

N.F.C.U.S. ANNOUNCES PROGRAM

FOUR NATIONAL MANDATES

CUP—N.F.C.U.S. National Office—Ottawa:

Pursuant to the decisions of the sixteenth Annual Conference held at Laval University last month, and as a result of a poll taken among the twenty member student delegations present, to determine the priority of a limited number of concrete projects that should be undertaken this year for the benefit of university students of Canada, the N.F.C.U.S. National Office announces that a correlation of ballots has shown that all efforts of the National Executive Committee and the twenty local member-committees will have to be focussed on the following mandates in that order:

A.—Unemployment Insurance Premium Exemptions

Representations will be made to the Unemployment Insurance Commission of the Department of Labour, Dominion Government, to exempt students from contributions to the U.I.F. fund.

B.—Recommendations of Massey Commission

Strong concerted pressure will be brought to bear on competent authorities for the continuation and early implementation of the Massey Commission recommendations, especially those dealing with indirect aid to university education and the establishment of a Canada Council. The amended motion, which carried, reads:

"That the N.F.C.U.S. Executive do everything possible, both through personal contact and publicity, to move action on the Massey Commission recommendations concerning Scholarships, Bursaries, and Fellowships, by the Provincial and Federal Governments, and the early establishment of the Canada Council on the Arts, Letters, Humanities, and Social Sciences. That it re-affirms our belief that education must remain within the field of provincial jurisdiction and that no action be taken which might prejudice the present system."

C.—Co-operative in Travel—Canada and Abroad Year Round.

Action on this mandate will be towards considerable reduction on fares as 'Co-operative in Travel' (Tourisme Populaire). That a detailed outline of it be sent to Student Councils and local N.F.C.U.S. Chairmen for their study. Their appreciations to be sent in to the National Office before the meeting of the executive in February; to have power to implement or reject it."

D.—High Cost of Text Books

With a view to check and reduce the rising costs of texts, it was decided to take action as follows:

"That a National Campaign for the investigation and reduction of textbook prices be initiated. Such a campaign to be initiated and directed by the National Executive of N.F.C.U.S. or by a member of the Executive appointed by it, and to enlist the co-operation of all local Committees and of the National Office. This campaign will be conducted in the following manner:

Investigation and immediate report of the present position of books used in university studies under the Federal Tariff schedules. Depending on the results of such an investigation, pressure be made by the National Executive and local Committees to have duties on imported university texts eliminated. Continued negotiations with the National Conference of Canadian Universities for: Co-operation with N.C.C.U. in bringing the united force of Canadian university opinion to bear on the textbook taxation regulations of the Federal Government.

(Continued on page 6)

U.N.B. Radio Club

Radio and electronics enthusiasts will be shown the principles of teletype machines at the next meeting of the U.N.B. Radio Club. Members will hear a lecture on the principles of the teletype machine given by Prof. R. J. Collier of the electrical engineering department. Following his lecture, Prof. Collier will demonstrate a teletype machine actually receiving messages. This lecture should prove to be very interesting and all members and other interested persons are invited to attend. The meeting will be held at 7:30 p. m. on Tuesday, November 18th in the electrical building.

Psychiatrist Visits Campus

Dr. Ora Smith, provincial psychiatrist attached to the Mental Health Clinic in Saint John, addressed students of the University of New Brunswick last Thursday in the U.N.B. Art Centre. Dr. Smith met with combined classes in psychology, philosophy and sociology, and described the development of the New Brunswick mental health services.

Dr. Smith regularly visits Fredericton one day each week to assist in the operation of the mental health service here.

Sports Editor Resigns

Frank Walton has resigned as Sports Editor of the Brunswickan. After almost two full terms of supplying the campus with two complete pages of sports every week, Frank feels that his studies need a bit more consideration. We would like to thank him for the excellent job he has done in the past.

Beginning next week, a senior Forester will take over the post—John Wagar. We feel that John will be able to do the job with typical forestry competence, and ask the co-operation of all those who have been working with Frank.

Music on Monday

The Male Chorus has almost become a habit now with regular rehearsals on Monday evening at seven in Memorial Hall but of special interest is a recent find. Down deep in the heart of the Arts building amid the splendor of the Men's Reading Room—1847 Galvanized ware—was unearthed some of the old music of the almost forgotten Glee Club. This new music will make it possible to carry on and perhaps soon put on a concert or two. If you like to sing why not come out for the shortest hour of the week on Monday evening. Mem. Hall at seven.—Hope we see you there!

"Fortune My Foe" CAST ANNOUNCED

The Drama Society has released the tentative cast for their forthcoming production, "Fortune My Foe", an all-Canadian play by Robertson Davies. "Fortune My Foe" is to be produced on January 19, 20, 21 at the Devon High School Auditorium.

The following is the list of players: Steele—Ralph Hay Ncholas—Don Ryan Rowlands—Bill Barwick Weir—Jim Borcoman Buckley—Bob Sansom Szabo—George Watson Vanessa—Judith Waterson Ursula—Joan Goodfellow Mrs. Philpott—Beth Forbes Tapscott—Michael Snow

Five of the players, Hay, Ryan, Sansom, Waterson and Snow are from Fredericton. Miss Forbes hails from Saint John, while Miss Waterson is from Saint Stephen and has already distinguished herself this year as the best actress of the one-act plays. Joan Goodfellow is a fourth-year arts student and comes from Plaster Rock, N.B. Bill Barwick, the president of the Drama Society hails from Cambridge, England. Jim Borcoman, a second year artsman resides in Shelter Bay, P.Q.

S.R.C. Reports

At last week's meeting of the S.R.C. the ruling with regards attendance at Council meetings was referred to by President Bob Spurway. It was pointed out that three consecutive absences would result in dismissal from the Council. It is hoped that this procedure will not have to be used.

Mr. Deap, proprietor of the Brunswick Bowling Alleys was approached regarding settlement for damage to his alleys during Freshman Week activities. The Council proposal that he be awarded \$400 compensation was accepted. The problems then arose as to how the \$400 was to be amassed. President Spurway was authorized to go to the Bursar's office and enquire of the University business manager the best way to collect the Freshman and Sophomore \$1 levy (Council had agreed that each Freshman and Sophomore should be assessed \$1 to help cover the damage and that the Council should make up the balance.)

A committee was formed whose purpose it will be to investigate Freshman Week activities on other Canadian campuses. This committee comprises the following class representatives:

Senior class—John MacTavish Intermediate class—Keith Waddell Junior class—Vic Stewart Sophomore class—Bob Cass Freshman class—Don Thornton

Local N.F.C.U.S. Committee Chairman, Colin Harrowing, presented a budget to cover N.F.C.U.S. administration at U.N.B. His \$30 budget was approved. The matter regarding Council support for the Cornell Exchange Week-end was then brought up, and a motion proposed and approved that the S.R.C. grant this project maximum support of \$200.

Varsity hockey team manager, John Bishop, read a letter to the Council from the management of a hockey team in Grand Falls, Newfoundland, inviting the University of New Brunswick to play a two-game series at Grand Falls. The letter also pointed out that there would be no expense involved in transporting the U.N.B. team from Fredericton to Grand Falls and back. The Council accepted the invitation, stipulating that it be made definite that U.N.B. would bear no expense. The idea behind the move is one of improvement of the Newfoundland brand of hockey. At present there is general knowledge amongst the Newfie players of the general rules of hockey but there is no 'spit and polish'.

A challenge from Dalhousie University to play a home and home series in both hockey and basketball was then read to the Council. The challenge was turned down on the grounds that Dalhousie is not a member of the Maritime Inter-Collegiate Athletic Union. At such time as Dal wishes to return to the M.I.A.U., further challenges will be considered.

Art Centre Notice

Sunday, November 23rd.

This Sunday's programme will include:

Haydn—Symphony No. 101—"Clock".

Tchaikovsky—Swan Lake Ballet.

Delegates Attend Debating Conference

Bill Barwick and Iain Barr represented U.N.B. at a conference of the Maritime Intercollegiate Debating League held at Acadia University, Wolfville, N.S.

The delegates at the conference discussed the constitution of the league, future debates and Maritime debating. Various points of the league constitution were discussed, ratified and endorsed. It was emphasized that the constitutional judging form would be strictly followed in the future. The constitution states that; the judges of debates shall not be faculty members of either of the opposing colleges; that debates shall be arranged five weeks in advance; that debates will be judged 40 percent for material, 20 percent for delivery, and forty percent for rebuttal.

A debate of U.N.B. debaters with Toronto U. will take place in the near future.

The winners of the Canadian University Debating Association debates will be given an expense paid trip to South Africa.

Delegates to the conference were welcomed by Dr. R. S. Longley of the Acadia Faculty, Bill Archibald, president of the Students' Union of Acadia, and Wallace Mathison, president of the M.I.D.L. All round it was a very successful conference.

Stage Sets Underway

The Drama Society has announced that they will construct their sets and staging at the Handicrafts Division of the Provincial Department of Industries and Development of New Brunswick.

Through the kind co-operation of Mr. Ivan H. Crowell, the Handicraft Director, Mr. Alvin Shaw has announced that adequate facilities had been loaned to the society for their work. The sets are to be built immediately and the final date of completion is set for November 31.

Forestry Scholarships Awarded

Scholarships amounting to \$2200 have been awarded to seven foresters.

Named as recipients of 1952-23 Price Brothers Scholarships were John S. MacTavish, Westmount, Que., I.F. Stewart, Tide Head, N. B., and Kenneth Plummer, Thorold, Ont., Robert S. MacLagan, Campbellton, N.B., and Douglas J. Bancroft, Middletown, N.S., were awarded Viscount Bennett Scholarships.

The Price Brothers awards, worth \$400 each, are from funds provided by Price Brothers and Company, Ltd., well-known pulp and paper firm. The company is giving \$2,000 a year for the purpose, for a five-year period which began in 1948-49. The Bennett Scholarships, of \$100 each, are provided from a trust fund created to the benefit of the provincial university under the will of the late Richard Bedford Viscount Bennett.

MacTavish, Neilson and Boyle are all in the fifth year, Stewart and Plummer and MacLagan are fourth year students, and Bancroft is in his third year.

VOL. 72 FREDERICTON, N.B., NOVEMBER 20, 1952 NO. 7

POOR BUDGET POLICY . . .

The S.R.C. exhibited poor policy with regard to administration of student funds at its regular meeting last Thursday night. It is indeed unfortunate at any time when personalities enter an issue, and it was obvious this occurred at last week's meeting.

Last spring the S.R.C. ratified the University Investment Syndicate constitution in its entirety. At the time dissatisfaction was expressed at the article which limited student participation. It was explained that this had been inserted since the U.I.S. had no idea of how their experiment would work, and until such time as the reaction was known, they didn't wish to be swamped with applications for memberships and as a result have a number of students calling themselves U.I.S. members and actually not knowing what they were supposed to be doing. The council was reconciled when told that the U.I.S. wouldn't ask financial aid of the S.R.C. as long as this membership limiting clause existed. That was quite acceptable. Last week the U.I.S. proposed amendment to their constitution, and these were approved by the council. The limiting clause was thrown out, and membership opened to all those connected with the University, now and previously. The one remaining proviso is that all membership applications must be approved by two-thirds of the active members of the syndicate. This was interpreted by some council members as making U.I.S. a clique—obviously an unrealistic approach. Had someone been refused membership, then there would have been cause for complaint and reason for the syndicate being called a clique. It was pointed out by U.I.S. President, Bill Reddin, that no one had been barred from the group, and since this article of the constitution was in a sense, a luxury, he had been empowered to state that this part of the constitution could be deleted if its presence meant rejection of the U.I.S. budget.

Certain members of the council then seized on the active member definition as reason for rejecting the budget. According to the U.I.S. constitution a student, faculty member, or alumnus, may be an active member of the syndicate. This budget was to be used mainly for purchase of financial, stock and investment publications. Such faculty and alumnae as were members would merely be reading these publications, but in that way, they would be making use of student funds. This was vehemently objected to. No one but students should use student funds! However, it is rather unfortunate that such short memories exist. We must not forget that bursaries and scholarships which the faculty and Associated Alumnae have created for the aid of U.N.B. students. Why be underhanded in slapping the faculty and alumnae in the face! Simply tell them that we will make use of their gifts, but make it clear to them that they musn't touch Student Funds even if it is only to read some financial statements.

Further reason for rejecting the U.I.S. budget was given on the grounds that because some groups in this campus are self-supported the syndicate should do likewise. According to the S.R.C. constitution any group recognized by the S.R.C., can come to the Council for financial support. The U.I.S. did this and was turned down. Therefore the constitution of the S.R.C. has been rejected. Had there been objection made to certain items within the budget and a directive given, to have the items deleted, changed or otherwise corrected, and a statement made by the council that at such times as its suggestions have been carried out the budget could once again be presented for consideration, that procedure would have avoided much bad feeling. As it is now, there exists a group of students who have genuine cause to complain that they aren't receiving their share of the \$25.00 S.R.C. levy. In the future it might be well for the S.R.C. to tread lightly with regard to such matters.

Finally, your indulgence in a suggestion. It would be very wise, if the S.R.C. is going to continue to call for constitutions from groups that wish to be able to ask for S.R.C. financial support, that these constitutions receive more attention than they do now. It could be required of each group presenting a constitution of application that they provide sufficient copies to permit each council member to follow each word closely. At present, most of the mem-

CAMPUS CO-ORDINATOR'S CORNER

You will notice below that the Foresters' Monte Carlo has been cancelled. This was done because of a conflict with the House of David vs. U.N.B. basketball game here.

You may also notice that both the Residence Formal and the Cornell U. trip are scheduled for December 5. This matter came before the S.R.C., but it was decided that no action would be taken as the number of students who wished to participate in both events was too small.

The University Investment Syndicate has decided that in the future one of its meetings shall be devoted to business, stock reports, etc., with the alternate meeting consisting of a speaker and general discussion. All students are invited to the "speaker's" meeting.

The U.N.T.D. has moved its meeting night from Thursday to Tuesday because of S.R.C. conflicts.

If you like classical music be sure to attend the Sunday evening musicales at the Art Centre.

bers haven't the foggiest notion of what is being read to them because after having heard a few "hereafters", "thereafters", "here-withs" and so on, confusion reigns supreme.

Last week's exhibition was no credit to the S.R.C. It wouldn't be wise to permit such to occur again.

To the S.R.C.

I am a Canadian citizen, and as such I defend democratic government. Now, in Canada, several institutions which profess to be democratic have departed from their ideals and become oligarchies—rule by a small body. This is half way to dictatorship and communism. The S.R.C. is an example of this trend. What does S.R.C. stand for? It is the STUDENT REPRESENTATIVE COUNCIL in which the interests of the whole student body are furthered, or that is its intention. Actually, it does no such thing.

It is easy for the members of a faculty in this university to unite, nominate representatives and then see that 100% of that faculty vote for them. That is a fact; it happened in the recent Freshman elections. Is this a fair way to elect representatives who are supposed to be the representatives of a whole year in every faculty? Is it a democratic way? No! Most definitely no! The result is known by all—that particular faculty's interests are paramount in the minds of the delegation. Instead of representing the whole student body, they represent only one faculty.

There is but one way to overcome this fallacy, and that involves amendment of the S.R.C. constitution. This is the amendment we propose. Do not elect any random four representatives to the S.R.C., I have already indicated the result. Rather let each faculty elect one man from each year and let them act as representatives. Then each year would be equally represented as would each faculty, which is more important. You may argue that under that system Arts and Science would have a raw deal as they have only a four year course. Perhaps it would be a solution to elect two members from one year of Science and two members from one year of Arts; that would have to be worked out.

Come what may, I am convinced that the system I have outlined is preferable to the present one. It is too late to have any bearing on this year, I know, but next year, surely, something could be done to improve our present system. I end by asking you to consider my suggestion. Dispose of these petty thoughts of self and faculty and think of the interests of our fellow students and of university.

Yours truly,
—A U.N.B. Freshman.

Slabs and Edgings

By Murph & Hatch Friday night saw another successful Forestry social evening at the Reading Room. The forty some persons in attendance were treated to a couple of films through the courtesy of Byron W. Fieger. "Operation Budworm" and a film of Wildlife of James' Bay were shown.

WARNING—Hunters are warned that deer seen sitting on stumps wearing red hats and carrying rifles are dangerous and are liable to shoot back.

Bounty payments on animal pests is a controversial issue at any time. It is the contention of these columnists that bounties, especially on porcupines are uncalled for and are just a handy form of quick cash to many. Take the 1948, '49, and '50 porcupine bounty figures for N.B. for example. The number of porcupines presented for bounty payments during these three years were 37,425; 39,902 and 46,944 respectively. This shows an increase of nearly 10,000 in only two years. If we assume that all these snouts were legitimate, bounty payments do not seem to be depleting porcupine population very much.

On the other hand, if these snouts presented for bounty money are Maine, Quebec and Nova Scotia products as well as New Brunswick's, and include the expected five "snouts" per porcupine, the bounty money is again wasted. So, from two views, the bounty is of no help. In 1950, \$23,472 in bounties was paid on porcupines. Were the results worth the expense?

If the porcupines are a serious menace, would not a few professional trappers hired to make an extensive extermination with traps, poison and other devices produce better and cheaper results? Or, since these rodents can never be made extinct, why not tolerate them and save the money? Trigger happy persons will always shoot a great number for free and the damage done to accessible timber by the rest will probably be considerable less than feared.

(Continued on page 6)

C.O.T.C. On Parade

Saturday, November 15, marked the first field trip for C.O.T.C. At that time twenty members of the Canadian Officers Training Corps representing nearly every branch of the Canadian Army gathered at the Hut "Up the Hill". After the usual photo we embarked for camp Sussex as the guests of the 8th New Brunswick Hussars.

On arrival at the camp we found boys from the Mount Allison detachment, which also included the boys from St. Joseph's had arrived just minutes before. After the usual scramble after bed and bedding we all adjourned to the mess to renew old acquaintances and to make new ones. It was planned to have some films later in the evening on Korea, but these were delayed in the mail. This small setback meant nothing to the boys when they heard that there was a dance in the town. Of this dance only hazy accounts are available but it might be said U.N.B. enlivened the evening considerably. Sunday morning—early—very early—it was still dark out—a shout, half scream came from one of the rooms—one of U.N.B.'s Red Bombers was practicing blocking and the victim—a poor little mouse. Certain other members found the town of Sussex so bewildering that it took many hours to find "the way to go home".

With the dawn came the reason for the trip—a short course on Tank recognition—gunnery, and the high point of the day—a trip in the Tanks. Many of the boys saw the tanks up close for the first time others were glad to be able to show their knowledge of the giant steel fortresses. U.N.B.'s first year boys were much impressed as this was, for most of them, their first taste of Army life. There is still time to join C.O.T.C. If interested see the Resident Staff Officer at the C.O.T.C. Hut.

A sincere vote of thanks goes to Cpl. George and all the Officers and men of the Hussars for the hospitality and good time extended to us.

Σ Λ Β Ρ

There are a great many things which contribute to the overall state of mind of a male college student, but it is probably safe to say that the most outstanding of these coefficients are food, sleep and women. They have not necessarily been listed here in order of importance. Studies have been omitted as they assume importance only once a year. There has been a general feeling of dissatisfaction throughout the Residence since September, and no great amount of research was necessary to determine which of the aforementioned variables was the chief cause of this impression. Most members agree that sleep has been satisfactory, and women have been as satisfactory as could be hoped for, but meals in the Residence have been below par. With the aim of rectifying this situation, a house meeting was called last week and the following motion was presented by a certain literary member:

"Whereas the quality of food served in the Residence Dining Room since the beginning of the present academic year has been judged to be inferior by a majority of house members when considering the amount of board paid this year, and

Whereas no improvement has been noted since it was decided at a House meeting earlier this year to have Mrs. Neilson, the Residence Dietician, consult last year's menus with an aim towards serving the type of meals which the increased board would warrant,

Be it resolved that further recommendations be made to Mrs. Neilson in an attempt to rectify the present situation and also that an investigation be carried out to determine the cause for the existence of the present inferior meals."

This motion was unanimously carried, receiving special support from the undernourished Residence Ramblers who expended so many precious calories climbing to their rooms that they suffered an ignominious basketball defeat recently at the hands of the Residence Scrappers who are all first floor men. We hope that this state of affairs will be improved in the near future.

Another cause of irritation to House Members is the rumour currently making the rounds that the Residence will be used for a short period during the Christmas as a rooming house for those attending the S.C.M. conference on the campus at that time. This would necessitate the removal of all personal belongings from the rooms during the vacation period, and thus would greatly inconvenience the permanent residents. In fact, a number of the residents have threatened to leave the house should the rumour be confirmed.

Two weeks ago we had the effrontery to insult a certain Scottish lad whom we described as a sort of Black Murdoch wielding a broom instead of the conventional claymore. However, an apology is due to this bairn. Evidence has been forwarded by him which shows beyond the shadow of a doubt that he combines the sprakling wit of Sir Harry Lauder with the poetic fluency of Burns.

Here is the evidence:
There was a lazy young blither
Who fancied himself a writer
If he came out of his room
And pushed on the broom
To win a degree he MIGHTA
—Hielan Laddie.

Our man of the week award goes to John Ronan for his excellent portrayal of the great Gandhi at supper on Friday. Assuming his position at the table with a plate before him having nothing upon it except the insignia of our alma mater, he began stamping his feet rhythmically on the floor in some obscure Hindu fasting ritual known only to a few intellectually elevated artists who had read the first chapter of Rudyard Kipling's "Kim".

Margot Roach Receives Scholarship

Miss Margot Roach, a sophomore science student from Moncton, has been awarded the Dr. C.C. Jones Memorial Scholarship for 1952 by the U.N.B. Associated Alumni. This was announced last week in Moncton at a meeting of the Moncton U.N.B. Club, by Jack Murray, alumni secretary.

Miss Roach, a student with an outstanding academic record, is a daughter of the late Dr. R. D. Roach and Mrs. Roach. She lives at the Maggie Jean Chestnut House.

The Jones Scholarship, valued at \$250, is given to a sophomore student on the basis of standing attained in the freshman year, particularly in freshman mathematics. Dr. Jones was president and chancellor of the university from 1936 to 1940.

Dr. Trueman Elected Chairman Dr. A. W. Trueman, president of the University of New Brunswick, was elected chairman of the Central Advisory Committee on Education in the Atlantic Provinces, which concluded its annual conference at the university here last week. Dr. Trueman, chosen at the final session to succeed retiring chairman Dr. Watson Kirkconnell, of Acadia University, Wolfville, N.S., will select a secretary to help administer the group. Next year's conference will be held at St. Francis Xavier University, Antigonish, N.S. Delegates from most of the colleges and universities in the Maritimes, and representatives of provincial departments of education, attended the one-day conference. Meetings were held in the Beaverbrook Recreational Reading Room of the Bonar Law-Bennett Library, on the U.N.B. campus. Edith G. MacLeod, registrar, and Prof. R. J. Love, head of the department of education, were U.N.B.'s official representatives on the committee. In addition, other U.N.B. professors and the deans of the faculties sat in on some of the sessions. The conference opened at 9:30 last Thursday, with an address of welcome being given by Dr. Trueman. The morning was taken up with a report on the International Conference on Education, held last July in Geneva, Switzerland, given by Dr. L. W. Shaw, deputy-minister of education for Prince Edward Island, and a round table discussion on Federal aid to education. The afternoon discussions were held on the function of an university in an industrial society, given by Dr. Kirkconnell, and on the articulation between the secondary school and the university. To conclude the conference, delegates were guests of U.N.B. at a buffet supper.

VARSITY PUCKSTERS SUFFER FIRST DEFEAT

Power Commission Takes 6-3 Win Over the Red and Black on Saturday

The New Brunswick Electric Power Commission squad turned giant killers on Saturday night in the York Arena as they trimmed the favoured University of New Brunswick team 6-3 in a hard fought 60 minutes. The Power Commission victory, coupled with the 7-3 win of the Army over the Merchants moved the Army and Varsity squads into a first place tie, each team having won two and lost one. The Merchants' loss moved them into a tie with the Power Commission, both teams having won one and lost two. The play in the course of the two games proved that within another week or so, a good brand of hockey will be exhibited by all teams.

In the second game the Power Commission team which took to the ice bore no resemblance to the squad which lost 9-2 to the Merchants last week. Acting like league leaders rather than the cellar dwellers they literally skated the College team into the ice until half way through the third period, when they began to tire.

One goal was scored in the first period at the eleven minute mark as Ketch scored from Gillies. In the second period, Ketch scored his second goal and gave the Power Commission a 2-0 lead on a pass from Acorn. Murphy assisted by Acorn made it 3-0. Doug Lyons of the U.N.B. squad had the best scoring chance of the night as he skated across the goal mouth, slapped at a pass and missed the open side of the net. In the third period, Lyons of the N.B.E.P.C. scored two goals to move the Power men ahead 5-0. Haining closed out scoring for the Power Commission, his goal coming within 25 seconds of Lyons' second marker.

U.N.B. finally hit the score column at the 9:28 mark of the third period as a three-man break caught the Power Commission up the ice. Ketch put the puck in the net on passes from Bruce Watt and Doug Lyons.

At 12:12 Sample made the score read: N.B.E.P.C. 6; U.N.B. 2, as his slap shot from the blue line bounced through a mass of players into the net. A couple of minutes later on a goal mouth scramble, Capson fell on the puck in the goal crease and paved the way for the third U.N.B. goal. Cam Manson was awarded a penalty shot and he planted the puck in the net on a waist-high shot from 15 feet out. This closed out scoring for the game with N.B.E.P.C. ahead 6-3.

At the 18:40 mark Capson boarded U.N.B.'s Ketch and a fight ensued. Both players were sent to the sin bin, Capson for boarding, Ketch for fighting. Altogether ten penalties were meted out, seven of them going to the Power Commission.

The Varsity squad were continually caught out of position and for the most part the lines didn't seem to be operating too smoothly.

Next week the Merchants will meet U.N.B. and the Army will tackle the Power Commission.

Lineups:
N.B.E.P.C.—Goal, Worthing; Defence, R. Lynch, P. Lynch, Clark; Lyons; Forwards, Richardson, Boyle, Murphy, Capson, Clowater, Ketch, Wilson, Acorn, Blizzard, Gillies.
U.N.B.—Goal, Griffiths; Defence, Baker, Hallett, Hewett, Sample, Watt; Forwards, Wilson, Manson, Stewart, Ward, Robinson, Roy, Ketch, Lyons, Cross.

SCORING:
N.B.E.P.C., 6 U.N.B., 3

1st Period
1. N.B.E.P.C., 11:00—Ketch (Gillies). Penalties: Richardson, Ketch.
2nd Period
2. N.B.E.P.C., 9:30—Ketch (Acorn) 3. N.B.E.P.C., 16:00—Murphy (Acorn) Penalties, Ward

3rd Period
4. N.B.E.P.C., 1:38—Lyons; 5. N.B.E.P.C., 6:55—Lyons (Acorn); 6. N.B.E.P.C., 7:20—Haining; 7. U.N.B., 9:28—Ketch (Watt, Lyons); 8. U.N.B., 12:12—Sample; 9. U.N.B., 14:10—Manson (pen. shot). Penalties: Capson (2), Ketch (2), Watt, Acorn (10 min. misconduct); Smith (10 min. misconduct).

SHOTS ON GOAL:
Griffiths (U.N.B.) 6 3 10 19
Worthing (N.B.E.P.C.) 6 9 15 30

OFFICIALS: Smith and Brown.

Three Teams Undefeated In Intramural Basketball

Play continued in the trial round of the INTRAMURAL Basketball League on Wednesday evening, November 12, at the Gym, with two games being run off in each section. The "A" Section games saw the Arts & Science team score their second straight victory with an 80-32 win over the Tarfu, while the Falcons edged the Residence Scrappers 42-39 in a hard fought contest. In "B" Section, the Newman Club bowed to the undefeated Foresters 41-32, and the Chemists whipped the Alumni 47-32.

Leading 42-12 at half time, the Arts & Science team coasted to an easy victory over Tarfu. Don Brannen ran up the amazing total of 38 points, followed, not so closely, by Bill Thorpe with 18 and Jim Crocket with 13.

The Scrappers-Falcons game was more closely fought. The Falcons led 20-11 at the half, and just managed to withstand a sustained second half drive by the Residence team. Dave Gammon led the Falcons with 16 points, while John Ronan was high man for the Scrappers with 14.

The Chemists-Alumni game opened slowly and the first quarter score was 6-0 for the Chemists. The second quarter produced more scoring, and the Mem. Hall boys increased their lead to 23-14, and then coasted the rest of the way to their 47-32 win. Alumnus Doug Rogers led the individual scorers with 24 points, followed closely by John Little of the winners, who potted 21.

The Intermediate Foresters had little trouble in beating the Newman Club 41-32. "Beanie" Stairs and Bob Clouston did most of the winners' scoring, with 20 and 14 points respectively. The Newman Club scoring was well divided with no player getting more than six points.

Hockey Team To Newfoundland

The U.N.B. Varsity hockey team may be travelling to Newfoundland in the near future for an exhibition double-header with the Grand Falls, Nfld. team.

A letter was received from the Grand Falls team, which is coached by former professional Wes "Bucko" Trainor, asking U.N.B. if they could come to Newfoundland at the expense of the Grand Falls team. Varsity has received the approval of the S.R.C. and have written the Newfoundland team.

U.N.B. officials are awaiting reply from Grand Falls before anything definite can be arranged. The Newfoundland proposal was to fly from Fredericton to Gander, and to travel by bus to Grand Falls. Two games will be played on successive nights, probably Friday and Saturday. The U.N.B. team would then return on Sunday.

This Week's Candlepin Schedule

Thursday, November 20:
7:00 Newman Club vs Transits
Monday, November 24:
7:00 Senior Foresters vs Faculty
9:00 Residence vs Transits
Thursday, November 27:
7:00 Frosh Science vs Newman Club.

HOUSE OF DAVID TAKES EXHIBITION HOOP WIN

The House of David basketball team handed the U.N.B. Varsity their second straight defeat of the young season last Monday evening at the Lady Beaverbrook Gymnasium as they romped to an easy 67-34 win over the collegians.

The bearded men of the House put on a good exhibition of basketball and a not-so-good exhibition of clowning before a large crowd of spectators. Led once again by the veteran barnstormer Bobby Roth, billed as basketball's number one clown, the Davids controlled the play throughout and scored at will.

The House started swiftly and took command early in the game. From the opening whistle until the final siren it was the Davids in control. Only at times did the U.N.B. forwards break the man-to-man defence for shots on the basket, and then the Hillmen were unable to get any rebounds, because of the definite height advantage. The beards also had a wide edge in rebounding the U.N.B. basket and turned many muffed shots into field goals.

Despite the overall mediocrity and staleness of their gags, the House of David at times put on a fine display of tricky basketball. They showed Fredericton fans that they could handle the ball and worked some smooth plays to the bewilderment of their opponents and the delight of the crowd.

The visitors led 14-2 at quarter time, 33-13 at the half, and 45-22 after three periods of play.

U.N.B. gave a performance which was improved over their Friday night loss to the Saint John Atlantics, and the general feeling among the spectators was that the Hillmen should have a good intercollegiate contender after a few more games. However, that remains to be seen.

Eric Garland played a steady game for U.N.B., scoring nine points and looking more like a basketball player than a track star let loose on the courts. Burt Simpson, who scored six, hustled all the way and gave a steady performance despite the handicap of a badly burned hand, which kept him out of the Friday night contest. Guard Jim Burley was Varsity's best man under the basket, hauling down his share of rebounds. Tom Gorman, too, was improved considerably from Friday night at the guard position.

Coach Doug. Rogers used 14 men in the exhibition, which number will probably be cut to a more convenient size before U.N.B.'s next game.

The House of David's lowest scorer had as many points as U.N.B.'s leading point getter, Eric Garland, both men having nine. The beards' scoring was well spread, with Moose Gordon leading the parade with 18.

Lineups:
House of David—Daniel "Boone" McDaniel, 11; Norm Cox, 13; Bobby Roth, 16; Moose Gordon, 18; Ross Tebeck, 9;—total 67.
U.N.B.—Abernathy, 3; Bowlen, 2; Bracken; Burley, 3; Ellison, 2; Gorman, 2; Prentice; Stewart; Simpson, 6; Cheeseman; Ronan, 4; Ower, 1; Garland, 9; O'Blenis, 2;—total 34.
Referee: Bill Ritchie.

Foresters Win Candlepin Contest

Last Thursday night at the Gym alleys the Senior Foresters took a 3-1 win over the Frosh Science team in a regular game of the Men's Candlepin League. The axemen took the first two strings and the total pinfall, while the freshmen won their point by winning the third string.

Pitre of the winners took three honours with 265, and tied with teammate Golding for the high single with 93.

Bombers at Chatham Saturday

The University of New Brunswick Red Bombers are ready to defend their New Brunswick Canadian Football Union championship against this season's league winners, St. Thomas University of Chatham. The two-game, total-point series for the provincial title will open Saturday at College Field, with the second game set for Chatham the following weekend.

The Tommies have thus far enjoyed an unbeaten, un-tied season. They beat U.N.B. 19-5 here early in the fall, and then whitewashed them 27-0 at Chatham. These were the only games which the Bombers lost. The Bill Callan coached twelve dropped Moncton Tri-Service twice and won one and tied one in two games with the Moncton Trojans. U.N.B. were not sure of their playoff spot until last Sunday. In the final league game of the season, the Trojans were playing the Tommies in the Miramichi town. But St. Thomas took a convincing 16-0 win over the Hub City gridders. Thus U.N.B. won second place from the Trojans by a slim two points.

St. Thomas is of course favoured to take the opening game and the title. With their prize package of Pat Barry, Joey George, and Fred O'Brien, and an otherwise unspectacular but well-balanced team, they will be well prepared to realize their hopes of getting further revenge against the Red Bombers, who were always their superiors in previous years. The Tommies will probably rely mostly on their very effective aerial attack through Barry's arm, reverting occasionally to the ground attack sparked by O'Brien and George.

Coach Bill Callan, though, has a few tricks up his sleeve. In U.N.B.'s last game, on November 8, against the Trojans, the Bombers worked some new plays which have not been used against St. Thomas, and this surprise element will probably be made more apparent this Saturday. Two good men will also return to the backfield. Willie Schure, out with an injured arm, is expected to be back this weekend and his line-plunging and educated toe will be definite assets. Blockin' back Guy Doiron, sidelined with a broken hand since the first game of the season, will be back on the half line, giving U.N.B. the strongest backfield they have been able to use since the start of the schedule.

Intramural Hockey Opening Postponed

Last Sunday's scheduled opening games of the Intramural Hockey League had to be cancelled because of a misunderstanding between the Physical Education Department and the management of the York Arena as to ice rink arrangements. It is planned now to start this season's hockey schedule this Sunday, November 23, with the same schedule, namely:

- 1.00 Engineers 34's vs. Residence Majors
- 2.00 Forestry 12's vs. Senior Civils
- 3.00 Engineers 12's vs. Artsmen
- 4.00 Science vs. Axemen

M.I.A.U. Meeting Draws Up Schedules

A meeting of the Maritime Intercollegiate Athletic Union was held recently in Sackville, and the outcome of the meeting was the drawing up of schedules for intercollegiate hockey and basketball.

It was decided to continue with the same setup that was followed last year. Teams representing U.N.B., Mount Allison, St. Thomas, and St. Dunstan's will participate in a basketball league. The teams will play a home-and-home round-robin with the winner of the league being declared the N.B.-P.E.I. champions. The same universities will be represented in the hockey playdowns, which will consist of two rounds of elimination play.

Following are the schedules:

N.B.-P.E.I. Intercollegiate Basketball Schedule 1952-53

| Month | Date | Game |
|----------|------|---|
| January | 30 | U.N.B. at Mount Allison |
| | 31 | U.N.B. at St. Dunstan's U. St. Thomas College at Mount Allison |
| February | 6 | S.T.C. at U.N.B. S.D.U. at Mt. A. |
| | 13 | Mt. A. at U.N.B. |
| | 14 | S.T.C. at S.D.U. |
| | 20 | U.N.B. at S.T.C. |
| | 21 | Mt. A. at S.D.U. |
| | 27 | S.D.U. at U.N.B. S.D.U. at U.N.B. Mt. A. at S.T.C. |
| March | 7 | M.I.A.U. FINAL — First game by this date at N.B.-P.E.I. winner. |
| | 14 | M.I.A.U. FINAL — Second game by this date at N.S. winner. |

NOTE.—St. Thomas will endeavour to play home games in a regulation gymnasium.

N.B.-P.E.I. Intercollegiate Hockey Schedule 1952-53

| Month | Date | Game |
|----------------|-------|--|
| February | 7 | Mount Allison at St. Dunstan's University |
| | 10 | U.N.B. at St. Thomas University |
| | 14 | S.T.C. at U.N.B. S.D.U. at Mt. A. |
| by 21 by 28 | | M.T.A.-S.D.U. winner at U.N.B.-S.T.C. winner U.N.B.-S.T.C. winner at M.T.A.-S.D.U. winner |
| | March | 7 |
| 14 | | M.I.A.U. FINAL — Second game by this date at N.S. winner. |

NOTE.—St. Thomas University can arrange to play their home games in Newcastle with the exception of Friday and Saturday.

Varsity Loses Hoop Opener to St. John

The Saint John Atlantics basketball team showed University students here that they will be strong contenders for the Dominion Intermediate Championship this year as they humbled U.N.B. Varsity 66-28 last Friday evening in the Red and Black opening game at the Lady Beaverbrook Gymnasium.

The Atlantics used a man to man defence that the U.N.B. squad did not solve until late in the third quarter and stymied them throughout the game with a death-like grip under the backboards. U.N.B. scored the first point of the game at 2:07 but from there on it was strictly a Saint John show. Ed Legget, one of the stars of the game, ran up eight points in the first ten minutes. At quarter time they led 17-8 and through the efforts of Frank Burns they were able to take a lead of 30-9 at half-time.

U.N.B. again opened the scoring at the start of the second half and they kept Saint John scoreless until 5:03 of the third quarter. Jim Burley of U.N.B. emerged as hero of this stanza with his tremendous effort under the backboards of both teams but this was not enough to turn the tide in U.N.B.'s favor. The score at the end of the period was 45-21.

The Atlantics then took control of the game and romped through the last quarter scoring 21 points with Goodwin leading the parade with six, closely followed by Shippee who was good for five. The U.N.B. team was held to seven points on shots by Ellison and Garland. Final score was 66-28.

The stars for Saint John were Legget, Kingston and Burns, while Burley and Bowlen were outstanding for the U.N.B. team.

Lineups:

Atlantics:—Martin 2, Legget 10, McClutcheon, Galley 4, Goodwin 8, Shippee 8, Burns 9, Fry 5, Kingston 9, Hansen, Melvin 6—total 66.

U.N.B.:—Garland 5, Ronan 5, Ellison 7, Bowlen 3, Cheeseman, Abernathy 3, O'Brien 2, Gorman, Bracken, Prentice, Burley 3, Stewart, Ower—total 28.

Slabs and Edgings—continued

We'd like to take this opportunity to thank those who have presented material for our consideration. Any other material of potential interest to our dear readers will receive our due consideration if left in any campus mailbox and addressed to Slabs and Edgings.

Artsmen's Corner—Artsmen's Corner this week concerns itself with an artsmen and a woman in a car parked on the woodlot.

She: (sighing) You know, you remind me of Don Juan.

Artsmen: (Gasping) Don Juan! What do you know about Don Juan? He's been dead for years.

She: (wheezing) I know.

Several undergraduate foresters were seen taking advantage of an invitation to attend meetings of the Canadian Institute of Forestry held last week in the Beaverbrook Hotel. These meetings dealt specifically with the Spruce Budworm in all phases including the spraying in N.B. We gather, from what several speakers said, that the Budworm operation in this province was a success. We don't know—we weren't there. We feel we must reserve judgement until this year's spraying is concluded or even later before we go along with this "success" theme. However, it was gratifying to hear that "success" was within the realm of possibility.

We raise a question at this time for the careful consideration of all members of the Forestry Association. What benefit do we derive from our being sanctioned by the S.R.C.? Article 9, Section 3, Paragraph (a) of the S. R. C. Constitution contains the following: "On, or before, the second Friday of October for the fall term . . . the Finance Committee of the S.R.C. shall present to the S.R.C. its budget for the term. The proposed budget shall contain estimates from ALL organizations created under the S.R.C. and wishing to draw on the general fund."

We quote this merely to show that any organization can draw on the general fund. However, from the recent action taken by the S.R.C. it would appear that it would be useless for the Forestry Association, or any other Association, for that matter, to present a budget. This being the case, we ask our question . . . "What benefit do we receive other than the feeling of smugness in knowing that we are "recognized" by that illustrious body?"

Forestry water safety classes started off last week with a very small attendance. Freshman and Sophomore Foresters should note that attendance at these classes is essential for them. All Foresters should attend the swimming sessions before Xmas in order to get in on the canoe-handling and general water safety after Christmas.

Paper can be made from Bagasse.

Joan Goodfellow, Editor of the 1953 Year Book, has asked that all seniors have their graduate photos taken as soon as possible.

SCOVIL'S

Queen at Carleton

As Seen from the Bleachers

By the Spectator

With the fall sporting scene rapidly drawing to a close, the soccer being completed, and the football in the formality stage, it is time to turn our attention to those activities which will carry the Red and Black banners in the months ahead, namely our two major winter sports, basketball and hockey. But before we turn our viewing in these directions, we would like to convey a parting word to the participants who have, or nearly have, packed up their gear for another season.

To the soccer team we extend our congratulations in bringing home their fourth consecutive Maritime Intercollegiate title. The fact that they had only Mt. A. to contend with takes no glamour from a job well done. Since its initiation on this campus, the game of soccer has annually taken a back seat to one or another form of football, but just as annually it has arisen as U.N.B.'s most consistent championship club. This corner, like the greater majority of the student body, has tended to overlook this fall activity in favour of the more colorful and popular Canadian football, but the realization that U.N.B. has never had a losing soccer team is a fact which simply can't be overlooked. With this unmatched record fresh in our minds, we bid you adieu for another season and leave as our parting word, not only our belated congrats, but also the hope that in future years your extremely deserving efforts will become more appreciated by the sports-minded of this campus.

To the Canadian footballers we have only this to say; you have two games remaining in which to bring the N.B. Senior Crown back to the "Hilltop", and while our conservative nature prevents us from building up any great hopes, we nevertheless wish you the best of luck in the coming Tommie series. Your game rose to popularity on this campus via its winning ways at a time when the Rugby team was being taken for repeated losses, but keep in mind the fact that there are far greater aspects to sport than simply winning. If in these final games you show your all in an honest effort, retain your sportsmanship under all circumstances, and perform in a manner worthy of the colours you wear, then you will have done all expected of you and remain a credit to your University, be it in victory or defeat.

Now for a quick glance into the realms of hockey and basketball and a brief preview of what we can expect from each.

The hockey squad, again under the direction of Pete Kelly, has been loosening up for the past couple of weeks and is at present entered in the local Industrial League. Mixing a handful of veterans with an almost equal number of rookies, they have salvaged a pair of wins as against a single loss and have shown signs of fitting quite well. While the calibre of the local league might be up for question, there is a great possibility that if a few of the rooks can step in and fill the weak spots the ice laurels of U.N.B. might be in for a revival.

The basketball scene has probably undergone the greatest change of any single sporting activity on the entire campus. So great have been these changes that it is practically impossible to pick out any resemblance between this year's edition and the one which bowed out to St. F. X. just one season ago. Right from the top, where Doug Rogers has taken over the guiding reins, down through the entire team, which consists of only two hold-overs, there has been a complete housecleaning. In order to decide the fate of this season's squad one must find the answers to two questions: Has Rogers arrived too late? How rapidly can first-year men rise to Varsity status? For the past three or four years U.N.B. has had adequate material but lacked a capable mentor and moulder; this season they have come up with the leader but appear a bit shy of material. In their only encounter to date they dropped a rather one-sided contest to the Saint John Atlantics, but such could hardly be termed a fair indication of what is to come. In losing to the Atlantics, probably the best the Province has to offer, they did a bit better than most of their followers expected and showed no fear of the superior opposition. In fact, considering the earliness of the season and the realization that only two of their number had previous Varsity experience, they did right well. Sure, they made mistakes, but most of them

N.F.C.U.S. ANNOUNCES PROGRAM — continued from page 1

E.—Rail Fare Reductions

The Conference was aware that already by 1952 N.F.C.U.S. had obtained substantial concessions in rail fares for students travelling to or from universities and colleges in the fall, Christmas, Easter and spring, through the co-operation of the Canadian Passenger Association. It was generally felt, however, that these privileges should be extended at all times during the academic year.

F.—C.U.D.A. Structure and Relationship to N.F.C.U.S.

Relationship between the N.F.C.U.S. and its debating, self-sustained subsidiary, the Canadian University Debating Association, despite lengthy discussions in Commission, remained to be clarified. The Association is composed of four member debating leagues, comprising twenty-eight participating universities and colleges across Canada; this combination, larger than the actual N.F.C.U.S. membership itself, coupled with the fact that the post of General Secretary of C.U.D.A. was now held concurrently by the Secretary-Treasurer of N.F.C.U.S., gave rise to a number of administrative and financial problems which should be clearly established. The meeting unanimously resolved:

"That the National Executive investigate the structure of C.U.D.A. and its relationship to N.F.C.U.S. and be required to submit to the next Annual Conference a complete report."

can be attributed to lack of practice and experience, and with the exception of a couple of would-be Fancy Dans in white sneakers, all showed fleeting signs of better-than-average possibilities. If there is still the material here for Rogers to work with, and to a limited extent it appears that there is, and if the boys don't take too long in coming round, then they should make their presence felt, at least in the intercollegiate ranks, before the season grows too old. They won't have a great team, but they will be in there fighting . . . at least that's the way it appears to the Spectator . . .

LEARN ABOUT**ALUMINUM and ITS ALLOYS**

Send for this helpful textbook . . . We have on hand a limited supply of our "Handbook of Aluminum Alloys", a complete textbook on aluminum, its alloys and properties. Chapters cover: Alloys; Ingot and Pig; Sheet and Plate; Foil; Tubing; Extrusions; Wire; Rod and Bar; Forgings Castings—152 pages, convenient reference tables with "lie-flat" binding. Regarded all over the world as an authoritative treatise on Aluminum Alloys. Available to students of Canadian universities at 50 cents post paid. Postal note or money order must accompany order.

**MAKE METEOROLOGY YOUR CAREER
IF IN 1953 YOU HAVE**

An HONOUR DEGREE in MATHEMATICS AND PHYSICS; APPLIED MATHEMATICS; or ENGINEERING PHYSICS:

You can earn \$255 a month while studying for your Master's Degree in Meteorology, then \$295 to \$435 as a Professional Meteorologist in Forecasting (Airways, Public, Industry) Research, or Climatology.

OR

A BACHELOR DEGREE in ARTS; SCIENCE, or ENGINEERING (with credits in Physics and Mathematics):

You can earn \$255 to \$350 a month as a Professional Meteorologist at military or aviation forecast offices in Canada.

You have opportunities for an overseas posting on special meteorological assignments.

Details and application forms at your nearest Civil Service Commission Office or Placement Bureau of your University.
