FROM OVER THE OCEAN

Russia Angry at England.

THE KHALIFA'S CAPTURE IMMIN-
ENT—HOOLEY'S QUEER EVID-
ENCE—SIAM WAKING UP.

Canea, Island of Crete, Nov. 8.—The
Turkish troops at Retimo, having re-
fused to leave that place, the Russian
admiral in those waters, following the
example of Admiral Noel, the British
commander here, forcibly conveyed
them on board a transport.

RATHER SARCASTIC.
Paris, Nov. 8.—The Gaulois a n-
nounces that henceforth the motto,
"God Protects France," will be stricken
from French coin. The paper re-
marks sarcastically that it is a good
thing, since foreigners might be led
to believe, from seeing the inscription,
that Frenchmen still have faith in
Providence. It suggests the govern-
ment adopt the motto, "Schwarz-
Koppen Protects the Republic."

ANGRY AT ENGLAND.
St. Petersburg, Nov. 8.—The St.
Petersburg newspapers show great ir-
ritation at England over the settlement
of the Fashoda affair, and agree in
declaring that her conduct will
arouse the powers interested in the
Suez Canal to open discussion of the
best means of preventing the final es-
tablishment of England in Egypt.
The Noeti says that since the Egyp-
tian question is purely of an interna-
tional character, it must be solved by
a congress of the powers, which can
protest the neutrality of Egypt un-
der the protectorate of all the powers.

THE KHALIFA'S CAPTURE.
Cairo, Nov. 8.—Khalifa Abdallah,
the defeated Dervish leader, is hard
pressed on the frontier of Kordofan,
south-west of Khartoum, by natives
friendly to the Anglo-Egyptian expe-
dition, and it is believed that his cap-
ture is imminent. Ali Sniffo is al-
ready a prisoner and is being brought
to Khartoum.

CAIR'S BIG SCHEME.
St. Petersburg, Nov. 8.—After long
consideration of the project, it is re-
ported that the Russian government
is about to commence work on a
great ship canal from the Baltic to
the Black Sea. The estimated cost is
\$155,000,000, and the canal is to be com-
pleted in five years. In addition to its
commercial value, such a canal would
be of great worth to the government
in affording means of affecting junc-
tion in the Baltic and Black Sea fleets
independently of the Dardanelles
route. The disbursement of the
Czar Nicholas is believed to have been
made to blind the eyes of European
nations to the magnitude and impor-
tance of this canal scheme.

A PLOT IN PARIS.
London, Nov. 8.—The Daily Chronicle
this morning—"We have received
information from a reliable quarter
of a well-organized plot in Paris in
the event of the inquiry before the
Court of Cassation proving favorable
to Dreyfus, to foment a riotous out-
burst in the French capital, to attempt
to overthrow the civil power, and to
assassinate the leading champions of
Dreyfus. These reports are confirmed
by interviews had with M. Trarieux,
former minister of justice, and M. de
Presmeaux, foreign editor of the Temps,
as well as others. The police have
warned the friends of Dreyfus to
change their residences temporarily,
or at least to carry revolvers."

SIAM WAKING UP.

London, Nov. 8.—Siam is awakening
and is endeavoring to advance along
the path of civilization. M. Rivet-

TRAINMEN OBJECT.

Americans Imported by the Wa-
bash Into Canada.

While Canadians are Being Laid off—
The Government was Appealed to
but is Doing Nothing.

Windsor correspondence Detroit Free
Press.—A number of the trainmen on
the Wabash Railway called on William
McGregor, Member of Parliament for
North Essex, yesterday, and complained
that they were not receiving justice at
the hands of the company. They told
him that many conductors, baggage-
men and brakemen had been imported
from the United States last spring and
given situations on passenger trains
running between Windsor and Fort
Erie, and although a complaint had
been made to the Government at the
time no action was taken. The Win-
dors trainmen had decided to allow the
matter to drop, as they were all making
good time, but an order was received
from the company last week which has
urged them to renewed action. This
order was to the effect that on and
after November 13, two passenger trains
would be taken off from the Windsor-
Fort Erie run during the winter
months. This will cause a number of
men to be laid off, and already several
Windsor trainmen have received notice
that they will be set back to freight
braking or be put on the list as spare
men. They say that it is not fair to
them for the company to retain the men
who were imported to take their pos-
itions, while older men, Canadians, have
to take inferior places. As the men
complained against have now been resi-
dents of Canada for the past six months,
they cannot be deported under the
Canadian alien labor law.

ANOTHER SOP FOR THE
YANKEES.

Hon. Mr. Blair has ordered fifteen palace cars for the Intercolonial in the United States. The order is a public disgrace. The cars could have been built in Canada if they cost twice as much as in the United States. After the way the Americans are treating Canadians we believe every man, woman and child in this country with any spunk about them would prefer to ride on a flat car built in Canada rather than in a palace imported from the other side and upon which no Canadian could get employment.

It is less than a week since Inspector DeBarry, of Buffalo, deported back to Canada Miss Mary O'Connor, a young woman whose home is in Montreal. She was a traveller for J. H. Farr & Co., soap manufacturers, who have establishments both in Montreal and Buffalo. They transferred Miss O'Connor from one establishment to the other, DeBarry, under orders from Washington, promptly transferred her back.

That is the kind of alien labor law the Americans have. Look at ours. There is the London street railway company bringing over "scab" labor from the States to run their cars, and our law is powerless to stop them.

If the Washington government were in power at Ottawa, they could not administer things more in favor of the United States.

When this same Blair wanted three locomotives, he was ordering them from the States. The Grits of Kingston raised such a howl he was compelled to be patriotic for once. Kingston has locomotive shops.

When the government had supplies to send to the Yukon they were sent over Yankee railroads to Seattle, a Yankee port, and loaded on Yankee vessels, by Yankee longshoremen. Then all was paid for by good Canadian money.

A more scandalous "throw down" of Canadian interests under Laurier, Tarte, Blair, et al., has never been witnessed in the history of the Dominion. Yet a subsidized Grit press closes its eyes to all this and never enters a protest. Just watch the Banner, for instance, and see if it doesn't follow the same course it did in the natural gas strike, when Chatham, with Archie Campbell's approval, was so scandalously rebuffed by the action of the government.

AN ENGLISH WRITER ON THE
PLEBISCITE FARCE.

Edward Peggitt, an English journalist, has an article in this month's North American Review on "The Canadian Plebiscite." In his opinion the Ottawa program of which the plebiscite formed a plank, was patterned after the Newcastle program of the English Liberals. The Newcastle program carried the English Liberals into power, but their failure to fulfill their pledges so disgusted the electorate that the next general election resulted in a much more decisive victory for the opposition. It remains to be seen whether the Ottawa program will involve its originators in a like fate. Like the Newcastle program, it went on the plan of promising something to everybody. The English faddists who were tricked by the Newcastle program showed their resentment by turning out the Rosebery government. The Canadian plebiscitists appear to be more easily gulled, if one can judge by their apparent satisfaction with the attitude of Sir Wilfrid Laurier. They will get nothing. They know they will get nothing. The manager of the Liberal party, took care that the vote in Quebec

Prepare For Health
IN TIME OF DANGER
By using Kootenay Cure.

When the cold, damp winds of the next few months penetrate every part of your body, you will realize that you should have prepared for such an event.

The vigorous action of pure, rich blood will withstand the attacks of cold and disease. Kootenay Cure purifies the blood, gives strength to the tissues and bones of the frame, and provides you with weapons to defeat those much feared and stubborn enemies, rheumatism, sciatica, kidney disease, neuralgia, and similar afflictions. Sworn testimonials similar to the one here given, will be sent you free on application to the S. S. RYCKMAN MEDICINE CO., Limited, Hamilton, Ont.

Rheumatism is a mild, severe or chronic form can be cured by Ryckman's Kootenay Cure, and Martin Watson, 112 Cathcart street, Ottawa, who was afflicted with the disease for over two years, and confined to bed for two months, says that two bottles of the medicine entirely cured him and that though exposed to wet weather since then has felt no bad effects. By building up the system and purifying the blood, Kootenay effects a cure. Mr. Watson gained 27 pounds while taking the medicine, and highly recommends it to all rheumatic sufferers.

should be such as to justify the government in refusing to do anything. In face of the facts Mr. Spence's declaration that prohibitionists "could expect nothing more," is a reflection on the intelligence of the people he represents.

Mr. Porritt, however, is not concerned with the prohibitionists, but with the constitution. He points out the absurdity of the government's position, in that one minister told the electorate the whole prohibition business was a humbug, while another told them they would get it if there was a majority in its favor. From beginning to end there was an air of insincerity about the plebiscite, and a trifling on the part of the Laurier government with representative institutions and long-established constitutional usages. The Canadian people realized this, and rebuked it by refusing to take part in the farce that the government was playing. This also saved the government from getting into an even more difficult position than that in which it had involved itself. Mr. Porritt says quite plainly that he considers the situation a humiliating one for the government. To quote his own words:—

"Since cabinet government and cabinet responsibility for legislation introduced or rejected by government, became established in England, and was transplanted from England to British colonies all over the globe, there never was such a spectacle as was witnessed in Canada during the closing weeks of the plebiscite campaign. The situation would have been more absurd had the vote in favor of prohibition been sufficiently large to demand a prohibition enactment. Then at least three members of the Laurier cabinet would have had to resign, or Canada would have broken away entirely from the cabinet system as it exists in England. With four members of the ministry denouncing prohibition and insisting on its impracticability, it is difficult to see how, without a complete reorganization, the cabinet could have sanctioned a prohibition bill and still remained a cabinet within the accepted meaning of the term as it is used in England, and as it has been hitherto accepted in British colonies with representative institutions like those of Canada."

A MAYOR'S PECULIAR IDEA OF
HONESTY.

They have a waterworks scandal in Ottawa. The collectors and clerks have been taking in rates and crediting them just when they pleased, sometimes weeks after the payments, and this is what Mayor Bingham is reported as saying about the matter:—

"The mere fact of a man being out on a little 'time' and happening to have a few dollars of corporation money in his pocket, spends them for self-gratification, gives us no right to allege that he has disgraced himself. I might do the same thing myself; probably would do so under similar circumstances. A thing that can be so easily rectified is no disgrace."

His worship adds "some people have a wrong conception of what constitutes a disgrace." So it seems. They must have a wrong conception of the criminal code, too, which says the using of other people's money without their knowledge or consent is embezzlement, the penalty for which is imprisonment.

"Scab" labor imported from the United States is being used against the London street railway strikers. Where is Laurier's alien labor law? Is it good?

The buy-election in Lennox is fixed for the 18th inst.

The good roads movement in Chatham seems to have started on Wellington street and got stuck there.

That British admiral who deported the Turkish troops from Candia by force seems to be the DeBarry of Crete.

We hear of the pork packers' combine, the tobacco buyers' combine, the binder twine combine and all the combines against the farmers' interests, but we don't hear anything about the Grit pledges made when in opposition as to what they would do if they got a chance at all and sundry combinators who preyed on the people.

For the month of October the number of emigrants from British ports for Canada were:—English, 1,063; Irish, 78; Scotch, 66; foreign, 912. During the ten months of the year the numbers were: English, 13,237; Irish, 745; Scotch, 1,596; and foreign, 2,893. The number of emigrants to Canada trebles that of similar bookings for Australia during the year, and exceeds the Cape Colony total by 3,842.

Fifty thousand dollars a year is now saved by the Americans through having their postage stamps printed at the government works at Washington, instead of giving the work out to private contractors. Rather than let American contractors do the work the American government does it themselves. Rather than strike off stamps themselves or let a Canadian firm do the work the Laurier government gives the contract to some New Yorkers. There is the difference between the two governments.

PUSS AND THE PIGS.

Belmont Times.
Mr. John Dean, 7th con. South Dorchester, has a curiosity in the shape of a kitten, whose mother deserted it at an early age. The outcast took up its abode with the hogs, and to the great astonishment of Mr. Dean it began to thrive. It follows the hogs all day, and at night it perches itself on a pig's back and appears to enjoy life very well.

GET AT
THE CAUSE

of Backaches and Headaches and Remove it by
Using
DR. CHASE'S
KIDNEY-LIVER PILLS.

The error of the day in medical treatment is the "doctoring" of effects instead of getting at the cause. A powder for headache, a tablet for indigestion, and a plaster for backache. These may afford slight temporary relief, but next day the old trouble is back again. Besides, think of the effect of a drug strong enough to stop headache almost immediately. Backache is kidney ache. A sure indication that the kidneys are badly diseased. Backache is nature's signal of alarm to warn people that the kidneys are no longer able to perform their duty of filtering the blood. And this means that the foul impurities which would otherwise be carried off by the kidneys remain in the blood, and find their way to every organ of the body, where they act as deadly poisons. All the most painful and most fatal diseases arise from deranged kidneys. The liver and stomach are affected; digestion interfered with; biliousness and constipation are an accompaniment; headache, loss of energy and ambition, a dragging down feeling, low spirits and despondency; these are some of the symptoms.

Dr. Chase's Kidney-Liver Pills are the world's greatest kidney cure, because they act directly on the kidneys and restore them to health, strength, and vigor. They remove the cause of backaches, backaches, and an endless chain of most fatal and complicated diseases. Dr. Chase's Kidney-Liver Pills cure Bright's Disease, Diabetes, Rheumatism, and Kidney Disease, after skilled physicians have failed.

Dr. Chase's Kidney-Liver Pills are purely vegetable, and act pleasantly and naturally. One pill a dose; 25 cents a box.

Dr. Chase's New Receipt Book cloth bound, 500 pages, regular price \$1.00, sent to any address in Canada on receipt of 50 cents and this coupon. EDMANSON'S, BATES & CO., Toronto.

She said she seen you lookin' at yourself in the mirror several times, and you never laughed wunst."—Cleveland Leader.

MANHOOD

Necessary to a
Happy Life

RICH BUT WEAK

Don't sell your health. Don't fritter away your strength. It is better to live upon a crust and be a perfect man physically and mentally than to possess wealth without strength to enjoy it. Any man who is weak from youthful errors or later excesses has my compassion, because he has much to regret in the folly of his past days. Parents are largely to blame for the alarming extent of this great vice. A father should make it his duty before all else to take his boy in hand just at that tender age when nature must be most assisted in her work of development. The man, young, middle-aged, or old, who suffers from Nervous Debility, Impotency, Lame Back, Losses, Varicocele, etc., allows his imagination to get the better of his good judgment. The trouble is, as a rule, he lets some "quack" scare him half to death, and then proceeds to fill his stomach with a lot of rank stimulating drugs, which not only do no good, but result only too often in a permanent injury. Reader, my advice is that you throw all such away, and if you follow my suggestions and take ordinary care of your general health, I promise to make you a sound, strong man, with new energy for business and pleasure. In the first place, I would want you to get my famous

POOR BUT STRONG

Electric Belt

with electric suspensory attachment, and then I would ask that you follow a few simple little health rules, which I would get up for you according to your case and requirements. That is all. No drugs, and no further expense. I can give you with this simple remedy a strong, vigorous life, and such health as you have never known. My electric belt is a patented article, but there is no secret in what I use. Simply nature's own simple restorer—the pure galvanic current of electricity. The current as I apply it flows from a point over kidneys at small of back, through all the weak glands and parts to the suspensory in front, giving almost immediate benefits. You wear it at night. It soothes, strengthens and cures you while you sleep. Drop in some day and consult me free of charge, or if you live too far send for free book, "Three Classes of Men," sent in plain sealed envelope. It explains all. Established 30 years.

THE CRIME OF THE BOULEVARD

BY JULES CLARETIE

one among all others who might have committed the deed.

"You never saw the woman who visited Rovere?"

"Yes; the veiled lady, the woman in black, but I do not know her. No one knew her."

The story told by the portress about the time when she surprised the stranger and Rovere with the papers in his hand in front of the open safe made quite an impression on the examining magistrate.

"Do you know the name of the visitor?"

"No, monsieur," the portress replied.

"But if you should see him again would you recognize him?"

"Certainly. I see his face there before me."

She made haste to return to her house so that she might relate her impressions to her fellow gossips. The worthy couple left the court puffed up with self esteem because of the role which they had been called upon to play.

The obsequies were to be held the next day, and the prospect of a dramatic day in which M. and Mme. Moniche would still play this important role created in them an agony which was almost joyous.

The crowd around the house of the crime was always large. Some few passers-by stopped—stopped before the stone facade behind which a murder had been committed. The reporters returned again and again for news, and the couple, greedy for glory, could not open a paper without seeing their names printed in large letters. One journal had that morning even published an special article, "Interviews With M. and Mme. Moniche."

The crowd buzzed about the lodge like a swarm of flies. M. Rovere's body had been brought back from the morgue. The obsequies would naturally attract an enormous crowd, all the more as the mystery was still as deep as ever.

Among his papers had been found a receipt for a tomb in the cemetery at Montmartre, bought by him about a year before. In another paper, not dated, were found directions as to how his funeral was to be conducted. M. Rovere, after having passed a wandering life, wished to rest in his native country. But no other indications of his wishes, nothing about his relatives, had been found. It seemed as if he was a lone being in society or any claim on any one to bury him. And this distressing isolation added to the morbid curiosity which was attached to the house, now all draped in black, with the letter "R" standing out in white against its silver escutcheon.

Who would be chief mourner? M. Rovere had appointed no one. He had asked in that paper that a short notice should be inserted in the paper giving the hour and date of the services and giving him the simple title ex-consul.

"I hope," went on the writer, "to be taken to the cemetery quietly and followed by intimate friends, if any remain."

Intimate friends were scarce in that crowd, without doubt, but the dead man's wish could hardly be carried out. Those obsequies which he had wished to be quiet became a sort of fete, full of real and noisy, where the thousands of people crowding the boulevard crushed each other in their desire to see, and pressed almost upon the draped funeral car which the neighbors had covered with flowers.

Everything is a spectacle for Parisians. The guardians of the peace strove to keep back the crowds; some gamins climbed into the branches of the trees. The tier had been placed at the foot of the staircase in the narrow corridor opening upon the street. Mme. Moniche had placed upon a table in the lodge some loose leaves, where Rovere's unknown friends could write their names.

Bernardet, alert, with his eyes wide open, studying the faces, searching the eyes, mingled with the crowd, looked at the file of people, scrutinized one by one, the signatures; Bernardet, in mourning, wearing black gloves, seemed more like an undertaker's assistant than a police spy. Once he found himself directly in front of the open door of the lodge and the table where the leaves lay covered with signatures. When in the half light of the corridor draped with black, where the tier lay, he saw a man of about 50, pale and very sad looking. He had arrived in his turn in the line at the table, where he signed his name. Mme. Moniche, clothed in black, with a white handkerchief in her hand, although she was not weeping, looked herself side by side with Bernardet; in fact, their elbows touched. When the man reached the table, coming from the semidarkness of the passage, and stepped into the light which fell on him from the window, the portress involuntarily exclaimed, "Ah! she was evidently much excited and caught the police officer by the hand and said:

"I am afraid."

She spoke in such a low tone that Bernardet divined rather than heard what she meant in that stifled cry. He looked at her from the corner of his eye. He saw that she was ghastly, and again she spoke in a low tone, "He, he whom I saw with M. Rovere before the open safe."

Bernardet shivered with pleasurable excitement and insisted upon his own impression that this unknown strongly recalled the image obtained, and mentally he compared this living man, bending over the table, writing his name, with that specter which had the air of a trooper which had appeared in the photograph. The contour was the same, not only of the face, but the beard. This man reminded one of a seigneur of the time of Henry III, and Bernardet found in that face something formidable. The man had signed his name. He raised his

on lay the papers, showed a wide forehead, slightly bald, and a pointed beard, a little gray, which almost touched the white paper as he wrote his name.

Suddenly the police officer experienced a strange sensation. It seemed to him that this face, the shape of the head, the pointed beard, he had recently seen somewhere, and that this human silhouette recalled to him an image which he had recently studied. The perception of a possibility of a proof gave him a shock. This man who was there made him think suddenly of that phantom discernible in the photograph taken of the retina of the murdered man's eye.

"Who is that man?"

Unless the proper precautions are taken, death will lurk in every home. It dogs the footsteps of husband, wife and children alike. If the husband is an ambitious man, the chances are that he will overwork and take insufficient time to rest, eat and sleep. At first he may feel but trifling ill effects from his indiscretion. Then he will suffer from headaches, loss of appetite, loss of sleep, lassitude in the morning, drowsiness during the day and a general "out-of-sorts" feeling. If these conditions are neglected, almost any serious malady may be the result. Frequently it is some nervous disorder or dread consumption. Dr. Pierce's Golden Medical Discovery is the best medicine for hard-working men. It gives edge to the appetite, makes digestion and assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker and flesh-builder. It cures 98 per cent of all cases of chronic or lingering, bronchial, throat and lung affections. All too frequently, death dogs the footsteps of the wife, in the guise of weakness and disease of the delicate and important organs that bear the burdens of widowhood and maternity. There is an unfailing cure for disorders of this nature. It is Dr. Pierce's Favorite Prescription. It acts directly on the sensitive organs concerned, making them strong, healthy and vigorous. It fits for widowhood and motherhood. They are sold at all medicine stores. During early childhood death lurks in every corner for these fragile innocents. The mother can only protect her babes by acquiring some practical medical knowledge. Dr. Pierce's Common Sense Medical Adviser imparts this knowledge. way.

"There are a great many flowers," he remarked to his neighbor. "It is rather surprising, as M. Rovere seemed to have so few friends."

"He has had many," the man brusquely remarked. His voice was hoarse and quivered with emotion. Bernardet saw that he was strongly moved. Was it sorrow? Was it bitterness of spirit? Remorse perhaps. The man did not seem, moreover, in a very softened mood. He walked along with his eyes upon the funeral car, his head uncovered in spite of the cold, and seemed to be in deep thought. The police officer studied him from a corner of his eye. His wrinkled face was intelligent and bore an expression of weariness, but there was something hard about the set of the mouth and insolent in the turned up end of his mustache.

As they approached the cemetery at Montmartre—the journey was not a long one in which to make conversation—Bernardet ventured a decisive question. "Did you know M. Rovere very well?"

The other replied, "Very well."

"And whom do you think could have had any interest in this matter?" The question was brusque and cut like a knife. Jacques Dantia hesitated in his reply, looking keenly at them as they walked along at this little man with his smiling aspect, whose name he did not know and who had questioned him.

To be continued.

New Soukanees Stamp.

The Soudan is to have a new postage stamp, so stamp collectors state. The reason for the change is curious.

The Egyptian postage stamp has a crescent as a water mark, but the water-mark of the Soudanese stamp is a cross. And good Mohammedans object strongly to apply their tongue to mullage that adheres to the sign of the cross. They want to link a crescent.

So the present series of Soudanese postage stamps are, say the collectors, to be withdrawn, and those with a crescent water-mark substituted.

Railways in India.

The railways in India on March 31, 1898, aggregated 23,454 miles open and sanctioned, of which 21,156 miles were open or traffic, leaving 4,298 miles under construction, or authorized. This was a net increase of 760 miles.

Cut Prices Seems

To be the order of the day and we must be in it. WE SELL SHOES cheaper than the shoe store because we don't have to depend on shoes for all our profits. WE SELL CLOTHING cheaper because we don't have to depend on clothing for all our profits. WE SELL FURNISHINGS cheaper because we don't have to depend on the profits of furnishings. WE SELL GROCERIES cheaper because we don't have to depend on the profits of groceries altogether and so it goes, all through our stock.

QUICK VENGEANCE

This Murderer Frightened Himself to Death.

A Cowardly Crime—Struck the Head off a Sleeping Man.

Victoria B.C., Nov. 8.—A brutal murder was discovered at Saanich yesterday morning, and there is every reason to believe that the murderer was the man whose remains were found in the woods near Esquimalt several days ago, and now said to be those of one Wm. Hammond, formerly of the British navy. His victim was Henry Edmond Smith, son of Henry Smith, who keeps a grocery store at the corner of Government and John streets. The young man went out to Saanich on 20th October, and he had not since been heard from. Yesterday his father went out to visit at his cabin at Saanich. On finding the place locked up the father burst open the cabin door and found the body of his son wedged under the bunk. The bed clothes, in a heap on the floor, showed that they were hurriedly torn away by the murderer just before he swung the axe, which had almost severed young Smith's head.

HATED THE MOTIVE.
The gold watch hanging upon the nail, and the undisturbed contents of the cabin, told that robbery was not the object of the murderer, whose motive was probably hatred of the Smiths. The murderer must have sprung upon his victim as he slept.

The ranch upon which the murder was done, formerly belonged to Hammond, who was indebted to Smith, and a short time ago, an arrangement was made whereby in consideration of the liquidation of the debt and the payment of a certain sum to Hammond, the ranch reverted to Smith.

SWIFT RETRIBUTION.
Men who knew Hammond identified as his the remains found in the woods near Esquimalt a week ago. He had died from heart failure. The doctors at the coroner's jury said that while wandering through the woods he had probably been torn with fears of capture and visions of retribution, and his mental anguish had brought on the disease which killed him. Judging from the appearance of his remains the murderer died in great agony. Hammond, when found, had a .38 Smith & Wesson in his pocket, and a flask half filled whiskey.

THE MARKETS

LOCAL MARKET CHAT.

Planet Office, Monday evening, Nov. 7th.

Wheat.—This grain has a little easier feeling. The outlook tends towards a quiet market in the immediate future. Deliveries are fair. The mills are manufacturing heavily on recent large orders and shippers are loading a good many cars for eastern mills principally.

Oats.—An easier feeling can also be noted for oats, the market being down about one cent, a bushel from the top grade of a week or two ago. Prices are as per tabulated statement.

Barley.—Receipts and demand fair. The situation of last week prevails. Prices as per table.

Buckwheat.—Small receipts; demand fair at 35 to 40c.

Peas.—Demand to town small. The prices range from 45 to 50c for good quality. Feeding kind brings 40c.

Beans.—Fair deliveries, chiefly at outside points; market unchanged from last week.

Corn.—Fair quantity of new is offering. The market for it outside has hardly yet started. However, loads to shippers are costing 25 to 27 cents, as to quality.

Pears.—A large shipment, made by O'Keefe & Drew, leaves here today for the English market. The price is about a dollar a barrel.

Live hogs.—Fair business is doing at \$7.75 per cwt. The market is steady at present. John Duff shipped two cars today.

Shipped hogs.—A few cars have been shipped, bought at \$4.75 to \$5 per cwt. O'Keefe & Drew ship two cars Tuesday and three Wednesday. Present sales are merely fill orders for the lumber trade. Eastern packers think the market will go lower to meet the live hog market. Packers are holding off, expecting to buy cheaper.

The offerings on the market were plentiful even for a Saturday, but the downpour of rain interfered with business and many vendors had large quantities of stuff left till the afternoon.

The prices in all lines show little or no change. There is a great plenty of the best vegetables and roots. The offerings being choice keep the prices at a good margin of profit to the growers. Fruits are getting scarce. Apples and peaches are about done. The grapes have almost disappeared.

The offerings are not very choice, the fruit having been picked some time has lost a good deal of its flavor. Potatoes still hold firm at from 75 to 80 cents a bag. The market shed was crowded with offerings of butter and poultry. Poultry was present in abundance. The prices, however, remain unchanged. Butter was in fairly good demand at 18c, and the supply was good. Eggs were scarce at 15 cents, and dealers look for the price to go higher.

Pork was a good seller at 6 to 7c, a pound per cwt. but the weather is too mild for a good market.

TORONTO PRODUCE

Toronto, Nov. 7.—Butter. The receipts for large rolls continue quite fair. There is a good demand for all, the best offering at 13c to 15c. Dairy tub is quoted at 14c to 15c for the best and 12 to 13c for medium. Creamery is steady at 16c for prints and 18 to 16-1-2 cents for packed.

Eggs.—Are unchanged at 17c to 18c for strictly new laid, 14 to 15c for fresh-gathered and 12c for old fresh. Potatoes.—The market is steady. Cars on the track are quoted at 50c. Potatoes out of store sell at 45 to 70c.

Poultry.—The receipts are liberal and prices show a large range, owing to the quantity of poor stock offering. Quotations are 4c to 5c for turkey, 10c to 30c for ducks, 5c to 5-1-2 cents for geese, and 25c to 35c for chickens. Baled straw.—The market is dull for

The Eloquence Of an Advertisement

An eloquent ad. is more than a mere address of a seller to a shopper, per medium of the paper.

It must have that "personal magnetism" associated with the speaker who can talk eloquently.

There must be a subtle something higher and clearer and more convincing than the words or their setting.

Many newspaper readers can not detect an eloquent ad. in the language they would like—they say it has more in it than the look of it conveys.

Our opinion on the subject is that an eloquent ad. is simply an honest ad.—the more honest, the more eloquent—and it attracts trade because people instinctively and irresistibly believe in it.

MAY BE A SETTLEMENT.

There is a prospect of a settlement in the London street car strike. The president of the road is now conferring with a committee of the union. Three cars ran yesterday, but were boycotted by the public. One old man who rode was hit with a rotten egg on alighting. Several car windows were also smashed. The assailants were boys.

A BIG RUN.

Last evening in Bennett's billiard parlor, Wm. Boyd made the phenomenal run of 101 points in a three ball match game against Wm. Paullucci. The game was 100-80, and Paullucci won the bank, scoring his first billiard. Then Boyd took control of the ivory and ran out the game. Some of the shots made during this big run, were phenomenal.

FALSE ECONOMY.

I once knew a man who was so economical he picked up all the stray pins he found. It saved him at least thirty-seven cents a year for pins, and it didn't take more than fifteen dollars' worth of his time. This man was a false economist; same as the one who pays ten cents for a pair of spectacles, and wears a pair of eyesight-glasses.

It is better than in any other way. If you wish to save your eyes, call on E. J. MacIntyre, scientific optician, Chatham.

TILBURY

Nov. 8.—There is a large advance sale of tickets for the Emerson concert to-night.

Tilbury is to have another bank, making three in all. Representatives of the Merchant's Bank were in town yesterday and completed arrangements to open a branch here, which will be in charge of Mr. Munro, of Owen Sound. It will be in operation at once.

Rev. Russel Dean McCosh, of Chatham, will conduct Church of England services here next Sunday, Rev. Mr. Dobson going to Chatham.

WALLACEBURG.

Nov. 8.—Ollis Stewart, who recently sold his farm to Geo. Mickle, is moving to town and will occupy the house formerly occupied by F. E. Roy.

Gay Bros. Minstrels arrived this morning and gave their usual midday parade.

Owing to a break in the dynamo at the electric light works the town has been in darkness for the last week. It has been sent away for repairs.

Harold Colby, of Chatham, is spending a few days with Will. O'Leary.

Free Medical Advice

You need a doctor many times when you don't call one. You suffer pain in fifty forms and yet won't call the doctor, because you hope that the pain "will go away after a while." And, too, you know by experience, that that first visit of the doctor is generally followed by many others, with the inevitable consequence of a big bill "for professional services." You don't know what to do for yourself or what to take.

But suppose that you could get free, absolutely free, the advice of one of the most

Eminent Physicians

In the United States? You can. The physician is right here. He has an office in the building, he has a staff of correspondents to assist him, and anyone and everyone, who needs medical advice is invited to write to him. If it's baby's health or mother's or the health of any member of the family you may write about it, sure of a careful reading of your letter, sure of a conscientious diagnosis of your case.

Sure of a Cure

If cure is possible. Every letter will be held as a strictly confidential communication. Remember these facts.

We offer you medical advice from one of the most eminent practitioners in the United States, whether our medicines suit your particular case or not. We offer you this advice at the cost of the two cent stamp which it will take to bring your letter to our office. Address the Medical Department, Dr. J. C. Ayer Co., Lowell, Mass.

GIVEN TO YANKS.

They Will Now Build Our Government Palace Cars.

Though Canadians Work Were Quite Capable of Filling the Contract.

Ottawa, Nov. 8.—The order for Wagner palace cars which Mr. Blair has just placed in New York represents an expenditure of from \$150,000 to \$200,000. Fifteen cars altogether have been ordered. The Maritime Province papers are very sore at Mr. Blair's action. They point out that as the C. P. R. builds its own sleeping cars, at least an opportunity might have been afforded to Canadian artisans to construct these cars. It appears, however, to be the policy of the department not to give to Canadian contractors a class of work which, it is said, they are quite competent to perform. It appears, however, that the Canadian car men must be content with constructing the cheap box and flat cars.

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen, of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with Typhoid Fever, that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use, and now am well and strong. I can't say too much in its praise." This marvelous medicine is the surest and quickest cure for all the worst cases of Lung Trouble, 50 cents and \$1. at any Drug Store; every bottle guaranteed.

A BOAT CAPSIZES.

Five Persons Drowned Near Pelee Island.

One Body Found Lashed to the Boat—The Victims.

Kingsville, Nov. 8.—Sunday night a small sail-boat containing five persons left here for Pelee Island. The boat belonged to Mr. Robinson, of the Island. By some means the boat capsized, and all the occupants have been drowned. The boat drifted ashore at Point Pelee with the body of Charles Barnes lashed to it. The following are the names of those who were in the boat, and who, no doubt, are drowned: Hugh Hooper and his two sisters, aged 18 and all of Kingsville, Fred, White and Charles Barnes, of Pelee Island.

Walter Carr, mail carrier, has arrived here from Pelee Island. Carr went to the island just ahead of the ill-fated boat. He says the lake was rough, and he kept the boat that was following in sight until about three miles from the island, when the boat suddenly disappeared. Carr's watch came ashore at Point Pelee. The body of Chas. Barnes, one of the men, was also found on the shore near here, tied by the ankle to the boat. Karl Kauff, man was not drowned, as at first reported. He went in the mail boat; undoubtedly the others were drowned, and these were—Hugh Hooper and his two sisters, Chas. Barnes and Fred White.

A RACE WAR.

Wilmington, N. C., is Terrorized—Armed Bands Parading the Streets.

Wilmington, N. C., Nov. 8.—The negroes, while outwardly quiet, are manoeuvring in secret. They have recently received another supply of arms, as shown by thirty-four of them parading the streets at midnight last night with rifles and other arms. They gave it out that their various orders have sworn death to the red shirts. But few white citizens slept soundly last night. Lawless bands of armed negroes gathered in the northern portion of the city. An outbreak is momentarily expected. A number of white women in that section were nearly prostrated with fear. White men guarded the houses and the Wilmington Light Infantry and naval reserves rendezvoused at night at their armories. Street cars were closed by negroes last night and white people were compelled to desert them and walk. The police force was unable to command order.

The sand-bag is the hands of a hold-up man is a stunning affair.

HOW TO GET GOOD ROADS.

In J. B. Stringer & Co.'s office the other day Henry Walters, the well known Hatwich farmer, gave his opinion of the roads in Kent County. Mr. Walters said, it was impossible to have good roads under the present law.

"I have been path-master for twenty years and the roads aren't as good now as they were then. This scraping of earth out of the ditches on to the roads only makes them worse. Then it is impossible to get the men to come out and do their statute labor and when you do get them out, it takes them one or two days to do an hour's work. We can do nothing in the matter of roads until the law is changed. I think the best solution of the difficulty would be to assess every man in the county annually say seventy-five cents a head and use this fund in the improvement of the roads. I don't think that any of the residents would object and in time we would get good roads."
