DR. PARKIN'S INAUGURAL.

His Salutation to the Boys of Upper Canada College. "Now boys, I am here as your new

principal, to welcome you back to work and to play." This was the salutation with which Dr. Parkin, the necently-appointed principal of Upper Canada College, greeted the crowd of bright-faced boys who filled the college assembly hall on Tuesday morning of last week. It was the opening of the term, and Dr. Parkin introduced himself to the pupils of the institution with a speech, in which he outlined the policy that he will pursue. Dr. Parkin entered

ion at the hands of the boys. "If you could see what I think about it myself," he went on, "you would find that The schoolmaster knows that when he tries to exact work from his boys he has to exact ten times as much from himself." Dr. Parkin gave expression to the delight that he felt in looking into the boy-ish faces before him. THE HERALD.

FREDERICTON, SEPTEMBER 21, 1895.

THE LOCAL OPPOSITION.

A few facts which have leaked out during the week, show that a condition of absolute chaos exists in the local opposition, not only in this, but other constituencies. The report comes from Kings, and seems to be believed, that Mr. Fowler, who headed the opposition ticket in that county in the last election, has withdrawn from the ranks of Dr. Stockton's supporters, and may seek a nomination from the government party. It is even announced that Mr. Fowler will run on a ticket with the Solicitor General and Mr. Scovil, and Mr. Fowler has not denied it.

We cannot wouch for the correctness of the reports, but we know that Mr. Fowler's detection is one of the things Dr. Stockton and his friends are fearing. If Mr. Fowler really does intend to cast in his lot with the government, it is excellent evidence that as a leading Orangeman and ex-provincial grand master of that order, Mr. Fowler believes there is nothing in the insane contentions of Pitts and his friends regarding the unfair administration of the school law in this province. Mr. Fowler has been one of the lawyers employed on behalf of the Orange association in the school investigations at Bathurst, and if after having seen and heard all that occurred, he reaches the couclusion that the government are blameless of the charges hurled against them, and are worthy of his support as an Orangeman, the fact will go far towards conciliating opponents of the government, who have been led to become such by placing confidence in the howlings of the Pitts gang. But where does it leave Pitts? Well, from what we can hear, the opposition managers in York have about settled that. There will be no room on the opposition ticket for Mr. Pitts. His friends are preparing to throw has already started on his canvas of the in his paper the back yard prattle of every

Our opposition friends in this county, as well as Mr. Fowler in Kings, therefore recognize the fact that no party in provincial politics can hope to be successful when its chief aim is the arousing of sectarian differences among the people. The holy war which such charlatans as Pitts attempted to work up, must soon spend itself, and is indeed, now no more, although spasmodic efforts may be made by its promoters to renew it, that there only claims for public notice may be kept fresh before the people.

NO LONGER DENIED.

Some weeks ago when The Herald announced that Mr. Foster had decided not to contest York county, a vigorous denial went up from all the government organs, big and little, but it is observed that no such denials are now made by Mr. Foster's friends. The Herald did not make the announcement without positive information, and now even those who contradicted the report are compelled to admit its correctness. Mr. Foster was in New Liunswick for over two months this summer, and yet he never showed his nose near Fredericton, so disgusted was he with the treatment he has received from the government party in this county. It is said that the first to sour on him among the party managers here was Mr. Gibson, who nominated Mr. Foster in the first instance, and that one by one the others fell into line with the Nashwaak king, and the Minister was firmly but politely told that he was not wanted in York. Of course no Tory candidate in this county could save his deposit without Mr. Gibson's support, and that gentleman is able to dictate to the party who shall be the candidate. Mr. Foster out of the race, the wirepullers are now looking towards Marysville to learn who the great magnate desires to fill the gap. Both Mr. Pinder and Mr. Pitts would be willing to accept up, but it is not likely Mr. Gibson will wink in the direction of either of these say, and Mr. Gibson ought to wink promptly that their anxiety may be re-

RETURNED TO JOURNALISM.

George E. Foster, Minister of Fi-

appears now to be no prospect of a compromise.

He was highly respected by all his action her visit to Queensbury.

The cholera has somewhat all the compromise.

MR. BECKWITH'S DISMISSAL.

Some of our opposition friends affect to

believe that the country is no longer safe because Mr. A. G. Beckwith has been relieved of his duties in the public works department. The government members, with the exception of some observations made by Hon. Mr. Emmerson to a Moncton reporter, have not spoken publicly of Mr. Beckwith down as easily as possible, but it must not be concluded from that

fact, that there is no defence of the Government's action. The charge is made that the dismissal was for political reasons, that there is no truth in the assertion.

to satisfactorily fill the position for which he was employed. stage, to go into the circumstances which suggested by the foregoing extracts. led up to Mr. Beckwith's dismissal, but if In the interest of all concerned, it will he and his friends force a discussion on the not be disputed that, if possible, the subpoint, we shall be prepared to furnish | ject of education should be exclusively

POETRY.

WHAT IS DANCING?

It's a keeping time to music

With a measured, rythmic grace, It's a huggin' of your best girl A little 'round the waist. It's a steppin' lightly this way,

And a whirlin' round and round. It's a sidlin' long of your best girl Scarce touchin' of the ground.

It's a singin' with the toes, It's a sighin' with the head, It's a flingin' out the heels When you'd oughter be to bed.

It's a switchin' off the dust From the other feller's coat, It' a bowin' low the head. Like a frisky Billy goat,

What is dancin' any way But the antics of a calf, Or the gambols of a donkey When he perpetrates a laugh? Oh yes! dancin' is a exercise

That tonics up the blood;

It sets the stomach workin', And liquidates the food. It's better than a plaster To strengthen up the back; It's the very thing we country folks

Have always had the lack.

So let's "go in" for dancin', With all our might and main. No matter if we have the rheumatiz'. Or if we're halt and lame.

SELECT STORY.

AN UNBROKEN PROMISE.

A CASTAWAY. PART III. CONTINUED.

CHAPTER XII. CORNERED.

"Vere is de Chairman? vere is de General Manager?" cried Mr. Bolckoff, with more gesticulation. "If you knew that, Mr. Bolckoff," said Mr. Dossetor, "you might have a chance

of getting back a portion of your ten thousand pounds. Mr. Parkinson, you seem to have taken the trouble to make enquiries in this matter; there is no doubt, levanted?"

"About Delabole not the slightest in the world," hissed Parkinson from behis mind of all this unreal fantasy, which

A GREAT MEDICINE.

Cod-liver Oil is useful beyond any praise it has ever won, and yet few are willing or can take it in its natural state. Scott's Emulsion of Cod-liver Oil is not offensive; it is al-

most palatable. Children like it. It is Cod-liver Oil made more effectual, and combined with the Hypophosphites its strengthening and flesh-forming powers are largely increased.

offering to the educated and intelligent public, the Facts! Facts!

IT is false economy to refuse a good article and accept a poor one because of the low price. All goods cost money to produce. The better the good the greater the cost. There are certain prices below which no good, henest materials can be tought. If you pay less, you get loss, no use dodging the fact. We always huy the best and sell the best, we don't believe in shoddy. We have just received one carload of STOVES and we consider them THE BEST in the market of their kind, and we invite the public to look them over if they are in want.

Farm for Sale. THE subscriber's Farm at 8t. Mary's, near the Railway Station, containing 500 acres, 100 of which are under cultivation.

There are two houses, barns and outbuildings on the premises, all in good repair.

For further particulars apply to JOHN A. EDWARDS.

F'ton, April 9, 1892. Coffee Pots.

WE have just received a lot of Coffee Pots, and after testing one ourselves in our own family, we are safe in recommending it and also in saying that there is no better way in the world of making coffee than by steaming it. By this process you secure all that is delicious and beneficial, and reject the rank, injuri us part. You can't spoil your coffee; no eggs are needed to settle it; the coffee cannot boil; all the fine aroma is retained.
