commission as a condition to his playing in the National League. McGraw said he was about to ask for Kauff's reinstatement, and hoped to receive word today permitting Kauff to play with the New York club.

That such a decision would be a signal for a war of reprisal by the Federal League, indicated by Robert Ward, president of the Brooklyn Federal League club, in declaring that if the National League failed to order Kauff's return to the Brooklyn club, the Federals would go after the biggest players in organized baseball. Today Mr. Ward was awaiting a reply from President Hempstead, of the New York club, to his question as to what action Mr. Hempstead intended to take in the Kauff case.

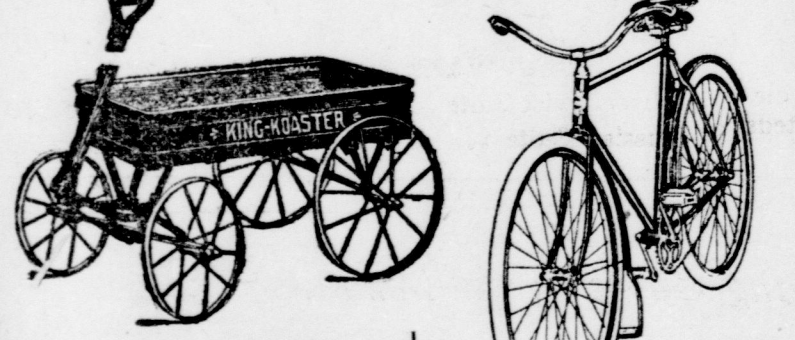

Mr. Ward claims that Kauff is under a binding contract to the Brooklyn club, but Kauff denies it. President Gilmore, of the Federal League, also promised that his league would fight to a finish to prevent Kauff from jumping to the National League.

Manager McGraw has protested the game won by Boston yesterday after President Tener, of the National League, had ruled that Kauff could not play with that league until reinstated by the national commission.

JOHNNY KILBANE BEAT "SAFETY FIRST" BOXER. NEW YORK, April 30.—Johnny Kilbane, of Cleveland, featherweight champion of the world, had all the better of Benny Leonard, of the East Side, in a ten-round contest at the Federal Athletic Club last night.

There was scarcely a "punch" of the ten in which Kilbane did not force the fighting, and he landed the greater number of the clean punches throughout the battle. Leonard fought in the stunts, and in stunts only. Most of the time he applied the doctrine of "safety first" to his work, and made it a point to keep far out of harm's way.

GLEANINGS FROM THE BOX SCORES

FRANKIE FULLER, THE TIGER, recruited, playing second while Young is out of the game, pulled a funny play at second base in the game at Detroit yesterday. Fuller was on first and Boland on second, with one out in the seventh inning. Cobb was at bat and signalled the hit and run play. Fuller was off as soon as the ball left the pitcher's hands. Cobb cracked a long fly to Walker, who made a nice catch of the hit, but Fuller kept on going apparently thinking it impossible for Cobb to be put out. He passed Boland between second and third base, and was on his way home when he was doubled at first base by Walker's throw. Ty Cobb passed Sam Crawford on the bases in a game at Detroit on much the same kind of a play.

EARL HAMILTON PITCHED GOOD ball for four innings at Detroit yesterday, but apparently didn't have the strength to go the route. It is his first game of the season.

BILL DONOVAN'S YANKEES are playing good ball, despite the opinion that they will not finish better than fifth place this season. So far the Yankees have looked as good as any of the teams, and a lot better than most of them.

Suspicion pointed to a certain party. The matter was given over to High Constable Peters, who made an investigation, and the suspected party was interviewed, with the result that a denial was forthcoming, but as matters developed, the suspect saw that the constable was about to arrest him on the charge, he finally owned up, and arranged a settlement for \$5, and will assist in making things right. ZEPPELINS RAID SUFFOLK, ENGLAND

[Canadian Press.] LONDON, April 30.—3:10 a.m.—A Central News dispatch says that a Zeppelin was seen during the night at Bury, St. Edmunds, Suffolk County, where it dropped bombs and set several buildings on fire.

IPSWICH, Eng., April 30.—3:22 a.m.—A hostile aircraft—whether a Zeppelin or an aeroplane is not known—raided Ipswich early this morning. Several bombs were dropped. One struck a house in Brookshall road. It was an incendiary bomb and it pierced the roof and fell in the bedroom of a little girl. Some of the furniture was set afire, but the child was rescued by her father, Harry Goodwin.

HOUSES DESTROYED. LONDON, April 30.—3:28 a.m.—A dispatch to the Exchange Telegraph from Ipswich says that five houses there were virtually destroyed by airship bombs, and that three others were badly and two slightly damaged.

IPSWICH, April 30.—Suffolk County, and is a town of considerable commercial importance. It has a population of some 75,000.

RAID ON BELFORT. BELFORT, France, April 29.—6:30 p.m.—Three German aeroplanes flew over Belfort at 5 o'clock this morning and dropped approximately a dozen bombs. Four workmen were injured.

The damage to property was slight, as a majority of the missiles fell into open fields, and deserted streets. A few windows were broken and some roofs were damaged.

ZEPP DAMAGED. GENEVA, SWITZ., April 29, via Paris.—Six bombs were dropped on the sheds of the Zeppelin dirigible balloons at Friedrichshafen during the attack yesterday by a squadron of allied aviators. Four of the bombs fell on empty sheds. One of them struck a shed in which was housed the framework of a new Zeppelin.

The French aviator who dropped these bombs was under heavy fire. Riflemen stationed in church steeples around Lake Constance showered bullets at the aviator.

RUSSIANS DISLODGE TURKS FROM KOTUR. Town on Boundary of Persia and Turkey—Attacks Repulsed.

[Canadian Press.] PETROGRAD (via London), April 29.—10:25 p.m.—The following official communication has been issued by the army of the Caucasus reports that in the province of Azerbaijan, Persia, our advance parties have dislodged the Turks from Kotur, 110 miles northwest of Tabriz, on the boundary between Persia and Turkey.

Another official communication issued tonight by the war office says: "To the north of the Nieman the advance guard of the enemy having passed the river Dubissa yesterday morning. On the whole front of our contact with the enemy the activity during the last few days has become more intense and collision between reconnoitering detachments more frequent."

Checked The Enemy. "In the regions of Kalvaryia and to the north of Suvalki we checked an enemy offensive without any particular effort. Between the Pissa and Skwa Rivers, during an attack in the sector of Krucha-Serefine, enemy forces advancing in the marshy land came under the cross fire of our machine guns and were driven back in disorder with heavy losses. In the region of the village of Tarkat the enemy unsuccessfully attempted to carry our trenches by a sudden attack. His attempts to make progress north of Przasnysz and east of Racion and Drobnie were equally futile. Near Starouzebla the Germans, who opened an offensive, were immediately repulsed in a desperate battle. In the Carpathians, near the Uzkof Pass, the enemy during the night of April 27-28 unsuccessfully attacked a hill northeast of Lubnia. In the direction of Stry the enemy delivered repeated desperate attacks in the region of Golestok, but all were successfully repulsed with the bayonet."

AUSTRIAN STATEMENT. VIENNA (via London), April 29.—10:35 p.m.—The Austrian war office issued the following statement tonight: "In the several sectors of Russian Poland and the Carpathians there have been vigorous artillery engagements. An attempt of the enemy after a long and fruitless bombardment, to attack our infantry in positions on the heights of the Opir valley, was repulsed after a brief battle."

LIFEBUOY FROM KOLBERG IS FOUND OFF SCOTLAND

LEWISFORD, SCOTLAND, April 29.—3:35 p.m.—The finding today near the south end of this island of a lifebuoy marked "Kolberg" is believed here to confirm the report made at the time that the German cruiser Kolberg was sunk in the battle in the North Sea, January 24. In his report on the battle in the North Sea, last January, the British Admiral Beatty, after mentioning the destruction of the armored cruiser Bluecher, said the German light cruiser Kolberg was sunk. The German Government, however, later declared that Admiral Beatty's report concerning the Kolberg was false.

Doctor Said Sciatica--- Rheumatism---Lumbago

But He Could Not Help Me, and Indorsed the Use of Dr. Chase's Kidney-Liver Pills.

Mr. William Parker, 105 Cayuga street, Brantford, Ont., tells in the following letter of his remarkable experience with Dr. Chase's Kidney-Liver Pills: "My doctor treated me for some time for Sciatica, Rheumatism, Lumbago, but to no purpose, for I had to lay off work. The visiting officer of Sick Benefit called to see me and advised the use of Dr. Chase's Kidney-Liver Pills, stating that he had been cured of the same trouble by their use. I asked the druggist about them, and he recommended them highly. Not being satisfied with this, I went back to my doctor, and when he said they were good, I began their use. The promises with which they were sold were wonderful, and it was not long before I was rid of all my trouble. "I was so glad that I could only walk by hanging on to a chair or the wall. My wife had to lace my shoes. Only those who have had this ailment can realize the way I suffered. I am writing this letter to let people who have my trouble know of these pills. You are at liberty to use this letter, and if anyone interested will call or write to me I will give every detail."

Germans Delay Attack 2 Days to Use Gases

Entry of Asphyxiating Fumes Into Battle Deliberately Planned By the Enemy—Brave Deeds of the British Related By Eye-Witness.

[Canadian Press.] LONDON, April 29.—[11:15 p.m.—The British official "eye-witness" in a narrative of the battle of Ypres says the Germans had prepared to attack the allied line on the 27th, but the wind not being favorable for their use of asphyxiating gases they postponed it until the 22nd.

The gas, the narrative says, was distributed along the German front line in front of the French position, and the wind being from the north it was blown directly on the French. The German plan, according to the "eye-witness," was to make a sudden onslaught southwestward, which, if successful, would enable the Germans to gain crossings of the canal south of Bixchoote and place them well behind the British line and in a position to threaten Ypres.

SURPRISE FRENCH TROOPS. "Allowing time for the vapors to take full effect on the troops of the Allies facing them," says the "eye-witness," "the Germans charged forward over the practically unresisting enemy in their immediate front, and swiftly to the south and west. By their sudden irruption they were able to overrun and surprise a large portion of the French troops billeted behind the front line in this area and to bring some of the French guns, as well as our own, under a hot rifle fire at close range.

"Our flank being thus exposed, the troops were ordered to retire on St. Julien, with their left flank parallel but to the left of the high road. The splendid resistance of these troops, who saved the situation, already has been mentioned by the commander-in-chief.

ENEMY OPENS ARTILLERY. Meanwhile, apparently waiting until their infantry penetrated well behind the Allies' line, the Germans opened a hot artillery fire upon various tactical points to the north of Ypres, the heaviest being carried out with the ordinary high explosive shells and shrapnel of various calibres and also with projectiles containing asphyxiating gases."

The "eye-witness" then tells how a battery of field artillery which the Germans had virtually surrounded, and did not lose a gun. The infantry meantime had withdrawn to St. Julien. Reinforcements finally were brought up by officers on their own initiative to meet the Germans, who by these time were barely two miles from Ypres.

ATTACK WITH BAYONET. "These battalions," the narrative continues, "attacked the Germans with the bayonet, and then ensued a melee in which our men more than held their own, both sides losing heavily. One German battalion seems to have been particularly severely handled, its colonel being captured among several other prisoners.

"Other reinforcements were thrown in. As they came up when night fell the fighting was continued by moonlight, our troops driving back the enemy by repeated bayonet charges in the course of which our heavy guns were recaptured. By then the situation was somewhat restored in the area immediately north of Ypres. Farther to the west, however, the enemy had forced their way over the canal, occupying Steenvoorde, and, crossing at Het Sas, had established themselves at various points on the west bank.

STRONG COUNTER-ATTACK. "In the early morning of Friday we delivered a strong counter-attack northward. In co-operation with the French we advanced progressively for some little distance, reaching the edge of the wood about a half mile west of St. Julien, and penetrating it.

"Here our men got into the Germans with the bayonet and the latter suffered heavily. The losses also were severe on our side, for the advance had to be carried out across the open, but in spite of this nothing could exceed the dash with which it was conducted. One man and his case was typical of the spirit shown by the troops, who had his rifle smashed by a bullet but continued to fight on until he had been killed.

"About 11 a.m., not being able to progress further, our troops dug themselves in. "Broadly speaking, on the section of the front then occupied by us, the result of the operations had been to remove to some extent the wedge which the Germans had driven into the allied line, and immediate danger was over. During the afternoon our counter-attack made further progress south of IJkerke, thus straightening the line still more."

BATTLE AT ST. JULIEN. The writer then tells how the Germans, bringing up strong reinforcements "and again using gas," captured St. Julien and managed to throw several brigades across the canal. The British made a strong counter-attack Sunday, and while they gained some ground, it stopped in front of the village of St. Julien. The Germans, the narrative adds, made repeated attacks against the British near Broodseinde, backed by a tremendous artillery bombardment and gas, but they were all driven off "with great slaughter to the enemy."

Roosevelt Despair of Foes and Delight of Friends on Stand

Plea of Barnes' Counsel That He Be Made To Testify Quietly Brings Quick Admissi on From the Colonel's Lawyer That It Can't Be Done.

Col. Theodore Roosevelt, as a witness in the suit of William Barnes against him for \$50,000 damages for libel, continues to be the delight of his friends and the despair of opposing counsel. Richard Henry Little, writing for the Chicago Herald, thus describes a few minutes of the colonel's experience on the stand:

"I demand that he answer yes or no. First he looked the jury over, fastening his eyes in silent contemplation on every man in the box. Then he went right on the stump. "My purpose" (right fist smash into palm of left hand), "in consulting with Mr. Platt" (both hands smack on the arms of his chair), "was partly to see if I could not come to some agreement with him" (right fist into left hand), "which would prevent me from breaking with the Republican organization" (smash), "I (right through clenched teeth and with fire shooting from both eyes), "I realized that in my official position I could prevent wrong-doing, BUT" (smash), "alone I could not get affirmative RIGHT-DOING" (Smash, smash, smash, blue fire and spot light, the spectators fairly on their toes and the jury almost crawling over the railing). "Chorus from counsel for plaintiff, "Object, object, object." Counsel Ivins (in a tone that sounded like the wail of a tortured soul)—"Your honor, will you direct this witness to answer the questions in an ordinary way?"

ROOSEVELT GRAMS CULLED FROM HIS SPEECHES TO JURY.

"My Government was never an invisible Government." "My only insistence was to get the best man for the job." "I always nominated the man named by the organization which the organization named the best man." "I want positively good results in legislation, and not merely negative good results." "I insisted that nothing base, no promises nor contrivances of any kind, sort or description of executive or legislative action should be made in return for any contribution whatsoever to a party campaign fund." "I did not wish to disrupt the Republican party." "My personal feelings are always subordinate to my desire to nominate the best man for the position." "No matter what you do, you can't make me flinch." "If I could not get a permanent right done my way, then I got it some other fellow's way." "The two issues on which I broke from the Republican organization in New York were whether our bosses should be perpetuated as a necessity in party government and whether we should have direct primaries in the State of New York."

ing his replies. "I know he can't be stopped," said Counsel Ivins plaintively, "from being emphatic in his tone, but I insist that he be stopped from making gestures." The court ruled to the effect that the witness would have to sit on his hands, or tie them up, or do something with them, but he must not use them to hammer home his points to the jury. So the witness stopped soaking his right hand into his left chair, but the more he held his hands still the more emphatic his voice became. It was not very long after the morning session of court began before the colonel was on the stump and the jury had turned into the local committee on reception. The plaintiff suddenly gave up its cross-examination to the great surprise of everybody in the courtroom, especially the colonel, who looked at Counsel Ivins in amazement and exclaimed, "Why, is that all?" when the plaintiff's counsel threw up the sponge. And yet they had been hammering at it for upward of six days. Counsel Bowers, defendant Roosevelt's counsel, jumped right into the Platt letters because the plaintiff had tried to make it appear that the defendant recognized boss control and relied on it and obeyed the orders of the "easy boss." Col. Roosevelt in reply to questions from Mr. Bowers declared that he found Mr. Platt's advice most valuable because of his long and wide experience with men and politics. "And what was your purpose in consulting with Senator Platt?" asked Bowers. "It was all off. There was no longer

political party in Canada could be so unpatriotic as to precipitate an election at this crisis in our nation's history. CLIFFORD KEMP, Mayor, Waterford, April 27. London Advertiser: I think the elections should be put off as long as possible, or till the close of the war. Let us be united. J. A. SORGE, Warden Haldimand County, Tara, April 27. London Advertiser: I am opposed to present time, as both political parties are working harmoniously together in assisting the Empire in the prosecution of the war. Expressions heard on all sides at an election would be out of place at the present crisis. J. E. GRANT, Reeve, Senforth, April 27. London Advertiser: My opinion is that the Federal election should be delayed until the close of the war. J. M. GOVENECK, Reeve, Walkerville, April 27. London Advertiser: Heartbreaking reports from the battle front should impress any patriot that Canadians have tasks before them far too stupendous to suffer the recriminations incident to an election campaign during the time Canada's sons are sharing in the world's blood sacrifice. Colorado Murder Trial Reveals Startling Facts About Rockefeller Philanthropy!

Testimony At Lawson's Trial In Colorado Court May Show That Oppressed Labor Pays For John D.'s "Charity."

BY WILLIAM MACLEOD RAINE. [Staff Special.] TRINIDAD, Col., April 28.—The real inner workings of the \$100,000,000 Rockefeller Foundation and its allied philanthropy may be revealed in the searching X-rays of the law are turned on it at the trial here of John R. Lawson, the labor leader, who is charged with the murder of a mine guard named Nemo, who was killed during the strike battles at Ludlow. THAT IS, IT MAY BE REVEALED IF ROCKEFELLER IS NOT STRONGER THAN THE LAW. Lawson—who, in spite of the fact that there are twelve murder indictments hanging over his head, has kindness sticking out all over him, in concluding his testimony before the federal industrial relations commission at Denver, said: "Is John D. Rockefeller greater than the Government? Is he higher than the law?" And many here in Trinidad—speaking from bitter experience—would change that to suit local conditions. They would say: "John D. Rockefeller IS the Government. He IS the law." Rockefeller Jun. is a philanthropist. He said so himself before the industrial relations commission, which was created to inquire into the underlying causes of industrial unrest. But there is a feeling here—a strong feeling—that the trial of Lawson will bring out the fact that the philanthropy of Rockefeller Jun. and his father vitally affects the coal camps of Las Animas County. That it is the miners who sweat and toil underground, and are killed in unnecessary mining disasters, who are paying for this philanthropy. The young Rockefeller has testified that he spends much of his time looking after the activities of the foundation and its \$100,000,000. Yet he also said he was absolutely ignorant of every detail of the strike in Colorado. He told annually of thousands of dollars being spent for a bureau of municipal research—yet admitted he had received no report on labor conditions could not tell within several thousands the number of men employed by his companies in Colorado, and did not know what wages they were paid or what rent they were charged. He had found time to plan the building of a home for migratory birds in Louisiana—but he had never thought of about how long a working day he had. He told of spending large sums of money to promote medical education

JOHN R. LAWSON SNAPPED AT LU DLOW.—THE MAN BEHIND HIM IS A "GUARD."

And health in China—but said he did not know whether it would be a hardship for one of his workmen to stand twelve hours in front of a blast furnace. He told of appropriating \$1,000,000 for the study of vice conditions in Europe and then testified that he did not know what a living wage was. That is why Colorado miners do not get enthusiastic about the Rockefeller Foundation. They do not want charity. They want justice. And they hope that the trial of Lawson for murder will show that the shadow of John D. Rockefeller's philanthropy has made desolate many lives here. Meanwhile Las Animas County continues to be a feudal appanage of the Rockefeller family. Here is the small state within the large, private war, incorporated towns owned absolutely and entirely by overlords, serfs practically tied to soil where they work. But this modern serfdom is more deadly than the old. The friendly personal interest between lord and vassal no longer exists. The overlords does not know of the existence of the individual under him. It is absent landlordism in its worst form.

SUNDAY TALKS TO 18,000 ON SECOND COMING OF CHRIST

Many Hit Sawdust Trail As Evangelist Warns Hearers To Be Prepared As Time Draws Near—Two Meetings Collect \$1,002.40, Which Goes To the Paterson Day Nursery.

Paterson, N. J., April 30.—"Anybody who says he knows when Jesus is coming is a liar. Only Jesus and the Father know when the Saviour is coming again. Yet the church shows as little concern about his coming again as his disciples did about his going away. All this is fully in accord with Peter: 'There shall come in the last days scoffers walking after their own lusts, saying: 'Where is the promise of his coming, for since the fathers fell asleep all things continue as they were from the beginning until now.' "Jesus not only foretold his going away, but charged his followers to expect his return and be ready for it: 'Watch, therefore, for ye know not what hour your Lord doth come. Therefore, be ye also ready, for in such an hour as ye think not the son of Man cometh.' "The second coming of Christ is the emphatic doctrine of the New Testament. It is mentioned and referred to more than three hundred and fifty times, and yet the majority of church members never heard a sermon on the subject; that is the reason they think so little of looking into the matter themselves. "The church makes much of baptism, but in all of Paul's epistles baptism is mentioned or referred to only thirteen times. "Who would care to travel on a train where the engineer would never read his orders? Who would ride on a ship where the captain never looked at the compass? You may call it rubbish, but the disciples called it the 'blessed hope.' "Must Obey the Command. "It is not enough to say that you are a Christian, and you are all right. We are not all right unless we obey the command to watch, for it is certainly as much of a command to look for the coming of the Lord as it is to keep the Sabbath holy. "Nothing else will do so much to keep us right where we should be in our religious experience. Knowing that the bank examiner may drop in at any moment keeps many a cashier from becoming dishonest. "This old world is going to wake up some morning and find that all good men and women have beaten it. She will rub her eyes when she finds out that the Lord has been here on the job and taken his own with him. "I suppose there would be a mighty scramble to get in right before the door, you know he was going to return to-night. It wouldn't make any difference to Jesus, however, if you did the right thing just because he turned up. "Unhappiness is an irritant. It affects the heart-beats or circulation first, then the digestion, and the person is ripe for two hundred and nineteen diseases and six hundred and forty-two complications. "Nothing you can take out of a bottle or that you can rub on will remove the cause of misery. "Medicine is only palliative," says Dr. Weir Mitchell, "for back of disease lies the cause, and this cause no drug can reach." "I've got a cold in my head," said the man to the wise doctor. "And the doctor replied, "Doubtless, for that is the place where the microbe hides." "People who dread disease and fear disease have disease. "What we call disease are merely symptoms of mental conditions. "Our bodies are automatic, and thinking about your digestion does not aid you. Rather it hinders, since the process of thinking, especially anxious thinking, robs the stomach of its food and transfers it to the brain. "If you are worried enough digestion may stop absolutely. "The moral is obvious. Don't worry. "This horse is all right unless he gets scared," said a horseback rider to the other day. "And I answered, "So am I!" "These rare times when I make a big impression upon my auditors are continued on Page 12

BIRD IN GILDED CAGE HAS NEW PERCH RIGHT ON TOP OF TOODLES' BONNET.

New York, April 30.—A singing bird in the hat is worth a whole flock of birds in the bush, if you don't believe it ask Miss Boss Ryan, the "Toodles" girl of stage fame. "Miss Ryan just loves birds—and she doesn't care who knows it. To prove her interest in ornithology she stuck a chirpy little canary in her new spring hat. But dicker bird wouldn't 'stay put' and the bird-in-a-bonnet fashion almost died a sudden death. Then "Toodles" had a happy thought—she made a gilded gauze cage for dicker, and the crowd who followed her down Broadway declared the fashion a fetcher- ing one.

Jungle Beasts Only Playmates of "Circus Baby," and She Loves Her Baby Lions, Tigers and Leopards

Animals Instead of Dolls. Ellene Smith, "Baby of the Circus," Who Plays With Wild Animals Instead of Dolls, is a famous bareback rider. The beasts of the jungle have been her playmates since babyhood—she has never scratched or pulled hair; but no fear of them, and she solemnly best of all I like my little leopard baby; loves they are mightily afraid of his coat's so pretty, and he's always "baby of the circus."

Continued From Page One BATTLESHIPS SILENCE

smoke and fire were seen on the heights above Seddul Bahir. The Point and Chanak. By three o'clock the Seddul Bahir felt severely knocked to pieces, and the battleships moved further in. Turks posted on the shore up to the Narrows had been definitely battered down. The Turks made little attempt to return the shells.

Shortly after six o'clock the Turks provided a diversion at Cape Helles, where the Allies had been firing feverishly in the morning. A Turkish battery came into sight, moving into position to attack this landing force, but before the Turks could open fire on them and turned the range at the first shot, burying a battery in a cloud of dust. This second shell burst in the midst of the Turkish batteries, and the Turks turned their guns and managed to fire three ineffective shots before seven successive bombs dropped by airplanes hit them out.

British Ship Did Tricks "A fierce artillery duel took place at seven o'clock between forces which had landed on the Gallipoli Peninsula and the flat shores of Suvla Bay, ten miles from the Narrows on the opposite side of the peninsula. Good progress also has been made towards the reduction of the forts in the Narrows."

GALLIOLI TAKEN. [Canadian Press.]—London, April 30.—The following dispatch has been received by the Express from its Athens correspondent: "Heavy fighting has been going on since the town of Gallipoli after heavy fighting. Allied forces disembarked at Enos, advanced nearly 20 miles and occupied several villages. "Three British warships bombarded Turkish positions in the Gulf of Smyrna, and it is stated that allied troops also landed in the neighborhood of Smyrna."

"We points on the line between Enos and Saros were selected by the Allies for the disembarking of troops. Another force was landed on the Bulair line. A demonstration by a landing party on the plains of Troy led to the capture of the 8,000 prisoners. Turkish troops continue to arrive."

TURKISH VERSIONS. [Canadian Press.]—Constantinople, April 29.—Via London, 1 p.m.—An official statement issued here today says that the allied forces, which landed on the Asiatic side of the Dardanelles, have been entirely cleared away, that a large part of the troops which invaded Gallipoli Peninsula has been driven off, and that several warships and transports of the Allies have been damaged.

The statement is as follows: "No enemy forces remain on the Asiatic side of the Dardanelles. "Hostile forces at Gaba Tepe (near coast) of the Gallipoli Peninsula, west of the Dardanelles, are maintaining their positions, under the protection of ships."

WILL RILEY RETURN TO OTTAWA TOGETHER WITH THE OTHERS

Rev. H. H. Bingham Returns To London After a Confab With "Pardoned" Prisoner in South and Justice Department Officials At Ottawa—Belief in Riley Still Strong As Ever.

"I believe that in the course of a few days Tom Riley will voluntarily give himself up and return to the Kingston Penitentiary," said Rev. H. H. Bingham today on his return from Ottawa, where he had been in communication with members of the department of justice in behalf of Riley, the slayer of Blackburn, who some time ago was released on a pardon meant for Thomas Riley, of Hamilton.

Speaking on his trip to Ottawa, Mr. Bingham stated that as yet he was unable to make a statement as to what the opinion of Riley, the slayer of Blackburn, was, but he was still in communication with Riley, or probably before he did so, the man who was allowed his freedom by a mistake, would be on route to the prison.

Riley Unaware of Truth. "I am of the firm belief," said Mr. Bingham, that Riley did not, until a few days ago, know that he had been allowed his freedom through an error. Had he known the true state of affairs I believe that he would be back in Kingston by now.

Many Stories Untrue. "All this stuff about Riley being escorted out of the country by soldiers and his being in hiding I believe is untrue. With a term of fourteen years staring you in the face if you have any doubts as to the truth of the matter, you need only go to the Kingston Penitentiary and ask Mr. Bingham a reporter.

"I think I would be on my way to Mexico," replied Mr. Bingham, "if I had not lost my faith in Riley." He concluded Mr. Bingham, "and firmly believe that now he knows the true condition of affairs he will return. Anyway, I expect to write to him today, and I think that shortly he will return, when the matter will be fixed up definitely."

[Canadian Press.]—London, April 30.—The east coast of England again has been the subject of usual infliction of material damage, but without casualties of any sort. Like former raids, this one of last night is marked by differences of opinion as to the type of air machine used by the Zeppelins, and the fact that the Zeppelins carried the bombs, who arrived in the small hours of the morning, and spent a brief time over Ipswich and Bury St. Edmunds.

Another item of news of striking interest was the presence, reported officially from Paris, of a German fleet and his being in hiding I believe is untrue. With a term of fourteen years staring you in the face if you have any doubts as to the truth of the matter, you need only go to the Kingston Penitentiary and ask Mr. Bingham a reporter.

It is a fact, however, that the air raid, the fighting on the Dardanelles, and the report of German Zeppelins over the coast of England, which the British were compelled to forego the light in favor of the question of liquor regulation in Great Britain and the Government of the war, has had to meet a division in the House of Commons. The attitude of the House probably reflects the opinion of the nation, which is sharply divided on the question of the necessity of regulating the consumption of alcoholic beverages.

Even the Church of England, which is its first official pronouncement at the York convention, resolved to view with uneasiness any action suggesting total prohibition.

But the strongest opposition comes from Ireland. Some idea of the strength of this opposition to the proposed measure is indicated by the Manchester Guardian, a leading Government organ, which declares that the measure proposed by Chancellor of the Exchequer Lloyd George will not pass the House.

Official quarters still remain silent concerning the military operations on the Dardanelles, but the London papers this morning contain a number of special dispatches from that region, which the claims are made that the Allies are steadily advancing under cover of the sea, but without without meeting an opposition which is causing them heavy losses.

British troops are reported in occupation of the narrow tongue of the peninsula to the north of the town of Gallipoli. Athens predicts that this campaign will last a long time, as the Turks occupy exceptionally well-prepared defensive positions.

The fighting in the western area of hostilities still centres around Steenstraete. This position, occupied by the Germans, forms an irritating wedge in the allied line.

In the east there has been some revival of activity along the line in Russian-Poland, where improvement in the weather conditions has led the Germans to make a number of isolated attacks. These, however, according to Petrograd advices, have been repulsed in the Carpathians and Bukovina preparations evidently are under way for a resumption of operations on a large scale, but as yet there has been no pronounced change in the relative positions of the contending forces in these localities.

WINNIPEG OFFICER SUCCEUMS TO WOUNDS Lieut. A. R. Ball Dies at Boulogne—Not London Man.

[Special to The Advertiser.]—Winnipeg, Man., April 29.—Lieut. A. R. Ball, 106th Winnipeg Light Infantry, died of wounds today at Boulogne Hospital, according to a cable received by his father, who is manager of the Eastern Trusts Bank here.

It was thought when the casualty was first reported that the man wounded might be Sergt. Trumpper A. E. Ball, of this city. The above dispatch disposes of this theory.

FALLS OFF LADDER, BREAKING HER ARM

Clinton Woman Also Suffered Severe Wound in Her Head. [Special to The Advertiser.]—Clinton, April 30.—Mrs. A. O. Patterson, wife of the G. T. R. agent here, met with a painful accident yesterday. She was standing on a stepladder, cleaning the ceiling, and in some manner slipped. In her fall she struck her head on a nail, making a nasty wound, and broke one of her arms. She is said to have lain in a semi-conscious condition for about an hour before she was found.

Heavy shipments of fish are being sent to Buffalo from Bayfield. Farmers, busy on the land, state that rain is badly needed.

BAND CONCERTS ASSURED

Finance Committee Sets Aside \$800 for Purpose. London's brass bands will play in the public parks this summer quite as often at least as they did last year. In the estimates of the finance committee which met last night, the sum of \$800 is set aside for band concerts, which is the same amount which the city spent last year for band concert amusement. The total estimates this year amount to \$67,700, as against \$68,430.90 last year.

The finance committee approved the Sunday street car bylaw, which comes up today at a special meeting of the council. The bylaw is unchanged in its provisions.

LEGAL QUERIES A READER.—Your best plan is to write to the bureau of Western University, and get facts of the extrajudicial course as it is called. This allows you to study at home, and gives all particulars as to what work must be taken up.

Three Readings Controversy. "Oh, well, it is customary to give bylaw three readings," was the answer. "If you are going to do things right, let them be done in a parliamentary manner. Let us follow the general parliamentary rules."

While the other members of the board were willing to grant that it was parliamentary and customary to give bylaw three readings they were not willing to follow the laid-down rules, and further, and leave the third reading over for the passage of another one. Commissioner Mitchell was voted down by Commissioners Chapman and McFarland.

Though the bylaw in question is only two weeks old, it was found necessary to amend it. When it was drawn it was set forth that all checks which were to be deposited to the credit of the commission must be indorsed by the three names—the mayor, the chairman and the secretary—in signing checks. This, in view of the number of checks received monthly for water and light charges would be too cumbersome, so the bylaw had to be amended by the passage of another one. On general principles, Mr. Mitchell objected to this amending bylaw being given three readings, but as in the case of the original, the other members voted him down.

Bids were opened for new hydraulic pumping equipment at Springbank to the present one. The bids are to be tabulated before final decision is made. The price, it is expected, will be approximately \$12,000. In view of economic conditions a trip will be made to Springbank this week or next to see if the present pumps cannot be repaired and put in shape to last another year. Secretary Oliver Elwood was empowered to make the usual summer arrangements for the office staff to come down an hour earlier in the summer time and quit an hour later. The office will be kept open the whole time, however, though only one clerk will be retained in each department after 4 p.m.

A grant of \$300 for the purpose of fixing up a baseball diamond in Chelsea Green was indorsed.

ECHOES OF BYLAW RAILROADED THROUGH HEARD LAST NIGHT

Was Result of Mayor's Refusal to Sign Checks of Manager Glaubitz. Echoes of the special bylaw railroaded through the public utilities commission at its last meeting were heard at the session of the commission again yesterday.

This bylaw, which was the result of the Mayor's refusal to sign checks of the General Manager H. J. Glaubitz, since the latter's reinstatement, is intended to make it obligatory that the mayor's signature be on all checks, together with that of the chairman of the commission and the secretary. It was given three readings at the last meeting in spite of the objections of Commissioner Mitchell, who contended that this ruling did not cover the point in question, namely: whether three readings could be given in the face of an objection.

Chairman Pooock's answer was that as there were no rules or regulations covering the procedure of the commission, it was perfectly legal to do so. Well, if there were no rules, why did you give the bylaw three readings?" asked Mr. Mitchell. "Why not give it only one and be through with it."

Three Readings Controversy. "Oh, well, it is customary to give bylaw three readings," was the answer. "If you are going to do things right, let them be done in a parliamentary manner. Let us follow the general parliamentary rules."

While the other members of the board were willing to grant that it was parliamentary and customary to give bylaw three readings they were not willing to follow the laid-down rules, and further, and leave the third reading over for the passage of another one. Commissioner Mitchell was voted down by Commissioners Chapman and McFarland.

Though the bylaw in question is only two weeks old, it was found necessary to amend it. When it was drawn it was set forth that all checks which were to be deposited to the credit of the commission must be indorsed by the three names—the mayor, the chairman and the secretary—in signing checks. This, in view of the number of checks received monthly for water and light charges would be too cumbersome, so the bylaw had to be amended by the passage of another one. On general principles, Mr. Mitchell objected to this amending bylaw being given three readings, but as in the case of the original, the other members voted him down.

Bids were opened for new hydraulic pumping equipment at Springbank to the present one. The bids are to be tabulated before final decision is made. The price, it is expected, will be approximately \$12,000. In view of economic conditions a trip will be made to Springbank this week or next to see if the present pumps cannot be repaired and put in shape to last another year. Secretary Oliver Elwood was empowered to make the usual summer arrangements for the office staff to come down an hour earlier in the summer time and quit an hour later. The office will be kept open the whole time, however, though only one clerk will be retained in each department after 4 p.m.

A grant of \$300 for the purpose of fixing up a baseball diamond in Chelsea Green was indorsed.

CAPTAIN HAYGARTH TO SELL
Even If There is No Semi-ready Store in London.

It is definitely reported that Capt. Tom Haygarth will close negotiations for the sale of his stock and for the taking over of his lease at 362 Dundas street with two different parties.

The stock purchaser, who has been closely watching the sale, is a Hamilton man, who intends removing the stock there. The prospective purchaser of the store is a Brantford man.

Capt. Haygarth said:

"In the event of my closing negotiations today, I will be ready and willing to get out of business within a week. The store will be closed. I may sell the Semi-ready stock elsewhere, but for a time there will be no Semi-ready store in London. I can conceive how sadly disappointed many of the admirers of Semi-ready tailoring will be, but when I come back from Europe, and there is no one jumps in ahead of me, there will be a Semi-ready store on the main street."

"I am forcefully cleaning up certain departments this week. For instance, I will sell all my \$1.50 a dozen linen collars at 25c each or 25 cents a dozen."

"Other odds and ends I will clear out below cost, for my prospective purchaser wants a good clean stock for the highest class store in Hamilton—the smartest shop there."

H. J. GLAUBITZ HAS RESIGNED FROM OFFICE

Resignation Was Read At a Meeting of Commissioners Held Yesterday.

WILL QUIT JOB ON JUNE 1

G. M. Will Occupy Chair Another Month—Arranged With Mr. Pocock.

General Manager H. J. Glaubitz, of the public utilities commission, has resigned at last. His resignation, dated May 1, was presented and read to the commission at its meeting Thursday afternoon, after it had been asked for by Commissioner F. G. Mitchell.

There is a string to the resignation. This string is that Mr. Glaubitz will remain in office one month more, until he has received \$10,000 from the city for the mayor signs his checks, and will occupy the managerial chair of the commission until June 1, instead of May 1, as was generally expected.

Has Another Month.

The board minutes of a special meeting set forth that Mr. Glaubitz resigned his job on May 1. He has lived up to the letter of that arrangement by submitting his resignation by that date, but it does not take effect until 29 days afterwards.

As pointed out by The Advertiser some time ago, more than a month ago, in fact, the board of public utilities commissioners, has an unwritten custom that 30 days' notice is required to either discharge a man or for that employee to submit his resignation. If Mr. Glaubitz was to have left at the expected time, his resignation should have been presented prior to April 1.

Commissioner Mitchell, at yesterday's meeting, declared that Chairman Pocock had promised, on his word of honor, that Mr. Glaubitz would be out of office by May 1. Commissioner F. G. Mitchell also promised the same on his word of honor.

Chairman Pocock said he had only promised that the resignation would be in. Commissioner Chapman would refer to it by Mr. Mitchell, but contended that as Mr. Mitchell had not agreed to the proposition submitted at the time the resignation went into effect, and therefore Mr. Glaubitz should not be held to any such agreement.

Glaubitz Would Stay.

Commissioner Mitchell put the question point-blank to the general manager if he wanted to stay the extra month.

Mr. Glaubitz replied that he did.

The meeting was a special one, called for the purpose of opening bids for hydraulic pumping equipment at Springbank Park. As many questions, other than those on the notice card, had been discussed, Commissioner Mitchell asked permission to make some inquiries. The permission was granted, and the first asked was in reference to the Glaubitz case.

"I would like to ask if Mr. Glaubitz is going to quit by the 1st of May and if his resignation is in yet?" he asked.

"Yes, sir," replied the chairman, who had just received word from Mr. Glaubitz that he had received it.

"I have it here. Would you like to hear it read?"

Commissioner Mitchell assented, and the chairman proceeded to read the resignation of the general manager, which set forth that he had "hereby resigned office under the terms of my agreement."

"What are those terms?" asked Mr. Mitchell.

"Thirty days' notice, either way," replied the chairman.

"I did not understand it that way," he said.

"It was the come-back. It was under the impression, and the general public, too, that he would quit on the 1st of May. That was the agreement you brought in."

"Oh, no. We said that Mr. Glaubitz would resign by the 1st of May," said the chairman.

"Our agreement was that Mr. Glaubitz's services were to terminate on the 1st of May, but you did not agree to that, so we accepted it this way," supplemented Commissioner Chapman.

"By the 1st of May?" asked Mr. Mitchell.

"By the 1st of May," said the chairman, "understood to mean that he would leave, was it not?" queried the commissioner.

"No, not necessarily," replied the chairman.

"Well, I had your word of honor, and that of Mr. Chapman, that he would," you had accepted it," said Commissioner Chapman. "You remember that when he was reinstated you would not accept this arrangement."

"I'm not talking about what was said at the reinstatement meeting. I am talking about what was said at the next meeting."

"The discussion continued on this point for a few minutes; then Commissioner Mitchell asked the chairman if Manager Glaubitz really wanted to work the extra month.

"Ask him yourself," suggested the chairman, and accordingly Mr. Mitchell put the blunt question to the manager.

"The latter's reply was: 'I do. I refuse to resign under compulsion and will stick to my arrangement with Mr. Pocock.'"

"Don't you think that you are taking advantage of that arrangement?" Mr. Mitchell asked, but no reply was forthcoming.

Calls Move Foolish.

"I think that some members of this commission are doing a very foolish thing in forcing Mr. Glaubitz to resign. There is nothing against the man at all," defended Mr. Pocock.

"Surely, Mr. Chairman, we don't have to go over all that again," retorted Mr. Mitchell. "The people don't

want him, and that ought to be sufficient. In the general public's opinion he should not be retained."

"Well, you have good reason to believe that, all right," admitted Chairman Pocock. "It was that what elected you."

"You bet it was, and I appreciate that fact. Furthermore, I intend to stick up for it. You know that I offered to resign with you and go to the people on the question of Glaubitz or no Glaubitz; the loser to pay all expenses of the special election, and you must have felt that there was something in public opinion or you would have taken me up and gone to the people."

Minutes Confirm Date.

To settle the discussion the minutes of the special meeting of Feb 10 were brought out and read. They specifically set forth that Mr. Glaubitz was to resign by May 1. After they had been read, Commissioner Mitchell referred to the fact of Mr. Glaubitz's big salary, and the fact that he would be receiving it for a month longer than was intended.

"There is no one in the city's employ that gets a salary as big as his," he contended. "No, and there is no one who gives a greater return," answered the chairman.

"Well, you don't know what the other men are doing."

From this the discussion took a wide range. Chairman Pocock instanced the city engineer's department, claiming that it had spent \$1,000 last year for outside work.

"That was for storm sewers. You couldn't expect that work to be done by the department locally," contended Mr. Mitchell.

"Well, if we had had the sewers under our control we would not have spent a cent," was the chairman's declaration.

"Do you mean to tell me that Glaubitz could have handled that storm sewer job?" asked the commissioner.

"Yes, I do. I could have done it," answered the chairman.

"No, you couldn't," retorted the commissioner.

"Well, you seem to know more of myself than I do," was the manager's reply. "I have built sewers bigger than that for blast furnaces."

"Say, is there anything you haven't done?" asked the commissioner indignantly.

Coming back to the main question again, Mr. Mitchell declared that Mr. Glaubitz had expected to leave by May 1.

"He came to my office and told me that he would be out of here by May 1," declared the commissioner, and the general manager did not deny his statement.

Amend Resignation.

Commissioner Chapman then amended the resignation of Mr. Glaubitz by inserting the words, "thirty days after May 1."

"This will be according to the agreement," he said.

"All right; you move that it be accepted," said the chairman, directing his remarks to Commissioner Mitchell.

"I won't move it. What's the use? You wouldn't carry it if I did move it," retorted Mr. Mitchell.

Mr. Chapman thereupon moved that the resignation, as amended, be accepted, and the incident was closed, for that time, at least.
