**The Cloud.**  
BY DR. FRANK CRANE.  
Over the sky of the world is a black cloud. It shadows lies upon every soul. Brave men b'neath its hideous lightnings. Women cringe at its ominous thunders.  
The unbelievable has come true. The impossible has happened. The frightful fact has outrun imagination.  
The great War is the largest spiritual increment of the minds of men to-day. It is in the back of every brain. It sleeps in every soul. It leaps at the hour of the morning papers.

**Parcels for War Prisoners.**  
In coordination with the new scheme instituted by the British Government all parcels from Canada to Officer Prisoners of War interned in Germany or Austria-Hungary containing foodstuffs, on and after January 1st, 1918 can only be accepted for onward transmission by the Post Office Service if they bear a 'coupon' issued by the Prisoners of War Department, Canadian Red Cross Society, London, England.  
Under the new arrangement the parcels of foodstuffs which may be sent to these prisoners must not exceed one hundred pounds. Of this total the Prisoners of War Department of the Canadian Red Cross will send to each interned Canadian Officer, including those attached to other Canadian units, not less than six ten pound parcels each four weeks. The remaining forty pounds of foodstuffs per four weeks may be sent personally by relatives in Canada, but each parcel must bear a coupon which can be obtained on application from the Prisoners of War Department, Canadian Red Cross Society, London, England.  
The right to send food parcels to an Officer Prisoner of War rests with the next of kin, but may be transferred by the latter or by the Prisoner of War himself to any person. It is inadvisable that application should be made to the Prisoners of War Department, Canadian Red Cross Society, London, England, for the necessary coupons for parcels packed personally at the earliest possible moment.

**Rheumatism Cured.**  
In the days of our fathers and grandfathers rheumatism was thought to be the unavoidable penalty of middle life and old age. Almost every elderly person had rheumatism, as well as many young people. Medical science did not understand the trouble—did not know that it was rooted in the blood. It was thought that rheumatism was the mere effect of exposure to cold and damp, and it was treated with blisters and not applications, which sometimes gave temporary relief, but did not cure the trouble.

**Fair Play for the Sparrow.**  
To the Editor of THE ACADIAN:  
DEAR SIR.—As a lover of birds and a friend of the English sparrow, having fed them daily since coming to Wolfville, and recognizing that some misinformed person or persons are destroying them as every winter, they are growing less, I would be pleased if you would kindly print the following (copied from Country Life September 1917) in your paper:  
When the Department of Agriculture, some of the Adirondic species, various bird clubs, and village improvement organizations not only encourage the slaughter of this dirty, annoying, ubiquitous feathered inmate, but the ways of our sparrows traps are being manufactured wholesale, and many boys are encouraged to train their guns against the defenceless sparrow. It would seem rather late, perhaps, to give the mute animal at the bat another trial.  
Some learned men in Washington, where, are not a tad off with the evidence of the verdict.  
It has been said the sparrow drives away the song birds. Yes, it often does, to the next neighbor, perhaps, but not permanently; certainly not out of the country, and not even a yard away, where real effort is made to attract more desirable visitors by means of fresh water for drinking and bathing, a tall lunch counter, regularly and reliably supplied in winter and plenty of nesting places and sleeping sites.  
Sparrows kill no birds. In England there are many more songsters to a given area than in America. Our birds are leopards to shoot themselves. The ways of these foreigners in their midst, just as happily as we humans have had to learn to live peacefully with Jews, Italians, Slavs and many other European immigrants whose virtues were not at first appreciated. English sparrows were first imported to rid New York and Brooklyn of the inch worm, which they did promptly and effectively.  
Now that they are overrunning our country from ocean to ocean, they are

**WOMAN AVOIDS OPERATION**  
Medicine Which Made Surgeon's Work Unnecessary.  
"I was feeling ill and took all kinds of tonics. I was getting worse every day. I had chills, my head would ache, I was always tired, I could not walk straight because of the pain in my back and I had pain in my stomach. I went to a doctor and he said I must go under an operation, but I did not go. I read in the paper about Lydia E. Pinkham's Vegetable Compound and I knew nothing would help me but I will try this. I found myself improving from the very first bottle, and in two weeks time I was able to sit down and eat a hearty breakfast with my husband, which I had not done for two years. I am now in the best of health and did not have the operation."—Mrs. JOHN A. KOSING, 602 Flushing Avenue, Astoria, N. Y.  
Every one dreads the surgeon's knife and the operating table. Sometimes nothing else will do, but many times doctors say they are necessary when they are not. Letter after letter comes to the Pinkham Laboratory, telling how operations were advised and were not performed, or if performed, did no good, but Lydia E. Pinkham's Vegetable Compound was used and good health followed.  
If you want advice write to Lydia E. Pinkham Medicine Co. (Confidential), Lynn, Mass.

THE ACADIAN.

WOLFVILLE, N.S., NOV. 23, 1917.

Editorial Brevities.

A very gracious thing it was for Sir Robert Leard Borden, after he had attained the highest position in his native land, to choose to represent his home county in parliament.

A Grand Medicine For Little Ones.

Baby's Own Tablets are a grand medicine for little ones. They are a mild but thorough laxative, are absolutely safe, easy to give and never fail to cure any of the minor ills of little ones.

A Nova Scotian in Saskatoon.

A well known Saskatoon citizen, is Mr. Ritter, who was born Nov. 2nd, 1876, in Hants county, N.S., and is not inclined to blame that province.

Another Wolfville Hero.

Our town was saddened on Saturday last when the news came that another Wolfville boy, Capt. L. C. Eaton, son of Mr. and Mrs. L. H. Eaton, had made the supreme sacrifice.

The Boy Scouts.

All Scouts are requested to meet at the Club Room promptly at 6 45 this evening. Those who take part in the singing will march to Mrs. Woodman's for a rehearsal.

NOTICE!

Those indebted to the Town of Wolfville for rates and taxes are requested to settle or make satisfactory arrangements on or before Nov. 30th., 1917.

A Visitor's View.

We have received the following article from a visitor to Wolfville, and an admirer of Nova Scotia and of the people that it has been our correspondent's privilege to meet:

"ONE KING, ONE FLAG, BRITONS HOLD YOUR OWN"

The time has arrived when the people comprising Britain's Empire, are not only abetting their life's blood for the maintenance of our noble heritage of free government, but when all its members must speak out for the Empire's good.

Colonial sons have cheerfully and willingly given their lives for King, Empire and Flag. To the surviving veterans must be theirs to see that what they fought for stands firm forever.

The approaching general election is a period in Canada's history when the principle of unity may mean much indeed. The chief point of controversy between the Liberal and Conservative parties is the issue of the Dominion's future.

Canada is Selling Victory Bonds

To Help the Allies To Finish the War To Encourage Italy To Discourage Germany AND To Buy Prosperity for Herself.

Here is your chance to "Do Something" for your country. Will You?

SPACE DONATED BY R. E. HARRIS & SONS. Two Telephones: 115-11 and 16.

Canada has recognized this clearly and joined the Borden Cabinet, thus forming a Unionist Government to maintain the safety of the Dominion of Canada's homes and the Empire in this hour of trial.

The People's Forum.

DEAR SIR.—It might be interesting to know just what some of the members of our town would think of a man who would make such a statement as this: "It is ridiculous for the government to send more of our manhood to France to be slaughtered as so many others have been."

Mail Contract

SEPARATE SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon on Friday, the 30th November, for the conveyance of His Majesty's Mails, six times per week, between Arisaig and Westport, Cambridge Station and Kinsman's Corner, and over Kenville No. 3 Rural Mail Route, and twice per week between Baxter's Harbour and Canning, under a proposed contract for four years, dating from the 1st of January next.

Personal Mention.

Contributions to this department will be gladly received. Miss Gertrude Borden, of the Sackville Ladies School Musical Staff, spent last Sunday in town.

**Memorial Service.**

Memorial services in honor of Miss Elizabeth Pratt and Corporal R. C. Borden were held in St. John's church last Sunday at 8 a. m. and 11 a. m., consisting of two celebrations of the Holy Communion and Matins, at which latter service the rector preached from the words, "Thou wilt show us the path of life, in thy presence is fulness of joy; at thy right hand there are pleasures for evermore."

At the conclusion of the sermon Mr. Dixon referred as follows to the departed members of the congregation: "By a curious and tragic coincidence we are assembled to-day to do honor to the memory of two valued members of this congregation, one in the first fine flower of early manhood, the second, though further advanced, with many years of earth life apparently before her."

Elizabeth Pratt, now translated to the Paradise of God, was born in Paradise, Nova Scotia, and came in early life with her parents to Wolfville, where the whole of her subsequent life here was spent. She was for many years an active and honored member of this congregation, a Sunday school teacher, a member of the Woman's Auxiliary, a devout and regular communicant and a ready helper in all parish work. A dear and valued friend, I regret her departure as a personal loss. It is hardly necessary for me to dwell upon her many admirable qualities, which were well known and deeply appreciated by everybody who enjoyed the privilege of her acquaintance. Our departed sister possessed those virtues which shine most radiantly in the home life, the guiding principle of which may be summed up in those well known lines:

"The common round, the trivial task, Will furnish all I need to ask; Room to deny myself, a room That leads me nearer to my God."

Of kindly, gentle, modest and unassuming manners, cheerful and patient in the long sickness which darkened her last days here on earth, steadfast and brave under the burden of increasing infirmities, she typified in her bearing and character the Christian gentle woman.

Robert Clarence Borden, youngest son of Clarence and Cora Borden, was born in Wolfville, 1897. He attended the Public and High Schools of this town and entered the University in 1913 and had started on his third year at College when he enlisted in 219th Battalion, in which he was promoted to the rank of sergeant. He later on joined the 85th as private and went to England in October, 1917, and to France in February, where he was promoted corporal on the field and killed in action October 30th. I had known him intimately for the whole of his life, had baptized him, taught him in the Sunday school, prepared him for confirmation and given him his first Communion. Our memories of Robert are of the pleasantest kind—of a bright, frank, engaging, manly, straightforward, clean living young Canadian, whom to know was to like and trust. Growing up as he did from childhood to boyhood, and from boyhood to early manhood under my eye, I had learned to love him as a son. Seldom a day passed but we met and I had responded regularly with him ever since he left Canada. By permission of his family I give you an extract from the last letter received from him, which I am sure will touch the hearts of every one here:

**Worth Protecting**

A good article is worthy of a good package. A rich, strong, delicious tea like Red Rose is worth putting into a sealed package to keep it fresh and good.

A cheap, common tea is hardly worth taking care of and is usually sold in bulk.

Red Rose is always sold in the sealed package which keeps it good.

**L. W. SLEEP.**

"This morning we had a very impressive church service, in the open course. Our chaplain, Capt. Clarke, preached his usual short and effective sermon. After the regular service there was a Communion service for those who desired it. I stayed and it was indeed impressive, so simple and plain, as these services must be under the conditions, and I believe that this homeliness and simplicity is the charm of it all. I hear now the beautiful bells of a cathedral close by. It is indeed a treat to hear bells like these, speaking of quietness and peace. As each Sunday morning comes round my mind invariably travels back to our little church at home, which to me will always be a place of reverence and sacred associations. I can see it now, just as I saw it last, up there on the hill and with it Mr. Dixon."

So he has passed on and out. It's bright, pure, ardent young soul to the life eternal.

"Where loyal hearts and true Stand ever in the light; All rapture through and through In God's most holy sight."

I take this opportunity of making further mention of others on our Roll of Honor, who have given their lives for the great cause, although they have already been referred to in this church.

Kenneth Cameron Dixon, born in Wolfville September 17th, 1893, and christened by my predecessor, Rev. K. C. Hind, son of the late Mr. F. A. and Mrs. Alice Dixon. He removed with his mother some years ago to New York, and at an early period of the war enlisted in the Canadian contingent and was killed in action last year. I have agreeable memories of him as a sturdy little boy of pleasing manners. He was a member for several years of our Sunday school.

Chester Dakin, a former member of our Sunday school, a kind hearted, industrious boy, with many friends in the town. He enlisted last year in 219th and was killed in action in the summer of this year. Son of Mr. and Mrs. Thomas Dakin, of Wolfville.

Bernard Housefull, a young Englishman, a communicant of this church, and who worked for several months with Mr. Robert Harvey, killed early in the year, a steady industrious lad, respectable parentage.

To these I would add the name of Walter Lenn, whose father is a member of this congregation, but who was not himself connected with this parish. A remarkably well mannered young man, who possessed the esteem of the whole community.

Of these and of the tens of thousands of kindred spirits who have given themselves for the cause and for us we may say: "He that loseth his life shall gain it." Their loss is momentary and regrettable, their gain eternal and immeasurable. They have left a world wherein they had a few fleeting joys, a few pleasures which perished with the using, a few interests and employments which ended upon eternal joys and activities. With them is "fulness of joy and pleasures forever more." Not more glimpses, visions and states, but

alization full, complete, perfect. Of these young heroes whom we commemorate to-day, and all their fellows who have fallen in this same cause we may say:

"Those who with fame eternal Their own dear land endowed, Put on it us as a monument."

The shade of Death's dark cloud, But diving thus they died not On whom is glory shed, By virtue which exalts them Above all others dead."

"And into thy hands, O Lord, we commend their spirits. For thou hast redeemed them, O Lord, thou God of truth! Keep them, O Lord, as the apple of the eye. Hide them under the shadow of thy wings."

# SEVEN YEARS TORTURE

Nothing Helped Him Until He Took "FRUIT-A-LIVES"

**ALBERT VARNER**  
Buckingham, Ont., May 28, 1915.  
For seven years, I suffered terribly from Severe Headaches and Indigestion. I had belching gas from the stomach, bitter stuff would come up into my mouth after eating, while at times I had nausea and vomiting, and had chronic Constipation. I went to several doctors and wrote to a specialist in Boston but without benefit. I tried many remedies but nothing did me good. Finally, a friend advised "Fruit-a-lives". I took this grand fruit medicine and it made me well. I am grateful to "Fruit-a-lives", and to everyone who has misdegraded health with Constipation and Indigestion and Bad Stomach. I say take "Fruit-a-lives" and you will get well!

## Prayer in War-Time.

Whatever the skeptical may think, those who have come closest into touch with war's destruction have been profoundly impressed by the effect of prayer. It does relieve and reassure the mind, it cleanses and encourages the soul and strengthens the individual to his task. Men go to battle calmer and braver because they feel at peace with their Maker, and the same psychology should apply to the nation that sends them. Making allowance for the cynical philosophy that would deny the efficacy of prayer or the concern of the Almighty in the petty politics of mankind, the spectacle of a nation on its knees, humbly acknowledging its debt to God, must be an inspiration. None need to apologize for praying and no loss can possibly attend a general supplication for favor in the sight of God.

Mrs. F. Clarke, Belmont, Mass., writes:—My baby had eczema on her ear. The sore was very bad and nothing seemed to do her much good. Hearing of the remarkable cures Dr. Chase's Ointment was making, we sent for some, and after the third application the sore began to heal. I am glad to say that it is quite well now and we give the credit to Dr. Chase's Ointment. We cannot recommend this preparation too highly!

# AUTOMOBILE SAVES MANY SITUATIONS

Many Important Uses on Farm—Not Merely a Plaything for Wealthy Farmer

Used rightly the automobile is a fine thing on the farm. It cannot be used for the same purpose as a Clydesdale horse, a mule or a fat pig, and it will not bring in a revenue in just the same way, but it has, however, a place of its own, and if used with the same judgment that one would expect to exercise with the other farm equipment in order to secure a reasonable income it will fill that place just as well as any one of the others. No doubt many people have the idea that the auto on the farm serves no purpose other than a plaything. This is not the correct view of the modern car.

## For Messages and Speed

It bears about the same relation to the general farm management and operations that the telephone bears to the home, and who for a moment would think of doing away with the great convenience? Certainly not the one who has been in touch with it and who knows and can appreciate its many phases of usefulness. So it is with the car. It is the quick-message work or the speed-up job where the auto comes in to do its part in the farm economy.

## When Teams are Busy

There are always more or less light jobs to be done, in order to accomplish successfully or to work out at a profit, must be done quickly. For instance, a horse might suddenly be undertaken. The teams are away or at work and would be too slow any day. What can be done? No waiting. But wait. What about the auto? And almost before you could think about hitching up a horse, the car is half-way toward the end of the journey. The auto has saved the situation.

## WHY THE UNEMPLOYED?

That feebleness is an important factor in unemployment is the conclusion of Glenn H. Johnson, who applied tests to a representative group of 197 unemployed men who applied for charity in Portland, Ore. He concludes that about one-fifth of the destitute men in cities are high-grade. A considerable inferior mentally to an ordinary group of successful men. He found there was no relation between weakness and intelligence. It is not that extreme stupidity did not seem to affect the intelligence level. His findings bear out the conclusions of other investigators, that many of the men who are "down and out" are not there because they have never been given a chance, but because they are inherently incapable of utilizing a chance given to them.

## COLDS AND SIDEWALKS

Exposure is Worst Cause of Lung Affections  
That a close relationship exists between colds and grip epidemics is asserted by Martin Nevins, M.D. Grip is due to germs, says Dr. Nevins, and germs are floating about in the air. We breathe them in by the nose or mouth. It is only when one gets another disturbance that the germs take to their system. Most frequently it is some kind of exposure—getting the feet wet—that lays the fortress open to them.

## CONCRETE ON THE FARM

Laying of Walks Around Farm Buildings a Convenience  
This has been called the age of concrete. The statement applies to the farm as elsewhere. Concrete floors and walls in a granary will keep out mice. Concrete floors in the stables will prevent the loss of the liquid manure and assist the farmer in the conservation of his fertility. Concrete is useful in curbing and covering the well to keep out dirt and disease. It can also be used for the floors of garages, which are rapidly increasing on farms. Other uses for concrete are numerous, but there is one purpose for which it is seldom used, i.e., laying a walk from the house to the barn. If a walk were provided from the house to the barn the farmer could come to the house without getting his feet muddy, which would be highly appreciated by the housewife.

## Girl's Statement Will Help Wolfville?

Here is the girl's own story: For years I had typhoid, a drunk hot water and vomitings. I drank hot water and olive oil by the gallon. Nothing helped until I tried buckthorn bark, glycerine, etc., as mixed in Adler's. ONE SPOONFUL helped me INSTANTLY. Because Adler's kushes the ENTIRE alimentary tract it relieves ANY CASH constipation, sour stomach or gas and prevents appendicitis. It has QUICKEST action of anything we ever sold.

## Fear For Foreign Trade

In the midst of the general exultation in Germany over the victories on the Isonzo and Riga fronts, and the demands for revision of the peace programme in accordance with the new war map, German business classes are beginning to obey the injunction to consider the commercial map as well as an increasing amount of attention is devoted by the newspapers to the growing difficulties of reestablishing German foreign trade after the war. Articles in serious newspapers, even on German views, are found almost every day in which it is pointed out that diplomatic breaks with China and Central and South America result, not only in being a source of embarrassment on account of the military importance of these nations, mean the loss of Germany's hard won commercial position in these markets, and increase the difficulties of the up hill fight to rebuild the foreign trade after the war.

# A SPORTING OFFER

E. P. R. Subscribes \$10,000,000 if the People of Canada Subscribe \$300,000,000 to Victory Loan.

"Since this war began," said Lord Shaughnessy at a great Victory Loan Campaign meeting in Montreal, "the Canadian Pacific Railway Company has invested up to the present time in loans and guarantees in one form and another to the Allied nations nearly \$70,000,000. Nevertheless we would be glad to subscribe to the Victory Loan up to \$5,000,000. But I will add a rider to that. If the people of Canada will make it \$300,000,000 (exclusive of the amount paid for by surrender of bonds of previous issues) as we have no doubt they will, the company will make their subscription \$10,000,000. This was at the close of an inspiring speech giving the reasons why the people of Canada should give their whole-hearted support to the loan. He spoke as follows: "I know that this large hall is crowded to its capacity with an army of earnest men and women who are filled with the determination that this Victory Loan of 1917 shall be the phenomenal success that it deserves to be, and, above all, they are determined that our great city of Montreal, the pecuniary city of Canada, the financial and commercial metropolis, and the fountain head of broad sentiment and cosmopolitan thought in the Dominion, shall give the amount required, not only for the honor and credit of the city itself, but for the example that will give to other sections of our good old province of Quebec that will always remain our Canadian confederation, contributing to the strength and prosperity of the Dominion, notwithstanding the criticism and resentment occasionally in evidence when the province is criticized, and, indeed, maligned, by many whose efforts it should be, as common citizens of the country, to understand and conciliate. "I know that this hall is now well entered on the fourth year of its duration, has imposed upon all the nations involved financial obligations of a character never experienced in the past, and, indeed, with all the resources of the world, that had never been anticipated, and each day that warfare continues, the obligations become more insistent and burdensome. The strain upon Britain has been particularly great, because, not only was she required to provide the funds necessary for her own purposes, but by reason of her outstanding position in the money world, she was compelled to assist in very large amounts some of the Allied nations less favored by nature. "The entrance of our great neighbor to the south into the war relieved, in some measure, the financial strain because it brought to the support of the Allies the financial strength of that great nation, but the people of the United States say, and very naturally, that 'while we are willing and indeed anxious to lend aid to the conduct of the war, we expect and require that, to the greatest possible extent, the money should be expended in our country.' It is a natural condition and one to which no reasonable objection can be urged. "CANADA naturally wishes to continue to participate in the business of supplying munitions, goods and produce of the soil to the Allied armies, and with all her resources, she has endeavored to her, there is only one process by which this can be accomplished. The country must itself provide the requisite means, and, fortunately, the country is amply able to do so. Heretofore the Minister of Finance has endeavored to secure domestic loans aggregating I think about \$150,000,000, in every instance the amount of the loan was over-subscribed, and, yet, unfortunately, the people of the country are not in a much better position to participate in these loans than they were in any previous time. After all, in taking up the loan, the Government is not only covering by Government war contracts, excepting such small amounts as it may be necessary to send abroad for raw materials, so that a very large portion of the funds back through one channel or another to the original source, and after a short lapse of time the bankers and the people will have this money to loan to the Government again should occasion arise; but meantime, the Government has safely put away his Government bond or bonds representing the amount of his subscription, a security of the highest possible class, carrying a rate of interest which applies to Government loans only in the present and which, after peace has come and normal conditions have been restored, should cause a substantial increase on its face value. "It is desirable beyond all things that a very large percentage of this Victory Loan should be subscribed by the people of the country generally, because it will be evidence of the spirit of patriotism that prevails throughout the country, and it will be a good thing for them financially. Corporations and wealthy individuals, however, with financial affairs will not be slow to reap the benefit of this opportunity. But they should not have too large a share of the loan. Every wage-earner, man or woman, though the land should be encouraged to sub-

## A PERSONAL EXPERIENCE

"It may not be out of place to mention an experience of my own. In the early days, nearly fifty years ago, when my salary was a modest one, but in excess of that received by most of the young fellows with whom I associated, the portion I felt justified in monthly paying which I felt justified in appropriating to my own use disappeared regularly and rapidly with nothing to show for it. I conceived the idea of calling on an acquaintance, the cashier of a private bank, to ask him if he would loan me \$100. The current rate of interest, against my notes in monthly amounts covering a period of six or eight months, was then particularly great, because managers were more considerate and confident than they are in these days. The notes were made and turned in, and \$100 in currency was handed to me which I immediately placed to my credit in the Savings Department. The cashier did not understand the novel transaction and asked the purpose. I told him that these notes would be personal obligations that I would meet each month as they became due, and that at the end of the period I would have a bank account of \$100 and so it worked out. The notes were met without causing any special inconvenience, and during the following years, during varying fortunes, that amount of \$100 never grew less. I do not know if there be anyone present to whom I owe money, he may be gratified to know that I still have it. "I should be co-incidental with the Dominion citizens activities, but there is no good reason why one should conflict with the other. We who are engaged in the present campaign are absolutely non-political in our motives and our methods. The appeal is made to citizens of Canada who are proud of their country without reference to their political leanings or their views upon any of the subjects of the day. I am sure that the people of the country without regard to politics, most or nationalistic, would in any circumstances wish to show their pride in Canada and their devotion to her interests by meeting any demand that might be made upon them, even at considerable sacrifice. But in the present instance, the Victory Loan is a splendid thing from every business standpoint, because it provides the people of the country with a security of unquestioned integrity which will probably command a substantial premium in a short time after the cessation of the war, and that, in the meantime, gives an annual interest return upon the amount of the loan. The proceeds of the loan are thus made a sacred trust for the purpose named, and if any government that may be returned at the coming elections, whether it be Union, Liberal or Conservative, should divert a penny of the amount to be diverted to purposes other than those named, it would arouse the resentment of those of us who are here, and of our co-workers and contributors throughout the country, with the result that strong arms of the people of the country would come down on the offending government with such weight and vigor as to mean annihilation.

## ENTIRELY FOR THE WAR

"Some misapprehension has resulted from published newspaper statements to the effect that only a portion of the proceeds of the Victory Loan would be used for the purposes of the war. This was clearly an error, or oversight, because the proceeds on which the issue is based states in unequivocal terms that the entire proceeds of the Victory Loan will be expended in Canada. This is the pledge of the Dominion Government as well as of the Dominion people. "The proceeds of the loan are thus made a sacred trust for the purpose named, and if any government that may be returned at the coming elections, whether it be Union, Liberal or Conservative, should divert a penny of the amount to be diverted to purposes other than those named, it would arouse the resentment of those of us who are here, and of our co-workers and contributors throughout the country, with the result that strong arms of the people of the country would come down on the offending government with such weight and vigor as to mean annihilation.

# PROFITABLE SHEEP RAISING

There is not the least doubt that Western Canada is steadily building a reputation as a wool producing country. The opportunities afforded by the profitable breeding and rearing of sheep are unsurpassed in any part of the world. An abundance of suitable food of all kinds is available all over the country, while climatic and other conditions are exceedingly favorable. Almost any fine quality of wool can be raised successfully in the Prairie Provinces of Canada. On the range sheep breeding and rearing is an extremely profitable industry, especially in those districts where conditions are so well suited to ordinary agriculture.
