THE LATE MAYOR of Philadelphia has cer-
 tified under seal of the city to the character of sev-
 eral Divines, Physicians, and gentlemen of high
 standing who declare positively under their own
 hands (all of which may be seen at the place men-
 tioned below) that the Balm of Columbia is not only
 certain preservative, but positively a restorative
 to the human hair; also a cure for Dandruff. Who
 will dispute or who go bald?

HEADACHE,
SICK OR NERVOUS.

THE extraordinary reputation that Dr. Spohn's
 remedy for this distressing complaint is
 every day gaining is certainly a matter of much im-
 portance. That so much suffering should have
 been endured for ages without any discovery of an effec-
 tive preventive, or cure, is truly a subject of much
 regret, but Dr. S. now assures the public that such
 a remedy has been invented as will convince the
 incredulous.—The principles upon which it
 is simple and plain. It is an admitted fact
 in this complaint, whether Sick Headache, or
 nervous Headache, arises primarily from the Stomach—
 those who think they have the Nervous
 Headache may rest assured that this organ, the
 stomach, is the first cause, that the system has
 been vitiated or debilitated, through the stomach,
 that only through the same channel must they
 expect a restoration of the nature and healthy
 actions of the system. This object, Dr. Spohn's
 remedy is eminently calculated to attain. The
 effect of this position cannot be controverted, and
 sooner suffers with the headache become
 vindicated of it, the sooner will their sufferings
 in restoration of health.—Dr. Spohn's genuine
 professional reputation on this fact.—The re-
 medy may be had of apothecaries generally
 throughout the United States.

The following article is warranted to cure
PILES, RHEUMATISM, all SORES, &c.
 or no pay taken for it.

THE PHYSICIANS AND PATIENTS.
 The Blind Piles, said to be incurable by
 external applications—Solomon Hays warrants the
 contrary. His Liniment will cure Blind Piles
 Facts more stubborn than theories. He solicits
 all respectable Physicians to try it upon their pa-
 tients. It will do them no harm, and it is known
 that every Physician who has had the honesty to
 "make the trial, has readily admitted that it has
 succeeded in every case they have known. Then
 why not use it? It is the receipt of one of their
 most respectable members, now deceased. Why
 refuse to use it? Because it is sold as a proprie-
 tary medicine? Is this a sufficient excuse for suf-
 fering their honest patients to linger in distress?
 We think not. Physicians shall be convinced that
 there is no humbug or quackery about this article.
 —Why then not alleviate human suffering? If
 they won't try it before, let them after all other
 prescriptions fail. Physicians are respectfully re-
 quested to try it themselves and patients to justice to
 use this article. It shall be taken from the bottles,
 and done up as their prescription, if they desire.
SOLOMON HAYS.

FILES,—DROPSY,
SWELLINGS, ALL SORES,
RESOLUTORY.
 It is absolutely asserted, on the most positive
 proof, that the above complaints are arrested and
 cured by the timely use of Hays' Liniment. It is
 impossible to find room in this paper to present
 those proofs which are conclusive and convincing.
 They may be seen at length where it is sold.
GENERAL DUFF GREEN.
 So well known as Editor of the late Washington
 Telegraph, is referred to for the truth of the fol-
 lowing:—
 General Green a few days since asserted in a
 public case, that he had used Hays' Liniment for
 the Piles, and that the effect was very astonishing,
 and that he felt it his duty to make known as far
 as in his power, to his suffering fellow men that
 such an extraordinary article was in existence—
 He said he would cheerfully lend his name, and aid
 in extending its usefulness. This is but one of
 many safely say hundreds who have given like tes-
 timony.

SOLOMON HAYS.
WONDERFUL!!
 An Astonishing Fact—Hays' Liniment has now
 been used in some thousand cases, and no failure
 can be found. It will cure every and all cases of
 Piles. No charge without such result.—Apply at

CATION—None can be genuine without the
 written signature of Constock & Co.

LOOK OUT FOR IMPOSITION.
 A base attempt has been made to imitate
 Hays' Liniment, and infringe upon the copy and
 other rights of the proprietors. Never buy Hays'
 Liniment, unless it has a splendid engraved wrap-
 per, and the specific, and written signature of
 Constock & Co., all others must be impositions.
 Any persons vending any other article, by the
 name of Hays' Liniment, either by wholesale or
 retail, will be prosecuted for violation of our cop-
 yright. The only Mr. Hays may be found
 copied in our inside wrapper, swearing that no
 other person knows any of the component or es-
 sential parts of this Liniment—and that he will not
 reveal the secret for twenty years.

Portrait.
A CHAMBER SCENE.
 She rose from her troubled sleep,
 And put aside her wet brown hair,
 As Love's first whisper, breathed a prayer!
 Her snow-white hands together pressed—
 "Love thus eyes sheltered in his bed—
 The inked lines on her breast
 Oh! swelling with the charms of child!
 Ah! soon her long and flowing dress
 Besigned a bare and slender foot,
 Whose fall upon the curtid drew,
 Like a snow white flake, so soft and pure?
 And there, from slumber soft and warm,
 Like a young spirit fresh from heaven,
 She bowed her light and graceful form,
 And humbly prayed to be forgiven.
 Oh God! if souls unsoiled as these
 Need daily mercy at thy throne—
 If she, upon her loaded knees,
 Our love and our purest one—
 She with a face so clear and bright,
 We deem her some stray child of light—
 If she, with those soft eyes in tears,
 Day after day, in her first years,
 Most angel and pray for grace from Heaven,
 What far, far deeper need have we?
 How hardly, if she win not heaven,
 Will our wild errors be forgiven?"

MISCELLANEOUS.
 There were, and I believe still are, two law-
 yers in partnership in New York, with the
 peculiarly happy names of Catchem and
 Cheetum. People laughed at seeing these two
 names in juxtaposition over the door; so the
 lawyers thought it advisable to separate them
 by the insertion of their Christian names. Mr.
 Catchem's Christian name was Isaac, Mr.
 Cheetum's Uriah. A new board was ordered,
 but when sent to the painter it was found to be
 too short to admit the Christian names at
 full length. The painter, therefore, put only
 the initials before the surnames, which made
 the matter still worse than before, for there
 now appeared, "I. Catchem and U. Cheetum."

ADVERTISING WIVES.—This ridiculous prac-
 tice, originating among the vulgar, in a total
 misapprehension of the social compact, and
 inability to appreciate the rational enjoy-
 ments of association between the sexes, is
 carried to a length which is totally un-
 desirable. Persons who have voluntarily entered
 into matrimonial bonds, can have no right to
 inflict their private griefs or troubles upon the
 public. We have seen several specimens
 of wife-advertising, and husband-advertising,
 but we think the following "beats all nature,"
 in the way of rebutter and rejoinder. It is cut
 from the Jeffersonian (La.) Journal. The
 elegant "explanations" of the gentle
 Mrs. Flood are a caution to all Hoosiers.

My WIFE, Nancy Flood, has left me with-
 out cause or provocation. I am determined
 to pay no debts of her contracting. She is a
 trifling, good-for-nothing jade, "any way you
 can fix it." I warn all "darkies" against
 harboring, feeding, or running away with her,
 under penalty of having their prepers blackened
 and their noses smashed until they are as flat as
 trenchers.

JESSE M. FLOOD.

VERY CLEAR OF IT!—Jesse M. Flood, a
 fellow who calls me his wife, has wickedly
 showed me the bottom of his foot, and not sat-
 isfied with running away between supper and
 breakfast, the slab sided lantern-jawed rascal
 has advertised me for a "jude!" What he
 says about me is as false as he is trifling. He
 has "cleared the kitchen," leaving me his
 children to feed without a cent of money. I
 made him a good wife, but he is a sour, ill-
 natured, reel-footed, and bandy-legged scamp.
 He can't transmute a particle of syllogis-
 tical science, nor can he fumutate the least
 fenno-convosiveness from the vulgarstomial
 mind of an idioticsticated wife. I caution all
 transfulmatorial girls from having anything
 to do with him, as he has a white liver. Hop-
 ing that he will continue to "measure" dirt,
 and never show his hatchet face in these parts
 again, I remain,

THE QUEBEC TRANSCRIPT.

THE TRANSCRIPT.

QUEBEC, WEDNESDAY, 23rd OCT. 1839

The American mail, with New-York papers of Thursday, which was due yesterday, did not arrive until this morning; some of the papers arrived by steamer yesterday. We find that the Union has been visited with another extensive conflagration, a few particulars of which we subjoin, together with the report of the money market.

The amount of specie that will go out in the Liverpool continues to be a matter of speculation, and the guesses vary in their estimates from one million to \$1,000,000.

The packet ship United States, which sailed yesterday for Liverpool, took out £11,000 of specie.

Wall Street is very quiet this morning. Stocks, it will be seen, fell a little. The banks so far have not had much demand for bills on England—not so much as was expected. They draw at 100, but of course draw by necessity, and wish to sell as few bills as possible. A large amount of bills is required to be sent, but it is supposed that the remittances will be quite short. Importing houses have an abundance of paper, but in the present position of the money market, it is impossible to turn this paper into cash. The banks discount nothing for the importers, nor will they until after the steamer sails, if they will then.

In Providence, at a meeting held on Tuesday, it was agreed to suspend specie payments, fourteen banks voting in favor of the measure; four against, and two divided.

The Boston Banks we are assured, are determined to continue specie payment. Their resolution bears hard on the merchants, as it does there.

Thursday, P. M.—Stocks are down to-day. North American Trust, Harlem, and some other banks have fallen. U. S. Bank advanced a little. The following sales of stock took place on the 17th Oct.:

U. S. Bank:—50 shares, (20 days) 83; 107 do. 83; 100 do. (23 days) 82; 10 do. 82; 50 do. 81; 100 do. (3 days) 80; 100 do next week, 78.

It is said that the United States Bank has been sustaining its own stock in our market.

We understand that the accredited agent of Baring Brothers, now in this city, has offered to our Banks the credit of that house to the amount of one million, if needed, as a fund to draw upon, so as to obviate the possible necessity of shipping specie. It is believed, however, that the shipments of grain and flour will be to an extent amply sufficient to cover all the exchange required; and that the offering of the Messrs. Baring, by their agent will not be acted upon. It will remain as a stand by in case of unforeseen circumstances.

GREAT FIRE AT MOBILE.

Extract from a letter dated Mobile, October 8:

I have only a moment to write, and to say, that last night we had a fire, which burned as follows.

The square between Conte and Dauphin, St. Manuel and Conception streets, except the corner of Tom Reed, the baker.

The brick buildings adjoining the two squares, between Conte and Dauphin st. to Hamilton st. are burnt.

The squares between Conception and Hamilton sts. from Dauphin to St. Francis sts. are also burnt.

The squares between St. Francis and St. Michael sts., from Joskin streets to the Methodist Church are burned, and many others; the whole number, say 400. This has been the largest fire I ever saw. The centre of the town is all destroyed, and a few fine buildings, and a great many not worth mentioning.

THE MEETING AND RIOT AT TORONTO.

From the Toronto Commercial Herald of the 17th received by yesterday's mail, we extract the following account of the meeting in Yonge Street, Toronto, some particulars of which we gave in our last on the authority of the Examiner and the Christian Guardian. There is a great difference between the ac-

counts, but we incline to believe that the Herald is the nearest the truth.

That such a meeting should take place and be attended only by their own partisans, would have been deemed a triumph of Durhamism, and inflated accounts of it would have been trumpeted throughout every part of the United Kingdom, and have given a false expression of the opinions of the people of Canada to our fellow subjects in Great Britain. To prevent this, it was deemed necessary that the loyalists should be present at the meeting, and on the morning about 9 o'clock the City was a scene of unusual activity; about thirty waggons filled with the citizens, many carriages and a great number on horseback left the Market Square in a body, with about thirty British flags of various descriptions. At the appointed place they were met by others from all parts of the District. They arrived there at about eleven o'clock, and the Sheriff having ascended the platform, addressed the meeting on the subject of choosing a chairman, but it was agreed by both parties that they should wait until twelve o'clock, as they expected many more of their friends then. Captain Stewart moved, and Benj. Thorne, Esq. seconded, on the part of the Conservatives, that Francis Boyd, Esq., of Yonge Street, should take the Chair, the Durhamite nomination being Lieut. Steele, R. N. A division then took place, which was decided in favor of Mr. Boyd, the majority being, as we are informed by the best judges, about three to two in his favor.

This, however, did not satisfy the Durhamites, and they insisted on Dr. Fullerton taking the chair, but finding that the meeting would not allow it, they proceeded to elect a platform on a wagon immediately opposite. This gave umbrage to some of the conservative party, and they proceeded to take the platform down, and turn over the wagon, on which it had been placed. At this instant they were assailed by a shower of sticks and stones, and a fight commenced—the assailed, finding themselves unprepared, tore down a fence about twenty rods long and furnished themselves with sticks, with which they drove the belligerent party of Durhamites from the field, pursuing them for two miles, some accounts say a longer distance. While this was going on among those blessed with a large portion of the bump of combativeness, those who were content with warbling their tongues, crowded round the hustings. The following resolutions were then put and carried:

1st.—Moved by Henry Fry, Esq. and seconded by Richard Gapper, Esq.

Resolved—That it is with the deepest concern that the loyal subjects of Her Majesty in this district, have observed the attempts making by a particular class of persons, to renew political discussions on questions that have heretofore produced the most disastrous results to the peace and prosperity of the whole Province; and which, if successful, must in the opinion of this meeting, eventually lead to dissensions that can be followed by no other consequences than the revival of past disagreements, which it should be the earnest desire of every good man to bury in oblivion.

2nd. Moved by W. R. Robinson, Esq., M. P., and seconded by John Barwick, Esq.

Resolved—That it is the opinion of this meeting that the Report on the state of this Province, promulgated by the Earl of Durham, is inaccurate in its details and unsound in its conclusions, that it abounds with misrepresentations of the opinions and condition of the loyal people of this colony, that it is calculated to produce the most serious impressions of their political and social condition, and that its recommendation of changes in its constitution, and the system by which its government is to be conducted, is wholly repugnant and contrary to the wishes of a great majority of those who desire to perpetuate their connection with the parent state, they being well convinced that should the recommendations of his Lordship be adopted and acted upon, the dissolution of that connexion at no distant day is inevitable.

3rd. Moved by Col. Dawson, and seconded by Thomas Kinneear, Esq.

Resolved—That in the opinion of this meeting, the bill proposed for the Union of the Provinces, and the future government thereof, contains provisions that never can receive the approbation or concurrence of the people to be affected by them, and that the loyal inhabitants of the colony be earnestly advised to use their utmost efforts to procure the rejection of a measure so hostile to their future interests.

4th. Moved by Larat Smith, Esq. and seconded by John Dawson, Esq.

Resolved—That a petition to Her Majesty, embodying the opinions expressed in the foregoing resolutions, be drafted and circulated for signatures throughout the district, and that the same be presented to His Excellency the Lieutenant Governor, with a desire that he shall transmit the same to Her Majesty's Secretary of State for the Colonies, with the request that it be laid at the feet of the Throne; and that a similar petition be circulated for signatures, to be presented to the different branches of the Provincial Legislature, at the next session, and that W. R. Robinson, J. W. Gamble, H. Fry, and Thos. Kinneear, Esquires, Mr. Sheriff Jarvis and Capt. Stewart, be a committee for that purpose.

5th. Moved by Arthur Carthew, Esq. and seconded by Thos. Henderson, Esq.

Resolved—That it is with deep concern and regret that the loyal people of this district have heard that His Excellency Lieut. General Sir John Colborne, a man endeared to them by his public services, as well as private worth, is to be removed from the government of these colonies; and that in their opinion the removal of that distinguished officer at this crisis in the affairs of the country, is as unavailing as regards the interests of the Crown, as it is contrary to the wishes of the people.

FRANCIS BOYD, Chairman.
ARAD SHERRELY, Secretary.

As might be expected, many on both sides went home cooler than they came, some with broken heads, and some with bruises. One man had his eye broken by a stone from the hand of a gentle Durhamite; another whom we saw had swelling on his back as big as our two fists, also caused by a stone; Mr. Wm. Robinson, M. P., was struck by a Durhamite on the head with a large stick, and his wound bled profusely; and more melancholy still, one responsible gentleman got a blow which made him fall from his wagon, and the horses immediately afterwards starting off, his own wagon went over his neck. He was taken to Mr. Finch's tavern, but it is more than probable he is now dead.

This has this meeting terminated—we forbear in pity from exposing the ridiculous antics of several of the deluded wretches who figured on this day. We had formed our opinion before, and this occasion has only tended to confirm it—that those persons who are now talking so loudly about Reform want no reform, but are seeking to plunge us into greater anarchy and misery than that we now endure. The blood spilt on this day, and the life of the unfortunate man above mentioned, lie at their doors. Let them look to it.

TORONTO RACES.—The Races were yesterday (16th inst.) attended by a select party of Turfites, who were favored with a most delightful day, and as good racing as has ever been our luck to witness. The County Plate (Gentlemen riders) was won by Mr. Crawford's ch. h. Tom Kibble, in three very severe heats, one of them a dead heat, with Shillalagh. Mr. Yarker's chestnut filly won the match for £50 aside against Mr. Barnard's Mavourneen, rather easy.

Our worthy and most esteemed late Governor General, the gallant and war worn veteran, Lieutenant General Sir JOHN COLBORNE, takes his departure from the shores of Canada this day, at 11 o'clock, in Her Majesty's ship *Pique*. We cannot allow this most estimable of the Queen's servants to leave this country without again expressing our admiration of the manner in which he has administered the Government of these Provinces, under circumstances peculiarly trying and difficult.

We have the pleasure of publishing the following Address from the St. George's Society of Quebec, which is creditable alike to the body from which it emanates, and the worthy personage to whom it is directed. It was presented this day at 10 o'clock, by the President of the Society, William Patton, Esq., accompanied by a number of the members, who were received with much cordiality.

To His Excellency Lieutenant General Sir John Colborne, Knight Grand Cross of the Most Honorable Military Order of the Bath, &c. &c.

MAY IT PLEASE YOUR EXCELLENCY,

We, Her Majesty's faithful and loyal subjects, members of the St. George's Society of Quebec, (instituted for charitable purposes) on the roll of which we have the honor of bear-

ing your Excellency's name as Honorary Member, desire to approach Your Excellency, and to express the high sense we entertain of the great and important services which, under Divine Providence, have been rendered to Her Majesty's loyal subjects during the trying periods of your administration of the Government of this Province.

We also desire to convey to Your Excellency our deep regret at the loss which this Province is about to suffer by Your Excellency's retirement from the country.

Our consolation is, that Canada will have near the Throne, in the person of Your Excellency, one of its firmest friends; and we sincerely hope that Your Excellency may receive at the hands of Our Most Gracious Sovereign, those honours which belong to the most distinguished of the servants of the Crown.

That Your Excellency, Lady Colborne and family, may long enjoy the blessings of health and happiness, and find a prosperous passage to our native land, is the sincere prayer of Your Excellency's faithful and devoted servants.

To this Address His Excellency made the following Reply:—

GENTLEMEN,

On the eve of my embarkation for this port, I receive with great satisfaction the address from the members of a Society instituted for the purposes of charity and beneficence for their loyalty. I beg to assure you in bidding farewell to British North America, that I shall ever cherish the kind feelings which have been evinced towards me by you, the St. George's Society of Quebec, and by the numerous classes of Her Majesty's loyal subjects in both Provinces who have honored me with so many affectionate addresses on the occasion of my departure, and I shall be glad to pronounce as far as I may be able, the future welfare of the Colonies. I thank you for your good wishes towards myself, Lady Colborne and family. Gentlemen, farewell!

Addresses have also been presented to Sir John Colborne from the Magistrates and the Committee of Trade of Quebec, and from the Clergy, Gentry and Freeholders of Nicolet.

An Address from the inhabitants of Nicolet was presented this morning to Sir John Colborne, by Grant Powell, Esq., Mayor of that city, and T. Carraze, Esq., a gentleman of Quebec for that purpose. These gentlemen leave on their return, on Friday next.

His Excellency leaves Payne's Hotel a eleven o'clock this day, and we understand that the *Pique* sails at 2 P. M.

His Excellency the Governor General, Sir John Colborne, attended Divine Services in the Cathedral Church on Sunday.

On Monday, at one o'clock, His Excellency the Governor General held a *Levee* at the Castle of St. Lewis which was very numerously attended.

Yesterday, at noon, LADY COLBORNE and family arrived from Montreal, in the steamer Canadian Eagle, Colonel Rowan and Lady, and Dr. Skey, Inspector of Hospitals, were also passengers.

His Excellency the Right Honorable C. Poulett Thomson, Governor General, embarked yesterday at five o'clock on board the *Steano Canada*; but the boat did not start for Montreal until four o'clock this morning. We understand that His Excellency will remain some time in the sister city, and that his proceeding to Upper Canada, this season, is not yet finally determined upon.—*Mercury*.

Colonel Mudge, R. E., and Mr. Featherstonhaugh, the North Eastern Boundary Commissioners, arrived here on Monday, at 3 P. M., and took up their quarters at the Albion Hotel. They were accompanied by Mr. Featherstonhaugh, jun. and Mr. Hansard.

A beautiful ship, named *Huron*, measuring 450 tons, with an extremely well executed figure-head, representing a Huron Chief, was on Monday evening, launched from the ship yard of Mr. Thos. Oliver, St. Roch.

ADDRESS OF THE MOST EXCELLENCY

To His Excellency CHARLES POULETT THOMSON, Her Majesty's Most Gracious Governor General, and Captain in Chief in and Commander in Chief of the Lower Canada, Scotland, New Brunswick, and Prince Edward Island.

ADDRESS OF THE MERCHANTS OF QUEBEC TO THE RIGHT HONBLE. C. POTTERTON THOMSON.

To His Excellency The Right Honorable CHARLES POTTERTON THOMSON, one of Her Majesty's Most Honorable Privy Council, Governor General of British North America, and Captain General and Governor in Chief in and over the Provinces of Lower Canada, and Upper Canada, Nova Scotia, New Brunswick, and the Island of Prince Edward, and Vice Admiral of the same.

MAY IT PLEASE YOUR EXCELLENCY, We the undersigned, composing the Committee of Trade of Quebec, beg leave respectfully to congratulate Your Excellency upon your arrival in these Colonies.

Merchants ours lives, and representing the Mercantile community of this City, beg to assure You of Your Excellency, with our full and cordial approbation, that we see the Government of the Country entrusted to one who has been a Merchant, and notwithstanding that the opinions of our countrymen are divided, we have never doubted but that from the moment of your undertaking the Government of these Colonies, your strenuous and unbiased efforts would be directed to the promotion of their interests Commercial as well as political. We are fully persuaded that the withdrawing of that protection hitherto afforded to the Trade of the British North American Colonies, would be, not only fatal to their prosperity, by destroying their most staple trade, and weakening the bonds that now happily unite them to the Mother Country, but also highly injurious to the Empire at large. We therefore confidently hope that when Your Excellency's mind shall have been more particularly applied to this subject, you will be satisfied that it involves the question of supporting or abandoning those important elements of national strength and greatness, "Ships, Colonies and Commerce."

The undertaking in which Your Excellency has engaged is a great and arduous one. To establish permanent tranquillity, and a just, firm, and steady system of Government in the Country;—to draw forth and develop its great latent resources by promoting the improvement of those extraordinary natural facilities for internal communication which it possesses;—to revive and encourage its drooping Agriculture, to extend and protect its languishing Commerce;—and to recall to its shores the tide of emigration now diverted to other channels; are tasks not to be accomplished without encountering many difficulties.

That those difficulties may be overcome under Your Excellency's administration we most sincerely pray, and to every measure of Your Excellency tending to this great end, we beg respectfully, on behalf of ourselves and those whom we have the honor to represent, to tender you our unreserved and cordial support and co-operation.

To which His Excellency was pleased to give the following Answer:—

GENTLEMEN,—I thank you sincerely for your Address. Bred a British Merchant myself, the good opinion of those who follow the same honorable career is to me naturally and justly dear. You may rely upon my attention to the great interests you represent.—Whatever acquaintance with Commercial subjects I may have acquired by my early pursuits, or through my later duties, will be earnestly and zealously devoted to the consideration of all that relates to the Trade of these Colonies, and with an honest endeavour to promote their prosperity as connected with that of the British Empire.

I feel with you that the undertaking before me is most arduous; but the end proposed is a noble one. These Provinces possess an almost unrivalled field for Commerce and for Industry; all the elements of wealth and prosperity. Their advance is checked and their development impeded by causes which, I sincerely believe, it is in your power to remove. The Imperial Legislature and Her Majesty's Government are most anxious to do their part towards this important object; and if your hearty co-operation with me, I feel the utmost confidence that our labours will not be vain.

To that end, and the advancement of every object that may contribute to the tranquillity and happiness of these possessions of the British Crown, all my efforts will be devoted.

THE QUEBEC TRANSCRIPT.

FOR PUBLIC CONSIDERATION.

IN no instance has prevalent infestation been productive of more deplorable consequences, than the blind concession that the members of the medical profession alone are competent to administer remedies for disease. The general consequence which is given to this preposterous pretension of an interested class, is one of the most prolific sources of disease, suffering, and early death. How many thousands of persons there are, at the moment surrendering their constitutions to the insidious attacks of almost every variety of human malady, from their reluctance to incur the expense of consulting a physician, and from their silly prejudice against the most simple medicines, unless sanctioned by the mystic authority of a pretentiously learned prescription! If they could see that prescription in plain English, they would find, or at least surmise, that it would be but a good and simple remedy, and a simple remedy like this is eternally efficacious. But the druggist keeps the prescription, and when the patient gets ill again he has again to consult the physician, instead of procuring for himself, at a mere fraction of the original expense, the wonderful remedy which he had refused to buy. It is that a majority of the population of every civilized country suffer disease to work its ruinous way into their system, because the what they derive from medical aid is at once expensive, ineffectual, and often attended with serious and sometimes fatal consequences, and that a majority of the population of every civilized country suffer disease to work its ruinous way into their system, because the what they derive from medical aid is at once expensive, ineffectual, and often attended with serious and sometimes fatal consequences, and that a majority of the population of every civilized country suffer disease to work its ruinous way into their system, because the what they derive from medical aid is at once expensive, ineffectual, and often attended with serious and sometimes fatal consequences.

THE PRECIOUS REPUTATION OF THESE MEDICINES being firmly established upon the basis of innumerable facts, it only remains necessary to inform persons who are unacquainted with them, of the nature among the multitude of maladies in which they have repeatedly proved successful, and in which, therefore, it may confidently be presumed they will succeed hereafter. 1. Dyspepsia, both chronic and casual, under the worst symptoms of restlessness and pain, flatulency, head-ache, nausea, loss of appetite, heart-burn, costiveness, bilious sallowness, general debility and wasting away of the body. 2. Diarrhoea, whether frequent, mucous, serous, large, ferrous, bilious, or tubular. 3. Jaundice, both biliary and spasmodic, hepatic, infantile, and of the dark green variety. 4. Helminthia, or worms, both alive and anal, and of every variety, from the large tape and joint worms to the minute larvae of the stomach and rectum. 5. Piles, of the blind, the bleeding, the white and the caruncular varieties. 6. Costiveness, whether arising from constipation or obstruction, and of howsoever long standing. 7. Colic, the diarr. the painters', and the constipated, the constructive, and flatulent. 8. Coughs, the common or humid cough, and the dry and the whooping cough. 9. Asthma, the nervous or dry and common or humid. 10. The Breast pain, acute and chronic; and also Pleuritis, or chronic pain in the side. 11. The Daily Fever, whether of the mild, the acute, or the sweating variety. 12. Fever and Ague. 13. Influenza, in any stage. 14. Dysentery, acute and chronic. 15. Rheumatism, acute and chronic, together with gonorrhoea, or gout. 16. Marasmus, whether as general atrophy or loss of flesh, or pulmonary decline and consumption, if taken before cavities have been formed in the lungs. 17. Scrophula—singularly and rapidly efficacious even in the worst cases. 18. Scoury. 19. Hypochondriasis, and all other nervous affections. 20. Spasmodic Palpitation, of the heart and of the arteries. 21. Head-ache.

It is evident, therefore, that these medicines are compounded of ingredients which act upon the system universally, and got mere aliole preparations. They act without causing pain, or producing any prostration of nervous energy, but on the contrary, strengthen, invigorate and enliven, from the first day's experience of their operation, the period of convalescence. Directions sufficient accompany them.

All post paid letters will receive immediate attention. Sole wholesale and retail by WM. B. MOFFAT, 367 Broadway, N.Y. A liberal deduction made to those who purchase to sell again.

THE HUMAN HAIR.

WHERE the hair is observed to be growing thin, nothing can be more preposterous than the use of oils, grease or any fatty matters. Their application can only be recommended through the grossest ignorance, as they hasten the fall of the hair, by increasing the relaxation of the skin. When there is a harsh, dry, or contracted skin, and here the small blood vessels which carry nourishment to the bulb are obstructed, then the oils, &c. may be good, as they tend to relax the skin; but alone they are of no avail. There must be a stimulus to rouse the vessels from their torpor, and quicken the current of the blood.—Extract from Ciro's Treatise on the Hair.
THE HAIR OF COLUMBIA is the only preparation that can have that effect, being entirely free from any oily substance.

A CASE IN POINT. I had unfortunately lost nearly all the hair from the top of my head, when I commenced the use of the Balm of Columbia, and have, by the use of two bottles and my head covered with a fine growth of Hair.—There can be no mistake in the matter, as any of my friends can see by calling on me. I had also become quite gray, but had the gray hairs plucked out, and it has grown in as the Balm says of the natural colour. If any body doubts these facts, let them call upon me and see. I bought the Balm of Columbia of C. & Co., Fitchburg Street.
